- The department has well developed infrastructure for the M.Sc. Programme with seminar room and well equipped laboratories
- The department has conferred degree to 280 M.Sc. students
- During last five years on an average eight students were admitted in M.Sc**. (Annexure MICRO**-I) and presently there are 23 M.Sc. students on roll **(Annexure MICRO**-II)
- Students were encouraged to participate in conferences and symposia. twelve students from M.Sc. participated in conferences and symposia(**Annexure MICRO**-III**)**
- One student (Divya Kapoor) selected for higher studies at University of Illinois at Chicago.
- M.Sc. students published 12 research papers in last five years (NAAS rating 0-4: 05; 4-6: 05 papers; >6: 02 papers)(**Annexure MICRO-IX)**

### Objectives of Initiating Ph.D. Programme

- To produce quality human resource in the discipline of Microbiology
- To train and equip researchers and professionals to face the issues posed by Agriculture, Industry and Environment
- **Contribution in agricultural research, especially in thrust area like:**
  - Research and development of quality biofertilizers for important agricultural crops
  - Microbiological decomposition of farm and city waste
  - Fermentative production of industrially useful products
  - Development of microbiological approaches for pollution abatement
  - Bioconversion technology for production of biofuels
  - Biocontrol of plant diseases, insects and weeds
  - Genetic diversity of arid rhizobia
  - Microbiological studies under natural farming conditions

### Accomplishments of Ph.D. Programme

- The department has well developed infra-structure for the Ph.D. Programme including Seminar room and well equipped laboratories with one centre of Biofertilizer Production and Technology
- The department has so far conferred degree to 131 Ph.D. scholars and some of them are occupying high positions at the national and international level.
- One student (Pankaj Sharma) was awarded post-doctoral fellowship at University of Illinois at Chicago.
- One student (Dhinu Yadav) conferred with Silver Jubilee Gold Medal for Women for best Ph.D. thesis in 2019.
- During last five years on an average eight students were admitted in Ph.D. (**Annexure MICRO-I**). Presently, there are 37 Ph.D. students on roll **(Annexure MICRO-II).**
- Sixty students participated in conferences and symposia of national and international level **(Annexure MICRO-III**)
- Students in doctoral programme attended various trainings from time to time. In last five years Nine students attended various trainings **(Annexure MICRO-IV)**
- Ten students joined higher education and placed very well in institutes of national and international repute **(Annexure MICRO**-V).
- Thirty eight students got fellowships/ stipend from university and other sources **(Annexure MICRO-VI)**
- Thirty Nine students qualified NET, GATE and other national level exams in last five years(**Annexure MICRO-VII).**
- Eight of our students are getting fellowship like CSIR, DST (INSPIRE), DBT, NFSE, HSCST and many students are getting HAU Merit fellowships **(Annexure MICRO-VIII)**
- Ph.D. students published 49 research papers in last five years (NAAS rating 0-4: 20 papers; 4-6: 10 papers; >6: 19 papers)(**Annexure MICRO-IX)**
- Alumni of the department are well placed at higher position in India and abroad.

### Student Data for the Last Five Years

| **Name of the Department** | **Microbiology** | | | | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| **Degree programme offered by the department** | **Specialization** | **Year of start** | **No. of seats** | | | | | | **No. of students passed out** | | | | | |
| | | | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | Total | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | Total |
| M.Sc. | Microbiology | 1964 | 7 | 7 | 10 | 12 | 12 | 48 | 1 | 4 | 5 | 6 | 6 | **22** |
| Ph.D. | Microbiology | 1964 | 4 | 4 | 8 | 10 | 10 | 36 | 7 | 3 | 2 | 3 | 6 | **21** |
| | | **Detail in Annexure I** | | | | | | | | | | | | |

**6.4.2 Faculty Strength:** *The faculty strength of the Degree Programme needs to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of research staff, extension staff, contractual faculty, guest faculty adjunct faculty or any other arrangements is being made to complete the curriculum, it should be clearly mentioned in the report.*

| S. No. | Designation | Sanctioned | In place* | Vacant |
|---|---|---|---|---|
| 1. | Professor and equivalent | 01 | 0 | 01 |
| 2. | Associate Professor and equivalent | 07 | 02 | 05 |
| 3. | Assistant Professor and equivalent | 13 | 9+2* | 02 |
| | Total | 21 | 13 | 08 |

**Note:** All the faculty of this programme is assigned the responsibilities for multiple programmes.

*The number of faculty includes personal promotees.

One vacancy for Assistant Professor has already been advertized.

### Faculty Profile

There are Two Professors (promoted under CAS), One Associate Professor and Ten Assistant Professors/ equivalents. One professor promoted under CAS superannuated in 2018. Two faculty from other establishment retired in November 2018 and October 2022. Faculty of the department has published more than 151 research papers in journals of national and international repute during last five years.

Faculty members were conferred with various awards from different scientific societies/agencies.

Dr. Seema Sangwan has been granted one patent on "A renewable resource drives starchy raw material to ferment fast in to ethanol" in 2018 (Patent No. 303453) and filed one patent on "Processing of low cost novel feedstock for production of microbial metabolite in 2020 (Reference No. 202111040446).

| S.No. | Name | Designation | Tel./Mob. | Email Address | Field of Specialization |
|---|---|---|---|---|---|
| 1. | Dr. Leela Wati | Principal Scientist | 94163-97853 | lwkraj@gmail.com lwkraj@hau.ac.in | Fermentation, Biofuels, Plant Microbe Interaction |
| 2. | Dr.Rajesh Gera | Principal Scientist | 94169-61450 | rajeshgera1967@gmail.com | Microbial Diversity |
| 3. | Dr. Baljeet Singh Saharan | Senior Scientist | 94165-45332 | baljeetsaharan@hau.ac.in | Biofertilizers, Natural farming, PGPR |

| 13. | Dr. Ajay Kumar | Asstt. Scientist | 87008-33535 | akjiari@gmail.com | Molecular Microbiology, Biofertilizer |
| 14. | Dr. Sneh Goyal (Retired on 30.09.2018) | Principal Scientist | 94162-40932 | snehgoyal1@yahoo.com | Soil Microbiology |
| 15. | Dr. S. S. Sindhu (Retired as ADR on 30.11.2018) | Principal Scientist | 9416650057 | Sindhuss58@gmail.com | Soil Microbiology |
| 16. | Dr. D. V. Pathak (Retired as Coordinator KVK Mandkola on 31.10.2022) | Principal Scientist | 9416632846 | Pathak_dv@rediffmail.com | Biofetilizer Technology |

**6.4.3 Technical and Supporting Staff:** *The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

| S. No. | Designation | Sanctioned | In place |
|---|---|---|---|
| 1. | Assistant | 01 | 01 |
| | Clerk | 01 | 01 |
| | PA/Steno | 01 | 0 (JSS from COAE&T is working) |
| | Messenger | 01 | 0 |
| 2. | Lab staff | | |

| | | | |
|---|---|---|---|
| | ➢ Lab Assistant | 04 | 02 |
| | ➢ Lab Attendant | 01 | 0 |
| | ➢ Sr. Lab Assistant | 01 | 01 |
| 3. | Field staff | | |
| | ➢ Beldar | 01 | 01 |
| 4. | Technician | 01 | 01 |
| 5. | Any other (specify) Mechanic | 01 | 0 |
| | Total | 13 | 08 |

Note: All the staff is assigned the responsibilities for the multiple programmes.

**6.4.4 Classrooms and Laboratories:** *Mention the number of class rooms and functional laboratories available for the Degree Programme and justify if it is sufficient to meet the course curricula requirement. Lists major equipments, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention Theory and practical batches for the Degree Programme.*

**List of Classroom and Functional Laboratories**

| | |
|---|---|
| No. of lecture rooms with sitting capacity | One seminar room with 40 seating capacity |
| **No. of lecture rooms with LCD and Interactive Board** | **One** |
| **No. of laboratories with specialized purpose** | **Eight Research Laboratories, One UG Teaching Laboratory and One PG Teaching Laboratory** |
| | • **Molecular Microbiology Lab no. 202:** Molecular characterization of microorganisms |
| | • **Biocontrol Lab no. 207:** Development of biocontrol agents for various pests and diseases of crops |
| | • **Plant-Microbial Interaction Lab no 217:** For study of microbial interactions with plants |
| | • **Bioremediation Lab no. 222:** Development of strategies for bioremediation of polluted sites |
| | • **Soil Microbiology Lab no. 225:** For study of microbes and their activities in soil |
| | • **Fermentation Lab no. 229:** Study of microbial fermentations |
| | • **Bioconversion Technology Lab no. 237&234:**Production of different biofuels |
| | • **Microbial Genomics Lab No. 115 A & B:** Study of microbial genomics, molecular biology |
| | • **Teaching Laboratory Lab No. 215 and 413 (A):** To conduct practical classes. |
| **Farm facilities** | **Six Screen houses, Biogas plants, Composting pits** |
| **Workshops** | - |

**Other Instructional Units Being Utilized for the Award of Degree Programme:**

| **Instructional Units** | **Functioning** |
|---|---|
| 1. Seminar room with LCD **and Interactive Board** | Seminar room is used for presentation of assignments and delivering seminars by PG students and also used for conducting PG classes. |
| 2. Departmental Library | Reference material, journals, thesis etc are referred by PG students for preparation of assignments, synopsis and thesis work. |

| | |
|---|---|
| 3. Conference Hall | Conference hall having 40 seating capacity for training to students, entrepreneurs and farmers regarding biofertilizer production and application. |
| 4. Centre of Biofertilizer Production and Technology | A well-equipped unit for biofertilizer production. Since July, 2018 the biofertilizers are produced and sold through Public Private Partnership mode with M/S HABITAT Genome Improvement Primary Producers Company Pvt. Ltd. Village Ramayan, Hisar. |

**List of Major Equipments Available in the Department:**

| Sr. No. | Location/Lab | Name of equipment |
|---|---|---|
| 1. | Lab.No.115 | Refrigerated Micro Centrifuge, Orbital Shaking Incubator, Biosafety Cabinet, Refrigerated Centrifuge Ultrasonic Prob Sonicator, PCR Machine, UV Spectrophotometer |
| 2. | Lab.No. 202 | Refrigerated Micro Centrifuge, Spectrophotometer, Biosafety Cabinet, Orbital Shaking Incubator |
| 3. | Lab.No.207 | Horizontal Laminar Air Flow, Refrigerated Micro Centrifuge, Spectrophotometer, Orbital Shaking Incubator |
| 4. | Lab.No.215 | Horizontal Laminar Air Flow |
| 5. | Lab.No.217 | Horizontal Laminar Air Flow, Refrigerated Micro Centrifuge, Orbital Shaking Incubator |
| 6. | Lab.No.222 | Refrigerated Centrifuge, Refrigerated Micro Centrifuge, Spectrophotometer, Thermal Cycler, Orbital Shaking Incubator, High Temperature Furnance, Biosafety Cabinet, Ultrasonic Prob Sonicator, PCR Machine, Rotary Evaporator, Lyophilizer, DGGE System, Electrophoresis System |
| 7. | Lab.No.225 | Biosafety Cabinet, **Orbital Shaking Incubator,** Flame Photometer, |
| 8. | Lab.No.229 | Spectrophotometer, **Orbital Shaking Incubator,** Refrigerated Micro Centrifuge, Biosafety Cabinet, Refrigerated Centrifuge, |
| 9. | Lab.No.237 | Bioreactor with Accessories, Biogas Analyzer, Anaerobic Chamber, Spectrophotometer, **Orbital Shaking Incubator,** Flame Photometer, Kjeldahl Apparatus, Biosafety Cabinet, **UV Spectrophotometer, Fully Automatic Vertical Autoclave,** Rotary Shaker, |
| 10. | Biofertilizer lab | Fermentor, Refrigerated Micro Centrifuge, Spectrophotometer, Refrigerated Centrifuge, Rotary Shaker |

Various equipments such as Autoclave, BOD Incubator, Laminar air flow, Spectrophotometer, Microscope, Hot air oven, weighing balance and pH meter are available in all the laboratories.

### Theory and Practical Batches

At UG level, the department of Microbiology offers 3 core and 1 professional elective course, all of them have practical components.

- For theory in core courses, there are two sections at COA, Hisar and one section each at COA, Kaul; COA, Bawal and COHS with an average of about 55-65 students in each section.
- For practical in core courses, there are two batches for each course with an average of about 25-30 students in each batch.
- At M.Sc. level, the Department of Microbiology offers 10 courses and 09 courses have practical components. The courses are also offered as minor courses for students of other departments. There is only one batch for theory classes and one batch for practical classes in all the courses with an average of 10-25 students.

- For Ph.D., the department of Microbiology offers 5 courses and 1 course has practical components. There is only one batch for theory classes and one batch for practical classes in all the courses.

**6.4.5 Conduct of Practical and Hands-on-Training:** *It is important to have a sound grasp of the theory that underlines any professional degree. But there are some skills that can only be learned through hands-on-practice. It is important that much of the learning material in any given course should be provided in way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hand-on-training as per curriculum and meeting above mentioned requirements.*

| Degree programme | Total courses | Practical courses | Hands-on-Training | How far students are getting desired practical and hands-on-training as per the curriculum |
|---|---|---|---|---|
| **B.Sc.** | **Three** | **Three** | | |
| | **Micro 101** | **Micro 101** | • Microscopic examination of bacteria, yeast and molds<br>• Preparation of media, methods of sterilization<br>• Isolation, purification and maintenance of microoganisms<br>• Microbiological examination of milk, grains, fruits and vegetables | • Students get basic knowledge about the microbiology lab, media preparationand isolation techniques. |
| | **Micro 102** | **Micro 102** | • Introduction to Microbiology laboratory and its equipments<br>• Bright field Microscope: Parts and Principles; resolving power and numerical aperture<br>• Staining: Simple staining, Gram staining and Negative staining<br>• Media preparation and sterilization<br>• Methods of isolation, purification of microbial cultures using pour, spread and streak plate methods<br>• Demonstration of ubiquitous nature of microorganisms<br>• Enumeration of bacteria and fungi in soil | • Students get basic knowledge about the microbiology lab, staining techniques and media preparation.<br>• Students are able to culture and isolate bacteria, algae & fungi of agriculture importance. |
| | **Micro 204** | **Micro 204** | • Collection and preparation of agricultural waste sample<br>• Determination of pH, BOD, COD, TSS, TDS in waste sample<br>• Preparation of compost, Vermicomposting, biogas and analysis of compost | • Students get basic knowledge about various strategies of waste management through microorganisms |
| | **Module 8** | **Module 8** | • Handling of BOD incubator, shaker, UV-VIS spectrophotometer, autoclave, microscope and hot air oven<br>• Measuring techniques including pipetting, use of measuring cylinders and weighing of media components<br>• Preparation and sterilization of different culture media and pouring media in plates<br>• Isolation of Azotobacter, Rhizobium, | • Able to prepare biofertilizers in lab. |

| | | | | |
|---|---|---|---|---|
| | | | phosphate solubilizing bacteria, Azospirillum, Gluconoacetobacter from soil samples, purification of colonies and maintenance<br>• Characterization of isolated bacteria on the basis of IAA production, ammonium excretion, phosphate solubilization, zinc solubilization and potash solubilisation<br>• Isolation and Characterization of antifungal PGPRs, purification of isolates and storage<br>• Inoculum development and mass scale production of *Azotobacter*, *Azospirillum*, *Rhizobium* and *Glucanoacetobacter*, filling and packing of liquid biofertilizers | |
| **M.Sc.** | **11** | **9** | | |
| | MICRO 501 | MICRO 501 | • Development of microbiology in the 18th and 19th century. Morphology, structure and function of prokaryotic and eukaryotic cell. Archea. Classification of prokaryotes. Basic principles and techniques used in bacterial classification.<br>• Evolutionary relationship among prokaryotes. Phylogenetic and numerical taxonomy. Use of DNA and r-RNA sequencing in classifications.<br>• Study of major groups of bacteria belonging to Gracilicutes, Firmicutes, Tenericutes and Mendosicutes.<br>• Viruses – morphology, classification and replication of plant, animal andbacterial viruses. Cultivation methods of viruses. Immune response – specific and nonspecific resistance. Normal microflora of human body; some common bacterial and viral diseases of humans and animals. | • To isolate, characterize and maintain different microorganisms |
| | MICRO 502 | MICRO 502 | • Use of simple techniques (Colorimetry, Centrifugation, Electrophoresis and GLC) in laboratory.<br>• Determination of viable and total number of cells.<br>• Growth factors affecting growth, Sporulatio and spore germination in bacteria.<br>• Protoplast fusion, Induction and repression of enzymes | • To become familiar to different techniques used for characterization of metabolites, cell size and growth behaviour of microbes. |
| | MICRO 503 | MICRO 503 | • Inactivation of microorganisms by different mutagens.<br>• Production, isolation and characterization of mutants.<br>• Isolation, characterization and curing of plasmids.<br>• Transfer of plasmids by conjugation, | • To apply modern techniques like gene transfer, electroporation, plasmid isolation and their application to construct microbe |

| | | | | |
|---|---|---|---|---|
| | | | electroporation. Tetrad and random spore analysis. | with desired traits. |
| | MICRO 504/ SOILS 506 | MICRO 504/ SOILS 506 | • Determination of soil microbial population, soil microbial biomass<br>• Decomposition studies in soil, soil enzymes.<br>• Measurement of important soil microbial processes such as ammonification, nitrification, $N_2$ fixation, S oxidation, P solubilization and mineralization of other nutrients<br>• Study of rhizosphere effect. | • Knowledge to enumerate microbes and estimate microbial activity in different kinds of soils. |
| | MICRO 505/ MBB506 | MICRO 505/ MBB506 | • Isolation of industrially important microorganisms, their maintenance and improvement<br>• Production of industrial compounds such as alcohol, beer, citric acid, lactic acid and their recovery.<br>• Study of bioreactors and their operation.<br>• Production of biofertilizers<br>• Immobilization of cells and enzymes, study of their kinetic behaviour | • To isolate & develop new microbial products of commercial use. |
| | MICRO 506 | MICRO 506 | • Statutory, recommended and supplementary tests for microbiological analysis of various foods: Baby foods, canned foods, milk and dairy products, eggs, meat, vegetables, fruits, cereals, surfaces, containers and water. | • To understand the role of microbes in food and its derivatives. |
| | MICRO 508 | MICRO 508 | • Analysis of natural waters, waste waters and organic waste in relation to water pollution assessment, pollution strength and resource qualification<br>• Quality control tests, waste treatment and anaerobic digestion<br>• Demonstration of waste water treatment processes such as activated sludge processes, biofilter and fluidized bed process | To understand the role of microbes in environment, its pollution abatements and standards of environment pollution. |
| | MICRO 591 | MICRO 591 | Master's Seminar | To strengthen teaching skills of students |
| | MICRO 599 | MICRO 599 | Master's Research | To strengthen research skill of students |
| **Ph.D.** | **4** | **1** | | |
| | MICRO 601 | MICRO 601 | • Industrially important microbes and their genetic manipulations.<br>• Fermentation by improved strains of yeast for production of alcohol and beer<br>• Microbial production of important antibiotics, enzymes and organic acids.<br>• Bioremediation of industrial effluents. | Latest techniques used in industrial uses of microbes, introduction to industrial scale instruments. |
| | MICRO 691 | MICRO 691 | • Doctoral Seminar | To strengthen teaching skills of |

| | | | | |
|---|---|---|---|---|
| | | | | students |
| | MICRO 692 | MICRO 692 | • Doctoral Seminar | To strengthen teaching skills of students |
| | MICRO 699 | MICRO 699 | • Doctoral Research | To strengthen research skill of students |

**6.4.6 Supervision of Students in PG/Ph.D. Programmes:** *Number of students being supervised by Faculty in case of Masters/Ph.D. Programme (as per ICAR/UGC guidelines). Mention the realistic figure numbers of qualified faculty in relation to the intake of the students, as pre the guidelines in the matter.*

**M.Sc. Programme**

| Year | Number of students on roll | Number of PG faculty | Student-teacher Ratio |
|---|---|---|---|
| 2018-19 | 10 | 15 | 0.66:1 |
| 2019-20 | 11 | 14 | 0.78:1 |
| 2020-21 | 10 | 14 | 0.71:1 |
| 2021-22 | 20 | 14 | 1.42:1 |
| 2022-23 | 22 | 12 | 1.83:1 |

**Ph.D. Programme**

| Year | Number of students on roll | Number of PG faculty | Student-teacher Ratio |
|---|---|---|---|
| 2018-19 | 11 | 15 | 0.73:1 |
| 2019-20 | 10 | 14 | 0.71:1 |
| 2020-21 | 23 | 14 | 1.64:1 |
| 2021-22 | 32 | 14 | 2.28:1 |
| 2022-23 | 36 | 12 | 3:0 |

**6.4.7 Feedback of Stakeholders:** *Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the Degree Programme. What action the University has taken in last five years to address the issues raised in the feedback?*

The stakeholders' feedback on the overall performance and quality of the institutions is obtained through general meetings with parents and interaction with alumni. The teachers get informal feedback from the students based on their parents' observations and suggestions. These suggestions are considered by the HODs and controlling officers.

Farmers' feedbacks were regularly taken for the betterment of our services including production of biofertilizers and biocontrol agents. Till date there is very positive response in terms of biofertilizers produced by the department. Department has also initiated working on development of different biocontrol agents as per the demand of farmers.

**6.4.8 Student Intake and Attrition in the Programme for last five years:** *Year wise information on sanctioned strength, actual intake and attrition in the last five years of the Degree Programme, in the tabular form, shall be provided*

| Name of the degree programme | Actual student admitted in last five years | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| **M.Sc.** | 05 | 06 | 09 | 12 | 12 | 0 | 16.66 | 0 | 16.66 | 0 |
| **Ph.D.** | 03 | 06 | 11 | 10 | 11 | 0 | 0 | 0 | 0 | 0 |

**6.4.9 ICT Application in Curricula Delivery:** *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical. Mention whether the Degree Programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned.*

The faculty members of department of Microbiology use ICT in teaching and practical. There is one seminar room and one conference room with computer, LCD projector and internet connection. All faculty members have computer printer and internet connection in their offices. There is Wi-Fi facility for faculty, staff and students. This infrastructure provides opportunities for the use of ICT in quality teaching, research and extension. Faculty members use power point presentations, YouTube, emails and CD ROM in teaching courses at UG, PG and Ph.D. level. During COVID-19 pandemic, department adopted online teaching platforms such as google meet and teams for effective teaching. All the teaching material was successfully uploaded on the ERP module and Microsoft teams to ensure the accessibility of teaching material to all the students.

**6.4.10** The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and Ph.D. degree programmes, separately, and to be presented college-wise.

**6.4.11** Since the accreditation of programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

**6.4.12** Certificate (Applicable when SSR is submitted for programme)

I, the Dean **Dr. Neeraj Kumar** hereby certify that the information contained in the section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

**Signature of Dean of the College with Date & Seal**

## PROGRAMME – 7

# M.Sc. Molecular Biology & Biotechnology,

# Ph.D. Molecular Biology & Biotechnology

# and

# M.Sc. Bioinformatics

KIMTECH

### 6.4 About the Department

The Department was created in 1997 with the basic facilities for conducting research in plant biotechnology and molecular biology. However, in the past 2-3 years the strength of students opting for biotechnology as a major as well as a minor subject has increased tremendously. The Department has successfully completed a number of research projects funded by the ICAR, CSIR, DBT, DST-GOI, ICAR, CSIR, DRDE, SPARC, RKVY, UGC, DST-Haryana and other agencies. The research findings from the various research programs in the field of Biotechnology and Bioinformatics have been presented at the National and International conferences and also published in the form of a large number of research papers in reputed journals. Apart from the various research programs being carried out in the Department, its faculty members are lending support to other Departments of the university in interdisciplinary co-ordinate research programs, particularly, in the areas of Entomology, Plant Pathology and Genetics & Plant Breeding. In recognition of the excellent research activities in the Department, many of its faculty members and students have been offered national scientific awards and visiting fellowships. The students are pursuing higher degrees in reputed National and International Institutes and have been selected as faculty in reputed Institutions such as DRDO, ICAR, ICGEB, SAUs, Govt. Colleges, public/ private institutions/industries. Two students were decorated with the "**Best thesis award".** Most of students have cleared NET/ JRF examinations conducted by UGC/CSIR/ ICAR/ DBT. The Department is actively involved in research in areas such as plant transformation and genetic engineering, molecular markers and marker-assisted selection for biotic & abiotic stresses & quality traits, enzyme technology and microbial biotechnology. Research in some new areas such as genomics, proteomics, nanobiotechnology, immunodiagnostics, biosensors, bioinformatics and commercial plant tissue culture is planned to be carried out during next five years.

There is no UG programme going on in the Department, however, Department is offering six UG Courses to Undergraduates of College of Agriculture.

During last five years on an average seven students were admitted in M.Sc. and six students in Ph.D. (Annexure I). Presently there are 15 M.Sc. students and 28 Ph.D. students on roll (Annexure II).

#### Objectives of the Department

- To impart teaching at undergraduate and postgraduate levels to produce highly skilled and qualified graduates and postgraduates in the niche area of Biotechnology
- To undertake research in the emerging areas of biotechnology for improving socio-economic status of farmers, rural women and SC & ST population of the state
- To disseminate scientific knowledge to farmers community and end users
- To organize training/skill development programmes for students/faculty, progressive farmers, unemployed youth, entrepreneurs and other stakeholders
- To build and nurture a vibrant start-up and industrial base in Haryana, connecting the academia and industry

**6.4.1. Brief History of the Degree Programme:** *Clearly mention in which year the degree program was initiated along with its objective and accomplishments.*

#### Objectives of initiating M.Sc. Programme

- M.Sc. programme in MBB was started in the year 1997 while that Bioinformatics started 2004**.**
- The department has well-developed infrastructure for the M.Sc. programme with Seminar rooms and well-equipped laboratories
- Quality human resource generation in Molecular Biology and Biotechnology as well as in Bioinformatics

### Accomplishments of M.Sc. Programme

- The Department has well-developed infra-structure for the M.Sc. Programme with a seminar room, classroom and well-equipped laboratories.
- The department has conferred degree to 26 M.Sc. students in the last five years **(Annexure - MBB IX)**
- Two students participated in conferences and symposia and presented two papers. **(Annexure - MBB III)**
- Four students have participated in different trainings. **(Annexure – MBB IV)**
- Two students has been placed in a Government sector job**. (Annexure – MBB V)**
- Two M.Sc. students got fellowships/stipends from university and other sources (**Annexure – MBB VI**)
- In the last five years, M.Sc. students have published seven research papers in reputed journals having NAAS Rating from 5.31 to 6.37 **(Annexure –MBB IX)**

### Objectives of initiating Ph.D. Programme

- Ph.D. Molecular Biology and Biotechnology programme was initiated with the following objectives
- To produce advanced quality human resources in the discipline of molecular Biology and Biotechnology
- To familiarize the students with the specialized topics and recent advances in the field of plant molecular biology
- To familiarize the students with the specialized topics and advances in the field of genetic engineering and their application in plant improvement
- To familiarize the students with specialized topics about industrially important microorganisms
- To familiarize the students with specialized topics on the application of molecular tools in the breeding of specific crops
- To familiarize the students with recent advances and applications of functional genomics and proteomics in agriculture, medicine and industry
- To familiarize the students with the commercial applications of plant tissue culture in agriculture, medicine and industry
- To provide specialized training to students in following research areas:
    - Plant tissue culture and micropropagation of important plant species
    - Development of transgenic crops with resistance/tolerance against biotic and abioticstresses and with improved nutritional quality
    - DNA fingerprinting, genotype identification and diversity analysis
    - Linkage mapping and tagging of genes/QTLs for stress tolerance, disease resistance and quality traits and marker-assisted selection
    - Value addition in plants and microbes
    - Developing genomic and nano biotechnological tools for their application in improving eco-friendly crop production
    - Drug discovery
    - QSAR (Quantitative Structure-Activity Relationship)
    - Genomics and proteomics

- Protein engineering - modeling and interactions

**Accomplishments of Ph.D. programme**

- The Department has well developed infra-structure for the Ph.D. programme with seminar room, class room and well equipped laboratories
- The department has conferred degree to 28 Ph.D students in the last five years **(Annexure - MBB XI)**
- Fifteen students participated in conferences and symposia of national and international level **(Annexure –MBB III)**
- Students in doctoral programme attended the trainings from time to time. In last five years, four students have participated in different trainings**. (Annexure –MBB IV)**
- Two of our students have joined the institutes of excellent repute**. (Annexure – MBB V)**
- Forteen students have been availing national level scholarships like INSPIRE DST, CSIR JRF, UGC etc. **(Annexure – MBB VI)**
- Eighteen students have qualified NET, GATE and other national level exams. (**Annexure – MBB VII)**
- Ph. D. students of the department have published their research outcomes in form of 42 research papers in last five year (NAAS rating 4.73-16.44) **(Annexure – MBB IX).**
- Alumni of the department are well placed at higher position in India and abroad.

**Student Data for the last four years:**

| **Name of the Department** | | **Molecular Biology, Biotechnology & Bioinformatics** | | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| **Degree programme offered by the department** | **Specialization & Year of start** | **No. of seats** | | | | | | **No. of students passed out** | | | | | |
| | | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | Total | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | Total |

| **Details in Annexure I** | | | | | | | | | | | | | |

**6.4.2. Faculty Strength:** *The faculty strength of the Degree Programme needs to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of research staff, extension staff, contractual faculty, guest faculty adjunct faculty or any other arrangements is being made to complete the curriculum, it should be clearly mentioned in the report.*

| S. No. | Designation | Faculty sanctioned | Faculty in place | Vacant |
|---|---|---|---|---|
| 1. | Professor and equivalent | - | - | - |
| 2. | Associate Professor and equivalent | 01 | - | 1 |
| 3. | Assistant Professor and equivalent | 15 | 6+1* | 8 |
| | Total | 16 | 7 | 9 |

**Note:** All the faculty of this programme is assigned responsibilities for the multiple programmes.

**Faculty Profile:**

At present, there are seven assistant professors/ equivalents. Faculty of the department published more than 90 research papers in journals of national and international repute, and 15 book chapters in the last five years.

| S. No. | Name | Designation | Mobile No. | Email address | Specialization |
|---|---|---|---|---|---|
| 1. | Dr.Sudhir Kumar | Professor | 9466242051 | sudhir@hau.ac.in | Organic Chemistry and Computational Biology |
| 2. | Dr. Anil Panwar | Assistant Professor | 9416928750 | anilpanwar@hau.ac.in | Bioinformatics and Computational Biology |
| 3. | Dr. ShikhaYashveer | Assistant Professor | 9896104989 | shikhayashveer@gmail.com | Molecular Biology and Biotechnology |
| 4. | Dr. Neeru Singh Redhu | Assistant Professor | 9466833480 | neru.redhu95@gmail.com | Bioinformatics and Computational Biology |
| 5. | Dr. Upendra Kumar | Assistant Professor | 9411259621 | upendra@hau.ac.in | Functional Genomics and Molecular Breeding |
| 6. | Dr. Nita Lakra | Assistant Scientist | 8130283959 | nitahaubotany2019@gmail.com | Plant Proteomics and Metabolomics |
| 7. | Dr.NavjeetAhalawat | Assistant Professor | 7032198208 | ahlawat.0211@gmail.com | Bioinformatics &Computational Biology |
| **Faculty Retired during 2018-22** | | | | | |
| 1 | Dr. Neelam Yadav (30/11/2018) | Principal Scientist | 8053013070 | nryadav58@gmail.com | Molecular Breeding |
| 2 | Dr. Pushpa Kharb (30/04/2021) | Principal Scientist | 9416346306 | pkharbhau@gmail.com | Bio-Nanotechnology |

**6.4.3. Technical and Supporting staff:** *The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

| S. No. | Designation | Sanctioned | in place |
|---|---|---|---|
| 1. | Assistant | 01 | 01 |
| | Clerk | 01 | 01 |
| | PA/Steno | 01 | - |
| | Messenger | - | - |
| 2. | Lab staff | | |

| | | | |
|---|---|---|---|
| | ➢ Lab Assistant | 02 | 01 |
| | ➢ Lab Attendant | - | - |
| | ➢ Sr. Lab Asstt. | 06 | 06 |
| 3. | Field staff | | |
| | ➢ Beldar | 02 | 01 |
| 7. | Technician | - | - |
| 8. | Any other (specify) Mechanic | - | - |
| | Total | 13 | 10 |

Note: All the staff is assigned the responsibilities for the multiple programmes.

**6.4.4. Classrooms and Laboratories:** *Mention the number of class rooms and functional laboratories available for the Degree Programme and justify if it is sufficient to meet the course curricula requirement. Lists major equipments, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention Theory and practical batches for the Degree Programme.*

**List of Classroom and Functional Laboratories (College of Biotechnology)**

| | |
|---|---|
| No. of lecture rooms with sitting capacity | One lecture room with seating capacity of 40 |
| No. of lecture rooms with LCDand Interactive Board | One |
| No. of labs with specialized purpose | Four Research, one UG and one PG |
| | Research Lab no. 05: Functional Genomics and Molecular Breeding |
| | Research Lab no. 104: Molecular Biology Lab |
| | Research Lab no. 102: Computational and Biophysics Lab |
| | Research Lab no. 108: Plant Proteomics and Metabolomics Lab |
| Other facilities | High-tech Containment Facility (One)<br>Green House (Two)<br>Polyhouse (Three) |
| Workshops | - |
| Any other instructional units being utilized for the award of the Degree Programme | Centre for Micro-propagation and Doubled Haploid Production |

***** Bioinformatics Research Lab no. 01 and 02 (College of Basic Sciences and Humanities)

**Other Instructional Units being Utilized for the Award of Degree Programme**

| Instructional Units | Functioning |
|---|---|
| 1. Seminar room with LCD | Seminar room is used for presentation of assignments and delivering seminars by PG students and also used for conducting PG classes. |
| 2. Departmental library | Reference material, thesis etc are referred by PG students for preparation of assignments, synopsis and thesis work. |

**List of Major Equipments available in the Department:**

| Sr. No. | Location/Lab | Name of Equipment |
|---|---|---|
| **1.** | Lab No. 05 | **Autoclave,Incubator Shaker with Refrigeration facility,** Refrigerated Centrifuge, -86° Deep Freezer, BioSafety Cabinet, Water Purification |

| | | |
|---|---|---|
| | | System,Microplate Reader, Plant Growth Chamber, Automatic Nucleic Acid Extraction, Microwave Digestion System, Electrophoresis Unit, Horizontal Electrophoresis Unit, Rotavator (Rotary Tiller), Nano Drop Spectrophotometer, 384 Well Thermal Cycler (PCR), Centrifuge Mini Spin, Multi Channel Pipette (2), Cooling Centrifuge, Digital Water Bath, Laminar Air Flow/ Biological Safety Cabinet, Refrigerator (Three), Bunsan Burner (2), Deep freeze -86$^{o}$C, UVis Spectrophotometer, Ultra Sonicator, Thermal Cycler, Gel Doc with Chemi-Doc Facility, High Throughput Thermal Cycler (PCR), Ice flake Making Machine, pH Conductivity Meter, Real Time PCR, |
| **2.** | Lab No.22-25 | Workstation No. 2 |
| **3.** | Lab No.23-24 | Computers No. 25 |
| **4.** | Lab No.104 | **Autoclave,Incubator Shaker with Refrigeration facility,** Refrigerated Centrifuge, Analytical Balance (Two), Centrifuge Mini Spin, Centrifuge Mini Spin, Real Time PCR, Multi Channel Pipette (2), Refrigerator (Three), UVis Spectrophotometer, Gel Electrophoresis System, Ice flake Making Machine, pH Conductivity Meter, Hybridization Incubator, Laminar Air Flow/ Biological Safety Cabinet, |
| **5.** | **Lab No.108** | Autoclave, BioSafety Cabinet, IEF Instrument, Plant Growth Chamber, Vacuum Concentrator, Deep Freezer -40 $^{0}$C, Deep Freezer – 20$^{0}$C, Gel Documentation System, Nano Drop Spectrophotometer, Thermal Cycler, Elisa Reader |
| **6.** | **Lab No.113** | GPU Workstations (Total No. 4) |

**Theory and Practical batches**

- At UG level department is offering two practical courses.
- At M.Sc level, the department offers 23 courses and 8 courses has practical components. There are limited seats in M.Sc. programme with an average of 4-8 students. Some courses are offered as minor courses for students of other departments. There is only batch for theory classes and one batch for practical classes in all the courses with an average of 5-12 students.
- Similarly, at Ph.D. level there are limited seats in Ph.D. programmes. Hence, there is only batch for theory classes in all the courses. For Ph.D., the department of chemistry offers 8 courses.
- The department is also offering three pre-requisite courses for students of College of Agriculture and two service courses for IC College of Home Science students.
- The department is also offering minor and supporting courses for students of various colleges of university.

**6.4.5 Conduct of Practical and Hands-on-Training:** *It is important to have a sound grasp of the theory that underlines any professional degree. But there are some skills that can only be learned through hands-on –practice. It is important that much of the learning material in any given course should be provided in way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hand-on-training as per curriculum and meeting above mentioned requirements.*

| **Degree programme** | **Total courses** | **Practical courses** | **Course details** | **How far students are getting desired practical and hands-on-training as per the curriculum** |

| Biotechnology) | | | | |
| | | MBB 504 | • Culture media; Various types of culture; callus, suspension, nurse, root, meristem, etc.; In vitro differentiation: organogenesis and somatic embryogenesis<br>• Micropropagation; Anther and microspore culture; Somaclonal variation; In vitro mutagenesis; *In vitro* fertilization; *In vitro* germplasm conservation; Production of secondary metabolites; Synthetic seeds.<br>• Embryo rescue and wide hybridization; Protoplast culture and regeneration; Somatic hybridization: protoplast fusion, cybrids, asymmetric hybrids, etc.<br>• Methods of plant transformation; Vectors for plant transformation; Genetic and molecular analyses of transgenics; | To familiarize various techniques of plant tissue culture, genetic engineering and transformation. |
| | | MBB505 | • Good lab practices; Biochemical techniques: Preparation of buffers and reagents, Principle of centrifugation, Chromatographic techniques (TLC, Gel Filtration Chromatography, Ion exchange Chromatography, Affinity Chromatography)<br>• Gel electrophoresis-agarose and PAGE (nucleic acids and proteins); Growth of bacterial culture and preparation of growth curve; Isolation of plasmid DNA from bacteria; Growth of lambda phage and isolation of phage DNA; Restriction digestion of plasmid and phage DNA; Isolation of | Basic molecular biology techniques |

| | | | | |
|---|---|---|---|---|
| | | | high molecular weight DNA and analysis.<br>• Gene cloning – Recombinant DNA construction, transformation and selection of transformants; PCR and optimization of factors affecting PCR.<br>• Dot blot analysis; Southern hybridization; Northern hybridization; Western blotting and ELISA; Radiation safety and non-radio isotopic procedure | |
| | | MBB 506 | • Isolation, screening and genetic improvement and maintenance of industrially important organisms.<br>• Types fermentation systems; Bioreactor designs and operations; Production of primary and secondary metabolites e.g alcohol, organic acids, organic solvents, amino acids, enzymes, antibiotics.<br>• Production of fermented beverages, single cell protein; Recombinant DNA technology based products, Biotransformation.<br>• Overproduction of metabolites; Metabolic engineering of microbes for production of novel products for industry; Downstream processing; Immobilization of cells/enzymes.<br>• Industrial biotechnology for pollution control, treatment of industrial and other wastes, Production of eco-friendly chemicals e.g biopesticides, bio-insecticides, biofertilizers, bio-fuels, etc. | To familiarize about microbial processes/systems/activities for the development of industrially important products/ processes. |

| | | | | |
|---|---|---|---|---|
| | | MBB508 | • Genomics: Whole genome analysis and comparative genomics, classical ways of genome analysis, large fragment genomic libraries; Physical mapping of genomes; Genome sequencing, sequence assembly and annotation.<br>• Functional genomics: Candidate gene identification, DNA chips, Mutants and RNAi, Metabolomics for elucidating metabolic pathways, etc.<br>• Proteomics - Introduction to basic proteomics technology, Bio-informatics in Proteomics, Gene to Protein Function: a Roundtrip, Proteome analysis.<br>• Linkage analysis, genotyping analysis, pharmacogenomics, human/plant genome and science after genomic era; Applications of genomics and proteomics in agriculture, human health and industry. | To familiarize about the genomic and proteomic concepts and usage of various algorithms and programmes in analysis of genomic and proteomic data. |
| | | MBB509 | • Construction of gene libraries; Synthesis and cloning of cDNA and RTPCR analysis; Real time PCR and interpretation of data.<br>• Molecular markers (RAPD, SSR, AFLP etc) and their analysis; Case study of SSR markers (linkage map, QTL analysis etc); SNP identification and analysis; Microarray studies and use of relevant software.<br>• Proteomics (2D gels, mass spectrometry, etc.); RNAi (right from designing of construct to the phenotyping of the plant); | Molecular techniques used in molecular breeding and genomics. |

| | | | | |
|---|---|---|---|---|
| | | | Yeast 1 and 2-hybrid interaction.<br>• Generation and screening of mutants; Transposon mediated mutagenesis | |
| | MBB511 | | • Structure of animal cell; History of animal cell culture; Cell culture media and reagents, culture of mammalian cells, tissues and organs, primary culture, secondary culture, continuous cell lines, suspension cultures, somatic cell cloning and hybridization, transfection and transformation of cells, commercial scale production of animal cells, application of animal cell culture for in vitro testing of drugs, testing of toxicity of environmental pollutants in cell culture, application of cell culture technology in production of human and animal viral vaccines and pharmaceutical proteins.<br>• Introduction to immune system, cellular and hormonal immune response, history of development of vaccines, introduction to the concept of vaccines, conventional methods of animal vaccine production, recombinant approaches to vaccine production, hybridoma technology, phage display technology for production of antibodies, antigen-antibody based diagnostic assays including radioimmunoassays and enzyme immunoassays, immunoblotting, nucleic acid based diagnostic methods, commercial scale production of diagnostic antigens and antisera, animal disease diagnostic kits, probiotics. | To familiarize about the techniques used in animal tissue culture. |

| | | | | |
|---|---|---|---|---|
| | | | • Structure of sperms and ovum, cryopreservation of sperms and ova of livestock, artificial insemination, super ovulation, in vitro fertilization, culture of embryos, cryopreservation of embryos, embryo transfer, embryo-spliting, embryo sexing, transgenic manipulation of animal embryos, different applications of transgenic animal technology, animal viral vectors, animal cloning basic concept, cloning from- embryonic cells and adult cells, cloning of different animals, cloning for conservation for conservation endangered species, ethical, social and moral issues related to cloning, in situ and ex situ preservation of germplasm, in utero testing of foetus for genetic defects, pregnancy diagnostic kits, anti-fertility animal vaccines, gene knock out technology and animal models for human genetic disorders.<br>• Introduction to different breeds of cattle, buffalo, sheep, goats, pigs, camels, horses, canines and poultry, genetic characterization of livestock breeds, marker assisted breeding of livestock, introduction to animal genomics, different methods for characterization of animal genomes, SNP, STR, QTL, RFLP, RAPD, genetic basis for disease resistance, Transgenic animal production and application in expression of therapeutic proteins. | |

| | | | | |
|---|---|---|---|---|
| | | | Immunological and nucleic acid based methods for identification of animal species, detection of meat adulteration using DNA based methods, detection food/feed adulteration with animal protein, identification of wild animal species using DNA based methods using different parts including bones, hair, blood, skin and other parts confiscated by anti-poaching agencies. | |
| | | MBB 512 | • History and scope of immunology; Components of immune system: organs, tissues and cells, Immunoglobulin structure and functions; Molecular organization of immunoglobulins and classes of antibodies.<br>• Antibody diversity; antigens, haptens, antigens- antibody interactions; immunoregulation and tolerance; Allergies and other hypersensitive responses; Immunodeficiency; Vaccines.<br>• Application of immunology, immunological techniques, Principles of ELISA and its applications; Monoclonal antibodies and their uses, molecular diagnostics; Introduction to the basic principles of molecular technology and techniques used for pathogen detection.<br>• Basics and procedures of PCR, PCR based and hybridization based methods of detection, microarrays based detection, multiplexing | Application of various immunological and molecular diagnostic tools |

| | | | | |
|---|---|---|---|---|
| | | | etc, detection of soil borne and seed born infections, transgene detection in seed, planting material and processed food, molecular detection of varietal impurities and seed admixtures in commercial consignments | |
| | MBB513 | | • Introduction to Biomacromolecules: The modern concepts to describe the conformation and dynamics of biological macromolecules: scattering techniques, micromanipulation techniques, drug delivery applications etc.<br>• Cellular engineering: signal transduction in biological systems, feedback control signaling pathways, cell-cell interactions etc. Effects of physical, chemical and electrical stimuli on cell function and gene regulation.<br>• Chemical, physical and biological properties of biomaterials and bioresponse: biomineralization, biosynthesis, and properties of natural materials (proteins, DNA, and polysaccharides), structure-property relationships in polymeric materials (synthetic polymers and structural proteins); Aerosol properties, application and dynamics; Statistical Mechanics in Biological Systems.<br>• Preparation and characterization of nanoparticles; Nanoparticular carrier systems; Micro- and Nano-fluidics; Drug and | Understanding the molecular techniques involved in structure and functions of nanobiomolecules in cells such as DNA, RNA and proteins. |

| | | | | |
|---|---|---|---|---|
| | | | gene delivery system; Microfabrication, Biosensors, Chip technologies, Nano-imaging, Metabolic engineering and Gene therapy. | |
| | | MBB515 | • Harnessing bio-technology in horticultural crops, influence of plant materials, physical, chemical factors and growth regulators on growth and development of plant cell, tissue and organ culture.<br>• Callus culture – types, cell division, differentiation, morphogenesis, organogenesis, embryogenesis, artificial seeds.<br>• Use of bioreactors and *in vitro* methods for production of secondary metabolites, suspension culture, nutrition of tissues and cells, regeneration of tissues, ex vitro, establishment of tissue cultured plants, rapid clonal propagation.<br>• Physiology of hardening - hardening and field transfer, organ culture – meristem, embryo, anther, ovule culture, embryo rescue, somaclonal variation, haploids, *in vitro* mutation, cryopreservation.<br>• Wide hybridization, in vitro pollination and fertilization, protoplast culture and fusion, identification of somatic hybrids and cybrids, genetic engineering and transformation, use of molecular markers, achievements of biotechnology in horticultural crops. | Understanding the principles, theoretical aspects and developing skills in biotechnology of horticultural crops. |

| | | | | |
|---|---|---|---|---|
| | | MBB 553 | • Aims, scope and idea of elementary statistics; Measures of central tendency and dispersion, skewness and kurtosis.<br>• Concept of probability and probability laws, mathematical expectation, moments, moments generating function; Standard probability distributions- Binomial, Poisson and Normal distributions.<br>• Tests of significance based on Z, $\chi$ 2, t and F statistics; Correlation and regression, curve fitting by least squares methods.<br>• Basic principles, organization and operational aspects of computers, operating systems. Introduction to MS-Office, MS-Word, MS-Excel. Statistical Data analysis based on above topics through MS-Excel | Exposure to various statistical methods to analyze their experimental data |
| | | MBB 555 | • Introduction, biological databases – primary, secondary and structural, Protein and Gene Information Resources – PIR, SWISSPROT, PDB, genebank, DDBJ. Specialized genomic resources.<br>• DNA sequence analysis, cDNA libraries and EST, EST analysis, pairwise alignment techniques, database searching, multiple sequence alignment.<br>• Secondary database searching, building search protocol, computer aided drug design – basic principles, docking, QSAR.<br>• Analysis packages – commercial databases and packages, GPL software | To impart an introductory knowledge about the subject of bioinformatics to the students studying any discipline of science. |

**6.4.6. Supervision of students in PG/PhD programmes:** *Number of students being supervised by Faculty in case of Masters/Ph.D. Programme (as per ICAR/UGC guidelines). Mention the realistic figure numbers of qualified faculty in relation to the intake of the students, as pre the guidelines in the matter.*

**Supervision of M.Sc. Students in PG Programme offered by the Department:**

| Year | Number of students on roll | Number of PG faculty | Student-teacher Ratio |
|---|---|---|---|
| 2018-19 | 16 | 09 | 1.77:1 |
| 2019-20 | 9 | 08 | 1.12:1 |
| 2020-21 | 12 | 08 | 1.50:1 |
| 2021-22 | 7 | 07 | 1.00:1 |
| 2022-23 | 7 | 07 | 1.00:1 |

**Details of Ph.D. Programmes offered by the Department:**

| Year | Number of Students on roll | Number of PG faculty | Student-teacher Ratio |
|---|---|---|---|
| 2018-19 | 24 | 09 | 2.66:1 |
| 2019-20 | 23 | 08 | 2.87:1 |
| 2020-21 | 30 | 08 | 3.75:1 |
| 2021-22 | 27 | 07 | 3.37:1 |
| 2022-23 | 23 | 07 | 3.28:1 |

**6.4.7. Feedback of stakeholders:** *Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the Degree Programme. What action the University has taken in last five years to address the issues raised in the feedback?*

The stakeholders' feedback on the overall performance and quality of the institutions is obtained through general meetings with parents and interaction with alumni. The teachers get

informal feedback from the students based on their parents' observations and suggestions. These suggestions are conveyed to the HODs and controlling officers.

Department has also initiated work on the slow release of fertilizers and pesticides, and qualitative determination of pollutants for the betterment of farmers.

**6.4.8. Student intake and Attrition in the Programme for last Five Years:** *Year wise information on sanctioned strength, actual intake and attrition in the last five years of the Degree Programme, in the tabular form, shall be provided.*

| Name of the Degree Programme | Actual Student Admitted in last Five Years | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| **M.Sc (Molecular Biology & Biotechnology)** | 4 | 3 | 4 | 4 | 3 | 20 | 33 | 20 | 25 | 0 |
| **M.Sc (Bioinformatics)** | 2 | 0 | 2 | 4 | 5 | 33 | 0 | 0 | 20 | 0 |
| **PhD (Molecular Biology & Biotechnology)** | 4 | 8 | 5 | 7 | 3 | 33 | 11 | 28 | 0 | 0 |

**6.4.9. Information and Communication Technology (ICT) Application in Curricula Delivery:** *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical. Mention whether the Degree Programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned.*

The faculty member of the Department of Molecular Biology, Biotechnology &Bioinformtics use ICR in teaching and practical. There is one Seminar Room with computer, LCD projector, Smart Board, Podium with computer facility and internet connection. All faculty members have computer printer and internet connection in their offices. There is Wi-Fi facility for faculty, staff and students. This infrastructure provides opportunities for the use of ICT in quality teaching, research and extension. Faculty members use power point presentations. You Tube and CD ROM in teaching all courses at UG, PG and Ph.D. level. In addition to this Google team, Microsoft team etc. are also used for UG students.

**6.4.10.** The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG andPh.D. degree programmes, separately, and to be presented College-wise.

**6.4.11.** Since the accreditation of programmes is related to the all India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

**6.4.12.** Certificate (Applicable when SSR is submitted for Programme):

I, the Dean **Dr. Neeraj Kumar** hereby certify that the information contained in thesection 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

**Signature of Dean of the College with Date & Seal**

# PROGRAMME – 8

# M.Sc. Physics

# and

# Ph.D. Physics

## 6.4 About the Department

The department of Physics was established in consequent upon the decision taken by the Academic Council vide item No. B-5 in its 474th (emergent) meeting held on 12.12.2017 and the provision laid down under Clause-1 of Chapter-XIX of the Statutes of Chaudhary Charan Singh Haryana Agricultural University, Hisar, Dr. Paul Singh as the founder Professor & Head. The department has efficient and dedicated faculty comprising of Dr. Rita Dahiya (Prof. & Head), Dr. Paul Singh (Professor), Dr. Vinay Kumar (Assistant Professor) and they had laid a sound and solid foundation for multidimensional growth and development of the department. The department was bifurcated in February, 2018 from the erstwhile department of Math, Statistics & Physics. In the year of inception *i.e.* 2017, the department offered M.Sc. programme and admitted four students. During the short span of just five years since its inception, the department has contributed immensely in areas of teaching and research. The department has also started Ph.D. program in 2019 with admission of three students. Presently, the department is involved in teaching of physics courses of M.Sc. and Ph.D. Physics programmes and UG of the other constituent colleges of the university.

The department has developed the state of art laboratories for conducting the research in various advanced areas of the discipline. The faculty has published good number of research papers in journals of national and international repute; and over two dozen of popular science articles in many newspapers and magazines. The faculty member has been the recipient of Best Teacher award, DAAD and INSA fellowships. The faculty has presented papers in conferences, symposia and workshops held at various institutes. The faculty has been on the board of selection committees, research paper editors and reviewers, paper setters, paper evaluators, PG practical examiners for many institutes, etc. The faculty members have also published books and book chapters for undergraduate classes of state universities. For the ease of UG students of I.C. College of Home Science and College of Agricultural Engineering & Technology of the university, manuals have been prepared by the faculty members.

During five years of existence of the department, every year, on an average three students were admitted in M.Sc. and two students in Ph.D. Currently, there are 5 M.Sc. students and 10 Ph.D. students are on roll in the department. Out of these, 7 Ph.D. students have been recipient of JRF and further 3 of these have been awarded SRF.

### Objectives of the Department

- To achieve excellence in teaching to serve the student for their holistic growth and development
- To hone the skills of the students in the field of Physics and inculcate the habit of independent thinking
- To conduct research in thrust areas of interdisciplinary and Physics

**6.4.1. Brief History of the Degree Programme:** *Clearly mention in which year the Degree Program was initiated along with its objective and accomplishments.*

The M.Sc. programme in Physics was commenced in year 2017 by admitting four students. The students are admitted through the entrance exam conducted by the university every year. The minimum qualification for admission to M.Sc. programme is B.Sc. (Hons.) Physics/B.Sc. (Physics+ Chemistry+Math)/B.Sc. (Physics+Math+Comp. Sc.) / B.Sc. (Physics+Math+Computer Application). The minimum duration for the programme is 2 years and maximum duration is 4 years. The medium of instruction followed is English.

### Objectives of Initiating M.Sc. Programme

- To expose students to both the theoretical and practical aspects of physics for inculcating competency to achieve best job opportunity
- To enhance students' potential by exposing them to scientific experimentation
- To teach physics for meeting up the technical support to industry and education system and to train and equip researchers and professionals to face the issues posed by agriculture, industry and environment

### Accomplishments of M.Sc. Programme

- The department has developed laboratories for conducting practical classes and research for M.Sc. programme. The labs are equipped with the required infrastructure.
- Thirteen students were admitted in M.Sc. programme during the period under report (**Annexure PHY- I),** five students are on roll (**Annexure PHY-II)** andeleven students of the department have awarded M.Sc. degree (**Annexure PHY-X**). The students received scholarships during degree programme (**Annexure PHY-VI).**
- Two of M.Sc. students have got job in government of Haryana (**Annexure PHY-V)**.
- Students are continuously guided to write research papers and encouraged to participate in conferences and symposia (**Annexure PHY-III**) and published research papers (**Annexure PHY-IX).**

### Objectives of Initiating Ph.D. Programme

Ph. D. programme in Physics was commenced in 2019 with the following objectives:

- To provide platform to students to implement their ideas leading to desired results and qualified human resource in the niche areas
- To hone the skills of researchers to find solutions of the issues faced by society
- To contribute in research arena of Physical Sciences in general and especially in thrust areas such as:
  - Synthesis of nano-materials using agricultural waste
  - Development of micronutrient nano-fertilizers
  - Synthesis of smart materials and their applications in agriculture and energy storage device
  - Use of gas sensor for detecting hazardous gases
  - Quality assessment of agricultural products
  - Waste management

### Accomplishments of Ph.D. Programme

- Establishment of well equipped research laboratories having state of the art instruments for conducting research
- To produce advanced quality human resource in the discipline of Physics
- Human resource generation in Physics and allied fields
- Till date, 10 Ph.D. students are admitted in the department (**Annexure PHY- I**) and working on projects to meet the need of the hour (**Annexure PHY-II)**.
- Ph.D. students published four research papers and contributed one book chapter in last five years (**Annexure PHY- IX**)

- The students participated in conferences and symposia of national and international level (**Annexure PHY-III**)
- Students in doctoral programme attended the trainings from time to time. In last five years three students attended training (**Annexure PHY-IV**)
- Seven students cleared NET/JRF/GATE in last five years (**Annexure PHY-VII**) and seven students are recipient of JRF/SRF (**Annexure PHY-VIII**)

### Student Data for the Last Five Years

**Name of the Department**:**Physics**

| Degree programme offered by the | Specialization | Year of start | No. of seats | | | | | | No. of students passed out | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | Total | 2019-20 | 2020-21 | 2021-22 | 2022-23 | Total |
| M.Sc. | Physics | 2017 | 03 | 02 | 03 | 03 | 02 | 13 | 4 | 3 | 01 | 03 | 11 |
| Ph.D. | Physics | 2019 | -- | 3 | 2 | 2 | 3 | 10 | - | - | - | - | - |
| | | | **Detail in Annexure I** | | | | | | | | | | |

**6.4.2. Faculty Strength:** *The faculty strength of the Degree Programme needs to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of research staff, extension staff, contractual faculty, guest faculty adjunct faculty or any other arrangements is being made to complete the curriculum, it should be clearly mentioned in the report.*

| S. No. | Designation | Sanctioned | In place | Vacant |
|---|---|---|---|---|
| 1. | Professor and equivalent | 0 | 0 | 0 |
| 2. | Associate Professor and equivalent | 0 | 0 | 0 |
| 3. | Assistant Professor and equivalent | 06 | 01+02** | 03 |
| | Total | 06 | 03 | 03 |

**Note:** All the faculty of this programme is assigned the responsibilities for the multiple programmes. *The number of faculty also includes personal promotees.

** It includes two Assistant Professors promoted to Professors under CAS.

### Faculty Profile

At present there are two Professors (promoted under CAS) and one Assistant Professors/ equivalents. Faculty of the department published more than 25 research papers in journals of national and international repute, three book chapters and one course manual in last five years. Three posts of Assistant Professors have already been cleared from post clearance committee and the case for filling the above posts have also been sent to the competent authority.

| S. No. | Name | Designation | E-mail | Field of specialization |
|---|---|---|---|---|
| 1. | Dr. Rita Dahiya | Prof. & Head | ritajbd@yahoo.com | Material Science and Soil Physics |
| 2. | Dr. Paul Singh | Professor | psmehla@gmail.com | Nuclear Track Filter |
| 3. | Dr. Vinay Kumar | Assistant Professor | vinay23@hau.ac.in | Seismology, Material Science |

**6.4.3. Technical and Supporting Staff:** *The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

| S. No. | Designation | Sanctioned | Technical and supporting staff in place |
|---|---|---|---|
| 1. | Clerk | 1 | 1 |
| 2. | Lab staff | | |
| | ➢ Lab Assistant | 1 | 1 |
| | ➢ Sr. Lab Asstt. | 1 | 1 |
| 3. | Field staff | - | - |
| Total | | 03 | 03 |

Note: All the staff is assigned the responsibilities for the multiple programmes.

**6.4.4. Classrooms and Laboratories:** *Mention the number of class rooms and functional laboratories available for the Degree Programme and justify if it is sufficient to meet the course curricula requirement. Lists major equipments, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention Theory and practical batches for the Degree Programme.*

**List of Classroom and Functional Laboratories**

| | |
|---|---|
| No. of seminar rooms with sitting capacity | One seminar room with sitting capacity of 30 |
| No. of laboratories with specialized purpose | **Three Research, One PG and Two UG laboratories** |
| | **Lab no. 112:** Advanced Equipment Lab |
| | **Lab no. 115:** Material Synthesis Lab |
| | **Lab no 403:** PG lab for M.Sc. Students |
| | **Lab no. 404:** Thin Film Lab |
| | **UG Lab: I** |
| Farm facilities | One Screen house |
| Workshops | -- |

**Other Instructional Units being utilized for the Award of Degree Programme**

| Instructional Units | Functioning |
|---|---|
| 1. Seminar room | Seminar room is used for presentation of assignments and delivering seminars by PG students and also used for conducting PG classes. |

**List of Major Equipments Available in the Department**

| Sr. No. | Place | Name of equipment |
|---|---|---|
| **1.** | Lab. No. 112 | Impedance Analyzer (1MHz to 1 GHz), Thermal Properties Analyzer, Photo Luminescence Setup, FTIR Bench Top System, Hydrothermal Autoclave 100 ml |
| **2.** | Lab. No. 115 | Magnetic Stirrer with Hotplate, pH Meter, Conductivity –TDS Meter, Votex Mixer, Hydrothermal Autoclave, Voltage Regulation Apparatus, Hot air Oven, Water Bath, Desiccators, Seiver Shaker, Ultrasonic Probe Sonicator Power, Dielectric Measurement System (4 MHz to 3GHz), Microwave Synthesizer, Refrigerated Centrifuge, Fume Hood |
| **3.** | Lab. No. 403 | Geiger Muller Counter, Quink's Apparatus, Four Probe Apparatus, Hall Effect Apparatus, Curie Temperature Apparatus, Thomson Apparatus, Dielectric Constant Determination Apparatus, Gouy's Apparatus, CRO & |

| | | |
|---|---|---|
| | | Function Generator, Scintillation Detector NaI (Tl), Dielectric Constant Kit, Digital Weighing Balance, Digital Storage Oscilloscope, Op Amp Application Apparatus, Microprocessor, Digital Function Generator 1 MHz, Ultrasonic Cleaners, Thermal Evaporation System, Microwave digestion system, Gas Sensor Setup, Automatic Spin Coating System, Mass Flow Controller |
| **4.** | Lab. No. 404 | Gamma Ray Spectrometer and Gamma Ray, Double Distillation Water Unit, Hot Air Oven, Muffle Furnace, Multichannel Electrochemical Workstation, Tube Furance |
| **5.** | UG Lab | Electrical vibrator and Sonometer Unit, Carey Foster Bridge, Di-electric Constant Equipment, Induced e.m.f Measurement Instrument, PN Junction Diode |

### Theory and Practical batches

**At UG level**, the department of Physics offers 2 courses, one for students of College of Home Sciences and other for College of Agricultural Engineering & Technology.

- For theory in courses, there is one batch for each course
- For practical in courses, one batch for course taught in College of Home Sciences and two batches for course taught in College of Agricultural Engineering & Technology with 20-30 students in each batch

**At M.Sc. level**, the department of Physics offers 15 courses and 08 courses has practical components. There are limited seats in M.Sc. i.e., 2-3 students. Some courses are offered as minor courses for students of other departments. There is one batch for theory and practical classes in all the courses with 2-10 students.

**Similarly at Ph.D. level**, there are limited seats in Ph.D. programmes. Hence, there is only batch for theory classes. For Ph.D. the department of Physics offers 9 courses.

**6.4.5. Conduct of Practical and Hands-on-Training:** *It is important to have a sound grasp of the theory that underlines any professional degree. But there are some skills that can only be learned through hands-on –practice. It is important that much of the learning material in any given course should be provided in way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hand-on-training as per curriculum and meeting above mentioned requirements.*

| Degree program me | Total courses | Practical courses | Hand-on- Training | How far students are getting desired practical and hands-on-training as per the curriculum |
|---|---|---|---|---|
| B.Sc. | 02 (PHY 100 & PHY101) | 02 | | |
| | | PHY100 | • Use of vernier caliper; 'g' by simple pendulum; refraction through slab, refraction through prism; focal length of concave mirror and convex lens; Ohm's law. | Students got introductory knowledge about the Physics lab:<br>• To learn and use basic instruments to be helpful in day to day life. |
| | | PHY 101 | • To find the frequency of A.C. supply using an electrical vibrator;<br>• To find the low resistance using Carey Foster Bridge without calibrating the bridge wire;<br>• To determine dielectric constant | Students got basic knowledge of engineering Physics:<br>• To the instruments to be used for studying magnetic and dielectric properties of the |

| | | | | |
|---|---|---|---|---|
| | | | of material using De Sauty's Bridge;<br>• To determine the value of specific charge (e/m) for electrons by helical method;<br>• To study the induced e.m.f. as a function of velocity of the magnet;<br>• To obtain hysteresis curve (B-H curve) on a C.R.O. and to determine related magnetic quantities;<br>• To study the variation of magnetic field with distance along the axis of a current carrying circular coil and to detuning the radius of the coil;<br>• To determine the energy band gap in a semiconductor using a p-n junction diode;<br>• To determine the slit width from Fraunhofer diffraction pattern using laser beam;<br>• To find the numerical aperture of optical fiber: to set up the fiber optic analog and digital link;<br>• To study the phase relationships in L.R. circuit;<br>• To study LCR circuit;<br>• To study the variations of thermo emf of a copper constantan thermo-couple with temperature;<br>• To find the wave length of light by prism | materials, optical fibers, etc for their application in agricultural engineering. |
| M.Sc. | 15 | 08 | | |
| | PHY 502 | PHY 502 | • To use IC 723 as regulator<br>• To design multivibrators, digital circuits<br>• Use of operational amplifier- as summing amplifier, as adder and subtracter, as multiplier<br>• Analogue computation, comparators and switching circuits<br>• Assembly language programming with 8085 microprocessors | • To understand the basics of circuits like amplifiers (inverting and non inverting), comparators, adders, integrator and differentiator using op-amps. |
| | PHY 505 | PHY 505 | • To determine susceptibility of liquids and solids<br>• To study hysteresis loss of magnetic materials<br>• To determine "g" factor using electron spin resonance<br>• To determine band gap of semiconductors by four probe method at different temperatures | To introduce the students to electric and magnetic properties of the materials. |

| | | | | |
|---|---|---|---|---|
| | | | • To study Hall effect<br>• To study the dispersion relations of monoatomic and diatomic lattice using lattice dynamic kit<br>• To study dielectric constant of materials<br>• To measure curie temperature of ferrimagnetics | |
| | PHY 506 | PHY 506 | • To draw the plateau region for the **Geiger** Muller Counter<br>• To find the dead time of GM counter<br>• To determine antiproton-proton interaction to determine the cross section of the reaction using Bubble Chamber.<br>• To calculate the efficiency of GM counter<br>• To determine energy resolution of gamma ray spectrometer<br>• To determine absorption coefficient of aluminum plates using gamma ray spectrometer.<br>• To calculate the maximum energy For Beta particle<br>• To calculate the half life of Ba-137<br>• To calculate the statistics of counting<br>• To study inverse square law using gamma ray scintillation detector Nal (TI) | • To get aquaint with working of rdiation detectors. |
| | PHY507 | PHY507 | • To calculate the statistics of counting<br>• To study the attenuation of beta particle in plant leaves<br>• To study isotope uptake by plants<br>• To calculate the half life of Ba-137<br>• Neutron activation analysis measurement of the thermal neutron flux<br>• To study the solid state nuclear track detector | • To enhance the understanding of students regarding radiation, their detection and measurement techniques and further to have a deep look into uses of radiation. |
| | PHY 508 | PHY 508 | • To study cooling curve of binary alloy<br>• To study mechanical behaviour of elastomers<br>• To study electrical conductivity of ionic solids<br>• To determine the dielectric constant and dielectric loss of materials<br>• To study susceptibility<br>• To study hysteresis loop of | • To acquaint the students with the properties of various types of materials and their behaviour. |

| | | | | |
|---|---|---|---|---|
| | | | magnetic materials | |
| | PHY 509 | PHY 509 | • To study characteristics of GM counter<br>• To determine half life of a radioactive source<br>• To study statistical fluctuation of data on GM counter<br>• To study inverse square law using Gamma ray scintillation detector NaI (TI)<br>• To study energy resolution of a scintillation spectrometer<br>• Estimation of neutron flux | • To provide a deep understanding of radiation physics and make students familiar with radiation, their detection and analytical techniques. |
| | PHY 510 | PHY 510 | • To study the characteristics of a CRO<br>• Using a multimeter as a measuring device<br>• To study the regulated power supply<br>• To study the astable multivibrator<br>• To study various logic gates | • To acquaint the students with solid state devices and their use for measuringvarious physical parameters. |
| | PHY 513 | PHY 513 | • To study discharge of electricity through gases<br>• Ionization current measurements<br>• To study photoelectric effect and measurements<br>• Geiger Muller counter-quenching time<br>• Thickness measurement of thin films/foils/paper sheets<br>• Half-life determination<br>• Tracer applications of artificial radio nuclides | • To acquaint the students with physical techniques used in agriculture. |
| | PHY 591 | | Master's Seminar | To strengthen teaching skills of students |
| | PHY 599 | | Master's Research | To strengthen research activities of students |
| Ph.D. | 9 | None | | |
| | PHY 691 | | Doctoral Seminar | To strengthen teaching skills of students |
| | PHY 692 | | Doctoral Seminar | To strengthen teaching skills of students |
| | PHY 699 | | Doctoral Research | To strengthen research activities of students |

**6.4.6. Supervision of Students in PG/Ph.D. Programmes:** *Number of students being supervised by Faculty in case of Masters/Ph.D. Programme (as per ICAR/UGC guidelines). Mention the realistic figure numbers of qualified faculty in relation to the intake of the students, as pre the guidelines in the matter.*

**M.Sc. programme**

| Year | Number of students on roll | Number of PG faculty | Student-teacher ratio |
|---|---|---|---|
| 2017-18 | 4 | 2 | 2:1 |
| 2018-19 | 3 | 2 | 1.5:1 |

| | | | |
|---|---|---|---|
| 2019-20 | 2 | 3 | 0.6:1 |
| 2020-21 | 3 | 3 | 1:1 |
| 2021-22 | 3 | 3 | 1:1 |
| 2022-23 | 2 | 3 | 0.6:1 |

**Ph.D. programme**

| Year | Number of students on roll | Number of PG faculty | Student-teacher ratio |
|---|---|---|---|
| 2019-20 | 3 | 3 | 1:1 |
| 2020-21 | 2 | 3 | 0.6:1 |
| 2021-22 | 2 | 3 | 0.6:1 |
| 2022-23 | 3 | 3 | 1:1 |

**6.4.7. Feedback of Stakeholders:** *Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the Degree Programme. What action the University has taken in last five years to address the issues raised in the feedback?*

The stakeholders' feedback on the overall performance and quality of the institutions is obtained through general meetings with parents and interaction with alumni. The teachers get informal feedback from the students based on their parents' observation and suggestions. These suggestions are considered by the HODs and controlling officers.

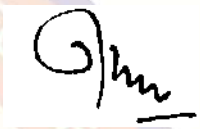
**6.4.8. Student Intake and Attrition in the Programme for Last Five Years:** *Year wise information on sanctioned strength, actual intake and attrition in the last five years of the Degree Programme, in the tabular form, shall be provided.*

| Name of the degree programme | Actual student admitted in last five years | | | | | Attrition (%) | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2017-18 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| M.Sc. (to be supplied by Department) | 3 | 2 | 3 | 3 | 2 | - | - | 50 | - | - | - |

| | Actual student admitted in last five years | | | | Attrition (%) | | | |
|---|---|---|---|---|---|---|---|---|
| Ph.D. (to be supplied by Department) | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| | 3 | 2 | 2 | 3 | - | - | - | - |

***6.4.8.*** **Information and Communication Technology (ICT) Application in Curricula Delivery:** *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical. Mention whether the Degree Programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned.*

The faculty members of department of Physics use ICT in theory and practical classes. There is one seminar room. All faculty members have computer, printer and internet connection in their offices. There is Wi-Fi facility for faculty, staff and students. This infrastructure provides opportunities for the use of ICT in quality teaching and research. Faculty members use power point



presentations, emails and other electronic platforms in teaching all courses at UG, PG and Ph.D. level. During the Covid Pandemic period, the teaching and other academic activities were conducted via on-line modes i.e, Google Meet, Microsoft Team, etc.

**6.4.10.** The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and Ph.D.degree programmes, separately, and to be presented college-wise.

**6.4.11.** Since the accreditation of programmes is related to the all India admission from ICAR and also having weightage for college accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

**6.4.12.** Certificate (Applicable when SSR is submitted for Programme)

I, the Dean **Dr. Neeraj Kumar** hereby certify that the information contained in theSection 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

**Signature of Dean of the College with Date & Seal**

## 6.4. About the Department

The Department of sociology came into existence in 1970 as a constituent department of College of Basic Sciences and Humanities. In erstwhile Punjab Agricultural University, the department was with the department of Economics. There after the discipline of sociology was with the department of Extension Education, College of Agriculture, CCSHAU, Hisar. Since 1971 the department has been fast developing to achieve excellence in teaching and research. The department also caters to the requirements of UG and PG programms of College of Agriculture and I.C. College of Home Science. The faculty of sociology department were awarded fellowships like UGC, ICSSR and Commonwealth etc. Dr. Raj Singh, Dr. R.K. Punia ICSSR, Dr. P.S. Malik, Dr. Subhan Khan, Malkit Kaur and Dr. Vinod Kumari have been the recipient of these fellowships. Dr. Subhash Chander was awarded R.G. UGC fellowship from 2010-13. The department conferred degree to 148 M.Sc. and 47 Ph.D. scholars, some of them occupying high positions at the national level. At present, there are 13 M.Sc. students and 21 Ph.D. students. The department is having a highly trained and talented faculty that consists of one Professor, three Assistant Professors, one Assistant Scientist and one Assistant Scientist (Rural Sociology) in the department of Agril. Economics. Presently the department is working on a research project entitled "Agricultural Technology and Emerging Socio-Economic Changes in Rural Society" and one research project completed namely "Promotion and Impact Analysis of Direct Seeded Rice Technique of Rice Cultivation on the Socio-Economic Status of Farmers in Haryana". The faculty is actively involved in extension work to extend technical knowledge among rural people of adopted village Shamsukh and Nangthala under the Chairmanship of Dean, COBS&H, through various awareness campaign cleanliness drives, demonstration and other activities (***Annexure SOC-XI***). Department has completed three months certificate course on Panchayti Raj and Rural Development as per terms and conditions of department of Development and Panachayat (Government of Haryana). The faculty brought out 67 research publications during last five years. A total of 08 Ph.D. students and 16 M.Sc. students have passed out during the last five years

**Objectives of the department:**

- Development of specialized human resource and expertise through teaching and research based learning in Sociology.
- Research in areas of agricultural technology and emerging socio-economic changes in rural society.

### 6.4.1. Brief History of the Degree/Programme: *Clearly mention in which year the Degree Program was initiated along with its objective and accomplishments.*

The department offered M.Sc./M.A. and Ph.D. degree in rural sociology till 1999 and thereafter M.Sc. and Ph.D. degrees are offered in Sociology. The department has conferred degree to 148 M.Sc./M.A. and 47 Ph.D. scholars, some of them occupying high positions at the national level. At present, there are 13 M.Sc. students and 21 Ph.D. students.

**Objectives of Initiating M.Sc. Programme**

- Development of specialized human resource through teaching and research based learning in Sociology.
- Research in areas of agricultural technology and emerging socio-economic changes in rural society in the following thrust areas:
  - Adoption and impact assessment of new agricultural technologies on rural society of Haryana.
  - Gender studies and women empowerment

- Studies on diversification in agriculture
- Panchayati Raj Institutions (PRIs') and social transformation
- Agrarian social structure and change
- Demographic dynamics
- Social mobility and migration
- Technology and rural social change
- Media and agrarian society
- Consumer rights and agrarian society
- Socio-economic challenges of rural society.

**Accomplishments of M.Sc. Programme**

- The department has conferred degree to 18 M.Sc. students. **(Annexure SOC-X)**
- 42 % (8 out of 19) students went for higher studies during last five years.
- Students were placed in various fields. (**Annexure SOC-V**)
- Students' research brought out 18 publications during last five years on small family norms, gender discrimination towards girl child and problems of women scientist in Haryana.

**Objectives of Initiating Ph.D. Programme**

- Development of specialized human resource and expertise through teaching and research based learning in sociology.
- Research in areas of agricultural technology and emerging socio-economic changes in rural society in the following thrust areas:
  - Adoption and impact assessment of new agricultural technologies on rural society of Haryana.
  - Gender studies and women empowerment
  - Studies on diversification in agriculture
  - PRIs' and social transformation
  - Agrarian social structure and change
  - Demographic dynamics
  - Social mobility and migration
  - Technology and rural social change
  - Media and agrarian society
  - Consumer rights and agrarian society
  - Socio-economic challenges of rural society.

**Accomplishments of Ph.D.Programmes**

- The department has conferred degree to 07 Ph.D. students (**Annexure SOC-XI**).
- Fourteen students cleared UGC-NET during this period (**Annexure SOC-VII**).
- At present, six students availed fellowship from UGC-NET (JRF), New Delhi (**Annexure SOC-VIII**).
- Six students joined as Assistant Professor, Project Manager etc. (**Annexure SOC-V**).
- Forty one students got financial support from UGC/University (**Annexure SOC-VI**).

- Six students participated in seminars/conferences/trainings/workshops etc. **(Annexure SOC-III and SOC-IV)**
- Students' research brought out 09 publications during last five years on problems of debt among farmers in Haryana and Panchayati Raj Act. **(Annexure SOC-IX)**

### Students Data for the Last Five Years

| **Name of Department** | **Sociology** | | | | | | | | | | | | | |

| 5. | Dr. Bas Kaur | Assistant Professor | baskaurbishnoi01@gmail.com 8708955591 | Sociology and Nutritional Status of Children |
| Faculty retired during the period of 2018-23:NIL | | | | |

## Other Achievements of the Faculty

| Sr. No. | Name of faculty | Designation | Name of conference/seminar attended | Year | Award |
|---|---|---|---|---|---|
| 1. | Dr. Vinod Kumari | Professor and Head | International Women's Day 07.03.2020 | 2020 | Awarded by Om Sterling Global University in appreciation of education, training, research and development services provided for the benefits of society |
| 2. | Dr.Jatesh Kathpalia | Assistant Scientist | 11th International Conference on Agriculture, Horticulture and Plant Science (New Delhi) | 2020 | Dr. A.P.J. Abdul Kalam Scientist Award, 2020 |
| 3. | Dr. Rashmi Tyagi | Assistant Professor | 11th International Conference on Agriculture, Horticulture and Plant Science (New Delhi) | 2020 | Dr. A.P.J. Abdul Kalam Scientist Award, 2020 |
| 4. | Dr. Subhash Chander | Assistant Professor | 9th International Conference on Agriculture, Horticulture and Plant Science (Dharamshala, HP) | 2019 | Dr. A.P.J. Abdul Kalam Scientist Award, 2019 |
| 5. | Dr.Jatesh Kathpalia | Assistant Scientist | Role of Higher Education Institutions in Advancing Sustainable Development Goals (Sonepat, Haryana) | 2022 | Best Paper Presenter Award |
| 6. | Dr. Rashmi Tyagi | Assistant Professor | Role of Higher Education Institutions in Advancing Sustainable Development Goals (Sonepat, Haryana) | 2022 | Best Paper Presenter Award |
| 7. | Dr.Jatesh Kathpalia | Assistant Scientist | For outstanding contribution in the field of rural sociology and women empowerment | CAST ESP – 2022 | Scientist of the year |
| 8. | Dr Rashmi Tyagi | Assistant Professor | Best Paper presentation and research work | CAST ESP – 2022) | Distinguished Scientist |
| 9. | Dr. Subhash Chander | Assistant Professor | International Conference on Vision 2047: Sustainable Development towards Atma Nirbhar Bharat (Chandigarh) | 2022 | Award of Excellence in Research - 2022 |

| | | | |
|---|---|---|---|
| **Department** | **Name of Scientist** | **Title of Conference/Seminar/Work shop** | **Venue & dates** |
| Sociology | Dr. Vinod Kumari, Dr. Rashmi Tyagi and Dr. Subhash Chander | Three days Training of Traineers (ToT) programme on "Biodiversity Governance" | Himachal Pradesh Institute of Public Administration, Shimla (HP) during 11th to 13 March, 2019. |
| | Dr. Vinod Kumari, Dr. Jatesh Kathpalia and Dr. Subhash Chander | Seminar on IPR – A mechanism for socio-economic growth. | IPR Cell, DHRM, CCSHAU, Hisar on November 12, 2018. |
| | Dr. Vinod Kumari | National Workshop on Empowering Women through Legal Awareness | Women's Studies Research Centre, Kurukshetra University, Kurukshetra on March 28-29, 2019 |
| | Dr. Jatesh Kathpalia | International Conference on 'A Culture of Learning and Experimentations for Fostering Well-Being: Some Lessons" | New Delhi on December 17, 2018 |
| | | National Seminar on "Innovative Strategies for Gender Equality" | I.C. College of Home Science, CCSHAU, Hisar on March 8, 2019. |
| | Dr. Rashmi and Dr. Subhash Chander | International Symposium on "Innopreneurship: A need of Sustainable Agriculture &Rao-Bahadur Dr. Ram Dhan Singh Fifth Memorial Lecture" | CCSHAU, Hisar from 2-3 February, 2019 |
| Sociology | Dr. Jatesh Kathpalia, Assistant Scientist, Dr. Rashmi Tyagi, Dr. Bas Kaur, Assistant Professor | One day workshop on "Awareness and use of Scopus Citation Database" | Nehru Library, CCS HAU, Hisar on 29th November, 2019 |
| | Dr. Jatesh Kathpalia, Assistant Scientist, Dr. Rashmi Tyagi, Dr. Subhash Chander, Dr. Bas Kaur, Asstt. Prof. | Webinar on "Awareness and Use of e-Resources through Remote Login for Faculty and Students of CCS HAU" | Nehru Library CCS HAU Hisar on 23rd June, 2020 |
| | Dr. Jatesh Kathpalia, Assistant Scientist, Dr. Rashmi Tyagi, Dr. Bas Kaur, Assistant Professor | National Webinar on "Awareness and Use of CeRA Resources through J-Gate Discovery Platform" | Nehru Library CCS HAU, Hisar on June 25, 2020. |
| | Dr. Subhash Chander, Dr. Rashmi Tyagi, Dr. Bas Kaur, Assistant Professor | Refresher course on "Language Skills" organized by Academy of Agricultural Research and Educational Management | DHRM, CCSHAU, Hisar from 27thMay 2020 to June 16th 2020 |
| | Dr. Bas Kaur, Assistant Professor | Induction Training Course | DHRM, CCSHAU, Hisar from 18 Nov, 2019 to 17 December, 2019 |
| | Dr. Rashmi Tyagi, Assistant Professor | Refresher course on Educational Technology | DHRM, CCSHAU, Hisar from Dec 16th 2019 to January 7th 2020 |

| | | | |
|---|---|---|---|
| | Dr. Vinod Kumari, Dr. Jatesh Kathpalia, Dr. Rashmi Tyagi, Dr. Subhash Chander and Dr. Baskaur | webinar-cum-seminar on Teacher's role in NEP Implementation Awareness, Orientation, Challenges & Responses | CCS HAU, Hisar on 24.02.2021. |
| | Dr. Vinod Kumari, Dr. Jatesh Kathpalia, Dr. Rashmi Tyagi, Dr. Subhash Chander and Dr. Baskaur | EBSCO training session on "Effective Utilization & Training workshop | Nehru Library CCS HAU Hisar and EBSCO on 07.05.2021. |
| | Dr. Vinod Kumari, Dr. Jatesh Kathpalia, Dr. Rashmi Tyagi, Dr.Subhash Chander and Dr. Baskaur | Seminar on Improving Quality of Agricultural Research in India | CCS HAU / Elsevier on Wed 30th June 2021 |

**6.4.3. Technical and Supporting Staff:** *The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

| S. No. | Designation | Sanctioned | In place |
|---|---|---|---|
| 1. | Assistant | 01 | - |
| 2. | Sr. Scale Stenographer | 01 | 01 |
| 3. | Messenger | 01 | - |

**Note:** All the staff is assigned responsibility for multiple programmes.

**6.4.4. Classrooms and Laboratories:** *Mention the number of class rooms and functional laboratories available for the Degree Programme and justify if it is sufficient to meet the course curricula requirement. Lists major equipments, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention Theory and practical batches for the Degree Programme.*

There is one seminar cum-lecture-room equipped with LCD and internet facility. (Room No 203) The seminar room is used for teaching classes and conducting seminars. The setting capacity is 40. There is also one departmental library (Room No, 214) with books and thesis for referring to PG students for preparation of assignments, synopsis and others research works. Each faculty member has computer with its peripheral for performing day-to-day assignments.

The facilities in the department are sufficient to meet the requirements of the course curricula.

**Theory and Practical batches for PG Programmes**

- At M.Sc. level, the department offers 15 courses including deficiency courses and 4 courses have practical component. There are limited seats in M.Sc. programme with an average of 4-7 students. Some courses are offered as minor courses for the students of other departments namely Agricultural Economics, Extension Education (COA), Extension Education and Communication Management, Family Resource Management, Human Development and Family Studies (COHS) and Biostatistics and Computers (COBS&H).
- Similarly, at Ph.D. level there are limited seats (3-4) in the department. Hence, there is only batch for theory classes and one batch for practical classes in all the courses. For Ph.D. the department offers 5 theory courses and 2 courses have practical components.

