AIMS AND OBJECTIVES OF THE CONFERENCE

Chaudhary Charan Singh Haryana Agricultural University (CCSHAU), Hisar is one of the oldest and leading agricultural universities of the country that has made rapid strides and occupies a position of prominence among the agricultural universities of the country. The university is proud to have created a splendid infrastructure for education, research and extension in the fields of Agriculture, Agri-business, Agricultural Engineering & Technology, Community Science, Fisheries Science, Biotechnology and Basic Sciences & Humanities through its well-developed colleges, research stations and KVKs. The CCSHAU has been honoured with ICAR Sardar Patel Outstanding Institution Award twice during the year 1996 and 2016 in recognition to its contribution towards farming community and state economy. As United Nations is observing “International Year of Millets-2023”, CCSHAU has taken a step forward in organizing an international conference on “Strategies for global food and nutritional security, sustainability and wellness”. We would like to extend a warm welcome to researchers, academicians, policy-makers, officers, administrators, agripreneurs, students, agro-industry representatives, progressive farmers, NGOs and other stakeholders across the globe for participation and sharing their knowledge in this focused international conference. The conference aims at providing a platform for exchange of ideas with an objective to address the goals of global food and nutritional security and promoting sustainability in changing climatic scenario.

THEMATIC AREAS

- Millets for global nutritional security and well being
 - Conventional breeding, biotechnology, bio informatics, genetic engineering, phenomics, genomics and proteomics for crop improvement
 - Modelling, simulation tools and big data in agriculture research

 - Agri-technology transfer, impact assessment and farmer empowerment
 - Industry linkages and agri-business for food and nutritional security
 - Agriculturally important fauna, aquafarming and livestock for farm economy
 - Strategies for biotic and abiotic stress management in crop production and microbes in agriculture
-
- Mechanization, non-conventional energy resources and digitization for smart agriculture
 - Climate change, conservation agriculture, resource management and integrated farming for sustainable agriculture
 - Role of agriculture and allied education in food security
 - Natural and organic farming for wellness

ABOUT THE UNIVERSITY

Chaudhary Charan Singh Haryana Agricultural University located at Hisar in the Indian state of Haryana, named after India's seventh Prime Minister Chaudhary Charan Singh, is one of the biggest agricultural universities of Asia that has made a special niche at global level. The University is a leader

in agricultural research, in developing new technologies like conservation agriculture, direct seeded rice, herbicide resistance management for overall improvement in the crop productivity of the state. With the evolution of 283 varieties of various crops including cereals, pulses, oilseeds, fibre and sugar crops, vegetables and fruit crops, CCSHAU has been constantly upgrading itself by embracing new technologies and entering partnerships with premier national and international institutions. MoUs/agreements have been signed for collaboration with international institutes in USA, UK, Australia, Czech Republic, Poland, New Zealand, Philippines, Kazakhstan and Tanzania to pave the way for scientific and academic excellence. The University is contributing significantly towards achieving nutritional security, sustainability, wellness and is open for new partnerships in research, teaching and extension.

ABOUT THE CITY

Once known as Hisar-e-Firoza by its founder ruler Firoz Shah Tughlaq in the year 1354 AD with several historical buildings such as fort, palaces, tombs, mosques, gates and gardens. Some of the monuments are still in good state of preservation. It is situated 180 km west to the National Capital Delhi at NH 09 in the state of Haryana and it is well connected by rail/road with all the nearby major cities. The nearest airport is Indira Gandhi International Airport, New Delhi. Several educational institutions including reputed universities like CCS Haryana Agricultural University, Guru Jambheshwar University of Science & Technology and Lala Lajpat Rai University of Veterinary & Animal Sciences are established in Hisar apart from ICAR institutes like CIRB, NRC Equines and Northern Region Farm Machinery Training & Testing Institute. Around the Hisar city, ancient site of Rakhigarhi, one of the five known biggest townships of Harappan civilization on Indian sub-continent, and ancient site of Agroha, traditionally believed to be the Capital of the legendry king Maharaja Agrasena can be visited. Ever since, the Government's positive policies have played a vital role in the economic development of the city. The industrial policy of the government has attracted large number of entrepreneurs and presently it is also known as the Steel City of Haryana.