**6.4.9 Conduct of Practical and Hands-on-Training:** *It is important to have a sound grasp of the theory that underlines any professional degree. But there are some skills that can only be learned through hands-on –practice. It is important that much of the learning material in any*

*given course should be provided in way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hand-on-training as per curriculum and meeting above mentioned requirements.*

| Degree/Programme | Total courses | Course details | How far students are getting desired practical and hands-on-training as per the curriculum |
|---|---|---|---|
| B.Sc. (For COA Hisar, COA Kaul and COA Bawalupto 2019-20) and M.A./M.Sc. (Deficiency Course) | 05 | SOC 401 | • Characteristics of rural society.<br>• Social institution: Family, village Panchayat, school<br>• Pattern of social organizations<br>• Selection of lay leaders based on socio-metry<br>• Taboos and social values of rural society.<br>• Rural development programmes<br>• Problems of agriculture: Small size of land holding, Risk in Agriculture and Agrarian unrest, Natural Calamities<br>• Problems of rural society: Food insecurity, poverty and unemployment, rural credit and indebtedness, alcoholism and caste system<br>• Impact of agricultural mechanization on social life of farmers<br>• Field study-cum-institutional visits, preparation of field projects for analyzing the problems of agriculture and rural society, theme based group<br>• Assignments on functioning of gram panchayat, caste system, jajmani system, Mahatma Gandhi National Rural Employment Guarantee Scheme, education system etc. |
| B.Sc. (For COA Hisar, COA Kaul and COA Bawalupto 2019-20) and M.A./M.Sc. (Deficiency Course) | 05 | SOC 402 | • Promoting self-understanding and building positive attitude;<br>• Interpersonal communication skills; conflict management; nature and scope;<br>• Motivation: meaning, definition and types;<br>• Organizational development;<br>• Stress management: meaning, factors and methods of stress management, yoga, meditation and other exercises for healthy life style;<br>• Time management and behavioural skills; management of change and behavioural skills;<br>• Leadership skills: concept of leadership, leadership styles, characteristics of leaders, pattern of leadership;<br>• Group relations; group behaviour: concept of group, features of group, elements of group, forms of interaction in group;<br>• Decision making: definition, process and elements of decision making, type of decision makers, and art of making decision, decision making and problem solving technique.<br>• Course is based on participatory process with the teacher playing the role of facilitator, the learners centered approach adopted by the teacher includes activities designed as interactive and experimental with the resulting emphasis on learning by doing the exercises such as: group discussion, case study, exercise/game, self –analysis by students about their styles and behaviour, role play and participants presentations. |
| **Degree programme** | **Total courses** | **Course details** | **How far students are getting desired practical and hands-on-training as per the curriculum** |

| | | | • Pattern of social organizations<br>• Selection of lay leaders based on sociometry<br>• Taboos and social values of rural society.<br>• Field study-cum-institutional visits, preparation of field projects for analyzing the problems of agriculture and rural society, theme based group<br>• Assignments on functioning of caste system, jajmani system, |
| **M.Sc.** | **04** | **SOC 503** | The students get practical exposure on the following aspects:<br>• Quantitative methods and survey research: Assumptions of quantification and neaverenat. Survey techniques, operationalism and research design, sampling design, questionnaire construction, interview schedule, measurement and scaling, reliability and validity, limitations of survey.<br>• Qualitative research techniques: Technique and methods of qualitative research, participant observation/ethnography interview guide, case study method, content analysis, oral history, narratives, life history, genealogy.<br>• Triangulation-mixing qualitative and quantitative methodologies, social research, action research, participatory research.<br>• Application of computers in social research. e.g SPSS, ethical issues in social research. |
| | | **SOC 512** | • Use of computers for statistical analysis data, field based survey for collection and analysis of social science data etc.<br>• Application of computers in social research. e.g. SPSS, ethical issues in social research. |
| | | **SOC 513** | Field and institutional visits, preparation of field project for analyzing the emerging problems of rural society, theme based group assignments namely<br>• Characteristics of rural society, family, village panchayat, school, rural development programmes, problems of agriculture: small size of land holding, risk in agriculture and agrarian unrest, natural calamities, problems of rural society: food insecurity, poverty and unemployment, rural credit and indebtedness, alcoholism and caste system, impact of agricultural mechanization on social life of farmers |
| | | **SOC 599** | • Students use practical knowledge to conduct researches in areas of Sociology:<br>• Conduct interaction programmes with rural families and communities, as well as develop literature and strategies.<br>• Field visit in rural area regarding socio-economic problems etc. |
| **Ph.D.** | **02** | **SOC 605** | • Field based survey for collection of data for various research problems<br>• Use of M.S. Excel<br>• SPSS for statistical analysis of India |
| | | **SOC 699** | • Students use practical knowledge to conduct researches in areas of Sociology:<br>• Conduct interaction programmes with rural families and communities, as well as develop literature and strategies.<br>• Field visit in rural area regarding gender studies and related health. |

**6.4.10 Supervision of Students in PG/Ph.D. Programmes:** *Number of students being supervised by Faculty in case of Masters/Ph.D. Programme (as per ICAR/UGC guidelines). Mention the realistic figure numbers of qualified faculty in relation to the intake of the students, as pre the guidelines in the matter.*

**M.Sc.Programmes**

| Year | Number of students on roll | Number of PG faculty | Student-teacherratio |
|---|---|---|---|
| 2018-19 | 06 | 06 | 1:1 |
| 2019-20 | 04 | 05 | 0.8:1 |
| 2020--21 | 06 | 05 | 1.2:1 |
| 2021-22 | 04 | 05 | 0.8:1 |
| 2022-23 | 05 | 06 | 1:1.2 |

**Ph.D. Programmes**

| Year | Number of Students on roll | Numberof PG faculty | Student-teacher ratio |
|---|---|---|---|
| 2018-19 | 02 | 06 | 1:3 |
| 2019-20 | 05 | 05 | 1:1 |
| 2020--21 | 06 | 05 | 1.2:1 |
| 2021-22 | 08 | 05 | 1.6:1 |
| 2022-23 | 03 | 06 | 0.5:1 |

**6.4.11 Feedback of stakeholders (Students, parents, industries, employers, farmers etc.):** *Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the Degree Programme. What action the University has taken in last five years to address the issues raised in the feedback?*

Feedback of PG students is taken regarding teaching and improvement is made according to suggestions/observations. The performance of the faculty is also reviewed on the basis their results and feedback from the students. Valuable suggestions provided by institution are incorporated in the curriculum.The stakeholders' feedback is obtained through general meetings with parents and interaction with alumni to improve overall performance and quality of the university. The teachers get informal feedback from the students based on their parents' observations and suggestions. These suggestions are conveyed to the HODs and controlling officers.

**6.4.12 Student In-take and Attrition in the Programme for Last Five Years:** *Year wise information on sanctioned strength, actual intake and attrition in the last five years of the Degree Programme, in the tabular form, shall be provided.*

| Name of the degree/ programme | Actual student admitted in last five years | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| M.Sc./M.A. (Sociology) | 08 | 04 | 06 | 04 | 05 | 0 | 25 | 0 | 0 | 0 |
| Ph.D. (Sociology) | 02 | 05 | 06 | 08 | 03 | 0 | 40 | 0 | 12.5 | 0 |

**Note:** Figures in parenthesis indicate number of attrition.

**6.4.13 Information and Communication Technology (ICT) application in curricula delivery:** *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical. Mention whether the Degree Programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned.*

The faculty members of department of Sociology use ICT in teaching including practical of all the courses. There is one seminar room with computer, LCD projector and internet connection. All faculty members have computer printer and internet connection in their offices. There is Wi-Fi facility for faculty, staff and students. This infrastructure provides opportunities for the use of ICT in quality teaching, research and extension. Faculty members use power point presentations, YouTube, emails and CD ROM in teaching all courses at UG level. Students also use online books.

The faculty members of department of sociology use ICT in teaching including of all practicals. There is one seminar room with computer, LCD projector and internet connection. All faculty members have computer, printer and internet connection in their offices. There is Wi-Fi facility for faculty, staff and students. This infrastructure provides opportunities for the use of ICT in quality teaching, research and extension. Faculty members use power point presentations, YouTube, emails, google meet, zoom meeting and CD ROM in teaching all courses at UG level.

**6.4.14** The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and Ph.D. degree programmes, separately, and to be presented college-wise.

**6.4.15** Since the accreditation of programmes is related to the All India admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

**6.4.16** Certificate (Applicable when SSR is submitted for programme)

I, the Dean **Dr. Neeraj Kumar** hereby certify that the information contained in theSection 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

**Signature of Dean of the College with Date & Seal**

### 6.4 About the Department

The combined Department of Zoology-Entomology of the erstwhile Punjab Agricultural University and subsequently of the Haryana Agricultural University functioned for almost seven years but a major thrust was on plant protection especially toxicology. In order to strengthen the role of Zoology in education and to exploit its areas, a need was felt to develop this discipline for evolving technology and serving as base for increasing agricultural production. Thus, an independent department of zoology came into existence on October 26, 1971 with eminent scientists and academician in chair like late dynamic Prof. R. P. Kapil and Prof. R.B. Mathur who nurtured it with their academic excellence and vision. The department offers M.Sc. and Ph.D. degrees in Zoology. The department also caters to the requirements of UG programs of College of Agriculture, Hisar, Kaul, Bawal and College of Home Science. The department has so far conferred degree to 128 M.Sc. and 75 Ph.D. scholars some of them occupying high positions at the national level. Most of our students have been getting fellowship like POSE, CSIR, ICAR, DST (INSPIRE), RGNP and merit fellowships. The department is having a highly trained and talented faculty that consists of two Professors and four Assistant Professors. Presently the faculty of this department is working on the molecular characterization of plant and stored mites, quantitative and qualitative losses due to mites, avian biology, rodent pest management and vermiculture. Along with this, work is also going on the effect of pesticides and heavy metals on earthworm's growth, reproduction and development.

During last five years on an average four students were admitted in M.Sc. and five students in Ph.D. Presently 10 M.Sc. students and 27 Ph.D. students are on roll.

There is no UG programme going on in the department, however, department is offering five UG Courses to undergraduates of College of Agriculture Bawal, Kaul and Hisar and two UG courses to undergraduate students of I.C. College of Home Science.

#### Objectives of the Department

- To provide quality education to students and develop skilled manpower in the field of zoology
- To develop professionals in zoology
- To conduct research in thrust areas related to vertebrate and invertebrate pest management

**6.4.1 Brief History of the Degree Programme:** *Clearly mention in which year the Degree Program was initiated along with its objective and accomplishments.*

M.Sc. programme in Zoology was initiated in the year 1971. Entry qualification for master's programme is B.Sc/B.Sc. (Hons.) in Biology/ Life Sciences. Minimum duration of the programme is 2 years and maximum duration is 4 years. Medium of instruction is English.

#### Objectives of Initiating M.Sc. Programme

- To teach zoology for meeting up the technical support to industry and education system
- To create the masters in zoology with specialization in different areas of it

#### Accomplishments of M.Sc. Programme

- The department has well developed infrastructure for the M.Sc. programme with seminar rooms and well-equipped modern state of art laboratories
- The department has conferred degree to 128 M.Sc. students.
- In the last five years 56 students were admitted (**Annexure ZOO-I**).
- Presently 27 Ph.D. and 10 M.Sc. Zoology students are enrolled (**Annexure ZOO-II**).

- Quality human resource generation in zoology and allied field
- Students were encouraged to participate in conferences and symposia. Ten students from M.Sc. participated in conferences and symposia (**Annexure ZOO-III**)
- M.Sc. students published 40 research papers in last five years (NAAS rating 0-4: 11 papers; 4-6: 01papers; >6: 1 papers) (**Annexure ZOO-IX**)

### Objectives of initiating Ph.D. Programme

- To produce advanced quality human resource in the discipline of zoology
- The program objectivesare to train and equip researchers and professionals to face the issues posed by agriculture, industry and environment
- Contribution in agricultural research, especially in thrust area like:
  - Quantitative and qualitative losses in post-harvest, agricultural crops and other organisms due to invertebrate and vertebrate pests
  - Application of ecofriendly measures for invertebrate and vertebrate pest fauna
  - Exploration and conservation of beneficial fauna for farmers' welfare
  - Role of microorganisms in pest and disease management of agricultural fauna
  - Effect of agrochemicals on agriculturally important invertebrate and vertebrate fauna
  - Intensive fish culture for the employment of rural youths and to enhances the farmers' income

### Accomplishments of Ph.D. Programme

- The department has well developed infra structure for the Ph.D. programme including seminar room and well-equipped modern state of art laboratories with four screen houses
- Quality human resource generation in zoology and allied field
- The department has so far conferred degree to 75 Ph.D. scholars some of them occupying high positions at the national level
- Fifteen students participated in conferences and symposia of national and international level (**Annexure ZOO - III**)
- Students in doctoral programme attended the trainings from time to time. In last five years ten students attended various trainings (**Annexure ZOO - IV**)
- Eighteen students joined higher education and placed very well in institutes of national and international repute (**Annexure ZOO - V**)
- Twenty nine students got fellowships/ stipend from university and other sources (**Annexure ZOO - VI**)
- Thirty six students have qualified NET, GATE and other national level exams in last five years (**Annexure ZOO - VII**)
- Twentyone of our students have been getting fellowship like POSE, CSIR, ICAR, DST (INSPIRE), RGNP and merit fellowships (**Annexure ZOO - VIII**)
- Ph. D. students published 49 research paper in last five year (NAAS rating 0-4: 15 papers; 4-6: 27 papers; >6: **7** papers) (**Annexure ZOO - IX**)
- List of Pass Out students of M.Sc and Ph. D. (**Annexure ZOO – X**)
- Alumni of the department are well placed at higher position in India and abroad

### Student Data for the Last Four years

| Name of the Department | Zoology | | | | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Degree programme offered by the department | Specialization | Year of start | No. of seats | | | | | | No. of students passed out | | | | | |
| | | | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | Total | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | Total |

| Ph.D. | Zoology | 1971 | 07 | 07 | 04 | 03 | 08 | **29** | 02 | 02 | 02 | 02 | 03 | **11** |
| | | | **Detail in Annexure I** | | | | | | | | | | | |

**6.4.2 Faculty Strength:** *The faculty strength of the Degree Programme needs to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of research staff, extension staff, contractual faculty, guest faculty adjunct faculty or any other arrangements is being made to complete the curriculum, it should be clearly mentioned in the report.*

| S. No. | Designation | Sanctioned | In place | Vacant |
|---|---|---|---|---|
| 1. | Professor and equivalent | 01 | 01 | - |
| 2. | Associate Professor and equivalent | 01 | 00 | 01 |
| 3. | Assistant Professor and equivalent | 06 | 03+1* | 02 |
| | Total | 08 | 05 | 03 |

**Note:** All the faculty of this programme is assigned theresponsibilities for the multiple programmes.

### Faculty Profile

At present there are six Assistant Professors/ equivalents. Faculty of the department published more than 72 research papers in journals of national and international repute.

One vacancy of Associate Professor and one vacancy of Assistant Professor have already been advertised.

| S. No. | Name | Designation | email and Mobile No. | Specialization |
|---|---|---|---|---|
| 1. | Dr. R.K. Gupta | Professor & Head | gupta_raj123@yahoo.co.in 9812096774 | Vermiculture |
| 2. | *Dr.Rachna Gulati | Professor | jdccshau@gmail.com 9416266015 | Acarology |
| 3. | Dr. Dharambir Singh | Assistant Professor | dharambir.titu@gmail.com 9468073854 | Vermiculture |
| 4. | Dr. Ravikant | Assistant Professor | rkantazad@hau.ac.in 9466264314 | Rodenology |

| | | | | |
|---|---|---|---|---|
| 5. | Dr. Tejpal Dahiya | Assistant Professor | dahiyahau@gmail.com 9467482165 | Avian biology |
| 6. | Dr. Shikha Ahalawat | Assistant Professor | shikhaahlawat81@gmail.com 8630602825 | Nematology |
| 7. | Dr. Gajender Singh** | Assistant Scientist/DES | drgajendersingh1@gmail.com 9416380349 | Fishery sciences |

[*] *Faculty posted in COFS* *** Faculty posted in KVK PKL*

**6.4.3. Technical and Supporting staff:** *The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

| S. No. | Designation | Sanctioned | In place |
|---|---|---|---|
| 1. | Assistant | 01 | 0 |
| | Clerk | 01 | 01 |
| | PA/Steno | 01 | 01 |
| | Messenger | 01 | 00 |
| 2. | Lab staff | | |
| | Lab Assistant | 03* | 03* |
| | Total | 07 | 05 |

*Note: All the staff is assigned the responsibilities for the multiple programmes.*

**Posted in COFS*

**6.4.4. Classrooms and Laboratories:** *Mention the number of class rooms and functional laboratories available for the Degree Programme and justify if it is sufficient to meet the course curricula requirement. Lists major equipments, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention Theory and practical batches for the Degree Programme.*

**List of classroom and functional laboratories**

| | |
|---|---|
| No. of lecture rooms with sitting capacity | Three (One seminar room with 25 sitting & one UG/PG lab, one UG lab at IATTE building) |
| No. of lecture rooms with LCD | One |
| No. of labs under Dean's office with specialized purpose | **Seven Research, one UG and One PG** |
| | **Vermifish technology lab. 302:** Vermiculture lab experiments |
| | **Animal physiology lab 305:** Animal physiological studies |
| | **Taxonomy lab 306 :** **S**tudying taxonomical aids |
| | **Rodentology lab:** Rodent pest management |
| | **Acarology lab:** Mites management lab |
| | **Avian biology lab**: Avi-faunal study lab |
| | **Animal behaviour lab:** Animal behavior study |
| Farm facilities | **Four Screen houses -** |
| Workshops | - |

| | |
|---|---|
| Any other instructional units being utilized for the award of the Degree Programme | - |

### Other Instructional Units being Utilized for the Award of Degree Programme

| Instructional Units | Functioning |
|---|---|
| 1. Seminar room with LCD | Seminar room is used for presentation of assignments and delivering seminars by PG students and also used for conducting PG classes. |
| 2. Departmental library | Reference material, journals, thesis etc. are referred by PG students for preparation of assignments, synopsis and thesis work. |
| 3. UG/PG Lab | UG/PG lab having 30 seating capacity to teach the students |
| 4. Museum | A well-equipped Zoology museum |

### List of Major Equipments Available in the Department

| S. No. | Location (Lab no.) | Name of equipment |
|---|---|---|
| 1. | Lab No. 302 | Autoclave, Electric Balance, Autoclave, Conductivity Meter, Oven, LAF, High speed Centrifuge, Solvent Extractor , Elisa Reader, Gel Documentation System , UV Vis Spectrophotometer, PCR, Water Bath,Binocular Microscope, Refrigerators and Acs & BOD. |
| 2. | Lab No. 305 | Deep Freezer & BOD |
| 3. | Lab No. 306 | Water Purification System & Students Microscopes |
| 4. | Lab No. 307 | Electric Balance, Spectrophotometer, Autoclave, Oven, Refrigerators and Acs, DSLR, Handycam, LAF (Verticle), Inverted Microscope, Trinocular Microscope, pH Meter, BOD &Electronic Balance |
| 5. | Lab No. 310 | UPS /Battery |
| 6. | UG/PG Lab | Students Microscopes |

### Theory and Practical Batches

- At UG level, the department of Zoology offers 07 core courses, having practical components.
- For theory in core courses, there are three batches in IC College of Home Science and one batch for each College of Agriculture (Hisar, Kaul and Bawal), respectively with an average of about 40-45 students in each batch.
- For practical in core courses, there are two batches in College of Agriculture (Hisar, Kaul and Bawal) respectively with an average of about 25-30 students in each batch and three batches for College of Home Science with 20-30 students in each batch.
- At M.Sc, level, the department of Zoology offers 12 courses with practical components. There are limited seats in M.Sc. programme with an average of 4-5 students. Some courses are offered as minor courses for students of other departments. There is only batch for theory classes and one batch for practical classes in all the courses with an average of 4-8 students.
- Similarly, at Ph.D. level there are limited seats in Ph.D. programmes. Hence, there is only batch for theory classes and one batch for practical classes in all the courses. For Ph.D., the department of Zoology usually offers 10 courses and 03 courses have practical components.

**6.4.5 Conduct of Practical and Hands-on-Training:** *It is important to have a sound grasp of the theory that underlines any professional degree. But there are some skills that can only be learned through hands-on –practice. It is important that much of the learning material in any given course should be provided in way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hand-on-training as per curriculum and meeting above mentioned requirements.*

| Degree programme | Total courses | Practical courses | Course details | How far students are getting desired practical and hands-on-training as per the curriculum (bullet form) |
|---|---|---|---|---|
| B.Sc. (Community Science) | 02 | 02 | 02 | |
| | ZOO 100 | ZOO 100 | • Nature and scope of zoology<br>• Taxonomic classification of animal kingdom<br>• Animal life: structure and functions<br>• Tissues – Epithelial, Muscular, Connective and Nervous Tissue<br>• Body systems<br>• Digestive System<br>• Circulatory System<br>• Excretory System<br>• Reproductive System<br>• Applications of biology<br>• Communicable diseases<br>• Immune responses<br>• Inherited and sex linked diseases<br>• Cancer<br>• Human population growth | Basic knowledge about the zoology laboratory |
| | ZOO 102 | ZOO 102 | • Microscopic structure of mammalian tissues; study of some physiological functions, study of some physiological experiments<br>• Test for the presence of carbohydrates, starch, fat and proteins<br>• The effects of temperature on the activity of salivary amylase on starch<br>• To test the given sample of urine for the presence of urea/ albumin.<br>• To test the given sample for the presence of sugar in urine/blood sample). | Basic knowledge about the human physiology. |
| B.Sc. (Hons) Ag. | 05 | 05 | | |
| | BIO I * | BIO I * | • To study the parts of a dissecting and compound microscope.<br>• To study of specimens and identification with reasons: bacteria, Oscillatoria, Spirogyra, Rhizopus, mushroom, yeast, liverwort, moss, fern, pines, one monocotyledon and one | Basic knowledge about the course 'BIOLOGY-I' |

| | | | | |
|---|---|---|---|---|
| | | | dicotyledon and one lichen;<br>• Diversity in shape and size of cells in different plant and animal tissues *(e.g.*parenchyma, palisade, collenchyma, sclerenchyma, xylem, phloem, squamous epithelium, muscle fibres and mammalian blood smear through temporary/permanent slides)<br>• Study of specimens and identification: Amoeba, Hydra, Liverfluke, Ascaris, leech, earthworm, prawn, silkworm, honey bee, snail, starfish, shark, rohu, frog, lizard, pigeon and rabbit; observation of the following spots: human skeleton and different types of joints.<br>• Morphology of earthworm, cockroach and frog through models/preserved specimens. | |
| | BIO II* | BIO II* | Study and description of locally available common flowering plants one each from (Solanaceae, Fabaceae and Liliaceae); types of root (tap or adventitious), stem (herbaceous/woody), leaf arrangement/shapes/ venation, simple or compound; preparation and study of T.S. of dicot and monocot root and stem (primary); study of osmosis by potato osmometer; plasmolysis in epidermal peels *(e.g., rhoeo*leaves); study of distribution of stomata in the upper and lower surface of leaves, stomatal index; comparative study of the rates of transpiration in the upper and lower surface of leave; test for the presence of sugar, starch, proteins and fats in suitable plant and animal materials *(e.g.,* wheat, potato, groundnut, milk or other such suitable material); separation of chlorophyll pigments through paper chromatography; study of rate of respiration in flower buds and germinating seed; effect of salivary amylase on starch; testing the presence of urea, sugar, albumin and bile salts in urine sample (simulated sampled | Basic knowledge about the course 'BIOLOGY-II' |

| | | | | |
|---|---|---|---|---|
| | | | may be used); observation of the following spots - study of mitosis in onion root tip cells, different modifications in root, stem and leaves; identification and comments on different types of inflorescences; imbibition in seeds/raisins; observations and comments on the experimental set up on: anaerobic respiration, phototropism, apical bud removal, suction due to transpiration. | |
| | BIO III* | BIO III* | Dissection of flower and display of different whorls; dissection of anther and ovary to show number of chambers; study of pollen germination on a slide; collect and study of soil from at least two different sites for texture, moisture content, pH and water holding capacity; correlation with the kinds of plants found in them; collect water from two different water bodies in your locality and study the samples for ph, clarity and presence of any living organisms; study the presence of suspended particulate matter in air at the two widely different sites; plant population density by quadrat method; observations on the following spots - study of flowers adapted to pollination by different agencies (wind, insect); pollen germination on stigma through a permanent slide; study and identify stages of gamete development *i.e.*, T.S. testis and T.S. ovary through permanent slides (from any mammal); meiosis in onion bud cell or grasshopper testis and T.S. of blastula through permanent slides; study two plants and two animals found in xeric conditions and comment upon their adaptations/ morphological features; plants and animals found in aquatic conditions and comment upon their adaptations/morphological features. | Basic knowledge about the course 'BIOLOGY-III' |
| | BIO IV** | BIO IV** | Preparation of a temporary mount of onion root tip to study mitosis; study of effect of the different temperatures and three different pH on the activity of salivary amylase on starch; | Basic knowledge about the course 'BIOLOGY-IV' |

| | | | | |
|---|---|---|---|---|
| | | | observations on the following spots: study Mendelian inheritance using seeds of different colour/size of any plant; preparation of pedigree charts of genetic traits such as rolling of tongue, blood groups, widow's peak, colour blindness; exercise on controlled pollination - emasculation, tagging and bagging; identification of the common disease causing organisms like *ascaris*, *entamoeba*, *plasmodium*, ringworm through permanent slides or specimens and symptoms of diseases caused by them. | |
| | ZOO 101/ Biology 101* | ZOO 101/ Biology 101* | • Morphology of flowering plants-root, stem and leaf and their modifications; inflorescence, flower and fruits; cell & cell division, tissues; internal structure of root, stem, leaf; study of specimens and slides; description of plants- Brassicaceae, Fabaceae and Poaceae;<br>• To study of type animals of major phyla. | Basic knowledge about the Zoology |
| (*= Shared with Botany & Pl**ant** Ph**ysiology**); (**= Shared with Genetics and Plant Breeding ) | | | | |
| M.Sc. | 12 | 12 | | |
| | ZOO 501 | ZOO 501 | Integumentary, skeletal and the muscular systems.<br>Nervous system including the sense organs and endocrine glands.<br>Transport and exchange systems (digestive, circulatory systems).<br>Transport and exchange systems (respiratory and excretory systems).<br>Reproductive system, aerodynamics in relation to flight in insects/birds and mammals. | To give details of the functional and evolutionary modification in various systems of invertebrates and vertebrates.<br><br>To study of the representative types from invertebrates and vertebrates; preparations of whole mounts with reference to the systems in theory; study of histological slides. |
| | ZOO 502 | ZOO 502 | General introduction, taxonomy and nomenclature, taxonomic categories and hierarchy.<br>Principles and methods of nomenclature; keys, their kinds and uses.<br>Introduction to numerical, biochemical and cytological taxonomy.<br>Classification of non-chordates | To introduce fundamental concepts and patterns in systematics in terms of exposure to animal diversity, classification, identification and nomenclature, and their application in biology. |

| | | | | |
|---|---|---|---|---|
| | | | and chordates upto orders and important families, with distinguishing characters and examples. | Collection and preservation of certain animals; study of local fauna and their identification; identification of animals using keys; taxonomy of animals based on biochemical and cytological techniques. |
| | ZOO 503 | ZOO 503 | Definition and scope of environment, ecology, environmental biology; community; ecosystems, their types, properties and characteristics.<br>Population, its characteristics: density, natality, mortality, age distribution, biotic potential, dispersion, population growth forms, population regulation, population interactions.<br>Production, decomposition, bioenergetics, food chains, food webs, biogeoochemical and nutrient cycles, ecological succession.<br>Environment, limiting factors, environmental pollution.<br>Wild life; concepts and principles of wild life management, conservation and control, legislation, wildlife parks and sanctuaries. | Our environment is being fastly degraded due to man engineered activities, and many wild species are becoming extinct. Basic aspects and implications of these changes are needed to be disseminated among the students.<br><br>Introduction to the ecological equipments, measurement of ecological parameters, productivity, population density and species diversity in different ecosystems; determination of LD50 and LC50 values; visit to zoo/sanctuary or other habitats. |
| | ZOO 504 | ZOO 504 | Physiology of nutrition, thermoregulation, cellular immunity.<br>Neural, humoral and pharmacological regulation of cardio-vascular activities.<br>Neural integration, interneural communication; importance of specialized nerve cells.<br>Physiology of endocrine glands, hormonal receptors; physiology of reproduction and hormonal control of reproductive behaviour.<br>Origin and evolution of behaviour, instinct and learning; modes of communication, significance of biorhythms. | To develop insight into various functional aspects of animals with reference to their habits and adaptations, as well as to introduce important aspects of instinctive and learned behaviours.<br>Some biochemical estimations, buffer systems; demonstration of some hormonal functions; recording of action potentials; kymographic study of muscle contractions and heart beat; study of some behavioural aspects such as instinctive movements, orientation responses; maze learning in rats and activity rhythms in animals. |
| | ZOO 505 | ZOO 505 | Introduction to microtomic and ultramicrotomic techniques.<br>Patterns of reproduction, and differentiation and morphogenesis. | A brief introduction to microtomic and ultramicrotomic techniques along with the details of development biology. |

| | | | | |
|---|---|---|---|---|
| | | | Fertilization, differentiation, growth and early development in mammals<br>Nucleo-cytoplasts relationship and neurotransmitters.<br>Structural and functional development of endocrine glands and the development of immune system | Study of normal development with reference to normal tables of developmental stages of fish/frog/ toad; histology of developing embryo using serial sectioning technique; study of organogenesis-histogenesis of some organs in fish, frog/toad; morpho-histology of gonads of some seasonal breeders; observations on live gametes; study of regeneration in planaria/hydra/earthworm; tail and limb regeneration in frog, tadpoles; tail regeneration in lizards; observation on normal metamorphosis in frog, tadpoles; effect of thiourea, thyroxin and prolactins, taxidermy. |
| | ZOO 506 | ZOO 506 | Classification of Apoidea, their distribution and biology, morphology and anatomy of bees.<br>Natural history, social organization, colony life, thermoregulation and nesting behaviour of bees.<br>Behaviour, nutrition, reproduction and physiological adaptations in bees.<br>Diseases, pests, predators and enemies of bees.<br>Foraging dynamics of bees, energetics of pollination, managed pollination, safety of bees against pesticides. | Bees are beneficial insects and make an integral part of the ecosystem, including agroecosystem.<br>Knowledge about these insects is important.<br><br>Identification of different kinds of bees and their castes, management and domestication of solitary and social bees, nesting behaviour of different bees, comparative differences in thermoregulation in social bees, artificial feeding, measurement of total population and other parameters of the colony; chromatographic studies of different honeys and nectars, foraging behaviour of bees. |
| | ZOO 507 | ZOO 507 | Introduction to earthworms, their taxonomy and nomenclature.<br>Distribution, ecology and the food habits of earthworms.<br>Vermiculture-the use of earthworms and their influence on soil structure, composition and infiltration.<br>Role of earthworms in agro-ecosystems, land reclamation and sustainable soil fertility.<br>Methods of vermicomposting, changes during | Earthworms play an important role in the quick bio-degeration and mineralization of organic wastes, especially the crop residues.<br><br>Earthworms-their type study; their identification and classification, methods of sampling/collection and population estimation, study of different life stages of |

| | | | | |
|---|---|---|---|---|
| | | | vermicomposting, chemical composition of vermicast and the economics of vermiculture. | earthworms and their culturing, food preferences of earthworms, methods of vermicomposting, chemical changes in organic matter due to earthworms activity. |
| | ZOO 508 | ZOO 508 | Activity and behaviour of mammals.<br>Adaptations in mammals.<br>Metabolism of population.<br>Ecology, communication and migration in mammals.<br>Effect of some hormones on reproductive functioning of mammals, current topics in mammalogy. | Exposure to the interaction of mammals with their environment, including activity and behaviour; adaptations, metabolism of population, communication and migration in mammals.<br><br>Identification of different types of mammals especially rodents; factors governing population density; study of rat burrows and their architecture; feeding and exploratory behaviour. |
| | ZOO 509 | ZOO 509 | General features and classification of arachnids; categories of arachnids.<br>Comparative morphology and anatomy; habitat and feeding habits of arachnids.<br>General features, feeding habits of phytophagous, stored product, house dust and soil mites.<br>Molecular, cellular and physiological basis of host-parasite interactions in mites and ticks.<br>Role of predatory mites and spiders in integrated pest management programmes; ecology and ethology of acarines and their control methods. | To sensitize the students on arachnids including acarines; how they differ from insects in their morphology and feeding habits.<br><br>Collection, extraction, preservation, mounting and study of various arachnids, dissection of spiders and mounting of organs and systems, use of rearing techniques. |
| | ZOO 510 | ZOO 510 | Minor Phyla- Concept and significance; Organization and general characters in minor phyla (with special emphasis on Ctenophora, Rotifera, Endoprocta, Ectoprocta, Phoronida, Sipunculida and Echiuroidea)<br>Body plan and symmetry- types and their significance; Organization, concept and structure of coelom; Protostomia and Deuterostomia; Segmentation; Locomotion and movement in invertebrate phyla<br>Patterns of feeding and digestion in lower metazoan, Filter-feeding in Polychaeta, Mollusca and Echinodermata; mechanism of respiration, excretion, trends in | To develop insight into fundamental concepts, host parasite interaction and their application in biology<br><br>Examination of different life stages of important invertebrates including parasites; Mounting: Trachea, Crustacean Larva, *Cyclops, Nauplius, Daphnia, Zoea, Mysis, Cercari;* Study of metamorphosis and mouthparts of insects; Study of various systems of invertebrates |

| | | | | |
|---|---|---|---|---|
| | | | neural evolution<br>Strategies and Evolutionary significance of invertebrate larval forms.<br>Pathogen induced diseases in animals, recognition and entry processes of pathogens into animal cells | |
| | ZOO 511 | ZOO 511 | Classification and geographical distribution of birds<br>Morphological adaptations in relation to life in air, feeding habits and aquatic mode of life; nest and nest building; breeding and parental care;<br>Habitat and niche; territorial behavior; voice and sound production; economically useful and harmful birds; bird hazards to aviation and industry.<br>Effect of urbanization on birds; measures of conservation of species-global and Indian scenario, organization involved in protection<br>Conservation and Government laws; study of bird sanctuaries of India. | To develop insight into fundamental concepts of bird life and habits Classification, identification of locally available Avian species; field study of birds; types of nests; methods of capturing and ringing of birds; visit to bird sanctuaries and poultry farms |
| | ZOO 512 | ZOO 512 | Definition of Fish, Fisheries and aquaculture. Classification of fishes with distinguishing characters and examples of each group. Indian fisheries production, utilization and demand.<br>Design, construction and maintenance of fish culture ponds. Ecology of fish pond ecosystem, Physico chemical conditions of ponds water and soil, Biological conditions of waters, Weeds and their control, Productivity of fish pond, Classification of water bodies on the basis of productivity.<br>Aquaculture Ranching and Rational fishery. Introduction to fish biotechnology Selection and hybridization, Androgenesis and Gynogenesis – natural and induced, Polyploidy induced, Sex reversal and sterility, Transgenesis, transgenes and application, Cryopreservation of gametes and embryo<br>Fins: origin, types and functions, Food and feeding habits of fishes, Digestion in fishes, | To acquaint the students about biology of fish and methods of aquaculture, which are important contributors to food security.<br>Study of Anatomy and Morphology of important group of fishes through models, taxonomic study of common families, genera and species offishes, survey of fish fauna of a specific fishing spot by each student,examination of skeleton of cartilaginous andbonyfishes, study of histological and microscopic structure in fishes, analysis of physical and chemical properties of water, qualitative and quantitative examination of macro zoobenthos and planktons in a water body. Study of Aquatic weeds |

| | | | | |
|---|---|---|---|---|
| | | | Respiratory system Gill structure and functions, Accessory respiratory organs swim, bladder and webberian ossicles, Osmoregulation in fishes<br>Various receptors in fishes and role of pineal organ, Hormones and reproduction: Induced breeding in carps and catfishes, Identification of different maturity stages of fishes, Migration in fishes, Fish diseases and their control, Age and growth studies | |
| | ZOO 591 | ZOO 591 | Credit Seminar | To strengthen the teaching skills of students |
| | ZOO 599 | ZOO 599 | Masters Research | To strengthen the research activity of PG students |
| Ph.D. | 10 | 03 | | |
| | ZOO 601 | ZOO 601 | Animal signals, classical ethological approach and ritualization.<br>Types of communication signals, their properties and the behavioural functions including mimicry.<br>Optimal tactics of foraging, predation and reproduction; habitat selection, territorialty.<br>Economics of insect sociality, altruism.<br>Cyclic behaviour, translocation, biological clock, entrainment and resetting; role of exogenous and endogenous factors on rhythmicity. | To acquire knowledge about recent aspects of animal behaviour and animal sociality. |
| | ZOO 602 | ZOO 602 | Ecosystem, components, primary and secondary production, rates and factors influencing these processes.<br>Animal response to different envirornments. Changing envirorunent and responses and strategies of animals.<br>Stress ecology, concept and status; stress effects on ecosystem resources, biodiversity and plant reproduction.<br>Habitat and bioresource exploitation, optimal exploitation, concepts and uses.<br>Pollution causes and effects, bioindicators, pollution management. | Ecosystem is unified entity. Any disturbance in a component means disturbance to the ecosystem as a whole. This course concentrates on the recent trends of disturbances and their effects on ecosystem. |
| | ZOO 603 | ZOO 603 | Specialized morphological adaptations of ticks and mites; macro and micro environmental factors affecting the distribution | To educate the students about mites occuring in various habitats, harmful and beneficial mites, their |

| | | | | |
|---|---|---|---|---|
| | | | of mites in different media.<br><br>Mites and postharvest technology, interrelationship between mites and microorganisms.<br>Predator-prey interactions with special reference to biological control of pests; mites as plant pests and vectors.<br>Role of soil mites in edaphic ecosystem; acarines and human health; mites associated with invertebrates and vertebrates.<br>Ticks in relation to livestock; recent trends in acarology. | role in different ecosystems, their management practices.<br>Collection, preservation and identification of mites upto family; study of life history of some mites |
| | ZOO 604 | ZOO 604 | Evolution of bees and sociality, bee colony.<br>Physiology of cast determination, role of hormones, controversies about bee dances.<br>Sex determination, honeybee genetics and breeding, semen preservation and insemination.<br>Bee pathogens and their interactions, bee poisoning, pesticides and their mode of action, bee repellents and their function, bee flower interaction-chemical and physiological basis.<br>Bee products and their chemical nature and uses. | Honeybees and other bees are having high economic importance to man and have been utilized for bee products and pollination of crops. Recent development of knowledge on their biology is important for their harnessing and use. |
| | ZOO 605 | ZOO 605 | Earthworm ecology; interactions with biotic and abiotic components.<br>Earthworm population dynamics; feeding preferences and assimilation; efficiency of different earthworm species.<br>Earthworms in food chains; diseases, pests, predators and enemies of earthworms.<br>Earthworms as potential sources of biodegradation, earthworms and soil productivity, waste management and resources recovery.<br>Proteins from earthworm biomass, nutritional status of earthworm protein, biohazards of earthworm meal, soil pollutants and earthworms.<br>Vermitech- the science of earthworm biotechnology; international scenario-the Indian perspectives and future trends. | Earthworms are becoming very important in biodegradation of organic matter, their studies in relation to various biotic and abiotic components and their role in different ecosystems should be clearly understood. |
| | ZOO 606 | ZOO 606 | Classification and biology of rodents. | To increase advance knowledge for research in |

| | | | | |
|---|---|---|---|---|
| | | | Geographical distribution and their adaptive patterns.<br>External features; activity pattern for defence and changing environmental.<br>Feeding habits; breeding cycles; family life and communication.<br>Population equilibria; rodents as vectors; rodents controls, pre and post harvest techniques. | rodentology.<br><br>Collection, identification of different types of rodents up to up to family level; study of life history of some rodents; studyof reproductive and feeding behaviour of some rodent species in your locality. |
| | ZOO 607 | ZOO 607 | Population dynamics of birds, patterns of terrestrial bird communities<br>Feeding preferences, nesting and reproductive behavior<br>Nest competitor, predators and enemies, evolution of gregarious nests, desert birds<br>Aquatic avian ecology; fresh and marine environment<br>Bird damage to field crops and their control measures. | To develop advance knowledge for research on birds |
| | ZOO 608 | ZOO 608 | Pond soil and its characteristics: pH, nitrogen, phosphorus, calcium, sulphur, iron, organic matter, and humus, physico chemical characteristics of pond water, importance of alkalinity, hardness, pH, $CO_2$.<br>Liming and its importance, nutrients in water, rules for the use of fertilizers, nitrogen and nitrogen compounds, nitrogen and phosphorus cycling in water, inorganic fertilizers and their application, organic fertilizers, their role and use, other nutrients involved in pond productivity,<br>Fish production and production factors: primary and secondary productivity, phytoplankton biomass and its role in primary productivity<br>Importance of elimination of algae, microphytes, plankton behavior and life strategies, influence of zooplankton on plankton community, bacterial food loop and its contribution to production<br>Pond stocking, management practices and production factors, critical factors limiting production, fish population and fish yield dynamics. | To generate knowledge about the recent and advanced methods of fish stock improvement and intensive culture of important fin-fish and shell-fish species.<br><br>Pond preparation and maintenance of water quality for good hygienic conditions, Study on physico- chemical characteristics of pond water, graphic and numerical methods of estimation of pond productivity, zooplankton communities and pond stocking. Study of principal types of fishing gears, fish operations, visit or tour to a fish farm/ lakes/ fish processing industry. |
| | ZOO 691 | ZOO 691 | Credit Seminar I | To strengthen the teaching skills of students |

| | | | | |
|---|---|---|---|---|
| | ZOO 692 | ZOO 692 | Credit Seminar II | To strengthen the teaching skills of students |
| | ZOO 699 | ZOO 699 | Doctoral Research | To strengthen the research activity of PG students |

**6.4.6 Supervision of Students in PG/Ph.D. programmes:** *Number of students being supervised by Faculty in case of Masters/Ph.D. Programme (as per ICAR/UGC guidelines). Mention the realistic figure numbers of qualified faculty in relation to the intake of the students, as pre the guidelines in the matter.*

**M.Sc.Programme**

| Year | Number of students on roll | Number of PG faculty | Student-teacher Ratio |
|---|---|---|---|
| 2018-19 | 06 | 04 | 1.5:1 |
| 2019-20 | 07 | 07 | 1:1 |
| 2020-21 | 04 | 07 | 0.57:1 |
| 2021-22 | 04 | 07 | 0.57:1 |
| 2022-23 | 06 | 07 | 0.86:1 |

**Ph.D. Programme**

| Year | Number of students on roll | Number of PG faculty | Student-teacher Ratio |
|---|---|---|---|
| 2018-19 | 07 | 04 | 1.75:1 |
| 2019-20 | 07 | 07 | 1:1 |
| 2020-21 | 04 | 07 | 0.57:1 |
| 2021-22 | 03 | 07 | 0.43:1 |
| 2022-23 | 08 | 07 | 1.14:1 |

**6.4.7 Feedback of Stakeholders:** *Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the Degree Programme. What action the University has taken in last five years to address the issues raised in the feedback?*

The feedback from students is received from persuing and passed M.Sc. and Ph.D. degrees from this department on a standard format. From the parents of all M.Sc. and Ph.D. students also gave their feedback to the department. The stakeholders' feedback on the overall performance and quality of the institutions is obtained through general meetings with parents and interaction with alumni. The teachers get informal feedback from the students based on their parents' observation and suggestions. These suggestions are considered by the HODs and controlling officers. Any suggestions provided by them are incorporated in the curriculum.

There is a system of annual self appraisal report (SAR) with respect of all teaching faculty. SARs are reviewed by the Deans and Directors for performance appraisal and finally approved by the Vice-Chancellor.

Based on feedback, department has also initiated working on slow release of fertilizers and pesticides, qualitative determination of pollutants for betterment of farmers.

**6.4.8 Student Intake and Attrition in the Programme for Last Five Years:** *Year wise information on sanctioned strength, actual intake and attrition in the last five years of the Degree Programme, in the tabular form, shall be provided.*

| Name of the degree programme | Actual student admitted in last five years | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| M.Sc. | 06 | 07 | 04 | 04 | 06 | 0 | 0 | 0 | 0 | 0 |
| Ph.D. | 07 | 07 | 04 | 03 | 08 | 0 | 0 | 0 | 0 | 0 |

**6.4.9. Information Communication Technology (ICT) Application in Curricula Delivery:** *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical. Mention whether the Degree Programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned.*

The department has established one smart class rooms under ICAR smart class room initiative. The faculty members of department of Zoology use ICT in teaching and practical. There is one seminar room equipped with interactive projector, LCD interactive panel and internet connection. All faculty members have computer printer and internet connection in their offices. There is Wi-Fi facility for faculty, staff and students. This infrastructure provides opportunities for the use of ICT in quality teaching, research and extension. Faculty members use power point presentations, YouTube, emails and CD ROM in teaching all courses at UG and PG level and for sharing notes university portal, google meet and microsoft team is used.

**6.4.10** The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and Ph.D. degree programmes, separately, and to be presented college-wise.

**6.4.10.** Since the accreditation of programmes is related to the allIndia admission from ICAR and also having weightage for college accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

**6.4.11.** Certificate (Applicable when SSR is submitted for Programme)

I, the Dean **Dr. Neeraj Kumar**, hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

**Signature of Dean of the College with Date & Seal**

## 6.4 About the Department

Chaudhary Charan Singh Haryana Agricultural University being an agricultural university gives impetus to teaching, research and extension activities in agriculture and allied sciences. To strengthen these activities, the first & foremost tool is language. So, the Department of Languages and Haryanvi Culture (LHC) was established. The Department of LHC is a purely teaching department. It caters to the needs of all the constituent colleges of the University by teaching Under Graduate and Post Graduate courses. There is no UG programme going on in the Department, however, Department is offering one UG Course to Undergraduates of College of Agriculture at Hisar and one UG Course to Undergraduates of College of Agricultural Engineering and Technology, one UG Course to Undergraduates of College of Fisheries and two UG Courses to Undergraduate students of I.C. College of Home Science. The Department offers one course of Hindi to the students from foreign countries. The department offers two PG diploma courses i.e. Communication Skills in English and English-Hindi Translation.

The department is having a very talented and dedicated faculty that consists of one Professor, two Associate Professors and two Assistant Professors.

### Objectives of the Department

- To familiarise the students with the aspects of language and literature.
- To equip the students with communication skills.
- To inculcate confidence in students through mock interview, group discussion etc.

### 6.4.1 Brief History of the Degree Programme: *Clearly mention in which year the Degree Program was initiated along with its objective and accomplishments.*

The department does not provide Masters or Doctoral programme in the department but it provides two diploma programmes of one year duration as under:

### Objectives of initiating Diploma in Communication Skills in English

- To equip the students with the aspects of language and literature.
- To train the students with reading, writing, listening and speaking Skills.
- To prepare the students for their better career through mock interview, group discussion, etc.

### Accomplishments of Diploma in Communication Skills in English

- The department has well developed infra structure for the Diplomaprogramme with well equipped seminar rooms.
- The students are prepared for mock interview, group discussion etc**.** as the tailor-made English does not suit the needs of the students nowadays.
- The students areprepared with all the four skills of communication so that they express themselves very clearly.
- Correct pronunciation of words of English is focused in teaching.

### Objectives of initiating Diploma in English-Hindi Translation

- To familiarize the students with the concepts of editing, drafting and noting techniques
- To enrich the students with administrative vocabulary and Grammar
- To equip the students with the basics of translation

### Accomplishments of Diploma in English-Hindi Translation

- Students are made to learn the basic concepts of translation, editing, drafting and noting.
- Administrative vocabulary is also taught to them.

### Trainings conducted

- Dr. Aparna and Dr. Poonam Mor conducted and coordinated Three-Week Online Refresher Course On "Language Skills" in DHRM in collaboration Dept. of Languages and Haryanvi Culture from May 27 to June 16, 2020 of 44 participants from all over India.
- Dr. Devender Singh coordinated two-week Online Folk Music Workshop in DSW from July 15-28, 2021.
- Dr. Devender Singh coordinated a training on "Role of Communication Skills in Competitive Era" in DSW from March 17-30, 2022.

### Lectures delivered

- The faculty of Languages and Haryanvi Culture works as a regular resource person and delivers lectures in the trainings and refresher courses organized for students, teachers and non-teaching staff by DSW & DHRM, CCSHAU, Hisar.

### Judging the contests

- The faculty of Languages and Haryanvi Culture works as a Judge in various contests like Debate, declamation, slogan-writing etc. organized by CCSHAU & other Institutes.

**6.4.2 Faculty Strength:** *The faculty strength of the Degree Programme needs to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of research staff, extension staff, contractual faculty, guest faculty adjunct faculty or any other arrangements is being made to complete the curriculum, it should be clearly mentioned in the report.*

| S. No. | Designation | Faculty sanctioned | Faculty in place | Vacant |
|---|---|---|---|---|
| 1. | Professor | 0 | 0 | 0 |
| 2. | Associate Professor | 0 | 0 | 0 |
| 3. | Assistant Professor | 07 | 04 | 02 |

Six posts of Assistant Professors are sanctioned. There is one Professor (all promoted under CAS). There are two Associate Professors (all promoted under CAS). There are two Assistant Professors in the department.

| S. No. | Name | Designation | Experience | Qualification |
|---|---|---|---|---|
| **1.** | Dr. Aparna | Associate Professor & Head | 36 | Ph. D. |
| **2.** | Dr. Krishna Hooda | Professor | 36 | Ph. D. |
| **3.** | Mrs. Manju Mehta | Associate Professor | 36 | M. Phil. |
| **4.** | Dr. Poonam Mor | Assistant Professor | 09 | Ph.D.+N.E.T |
| **5.** | Dr. Devender Singh | Assistant Professor | 03 | Ph.D.+N.E.T |

**Faculty posted at DHRM CCSHAU, Hisar*

### Retired Faculty

| S.No. | Name | Designation | Year of Retirement |
|---|---|---|---|
| 1. | Dr. Sushma Anand | Professor and Head | 2021 |

**6.4.3 Technical and Supporting staff:** *The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

| S. No. | Sanctioned Technical and Supporting Staff | Sanctioned | In Position | Vacant Position |
|---|---|---|---|---|
| 1. | Assistant/ Steno | 01 | - | 01 (Steno) |
| 2 | Clerk | 01 | 01 | - |
| 3. | Lab Asst. / Technician/ Attendants | - | | - |
| 4. | Messenger | 01 | 01 | - |
| Total | | 03 | 02 | 01 |

Note: All the staff is assigned the responsibilities for the multiple programmes.

**6.4.4. Classrooms and Laboratories:** *Mention the number of class rooms and functional laboratories available for the Degree Programme and justify if it is sufficient to meet the course curricula requirement. Lists major equipments, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention Theory and practical batches for the Degree Programme.*

### List of Classroom and Functional Laboratories

| Name of College/Department | |
|---|---|
| No. of lecture rooms with sitting capacity | 2 Seminar Room for UG and PG Classes (sitting capacity 30) |
| No. of lecture rooms with LCD | One Language Lab |

### Mention Theory and Practical Batches for UG Programme

At UG level, the department of Languages and Haryanvi Culture offers 5 core courses and 1 course for PG students of all the constituent colleges of the University. All of them have practical components.

- For theory in core courses, there are two sections at COA, Hisar: one section at COA, Kaul: two sections at COHS, Hisar: one section at College of Fisheries and one section at COAE&T, Hisar with an average of 60 to 65 students in each section
- For practical in core courses, there are two batches for each course with an average of 25-30 students in each batch.
- The department offers 1 course of Hindi for the students from foreign countries.
- The department offers 2 PG diploma courses i.e. Communication Skills in English and English-Hindi Translation.
- The department offers 1 course for M.Sc. and Ph.D. students of all the constituent colleges. There is only batch for practical classes.

**6.4.5. Conduct of Practical and Hands-on-Training:** *It is important to have a sound grasp of the theory that underlines any professional degree. But there are some skills that can only be learned through hands-on –practice. It is important that much of the learning material in any given course should be provided in way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired*

*practical and hand-on-training as per curriculum and meeting above mentioned requirements.*

| Degree Programme | Total Courses | Credit Hours | Practical and Hands-on-Training Courses | How far students are getting desired practical and hands-on-training as per the curriculum (bullet form) |
|---|---|---|---|---|
| **For B.Sc.** | **5** | | | |
| | ENG-101 COA<br><br>Comprehension and Communication Skills (160 students) | 1 +1 | ENG-101 COA (6 batches)<br>• Group discussion<br>• Dialogue writing and delivery<br>• Guidelines of interview | • Benefitted by appearing in mock interviews.<br>• To practice conversation in some imaginary situations. In this way they would overcome their hesitation. |
| | ENG-102 COHS General English (73 students) | 1 +1 | ENG-102 COHS (3 batches)<br>• Phonetic symbols<br>• Conversation practice<br>• Paper reading | • To recognize the different phonetic symbols and the sounds they represented.<br>• To read and comprehend the different columns of the newspaper with ease.<br>• Benefitted by having the magical mixture of grammar vocabulary and phonetics. |
| | ENG-103 COHS Technical Writing (73 students) | 1 +1 | ENG-103 (3 batches)<br>• Phonetic transcription<br>• Tips for facing interview<br>• Public speech<br>• Group discussion | • Guided for facing interviews and mock interviews were also conducted so that they could get confidence for appearing in interviews.<br>• Learn pronunciation of English words because now they knew the proper use of dictionary.<br>• Learn to speak in front of audience and it definitely brought positive change in them. |
| | ENG-201 COAE Communication Skills And Personality Development (42 students) | 1 +1 | ENG-201 (2 batches)<br>• Conversation practice<br>• Group discussion<br>• Oral presentation; speech acts; welcome address; presidential address and vote of thanks | • Prepared for oral presentation as first impression about a person is framed in the manner he/she speaks.<br>• Prepared for group discussion which is very important process for the selection process in jobs. |
| | FEES-203 COFS Communication Skills and Personality Development (20 students) | 0+1 | • Conversation Practice<br>• Group discussion<br>• Oral presentation; speech acts; welcome address; presidential address and vote of thanks | • Prepared forstructural and functional grammar and vocabulary.<br>• Prepared forprocess of communication, verbal and non verbal communication, listening and note taking, writing skills, oral presentation skills; field diary and lab record; indexing, footnote and bibliographic procedures.<br>• Prepared for group discussion which is very important process for the selection process in |

| | | | | |
|---|---|---|---|---|
| | | | | jobs.Comprehension of general and technical articles, precis writing, summarizing, abstracting; individual and group presentations, impromptu presentation, public speaking; group discussion, organizing seminars and conferences. |

**6.4.6. Supervision of students in PG/Ph.D. programmes:** *Number of students being supervised by Faculty in case of Masters/Ph. D Programme (as per ICAR/UGC guidelines). Mention the realistic figure number of qualified faculty in relation to the intake of students, as per the guidelines in the matter*

The Department does not have PG/Ph.D.programmes.

**6.4.7. Feedback of stakeholders:***Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the degree programme. What action the university has taken in last five years to address the issues raised in the feedback?*

The stakeholders' feedback on the overall performance and quality of the institutions is obtained through general meetings with parents and interaction with alumni. The teachers get informal feedback from the students based on their parents' observations and suggestions. These suggestions are considered by the HODs and controlling officers. Till date there is positive response in the department.

**6.4.8. Student intake and Attrition in the Programme for last Five Years:**

The Department does not have degree programmes. The details of the two diploma programmesare as under-

| Name of the degree program. | Actual students admitted in last five years | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| PGDC-I | 11 | 15 | 16 | 16 | 19 | 45 | 25 | 20 | 20 | 5 |
| PGDC-II | 5 | 4 | 11 | 10 | 16 | 75 | 80 | 45 | 50 | 20 |

**6.4.9. ICT Application in Curricula Delivery:**

Use of ICT application in teaching and practical for curricula delivery

| Courses | Total courses | Theory | Type of ICT Application |
|---|---|---|---|
| B.Sc. | 07 | Lecture method | Power point, blackboard, white board, submission of assignments |
| M.Sc. (PGS-502) | 01 | ,, | Power point, blackboard, white board, submission of assignments |
| PhD (PGS-502) | 01 | ,, | Power point, blackboard, white board, online submission of assignments |

The faculty members of the department use ICT in teaching and practical. There is two seminar rooms with computer, LCD projector and internet connection. All faculty members have computer with printer and internet connection in their offices. There is Wi-Fi facility for faculty, staff and students.

This infrastructure provides opportunities for the use of ICT in quality teaching, research and extension. Faculty members use power point presentations, YouTube, emails and CD ROM in teaching all courses at UG, PG and Ph.D. level. During COVID-19 pandemic, the department adopted online teaching platforms such as Google Meet and Teams for effective teaching. All the teaching materials were successfully uploaded on the ERP module and Microsoft teams to ensure the accessibility of teaching material to all the students. A Language Lab has also been established in the Department.

**6.4.10.** The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and Ph.D. degree programmes, separately, and to be presented college-wise.

**6.4.11.** Since the accreditation of programmes is related to the All India admission from ICAR and also having weightage for college accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

### 6.4.12. Certificate (Applicable when SSR is submitted for Programme)

I, the Dean **Dr. Neeraj Kumar**hereby certify that the information contained in the Sections 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

**Signature of Dean of the college with Date & Seal**

# PROGRAMME – 12

# Computer Section

### 6.4.About the Section:

The computer centre was established in 1979 by CCS HAU in College of Basic Sciences & Humanities with the aim to provide central facility of computer and internet to the faculty and students. The administrative control is with the Dean, College of Basic Sciences & Humanities. The centre is located in the College of Basic Sciences & Humanities building with a total covered area of approximately. 10,000 sq. ft. It has 8 rooms (seminar room, staff room, in-charge's room, software development lab, server and switch room, network lab, teaching lab etc.). The computer section has at present more than 60 desktop PCs and 6 printers for the use of students, faculty and staff. The installation of campus-wide GIGABIT network is implemented by this section with funds from AHRD project. The campus wide network spread over more than 18 K.M. through fiber optic cables and is providing Internet facility to the stakeholder though 1 GBPS (Shared) leased line provided by national knowledge network (NKN). A firewall (Sophos) has been installed to ensure the internet security. The centre is working as the gateway of internet connectivity for the university. This centre is playing a great role in providing the Wi-Fi facility to the students at their hostels as well as at colleges and to the University employees in the offices.

Integrated University Management System (IUMS) that acts as the foundation and collaborative platform to foster administrative, research and education delivery included e-Learning methodologies is successfully implemented by this centre. IUMS provide a complete e-governance framework and web based ERP (enterprise resource planning) product for effectively managing complete university functions including real time information processing and knowledge management. ERP includes 19 modules including student life cycle modules, financial management modules and operation/administration modules. Aadhar enabled bio-metric attendance system (AEBAS), Human Resource Management System (HRMS: Haryana Government Portal), Public Financial Management System (PFMS), Anti-Plagiarism cloud based software, G-Suite and Microsoft team for education are also implemented by this centre in the university.

Various computer courses at UG and PG level have been offered by the computer centre and in order to cater the need of scientific community for their statistical data analysis. This centre organized refresher courses on computer application. This centre is also engaged in conducting short training on statistical data analysis for PG students/research scholar. The computer section is always dedicated to analysis data of the students and researchers though SPSS/SAS/ INDOSTAT/OPSTAT etc.

### Thrust Area of the Section:

- Teaching of computer courses in UG and PG Classes (**Annexure COMP-III**)
- Maintenance of campus wide area network
- Providing internet/Wi-Fi connectivity to university campus
- Statistical data analysis using SPSS, SAS Indostat and in-house developed online statistical analysis software OPSTAT.
- Statistical guidance for students
- Need based computer trainings for faculty/students (**Annexure COMP-I**)
- Need based software development
- Implementation of state government initiatives regarding digitalization such as Aadhar Enabled Biometric Attendance System (AEBAS).
- Implementation and maintenance of Anti-Plagiarism software (Turnitin)

- Implementation of IUMS/ERP modules for the Digitization of University Work
- Creation and Maintenance of University Website

**6.4.1.Brief History of the Degree Programme**:*Clearly mention in which year the Degree Program was initiated along with its objective and accomplishments.*

This section does not provide masters or doctoral programme but offer various computer courses to the students of different colleges during their under graduate, masters or doctoral programme.

**6.4.2. Faculty Strength:***The faculty strength of the Degree Programme needs to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of research staff, extension staff, contractual faculty, guest faculty adjunct faculty or any other arrangements is being made to complete the curriculum, it should be clearly mentioned in the report.*

| S. No. | Faculty sanctioned | Faculty sanctioned | Faculty in place | Vacant position |
|---|---|---|---|---|
| 1 | Professor and equivalent | - | - | - |
| 2 | Assistant Professor and equivalent | 3 | 2 | 1 |
| | Total | 3 | 2 | 1 |

Note: All the faculty of this programme is assigned the responsibilities for the multiple programmes. Faculty appointed in teaching also carries extension activities. The faculty publications are listed in Annexure COMP-II

**Faculty Profile:**

| S. No | Name | Designation | Experience | Qualification |
|---|---|---|---|---|
| 1. | Dr. Ram Niwas | Assistant Professor (Stage III) | 26 | M. Sc. (Stat.), M. Sc. (Computer Sci.), Ph. D. (Statistics), NET |
| 2. | Ms. Sheetal Choudhary | Assistant Professor | 5 | MCA, UGC NET, Pursuing Ph. D. |

**6.4.3. Technical and Supporting Staff:***The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

| S. No | Sanctioned Technical and supporting staff | Sanctioned | In position | Vacant position |
|---|---|---|---|---|
| 1. | Computer Programmer | - | *2 | - |
| 2. | Junior Programmer | 2 | 1 | 1 |
| 3. | Console Operator-cum-Data Entry Operator | 2 | **2 | - |

*Note: All the staff is assigned the responsibilities for the multiple programmes.*

**Sanctioned post is in KVKs*

***One post is in KVK Panchkula*

**6.4.4. Classrooms and Laboratories:***Mention the number of class rooms and functional laboratories available for the Degree Programme and justify if it is sufficient to meet the course curricula requirement. Lists major equipments, laboratories, farm facilities,*

*workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention Theory and practical batches for the Degree Programme.*

### List of Classroom and Functional Laboratories and Facilities

| **Name of College/Department** | |
|---|---|
| No. of lecture rooms with sitting capacity | 1 With seating capacity of 30 |
| No. of labs | 2 Computer labs UG and PG having 30 and 15 computers respectively |
| Servers (2) | 1. HP Prolaint DL580G4 (1) (Application Server)<br>2. DELL Server PowerEdge T440 |
| Firewall | Sophos XG330 |
| Controllers | WLC2800 Juniper Make (2) |
| Router | Juniper Router M10i (1) |
| Core Switches | QFX5100 Juniper Make (3) |
| Network Switches (PoE) for wi-fi | EX3300 Juniper Make (18) |
| Network Switches for LAN | 75 (Entrasys, DLink and HP) |
| Access Points (Wi-fi) | Juniper Make (190) |
| Network access points (I/O box) | 1400 Approximately |
| Desktop Computers for Labs and Staff | 60 |
| UPS | 30 KVA PulseTech Make (1) |
| Interactive panel | 86" interactive panel of newline with OPS |

*Mention theory and practical batches for UG Programme:*

**6.4.5. Conduct of Practical and hands-on-Training:***It is important to have a sound grasp of the theory that underlines any professional degree. But there are some skills that can only be learned through hands-on –practice. It is important that much of the learning material in any given course should be provided in way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hand-on-training as per curriculum and meeting above mentioned requirements.*

| **Degree programme** | **Total courses** | **Practical courses** | **Hands-on training courses** | **How far students are getting desired practical and hands-on-training as per the curriculum (bullet form)** |
|---|---|---|---|---|
| UG | 04 | 04 | 04 | As per course curriculum the practical and hands-on-training are given |
| 1. | FEES 102 /ICT 102 | Information and Communication | 1+1 | • Introduction to computers<br>• Number system<br>• Introduction to audio visual aids<br>• Introduction to internet and networking<br>• Learn about MS Word, MS Excel, MS Power Point, MS Access |
| 2. | COMP 102 | Introductory Agricultural Informatics | 1 + 1 | • Introduction to computers<br>• Learn about MS Word<br>• Learn MS Excel<br>• Learn MS Power Point<br>• Learn MS Access<br>• Introduction to WWW and E-mail<br>• Programming with HTML<br>• Introduction to XML |
| 3. | COMP 301 | Agricultural Informatics | 1 + 1 | • Introduction to Computers<br>• Introduction to Operating System |

| | | | | |
|---|---|---|---|---|
| | | | | • Learn about MS offices packages MS Word, MS Excel, MS Power point, MS Access<br>• Introduction to Internet and Networking.<br>• Introduction to programming languages. |
| 4. | ABM 541 | Computer Applications for Agribusiness | 1+1 | • Basics of Computers<br>• Business value of internet<br>• Management Information System<br>• Artificial intelligence and neural network |
| PG | 04 | 04 | 04 | As per course curriculum the practical and hands-on-training are given |
| 1. | COMP 501 | Computer Programming in Statistical Research | 2 + 1 | • Introduction to computer System<br>• Memory concept<br>• Number System<br>• Concept of Algorithm and Flowchart,<br>• Basics of programming<br>• Coding in Fortran language<br>• Assignment Statement, Subroutines and variable etc |
| 2. | COMP 502 | Computer Fundamental | 1 + 2 | • Introduction to computer, Organization<br>• Memory concept<br>• Input & Output devices<br>• Learn about MS office tools like MS Word, MS Excel,<br>• Statistical analysis through MS Excel,<br>• Creation and updation of database using MS Access etc.<br>• Creation of presentation using MS Powerpoint |
| 3. | COMP 503 | Programming through 'C' | 2 + 1 | • Introduction to Data structure<br>• Introduction to Sorting and searching algorithm<br>• File organization<br>• Concept of C Language<br>• Conditional statement in C<br>• Looping in C<br>• Array and structures<br>• Functions and pointers in C |
| 4. | COMP 504 | Scientific Data Processing | 1 + 2 | • Introduction to Statistical Package<br>• Data Transformation and statistical package<br>• Handling the statistical procedure |

In addition to this, computer trainings are organized which are listed in **Annexure COMP-I**.

**6.4.5. Supervision of Students in PG/PhD Programmes**: *Number of students being supervised by Faculty in case of Masters/Ph. D Programme (as per ICAR/UGC guidelines). Mention the realistic figure number of qualified faculty in relation to the intake of students, as per the guidelines in the matter*

NA

**6.4.6. Feedback of Stakeholders (Students, parents, industries, employers, farmers etc.):***Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the degree programme. What action the university has taken in last five years to address the issues raised in the feed back?*

NA

**6.4.6 Student Intake and Attrition in the Programme for last five years:***Year wise information on sanctioned strength, actual intake and attrition in the last five years of the degree programme, in the tabular form, shall be provided.*

NA

**6.4.7 ICT Application in Curricula Delivery**: *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical. Mention whether the degree programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned*

- The faculty of this section has been teaching the practical courses to the students of UG classes in the computer labs having ICT tools like computers, printers, and internet. These students learn about the ICT tools in their course like MS Word, MS Powerpoint, MS Excel, Graphical Representation of data, Internet, html, programming languages, statistical software like SAS, SPSS and R etc.
- The faculty of this section has taught the theory courses to the PG students in the seminar room equipped with ICT tools like projector with LCD and computer, white board.

**6.4.8** The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD degree programmes, separately, and to be presented college-wise.

**6.4.9** Since the accreditation of programmes is related to the all-India admission from ICAR and also having weightage for college accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

**6.4.10** Certificate (Applicable when SSR is submitted for programme)

I, the Dean **Dr. Neeraj Kumar** hereby certify that the information contained in the section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

**Signature of Dean of the College with Date & Seal**

## LIST OF STUDENTS ON ROLL PRESENTLY

| Sr. no. | Name &Admn. No. | Guide | Title of research problem |
|---|---|---|---|
| **Ph. D.** | | | |
| 1 | Narender Mohan, 2017BS01D | Dr. Ajay Pal | Development, characterization and application of bionanoconjugate on terminal heat stress in wheat (*Triticum aestivum* L.) |
| 2 | Pernika Gupta, 2017BS02D | Dr. Jayanti Tokas | Development of herbal nano-formulations for enhancing shelf life of guava (*Psidium guajava* L.) fruit |
| 3 | Taranjeet Kaur, 2018BS02D | Dr. Ajay Pal | Development, characterization and application of chitosan-based naocomposite to mitigate drought stress in wheat (*Triticum aestivum* L.) |
| 4 | Vikram Singh, 2018BS03D | Dr. Shiwani Mandhania | Development, characterization and efficacy of bionanocluster of indole acetic acid and cobalt chloride on seed germination and yield in cotton (*Gessypiumhirsutum* L.) |
| 5 | Kajal Kumari, 2019BS01D | Dr. Sushil Nagar | Purification, characterization and application of microbial xylanase(s) for production of xylo-oligosaccharides |
| 6 | Manne Hemanth, 2019BS02D | Dr. Nisha Kumari | Effects of exogenous sulphur in alleviating lead toxicity in Indian mustard (*Brassica juncea* (L.)) |
| 7 | Rashi, 2019BS03D | Dr. Shiwani Mandhania | Biochemical and metabolites profiling for decoding resistance mechanism in upland cotton against *Meloidogynae incognita* |
| 8 | Sonia, 2019BS05D | Dr. Nisha Kumari | Ameliorative effect of calcium and salicylic acid in Indian mustard (*Brassica juncea* L.) under cadmium toxicity |
| 9 | Ande Aravind Reddy, 2020BS01D | Dr. Shiwani Mandhaina | Impact of chemicals and bioagent on drought stress in upland cotton (*Gossypium hirsutum* L.) |
| 10 | Sakshi Goyal, 2020BS02D | Dr. Sushil Nagar | Development and characterization of nanoparticles basedaptasensor for neonicotinoid detection |
| 11 | Sonam Sihag, 2020BS03D | Dr. Ajay Pal | Development and evaluation of Zn-bionanocrystalfor wheat and pearl millet grown under Zn-deficient and Zn-sufficient conditions |
| 12 | Manju Rani, 2021BS01D | Dr. Jayanti Tokas | Impact of iron and zinc application on physio-biochemical and antimicrobial properties of wheatgrass |
| 13 | Sonu, 2021BS02D | Dr. Sushil Nagar | Effect of iron nanoparticles on physio-biochemical and molecular changes in forage sorghum grown under iron deficiency |

| | | | |
|---|---|---|---|
| 14 | Sunil, 2021BS03D | Dr. Vinod Kumar | Effect of iron and sulphur applications on physiological, biochemical and molecular attributes of contrasting pearl millet genotypes grown under iron deficient conditions |
| 15 | Surbhi Sahewala, 2021BS04D | Dr. Ajay Pal | Formulation and impact analysis of chito-oligosaccharide-urea on source activity-sink strength in wheat (*Triticum aestivum* L.) |
| 16 | Jyoti, 2022BS02D | Dr. Nisha Kumari | Nutitional and physio-biochemical attributes of mustard microgreens in response to selenium and iodine application |
| 17 | Shivangi Bishnoi, 2022BS03D | Dr. Jayanti Tokas | Impact assessment of iron and zinc application on nutritional attributes of mungbean microgreens |
| **M.Sc**. | | | |
| 1. | Kajal Yadav, 2020BS01M | Dr. Ajay Pal | Optimization of sprouting conditions and estimation of antioxidant potential of chickpea (*Cicer arietinum* L.) seeds |
| 2. | Chandan Layek, 2021BS01M | Dr. Jayanti Tokas | Impact of humic acid seed priming on biochemical constituents of radish microgreens |
| 3. | Hitesh Kumar, 2021BS02M | Dr. Sushil Nagar | Biochemical analysis of cowpea varieties at different spacing and fertilizer levels |
| 4. | Jyoti, 2021BS03M | Dr. Shiwani Mandhania | Effect of different chemicals on germination and antioxidant system of cotton seeds under salinity |
| 5. | M. Shankar Reddy, 2021BS04M | Dr. Neeraj Kharor | Biochemical analysis of forage sorghum [*Sorghum biocolor*(L.) Moench] under different fertilizer Levels |
| 6. | Nisha, 2021BS05M | Dr. Vinod Kumar | Physiological and biochemical characterization of sorghum [*Sorghum biocolour* (L.) Moench] genotypes for forage quality traits |
| 7. | Parveen, 2021BS06M | Dr. Nisha Kumari | Biochemical manifestation for induced resistance in Indian mustard against Sclerotinia rot |
| 8. | Ankita Saroha, 2022BS01M | Dr. Nisha Kumari | Effect of calcium chloride on quality of mustard microgreens |
| 9. | Diksha, 2022BS02M | Dr. Vinod Kumar | Effect of sulphur applications under iron deficiency in wheat seedling |
| 10. | Rekha, 2022BS04M | Dr. Jayanti Tokas | Effect of selenium biofortification on nutritional quality of *Brassica juncea* (L.) microgreens |
| 11. | Arman, 2022BS45M | Dr. Shiwani Mandhania | Yet to finalize |

*Annexure BIOCHEM-III*

## STUDENTS' PARTICIPATION IN SEMINAR/CONFERENCES/ WORKSHOP ETC.

| Sr. no. | Name of student andadmn. no. | Oral/Poster | Seminar/ Conference/Workshop details |
|---|---|---|---|
| **M.Sc./ Ph.D. Students** | | | |
| 1. | Taranjeet Kaur 2018BS02D | Poster | International Congress on "Cotton and other fibre crops", from 20-23 February, 2018 at ICAR Research Complex for NEH Region, Umiam (Barapani), Meghalaya, India. |
| 2. | Sonam Sihag 2020BS03D | Oral | Workshop on "Career opportunities for Students: fellowships/awards/scholarships", from October 16-17, 2018 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 3. | Vikram Singh 2018BS03D | Poster | International Conference on "Advances in agricultural, biological and applied sciences for sustainable future (ABAS-2018)", from October 20-22, 2018 at Swami Vivekanand Subharti University, Meerut, Uttar Pradesh, India. |
| 4. | Sonam Sihag 2020BS03D | Poster | International Conference on "New millennia agriculture- novel trends and future scenario", from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 5. | Vikram Singh 2018BS03D | Poster | |
| 6. | Sonam Sihag 2020BS03D | Oral | International Webinar on "Trends in technology for agriculture, food, nutrition, environment and health", on October 2, 2020 at Jagannath University, Bahadurgarh, Haryana, India. |
| 7. | Sonam Sihag 2020BS03D | Oral | Webinar on "Computational techniques for applied sciences", from July 06-07, 2020 at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| 8. | Kajal Kumari, 2019BS01D | Poster | International Conference on "Global initiative in agricultural, forestry and applied sciences for food security, environmental safety and sustainable development (GIAFAS-2021)", from October 17-18, 2021 at Shri Guru Ram Rai University, Dehradun, Uttarakhand, India. |
| 9. | Sakshi Goyal 2020BS02D | Poster | |
| 10 | Sonam Sihag 2020BS03D | Oral | International Webinar on "Not-too-conventional thoughts about embryo culture", from June 15, 2021 at National Dairy Research Institute, Karnal, Haryana, India. |
| 11 | Surbhi Sahewalla 2020BS03D | Poster | International Conference on "Biotechnological initiative for climate resilient agriculture", from January 07-09, 2022 at Dr. Rajendra Prasad Central Agricultural University, Pusa, New Delhi, India. |
| 12 | Sonia Rani 2019BS05D | Poster | International Symposium on "Cereals for food security and climate resilience", from January 18-20, 2022 at ICAR-IIWBR, Karnal, Haryana, India. |
| 13 | Sonia Rani 2019BS05D | Oral | International Conference on "Environmental, agricultural, chemical and biological sciences", from January 22-23, 2022 at Kamaraj College, Thoothukudi, Tamilnadu, India. |
| 14 | Sonam Sihag 2020BS03D | Poster | National Conference on "Mathematical sciences for applied and agricultural research", on February 22, 2022 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 15 | Sonam Sihag 2020BS03D | Oral | National Webinar on "Innovations in crop improvement for national food security", on June 4, 2022 at Maharana Pratap University of Agriculture and Technology, Udaipur, Rajasthan, India. |
| 16 | Sonam Sihag | Poster | International Conference on "Innovative and current advances in |

| | | | |
|---|---|---|---|
| | 2020BS03D | | agriculture and allied sciences", from June 12-14, 2022 at Himachal Pradesh University, Summer Hill, Shimla, Himachal Pradesh, India. |
| 17 | Jyoti Duhan 2019BS52M | Poster | |
| 18 | Sonia Rani 2019BS05D | Poster | |
| 19 | Sakshi Goyal 2020BS02D | Poster | |
| 20 | Kajal Kumari 2019BS01D | Poster | |
| 21 | Sonia Rani 2019BS05D | Poster | North Zonal Seminar on "Inter-disciplinary research strategies for climate resilient agriculture" on June 25th, 2022 at ICAR-Sugarcane Breeding Institute Regional Center, Karnal, Haryana, India. |
| 22 | Manne Hemanth Kumar 2019BS02D | Poster | |
| 23 | Vikram Singh 2018BS03D | Oral | Workshop on "Aromatic plants", on July 26, 2022 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 24 | Sonam Sihag 2020BS03D | Oral | National Webinar on "Quit India movement to food secured India", on August 8, 2022 at Maharana Pratap University of Agriculture and Technology, Udaipur. |
| 25 | Rashi 2019BS03D | Poster | National Symposium on "Paradigm shift in cotton cultivation", from August 8-10, 2022 at Maharana Pratap University of Agriculture and Technology, Udaipur. |
| 26 | Jyoti (2021BS03M) | Poster | |
| 27 | Vikram Singh 2018BS03D | Poster | |
| 28 | Kajal Kumari 2019BS01D | - | Workshop on "Basics to advanced bioinformatics, genomics and NGS data analytics", from August 13-31, 2022 at Nextgenhelper, New Delhi, India. |
| 29 | Vikram Singh 2018BS03D | - | Seminar on "Elsevier empowering agriculture research in India in association with cera", onAugust 24, 2022at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 30 | Vikram Singh 2018BS03D | Oral | Workshop on "Career opportunities for students: fellowships/ awards/ scholarships", from October 16-17, 2022 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 31 | Kajal Kumari 2019BS01D | Oral | International Conference on "Advances in biopolymers and composites: Health, environment and energy (ABCHEE, 2022)", from October 20-22, 2022 at Motilal Nehru National Institute of Technology Allahabad, Prayagraj, Uttar Pradesh. India. |
| 32 | Manju Rani 2021BS01D | - | Workshop on "MBBT in association with elan and vision" from December 20-23, 2022 at IIT Hyderabad. India. |
| 33 | Sonam Sihag 2022BS03D | Poster | International conference on "climate resilient agriculture for food security and sustainability "from Feb 17-19, 2023 |
| 34 | Taranjeet Kaur 2018BS02D | Poster | |
| 35 | Taranjeet Kaur 2018BS02D | Oral | |
| 36 | Sonu 2021BS02D | Poster | |
| 37 | Rashi | Poster | |

| | | | |
|---|---|---|---|
| | 2019BS03D | | |
| 38 | Vikram 2018BS03D | Poster | |
| 39 | Nisha 2021BS05M | Poster | |
| 40 | Surbhi Sahewalla 2021BS04D | Poster | |
| 41 | Mekapothula Shanker Reddy 2021BS04M | Poster | |
| 42 | Sunil | Poster | |
| 43 | Tranjeet Kaur 2018BS02D | Oral | International conference on "Biotechnology and human welfare: vision 2023 held on March 3-4, 2023 at CDLU, Sirsa |
| 44 | Sakshi Goyal 2020BS02D | Oral | International conference on "climate resilient agriculture for food security and sustainability "from Feb 17-19, 2023 |
| 45 | Kajal Kumari 2019BS01D | Poster | 63rd Annual International Conference of AMI "Microbial Technologies for sustainable Biosphere" from 2-4 Feb, 2023 at MDU, Rohtak |

## STUDENT PARTICIPATION IN TRAININGS/ WORKSHOPS

| Sr.no. | Name of student and admn no. | Duration | Title |
|---|---|---|---|
| **1.** | Surbhi Sahewalla 2020BS03D | 8-02-2022 to 19-02-2022 | Training Programme on "Skill in handling and management of agrochemicals and their impact on health and environment after 75 years of independence", at Assam Agricultural University, Jorhat, Assam, India. |
| **2.** | Surbhi Sahewalla 2020BS03D | 1-03-2022 to 5-03-2022 | Training Programme on "Sensitization on entrepreneurship development for agro-based industries", at Assam Agricultural University, Jorhat, Assam, India. |
| **3.** | Sakshi Goyal 2020BS02D Kajal Kumari, 2019BS01D | 17-05-2022 to 24-05-2022 | Training Programme on "Utilizing the scientific and technologies infrastructure (STUTI)", at Punjab Agricultural University, Ludhiana, Punjab, India. |
| **4.** | Sonam Sihag 2020BS03D | 11-07-2022 to 16-07-2022 | Training programme on "Advanced microscopy for sustainable agriculture", at Amity University, Noida, Uttar Pradesh, India. |
| **5.** | Sakshi Goyal 2020BS02D | 10-10-2022 to 20-10-2022 | Training programme on "Valorisation of crop residues and its management", at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| **6.** | Kajal Kumari 2019BS01D | 10-10-2022 to 20-10-2022 | |
| **7.** | Sonu 2020BS02D | 10-10-2022 to 20-10-2022 | |

*Annexure BIOCHEM-V*

## PLACEMENTS RECORD

| Sr. No. | Name of student(s) | Placements (duration 2018-2023) |
|---|---|---|
| 1. | Mr. Deepak | Agriculture Supervisor, State Government Haryana |
| 2. | Ms. Aarti | Probationary Officer in nationalized bank |
| 3. | Dr.Preeti Goyal | Assistant Professor, Department of Biochemistry, PAU, Ludhiana |
| 4. | Dr. Ekta Verma | PGT Biology, School Education, Haryana Government |
| 5. | Dr.Babita Kumari | Research Fellow, CCSHAU, Hisar |
| 6. | Dr.Punesh | Assistant Professor, Eternal University, H.P. |
| 7. | Dr. Sweety | Assistant Professor (Contract), CRM Jat College, Hisar |
| 8. | Dr. Reena Rana | PGT Biology, School Education, Haryana Government |
| 9. | Dr. Bunty Sharma | Assistant Professor, Baddi University, H.P. |
| 10. | Dr.Ritu Saini | Assistant Professor, University College, Kurukshetra |
| 11. | Dr. Naresh | Assistant Professor, Eternal University, H.P. |
| 12. | Ms. Kiran | Research Fellow, Agriculture University, Jodhpur |
| 13. | Ms. Sonam Sihag | Selected for the post of Scientist B, DRDO |

*Annexure BIOCHEM-VI*

## SCHOLARSHIP AND FINANCIAL SUPPORT

| Sr. No. | Name | Name of scholarship support | Sr. No. | Name | Name of scholarship support |
|---|---|---|---|---|---|
| 1. | Gampa Malesh 2019BS3M | ICAR-NTS(PG) | 8. | Anju Rani 2018BS1D | CSIR-UGC JRF |
| 2. | Kiran 2019BS04M | CCS HAU, Merit Fellowship | 9. | Vikram Singh 2018BS3D | |
| 3. | Ritu 2020BS02M | | 10. | Kajal Kumari 2019BS01D | |
| 4. | Sudeep Sindhu 2020BS04M | | 11. | Rashi 2019BS03D | |
| 5. | Chandan Layak, 2021BS01M | ICAR-NTS(PG) | 12. | Sonia 2019BS05D | |
| 6. | Nisha 2021BS05M | CCS HAU, Merit Fellowship | 13. | Manju Rani 2021BS01D | |
| 7. | Himani 2015BS4D | PM Fellowship of SERB, DST, New Delhi and CII | | | |

## NAME OF STUDENTS CLEARED NET, ARS, GATE OR ANY OTHER EXAMINATION

| 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | Total |
|---|---|---|---|---|---|
| 1 | 4 | 2 | 1 | 4 | 12 |
| Name of the student | Name of the student | Name of the student | Name of the student | Name of the student | |
| Anju Rani 2018BS1D | Surina Bhadu 2015BS6D | Kajal Kumari 2019BS01D | Sonam Sihag 2020BS03D | Manju Rani 2021BS01D | |
| | Vikram 2018BS3D | Sonia Rani 2019BS05D | | Sunil 2021BS02D | |
| | AnkushYadav 2018BS1M | | | Jyoti 2022BS02D | |
| | Rashi 2019BS03D | | | Surbhi Sahewalla 2021BS04D | |

***Annexure BIOCHEM-VIII***

## NAME OF STUDENTS GOT FELLOWSHIPS

| Year | Name of students | Name of fellowship |
|---|---|---|
| 2018-19 | Anju | CSIR-UGC JRF |
| 2019-20 | Vikram Singh | |
| 2019-20 | Rashi | |
| 2020-21 | Sonia | |
| 2020-21 | Kajal Kumari | |
| 2021-22 | Sunil | National Fellowship of OBC |
| 2022-23 | Manju Rani | CSIR-NET JRF |
| 2022-23 | Sonam Sihag | |

***Annexure BIOCHEM-IX***

| Sr. no. | Title of the paper/book | NAAS rating |
|---|---|---|
| **M.Sc.** | | |
| **2018-19** | | |
| 1 | Balan, D., Tokas, J. and Singal, H.R. (2018). UDP-glucose pyrophosphorylase: Isolation, purification and characterization from developing thermotolerant wheat (*Triticum aestivum*) grains. *Protein Expression and Purification*, **148**: 68-77. | 7.65 |
| **2019-20** | | |
| 2 | Rani, A., Tokas, J., Himani and Singal, H. R. (2019). Evaluation of antioxidative responses in cotton (*Gossypium hirsutum* L.) genotypes imparting resistance to sucking pest attack. *International Journal of Current Microbiology and Applied Sciences*, **8(8):** 2694-2707. | - |
| 3 | Rani, A., Tokas, J., Anamika and Singal, H. R. (2019). Indices of oxidative stress in cotton (*Gossypium hirsutum* L.) genotypes after infestation of sucking pest. *International Journal of Chemical Studies*, **7(5):** 1577-1582. | - |
| **2020-21** | | |
| 4 | Kumari, A., Chugh, L., Kumar, V., Nagar, S. and Kharor, N. (2020). Phytase from pearl millet: its partial purification and characterization. *Forage Research*, **46(1):**78-83. | 4.84 |

| | | |
|---|---|---|
| 5 | Chakraborthy, I., Kumari, P., Pahuja, S. K., Tokas, J. and Kumar, V. (2020). Elucidation of combining ability and fodder potential of sorghum hybrids. *Forage Research*, **46(2):** 132–140. | 4.84 |
| 6 | Mohan, N., Kumari, N., Jattan, M., Avtar, R. and Rathore, V. (2020). Aftermath of terminal heat stress on Indian mustard (*Brassica juncea* L.): A brief review. *Journal of Oilseed Brassica*, **11(1):** 1-8. | 4.77 |
| 7 | Mohan, N., Kumari, N., Jattan, M., Avtar, R., Rani, B. and Sushil (2020). Response of antioxidative system of *Brassica juncea* (L.) Czern&Coss. To terminal heat stress. *Bangladesh Journal of Botany*, **49(4):** 1185-1188. | 6.23 |
| **2021-22** | | |
| 8 | Naveen, N., Kumari, N., Avtar, R., Jattan, M., Ahlawat, S., Rani, B., Malik, K., Sharma, A. and Singh, M. (2021). Evaluation of effect of brassinolide in *brassicajuncea* leaves under drought stress in field conditions. *Horticulturae*, **7:**514. https://doi.org/10.3390 /horticulturae7110514. | 8.33 |
| **2022-23** | | |
| 9 | Tanwar, E., Nagar, S., Kumari, K., Mallesh, G. and Goyal, S. (2022). Enrichment of papaya juice using covalently immobilized xylanase from *Bacillus pumilus* SV-85S. *Biomass Conversion and Biorefinery*, 1-17.https://doi.org/10.1007/s13399-022-03521-x | 10.050 |
| **Ph.D.** | | |
| **2018-19** | | |
| 1. | Kumar, N., Tokas, J., Kumar, P. and Singal, H.R. (2018). Effect of salicylic acid on post-harvest quality of tomato (*Solanum lycopersicum* L.) fruit. *International Journal of Chemical Studies*, **6**(**1**): 1744-1747. | 5.31 |
| 2. | Verma, E., Tokas, J. and Singal, H.R. (2018). Effect of drought on physiological parameters in chickpea cultivars and their crosses. *International Journal of Chemical Studies*, **6(2):** 830-833. | 5.31 |
| 3. | Verma, E., Sharma, B., Singal, H.R. and Munjal, R. (2018). Purification of sucrose synthase from thermotolerant wheat grains and its characterization. *Journal of Environmental Biology*, **39**: 459-466. | 6.70 |
| 4. | Siwach, R., Tokas, J. and Seth, R. (2018). Lycopene: A natural antioxidant for anhydrous buffalo milk fat. *International Journal of Dairy Technology*, **71(1):** 164-173. | 6.81 |
| 5. | Siwach, R. and Tokas, J. (2018). Analysis of purified lycopene extract obtained from fresh tomatoes. *International Journal of Chemical Studies*, **6(1):** 597-601. | 5.31 |
| 6. | Kumar, P., Tokas, J., Kumar, N., Lal, M. and Singal, H.R. (2018). Climate change consequences and its impact on agriculture and food security. *International Journal of Chemical Studies*, **6(6):** 124-133. | 5.31 |
| **2019-20** | | |
| 7. | Himani., Bhadu, S., Tokas, J. and Satpal. (2019). Variation in structural carbohydrates of forage sorghum [*Sorghum bicolor* (L.) Moench] under saline conditions. *Forage Research*, **45(2):** 123-127. | 4.84 |
| 8. | Kumar, P, Tokas, J. and Singal, H.R. (2019). Amelioration of chromium VI) toxicity in Sorghum (*Sorghum bicolor* L.) using glycine betaine. *Scientific Reports*, **9**:16020. | 10.38 |

## LIST OF STUDENTS ON ROLL PRESENTLY

| Sr. No. | Name | Guide | Title of Research Problem |
|---|---|---|---|
| | | | **M.Sc.** |
| 1. | Anjali 2020BS08M | Dr. Nita Lakra | Wide hybridization and embryo rescue for pre - breeding in Indian mustard |
| 2. | Indu Mehra 2021BS12M | Dr. Sridevi T. | Efficacy of gibberellic acid and triacontanol on morpho-physiological, biochemical and anatomy of *Sorghum bicolour* L. under salt stress |
| 3. | Rura Singh 2021BS13M | Dr. Nita Lakra | Impact of biocontrol agent on morpho-biochemical traits in *Brassica juncea* against stem rot diseases |
| 4. | Alka Rani 2021BS21M | Dr. Sarita Devi | Response of mepiquat chloride and gibberellic acid on *Sorghum bicolor* L. for tolerance of salt stress under semi-arid conditions |
| 5. | Sukanaya 2021BS22M | Dr. Anushree | Preparation and characterization of cellulose-based bioplastic film with incorporation of plant extract |
| 6. | Manisha 2021BS44M | Dr. Anita Kumari | Physiological characterization of linseed (*Linum usitatissimum* L.) genotypes under salinity |
| 7. | Monika 2021BS45M | Dr. Sarita Devi | Ameliorating effect of mepiquat chloride and gibberellic acid on *Sorghum bicolor* L. under salt stress |
| 8. | Paidi Raja Sekar 2021BS46M | Dr.Vinod Goyal | Morpho-physiological response of *Brasicajuncea* genotypes under terminal heat stress |
| 9. | Amandeep 2022BS05M | Dr. Nita Lakra | Evaluation of Physio-biochemical and anatomical changes in Linseed genotypes under salinity stress |
| 10. | Aniket 2022BS06M | Dr. Upendra Baliyan | Molecular systematics of genus Sida based on analysis of nuclear ribosomal ITS DNA sequnces |
| 11. | Nidhi 2022BS13M | Dr. Rakesh Kumar | Utilization of treated wastewater for irrigation in wheat and its impact on rhizospheric microbial community |
| 12. | Ritu 2022BS14M | Dr.Rohtas Kumar | Synthesis of fruit peel residue derived biochar and its effect on soil health |
| 13. | Vihaan Bhadu 2022BS15M | Dr. Vinod Goyal | Characterization of kitchen waste biochar for reclamation of saline soils |
| 14. | Banita 2022BS29M | Dr. K.D. Sharma | Amelioration of terminal heat stress in Indian Mustard (*Brassica juncea* L.) by exogenous application of biostimulants |
| 15. | Ashika Ansari 2022BS50M | Dr. Vinod Goyal | To be decided |
| | | | **Ph.D.** |
| 1. | Neelam 2018BS16D | Dr. Neeraj Kumar | Enhancing physiological efficiency and yield potential of Indian mustard using hydrogel and salicylic acid under rain fed condition |
| 2. | Isha 2019BS06D | Dr. Sridevi T. | Standardization and evaluation of microbial consortium for decomposition of paddy straw and its compost efficiency on tomato (*Solanum lycopersicum* L.) |
| 3. | Monika 2019BS07D | Dr. Sridevi T. | Anatomical and physiological response to heat priming and salicylic acid for thermotolerance in mungbean (*Vigna* |

| | | | |
|---|---|---|---|
| | | | *radiata* L. Wilczek) |
| 4. | Surjeet 2019BS08D | Dr. Sridevi T. | Anatomical and physiological evaluation of heat priming and glycine betain under high temperature stress in mungbean (*Vigna radiata* L. Wilczek) |
| 5. | Vijay Kumar 2019BS09D | Dr. Sridevi T. | Impact of stubble burning on soil health, microbial community and on the physiology of succeeding grown wheat crop |
| 6. | Alisha Goyal 2019BS44D | Dr. PC Sharma and Dr. Renu Munjal | Physiological and biochemical evaluation of rice genotypes under aerobic and anaerobic direct seeded conditions |
| 7. | Kapil Deswal 2019BS45D | Dr. Renu Munjal | Genetic modification of wheat through CRISPF/Cas9 mediated genome editing and its phenotypic characterization |
| 8. | Pooja Ahlawat 2019BS46D | Dr. Anita Kumari | Physiological and biochemical studies on exogenous application of 24-epibrassinolide for salinity stress tolerance in bread wheat (*Triticum aestivum* L.) |
| 9. | Pardeep S.D. 2019BS47D | Dr. K.D. Sharma | Contribution of ear head associated physiological and biochemical traits to wheat (*Triticum aestivum* L.) grain yield under terminal high temperature and moisture stress |
| 10. | Preeti 2019BS48D | Dr. Neeraj Kumar | Morphological and physio-biochemical changes in response to exogenous application of glycine-betaine and salicylic acid under drought condition in chickpea (*Cicer arietinum* L.) |
| 11. | Priyanka Sharma 2019BS49D | Dr. Sarita Devi | Evaluation of glycine betaine and salicylic acid application as an effective inducer of thermotolerance in chickpea (*Cicerarietinum* L.) |
| 12. | Sarita 2019BS50D | Dr. Vinod Goyal | Physiological and molecular dissection of salt tolerance in chickpea (*Cicer arietinum* L.) |
| 13. | Minakshi 2020BS04D | Dr. Nita Lakra | Physio-biochemical and molecular characterization of mungbean genotypes for yellow mosaic virus resistance |
| 14. | Mukul Dev 2020BS05D | Dr. Sridevi T. | Study on efficiency of *in vitro* propagation of endangered *Commiphorawightii* and its phytochemical and antimicrobial properties |
| 15. | Parul Sharma 2020BS06D | Dr. Nita Lakra | Study of Putrescine application on growth, biochemical and anatomical characters in *Brassica* species under heat stress |
| 16. | Shakshi Bansal 2020BS07D | Dr. Nita Lakra | Study of cadaverine application on growth, biochemical and anatomical characters in *Brassica* species under heat stress |
| 17. | Sonu 2020BS08D | Dr. Upendra Kumar | Physiological and biochemical studies on foliar application of 24-epibrassinolide for salinity stress tolerance in chickpea (*Cicer arietinum* L.) genotype |
| 18. | Deepika Dhanda 2020BS17D | Dr. Baljeet Singh | Formulation of microbial consortium for paddy straw decomposition and its evaluation in rice-wheat rotation system |
| 19. | Swati 2020BS18D | Dr. Seema Sangwan | Studies on strawberry production under hydroponic and soilless media systems using different hoagland solution amendments |
| 20. | Tamanna 2020BS19D | Dr. K.D. Sharma | Physiological traits to assess the response of Indian mustard (*Brassica junce*a L) crop under different sowing environments and validation of Info Crop simulation model. |

| | | | |
|---|---|---|---|
| 21. | Vineeta Rana 2020BS20D | Dr. Rahul Kumar | Development of nitrogen enriched engineered biochar as slow release fertilizer |
| 22. | Gali Suresh 2020BS46D | Dr. K.D Sharma | Physiological response of 24- epibrassinolide (24-EBL) and salicylic acid (SA) in wheat (*Triticum aestivum* L.) under salinity stress |
| 23. | Kiran 2020BS47D | Dr. Neeraj Kumar | Role of orthosilicic acid and spermidine in mitigating terminal heat stress in Indian mustard [*Brassica juncea* (L.) Czern&Coss.] |
| 24. | Preety Rani 2020BS48D | Dr.Mamrutha H. M. and Dr. Renu Munjal | Deciphering photosynthesis associated traits in diverse wheat genotypes |
| 25. | Sonia Rani 2020BS49D | Dr. Renu Munjal | Exploring the physiological basis of variation in linseed genotypes for salinity tolerance |
| 26. | Sujata 2020BS50D | Dr. Anita Mann and Dr. Renu Munjal | Stage specific characterization and alleviation of irrigation induced salinity stress in wheat (*Triticum aestivum*L.) |
| 27. | Ankisha 2021BS05D | Dr. Sridevi T. | Evaluation of cadmium induced phytotoxicity and its alleviation by mycorrhiza in chickpea (*Cicer arietinum* L.) |
| 28. | Pooja 2021BS06D | Dr. Sridevi T. | Rate of mycorrhizal inoculum in improving growth, nutrient status and yield of C*icer arietinum* L. (Chickpea) genotypes under salinity stress |
| 29. | Shweta 2021BS07D | Dr. Sridevi T. | Morpho-physiological and anatomical changes in mustard (*Brassica juncea* L.) with foliar application of melatonin under salt stress |
| 30. | Snehlata 2021BS08D | Dr. Nita Lakra | Development identification and evaluation of an intergeneric hybrid between *Brassica juncea* and *Sinapis alba* for *Sclerotinia* stem rot resistance |
| 31. | Sumit 2021BS09D | Dr. Nita Lakra | Effect of exogenous application of melatonin on morpho-physiological, anatomical and biochemical traits of Indian mustard under heat stress |
| 33. | Ravi Kumar 2021BS16D | Dr. Anuj Rana | Development of biochar based microbial consortia for decomposition of paddy and sugarcane residues |
| 34. | Sugandh 2021BS17D | Dr. Rahul Kumar | Carbonization of ligno-cellulosic biomass to develop pyro ligneous acid and its impact on growth of wheat crop |
| 35. | Bhupnesh 2021BS40D | Dr. Anita Kumari | Evaluation of morpho-physiological and quality traits of wheat grown under long term FYM and nitrogen amended soil |
| 36. | Gayatri Kumari 2021BS41D | Dr. Sarita Devi | Morpho-physiological changes in sorghum (*Sorghum bicolor* L.) with foliar application of melatonin under salinity stress |
| 37. | Sajid Khan 2022BS05D | Dr. Sridevi T | Plant based synthesis of zinc and iron oxide nanoparticles to ameliorate cadmium toxicity in "Brassica Juncea L." |
| 38. | Parul 2022BS12D | Dr. Anuj Rana | Mitigation of salinity stress using biostimulants to promote growth of tomato (Solanum Lycopersicum) crop |
| 39. | Pushpa 2022BS13D | Dr. Kamla Malik | Fabrication of cellulose-silica based nanocomposites for desalination of water |
| 40. | Renu 2022BS14D | Dr. Seema Sangwan | Development of biosensors and biosurfactant-assisted-remediation of petroleum hydrocarbon contamination in environment |
| 41. | Swati 2022BS16D | Dr. Vinod Goyal | Bioremediation of heavy metals from steel slag |

| | | | |
|---|---|---|---|
| 42. | Pankaj 2022BS32D | Dr. Sarita Devi | Synthesis of Azadirachta indica based silver nanoparticles (AgNPs) and analysing its impact on Sorghum bicolor L. under salt stress |
| 43. | Dinesh Kumar G 2022BS44D | Dr. Anita Kumari | To be decided |
| 44. | Prakriti 2022BS47D | Dr. Sarita Devi | To be decided |
| 45. | Rishita 2022BS48D | Dr. Nita Lakra | To be decided |

## STUDENTS PARTICIPATION IN SEMINAR/ CONFERENCE/WORKSHOP ETC.

| Sr. No. | Name of student and admn no. | Oral/ Poster | Seminar/ Conference/Workshop details |
|---|---|---|---|
| **M.Sc./ Ph.D. students** | | | |
| 1. | Sapna 2017BS31D | Poster | International Conference on "Bio and nano technologies for sustainable agriculture, food, health, energy and industry", from February 21-23, 2018 at Guru Jambheshwar University of Science and technology, Hisar, Haryana, India. |
| 2. | Aarti 2017BS32D | Poster | |
| 3. | Manish Jangra 2018BS15D | Poster | International Conference on "Sustainable agriculture, energy, environment and technology", from February 24-25, 2018 at Maharshi Dayanand University, Rohtak, Haryana, India. |
| 4. | Manish Jangra 2018BS15D | Poster | International Symposium on "Innopreneurship: A need of sustainable agriculture", from February 2-3, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 5. | Sapna 2017BS31D | Oral | |
| 6. | Neelam Rani 2018BS16D | Poster | National Conference on "Biodiversity and environmental sustainability in modern era", on February 16, 2019 at Department of Zoology, The Chhaju Ram Memorial Jat College, Hisar, Haryana, India. |
| 7. | Manish Jangra 2018BS15D | Oral | International Conference on "Climate change toward health and agricultural sustainability", from February 18-20, 2019 at Guru Jambheshwar University of Science and technology, Hisar, Haryana, India. |
| 8. | Sapna 2017BS31D | Poster | |
| 9. | Sapna 2017BS31D | Oral | |
| 10. | Neelam Rani 2018BS16D | Poster | Seminar on "Eco friendly techniques for sustainable development", on February 20, 2019 at St. Wilfred's PG College, Jaipur, Rajasthan, India. |
| 11. | Manish Jangra 2018BS15D | Poster | International Seminar on "Sustainable environment and agriculture under global climate change" on February 21, 2019 at Maharshi Dayanand University, Rohtak, Haryana, India. |
| 12. | Neelam Rani 2018BS16D | Poster | Symposium on "Avenues and challenges in life science", on February 22, 2019 at St. Wilfred's PG College, Jaipur, Rajasthan, India. |
| 13. | Manish Jangra 2018BS15D | Oral | International Conference on "Stewardship towards sustainability", from September, 6-7, 2019 at SGT University, Gurugram, Haryana, India. |
| 14. | Parul 2018BS12M | Oral | National Conference on "Recent trends in the field of environmental science and engineering", from September 20-21, 2019 at Guru Jambheshwar University of Science and technology, Hisar, Haryana, India. |
| 15. | Aarti 2017BS32D | Poster | National Conference of Plant Physiology (NCPP-2019) on "Plant productivity and stress management", from December 19-21, 2019 at |

| | | | |
|---|---|---|---|
| | | | Kerala Agricultural University, Thrissur, Kerala, India. |
| 16. | Manish Jangra 2018BS15D | Oral | International Conference on "Perspective on agricultural and applied sciences in COVID-19 scenario", from October, 4-6, 2020 at U.S. Nagar, Uttrakhand, India. |
| 17. | Sapna 2017BS31D | Poster | International Conference on "Innovative and current advances in agriculture and allied sciences", from July 19-21, 2021. |
| 18. | Priyanka Sharma 2019BS49D | Poster | National Conference of Plant Physiology on "Frontiers of plant physiology for climate smart agriculture (NCP-2021)", from December 9-11, 2021 at ICAR-National Institute of Abiotic stress Management, Pune, Maharashtra, India. |
| 19. | Sonu 2020BS08D | Poster | |
| 20. | Isha 2019BS06D | Poster | |
| 21. | Aarti 2017BS32D | Poster | |
| 22. | Sinky 2017BS33D | Poster | |
| 23. | Aarti 2017BS32D | Poster | |
| 24. | Sapna 2017BS31D | Poster | International Conference on "Global research initiatives for sustainable agriculture and allied sciences", from December 13-15, 2021 at Swami Keshwanand Rajasthan Agricultural University, Bikaner, Rajasthan, India. |
| 25. | Sapna 2017BS31D | Poster | I$^{st}$ International Symposium on "Cereals for food security and climate resilience", from January 18-20, 2022 at Indian Institute of Wheat and Barley Research, Karnal, Haryana, India. |
| 26. | Renu 2020BS19M | Poster | National Symposium on "Crop protection through biorational approaches-current trends in and future perspective", on March 10, 2022 at Department of Plant Pathology College of Agriculture, CCSHAU Hisar, Haryana, India. |
| 27. | Minakshi 2020BS04D | Poster | National Symposium on "crop protection through bio-rational approaches – current trends and future prospective & national meeting of Indian Plant Pathological Society (NZ)", on 10 March, 2022 at Department of Plant Pathology, College of Agriculture, CCS HAU Hisar, Haryana, India. |
| 28. | Neelam Rani 2018BS16D | Poster | 3$^{rd}$ National Research Scholar's Meet on "Innovation challenges in interdisciplinary research and practices", from March 24-25, 2022 at Sri Guru Granth Sahib World University, Fatehgarh, Punjab, India. |
| 29. | Neelam Rani 2018BS16D | Poster | International Conference on "Recent trends in science, technology, management and humanities", on March 29$^{th}$, 2022 at Jagannath University, Bahadurgarh, Haryana, India. |
| 30. | Sinky 2017BS33D | Poster | International Conference on "Innovative and current advances in agricultural and allied sciences", from June 12-14, 2022 organized by Society for Scientific Development in Agriculture and Technology at Meerut, Uttar Pradesh, India. |
| 31. | Manish Jangra 2018BS15D | Oral | International Conference on "Recent advances and innovations in biological and applied sciences (RAIBAS 2022)", from June 14-16, 2022 at SGT University, Gurugram, Haryana, India. |
| 32. | Aarti 2017BS32D | Oral | |
| 33. | Manish Jangra 2018BS15D | Oral | |
| 34. | Pankaj 2020BS37M | Poster | ISPP North Zonal Seminar-2022 on "Inter-disciplinary research strategies for climate resilient agriculture", on June 25, 2022 at Sugarcane Breeding Institute Regional Centre, Karnal, Haryana, India. |
| 35. | Parkriti 2020BS09M | Poster | |
| 36. | Manisha 2021BS44M | Poster | |

| | | | |
|---|---|---|---|
| 37. | Monika 2021BS45M | Poster | |
| 38. | Babita Rani (SRF) | Poster | |
| 39. | Aarti (2017BD32D) | Poster | |
| 40. | Pooja (2017BS30D) | Poster | |
| 41. | Sapna (2017BS31D) | Poster | |
| 42. | Kapil Deswal (2019BS45D) | Poster | |
| 43. | Sarita (2019BS50D) | Poster | |
| 44. | Bhupnesh (2021BS40D) | Poster | |
| 45. | Priyanka Sharma (2019BS49D) | Poster | |
| 46. | Ankisha (2021BS05D) | Poster | |
| 47. | Aarti (2017BS32D), | Oral | |
| 48. | Isha (2019BS06D) | Poster | International Conference on "Biotechnology trends and future prospects", from September 13-15, 2022 at Department of Plant Biotechnology, University of Agricultural Sciences Bangalore, Karnataka, India. |
| 49. | Renu (2020BS19M) | Poster | Annual International Conference on "Microbiology and society: Current trends and future prospects microbes and society: Current trends and future prospects", from September 21-23, 2022 at Vijnana Bhavana, Manasagangotri University of Mysore, Karnataka, India. |

## STUDENT PARTICIPATION IN TRAININGS/WORKSHOPS

| Sr. no. | Name of student and admn no. | Duration | Title |
|---|---|---|---|
| 1. | Sapna 2017BS31D | 14-03-2018 | Workshop on "State level biosafety capacity building", at CCS Haryana Agricultural University, Hisar. |
| 2. | Pooja Ahlawat 2019BS46D | | |
| 3. | Aarti 2017BS32D | | |
| 4. | Sinky 2017BS33D | | |
| 5. | Sinky 2017BS33D | 17-07-2018 to 21-07-2018 | Workshop cum hands on training on "Recent trends in bioinformatics and its application in crop improvement", at department of Molecular Biology, Biotechnology and Bioinformatics, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 6. | Pooja Ahlawat 2019BS46D | | |
| 7. | Parul 2018BS12M | 16-10-2018 to 17-10-2018 | Workshop on "Carrier opportunities for students", at CCS Haryana Agricultural University, Hisar, Haryana, India. |

| | | | |
|---|---|---|---|
| 8. | Pooja Ahlawat 2019BS46D | 15-11-2018 | National workshop cum awareness programme on "Bioethics in research: a need or compulsion", at Department of Genetics, Maharshi Dayanand University, Rohtak. |
| 9. | Parul 2018BS12M | 10-01-2019 to 11-01-2019 | Hands on training programme on "Basic and advanced analytical instrumentation in plant physiology", at Department of Botany and Plant Physiology, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 10. | Sapna 2017BS31D | | |
| 11. | Sinky 2017BS33D | | |
| 12. | Neelam Rani 2018BS16D | | |
| 13. | Aarti 2017BS32D | 08-07-2019 to 17-07-2019 | International Workshop on "Molecular mapping of economic traits using high throughput technologies", at Department of Botany and Plant Physiology CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 14. | Manish Jangra 2018BS15D | | |
| 15. | Sapna 2017BS31D | | |
| 16. | Aarti 2017BS32D | 04-11-2019 to 17-11-2019 | Training Course on "Big data analytics in bioinformatics", at Department of Computer Science and Engineering, Mnmjec, Chennai. |
| 17. | Aarti 2017BS32D | 28-11-2019 | International Workshop on "Targeted proteomics", at ICAR-National Dairy Research Institute, Karnal, Haryana, India. |
| 18. | Aarti 2017BS32D | 29-11-2019 | International workshops on "Quantitative proteomics", at ICAR-National Dairy Research Institute, Karnal, Haryana, India. |
| 19. | Aarti 2017BS32D | 30-11-2019 to 01-12-2019 | International Workshop on "Proteogenomics", at ICAR-National Dairy Research Institute, Karnal, Haryana, India. |
| 20. | Sapna 2017BS31D | 22-01-2020 | Workshop on "Recent computational techniques of mathematical sciences for researchers", at Department of Mathematics and Statistics CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 21. | Aarti 2017BS32D | 25-02-2020 to 05-03-2020 | International Workshop on "Plant Genomics", at Department Botany and Plant Physiology, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 22. | Pooja Ahlawat 2019BS46D | | |
| 23. | Manish Jangra 2018BS15D | | |
| 24. | Sapna 2017BS31D | 07-07-2020 | Training Course on "Mendeley"by Aggrawal college, Ballabhgarh, India. |
| 25. | Sapna 2017BS31D | 20-07-2020 to 25-07-2020 | Training Course on "Data analysis in R", by REST Society for Research International (RSRI), Krishnagiri, Tamil Nadu, India. |
| 26. | Manish Jangra 2018BS15D | 20-08-2020 to 09-09-2020 | National Training Programme on "Advances in fodder production, utilization and conservation for improving livestock health, productivity and environmental sustainability", by ICAR-Indian Grassland and Fodder |

| | | | |
|---|---|---|---|
| | | | Research Institute Regional Research Station, Srinagar, Jammu and Kashmir, India. |
| 27. | Pooja Ahlawat 2019BS46D | 01-03-2021 to 07-03-2021 | Workshop on "LaTeX for scientific writing (LaTeX-2021)", online by Guru Jambheshwar University of Science and Technology, Hisar. |
| 28. | Aarti 2017BS32D | 16-03-2021 | International Webinar on "Translating physiological tools to augment crop breeding", organized by ICAR- Indian Institute of Wheat and Barley Research, Karnal, India. |
| 29. | Manish Jangra 2018BS16D | | |
| 30. | Aarti 2017BS32D | 21-09-2021 to 27-09-2021 | International Workshop on "Advance statistical data analysis uses SPSS", by Science Technology Institute, Lucknow, India. |
| 31. | Manish Jangra 2018BS16D | 01-11-2021 to 10-11-2021 | Training on "Molecular data analysis through bioinformatics tools", at Department of MBB, S.V. Agriculture College, Angrau, Tirupati, India. |
| 32. | Manish Jangra 2018BS16D | 16-01-2022 to 15-04-2022 | Training Programme on "Nursery production and management of horticulture crops", at G. B. Pant University of Agriculture and Technology, Pant Nagar, Uttarakhand, India. |

***Annexure BPP-V***

## PLACEMENTS RECORD

| Sr. no. | Name of Students | Placement (2018-2023) |
|---|---|---|
| 1. | Dr. Sunita | Assistant Professor Botany, Higher Education Haryana |
| 2. | Dr. Prabha | Scientist, Agricultural Research Service |
| 3. | Deepika | Assistant Professor Botany, Higher Education Haryana |
| 4. | Dr. Asha | Assistant Professor Botany, Higher Education Haryana |
| 5. | Dr. Rajkumar | Lecture, PGT, Haryana |
| 6. | Dr. Kripa Ram | Assistant Professor, Baba Mast Nath University, Rohtak |
| 7. | Dr. Suman Bala | Lecturer, DN College, Hisar |
| 8. | Dr. Poonam Kumari | Lecture, GDC, Memorial College Bhel |
| 9. | Dr.Ajeev Kumar | Lecturer, Jagan Nath University, Bahadurgarh |
| 10. | Dr. Vishnu Prakash Agrawal | Assistant Professor Plant Physiology, Rajasthan Agricultural University, Bikaner |
| 11. | Dr. Aarti | Assistant Professor, M. K. M group of colleges for Girls, Hodel Haryana |
| 12. | Dr. Sukham Madan | Assistant Scientist at CCS Haryana Agricultural University, Hisar |
| 13. | Dr. Pooja Swami | Senior Research Fellow, Division of Environmental Science, IARI, New Delhi. |
| 14. | Dr. Sapna | Young Professional-II, ICAR-Sugarcane Breeding Institute Regional Center, Karnal, Haryana |
| 15. | Dr. P. Bhasker | Assistant Scientist at CCS Haryana Agricultural University, Hisar |

## SCHOLARSHIP AND FINANCIAL SUPPORT

| Sr. No. | Name | Name of scholarship support | Sr. No. | Name | Name of scholarship support |
|---|---|---|---|---|---|
| 1. | Parul 2018BS12M | CCS HAU, Merit Fellowship | 33. | Vijay Kumar 2019BS09D | CSIR |
| 2. | Tamanna 2018BS13M | | 34. | Alisha Goyal 2019BS44D | CCS HAU, Merit Fellowship |
| 3. | Vineeta Rana 2018BS14M | | 35. | Kapil Deswal 2019BS45D | CSIR |
| 4. | Kiran 2018BS28M | | 36. | Pooja Ahlawat 2019BS46D | UGC |
| 5. | Preety Rani 2018BS29M | Stipend | 37. | Pradeep S.D 2019BS47D | CSIR |
| 6. | Sujata 2018BS30M | | 38. | Preeti 2019BS48D | CCS HAU, Merit Fellowship |
| 7. | Ankisha 2019BS07M | CCS HAU, Merit Fellowship | 39. | Priyanka 2019BS49D | UGC |
| 8. | Sweta 2019BS08M | | 40. | Sarita 2019BS50D | CCS HAU, Merit Fellowship |
| 9. | Sumit 2019BS09M | | 41. | Minakshi 2020BS04D | CSIR |
| 10. | Charu 2019BS18M | | 42. | Mukul Dev 2020BS05D | UGC |
| 11. | Gaurav 2019BS19M | | 43. | Parul sharma 2020BS06D | |
| 12. | Bharti 2019BS34M | Stipend | 44. | Shakshi Bansal 2020BS07D | |
| 13. | Bhupnesh 2019BS35M | CCS HAU, Merit Fellowship | 45. | Sonu 2020BS08D | CSIR |
| 14. | Gayatri 2019BS36M | | 46. | Deepika Dhanda 2020BS17D | CCS HAU, Merit Fellowship |
| 15. | P.S. Kiran 2019BS37M | ICAR-NTS for PG Programme | 47. | Swati 2020BS18D | |
| 16. | Anjali 2020BS08M | CCS HAU, Merit Fellowship | 48. | Tamanna 2020BS19D | |
| 17. | Prakriti 2020BS09M | | 49. | Vineeta Rana 2020BS20D | |
| 18. | Sajid Khan 2020BS10M | | 50. | Gali Suresh 2020BS46D | ICAR |
| 19. | Renu 2020BS19M | | 51. | Kiran 2020BS47D | CCS HAU, Merit Fellowship |
| 20. | Pankaj 2020BS37M | | 52. | Preety Rani 2020BS48D | |

| | | | | | |
|---|---|---|---|---|---|
| 21. | Indu Mehra 2021BS12M | | 53. | Sonia rani 2020BS49D | |
| 22. | Rura Singh 2021BS13M | Stipend | 54. | Sujata 2020BS50D | |
| 23. | Alka Rani 2021BS21M | CCS HAU, Merit Fellowship | 55. | Ankisha 2021BS05D | |
| 24. | Sukanya 2021BS22M | | 56. | Pooja 2021BS06D | JRF-HSCSIT Fellowship |
| 25. | Manisha 2021BS44M | | 57. | Shweta 2021BS07D | CCS HAU, Merit Fellowship |
| 26. | Monika 2021BS45M | | 58. | Snehlata 2021BS08D | CSIR |
| 27. | Paidi Raja Sekhar 2021BS46M | ICAR-JRF | 59. | Sumit 2021BS09D | CCS HAU, Merit Fellowship |
| 28. | Manish Jangra 2018BS15D | National OBC Fellowship | 60. | Ravi Kumar 2021BS16D | CCS HAU, Merit Fellowship converted to JRF from June 2022 |
| 29. | Neelam 2018BS16D | UGC | 61. | Sugandh 2021BS17D | CCS HAU, Merit Fellowship |
| 30. | Isha 2019BS06D | | 62. | Bhupnesh 2021BS40D | |
| 31. | Monika 2019BS07D | | 63. | Gayatri Kumari 2021BS41D | |
| 32. | Surjeet 2019BS08D | | | | |

## STUDENTS PUBLICATIONS

| Sr. no. | Title of the paper/book | NAAS rating |
|---|---|---|
| | **M.Sc.** | |
| | **2018-2019** | |
| 1. | Bala, S., Varsheny, U.K. and Kumari, A. (2018). Effect of chloride and sulphate dominated salinity on minerals constituents of senna (*Cassia angustifolia* Vahl.). *Journal of Plant Development Sciences*, **10**: 127-131. | 4.57 |
| 2. | Jangra, M., Devi, S., Kumar, N., Satpal and Goyal, V. (2019). Effect of salicylic acid on growth and plant water status of sorghum genotype under salt stress. *International Journal of Chemical Studies*, **7(2)**: 1180-84. | 5.31 |
| 3. | Pooja and Munjal, R. (2019). Heat tolerant wheat genotypes for late sown conditions identified on the basis of physiological traits. *Journal of Agrometerology*, **21(1)**: 97-100. | 6.56 |
| | **2019-2020** | |
| 4. | Sonia., Munjal, R., Pooja and Suresh (2020). Genetic variation of stem characters in wheat and their relation to physiological characters and yield under drought. *Indian Journal of Genetics*, **80(4)**: 365-374. | 6.47 |
| | **2020-2021** | |
| 5. | Sapna and Sharma, K.D. (2021). Response of *rhizobial* strains on biochemical traits and nutrient uptake in mungbean (*Vigna radiata* L. Wilczek) under moisture stress. *Journal of Plant Development Sciences*,**13(6)**: 399-402. | 4.13 |
| 6. | Sapna, Sharma, K.D. and Kumar, R. (2021). Mitigating drought in mung bean using rhizobium induced alteration in physiological traits. *International Journal ofCurrent* | 5.38 |

| | | |
|---|---|---|
| | *Microbiology and Applied Sciences*, **10(3)**: 559-565. | |
| 7. | Sapna and Sharma, K.D. (2021). Impact of different rhizobial strains on physiological responses and seed yield of mungbean [*Vigna radiata* (L.) Wilczek] under field conditions. *Legume Research*,**44(6):** 679-683. | 6.34 |
| | **2021-2022** | |
| 8. | Swami, P., Munjal, R. and Deswal, K. (2021). Targeting photosynthesis under abiotic stress. *Journal of Cereal Research*, **14:** 53-66. | 4.57 |
| 9. | Bala, R., Munjal, R., Kumari, A., Swami, P. and Sharma, B. (2022). Morphological characterization of wheat genotypes to different doses of phosphorus fertilizer at seedling stage. *Frontieres in Crop Improvement*, **9**: 3863-3866. | 4.67 |
| | **2022-23** | |
| 10. | Prakriti, Sridevi, T., Devi, S. and Satpal (2022). Salinity stress alleviation in fodder crops through foliar application of jasmonic acid. *Forage Research*, **48(1)**: 11-21. | 4.84 |
| **Ph.D.** | | |
| | **2018-2019** | |
| 1. | Chand, G., Nandwal, A.S., Kumar, N., Devi, S. and Khajuria, S. (2018). Yield and physiological responses of mungbean (*Vigna radiate* L. Wilczek) genotypes to high temperature at reproductive stage. *Legume Research*, **41(4):** 557-562. | 6.12 |
| 2. | Bhasker, P., Nandwal, A.S., Kumar, N., Devi, S., Arya, S.S., Chand, G., Kumar, K. and Kumar, S. (2018). High temperature effects on physiological traits and seed yield of chickpea (*Cicer arietinum* L.) cultivars with different heat susceptibility. *International Journal of Natural Sciences Research*,**1(1)**: 18-27. | 5.31 |
| 3. | Lal, M., Kumar, A., Jangra, M., kumar, R., Kumar, M. and Sheokand, S. (2018). Effects of different heavy metals and mycorrhizal treatments on various physiological processes in cotton genotypes. *International Journal of Pure and Applied Bioscience*,**6(3)**: 146-153. | 4.74 |
| 4. | Lal, M., Kumar, A., Jangra, M., Kumar, R. and Sheokand, S. (2018). Screening of pigeonpea [*Cajanus cajan* (L.) Millsp.] genotypes for waterlogging, salinity and combined waterlogging and salinity tolerance. *International Journal of Pure and Applied Bioscience*, **6(3):** 128-136. | 4.74 |
| 5. | Kumar, A., Kumar, D., Jangra, M. and Kumar, N. (2018). Growth and development of rapeseed mustard and other field crops under different sowing dates. *International Journal of Pure and Applied Bioscience*, **6(6)**: 144-156. | 4.74 |
| 6. | Madaan, S., Devi, S., Toky, O. P., Kaur, V., Angrish, R., Arya, S. S. and Kumari, A. (2018). Lysimetric quantification of bio drainage potential of some tree species. *The Bioscan*,**13(3)**: 735-742. | 5.26 |
| 7. | Neelam., Kumar, N., Kumar, K., Sharma, M.K. and Rani, S. (2019). Effects of saline irrigation on physiological responses and yield attributes in chickpea genotypes. *Journal of Agro meteorology*, **20**: 359-363. | 6.40 |
| | **2019-2020** | |
| 8. | Pooja, Nandwal, A.S., Chand, M., Singh, K., Mishra, A.K., Kumar, A., Kumari, A. and Rani, B. (2019). Varietal variation in physiological and biochemical attributes of sugarcane varieties under different soil moisture regimes. *Indian Journal of Experimental Biology*,**57(10)**: 721-732. | 7.48 |
| 9. | Ram, K., Munjal, R., Harikesh., Suresh and Kumari, A. (2020). AMMI and GGE Biplot analysis for yield stability of wheat genotypes under drought and high temperature stress. *International Journal of Current Microbiology and Applied Sciences*, **9(5)**: 377-389. | 5.38 |
| 10. | Devi, S., Satpal., Kumari, P., Goyal, V. and Jangra, M. (2020). Variation in physiological responses to salt stress in sorghum (*Sorghum bicolor* L. Monech). *International Journal of Current Microbiology and Applied Sciences*, **9(4)**: 2236-2242. | 5.38 |
| | **2020-2021** | |
| 11. | Pooja., Munjal, R., Bhaumik, J. and Kaur, R. (2020). Role of zinc oxide nanoparticles in mitigation of drought and salinity-a review. *International Journal of Current* | 5.38 |

| | | |

## LIST OF PASS OUT STUDENTS (M.SC.)

| Sr. No. | Name of students | Admn. no. | Duration |
|---|---|---|---|
| **2018-19 (02)** | | | |
| 1. | Yashika | 2016BS06M | June, 2018 |
| 2. | Manish Jangra | 2016BS24M | June, 2018 |
| **2019-20 (03)** | | | |
| 1. | Sonia Rani | 2017BS09M | July, 2019 |
| 2. | Preeti | 2017BS49M | July, 2019 |
| 3. | Alisha Goyal | 2017BS51M | July, 2019 |
| **2020-21 (06)** | | | |
| 1. | Parul | 2018BS12M | October, 2020 |
| 2. | Tamanna | 2018BS13M | September, 2020 |
| 3. | Vineeta Rana | 2018BS14M | September, 2020 |
| 4. | Kiran | 2018BS28M | September, 2020 |
| 5. | Preeti Rani | 2018BS29M | October, 2020 |
| 6. | Sujata | 2018BS30M | September, 2020 |
| **2021-22 (08)** | | | |
| 1. | Ankisha | 2019BS07M | September, 2021 |
| 2. | Sumit | 2019BS09M | September, 2021 |
| 3. | Sweta | 2019BS08M | October, 2021 |
| 4. | Charu | 2019BS18M | August, 2021 |
| 5. | Gaurav | 2019BS19M | October, 2021 |
| 6. | Bhupnesh | 2019BS35M | August, 2021 |
| 7. | Gayatri | 2019BS36M | August, 2021 |
| 8. | P.S. Kiran | 2019BS37M | September, 2021 |
| **2022-23 (06)** | | | |
| 1. | Anjali | 2020BS08M | December, 2022 |

| | | | |
|---|---|---|---|
| 2. | Prakriti | 2020BS09M | August, 2022 |
| 3. | Sajid Khan | 2020BS10M | August, 2022 |
| 4. | Renu | 2020BS19M | August, 2022 |
| 5. | Bharti Rawal | 2019BS34M | September, 2022 |
| 6. | Pankaj | 2020BS37M | August, 2022 |

## LIST OF STUDENTS ON ROLL PRESENTLY

| Sr. no. | Name<br>Admission no. | Guide | Title of research problem |
|---|---|---|---|
| | | **Ph.D.** | |
| 1. | Monika Moond<br>2018BS04D | Dr.Sushila Singh | Green synthesis of silver nanoparticles using leaf and seed extracts of fenugreek for catalytic, antioxidant and antimicrobial activities |
| 2. | Pooja<br>2018BS05D | Dr.Sushil | Dissipation, decontamination and leaching behaviour of thiamethoxam + λ cyhalothrin (Ready mix) in soil and chilli |
| 3. | Monika<br>2019BS10D | Dr. Anil Duhan | Persistence, sorption and biocomposite based strategic mitigation of ethalfluralin from different soil orders. |
| 4. | Naincy Rani<br>2019BS11D | Dr. Anil Duhan | Synthesis, efficacy and ultimate fate of novel nano-fungicides |
| 5. | Neelam<br>2019BS12D | Dr. Ravi Kumar | Natural product inspired synthesis of substituted pyridones of biological importance |
| 6. | Payal Rani<br>2019BS13D | Dr. Jayant Sindhu | Exploration of C-H functionalization for the sulfenylation of aryl/heteroaryl conjugates |
| 7. | Pinki<br>2019BS14D | Dr.Sushila Singh | Comparison of green and conventional methods for phytochemical extraction and antioxidant activity of *Cordiamyxa*(lasura) |
| 8. | Pooja<br>2019BS15D | Dr.Sushil | Persistence and decontamination studies of a combination formulation (pyriproxyfem 5% ec + fenpropathrin 15% ec) in okra and soil |
| 9. | Pooja<br>2019BS16D | Dr.Sushil | Dissipation and decontamination of ready-mix formulation (fipronil 7% + hexythiazox 2%) in chilli and soil |
| 10. | Pooja Rani<br>2019BS17D | Dr. Rahul Kumar | Development of rice straw derived cellulose based adsorbents and their application in water remediation |
| 11. | Sandhya Chahal<br>2019BS18D | Dr.Rajvir Singh | Design and synthesis of biologically relevant novel fused heterocycles |
| 12. | Sarita<br>2019BS19D | Dr.Sonu Chauhan | Synthesis of 2/4-pyridone derivatives of biological importance |
| 13. | Sheetal<br>2019BS20D | Dr.Anushree | Blended biopolymer based nano-formulation for controlled release of chloropyrifos |
| 14. | Deepika<br>2020BS09D | Dr. Anil Duhan | Adsorption-desorption and toxicological consequences of some commonly used paddy herbicies in soil |
| 15. | Indu Rani<br>2020BS10D | Dr.Sachin Kumari | Synthesis and characterization of biosorbents for removal of heavy metals from aqueous system |
| 16. | Jyoti Rani<br>2020BS11D | Dr.Sushila Singh | Green synthesis of silver nanoparticles using juice and peel extract of pomegranate (*Punicagranatum* L.*)* for antioxidant, antimicrobial and catalytic activities |
| 17. | Karuna<br>2020BS12D | Dr. Rahul Kumar | Development of phosphorous enriched engineered biochar as slow release fertilizer |

| | | | |
|---|---|---|---|
| 18. | Kiran 2020BS13D | Dr. Jayant Sindhu | Unraveling the excited state behaviour of novel fluorophores |
| 19. | Priyanka 2020BS14D | Dr. Jayant Sindhu | Exploraion of non-conventional methodologies for C-H functionalization |
| 20. | Sanchit 2020BS15D | Dr.Anushree | Development of lignin based nanoformulation for controlled release of pesticide |
| 21. | Vidhi 2020BS16D | Dr.Ravi Kumar | Ultimate fate and toxicological studies of pretilachlor and its metabolites in different soil order |
| 22. | Anju 2021BS10D | Dr. Jayant Sindhu | Exploration of chemically tailored conjugated frameworks in real time sensing applications |
| 23. | Anuradha 2021BS11D | Dr.Sushila Singh | Synthesis of silver nanoparticles using leaves and peel extract of sapota (*Manilkarazapota*L.*)* for antioxidant, catalytic activity and colorimetric sensing |
| 24. | Mansi 2021BS12D | Dr. Rahul Kumar | Development of multi-nutrient fertilizer using nanobiochar as a carrier for soil health and plant growth improvement |
| 25. | Reena Rani 2021BS13D | Dr. Ravi Kumar | Natural product inspired synthesis of 3-acyl 2-pyridones and their bioevalution |
| 26. | Rupali Gupta 2021BS14D | Dr. Anil Duhan | Ultimate fate and toxicological consequences of butachlor and its metabolites in different soils of Haryana |
| 27. | Sheetu Devi 2021BS15D | Dr. Ravi Kumar | Synthesis and bioevaluation of C-3 alkylated 2-pyridones |
| 28. | Bhagya Shree 2022BS06D | Dr.Sachin Kumari | Development of bio-adsorbent from agricultural waste for removal of heavy metals from simulated water |
| 29. | ChetnaKhokhra 2022BS07D | Dr.Sushil | Dissipation and decontamination studies of a ready-mix formulation (Chlorantraniliprole + Lambda-cyhalothrin) in okra and soil |
| 30. | Pooja Rani 2022BS09D | Dr. Anushree | Development of Functionalized Hierarchical Zeolite for slow release of herbicide |
| 31. | Simran 2022BS10D | Dr.Sushila Singh | Synthesis of magnetite nanoparticles using leaves and bark extracts of Mauslsari (*Mimusops elengi* L.) for antioxidant and environmental applications |
| 32. | Suman 2022BS11D | Dr. Sonu Chauhan | Synthesis, characterization of Schiff base metal complexes of Isatin derivatives and evaluation of their urease inhibitory activity |
| **M.Sc.** | | | |
| 1. | Deepak Phogat 2020BS11M | Dr. Rahul Kumar | Development of slow releasing phosphate fertilizer using sweet lemon (*Citrus limetta* L.) peel derivedbiochar |
| 2. | Bharti 2021BS15M | Dr. Rahul Kumar | Synthesis of nanobiochar and its application in phosphorus recovery from aqueous media. |
| 3. | Kamaljeet 2021BS16M | Dr.Sushila Singh | Investigations on phytochemicals and antioxidant activity of leaves and flowers of kasood (*Cassia sianea* L.) |
| 4. | Parul 2021BS17M | Dr.Anushree | Hydrogenation of p-nitrophenol to p-aminophenol in presence of g-$C_3N_4$ based |

| | | | |
|---|---|---|---|
| | | | photocatalyst |
| 5. | Sumit Kaur 2021BS18M | Dr.Sushil | Dissipation study of chlorantraniliprole and its impact on enzymatic activity in soil |
| 6. | Veena 2021BS19M | Dr. Ravi Kumar | Studies on effects of probiotic bactertial fermentation on antinutritional glycosides of faba bean |
| 7. | Yashshvi Sharma 2021BS20M | Dr. Anil Duhan | Identification and estimation of polycyclic aromatic hydrocarbons contamination in surface soils from vicinity of dhandoor landfill |
| 8. | Amisha 2022BS07M | Dr. Sonu Chauhan | Evaluation of antimicrobial activities of Iron (II/III) complexes containing N, O donor Schiff base derived from 4-Aminoantipyrine |
| 9. | Jyoti Jangir 2022BS08M | Dr. Jayant Sindhu | Rational designing of fluorescent probes for anion sensing |
| 10. | Muskan 2022BS09M | Dr. Sachin Kumari | Development of adsorbent from walnut shell and its application in dyes removal from simulated water |
| 11. | TaruLata 2022BS11M | Dr. Vipan Kumar | Quantitativie phytochemical analysis of *Tinospora cordifolia genotypes* |
| 12. | Yogita Rani 2022BS12M | Dr.Sushila Singh | Phytochemicals analysis and antioxidant capacity of leaves and bark of *Gmelina arborea* (Ghambari) |

***Annexure CHEM-III***

## STUDENTS PARTICIPATION IN SEMINAR/CONFERENCE/WORKSHOP ETC

| Sr. no. | Name of Student and Admn. no. | Oral/ Poster | Seminar/ Conference/Workshop details |
|---|---|---|---|
| **M.Sc./ Ph.D.** | | | |
| 1. | Priyanka 2017BS06D | Poster | International Symposium on "Innopreneurship: A need of sustainable agriculture", from February 2-3, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 2. | Monika 2019BS10D | Poster | International Conference on "Climate change towards health and agricultural sustainability", from February 18-20, 2019 at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| 3. | Priyanka 2017BS06D | Poster | International Conference on "Innovations in chemical, biological and environmental science", from February 27-28, 2019 at Arya College, Panipat, Haryana, India. |
| 4. | Monika Moond 2018BS04D | Poster | International Conference on "New millennia agriculture novel trends and future scenario", from November 6-8, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 5. | Savikriti Saini 2018BS10M | | |
| 6. | Naincy Rani 2019BS11D | | |
| 7. | Monika Moond 2018BS04D | Poster | 25th International Conference on "Physical and biological sciences at cross-roads: interdisciplinary exploration and exciting challenges", from December 29-31, 2019 at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| 8. | Naincy Rani 2019BS11D | | |

| | | | |
|---|---|---|---|
| 9. | Pinki 2019BS14D | Poster | International conference on "Recent advancement in chemical sciences", from July 14-16, 2021 at Department of Chemistry, YMCA Faridabad, Haryana, India. |
| 10. | Sheetal 2019BS20D | Oral | International Conference on "Energy and environmental materials (INCEEM-2021)", from July 29-30, 2021 at Sharda University, Noida, India. |
| 11. | Monika Moond 2018BS04D | Oral | 6th Asia Pacific International Modern Sciences Congress from December 15-16, 2021 at Mata Sundri College for Women, University of Delhi, India. |
| 12. | Payal Rani 2019BS13D | Poster | 1st International Conference on "Advanced developments in chemistry and allied sciences-2021", from December 16-17, 2021, Deenbandhu Chhotu Ram University of Science and Technology, Murthal, Haryana, India. |
| 13. | Monika Moond 2018BS04D | Oral | International Conference on "New horizons and trends in chemical sciences", from March 25-26, 2022 at Department of Chemistry, Dada Ram Chand Bakhru Sindhu Mahavidyalay, Nagpur, Maharashtra, India. |
| 14. | Jyoti Rani 2020BS11D | | |
| 15. | Pinki 2019BS14D | | |
| 16. | Monika Moond 2018BS04D | Oral | International Conference on "New horizons of nanoscience and energy resources", on March, 26, 2022 at S.M. Joshi College, Hadapsar, Pune, Maharashtra, India. |
| 17. | Jyoti Rani (2020BS11D) | Poster | International Conference on "Emerging trends in biotechnology and sustainable chemistry", from April 27-29, 2022 at Baba Farid College, Bathinda, Punjab, India. |
| 18. | Pooja 2019BS16D | | |
| 19. | Pooja Rani 2019BS17D | | |
| 20. | Moksha 2020BS14M | Poster | 1st International Student Symposium on "Basic science", from May 19-21, 2022 at Akal University, Bathinda, Punjab, India. |
| 21. | Deepika 2020BS09D | Poster | International Conference on "Advances in agricultural, veterinary and allied sciences for improving livelihood and environmental security", from September 28-30, 2022 at ICAR-National Agriculture Development Co-operative Limited, NewDelhi, India. |
| 22. | Indu Rani 2020BS10D | Poster | International Conference on "Emerging materials for sustainable development", from October 10-11, 2022 by CSIR-CSIO at Chandigarh, India. |
| 23. | Sheetal 2019BS20D | | |
| 24. | Sanchit 2020BS15D | | |
| 25. | Ajay Singh 2019BS10M | Poster | National Conference on Emerging Trends in Engineering, Science and Management (ETESM-2022), from Nov, 26-27th, 2022 at MDU, Rohtak. |
| 26. | Ajay Singh 2019BS10M | Paper | International Conference on Innovation and Advances in Interdisciplinary Research (ICIAIR-2022), from Nov, 28-29th, 2022 at Mewar University. |
| 27. | Payal Rani 2019BS13D | Poster | 2nd International Conference on Integrative Chemistry, Biology & Translational Medicine from Dec, 6th to 8th, 2022 at University of Delhi, Delhi |
| 28. | Priyanka 2020BS14D | | |

| | | | |
|---|---|---|---|
| 29. | Sandhya Chahal 2019BS18D | | |
| 30. | Payal Rani 2019BS13D | Oral | 2nd International Conference on Advanced Developments in Chemistry and Allied Sciences-2023 from Jan, 17th to 18th, 2023 at DCRUST, Murthal, Sonipat |
| 31. | Sandhya Chahal 2019BS18D | | |
| 32. | Kiran 2020BS13D | Poster | 2nd International Conference on Advanced Developments in Chemistry and Allied Sciences from Jan, 17th to 18th, 2023 at DCRUST, Murthal, Sonipat |
| 33. | Sarita 2019BS19D | Poster | International conference on recent advances in chemical sciences from Jan, 16-18th, 2023 at Department of chemistry, Mohanlal Sukhadia University, Udaipur. |
| 34. | Vidhi 2020BS16D | | |
| 35. | Veena 2021BS19M | | |
| 36. | Neelam 2019BS12D | | |
| 37. | Sheetu Devi 2021BS15D | | |
| 38. | Reena Rani 2021BS13D | | |
| 39. | Priyanka 2020BS14D | Poster | 2nd International Conference on Advanced Developments in Chemistry and Allied Sciences from Jan, 17th to 18th, 2023 at DCRUST, Murthal, Sonipat |
| 40. | Sheetal 2019BS20D | Poster | International conference on "Green Energy & Sustainable Environmental Practices" from Jan, 30-31, 2023 at Department of Chemistry, University of Rajasthan, Jaipur. |
| 41. | Sanchit 2020BS15D | | |
| 42. | Indu Rani 2020BS10D | | |
| 43. | Parul 2021BS17M | | |
| 44. | Deepika 2020BS09D | Poster | International conference on Climate resilient agriculture for food security and sustainability from Feb 17-19th, 2023 at CCSHAU, HISAR |
| 45. | Chetna Khokhar 2022BS07D | | |
| 46. | Rupali Gupta 2021BS14D | | |
| 47. | Karuna 2020BS12D | Oral | International conference on Climate resilient agriculture for food security and sustainability Feb 17-19th, 2023 at CCSHAU, HISAR |
| 48. | Pooja Rani 2019BS17D | | |
| 49. | Sarita 2019BS19D | Oral | International conference on recent advancement in pharmaceutical, health and applied sciences from Feb, 24 to 25th at Om Sterling Global University, Hisar, in collaboration with Bingham University, Nigeria. |
| 50. | Neelam 2019BS12D | | |
| 51. | Rupali Gupta 2021BS14D | Oral | International conference on Biotechnology and human welfare: Vision 2030 and beyond from March 3-4th , 2023 at CDLU, Sirsa |
| 52. | Anuradha 2021BS11D | Poster | International conference on Biotechnology and human welfare: Vision 2030 and beyond from March 3-4th , 2023 at CDLU, Sirsa |

| | | | |
|---|---|---|---|
| 53. | Naincy Rani 2019BS11D | | |
| 54. | Jyoti Rani 2020BS11D | | |
| 55. | Sanchit 2020BS15D | Poster | International Conference on "Emergent Materials for Energy and Environment (EMEE-2023)" from March, 4th to 5th, 2023 at Department of Chemistry, IIT Roorkee. |

## STUDENT PARTICIPATION IN TRAININGS

| Sr. no. | Name of student and admn no. | Duration | Title |
|---|---|---|---|
| 1. | Sheetu Devi 2021BS15D | 11-06-2018 to 06-07-2018 | Training on "Herbal medicine", at Svior Pharmaceuticals Privat Limited, Hisar, Haryana, India. |
| 2. | Naincy Rani 2019BS11D | 16-07-2018 to 20-07-2018 | Workshop on "Nanotechnology: nanoparticle synthesis and conjugation chemistry for bioapplications", at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| 3. | Rupali Gupta 2021BS14D | 13-06-2019 to 13-08-2019 | Training on "Nanoparticles synthesis", at Punjab University, Chandigarh, India. |
| 4. | Sheetal 2019BS20D | 14-10-2019 to 23-10-2019 | Training on "Statistical data analysis for research scholar", at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 5. | Neha 2019BS16M | 01-06-2020 to 29-08-2022 | Summer Training Program at CSIR-NEIST Jorhat, Assam, India. |
| 6. | Neha 2019BS16M | 07-06-2020 | Training Course on "Mendeley" at Aggarwal College, Ballabgarh, Haryana, India. |
| 7. | Payal Rani (2019BS13D) | | |
| 8. | Payal Rani 2019BS13D | 15-06-2020 to 27-07-2020 | Training on "Data science" at InternshalaScholiverseEducare Private Limited Gurgaon, Haryana, India. |
| 9. | Monika Moond 2018BS04D | 15-09-2020 to 28-11-2020 | Webinar Internship Course on 'Emerging trends in nanomaterials for different device architectures", at Indian Chemical Society, Kolkata, West Bengal, India |
| 10. | Neha 2019BS16M | 02-11-2020 to 06-11-2020 | Training programme on "Electronic structure theory and application to chemical systems", at NIT, Tiruchirappalli, India. |
| 11. | Monika Moond 2018BS04D | 20-01-2021 to 21-01-2021 | Workshop on "Powder X-Ray diffraction techniques and its applications", at North East Centre for Biological Sciences and Healthcare Engineering, Indian Institute of Technology, Guwahati, Assam, India. |
| 12. | Mansi 2021BS12D | 26-04-2022 to 03-05-2022 | Training program on "Insights into analytical instrumentation for applied sciences", at Guru Nanak Dev University, Amritsar, Punjab, India. |

| | | | |
|---|---|---|---|
| 13. | Karuna 2020BS12D | | |
| 14. | Pooja 2019BS15D | 27-06-2022 to 03-07-2022 | Training program on "X-ray and chromatographic based techniques for academic and industrial innovations", at Punjab University, Chandigarh, India. |
| 15. | Sheetal 2019BS20D | 09-10-2022 | Training on "Material synthesis and characterization", at CSIR-CSIO, Chandigarh, India. |
| 16. | Indu Rani 2020BS10D | | |
| 17. | Sanchit 2020BS15D | | |
| 18. | Mansi 2021BS12D | 10-10-2022 to 20-10-2022 | Training program on "Valorisation of agricultural residues and its management", by Students counselling and placement cell, at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 19. | Pooja Rani 2019BS17D | 14-10-2022 to 24-10-2022 | Training on "Statistical data analysis for research scholar", at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 20. | Neha 2019BS16M | | |
| 21. | Naincy Rani 2019BS11D | | |
| 22. | Payal Rani 2019BS13D | | |
| 23. | Mansi 2021BS12D | 10-10-2022 to 20-10-2022 | Training on "Volarization of crop residue and it's management" from Oct 10, 2022 to Oct 20, 2022 organised by CCSHAU. |
| 24. | Neelam 2019BS12D | 17-01-2023 to 31-01-2023 | Completed 15 day certificate course and internship on "Fermentation Technology" organized by Institute of Innovations, Tiruvannamalai held during 17-31 Jan 2023. |
| 25. | Mansi 2021BS12D | 13-02-2023 to 19-02-2023 | Training on "Biotechnologies in environmental engineering- scientific and business perspective" from Feb 13, 2023 to Feb 19, 2023 organised by CCSHAU |
| 26. | Pooja 2019BS16D | 18-02-2023 to 24-02-2023 | Training on Novel agricultural system (NAS-3.0) organised by doon PGCollege of Agriculture Science and Technology &Harws from 18th Feb to 24thfeb 2023 |

## PLACEMENTS RECORD

| Sr. No. | Name of Student(s) | Placements (duration 2018-2023) |
|---|---|---|
| 1 | Promila | Data Scientist: The Open University, Walton Hall, Milton Hall, Keynes, United Kingdom. |
| 2 | Susheel Gulati | Research Associate: Hindustan Petroleum Coorporation Limited, Green R&D Center Bangaluru. |
| 3 | Suman Sangwan | Research Associate: ICAR-Central Institute for Research on Buffaloes. |
| 4 | Jyoti Punia | Project Scientist II: NIPER Guwahati. |
| 5 | Shweta | Lab Assistant: CCSHAU. |

| | | |
|---|---|---|
| 6 | Preeti | Assistant Professor: ShriVishwakarma Skill University Gurgaon. |
| 7 | Suman | Assistant Professor: Om Sterling Global University, Hisar. |
| 8 | Parveen Kumari | Assistant Professor: BLJS, College, Tosham, Haryana. |
| 9 | Anita | Assistant Professor: GDC, Memorial College, Bahal, Haryana. |
| 10 | Sumona | Assistant Professor: Guest Faculty, Guru Jambheshwar University Science & Technology, Hisar. |
| 11 | Neha | Assistant Professor: Guest Faculty, Guru Jambheshwar University Science & Technology, Hisar. |
| 12 | Parvesh Devi | Assistant Professor: Guest Faculty, ChaudharyRanbir SinghUniversity, Jind. |
| 13 | Sheetal | Assistant Professor: Guest Faculty, ChaudharyRanbir Singh University, Jind. |
| 14 | Ritu Rani | Assistant Professor: Guest Faculty, DN, College, Hisar. |

**Annexure CHEM-VI**

## SCHOLARSHIP AND FINANCIAL SUPPORT

| Sr. no. | Name | Name of scholarship support | Sr. no. | Name | Name of scholarship support |
|---|---|---|---|---|---|
| 1. | Savikriti Saini 2018BS10M | CCS HAU, Merit Fellowship | 29. | Pinki 2019BS14D | CSIR |
| 2. | Shweta 2018BS11M | Department of Science and Technology | 30. | Pooja 2019BS15D | |
| 3. | Ajay Singh 2019BS10M | CCS HAU, Merit Fellowship | 31. | Pooja 2019BS16D | CCS HAU, Merit Fellowship |
| 4. | Bharti 2019BS11M | | 32. | Pooja Rani 2019BS17D | UGC |
| 5. | Jatin 2019BS12M | Stipend | 33. | Sandhya 2019BS18D | CCS HAU, Merit Fellowship |
| 6. | Neha 2019BS16M | | 34. | Sarita 2019BS19D | UGC |
| 7. | NehaGoel 2019BS17M | CCS HAU, Merit Fellowship | 35. | Sheetal 2019BS20D | CSIR |
| 8. | Divya Devi 2020BS12M | Stipened | 36. | Deepika 2020BS09D | UGC |
| 9. | Jyoti Sharma 2020BS13M | | 37. | Indu Rani 2020BS10D | CCS HAU, Merit Fellowship |
| 10. | Moksha 2020BS14M | | 38. | Jyoti Rani 2020BS11D | UGC |
| 11. | Pooja 2020BS15M | CCS HAU, Merit Fellowship | 39. | Karuna 2020BS12D | CSIR |
| 12. | Smriti 2020BS17M | | 40. | Kiran 2020BS13D | UGC |
| 13. | Vishal Kathuria 2020BS18M | | 41. | Priyanka 2020BS14D | CSIR |
| 14. | Bharti 2021BS15M | | 42. | Sanchit 2020BS15D | |
| 15. | Kamaljeet 2021BS16M) | Stipend | 43. | Vidhi 2020BS16D | CCS HAU, Merit Fellowship |

| | | | | | |
|---|---|---|---|---|---|
| 16. | Parul 2021BS17M | CCS HAU, Merit Fellowship | 44. | Anju 2021BS10D | Stipend |
| 17. | Veena 2021BS19M | | 45. | Anuradha 2021BS11D | CCS HAU, Merit Fellowship |
| 18. | Yashashvi Sharma 2021BS20M | | 46. | Mansi 2021BS12D | DST |
| 19. | Amisha 2022BS07M | | 47. | Reena Rani 2021BS13D | UGC |
| 20. | JyotiJangir 2022BS08M | | 48. | Rupali Gupta 2021BS14D | CCS HAU, Merit Fellowship |
| 21. | Shashank Gupta 2022BS10M | | 49. | Sheetu Devi 2021BS15D | |
| 22. | TaruLata 2022BS11M | | 50. | Bhagya Shree 2022BS06D | |
| 23. | Yogita Rani 2022BS12M | | 51. | ChetnaKhokhar 2022BS07D | |
| 24. | Monika Moond 2018BS4D | UGC | 52. | Neeru 2022BS08D | CSIR-JRF |
| 25. | Monika 2019BS10D | Stipend | 53. | Pooja Rani 2022BS09D | CCS HAU, Merit Fellowship |
| 26. | Naincy Rani 2019BS11D | CSIR | 54. | Simran 2022BS10D | CSIR-JRF |
| 27. | Neelam 2019BS12D | | 55. | Suman 2022BS11D | |

## STUDENTS PUBLICATIONS

| Sr. No. | Title of the paper/book | NAAS rating |
|---|---|---|
| **M.Sc. Students** | | |
| | **2018-2019** | |
| 1. | Kumar, P., Ahlawat, S., Chauhan, R., Kumar, A., Singh, R. and Kumar, A. (2018). Bio-efficacy and post harvest residual toxicity of new fungicides against sheath blight (*Rhizoctonia solani*) of rice (*Oryza sativa*). *Indian Journal of Agricultural Sciences*, **88(10)**:1587-1592. | 6.37 |
| 2. | Devi, R., Duhan, A. and Punia, S.S. (2018). Leaching behaviour of halosulfuron-methyl in sandy loam soil. *International Journal of Chemical Studies*, **6(5):** 31-34. | 5.31 |
| 3. | Kumar, P., Ahlawat, S., Chauhan, R., Kumar, A., Singh, R. and Kumar, A. (2018). *In vitro* and field efficacy of fungicides against sheath blight of rice and post-harvest fungicideresidue in soil, husk, and brown rice using gas chromatography-tandem massspectrometry. *Environmental Monitoring and Assessment*, **190(503):** 1-9. | 8.51 |
| 4. | A. Madan, V. Ahlawat, S., and Chauhan, R. (2018). Leaching behaviour of combination product (Novaluron 5.25% + Indoxacarb 4.5% SC) at different depths ofsandy loam soil. *International Journal of Current Microbiology and Applied* | - |

| | | |
|---|---|---|
| | *Sciences*, **7(12):** 260-266. | |
| 5. | Ahlawat, S., Gulia, S., Malik, K., Rani, S. and Chauhan, R. (2019). Persistence and decontamination studies of chlorantraniliprole in *Capsicum annum* using GC-MS/MS. *Journal of Food Science and Technology*, **56(6):** 2925–2931. | 8.70 |
| 6. | Singh, N. V., Chauhan, R., Sushil, Yadav, G.S. and Kumari, B. (2019). Dissipation patternand effect of washing on reduction of dimethoate residues on sweet orange, *Citrus sinensis*L. *Pesticide Research Journal*, **31(1):** 96-101. | 5.49 |
| **2019-2020** | | |
| 7. | Devi, R., Duhan, A., Punia, S.S. and Yadav, D.B. (2019). Degradation dynamics ofhalosulfuron-methyl in two textured soils. *Bulletin of Environmental Contamination and Toxicology*, **102**: 246–251. | 8.15 |
| 8. | Rani, D., Duhan, A., Punia, S.S., Yadav, D.B. and Duhan, S. (2019). Behavior of pre-mixformulation of imazethapyrandimazamox herbicides in two different soils. *Environmental Monitoring and Assessment*, **191**: 1-8. | 8.5 |
| 9. | Rani, K., Sangwan, S., Singh, S., Sharma, P., Kaur, H. and Sindhu, M. (2020).Biosurfactant production by bacteria retrieved from hydrocarbon polluted environment. *International Journal of Chemical Studies*, **8(4):** 1059-1065. | 5.21 |
| 10. | Devi, P., Singh, S., Sangwan, S., Dalal, P. and Moond, M. (2020). Effect of pH onantioxidant and phytochemical activities of mulhattiroots (*Glycyrrhizaglabra* L.).*Journal of Agricultural Science and Technology*, **11**: 276-282. | 6.897 |
| 11. | Rani, N., Duhan, A. and Tomar, D. (2020). Ultimate fate of herbicides tembotrione and itsmetabolite TCMBA in soil. *Ecotoxicology and Environmental Safety*, **203**:111023. | 12.29 |
| **2020-2021** | | |
| 12. | Dhanker, P., Ahlawat, S., Godara, R., Pooja, Digamaber and Dhanker, R. (2021). Dissipation patterns and effect of household processing on lowering of tebuconazole residues in chili and soil using GC-MS/MS. *Agricultural Mechanization in Asia, Africaand Latin America*, **51(1):**1105-1115. | 8.33 |
| **2021-2022** | | |
| 13. | Beniwal, R., Singh, S. and Devi, P. (2022). Effect of extraction solvents on phytochemicals and antioxidant potential of turnip roots (*Brassica rapa* L.).*Agricultural Science Digest*, **1:** (1-5). | 4.75 |
| 14. | Aggarwal, P., Singh, S., Sangwan, S., Moond M. and Devi P. (2022). Effect of extractionsolvents on antioxidant potential of *Prosopis cineraria* (L.) leaves. *Annals of Phytomedicinne*, **11(1):** 426-431. | 5.25 |
| **Ph.D. Students** | | |
| **2018-2019** | | |
| 1. | Nehra, S., Singh, S. and Kumari, P. (2018). Antioxidant potential of pod coats extracts ofcluster bean and their efficacy in stabilizing soybean oil. *Journal of Pharmacognosy and Phytochemistry* **7(2):** 1806-1810. | 5.21 |
| 2. | Nehra, S., Singh, S. and Rani, S. (2018). Assessment of pod coats for the study of antioxidant prospective in Cowpea, Mungbean and Moth Bean. *International Journal of Current Microbiology and Applied Sciences*. **7(3):** 3476-3483. | - |
| 3. | Promila and Singh. S. (2018). Application of green solvents in extraction of phytochemicals from medicinal plants: A review. *The Pharma Innovation Journal*, **7(3):** 238-245. | 5.03 |
| 4. | Gulati, S., Singh, R. and Suman (2019). Fruit juice boon for organic synthesis.*International Journal of Chemical Studies*, **7(5):** 4542-4545. | 5.31 |
| 5. | Nehra, S. and Singh, S. (2019). Oxidative Stability of Soybean Oil Supplemented withPod Coat Extracts of Cluster Bean. *International Research Journal of Pure and Applied Chemistry*, **20(3):** 1-11. | 5.54 |

| | | |
|---|---|---|
| | **2019-2020** | |
| 6. | Gulat, S., Singh, R., Sindhu, J., and Suman (2020). Eco-friendly preparations of heterocycles using fruit juices as catalysts: A review. *Organic Preparations and Procedures International*. **52(4):** 1-16. | 7.52 |
| 7. | Gulat, S., Singh, R., Sindhu, J. and Suman (2020). Eco-friendly preparations of Heterocycles using fruit juices as catalysts: A review. *Organic Preparations and Procedures International*, **52(4):** 1-16. | 7.52 |
| 8. | Malik, K., Ahlawat, S., Kumari, N., Mehta, S. and Aathira, S.K. (2020). Bioconversion of paddy straw for bio-ethanol production. *Journal of Pharmacognosy and Phytochemistry*, **9(3):** 1091-1093. | 5.21 |
| | **2020-2021** | |
| 9. | Kumari, P., Duhan, A., Rani, N. and Tomar, D. (2021). Ultimate fate and toxicological consequences of insecticide pyriproxyfen and its metabolites in soil ecosystem. *Environmental Advances*, **4**:100040. | 14.07 |
| 10. | Bhaber, K., Rani, P., Chahal, S., Sindhu, J., Kumar, S., Varma, R. S. and Singh, R. (2021). Transition metal-free C-3 functionalization of quinoxalin-2 (1H)-ones: recent advances and sanguine future. *New Journal of Chemistry*, **45**: 18722-18763. | 9.92 |
| 11. | Yadav, N., Sangwan, S., Kumar, R., Chauhan, S., Duhan, A., Singh, A. and Arya, R.K. (2021). Comprehensive overview of progress in functionalization of 2-pyridone and 2, 4 -dihydroxy pyridine: key constituents of vital natural products. *Chemistry Select*, **6**: 11792-11821. | 8.12 |
| 12. | Gulati, S.; Singh, R., and Suman (2021). Synthesis of novelbezimidazoles at room temperature, under solvent free condition and their biological studies. *Journal of Iranian Chemical Society*, **18**: 167–179. | 8.271 |
| | **2021-2022** | |
| 13. | Sangwan, S., Yadav, N., Kumar, R., Chauhan, S., Dhanda, V., Walia, P. and Duhan, A. (2022). A score years' update in the synthesis and biological evaluation of medicinallyimportant 2-pyridones. *European Journal of Medicinal Chemistry*, **232**: 114199. | 12.650 |
| 14. | Kaur, H., Sangwan, S., Sharma, P. and Singh, S. (2022). Biosurfactant production prospects of a gram-negative bacterium-*Klebsiella pneumonia* ssp. Ozaenae BK34. *Environmental Monitring and Assessment*, **194**: 374. | 8.513 |
| 15. | Nehra, S., Singh, S. and Rani, S. (2022). Stabilisation of soybean oil with pod coat extracts of cowpea (*Vigna unguiculata*). *Legume Research*, **6:** 1-7. | 6.59 |
| 16. | Devi, P., Singh, S., Sangwan, S., Sheetal and Moond, M. (2022). Effect of various solventfractions on antioxidant potential of *glycyrrhizaglabra* L. (Mulhatti) Roots. *Journal of Agriculture Science and Technology*, **21(2):** 44-54. | 7.098 |
| 17. | Ritu, D., Singh, S., Sangwan, S, Moond, M. and Beniwal, R. (2022). Biochemical and molecular mechanism of plant-mediated synthesis of silver nanoparticles: A Review. *Mini-Reviews in Organic Chemistry*, **19(8): 23-26.** | 8.495 |
| 18. | Pooja., Sushil., Dhanker, P. and Chauhan, R. (2022). Assessing the degradation pattern ofready pre mix formulation of thiamethoxam +L-cyhalothrin in canal water underlaboratorycondtions. *The Pharma Innovation Journal*, **11(3):** 2203-2208. | 5.23 |
| 19. | Pooja., Ahlawat, S., Chauhan, R. and Dhanker, P.(2022). Leaching behavior of ready mixformulation (Thiamethoxam + Lambda-cyhalothrin) at different depths of soil. *The Pharma Innovation Journal*, **11(4):** 1275-1278. | 5.23 |

## LIST OF STUDENTS ON ROLL PRESENTLY

| Sr. no. | Name and admn. no. | Guide | Title of research problem |
|---|---|---|---|
| **M.Sc.** | | | |
| 1. | Mutyala Greeshma Sree 2021FST01M | Dr. Ritu | Development and evaluation of oyster mushroom (*Pleurotusostreatus*) mayonnaise |
| 2. | Sadhana 2021FST02M | Dr. Anju Kumari | Standardization of processing technology for button mushroom (*Agariesbisporus*) mayonnaise |
| 3. | Nikita 2022FST01M | Dr. Ritu | Preparation and evaluation of value added oyster mushroom mayonnaise having zinc oxide nanoparticles |
| 4. | Preeti 2022FST02M | Dr. Rekha | Standardization of processing technology for bael shake premix |

| | | | |
|---|---|---|---|
| 5. | Ravina 2022FST03M | Dr. Anju Kumari | Preparation and evaluation of value added button mushroom mayonnaise having zinc oxide nanoparticles |
| **Ph.D.** | | | |
| 6. | Monika 2019FST68D | Dr. Rakesh Gehlot | Development of value added nectar from bottle gourd-mint-lime blends |
| 7. | Priyanka 2019FST69D | Dr. Rekha | Standardization of processing technology of *ghurumba* (*Citrullus colocynthis* (L.) Schrad.) |
| 8. | Ranjan Kaushik 2020FST01D | Dr. Rekha | Development and evaluation of value added sattu from bengal gram and finger millet |
| 9. | Sandeep Kumar 2020FST02D | Dr. Rakesh Gehlot | Development of value added squash from bottle gourd-mint-lime blends |
| 10. | Shreya Panwar 2020FST03D | Dr. Ritu | Isolation, modification and characterization of finger millet starch |
| 11. | Ankit Kumar 2021FST01D | Dr. Rakesh Gehlot | Study on valorization in karonda (*Carissa carandas* Linn.) |
| 12. | Neha Rani 2021FST02D | Dr. Rekha | Development and evaluation of functional food products using harsingar (*Nyctanthesarbor tristis* Linn.) |
| 13. | Manisha Rani 2022FST01D | Dr. Ritu | Isolation, modification and characterization of sorghum starch |
| 14. | Ronak Tanwar 2022FST03D | Dr. Anil Panghal | Development and evaluation of millet noodles |

***Annexure FST-III***

## STUDENTS PARTICIPATION IN SEMINAR/CONFERENCE/WORKSHOPETC.

| Sr. no. | Name and admn. no. | Oral/ Poster | Seminar/Conference/Workshop details |
|---|---|---|---|
| 1. | Naseer Ahmed 2014FST31D | Oral | National Conference on "Innovative technological interventions for doubling farmers income" from February 8-10, 2018 organized by Society of Integrated Development of Agriculture, Veterinary, and Ecological Sciences at Jammu, India. |
| 2. | Rattan Singh 2014FST30D | Poster | *National Conference* on "Emerging sustainable technologies in food processing" from March 15-16, 2018 at Department of Food Engineering and Technology, Sant Longowal Institute of Engineering and Technology, Sangrur, Punjab, India. |
| 3. | Rattan Singh 2014FST30D | Poster | 3rd National Conference on "Contemporary food processing and preservation technologies" from April 12-13, 2018 at School of Bioengineering and Food Technology, Shoolini University, Solan, Himachal Pradesh, India. |
| 4. | Rattan Singh 2014FST30D | Poster | National Seminar on "National start up summit" from June 01-02, 2018 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 5. | Rattan Singh 2014FST30D | Poster | International Conference on "Food processing" from October 25-26, 2018 at Indian Agricultural Research Institute, New Delhi, India. |
| 6. | K. M. Manju 2017FST35D | Poster | |
| 7. | Tanu Malik 2018FST31D | Poster | |
| 8. | Ekta Sehgal 2017FST30D | Poster | International Conference on "Rural livelihood improvement for enhancing farmer's income through sustainable innovative agri and |

| | | | |
|---|---|---|---|
| 9. | Rattan Singh 2014FST30D | Poster | allied enterprises" from October 30 - November 01, 2018 at Bihar Agricultural University, Sabour, Patna, Bihar, India. |
| 10. | Tanu Malik 2018FST31D | Poster | 8th International Food Convention on "Holistic approaches for start-ups, human resource training for agriculture and food industry gemmation (IFCON 2018)" from December 12-15, 2018 at CSIR-CFTRI, Mysore, Karnataka, India. |
| 11. | K. M. Manju 2017FST35D | Poster | International Symposium on "Innopreneurship: a need of sustainable agriculture (ISINSA-2019)" from February 02-03, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 12. | Tanu Malik 2018FST31D | Poster | |
| 13. | Ekta Sehgal 2017FST30D | Poster | |
| 14. | Tanu Malik 2018FST31D | Oral | International Conference on "Climate change towards health and agricultural sustainability" from February 18-20, 2019 at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| 15. | K. M. Manju 2017FST35D | Poster | |
| 16. | Ekta Sehgal 2017FST30D | Poster | International Seminar on "Sustainable environment and agriculture under global climate change" on February 21, 2019 at Maharshi Dayanand University, Rohtak, Haryana., India. |
| 17. | Tanu Malik 2018FST31D | Poster | |
| 18. | Naseer Ahmed 2014FST31D | Oral | International Conference on "Advances in agriculture and allied science research" from February 23-24, 2019 at Rama University, Kanpur, Uttar Pradesh, India. |
| 19. | Tanu Malik 2018FST31D | Poster | National Seminar on "Innovative strategies for gender equality" on March 08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 20. | Ekta Sehgal 2017FST30D | Poster | |
| 21. | Naseer Ahmed 2014FST31D | Poster | 3rd International Conference on "Global initiatives in agricultural and applied sciences for eco friendly environment" from June 16-18, 2019 at Tribhuvan University, Kathmandu, Nepal. |
| 22. | Ekta Sehgal 2017FST30D | Oral | |
| 23. | Tanu Malik 2018FST31D | Oral | |
| 24. | Monika Mathur 2014FST29D | Poster | National Workshop on "Production, processing and value addition of nutri-cereals (millets) in India" on September 16, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 25. | Rattan Singh 2014FST30D | Poster | |
| 26. | Ekta Sehgal 2017FST30D | Poster | |
| 27. | Monika mathur 2014FST29D | Poster | International Conference on "New millennia agriculture-novel trends and future scenario (GINMA-2019)" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 28. | Tanu Malik 2018FST31D | Poster | |
| 29. | Rattan Singh 2014FST30D | Poster | |
| 30. | Pratibha 2017FST34D | Poster | |
| 31. | K. M. Manju 2018FST35D | Poster | |

| | | | |
|---|---|---|---|
| 32. | Sandeep kumar 2020FST02D | Poster | |
| 33. | Naseer Ahmed 2014FST31D | Poster | International Conference on "Global perspective in agricultural and applied sciences for food and environmental sciences" from December 01-02, 2019 at Kamaun University, Nanital, Uttarakhand, India. |
| 34. | Priyanka 2019FST69D) | Oral | National Seminar on "Mathematical sciences: repositories of logical thoughts and analytical tools" on February 22, 2020 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 35. | Shreya 2020FST03D | Oral | 9th International Conference on "Food processing, nutrition and fortification with emphasis on vitamin D" from March 05-06, 2020 at Jamia Hamdard University, New Delhi, India. |
| 36. | Monika 2019FST68D | Poster | National Seminar on "Support breast feeding for a better planet" from August 01-07, 2020 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 37. | Tanu Malik 2018FST31D | Poster | International Conference on "The European federation of food science and technology" from November 10-12, 2020, online event at Philipssite, Leuven, Belgium. |
| 38. | Pratibha 2017FST34D | Oral | International Conference on "New paradigms for agriculture, food and sustainability concerns" from February 26-28, 2021 at Raichur, Karnataka, India. |
| 39. | Tanu Malik 2018FST31D | Poster | 4th International Conference on "Global approaches in natural resource management for climate smart agriculture GNRSA-2020" from February 26-28, 2021 at Shobhit Deemed University, Modipuram, Meerut, Uttar Pradesh, India. |
| 40. | Ekta Sehgal 2017FST30D | Oral | International Conference on "Technological transformation and preparedness in the post covid world" from March 22-23, 2021 at Deenbandhu Chhotu Ram University of Science and Technology, Murthal, Sonipat, Haryana, India. |
| 41. | Roopa 2019FST54M | Oral | |
| 42. | Ekta Sehgal 2017FST30D | Poster | International Conference on "Role of micronutrients-immunity and health" from June 18-19, 2021 at Manav Rachna University, Manesar, Haryana, India. |
| 43. | Ekta Sehgal 2017FST30D | Oral | 4th International Conference on "Food and nutrition" from September 23-24, 2021 sponsored by Universal Society of Food and Nutrition at Bioleagues, Singapore. |
| 44. | Monika 2019FST68D | Oral | 3rd International Conference on "Global initiative in agricultural, forestry and applied sciences for food security, environmental safety and sustainable development" from October 17-18, 2021 at Shri Guru Ram University, Dehradun, Uttrakhand, India. |
| 45. | Ekta Sehgal 2017FST30D | Oral | International Conference on "Global research initiatives for sustainable agriculture and allied sciences" from December 13-15, 2021 organised by Society for Scientific Development in Agriculture and Technology, Meerut, Uttar Pradesh, India. |
| 46. | Priyanka 2019FST69D | Oral | |
| 47. | Himanshi Rao 2019FST53M | Oral | |
| 48. | Monika 2019FST68D | Oral | National Conference on "Mathematical sciences for applied and agricultural research" on February 22, 2022 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 49. | Priyanka 2019FST69D | Oral | |

| | | | |
|---|---|---|---|
| 50. | Ranjan Kaushik 2020FST01D | Oral | |
| 51. | Sandeep Kumar 2020FST02D | Oral | |
| 52. | Ekta Sehgal 2017FST30D | Oral | International Conference on "Water, agriculture, dairy and food processing for sustainable economy", from March 25-26, 2022 at Eternal University, Baru Sahib, Himachal Pradesh, India. |
| 53. | Ankit 2021FST01D | Oral | International Conference on "Recent advances and innovations in biological and applied sciences" from June 14-16, 2022 at SGT University, Gurugram, India. |
| 54. | Ankit 2021FST01D | Poster | 2nd International Conference on "Advanced developments in chemistry and allied sciences" from January 17-18, 2023 at Deenbandhu Chhotu Ram University of Science and Technology, Murthal, Sonipat, Haryana, India. |
| 55. | Neha Mehta 2021FST02D | Poster | |
| 56. | Ankit 2021FST01D | Poster | International Conference on "Climate resilient agriculture for food security and sustainability" from February 17-19, 2023 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 57. | Mutyala Greeshma Sree 2021FST02M | Oral | International Conference on "Biotechnology and human welfare: vision 2023 and beyond" from March 03-04, 2023 at Chaudhary Devi Lal University, Sirsa, Haryana, India. |
| 58. | Sadhana 2021FST02M | Poster | |
| 59. | Priyanka 2019FST69D | Poster | |
| 60. | Neha Mehta 2021FST02D | Poster | |

**Annexure FST-IV**

## STUDENT PARTICIPATION IN TRAININGS

| Sr. no. | Name and admission no. | Duration | Title/Location |
|---|---|---|---|
| 1. | Shweta 2017FST57M | 01.06.2018 to 30.06.2018 | Industrial training at FICCI Research and Analysis Centre, National Accreditation Board for Testing and Calibration Laboratories (NABL) accredited laboratory, Dwarka, New Delhi, India. |
| 2. | Manisha 2017FST56M | 15.06.2018 to 31.07.2018 | Industrial training on "Food technology" organized by Dairy Technology Division, ICAR-National Dairy Research Institute, Karnal, Haryana, India. |
| 3. | Comfort Wion Carthy 2017FST54M | 25.06.2018 to 24.07.2018 | Industrial training at Smart Food Lab, PFS Research, Private Limited, Hyderabad, Telangana, India. |
| 4. | Sandeep Kumar 2017FST55M | 25.06.2018 to 24.07.2018 | Industrial training at Satya Beverage and Distillers Private Limited, Industrial Estate, Hisar, Haryana, India. |
| 5. | Pratibha 2017FST34D | 16.10.2018 to | On "Career opportunities for students: fellowships/awards/scholarships" organized by College of |

| | | | |
|---|---|---|---|
| 6. | K.M. Manju 2017FST35D | 17.10.2018 | Basic Sciences and Humanities, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 7. | Ekta 2018FST30D | | |
| 8. | Tanu Malik 2018FST31D | | |
| 9. | Shreya 2020FST03D | 15.03.2019 to 17.03.2019 | "ICAR-NDRI global scientific meet" organized by NDRI, Karnal, Haryana, India. |
| 10. | Tanu Malik 2018FST31D | 18.04.2019 to 30.04.2019 | Training program on "UGC NET-2019" organized by Students Counselling and Placement Cell, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 11. | Rehema Joshua Napegwa 2018FST51M | 01.06.2019 to 30.06.2019 | Industrial training at FICCI Research and Analysis Centre, National Accreditation Board for Testing and Calibration Laboratories (NABL) accredited laboratory, Dwarka, New Delhi, India. |
| 12. | Modiri DiriscaSetlhoka 2017FST60M | 01.06.2019 to 30.06.2019 | Industrial training at Bokomo, Botswana Private Limited, Gaborone, Botswana, Africa. |
| 13. | TshiamoSeiphitlhile 2017FST59M | 10.06.2019 to 09.07.2019 | Industrial training in Quality department at Enrich AgroFood Products Private Limited, Rohtak, Haryana, India. |
| 14. | Ankita 2018FST48M | 17.06.2019 to 17.07.2019 | Industrial training in Quality and production department at Molson Coors India Private Limited, Mohali, Punjab, India. |
| 15. | Lalita 2018FST49M | | |
| 16. | Vishal Lohan 2018FST50M | | |
| 17. | Shreya 2020FST03D | 14.01.2020 | Workshop on "Textural analysis of dairy and food products" at ICAR-NDRI, Karnal, Haryana, India. |
| 18. | Tanu Malik 2018FST31D | 17.04.2020 | Nutrition education programme on "Food fortification" through e-learning platform organized by Poshan Abhiyaan, ICMR-NIN modules under the Ministry of Women and Child Development, GoI and ICMR-National Institute of Nutrition. |
| 19. | Tanu Malik 2018FST31D | 20.04.2020 to 02.05.2020 | "Novel microbes and newer threats, faculty development program (FDP)/student development program (SDP)" organized by Sathyabama Institute of Science and Technology in association with the Indian Association of Applied Microbiologists (IAAM) and California Institute of Science and Medicine, USA. |
| 20. | Tanu Malik 2018FST31D | 20.04.2020 to 24.04.2020 | Online workshop on "Entrepreneurship 101: learning business basics online" organized by ABIC, CCS Haryana Agriculture University, Hisar, Haryana, India. |
| 21. | Tanu Malik 2018FST31D | 23.04.2020 | Online course on "QMS auditor/lead auditor" through Udemy. |
| 22. | Tanu Malik 2018FST31D | 29.04 2020 | "Ready to eat foods and covid-19 safety, nutrition and taste" organized by Food Safety Training and Certification (FOSTAC). |
| 23. | Tanu Malik 2018FST31D | 30.04.2020 | Online training on "COVID-19 guidelines for food handlers" organized by Food Safety and Standards Authority of India (FSSAI) under Food Safety Training and Certification (FOSTAC). |

| | | | |
|---|---|---|---|
| 24. | Pratibha 2017FST34D | 06.05.2020 to 08.05.2020 | "Standardization of processing techniques for development of different variants of ready to serve drink from green mango-mint blends" organized by the CSA University of Agriculture and Technology, Kanpur, India. |
| 25. | Tanu Malik 2018FST31D | 16.05.2020 | 'Role of dietary spices in human health and wellness' organized by AFST(I), CSIR, Mysuru, Karnataka, India. |
| 26. | Pratibha 2017FST34D | 22.05.2020 | Online "FoSTaC" training organized by FSSAI. |
| 27. | Pratibha 2017FST34D | 31.05.2020 | "Food protection-science and strategies" organized by AFST(I), CSIR, Mysuru, Karnataka, India. |
| 28. | Pratibha 2017FST34D | 05.06.2020 | "Biodiversity and environmental protection during pandemic outbreak of Covid-19" organized by International Society of Waste Management, Air and Water (ISWMAW). |
| 29. | Pratibha 2017FST34D | 05.06.2020 | "Biodiversity in relation to eco-health" organized by Acharya Narendra Deva University of Agriculture and Technology, Ayodhya, UP. |
| 30. | Pratibha 2017FST34D | 06.06.2020 to07.06.2020 | "Digestion in stomach and detoxification" course (e-learning) from Oxford Home Study Centre. |
| 31. | Himanshi Rao 2019FST53M | 30.07.2020 | "Packaging of foods- trends and prospects" organized by Department of Food Technology, Lady Irwin College, Delhi, India. |
| 32. | Himanshi Rao 2019FST53M | 05.08.2020 | "Recent development in food processing" conducted by the Department of Food Engineering and Technology, Sant Longowal Institute of Engineering and Technology, Longowal, Punjab, India. |
| 33. | Pratibha 2017FST34D | 08.08.2020 | "National education program on basic nutrition, food fortification, wash, mother health and nutrition, anemia and physical activity" organized by Poshan Abhiyaan, Ministry of Woman and Child Welfare, ICMR- NIN, Department of Health Research, Hyderabad, Telangana, India. |
| 34. | Pratibha 2017FST34D | 13.08.2020 | "Entrepreneurial opportunities in food processing sector" organized by the School of Agricultural Sciences and Technology (SAST), NarseeMonjee Institute of Management Studies (NMIMS). |
| 35. | Himanshi Rao 2019FST53M | 24.08.2020 to 28.08.2020 | "Recent advances in dairy process engineering" organized by Department of Food Process Engineering, College of Food and Dairy Technology, Koduvalli in association with AFST (India). |
| 36. | Himanshi Rao 2019FST53M | 29.08. 2020 | "Reading and decoding food labels" organized by the Department of Food Technology, Bhaskaracharya College of Applied Sciences, University of Delhi, Delhi, India. |
| 37. | Tanu Malik 2018FST31D | 01.09.2020 to 11.09.2020 | "Research methodology for social science" at Centre of Agricultural Market Intelligence, Anand Agricultural University, Anand, Gujrat, India. |
| 38. | Himanshi Rao 2019FST53M | 05.09.2020 | "Dietary management of coeliac disease" organized by the Department of Food Technology, Bhaskaracharya College of Applied Sciences, University of Delhi, Delhi, India. |
| 39. | Himanshi Rao 2019FST53M | 17.09.2020 to 18.09.2020 | "Market dynamics in poultry sector: perspective and challenges" at Centre of Agricultural Market Intelligence, Anand Agricultural University, Anand, Gujarat, India. |
| 40. | Pratibha 2017FST34D | 05.10.2020 to | "Post harvest management and value addition in horticultural crops for budding start-ups" organized by Central Agricultural |

| | | | |
|---|---|---|---|
| | | 07.10.2020 | University, Imphal, India. |
| 41. | Pratibha 2017FST34D | 05.10.2020 to 16.10.2020 | "Food safety and quality management system" organized by Food Safety and Standards Authority of India (FSSAI). |
| 42. | Tanu Malik 2018FST31D | 13.10.2020 to 16.10.2020 | World Food Day celebrations "Food conclave 2020 - webinar series" organized by the Department of Food Processing Technology PSG College of Arts and Science, Coimbatore, Tamil Nadu, India. |
| 43. | Himanshi 2019FST53M | 15.10.2020 to 12.11.2020 | Virtual internship from Yari Quali Tech, Indore, Madya Pradesh, India. |
| 44. | Roopa H 2019FST54M | | |
| 45. | Monika 2019FST68D | 19.10.2020 to 21.10.2020 | "Postharvest management of agriculture produce during natural calamities/disaster" organized by National Institute of Disaster Management, Ministry of Home Affairs, GoI and ICAR-Central Institute of Postharvest Engineering and Technology. |
| 46. | Tanu Malik 2018FST31D | 20.10.2020 | "Food structure and functionality" online mini-symposium organized by researcher academy on campus. |
| 47. | Monika 2019FST68D | 05.11.2020 | "Entrepreneurial skill development for dairy graduates" organized by IDP-Cell, Guru Angad Dev Veterinary and Animal Sciences University, Ludhiana, Punjab, India. |
| 48. | Tanu Malik 2018FST31D | 01.01.2021 | International webinar on "Managing soil for producing nutritional food and mitigating climate change", organized by Department of Agriculture and Environmental Sciences, NIFTEM. |
| 49. | Abhinaya 2020FST01M | 17.02.2021 to 19.02.2021 | "Digital library framework for strengthening agricultural knowledge" organized by IDP-NAHEP at ICAR, New Delhi, India. |
| 50. | Shreya 2020FST03D | 01.03.2021 to 03.03.2021 | International webinar on "Metabolomics and proteomics in food science" organized under IDP-NAHEP at ICAR-NDRI, Karnal, Haryana, India. |
| 51. | Abhinaya 2020FST01M | 04.04.2021 | "Overview on FSSC 22000 and how to become a food safety auditor" organized by Food Safety and Standards Authority of India. |
| 52. | Tanu Malik 2018FST31D | 10.04.2021 | "Hazards of chemicals in food processing industries" organized by Assure Food Solutions, Kerala, India. |
| 53. | Abhinaya 2020FST01M | 20.07.2021 | "Labelling requirements-the flip side" organized by IIFPT, Thanjavur, Tamil Nadu, India. |
| 54. | Shreya 2020FST03D | 28.09.2021 | International webinar on "Nutritional considerations for women using life-cycle approach" organized by the department. of Foods and Nutrition, College of Home Science GBPUA&T, Pantnagar, Uttarakhand in association with the National Commission for Women (NCW), GOI, New Delhi, India. |
| 55. | S. Abinaya 2020FST01M | 01.10.2021 to 30.10.2021 | Industrial training at SBD Agro Food, Mahi, Tehri Baba Sawan Singh, Sirsa, Haryana, India. |
| 56. | Raj Kumar 2020FST02M | 01.10.2021 to 30.10.2021 | DNV approved virtual internship training on "Food safety and quality management system", organized by DNV Business Assurance India, Private Limited, Kolkata, West Bengal, India. |

| | | | |
|---|---|---|---|
| 57. | Abhinaya 2020FST01M | 31.10.2021 | "Eco-labels for sustainable food production and consumption" NIEPA, New Delhi, India. |
| 58. | Himanshi Rao 2019FST53M | 30.01.2022 | Online training programme on "Fruits and vegetables-processing operations in industry". |
| 59. | Mutyala Greeshma Sree 2021FST01M | 01.02.2022 to 03.02.2022 | Online training on "Functional fermented dairy foods for management of health and disease" organized for women under the aegis of DST, GoI funded project by Dairy Technology Division, NDRI, Karnal (virtual), Haryana, India. |
| 60. | Shreya 2020FST03D | | |
| 61. | Himanshi 2019FST53M | 28.02.2022 to 04.03.2022 | "Smart Farming: AI, robotics, IoT and cloud computing" organized by Centre of Agricultural Market Intelligence, Anand Agricultural University, Anand, Gujrat, India. |
| 62. | Himanshi Rao 2019FST53M | 06.03.2022 | "NAAC revised assessment methodologies and quality enhancement strategies" organized by Star International Foundation for Research and Education, Namakkal, Tamil Nadu, India. |
| 63. | Shreya 2020FST03D | 10.03.2022 | "Good laboratory practices in biological and chemical sciences," organized by the Biological and Chemical Waste Management Committee, BCAS, Delhi, India |
| 64. | Abhinaya 2020FST01M | 11.04.2022 | "Citrus postharvest handling and processing technology" organized by Department of Agriculture and Environment Sciences, National Institute of Food Technology, Entrepreneurship and Management, Punjab, India. |
| 65. | Himanshi Rao 2019FST53M | 22.04.2022 | "Invest in our planet: fight climate change with diet change", organized by Department of Community Medicine and School of Public Health, PGIMER, Chandigarh, India |
| 66. | Mutyala Greeshma Sree 2021FST01M | 25.04.2022 to 27.04.2022 | Training on "Mushroom production technology" organized by Saina Nehwal Institute of Agricultural Technology Training & Education (SNIATTE), CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 67. | Sadhana 2021FST02M | | |
| 68. | Himanshi Rao 2019FST53M | 31.05.2022 | "Food licensing and registration of food businesses (FoSCoS)" organized by FICSI. |
| 69. | Mutyala Greeshma Sree 2021FST01M | 23.07.2022 to 22.08.2022 | Industrial training on "Food research on new product development of carbonated beverages", organized by Smart Food Lab, PFS Research, Private Limited, Hyderabad, India. |
| 70. | Sadhana 2021FST02M | 01.08.2022 to 31.08.2022 | Industrial training on "Mushroom cultivation and processing" at Bajwa Vegicraft, Private Limited, Kurukshetra, Haryana, India. |

## PLACEMENTS RECORD

| Sr. no. | Name of student | Placements (2018-2023) |
|---|---|---|
| 1. | Dr. Kanika | Deputy Director (Technical) in Food Safety and Standards Authority of India (FSSAI), New Delhi on deputation since December 03, 2022 |
| 2. | Dr. Ritu | Assistant Professor, CFST, CCSHAU, Hisar since February 22, 2019 |

| | | |
|---|---|---|
| 3. | Dr. Aneeta Khatak | Assistant Professor (Guest Faculty) Food Technology, Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India |
| 4. | Dr. Jyoti Prabha Bishnoi | Assistant Professor at Sri Vinayak College of Agriculture, Jaipur since December 06, 2022, Rajasthan, India |
| 5. | Dr. Isha Kaushik | Food Safety Officer, Food Safety and Standards Authority of India (FSSAI), New Delhi, India |
| 6. | Dr. Neeraj | Assistant Professor (Adhoc), Department of Agriculture, Jharkhand Rai University, Ranchi, Jharkhand, India |
| 7. | Dr. Akanksha Jain | Manager Learning Resource Management in Food Processing Sector Skill Council from January 2020-October 2022<br>Food Technologist (Consultant) for APEDA project in National Research Development Corporation (NRDC), New Delhi since November 2022 |
| 8. | Dr. Sucheta | Assistant Professor, D.Y. Patil University, Navi Mumbai, Maharashtra, India |
| 9. | Dr. Monika Mathur | Lecturer/Post Graduate Teacher in Science, Department of School Education, Bihar, India |
| 10. | Dr. Rattan Singh | Assistant Professor, Baba Farid Institute of Technology (BFIT), Dehradun, Uttrakhand, India |
| 11. | Dr. Naseer Ahmed | Assistant Professor, Department of Food Technology, DKSG Akal College of Agriculture, Eternal University, Baru Sahib since August, 2019<br>RIMT University, Mandi Gobindgarh, Punjab from February- August, 2018 |
| 12. | Dr. Partibha | Food Analyst at Food and Drug Administration, Karnal, Haryana, India |
| 13. | Dr. K.M. Manju | Junior Research Fellow, Department of Microbiology, Central University, Mahendragarh, Haryana, India |
| 14. | Dr. Tanu Malik | Quality and R&D Head in Shri Niwas Food Industries, Rai, Sonipat, Haryana since June 2022<br>Assistant professor in Department of Food Technology and Nutrition in Lovely Professional University, Punjab from October, 2021 to May, 2022<br>Scientist-B for Food Encyclopaedia Project in Patanjali Research Institute, Haridwar from July-September 2021<br>Food Processing Lecturer (Online), Geeta Group of Institutions, Panipat from May-July 2021 |
| 15. | Sunita | Lecturer/Post Graduate Teacher in Science, Department of School Education, Haryana, India |
| 16. | Shreya Panwar | Selected as ASRB- ARS Scientist in January, 2023 |
| 17. | Yudhbir Singh | Quality Assurance Executive, Del Monte, Delhi since January, 202 Quality Associate, Field Fresh Foods Private Limited, Gurugram, Haryana, India |
| 18. | Sushil Kumar | Instructor at The Legends of Allen, Coaching Centre, Hisar since August, 2021, Haryana, India |
| 19. | Priyanka Sharma | Technical and Regulatory Affairs, MARICO Limited, Delhi, India |
| 20. | Harsha Rohila | Senior Research Scientist, Dabur, New Delhi, India |
| 21. | Mansi Duggal | Medical Writer, Crixus Health, Bengaluru, India |
| 22. | Jyoti Rani | Trained Graduate Teacher (Science), Happy Home School, New Delhi, India |
| 23. | Mohit Kumar | Senior Executive (R&D), Del Monte, Gurugram, Haryana, India |
| 24. | Dimas Bayu Pinandoyo | Lecturer, Politenik Negeri Media Kreatif, Jakarta, Indonesia |

| | | |
|---|---|---|
| 25. | Monika | Sub Divisional Magistrate, Rajasthan Public Service Commission |
| 26. | Mohammad Sadiq | Food Security and Strategic Grain Reserve Division, Ministry of Agriculture, Livestock and Irrigation, Government of Afghanistan |
| 27. | Kritika Rawat | Assistant Professor (Food Technology), Mata Gujri College, Sirhind, Punjab, India |
| 28. | Priyanka | Assistant Professor (Food Technology), Mata Guiri College Fatehgarh Sahib since September, 2019, Punjab, India |
| 29. | Shweta | QHSE Executive, Elior, New Delhi, India |
| 30. | TshiamoSeiphitlhile | English Teacher (Part time), Botswana |
| 31. | Ankita | R&D Associate in Perfetti Van Melle India Private Limited<br>Guest Assistant Professor, Food Technology, Aditi Mahavidyalaya, University of Delhi since 2022 |
| 32 | Lalita | Executive (R&D) at Jubilant Food Works Private Limited, Delhi, India |
| **PURSUING HIGHER STUDIES** | | |
| 1. | Monika Mathur | Ph.D. (Food Science and Technology), Centre of Food Science and Technology, CCS Haryana Agricultural University, Hisar, Haryana, India |
| 2. | Simran Arora | Ph.D. (Food Science and Technology), Centre of Food Science and Technology, CCS Haryana Agricultural University, Hisar, Haryana, India |
| 3. | Madhushikha Keshani Ranasinghe | Ph.D., UniversitatRovirai Virgili Tarragona, Catalonia, Spain |
| 4. | Harshitha T. | Ph.D. (Food Science and Nutrition), Centre of Food Science and Technology, CCS Haryana Agricultural University, Hisar, Haryana, India |
| 5. | Nidhi Dalal | Ph.D., University of Naples Federico II, Naples, Italy |
| 6. | Sandeep Kumar | Ph.D. (Food Science and Technology), Centre of Food Science and Technology, CCS Haryana Agricultural University, Hisar, Haryana, India |
| 7. | TshiamoSeiphitlhile | Ph.D. in University of Botswana |
| 8. | Meenu Roperia | Ph.D. (Food Science and Technology), Centre of Food Science and Technology, CCS Haryana Agricultural University, Hisar, Haryana, India |
| 9. | Manisha Rani | Ph.D. (Food Science and Technology), Centre of Food Science and Technology, CCS Haryana Agricultural University, Hisar, Haryana, India |

## PUBLICATIONS FROM M.SC./PH.D. STUDENTS

| Sr. no. | Title of the paper/book | NAAS rating |
|---|---|---|
| **M.Sc.** | | |
| **2018-2019** | | |
| 1. | Seema, R. and Siddiqui, S. (2018). Comparative effect of different individual wrappings on shelf life of guava (*Psidium guajava*). *Journal of Food Science and Technology*,**55(8)**: 2935-2944. | 7.24 |
| 2. | Rawat, K., Kumari, A., Kumar, S., Kumar, R. and Gehlot, R. (2018). Traditional fermented products of India- review article. *International Journal of CurrentMicrobiology and Applied Sciences*, **7(4)**: 1873-1883. | - |
| 3. | Ranasinghe, M.K. and Siddiqui,S. (2018). Assessment of total colony count in mungbean (*Vigna radiata*) sprouts preserved using crude extract of bio-preservatives during storage. *Journal of Agriculture and Crops*, **4(9)**: 99-104. | - |
| 4. | Rahul, Gehlot, R., Siddiqui, S. and Rekha (2018). Studies on physico-chemical composition of fresh guava and jamun fruits. *Beverage and Food World*, **45(9)**: 32-33. | - |
| **2019-2020** | | |
| 5. | Kargwal, R., Yadvika, V. K., Garg, M. K., Vinod, M. K. and Mathur, M. (2019). Energy consumption pattern of value added products of pearl millet. *Energy*, **35(1)**: 1-5. | 10.97 |
| 6. | Kumar, M., Rekha, Gehlot, R., Sindhu, R., Singh, R. and Kumar, S. (2019). Physico-chemical characteristics of fresh banana fruits.*International Journal of Chemical Studies*,**7(5)**: 440-441. | 5.31 |
| 7. | Sharma, S., Gehlot, R., Singh, R., Rekha and Sindhu, R. (2019). Effect of storage on chemical constituents and sensory parameters of bael-mango chutney. *Journal of Pharmacognosy and Phytochemistry*, **8(4)**: 405-407. | 5.21 |
| 8. | Sharma, S., Gehlot, R., Singh, R., Rekha and Sindhu, R. (2019). Changes in chemical constituents and overall acceptability of bael-mango jam during storage. *Journal of Pharmacognosy and Phytochemistry*, **8(4)**: 408-410. | 5.21 |

| | | |
|---|---|---|
| 9. | Kumar, M., Rekha, Gehlot, R., Singh, R., Sindhu, R. and Kumar, S. (2019). Physico-chemical composition of ripe and overripe banana powder. *Journal of Pharmacognosy and Phytochemistry*, **8(5)**: 632-633. | 5.21 |
| 10. | Sharma, S., Gehlot, R., Singh, R., Rekha and Sindhu, R. (2019). Preparation and evaluation of bael-mango jam. *International Journal of Current Microbiology and Applied Sciences*, **8(7)**: 663-667. | - |
| 11. | Victor, S.L., Garg, M. K. and Pawar, K. (2019). Effect of different drying techniques on the quality attributes of pineapple powder. *International Journal of Current Microbiology and Applied Sciences*, **8(2)**: 324-341. | - |
| 12. | Pinandoyo, D.B., Siddiqui, S. and Garg, M.K. (2019). Physico-chemical analysis of protein fortified papaya jam. *Jurnal Al-Azhar Indonesia Seri Sains Dan Teknologi*,**5(1)**: 50-55. | - |
| **2020-2021** | | |

## LIST OF STUDENTS ON ROLL PRESENTLY

| Sr. no. | Name of student | Guide | Title of research problem |
|---|---|---|---|
| 1. | Deepankar 2017BS14D | Dr. B.K.Hooda | Resampling techniques for evaluating GXE interaction in oilseed crops |
| 2. | Alisha 2018BS20D | Dr. Manoj Kumar | Use of auxiliary information for estimation of population variance in the non-response situation |
| 3. | Vaishali Sharma 2018BS21D | Dr. B. K. Hooda | Development of AMMI models for heteroscedastic and outlier conditions |
| 4. | Rohit Kundu 2018BS22D | Dr. O P Sheoran | Modeling of tuberculosis through structural equation and bayesian approach |
| 5. | Pardeep Kumar 2019BS21D | Dr. Hemant Poonia | Heat transfer in nano fluids over different conformations with various effects |
| 6. | Phagun Mehta 2019BS22D | Dr. Manju S. Tonk | A study of mathematical models for proficient crop planning |
| 7. | Preeti 2019BS23D | Dr. Hemant Poonia | Optimization of agricultural production planning- Fuzzy multi objective techniques |
| 8. | Sahil Kalra 2019BS24D | Dr. Vikash Siwach | A new image encryption scheme with high security |
| 9. | Sombir 2019BS25D | Dr. Vikash Siwach | Some contribution to region based knot theory |
| 10. | Aditi 2019BS56D | Dr. Sarita Rani | Bayesian estimation of stability indices for pearl millet |
| 11. | Chetna 2019BS57D | Dr. Monika | A study on impact of climate change and statistical models for pre-harvest forecast of wheat-yield in Haryana |
| 12. | Pavitra Kumari 2019BS58D | Dr. Vinay Kumar | Bayesian estimation for some lifetime models under different loss functions |
| 13. | Pushpa 2019BS59D | Dr. Joginder | Volatility forecast models of prices and arrivals of tomato in APMC markets of Haryana |
| 14. | Sanjeev 2019BS60D | Dr. Nitin Bhardwaj | A comparative study of forecast models for sugarcane yield prediction of northern agro climatic zone of Haryana |
| 15. | Krishan 2020BS21D | Dr. Manju S. Tonk | Mathematical modeling of double orbit retrial queues with two phase service for fuzzy environment |
| 16. | Priya 2020BS22D | Dr. Hemant Poonia | Heat and mass transfer characteristics of Non-Newtonian nano fluid flow through different geometries |
| 17. | Priyanka 2020BS23D | Dr. Vikash Siwach | Secret sharing using quantum cryptography |
| 18. | Pooja 2020BS57D | Dr. Manoj Kumar | Small area estimation of rice yield in eastern zone of Haryana |
| 19. | Sanju 2020BS58D | Dr. Vinay Kumar | A comparative study of imputation techniques for different missingness mechanisms in crop genotypes |
| 20. | Anu 2021BS18D | Dr. Manju S. Tonk | Mathematical modelling and application of global optimization approaches for the study of aphid population |
| 21. | Praveen Kumari 2021BS19D | Dr. Hemant Poonia | Numerical investigation on heat transfer flow in hybrid nanofluid over different geometries |

| | | | |
|---|---|---|---|
| 22. | Pushpa 2021BS20D | Dr. Vikash Siwach | Modeling of queues under controlled and time dependent parameters |
| 23. | Ajay Sharma 2021BS51D | Dr. Joginder | Time series models for market co-integration and price forecasting of major vegetable crops in India |
| 24. | Naveen GP 2021BS52D | Dr. Manoj Kumar | Modified estimator of population mean under compromise method of computation |
| 25. | Surbhi 2021BS53D | Dr. Nitin Bhardwaj | Mustard yield forecasting: Comparison of Bayesian and frequentist (classical) approach |
| 26. | Kiran Devi 2022BS17D | Dr. Manju S. Tonk | Mathematical approaches for the study of pest population |
| 27. | Sarita Devi 2022BS18D | Dr. Hemant Poonia | Flow characteristics of non-newtonian fluid in the presence of hybrid nanoparticles. |
| 28. | Twinkle 2019BS43M | Dr. B.K.Hooda | Logistic regression and artificial neural network models for classification of Indian mustard genotypes |
| 29. | Monika 2020BS20M | Dr. Hemant Poonia | A study on simulation techniques for queuing problems |
| 30. | Ravada Sowmya 2020BS44M | Dr. Joginder | Trend analysis of area, production and trade of major agricultural crops in BRICS countries |
| 31. | Sooraj 2021BS23M | Dr. Vikash Siwach | Non steady behaviour of queues in sugar mill using Monte Carlo technique |
| 32. | Anurag 2021BS52M | Dr. O. P. Sheoran | Comparative study for estimation of missing observations in split-plot design |
| 33. | Parshant 2021BS53M | Dr. Vinay Kumar | Comparative study of stability measure for Rice (*OryzaSativa*) genotypes |
| 34. | Jyoti 2022BS16M | Dr. Vikash Siwach | Statistical Modelling and analysis of factors affecting happiness of CCSHAU students |
| 35. | Sonika 2022BS17M | Dr. Manju S. Tonk | An Algorithm for leaf area estimation using Mathematical Techniques |
| 36. | Nidhi 2022BS38M | Dr. Manoj Kumar | Modified general class of product type estimates of population mean using accurately information |

## STUDENTS PARTICIPATION IN SEMINAR/ CONFERENCE/WORKSHOP ETC.

| Sr.no. | Name | Oral/Poster | Conference/ Seminar/Workshop details |
|---|---|---|---|
| 1. | Mohit Nain 2016BS07D | Poster | International Conference on "Emerging innovations in statistics and operations research (EISOR-2018)", from December 27-30, 2018 at Department of Statistics, Maharshi Dayanand University, Rohtak, Haryana, India. |
| 2. | Mohit Nain 2016BS07D | Poster | International Conference on "Climate change towards health and agricultural sustainability", from February 18-20, 2019 at Department of Environmental Science and Engineering, Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |

| | | | |
|---|---|---|---|
| 3. | Mohit Nain 2016BS07D | Poster | International Seminar on "Sustainable Environment & Agriculture under global climate change", on February 21, 2019 at Department of environmental science, Maharshi Dayanand University, Rohtak, Haryana, India. |
| 4. | Mohit Nain 2016BS07D | Poster | International Conference on "Recent trends in mathematics and Its Applications to Graphs, Networks and Petri Nets (ICRTMA-GPN-2020)", from July 20 − 24, 2020 at School of Computational and Integrative Sciences, Jawaharlal Nehru University, New Delhi, India |
| 5. | Mohit Nain 2016BS07D | Poster | International Conference on "Advances in differential equations and mathematical modelling (IC-ADE-MM-2020)", from December 18 − 20, 2020 at School of Computational and Integrative Sciences, Jawaharlal Nehru University, New Delhi, India. |
| 6. | Sahil 2019BS24D | Paper | Online International Conference on History and Development of Mathematics held at Department of Mathematics, MDU Rohtak, Haryana on December 22, 2020. |
| 7. | Sahil 2019BS24D | Paper | 4th International Conference on Frontiers in industrial and Applied Mathematics (FIAM-2021) Organized by Department of Mathematics SLIET Longowal – 148106, Punjab (INDIA) on 21- 22 December,2021. |
| 8. | Sanjeev 2019BS60D | Poster | National Conference on "Mathematical sciences for applied and agricultural research", on February 22, 2022 at Department of Mathematics and Statistics, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 9. | Alisha 2018BS20D | Poster | |
| 10. | Surbhi Kaushik 2021BS53D | Poster | |
| 11. | Vikash Kumar Sumit 2019BS44M | Poster | |
| 12. | Aditi 2019BS56D | Poster | International Conference on "Innovations in management", from August 5-6, 2022 at University of Science and Technology, Meghalaya, India. |
| 13. | Sanjeev 2019BS60D | Poster | |
| 14. | Aditi 2019BS56D | Poster | International Conference on "Recent advances and innovations in biological and applied sciences (RAIBAS)", from June 14-16, 2022 at SGT University, Gurugram, Haryana, India. |
| 15. | Sanju 2020BS58D | Poster | |
| 16. | Priyanka 2020BS23D | Paper | National Conference on "Mathematical Science for Applied and Agricultural Research " Organized by Department of Mathematics & Statistics , CCSHAU, Hisar on February 22,2022 |
| 17. | Sahil 2019BS24D | | |
| 18. | Sombir 2019BS25D | | |
| 19. | Naveen GP 2021BS52D Statistics | Oral | International conference of the society of statistics, computer and applications (SSCA) on significance of statistics in the emerging scenario at department of statistics, university of Jammu |

| | | | |
|---|---|---|---|
| 20. | Priyanka 2020BS23D | Paper | International conference on "Recent Advancement in Mathematical and Allied Science " held at B K Birla Institute of engineering and technology, Pilani during 25-26 March 2023 |

***Annexure MATHSTAT IV***

## STUDENT PARTICIPATION IN WORKSHOP/ TRAININGS

| Sr.no. | Name | Duration | Workshop/ Training |
|---|---|---|---|
| 1. | Mohit Nain 2016BS07D | 24.08.2018 | Seminar on "Elsevier empowering agriculture research in India", at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 2. | Sarita Devi 2022BS18D | 14.11.2018 | Workshop on "Application and scope of vedic mathematics", at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| 3. | Mohit Nain 2016BS07D | 22.11.2018 | Seminar on "Intellectual property rights- A mechanism for social economic growth", at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 4. | Mohit Nain 2016BS07D | 30.04.2019 to 05.05.2019 | National Faculty Development Programme on "Research methodology and teaching pedagogy", at South Campus, University of Delhi, New Delhi, India. |
| 5. | Mohit Nain 2016BS07D | 04.06.2019 to 11.06.2019 | National Faculty Development Programme on "Research methods and business analytics using SPSS and R-Studio", at the Internal Quality Assurance Cell, Delhi Institute of Advanced Studies, New Delhi, India. |
| 6. | Mohit Nain 2016BS07D | 10.10.2019 to 24.10.2019 | Training on "Statistical data analysis for research scholar", at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 7. | Mohit Nain 2016BS07D | 22.01.2020 | Workshop on "Recent computational techniques of mathematical sciences for researchers", at Department of Mathematics and Statistics, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 8. | Vikash Kumar Sumit 2019BS44M | 06.07.2020 to 07.07.2020 | Webinar on "Computational techniques for applied sciences", at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 9. | Vikash Kumar Sumit 2019BS44M | 13.07.2020 to 17.07.2020 | Workshop on "Modern methodologies in statistical data analysis for effective agricultural research", at University of Agricultural Science, Raichur, Karnataka, India. |
| 10. | Vikash Kumar Sumit 2019BS44M | 31.07.2020 to 02.08.2020 | International Workshop on "Data analysis using Python", at Department of Statistics, University of Lucknow, Uttar Pradesh, India. |
| 11. | Priya 2020BS22D | 17.08.2020 to 19.08.2020 | National Faculty Program on "MATLAB and its application", at Department of Mathematics, Bishop Cotton women's Christian College, Bengaluru Karnataka, India. |
| 12. | Mohit Nain 2016BS07D | 26.08.2020 to 16.09.2020 | Massive Open Online Course on "Information handling skills for teaching, learning and research", at Professor Jayashankar Telangana State Agricultural University, Rajendranagar, Hyderabad, India. |
| 13. | Mohit Nain 2016BS07D | 2.11.2020 to | Student Development Program on "quantitative data analysis using R", at RV Institute of Management, Bangalore, |

| | | | |
|---|---|---|---|
| | | 11.11.2020 | Karnataka, India. |
| 14. | Mohit Nain 2016BS07D | 16.12.2020 | Workshop on "Response surface and mixture experiment methodologies for agricultural and fisheries experimentation", at ICAR- Central Marine Fisheries Research Institute, Kochi, India. |
| 15. | Mohit Nain 2016BS07D | 09.08.2021 to 14.08.2021 | Training program on "Statistical tools in Research and data analysis", at the Department of Animal Genetics and Breeding, College of Veterinary and Animal Sciences, Parbhani, Maharashtra, India. |
| 16. | Priya 2020BS22D | 13.09.2021 to 18.09.2021 | Workshop on "New advances in mathematical and computational Science", at Department of Mathematics, Yogi Vomana University, Andhra Pradesh, India. |
| 17. | Priya 2020BS22D | 08.10.2021 to 12.10.2021 | International Workshop on "Advanced topics in mathematics", at Centre for applied Mathematics, International Institute of Information Technology, Naya Raipur,Chhattisgarh, India. |
| 18. | Priya 2020BS22D | 06.06.2022 to 10.06.2022 | International Workshop on "Advanced numerical techniques for differential equations", at Department of Mathematics, Malviya National Institute of Technology, Jaipur, Rajasthan, India. |
| 19. | Priya 2020BS22D | 21.06.2022 to 25.06.2022 | International Workshop and Hands on Training on "Solving differential equations", at Department of Mathematics, National Institute of Technology, Uttarakhand, India. |
| 20. | Naveen G P 2021BS52D | 18.07.2022 to 30.07.2022 | Workshop on "Statistical and machine learning techniques for agricultural systems modeling and forecasting using R", at Indian institute of Rice Research, Hyderabad, India. |

## PLACEMENTS RECORD

| Sr. no. | Name of students | Placements |
|---|---|---|
| 1. | Megha | Assistant Professor (Statistics) in CCS HAU, Hisar |
| 2. | Mujahid | Assistant Professor (Agri. Stat.), SKNAU, Jobner (Rajasthan) |
| 3. | Ajay | Assistant Professor (Statistics), MHU, Karnal |
| 4. | Poonam Godara | Assistant Professor (Statistics), GJUS&T, Hisar |
| 5. | Mohit Nain | Assistant Professor (Statistics), Lovely Professional University, Phagwara, Punjab. |
| 6. | Nisha | Assistant Professor, Department of Statistics, University of Delhi |
| 7. | Ravita | Senior Demonstrator, Department of Bio-Statistics, PGIMER, Chandigarh |
| 8. | Alisha | Research Associate, PGIMER, Chandigarh |
| 9. | Sombir | PGT teacher, DSSSB, New Delhi |
| 10. | Sahil Kalra | TGT teacher, DSSSB, New Delhi |
| 11. | Krishan | TGT teacher, DSSSB, New Delhi |
| 12. | Ekta Hooda | Assistant Professor (Statistics), Om Sterling University, Hisar |
| 13. | Nitin Tanwar | Assistant Professor (Statistics), Lady Sriram College for Women, University of Delhi |

| | | |
|---|---|---|
| 14. | Tanu Jain | Assistant Manager, SBI, General Insurance, Mumbai |
| 15. | Abhishek Sindhu | Agriculture Field Officer, Punjab and Sind Bank, Sri Nagar, Uttrakhand |
| 16. | Suman | Assistant Professor (Agricultural Statistics), SGT University, Gurugram |
| 17 | Deepankar | Data Scientist, Syngenta, India Pvt. Lt. |
| 18 | Alisha | Research Associate, PGIMER, Chandigarh |

## PUBLICATIONS FROM M.SC./PH.D. STUDENTS

| Sr. no. | Title of The paper/book | NAAS Rating |
|---|---|---|
| **M.Sc** | | |
| **2018-19** | | |
| 1. | Suman and Verma, U. (2018). Linear mixed effect models for sugarcane yield estimation in Haryana. *International Journal of Agricultural and Statistical Sciences*, **14(1):** *43-47.* | 5.13 |
| 2. | Alisha, Sanjeev and Verma, U. (2018). Arimax models for cotton yield forecasting in Haryana. *International Journal of Current Microbiology and Applied Research*, **7(12):** 2968-2972. | 5.38 |
| 3. | Goyal, M**.**, Salinder., Suman and Verma, U. (2018). Principal Component technique for pre-harvest crop yield estimation based on weather input. *Advances in Research*, **17(4):**1-8. | 4.80 |
| 4. | Goyal, M.and Verma, U. (2018). Wheat yield prediction using weather based statistical models in Northern zone of Haryana. *International Journal of Humanities and Social Sciences*, **7(4):** *47-50.* | 3.17 |
| 5. | Sanjeev and Verma, U. (2018). Development of weather based wheat yield forecast models in Haryana. *International Journal of Current Microbiology and Applied Research*, **7(12):** 2973-2978. | 5.38 |
| **2019-20** | | |
| 6. | Tanu, K. and Jaslam, P.K.M. (2019). Efficiency evaluation of ratio estimators in simple random sampling. *Journal of Reliability and Statistical Studies*, **12**: 103-113. | |
| 7. | Panghal, P., Kumar, M**.** and Rani, S. (2019). Estimation of annual compound growth rates of guava (*Psidium guajava* L.) fruit in Haryana using nonlinear model. *Journal of Applied and Natural Science*, **11(4):** 778 – 784. | 5.08 |
| **2022-23** | | |
| 8. | Sumit, V.K., Kumar, M., Rani, S., Poonia, H. and Kumar, S. (2022). Non linear growth model approach for estimation of compound growth rate of the area and production of potato and onion crops in Haryana. *Agro Economist - An International Journal*, **9 (02):** 145-149. | 4.58 |

| Ph.D. | | |
|---|---|---|
| **2018-19** | | |
| **1.** | Goyal, M. and Verma, U. (2018). Weather based wheat yield forecasting in eastern zone of Haryana. *International Journal of Applied and Natural Sciences*, **7(4)**: 19-22. | 3.73 |
| **2.** | Bishnoi, S. and Hooda, B.K. (2018). Yield stability and association among parametric and non-parametric stability measures for wheat (*Triticum aestivum* L.) genotypes in northern region of India. *International Journal of Agriculture, Environment and Biotechnology*, **11(1):** 103-109. | 4.69 |
| **3.** | Bishnoi, S. and Hooda, B.K. (2018). Yield stability and sssociation among parametric and non-parametric stability measures for wheat (*Triticum aestivum* L.) genotypes in Haryana. *International Journal of Agricultural and Statistical Sciences*, **11(1):** 103-109. | 4.92 |
| **4.** | Tanwar, N. and Hooda, B.K. (2018). Aspect based multidimensional poverty status of households in rural and urban Haryana. *International Journal of Agricultural and Statistical Sciences*, **14 (1)**: 323-330. | 5.13 |
| **5.** | Bhushana, B. V**.** and Hooda, B. K. (2018). Fuzzy majority approach for modeling spatial and temporal distributions of daily rainfall in western zone of Haryana. *International journal of Agricultural and Statistical Sciences*,**14(1):** 57-67. | 4.92 |
| **6.** | Kumar, B., Hooda, E. and Hooda, B. K. (2018). GGE Biplot analysis of multi-environment yield trials for wheat in northern India. *Advances in Research*, **16(2):** 1-9. | 4.80 |
| **7.** | Kumar, B., Hooda, E. and Hooda, B. K. (2018). Interpretation of G × E Interaction for wheat yield in Haryana using GGE biplots. *Bulletin of Enviroment, Phamacology and life Scinces*,**7(9)**: 28-35. | 4.95 |
| **8.** | Kumar, A., Deepankar and Jaslam, P.K.M. (2018). Wheat yield forecasting in Haryana: A time series approach. *Bulletin of Environment, Pharmacology and Life Sciences*. **8(3)**, 63-69. | |
| **9.** | Jaslam, P.K.M., Deepankar and Kumar, A. (2018). Multivariate analysis of genetic diversity in chrysanthemum germplasm. *International Journal of Pure and Applied Bioscience*, **6(3)**: 572- 577. | |
| **10.** | Jaslam, P.K.M., Deepankar. and Luhach, V.P. (2018). Growth rate analysis of legumes in Haryana state. *International Journal of Agriculture Sciences*, **10(10)**: 6113-6115. | 4.73 |
| **2019-20** | | |
| **11.** | Nisha., Nain, M. and Aneja, D.R. (2019). Growth analysis of area, production, and productivity of wheat crop in Haryana and India. *Journal of Experimental Biology and Agricultural Sciences*, **7(3)**: 266-272. | |
| **12.** | Nain, M., and Hooda, B.K. (2019). Probability and trend analysis of monthly rainfall in Haryana. *International Journal of Agricultural and Statistical Sciences*, **15(1)**: 221-229. | 4.92 |
| **13.** | Singh D., Singh M., Nain M. and Gupta J.P. (2019). Variability analysis of groundwater depth: A case study of Sonipat district in Haryana, India. *International Journal of Agriculture Sciences*, **11(13):** 8738-8743. | 4.73 |
| **14.** | Manjeet., Verma, P.K., Sangwan, V.P.S., Nain, M. and Nisha (2019). Assessment of genetic variability for seed germination percent and seedling vigor traits in sesame (*Sesamum indicum L.*). *Journal of Pharmacognosy and Phytochemistry*, **8(6)**: 328-331. | |
| **15.** | Nain, M., Nisha., Sanjeev and Aneja, D.R. (2019). Instability and trend in area production and productivity of rice crop in Haryana and India. *Current Journal of Applied Science and Technology*, **37(5)**: 1-9. | 4.71 |
| **16.** | Nain, M. and Hooda, B.K. (2019). Identification of homogeneous rainfall stations in Haryana. *Journal of Experimental Biology and Agricultural Sciences*, **7(5)**: 452-461. | |
| **2020-21** | | |
| **17.** | Manjeet., Verma, P.K., Sheoran, R.K., Nain, M. and Avtar, R. (2020). Evaluation of sesame (*Sesamum indicum* L.) genotypes for genetic variability based on different traits under rainfed conditions. *Electronic Journal of Plant Breeding*, **11(1)**: 54-59. | 5.14 |

| | | |
|---|---|---|
| **18.** | Jaslam, P.K.M., Kumar, M., Anurag and Manjeet (2020). EBLUP estimate of crop yield at sub district level in Hisar district, Haryana (India) using MODIS/Terra data. *Current Science*, **119(12)**: 1982-1989. | 7.1 |
| **19.** | Kumar, A., Ravita., Jaslam, P.K.M., Deepankar and Sain, V. (2020). Time-series modeling and forecasting of mustard yield in Haryana. *Journal of Pharmacognosy and Phytochemistry*, **9(5S)**: 445-451. | |
| **20.** | Jaslam, P. K.M. and Kumar, M. (2020). Post stratified crop yield estimators at block level in Hisar district of Haryana (India). *Plant Archives*, **20**: 538-541. | 4.73 |

## LIST OF STUDENTS ON ROLL PRESENTLY

| Sr. no. | Name and Admission no. | Guide | Title of research problem |
|---|---|---|---|
| Ph. D. | | | |
| **1.** | Annu Rani 2019BS26D | Dr. Anuj Rana | Identification and characterization of bacterial derived volatile organic compounds and their effects on plant development and resistance against phytopathogens |
| **2.** | Diksha 2019BS27D | Dr. Rakesh Kumar | Development of seed coating method for increased viability of bioinoculants on legume and cereal seeds |
| **3.** | Dolly Rani 2019BS28D | Dr. Anuj Rana | Mycosynthesis of iron nanoparticles and their effect on growth and nutritional quality of wheat (*Triticum aestivum* L.) |
| **4.** | Kashish Sharma 2019BS29D | Dr. Kamla Malik | Microbial production of biodegradable polymer (polyhydroxybutyrate) using agricultural waste |

| | | | |
|---|---|---|---|
| **5.** | Nandni 2019BS30D | Dr. Leela Wati | Evaluation of individual and combined application of fly ash and sulphuroxidising bacteria on mustard ( *Brassica juncea* L. crop) |
| **6.** | Shivi 2019BS31D | Dr. Baljeet Singh Saharan | Isolation and characterization of potential zinc solubilizing rhizospheric bacteria for their impact on growth promotion of onion (*Allium cepa* L.). |
| **7.** | Babita 2020BS24D | Dr. Seema Sangwan | Biosurfactant mediated synthesis/stabilization of metal nanoparticles and their antagonistic behavior towards microbial pathogens |
| **8.** | Dandu Harikarthik 2020BS26D | Dr. Kamla Malik | Valorization of cellulose nanofibers from lignocellulosic residues and its antimicrobial application in food packaging |
| **9.** | Indu Rani 2020BS27D | Dr. Rakesh Kumar | Targeted genome editing using CRISPR-Cas 9 approach to decipher the functional role of predicted genes in survival of *Mycobacterium cansasii* |
| **10.** | Neeru 2020BS28D | Dr. Kamla Malik | Impact of metal nanoparticles on microbial dynamics and biogas production during anaerobic digestion of cattle dung |
| **11.** | Nidhi Sharma 2020BS29D | Dr. Baljeet Singh Saharan | Biodegradable plastic production by bacteria using low cost substrates |
| **12.** | Nikita 2020BS30D | Dr. Baljeet Singh Saharan | Bacteriocin production by bacteria for its application in citrus fruits |
| **13.** | Ritika 2020BS31D | Dr. Rajesh Gera | Genetic diversity of abiotic stress tolerant rhizobia nodulating *Prosopis* species |
| **14.** | ShaikTabasum 2020BS33D | Dr. Leela Wati | Impact of microencapsulated plant growth promoting bacteria on wheat (*Triticum aestivum* L.) crop |
| **15.** | Shubham Kumar 2020BS34D | Dr. Baljeet Singh Saharan | Deciphering responses of brinjal (*Solanum melongena*) crop to endophytic colonization by potassium solubilizing bacteria |
| **16.** | Swati 2020BS35D | Dr. Baljeet Singh Saharan | Phenazine producing bacteria and their application as biocontrol agent in Wheat (*Triticum aestivum* L.) |
| **17.** | Umang 2020BS36D | Dr. Leela Wati | Evaluation of zinc solubilizing bacteria and fly ash application on chick pea (*Cicer arietinum* L.) crop |
| **18.** | Indu Dhiman 2021BS21D | Dr. Leela Wati | Evaluation of exopolysaccharide producing bacteria to combat drought stress in chickpea (*Cicer arietinum* L.) crop |
| **19.** | Karthika P. 2021BS22D | Dr. Rajesh Gera | Characterization of entophytic bacterial microbiome of sugarcane (*Saccharum* spp.) possessing varying degree of resistance to red rot disease |
| **20.** | Mukesh Kumar 2021BS23D | Dr. Seema Sangwan | Impact of biosurfactant on rhizospheric bacterial community profile and seed metabolome of Mungbean (*Vigna radiata* L.) crop |
| **21.** | Neel Kamal 2021BS24D | Dr. Baljeet Singh Saharan | Synergistic effect of *Azotobacter* and *Trichoderma* on mustard crop (*Brassica juncea* L.) |
| **22.** | Pratiksha 2021BS25D | Dr. Rakesh Kumar | Exploring indigenous bacteria as bio-control agent against Karnal bunt in wheat (*Triticum aestivum* L.) crop |
| **23.** | Priya Tanwar 2021BS26D | Dr. Leela Wati | Evaluation of potential of actinomycetes as bioherbicides in wheat (*Triticum aestivum* L.) crop |
| **24.** | Priyanka 2021BS27D | Dr. Baljeet Singh Saharan | Isolation and characterization of Streptomyces and its effect on cotton (*Gossypium hirsutum*) under natural farming |
| **25.** | Ravina 2021BS28D | Dr. Rakesh Kumar | Efficacy of indigenous bacteria to control rice blast disease incited by *Magnaportheoryzae* |

| | | | |
|---|---|---|---|
| **26.** | Sujeeta 2021BS29D | Dr. Kamla Malik | Characterisation of bioactive compounds from agricultural wastes and their antimicrobial application as postharvest additives |
| **27.** | Yogita 2021BS30D | Dr. Seema Sangwan | Biosurfactant interceded atrazine mobilization and its bioremediation by bacteria |
| **28.** | Bhupender 2022BS19D | Dr. Rajesh Gera | Studies on bacterial communities in grafted cucumber and its impact on plant growth parameters under polyhouse conditions |
| **29.** | Deepak 2022BS20D | Dr. Madhu Chaudhary | Studies on genetic diversity of symbiotic and non-symbiotic bacteria associated with lentil (*Lens culinaris*) crop under salt affected soils |
| **30.** | Karishma Singh 2022BS21D | Dr. Leela Wati | Impact of mineral solubilizing diazotrophic bacteria on wheat (*Triticum aestivum* L.) crop |
| **31.** | Mansi 2022BS23D | Dr. Seema Sangwan | Antimicrobial, antioxidative and pesticide nanoencapsulation properties of lignin nanoparticles |
| **32.** | Pawan 2022BS24D | Dr. Kamla Malik | Impact of graphene and zinc oxide nanocomposites on soil microbial diversity and growth of wheat (*Triticum aestivum* L.) crop |
| **33.** | Rahul Choudhary 2022BS25D | Dr. Rakesh Kumar | Exploration of entomopathogenic nematode symbiotic bacteria to manage *Meloidogyne javanica* in tomato (*Solanum lycopersicum* L.). crop |
| **34.** | Sunaina Kumari 2022BS26D | Dr. Monika Kayasth | Bacterial diversity analysis during composting and its effect on chickpea (*Cicer arietinum* L.) crop |
| **35.** | Vijay Kumar 2022BS27D | Dr. Leela Wati | Impact assessment of sulphur oxidizing-phosphate solubilizing bacteria on mustard (*Brassica juncea* L.) crop |
| **36.** | Musini Tejashree 2022BS45D | Dr. Baljeet Singh Saharan | Yet to finalize |
| **37.** | Suman Jaya Kumar Kankanwadi 2022BS46D | Dr. Leela Wati | Yet to finalize |
| | | **M. Sc.** | |
| **1.** | Priti 2020BS25M | Dr. Rajesh Gera | Synergistic interaction between *Rhizobia* and arbuscular mycorrhizal fungi in alleviating drought stress in mung bean (*Vigna radiata* L.) |
| **2.** | Hardik Gautam 2021BS25M | Dr. Baljeet Singh Saharan | Biological nitrogen fixers and phosphate solubilizing bacteria from natural farming fields and their synergistic effect on growth promotion of chickpea (*Cicer arietinum*L.) |
| **3.** | Jyoti 2021BS26M | Dr. Shikha Mehta | Impact of rice straw compost on the growth and yield of chickpea (*Cicer arietinum* L.) |
| **4.** | Kamaldeep Kaur 2021BS27M | Dr. Meena | Covalent immobilization of bacterial alkaline protease and its application in poultry feed |
| **5.** | Kamna 2021BS28M | Dr.Ajay Kumar | Synthesis of zinc oxide nanoparticles using indigenous *Trichoderma* sp. and its interaction with bioinoculants |
| **6.** | Kanishka 2021BS29M | Dr. Rakesh Kumar | Plant growth promoting rhizobacteria based biological control of root-knot nematode (*Meloidogyne incognita*) in cotton |
| **7.** | Nishu 2021BS30M | Dr. Seema Sangwan | Impact of biosynthesized Zinc nanoparticles on physio-biochemical parameters and yield of wheat (*Triticum aestivum* L.) crop |
| **8.** | Priya | Dr. Anuj Rana | Absorption of bacteria volatile organic compounds on |

| | | | |
|---|---|---|---|
| | 2021BS31M | | nanobiochar for their control release and plant pathogens suppression |
| **9.** | Rekha 2021BS32M | Dr. Kamla Malik | Effect of paddy straw compost on microbial communities and plant growth of Mungbean (*Vigna radiata* L.) |
| **10.** | Shibashankar Panda 2021BS33M | Dr. Seema Sangwan | Foliar application of green synthesized zinc nanoparticles and their impact on physiological parameters and yield of wheat (*Triticum aestivum* L.) crop |
| **11.** | Somu Nagajyothi 2021BS35M | Dr.MonikaKayasth | Isolation and characterization of plant growth promoting salt-tolerant bacteria from *Suaedafruticosa* L. rhizosphere |
| **12.** | Bharti 2022BS18M | Dr. Shikha Mehta | Anaerobic digestion of *Hydrilla Verticillata* and paddy straw for biogas production |
| **13.** | Dhruv 2022BS19M | Dr. Meena Sindhu | Microbial production of mannanase |
| **14.** | Jatin Dutt 2022BS20M | Dr. Meena Sindhu | Preparation, characterization an antimicrobial activity of pullulan based films |
| **15.** | Mamta Kumari 2022BS21M | Dr. Anuj Rana | Deciphering the role of antagonistic bacteria and its derived volatile organic compounds to control *Sclerotinia* rot in mustard |
| **16.** | Mansi 2022BS22M | Dr. Shikha Mehta | Co-digestion of cattle dung with tea waste for biogas production |
| **17.** | Minakshi 2022BS23M | Dr. Rakesh Kumar | Biological management of *Leucinodes orbonalis* in brinjal using indigenous insecticidal soil bacillus |
| **18.** | Neha 2022BS24M | Dr. Leela Wati | Evaluation of exopolysaccharide producing silicate solubilizing bacteria on wheat crop |
| **19.** | Preeti 2022BS25M | Dr. Seema Sangwan | Antagonistic activity of silver nanoparticles against microbial phytopathogens |
| **20.** | Raj Bala 2022BS26M | Dr. Ajay Kumar | Diversity analysis of phosphate solubilizing microorganisms in rhizospheric soil from arid and semi-arid zone of Haryana |
| **21.** | Alapati Prema Shiva Naga Teja 2022BS46M | Dr. Baljeet Singh Saharan | Yet to finalize |
| **22.** | Prathyusha Suryapaghlu 2022BS47M | Dr. Kamla Malik | Yet to finalize |
| **23.** | Tanisha Gangrade 2022BS49M | Dr. Monika Kayasth | Yet to finalize |

## STUDENTS PARTICIPATION IN SEMINAR/CONFERENCES/WORKSHOPS *ETC.*

| Sr. no. | Name of student and admn no. | Oral/Poster | Conference Seminar/ Conference/Workshop details |
|---|---|---|---|
| 1. | Sheetal Yadav (2017BS13M) | - | Seminar on "National start-up summit" from June 1-2, 2018 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 2. | Savita Rani (2017BS12D) | - | Seminar on "Elsevier empowering agriculture research in India" in association with CERA on August 24, 2018 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 3. | Ruchi Sharma (2015BS10D) | | |

| | | | |
|---|---|---|---|
| 4. | Ruchi Sharma (2015BS10D) | Poster | Young Scientist Conference on "India International Science Festival", from October 5-8, 2018 at Indira Gandhi Prathisthan, Lucknow, Uttar Pradesh, India. |
| 5. | Kavita Rani (2015BS07D) | Poster | International Conference on "GRISAAS-2018", from 18-30 October, 2018 at Rajasthan Agricultural Research Institute, Durgapur, Jaipur, Rajasthan, India. |
| 6. | Dhinu Yadav (2015BS09D) | Poster | International Conference on "Advances in agriculture, biological science and applied sciences for sustainable future" from October 20-22, 2018 at Swami Vivekanand University, Meerut, Uttar Pradesh, India. |
| 7. | Aastha (2016BS05D) | | |
| 8. | Dhinu Yadav (2015BS09D) | Poster | International Conference on "GRISAAS-2018", from 18-30 October, 2018 at Rajasthan Agricultural Research Institute, Durgapur, Jaipur, Rajasthan, India. |
| 9. | Jeniffer (2015BS08D) | Poster | International Conference on "Microbes for biotechnology innovations" from December 7, 2018 at Maharshi Dayanand University, Rohtak, Haryana, India. |
| 10. | Ruchi Sharma (2015BS10D) | Poster | National Conference on "Biodiversity and environmental sustainability in modern era" on February 16, 2019 at Directorate of Higher Education, Haryana, India. |
| 11. | Kavita Rani (2015BS07D) | Poster | International Conference on "Sustainable agriculture, energy, environment and technology" on Feburary 21, 2019 at Maharshi Dayanand University, Rohtak, Haryana, India. |
| 12. | Aathira S. Kumar (2016BS03D) | Poster | International Conference on "Climate change towards health and agricultural sustainability", from February 18-20, 2019 at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| 13. | Dilbag (2017BS14M) | | |
| 14. | Dhinu Yadav (2015BS09D) | | |
| 15. | Satish Kumar (2017BS10D) | | |
| 16. | Sonam Antil (2018BS08D) | Poster | International Conference on "New millennia agriculture- novel trends and future scenario" from November 6-8, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 17. | Gourav Chopra (2018BS07D) | | |
| 18. | Umang (2018BS19M) | | |
| 19. | Pankaj Sharma (2017BS09D) | Poster | International Symposium on "Microbial technologies in sustainable development of energy, environment, agriculture and health" from November 15-18, 2019 at Central University of Haryana, Mahendergarh, Haryana, India. |
| 20. | Bharti (2018BS06D) | Poster | International Conference on "New paradigms for agriculture, food and sustainability concerns" from February 26-28, 2020 at Raichur, Karnataka, India. |
| 21. | Gourav Chopra (2018BS07D) | Poster | 61st International Conference on "Microbial World- Recent development in health, agriculture and environmental sciences" from February 3-5, 2021 at University of Delhi and Indian Agricultural Research Institute, New Delhi, India. |
| 22. | Sonam Antil (2018BS08D) | | |
| 23. | Gourav Chopra (2018BS07D) | Poster | International Conference on "Fundamental and applied sciences (ICFAS-2021)" from March 24-26, 2021 at Hazarimal Somani College of Arts and Science, Mumbai, Maharashtra, India. |

| | | | |
|---|---|---|---|
| 24. | Savita Rani (2017BS12D) | Poster | 8th International Virtual Congress on "Global research: progress, problems, promises" from August 5-10, 2021 at International Science Community Association at Indore, Madhya Pradesh, India. |
| 25. | Savita Rani (2017BS12D) | Oral | 3rd International Conference on "Global initiative in agricultural, forestry and applied sciences for food security, environmental safety and sustainable development" from October 17-18, 2021 at Shri Guru Ram Rai University, Patel Nagar, Dehradun, Uttarakhand, India. |
| 26. | Sonam Antil (2018BS08D) | Oral | International Conference on "Microbes in sustainable development" from November 15-18, 2021 organized by Indian Network of Soil Contamination Research, Online mode, India. |
| 27. | Gourav Chopra (2018BS07D) | Poster | National Symposium on "Strategic plant disease management for food security" from December 6-7, 2021 at ICAR- Central Potato Research Institute, Shimla, Himachal Pradesh, India. |
| 28. | Sonam Antil (2018BS08D) | Poster | International Conference on "Global perspectives in crop protection for food security" from December 8-10, 2021 at Tamil Nadu Agricultural University, Coimbatore, Tamil Nadu, India. |
| 29. | Sonam Antil (2018BS08D) | Poster | International Web Conference on "Global research initiative for sustainable agriculture and allied sciences", from December 13-15, 2021 at Swami Keshwanand Rajasthan Agricultural University, Bikaner, Rajasthan, India. |
| 30. | Satish Kumar (2017BS10D) | | |
| 31. | Umang (2020BS36D) | Poster | 3rd International Conference on "Global initiative in agricultural, forestry and applied sciences for food security, environmental safety and sustainable development", from October 17-18, 2021 at Shri Guru Ram Rai University, Patel Nagar, Dehradun, Uttarakhand, India. |
| 32. | Nikita (2020BS30D) | Poster | |
| 33. | Dolly Rani (2019BS28D) | Poster | |
| 34. | Ritika (2020BS31D) | Poster | |
| 35. | Shubham Kumar (2020BS34D) | Oral | |
| 36. | Shivi Choudhary (2019BS31D) | Oral | |
| 37. | Kashish Sharma (2019BS29D) | Oral | 3rd International Conference on "Global initiative in agricultural, forestry and applied sciences for food security, environmental safety and sustainable development (GIAFAS-2021)" from Oct. 17-18, 2021 at SGRR Institute of Medical and Health Sciences, Shri Guru Ram Rai University, Patel Nagar, Dehradun, Uttarakhand, India |
| 38. | Nandni (2019BS30D) | Oral | |
| 39. | Amit Kumar Sharma (2020BS22M) | Poster | National Symposium on "Strategic plant disease management for food security", from December 6-7, 2021 at Central Potato Research Institute, Shimla, Himachal Pradesh, India. |
| 40. | Amit Kumar Sharma (2020BS22M) | Poster | Ist International Conference on "Recent advances for managing sustainable soil health and crop production" from February 18-20, 2022 at Gramin Kisan Vikas (GKV) Society, Agra, Uttar Pradesh, India. |
| 41. | Sonam Antil (2018BS08D) | Poster | 4th International Conference on "Innovative and current advances in agriculture and allied sciences (ICAAAS- 2022)" from June 12-14, 2022 at Himachal Pradesh University, Summer Hill, Shimla, Himachal Pradesh, India. |
| 42. | Satish Kumar (2017BS10D) | | |
| 43. | Nandni (2019BS30D) | Poster | National Symposium on "Crop protection through bio-rational approaches- current trends and future prospective", on March 10, 2022 at CCS Haryana Agricultural University, Hisar, Haryana, India. |

| | | | |
|---|---|---|---|
| 44. | Nikita (2020BS30D) | - | Seminar on "Biosafety guidelines and regulations in laboratory" on Janurary 28, 2022 at Maharshi Dayanand University, Rohtak, Haryana, India. |
| 45. | Umang (2020BS36D) | Poster | National Symposium on "Crop protection through bio-rational approaches- current trends and future prospective", on March 10, 2022 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 46. | Shaik Tabasum (2020BS33D) | Poster | |
| 47. | Swati (2020BS35D) | - | North Zonal Seminar of Plant Physiology on "Inter- disciplinary research strategies for climate resilient agriculture", on June 25, 2022 at ICAR-Sugarcane breeding institute, Karnal, Haryana, India. |
| 48. | Pawan (2020BS24M) | Poster | 4th International Conference on "Innovative and current advances in agriculture and allied sciences (ICAAAS- 2022)" from June 12-14, 2022 at Himachal Pradesh University, Summer Hill, Shimla, Himachal Pradesh, India. |
| 49. | Gourav Chopra (2018BS07D) | Poster | National Symposium on "Crop protection through bio-rational approaches- current trends and future prospective", on March 10, 2022 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 50. | Bharti (2018BS06D) | Poster | 4th International Conference on "Innovative and current advances in agriculture and allied sciences (ICAAAS- 2022)" from June 12-14, 2022 at Himachal Pradesh University, Summer Hill, Shimla, Himachal Pradesh, India. |
| 51. | Sonia (2020BS27M) | | |
| 52. | Jyoti (2021BS26M) | | |
| 53. | Somu Nagajyothi (2021BS35M) | | |
| 54. | Babita (2020BS24D) | Poster | 63rd Annual conference on "Microbial Technologies for Sustainable Biosphere" from February 02-04, 2023 at Maharshi Dayanand University, Rohtak, Haryana, India. |
| 55. | Nishu (2021BS30M) | Poster | |
| 56. | Nikita Goyat (2020BS30D) | Poster | |
| 57. | Neel Kamal (2021BS24D) | Poster | |
| 58. | Nidhi Sharma (2020BS29D) | Poster | |
| 59. | Shubham Kumar (2020BS34D) | Poster | |
| 60. | Shivi Choudhary (2019BS31D) | Poster | |
| 61. | Karthika P. (2021BS22D) | Poster | |
| 62. | Nandni (2019BS30D) | Poster | |
| 63. | Priyanka (2021BS27D) | Poster | |
| 64. | Kamna Redhu (2021BS28M) | Poster | |
| 65. | Priya (2021BS31M) | Poster | |
| 66. | Indu Rani (2020BS27D) | Poster | |
| 67. | Annu Rani (2019BS26D) | Poster | |

| | | | |
|---|---|---|---|
| 68. | Mansi (2022BS23D) | Poster | International Conference on "Climate Resilient Agriculture for Food Security and Sustainability" from February 17-19, 2023 at Chaudhary Charan Singh Haryana Agricultural University, Hisar, Haryana, India. |
| 69. | Nidhi Sharma (2020BS29D) | Oral | |
| 70. | Dandu Hari Karthik (2020BS26D) | Poster | |
| 71. | Nandni (2019BS30D) | Oral | |
| 72. | Suman Jaya Kumar Kankanwadi (2022BS45D) | Poster | |

*Annexure MICRO-IV*

## STUDENT PARTICIPATION IN TRAININGS

| Sr. No. | Name of student and admn no. | Duration | Title |
|---|---|---|---|
| **1.** | Ruchi Sharma (2015BS10D) | 01-06-2018 to 02-06-2018 | "National start-up summit" held at CCS Haryana Agricultural University, Hisar, Haryana, India |
| **2.** | Ruchi Sharma (2015BS10D) | 17-07-2018 to 21-07-2018 | One Week Training on "Recent trends in bioinformatics and its applications in crop improvement" conducted by department of molecular biology, biotechnology and bioinformatics at College of Basic Sciences and Humanities, CCS Haryana Agricultural University, Hisar, Haryana, India |
| **3.** | Savita Rani (2017BS12D) | 16-10-2018 to 17-10-2018 | Workshop on "Career opportunities for students: fellowships/ awards/ scholarships" at CCS Haryana Agricultural University, Hisar, Haryana, India |
| **4.** | Sheetal Yadav (2017BS13M) | 16-10-2018 to 17-10-2018 | |
| **5.** | Ruchi Sharma (2015BS10D) | 12-11-2018 to 21- 11-2018 | Global initiative of academic network (GIAN) Workshop on "Application of thermodynamic prediction for development of microbial biotechnological approaches" sponsored by MHRD, Government of India at Guru Jambheshwar University of Science & Technology, Hisar, Haryana, India |
| **6.** | Umang (2018BS19M) | 13 -11-2019 | Workshop on "Eminent alumni-student interaction on employability and career enhancement" at CCS Haryana Agricultural University, Hisar, Haryana, India |
| **7.** | Aastha (2016BS05D) | 18-11-2019 to 21-11-2019 | Workshop on "Advanced structural bioinformatics" at ICGEB, New Delhi, India |
| **8.** | Savita Rani (2017BS12D) | 22-01-2020 | Workshop on "Recent computational techniques of mathematical sciences for researchers" at CCS Haryana Agricultural University, Hisar, Haryana, India |
| **9.** | Savita Rani (2017BS12D) | 24-02-2020 to 04-03-2020 | Training on "Statistical data analysis for research scholar" at CCS Haryana Agricultural University, Hisar, Haryana, India |
| **10.** | Gourav Chopra (2018BS07D) | 22-03-2022 to 28 -03-2022 | One Week Training on "Mushroom Production Technology" at CCS Haryana Agricultural University, Hisar, Haryana, India |
| **11.** | Nandni (2019BS30D) | 23-05-2022 to 26-05-2022 | Online Training Program on "Microbial bioinoculants in organic agriculture: practices and prospects" organized by National Institute of Agricultural Extension Management and ICAR- National Bureau |
| **12.** | Shaik Tabasum (2020BS33D) | 23-05-2022 to 26-05-2022 | |

| | | | |
|---|---|---|---|
| **13.** | Nikita (2020BS30D) | 23-05-2022 to 26-05-2022 | of Agriculturally Important Microorganisms, Kushmaur, Mau, Uttar Pradesh, India |
| **14.** | Kashish Sharma (2019BS29D) | 23-05-2022 to 26-05-2022 | |
| **15.** | Shivi Choudhary (2019BS31D) | 23-05-2022 to 26-05-2022 | |

***Annexure MICRO-V***

## PLACEMENTS RECORD

| Sr. no. | Name of student(s) | Placements (duration 2018-2023) |
|---|---|---|
| **1.** | Dr. Monika Kayasth | Assistant Microbiologist, CCS Haryana Agricultural University, Hisar, Haryana, India |
| **2.** | Dr. Shikha Mehta | Assistant Scientist, CCS Haryana Agricultural University, Hisar, Haryana, India |
| **3.** | Dr. Priyanka Parmar | Assistant Professor, Microbiology in PDM University, Bahadurgarh |
| **4.** | Dr. Umang | BFIT Group of Institutions, Sudhowala Dehradun |
| **5.** | Dr. Rekha | Assistant Professor, Microbiology, Chaudhary Bansi Lal University Bhiwani |
| **6.** | Dr. Amrita Narula | Associate Professor in Department of Microbiology, Om Sterling Global University, Hisar |
| **7.** | Dr. Aastha | Assistant Professor in Department of Microbiology, Faculty of Life Sciences, PDM University, Bahadurgarh |
| **8.** | Dr. Harpreet Kaur | Assistant Professor in Department of Microbiology, Om Sterling Global University, Hisar |
| **9.** | Dr. Dhinu Yadav | Assistant Professor in Department of Microbiology in the School of Sciences at Geeta University, Panipat |
| **10.** | Dr. Aathira S Kumar | Agricultural Officer in Kerala Government |

**Annexure MICRO-VI**

## SCHOLARSHIP AND FINANCIAL SUPPORT

| Sr. no. | Name and Admission no. | Name of scholarship support | Sr. no. | Name and Admission no. | Name of scholarship support |
|---|---|---|---|---|---|
| **1.** | Sonam Antil 2016BS06M | | 20. | Rekha 2013BS19D | CCS HAU, Merit Fellowship |
| **2.** | Dilbag 2017BS14M | | 21. | Swati 2014BS13D | |
| **3.** | Diksha 2017BS16M | | 22. | Kuldeep 2014BS14D | |
| **4.** | Barkha 2018BS15M | | 23. | Anupma Dahiya 2014BS16D | Rajiv Gandhi National Fellowship |

| | | | | | |
|---|---|---|---|---|---|
| **5.** | Divya Kapoor 2018BS16M | CCS HAU, Merit Fellowship | 24. | Suman Chaudhary 2014BS17D | INSPIRE Fellowship |
| **6.** | Nidhi Sharma 2018BS17M | | 25. | Rinku Dhankar 2014BS18D | CCS HAU, Merit Fellowship |
| **7.** | Sunita Rani 2018BS18M | | 26. | Kavita Rani 2015BS07D | |
| **8.** | Umang 2018BS19M | | 27. | Jeniffer Christina Masih 2015BS08D | |
| **9.** | Bharat Chopra 2019BS22M | | 28. | Dhinu Yadav 2015BS09D | |
| **10.** | Mukesh Kumar 2019BS23M | | 29. | Ruchi Sharma 2015BS10D | |
| **11.** | Neel Kamal 2019BS24M | | 30. | Aathira S. Kumar 2016BS03D | ICAR |
| **12.** | Rahul Choudhary 2019BS25M | | 31. | Harpreet Kaur 2016BS04D | CCS HAU, Merit Fellowship |
| **13.** | Yogita 2019BS27M | | 32. | Aastha 2016BS05D | |
| **14.** | Amit Kumar 2020BS22M | | 33. | Pankaj Sharma 2017BS09D | |
| **15.** | Pallaganti Sowmya 2020BS23M | ICAR | 34. | Satish Kumar 2017BS10D | CCS HAU, Merit Fellowship |
| **16.** | Pawan 2020BS24M | CCS HAU, Merit Fellowship | 35. | Savita Rani 2017BS12D | |
| **17.** | Sunaina Kumari 2020BS28M | | 36. | Bharti 2018BS06D | |
| **18.** | Vijay Kumar 2020BS29M | | 37. | Gourav Chopra 2018BS07D | CSIR Fellowship |
| **19.** | Subha 2013BS13D | DST INSPIRE | 38. | Sonam Antil 2018BS08D | CCS HAU, Merit Fellowship |

## STUDENTS PARTICIPATION IN SEMINAR/ CONFERENCES/WORKSHOPS *ETC*

| Sr. no. | Name of student and admn no. | Oral/ Poster | Seminar/ Conference/Workshop details |
|---|---|---|---|
| **Ph.D.** | | | |
| 1. | Prexha 2018BS11D | Poster | National Workshop on "Biodiversity issues: challenges and opportunities", from 16-17 July, 2019, at Department of Zoology, Chaudhary Charan Singh Haryana Agricultural University, Hisar, Haryana, India. |
| 2. | Prexha 2018BS11D | Poster | International Workshop on "Use of advanced biotechnological techniques for crop improvement", from 24 June- 03 July, 2019 at Department of MBB&B, Chaudhary Charan Singh Haryana Agricultural University, Hisar, Haryana, India. |
| 3. | Prexha 2018BS11D | Poster | National Workshop on "Clinical and translational research on bacteriophages as promising antimicrobial alternatives for therapeutics, prophylaxis and food safety", from 29-31 July, 2019 at National centre for veterinary type cultures, Hisar, Haryana, India. |
| 4. | Yogita 2019BS40D | - | National Workshop on "Plant Proteomics", from 23-27 December 2019 at the Department of Botany, University of Delhi, New Delhi, India. |
| 5. | Divya Tikaniya 2019BS34D | Poster | Symposium on "Cereals for food security and climate resilience", from 18-20 January, 2022 at SAWBAR, Karnal, Haryana, India. |
| 6. | Prexha 2018BS11D | Poster | |
| 7. | Bharat Garg 2021BS34D | Oral | 2nd International Conference on "Recent advances in biotechnology and nanobiotechnology", from 10-11 February, 2022 at Amity University, Gwalior, Madhya Pradesh, India. |
| 8. | Deepak Kumar 2019BS30M | Poster | International Conference on "Physiological and molecular mechanisms of abiotic stress tolerance in plants"' from 26-28, 2022 at Department of Botany, University of Calicut, Kerala, India. |
| 9. | Reena Sharma 2020BS32M | Poster | National Seminar on "Recent advances and innovations in biological and applied sciences (RAIBAS 2022)", from June 14-16, 2022 at ICAR-Central Soil Salinity Research Institute, Karnal, Haryana, India. |
| 10. | Sheetal Mehla 2018BS13D | Oral | National Conference on "Agriculture, applied and life sciences: current research", from 18-19 November, 2022 at Uttarakhand Open University, Haldwani, Nainital, Uttarakhand, India. |
| 11. | Bharat Garg 2021BS34D | Poster | International Conference on "Global research initiatives for sustainable agriculture and allied sciences", from 20-23 November, 2022 at Birsa agricultural university, Ranchi, Jharkhand, India. |
| 12. | Prexha 2018BS11D | Poster | The Importance of β-Glucan in Wheat: A Crucial Dietary Fiber for Human Health" International web Conference on "Cereals for Food Security and Climate Resilience", January 18-20, 2022, SAWBAR and ICAR-IIWBR, Karnal. |
| 13. | Annu Luhach 2019BS33D | Poster | Morpho-physiological and biochemical traits in *Brassica juncea* (L.) Czern&Coss in response to salt stress. International Conference on "Climate Resilient Agriculture for Food Security and Sustainability". 17-19 Feb 2023, CCS Haryana Agricultural University, Hisar. |
| | | | Response of Indian mustard genotypes under different salt |

| | | | |
|---|---|---|---|
| | | | concentrations at Flowering stage. International conference on Biotechnology and Human Welfare: Vision 2030 and Beyond (ICBHW-2023), March 3-4 2023, CDLU, Sirsa. |
| 14. | Asha Rani 2020BS37D | Poster | Effects of drought stress on morpho-physiological and biochemical traits of different varieties of *Brassica juncea* (L.). International Conference on "Climate Resilient Agriculture for Food Security and Sustainability". 17-19 Feb 2023, CCS Haryana Agricultural University, Hisar. pp 641 |
| 15. | Kesineni Manorama | Poster | Physiological ability of rice genotypes in response to salt stress. International Conference on Biotechnology and Human welfare: vision 2030 and Beyond (ICBHW- 2023), March 3-4, CDLU, sirsa |
| 16. | Prexha 2018BS11D | Poster | Evaluation of grain β-glucan in a panel of Triticum and Aegilops genotypes and expression analysis of cellulose synthase-like genes in wheat' has been awarded BestPoster Presentation at the International Conference on Food and Nutritional Security (IFANS-2023) January 6-9, 2023, NABI, Mohali. |

## STUDENT PARTICIPATION IN TRAININGS

| Sr. No. | Name of student and admn no. | Duration | Title |
|---|---|---|---|
| 1. | Prexha 2018BS11D | 24.08.2018 | Training on "Elsevier empowering agriculture research in India in association with CeRA", at CCS Haryana Agricultural University, Hisar,Haryana, India. |
| 2. | Prexha 2018BS11D | 10.01.2019 to 11.01.2019 | Training on "Basic and advanced analytical instrumentation in plant physiology", at CCS Haryana Agricultural University, Hisar,Haryana, India. |
| 3. | Prexha 2018BS11D | 1.11.2019 to 11.11.2019 | Training on "High dimensional genome data analysis by R and open-source tools", at ICAR-IASRI, New Delhi, India. |
| 4. | Sourav Panigrahi 2020BS43D | 23.05.2022 to 06.06.2022 | International Workshop cum Hands on Training on 'Genome editing approaches for crop improvements' at Department of Molecular Biology &Biotechnology, CCSHaryana Agricultural University, Hisar,Haryana, India. |
| 5. | Yogita 2019BS40D | 23.05.2022 to 06.06.2022 | |
| 6. | Mohan. S 2021BS35D | 23.05.2022 to 06.06.2022 | |
| 7. | Prexha 2018BS11D | 23.05.2022 to 06.06.2022 | |

*Annexure MBBB-V*

## PLACEMENTS RECORD

| Sr. no. | Name of Student(s) | Placements (duration 2018-2023) |
|---|---|---|
| 1 | Dr. Sonali Sangwan | Assistant Professor, MMU, Mullana |
| 2 | Dr. Vivekanand | Assistant Professor, College of AgrilBiotechnology,VNMKV, Parbhani |
| 3 | Dr. Medhavi | SRF, NRC, Hisar |
| 4 | Dr. Dinesh | |
| 5 | Dr. Kanika | SRF,Equine Centre, Hisar |
| 6 | Dr. Nisha | |
| 7 | Dr. Vijeta | SRF, ICAR-Indian Institute of Wheat and Barley Research, Karnal |
| 8 | Dr. Sheetal Mehla | |

*Annexure MBBB-VI*

## NAME OF STUDENTS GOT FELLOWSHIPS

| Sr. no. | Name | CSIR-NET JRF | Sr. no. | Name | CSIR-NET JRF |
|---|---|---|---|---|---|
| 1. | Rinku Chaudhary 2017BS21D | HSCST | 9. | Reena Rani 2020BS41D | CSIR-NET JRF |
| 2. | Prexha 2018BS11D | HSCST | **10.** | Sourav Panigrahi 2020BS43D | DBT-JRF |
| 3. | Sheetal Mehla 2018BS13D | CSIR-NET SRF | **11.** | Anita 2021BS31D | DBT-JRF |
| 4. | Rita 2019BS17D | CSIR-NET SRF | **12.** | Asha Rani 2020 BS37D | HSCSIT JRF |
| 5. | DivyaTikania 2019BS34D | CSIR-NET SRF | 13. | Bharat Garg 2021BS34D | DBT JRF |
| 6. | Yogita 2019BS40D | ICAR-SRF | 14. | Mohit 2021BS36D | CSIR-NET JRF |
| 7. | Kesineni Manorama 2019BS35D | HSCST | 15. | Shilpi 2021BS37D | CSIR-NET JRF |
| 8. | Raja Kumar 2020BS31M | CSIR-NET JRF | 16. | K.Michael james- | ICAR NTS |

## LIST OF STUDENTS ON ROLL PRESENTLY

| Sr. No. | Name | Guide | Title of research problem |
|---|---|---|---|
| **Ph. D.** | | | |
| 1 | Priyanka 2019BS41D | Dr. Paul Singh | Synthesis and evaluation of 2D nanomaterials for real field gas sensing applications |
| 2 | Raman Devi 2019BS42D | Dr. Vinay Kumar | Sustainable energy storage in supercapacitors using agro-waste materials |
| 3 | Suman Rani 2019BS43D | Dr. Rita Dahiya | Synthesis and characterization of chitosan based zeolite-NPK and micronutrient nanocomposite as smart fertilizer |
| 4 | Smriti Sihag 2020BS44D | Dr. Rita Dahiya | Synthesis and evaluation of metal oxide based nanocomposites for gas sensing applications |
| 5 | Sunil Kumar 2020BS45D | Dr. Vinay Kumar | Synthesis and characterization of metal sulphides @ graphene derivatives nanocomposites for hybrid supercapacitor applications |
| 6 | Mamta 2021BS38D | Dr. Vinay Kumar | Fabrication of smart electrodes from polyaniline/vandium oxide/CNTs forhigh-performance supercapacitors. |
| 7 | Poonam Rani 2021BS39D | Dr. Rita Dahiya | Synthesis of binary metal organic frameworks (MOF)/rGO composite based material for energy storage application |
| 8 | Annu Sheokand 2022BS28D | Dr. Vinay Kumar | Yet to finalize |
| 9 | Sarita 2022BS29D | Dr. Rita Dhaiya | Yet to finalize |
| 10 | Vikram 2022BS30D | Dr. Vinay Kumar | Yet to finalize |
| **M. Sc.** | | | |
| **1** | Janvi 2021BS41M | Dr. Vinay Kumar | To study morphological and optical properties of doped zinc sulfide |
| **2** | Jinesh 2021BS42M | Dr. Rita Dhaiya | Preparation and characterization of activated carbon from agro biomass |
| **3** | Pooja 2021BS43M | Dr. Paul Singh | Fabrication of thin film of Bismuth Telluride and study of its electrical properties |
| **4** | Anchal | Dr. Rita Dhaiya | Investigation of physico-chemical properties of biochar |

| | | | |
|---|---|---|---|
| | 2022BS27M | | synthesized from agri-wastes |
| **5** | Sonia 2022BS28M | Dr. Vinay Kumar | Study on dielectric properties of non-dairy milk for improving heat uniformity |

## STUDENTS PARTICIPATION IN SEMINAR/CONFERENCE/WORKSHOPS ETC.

| Sr. no. | Name of student and admn no. | Oral/ Poster | Seminar/ Conference/Workshop details |
|---|---|---|---|
| **M.Sc./ Ph.D.** | | | |
| 1 | Annu Sheokand 2015BS15M | Poster | International Conference on "New millennia agriculture novel trends and future scenario", from 6 -8 November, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 2 | Raman Devi 2019BS42D | | |
| 3. | Suman Rani 2019BS43D | | |
| 4 | Sunil Kumar 2020BS45D | Oral | International Conference on "Molybdenum Disulfide: A novel material for supercapacitor application", from 19-21 November, 2021 at Pandit Deendayal Energy University, Gandhinagar, Gujarat, India. |
| 5 | Smriti 2020BS44D | Oral | International Conference on "Investigation of structural and optical characteristics of CuO nanoparticles calcinated at various temperatures", from 20-21 December, 2021 at Indira Gandhi Delhi Technical University For Women, Delhi, India. |
| 6. | Sunil Kumar 2020BS45D | Oral | International Conference on "Development of Molybdenum Disulfide Supercapacitor Electrode in different Electrolytes for Electrochemical Analysis", from 10-11 May, 2021 at Indira Gandhi Delhi Technical University for Women, Delhi, India. |
| 7. | Raman Devi 2019BS42D | Oral | International Conference on "Synthesis of activated carbon by bio-waste materials and its application in super capacitor electrode", from 14-16 March, 2022 at Department of Physics, ARSD College, University of Delhi, India. |
| 8. | Priyanka 2019BS41D | Oral | International Conference on "Structural and morphological properties of $WS_2$ synthesized via hydrothermal method", from 18-19 May, 2022 at Dr B R Ambedkar NIT Jalandhar, Punjab, India. |
| 9. | Suman Rani 2019BS43D | | |
| 10. | Mamta 2021BS38D | Poster | 32nd Annual conference of Rajasthan Ganita Parishad on "Recent Advancement in Mathematical and Allied Science (RAMAS-2023)" from 25-26 March, 2023 at Department of Applied Sciences and Humanities, B K Birla Institute of Engineering & Technology, Pilani. |

***Annexure PHY-IV***

| **Students Participation in Trainings** | | | |
|---|---|---|---|
| **Sr. no.** | **Name of student and admn no.** | **Duration** | **Title** |
| **1.** | Raman Devi | 06.05.2022 | Training program on "Synergistic training program |

| | | | |
|---|---|---|---|
| | 2019BS42D | to 12.05.2022 | utilizing the scientific and technological infrastructure", at the Department of Physics, Aligarh Muslim University, Aligarh, Uttar Pradesh, India. |
| **2.** | Sunil Kumar 2020BS45D | | |
| **3.** | Mamta 2021BS38D | | |

***Annexure PHY-V***

## PLACEMENT RECORD

| Sr. no. | Name of student | Placements |
|---|---|---|
| **1** | Vanshika Gautam | Clerk in Haryana Government since 2020 |
| **2** | Sanju Rani | Clerk in Haryana Government since 2020 |

***Annexure PHY-VI***

## SCHOLARSHIP AND FINANCIAL SUPPORT

| Sr. no. | Name | Name of scholarship support | Sr. no. | | Name of scholarship support |
|---|---|---|---|---|---|

## LIST OF STUDENTS ON ROLL PRESENTLY

| **Sr. no.** | **Name& Admission no.** | **Guide** | **Title of research problem** |
|---|---|---|---|
| **Ph.D.** | | | |
| 1. | Alka 2018BS23D | Dr. Ravikant | Isolation and characterization of bacteriophages against aeromonads from fish culture ponds |
| 2. | Deepak Verma 2018BS24D | Dr. Rachna Gulati | Molecular characterization, population dynamics and ELISA based detection method of stored mite in equine feed |
| 3. | Kiran 2018BS25D | Dr. Dharambir Singh | Avian diversity and damage potential in selected horticultural crops in and around Hisar |
| 4. | Priya 2018BS26D | Dr. Dharambir Singh | Seasonal variations in avifaunal diversity at selected agro ecosystem and wetlands of Haryana |
| 5. | Renu 2018BS28D | Dr. R. K. Gupta | Analysis of vermiwash potential as a biofertilizer and heavy metal genotoxicity in earthworm, *Eisenia fetida* |
| 6. | Sushma 2018BS29D | Dr. Rachna Gulati | Immunological based detection methods of stored mites and their damage potential in equine feed |
| 7. | Amit Kour 2019BS61D | Dr. Dharambir Singh | Avian diversity and agrochemical toxicity in paddy grown agroecosystem of Haryana |
| 8. | Anu Bala 2019BS62D | Dr. Ravikant | Exploring bacteriophage derived endolysins for targeted delivery into biofilm forming *Listeria monocytogenes*, *Salmonella enterica* and *Escherichia coli* |
| 9. | Karuna Bamel 2019BS63D | Dr. Rachna Gulati, | Characterization of bacterial pathogens of *Litopenaeusvannamei*(Boone) and their management through herbal extracts |
| 10. | Khushbu 2019BS64D | Dr. Rachna Gulati | Effect of parasites and mineral on growth performance of *Litopenaeusvannamei* (Boone) |

| | | | |
|---|---|---|---|
| 11. | Poonam 2019BS65D | Dr. Tejpal Dahiya | Effect of probiotics on growth performance of *Cyprinus carpio* L. culture under biofloc technology |
| 12. | Priyanka 2019BS66D | Dr. Ravikant | Effect of metal and metal oxide basednanoparticles on the morphological, cytological and genetical variations in *Drosophila melanogaster* |
| 13. | Rekha 2019BS67D | Dr. R.K. Gupta | Effect of different organic waste, plants on production of common carp, *Cyprinus carpio* (L 1758) and its post harvest impact with bio fuel production |
| 14. | Anshu Kumari 2020BS59D | Dr. Ravikant | Effect of nanoparticles on the morphological, cytological and genetical variations in *Apis mellifera L.* |
| 15. | Monika 2020BS60D | Dr. Tejpal Dahiya | Effect of different stocking densities on growth performance, survivability and stress response in *Anabas testudineus* under biofloc technology |
| 16. | Pankaj Sharma 2020BS61D | Dr. Rachna Gulati | Effect of microplastics on growth and health parameters of predominant fish fauna of Yamuna river |
| 17. | Yugum Dhingra 2020BS63D | Dr. Shikha Ahalavat | Study on cadmium induced toxicity and ameliorative efficacy of *Moringa olifera* on predominant fish fauna of Yamuna river |
| 18. | Brijesh Chahar 2021BS54D | Dr. Tejpal Dahiya | Study on the predatory effects of *Notonecta* spp. and its control in Indian Major Carps |
| 19. | Nikita Poonia 2021BS55D | Dr. Dharambir Singh | Effect of various plant extracts diets on growth performance and immune responses in striped cat fish *Pangas ionodonhypopthlamus* |
| 20. | Abhimanyu 2022BS36D | Dr. Tejpal Dahiya | Effect of probiotics and molasses on growth performance of *Litopenaeusvannamei* (Boone,1931) |
| 21. | Amit 2022BS37D | Dr. R.K. Gupta | Effect of Chia seed powder (*Salviahispanica*) on growth, histology and hematologicalparmeters of common carp (*Cyprinus carpio*) |
| 22. | Amit Kumar 2022BS38D | Dr. Rachna Gulati | Effect of integrated ornamental-carp fish culture on their growth and survival under pond system |
| 23. | LakshayJangra 2022BS39D | Dr. Ravikant | Assessment of avifaunal diversity and effect of air and water quality on their ecological community in Ramsar sites of Haryana |
| 24. | Nikki 2022BS40D | Dr. Shikha Ahalwat | Effect of vermi-moringa supplemented diets on growth performance, hematological and histological parameters of*Pangasius pangasius* (Hamilton, 1822) |
| 25. | Pooja 2022BS41D | Dr. Dharambir Singh | Effect of Platinum nanoparticles based diet on growth performance and immune response of *Cyprinus rohita* Hamilton (1822) |
| 26. | Rishu 2022BS42D | Dr. R.K. Gupta | Characterization of silver nano particles and their effects on growth, heamatology and histology of *Cyprinus carpio* |
| 27. | Sunidhi 2022BS43D | Dr. R.K. Gupta | Bioaccumulation of silver nano particles and their effect on growth performance and histology of *Eiseniafetida* |
| **M. SC.** | | | |
| 1. | Jyoti 2021BS54M | Dr. Tejpal Dahiya | Effect of Vitamin C on growth performance and haematological parameters of *Catlacatla* (Hamilton, 1822) |

| | | | |
|---|---|---|---|
| 2. | Ruchi Sharma 2021BS55M | Dr. Shikha Ahalavat | Study the nematode community structure in different vegetable cropping systems |
| **STUDENTS PARTICIPATION IN SEMINAR/CONFERENCE/WORKSHOP ETC.** | | | |
| 3. | Sunita 2021BS56M | Dr. Dharambir Singh | Effect of turmeric (Curcuma longa) supplemented 'clusterbean cake (Cyamopsis tetragonoloba) on growth performance and haematological parameters of Cyprinus carpio |
| 4. | Varsha 2021BS57M | Dr. Ravikant | Evaluation of the repellent properties of indigenous essential oils against the rodent species |
| 5. | Anu Malik 2022BS39M | Dr. Dharambir Singh | Study on the use of synthetic hormones and herb supplemented feed on growth, immunity and breeding of ornamental fishes |
| 6. | Arvind 2022BS40M | Dr. Tejpal Dahiya | Effect of *Tinospora cordifolia* (Willed) Miers on growth and hematological parameters of *Cyprinus carpio* L. |
| 7. | Manisha 2022BS41M | Dr. Tejpal Dahiya | Effect of *Ocimum sanctum* L. on growth performance and haematological parameters |
| 8. | Naveen Kumar 2022BS42M | Dr. Ravikant | Study if rodent diversity and its management through herbal extracts in district Hisar, Haryana |
| 9. | Priyanka Joshi 2022BS43M | Dr. Gajender Singh | Optimization of culture conditions and effect of bacteria on growth of *Cyprinus carpio* |
| 10. | Rahul Kajal 2022BS44M | Dr. Shikha Ahalavat | Effect of *Cymbopogon citratus* leaf powder on growth performance and haematological parameters of *Catlacatla* |

***Annexure ZOO-III***

| **Sr. no.** | **Name of student and admn no.** | **Oral/ Poster** | **Seminar/Conference/Workshop details** |
|---|---|---|---|
| M.SC./PH.D. STUDENTS | | | |
| 1. | Deepak 2017BS41M | Poster | National Seminar on "Advances in zoology for sustainable development", from Feburary 15-17, 2018 at Kurukshetra University, Kurukshetra, Haryana, India. |
| 2. | Viram Delu 2017BS18D | Poster | |
| 3. | Sukhbir Singh 2017BS36M | Poster | |
| 4. | Anju 2015BS28M | Poster | International Conference on "Sustainable agriculture, energy, environment and technology", from February 24-25, 2018 at Maharshi Dayanand University, Rohtak, Haryana, India. |
| 5. | Ajay 2016BS18M | Poster | |
| 6. | Renu 2018BS28D | Poster | |
| 7. | Deepak 2017BS41M | Poster | National Seminar on "Environmental Changes and its Impact on Faunal Diversity in Indian Agro-ecosystems", from November 19-20, 2018 at Punjab Agricultural University, Ludhiana, Punjab, India. |
| 8. | Sukhbir Singh 2017BS36M | Poster | International Conference on"Microbes for biotechnology innovations", on December 07, 2018 at Maharshi Dayanand University, Rohtak, Haryana, India. |
| 9. | Renu 2018BS28D | Poster | International Conference on "Microbes for biotechnology innovations", on December 18, 2018 at Department of microbiology and Association of microbiologists of india, Rohtak, Haryana, India. |

| | | | |
|---|---|---|---|
| 10. | Sukhbir Singh 2017BS36M | Poster | National Conference on "Biodiversity and environmental sustainability in modern era", on 16th February, 2019 at Chhaju Ram Memorial Jat College Hisar, Haryana, India. |
| 11. | Deepak 2017BS41M | Poster | International Conference on "Climate change towards health and agricultural sustainability", from February, 18-20, 2019 at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| 12. | Sukhbir Singh 2017BS36M | Poster | |
| 13. | Anju 2017BS16D | Poster | National Seminar on "Frontier in life sciences – an interdisciplinary perspective", on March 15, 2019 at Maharshi Dayanand University, Rohtak, Haryana, India. |
| 14. | Alka Nokhwal 2018BS23D | Oral | International Conference on "Changing environment: understanding the emerging challenges and their management strategies", from April 10-12, 2019 at Kalindi College, University of Delhi, Delhi, India. |
| 15. | Arjun Ram 2018BS43M | Poster | National Seminar on "Biodiversity issues, challenges and opportunities", from July 16-17, 2019 at College of Basic Sciences and Humanities, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 16. | Alka 2018BS23D | Poster | |
| 17. | Deepak Verma 2018BS24D | Poster | |
| 18. | Alka Nokhwal 2018BS23D | Oral | International Conference on "Bacteriophage research and antimicrobial resistance", from December 12-13, 2019 at Vellore Institute of Technology, Vellore, Tamil Nadu, India. |
| 19. | Deepak Verma 2018BS24D | Poster | National Conference on "Post COVID opportunities and challenges in zoological sciences", from June 29-30, 2020 at Kurukshetra university, Kurukshetra, Haryana, India. |
| 20. | Deepak Verma 2018BS24D | Webinar | National Webinar on "Awareness and use of CeRA resources through J-Gate discovery platform", from June 25, 2020 at Nehru Library, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 21. | Anu Bala 2019BS62D | Oral | International Webinar on "Alternative therapies to mitigate microbial resistance", from February 23-24, 2021 at ICAR-Indian Veterinary Research Institute, Izatnagar, Uttar Pradesh, India. |
| 22. | Anju 2017BS16D | Poster | International Conference on "New Paradigms for Agriculture, Food and Sustainability Concerns", from 26-28 February, 2021 Raichur, Karnataka, India. |
| 23. | Deepak Verma 2018BS24D | Poster | National Webinar on 'Combating illegal bird trade' from June 3, 2021, at department of zoology, Dev Samaj college for women, Ferozpur, Punjab, India. |
| 24. | Renu 2018BS28D | Oral | International Conference on "Recent innovations in biological research", from March 17-18, 2022 at Krishnammal College for Women, Coimbatore, Tamilnadu, India. |
| 25. | Alka 2018BS23D | Poster | National Conference on "Current trends in immuno diagnostics and vaccinology for health of livestock and poultry", from May 27-28, 2022 at Lala Lajpat Rai University of Veterinary and Animal Sciences, Hisar, India. |

*Annexure ZOO- IV*

## STUDENT PARTICIPATION IN TRAININGS

| S.no. | Name of student and admn no. | Duration | Title |
|---|---|---|---|
| 1. | Alka 2018BS23D | 29.07.2019 to 31.07.2019 | National Workshop on "Clinical and translational research on bacteriophages as promising antimicrobial alternatives for therapeutics, prophylaxis and food safety", at ICAR-National Research Centre on Equines, Hisar, Haryana, India. |
| 2. | Alka 2018BS23D | 19.08.2019 to 22.08.2019 | Training on "Basics of remote sensing geographical information system and global navigation satellite system", at Haryana Space Application Centre, Hisar, Haryana, India. |
| 3. | Alka 2018BS23D | 22.01.2020 | Workshop on "Recent computational techniques of mathematical sciences for researchers", at CCS Haryana Agricultural University, Hisar, Haraya, India. |
| 4. | Deepak Verma 2018BS24D | 22.01.2020 | |
| 5. | Alka 2018BS23D | 04.02.2020 to 05.02.2020 | Workshop on "Fundamental techniques for antibody production", at Lala Lajpat Rai University of Veterinary and Animal Sciences, Hisar, Haryana, India. |
| 6. | Deepak Verma 2018BS24D | 04.02.2020 to 05.02.2020 | |
| 7. | Anju 2017BS16D | 02.03.2020 to 07.03.2020 | Training on "Phage display technology application", at Lala Lajpat Rai University of Veterinary and Animal Sciences, Hisar, Haryana, India. |
| 8. | Alka 2018BS23D | 02.03.2020 to 07.03.2020 | |
| 9. | Anju 2017BS16D | 01.02.2021 to 31.03.2021 | Training on "Techniques in molecular biology and cell culture", at Lala Lajpat Rai University of Veterinary and Animal Sciences, Hisar, Haryana, India. |
| 10. | Deepak Vats 2017BS40M | 06.03.2022 to 26.03.2022 | Training on "Advanced techniques in molecular biology and bioinformatics", Lala Lajpat Rai University of Veterinary and Animal Sciences, Hisar, Haryana, India. |
| 11. | Alka 2018BS23D | 10.11.2022 to 30.11.2022 | Training on "Principles and application of cell culture and molecular biology techniques", at Lala Lajpat Rai University of Veterinary and Animal Sciences, Hisar, Haryana, India. |

## PLACEMENTS RECORD

| Sr. no. | Name of student(s) | Placements (duration 2018-2023) |
|---|---|---|
| 1 | Jyoti Yadav | PDF, Abroad |
| 2 | Monika | Assistant Professor, CBLU |
| 3 | Arvind | Assistant Professor, CDLU |
| 4 | Sonika | Assistant Professor, OSU |
| 5 | Shefali Gulia | Assistant Professor, in Pvt College Delhi |
| 6 | Urmila | Assistant Professor, DNPG College Hisar |

| | | |
|---|---|---|
| 7 | Poonam Devi | Assistant Professor, DNPG College Hisar |
| 8 | Vikram Delu | Research Associate I, Haryana State, biodiversity board, Haryana |
| 9 | Anju | Assistant Professor, DNPG College Hisar |
| 10 | Ajay | Coaching Expert, KOTA Classes |
| 11 | Rahul Kumar | Assistant Professor, DNPG College Hisar |
| 12 | Sukhbir Singh | Coaching Expert, AAKASH |
| 13 | Gourav Dalal | Department of Food & Supply, GOI |
| 14 | Priyanka | Assistant Professor in DHE, UP |
| 15 | Alka | SRF, NRCE, Equines |
| 16 | Priya | SRF, NRCE, Equines |
| 17 | Jyoti Soni | Masters in University of Portsmouth, UK |
| 18 | Renu | Assistant Professor, Punjab |

## STUDENTS PUBLICATIONS

| Sr. no. | Title of the paper/book | NAAS rating |
|---|---|---|
| | **M.SC.** | |
| | **2021-2022** | |
| 1. | Neetu., Ravikant., Anju and Dahiya, T. (2020). Population dynamics and structure of rodents in arid ecosystem of district Hisar (Haryana) India. *Journal of Entomology and Zoological studies*, **9(1)**:334-337. | 5.53 |
| 2. | Anju., Ravikant., Urmila and Sonika (2021). Spider: Biology of webs and silk formation. *Agriculture Letters*, **02**: 35-39. | -- |
| 3. | Yadav, J., Singh, D. and Shefali (2020). Effect of chlorpyrifos and carbofuran on morphology, behavior and acetylcholinesterase activity of earthworm (*Eisenia fetida*). *Indian Journal of Agricultural Sciences*, **90(10)**: 1871-1876. | 6.21 |
| 4. | Anshu., Singh, D., Gill, P., Mahima., Shweta and Sakshi (2020). Impact of Gyphosate and pendimethalin herbicides on qualitative and quantitative parameters of coelomocytes in earthworm, *Eisenia fetida. Journal of Entomology and Zoology Studies*, **8(5)**: 2043-2048. | 5.53 |
| 5. | Anshu., Singh, D., Mahima and Shweta (2020). Individual and combined toxic effects of herbicides on growth parameters and fecundity of *Eisenia fetida*. *International Journal of Current Microbiology and Applied Sciences*, **9(12)**: 1997-2005. | 5.38 |
| 6. | Gill, P., Rao, D.S., Gupta, R.K., Singh, D., Anshu and Kumar, N. (2020). Effect of neonicotinoide insecticide acetamiprid on super oxide dismutase activity in earthworm *Eisenia fetida. Journal of Entomology and Zoology Studies*, **8(6)**: 339-341. | 5.53 |
| 7. | Gill, P., Dommalapati, S.R., Singh, D., Gupta, R.K. and Kumar, N. (2020). Comparative effect of different organic fertilizers with chemically synthesized urea on various growth parameters of *Solanum melongena* in favorable environmental condition. *Journal of Pharmacognosy and Phytochemistry*, **9(5)**: 3260-3263. | 5.21 |
| 8. | Gill, P., Rao, D.S., Gupta, R.K., Singh, D., Dahiya, T., Lather, D. and Kumar, N. (2021). Effect on superoxide dismuatse activity in earthworm *Eisenia fetida*on direct exposure to neonicotinoid insecticide. *The Pharma Innovation Journal*, **10(3)**: 113-115. | 5.23 |
| 9. | Sakshi., Singh, D., Kumar, R. and Kumar, A. (2020). Comparative assessment of bacterial population of gut and cast of *Pheretimaposthuma*exposed to imidacloprid and pendimethalin. *International Journal of Current Microbiology and Applied Sciences*, **9(10)**: 1218-1223. | 5.38 |
| 10. | Shweta., Gupta, R.K., Singh, D., Mahima and Anshu (2020). Super oxide dismutase, Catalase and glutathione peroxidase activity in heavy metals contaminated earthworm, *Eisenia fetida. Journal of Entomology and Zoology Studies*, **8(6)**: 1909-1913. | 5.53 |
| 11. | Gill, P., Singh, D., Sharma, B.L., Gupta, R.K., Dahiya, T., Rao, D.S., Lather, D. and Kumar, N. (2021). Effect of neonicotinoid acetamiprid and imidacloprid insecticides on antioxidant peroxidase activity in earthworm *Eisenia fetida*. *Biological Forum – An International Journal*, **13(2)**: 171-174 | 5.11 |
| 12. | Renu., Gupta, R.K., Kumar, R. and Kaur, T. (2020). Eco-toxic effects of lead and nickel on survivability, reproduction and growth of earthworm (*Eudriluseugeniae*). *Journal of Entomology and Zoology Studies*, **8(5)**: 1351-1355. | 5.53 |
| 13. | Sharma, S., Gupta, R.K., Singh, D., Mahima and Anshu (2020). Super oxide dismutase, Catalase and glutathione peroxidase activity in heavy metals contaminated earthworm, Eisenia fetida. Journal of Entomology and Zoology Studies, 8(6): 1909-1913. | 5.53 |
| | **2022-2023** | |
| 14. | Ahalavat, S. and Kumar, P. (2023). Use of nematode community as bioindicator in | 5.03 |

| | | |
|---|---|---|
| | responses to wastewater irrigation in agro-ecosystems near the Yamuna in Haryana, India. *Indian Journal of Nematology*, (Accepted). | |
| 15. | Dahiya, T., Ravikant., Singh, G., Singh, R. and Singh, S. (2020). Applications and possible modes of action of probiotics in aquaculture. *International Journal of Agriculture Sciences*, **12(8)**: 9753-9700. | 4.8 |
| 16. | Dahiya, T., Singh, G., Ravikant and Kumar, S. (2022). Comparison of effects of birds, cracking, spoiling and falling on the percent economic losses in four pomegranate verities-ganesh, mridula, bhargva and knadhari. *Agricultural Research Journal*, (Accepted). | 4.71 |
| 17. | Ram, A., Anju and Ravikant (2021). An *in vitro* screening of essential oils against bacteria isolated from fresh water fish ponds. *World Journal of Pharmaceutical and Life Sciences*, **7(7):**188-195. | SJIF 6.129 |
| 18. | Nokhwal, A., Vaid, R.K., Ravikant., Bera, B.C., Virmani, N. and Anand, T. (2021). Isolation and characterization of a novel *Aeromonas* phage φ265 against β-lactamase producing *Aeromonas veronii* for application as a potential biocontrol agent. *International Journal of Bacteriophage Research*, **1**: 43-47. | 0 |
| 19. | Singh, G., Dahiya, T. and Ravikant. (2021). Effect of animal and plant protein diets on growth and fecundity in ornamental fish, Balloon molly (*PoeciliaSphenops*). *Advance Research in Agriculture and Veterinary Science*, **8(4)**: 08-12. | SJIF 3.7 |
| 20. | Sihag, S., Pal, A., Ravikant and Saharan, V. (2022). Antioxidant properties and free radicals scavenging activities of pomegranate (*Punica granatum* L.) peels: An *in-vitro* study. *Biocatalysis and Agricultural Biotechnology*, **42**:102368. | Cite score 3.9 |
| 21. | Gill, P., Singh, D. Sharma, B.L., Gupta, R.K., Dahiya, T., Rao, D.S., Lather, D. and Kumar, N. (2021). Effect of neonicotinoid acetamiprid and imidacloprid insecticides on antioxidant peroxidase activity in earthworm *Eisenia fetida*. *Biological Forum-An International Journal*, **13(2)**: 171-174. | - |
| 22. | Dahiya, T., Singh, G. and Parshad, J. (2021). Fish culture by bacterial isolate as a suitable probiotic. Journal of Experimental Zoology India, 24(2): 1253-1255. | 5.11 |
| 23. | Singh, G., Dahiya, T. and Ravikant (2021). Effect of animal and plant protein diets on growth and fecundity in ornamental fish, Balloon molly (*Poeciliasphenops*). *Advances Research Agriculture and Veterinary Sciences*, **8(4)**: 08-12. | 5.25 |
| 24. | Singh, C., Gupta, R.K. and Dahiya, T. (2021). Impact of dams in fisheries: A review. The Pharma Innovation Journal, 10(7): 356-359. | 3.39 |
| 25. | Gill, P., Rao, D.S., Gupta, R.K., Dahiya, T., Lather, D. and Kumar, N. (2021). Effect of neonicotinoid insecticides imidacloprid and acetamipridon catalase activity in earthworm *Eisenia fetida*. *Environment and Ecology*, **39(2)**: 370-374. | 5.23 |
| 26. | Gill, P., Singh, D., Rao, S., Gupta, R.K., Dahiya, T., Lather, D. and Kumar, N. (2022). Assessment of neonicotinoid insecticide acetamiprid LC50 against earthworm (Eisenia fetida L.). Environment and Ecology, 39(4): 1150-1153. | 5.53 |
| 27. | Kumar, R., Gupta, R.K., Dahiya, T., Yadav, R., Saifi, R., Yodha, K., Kumari, B., Singh, P. and Shefali (2022). Surveillance of *Heteropneustes fossilis* (Stinging Catfish) diseases and health management practices in Haryana. *Applied Ecology and Environmental Sciences*, **10(4)**: 261-267. | 5.25 |
| 28. | Yadav, J., Singh, D. and Shefali (2020). Effect of chlorpyrifos and carbofuran on morphology, behavior and acetylcholinesterase activity of earthworm (Eisenia fetida). Indian Journal of Agricultural Sciences, 90(10): 1871–1876. | 6.21 |
| 29. | Delu, V., Singh, D. and Dookia, S. (2022). Who lets the dog out? Stray dogs emerging as a potential threat for blackbuck and other wildlife in western Haryana, India: A preliminary assessment. *Ambient Science*, **09(2)**:01-04. | 5.00 |
| 30. | Muwal, A., Dahiya, T. and Sharma, S. (2021). Aloe barbadensis and its components containing medicinal properties. International Journal of Applied Sciences and | 5.25 |

| | | |
|---|---|---|
| | Technology, 12(4): 14-22. | |
| 31. | Sharma, S., Dahiya, T., Jangra, M., Muwal, A. and Singh, C. (2022). *Saccharomyces cerevisiae* as probiotics in aquaculture. *Journal of Entomology and Zoology Studies*, **10(1)**: 101-104. | 5.53 |
| 32. | Dauchak, S., Singh, D., Dahiya, T. and Punia, N. (2022). Effect of turmeric supplemented feed on various growth parameters of Pangasius hypophthalmus. Annals of Phytomedicine, 11(1):1-7. | 5.95 |
| 33. | Anshu., Singh, D., Gill, P., Mahima, Shweta and Sakshi (2020). Impact of glyphosate and pendimethalin herbicides on qualitative and quantitative parameters of coelomocytes in earthworm *Eisenia fetida*. *Journal of Entomology and Zoology Studies*, **8(5)**: 2043-2048. | 5.53 |
| 34. | Anshu., Singh, D., Mahima and Shweta (2020). Individual and combined toxic effects of herbicides on growth parameters and fecundity of Eisenia fetida. International Journal Current Microbiology and Applied Sciences, 9(12):1997-2005. | 5.38 |
| 35. | Sakshi., Singh, D., Kumar. R. and Kumar, A. (2020). Comparative assessment of bacterial population of gut and cast of *Pheretimaposthuma*exposed to imidacloprid and pendimethalin *International Journal Current Microbiology and Applied Sciences*, **9(10)**: 1218-1223. | 5.33 |
| 36. | Shweta, S., Gupta, R.K., Singh, D., Mahima and Anshu (2020). Super oxide dismutase, catalase and glutathione peroxidase activity in heavy metals contaminated earthworm, *Eisenia fetida*. *Journal of Entomology and Zoology Studies*, **8(6)**:1909-1913. | 5.53 |
| 37. | Sharma, S., Mahima., Anshu., Gupta, R.K. and Singh, D. (2021). Heavy metals toxicity on various growth parameters and biomolecules of earthworm, *Eisenia fetida*, *Acta Scientific Veterinary Sciences*, **3(9)**: 18-26. | -- |
| 38. | Sakshi., Singh, D. and Gill, P. (2022). Effects of imidacloprid and pendimethalin on carbohydrates, lipid and protein. *Biological Forum – An International Journal*, **14(1)**: 367-377. | 5.11 |
| 39. | Kumar, A., Singh, D., Kumar, R., Sakshi and Mahima (2022). Nutrient profile of vermi compost prepared from neem leaves. *Asian Journal of Microbiological Biotechnological Environmental Sciences*, **24(1)**:76-80. | 5.11 |
| 40. | Dauchak, S., Singh, D., Dahiya, T. andPunia, N. (2022) Effect of turmeric supplemented feed on various growth parameters of *Pangasius hypophthalmus*. *Annals of Phytomedicine*, **11(1)**: 1-7. | 5.6 |
| **Ph.D.** | | |
| **2018-2019** | | |
| 1. | Duhan, K., Gulati, R., Malik, A. and Singh, S. (2018). Loss estimation in oyster mushroom compost and fruiting bodies due to infestation of *Tyrophagusputrescentiae*(Acari: Acaridae). *Agriculture Research Journal*, **55(1)**: 175-178. | - |
| 2. | Duhan, K., Gulati, R., Malik, A. and Singh, S. (2018). Comparative evaluation of medicinal plants againststored product mite, *Tyrophagusputrescentiae*in *Pleurotussajorcaju* compost. *International Journal of Basic and Applied Agricultural Research*, **40**:12-27. | 5.20 |
| 3. | Nain, J., Singh, R., Rathee, M. and Gulati, R. (2018). Field incidence and effect of weather parameters on two spotted spider mite *Tetranychusurticae*Koch (Acarina: Tetranychidae) on different genotypes of okra. *Indian Journal of Entomology*, **34**:15-21. | 5.89 |
| 4. | Gill, P., Singh, D., Kumar, R., Kumar, P. and Gupta, R.K. (2018). Comparative effect of different fertilizers on various growth parameters of *lycopersicumesculantum*. *International Journal of Current Microbiology and Applied Sciences*, **7(1)**: 56-60. | - |

| | | |
|---|---|---|
| 5. | Yadav, J., Singh, D., Sindhu, S., Gera, R. and Shefali (2018). Enumeration of gut bacterial population in *Eisenia fetida*exposed to chlorpyrifos. *International Journal of Current Microbiology and Applied Sciences*, **6(8)**: 824-830. | - |
| 6. | Gill, P., Singh, D., Singh, M. and Urmila (2019). Comparative effect of different fertilizers on growth parameters of *Eisenia fetida. Journal of Entomology and Zoology Studies*, **7(2)**: 509-512. | 5.53 |
| 7. | Itisha., Gulati, R. and Singh, S. (2019). Quantitative and qualitative losses in fruiting body of mushroom due to *Tyrophagusputrescentiae*schrank (Acarina: Acaridae) infestation. *World Journal of Pharmaceutical and Life Sciences*, **5(5)**: 77-81. | 5.08 |
| 8. | Jangra, M., Gulati, R., Sonika and Batra, V.K. (2019). *In vitro* comparative efficacy of various concentrations of methanolic leaf and seed extract of *Pongamia pinnata* against *Polyphagotarsonemuslatus* (Banks) in chilli.). *Journal of Entomology and Zoology Studies*, **7(2)**: 1129-1134. | 5.53 |
| 9. | Jangra, M., Gulati, R., Sonika and Batra, V.K. (2019). Role of Neem cake in management of chilli mite, *Polyphagotarsonemuslatus* (Banks). *International Journal of Zoology Studies*, **4(2)**: 53-56. | 5.14 |
| 10. | Monika., Gulati, R. and Sonika (2019). Studies of organic/inorganic fertilizers on *Polyphagotarsonemuslatus* (Banks) (Acari: Tarsonemidae) and its incidence on phytochemicals: A Review. *International Journal of Technical Research and Science*, **4(4)**: 1-4. | 6.5 |
| 11. | Shefali., Yadav, J. and Gupta, R.K. (2019). Assessment of chromium induced alterations on gut bacterial population of *Eudriluseugeniae*. *Journal of Applied and Natural Science*, **11(1)**: 94-96. | 4.84 |
| 12. | Shefali., Gupta R.K. and Singh D. (2018). Study to enumerate the alterations in gut bacterial population of *Eudriluseugeniae* exposed to sodium arsenate. *International Journal of Current Microbiology and Applied Sciences*, **7(3)**: 596-600. | 5.38 |
| 13. | Shefali., Jangir. B., Gupta, R.K. and Yadav, J. (2018). Assessment of histological alterations induced by heavy metal exposure on earthworms. *International Journal of Chemical Studies*, **6(5)**: 1436-1438 | 5.31 |
| 14. | Shefali., Yadav, J. and Gupta, R.K. (2018). Reproductive parameters as assessment tools for arsenic and chromium induced toxicity in *Eudriluseugeniae*. *Indian Journal of Agricultural Research*, **52(6)**: 676-680. | 4.86 |
| 15. | Singh, G., Bhatnagar, A., Alok, K. and Ajay, S.A. (2018). Enzymatic profiling and feeding preferences of Catla: *Catlacatl*a, Rohu: *Labeorohita* and Mrigala: *Cirrhinusmrigala* in rural polyculture ponds. *Journal of Aquatic Resource and Development*, **9(10)**: 1-8. | - |
| 16. | Singh, G., Bhatnagar, A., Alok, K. and Ajay, S.A. (2018). Feeding preferences and digestive physiology of Indian carps in polyculture pond system. *Journal of Experimental Agriculture International*, **20(6)**: 1-10. | - |
| 17. | Ahalavat, S. and Chaubey, A.K. (2018). Nematode community structure and efficacy of the free-living nematode *Metarhabditis*and*rassyana* as a toxicological assay organism. *Indian Journal of Nematology*, **48(2)**: 131-138. | - |
| **2019-2020** | | |
| 18. | Ahalavat, S. and Pankaj (2020). Community Analysis of soil inhabiting nematodes associated with a mango orchard of Meerut, India. *Indian Journal of Nematology*, **50(1)**: 32-38. | 5.03 |
| 19. | Ahalavat, S. and Chaubey, A.K. (2019). Descriptions of Teratocephalus indicus sp. nov. (Nematoda: Teratocephalidae) from India. Indian Journal of Nematology, 49(1): 9 - 14. | 5.03 |

| | | |
|---|---|---|
| 20. | Pal, A., Rani, S., Parshad, J., Dahiya, T. and Satpal (2019). Application of nanoparticles in applied science: A review. *International Journal of Current Microbiology and Applied Sciences*, **8(10)**: 2318-2325. | 5.38 |
| 21. | Itisha., Gulati, R. and Singh, S. (2019). Quantitative and qualitative losses in fruiting body of mushroom due to *Tyrophagusputrescentiae*Schrank (Acarina: Acaridae) infestation. *World Journal of Pharmaceutical and Life Sciences*, **5(5)**: 77-81. | 6.12 |
| 22. | Jangra, M., Gulati, R., Sonika and Batra. V.K. (2019). *In vitro* comparative efficacy of various concentrations of methanolic leaf and seed extract of *Pongamia pinnata* against *Polyphagotarsonemuslatus*(Banks) in chilli. *Journal of Entomology and Zoology Studies*, **7(2)**: 1129-1134. | 5.53 |
| 23. | Jangra, M., Sindhu S., Sonika, Gulati, R. and Batra, V.K. (2019). Effect of organic manure (FYM) in management practices of chilli mite, *Polyphagotarsonemus latus* (Banks). *The Pharma Innovation Journal*, **8(9)**:500-502 | - |
| 24. | Jangra, M., Sindhu S., Sonika, Gulati, R. and Batra, V.K. (2019). Studies on efficacy of vermicompost for the management of *Polyphagotarsonemus latus* (Banks) (Acari: Tarsonemidae) infesting chilli (*Capsicum annuum* L.) in Haryana. *The Pharma Innovation Journal*, **8(8)**: 86-89. | - |
| 25. | Khatak, S., Gulati, R., Jangra, M. and Anju. (2020). Incidence of *Tetranychus urticae* Koch on tomato (*Lycopersicon esculentum* Mill.) under screen house conditions. *Journal of Entomology and Zoology Studies*, **8(3)**: 758-761. | 5.53 |
| 26. | Khatak, S., Gulati, R., Jangra, M. and Anju. (2020). *In vitro* comparative efficacy of various concentrations of aqueous and methanolic leaf extract of *Ocimum sanctum* against *Tetranychusurticae* Koch in tomato. *International Journal of Current Microbiology and Applied Sciences*, **9(5)**: 2266-2275. | 5.38 |
| 27. | Mumtaz, S., Fatima, H., Jamal, W., Ahalawat, S., Tahseen, Q. and Ahmad, I. (2020). Description of two new species of Prodontorhabditis Timm, 1961 (Nematoda: Rhabditida) from India. Zootaxa, 4763(2): 175–188. | 6.99 |
| 28. | Gill, P., Singh, D., Singh, M. and Urmila (2019). Comparative effect of different fertilizers on growth parameters of *Eisenia fetida.Journal of Entomology and Zoology Studies*, **7(2)**: 509-512. | 5.53 |
| 29. | Yadav, J., Singh, D. and Shefali (2020). Effect of chlorpyrifos and carbofuran on morphology, behavior and acetylcholin esterase activity of earthworm (*Eisenia fetida*). *Indian Journal of Agricultural Sciences*, **90(10)**: 1871–1876. | 6.21 |
| 30. | Dahiya, T., Ravikant and Singh, G. (2020). Effect of *Lactobacillus sporogenes*probiotic bacteria on the intestinal histopathology of Indian magur (*C. batrachus*) inoculated with pathogenic bacteria, *Micrococcus* sp. *International Journal of Current Microbiology and Applied Sciences*, **9(2)**: 2344-2348. | 5.38 |
| 31. | Dahiya, T., Ravikant, Singh, G., Singh, R. and Singh, S. (2020). Applications and possible modes of action of probiotics in aquaculture. International Journal of Agriculture Sciences, 12(8): 9753-9755. | 4.20 |
| 32. | Urmil, Gupta R. K., Parveen Gill and Sandeep. (2019). Effect of lead and nickel on the growth and fecundity of earthworm, *Eisenia fetida*. *Journal of Entomology and Zoological Studies*, **7(5)**: 305-309. | 5.53 |

## TRAINING PROGRAMMES ORGANISED

1. "State Eligibility Test in Computer Appreciation and Application (SETC)" from 05.03.2018 to 09.03.2018 at Computer Section in collaboration with Academy of Agricultural Research and Education Management, DHRM.
2. "State Eligibility Test in Computer Appreciation and Application (SETC)" from 04.02.2019 to 08.02.2019 at Computer Section in collaboration with Academy of Agricultural Research and Education Management, DHRM.
3. "How to Skill Up during COVID-19" from 05.08.2020 to 14.08.2020 in collaboration with Director of Research
4. "Short Training on Statistical Data Analysis for Research Scholars" from 18.02.2019 to 27.02.2019 at Computer Section in collaboration with Directorate Student Welfare.
5. "Short Training on Statistical Data Analysis for Research Scholars" from 14.10.2019 to 24.10.2019 at Computer Section in collaboration with Directorate Student Welfare.
6. "Short Training on Statistical Data Analysis for Research Scholars" from 24.02.2020 to 04.03.2020 at Computer Section in collaboration with Directorate Student Welfare.
7. "Basic Level Computer Appreciation Course" from 13.09.2021 to 22.09.2021 at Computer Section in collaboration with Academy of Agricultural Research and Education Management, DHRM.
8. "State Eligibility Test in Computer Appreciation and Application (SETC)" from 22.12.2021 to 26.12.2021 at Computer Section in collaboration with Academy of Agricultural Research and Education Management, DHRM.
9. "State Eligibility Test in Computer Appreciation and Application (SETC)" from 05.09.2022 to 09.09.2022 at Computer Section in collaboration with Academy of Agricultural Research and Education Management, DHRM.
10. "Basic Level Computer Appreciation Course (BLCA)" from 16.11.2022 to 29.11.2022 2021 at Computer Section in collaboration with Academy of Agricultural Research and Education Management, DHRM.

## RESEARCH PUBLICATIONS

| Sr. no. | Research Paper | NAAS Rating |
|---|---|---|
| 1 | Shekhar, A.S., Singh, R., Sheokand, R. N. and Singh, S. (2018). Correlation and regression analysis of growth indices of basmati rice (*Oryza sativa* L.) cultivars with weather parameters under different dates of transplanting. *Journal of Agrometeorology*, **20**: 311-316. | 6.56 |
| 2 | Rani, K., Singh, V., Mor, V.S., Dalal, M.S. and Niwas, R. (2018). Phenological development, grain growth rate, seedling vigour and yield relationships in wheat cultivars under normal sown irrigated conditions. *International Journal of Current Microbiology and Applied Sciences*, **7(6):** 3230-3238. | 5.34 |
| 3 | Manjeet., Anurag., Niwas, R., Rajeev., Tomar, D., Bansal, S. K., Khichar, M. L., Rahul and Singh, A. (2019). Developing spectral models for regional level wheat yield prediction in Haryana, India. *Journal of Agrometeorology*, **21(1):** 9-13. | 6.64 |
| 4 | Mor, V.S., Devraj, A., Bhuker, A., Malik, A., Singh, N., Singh, V. and Sheokand**,** R. N**.** (2019). Effect of organic manures, fertilisers and their integrated combinations on seed quality parameters in wheat (*Triticum aestivum L.*). *Agronomy*, **49**: 39-50. | 8.26 |
| 5 | Anu., Singh, V., Yashveer, S., Niwas, R., Malik, P., Arpit., Dey, S. and Ahlawat, U. (2019). Assessment of genetic variability, heritability and genetic advance for grain yield and its contributing traits in wheat (*Triticum aestivum*). *International Journal of Current Microbiology and Applied Sciences*, **8(8):** 1169-1174. | 5.38 |
| 6 | Devi, S., Kumar, Y., Kumar, R., Daneva, V., Paras and Niwas, R. (2019). Correlation and path coefficients studies of some morphological and seed vigour traits in barley Cultivars (*Hordeum vulgare L.)* under two sowing conditions.*International Journal of current Microbiology and Applied Sciences*, **8(10):** 2210-2222**.** | 5.38 |
| 7 | Rathi, M., Kumar, M., Singh, V., Kumar, V. S., Sheokand**,** R. N. and Chaudhary, L. (2020). Marker assisted screening of breeding population of wheat segregating for stripe rust resistance using SSR markers. *International Journal of Chemical Studies*, **8(2):** 1288-1292. | 5.31 |
| 8 | Kumar, V. S., Kumar, M., Singh, V., Samita., Chaudhary, L., Sheokand, R. N. and Kumar, P. (2020). Regression analysis and inter generation trait association in F3 and F4 generation of wheat. *Electronic Journal of Plant Breeding***, 11(1):** 45-53. | 4.97 |
| 9 | Devi, S., Kumar, Y., Bhuker, A. and Niwas, R. (2020). Assessment of genetic variability for metric traits in barley under different sowing conditions. *Forage Research*, **45(4):** 277-280. | 4.48 |
| 10 | Kumar, Y., Niwas, R., Nimbal, S. and Dalal, M. S. (2020). Hierarchical cluster analysis in barley genotypes to delineate genetic diversity. *Electronic Journal of Plant Breeding*, **11(3):** 742-748. | 5.14 |
| 11 | Manjeet., Malik, J. S., Niwas, R. and Kumar, R. (2020). Impact analysis of farmer FIRST programme in Haryana. *Indian Journal of Agricultural Sciences*, **90(7):** 1286–90. | 6.21 |
| 12 | Niwas, R., Kumar, V., Sheoran, O. P. and Kumar, Y. (2021). Determining the relationship between grain yield and its attributing traits in barley using structural equation modelling. *Forage Research*, **46(3):** 266-270. | 4.84 |
| 13 | Kumar, D., Dalal, R.P.S., Kumar, R., Parshad, J., Sheokand, R.N. and Jaipal (2021). Impact of seasonal variation on physico-chemical properties of orchard soil and their relationship with different fruit tree species under semiarid irrigated conditions. *Indian Journal of Pure and Applied Biosciences*, **9(3):** 289-304. | * |
| 14 | Anu, Singh, V., Yashveer, S., Niwas Ram, Yadav, S., Vivek, S. and Yadav, S. (2021). Genotypic and phenotypic interrelationships of yield related traits in bread wheat (*Triticum aestivum*). *Indian Journal of Agricultural Sciences*, **91(4):** 587–9. | 6.21 |
| 15 | Punia, H., Tokas, J., Malik, A., Singh, S., Phogat, D. S., Bhuker, A., Mor, V. S., Anju, R., Sheokand, R. N. (2021). Discerning morpho-physiological and quality traits contributing to salinity tolerance acquisition in sorghum [*Sorghum bicolor (L.) Moench*]. *South African* | 8.32 |

| | | |
|---|---|---|
| | *Journal of Botany*, **140**: 409-418. | |
| 16 | Niwas, R., Kumar, V., Sheoran, O. P. and Singh, V. (2021). Relationship between grain yield and its attributing traits for bread wheat - A structural equation modelling approach.*Indian Journal of Extension Education*, **57(3):** 112-117. | 5.95 |
| 17 | Dilip, S., Malik, J. S., Sheokand, R. N. and Mor, P. (2021). Knowledge level and constraints in adopting the recommended mitigation strategies on climate change in Haryana.*Journal of Extension System*, **36(2):** 7-11. | 5.95 |
| 18 | Kumar, V., Sarita, Niwas, Ram, Sheoran, O. P.and Malik, K. (2021). Development of web based analysis tool for augmented randomized complete block design (ARCBD). *Journal of Extension System*, **36(2):** 28-32**.** | 5.95 |
| 19 | Sheoran, S., Beniwal, B. S., Dalal, R.P.S. and Sheokand, R. N. (2022). Seasonal influence of pinching and gibberellic acid on growth and yield parameters of African marigold. *Journal of Plant Development Sciences*, **14(2):** 179-184. | 4.13 |
| 20 | Haqyar, Z., Rohila, A. K., Mukteshawar, R., Malik, J. S.andSheokand, R. N. (2022). accessibility of information and communication technology services by faculty members of a State Agricultural University. *Indian Journal of Extension Education*, **58(3):**182-185. | 5.95 |
| 21 | Gupta, V., Kumar, M., Singh, V., Sheokand, R. N. and Chaudhary, L. (2022). Evaluation of yellow rust resistance in backcross populations of wheat. *Journal of Environmental Biology*, **43**: 147-160. | 6.72 |

* Journals could not be assigned NAAS Score as they do not have impact factors for the last four consecutive years

## RESEARCH PROJECTS OF FACULTY FROM OUTSIDE AGENCY

| Sr. No. | Department | Sponsor | Title | Funds sanctioned (Rs.) | Period | Research/Project team |
|---|---|---|---|---|---|---|
| 1 | Botany and Plant Physiology | Rashtriya Krishi Vikas Yojana (RKVY) | Climate change impact studies under rainout-shelter in Agro-ecosystems | 1.94 cr | 2019-2022 | Dr. Vinod Goyal - PI, Dr. Sarita Devi - Co-PI, Dr. Neeraj Kumar - Co-PI |
| 2 | Botany and Plant Physiology | DBT | Leveraging genetic resources for accelerated genetic improvement of Linseed using comprehensive genomics and phenotyping approaches | 90. 3 lakh | 2020-2025 | Dr. Anita Kumari- PI, Dr. Renu Munjal - Co-PI, Dr. Ram Avtar - Co-PI, Dr. Ram Parkash |
| 3 | Botany and Plant Physiology | SPARC-MHRD | Genotyping by Sequencing, Genome-wide Association Study, and Genomic Selection Approaches for the Complex Trait like Stress-tolerance and Yield in Soybean (2019-2021) as PI . | 78.32 lakhs | 2019-2022 | DR Vinod Goyal - PI, Humira Sonah - Co-PI |
| 4 | Botany and Plant Physiology | SPARC-MHRD | Combining rust resistance in non structural carbohydrates (NSC) in wheat to achieve food security | 71.99 Lakh | 2019-2022 | Dr Renu Munjal - PI, Dr Vinod Goyal - Co-PI |
| 5 | Botany and Plant Physiology | Ministry of Steel, GOI | "Development of steel slag based cost effective eco-friendly fertilizers for sustainable agriculture and inclusive growth" | 70.99 Lakh | 2021-22024 | Dr Satish Khokhar - PI, Dr Neeraj Kumar - Co-PI, Vinod Goyal - Co-PI, |
| 6 | Chemistry | Gap-filling project, CCSHAU Hisar | Evaluation of compounds of plants origin along with synthesis of organic compounds | 10 lakhs | 2019-2021 | Dr. Rajvir singh-PI, Dr. Jayant Sindhu- Co-PI |

| | | | | | | |
|---|---|---|---|---|---|---|
| | | | for biological activity | | | |
| 7 | Microbiology | State Govt.(GFARP) | Development of fermentation process for ethanol production from waste potatoes | 12 lakhs | 2016-2019 | Dr. Kamla Malik - PI |
| 8 | Microbiology | RKVY-RAFTAAR | Establishment of Centre of Excellence for Modeling of Different Crop Residue for Bio-Methanation and Organic Manure | 2.85 cr | 2019-2023 | Dr. Kamla Malik- PI |
| 9 | Microbiology | Fortum India Ltd, New Delhi LUT University, Finland | Assessment of Agri-biomass from Agro-Climatic Zone of Haryana" | 32.65 lakhs | 2019-2023 | Dr. Kamla Malik- PI |
| 10 | Microbiology | RKVY-RAFTAAR | Evaluation of Zero Budget Natural Farming (ZBNF) model under different cropping systems in Haryana | 1.54 cr | 2020-2023 | Dr. Baljeet Singh Saharan- PI |
| 11 | MBB | NAHEP-IG-ICAR | Innovative grant project on Research Cum Technology Transfer Centre on Protected Cultivation of horticultural crops | 499.95 Lakh | 2018-2024 | Dr K P Singh - PI, Dr Vinod Goyal – Co-PI |
| 12 | Physics | IUAC, New Delhi | Study the impact of swift heavy ion irradiation on Molybdenum disulfide ($MoS_2$) for application as Gas Sensor. | 10.11 lakh | 2022-25 | Dr. Vinay Kumar – PI |
| 13 | Microbiology | HSCSIT | Development of Iron and Zinc Nano-biofertilizers to Improve Soil Health and Biofortification of Wheat/Pearl millet | 34 lakhs | 2022-25 | Dr. Seema Sagwan - PI |
| 14 | Microbiology | HSCSIT | Development of Liquid Fertilizer from Agro-industrial Waste for | 30 lakhs | 2022-25 | Dr. Anuj Rana – PI |

| | | | | | | |
|---|---|---|---|---|---|---|
| | | | Mitigating Climate Change and Environmental Pollution | | | |
| 15 | Sociology | RKVY-RAFTAAR | /establishment of Lab. To Strenthen the Capacity Building of Scheduled Caste Women Laborers | 19 lakhs | 2022-23 | Dr. Jatesh Kathpalia - PI |

## FACULTY PUBLICATIONS

| Sr. no. | Research Publication (2018-23) | NAAS Rating |
|---|---|---|
| | **BIOCHEMISTRY** | |
| 1. | Tokas, J. and Malik, K. (2018). Utilization of mango (*Mangifera indica* L.) peel for nutritional and functional properties for climate resilient food. *Journal of Agrometerology*, **20**: 178-181. | 6.56 |
| 2. | Tokas, J., Yadav, P, Yashveer, S., Siwach, R. and Singal, H.R. (2018). Application of biodegradable aloe vera gel to maintain the quality and longer shelf life of tomato (Solanum lycopersicum L) during storage. Annals of Biology, 34(1): 88-91. | 4.08 |
| 3. | Tokas, J., Malik, K. and Himani (2018). Analysis of carotenoid composition in petal extracts of marigold (Tagetes erecta). International Journal of Chemical Studies, 6(1): 741-744. | 5.31 |
| 4. | Tokas, J., Punia, H., Malik, A., Satpal., Sangwan, S., Devi, S. and Malik, S. (2021). Growth performance, nutritional status, forage yield and photosynthetic use efficiency of sorghum [Sorghum bicolour (L.) Moench] under salt stress. Range Management and Agroforestry, 42(1): 59-70. | 6.37 |
| 5. | Nagar, S. and Gupta, V.K. (2021). Hyper production and eco-friendly bleaching of kraft pulp by xylanase from Bacillus pumilus SV-205 using agro waste material. Waste and Biomass Valorization, 12: 4019–4031. | 9.70 |
| 6. | Nagar, S., Kharor, N., Kumar, V. and Chugh, L.K. (2019). Isolation of fibrinolytic enzyme nattokinase producing microorganisms from different soya waste locations. Haryana Agricultural University Journal of Research, 49(1): 37-40. | - |
| 7. | Kharor, N., Kumar, V., Nagar, S., Sindh, M. and Chugh, L.K. (2019). Screening of soil bacterial isolate for naringinase production. Haryana Agricultural University Journal of Research, 49(1): 41-43. | - |
| 8. | Pal, A., Bhushan, B., Narwal, R. K. and Saharan, V. (2018). Extraction and evaluation of antioxidant and free radical scavenging potential correlated with biochemical components of red rose petals. Iranian Journal of Science and Technology, 42(3): 1027-1036. | 7.55 |
| 9. | Pal, A., Bhushan, B., Saharan, V. and Sidhu, R. S. (2018). Compositional Analysis and Evaluation of Antioxidant Potential of Fruits of WithaniasomniferaDunal. Journal of Advanced Research in Biochemistry and Pharmacology, 1(1-2): 7-14. | - |
| 10. | Mandhania, S., Pal, A. and Saharan, V. (2019). Simultaneous estimation of twenty eight phenolic compounds by a novel and expeditious method developed on quaternary ultra-performance liquid chromatography system with a photodiode array detector. Biomolecules, 10(1): 6. | 10.92 |

| | | |
|---|---|---|
| **BOTANY AND PLANT PHYSIOLOGY** | | |
| 1. | Kumar, N., Kumar, Y., Ram, K. and Munjal, R. (2018). Screening of barley (*Hordeum vulgare* L.) genotypes for physiological traits under drought stress. *International Journal of Advanced Biological Research*, **8(2):** 212-216. | 4.64 |
| 2. | Kumari, N., Avtar, R., Kumari, A., Rani, B. and Sheoran, R.K. (2018). Antioxidative response of Indian mustard subjected to drought stress. *Journal of Oilseed Brassica*, **9(1):** 40-44. | 4.67 |

## RADIO TALK/TV TALK

| Sr.No. | Radio Talk |
|---|---|
| | **MICROBIOLOGY** |
| **1.** | Malik, K. Radio talk on 02.04.2022 on 'Various uses of rice straw' at community radio station, CCS HAU HISAR |
| | **LHC** |
| **2.** | Mor, P. Radio-talk with Dr. Sangeeta Chahal, HOD, Food and Nutrition, COHS on 5.05.2020 at radio-station Gandhi Bhawan |
| | **FOOD SCIENCE AND TECHNOLOGY** |
| **3.** | Rekha, TV talk on "Corona Kaal Main MahilaShashaktikaran Hetu Bharat Sarkar keBadte Kadam" recorded on 20.6.2020 at DoordarshanParsar Bharti, Kender, Hisar and later broadcasted on DD Hisar |

## FACULTY PARTICIPATION IN SEMINAR/ CONFERENCE/ WORKSHOP

| Sr. No. | Name | Department | Seminar/ Conference/ Workshop details |
|---|---|---|---|
| | | **2018** | |
| | | **Biochemistry** | |
| 1. | Dr. Jayanti Tokas | | Attended and presented paper in 10th International Seminar on "Harnessing science and technology applications through capacity building and economic policies for sustainable development" from September 13-15, 2018 at Mahatma Gandhi House, Goettingen, Germany. |
| | | **BOTANY AND PLANT PHYSIOLOGY** | |
| 2. | Dr. Sarita Devi | | Attended and presented paper in International Conference on "Bio and nano technologies for sustainable agriculture, food, health, energy and industry" from February 21-23, 2018 organized by Department of Bio and Nano Technology at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| | | | Attended DAE-BRNS Life Sciences Symposium on "Frontiers in sustainable agriculture" from April 26-28, 2018 organized by Bio-Science Group at Bhabha Atomic Research Centre, Trombay, Mumbai, Maharashtra, India. |
| 3. | Dr. Anita Kumari | | Attended International Workshop on "Application of thermodynamic prediction for development of microbial biotechnological approaches" from November 12-21, 2018 organized by GIAN-MHRD, Govt. of India at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| 4. | Dr. Vinod Goyal | | Attended 21 days Training on "Advances in simulation modeling and climate change research towards knowledge based agriculture" from November 13-December 03, 2018 at CESCRA, IARI, New Delhi, India. |
| | | | Attended "KRUSHIK–live demos and agri-expo" on January, 2018 at Krishi Vigyan Kendra, Baramati and KF Bioplants for Tissue Culture facility, Pune, |

| | | |
|---|---|---|
| | | Maharashtra, India. |
| 5. | Dr. Sukham Madaan | Attended and presented paper in International Conference on "Sustainable agriculture, energy, environment and technology" from February 24-25, 2018 at Maharshi Dayanand University, Rohtak, Haryana, India. |
| **CHEMISTRY** | | |
| 6. | Dr. Sushila Singh | Attended GIAN-MHRD Workshop on "Vibrational spectroscopy and molecular vibrations" from January 15-19, 2018 at National Institute of Technology, Kurukshetra, Haryana, India. |
| | | Attended and presented paper in International Conference on "Bio and nano technologies for sustainable agriculture, food, health, energy and industry" from February 21-23, 2018 organized by Department of Bio and Nano Technology, Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| | | Attended GIAN-MHRD Workshop on "Nanotechnology: nanoparticle synthesis and conjugation chemistry for bio application" from July 16-20, 2018 at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| 7. | Dr. Vipan Kumar | Attended and presented paper in National Conference on "Molecules and materials technology" on February 17, 2018 at National Institute of Technology, Kurukshetra, Haryana, India. |
| | | Attended and presented paper in 9th National Conference on "Recent advances in chemical, biological and environmental sciences" from February 09-10, 2018 at M. M. Modi College, Patiala, Punjab, India. |
| **LHC** | | |
| 8. | Dr. Poonam Mor | Attended and presented paper in National Seminar on "Skill India- a great vision for 21st century progressive India" on October. 20, 2018 at Fateh Chand College, Hisar, Haryana, India. |
| | | Attended training on "Accounts for teachers and technical employees for departmental examination", organized by AAREM, DHRM, CCSHAU, Hisar from May 01-05, 2018 |
| **MATH & STAT** | | |
| 9. | Dr. Manoj Kumar | Attended training on "Recent Development in Statistical modeling and Forecasting" held at IASRI, New Delhi from December 28, 2017 to Janauary 17, 2018 |
| **MICROBIOLOGY** | | |
| 10. | Dr. Leela wati | Attended National Seminar on "Management of paddy straw for bio- CNG, manure, employment and swachhbharat' from May 16-17, 2018 organized by Centre for Research in Rural and Industrial Development (CRRID) at Chandigarh, India. |
| 11. | Dr. Baljeet Singh Saharan | Attended and presented paper in International conference on "Sustainable agriculture, energy, environment and technology" from February 24-25, 2018 at Maharshi Dayanand University (MDU), Rohtak, Haryana, India. |
| | | Attended 10th International Seminar on "Harnessing science and technology applications through capacity building and economic policies for sustainable development" from September 13-15, 2018 at Mahatma Gandhi House, Goettingen, Germany. |
| | | Attended Workshop on "Bioinformatics – basic tools and its applications" on December 09, 2018 at DNA Labs – A Centre for Applied Sciences, Dehradun, Uttarakhand, India. |

| | | |
|---|---|---|
| 12. | Dr. Kamla Malik | Attended Workshop on "Intellectual property rights- a mechanism for social economic growth" on November 22, 2018 at CCS Haryana Agricultural University, Hisar, Haryana. |
| 13. | Jagdish Parshad | Attended Training on "Accounts for teachers and technical employees for departmental examination" from May 01-05, 2018, organized by The Academy of Agricultural Research and Education Management Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended "Induction Training" from January 04 - February 03, 2018 organized by the Academy of Agricultural Research and Education Management Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended XXV Annual Review Meeting of All India Coordinated Research Project on "Weed management" from June 07-08, 2018 at G. B. Pant University of Agriculture and Technology, Pant Nagar, U.S. Nagar, Uttarakhand, India. |
| **Physics** | | |
| 14. | Dr. Rita Dahiya | Attended and presented paper in 83rd Annual Convention of Indian Society of Soil Science and National Seminar on "Developments in soil science" from November 27-30, 2018 at Anand Agricultural University, Anand, Gujarat, India. |
| **FST** | | |
| 15. | Dr. Rekha | Attended training on "Accounts for teachers and technical employees for departmental examination", organized by AAREM, DHRM, CCSHAU, Hisar from May 01-05, 2018 |
| 16. | Dr. Anju Kumari | |
| 17. | Dr. R.B. Gewal | Attended "National start up summit" held at CCSHAU, Hisar from June 01-02, 2018 |
| 18. | Dr. S. Siddiqui | |
| 19. | Dr. Rakesh | |
| 20. | Dr. Rekha | |
| 21. | Dr. Anju Kumari | |
| 22. | Dr. Rekha | Attended refresher course on "Educational technology" organized by Academy of Agricultural Research and Education Management, DHRM, CCSHAU, Hisar form July 21 to August 10, 2018 |
| | | Attended, participated and coordinated in the awareness campaign "Prakarmparv" on 2nd anniversary of surgical strike organized by Indian Army at Military Station, Hisar on September 29, 2018 |
| | | Attended training on "IUMS pre examination module related to date sheet, admit card and sitting plan" and at Computer Section on November 29, 2018 |
| | | Attended training on "ERF/IUMS for online attendance and marks feeding of students enrolled in co-curricular activities" at computer lab of DSW on November 30, 2018 |
| **SOCIOLOGY** | | |
| 23. | Dr. Subhash Chander | Attended "National Start Up Summit" held at CCS HAU, Hisar, from June 1-2, 2018 |
| | | Attended Seminar on "IPR – A mechanism for social and economic growth" held at CCSHAU, Hisar on November 12, 2018. |
| | Dr. Vinod Kumari | Attended Seminar on IPR – A mechanism for social and eoconomic growth on November 12, 2018 organized by IPR Cell, DHRM, CCSHAU, Hisar |
| 24. | Dr. Jatesh Kathpalia | Attended Seminar on IPR – A mechanism for social and eoconomic growth on November 12, 2018 organized by IPR Cell, DHRM, CCSHAU, Hisar |

| | | |
|---|---|---|
| | | Attended International Conference on 'A Culture of Learning and Experimentations for Fostering Well-Being: Some Lessons" on December 17, 2018 at New Delhi |
| **ZOOLOGY** | | |
| 25. | Dr. Tejpal Dahiya | Presented a paper entitled "The study of seasonal variation on health, reproduction and growth of different earthworm species viz. Eisenia fetida, Endriluseuginiae and Perionyx excatives" in the D.G.H.E. sponsored two days National Seminar on "Environment issues: impact, control &Challenges" held from 09-10 March 2018 at Manohar Memorial Post Graduate College, Fatehabad. |
| | | Successfully completed the UGC Sponsored Interdisciplinary Refresher course on Research Methodology from 15.11.2018 to 05.12.2018 organized by UGC-Human Resource Development Centre at GJUS&T, Hisar, Haryana |
| **2019** | | |
| **BIOCHEMISTRY** | | |
| 26. | Dr. Jayanti Tokas | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended and presented paper in International Conference on "Climate change towards health and agricultural sustainability" from February 18-20, 2019 at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| | | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended 9th Workshop on "Aberystwyth bioinformatics" on June 28, 2019 at Aberystwyth University, Aberystwyth, United Kingdom. |
| | | Attended SPARC-MHRD sponsored International Workshop cum Training on "New approaches in seed technology for quality assurance" from November 20-29, 2019 organized by CCS Haryana Agricultural University in collaboration with Massey University, New Zealand. |
| | | Attended "Annual learning and Teaching Conference" from July 08-10, 2019 at Aberystwyth University, Aberystwyth, United Kingdom. |
| **BOTANY AND PLANT PHYSIOLOGY** | | |
| 27. | Dr. Sarita Devi | Attended and presented paper in International Conference on "Climate changes towards health and agricultural sustainability" from February 18-20, 2019 organized by Department of Environmental Science and Engineering at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| | | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended International Congress on "Environmental research" from December 19-21, 2019 at Kalady, Ernakulam, Kerala, India. |
| 28. | Dr Anita Kumari | Attended SPARC-MHRD Sponsored International Workshop on "Molecular mapping of economic traits using high-throughput technologies" from July 08 - 17, 2019 organized by Department of Botany of Plant Physiology, College of Basic Sciences and Humanities at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended and presented paper in the International Symposium on "Innopreneurship: a need of sustainable agriculture" from February 02-03, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |

| | | |
|---|---|---|
| 29. | Dr. Sukham Madaan | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture - novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| **CHEMISTRY** | | |
| 30. | Dr. Anushree | Attended and presented paper in Silver Jubilee International Conference on "Physical and biological sciences at cross-roads: interdisciplinary explorations and exciting challenges" from December 29-31, 2019 at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| | | Attended "Induction training" from June 01- July 01, 2019 organized by the Academy of Agricultural Research and Education Management Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 31. | Dr. Sushila Singh | Attended International Symposium on "Innopreneurship: a need of sustainable agriculture" from February 02-03, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 32. | Dr. Anil Duhan | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 33. | Dr. Sonu Chauhan | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended and presented paper in Silver Jubilee International Conference on "Physical and biological sciences at cross-roads: interdisciplinary explorations and exciting challenges" from December 29-31, 2019 at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| | | Attended "Induction training" from June 01- July 01, 2019 organized by the Academy of Agricultural Research and Education Management Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 34. | Dr. Jayant Sindhu | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 35. | Dr. Vipan Kumar | Attended and presented paper in 3rd International Conference on "Innovations in science, engineering and technology" from November 09-10, 2019 organized by Department of Chemistry, Arya P.G. College at Panipat, Haryana, India. |
| 36. | Dr. Sachin Kumari | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended and presented paper in Silver Jubilee International Conference on "Physical and biological sciences at cross-roads: interdisciplinary explorations and exciting challenges" from December 29-31, 2019 at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| **LHC** | | |
| 37. | Dr. Krishna | अंतर्राष्ट्रीय संगोष्ठी मॉरीशस वह मातृभाषा सेवा मिशन के मॉरीशस के समाज साहित्य |

| | | |
|---|---|---|
| | Hooda | एवं भाषा का भारत पर प्रभाव जनवरी 28, 2019 हिंदी प्रचारिणी सभा कुरुक्षेत्र विश्वविद्यालय द्वारा आयोजित |
| | | राष्ट्रीय संगोष्ठी "मानव मूल्य और साहित्य" फरवरी 7, 2019 बाबा मस्तनाथ विश्वविद्यालय रोहतक के तत्वविधान में उत्तर प्रदेश भाषा संस्थान लखनऊ के सहयोग से आयोजित |
| 38. | Dr. Aparna | Attended and presented a lead paper in the National Seminar on "Innovative strategies for gender equality" on March 8, 2019 at I. C. College of Home Science, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Chaired Technical Session inInternational Seminar on "Indian writing in english: new trends and approaches: a global perspective" on February 11, 2019 at Department of English, Chaudhary Ranbir Singh University, Jind, Haryana, India. |
| | | Attended and presented paper in the Golden Jubilee & 14th International Annual Conference "Right to English" from 9 - 12 October 2019 at ELT@I Amity University, Noida, Haryana, India.. |
| 39. | Dr. Poonam Mor | Attended and presented poster in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended and presented poster in International Symposium on "Innopreneurship: a need of sustainable agriculture" from February 2-3, 2019at College of Agriculture, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended and presented paper in International Seminar on "Indian writing in english: new trends and approaches: a global perspective" on February 11, 2019 at Department of English, Chaudhary Ranbir Singh University, Jind, Haryana, India. |
| **COMPUTER SECTION** | | |
| 40. | Dr. Sheetal Choudhary | Attended and Paper presented in Golden Jubilee International Conference on "New Millennia Agriculture Novel Trends and Future Scenario" from Nov 6 -8, 2019 organized by CCS Haryana Agricultural University, Hisar and Co organized by India Meteorological Department, New Delhi |
| | | Attended and Paper presented in two days National Seminar on "Biodiversity : Issues, Challenges and opportunities" from July 16 – 17, 2019 organized by Department of Zoology & Aquaculture, COBS&H , CCS HAU Hisar |
| **MATH & STAT** | | |
| 41. | Dr. Manoj Kumar | Attended and presented a paper in Golden Jubilee International Conference on "New Milennia Agriculture Novel Trends and Future Scenario" held at CCS HAU, Hisar from November 6-8, 2019 |
| 42. | Dr. Vikash | Attended and presented a paper in National Seminar on "Mathematical Sciences and Applications (NSMSA 2019)" held at Maharshi Dayanand University Rohtak on December 22, 2019 |
| | | Attended and completed Induction Training Course held at CCSHAU, Hisar from June 01, 2019 to July 01, 2019 |
| | | Attended and completed the Faculty Development Program on "Deep Learning and Applications" held at IIT Roorkee from May 27-31, 2019 |
| 43. | Dr. Sarita Rani | Attended and completed Induction Training Course held at CCSHAU, Hisar from June 1, 2019 to July 1, 2019 |
| 44. | Dr. Manoj Kumar | Attended training on "Statistical Advances in Designing of Agricultural experiments and data analysis" held at IASRI, IARI-New Delhi from July 19, 2019 to August 08, 2019 |

| | | |
|---|---|---|
| **MOLECULAR BIOLOGY AND BIOTECHNOLOGY** | | |
| 45. | Dr. Nita Lakra | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended CAFT Training on "Next generation sequencing and its application to crop science" on September 03, 2019 organized by NRCPB at New Delhi, India. |
| | | Attended "Plant molevulat biology" from October 23-25, 2019 at Amsterdam, Netherlands. |
| **MICROBIOLOGY** | | |
| 46. | Dr. Leela wati | Attended National Workshop on "Production, processing and value addition of nutri-cereals (millets) in India" on September 19, 2019 organised by Bajra Section at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 47. | Dr. Baljeet Singh Saharan | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended Workshop on "Bio-analytical tools and techniques in the modern era of diagnostics" from April 13-14, 2019 at DNA Labs – A Centre for Applied Sciences (DLCAS) at Dehradun, Uttarakhand, India. |
| | | Attended National Seminar on "Biodiversity : issues, challenges and opportunities" from July 16-17, 2019 organized by Department of Zoology and Aquaculture, College of Basic Sciences and Humanities, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended "Induction training" from November 18 to December 17, 2019 organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended 13th National Symposium of IAUA on "Low budget natural farming" on September 20, 2019 at Gurukul, Kurukshetra, Haryana, India. |
| | | Attended Webinar on "Teaching and learning modes post covid – 19" on April 29, 2020 organized by Department of Electronics and Communication Engineering at Punjabi University, Patiala, Punjab, India. |
| 48. | Dr. Kamla Malik | Attended 6th World Congress on "Nanomedical Sciences from January 07-09, 2019 at Delhi, India. |
| | | Attended International Symposium on "Innopreneurship: A need of sustainable agriculture" from February 02-03, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India |
| | | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended Workshop on "Awareness and use of scopus citation databse" on November 29, 2019 organized by Nehru Library, at CCS Haryana Agricultural University, Hisar, Haryana, Hisar. |
| 49. | Dr. Anuj Rana | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended and presented paper in International Conference of Association of Microbiologist of India from November 15-18, 2019 at Central University of Haryana, Mahendargarh, Haryana, India. |

| | | |
|---|---|---|
| 50. | Dr. Meena Sindhu | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 51. | Dr. Monika Kayasth | |
| 52. | Dr. Poonam Ranga | |
| 53. | Dr. Shikha Mehta | Attended and presented paper in International conference on "Climate change towards health and agricultural sustainability" from February 18-20, 2019 organized by Department of Environmental Science and Engineering at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| | | Attended "Induction training" from June 01- July 01, 2019 organized by the Academy of Agricultural Research and Education Management Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 54. | Jagdish Parshad | Attended and presented paper in "Golden jubilee international conference on new millenia agriculture- novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 55. | Dr. Ajay Kumar | Attended and presented paper in International Conference of Association of Microbiologist of India from November 15-18, 2019 at Central University of Haryana, Mahendargarh, Haryana, India. |
| **PHYSICS** | | |
| 56. | Dr. Rita Dahiya | Attended "Golden jubilee international conference on new millenia agriculture-novel trends and future scenario" from November 06-08, 2019 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| **FST** | | |
| 57. | Dr. Anju Kumari | Attended and participated in international training on "Food processing" from the Department of Chemical & Materials Engineering, Faculty of Engineering, The University of Auckland, New Zealand under NHAEP- institutional development plan project (IDP) from April 01 to June 29, 2019 |
| | | Attended workshop on "Libraries and learning services" at The University of Auckland, New Zealand on May 20, 2019 |
| | | Attended workshop on "Literature review: organizing and writing" at The University of Auckland, New Zealand on May 27, 2019 |
| | | Attended workshop on "Academic writing: what examiners expect" at The University of Auckland, New Zealand on May 28, 2019 |
| | | Attended workshop on "Three minute thesis (3MT) preparation" at The University of Auckland, New Zealand on June 12, 2019 |
| | | Attended and participated in ICAR short course on "Role of hygiene in food safety and quality control" organized at LUVAS, Hisar from September 09-18, 2019 |
| | | Attended and presented poster inGolden jubilee international conference on "New millennia agriculture novel trends andfuture scenario" organized by CCSHAU, Hisar, India from November 06-08, 2019 |
| 58. | Dr. Rekha | Attended training on "IUMS admission and academics module" at committee room of COBS&H on May 29, 2019 |
| | | Attended national conference on "Capacity building on sustainable food value chains for enhanced food safety and quality" organized by National Productivity Council at New Delhi from August 21-22, 2019 |

| | | |
|---|---|---|
| | | Attended and presented poster inGolden jubilee international conference on "New millennia agriculture novel trends andfuture scenario" organized by CCSHAU, Hisar, India from November 06-08, 2019 |
| 59. | Dr. Ritu Sindhu | Attended "Induction training course" organized by the Academy of Agricultural Research and Education Management (AAREM) from June 01 to July 01, 2019 at CCSHAU, Hisar |
| | | 3rd International conference on "Global initiatives in agricultural and applied sciences for eco-friendly environment (GIASE-2019)" organized at Tribhuvan university, Kathmandu, Nepal from June 16-18, 2019. |
| | | Attended national workshop on "Production, processing & value addition of nutri-cereals (Millets)" in India organized by Department of Genetics & Plant Breeding, CCSHAU, Hisar and sponsored by Directorate of Millets Development, Ministry of Agriculture and Farmers Welfare, Govt. of India at CCSHAU, Hisar on September 16, 2019 |
| | | Attended and presented poster inGolden jubilee international conference on "New millennia agriculture novel trends andfuture scenario" organized by CCSHAU, Hisar, India from November 06-08, 2019 |
| **SOCIOLOGY** | | |
| 60. | Dr. Subhash Chander | Training attended on "Biodiversity Governance" held at SIRD-HIPA, Shimla (HP) organized by NIRD & Panchayati Raj, MoRD, Govt. of India from March 11-13, 2019. |
| | | Attended Three days Training of Traineers (ToT) programme on "Biodiversity Governance" from 11th to 13 March, 2019 at Himachal Pradesh Institute of Public Administration, Shimla (HP) |
| 61. | Dr. Rashmi Tyagi | Attended and presented paper in International Symposium on "Innopreneurship : A need of Sustainable Agriculture & Rao-Bahadur Dr. Ram Dhan Singh Fifth Memorial Lecture" from 2-3 February, 2019 at CCSHAU, Hisar |
| | | Attended Three days Training of Traineers (ToT) programme on "Biodiversity Governance" from 11th to 13 March, 2019 at Himachal Pradesh Institute of Public Administration, Shimla (HP) |
| | | Attended One day workshop on "Awareness and use of Scopus Citation Database" on 29th November, 2019 organized by Nehru Library, CCS HAU, Hisar |
| 62. | Dr. Vinod Kumari | Attended Three days Training of Traineers (ToT) programme on "Biodiversity Governance" from 11th to 13 March, 2019 at Himachal Pradesh Institute of Public Administration, Shimla (HP) |
| | | Attended National Workshop on Empowering Women through Legal Awareness from March 28-29, 2019 organized by Women's Studies Research Centre, Kurukshetra University, Kurukshetra |
| 63. | Dr. Jatesh Kathpalia | Attended One day workshop on "Awareness and use of Scopus Citation Database" on 29th November, 2019 organized by Nehru Library, CCS HAU, Hisar |
| 64. | Dr. Bas Kaur | Attended One day workshop on "Awareness and use of Scopus Citation Database" on 29th November, 2019 organized by Nehru Library, CCS HAU, Hisar |
| | | Attended Induction Training Course from 18 Nov, 2019 to 17 December, 2019 at DHRM, CCSHAU, Hisar. |
| **ZOOLOGY** | | |
| 65. | Dr. Tejpal | Successfully completed the 34th ICAR–CAFT course on 'Issues in export of |

| | | |
|---|---|---|
| | Dahiya | livestock and livestock products vis-a-vis SPS agreement' organized by the ICAR-Centre for Advanced |
| | | National seminar on Biodiversity Issues, challenges and opportunities held on July 16-17, 2019, organized by Department of Zoology & Aquaculture, COBS&H, Hisar 125004 |
| | | One-Day Alumni Meet held on July 18, 2019, organized by Department of Zoology & Aquaculture, COBS&H, Hisar 125004 |
| **2020** | | |
| **BOTANY AND PLANT PHYSIOLOGY** | | |
| 66. | Dr. Sarita Devi | Attended and presented paper in International Plant Physiology Virtual Conference on "Prospects of plant physiology for climate proofing agriculture" from December 06-07, 2020 organized by Sher-e-Kashmir University of Agricultural Science and Technology, Jammu, India and Indian Society for Plant Physiology, New Delhi, India. |
| | | Attended Training on "Advances in fodder production, utilization and conservation for improving livestock health, productivity and environmental sustainability" from August 20- September 09, 2020 organized by ICAR-Indian Grassland and Fodder Research Institute Regional Research Station, Srinagar and National Agriculture Development Cooperative Ltd. Delina, Baramulla, India. |
| 67. | Dr Anita Kumari | Attended and presented paper in International Plant Physiology Virtual Conference on "Prospects of plant physiology for climate proofing agriculture" from December 06-07, 2020 organized by Sher-e-Kashmir University of Agricultural Science and Technology, Jammu, India and Indian Society for Plant Physiology, New Delhi, India. |
| 68. | Dr. Sukham Madaan | Attended online Webinar on "Molecular taxonomy and DNA barcoding: concepts, methods and applications" on May 20, 2020 organized by Department of Botany at R.D. and S.H. National College and SWA Science college, Mumbai, Maharashtra, India. |
| **CHEMISTRY** | | |
| 69. | Dr. Anil Duhan | Attended and presented paper in Global Conference of South-South Cooperation Forum on "Food security and agro-biodiversity in times of covid-19 and climate change" from November 30 to December 02, 2020 organized by United Nations Environment Programme in collaboration with Global Alliance for the Future of The Food, Icimod, Ifad, Ifpri. |
| 70. | Dr. Sonu Chauhan | Attended and presented paper in 1st International Conference of Indian Science Congress Association- Rohtak Chapter on "Science and technology: Rural Development" from March 04-05, 2020 at Maharshi Dayanand University, Rohtak, Haryana, India. |
| 71. | Dr. Ravi Kumar | Attended National Webinar on "Awareness and use of CeRA resourses through J-gate discovery platform" on June 25, 2020 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| **LHC** | | |
| 72. | Dr. Krishna Hooda | Attended National Web Sangoshti on 'Contribution of Jambhani literature for Rajasthani language and literature' on November 11, 2020 organized by Jambhani Sahitya Academy, Bikaner, Rajasthan, India. |

| | | |
|---|---|---|
| | | Attended International Webinar on 'Australia meinhindiadhyapan pe khatra' on December 6, 2020 organised by Kendriya Hindi Sansthantatha Vishwa Hindi Sachivalaya. |
| 73. | Dr. Aparna | Attended "National level e-quiz on virtual learning during covid-19 crisis" from 03-05, July 2020 organised by the Post-Graduate and Research Department of English in collaboration with the Internal Quality Assurance Cell (IQAC), Chevaliar T. Thomas Elizabeth College for Women, Chennai. |
| | | Addressed the participants as Guest of Honour in the National Webinar on "Acquiring proficiency in english for everyday communication, written and oral" on July 15, 2020 organised by DAV Centenary College, Faridabad, Haryana, India. |
| | | Attended in online Quiz on 'English drama in the eighteenth century' on July 27, 2020 organised by Department of English, Kisan P.G. College, Bahraich, Uttar Pradesh, India. |
| | | Attended in online Quiz on 'English fiction in the eighteenth century' on July 27, 2020 organised by Department of English, Kisan P.G. College, Bahraich, Uttar Pradesh, India. |
| | | Attended a webinar on the topic "Bharat ki Swatantrata me Vaigyanikon ka Yogdan" on October 27, 2020organised by Vigyan Bharti (Hisar chapter), Haryana, India. |
| | | Attended and presented paper in Webinar "Culture-An Integral Part of Life" from May 19-21, 2020 organised by Government College, Dhaliara, HPU, Shimla, India. |
| | | Chaired Technical Session in a Webinar “Culture-an integral part of life” from May 19-21, 2020 organized by Government College Dhaliara, HPU, Shimla, India. |
| | | Course Director of Three Weeks Online Refresher Course On "Language skills” in collaboration with D.H.R.M from May 27-June 16, 2020 at D.H.R.M, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 74. | Dr. Poonam Mor | Course Co-ordinator of Three Weeks Online Refresher Course On "Language skills” in collaboration with D.H.R.M from May 27-June 16, 2020 at D.H.R.M, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended and presented paper in a webinar “Culture-an integral part of life” from May 19-21, 2020 organized by Government College Dhaliara, HPU, Shimla, India. |
| | | Attended and presented a paper in International Virtual Conference “Life culture and education today” on June 5-6, 2020 organized by Mahatma Gandhi Education & Welfare Society, Parbhani (M.S.), Late Ramesh Warpudkar ACS College, Sonpeth Dist. Parbhani (M.S.), Shri PanditguruPardikar College, Sirsala, Dist. Beed (M.S.) and Kala Mahavidyalaya, Nandurghat, Dist. Beed (M.S.), India. |
| | | Attended Webinar on “Awareness and use of e-resources through remote login” on June 23, 2020 conducted by Nehru Library, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended an Interdisciplinary National Conference on “Cinema, literature and society” on June 24, 2020 organized by D.N. P.G. College, Hisar, Haryana, India. |
| | | Attended Webinar on “Awareness and use of e-Resources through Mobile app” Nehru Library on December 18, 2020 Haryana, India. |
| | | Attended National Webinar on “Impact of covid-19 on higher education: new challenges” on June 10, 2020 organized by D.N. P.G. College, Hisar, Haryana, |

| | | |
|---|---|---|
| | | India. |
| | | Attended National Webinar on “Role of science and technology during covid-19 pandemic” on June 12, 2020 organized by D.N. P.G. College, Hisar, Haryana, India. |
| | | Attended National Conference on “Cinema, literature and society” on June 24, 2020 organized by D.N. P.G. College, Hisar, Haryana, India. |
| | | Attended National Webinar on Awareness and use of cera resources through j-gate discovery platform on June 25, 2020 in collaboration with consortium for eResources in Agriculture (CeRA) DKMA-ICAR , New Delhi at Nehru Library, CCS Haryana Agricultural University, Hisar , Haryana, India.. |
| 75. | Dr. Devender Singh | Attended and presented paper entitled "NEP:2020 Impact on Higher Education in technical session on November, 12-14, 2021 organized by R.K.S.D. College Kaithal,Haryana in Collaboration with MVSU, Mundri, Kaithal Haryana. |
| **COMPUTER SECTION** | | |
| 76. | Dr. Sheetal Choudhary | Attended and Paper presented in online National Seminar on “Mathematical Sciences : Repositories of Logical Thoughts and Analytical Tools” on December 22, 2020 organized by Dept. of Mathematics and Statistics, COBS&H, CCS HAU Hisar |
| **MATH & STAT** | | |
| 77. | Dr. Manoj Kumar | Attended and completed online refresher course on “Language Skills” held at Directorate of Human Resource Management, CCS HAU, Hisar from May 27, 2020 to June 16, 2020 |
| 78. | Dr. Sarita Rani | Attended and completed online refresher course on “Language Skills” held at Directorate of Human Resource Management, CCS HAU, Hisar from May 27, 2020 to June 16, 2020 |
| | | Attended one day workshop on “Digital Library for Strengthening Agricultural knowledge in NARES” held at CCSHAU, Hisar on February 12, 2020 |
| | | Attended and completed the refresher course on “Statistical Tools and Techniques for Analysis of Agricultural Data” held at CCSHAU, Hisar from 8th July 08-28, 2020 |
| | | Attended and presented a paper in online National Seminar on “Mathematical Sciences: Repositories of Logical Thoughts and Analytical Tools” held at Department of Mathematics and Statistics, CCSHAU, Hisar on December 22, 2020 |
| 79. | Dr. Vikash | Attended and completed the refresher course on “Statistical Tools and Techniques for Analysis of Agricultural Data” held at CCSHAU, Hisar from 8th July 08-28, 2020 |
| **MICROBIOLOGY** | | |
| 80. | Dr. Baljeet Singh Saharan | Attended “COVID-19 pandemic general awareness quiz program", on May 09, 2020 at Dev Bhoomi Institute of Pharmacy and Research, Dev Bhoomi Group of Institutions, Dehradun, Uttarakhand, India. |
| | | Attended International Webinar on “Emerging trends in physics and its applications in agriculture” on June 29, 2020 organized by Department of Physics, College of Basic Sciences and Humanities at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended International Webinar on “COVID-19 and beyond: future prospects in biotechnology” from July 08-09, 2020 organized by Department of Molecular and Cellular Engineering, Jacob Institute of Biotechnology and Bioengineering (JIBB) at Sam Higginbottom University of Agriculture, Technology and Sciences, Prayagraj, Uttar Pradesh, India. |

| | | |
|---|---|---|
| | Dr. Baljeet Singh Saharan | Attended International Webinar on "International funding for young researchers" on July 11, 2020 organized by Directorate of research, at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended National Webinar on "Awareness and use of CeRA resourses through J-gate discovery platform" on June 25, 2020 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended National Webinar on "Zero budget natural farming" from June 06-07, 2020 organized by Association of Plant Science Researchers (APSR) Plantica Foundation, Dehradun, Uttarakhand in association with Department of Agriculture, Amritsar Group of Colleges (AGC), Punjab, India. |
| | | Attended National Webinar on "Journal discovery platform (e- resource) J-gate" on June 04, 2020 organized by Nehru Library at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended Workshop on "Digital library for strengthening agricultural knowledge in NARES" on February 12, 2020 organized by Nehru Library, at CCS Haryana Agricultural University, Hisar in collaboration with Indian Agricultural Research Institute, New Delhi, India. |
| | | Attended Workshop on "Awareness and use of scopus citation database" on November 29, 2020 organized by Nehru Library at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended Training on "Educational technology" from December 18, 2019 - January 07, 2020 organized by the Academy of research and Education management, Directorate of Human Resource management at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended National Workshop cum Webinar on "Endogenous, exogenous and housekeeping genes as an internal controls for the optimization, standardization and validations of nucleic acid amplification technologies for SARS-Cov-2 and Swine Flu (H1N1) virus 2009 pandemics" from June 27-28, 2020 organized by DNA Labs-A Centre for Applied Sciences (DLCAS) at Dehradun, Uttrakhand, India. |
| | | Attended Refresher Course on "Statistical tools and techniques for analysis of agricultural data" from July 08-28, 2020 organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended 12th IFSDAA International Webinar on "Trends in technology for agriculture, food, nutrition, environment and health" on October 02, 2020 at Jagannath university, Delhi NCR, Haryana, India. |
| | | Attended Workshop on "Low budget natural farming" on March 12, 2020 organized by Directorate of Agriculture and Farmers Welfare, Government of Haryana at Gurukul, Kurukshetra, Haryana, India. |
| | | Attended International Webinar on "Translation regulation in eukaryotes: the role of regulatory networks and RNA epi transcriptome" on October 11, 2020 at Max Planck Institute for Biophysical chemistry, Gottingen, Germany. |
| | | Attended Faculty Development Programme on "Advances in bio techniques" from October 09-11, 2020 organized by Department of Biotechnology, Meerut Institute of Engineering and Technology, Meerut, Uttar Pradesh, India. |
| 81. | | Attended National Webinar on "Role of renewable energy technologies in conservation of energy" on December 14, 2020 organized by the ICAR-AICRP on EAAI, Department of Renewable Energy Engineering, College of Agricultural Engineering, University for Agricultural Sciences, Raichur, |

| | | |
|---|---|---|
| | | Karnataka, India. |
| | Dr. Kamla Malik | Attended Workshop on "Digital library for strengthening agricultural knowledge in NARES" on Februray 12, 2020 organized by Nehru Library at CCS Haryana Agricultural University Hisar, Haryana, India. |
| | | Attended Faculty Development Program on "Nanomaterials for energy harvesting and biomedical applications" from May 18-22, 2020 organized by Nanomaterials for photovoltaic and biomaterials laboratory (NPBL), Department of Humanities and Basic Sciences at Godavari Institute of Engineering and Technology, Rajamathendravaram, Andhra Pradesh, India. |
| | | Attended one day workshop on "Awareness and use of e-resources through remote login for faculty and students of CCS Haryana Agricultural University" on June 23, 2020 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended Webinar on "Women in bioenergy sciences-promoting the bioeconomy in the post-COVID era" on June 26, 2020 organized by Department of Biotechnology at New Delhi, India. |
| | | Attended Refresher Course on "Extension management" from December 11-31, 2020 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended training on "Virtual biogas training tour" from October 07-08, 2020 organized by Indian Biogas Association at New Delhi, India. |
| 82. | Dr. Shikha Mehta | Attended International Webinar on "Emerging trends in physics and its applications in agriculture" on June 29, 2020 organized by Department of Physics, College of Basic Sciences and Humanities at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 83. | Dr. Anuj Rana | Attended Refresher Course on "Statistical tools and techniques" from July 08-28, 2020 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended Induction training on "Teaching-learning pedagogy" from September 08-October 10, 2020 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Organized Twelve days International Indo-US-Afghanistan CAAI workshop on "Capacity development for agricultural innovation systems: agricultural research and climate-smart agriculture approaches" from March 07-18, 2020 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Organized Two days online Indo-US Afghanistan International workshop as Organizing Secretary on "Development of essential research capabilities: design, implement and perform analysis in applied research" from March 23-29, 2020 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Organized Three days online Indo-US Afghanistan International Workshop on "Integrated pest management" on September 14, 15 and 22, 2020 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Organized International Workshop on "Climate change" on July 16, 23, 30 and August 6, 2020 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 84. | Dr. Ajay Kumar | Attended One day workshop on "Digital library for strengthening agricultural knowledge in NARES" on February 12, 2020 organized by Nehru Library, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended "Induction training" from September 08 - October 08, 2020 conducted by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. |

| | | |
|---|---|---|
| | | Attended International Webinar on "COVID-19 infection: origin and transmission" on August 15, 2020 organized by Association of Microbiologists of India, Hisar, Haryana, India. |
| **PHYSICS** | | |
| 85. | Dr. Rita Dahiya | Attended one day Webinar on "Drone remote sensing in agriculture" on September 09, 2020 organized byIndian Society of Agro-Physics in association with Division of Agricultural Physics, Indian Council of Agricultural Research-Indian Agricultural Research Institute at New Delhi, India **.** |
| **FST** | | |
| 86. | Dr. Rekha | Attended webinar on "Food protection- science and strategies" organized by Association of Food Scientists & Technologists, India (AFSTI) on May 31, 2020 |
| | | Attended online training on "Advances in smart food processing technologies" organized by Centre for Advanced Agricultural Science and Technology for Climate Smart Agricultureand Water Management (CAAST-CSAWM), Mahatma Phule Krishi Vidyapeeth, Rahuri, Maharashtraunder National Agricultural Higher Education Project (NAHEP), ICAR, New Delhi from June04-15, 2020 |
| | | Attended webinar on "Computational techniques for applied sciences"organised by Department of Mathematics & Statistics, COBS&H, CCSHAU, Hisarunder National Agricultural Higher Education Project (NAHEP), ICAR, New Delhi, from July 06-07, 2020 |
| | | Attended online refresher online course on "Statistical tools and techniques for analysis of agricultural data" conducted by Academy of Agricultural Research and Education Management (AAREM), Directorate of Human Resource Management in collaboration with Department of Mathematics & Statistics, CCSHAU, Hisar from July 08-28, 2020 |
| | | Attended and participated in "Idea investors meet 2020" organized by ABIC, CCSHAU, Hisar on December 04, 2020 |
| | | Attended and presented paper in national seminar on "Mathematical science: repositories of logical thoughts and analytical tools" organized by Department of Mathematics & Statistics, COBS&H, CCSHAU, Hisar and sponsored by Haryana State Council for Science, Innovation & Technology, Panchkula, Haryana on December 22, 2020 |
| 87. | Dr. Anju Kumari | Attended massive open online courses (MOOC) on "Designing e-learning content" organized by ICAR-NAARM from July 01-31, 2020 |
| 88. | Dr. Ritu | Attended international web conference on "Perspective on agricultural and applied sciences in COVID-19 scenario" (PAAS-2020) jointly organized by the Agricultural & Environmental Technology Development Society (AETDS), U.S. Nagar, Uttarakhand, India; Bangladesh Agricultural Research Institute (BARI), Gazipur, Bangladesh; Shobhit Institute of Engineering & Technology (A NAAC Accredited, Deemed to be University), Meerut, India; Soils, Water and Environmental Res. Inst., (SWERI), Agriculture Research Centre, (ARC) Giza, Egypt, Rajiv Gandhi Central University, Itanagar, and Corteva agriscience from October 04-06, 2020 |
| | | Attended national seminar on "Mathematical science: repositories of logical thoughts and analytical tools" organized by Department of Mathematics & Statistics, COBS&H, CCSHAU, Hisar and sponsored by Haryana State Council for Science, Innovation & Technology, Panchkula, Haryana on December 22, 2020 |

| | | |
|---|---|---|
| **SOCIOLOGY** | | |
| 89. | Dr. Subhash Chander | Attended refresher course on "Language Skills" from May 27, 2020 - June 16, 2020. Held at CCSHAU, Hisar |
| | | Attended webinar on "Awareness and Use of e-Resources through Remote Login for Faculty and Students of CCS HAU" held at CCS HAU, Hisar on June 23, 2020 |
| 90. | Dr. Rashmi Tyagi | Refresher course on "Educational Technology" from December 16, 2019 to January 7, 2020 organized by DHRM, CCS HAU, Hisar |
| | | Attended Webinar on "Awareness and Use of e-Resources through Remote Login for Faculty and Students of CCS HAU" Hisar on 23rd June, 2020 organized by Nehru Library CCS HAU, Hisar |
| | | Attended National Webinar on "Awareness and Use of CeRA Resources through J-Gate Discovery Platform" on June 25, 2020 organized by Nehru Library CCS HAU, Hisar. |
| | | Attended Online Refresher course on "Language Skills" from 27thMay 2020 to June 16th 2020 at DHRM, CCSHAU, Hisar |
| 91. | Dr. Jatesh Kathpalia | Attended Webinar on "Awareness and Use of e-Resources through Remote Login for Faculty and Students of CCS HAU" Hisar on 23rd June, 2020 organized by Nehru Library CCS HAU, Hisar |
| | | Attended National Webinar on "Awareness and Use of CeRA Resources through J-Gate Discovery Platform" on June 25, 2020 organized by Nehru Library CCS HAU, Hisar. |
| 92. | Dr. Bas Kaur | Attended Webinar on "Awareness and Use of e-Resources through Remote Login for Faculty and Students of CCS HAU" Hisar on 23rd June, 2020 organized by Nehru Library CCS HAU, Hisar |
| | | Attended National Webinar on "Awareness and Use of CeRA Resources through J-Gate Discovery Platform" on June 25, 2020 organized by Nehru Library CCS HAU, Hisar. |
| | | Attended Online Refresher course on "Language Skills" from 27thMay 2020 to June 16th 2020 at DHRM, CCSHAU, Hisar |
| **ZOOLOGY** | | |
| 93. | Dr. Tejpal Dahiya | Successfully completed the 21 days National training course on 'Technology interventions towards transformation agriculture, sericulture, animal husbandry and allied sectors into sustainable enterprises for Atmnirbhar Bharat' from 11-31 October, 2020 organized by Agro Environmental Development Society, Majhra Ghat, Rampur, Uttar Pradesh. |
| | | Successfully completed the 'Ten days online faculty development program on teaching, learning and assessment conducted during 23 November to 03 December 2020 organized by Teaching Learning Centre, Central University of Rajasthan (TLC@CURaj). |
| **2021** | | |
| **BOTANY AND PLANT PHYSIOLOGY** | | |
| 94. | Dr. Sarita Devi | Attended International Plant Physiology Virtual Symposium on "Physiological interventions for climate smart agriculture" from March 11-12, 2021 organized by Indian Society for Plant Physiology (ISPP), National Academy of Agricultural Sciences (NAAS), Coimbatore, Society for Sugarcane Research and Development. |
| | | Attended Training on "Applications of statistical and econometric techniques in agriculture" from November 24-December 14, 2021 organized by Academy of |

| | | |
|---|---|---|
| | | Agricultural Research and Education Management, Directorate of Human Resource Management, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 95. | Dr Anita Kumari | Attended online Training on "Communication skills and technical writing" from February 03-23, 2021 organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended and presented paper in International symposium on "Plant biotechnology towards improving agri-food industry and healthcare products" from October 27-30, 2021 organized by Department of Bioengineering and Biotechnology at Birla Institute of Technology, Mesra, Ranchi, Jharkhand, India. |
| | | Attended online Refresher Course on "Education technology" from October 09-21, 2021conducted by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended and presented paper in the International Conference on "Advanced developments in chemistry and allied sciences", from December 16-17, 2021 organised by Department of Chemistry, Deenbandhu Chhotu Ram University of Science and Technology, Murthal, Haryana, India. |
| 96. | Dr. Sukham Madaan | Attended and presented paper in the International Conference on "Advanced developments in chemistry and allied sciences", from December 16-17, 2021 organized by Department of Chemistry, Deenbandhu Chhotu Ram University of Science and Technology, Murthal, Haryana, India. |
| **CHEMISTRY** | | |
| 97. | Dr. Jayant Sindhu | Attended and presented paper in the International Conference on "Advanced developments in chemistry and allied sciences", from December 16-17, 2021 organized by Department of Chemistry, Deenbandhu Chhotu Ram University of Science and Technology, Murthal, Haryana, India. |
| 98. | Dr. Ravi Kumar | Attended and presented paper in National Web Conference on "Sustaining pulse production for self-sufficiency and nutritional security" from February 09-11, 2021 organized by Indian Society of Pulses Research and Development (ISPRD) and ICAR-Indian institute of pulses research (IIPR), Kanpur in collaboration with Indian Council of Agricultural Research (ICAR), New Delhi. |
| 99. | Dr. Sachin Kumari | Attended and presented paper in International Conference on "Nanoscience and nanotechnology" from February 01-03, 2021 organized by Department of Physics and Nanotechnology, Sri Ramaswamy Memorial Institute of Science and Technology , India. |
| | | Attended International Symposium "Smart polymers: application in current scenario" from January 15-16, 2021 by Amity Institute of Applied Sciences in association with Asian Polymer Association at Noida, Uttar Pradesh, India |
| | | Attended and presented paper in 2nd International Conference on "Instigating research in materials, energy and environment" from October 06-07, 2021 at Department of Chemistry, Easwari Engineering College, Rampuram, Chennai, India. |

| LHC | | |
|---|---|---|
| 100. | Dr. Devender Singh | Attended and participated International Online Workshop series on 'Social and Emotional Learning in Early Years Education for Positive Life Outcomes' from January 18-23, 2021 conducted by HSNC University, Mumbai. |
| | | Attended Online Refresher Course on "Research Management" from 08-28 April, 2021 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended online Faculty Development Program on "Research Methodology"on Aug 2-6 2021 organized by DR D Y PATIL SCHOOL OF MANAGEMENT & DR D.Y. PATIL SCHOOL OF MCA. |
| | | Attended Capacity Building Programme "Data Analysis and Research Methodology in Social Sciences" from Sept. 03rd – 14th 2021 at the Dept. of Commerce, Alagappa University, Kraikudi |
| | | Attended National Training Workshop on "Research Article Writing and Plagiarism" on 18th Sept. 2021 organized by Zoology and Bitechnology Dept. and IQAC,. |
| | | Attended and participated in the FDP cum Workshop on "Personality Development" dated on December 14, 2021 organized by Department of Commerce in association with IQAC, Govt. Vikram College, Kachrod,Dist-Ujjain (M.P.). |
| | | Attended and participated in Webinar on 'Media: challenges and responsibilities in present context' on January 5,2021 organised by Dept. of Journalism and Mass Communication, GGN Khalsa College, Ludhiana. |
| | | Attended in International Webinar titled as 'Role of Community Media in Human Development' on January 6, 2021 organized by Dept. of Sociology, Parul University of Arts, Gujarat. |
| | | Attended an International Webinar titled as 'Changes in Bangladeshi Media & Impact of Pandemic' January 11, 2021 organized by Dept. of Journalism and Mass Communication, Parul University of Arts, Gujarat. |
| | | Dr. Devender Singh, Asstt. Prof. participated in the webinar on 'Characterization Techniques for Smart Matrials' from 15-16 January, 2021 organized by Dept. of Physics, COBS&H,CCSHAU, Hisar. |
| | | Presented a paper in National Webinar 'Feministic Approach in Indian English Literature' on 24th April 2021 organized by Department of English by Markanda National College Shahabad Markanda, Haryana. |
| | | Participated in all the five sessions of the National Webinar on 'Implementation of NEP 2020' on 16-06-2021 organised by Internal Quality Assurance Cell of our Instituion. |
| 101. | | Attended Web Samvaad on "Rang rangeelaprajatantra" on January 14, 2021 organized by 'Prayas Prakashan', Bilaspur, Chhatisgarh, India. |
| | | Attended International Webinar on 'Recent pandemic's environmental consequences, inter-relationships and solution in jambhani philosophy' dated June 4-5, 2021 organized by Giri Jambeshwar Environment Conservation Research Chair, Jainarayan Vyas University Jodhpur, Rajasthan |

| | | |
|---|---|---|
| | Dr. Krishna Hooda | Attended Tarang Sangoshthi on 'Hindi maankikaran: sudhucharan aur lekhan' on July 28, 2021 organised by Dept. of Hindi Vaishya Mahila College, Rohtak, Haryana, India. |
| | | Attended Online folk music workshop' from July 15-28, 2021 organised by DSW, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended online 'sangoshthi' on "Azadi ke pichhatarve varsh mein rajbhasaha hindi ki sthiti' on 31st August, 2021 organised by Hindi Prakoshtha, Nagaland Vishwavidyalaya, India. |
| | | Attended National Webinar on 'Role of a teacher as psychologist' on September 5, 2021organised by Surya College of Education, Kathua, Jammu and Kashmir, India. |
| | | Attended and participated in International Conference on 'Vishva shanti sthapnameinshrimadbhagwadgeeta ki prasangikta' from November 11-12, 2021 organised by Dept. of Youth and Cultural Affairs, Kurukshetra University, Kurukshetra, India. |
| | | Attended Webinar on 'New education policy, 2020: opportunity and challenges' (In the Context of Education and Teachers) on February 11, 2021 organised by Dept. of Education, University of Delhi; dated |
| | | Attended Webinar on 'Azadi ke 75 varshonmeinpatrakarita, shiksha ki dasha aur disha' on 22nd November, 2021organised by Integrated Society of Media Professionals, Lucknow, India. . |
| 102. | Dr. Aparna | Attended and Participated in 'Webinar-cum-seminar on teacher's role in nep implementation awareness, orientation, challenges and responses" on Feb. 24, 2021. organised by CCSHAU, Hisar in collaboration with BharatiyaShikshan Mandal & Nitiayog, India. |
| | | Attended and participated in National Webinar on "Implementation of NEP 2020 in HEI's" on June 16, 2021 organised by Internal Quality Assurance Cell - IQAC, B.S. Abdur Rahman Crescent Institute of Science and Technology Vandalur, Chennai, India. |
| | | Attended webinar on "Improving quality of Agricultural Research in India" on Wednesday 30 June, 2021organised by Elsevier, in collaboration with CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 103. | Dr. Poonam Mor | Attended and participated in National Webinar on "Implementation of NEP 2020 in HEI's" on June 16, 2021 organised by Internal Quality Assurance Cell - IQAC, B.S. Abdur Rahman Crescent Institute of Science and Technology Vandalur, Chennai, India. |
| | | Attended National Webinar on "Dr Ambedkar's role in empowerment of women in India" on Apr 13, 2021 at Nehru Library, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended webinar on "Improving quality of Agricultural Research" on 30 June, 2021organised by Elsevier & CCSHAU, Hisar CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | attended National Level e-Conference on "The story of story-telling: a study in the changing patterns of story-telling" on January 6, 2021 organized by the Dept. of English, Seva Bharati Mahavidyalaya, Kapgari, Jhargram, West Bengal and Dept. of English, Gourav Guin Memorial College, Chandrakona Road, Paschim Medinipore, West Bengal. |
| | | Attended National Webinar on "Gender concepts and definitions" on March 3, 2021 organised by Department of English, D.N.P.G. College, Hisar, Haryana, India. |

| | | |
|---|---|---|
| | | Attended and participated training on "Capacity building for extension workers" from August 16-19, 2021 organised by DHRM collaborative HAU-MANAGE, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 104. | Dr. Poonam Mor | Attended and participated in Online Webinar on "Challenges in higher education" on September 6, 2021 organized by GGN Institute of Management & Technology, Ghumar Mandi, Civil Lines, Ludhiana, India. |
| | | Attended and participated in an online National Webinar on "Interview skills and professional writings" on September 19, 2021 organized by ChanderdharGuleri Govt. Degree College Haripur Guler, District Kangra HP, India. |
| | | Attended and participated in Online Webinar on Awareness of Original (Urkund) Anti-Plagiarism Software Among Faculty And Pg Students of CCSHAU Sep 28, 2021 by Nehru Library, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended UGC sponsored 2-week Online Interdisciplinary Refresher Course on Sharpening Teaching Skills through Pedagogy Transaction and Evaluation from August 30 to November 12, 2020 organised by UGC-Human Resource Development Centre, Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| | | Attended 2-week Online Refresher Course in Languages, Literature & Cultural Studies (India, English & foreign Languages) under the UGC scheme from November 16-28 organised by UGC-Human Resource Development Centre, Kurukshetra University Kurukshetra, Haryana, India. |
| | | Attended 3-week Online Refresher Course in Research Management from 08-28 April, 2021 organised by the Academy of Agricultural Research and Education Management, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | **MATH & STAT** | |
| 105. | Dr. Manoj Kumar | Presented a paper in one day multidisciplinary National Conference on "Significance of Mathematics as an interdisciplinary subject" held at SKUAST-Kashmir, University of Kashmir and SKUAST-Jammu, J&K on Dec 22, 2021 |
| | | Presented a paper in Multidisciplinary International Conference on "Applied Statistics in Biological, Agricultural, Social and Medical Sciences" held at SKUAST-Kashmir, J&K from October 20-21, 2021 |
| 106. | Dr. Vikash | Attended and presented a paper in the 27th International Conference of International Academy of Physical Sciences (CONIAPS XXVII) on "Recent Advances in Solid Mechanics and Seismology" held at Kurukshetra University, Kurukshetra, India from October 26-28, 2021 |
| | | Attended and presented a paper in the 4th International Conference on Frontiers in Industrial and Applied Mathematics (FIAM-2021) held at SLIET Longowal, Punjab on December 21-22, 2021 |
| | | Participated & completed successfully online Elementary FDP on "Recent Developments in Mathematical Sciences and Engineering" held at Maharshi Dayanand University, Rohtak from December 22-26, 2021 |
| 107. | Dr. Sarita Rani | Attended and completed international workshop on "Advance Statistical Data Analysis using SPSS" held at Science tech Institute, lucknow, UP from September 21-27 , 2021 |
| | | Attende and presented a paper in 3rd International Conference on "Global Initiative in Agricultural, Forestry and Applied Sciences For food security, Environmental Safety and Sustainable Development (GIAFAS-2021)" Jointly Organized by the Agricultural & Environmental Technology Development Society (AETDS), U.S. Nagar, Uttarakhand, India; Shri Guru Ram Rai |

| | | |
|---|---|---|
| | | University, Dehradun, Uttarakhand, India; Department of Agronomy, Sher-e-Bangla Agricultural University, Dhaka, Bangladesh; Soil and Water Research Institute (SWRI), Karaj, Iran; Department of Soil Science, Faculty of Agro-Based Industry, UMK, Malaysia; College of Horticulture and Gardening, Yangtze University, P.R. China and Corteva agriscience at Shri Guru Ram Rai University, Dehradun, Uttarakhand, India from October 17-18, 2021 |
| **MOLECULAR BIOLOGY AND BIOTECHNOLOGY** | | |
| 108. | Dr. Nita Lakra | Attended 15 days short term Training Course from April 06-20, 2021 at Noida Institute of Engineering and Technology, Noida sponsored by DBT, New Delhi, India. |
| **MICROBIOLOGY** | | |
| 109. | Dr. Baljeet Singh Saharan | Attended National web Conference on "Sustaining pulse production for self-sufficiency and nutritional security" from February 09-11, 2021 organized by Indian Society of Pulses Research and Development and ICAR-Indian institute of pulses research, Kanpur in collaboration with Indian Council of Agricultural Research, New Delhi. |
| | | Attended Webinar on "Nano Biosensors: applications in healthcare diagnostics" on June 05, 2021 organized by Department of Biotechnology, School of Basic and Applied Sciences. |
| | | Attended "National conclave on natural farming" from December 14-16, 2021 at Anand Agricultural University, Anand, Gujarat, India. |
| 110. | Dr. Kamla Malik | Attended and presented paper in International Conference on "Microbial world: recent developments in health, agriculture and environmental sciences" from February 03-05, 2021 organized by The Energy and Resources Institute (TERI), University of Delhi (DU), Indian Agricultural Research Institute (IARI) and Indian National Science Academy (INSA). |
| 111. | Dr. Anuj Rana | Organized Two days online International Webinar on "Deep learning for detection and management of plant disease" from March 08-12, 2021 in collaboration with Jagannath university, Bahadurgarh, India and CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Organized Two days online Indo-US Afghanistan International workshop on "Training on agribusiness experiential learning" from April 05-06, 2021 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Organized Three days online Indo-US Afghanistan International workshop on "Basic and advance laboratory/farm technologies in agriculture" from June 28-30, 2021 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Organized International Webinar in the celebration of 'Azadi ka Amrit Mahotsava' on "What can the microbiome tell us about the conditions in agricultural soil" on September 29, 2021 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 112. | Dr. Meena Sindhu | Attended and presented paper in International Conference on "Microbial world: recent developments in health, agriculture and environmental sciences" from February 03-05, 2021 organized by The Energy and Resources Institute (TERI), University of Delhi (DU), Indian Agricultural Research Institute (IARI) and Indian National Science Academy (INSA). |
| | | Attended Refresher Course on "Research management" from April 08-28, 2021 organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. |

| | | |
|---|---|---|
| 113. | Dr. Monika Kayasth | Attended and presented paper in International Conference on "Microbial world: recent developments in health, agriculture and environmental sciences" from February 03-05, 2021 organized by The Energy and Resources Institute (TERI), University of Delhi (DU), Indian Agricultural Research Institute (IARI) and Indian National Science Academy (INSA). |
| | | Attended Refresher Course on "Research management" from April 08-28, 2021 organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended and presented paper in 1st International Conference on "Advanced developments in chemistry and allied sciences-2021" from December 16-17, 2021 organized by the Department of Chemistry at Deenbandhu Chhotu Ram University of Science and Technology, Murthal, Sonipat, Haryana, India. |
| 114. | Dr. Poonam Ranga | Attended and presented paper in International Conference on "Microbial world: recent developments in health, agriculture and environmental sciences" from February 03-05, 2021 organized by The Energy and Resources Institute (TERI), University of Delhi (DU), Indian Agricultural Research Institute (IARI) and Indian National Science Academy (INSA). |
| 115. | Dr. Shikha Mehta | Attended and presented paper in International Conference on "Microbial world: recent developments in health, agriculture and environmental sciences" from February 03-05, 2021 organized by The Energy and Resources Institute (TERI), University of Delhi (DU), Indian Agricultural Research Institute (IARI) and Indian National Science Academy (INSA). |
| | | Attended and presented paper in 1st International Conference on "Advanced developments in chemistry and allied sciences" from December 16-17, 2021 organized by the Department of Chemistry at Deenbandhu Chhotu Ram University of Science and Technology, Murthal, Sonipat, Haryana, India. |
| | | Attended Refresher course on "Applications of statistical and econometric techniques in agriculture" from November 24-December 14, 2021 organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management in collaboration with Department of Agricultural Economics at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 116. | Jagdish Parshad | Attended Gian Training on "Application of thermodynamic prediction for development of microbial biotechnological approaches" from November 12-21, 2018 organized by Department of Bio and Nano Technology at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. |
| | | Attended Refresher Course on "Research management" from April 08-28, 2021 organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended Twenty-one days National Training Course on "Opportunities in agriculture, animal husbandry and allied sectors for sustainable entrepreneurship and livelihood security" from July 01-21, 2021 jointly organized by Centre for Agribusiness Incubation and Entrepreneurship, Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, Gwalior (Madha Pradesh), India, National Bank for Agriculture and Rural Development (NABARD) Gwalior, M.P. and Agro-Environmental Developmental Society (AEDS), Majhra Ghat, Rampur, U.P., India. |
| | | Attended Webinar on "Improving quality of agricultural research in India" on June 30, 2021 organized by Research Academy. |

| | | |
|---|---|---|
| | | Attended Two days online Workshop on "Modern techniques of antibody production" from March 25-26, 2021 organized by Department of Veterinary Microbiology, Lala Lajpat Rai University of Veterinary and Animal Sciences, Hisar, Haryana, India. |
| 117. | Dr. Ajay Kumar | Attended and presented paper in International Conference on "Microbial world: recent developments in health, agriculture and environmental sciences" from February 03-05, 2021 organized by The Energy and Resources Institute (TERI), University of Delhi (DU), Indian Agricultural Research Institute (IARI) and Indian National Science Academy (INSA). |
| **FST** | | |
| 118. | Dr. Anju Kumari | Attended and presented paper in international conference on "Atamnirbhar Bharat: technological transformation and preparedness in post COVID world" at Deenbandhu Chhotu Ram University of Science and Technology, Murthal, Sonipat from March 22-23, 2021 |
| | | Attended international virtual conference on "Role of micronutrients-immunity and health" organised by Manav Rachna University from June18-19, 2021 |
| | | Attended online training on "Stress management" organized by ICAR-NAARM from July 01-06, 2021 |
| | | Attended conference on "Implementing strategies to achieve food security and food sustainable partnership: progress and challenges" organised by College of Food and Dairy Technology, Tamilnadu Veterinary and Animal Sciences University, Koduveli, Chennai from July 29-30, 2021 |
| | | Attended refresher course on "Applications of statistical and econometric techniques in agriculture" organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management in collaboration with Department of Agricultural Economics at CCSHAU, Hisar, Haryana, India from November 24 -December 14, 2021 |
| 119. | Dr. Rekha | Attended and participated in online elementary FDP on "Recent trends in nonthermal processing: prospects and challenges" conducted by IIFPT, Thanjavur and coordinated by AICTE Training and Learning (ATAL) Academy from October 04-08, 2021 |
| **SOCIOLOGY** | | |
| 120. | Dr. Subhash Chander | Attended seminar on "Teacher's role in NEP Implementation Awareness, Orientation, Challenges and Responses" held at CCS HAU, Hisar on February 24, 2021 |
| | | Attended training on "Effective Utilization and Training workshop on EBSCO E-books Academic Collection" held at CCSHAU, Hisar on May 7, 2021 |
| | | Attended seminar on "Improving Quality of Agricultural Research in India" held at CCSHAU, Hisar on June 30,2021 |
| 121. | Dr. Vinod Kumari | Attended One day webinar-cum-seminar on "Teacher's role in NEP Implementation Awareness, Orientation, Challenges and Responses" on 24.02.2021 organized by CCS HAU, Hisar in collaboration with BharatiyaShikshan mandal and Niti Ayog |
| | | Attended Training on "Effective Utilization and Training workshop on EBSCO E-books Academic Collection" on 07.05.2021 organized by EBSCO and Nehru Library, CCSHAU, Hisar |
| | | Attended Seminar on "Improving Quality of Agricultural Research in India" on 30.06.2021 organized by CCS HAU/Elsevier by Researcher Academy. |

| | | |
|---|---|---|
| 122. | Dr. Jatesh Kathpalia | Attended One day webinar-cum-seminar on "Teacher's role in NEP Implementation Awareness, Orientation, Challenges and Responses" on 24.02.2021 organized by CCS HAU, Hisar in collaboration with BharatiyaShikshan mandal and Niti Ayog |
| | | Attended Training on "Effective Utilization and Training workshop on EBSCO E-books Academic Collection" on 07.05.2021 organized by EBSCO and Nehru Library, CCSHAU, Hisar |
| | | Attended Seminar on "Improving Quality of Agricultural Research in India" on 30.06.2021 organized by CCS HAU/Elsevier by Researcher Academy. |
| 123. | Dr. Rashmi Tyagi | Attended One day webinar-cum-seminar on "Teacher's role in NEP Implementation Awareness, Orientation, Challenges and Responses" on 24.02.2021 organized by CCS HAU, Hisar in collaboration with Bharatiya Shikshan Mandal and Niti Ayog |
| | | Attended Training on "Effective Utilization and Training workshop on EBSCO E-books Academic Collection" on 07.05.2021 organized by EBSCO and Nehru Library, CCSHAU, Hisar |
| | | Attended Seminar on "Improving Quality of Agricultural Research in India" on 30.06.2021 organized by CCS HAU/Elsevier by Researcher Academy. |
| 124. | Dr. Bas Kaur | Attended One day webinar-cum-seminar on "Teacher's role in NEP Implementation Awareness, Orientation, Challenges and Responses" on 24.02.2021 organized by CCS HAU, Hisar in collaboration with Bharatiya Shikshan mandal and Niti Ayog |
| | | Attended Training on "Effective Utilization and Training workshop on EBSCO E-books Academic Collection" on 07.05.2021 organized by EBSCO and Nehru Library, CCSHAU, Hisar |
| | | Attended Seminar on "Improving Quality of Agricultural Research in India" on 30.06.2021 organized by CCS HAU/Elsevier by Researcher Academy. |
| **2022** | | |
| **BIOCHEMISTRY** | | |
| 125. | Dr. Nisha Kumari | Attended training on "International pedagogy" from November 15, 2021-February 14, 2022 at Texas A and M University, College Station, Texas, USA. |
| **BOTANY AND PLANT PHYSIOLOGY** | | |
| 126. | Dr Anita Kumari | Attended and presented paper in ISPP North Zonal Seminar on "Inter-disciplinary research strategies for climate resilient agriculture" on June 25, 2022 at ICAR-Sugarcane Breeding Institute, Regional Centre, Karnal, Haryana, India. |
| 127. | Dr. Vinod Goyal | Attended and presented paper in National Conference on "Managing weather and climate risks in agriculture" from March 24-26, 2021 at Srinagar, Jammu and Kashmir, India. |
| | | Attended and presented paper in 6th International Conference on "Current issues in agricultural, biological and applied sciences for sustainable development" from June 11-13, 2022 at Kalimpong Science Centre, Deolo, Kalimpong, Darjeeling, West Bengal, India. |
| 128. | Dr Sarita Devi | Attended and presented paper in ISPP North Zonal Seminar on "Inter-disciplinary research strategies for climate resilient agriculture" on June 25, 2022 at ICAR-Sugarcane Breeding Institute, Regional Centre, Karnal, Haryana, India. |
| 129. | Dr. Sukham Madaan | Attended and presented paper in ISPP North Zonal Seminar on "Inter-disciplinary research strategies for climate resilient agriculture" on June 25, |

| | | |
|---|---|---|
| | | 2022 at ICAR-Sugarcane Breeding Institute, Regional Centre, Karnal, Haryana, India. |
| | | Attended and presented paper in National Symposium on "Paradigm shift in cotton cultivation" from August 08-10, 2022 at Maharana Pratap University of Agriculture and Technology, Udaipur, Rajasthan, India. |
| **CHEMISTRY** | | |
| 130. | Dr. Anushree | Attended and presented paper in International Conference on "Integrated approaches in science and technology for sustainable future" from February 28-March 01, 2022 at J. C. Bose University of Science and Technology, Young Men's Christian Association University of Science and Technology, Faridabad, Haryana, India. |
| 131. | Dr. Sachin Kumari | Attended and presented paper in International Conference on "Advances in science and technology" March 09-10, 2022 at Rajarshi Chhatrapati Shahu College, Kolhapur, Maharashtra, India. |
| **LHC** | | |
| 132. | Dr. Poonam Mor | Attended and participated in the International Workshop on "National education policy (NEP) 2020: innovative teaching approaches" on February 5, 2022 by Vidya Bharati Uchcha Shiksha Sansthan, Vidharbh Region, Maharashtra in collaboration with Internal Quality Assurance Cell (IQAC), North-Eastern Hill University (NEHU), Shillong, Meghalaya, India and SVU Computer Centre, Sri Venkateswara University, Tirupati, Andhra Pradesh, India |
| | | Participated in 5-Days International online Workshop on "Academic Writing and Publishing" from January 17-21, 2022 organized by Tripura University, India. |
| | | Attended and presented paper in International Conference on "Peace, prudence and prosperity" from Aug, 5-6, 2022 at Apeejay Stya University, Gurugram, Delhi NCR, India. |
| | | Attended and presented paper in National Seminar "Professional development and quality enhancement in higher education through ICT (PDQEHE-2022)" on Sept 12, 2022 at NAAC Accredited Maharani Lakshmi Bai College, Hisar, Haryana, India. |
| | | Attended and presented paper in International Seminar on "Trends in american literature from transcendentalism to post-modernism: a reconsideration from indian perspective" from February 11-13 2023 in Ch. Ishwar Singh Kanya Mahavidyalaya, Fatehpur-Pundri, Kaithal, Haryana, India. |
| 133. | Dr. Devender Singh | Attended and presented paper in the International conference on Changing trends on diasporic literature from April 22-232022 organised by Department of English, Govt. College, Una(H.P), India. |
| | | Attended and presented paper in the International virtual conference dated on 22/04/2022 organised by P.G. Department of English, SGTB Khalsa College, Sri Anandpur Sahib,Punjab, India |
| | | Attended and presented paper in the International conference on "Peace ,Prudence and Prosperity" dated on 5-6 /08/2022 organised by School of Education, Centre for Liberal Arts & IQAC in collaboration with Gandhi Smriti & Darshan Samiti, Ministry of Culture, Govt. of India at ApeejayStya University, Gurugram, Delhi NCR. |
| | | Participated in an International webinar on Emerging Trends in Physics, College of Basic Sciences and Humanities, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended an international webinar on Human Rights and Society organized by IQAC and PG Dept.of Sociology Govt. Girls College, Ujjain. |

| | | |
|---|---|---|
| | | Attended and presented paper International conference on Advances in English Language Studies (ICAELS-2022) held on 14th to 15th October, 2022 organized by University of Engineering & Management, Jaipur, Rajasthan, India. |
| 134. | Dr. Aparna | Chaired a session and delivered a lecture in National Seminar on the "Professional development and quality enhancement in higher education through ICT (PDQEHE-2022)" on Sept 12, 2022.at NAAC Accredited Maharani Lakshmi Bai College, Hisar, Haryana, India. |
| **COMPUTER SECTION** | | |
| 135. | Dr. Sheetal Choudhary | Attended and Paper presented in online National Conference on "Mathematical Sciences for Applied and Agricultural Research" on February 22, 2022 organized by Dept. of Mathematics and Statistics, COBS&H, CCS HAU Hisar |
| **MATH & STAT** | | |
| 136. | Dr. Manoj Kumar | Attended and presented a paper in three days 73rd annual Conference on " Statistics and Machine Learning for Big data analytics" held at Sher-e-Kashmir University of Agricultural Sciences & Technology of Kashmir (SKUAST-K), Shalimar, Srinagar, Kashmir from November 14-16, 2022 |
| 137. | Dr. Vikash | Attended and presented a paper in National Conference "Mathematical Sciences for Applied and Agricultural Research" held at CCS HAU, Hisar on February 22, 2022 |
| | | Participated and completed successfully Global initiative of Academic Network (GIAN) course on "Stochastic Processes: Theory and Its Applications in Medical Sciences" held at Maharshi Dayanand University, Rohtak from March 14-18, 2022 |
| 138. | Dr. Sarita Rani | Attended and presented a paper in National Conference "Mathematical Sciences for Applied and Agricultural Research" held at CCS HAU, Hisar on February 22, 2022 |
| **MOLECULAR BIOLOGY AND BIOTECHNOLOGY** | | |
| 139. | Dr. Shikha Yashveer | Attended Refresher course on "Statistical methods and data analysis" from July 30-August 19, 2022 organized by Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 140. | Dr. Nita Lakra | Attended and presented paper in International Conference cum-Workshop on "Physiological and molecular mechanisms of abiotic stress tolerance in plants and physiological and molecular markers of abiotic stresses in plants" from October 26-November 04, 2022 at Department of Botany, University of Calicut, Kerala, India. |
| **BIOINFORMATICS AND COMPUTATIONAL BIOLOGY** | | |
| 141. | Dr. Navjeet Ahalawat | Attended Faculty Training on "Molecular Biology and Bioinformatics Tools and its application in Agriculture and Allied Sciences" September 08-21, 2022 organized by Centre of Excellence at Agri-Biotechnology, College of Biotechnology, Meerut, Uttar Pradesh, India. |
| **MICROBIOLOGY** | | |
| 142. | Dr. Leela wati | Attended and presented paper in National Symposium on "Paradigm shift in cotton cultivation" from August 09-10, 2022 at Maharana Pratap University of Agriculture and Technology, Udaipur, Rajasthan, India. |
| 143. | Dr. Baljeet Singh Saharan | Attended International Workshop on "Progress in adoption of sustainable agriculture in India: barriers and opportunities" from April 25–29, 2022 organized by National Institute Of Technology (NIT) Karnataka, Surathkal and Scheme for Promotion of Academic and Research Collaboration (Ministry of Education, GOI) |

| | | |
|---|---|---|
| | | Attended Workshop on "Panel discussion on production technology of *kharif* pulses and finalization of impact points" on July 12, 2022 at Saina Nehwal Institute of Agricultural Technology, Training and Education, CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended Joint Meeting of the Committee and Vice Chancellors of the State Agricultural Universities of Gujarat regarding "Finalisation of course curriculum on natural farming" on July 22, 2022 at Raj Bhavan, Gandhinagar, Gujarat, India. |
| | | Attended Training on "Pest surveillance" from August 22-26, 2022 at National Institute of Plant Health Management, Department of Agriculture, Cooperation and farmers welfare, Ministry of Agriculture and farmers welfare, Govt of India, Rajendranagar, Hyderabad, India. |
| | | Attended National Webinar on "Quit India movement to food secured India" on August 08, 2022 organized by Maharana Pratap University of Agriculture and Technology, Udaipur, Rajasthan, India. |
| | | Attended Webinar on "Natural farming in horticulture crops" on June, 15, 2022 at Horticulture Training Institute (HTI), Karnal, Haryana, India. |
| | | Attended Training on "Natural farming" from December 05-16, 2022 at Natural Farming Training Institute (NFTI), Gurukul, Kurukshetra, Haryana, India. |
| | | Attended Training on "Natural farming to master trainers of Gujarat state" from November 22-24, 2022 at Gujarat University of Natural Farming and Organic Agriculture, Halol, Gujarat, India. |
| 144. | Dr. Kamla Malik | Attended Training on "International pedagogy" from November 15, 2021-February 14, 2022 at Texas, A and M University, College Station, Texas, USA. |
| | | Attended Refresher course on "Statistical methods and data analysis" from July 30 to August 19, 2022 organized by Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Attended and presented paper in International Conference on "Water, agriculture, dairy and food processing for sustainable economy" from March 25-26, 2022 organized by University Corporated Resource Centre at Eternal University, Baru Sahib, Himachal Pardesh, India. |
| 145. | Dr. Anuj Rana | Organized and coordinated International Webinar in the celebration of 'Azadi ka Amrit Mahotsava' on "Antibiotic resistance in agro environments: epidemiology and microbial ecology" on May 24, 2022 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Organized and coordinated International Training and Webinar on "Reducing carbon emissions- simple solutions to complex problems- climate change" on June 03, 2022 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| | | Organized and coordinated International Training and Webinar in the celebration of 'Azadi ka Amrit Mahotsava' on "Your future after undergraduate or postgraduate degree" on September 09, 2022 at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| 146. | Dr. Meena Sindhu | Attended and presented paper in International Conference on "Water, agriculture, dairy and food processing for sustainable economy" from March 25-26, 2022 organized by University Corporated Resource Centre at Eternal University Baru Sahib, Himachal Pardesh, India. |
| 147. | Dr. Monika Kayasth | Attended and presented paper in International Conference on "Emerging materials for sustainable development" from October 09-11, 2022 jointly organized by Council of Scientific and Industrial Research - Central Scientific Instruments Organization at Chandigarh, India. |

| | | |
|---|---|---|
| 148. | Dr. Poonam Ranga | Attended and presented paper in International Conference on "Water, agriculture, dairy and food processing for sustainable economy" from March 25-26, 2022 organized by University Corporated Resource Centre at Eternal University Baru Sahib, Himachal Pardesh, India. |
| 149. | Dr. Shikha Mehta | Attended and presented paper in International Conference on "Emerging Materials For Sustainable Development" from October 09-11, 2022 jointly organized by Council of Scientific and Industrial Research - Central Scientific Instruments Organisation at Chandigarh, India. |
| 150. | Jagdish Parshad | Attended "World bio-sciences congress" from April 14-17, 2022 organized by Indian Society of Genetics, Biotechnology Research and Development and Hindustan College of Science and Technology, at Farah, Agra, Uttar Pradesh, India. |
| 151. | Dr. Ajay Kumar | Attended one-day Workshop on "Yoga for physical and mental wellbeing" on June 16, 2022 organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. |
| **FST** | | |
| 152. | Dr. Rakesh Gehlot | Attended online workshop on "Income Tax for DDO's "organized by Comptroller Office, CCSHAU, Hisar on Februrary 02, 2022 |
| | | Attended, participated and compiled the outcome of sectoral discussion on "Post harvest management, FPO and agribusiness" during workshop on "Haryana horticulture vision 2030 and 2047" held at CCSHAU, Hisar from June 06-07, 2022 |
| 153. | Dr. Rekha | Attended training on "Government e-marketing (GeM)" conducted by DHRM, CCSHAU, Hisar on February 11, 2022 |
| | | Attended and presented paper in national conference on "Mathematical sciences for applied and agricultural research" organized by Department of Mathematics & Statistics, CCSHAU, Hisar and HSCSI&T, Punchkula, February 22, 2022 |
| | | Attended workshop on "Awareness and use of scopus citation and indexing database and other e-resourses" for the faculty/scientists of the university organised by Nehru Library CCSHAU, Hisar on March 09, 2022. |
| 154. | Dr. Ritu | Attended workshop on "Awareness and use of scopus citation and indexing database and other e-resourses" for the faculty/scientists of the university organised by Nehru Library CCSHAU, Hisar on March 09, 2022. |
| | | Attended training on "Government e-marketing (GeM)" conducted by DHRM, CCSHAU, Hisar on February 11, 2022 |
| 155. | Dr. Anju Kumari | Attended refresher course on "Extension management" organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management, CCSHAU, Hisar, Haryana, India from May 04-24, 2022 |

# FOREWORD

All India Survey on Higher Education (AISHE) report 2020 reflected that the number of female students pursuing higher education in Haryana was more than the number of male students in the review period. The gender parity index i.e. female enrolment in higher education (18-23 years) stood at 122 females per 100 males for all categories and 124 per 100 males in scheduled caste (SCs) in 2019-20 in Haryana, as released by Union Ministry of Human Resource Development (HRD).

The AISHE report affirms that over a decade, the women in Haryana have not only caught up with men in higher education but have also outshined them. Though this ratio is higher than the national gender parity index, we, at CCSHAU, believe that consistent efforts in the direction of empowering women are imperative towards reducing gender discrimination and increasing women's role in nation building.

CCSHAU, Hisar is committed to the cause of higher education of women which is demonstrated by the increasing number of female students making the University as their preferred choice of studying various courses in the different departments of constituent colleges. Furthermore we are delighted to take note of the numerous accomplishments our female alumni have made in their area of expertise over all these years.

I.C. College of Home Sciences at CCSHAU is particularly noteworthy for the efforts it has made and continues to make in the direction of women empowerment. Its resolution to make the college one of the best for female seeking higher education is certified by the NIRF ranking 2022 where I.C.COHS has ranked 42 in college category. Along with the Bachelor's, Master's and Doctorate programmes that COHS offers to its students, the units on Experiential Learning in the college provide them with the requisite knowledge and skills to foray into entrepreneurial ventures.

The Self Study Report of COHS provides us an occasion to acquaint all the stakeholders with our aim towards a holistic approach to learning as well as our allegiance to contribute to the cause of women education and empowerment.

I appreciate the dedicated commitment of all the members concerned of various Committees in preparing this SSR.

**Prof. B. R. Kamboj**
Vice Chancellor
CCSHAU, Hisar

# PREFACE

It is my privilege to present this self-study report (SSR) for accreditation of I.C. College of Home Sciences. The task of preparing this report has accorded us with the opportunity to assess and analyse the progress our esteemed institute has made in the last five years. Additionally, it has also reinforced our pursuit for quality in all the pertinent areas.

Established in the year 1973 with an objective to empower women and communities, I.C. College of Home Sciences has come a long way to achieve its strategic ambitions. Its aim at providing multidisciplinary knowledge to the students for developing scientific and technical skills is bolstered by the finest infrastructure and state of the art equipment's set up in the college. Our alumni are employed in different sectors including academia (Government and Private Universities and colleges), Public services, Corporate houses and have also been setting up entrepreneurial ventures in their respective fields. The five department of the college: Extension Education and Communication Management, Foods and Nutrition, Family Resource Management, Human Development and Family Studies and Textile and Apparel Designing have been instrumental in our persisting quest to contribute to the growth of these five areas in particular and of the nation at large.

To compile the Self Study Report (SSR), a College SSR Committee was constituted which comprised of one faculty member each from five departments of the College. The Committee prepared SSR of College and different UG and PG Programmes. The procedure and guidelines issued by ICAR have been followed for preparing the SSRs and given format was followed in toto. The report is divided in seven parts – College SSR, UG Programme SSR and PG Programme SSRs (five).

This report is an outcome of dedicated hard work by the College SSR Committee, other faculty and staff associated in this process who held numerous meetings and discussions with all the stakeholders to review and compile the report. Under the valuable guidance of the Director, Human Resource Management, CCSHAU, Hisar and time to time discussion with all the Heads of the Departments, the course of the compilation steered positively to the final conclusion. It has been a remarkable team work.

The information contained in this document mostly pertains to the period 2018 to 2023. The encouraging leadership of Dr. B.R. Kamboj, Vice- Chancellor of CCSHAU, Hisar and Chairman, Steering Committee has contributed immensely in the finalization of this document. The inputs of the Director, Human Resource Management, Heads of the Departments, Nodal Officers and Members of SSR Committee at college level for preparing this Self Study Report for Accreditation -2023 are thankfully acknowledged.

Faculty and students of I.C. College of Home Sciences are eager to meet the Peer Review Team of the Indian Council of Agricultural Research during their visit to the institution. All faculty members, supporting staff, students and all stakeholders would be substantially benefited and enriched with Peer Review Team interactions.

I look forward to welcome and receive the Peer Review Team at the Institution.

**Prof. Manju Mehta**
Dean,
I.C. College of Home Sciences
CCSHAU, Hisar

# SELF STUDY REPORT OF I.C. COLLEGE OF HOME SCIENCES

The Indira Chakravarty College of Home Sciences (I.C. COHS) is located at main campus of the Chaudhary Charan Singh Haryana Agricultural University (CCSHAU), Hisar on National Highway No.10 at a distance of 170 Km. from Delhi, 2 Km. from the Railway Station and 3 Km. from the Bus Stand, Hisar. The I.C. College of Home Sciences is one of the six constituent colleges at main campus of CCSHAU, Hisar. The College was conceptualized by great visionary, Sh. A.L. Fletcher, ICS, the first Vice-Chancellor of the University and established in 1973. It has been renamed as I.C. College of Community Science in 2023 as per recommendations of 5$^{th}$ Deans' Committee. The College has successfully completed five decades of its existence with a glorious past, formidable present and a promising future. I.C. College of Home Sciences caters to the needs of women for higher education by providing relevant multi-disciplinary knowledge for developing scientific and technical skills in line with demands of job market and effective resource management for improved quality of life. The College has been playing an instrumental role in holistic development of community through its teaching, research and extension activities. The College continues to update its course curriculum from time to time as per guidelines of ICAR and mandate of the University. Besides teaching, the students are actively engaged in research and extension endeavor's. The College has gained a reputation for excellence and a proven record of students' success in the period of fifty years of its existence. The I.C. College of Home Sciences, CCSHAU, Hisar has consistently been in top fifty colleges of the country for the last three years as per MHRD ranking. It has received 49$^{th}$, 38$^{th}$ and 42$^{nd}$ NIRF ranking across India in 2020, 2021 and 2022, respectively.

## VISION

- To strive for creating change makers with scientific temperament to mobilize the community for attainment of sustainable goals
- To create equitable and sustainable community with focus on women led development

## MISSION AND GOAL

- To integrate the application of humanities, science and technology for improved quality of life and deal with real-life challenges
- To equip students with skill and opportunities to become self-reliant
- To develop and commercialize technologies through researches in niche areas

## OBJECTIVES

- To develop abilities for effective resource management and improved quality of life
- To groom students for multiple role performance
- To develop knowledge, skills and competencies among students to excel in personal and professional arena
- To enlighten students for equitable and sustainable women led development

The College offers B.Sc., M.Sc. and Ph.D. programmes. Presently, undergraduate degree programme of four year's duration leading to B.Sc. (Hons.) Community Science is being offered by the College. PG and Ph.D. programmes are offered in all the five disciplines i.e., Extension Education and Communication Management (EECM), Foods and Nutrition (FN), Family Resource Management (FRM), Human Development and Family Studies (HDFS) and Textile and Apparel Designing (TAD). The special feature of B.Sc. (Hons.) Community Science programme is that Student READY Modules are offered by all the five departments of the College for final year students and the students have to opt for anyone. To strengthen the knowledge and skill acquired in the respective area of specialization and to have the experience of real working environment, students undergo 12 weeks industrial training in related industries/organizations.

The I.C. College of Home Sciences has a galaxy of experienced faculty who constantly strive for excellence in teaching, research and extension. Faculty members keep themselves abreast with latest knowledge and skills through participation in trainings, seminars, workshops, conferences and have been honoured with prestigious awards at various National and International platforms. The excellent infrastructural facilities available in the College like theatre type lecture halls equipped with IT facilities, air-conditioned examination hall, five smart class rooms, well-equipped auditorium, air-conditioned computer labs, library with large number of books and periodicals, video studio, departmental subject related labs, experiential learning labs etc. provide conducive teaching-learning environment. The College provides excellent facilities for co-curricular activities that go a long way for all round development of students. A Centre of Excellence on 'Processing and Value Addition of Pearl Millet for Nutritional Security' has been established in the Department of Foods and Nutrition.

| YEAR | MILESTONES |
|---|---|

**Infrastructure/Facilities available in the Dean's Secretariat:**

The College has sufficient infrastructure to meet the demand of increasing number of students seeking admissions under UG and PG programmes. The College has theatre like Lecture Halls, Smart Class Rooms, fully air-conditioned Examination Hall, Conference Room and IT enabled air-conditioned College Computer Lab, Committee Room and Exhibition Hall. Potable water supply is ensured through ROs and Aqua guards fitted with water coolers. The water coolers and tanks are cleaned as per specified schedule. The College has a committee headed by senior faculty member to look after the maintenance and cleanliness of premises. There are sufficient number of Lecture Rooms, office space and laboratories to accommodate the faculty, staff members and students. Total five parking spots are available on both entrance gates of the College to provide hassle free parking to all students, faculty and staff members.

| Offices | Infrastructure / facilities available |
|---|---|
| **Dean's Office** | Computers-02, Printers-03, Phone-01, CCTV monitors-03, ACs-02, Tables-03, Chairs-09, Sofa Sets, Cupboard-01. Kitchen with Water dispenser-01, Microwave oven-01. Attached washroom. |

**6.5.1.2. Monitoring Mechanism for Quality Education:** *Whether the College is having an internal quality assurance system, with appropriate structure and processes, and with enough flexibility to meet the diverse needs of the stakeholders which is required for planning, guiding and monitoring quality assurance and quality enhancement activities of the Colleges. How effectively monitoring of teaching, research and extension across the departments is being conducted? Mention the impact of monitoring on the outcome of the College with reference to students' excelling in academics, research and extracurricular activities.*

Yes, the College has an Internal Quality Assurance System with appropriate structure and processes for planning, guiding and monitoring quality assurance and quality enhancement of teaching, research and extension activities. An Internal Quality Assurance Committee has been constituted at College level comprising of the following members:

- Dr. Manju Mehta, Dean, COHS — Chairperson
- Dr. Neelam M. Rose, HOD, TAD — Member
- Dr. Beena Yadav, HOD, EECM — Member
- Dr. Sangeeta C Sindhu, HOD, FN — Member
- Dr. Kiran Singh, Principal Scientist, FRM — Member
- Dr. Meena Siwach, Principal Extension Specialist, KVK Rohtak — Member
- Dr. Sudesh Gandhi (Retd. Professor) — External Expert
- Dr. Krishna Khambra (Retd. Professor) — External Expert
- Ms. Nisha Garg, Assistant Registrar — Member
- Dr. Saroj Yadav, Assistant Professor — Member-Secretary

Two bodies i.e., Board of Studies (BoS) at College level and Departmental Advisory Committee (DAC) at Departmental level are responsible for quality assurance in course curriculum, research and extension activities to be conducted by the College and Departments, respectively. For monitoring quality assurance and enhancement activities of the College, different committees such as Academic Affairs Committee, Steering & Equivalence Committee, Time Table and Date-sheet Committee, Institutional Ranking Committee, Post Clearance Committee, College Cultural Forum, College Disciplinary Committee, College Magazine Editorial Committee, Flying Squad, DHAKAD team College Building Maintenance Committee, Landscaping & College Beautification Committee etc. have been constituted.

**Monitoring of Teaching:**

- There is a system of annual Self-Assessment Report (SAR) for teaching faculty and Confidential Report (CR) for non-teaching staff. SARs are reviewed by the Controlling Officer for performance appraisal and finally approved by the Vice-Chancellor.
- The performance of the faculty is also reviewed on the basis of results and feedback from the students.
- Faculty advisor is assigned to each fresh student admitted under UG programme of the College. The advisor is responsible for monitoring and guiding academic and other activities of the allotted students throughout their degree programme. The advisor also maintains regular communication with the allotted students pertaining to their performance and personality development. Tutorial classes are held at 12:00 o'clock every Monday, wherein students get an opportunity to discuss their personal and academic problems with the allotted faculty advisor.
- Final year students of B.Sc. (Hons.) Community Science are placed in different institutions/industries for In-plant training. Teachers visit these institutions during training period of students and have interaction with authorities of the institutes. Any suggestions provided by them are incorporated in the course curriculum.
- Programme of work, synopsis and thesis work of PG students are approved in Students' Advisory Committee. The credit seminar, synopsis seminar, thesis seminar and viva-voce examination of PG students are attended by the students' advisory committee, faculty members and students for open house discussion and suggestions on the topic. The synopsis is evaluated by internal experts and all the suggestions are incorporated before submission to the Dean, PGS for final approval.
- CCTV cameras have been installed in all the Lecture Halls, Teaching Labs and Examination Hall for online monitoring of teaching activities and ragging menace.
- For improvement in teaching and learning, the College regularly organizes online/offline seminars and invited lectures to give extensive exposure to the faculty as well as students.
- Best facilities and extremely conducive environment are provided to the staff as well as students to make the learning process an exemplary experience. Course lectures are made interactive and interesting through IT enabled presentations, group discussions and exercises. Students are motivated to work hard and attend their classes regularly. Every student is required to attend at least 75% of the lectures delivered and practical conducted in each course, being eligible to appear in the examination as per Rule 6, Chapter I, University Calendar Volume II.
- The utilization of funds in different departments is periodically monitored by the respective controlling officer through a series of department wise technical and financial review meetings.
- Annual teaching reports are prepared to review the activities undertaken by the Departments as well as the College.

**Monitoring of Research:**

- There are well defined thrust areas of research for each department. Research experiments are planned by the faculty in accordance with these thrust areas.
- Technical plan of research work of faculty is discussed in-house in the departmental meeting followed by discussion and approval in the meeting of Technical Programme of Research Work chaired by the Director of Research.
- In Annual Technical Programme meetings, faculty members present research outcomes of experiments planned under different schemes operational in the department. These meetings are convened under the Chairmanship of Director of Research along with ADR, Dean COHS, HODs

of the College and related departments to review and monitor the research work carried out in all the five departments of the College.

- Mid-term appraisal meetings are held to review the research work technically and financially. Modifications, if any are done as per constraints and requirement of the faculty.
- The utilization of funds in different departments is periodically monitored by the respective controlling officer through a series of department wise technical and financial review meetings.
- Annual research reports are prepared to review the activities undertaken by the Departments as well as the College.

**Monitoring of Extension:**

- Extension activities to be conducted by faculty members are planned in the Departmental Advisory Committee. The extension activities are monitored by the respective HODs.
- There is faculty extension in-charge at department as well as college level to coordinate extension activities.
- Feedback of stakeholders is obtained for future improvements.

There is a suggestion box in the premises of Dean's office for garnering students' feedback and suggestions. These suggestions are conveyed to the concerned faculty members and HODs. The stakeholders' feedback on the overall performance and quality of the College Services is obtained through periodical interactive meetings with parents, field functionaries from line departments, farmers and alumni. The teachers get informal feedback from the students based on suggestions and observations of their parents.

**Impact:**

Impact of monitoring on the outcome of the College in the form of improved students' performance in JRF/SRF/NET and other competitive examinations, different awards received by the students in academics, sports and cultural activities and increase in placement of students was observed.

- Total 137 students cleared various competitive examinations and were recipients of JRF/SRF/NET/NTS.
- During the period under report, 87 students got placement in SAUs, Colleges, Schools etc. in Haryana and other states.
- The students also excelled in academic pursuit and 24 students were recipient of Academic Gold Medal at College and University level.
- Due to concerted efforts of the College for all round development of the students, 17 Gold Medal were received by the NCC Cadets, NSS volunteers and College athletes at University, State and National level.

**Note: Details included in Section 6.5.7. from Pages 75 to 86.**

**6.5.1.3. CC/Board of Studies:** *Whether the CC in the Department level and Board of Studies at the College is in place? The composition of the BoS and date of conduct of meetings for last five years and major recommendations made by the BoS should be given in tabular form.*

I.C. College of Home Sciences has Departmental Advisory Committee **(**DAC) at the Department level and Board of Studies at College level.

**Departmental Advisory Committee:** The Departmental Advisory Committee (DAC) is constituted with the approval of the competent authority for rendering advice to manage teaching, research and extension within each department of the College. The tenure of the committee is two years.

**Composition of DAC:**

1. HOD (Chairperson)
2. Professor (Member)
3. Associate Professor/Scientist (One Member each from teaching and research stream)
4. Assistant Professor/Scientist (One Member each from teaching and research stream)

Member Secretary is nominated by the HOD from the approved DAC members.

**Board of Studies (BoS):** The College has a Board of Studies which has the responsibility of academic affairs such as proposing new courses of studies, number of seats for various degree programmes, eligibility for admission, curricula modification etc. for various programmes offered by the College. The Board of Studies also review the standards of teaching regularly.

**Composition of BoS:** The Dean of the College is the Chairperson and Heads of all the five departments of the College are the members of BoS. One Head of the Department from any other College of the University is the Vice-Chancellor's nominee. The composition of BoS of the College is as follows:

| | |
|---|---|
| Dean, I.C. College of Home Sciences | Chairperson |
| Head, Dept. of Extension Education and Communication Management | Member |
| Head, Dept. of Family Resource Management | Member |
| Head, Dept. of Human Development and Family Studies | Member |
| Head, Dept. of Foods and Nutrition | Member |
| Head, Dept. of Biochemistry, College of Basic Sciences & Humanities | Member |
| Head, Dept. of Textile and Apparel Designing | Member-Secretary |

**Date of conduct of meetings during last five years and major recommendations made by the BoS are given below:**

| Year | Date | Recommendations of BOS |
|---|---|---|
| **2018-19** | 17.12.2018 | • Admission to M.Sc. degree programme in different disciplines of Home Science be also given to candidates with UG degree in respective subject. |
| | 25.01.2019 | • Suggested changes for submission of synopsis and format of PG and Ph.D. thesis. |
| | 11.06.2019 | • Proposal for skill courses on 'Self Employed Tailor' and 'Graphic Designing' for participation in PMKVY scheme. |
| | 11.06.2019 | • The addition/amendments were proposed for registration of FN-491/ FRM-491/ HDFS-491/HECM-491/TAD-491, Rural Agricultural Work Experience and Industrial Attachment in Community Science for the students of B.Sc. (Hons.) Community Science admitted from 2017-18 onward. |
| **2019-20** | 20.11.2019 | • Admission policy for the year 2020-21 regarding number of seats and eligibility for admission to different degree programmes of the College. |
| | 03.02.2020 | • Minor revisions in admission policy 2020-21 were suggested and finalized. |
| | 20.02.2020 | • Approval of three month's certificate course on 'Entrepreneurship in Value Added Food Products' proposed by Department of Foods and Nutrition.<br>• Minor amendments/additions were proposed in existing rule 11.4 of Chapter I in University Calendar Volume II regarding repeat non-teaching courses of undergraduate students. |

| | | |
|---|---|---|
| **2020-21** | 13.08.2020 | • In accordance to academic support programme for SC students launched by UGC, faculty members were nominated to identify the students' academic deficiencies and devise academic support programme according to their actual requirements. |
| | 21.01.2021 | • Minor revisions in admission policy 2021-22 were suggested and finalized. The essential qualification for admission to Ph.D. programmes should be Master's Degree with thesis/dissertation in partial fulfilment of the degree. Approval of proposed changes in syllabus for entrance exam of Ph.D. FRM. |
| | 24.02.2021 | • According to 'Roadmap for Implementation of National Educational Policy-2020' 10% seats were increased in all the UG and PG programmes from academic session 2021-22. |
| | 12.03.2021 | • Proposal for opening of College of Home Sciences at CCSHAU Bawal Campus of the University. |
| **2021-22** | 08.02.2022 | • Admission policy for the year 2022-23 regarding number of seats and amendment in prospectus 2022-23. |
| | | • Restructuring of Masters' and Doctoral course curricula and syllabi of all the disciplines were discussed in light of BSMA recommendations and minor changed were included in the proposal. |
| | | • Change of nomenclature of Departments of Textile and Apparel Designing and Family Resource Management as per BSMA academic regulations. |
| **2022-23** | 16.01.2023 | • Name of the I.C. College of Home Sciences was suggested to be changed to I.C. College of Community Sciences.<br>• Change of nomenclature of post graduate degree programmes as per BSMA academic regulations. |

**6.5.1.4. Anti-Ragging Cell:** *In pursuance to the Judgment of the Hon'ble Supreme Court of India dated 08.05.2009 in Civil Appeal No. 887/2009, the University Grants Commission has framed "UGC Regulations on curbing the menace of ragging in higher educational institutions, 2009" which have been notified on 4th July, 2009 in the Gazette of India. Does the College follow this regulation and subsequent guidelines issued in the matter in letter and spirit? Give details.*

Yes, the College follows the regulation and subsequent guidelines issued in the matter. There is an Anti-Ragging committee under the chairmanship of the Dean, I.C. College of Home Sciences for curbing the menace of ragging. Contact Numbers of Anti-Ragging Committee are prominently displayed at Notice Boards of the hostels and College.

**Composition of Committee:** The Anti-Ragging Committee is constituted by the Dean, I.C. College of Home Sciences in consultation with the Director Students' Welfare comprising of following members**:**

| Name | Mobile No. |
|---|---|
| **Chairperson:** Dr. Manju Mehta, Dean, COHS | 9416217149 |
| **Coordinator:** Dr. Seema Rani, Professor, EECM | 9416397605 |
| **Members:** | |
| • Dr. Beena Yadav, Prof. & Head, EECM, Member | 9466533964 |
| • Dr. Neelam M. Rose, Prof. & Head, TAD, Member | 9560446939 |
| • Dr. C.K. Singh, Prof. & Head, HDFS | 9416928882 |
| • Dr. Sangeeta C. Sindhu, Assoc. Prof. & Head, FN | 9416687102 |
| • Dr. Kiran Singh, Professor, FRM | 9416345454 |

| • Dr. Promila K. Chahal, Assistant Professor, FRM, Class Incharge | 9896270928 |
| • Dr. Parul Gill, Assistant Scientist, TAD, Class Incharge | 9416792986 |

| | |
|---|---|
| • Dr. Santosh Rani, Assistant Scientist, EECM | 9053458962 |
| • Mrs. Asha Rani, Hostel Warden, New Wing, Gangotri Hostel | 9053068410 |
| • Dr. Nidhi Kamboj, Hostel Warden, Additional Wing, Gangotri Hostel | 8572848523 |
| • Dr. Kavita, Hostel Warden, Women Scholar Hostel | 7988361695 |
| • Dr. Baskaur, Hostel Warden, Old Wing, Gangotri Hostel | 8708955591 |
| • Sh. Sukhbir Singh, Chief Security Officer | 9416181816 |
| • Hostel Security | |
| **Professional Counsellors:** | |
| • Dr. C. K. Singh, Prof. & Head, HDFS | 9416928882 |
| • Dr. Vinod Kumari, Prof. & Head, Sociology | 9416305511 |
| **UG Mentors:** | |
| • Ms. Bhavya Sandhu | 8053157068 |
| • Ms. Kismat | 7494861614 |
| • Ms. Mahak Kaushik | 7015497835 |
| • Ms. Neha | 9813287120 |
| • Ms. Vidhi | 8168318113 |
| **PG Mentors:** | |
| • Ms. Mini | 9416042626 |
| • Ms. Madhu Priya | 9470851588 |
| • Ms. Rajni | 8059970367 |
| • Ms. Kritika | 9255203472 |
| • Ms. Kanti Ghimire | 9729523668 |
| **Non-teaching staff:** | |
| • Sh. Anil Duhan, Assistant | 9671781184 |
| • Sh. Babu Ram, Assistant | 9466479518 |
| • Ms. Ritu Rani, Junior Scale Stenographer | 8708732986 |
| **Parents:** | |
| • Sh. Murari Lal | 7015497835 |
| • Sh. Surat Suraj Singh | 9813287120 |

## Activities of the Committee

1. All the members, UG and PG mentors are put on round the clock duty on rotation basis to monitor and implement anti-ragging measures to maintain peaceful atmosphere.
2. All the first year students are informed about anti-ragging committee is constituted as per UGC regulations on curbing the menace of ragging in the University.
3. Leaflets are distributed among fresh students at the time of admission having names, address and telephone numbers of Anti-Ragging Committee members.
4. Wide publicity regarding anti-ragging helpline numbers, punishment provisions, zero tolerance policy for ragging etc. is done by displaying Posters and Boards in the College premises and surrounding areas.
5. At the time of physical counselling for admission, the newly admitted students and their parents are addressed by the Convener of Anti-Ragging Committee about the measures adopted by the University to curb the ragging menace.
6. Ice breaking sessions of freshers with seniors are organized by the Liaison officers and class in-charges.

**Preventive measures taken by the College to prevent ragging:**

- Ragging is strictly banned in the University. The University has adopted the UGC Regulations on Curbing the Menace of Ragging in Higher Educational Institutions, 2009 as well as the directions of the Hon'ble Apex Court.
- Before the commencement of the academic session, the Dean convenes a meeting of Hostel Wardens, representatives of students, parents/guardians and faculty members to discuss the measures to be taken to prevent ragging in the College.
- It is mandatory to submit an Affidavit/undertaking by old and fresh students as well as their parents mentioning that they will not engage in any ragging related activities.
- Frequent sessions are organized to create awareness among senior students regarding the consequences of indulgence in ragging.
- The committee identifies and keeps a close watch on ragging prone locations to be vulnerable to occurrence of ragging incidents. Faculty members take regular rounds and surprise visits of different locations in the College to check ragging activities.
- Security is provided in the College premises, especially at vulnerable places by Anti-Ragging Squad during first few months of each academic session.
- The College engages professional counsellors for counselling of the freshers.
- Orientation programme is scheduled for:
  (i) Sensitization and counselling of fresh and senior students.
  (ii) Address by the Chairperson and Coordinator of Anti-Ragging Committee.
  (iii) Cultural and other activities are organized to provide a common platform for the fresher's and seniors to interact in the presence of faculty members.

**Note: No incidence of ragging has been reported in the I.C. College of Home Sciences during the last five years.**

**6.5.1.5. Biological waste disposal facility:** *Whether wastes (chemical, biological, radioactive, universal, and recyclable) are generated by a variety of research, clinical, service, maintenance, and cleaning operations at the College level? If yes, then mention the disposal mechanism being adopted as per the government guidelines*

The University has Institutional Bio Safety Committee (IBSC) registered with Department of Biotechnology, Ministry of Science and Technology, registered by Gazette Notification with Registration No. D-221. The University takes care of safety aspects and biological waste disposal generated during research, maintenance and cleaning operations of the College. The Bio Safety Committee (IBSC) duly approved from Department of Biotechnology, Ministry of Science and Technology is as follows:

| S. No. | Name, Designation & Present affiliation | Composition |
|---|---|---|
| 1. | Dr. Jeet Ram Sharma, Director of Research, CCSHAU, Hisar | Chairman |
| 2. | Dr. Priti Malik, Lady Medical Officer, CCSHAU, Hisar | Biosafety Officer |
| 3. | Dr. Sushila Mann, Professor, Dept. of Animal Biotechnology, LUVAS, Hisar | Outside Expert |
| 4. | Dr. Neeraj Kumar, Dean, COBS&H, CCSHAU, Hisar | Internal Member |
| 5. | Dr. Surender Pahuja, Dean, College of Agriculture, CCSHAU, Hisar | Internal Member |

| | | |
|---|---|---|
| **6.** | Dr. Leela Wati, Prof. & Head, Dept. of Microbilogy, CCSHAU, Hisar | Internal Member |
| **7.** | Dr. Hawa Singh Saharan, Prof. & Head, Dept. of Plant Pathology, CCSHAU | Internal Member |
| **8.** | Dr. Sangeeta Sindhu, Assoc. Prof. & Head, Dept. of Food & Nutrition, CCSHAU, Hisar | Internal Member |
| **9.** | Dr. Sanjay Kumar Thakral, Prof. & Head, Dept. of Agronomy, CCSHAU, Hisar | Internal Member |
| **10.** | Dr. Rachna Gulati, Officer in-Charge, College of Fisheries Science, CCSHAU, Hisar | Internal Member |
| **10.** | Dr. Namita Singh, Professor, Dept. of Bio & Nanotechnology, GJUS&T, Hisar | DBT Nominee |
| **11.** | Dr. Shikha Yashveer, Asstt. Professor, Dept. of MBB&B, CCSHAU, Hisar | Member Secretary |

**6.5.1.6. Institutional Ethics Committee for Experiment on Animals:** *Whether the institute/College is following CPCSEA guidelines and constituted an Institutional Animal Ethics Committee (IAEC), get their animal house facilities inspected and get their project cleared by CPCSEA and IAEC before commencing them? If yes, the college should make statement that it is adhering all guidelines in the matter.*

The College is following CPCSEA guidelines. The University has Institutional Animal Ethics Committee registered with CPCSEA (Now renamed as CCSEA) vide letter No.25/12/2017-CPCSEA dated 26.08.2022 and works in full compliance. The registration number is 2187/GO/Re/S/22/CPCSEA. The Institutional Animal Ethics Committee duly approved from CPCSEA is as follows:

| S. No. | Name | Composition |
|---|---|---|
| **1.** | Dr. S.K. Sehrawat | Chairman |
| **2.** | Dr. Pushpa Kharb | Biological Scientist |
| **3.** | Dr. Suresh Kumar | Veterinarian |
| **4.** | Dr. Ravikant | Scientist In-charge of Animal House Facility |
| **5.** | Dr. Sangeeta C. Sindhu | Scientist from different biological discipline |
| **6.** | Dr. Rachna Gulati | Member-Secretary |

Yes, the College is adhering to all guidelines in the matter.

**Annual Inspection visit of CPCSEA Nominee**

**Institutional Ethical Committee**: In accordance with National Ethical Guidelines for Biomedical and Health research involving Human Participants, ICMR, the University has Institutional Ethical Committee (IEC). The composition of the IEC is as mentioned below:

| Sr. No. | Name and Designation | Composition |
|---|---|---|
| **1.** | Dr. Naresh Jindal, Director of Research, LUVAS, Hisar | Chairperson |
| **2.** | Dr. Jeet Ram Sharma, Director of Research, CCSHAU, Hisar | Co-Chairperson |
| **3.** | Dr. Manju Mehta, Dean, COHS, CCSHAU, Hisar | Member |
| **4.** | Dr. Neeraj Kumar, Dean, COBS&H, CCSHAU, HIsar | Member |
| **5.** | Chief Medical Officer, Civil Hospital, Hisar | Member |
| **6.** | Dr. Preeti Malik, Senior Medical Officer, University Hospital, CCSHAU, Hisar | Member |
| **7.** | Dr. Vinod Kumari, Prof & Head, Dept. of Sociology, CCSHAU, Hisar | Member |
| **8.** | Dr. Pooja Kataria, MD, Dept. of Community Medicines, MAMC, Agroha | Member |
| **9.** | Mrs. Saroj Bala, Legal Expert, H. No. 2360, Sector 9 & 11, Hisar | Member |
| **10.** | Dr. A.S. Nandwal, Professor (Retired), Member from the Community | Member |
| **11.** | Dr. Manju Dahiya, Associate Director (BS/HS), Directorate of Research, CCSHAU, Hisar | Member |
| **12.** | Dr. Rajesh Gera, Additional Director of Research, CCSHAU, Hisar | Member-Secretary |

**6.5.1.7. Committee for Prevention of Sexual Harassment of Women at Work Places:** *Does the institution is adhering the sexual harassment of women at workplace (Prevention, Prohibition and Redressal Act, 2013) in letter and spirit. If yes, mention the constitution of sexual harassment committees and date of proceedings conducted in last five years in tabular form.*

The College constituted a committee in the year 2013 for prevention, prohibition and redressal of sexual harassment.

**Present Composition of Sexual Harassment Committee:**

1. Dr. Manju Mehta, Dean, COHS - Chairperson
2. Dr. Atul Dhingra, DSW - Member
3. Dr. Chander Kala Singh, Professor, HDFS - Member
4. Dr. Saroj Yadav, Assistant Professor, TAD - Member
5. Dr. Urvashi Nandal, Assistant Professor, FN - Member
6. Ms. Swaroopa, 2021HS38M - Member
7. Ms. Kanti Ghimire, 2021HS20M - Member
8. Ms. Medhavi, 2021HS29BIV - Member
9. Ms. Bhawna, 2021HS12BIV - Member

No complaint regarding sexual harassment has been received from any student in the College during the period under report. The College has installed CCTV cameras at different entry points, corridors, class rooms, labs etc. The liaison officers and other faculty members of the College are very active and raise different issues pertaining to the women's safety and sensitize the students regarding issues related to sexual harassment. Awareness campaigns regarding sexual harassment are being organized from time to time. Trainings and lectures are also conducted in this regard. There is also a complaint/ suggestion box in front of the Dean's office for getting complaints from female students and employees.

## 6.5.2 Faculty

### 6.5.2.1. Faculty Strength: *Mention the Faculty position (both in sanctioned and in-position) at the College*

There are three sanctioned posts of Professors/equivalent, 11 Associate Professors/equivalent and 54 Assistant Professor/equivalent in the College. At present, there are 12 Professors/equivalent, 04 Associate Professors/equivalent, 21 Assistant Professors/equivalent. Two Instructors and eight Research Associate/Senior Research Fellow/Young Professional also contribute in teaching, research and extension activities of the College.

| Designation | Sanctioned | In-position |
|---|---|---|
| **Professor/equivalent** | 03 | 12PP (09+03*) |
| **Associate Professor/equivalent** | 11 (10+01*) | 04PP (03+1*) |
| **Assistant Professor/equivalent** | 54 (33+21*) | 21 (15+6*) |
| **Instructor** | 02 | 02 |
| **Research Associate/ SRF/YP** | 09 | 08 |
| **Total** | **79** | **47** |

PP- Personal Promotion from Assistant Professor *Faculty Posted in Extension

### 6.5.2.2. Faculty Profile: *Mention department wise faculty profile in tabular form and mention whether present profile is sufficient to meet the academic requirement of the College*

The College has a team of competent faculty members with vast experience and international exposure. The present faculty profile is sufficient to meet the academic requirement of the College. Faculty members are encouraged to participate in national and international seminars in their respective field of specialization. The faculty members have published number of books, book chapters and research papers in reputed journals. The faculty members also attended and presented research papers in National and International Conferences/Seminars (**Annexures I A-E and II A-E)**.

| S. No. | Name | Designation | Publications in number | | | | |

*Faculty Posted in Extension

- Most of the faculty members are Member, Board of Studies; Member, Selection Committee and External Examiner for comprehensive & Thesis viva-voce examination of students from different universities.
- Faculty and students published 402 research papers, 12 books, 81 book chapters, 25 manuals, 137 popular articles and presented 311 research papers in conferences, seminars, workshop etc. during the period under report.
- All the faculty members attended number of trainings, refresher courses and workshops for knowledge and skills up gradation leading to excellence in teaching and research.
- Faculty members regularly guide students for competitive exams.
- Most of the faculty members are the recipient of Appreciation letter for their contribution in teaching, research and organization of various University level events.
- All the faculty members make use of ICT, multi-media and exercises during teaching for better comprehension of the subject matter
- Faculty members actively contributed as Director/Coordinator/Resource Persons during various trainings organized by Directorate of Human Resource Management, SNIATTE and Directorate of Students' Welfare, CCSHAU, Hisar.
- Following National and International conferences/ workshops/ trainings have been organized by I.C. College of Home Sciences:
  - International Conference on 'Golden Jubilee International Conference on Gender Issues and Socio-Economics Perspectives for Sustainable Rural Development', October 23-25, 2017.
  - National Seminar on 'Innovative Strategies for Gender Equality', March 3, 2019.
  - Workshop on 'Menstrual Hygiene: Healthy Daughter - Healthy Society', September 2, 2019.
  - International Webinar on 'Combating Hidden Hunger–Obstacles and Interventions for Sustainability', September 19, 2020.
  - Webinar on 'Importance of *Khadi* in Present Context' October 02, 2020.
  - Workshop on 'Capacity Building of Young Researchers for carrying out Nutrition Research' organized in collaboration with ICMR, New Delhi. August 25-26, 2022.
  - Twenty-one days Refresher Course on 'Entrepreneurial Prospects in Agriculture and Allied Sciences' organized in collaboration with DHRM, CCSHAU, Hisar, January 10-30, 2023.

- International Lecture (online) on 'The Fuss about Food Supplements' delivered by Dr. Snehil Dua, Instructor, Department of Food and Human Nutritional Science, Faculty of Agriculture and Food Science, University of Manitoba, Canada, February 06, 2023.

**6.5.2.4. Technical and Supporting Staff:** *Whether the College has appointed (in place) sufficient technical/laboratory/farm staff to cater the need of practical and field experiments. Mention department wise distribution of technical, supporting and field staff in the tabular form.*

In all the five departments, 22 technical, 18 supporting and 05 field staff members are in position. Eight technical, eight supporting staff and one field staff positions are filled on contractual basis for smooth functioning of official work, practical classes and field experiments.

| Departments | Technical | Supporting Staff | Field Staff |
|---|---|---|---|
| **EECM** | 04 (2+2*) | 04 (3+1*) | -- |
| **FN** | 06 (5+1*) | 05 (3+2*) | 01 |
| **FRM** | 03 | 03 (1+2*) | 04 (3+1*) |
| **HDFS** | 04 (3+1*) | 03 (2+1*) | -- |
| **TAD** | 05 (1+4*) | 03 (1+2*) | -- |
| | **22 (14+8*)** | **18 (10+8*)** | **05 (4+1*)** |

* Contractual staff/ Apprentice employed against the vacant post

Note: The staff members are assigned responsibilities for the multiple programmes.

### 6.5.3. Learning Resources

**6.5.3.1 College Library (Digital):** *Location of the library, Present staff position (in place), Availability of the following in library, Wi-Fi, No. of books and other reading materials, No. of periodicals and research journals, No. of internet points with number of computers, Seating capacity in library, Employing the latest technology in library sciences, Stocking arrangements of books, Collection of volumes on different subjects, Latest publications in the fields of relevant subjects, Automation and user services through computer, Opening hours, Subscription of journals of national and international repute, national dailies, magazines etc.*

**Library, I.C. College of Home Sciences**

The Library of I.C. College of Home Sciences is located near the main entrance gate of the College. One Library Assistant and Attendant looks after the functioning of the College Library. The library is equipped with text books, reference books, journals and periodicals on Home Science, related subjects as well as literary books. The College Library has a total number of 18560 books and six journals have been subscribed for reference of Research Scholars. Four newspapers i.e., two English dailies (The Hindustan Times and The Tribune) and two Hindi dailies (*Dainik Bhaskar* and *Dainik Jagran*) are subscribed for the Library to update the general knowledge and inculcate reading habit amongst the students. Employment News (Weekly) and Career Bulletin are also available in the Library. Magazines like India Today and *Pratiyogita Darpan* are also regular feature of the Library. The Library remains open on working days during office hours i.e. 9:00 am to 4:30 pm during winter and 7:00 am to 2:00 pm during summer. Automation and user services through computer are available in the Library. Books are also issued to the students for a period of fortnight. In addition, each department of the College has its own Departmental library with good collection of books, teaching manuals, thesis and other literature developed by the department which are accessible to the students and faculty.

CCS Haryana Agricultural University has a centrally located library named as Nehru Library. This is a central facility catering to the needs of teachers, scientists, extension specialists, students and non-teaching staff of all the colleges of the University. Library has large print collection of about 381636 lakhs volumes of books & other reading material. In addition, it has 106 Indian and foreign print and online journals on current subscription.

The digital library facility provides access to a large number of e- resources to all the students and faculty of CCSHAU. Digital library subscribes many e-resources i.e., indiastat.com; Britannica On-Line Academic Edition (BOLAE); DELNET resources, Scopus Citation Database, NIPA e-Resource Solution for Students for Preparation of Competitive Examinations, NIPA English Writing Improvement Tool, and NIPA Online English Language Development and Improvement Resources. Library provides access to more than 2659 e-journals of highly reputed publishers through CeRA-consortium of E-Resources on Agriculture. Millions of books, journals, technical reports, audio lectures, video lectures, proceedings, institutional repositories, question papers, datasets, reports, theses, etc. are accessible to the University users through National Digital Repository (NDLI). Library has subscribed DELNET resources' subscription which provides millions of bibliographic records of union catalogue of 7,561 libraries of India and overseas. Library provides access to more than 2,32,000 e-books through EBSCO Database. The Library has e-repository of all collection in the field of agricultural sciences i.e. Krishikosh. Full text access to Krishikosh database is accessible to all the SAUs/DAUs/ICAR Institutes. Koha Library Management Software and RFID System are being used

for all automated services. OPAC (Online Public Access Catalogue) helps users in access availability of books and other documents from campus wide network so that they could easily locate their desired documents in the Library.

The students are encouraged to use the College library facilities not only for preparing their subject notes but also to update themselves and to boost their knowledge to prepare for various competitive exams.

**6.5.3.2. Laboratories, Instructional farm, Workshops, Dairy Plant, Veterinary Clinic, Hatchery, Ponds etc.:** *Clearly mention about laboratories, instructional farm, workshop, dairy plant, veterinary clinic, hatchery, ponds etc. facilities available in the college with its numbers, space, speciality to conduct practical/hands on training.*

Information regarding lab facilities in various departments of I.C. College of Home Sciences is given in the following table:

| S. No. | Laboratory Dimensions (ft.) Length x Width | Speciality to conduct practical /hands on training |
|---|---|---|
| **Department of Extension Education and Communication Management** | | |
| **1.** | Multimedia Lab and Recording Room (40'x26'&17'x15') | For designing, editing and production of audio and multimedia programmes under UG and PG courses |
| **2.** | Video Studio with Control Room and Waiting Room (29'x25',23'x13'&13'x10') | Hands on training of UG and PG students on Camera handling; Script writing; Video shooting, editing & production; Panel discussion; Delivering TV talk etc. |
| **3.** | Print Media Lab (40'x26') | Hands on training on MS-Office, Coral Draw, Photoshop for Designing of Brochures, Invitation cards, Leaflets, Charts, Posters, Professional documents, Certificates etc. |
| **4.** | Experiential Learning Lab (40'x25') | Skill development in Market survey, Preparation of business plan, Analysis of cost benefit ratio, Printing of-teaching aids, visual aids, certificates, visiting/business cards, e-invitation cards, extension literature such as posters, charts, booklets etc. |
| **5.** | Training Lab (26'x26') | For organizing training of students and rural women |
| **6.** | Research Lab (25'x26') | Planning and designing of research activities like Objective setting, Annual plans, Annual reports and showcasing of research activities |
| **7.** | PG Lab cum Seminar Room (49'x25') | For conducting PG classes, Seminars (synopsis, thesis, credit), Comprehensive examinations (written and oral) and Viva voce examinations.<br>Presentation of assignments and reports by PG students |
| **8.** | Activity Lab cum Resource Room (23'x23') | Showcasing and consulting departmental theses, Reports, Manuals, Journals, Books, Extension literature etc. by PG students<br>Preparing presentations, reports and class assignments by PG students |

| | | |
|---|---|---|
| **Department of Foods and Nutrition** | | |
| **1.** | Cooking Lab-I (41'X41') | Cooking practical classes |
| **2.** | Cooking Lab-II (41'X41') | Cooking practical classes |
| **3.** | Food Processing Lab (29'X33') | Food Processing & Analysis |
| **4.** | PG Lab (24'X49') | Food Analysis |
| **5.** | Centre of Excellence (25'X53') | Processing, product development and training to rural and urban masses |
| **6.** | Bakery Lab/ Experiential Learning Lab (39'X51') | Practical hands-on bakery and confectionary |
| **7.** | AICRP Lab (25'X47') | Food Analysis |
| **8.** | Food Analysis Lab (42'x29') | Fully functional and well equipped with facilities for all analytical research work |
| **9.** | Community Nutrition Lab/Diet Counselling Centre (29' x17') | Community nutrition research work, nutritional status assessment and counselling of subjects |
| **10.** | Small Animal Research Lab<br>Washing Room (14' x13')<br>Operation Theatre (14'x13')<br>In-charge Room (28'x14')<br>Gallery (22') | For experiments on small animals (rodents/fish) |
| **Department of Family Resource Management** | | |
| **1.** | PG Resource Room (24'x16') | PG Teaching |
| **2.** | Furnishing Lab (39'x32') | Practical hands-on Interior's aspects, Table setting, napkin folding, bed making and colour schemes for different rooms |
| **3.** | Activity Lab (30'x 16') | Practical hands-on macramé, paper mache & several other handicrafts |
| **4.** | Research Lab (48'x 24') | Ergonomic analysis |
| **5.** | Computer Lab (24'x 17') | Practical hands-on making floor plans for different types of houses using softwares |
| **6.** | Design Studio (24'x 17') | Floor Plan making & Product designing |
| **7.** | Consumer & Appropriate Technology Lab. (39'x 32') | Using & testing different types of energy saving technologies. Conducting Consumer related practical classes |
| **8.** | Seminar Room (24'x 16') | For UG & PG Classes |
| **9.** | Domestic Farm Unit (2 acre) | U.G. & P.G. practical classes and research experiments |
| **Department of Human Development and Family Studies** | | |
| **1.** | Activity Room I (28'x23') | Used for planning and implementation of preschool curriculum for the children of 2-5 years of age. |
| **2.** | Activity Room II (33'x23') | Used for the children in the age group of 2-3 yrs. for indoor activities on various developmental aspects. |
| **3.** | Activity Room III (28'x23') | Used for children in the age group of 3-4 yrs. for observation of their behavioral problems and conducting indoor activities on various developmental aspects. |
| **4.** | UG Lab I (41'x23') | Used for conducting practical Classes of Module. |
| **5.** | UG Lab II (25'x23') | Used to conduct practical classes of UG students. |
| **6.** | PG Lab (41'x23') | Used by PG and Module students to develop teaching material and other assignment work. |
| **7.** | Computer Lab (46'x28') | Used by Module, M.Sc. and Ph.D. students. |
| **8.** | Seminar Room (38'x24') | PG teaching, presentation of seminars, reports and class assignments. |

| Department of Textile and Apparel Designing | | |
|---|---|---|
| **1.** | Experiential Learning Lab (46'x24') | Product Development through Digital Embroidery |
| **2.** | Apparel Construction Lab I (40'x24') | Apparel designing and construction through flat pattern and draping |
| **3.** | Apparel Construction Lab II (40'x26') | Apparel construction practical classes |
| **4.** | Apparel Construction Lab III (38'x24') | Apparel construction practical classes |
| **5.** | Weaving and Hosiery Lab (39'x28') | Handloom weaving<br>Hand and Machine knitting |
| **6.** | Dyeing and Printing Lab (32'x24') | Dyeing, printing and finishing of textiles |
| **7.** | Textile Science Lab (40'x24') | Fibre analysis, care and storage of textiles |
| **8.** | Textile Testing Lab (38'x43') | Chemical and physical testing of textiles and PG research work |
| **9.** | CAD Lab (46'x24') | CAD practical classes |
| **10.** | Seminar Room (38'x24') | PG teaching, presentation of seminars, reports and class assignments |
| **11.** | PG Resource Room (28'x24') | Consulting departmental theses, Books, Manuals, Reports etc. by PG students. Preparing reports, class assignments and presentations by PG students |

### 6.5.3.3. Student READY/ In-Plant Training/Internship/Experiential Learning Programmes:

*Clearly mention about the implementation of Student READY/In-plant training/ Internship/ Experiential Learning programmes and learning outcomes as per the guidelines of ICAR. Profit sharing mechanism (amount) shall be mentioned for each ELP unit sanctioned by the ICAR for the college.*

During final year of the UG degree programme, I.C. College of Home Sciences implements Student READY Programme. As per guidelines of ICAR, the College has adopted three components of Student READY i.e., Module/ Experiential Learning Programme/ Hands on Training programme for skill building in project planning and execution, decision-making, individual and team approach for problem solving and marketing. Following three components have been included in student READY programme:

- Module in Experiential Learning/ Skill Development
- Rural Agricultural Work Experience (RAWE)
- Industrial Attachment in Community Science

**MODULE I– Experiential Learning in Bakery and Confectionery**

The module offered in Bakery and Confectionery exposes students to entrepreneurial aspects in setting up of a bakery. The students get hands on experience in management of production unit right from procurement of items to preparation, packaging, storage and sale of products. The students learn the importance of hygiene, team work and financial management for running a successful bakery venture. They learn to develop business plan/project proposal for setting up entrepreneurial ventures along with production plan and marketing strategies. Students produce and sell bakery and confectionery products through bakery and confectionery unit of the Department.

**Products Prepared by Students under Module I**

## MODULE II- Skill Development in Event Management

The module offered by the Department of Family Resource Management provides skills in organization of various events. The students learn to develop business plan/project proposal for events, identify target market and customers, source and purchase materials required for events, time management as well as marketing strategies and assessment of events.

**Event Management under Module II**

## MODULE III– Skill Development in Early Childhood Education and Management

The module in Department of Human Development and Family Studies offers Skill Development in Early Childhood Education and Management. It provides orientation to methods and materials for teaching young children, analysis of early childhood education, developmental assessment of young children, planning and implementation of early childhood curriculum as well as counselling of parents and community. Students develop capacity as an administrator, planning ECCE programmes and proposals; develop and implement preschool programmes; conduct interaction programmes with teachers and parents; develop literature for parents; plan, execute and evaluate innovative programmes for optimum development of young children.

**Skill Development in Early Childhood Education and Management under Module III**

## MODULE IV – Experiential Learning in Print and Electronic Media Production

The module offered by the Department of Extension Education and Communication Management provides hands on trainings, professional exposure and learning experience to the students to conduct market survey, develop business plans and marketing strategies in designing and production of information materials. This helps to sharpen the entrepreneurial skills and business management competencies among under-graduate students to set up their own venture and to become job providers.

**Products Prepared by Students under Module IV**

## MODULE V- Experiential Learning in Product Design: Digital Embroidered Home Furnishings

The Experiential Learning Programme on Product Design: Digital Embroidered Home Furnishings offered by the Department of Textile and Apparel Designing provides interactive learning experience in developing innovative designs for digital embroidery; creating stylized designs for home furnishings through computer technology; prepare computerized graded sloppers for product development; develop customized digital embroidered articles by incorporating various designing features using computerized manufacturing technology; impart advanced skills in operation/maintenance of equipment's and manage trouble shooting situations; and develop merchandising skills for smooth supply chain management of product enterprise.

**Exhibition of Products Prepared by Students under Module V**

**Rural Agricultural Work Experience (RAWE):** RAWE programme of one month duration in village setup is implemented wherein students get rural home experience through placement with rural families. Such experience primarily helps them to understand the rural situations especially in context of rural women, status of technologies adoption by rural families, prioritize the problems of women and to develop skills and attitude of working with farm families. Till now RAWE programme has been implemented in 38 villages of Kurukshetra, Hisar and Fatehabad districts covering 4068 families.

**Activities of RAWE Students**

**The objectives of RAWE are:**

- ✓ To develop positive attitude and right perspective among students towards rural life
- ✓ To develop communication skills among students for extension work
- ✓ To develop an understanding of resources and constraints of rural community
- ✓ To develop functional linkages with various departments working for rural development

**Learning outcomes of the RAWE programme**

**Students learn about:**

- Traditional skills in art and craft, cooking food, crochet, mat weaving, decorative articles etc.
- Agricultural crops of the area and involvement of women in agriculture and allied activities.
- Existence and functioning of local political, financial and other institutions like *Aanganwadi*, *Chaupal*, PHCs, Veterinary Hospital, *Mahila Mandal*, Youth clubs etc.
- Need for liasioning with government officials, field functionaries and NGOs.
- Skills in organizing extension activities at village level.
- Values of rural life, hard work, love and affection, rural hospitality, feelings of sharing and caring among villagers etc.
- Hardships of rural life like availability and storage of water and fuel, shortage of electricity, space, kitchen layouts, sharing of living premises with animals, financial and other constraints etc.

**Learning outcome of the beneficiaries (rural women and girls):**

- Identify their capacities and capabilities
- Develop their entrepreneurial skills
- Learn about appropriate technologies
- Increase confidence and networking
- Sharpen their skills/ creativity
- Learn about development programmes in general and women programmes in particular
- Develop liasioning with field functionaries
- Become aware of their human, legal and political rights
- Get a chance to showcase their skills and creativity

**Department wise messages disseminated to the selected families under RAWE**

| Department of Extension Education and Communication Management | |
|---|---|
| **Lecture on:** Developmental programmes and schemes Formation of self-help groups, CCSHAU in the service of rural women, Village level organizations and their role in village development<br>**Campaign/ Rallies on:**<br>Nutri garden, Yoga, Plantation of medicinal and fruit plants, *Beti Bachao Beti Padhao*, Save environment, Plastic free India.<br>**Celebration of Days:**<br>National Girl Child Day, National Women day, International Women Day. | **Development of feature stories and case studies** of historical, social and practical interest of village to develop right perspective and positive attitude towards rural community.<br>**Competitions for sensitization on social issues:** Female foeticide, Environmental pollution, Challenges of girl child, Role of women in agriculture, harmful effects of single use plastic<br>**Need based information sharing through media:** Leaf lets, Short videos, Handouts, Posters, Pamphlets. |

**Exhibition on Products Prepared by Students**

**Rally on Tree Plantation**

**Posters on CCSHAU Toll Free Helpline Numbers**

| Department of Foods and Nutrition | |
|---|---|
| **Lectures on:** Nutritional and health benefits of millets; Balanced diet; Diet for pregnant & lactating mothers; importance of breast feeding and supplementary nutrition; Food adulteration; Foods fads & fallacies; Conservation of nutrients.<br>**Campaign/ Rallies on:** Millet awareness | **Demonstrations on:** Low cost nutritious recipes; Millet, oilseeds and soya products; food preservation.<br>**Competitions organized:** Coarse cereals recipes, Low cost nutritious recipes, seasonal pickle & chutney making |

**Demonstration on Value Added Food Products**

## Department of Family Resource Management

| | |
|---|---|
| **Lectures on:** Energy conservation through useful & small kitchen devices, waste management, health and fitness, work simplification, drudgery reduction, consumer rights and responsibilities, market malpractices, harmful effects of polythene, Consumer Protection Act, water purification and environment protection. | **Demonstrations on:** Installation of vermi composting units, smokeless *chulha*, kitchen gardening, use of solar technologies, wealth out of waste, drudgery reducing technologies, interior decoration, jewellery making and *rakhi* making. |
| **Competitions organized:** Clean home, best out of waste, maximum technologies adopted and maintained, vermi composting, water and energy conservation, crazy arts, kitchen gardening, installation of improved *chullah* at home and use of time and energy saving technologies. | **Days celebrated:** Consumer Day, Energy Conservation Day, Water conservation Day, Environment Day and Earth Day |
|  |  |
| **Demonstration on Smokeless *Chulha*** | |
|  |  |
| **Demonstration on Cotton Picking Bag** | **Demonstration on Flower Arrangement** |

## Department of Human Development and Family Studies

| | |
|---|---|
| **Lectures on:** Importance of personal & environmental hygiene, care of pregnant mother & new born baby, immunization schedule, identification of disability among children, problems of adolescents, common ailments among children – control & remedy, girl's education | **Demonstrations on:** School/home based developmental intervention activities, use of indigenous material for preschool activities and soft toys making<br>**Competitions organized:** Soft toys making, slogan writing on family planning, child marriage, female foeticides |
|  |  |
| **Preparing Teaching Aids** | |

**Industrial Attachment in Community Science (IACS)**: After completion of RAWE, students join 12 weeks Industrial Attachment for In-plant training in the industry/ Govt./Non-Govt. organizations related to modules opted by them to acquire professional experience. In-plant training provides opportunity to the students to develop their skills in the application of practical knowledge acquired during Modules. It also uncovers the students in the real world of work environments and upgrading their skills to meet current standards of industry. For effective liaison with the industry, the intern works on a defined project in consultation with the industry. After training, though most of the students are offered job, yet majority of them choose for higher studies in their respective elective disciplines of Home Science. The students get stipend of Rs.12000 per month for five months during RAWE and in plant training from 2016-17. Department wise list of the Industries/ Organizations where the students are placed during industrial attachment:

हरियाणवी संस्कृति और विरासत के समृद्ध खजाने से बनाई पहचान

दादा टिड़ सत्ता मंदिर में अपार श्रद्धा

दादा टिड़ सत्ता मंदिर में अपार श्रद्धा

दादा खेड़ा

भिवानी के गांव सिधनाज में दादा टिड़ सत्ता मंदिर। 'दादा टिड़ सत्ता' यानी ग्राम देवता। 80 साल पुराने मंदिर के प्रति तीन गांवों हरियावास, गोपालवास और सिधनाज के ग्रामीणों की अपार श्रद्धा है। मान्यता है सदियों से लेकर आज भी 'दादा टिड़ सत्ता' आपदा से बचाते चले आ रहे हैं। ग्रामीण कोई भी शुभ कार्य करने से पहले ग्राम देवता की पूजा की जाती है।

दादा टिड़ सत्ता मंदिर में शुक्ल पक्ष के प्रथम से पूर्णिमा तक विशेष पूजन होता है। ग्रामीणों के अलावा दूर-दूर से लोग धोक लगाने के लिए मंदिर आते हैं। वहीं, छठ के लिए विशेष पूजन के लिए भक्त जुटते हैं। इस दिन गुड़ का प्रसाद भी वितरित किया जाता है।

आस-पास के गांव में भी इस मंदिर की काफी मान्यता है। गांव हरिवास की

गांव सिधनाज स्थित दादा टिड़ सत्ता मंदिर। • डाक्टर

निवासी फूलवती देवी ने बताया कि माना जाता है कि जब दादा टिड़ सत्ता छोटे थे तब उनकी माता ने पगत में गर्म दूध रखा था। दादा खेलते हुए बर्तन में गिर गए व मारा गए। इस घटना के कुछ दिनों बाद गांव के पशुओं में बीमारी बढ़ने लगी। मान्यता है कि तब से गांव वालों ने दादा टिड़ सत्ता की धोक लगानी शुरू की। फिर पशु ठीक होने लगे। दादा टिड़ सत्ता की धोक में दूध खीर मीठे चावल इत्यादि सामग्री शामिल की जाती है। पशु पैदा होने पर दूध दादा टिड़ सत्ता को चढ़ाया जाता है। कोई भी शुभ कार्य शुरू करने से पहले, निकासी निकालने के समय, नवविवाहित जोड़े दादा सत्ता का आशीर्वाद लेते हैं। वहीं, मान्यता है कि ग्राम देवता पूरे गांव को आपदा और बीमारियों से रक्षा करते हैं। सरपंच प्रताप सिंह ने बताया कि गांव में कभी कोई आपदा या बीमारी फैलती है तो ग्राम देवता को प्रसन्न करने के लिए हवन व पूजन किया जाता है। जानकारी में तीनों गांवों की आबादी करीब दस हजार से ज्यादा है। अब दादा टिड़ सत्ता का भव्य मंदिर भी बनवाया गया है।

## Experiential Learning Programme (ELP)

Experiential Learning (EL) provides the students an excellent opportunity to develop creative and entrepreneurial skills and knowledge through meaningful hands-on experience and confidence in their ability to design and execute project work. In order to give the real experience and flavour of an enterprise to the students, the College runs three ELPs with the following organizational set up:

- Chief Executive Officer (CEO) - Dean of the College
- Managing Director (MD) - Head of the Department
- Manager - Faculty In charge

## Experiential Learning Programmes of the College

| Title of the EL Unit | Location |
|---|---|
| Bakery and Confectionery | Department of Foods and Nutrition, I.C. COHS, CCSHAU, Hisar |
| Product Design: Digital Embroidered Home Furnishings | Department of Textile and Apparel Designing, I.C. COHS, CCSHAU, Hisar |
| Designing and Production of Information Material | Department of Extension Education and Communication Management, I.C. COHS, CCSHAU, Hisar |

The Experiential Units puts up stall in *Krishi Mela (Rabi and Kharif), Kisan Diwas* organizd at CCSHAU, Hisar. ELU stall of I.C. College of Home Sciences won First Prize in *Krishi Mela*, 2019; Krishi *Mela* (*Rabi)*, 2022 and *Krishi Mela* (*Kharif*), 2022.

## EL-1: Experiential Learning in Bakery and Confectionery (Department of Foods and Nutrition)

Liking and popularity of Bakery and Confectionery products have been increasing in India during last decade. The demand of these products is increasing due to their ready to eat convenience nature, unique taste and instant availability at reasonable cost anywhere. However, per capita consumption of bakery products at present is low in India as compared to other advanced countries indicating greater potential for bakery products. The future demand of bakery products has to be met only by small scale sectors. Hence the small-scale sectors have the enormous responsibility of catering to the needs of various strata of population. To meet the job requirements, students need to be professional and also have potential to set their own start-ups as entrepreneurs.

**Objectives**

- To impart hands on training to undergraduate students in bakery and confectionery.
- To cultivate capabilities and build entrepreneurship spirit and business management skills among students for creating employment

**Icing of Cake**

**Bakery & Confectionary Products**

**Cookie Dropping Machine**

**Visit of Vice Chancellors of CCSHAU and LUVAS**

## Budget allocation and expenditure (2018-23)

| Year | Amount in Rupees | | |
|---|---|---|---|
| | Allocated | Utilized | Income/ Revenue generated |
| **2018-19** | 40000 | 39968 | 98385 |
| **2019-20** | 100000 | 81530 | 155401 |
| **2020-21** | 50000 | 15165 | 37470 |
| **2021-22** | 50000 | 49922 | 88000 |
| **2022-23** | 300000 | 294715 | 391550 |
| **Total** | **540000** | **481300** | **770806** |

## Facilities Created

**Laboratory/equipment/machinery:** The following equipment's are available in the Lab for product development:

- Spiral mixture (capacity 10 kg. flour)
- Planetary Mixer
- Electronic Oven (double deck)
- Single deck electric baking oven
- Bread slicer
- Dough sheeter
- Pasta making machine
- Cookie dropping machine
- Wire cut biscuit making machine
- Proofing cabinet
- Deep freezer
- Display case
- Refrigerator
- Electronic weighing balance
- Small bakery tools
- Water purifier
- Microwave oven

Various products like Biscuits, Cakes (chocolate/ eggless/sponge/butter/ fruit/cherry/ date/ caramel cakes with nuts and cherry), Pastries, Muffins, Swiss rolls, Cream rolls, Sweet paste, Eclairs, Madalenins, Patties, Pies, cookies, Bread, milk bread, whole meal breads, brown breads, Buns: basic buns, hot buns, fruit buns and Chelsea's buns), Fermented doughnuts, Breakfast roll, Danish pastry, Bread sticks etc. have been standardized.

**Products marketed:** Products are marketed through self-financing scheme e.g., eggless cake, chocolate cake, *atta* biscuit, melting moment, *Bajra*/Maize *Ladoo*, *Kaju*/*Bajra*/Maize biscuit, Sweet Salted Biscuit (*Bajra*/Maize/Maida), Sponge cake, Butter/fruit/cherry/date/caramel cake with nuts and cherry, nut cake, *Bajra*/Maize cake, *Bajra*/Maize *sev*, Basic oil cake, soft rolls, cupcake, Swiss rolls, cookies/*Til* Peanut/biscuit, Nan *Khatai*.

In the International year of millets, pearl millet based products are in great demand and even appreciated by *Vidhan Sabha* members, Haryana.

Since 2018-19 to 2022-23 this unit has generated an amount of Rs. 770806/-.

**EL-2: Product Design: Digital Embroidered Home Furnishings (Department of Textile and Apparel Designing)**

The Experiential Learning Unit provide interactive learning experience in developing innovative designs for digital embroidery; create stylized designs for home furnishings through computer technology; prepare computerized graded sloppers for product development; develop customized digital embroidered articles incorporating various designing features using computerized manufacturing technology; impart advanced skills in operation/maintenance of equipment's and manage trouble shooting situations; and develop merchandising skills for smooth supply chain management of product enterprise. They acquire skills in operating advanced equipment's and develop merchandising skills and dealing with customers. This process encompasses the entire life cycle of product development covering the gamut of operations from production, purchase and end use.

**Objectives**

- To provide interactive learning experience in developing innovative designs for digital embroidery
- To develop and create customized digital embroidered articles
- To impart advanced skills in operation/maintenance of equipment's and manage trouble shooting situations
- To develop merchandising skills for smooth supply chain management of product enterprise

**Budget allocation and expenditure**

| Year | Amount in Rupees | |
|---|---|---|
| | Allocated | Profit |
| **2018-19** | 50,000 | 22,038 |
| **2019-20** | 1,50,000 | 62,267 |
| **2020-21** | 1,50,000 | NIL |
| **2021-22** | 1,50,000 | 28,117 |
| **2022-23** | 1,50,000 | 15,010 |
| | **Total** | **1,27,432** |

Under Experiential Learning various digital embroidered home furnishing products like Single and Double bed sheets with pillow covers, Cushion covers, Top sheets, Quilt covers, Curtains, Table mats, Table runners, Coaster sets, Sofa covers, Face cover, Face mask, Apron, Cotton picking bags, Tote bag, File folder etc. have been prepared by the students. The prepared products were marketed by the students by putting exhibitions and are sold at various sale points like HAU Mart, exhibitions in different seminars, conferences, *mela*, etc. and profit earned is shared with the students as per ICAR guidelines.

**Received First Prize for ELP Exhibition in *Krishi Mela* (*Rabi and Kharif*, 2022)**

**Visit of Dr. Seema Jaggi, ADG, ICAR, New Delhi**

**Product Development in Experiential Learning Unit**

## EL-3-Designing and Production of Information Material (Department of Extension Education and Communication Management)

The rapidly changing nature of communication has made mandatory to make desirable changes in information material used for transfer of technologies. Designing and production of information material like, video films, radio programmes, posters, charts, visiting cards, advertisements, exhibition/display materials, multimedia, etc. with the help of latest high tech communication technologies has become a highly competitive and challenging profession. In this profession only the best and fittest having abilities to apply knowledge, critical thinking and other fundamental skills can survive, thus it is important to acquire practical skills. The Experiential Learning Unit provides professional exposure and learning experience to conduct market survey, develop business plans and marketing strategies in designing and production of information materials. The students gain skills on Graphic and multimedia production; photography and videography; audio and video editing. The students are trained to design and produce information and communication material on demand for providing entrepreneurial skills. This helps to sharpen the entrepreneurial skills and business management competencies among under-graduate students to set up their own venture and to become job providers.

**Objectives of the Unit:**

- To provide first-hand experiential learning exposure in professional environment to the UG students of professional elective in Journalism & Mass Communication.
- To design and produce information material on demand for providing entrepreneurial skills.

**Students Learning Video Recording**

**Students Working on Print Media Production**

**Students working on Print Media Production**

**Guided Visit to Video Studio Students in the Control Room**

**Display of Information Material Prepared under Experiential Learning Programme**

**Budget Allocation and Revenue Generated:**

| Year | Amount in Rupees | |
|---|---|---|
| | Allocated | Revenue Generated |
| **2018-19** | 50,000 | 18500 |
| **2019-20** | 50,000 | 13379 |
| **2020-21** | 50,000 | -- |
| **2021-22** | 50,000 | 1000 |
| **2022-23** | 50,000 | 23855 |
| | **Total** | **56774** |

**Products developed:** Video CDs on various topics like organic farming, poultry farming, bee keeping, mushroom cultivation, fruit and vegetable preservation were developed. Customized Certificates, Business cards, leaf lets, posters, Coasters, Book marks, Mugs, Calendars are being designed and prepared by the students under experiential Learning Unit (ELU)

**Alternate use of facilities created:**

- The students are using computers and printers purchased under ELU to gain hands on experience in designing instructional material (making posters, charts, handouts, flyers, lab journals etc.).
- PG Students and faculty members also use cameras and final cut pro studio setup for editing of audio and video recordings for development of media under research work.
- Art of the state video Lab and print journalism Lab. are being used for trainees of summer/winter school and faculty development programmes organized by DHRM, CCSHAU, Hisar.
- Video studio lab was used for preparing documentary on CCSHAU and editing of videos for on line *Kisan Mela* during COVID19.

**6.5.3.4. Curricula Delivery through IT (smart class rooms/interactive board etc.):** *Whether the College is using smart class rooms/interactive board etc. for teaching and practicals. Number of class rooms upgraded as smart class rooms should be mentioned*

There are seven Lecture Rooms in the College out of which two Lectures Rooms were upgraded to Smart Class Rooms and rest five have LCD/LED projectors adding value to the class room teaching and to help the students achieve expected outcomes. The Smart Class Rooms facilitate the course instructor with a variety of content presentation viz. text, images, diagrams, audio, video leading to collaborative learning. The College has robust ICT infrastructure comprising 187 computers, University website, networking automation of library, campus wide networking with Wi-Fi facilities, etc. for easy access to teaching learning resources. Type of ICT Application used in curricula delivery includes PPT presentations, Internet, e-learning, smart classroom, digital cameras, e-mail, WhatsApp, YouTube, CAD Softwares, Online Catalogues, etc. for UG, PG and Ph.D. teaching. To meet out the challenges of COVID19, the online teaching was performed through different portals like Microsoft Teams, Google meet, Zoom, Sysco Webex etc.

**Use of ICT for Curricula Delivery**

### 6.5.4 Student Development

*Student Development at the College directs its educational efforts at fostering the intellect and character of students by integrating in-class and co-curricular experiences. To accomplish this, the college provides a wide range of educational experiences through programmes and activities that complement and support the academic experience in the classroom.*

**6.5.4.1. Student Intake and attrition:** *The information about student intake and attrition, for the College as a whole but separated in UG, PG and Ph.D. categories shall be provided in tabular form for last five years.*

**Student Intake and attrition:** The information about student intake and attrition, for the College as a whole for UG, PG and Ph.D. programmes has been provided in tabular form for last five year.

| Programme | Actual number of students admitted in last five years | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| **UG** | 80 | 97 | 87 | 104 | 98 | 10 | 6.18 | 8.04 | 9.61 | 2.04 |
| **PG** | 29 | 36 | 39 | 38 | 28 | 03.44 | 05.55 | 07.69 | 13.15 | - |
| **Ph.D.** | 16 | 22 | 25 | 19 | 11 | - | 04.54 | 04.00 | 05.26 | - |

**6.5.4.2. Average number of students in Theory and Practical Classes:** *Mention the degree programme-wise number of students sitting in a class for theory and practical, separately in tabular form.*

| Sr. No. | Name of the Degree Programme | Batch in theory class | Batch in practical class |
|---|---|---|---|
| **1.** | B. Sc. (Hons.) Community Science from 1st to 6th Semester | • 02 batches (40-50 students in each batch) | • 04 batches in 1st and 2nd Sem (20-25 students/batch)<br>• 3 batches from 3rd to 6th Sem (25 - 30 students/batch) |
| | 7th Semester | • Only practical based courses (Modules) | • 05 batches i.e. one batch for each Module (Approximately 15-20 students/batch) |
| **2.** | M.Sc. | • One batch for each course in all the five disciplines (04 to 30 students/batch) | • One batch for each course in all the five disciplines (04 to 30 students/batch) |
| **3.** | Ph.D. | • One batch for each course in all the five disciplines (02 to 06 students/batch) | • One batch for each course in all the five disciplines (02 to 06 students/batch) |

**6.5.4.3. Admission Process:** *Clearly give complete mechanism of admission for UG, PG and Ph.D. programmes, fee payment mechanism, registration procedure, academic schedule publication at the start of the semester etc. Write information in one page only.*

I.C. College of Home Sciences offers UG, PG and Ph.D. programmes in all the five disciplines. The number of seats in various programmes and all other matters regarding the admission policy are decided by the Academic Council as per provisions of Section 23 of the Haryana and Punjab Agricultural Universities Act, 1970 and other rules framed by the competent authority from time to time as prescribed under this Act. University Calendar Volume II deals in detail with the Rules and Regulations of all the UG and PG programmes offered by CCSHAU, Hisar.

**UG programme:** The Dean is the Head of the College and is accountable to the Vice-Chancellor for all matters concerning the College organization and conduct of resident instructions for undergraduate students (Section 21 of the Haryana and Punjab Agricultural Universities Act, 1970). The Registrar of the University is responsible to the Vice Chancellor for all matters related to admissions to undergraduate courses, credit load of the students, maintenance of academic records, attendance records and awards of degrees and medals.

**PG programmes:** The co-ordination of the postgraduate programmes is done by the Dean, Postgraduate Studies (DPGS) who is responsible for organization and conduct of postgraduate teaching. The DPGS also co-ordinates the research done by the postgraduate students, maintains liaison with the administration and is accountable to the Vice-Chancellor for all matters related to resident instructions for postgraduate students such as admission requirements, number of the courses offered, total course load prescribed for degree programmes, standard of teaching, evaluation methods, practical trainings and approval of advisory committee, programme of work, synopsis, selection of experts for preliminary and final viva voce of the students.

**Mechanism of admission:** Regarding admission in UG, PG and Ph.D. programmes, admission notice is published in National dailies and displayed on University Website. Prospectus is also uploaded on the University Website. From the session 2017-18 onwards, only online submission of application forms has been adopted.

At UG level admission is on the basis of merit in entrance examination. Eligibility criteria for admission are 10+2 in science stream (PCM/PCB) or Home Science as a subject with any stream from a recognized Board with 50% marks (relaxable up to 47.5% for Scheduled Caste candidates and Person with Disability).

From the session 2017-18 onward, entrance test is being conducted by the University for Admission in PG programmes. For PG and Ph.D. programmes, admission to 75% seats is based on merit in entrance examination and 25% of seats are reserved for the students recommended by ICAR based on merit in AIEEA. Eligibility for admission in PG programmes in Home Science is B.Sc. (Hons.) Community Science/Home Science with 55% marks for General and BC category, 52.25% for SC/PwD or OGPA of 5.50 (10.00 basis) and equivalent for General and BC category, 5.22 (10.00 basis) and equivalent for for SC/PwD at Bachelor's Degree level from recognized university.

The minimum qualification for admission in Ph.D. programmes in Home Science is 55% marks (where OGPA is not given) or a OGPA of 5.5 out of 10 at Master's level in the subject concerned from a recognized university.

**Fee Payment mechanism:** Mode of fee payment is fully online from the session 2016-17 onwards.

**Registration procedure:** The registration for UG and PG programmes is online from the academic session 2017-18 onwards. For UG programmes the offering of courses and registration is monitored by the Dean's office. For PG and Ph.D. programmes students fill up the courses in consultation with HOD/ advisors and then get the online approval from concerned teachers, advisors, Head of the Department and final approval by the Dean, PGS.

**Academic Schedule:** Academic schedule (academic calendar) is prepared with the approval of Academic Council and sent to different departments, upload on the student's portal, circulated among faculty and put on notice board before commencement of the new session.

### 6.5.4.4. Conduct of Practical and Hands-on-Training *(mention brief report of one page on practical and hands on training in different courses to meet the student satisfaction) write information in one page only.*

As per 5th Deans' Committee recommendations, core courses and Student READY Modules/ Experiential Learning Programmes are offered by the College to provide Hands on Training at UG level. The practical courses concentrate on giving hands on training and involve methods like Video

classes, Demonstrations, Visits, Case Studies, Simulation studies, Role play, Problem solving as per the curriculum requirements. College annually organizes hands-on training on ICT Competencies and Handicrafts, CAD, JRF preparatory training programmes and Self defence training programmes in collaboration with Directorate Students' Welfare.

**The Department of Extension Education and Communication Management** provides practical/hands on training through different core and module courses. In the Department, there is well equipped Video Studio with video cameras set up where UG and PG students get hands on training on script writing, panel discussion, camera handling, video shooting and editing. In print media lab hands on training on graphic designing like Photoshop, CorelDRAW, Page Maker, etc. for preparing computer aided teaching aids such as leaflets, posters, charts, booklets, pamphlets, flyers, calendars, business, invitation and greeting cards etc. is provided. Visits of the students are conducted to media houses like newspapers offices, community radio station, Doordarshan, Radio station etc. to provide orientation on working of media industries. Regular village visits of UG and PG students are conducted in order to provide practical exposure of PRA techniques, base line survey, identification of training need of rural women, implementation of extension programmes and evaluation thereof.

**Hands on Training in Media Production**

**The Department of Foods and Nutrition** provides practical skills and hands through various courses cooking, value addition and community nutrition. Apart from basic cooking, students also learn the impact of cooking and various domestic processing on nutrients. Under practical/hands on trainings in bakery and confectionary students give practical edge to their knowledge for setting up a small scale bakery and confectionery unit; they develop entrepreneurial competencies. Students manage bakery and confectionery unit where they produce and sell bakery and confectionery products. Under practical/hands on trainings in community nutrition, students learn various techniques used for assessing nutritional status, carrying out nutrition surveys, set up counselling center and carry out counselling of subjects of various physiological needs. Students carry out counselling of subjects of various therapeutic needs and organize counselling camps for specific diseases.

**Hands on Training in Bakery**

**Hands on Training in Analytical Skills**

**The Department of Family Resource Management** provides practical/hands on trainings through different courses on making colour schemes for different rooms; care and arrangement of furniture for different purposes and rooms; window treatments; types and placement of accessories for interior enrichment; flower arrangement; floor decoration; setting the table. Students learn practical skills and hands on training in preparation of utility and decorative articles: pottery decoration with different methods and materials, collage, paper mashie, macramé, candle making and decoration, flower making, calligraphy, decoupage, *rakhi* making, greeting cards, decorative envelopes, bags and gift wrapping. Students also develop skills in Auto CAD and prepare house plans, room layouts and home lighting arrangements, master plans through drawings of interior representations; planning furniture, fitment and fixtures for special needs and specific purposes; planning, programming, designing and evaluating interiors for elderly. Students are instructed to design space saving and multipurpose furniture; computer aided furniture arrangement. Design furniture, draperies, walls and flooring for persons with special needs. Prepare models of smokeless improved cooking stoves and flooring for persons with special needs.

**Hands on Training in Creative Arts**

**The Department of Human Development and Family Studies** provides practical and hands on trainings under different core and module courses. A Preschool Laboratory is being run in the department for children of 2-5 years of age. Students acquire skills in assessment of physical, motor, language and mental development of children using various scales. Students also formulate and implement curriculum in preschool laboratory based on scientific models. Students prepare stimulation programmes, activities and kit from indigenous low cost materials for physical, motor, cognitive, language, socio- emotional, moral and personality domains; prepare creativity file on different art activities including painting, printing, paper cutting, folding and pasting, modelling; develop story book, picture book and computer aided teaching material for children; implement prepared programmes in different ecological settings. Students also develop theme based developmentally appropriate programmes; prepare educational material as per lesson and activity plans; arrange and equip the classroom for different corners, organize large and small group activities; implement prepared plan and conduct pre and post sessions. Students prepare educational material for parents on issues related to developmental delays. Educational material and resource file on current issues related to adolescence and adulthood are also prepared. Students organize campaigns, panel discussions and puppet show related to marriage and family issues, conduct surveys on families with different background for understanding changing scenario of families, cultural diversification and marriage traditions in India. Conduct case studies of special children: mentally retarded, gifted, visually impaired, speech impaired and orthopedically handicapped; prepare resource file on issues related to special children. Prepare questionnaire and conduct surveys to identify families with problems.

**Hands on Training in Teaching Aids**

**The Department of Textile and Apparel Designing** provides practical skills and hands on trainings under different core and Module courses. Students acquire sufficient skills in handling sewing equipments and sewing machine, prepare samples of basic hand and machine stitches, basic weaves and hand knitting. They draft, cut and construct garments for different age groups i.e., infants, children, adolescents and adults using flat pattern and draping techniques. Develop designs and prepare apparel and utility articles using block, screen, stencil, nozzle, printing, tie and dye, batik and traditional embroideries. Learn to use designing softwares for creating motifs, designs, colour ways, design placements, rendering of patterns and different fabrics on the figure, develop theme based designs and prepare design catalogue of different dresses and articles. Under ELP practical hands on trainings in Product Design: Digital Embroidered Home Furnishings students are given practical edge to their knowledge for setting up a small scale digital embroidery unit; they prepare portfolio of a product line for commercialization, develop theme based product line for home furnishings and accessories and their costing for developing entrepreneurial competencies.

**Hands on Training in Digital Embroidery**

**Hands on Training in Hand Embroidery**

**Hands-on-Trainings organized to enrich course curricula**

| Name of training | Duration | Participants (Number) |
|---|---|---|
| Healthy Diet - Healthy Mind -Curbing Unhealthful Eating Habits | August 21- September 03, 2019 | UG students |
| Computer Aided Designing | October 14- 23, 2019 | UG students |
| Foundation Course for ICAR-JRF (PGS) Admission Exam in Home Science | October 25- November 23, 2019 | UG students |
| Computer Aided Designing | November 5- 14, 2019 | SC Category |
| Enhancement of Designing Competencies with ICT Tools | February 26 – March 6, 2020 | B.Sc. Final Year students |
| Enhancement of Handicraft Skills for Entrepreneurship Development | March 06-18, 2020 | B.Sc. Final Year students |
| Communication Skills and Personality Development (On Line) | March 07-16, 2022 | SC UG students |
| Communication Skills and Personality Development (On Line) | March 07 - 16, 2022 | SC PG students |
| Skill Development in Textile Designing | March 07-16, 2022 | SC/ST students of COHS |

| | | |
|---|---|---|
| Skill Development in Apparel Designing | March 07-16, 2022 | SC/ST students of COHS |
| Automation in Textile and Apparel Industry | September 27 - October 10, 2022 | UG students |
| Advance in Textile and Apparel Industries | September 27 - October10, 2022 | PG students |
| Research Project Management | October 01-12, 2022 | PG students |
| Enhancement of Competencies of UG Students on Information and Communication Technologies | October 01 - 12, 2022 | UG students |
| Training Programme for the Student of Home Science Appearing in JRF-2023 | November 14 -December 10, 2022 | B.Sc. Final Year students |
| Enhancement of Competencies of UG Students on Information and Communication Technologies | February 07 -22, 2023 | UG students |
| Communication Skills for Personality Development | February 08 -17, 2023 | PG students |
| Communication Skills for Personality Development | February 13 - 22, 2023 | UG students |
| Enhancement of Handicrafts Skills for Entrepreneurship Development | February. 16 -24, 2023 | UG students |

**6.5.4.5. Examination and Evaluation Process:** *The evaluation of students' performance is a central task of College administration. A brief report on examination and evaluation process for UG, PG and Ph.D. be given separately mentioning external/internal components. System of evaluation should clearly be mentioned for UG, PG and Ph.D.*

A brief report on examination and evaluation process for UG, PG and Ph.D. is given below separately mentioning external/internal components.

**UG Programmes**

**Examination system:** The students are evaluated in the middle of the semester as well as in the end of the semester. Besides this, the students are also evaluated continuously by assigning class exercises, projects and assignments. The examination system for B.Sc. (Hons.) Community Science is external for theory (50%) and internal theory + practical (50%). There is mid-term examination for internal theory. The weightage of mid-term, end-term and practical examination is as per the details given below:

| Nature of course Credit Hrs. | Weightage (%) | | | | |
|---|---|---|---|---|---|
| | Mid-Term Theory | Assignment | Mid-Term Practical | Final Practical | External |
| **Courses with theory & practical** | | | | | |
| **3+1** | 40 | 10 | -- | 50 | 100 |
| **2+1** | 30 | 10 | -- | 60 | 100 |
| **1+/2+2** | 20 | 10 | -- | 70 | 100 |
| **1+2** | 10 | 10 | -- | 80 | 100 |
| **Courses with only theory** | 80 | 20 | | -- | 100 |
| **Courses with only practical** | -- | 20 | 60 | 120 | -- |

* Weightage of marks vary according to credit hours of the course

Mid-term and final examinations are of 100 marks each. After adding marks of the examination, the total is divided by two for converting total marks out of 100 and combined (Theory + Practical) grade of each course is awarded.

B. Sc. (Hons.) Community Science 4 year programme students from Arts, Maths and Biology streams have to clear some deficiency courses offered by College of Basic Sciences & Humanties. The evaluation of these courses is internal for both theory and practical.

The mid-term and end-term exams are conducted at College level. Faculty members other than course instructor are assigned duties as invigilators. During end-term examination, the question papers are provided by the Controller of Examinations (COE) just before commencement of examination and answer sheets are handed over to the COE immediately after completion of examination in a sealed cover. There is internal and central flying squad to monitor the conduct of examination.

**Evaluation:** Marks for internal theory and practical examinations are submitted online by the Instructor concerned to the Controller of Examinations COE. For only practical based courses, practical exams are evaluated by a committee including the course teacher and one teacher nominated by Dean of the College. Immediately after the completion of the end term examination answer sheets are collected in the sealed cover by the COE for further evaluation. Student identity in the answer sheets is concealed and evaluation of answer sheets of end term theory examination is got done under the supervision of the COE by faculty other than the course instructor. COE arranges compilation and submission of the marks to the Registrar for declaration of result. A student obtaining 40% and above marks in theory and practical separately but 50% and above in aggregate is declared pass in the respective course(s), subject to further condition that student must maintain an OGPA as under.

Ending 1$^{st}$ year = 3.5/10.00; Ending 2$^{nd}$ year = 4.0/10.00; Thereafter = 5.00/10.00

There is no provision for supplementary examinations. Students who are declared fail in one or the other course are required to repeat that course, when offered as per academic calander provided they have maintained the required minimum OGPA. Those who do not achieve the minimum OGPA are declared 'Fail' in the respective class and have to repeat all courses of relevant year with benefit of repeat courses cleared in the year in which declared fail, before registration for next higher class.

Evaluation of Students enrolled under RAWE programme is done by College level Committee consisting of Dean, All HODs of the College and RAWE course instructors from all the five departments of the College.

**Grading**: Based on the evaluation in each course, the students are awarded grades as per the following scheme.

| OGPA | Percentage |
|---|---|
| **9.00 to 10.00** | (90 to 100%) |
| **8.00 to 8.99** | (80 to 89.9%) |
| **7.00 to 7.99** | (70 to 79.9%) |
| **6.00 to 6.99** | (60 to 69.9%) |
| **5.00 to 5.99** | (50 to 59.9%) |
| **4.00 to 4.99** | (40 to 49.9%) |

In deficiency courses "S" or "US" grade is awarded which has no effect on GPA/OGPA of the student. The students must obtain at least 5.00 OGPA for award of degree. Based on the position of result, Detailed Marks Card (DMC) is issued to all the students. The DMC clearly shows GPA and

OGPA at the end of each semester. On completion of degree, division is indicated in the DMC of final semester (year) as under:

| OGPA | Division |
|---|---|
| 5 to 5.99 | 2nd Class |
| 6.00 to 7.49 | 1st Class |
| 7.5 and above | 1st Class with distinction |

**PG and Ph.D. Programmes**

**Examination System and Evaluation:** Internal examination system has been adopted for PG and Ph.D. programmes. Two sets of question papers for each course are prepared for mid-term and end-term examination and are submitted by the course instructor to the concerned HOD. For both mid-term and end-term examinations, date sheet is prepared and examinations are conducted centrally at College level. On the day of examination HOD selects one question paper for each course for distribution among the students. Practical examinations are also conducted internally by the course instructor. For only practical based courses, practical exams are conducted by the course teacher and one more teacher nominated by the HOD. Evaluation of both theory and practical examination is internal. Weightage for theory and practical examinations varies according to course credit hours as given below:

| Credit hours (Theory & Practical) | Weightage/Marks | | |
|---|---|---|---|
| | Mid-Term | End-Term | Practical |
| **1 + 0** | 40 | 60 | - |
| **1 + 1** | 20 | 30 | 50 |
| **2 + 1** | 25 | 45 | 30 |
| **2 + 2** | 20 | 30 | 50 |
| **3 + 1** | 30 | 45 | 25 |
| **3 + 2** | 25 | 35 | 40 |
| **2 + 0** | 40 | 60 | - |
| **3 + 0** | 40 | 60 | - |
| **1 + 2** | 10 | 20 | 70 |
| **0+1** | -- | -- | Mid- term: 40<br>End-term: 60 |

**Comprehensive Examination (Written and Viva Voce/Oral):** In Ph.D., after completion of 75% course work separately in major and minor subjects, the Ph.D. students take written comprehensive exam. Written comprehensive examination is based on all the PG and Ph.D. courses from major subject. In major subject, two papers and in minor subject one paper is conducted. Two sets of question paper of major subject are submitted by the HOD to the Dean of the College and on the day of examination one question paper is selected by the Dean. Paper setting and evaluation is internal and qualifying marks are 60%. The grading for comprehensive examination is satisfactory/unsatisfactory. After clearance of written comprehensive examination, Viva Voce/Oral comprehensive examination is conducted by external examiner and grading is done as satisfactory/unsatisfactory.

**Thesis evaluation:**

| Evaluation steps | Master's program | Doctoral program |
|---|---|---|
| **i) Submission** | Thesis is submitted at least one week after thesis seminar | Thesis is submitted at least fifteen days after thesis seminar. One research paper should have been accepted and second submitted or one patent filed out of thesis work |
| **ii) Evaluation** | External (One examiner) | External (Two examiners of different institutes) |
| **iii) Viva Voce** | Open house viva-voce in the presence of one external examiner, advisory committee, faculty members and PG students | Open house viva-voce in presence of one external examiner, advisory committee, faculty members and PG students |
| **iv) Assessment** | Satisfactory/Unsatisfactory | Satisfactory/Unsatisfactory |

**Grading:** For PG and Ph.D. programs grading is done on a 10 point scale

(i) Minimum passing grade in a course: 6.00

(ii) Minimum OGPA to continue and obtain degree: 6.50

**6.5.4.6. NCC/NSS Units:** *Clearly mention the existence and functioning of these units and how it is benefiting the student development. A brief report should be given.*

**NCC Cadets at Prade**

**NCC Unit:** NCC plays an important role in inculcating qualities of courage, discipline, leadership and sportsmanship among cadets. Every activity performed by NCC cadets leaves a big impression on grooming personality of cadets. Cadets with 'C' certificate are eligible for direct commissioning for vacancies in armed forces without appearing for written examination. Students of I.C. College of Home Sciences are enrolled in second semester of each academic session to be a part of NCC (Air and Army wing) under unit "1HAR R&V SQN NCC, HISAR", "NCC 1(Air) Haryana Bn. Hisar" and "3 Haryana Girls BN NCC", NCC group- Rohtak and Directorate "Punjab, Himachal Pradesh, Haryana and Chandigarh." Girl Cadets regularly participated in various events like: Republic Day Parade, Annual Training Camp; Guard of honour to visiting dignitaries etc. and have come out in shining colours. During the reporting period, 71 cadets cleared "BEE" certificate examination and 63 cadets cleared "CEE" certificate examination. Total students enrolled in NCC during the reporting period were 55. A brief report of NCC unit of the College for period under report is given underneath.

**Medals/ Awards:**

| S. No. | Name | Medals/ Awards | Event | Year |
|---|---|---|---|---|
| **1.** | SUO Mamta Chahal (2017HS33BIV) from 1HAR R&V SQN NCC | Gold Medal | Show Jumping Girls in Gurgaon Horse Show | 2018 |
| | | Bronze Medal | Hacks Girls in Gurgaon Horse Show | 2018 |
| | | Gold Medal | Show Jumping Girls Novice in Inter Directorate Equestrian Competitions | 2019 |
| | | BronzeMedal | Dressage Girls Novice | 2019 |
| | | Bronze Medal | Hacks Girls Novice | 2019 |
| | | Gold medal | Show Jumping Girls Veteran in Inter Directorate Equestrian Competitions | 2020 |
| | | | Participated in Prime Minister's Rally at New Delhi | 2020 |

| | | | | |
|---|---|---|---|---|
| **2.** | SUO Bhawna | Appreciation certificate | NCC camp activities Annual Training Camp -173 at St. Joseph's International School, Hisar | 2022 |

**Camps attended:**

| Sr. No. | Name/ Number of Cadets | Name of Camp | Date | Venue |
|---|---|---|---|---|
| **1.** | Reeva | Practice Camp (ATC-173) Inter Group Shooting Championship | June 07-16, 2018 | CCSHAU, Hisar |
| | | North Zone Shooting Coaching Camp | July 02-11, 2018 | Ropar, Punjab |
| | | Combined Annual Shooting Practice Camp | August 06, 2018 | Chandigarh |
| | | Coaching Camp for G.V. Mavlankar Shooting Championship | August 19-27, 2018 | Chandigarh |
| | | Eight shooting practice and competition camps | 2018-2020 | Various places in India |
| **2.** | Meenu (2015HS18BVI) Ritu (2015HS32BVI) Ravita (2017HS53BIV) | SSB Camp | January 20-29, 2019 | Ropar, Punjab |
| **3.** | Twenty-one cadets NCC (Army) | Annual Training Camp | January 03-12, 2019 | TBDS School, Hisar, Haryana |
| **4.** | Five cadets | Combined Annual Training Camp | December 29, 2018 to January 07, 2019 | DAV PPS, Hisar, Haryana |
| **5.** | Kiran (2015HS13BVI) Kamna (2016HS14BVI) | *Ek Bharat Shresht Bharat Camp* | January 08-19, 2019 | Ropar, Punjab |
| **6.** | Sakshi Sharma (2016HS30BVI) | Skill and Personality Development Camp | March 29 to April 07, 2019 | Rohtak, Haryana |
| **7.** | 46 cadets | Annual Training Camp (ATC) | 2019-2020 | TDBS, Hisar |
| **8.** | 46 cadets | Combined Annual Training Camp | 2020-2021 | GJUS&T, Hisar |
| **9.** | 48 cadets | Combined Annual Training Camp (CATC) | October 19-25, 2021 | DN College, Hisar |
| **10.** | Mansi Mor | EBSB camp | October 18-23, 2021 | (Online by 1 Karnataka Girls Battalion) |
| **11.** | Bhawna | NCC camp activities Annual Training Camp -173 | June 03-12, 2022 | St. Joseph's International School, Hisar |
| **12.** | Three cadets | Annual Training Camp -173 | June 03-12, 2022 | St. Joseph's International School, Hisar |
| **13.** | 19 cadets | Annual Training Camp -190 | October 14-21, 2022 | Krishna Devi International School, Uklana |

**Participation in different events:**

| Sr. No. | Name | Event | Date | Venue |
|---|---|---|---|---|
| **1.** | NCC Girl Cadets | Yoga Day Celebration | June 21, 2018 | Mahavir Stadium, Hisar |
| **2.** | NCC Girl Cadets | Awareness campaign "Prakarm Parv" on 2nd Anniversary of Surgical Strike | September 29, 2018 | Indian Army Military Station, Hisar |
| **3.** | All NCC Girl Cadets | Anti-Drug Abuse Awareness Rally (Prepared posters & slogans) | October 02, 2018 | CCSHAU, Hisar |
| **4.** | NCC girl Cadets | **"**Road Safety Campaign**"** (30th National Road Safety Week 2019 from February 4-10, 2019) | February 8, 2019 | CCSHAU, Hisar |
| **5.** | 40 NCC Cadets with ANO | **"**Drug Free India**"** campaign | February 19, 2019 | Organized by Art of Living at GJUS&T |
| **6.** | Mansi Mor | *Ek Bharat Shreshth Bharat*camp held online with KARGO Directorate (online by 1 Karnataka Girls Battalion) | June03-12, 2022 | St. Joseph's International School, Hisar |
| **7.** | Three cadets | Annual Training Camp -173 | June 03-12, 2022 | St. Joseph's International School, Hisar |
| **8.** | 30 Cadets | Kargil Vijay Diwas | August 22, 2022 | I.C. COHS, CCSHAU, Hisar |
| **9.** | 30 Cadets | National Unity Day | October31, 2022 | I.C. COHS, CCSHAU, Hisar |
| **10.** | Platoon of NCC girl's wing | Republic Day celebration | January 26, 2023 | CCSHAU, Hisar |

**NSS Unit**

National Service Scheme (NSS) is a credit course which is offered to the students. The NSS functions with the objective of instilling and increasing students' sensitivity towards social welfare and to inspire them to provide their services to society objectively without any prejudices. NSS volunteers make efforts to extend help to the needy so as to assist them in uplifting their standards of living and leading a dignified life. In the process the volunteers learn from the villagers to live a good life despite scarcity of resources. Total students enrolled in NSS during the reporting period were 402.

**NSS Students at Republic Day Prade**

## Camps attended by NSS volunteers

| Name | Date | Venue |
|---|---|---|
| **NATIONAL INTEGRATION CAMP** | | |
| **NSS Volunteers** | September 20-27, 2019 | Bengaluru Central University |
| **NSS Volunteers** | February 22-28, 2020 | NSS University of Jammu, Jammu |
| **12 NSS Volunteers** | Attended Various Camps during 2021-22 | Different places of the country |
| **UNIVERSITY LEVEL NSS CAMP (7 DAYS)** | | |
| **NSS Unit** | February 27 to March 04, 2020 | Village *Shahpur*, Hisar, Haryana |
| **NSS Unit** | March 10-16, 2022 | Village *Shahpur*, Hisar, Haryana |
| **30 NSS Volunteers** | March 24-30, 2022 | CCSHAU, Hisar |
| **30 NSS Volunteers** | January 07-13, 2023 | CCSHAU, Hisar |
| **NSS DAY CELEBRATION** | | |
| **NSS Unit** | September 24, 2019 | Directorate of Students' Welfare and NSS Cell of CCSHAU, Hisar |

## Activities/ Events organized by NSS Volunteers

| S. No. | Event | Date | Venue |
|---|---|---|---|
| **1.** | *Swachhta Pakhwada* | September 2, 10-11,2019 | I.C. College of Home Sciences |
| **2.** | Plastic Waste Free Campaign | September 18, 2019 | I.C. College of Home Sciences |
| **3.** | Blood Donation Camp organized | October 31, 2019 | Directorate of Students' Welfare |
| **4.** | Duty in COVID Vaccination Camp | May, 3, 4 and 7, 2021 | CCSHAU Campus Hospital |
| **5.** | Participation in "Fit India Movement" launched by Prime Minister | August 29, 2019 | I.C. COHS, CCSHAU, Hisar, Haryana |
| **6.** | Health check-up Camp | March, 2022 | Village *Shahpur*, Hisar |
| **7.** | First Aid Training | March 15, 2022 | I.C. COHS, CCSHAU, Hisar, Haryana |
| **8.** | Lecture on road safety | March16, 2022. | I.C. COHS, CCSHAU, Hisar, Haryana |
| **9.** | *Balak Balika Spardha* Week Celebration | January 8-14, 2022 | I.C. COHS, CCSHAU, Hisar, Haryana |
| **10.** | Webinar on "Right Approach to Nutrition: Key to Growth and Development" | January 13-14, 2022 | I.C. COHS, CCSHAU, Hisar, Haryana |

## Various Days Celebrated by NSS Volunteers Every Year

| S. No | Name of the Day | Date |
|---|---|---|
| **1.** | National Voters Day | 25$^{th}$ January |
| **2.** | Republic Day | 26$^{th}$ January |
| **3.** | Deworming Day | 10 $^{th}$ February |
| **4.** | International Women's Day | 8$^{th}$ March |
| **5.** | National Consumer Day | 15$^{th}$ March |
| **6.** | Ozone Day | 16$^{th}$ September |
| **7.** | Gandhi Jayanti | 2$^{nd}$ October |
| **8.** | Birthday of Lal Bahadur Shashtri | 2$^{nd}$ October |
| **9.** | National Unity Day | 31$^{st}$ October |
| **10.** | World Aids Day | 1$^{st}$ December |
| **11.** | National Pollution Control Day | 2$^{nd}$ December |
| **12.** | International Volunteers Day | 5$^{th}$ December |

**6.5.4.7. Language Laboratory:** *It is required of any student to have a good command of the language for communication purposes, with clarity and accuracy being vital for effective and efficient communication. What help one to acquire such proficiency in a language is the process and the method of learning that language. Mention which of these type of Conventional, Lingua Phone, Computer Assisted Language Laboratory and Multimedia Hi-Tech Language Laboratory are being used for language teaching in the college.*

During B.Sc. (Hons.) Community Science degree programme, two English courses are offered by the Department of Languages and Haryanvi Culture, College of Basic Sciences and Humanities (COBS&H). The Language laboratory in COBS&H has Language software of Sanko Language Lab, a web based language teaching platform that transform passive language classes into an active speaking based environment. The software can be used in the class room, remotely and also in hybrid teaching.

The I.C. College of Home Sciences lays special emphasize on improving communication skills of the students. UG students are motivated to use different verbal communication softwares, Apps and YouTube channels to improve spoken English. The College publishes its magazine 'Manoveena' to hone literary skills expression power of the students. The Directorate of Students' Welfare organizes training on communication skills and spoken English from time to time. Proficiency in communication skills is an essential component of personality development. The Literary Society, CCSHAU, Hisar aims at overall personality development of students by training them in public speaking. The Society organizes Debate Competitions, Elocution and Extempore Speech competitions for students.

Students also have access to NIIPA English Writing Improvement Tool and NIIPA Online English Language Development and Improvement Resources subscribed through Nehru Library, CCSHAU, Hisar.

**6.5.4.8. Cultural Centre:** *Does the college has cultural center to empower student leaders to explore, celebrate, and educate the campus community about the diversity among them? Does the college offers and inclusive and reflective space, multicultural programming and support services that encourage positive interaction, academic, persistence, and growth among students, faculty, and staff.*

The College has a cultural forum with the objectives:

- To explore hidden talent of students in fine arts, literary and cultural activities
- To increase confidence and remove hesitation in performance on stage
- To inculcate the habit of participation in co-curricular activities for overall development of students

**Composition of Cultural Forum**

| | | |
|---|---|---|
| 1. | Dr. Manju Mehta, Dean, COHS | Chairperson |
| 2. | Dr. Kavita Dua, Assistant Professor | President |
| 3. | Dr. Urvashi Nandal, Assistant Professor | Member |
| 4. | Ms. Rakhi Dalal, Instructor | Member |

**Activities of Cultural Forum:**

To accomplish objectives of the cultural forum, various students' activities are organized under the supervision of faculty associated with cultural forum. The cultural forum celebrates all important Indian festivals which promote a sense of comradship and respect for diverse traditions and cultures. Various cultural and litrary competitions such as song and dance; fine art competitions including rangoli, mehandi, painting, collage making; and literary competitions like debate, declamations, quiz, etc. are organized. In the beginning of every academic session, 'Talent Search

Contest' is organized for fresh UG and PG students to explore and show case their hidden talent. Teachers' Day is also celebrated by the students every year on 5th September with great enthusiasm. Students participate in cultural activities with great vigour and commitment and are doing extremely well. Our students strongly mark their presence at various University and Inter-university competitions.

**Talent Search Contest**

***Swang* Performance**

The activities of college cultural forum are further boosted through CCSHAU Drama and Music Club. The club actively engages students in fulfilling their cultural quest. Besides imparting regular training to the enrolled students in Music, Haryanvi Folk Lore and Culture and dramatics, special intensive coaching involving extra classes are arranged for the talented students. Special efforts are made to introduce the students to Indian Folk lore and culture with special focus on *'Swang'*.

**6.5.4.9. Personality Development:** *Personality development programme is aimed at increasing employability of the students. Whether the college has provisions for inclusion of functional grammar in Standard English, speaking skills, reasoning, group discussions interview skills, personal interviews, quantitative ability, verbal ability, mock tests and some special sessions to promote the personality development in the students?*

The College recognizes personality development of the students equally important to regular academic activities. In order to provide orientation to the students about various communication skills, course on Communication Skills and Personality Development is offered during third semester of UG programme. Main emphasis is given on how to stay positive and resolve problems in tough environment, power of positive thinking, interpersonal relationships and stress management. Life Skill Trainings are also organized from time to time with the objective to enhance various skills required in coping up with the stressful and competitive environment. These training develop

confidence in students to take their life in a healthy way using various life skills developed through trainings.

The key highlights/focus areas of the training programmes are:

| | |
|---|---|
| • Communication and Presentation skills | • Resume writing |
| • Grooming | • Facing interviews |
| • Group discussion | • Interpersonal relationship |
| • Stress, Conflict and Aggression management | • Soft skills |
| • Team & Time Management | • Motivational approach |
| • Glosso-phobia -fear of public speaking | • Leadership approaches for youth |
| • Problem solving and Decision making | • Multiple intelligence and critical thinking |

### 6.5.5. Physical Facilities

**6.5.5.1. Hostels:** *Clearly mention the number of hostels available for the College students for boys and girls, separately with its total capacity, students per room accommodated in each hostel, mess facility, drinking water, indoor games specially for girls, cleaning of hostel premises, transport facility, emergency medical facility etc.*

There is an excellent facility of hostels for girl students. The Directorate of Students' Welfare looks after the facilities to be provided to the students in hostels. For girl students there are seven hostels – Narmada, Yamunotri, Gangotri (three wings), Women Scholar, Trainees Hostel and PG Married hostel. One new hostel for girls is under construction. The hostels are sufficient to meet accommodation requirement of registered students. There are well ventilated cubical and dormitory rooms fitted with electric fans in all the hostels and allotted to the students as per rules. Students' rooms have the facility of Almirah, Study table, Bed and Chair. The students are also allowed to use the desert cooler in their rooms during summer. The hostels are equipped with all modern amenities and facilities including Wi-Fi, LCD/LED TV with cable connection, Gym, refrigerator, facility of inverter in mess and common area, water cooler with water purifier, insect killer, solar water heating system, LPG supply in mess, furniture, magazines and national dailies. There are facilities of air conditioned night reading halls, indoor sports facilities, canteen, desert coolers in the common room areas.

In every hostel, there is hostel warden assisted by student hostel prefects. The hostel mess are being run on cooperative basis by committee of students under the guidance and supervision of hostel wardens. Due attention is given to the cleanliness of hostel premises and quality of meal served to the students.

**Transport facility**

Central transport facility is available for students as and when required. The vehicles can be requisted from the Transport Office of the University for visits under different courses and educational tours.

## Medical Facilities

There is a well-equipped 22 bedded Hospital in the CCSHAU main campus. Round the clock medical aid is provided to the students, university employee and their dependants and trainees/visitors. The Campus Hospital has one Senior Medical Officer, three Medical Officers, one Dental Surgeon, one Physiotherapist, two Pharmacists, one Nursing Sister and four Staff Nurses along with other para medical staff. Casualty services are run round the clock. ICU, X-ray and diagnostic facilities, RCT and Dental surgical procedures are available in the Campus Hospital. On-call Ambulance facility in emergency cases is also available in the Campus Hospital. The Campus hospital played a vital role during COVID19 period by regular monitoring of hostel, resident, foreign student besides regular sensitization and organization of COVID19 testing and vaccination camps. There is Amartya Shiksha Yojana and Personal Accident Policy for students which covers an accidental insurance of Rs. 1,00,000/-.

**6.5.5.2. Examination Hall:** *Mention the availability of number of examination halls, its capacity etc. for the college.*

The College has a spacious, well ventilated fully air conditioned Examination Hall with seating capacity of 200 students. The Examination Hall is used for conducting mid-semester and final theory examinations of UG and PG classes. To provide comfortable seating to the students during examinations, Examination Hall is equipped with cushioned chairs, cross ventilation, uninterrupted power supply. In addition to Examination Hall, seven lecture rooms of the College are also used for conducting examinations as per requirement. The Examination Hall is also used for conducting CCSHAU entrance tests and other competitive exams conducted by state and central Government.

**Examination Hall**

**6.5.5.3. Sports and Recreation Facilities:** *Clearly mention the number of indoor and outdoor sports facilities available for the College students. A brief note on day to day management and use of these facilities shall be provided in the report*

**Sports facilities:** Sports and games play a very important role in physical, mental and social development of human resource and excellence in sports enhance the sense of achievements. Considering the importance of sports for the students, University has made compulsory participation of all Under Graduate students in Co-Curricular activities by offering 0+1 credit course to all students. This definitely not only makes the students physically fit but also mentally and socially sound. A well established and adequately equipped Giri Centre for Sports Activities is having facilities of Volleyball, Handball, Football, Basketball, Cricket, *Kabaddi*, Indoor Boxing, Indoor Wrestling, Indoor Badminton, Tennis, Hockey, Athletics Synthetic Track, Table Tennis, Wushu and other games. University students take part in various competitions and the position holder players get free meal, free milk and cash incentives. This is the first University in Haryana who has provided these facilities to the position holder players.

**Annual Athletic Meet**

**Prize Winners in Annual Athletic Meet**

**First Runner Up in Annual Athletic Meet**

**International Yoga Day Celebration**

The Giri Centre for students' welfare and activities is an outstanding feature of this University with sports and other activities. It has two indoor Badminton Courts with a seating capacity for 600 spectators, two indoor squash courts, hobby rooms, two multi-purpose indoor gymnasiums with a reasonable seating capacity. Grounds/courts/tracks/links are available in the University Sports Complex. A synthetic track of international standard has also been provided in the Athletic Stadium. Volleyball grounds have light arrangements for playing at night. Hockey, Football and Cricket grounds are well maintained. Inter college athletics meet is organized every year which provides an opportunity to the students to show case their talent in different sports.

**Recreational facilities:** The Directorate of Students' Welfare is responsible for implementing co-curricular activities. Students interested in mountaineering and adventure, graphic arts, literary, music, dance, dramatics etc. register for these activities as adequate facilities are available on the campus. For promotion of these activities, regular classes and trainings/ workshops are arranged from time to time. Assistant Professor (Culture) in the Directorate of Students' Welfare looks after dance, music and theatre activities.

**The Mountaineering Club** organizes various adventure activities like Trekking, Mountaineering, Night Safari, Desert Safari, Skiing etc. for students. The students are also trained in rock climbing, river crossing, rappelling etc.

**Students of Mountaineering Club**

**Students at Hamta Pass**

**The CCSHAU Drama and Music Club** has been actively engaged in promoting the cultural activities with special emphasis on drama, dance and music. Such activities are source of inspiration for the students to develop their personality and tame the youth energy into a proper and creative channel. This club is one of the most popular clubs of the University with enrolment of an average of about two hundred students per year. It has been the leading co- curricular activity club of the University which inculcates and exposes the creative aspects of the students. The students of this club have participated in various state/Zonal/National level Youth Festivals. The students have participated in All India State Agricultural University Youth Festivals organized by ICAR and declared champion four times in theatrical events competitions. As part of University team, students of the club also won six times 1st position in the group song competitions in music category. The club has also brought many laurels for the University by winning competitions in State/North Zone/National youth festivals since its inception.

**Republic Day, 2023**

**Golden Jubilee Foundation Day Celebration, 2020**

**6.5.5.4. Auditorium:** *Does the college have auditorium? Mention its year of construction, sitting capacity and how frequently being used for the College functions*

The College has its own spacious, air conditioned and well ventilated Auditorium with latest sound and light system. The Auditorium was constructed in the year 1978 and has sitting capacity of 284 persons. The facilities of green room and wash rooms are also there in the Auditorium. The Auditorium is being used for organizing College functions like Orientation programme, Talent search programme, Fresher's day, Farewell parties, extension lectures during tutorial classes, seminars,

workshops and valedictory functions of various trainings etc. At University level, there is Indira Gandhi (IG) Auditorium, a central facility with a seating capacity of 1958 persons.

**Indira Gandhi Auditorium**

**Auditorium, I.C. College of Home Sciences**

**6.5.5.5. Exhibition Hall/Museum (description of events):** *Does the college have the Exhibition Hall/Museum? Mention about its use and special events being conducted in these units.*

The College has its own Exhibition Hall for showcasing Teaching, Research, Extension and extra co-curricular activities of the College. Technologies developed, publications and work done under different Modules is also depicted. There is a university level museum named as Dr. Mangal Sein Agricultural Sciences Museum. The College activities are exhibited in this museum also.

Different technologies developed under the research projects along with activities of ELP and Skill Development modules of the College are also displayed through various panels in the University Museum. To depict Haryanvi culture, the College has contributed traditional handicrafts and costumes of Haryana for the University Museum.

**Depiction of I.C. College of Home Sciences in Dr. Mangal Sein Museum**

**Exhibition Hall, I.C. College of Home Sciences**

### 6.5.6. Research Facilities

**6.5.6.1. Postgraduate laboratories and Equipment's:** *Clearly mention the department wise PG laboratories and equipment housed in individual laboratory in the Colleges along with any other research unit.*

| S. No. | P.G. Labs/ Other Research Labs/ Units | Major Equipments/ Facilities |
|---|---|---|
| **Extension Education and Communication Management** | | |
| 1. | Multimedia Lab and Recording Room (Lab No. 71) | Computer, Smart podium, Projector, LCD/LED Screen, Video cameras, Still cameras, Editing software, TV/Monitor, VCR, OHP, Slide projector, PA system, AC, DVD player, Microphones, audiovisual cabinet, UPS, CCTV camera and AC |
| 2. | Video Studio with Control Room and Waiting Room (Lab No. 65) | Cameras with accessories, Switcher/Audio Video Mixer with accessories, Digital Video Cassette Recorder, Monitor– PGM/PVW, Non-Linear editing setup apple mac pro with final cut studio, Teleprompter (News reader), Power Amplifier, Studio Table for Panel discussions, Light Console 24 Channel, Cool Light, Computers with accessories, , Studio Chairs , CCTV camera, AC |
| 3. | Print Media Lab (Lab No. 63) | 6 Tables, 35 Chairs, 10 Computers, Printer with Scanner, projector, LCD/LED Screen, Media storage cabinet, Storage cabinet, UPS, 2 AC |
| 4. | Experiential Learning Lab (Lab No. 61) | Smart podium, 5 Computers, 2 Big Tables, 25 Chairs, Digital plotter, A3 Printer, Laminator, Storage cabinet, LCD/LED projector, UPS 1.5 KV AC |
| 5. | PG Lab. Cum Seminar Room (Lab No. 49) | OPS Interactive Panel, Two Big Tables, 30 Chairs, AC (1) |
| 6. | Activity lab. cum Resource Room (Lab No. 59 B) | 20 Chairs, 4 Tables, 4 Storage cabinet, Computer with work station |

| | | |
|---|---|---|
| 7. | Research Lab (Lab No. 56) | Computer with workstation-02, Printer-02, Storage cabinets-05 |
| 8. | Training Lab (Lab No. 70) | 15 Chairs, 10 Drawing Tables, 4 Storage Cabinets, Computer with Work Station |
| **Foods and Nutrition** | | |
| 1. | Centre of Excellence (Lab No. 6) | Extruder with attachment for puff, Destoner cum grader, Double deck oven, Spiral mixer, UV spectrophotometer, Weighing machine, Sealing machine, Vacuum packaging machine, Parboiling unit, Tray drier, Hammer mill, Pearling machine, Puff gun, Semolina Making Machine, Cereal flake production line |
| 2. | PG Lab (Lab No. 18) | Orbital shaker, Spectrophotometer, Hot air oven, Automatic Protein Analyser, Fibre plus, Automatic Fat Analyser, Weighing Balance, Water bath, Moisture Analyser, Muffle Furnace, Centrifuge, Water distillation unit, Refrigerator, Temperature humidity meter, Magnetic stirrer, Food texture analyzer, Spinix Vortex Shaker |
| 3. | Bakery lab (Lab No. 4 & 5) | Pasta making machine, Dough sheeter, Single deck electric baking oven, Display case, Spiral mixer machine, Planetary mixer, Proofing cabinet, Electric oven double deck, Weighing balance, Water purifier, Deep freezer, Microwave oven, Cookie dropping machine, Biscuit cutting machine |
| 4. | Food Processing Lab (Lab No. 3) | Deep freezer with digital temp Controller, Automatic Protein Analyser, Fibra plus, Automatic Fat Analyser, Spectrophotometer, Rotary shaker, *Chakki* grinding mill, Vacuum oven, Hot air oven, Centrifuge, Lyophilizer, Cooling centrifuge, Deep freezer |
| 5. | AICRP Lab ( Lab No. 25) | Hot Air Oven, Refrigerator, Deep Freezer, Cooling Incubator, BOD Incubator, Centrifuge, Orbital Shaker, Socs Plus, Environmental Shaker, Kel Plus, Water Bath Shaker, Vacuum Oven, Fibra plus, Cyclotec Mill, Digital balance, water purifier |
| 6. | Cooking Lab-1 ( Lab No. 1) | Refrigerator, Food ingredient weighing scale, Gas stoves, Mixer Grinder, Air fryer, Water Dispenser |
| 7. | Cooking Lab-1I ( Lab No. 2) | Refrigerator, Food ingredient weighing scale, Gas stoves, Oven Toaster Griller (OTG), water purifier, Mixer grinder, Microwave, Roti maker, Induction stove, Water Dispenser |
| 8. | Food Analysis Lab (Lab No. 38A) | Fume hood, Hunter colour Lab, Vacuum dehydrator, Ultrasonic bath, Spectrophotometer, Deep freezer cum refrigerator, All quartz water distillation, NIR UV-Vis Spectrophotometer, Bio Safety Cabinet, Water bath with shaker, Automatic Nitrogen Analyser |
| 9. | Community Nutrition Lab/Diet Counselling Centre (Lab No. 38B ) | Body composition analyzer, Weighing scale, Heightometer, LCD/LED projector, Computers/Printers along with computer work stations and internet facility. Diet Cal software installed for student use. |
| 10. | Small Animal Research Lab (Lab No. 14 ) | Air curtains, Animal cages, aquarium, Refrigerator, Mixer grinder, Autoclave, Blood analyzer, RO water purifier, Hemo Cue-HB 301, Microwave, AC, Computer with printer, Teacher's Table & chair. |
| 11. | PG Classroom (Room No. 11) | LCD/LED Projector, Chairs (20), AC |
| 12. | Seminar Room (Room No. 20) | Computer, LCD/LED Projector, Chairs (25), AC (2) |
| **Family Resource Management** | | |
| 1. | Research Lab (Lab No. 74) | B.P. Apparatus, Anthropometric sliding caliper and Spreading calliper, Environmental kit, Polar heart rate monitor, Heart Rate monitor with interface, Electronic tread mill, Digital camera, Peak flow meter, Stethoscopes, Sapling transplanter, Digital wood/timber moisture meter, Digital grip dynamometer, Half minute calibrated electronic metronome, |

| | | |
|---|---|---|
| | | Oximeter, Pulse oximeter, Hanging weighing scale, Female dummy, Push and Pull dynamometers torsimeter, Spirometer, Proto type work station, Stop watch (swiss), Lux meter digital |
| 2. | Computer Lab (Lab No. 84) | Ten Computers along with stablizer |
| 3. | Consumer & Appropriate Technology Lab (Lab No. 44) | Vacuum cleaner, Microwave, Drudgery reducing small appliances, Oven |
| 4. | Furnishing Lab (Lab No. 46) | Living room, Dining room & Bed room furniture and furnishings |
| 5. | Design Studio Lab (Lab No. 41) | Multi Media with computer and sound system |
| 6. | Seminar Room (Room No. 91) | Multi Media with computer and sound system |
| 7. | Domestic Farm Unit | Poly house, Agricultural tools and implements |
| **Human Development and Family Studies** | | |
| 1. | AICRP Lab | Computer, Printer, Scanner |
| 2. | PG Lab | Psychological Tests and Intervention Programmes |
| 3. | Pre-School Lab:<br>Activity Room 1 (Room No. 129)<br>Activity Room 2 (Room No. 128)<br>Activity Room 3 (Room No. 124) | LED TV with music System, Air conditioner, Refrigerator, Modular kitchen with electric chimney, Cooking range, Microwave, Equipments for Physical-socio-emotional developments, Musical instruments, Gym equipments, Outdoor equipments |
| 4. | Seminar Room (Room No.108) | Multi-media with Computer and Sound System, AC (2) |
| **Textile and Apparel Designing** | | |
| 1. | Experiential Learning Lab (Lab No. 24) | Single Head Embroidery Machine (10 needles) -02, Computerized Single Head One Needle Embroidery Machine -06, Computerized Sewing Machine with Accessories-08, Industrial Sewing Machine (4), Multilayer Cutter-01, Round Knife-01, Five Thread Over Lock Machine-01, Fusing Machine-01, Pattern Layout and Cutting Machine-01, Cutting Table Big-02, Lab Stools-20, Digital Camera-01, Computer-06, Colour Design Jet- 01 |
| 2. | Dyeing and Printing Lab (Lab No. 14) | Flat Bed Fusing Machine-01, Computerized Colour Matching System 01, Infra-Red Heater-01, Steaming Chamber-01, Padding Mangle-02, Colour Matching Cabinet-01, Water Bath-02, pH meter, Electronic Balance, Hot Air Oven, Lab Shaking Machine-01, Nozzle Printing Unit, Printing Tables- 03 |
| 3. | Textile Testing Lab (Lab No. 26) | Refrigerator-01, Microwave-01, Tensile Strength Tester-02, Thickness Gauge-01, Perspirometer-01, Crockometer-01, Water Bath-01, Drape Meter-01, pH Meter, Stiffness Tester-01, Double Distillation Unit-01, Rotavapour-01, Precision Balance-01, Heating Mantle-01, Microscope-02, GSM Cutter-02, Quadrant Balance-01, Crease Recovery-01, Yarn Evenness Tester-01, Wrap Reel-01, Bending Length-02, Digital Weighing Balance-01, Pilling Strength Tester-01, Xenon Light Fastness Tester-01, Air Permeability Tester-01, Bursting Strength Tester-01, COD Digestion Unit-01, Hot Plate-01, Projection Microscope, Spectrophotometer-01, Flammability Tester-01, Open Bath Beaker Dyeing Machine-01, Grinder-01, Gas with Cylinder, Computer with UPS, AC (3) |

| | | |
|---|---|---|
| 4. | Textile Science Lab (Lab No. 16) | Laundrometer-01, Stain Removal Machine-01, Washing Machine-02 (Semi-Automatic-01 and Fully Automatic-01), Microscopes-05, pH Meter, Weighing Balance-01, Ironing board, Sleeve Ironing Board-05, Steam Iron-02, Multi parameters Pocket Tester, Commercial Mixer Grinder-01, Geyser-01, Washer with Dryer-01, Electronic Weighing Scale, µ-Controller Based Photoelectric Calorimeter, Double Distillation Water Unit-01, Digital Magnetic Hot Plate-01, Refrigerator-01, Waterbath-01, Hot Air Oven-01 |
| 5. | Apparel Construction Lab-I (Lab No. 23) | Industrial Sewing Machines- 16 (Industrial Sewing Machines-11, Foot Operated Sewing Machines-05), Chain Stitching Machine two Needle-01, Hosiery Sewing Machine Twin Needle-01, Picoting Machine-01, Feed Split Needle Bar Machine, Elastic Stitching Machine-01, Sequins Embroidery Machine-01, Lace Braiding Machine-01, Blind Hemming Machine-01, Cutting Tables Big-02, Cutting Tables-07, Ironing board-02, Steam Iron- 02, Dress forms- 13, Students Chair-20, Embroidery Machine-03, Single Needle Straight Stitch Machine-02, Multipurpose Automatic Zig-Zag Machine-02 |
| 6. | Apparel Construction Lab -II (Lab No. 21) | Foot Operated Sewing Machines-30, Cutting Tables- 02, Demonstration Table- 01, Ironing Board- 02, Steam Iron- 02 |
| 7. | Apparel Construction Lab-III (Lab No. 29) | Motorized Sewing Machines- 07, Foot Sewing Machines- 26, Big Cutting Tables- 03, Demonstration Table- 01, Ironing Board- 02, Steam Iron- 02, Picoting machine-01 |
| 8. | CAD Lab (Lab No. 27) | Computers with Work Stations (30), Interactive Panel (1), Plotters (3), Digitizer (1), Scanner (1), Rich peace Software (ten user key), Tuka CAD software (ten user key), White board (1) Storage cabinet (2), AC (5), Online UPS System, Internet Facility and CAD Softwares, CCTV Cameras-06, LCD/LED Unit-01, Fire Alarm System |
| 9. | Weaving & Hosiery Lab (Lab No. 18) | Table looms- 05, Jacquard loom-01, Different type of handlooms- 05, Warping unit-01, Flat Bed Knitting Machines -11, Hand Circular Knitting Machine -01 |
| 10. | Seminar Room (Room No. 32) | LCD/LED projector-02, Computer- 01, Online UPS- 01, Conference Table with Chairs-30, TV-01, CD player-01, AC (3) |
| 11. | PG Resource Room (Room No. 10) | Reading Table with chairs, Storage cabinets, Racks, Computer-02 |

**6.5.6.2. Research Contingency:** *A note on amount of research contingency for each department shall be provided. Whether it meets the students' demand?*

Every department in the College receives funds for conducting PG, Ph.D. and faculty research. This amount is utilized towards purchase of materials and equipments for conducting field studies, laboratory studies and data collection etc.

| Department | Research Contingency (Rs.) | | | | | |
|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | Grand Total |
| **Dean's Office** | 21,38,270 | 21,60,700 | 33,52,180 | 31,20,000 | 93,96,910 | **2,01,68,060** |
| **EECM** | 62,02,050 | 20,70,670 | 10,91,640 | 1,50,800 | 3,85,100 | **99,00,260** |
| **FN** | 4,23,396 | 7,01,941 | 4,79,016 | 46,19,992 | 24,25,602 | **86,49,947** |
| **FRM** | 1,45,350 | 1,31,400 | 1,31,400 | 1,13,000 | 1,30,200 | **6,51,350** |
| **HDFS** | 6,00,300 | 5,53,320 | 3,95,820 | 7,61,420 | 5,92,100 | **29,02,960** |
| **TAD** | 5,27,000 | 15,08,660 | 3,50,009 | 3,90,000 | 5,22,000 | **32,97,669** |

Yes, research contingency is sufficient to meet the students' demand.

### 6.5.7. Outcome/Output

**6.5.7.1. Students Performance in National Examination:** *Provide detailed information in tabular form about student Performance in JRF/SRF/NET/ARS and other National Examinations for last five years. Only those students receiving fellowships should be mentioned here.*

An upward and positive trend is noticed in students' performance in national examinations. The initiative of the College in providing special classes for JRF aspirants and constant motivation and mentoring by the faculty, advisors, senior students to achieve success in different competitive examinations. During the period under report, 31 students qualified JRF, 10 students qualified SRF and 87 students qualified NET, four students qualified NTS and five awarded National Fellowship for SC Students. Year-wise detailed description is given in the table below:

**Year wise list of students qualifying various examinations**

| Year | Name of Examination | | | | |
|---|---|---|---|---|---|
| | JRF | SRF | NET | NTS | NF- SC/ NF-OBC |
| 2018-19 | 06 | 03 | 19 | 02 | -- |
| 2019-20 | 03 | 01 | 11 | -- | 02 |
| 2020-21 | 03 | 04 | 12 | -- | 01 |
| 2021-22 | 10 | 02 | 27 | 01 | 01 |
| 2022-23 | 09 | -- | 18 | 01 | 01 |
| **Total** | **31** | **10** | **87** | **04** | **05** |

**Best Teacher Award**

**Best Paper Presetnation Award**

**6.5.7.4. Employability:** *What are the set of achievements such as skills, understandings and personal attributes that make College students more likely to gain employment and be successful in their chosen occupations, which benefits themselves, the workforce, the community and the economy? Provide one page note on the subject.*

One of the inherent goals of any academic institution is to inculcate values, impart knowledge and develop the skills & attributes that equip the students for the world of work either as professionals or entrepreneurs. The efforts of the College for employability are as follows:

**Student Work Experience and Internships:** Academic internships are a mandatory part of the curriculum. During internship, students get hands-on experience working within an organization which is a valuable stepping stone for students into a successful career. Aside from giving students the opportunity to explore their career interests, internships also help students develop professional and transferable skills that are sought out by employers across all fields.

Student READY programme offered in the final year of undergraduate programme provides an opportunity to the students to develop professional competence, skill and confidence to start their own entreprise. This is a step towards 'Earn while Learn' concept. Experiential Learning units of the College endow the students with excellent opportunity to develop managerial, analytical and entrepreneurial skills through meaningful hands on experience to design and execute an enterprise. Keeping a pulse on emerging fields and their evolving needs, courses are aligned with in-demand skills. The Student READY Modules are a launch pad for our students for entrepreneurship in Skill Development in Event Management, Bakery and Confectionery, Designing and Production of Information Material, Product Design: Digital Embroidered Home Furnishings and Skill Development in Early Childhood Education and Management and prepare students for setting their own Preschools, Early Childhood Care and Education Centres or Day Care Centres.

**Alignment of educational offerings with in-demand skills:** The courses of UG and PG are revised time to time as per ICAR/UGC guidelines.

**Agri Business Incubation Center:** Agri Business Incubation Center at CCSHAU, Hisar provide guidance, technology and infrastructure and focus on capacity building through counselling, training

and business advisory services for helping the students for starting, running and sustaining the business in different areas of agriculture.

**The Students' Counselling & Placement Cell:** There is Counselling & Placement Cell in the University located in the Directorate of Students' Welfare. The Students' Counselling & Placement Cell of the university has been assigned four mandates viz., imparting trainings, placements, liaison with leading industries and guidance to the university students for exploring job opportunities in the public and private sectors and also arranges campus interviews. The Training & Placement Incharge of the College collaborates with the Counselling & Placement Cell of the University. The Counselling and Placement Cell of the Directorate in association with the Department of Employment, Haryana, has set up a University Employment Information and Guidance Bureau, which provides information to the students on job opportunities, competitive examinations, scholarships /fellowship etc.

**Student Placements:** The undergraduate students of the I.C. College of Home Sciences after completion of their degree programme are mostly placed as Counsellors, Dietitian, Nutritionist, Textile Designers, Preschool managers, Interior and Exterior Designers, Video Designers, Script writers and editors. The post graduate students are mostly placed as Assistant Professors, Subject Matter Specialists, Teaching Associates, Research Associates, Research Fellows and Lecturers in various disciplines.

**6.5.8.** SSR of the College must have the SSR of all its Degree Programmes (following section 6.4), then the report of the Colleges shall be considered.

**6.5.9.** Certificate (Applicable when SSR is submitted for Programmes & College).

I, the Dean, **Dr. Manju Mehta,** hereby certify that the information contained in Sections 6.4 and Section 6.5.1 to 6.5.7.4 are furnished as per the records available in the college and degree awarding university.

**6.5.10.** Each college shall submit SSR as mentioned in 6.5.8. It shall be prerequisite for the SSR of the Agricultural University.

**Signature of the Dean of the college with Date & Seal**

## परिवार की धुरी है महिलाएं, उन्हें आगे बढ़ाने के लिए प्रोत्साहन की जरूरत : संतोष कुमारी

समस्त हरियाणा न्यूज

हिसार। महिला परिवार की धुरी है। जिस पर हर सदस्य का कार्यभार टिका है। इसलिए हमें हर क्षेत्र में महिलाओं व लड़कियों को आगे बढ़ाने के लिए प्रोत्साहित करना चाहिए। जो महिला औद्योगिक क्षेत्र में अपना हाथ आजमा रही है तो वे उद्यमिता मार्गदर्शकता की मिसाल है। ऐसी महिलाओं को अपने उत्पाद को बढ़ाने के लिए नवीनतम तकनीकों के साथ उच्च स्तर की सामग्री का इस्तेमाल करना चाहिए। ये विचार चौधरी चरण सिंह हरियाणा कृषि विश्वविद्यालय के कैपस स्कूल की निदेशिका संतोष कुमारी ने कहे। जो गांव डोभी में ईंटेड चाकवर्ती गृह विज्ञान महाविद्यालय द्वारा आयोजित ग्रामीण कार्य अनुभव कार्यक्रम के समापन पर मुख्यातिथि के तौर पर मौजूद रही। कार्यक्रम में विभिन्न अतिथि गृह-विज्ञान महाविद्यालय की अधिष्ठाता डॉ. मंजू महता ने बताया कि ग्रामीण कार्य अनुभव कार्यक्रम के माध्यम से महिलाओं को अजित ज्ञान का साथ उजागर चाहिए। साथ ही अपने विभिन्न उत्पाद को बढ़ा सकें। इसके लिए ऐसी महिलाओं को गृह-विज्ञान महाविद्यालय के साथ तालमेल स्थापित करना चाहिए। इससे महिलाएं अपने उत्पाद को बढ़ाने को उत्सुक है। उन्होंने बताया कि कार्यक्रम में गृह-विज्ञान महाविद्यालय की डॉ. विमला जागलान, डॉ. वंदना वर्मा, डॉ. इला रानी, डॉ. उर्वशी जंघारा, डॉ. प्रीतिमल, डॉ. सुमन सोहो की देखरेख में कोएसो कम्युनिटी साइंस की अंतिम वर्ष की 60 छात्राओं ने 30 दिन तक कार्यक्रम का संचालन किया। इस कार्यक्रम के समापन समारोह में भारी संख्या में महिलाएं, गुरुकुल की छात्राएं, जिला परिषद, कार्यक्रम समिति एवं ग्राम पंचायत के सदस्य, युवा खेतान, महिला स्वयं सहायता समूह की महिलाएं, महिला सरपंच, पंचायत समिति के सदस्य, ग्राम सचिव, आंगनवाड़ी कार्यकर्ता, आशा वर्कर, आंगनवाड़ी सहायिका, आदि ने भाग लिया। इस अवसर पर कार्यक्रम में भाग लेने वाली महिलाओं को प्रमाण पत्र दिए गए। इस अवसर पर कार्यक्रम में भाग लेने वाली महिलाओं को प्रमाण पत्र दिए गए। इस अवसर पर कार्यक्रम में भाग लेने वाली महिलाओं को प्रमाण पत्र दिए गए।

## पौधारोपण के साथ-साथ उनकी देखभाल भी जरूरी : डा. मंजू मेहता

- होम साइंस कॉलेज की छात्राओं ने डोभी में ग्रामीणों को किया पौधारोपण के प्रति जागरूक

## गेहूं-चावल के मुकाबले मोटे अनाज का सेवन सेहत के लिए फायदेमंद : डॉ. मंजू

समस्त हरियाणा न्यूज

हिसार, 22 मार्च। चौधरी चरण सिंह हरियाणा कृषि विश्वविद्यालय के गृह विज्ञान महाविद्यालय के विस्तार शिक्षा एवं संचार प्रबंधन विभाग की टीम ने गांव खानकाना में महिलाओं के विकास के लिए कार्यक्रम का आयोजन किया। इस कार्यक्रम का आयोजन जी-20 के अंतर्गत गृह विज्ञान महाविद्यालय की अधिष्ठाता डॉ. मंजू महता के नेतृत्व में आयोजन गया। कार्यक्रम में विभागाध्यक्ष डॉ. बीना चहल ने ग्रामीण महिलाओं के सशक्तिकरण के लिए प्रशिक्षण एवं सेवाओं की जानकारी दी, साथ ही जी-20 का महत्व बताया। उन्होंने बताया कि 2023 को अंतरराष्ट्रीय पोषक अनाज वर्ष के रूप में मनाया जा रहा है। गेहूं-चावल के मुकाबले मोटे अनाज उत्पादन और खाने दोनों ही तरह फायदेमंद है, जिससे शरीर को इम्यूनिटी मजबूत होती है और बीमारियों से लड़ने की शक्ति मिलती है। महाराज प्रभादान डॉ. चंदन वर्मा ने बच्चों को स्वच्छता व स्वास्थ्य के प्रति जागरूक करने का संदेश दिया। महाराज वैज्ञानिक डॉ. संतोष रानी ने गृह-वाटिका लगाने के लिए जागरूक किया। उन्होंने बताया कि गृह वाटिका से घर के पत्तों और खाली भूमि का सदुपयोग होता है, साथ ही मनपसंद सब्जियां भी मिलती है, जोकि ताजा सब-सुथरी व कीटनाशक रहित और पोषक तत्वों से भरपूर होती है। गांव के सरपंच पवन कुंडागिया ने सामाजिकसेवा अभियान सुरेश कुमार ने कार्यक्रम के आयोजन में सहा महिला विस्तार शिक्षा डोभी महिलाओं को जानकारी उपलब्ध की।

## एचएयू के गृह विज्ञान महाविद्यालय की ओर से गांव किरतान में चलाया पौधारोपण अभियान

समस्त हरियाणा न्यूज

हिसार। चौधरी चरण सिंह हरियाणा कृषि विश्वविद्यालय के गृह विज्ञान महाविद्यालय एवं आजाद हिंद चुवा कलब के संयुक्त तत्वावधान में गांव किरतान के विभिन्न सार्वजनिक स्थानों पर पौधारोपण अभियान चलाया गया। महाविद्यालय के कलब एवं परिवार अधिकल्पन विभाग की ओर से आयोजित इस अभियान के दौरान गांव के कब्रिस्तान में दो सौ से अधिक पौधे लगाए गए। कार्यक्रम में विभागाध्यक्ष डॉ नीलम रोजू व डॉ सरोज यादव ने विशेष तौर पर शिरकत की। युवाओं को अधिक से अधिक पौधारोपण के लिए प्रेरित करते हुए उन्होंने कहा कि पौधे हमारे जीवन का आधार है। उन्होंने युवाओं से भी आह्वान किया कि वे न केवल खुद बल्कि अन्य ग्रामीणों को भी पौधारोपण के लिए प्रेरित करें और लगाए गए पौधों को संरक्षित भी रखें। इस मौके पर राष्ट्रीय स्वयंसेवक संघ की डी राज्य माधव शाखा किरतान का भी विशेष सहयोग रहा। इस मौके पर कलब प्रधान कपूर सिंह आर्य, प्रोमिला आर्य, सुकेश किरतान, सुखेमिंह, रोहतास, शकूर खान, मनवीर, राजेश, रविंद सिंह सहित अन्य युवा मौजूद थे।

## छात्राओं का सामाजिक भलाई के साथ-साथ आत्मनिर्भरता की ओर कदम

अब तक विभिन्न संस्थाओं के ऑर्डर पर तैयार कर चुकी हैं 166 बॉडी कवर किट

## 6.4. SELF STUDY REPORT OF UG PROGRAMME

### 6.4.1. Brief History of the Degree Programme: *Clearly mention in which year the degree program was initiated along with its objective and accomplishments.*

With the advent of Agricultural Universities, the focus of Home Science education was shifted from urban to the rural households and the curricula was designed accordingly and implemented appropriately. 1990-2000 decade of application oriented education to transform the role of students from job seekers to job providers and to keep pace with fast changing demands of the community. This period laid the foundation for many educational reforms like Rural Home Science Work Experience (RHWE) in villages, skill and entrepreneurial oriented teaching, computer aided learning and internship in respective reputed institutions/ industries for hands-on training. The skill oriented education system transformed the role of women from becoming mere homemakers to empowered women and from a skilled vocational person to a professional in the area of Home Science. The academic programme was further strengthened by introducing Experiential Learning, which oriented the students towards marketing skills and resource generation, making Home Science a leading professional Hons. Degree Programme. With the renaming and restructuring the degree programme from Home Science to Community Science the focus has been shifted to application of scientific knowledge for empowerment of families and communities.

The I.C. College of Home Sciences presently offers degree programme of four year duration, after Senior Secondary leading to B.Sc. (Hons.) Community Science. A distinctive feature of the UG degree programme is that professional education is imparted in the final year of the degree programme through five Modules viz. Experiential Learning in Bakery and Confectionery, Skill Development in Event Management, Skill Development in Early Childhood Education and Management, Experiential Learning in Print and Electronic Media Production, and Experiential Learning in Product Design: Digital Embroidered Home Furnishings. The College has so far produced 2679 Graduates, 924 Post Graduates and 297 Ph.D. Scholars. Academic milestones of the degree programme are mentioned below:

| YEAR | MILESTONES |
|---|---|
| 1973 | The undergraduate programme in B.Sc. Home Science, 4 Year and B.Sc. Home Science, 3 Year initiated under trimester system with internal system of evaluation |
| 1976 | First batch of B.Sc. Home Science, 3 year graduated |
| 1977 | First batch of B.Sc. Home Science, 4 year graduated |
| | Pre-School Nursery Lab started in the Department of Child Development |
| 1987 | B.Sc. Home Science, 3 Year Programme after 10+2 started |
| | Semester system was introduced |
| 1988 | B.Sc. Home Science, 5 Year Programme after Matriculation started |
| 1997 | External examination system for UG programme started |
| 1998 | B.Sc. (Hons.) Home Science, 4 Year Programme after 10+2 started |
| | UG course curricula as per Third Deans' Committee recommendations implemented |
| 2011 | UG course curricula as per Fourth Deans' Committee implemented |
| | B.Sc. (Hons.) Home Science, 6 Year Programme after matriculation started |
| 2017 | Nomenclature of B.Sc. (Hons.) Home Science, 4 Year Programme changed to B.Sc. (Hons.) Community Science, 4 Year Programme |
| | UG course curricula as per Fifth Deans' Committee recommendations implemented<br>Student READY Programme implemented |
| 2021 | First batch of B.Sc. (Hons.) Community Science graduated |

**Objectives:**

- To develop abilities for effective resource management and improved quality of life
- To groom students for multiple role performance
- To develop knowledge, skills and competencies among students to excel in personal and professional arena
- To enlighten students for equitable and sustainable women led development

**In-plant Training at International Institutes**

**Accomplishments:**

- Total 65 batches of students have graduated from the College since its inception in 1973 to 2022. Fourteen batches of B.Sc. 4-Year. Programme (after High School); eight batches of B.Sc. 3-Year. Programme (after Higher Secondary); eleven batches of B.Sc. 3-Year. Programme (after Senior Secondary); seven batches of B.Sc. 5-Year. Programme (after High School); nineteen batches of B.Sc. (Hons.) 4-Year. Programme (after Senior Secondary); four batches of B.Sc. (Hons.) 6-year Programme (2+4) and two batches B.Sc. (Hons.) Community Science (after Senior Secondary) have completed their degree.
- Many of the alumni of the College are serving in Govt. and private sectors like Department of Women and Child Development, Department of Higher Education Govt. of Haryana; Universities; Research institutions; NIFT & IIM; Hospitals of repute; Secondary Education, Govt. of Haryana and Govt. of Delhi. These alumni are serving at positions of CDPO, Programme Officers, Lecturers, TGT, PGT, Dietician, Subject Matter Specialists and Research Associates. Some of the alumni have set up their own enterprises.
- Our graduates also obtain admission in other institutes of repute for higher education like CAUs, SAUs, GJUS&T, KUK, Banasthali Vidyapeeth, National Institute on Agriculture Management Jaipur, National Institute of Fashion Technology.
- Total 137 students have cleared JRF/SRF/NET exams conducted by UGC/ICAR and are recipients of fellowships. Further 87 students got employed in public and private sector during period under report.

**6.4.2. Faculty Strength:** *The faculty strength of the Degree Programme need to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of research staff, extension staff, contractual faculty, guest faculty, adjunct faculty or any other arrangement being made to complete the curriculum, it should be clearly mentioned in the report.*

There are three sanctioned posts of Professors/equivalent, 11 Associate Professors/equivalent and 54 Assistant Professor/equivalent in the College. At present, there are 12 Professors/equivalent, 04 Associate Professors/equivalent, 21 Assistant Professors/ equivalent and are assigned the responsibilities for the multiple programmes. In addition to present faculty members, two Instructors and eight Research Associate/Senior Research Fellow/Young Professionals also contribute in teaching/research/extension activities of the College.

| Designation | Sanctioned | In-place | Vacant position | Faculty recommended by ICAR |
|---|---|---|---|---|
| **Professor/equivalent** | 03 | 12PP (09+03*) | -- | 05 |
| **Associate Professor/equivalent** | 11 (10+01*) | 04PP (03+1*) | 07 | 10 |
| **Assistant Professor/equivalent** | 54 (33+21*) | 21(15+6*) | 24 (9 Promoted to Professor) | 20 |
| **Instructor** | 02 | 02 | -- | -- |
| **Research Associate/ SRF/YP** | 09 | 08 | 01 | -- |
| **Total** | **79** | **47** | **32** | **35** |

PP- Personal Promotion from Assistant Professor *Faculty Posted in Extension

**6.4.3. Technical and Supporting staff:** *The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

**Technical and Supporting Staff:** In the Dean's Secretariat and all the five departments, 25 technical, 38 supporting and 05 field staff positions are filled up. The gap in technical, supporting and field staff positions is filled by engaging persons on contractual basis for smooth functioning of official, practical and field work.

| Dean's Secretariat and Departments | Technical | | Supporting Staff | | Field Staff | |
|---|---|---|---|---|---|---|
| | Sanctioned | In-place | Sanctioned | In-place | Sanctioned | In-place |
| **Dean's Secretariat** | 06 | 03 | 22 | 20 (9+11*) | -- | -- |
| **EECM** | 07 | 04 (2+2*) | 05 | 04 (3+1*) | -- | -- |
| **FN** | 06 | 06 (5+1*) | 05 | 05 (3+2*) | 01 | 01 |
| **FRM** | 05 | 03 | 03 | 03 (1+2*) | 05 | 04 (3+1*) |
| **HDFS** | 06 | 04 (3+1*) | 04 | 03 (2+1*) | -- | -- |
| **TAD** | 05 | 05(1+4*) | 03 | 03 (1+2*) | -- | -- |
| **Total** | **35** | **25 (17+8*)** | **42** | **38 (19+19*)** | **06** | **05 (4+1*)** |

* Contractual staff

**Note:** The staff is assigned the responsibilities for the multiple programmes.

**6.4.4. Classrooms and Laboratories:** *Mention the number of class rooms and functional laboratories available for the degree programme and justify if it is sufficient to meet the course curricula requirement. Lists major equipments, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention theory and practical batches for the Degree Programme.*

**Classrooms/Lecture rooms:** There are two smart classrooms and five lecture rooms with LCD/LED projectors having seating capacity of 70-75 students. In addition to these seven lecture rooms there is well equipped College Computer Lab and College Conference Room meant for teaching activities. All the five departments have seminar rooms equipped with LCD/LED projector. In addition to this, smart board facilities are available in College Committee Room, PG Lab (Dept. of EECM) and CAD Lab. (Dept. of TAD).

**Laboratories:** The I.C. College of Home Sciences has well equipped 46 laboratories and one Domestic Farm Unit. All the departments have well established UG and PG laboratories, computer room, seminar room and departmental library being utilized for award of Degree Programme. Hence, number of class rooms and functional laboratories available for the Degree Programme are sufficient to meet the course curricula requirement. Department wise details of labs are as under:

| S. No. | Name of Lab (Location) | Purpose |
|---|---|---|
| **Department of Extension Education and Communication Management** | | |
| 1. | Multimedia Lab and Recording Room (Lab No. 71) | For designing, editing and production of audio and multimedia programmes under UG and PG courses, and PG research and research by faculty. |
| 2. | Video Studio with Control Room and Waiting Room (Room No. 65) | Hands on training of UG and PG students on Camera handling ; Script writing; Video shooting , editing & production; Panel discussion; Delivering TV talk etc. |

| | | |
|---|---|---|
| 3. | Print Media Lab<br>(Lab No. 63) | Hands on training on MS-Office, Corel DRAW, Photoshop, Designing of Brochures, Leaflets, Charts, Posters, Invitation cards, Professional documents, Certificates etc. |
| 4. | Experiential Learning Lab<br>(Lab No. 61) | Skill development in - Market survey , Preparation of the business plan, Analysis of cost benefit ratio , Printing of-teaching aids, visual aids , certificates, visting/ business cards, e invitation cards, extension literature such as posters, charts, booklets, etc. |
| 5. | Training Lab<br>(Lab No. 70) | For organizing training of Students and Rural Women |
| 6. | PG Lab. cum Seminar Room<br>(Lab No. 49) | For conducting PG classes, Seminars (synopsis, thesis, credit), Comprehensive examinations (written and oral) and Viva voce examinations<br>Presentation of assignments and reports by PG students |
| 7. | Research Lab<br>(Lab No. 56) | Planning and designing of research activities like Objective setting, Annual plans, Annual reports<br>Showcasing of research activities |
| 8. | Activity Lab. cum Resource Room<br>(Lab No. 59B) | Showcasing and consulting departmental Theses, Reports, Manuals, Journals, Books, Extension literature etc. by faculty and PG students<br>Preparing presentations, Reports and Class Assignments by PG students |
| **Department of Foods and Nutrition** | | |
| 1. | Cooking Lab-I<br>(Lab No. 1) | Practical classes of cooking for UG courses |
| 2. | Cooking Lab-II<br>(Lab No. 2) | Practical classes of cooking for UG courses |
| 3. | Bakery Lab<br>(Experiential Learning Unit)<br>(Lab No. 4&5) | Practical classes of cooking, baking as well as hands on training on bakery and confectionery |
| 4. | PG Lab<br>(Lab No. 18) | Analytical research work of PG Practicals and students research |
| 5. | Food Processing Lab<br>(Lab No. 3) | Analytical research work |
| 6. | AICRP Lab<br>(Lab No. 25) | Analytical research work. Showcasing AICRP activities |
| 7. | Centre of Excellence<br>(Lab No. 6) | Processing and product development for carrying out demonstrations and hands on trainings to rural and urban masses. |
| 8. | Food Analysis Lab (Lab No. 38A) | Facilities for all analytical research work |
| 9. | Community Nutrition Lab/Diet Counselling Centre (Lab No. 38B) | Community nutrition research work, nutritional status assessment and counselling of subjects |
| 10. | Small Animal Research Lab (Lab No. 14) | For experiments on small animals (rodents/fish) |

| | | |
|---|---|---|
| 11. | PG Class Room (Room No.11) | For conducting classes of PG students |
| **Department of Family Resource Management** | | |
| 1. | P.G. Resource Room<br>(Lab No. 92) | PG Teaching |
| 2. | Furnishing Lab<br>(Lab No. 46) | Interior's aspects and Table setting/ napkin folding |
| 3. | Activity Lab<br>(Lab No. 78) | Preparation of Creative articles in the course FRM 405 |
| 4. | Research Lab<br>(Lab No. 74) | Ergonomics related practical classes and students' research work |
| 5. | Computer Lab<br>(Lab No. 84) | Practical Auto CAD course and PG students' work |
| 6. | Design Studio Lab<br>(Lab No. 41) | U.G. & P.G. practical classes related to housing and designing |
| 7. | Consumer & Appropriate Technology Lab (Lab No. 44) | Taking practical classes of equipments, appropriate technology and housing. |
| 8. | Seminar Room<br>(Lab No. 91) | Used for presentation of assignments and delivering seminars by PG students and also used for conducting UG & PG classes |
| **Department of Human Development and Family Studies** | | |
| 1. | Pre-school Lab:<br>Activity Room 1 (Room No. 129)<br>Activity Room 2 (Room No. 128)<br>Activity Room 3 (Room No. 124) | Conducting practical classes and hands on Training in UG courses and PG courses |
| 2. | Kitchen<br>(Room No. 119) | Cooking and heating food for pre-school children enrolled in nursery. |
| 3. | Dining Room<br>(Room No. 117) | Serving lunch for preschool children. |
| 4. | UG Lab-I<br>(Room No. 100) | Conducting practical classes of UG students |
| 5. | PG Lab<br>(Room No.114) | Conducting M.Sc. and Ph.D. practical classes |
| 6. | Computer Lab<br>(Lab No.106) | Used for Module, M.Sc. and Ph.D. courses. |
| 7. | AICRP Lab<br>(Lab No. 104) | Showcasing AICRP activities |
| 8. | Seminar Room<br>(Room. No. 108) | Presentation of assignments and delivering seminars by PG students and also used for conducting PG classes. |

| Department of Textile and Apparel Designing | | |
|---|---|---|
| 1. | Dyeing and Printing Lab (Lab No.14) | Conducting practical classes related to dyeing and printing courses of UG and PG Programme |
| 2. | Textile Science Lab (Lab No.16) | Conducting practical classes related to textile science of both UG and PG students |
| 3. | Weaving and Hosiery Lab (Lab No.18) | Conducting classes of weaving course of UG students |
| 4. | Apparel Construction Lab -I (Lab No. 23) | Conducting apparel construction classes of UG and PG students |
| 5. | Apparel Construction Lab-II (Lab No. 21) | Conducting apparel construction classes of UG students |
| 6. | Experiential Learning Lab (Lab No. 24) | Conducting practical classes and hands on training on computerized digital embroidery machines to UG students. |
| 7. | Textile Testing Lab (Lab No. 26) | Teaching PG students and conducting research work using various textile testing equipment's |
| 8. | CAD Lab (Lab No. 27) | Practical classes of UG and PG CAD courses by using different designing software |
| 9. | Apparel Construction Lab-III (Lab No. 29) | Classes of garment construction and hosiery are conducted in this lab for students of UG and one year certificate course. |
| 10. | Seminar Room (Room No. 32) | Presentation of assignments and delivering seminars by PG students and also used for conducting PG classes. |
| 11. | PG Resource Room (Room No.10) | Keeping books and theses for the reference of PG students and faculty. |

**List of major equipment's, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme:**

| S. No. | Name of Lab/Location | Equipment's/ Facilities |
|---|---|---|
| **Department of Extension Education and Communication Management** | | |
| 1. | Multimedia Lab and Recording Room (Lab No. 71) | Computer , smart podium , projector , LCD/LED Screen, video cameras, still cameras, editing software, TV/Monitor, VHS, VCR, OHP, Slide projector, PA system, AC, DVD player, microphones, audio visual cabinet, UPS, CCTV camera |
| 2. | Video Studio with Control Room and Waiting Room (Room No. 65) | Cameras with accessories, Switcher/Audio Video Mixer with accessories, Digital Video Cassette Recorder, Monitor– PGM/PVW, Non Linear editing setup apple mac pro with final cut studio, Teleprompter (News reader), Power Amplifier, Studio Table for Panel discussions, Light Console 24 Channel, Cool Light, Computer with accessories |
| 3. | Print Media Lab (Lab No. 63) | 6 Tables, 35 Chairs, 10 Computers, Printer with scanners, Projector, LCD/LED Screen, Media storage cabinet, UPS, 2 ACs |

| | | |
|---|---|---|
| 4. | Experiential learning Lab (Room No. 61) | 5 Computers with Work Station , 2 Big Tables, 25 Chairs, Digital Plotter, A3 Printer, Storage Cabinet, Smart Podium, LCD/LED Projector, UPS 1.5 KV, Laminator , AC |
| 5. | PG Lab. Cum Seminar Room (Lab No. 49) | OPS interactive panel, Two Big Tables, 30 Chairs , AC |
| 6. | Activity lab. cum Resource Room (Lab No. 59B) | Book Storage Cabinet, Computer with Work Station. |
| 7. | Training Lab (Lab No. 70) | 15 Chairs, 10 Drawing Tables, 4 Storage cabinet, Computer with work station |
| **Department of Foods and Nutrition** | | |
| 1. | Centre of Excellence (Lab No.6) | Extruder with attachment for puff, Destoner cum grader, Double deck oven, Spiral mixer, UV spectrophotometer, Weighing machine, Sealing machine, Vacuum Packaging machine, Parboiling unit, Tray drier, Hammer mill, Pearling machine |
| 2. | PG Lab (Lab No.18) | Body composition analyzer, Blood analyzer, Food texture analyzer, Automatic moisture analyser, Orbital shaker, Spectrophotometer, Hot air oven, Automatic Protein Analyser, Fibre plus, Automatic Fat Analyser, Weighing Balance, Water bath, Moisture Analyser, Muffle Furnace, Centrifuge, Water distillation unit, Refrigerator |
| 3. | Bakery Lab (Lab No.4&5) | Pasta making machine, Dough sheeter, Single deck electric baking oven, Display case, Spiral mixer machine, Planetary mixer, Proofing cabinet, Electric oven double deck, Weighing balance |
| 4. | Food Processing Lab (Lab No.3) | Deep freezer with digital temp Controller, Automatic Protein Analyser, Fibra plus, Automatic Fat Analyser, Spectrophotometer, Rotary shaker, Grinding mill (*Chakki*), Vacuum oven, Hot air oven, Centrifuge, Lyophilizer, Cooling centrifuge, Deep freezer |
| 5. | AICRP (Lab No.25) | Hot Air Oven, Refrigerator, Deep Freezer, Cooling Incubator, BOD Incubator, Centrifuge, Orbital Shaker, Socs Plus, Environmental Shake, Kel Plus, Water Bath Shaker, Vacuum Oven, Fibra plus, Cyclotec Mill, Digital balance |
| 6. | Cooking Lab-I (Lab No.1) | Refrigerator, Food ingredient weighing scale, Gas stoves, Mixer grinder |
| 7. | Cooking Lab-II (Lab No.2) | Refrigerator, Food ingredient weighing scale, Gas stoves, Oven Toaster Griller (OTG) |
| 8. | Food Analysis Lab (Lab No. 38 A) | Fume hood, Hunter colour Lab, Vacuum dehydrator, Ultrasonic bath, Spectrophotometer, Deep freezer cum refrigerator, All quartz water distillation, NIR UV-Vis Spectrophotometer, Bio Safety Cabinet, Water bath with shaker |
| 9. | Community Nutrition Lab/Diet Counselling Centre (Lab No. 38 B) | Body composition analyzer, Weighing scale, Heightometer, LCD/LED projector, Computers/Printers along with computer work stations and internet facility. Diet Cal software installed for student use. |
| 10. | Small Animal Research Lab (Lab No. 14) | Air curtains, Animal cages, aquarium |
| 11. | PG Classroom (Room No. 11) | LCD/LED |
| 12. | Seminar Room (Room No. 14) | Multi Media with computer and sound system, AC (2) |
| **Department of Family Resource Management** | | |
| 1. | Research Lab. (Lab No. 74) | Digital B.P. Apparatus, Anthropometric sliding caliper and Spreading calliper, Heart Rate monitor with interface. Electronic tread mill with Acc. Digital temperature Indicator, Environmental kit bag, Peak flow meter, B.P. Apparatus Stethoscopes, Chest belt, Sapling transplanter, Digital wood/timber moisture meter, |

| | | |
|---|---|---|
| | | Extendable goniometero-18 degree built in 4x magnifying lens Digital grip dynamometer range-0-1kg, electronic metronome.<br>Oximeter, Push and Pull dynamometers, torsimeter complete with 400 pond push with digital inclinometer along with P.C. interface.<br>Air quality monitor, Spirometer, Proto type work station top wooden plate flat, Stop watch (Swiss) & Lux meter digital, Drudgery reducing farm tools |
| 2. | Consumer & Appropriate Technology Lab. (Lab No. 44) | Vacuum cleaner, Microwave, Oven, Refrigerator, Dish Washer, Washing Machine, Drudgery Reducing Small Tools and Appliances |
| 3. | Furnishing Lab (Lab No. 46) | Living Room, Dining Room & Bed Room Furniture and Furnishings |
| 4. | Activity Lab (Lab No. 78) | Refrigerator, Water Filter |
| 5. | Seminar Room (Room No. 91) | Multi Media with Computer and Sound System |
| 6. | PG Resource Room (Room No. 92) | Chair and Tables (Big) |
| 7. | Domestic Farm Unit | Walk in tunnel for cut flowers (Poly house) |
| **Department of Human Development and Family Studies** | | |
| 1. | Activity Room 1 (Lab No. 129)<br>Activity Room 2 (Lab. No. 128)<br>Activity Room 3 (Lab. No. 124),<br>Room No. 130, Outdoor Play Area | Anthropometric equipments, Play and gym equipment for children, Outdoor play equipments, LED TV, Smart TV, Speakers, Mini Projector, AC (3), Washing Machine, Geyser, CCTV cameras, Power back up |
| 2. | Kitchen (Room. No. 119) | Well equipped Kitchen with Induction stoves, Microwave, Refrigerators and Geyser |
| 3. | Dining Room (Room. No. 117) | Dining Chairs |
| 4. | UG Lab (Lab No.100, 108) | LCD/LED Projector (Two) |
| 5. | Departmental Library (Room No. 107) | Psychological Tests and Theses (191) |
| 6. | Computer Lab (Lab. No. 106) | Computers with Accessories |
| 7. | Seminar Room (Room No. 108) | Big table 72x24x30 (eight) and 30 chairs, LCD/LED Projector, AC (2) |
| **Department of Textile and Apparel Designing** | | |
| **1.** | Dyeing and Printing Lab<br>(Lab No. 14) | Flat Bed Fusing Machine-01, Computerized Colour Matching System-01, Infra-Red Heater-01, Steaming Chamber-01, Padding Mangle-02, Colour Matching Cabinet-01, Water Bath-02, pH meter, Electronic Balance, Hot Air Oven, Lab Shaking Machine-01, Nozzle Printing Unit, Printing Tables- 03 |
| **2.** | Textile Science Lab<br>(Lab No. 16) | Laundrometer-01, Stain Removal Machine-01, Washing Machine-02 (Semi-Automatic-01 and Fully Automatic-01), Microscopes-05, pH Meter, Weighing Balance-01, Ironing board-06, Sleeve Ironing Board-05, Steam Iron-02, Multi parameters Pocket Tester, Commercial Mixer Grinder-01, Geyser-01, Washer with Dryer-01, Electronic Weighing Scale, µ-Controller Based Photoelectric Clorimeter, Double Distillation Water Unit-01, Digital Magnetic Hot Plate-01, Refrigerator-01, Waterbath-01, Hot Air Oven-01 |
| **3.** | Weaving and Hosiery Lab<br>(Lab No. 18) | Table looms- 05, Jacquard loom-01, Different type of handlooms- 05, Warping unit-01, Flat Bed Knitting Machines -11, Hand Circular Knitting Machine -01 |
| **4.** | Apparel Construction Lab -II<br>(Lab No. 21) | Foot Sewing Machines- 30, Cutting Tables- 02, Demonstration Table- 01, Ironing Board- 02, Steam Iron-02 |

| | | |
|---|---|---|
| **5.** | Apparel Construction Lab-I<br>(Lab No. 23) | Industrial Sewing Machines- 16 (Industrial Sewing Machines-11, Foot Operated Sewing Machines-05), Chain Stitching Machine-01, Hosiery Sewing Machine-01, Picoting Machine-01, Feed Split Needle Bar Machine, Elastic Stitching Machine-01, Sequins Embroidery Machine-01, Embroidery Machine-01, Lace Braiding Machine-01, Blind Hemming Machine-01, Cutting Tables Big-02, Cutting Tables-07, Ironing Board- 02, Steam Iron-02, Dress Forms- 13, Students Chair-20, Embroidery Machine-03, Single Needle Straight Stitch Machine-02, Multipurpose Automatic Zig-Zag Machine-02 |
| **6.** | Experiential Learning Lab<br>(Lab No. 24) | Single Head Embroidery Machine (10 needles) -02, Computerized Single Head One Needle Embroidery Machine -06, Computerized Sewing Machine with Accessories-08, Industrial Sewing Machine (4), Multilayer Cutter-01, Round Knife-01, Five Thread Over Lock Machine-01, Fusing Machine-01, Pattern Layout and Cutting Machine-01, Cutting Table Big-02, Lab Stools-20, Digital Camera-01, Computer- 06, Colour Design Jet- 01 |
| **7.** | Textile Testing Lab<br>(Lab No. 26) | Refrigerator-01, Microwave-01, Tensile Strength Tester-02, Thickness Gauge-01, Perspirometer-01, Crockometer-01, Water Bath-01, Drape Meter-01, pH Meter, Stiffness Tester-01, Double Distillation Unit-01, Rotavapour-01, Precision Balance-01, Heating Mantle-01, Microscope-02, GSM Cutter-02, Quadrant Balance-01, Crease Recovery-01, Yarn Evenness Tester-01, Wrap Reel-01, Bending Length-02, Digital Weighing Balance-01, Pilling Strength Tester-01, Xenon Light Fastness Tester-01, Air Permeability Tester-01, Bursting Strength Tester-01, COD Digestion Unit-01, Hot Plate-01, Projection Microscope-01,Spectrophotometer-01, Flammability Tester-01, Open Bath Beaker Dyeing Machine-01, Grinder-01, Gas with Cylinder, Computer with UPS, AC (3), Hot Air Oven-01, Electronic Balance-01, Fibre Microtome-01 |
| **8.** | CAD Lab<br>(Lab No. 27) | Computers with Work Stations-30, Interactive Panel-01, Plotters-03, Digitizer-01, Scanner-01, Rich peace Software (ten user key), Tuka CAD software (ten user key), White board-01, Storage Cabinet (2), AC (5), Online UPS System, Internet Facility, CCTV Cameras-06, LCD/LED Unit-01, Fire Alarm System |
| **9.** | Apparel Construction Lab-III<br>(Lab No. 29) | Motorized Sewing Machines- 07, Foot Sewing Machines-26, Big Cutting Tables- 03, Demonstration Table- 01, Ironing Board- 02, Steam Iron- 02, Picoting machine-01 |
| **10.** | Seminar Room<br>(Room No. 32) | LCD/LED projector-02, Computer- 01, Online UPS- 01, Conference Table with Chairs-30, TV-01, CD player-01, AC (3) |
| **11.** | PG Resource Room<br>(Room No. 10) | Reading Table with chairs, Storage cabinet, Racks, Computer-02 |

**Theory and Practical Batches**

- Theory (core courses): Two batches with an average of about 40-50 students in each batch from 1st to 6th Semester of UG degree Programme.
- Practical (core courses): Four batches in 1st and 2nd semesters with an average of about 20-25 students in each batch.
- Practical (Module: I-V): One batch with an average of about 20 students per batch in each Module during 7th Semester.

**6.4.5. Conduct of Practical and Hands-on-Training:** *It is important to have a sound grasp of the theory that underlies any professional degree. But there are some skills that can only be learned through hands-on -practice. It is important that much of the learning material in any given course should be provided in a way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hands-on-training as per the curriculum and meeting above mentioned requirements.*

For a professional degree, some of the practical and hands-on training skills are needed to be acquired besides sound grasp of the theory. Hence, it is important to provide learning material and opportunities that allow students to get involved in activities that increase their knowledge and skills. As per 5th Deans' Committee Recommendations, core courses and Module are offered at UG level in all the five departments (**Annexure V A-E)**. Out of total 46 courses offered during B.Sc. (Hons.) degree Programme, 39 courses are practical based. Following courses with practical components provide practical skills and hands-on learning by involving the students in practical however sound grasp of the theory is important which is taken care through theory classes, assignments, presentation etc.

| Course No. and Credit Hours | Practical and Hands-on-training | How far students are getting desired practical and hands-on-training as per the curriculum (bullet form) |
|---|---|---|
| **Department of Extension Education and Communication Management** | | |
| **HECM 103 Diffusion and Adoption of Homestead Technologies** 3 (2+1) | • Survey on identification and use of appropriate homestead technologies by rural and urban families<br>• Calculation of adoption index of selected technologies<br>• Practice in demonstration of improved technologies supplemented with communication media for teaching rural women/ girls<br>• Visit to different successful SHGs and categories of adopters among SHG members<br>• Analysis and presentation of report | • Students conduct survey for identification and use of appropriate homestead technologies by rural and urban families<br>• Student calculate adoption index of selected technologies<br>• Student do practice in demonstration of improved technologies supplemented with communication media for teaching rural women/ girls<br>• Through visits to different successful SHGs students gain knowledge about categories of adopters among SHG members<br>• Students acquire analysis and presentation skills |
| **HECM 201/ HDFS 201 Communication Skills and Personality Development** 3 ( 2+1) | • Writing skills, oral presentation skills<br>• Footnote and bibliographic procedures<br>• Reading and comprehension of general and technical articles<br>• Summarizing, abstracting, individual and group presentations<br>• Public speaking, group discussion | • Student learn writing and oral presentation skills<br>• Student have practice of public speaking, group discussion<br>• Students practice nonverbal communication, reading and comprehension of general and technical articles |

| | | |
|---|---|---|
| | | • Development of self confidence among students<br>• Students apply SWOT analysis on themselves. |
| **HECM 202 Extension Training Management**<br>3 ( 2+1) | • Visit to different training institutions to observe on-going trainings; Report writing and presentation<br>• Hands-on-experience with training need analysis; writing training objectives, development of training module<br>• Experience in delivering the training package<br>• Evaluating the impact of instructional delivery with developed training package | • Students get exposure of functioning of various training institutes<br>• Students get hands on training need analysis and formulation of training objectives<br>• Get familiarized with the process of developing training module for rural women on the selected topic<br>• Organize training by using different training methods and strategies and evaluate the impact |
| **HECM 203 Communication and Instructional Technology**<br>4 (2+2) | • Orientation to Microsoft Office-MS Word, MS Power Point, MS Excel<br>• Internet applications-web browsing, creating e-mail<br>• Orientation to basic graphic designing soft ware's- Corel DRAW and Photoshop<br>• Planning, preparation, presentation of posters, charts, pamphlet, greeting cards, PPT by using computers.<br>• Handling of audio-visual equipment's. | • Students get expertise in using Microsoft Office-MS Word, MS Power Point, MS Excel<br>• Students get acquainted with Internet applications-web browsing, creating e-mail<br>• Students learn to design and develop posters, charts, pamphlet, greeting cards, leaflets and e material etc. by using graphic designing software's- Corel DRAW and Photoshop. |
| **HECM 301 Programme Development for Rural Families**<br>3 (1+2) | • Establishing rapport with rural families<br>• Identification of leader<br>• Conducting baseline survey of village and household<br>• Analysis of information; different PRA tools; its applications in programme development<br>• Triangulation of information from conventional and PRA method<br>• Preparation of detailed plan of work for small need based programme<br>• Implementation and evaluation of programme<br>• Documentation and presentation of findings. | • Students learn to develop linkages with village families<br>• Students learn to develop and conduct baseline survey<br>• Student learn about different PRA tools like mapping, matrix ranking, seasonal diagram, wealth ranking and their applications under village conditions<br>• Students practiced preparation of detailed plan of work for small need based programme and acquire skill in programme implementation and evaluation |
| **HECM 302 Introduction to Mass Communication and Journalism**<br>3 (2+1) | • Orientation to photography and photographic equipment's<br>• Handling and operation of different types of cameras<br>• Familiarization with instructional video; stages in video production.<br>• Preparation of still, digital, video<br>• Writing of photo feature and captions<br>• Exercises on writing, scripts for radio and TV programmes,<br>• Orientation to Corel DRAW and Photoshop for print publications. | • Students get acquainted with different types of photography and photographic equipment's and students develop skills in handling and operation of different types of cameras<br>• Students gets hands on preparation of still, digital, video, writing of photo feature and captions<br>• Students get hands on different exercises on writing, scripts for radio and TV programmes,<br>• Students get orientation to use Corel DRAW and Photoshop for print publications. |

| | | |
|---|---|---|
| **MODULE IV**<br>**Experiential Learning in Print and Electronic Media Production**<br>20 (0+20) | • Identification of the print and electronic media products to be manufactured<br>• Market survey; analysis of the existing status of the identified products and targeted market and customer<br>• Preparation of the project proposal with supply chain of inputs, personnel plan, production plan, finance plan etc. and its preparation<br>• Selection and purchase of material used in print and electronic media production<br>• Costing and standardization of new products as per demand of consumers; plan for the production<br>• Preparation of posters, charts, pamphlets, photo collage, other display material, colored and B&W printing, audio and video recording, editing etc.<br>• Product pricing-physical inputs, man-hours, depreciation etc.; quality assessment; market strategy and assessment of sales performance; profit generated including cost benefit ratio, payback period etc. | • Students learn to conduct market survey for identification of print and electronic media products, targeted market and customer;<br>• Students gets hands on use of Corel DRAW and Photoshop to prepare computer aided leaflet, poster, banner, chart, pamphlet, invitation/ greeting card, certificates, logo, etc.<br>• Students develop skill in planning, production& editing of educational video, documentary and social advertisement<br>• Visit to print and electronic media houses are conducted to get the students familiar with working of industry.<br>• Students get acquainted with marketing strategies/ skill and do product pricing, plan market strategy and calculate cost benefit ratio |
| **Department of Foods and Nutrition** | | |
| **FN 102 Food Science and Processing**<br>3 (2+1) | • Laboratory conduct and responsibilities<br>• Knowledge of different food stuffs in English, Hindi and local language<br>• Terms used in cookery, weights and measures<br>• Identification and use of different kitchen items and equipment's<br>• Identification and listing of various food groups<br>• Market survey of processed and preserved foods<br>• Cereal cookery- preparation of plain rice, lime-rice, *pulao*, *paratha*, *chapatti*, *upma*, *halwa*<br>• Pulse cookery-preparation of plain *dal*, *dal* with green leafy vegetables, *pakoras*, *sambar*<br>• Preparation of cereal and pulse combined recipes-*idlis*, *adai*, *missi roti*<br>• Nuts and oilseeds-preparation of *chikki*, *til ladoos*, *thandai*; milk cookery-preparation of curd and *paneer*<br>• Egg cookery<br>• Fruits and vegetables cookery-preparation of sauces, pickles, squash, chips, jams, jellies, marmalade, candy, preserves, chutneys, candies, syrup, *sabji*, soups and salad<br>• Demonstration on canning and bottling of fruits and vegetables<br>• Sugar cookery-preparation of fudge and fondent; process of caramelization; demonstration of 1-thread and 2-thread consistency syrups; fats and oils- | • Students learn the conduct and responsibilities to work in a cooking lab<br>• Students learn to standardize the basic recipes.<br>• Students learn to add value to common basic recipes from different food groups<br>• Students' get familiar about the current price of raw and processed food ingredients<br>• Students get acquainted with basics of cooking using different food groups such as cereals, vegetable, milk and milk products, egg etc.<br>• Students learn use of various processing methods including germination, frying, fermentation and steaming in recipe preparations |

| | | |
|---|---|---|
| | preparation of *puri*, cakes and biscuits<br>• Appetizers<br>• Visit to food industries. | |
| **FN 201 Community Nutrition and Education**<br>3 (2+1) | • Assessment of nutritional status of an individual/community using anthropometry and dietary survey- preparation of schedule, survey work, analysis of data and writing of report<br>• Visit to local health centre to identify clinical signs and symptoms of nutritional problems<br>• Identification of adulterants in common foods<br>• Visit to an ICDS Block<br>• Development of audio visual aids-radio script, popular articles, chart/posters, leaflets etc.<br>• Planning, implementation and evaluation of nutrition education for target group. | • Students learn assessment of nutritional status of an individual/community using anthropometry, clinical examination and interpretations of biochemical tests and dietary survey<br>• Students learn to identify adulterants in common foods<br>• Students learn the different methods and techniques of developing and imparting nutrition education |
| **FN 203 Normal and Therapeutic Nutrition**<br>3 (2+1) | • Standardization of serving size portions<br>• Planning and preparation of diets for different age groups-infancy, preschool age, school age, adolescent, adult, old age<br>• Planning and preparation of diets for pregnant and lactating women<br>• Planning and preparation of diets for special occasions like birthdays, festivals and packed lunches<br>• Planning and preparation of diets for following diseased conditions-diarrhea, constipation, hepatitis, hypertension, diabetes mellitus, overweight/obesity. | • Students learn to plan and prepare balanced diets according to sex and age<br>• Students plan and prepare balanced diets according to special physiological as well as therapeutic conditions<br>• Students learn to standardize the portion size of common dishes<br>• Students learn to plan and prepare specific nutrient rich dishes<br>• Students learn practically to modify and prepare diets for therapeutic purposes |
| **FN 301 Food Standards and Quality Control**<br>3 (2+1) | • Sensory and nutritional evaluation of some finished products<br>• Detection of adulterants and preservatives in products. | • Students learn the methods of evaluating the quality of raw and processed food products quantitatively and qualitatively<br>• Students get a know how about the adulteration detection in common foods |
| **FN 302 Clinical Nutrition and Dietetics**<br>3 (2+1) | • Estimation of albumin, glucose, ketone bodies, creatinine and creatine in urine<br>• Analysis of blood glucose level<br>• Estimation of total protein, albumin, haemoglobin<br>• Estimation of blood urea<br>• Estimation of total cholesterol, HDL, LDL, TG in blood<br>• Assignment and presentation. | • Students learn the biochemical methods of analysis to diagnose different diseases using samples of blood and urine<br>• Students will gain knowledge about interpretation of results for diagnosis of a disease quantitatively through biochemical examination in assessing nutritional status |
| **FN 303 Bakery and Confectionery**<br>3 (2+1) | • Study of various types of baking equipment's<br>• Type of baking ingredients, flour, yeast, salt and their uses<br>• Balancing the formulae for bakery and confectionery products<br>• Preparation and cost calculation of | • Student becomes aware of various bakery and confectionery ingredients and functioning of various baking instruments<br>• Students learn to prepare various bakery and confectionery products and their cost calculation. |

| | | |
|---|---|---|
| | different types of bakery and confectionery products: straight dough, sponge dough, fermented doughnuts, various types of breads-French bread, raisin bread, milk bread, whole meal bread, brown bread, buns basic bun dough, hot cross buns, fruit buns, breakfast roll, Danish pastry, breadsticks<br>• Cakes, pastries, muffins, cream roll, Swiss roll, sweet paste, biscuits, éclairs, madeleine, patties, pies<br>• Packaging and sale of products<br>• Visit to bakery and confectionery units. | • Students also learn to carry out the sale of products |
| **MODULE I Experiential Learning in Bakery and Confectionery** 20 (0+20) | • **Developing a Business Plan/ Project Proposal:** Market survey of available bakery and confectionery products; developing a Business Plan/ Project Proposal; preparation of the project proposal with supply chain of inputs, personnel, production, and finance plan.<br>• **Plan for the Production:** Selection and purchase of material used in bakery & confectionery for the preparation of value added products; standardization of portion and costing as well as standardization of new products as per demand of consumers;<br>• **Production and Sale:** Preparation of bakery and confectionery items Packaging and storage of developed products; product pricing-physical inputs, man-hours, depreciation etc.; quality assessment; market strategy and assessment of sales performance; profit generated including cost benefit ratio, pay back period etc.<br>• **Documentation, Report Presentation and Evaluation** | • Students give practical edge to their knowledge for setting up a small scale bakery and confectionery unit<br>• Students learn to manage bakery and confectionery unit<br>• Students develop entrepreneurial competencies<br>• Students become aware about production, packaging, quality control, sale, marketing and advertisement strategies<br>• Students produce and sell bakery and confectionery products |
| **Department of Family Resource Management** | | |
| **FRM 101 Management of Family Resources** 2 (1+1) | • Identification of individual and family values<br>• Identification of immediate, short term and long term goals of individual and family, standards for individual and family goals<br>• Decision making by individuals and families<br>• Listing out human and non-human and community resources<br>• Application of management process to organize an event, planning, organization, evaluation | • Conduct survey to identify individual and family values, immediate, short term and long term goals of individual and family; and standards for individual and family goals<br>• Conduct survey on decision making by individuals and families<br>• Listing out human, non-human and community resources<br>• Planning, organizing and evaluating an event<br>• Conduct survey to learn management of personal time record for a week |
| **FRM 102 Fundamentals of Interior Decoration** 3 (2+1) | • Learning elements of art and principles of design<br>• Development of motif and design through art principles | • Students learn elements of art and principles of design<br>• Students learn to develop motif and design using art principles |

| **Department of Textile and Apparel Designing** | | |
| **TAD 101**<br>**Fundamentals of Clothing Construction**<br>3 (1+2) | • Demonstration on sewing equipments and tools, sewing machine and its care<br>• Preparation of samples of hand stitches, machine stitches, seam and seam finishes, pleats, gathers, tucks and placket opening<br>• Demonstration on taking body measurements<br>• Preparation of fabric for cutting and layout of paper pattern on different fabrics patterns<br>• Drafting, cutting and stitching of baby frock, T-shirt and bloomer. | • Acquire sufficient skills in handling sewing equipments and sewing machine<br>• Prepare samples of hand stitches, machine stitches, seam and seam finishes, pleats, gathers, tucks and placket opening<br>• Draft, cut and construct baby frock, T-shirt and bloomer |
| **TAD 102**<br>**Fundamentals of Fabric Construction**<br>3 (2+1) | • Observation of fabric structures under magnifying glass<br>• Graphical representation of woven designs<br>• Demonstration on handloom and its parts<br>• Setting of loom and weaving of plain weave fabric<br>• Demonstration on knitting machine and its parts<br>• Preparation of hand knitted samples of plain, rib and purl stitches<br>• Sample preparation of other fabric construction techniques | • Acquire sufficient knowledge of handloom and its parts and setting of handloom for weaving<br>• Prepare samples of basic weaves<br>• Acquire sufficient knowledge of knitting machines and its parts<br>• Prepare basic samples of hand knitting and other fabric construction techniques |

| | | |
|---|---|---|
| **TAD 201**<br>**Textile Science and Fabric Care**<br>3 (2+1) | • Identification of textile fibres: visual, microscopic, burning and chemical test<br>• Study of yarns: type and size<br>• Study of fabric: weight, thickness, count, bow and skewness<br>• Study of common fabrics available in the market<br>• Removal of common stains from different fabrics<br>• Demonstration of laundry equipment's<br>• Washing, care and storage of cotton, silk, wool, synthetics and other special articles – zari, embroidered and laced fabrics | • Students learn to identify textile fibres through visual, microscopic, burning and chemical test<br>• Learn to measure yarn and fabric parameters like count, weight and thickness<br>• Learn the procedure of removal of various stains from different types of fabrics<br>• Get acquainted with the washing, finishing and storage of textile articles |
| **TAD 202**<br>**Textile Finishes**<br>2 (1+1) | • Desizing and scouring of yarn and fabric<br>• Bleaching and mercerization of cotton fabric<br>• Study of labels pertaining to finishes<br>• Identification of finishes | • Develop skills in desizing and scouring of yarn and fabric<br>• Learn the procedure for bleaching and mercerization of cotton fabric<br>• Acquire knowledge to study the labels pertaining to finishes and learn to identify the finishes |
| **TAD 301**<br>**Principles of Dyeing and Printing**<br>3 (2+1) | • Design development for apparel and utility articles with suitability to different printing techniques<br>• Preparation of yarn and fabric for dyeing<br>• Dyeing cotton with different classes of dyes<br>• Preparation of samples: block, screen and stencil printing, tie and dye and batik | • Develop designs for apparel and utility articles as per suitability to different printing techniques<br>• Learn the procedure to prepare yarn and fabric and dyeing of cotton with different classes of dyes<br>• Prepare samples of block, screen, stencil, nozzle printing, tie and dye and batik |
| **TAD 302**<br>**Computer Aided Textile and Apparel Designing**<br>3 (1+2) | • Introduction to fundamental designing softwares<br>• Use of designing, drawing and editing tools<br>• Sources of inspiration for basic designing<br>• Use of ethnic and traditional motifs for creating designs<br>• Creating geometrical, natural, stylized and abstract motifs and design development for various end-uses<br>• Developing colour ways<br>• Application and modification of scanned images using softwares to create new designs for specific end-uses | • Learn fundamental designing softwares<br>• Use different designing, drawing and editing tools<br>• Application of ethnic and traditional motifs for creating geometrical, natural, stylized and abstract designs for various end-uses<br>• Develop design catalogue of different dresses and articles using different softwares<br>• Acquire knowledge of portfolio preparation |

| | | |
|---|---|---|
| | • Developing design catalogues of dresses for the casual, party, night, sports, office and formal wears and different home textile articles<br>• Portfolio preparation of developed designs | |
| **TAD 303**<br>**Apparel and Accessory Designing**<br>3 (1+2) | • Preparation of samples of collars, sleeves and yokes<br>• Drafting and construction of blouse, *kameez*, *salwar*, *pyjami*, *kurta*, pyjama and night dress/gown<br>• Designing of accessories for women, men and children<br>• Selection of designs for construction of accessories;<br>• Construction of one accessory for women/men/ children | • Develop patterns for various collars, sleeves and yokes<br>• Acquaint skills in drafting, cutting and stitching of blouse, *kameez*, *salwar*, *pyjami*, *kurta*, pyjama and night dress/gown<br>• Acquire sufficient skills in accessory designing and construction |
| **TAD 304**<br>**Traditional Textiles of India**<br>3 (2+1) | • Documentation of motifs of traditional Indian embroideries<br>• Sample preparation of traditional Indian embroideries<br>• Documentation of woven textiles of India<br>• Creative projects in the adaptation of traditional motifs and designs in contemporary textiles through collection of samples, sketches and development of scrap book | • Document motifs of traditional Indian embroideries<br>• Prepare samples of traditional Indian embroideries<br>• Document woven Indian textiles<br>• Learn adaptation of traditional designs to contemporary textiles |
| **MODULE V**<br>**Experiential Learning in Product Design: Digital Embroidered Home Furnishing**<br>20 (0+20) | • Market survey to study the prevailing trends in home furnishings<br>• Visit to local units of home textiles and accessories production<br>• Product selection as per demand analysis and market potential<br>• Preparation of the project proposal with supply chain of inputs, personnel, production and finance plan<br>• Sequential grouping of activities/ time management<br>• Designing product line for commercialization<br>• Theme based designing<br>• Development of selected product line of home furnishings<br>• Finishing and packaging<br>• Marketing of products<br>• Documentation of developed products | • Conduct surveys and analyze recent trends in home furnishings<br>• Gain knowledge to analyse the demand and market potential for home textiles and accessories<br>• Learn to prepare project proposal for product development<br>• Selection of theme, conceptualization and mood board; creation of digital embroidery designs for selected home furnishing products<br>• Development of collection; preparation of spec sheets, work sheets and designer's costing sheets<br>• Selection and purchase of material used for preparation of home textiles and accessories<br>• Gain knowledge regarding promotion, sale and distribution of prepared products<br>• Learn to maintain stock-sales records<br>• Project the work through different channels |

| Rural Agricultural Work Experience and Industrial Attachment in Community Science | | |
|---|---|---|
| **FN 491/**<br>**FRM 491/**<br>**HDFS 491/**<br>**HECM491/**<br>**TAD491**<br>20 (0+20) | • Orientation and modus operandi of Rural Agricultural Work Experience (RAWE): Briefing about general Community Science messages and developing questionnaire for need assessment and evaluation of RAWE programme<br>• RAWE through placement with families: conducting survey of village, family, personal profile, need assessment, organizing skill trainings and demonstrations on income generating activities/ appropriate technology, organizing village fair, exhibition and competitions<br>• In plant/ Industrial Attachment: understand various materials, machines, processes, products and their applications, selecting area of work according to one's interest and capabilities, getting training and expertise on the selected area, understand the scope, functions and job responsibilities in various departments of an organization<br>• Report preparation and presentation | • During RAWE, students learn to conduct base line survey, need identification and rapport building with rural families<br>• Organizing skill trainings and demonstrations related to all five departments of the college for income generation and resource management<br>• Students get familiar with various Govt. organizations and institutes working for villagers and develop liaison with them.<br>• In Industrial internship students undergo training in related industry for three months which provide them an opportunity to apply the knowledge and skills acquired during module courses in a Professional atmosphere.<br>• During industrial training the students get an opportunity to apply the acquired knowledge and skills under actual working environment.<br>• Most of the students get job offers after internship programme. |

**6.4.6 Supervision of students in PG/PhD programmes:** *Number of students being supervised by Faculty in case of Masters/Ph.D. Programme (as per ICAR/UGC guidelines). Mention the realistic figure number of qualified faculty in relation to the intake of students, as per the guidelines in the matter.*

The description for supervision of students Masters/Ph.D. Programme have been elucidated under respective Departmental Programme.

**6.4.7 Feedback of stakeholders (Students, parents, industries, employers, farmers etc.):** *Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the degree programme. What action the University has taken in last five years to address the issues raised in the feed back?*

**Students:** The feedback Performa regarding available infrastructure of the College, facilities available, academic activities etc., is being collected through student's interaction with the Dean/ HODs. The feedback is also being obtained on the performance of the faculty on various parameter like Delivery of subject matter, Use of teaching aids, Communication skills, Discussion in class, Command on language, Course coverage, Class management, Mannerism and personality,

Punctuality, Motivating students in personal development, Involvement in student activities etc. If any improvement is necessary, Dean/ Head of the Department advices the faculty for improvement in the relevant area as feedback. The performance of the faculty is also reviewed on the basis students' performance, feedback from the students.

**Parents:** Feedback of the parents on various parameters like infrastructure, medical, hostel, library and canteen facilities, curriculum delivery & evaluation mechanism, behaviour of teachers, cleanliness, safety & security, anti-ragging measures etc. through informal Parent – teacher interaction. The parents of the fresh students are abreast of information on rules & regulations governing UG programmes of the University during the admission counselling and orientation programme.

**Industries:** Students are placed in different institutions/industries for industrial training. Teachers visit these institutions during training period of students and conduct meetings with authorities of the institutes. Any suggestions provided by them are incorporated in the curriculum. Some of the successful entrepreneurs are being invited to the College during various events of the College and are requested to provide the feedback. Most of the representatives from industries expressed a need to improve technical, communication and soft skills of the students that are required for their career planning. To address this, training programmes on communication and personality development, soft skills, resume writing and facing the interview were organized. Accordingly, the College administration had taken several programmes like organizing industry visits, interaction meetings with industry representatives, exposure visits–cum- interaction meetings with successful agri-entrepreneurs.

**Stakeholders' Meets**

### 6.4.8 Student intake and attrition in the programme for last five years: *Year wise information on sanctioned strength, actual intake and attrition in the last five years of the Degree Programme, in the tabular form, shall be provided.*

During the period under report, a total of 466 UG students were admitted and average attrition in the last five years was 7.08 per cent.

| Actual number of students admitted | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|
| 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| 80 | 97 | 87 | 104 | 98 | 10 | 6.18 | 8.04 | 9.61 | 2.04 |

**6.4.9. ICT Application in Curricula Delivery:** *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical. Mention whether the Degree Programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned.*

Yes, the faculty members of the I.C. College of Home Sciences use ICT in teaching and practical. There are Lecture Rooms and Seminar Rooms with computer, LCD/LED projector and internet connection. Most of the teaching labs are also equipped with LCD/LED projector. All faculty members have computer, printer and internet connection in their offices. There is Wi-Fi facility for faculty, staff and students. This infrastructure provides opportunities for the use of ICT in quality teaching, research and extension. The faculty members use Microsoft Teams, Google meet, Zoom, Sysco Webex, power point presentations, YouTube, emails, Internet, e-learning modules, smart classroom, digital cameras, e-mail, WhatsApp, YouTube, CAD Softwares, Online Catalogues, in teaching different courses.

**Use of ICT in Teaching and Practical**

**6.4.10.** The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

**6.4.11.** Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

**6.4.12.** Certificate (Applicable when SSR is submitted for Programme)

I, the Dean, **Dr. Manju Mehta,** hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

**Signature of Dean of the College with Date & Seal**

## 6.4. SELF STUDY REPORT OF PG PROGRAMME

### About the Department

The Department of Home Science Extension Education was formally established as an independent Department in the year 1979 and renamed as Extension Education and Communication Management in the year 2010. M.Sc. and Ph.D. programmes in the Department were started in 1979 and 1986, respectively. So far 233 M.Sc. and 74 Ph.D. students have passed out from the Department. Thirteen courses at M.Sc. level and ten courses at Ph.D. level are offered by the Department **(Annexure VI-A)**. The Department has expertise in designing and developing print (leaflet, poster, handout, flyer, booklets, extension literature etc.) and electronic (audio, video and multimedia) information material. Experiential Learning Unit on Designing and Production of Information Material is operational in the Department since 2009.

All faculty members of the Department have doctorate degree and have been bestowed with various awards like ICAR sponsored Best Teacher Award; Best KVK Scientist Award; Fellow Award by Society of Extension Education and Indian Society of Extension Education; Chaudhary Devi Lal Outstanding All India Coordinated Research Project team Award and Young Scientist Award. During the period under report i.e. 2018-19 to 2022-23 the faculty members and students published 124 research papers, four books, nine teaching/ reference manual and 144 abstracts.

The undergraduate final year students enrolled in the Module-IV offered by the Department under student READY programme are placed for in-plant training in reputed media organizations viz. *Khabre Abhi Tak*, Gurugram; Haryana News, Gurugram; ANB news, Chandigarh; MH One TV Network Ltd., Panchkula; Total TV, Chandigarh; *Dainik Bhaskar* & *Dainik Jagran*, Hisar*; Hari Bhoomi*, Rohtak; *Dainik Jaltedeep*, Jaipur; Community Radio Station, CCSHAU, Hisar; Gurugram *Ki Aawaz*, Community Radio, Gurugram; *Doordarshan*, Hisar; Exchange 4 Media Publication, New Delhi etc.

Seven students of Module IV attended in plant training under NAHEP Institutional Development Plan Project for Student Development Programme to International Organization at Czech University of Life Science, Czech Republic; Asian Institute of Technology, Thailand and Can Tho University, Vietnam.

Department has undertaken 24 funded research projects till date. During the period under report, the Department completed one RKVY project. At present research under All India Coordinated Research Project on Women in Agriculture and State funded research scheme under thrust areas viz; technology assessment, refinement and transfer; evaluation and impact assessment of developmental programmes; media development, standardization and effectiveness; communication, adoption and diffusion of farm and homestead technologies is being undertaken. One scheme under Scheduled Caste (SC) sub plan on entrepreneurship and skill development of SC rural women is also being implemented by the Department. Total 14 vocational trainings for 302 SC rural women were organized during period under report.

In order to stand up in the tough competition, the students need to possess extra valuable knowledge and skills which can make them recognized and distinguished from others. Hence, Department of EECM organizes trainings for UG and PG students on topics like Skill development in

handicrafts; Designing competencies with ICT tools; Communication skills & personality development and Research project management to develop soft skills, improve employability. Moreover, the students get an important element which they can add to their resumes by attending such trainings.

The focus of extension activities of the Department is on developing and strengthening horizontal and vertical linkages with various stakeholders working for welfare of rural community. The Department contributes significantly in capacity building of field functionaries, members of self-help groups and rural women to acquire the latest know-how by organizing short term trainings, extension activities and media exposure on need based messages.

**Objectives of the Department**

- To create appreciation of rural life, its problems and finding out ways for improvement of rural home living.
- To disseminate knowledge of appropriate technologies for adoption among rural community
- To prepare teachers, extension workers, research scientists and professionals in communication, training, social marketing and programme management.
- To develop ability and skill among students to undertake employment/ entrepreneurship

### 6.4.1 Brief History of the Degree Programme: *Clearly mention in which year the degree program was initiated along with its objective and accomplishments.*

**M.Sc. programme:** M.Sc. programme in Home Science Extension Education (now Extension Education and Communication Management) was initiated in the year 1979. Entry qualification for Master's programme is B.Sc (Hons.) Home Science. Minimum duration of the programme is 2 years. During 2018-23, total 54 students were enrolled in M.Sc. Programme of the Department out of which 37 passed out and 17 are on roll **(Annexure VI-B).**

**Objectives of initiating M.Sc. programme:**

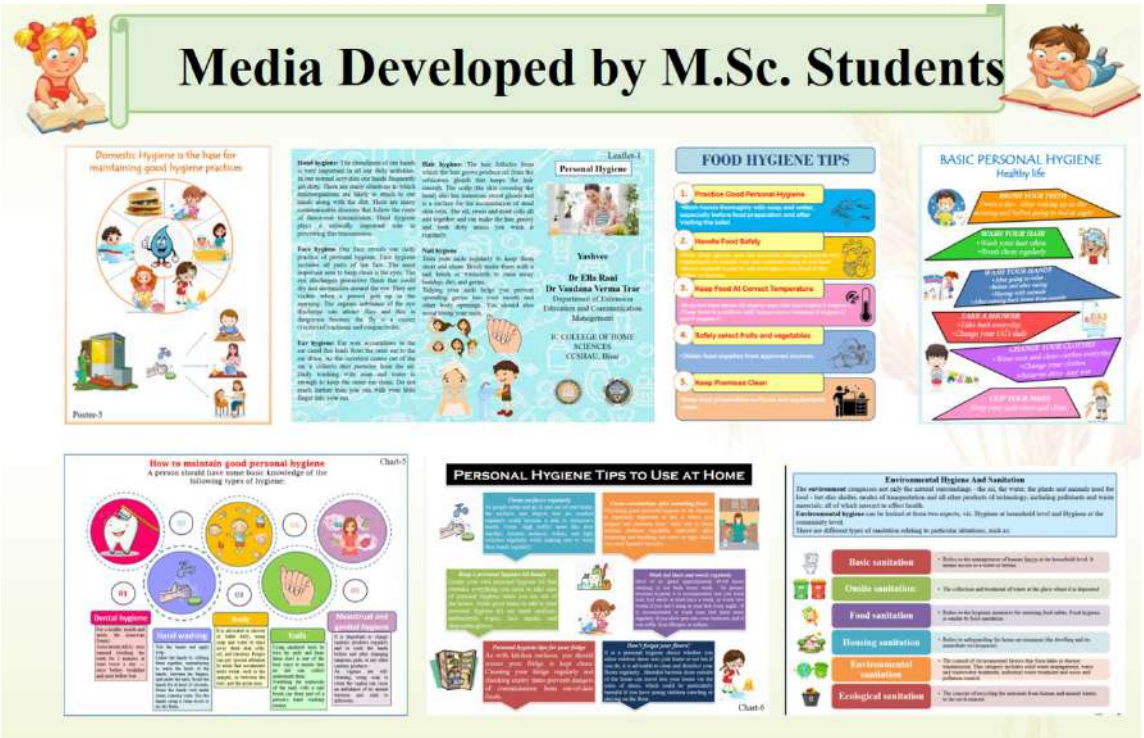
- To inculcate knowledge and skill among students on various aspects of extension education like training, communication, gender studies, human resource development, programme planning, implementation, evaluation and participatory management techniques
- To develop competency in production and management of print and electronic media
- To prepare students for job market and entrepreneurship in the discipline of Extension Education and Communication Management

**Accomplishments of M.Sc. Programme:**

**i. Publications out of M.Sc. Students' Research Work (2018-23): (Annexure VII-C).**

| Publication | Number |
|---|---|
| Books | 02 |
| Book Chapters | 05 |
| Research Papers | 52 |
| Research Papers Abstracted | 32 |
| Leaflets | 02 |

**ii. Details of Competitive Examinations cleared by M.Sc. Students:**



| Sr.No. | Name | Admission No. | Name of Examination | Year |
|---|---|---|---|---|
| **1.** | Ms. Naaz Bano | 2017HS01M | UGC NET | 2019 |
| **2.** | Ms. Raveena | 2019HS03M | UGC- NET | 2019 |
| **3.** | Ms. Jyoti Rani | 2019HS04D | UGC NET | 2020 |
| **4.** | Ms. Priyanka Kardam | 2020HS07M | UGC NET | 2021 |
| **5.** | Ms. Sangeeta | 2019HS06M | UGC NET | 2021 |
| **6.** | Ms. Kapila | 2020HS01M | UGC NET | 2022 |
| **7.** | Ms. Mansi | 2020HS02M | UGC- NET | 2022 |
| **8.** | Ms. Sakshi | 2021HS11M | UGC- NET | 2022 |
| **9.** | Ms. Meenu | 2021HS08M | UGC- NET and JRF | 2022 |
| **10.** | Ms. Ritu | 2021HS09M | UGC- NET and JRF | 2022 |
| **11.** | Ms. Jagriti Bhandari | 2021HS03M | ICAR JRF | 2022 |
| **12.** | Ms. Ekta | 2022HS30M | ICAR JRF | 2022 |
| **13.** | Ms. Neha Yadav | 2022HS31M | ICAR JRF | 2022 |
| **14.** | Ms. Vaishali | 2019HS8M | HTET | 2022 |

**iii. Conferences/ Seminar/ Trainings etc. attended by M.Sc. students**: All M.Sc. students of the Department attended National Seminar on 'Innovative Strategies for Gender Equality' on March 8, 2019, Webinar on 'Role of Women in Agriculture' on December 4, 2020; Webinar on Awareness and Effective Use of e-Resources through Mobile App' on December 18, 2020 and Webinar on 'Digital Library Framework for Strengthening Agricultural Knowledge' on February 17, 2021. Training on 'Research Project Management' from October 1-12, 2022 and 'Communication Skills and Personality Development' from October 13-22, 2023 were also attended by all M.Sc. students of the Department. Total 22 conferences/ seminars/ trainings were attended by M.Sc. students (**Annexure VI-D)**.

**iv. Other Achievements**

- ✓ Ms. Manisha Ohlan (2016HS02M), awarded University Level Gold Medal for obtaining Highest OGPA in the I.C. College of Home Sciences during M. Sc. Programme, 2018-19.
- ✓ Ms. Manisha Ohlan (2016HS02M), awarded Dr. (Mrs.) Saroj Kashyap Gold Medal for quality of M.Sc. thesis, I.C. College of Home Sciences, 2018-19.
- ✓ Ms. Naaz Bano (2017HS01M), secured 1st rank in All India Entrance Exam for Agriculture ICAR- Senior Research Fellowship and Ph.D. Entrance Exam of Chaudhary Charan Singh Haryana Agricultural University, Hisar, 2019.
- ✓ Ms. Manisha Ohlan (2016HS02M), received Best Poster Award during ISEE National Seminar on Socio Digital Approaches for transforming Indian Agriculture at Chaudhary Charan Singh Haryana Agricultural University, Hisar, November 20-22, 2019.
- ✓ Ms. Manisha Ohlan (2018HS01D), received Best Research Scholar Award by Agriculture and Environment and Technology Development Society during International Conference on Global Perspectives in Agriculture and Applied Science for Food and Environmental Security, Kumaun University, Nanital, December 1-2, 2019.
- ✓ Ms. Shikha Bhukal (2017HS03M), awarded Gold Medal for obtaining Highest OGPA in M.Sc., 2019-20.
- ✓ Ms. Sanju (2022HS07M), received Gold Medal in 4x400 meters relay race and bronze medal in 4 x100 meters relay race in All India Inter Agri Athletics Meet at CCSHAU Hisar, February 20-24, 2023.

- ✓ Through M.Sc. students' researches useful data were generated on impact of Government Schemes like *Pradhan Mantri Kaushal Vikas Yojna, Rashtriya Krishi Vikas Yojana, Janani Surkasha Yojana, on* beneficiaries, Central Sector Scheme on promotion of Agricultural Mechanization for *in-situ* Management of Crop Residue*;* Livelihood status of SC families, Inter gender participation in agriculture, usage of internet and ICT, Impact of on line teaching etc.
- ✓ Print Media (chart, poster, and leaflet) on hygiene management practices were developed and standardized. The media are used for creating awareness on personal hygiene among masses.

**Ph.D. Programme:** Ph.D. programme in the Department was initiated in 1986. The Department of EECM has conferred Ph.D degree to 74 students till now. During the period under report, 31 Ph.D. students were enrolled in the Department out of which 11 passed out and 20 are on roll **(Annexure VI-E).**

**Objectives of initiating Ph.D. programme:**

- To develop understanding about recent advances in concepts, approaches, models and theories of communication and adoption
- To enable the students to prepare and execute research projects for addressing issues pertaining to rural women
- To prepare teaching, research and extension professionals in the field of training, communication, media and gender studies

**Accomplishments of Ph.D. Programme:**

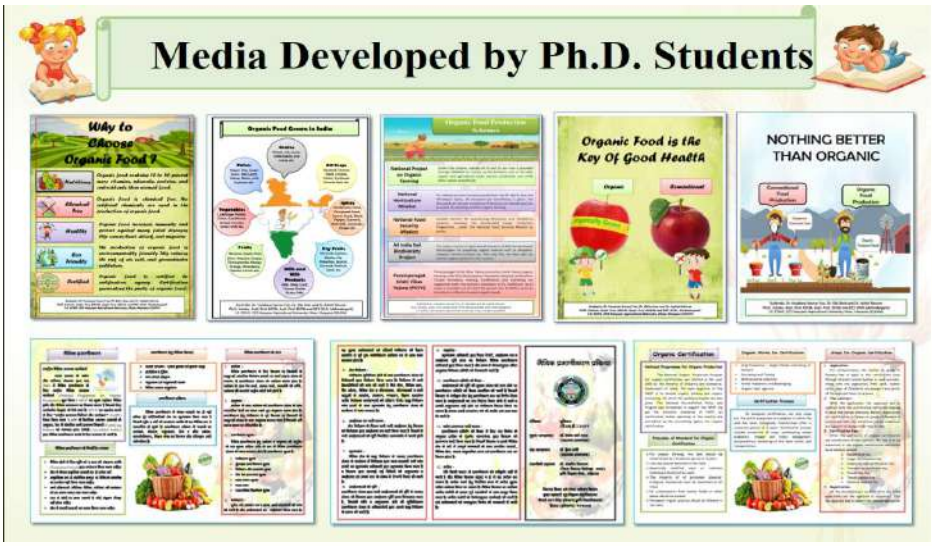
**i. Publications out of Ph.D. Students' Research Work (2018-23): (Annexure VI-F).**

| Publication | Number |
|---|---|
| Books | 02 |
| Book Chapters | 09 |
| Research Papers | 38 |
| Research Paper Abstracted | 33 |
| Popular Articles | 08 |
| Leaflets | 09 |

**ii. Details of Competitive Examinations Cleared by Ph.D. Students:**

| S. No. | Name | Admission No. | Name of Examination | Year |
|---|---|---|---|---|
| **1.** | Ms. Anju Kapri | 2017HS01D | UGC NET | 2019 |
| **2.** | Ms. Naaz Bano | 2019HS04D | UGC- JRF | 2019 |
| **3.** | Ms. Jyoti Rani | 2019HS04D | UGC NET | 2020 |
| **4.** | Ms. Madhu Priya | 2020HS03D | UGC NET | 2020 |
| **5.** | Ms. Sanyogita | 2019HS05D | National Fellowship for Scheduled Caste Students | 2020 |
| **6.** | Ms. Shikha | 2019HS06D | National Fellowship for Scheduled Caste Students | 2020 |
| **7.** | Ms. Sanyogita | 2019HS05D | UGC NET | 2020 |
| **8.** | Ms. Shikha | 2019HS06D | UGC NET | 2020 |
| **9.** | Ms. Anju | 2019HS01D | UGC NET | 2021 |
| **10.** | Ms. Madhu Priya | 2020HS03D | UGC NET | 2021 |
| **11.** | Ms. Vartika | 2021HS06D | ICAR-SRF | 2021 |
| **12.** | Ms. Preeti | 2017HS01D | UGC NET | 2022 |
| **13.** | Ms. Ekta | 2020HS01D | Topped in ICAR AICE SRF, Ph.D., Home Science Extension Education | 2021 |
| **14.** | Ms. Chanchal Payal | 2021HS02D | Secured fourth rank in ICAR AICE SRF Ph.D., Home Science Extension Education | 2021 |
| **15.** | Ms. Santosh | 2021HS04D | National Fellowship for Scheduled Caste Students | 2022 |

**iii. Seminar/Conferences/trainings etc. attended by Ph.D. students**: All Ph.D. students of the Department attended National Seminar on 'Innovative Strategies for Gender Equality' on March 8, 2019; Webinar on 'Role of Women in Agriculture' on December 4, 2020; Webinar on Awareness and Effective Use of e-Resources through Mobile App on December18, 2020; Webinar on 'Digital Library Framework for Strengthening Agricultural Knowledge' February, 17, 2021; Training on 'Research Project Management' October 1-12, 2022; Training on 'Communication skills and Personality Development' October 13-22, 2023. Total 27 Seminars, Conferences etc. were attended by Ph.D. students. For details see (**Annexure VI-G).**



**iv. Students Placement details:**

| S.No. | Name | Name of the Post | Year |
|---|---|---|---|
| **1.** | Ms. Saurabh Arya | Guest faculty, Governent College, Patiala, Punjab | 2018-19 |
| **2.** | Ms. Rajni | PGT, Government Senior Secondary School, Siwani, Hisar, Haryana | 2019-20 |
| **3.** | Ms. Ritu | Assistant Professor, Desh Bhagat University Mandi Gobind Garh, Punjab | 2019-20 |
| **4.** | Ms. Kiran Sain | Assistant Professor, FGM,PG College, Adampur, Hisar, Haryana | 2019-20 |
| **5.** | Ms. Uma Soni | Assistant Professor, NIMS University Jaipur, Rajastham | 2019-20 |

| | | | |
|---|---|---|---|
| **6.** | Ms. Anita | Assistant Professor, Ethelind College of Home Science, Sam Higginbottom Univesity of Agriculture Technology and Sciences, SHUATS, Prayagraj, Uttar Pardesh | 2019-20 |
| **7.** | Ms. Raman Jodha | Subject Matter Specialist (Home Science), KVK Sardarshahar, Churu, Rajasthan | 2019-20 |
| **8.** | Ms. Anita Singh | Assistant Professor, Govt. College, Uttar Pardesh | 2020-21 |
| **9.** | Ms. Anshu | Assistant Professor, Om Sterling University, Hisar | 2020-21 |
| **10.** | Ms. Jyoti | Assistant Professor, Shri Snatan Dharam College Bhatinda, Punjab | 2021-22 |
| **11.** | Ms. Ashma | District Extension Specialist (Home Science), KVK Yamuna Nagar, CCSHAU, Hisar, Haryana | 2021-22 |
| **12.** | Ms. Preeti | Assistant Professor, Om sterling University, Hisar, Haryana | 2021-22 |
| **13.** | Ms. Manisha Ohlan | Consultant, Diploma in Agriculture Extension Services for Input Dealers (DAESI) Project at MANAGE, Hyderabad, Telangana | 2021-22 |
| **14.** | Ms. Naaz Bano | Assistant Professor, Maharishi Markandeshwar University, Ambala, Haryana | 2022-23 |
| **15.** | Ms. Uma Soni | Assistant Professor, Lakshmibai College, University of Delhi, Delhi | 2022-23 |
| **16.** | Ms. Mahu Priya | Guest Facuty, RPCAU Pusa, Samastipur, Bihar | 2022-23 |

**v. Other Achievements**

- ✓ Ms. Anju Kapri (2017HS01D) and Ms Manisha Ohlan (2018HS01D) completed three month internship programme organized by MANAGE, July 1 to September 30, 2019.
- ✓ Ms. Madhu Priya received Second Best Oral Presentation Award during International Conference on New Trends in "Science, Technology, Management and Humanities" organized by *Jagannath* University *Bahadurgarh*, Haryana, March 29, 2022.
- ✓ Ms. Santosh **(**2021HS04D) awarded second best poster award during International Conference on Climate Resilient Agriculture for Food Security and Sustainability, February 17-19, 2023.
- ✓ Useful data were generated on impact aaseessment of Govt. Schemes like Post Matric Scholarship Scheme; Old Age Samman Allowance; Krishi Vigyan Kendra; ATMA and Self Help Group through student researches.
- ✓ Print Media in the form of charts, posters and leaflets on organic products was developed and standardized. These media are used for creating awareness of organic products among masses.

**6.4.2. Faculty Strength:** *The faculty strength of the Degree Programme need to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of Research staff, extension staff, contractual faculty, guest faculty, adjunct faculty or any other arrangement being made to complete the curriculum, it should be clearly mentioned in the report.*

One post of Professor, two posts of Associate Professor and equivalent and eleven posts of Assistant Professor and equivalent are sanctioned in the Department. Currently, there are four Professors/equivalents (all promoted under CAS), out of which one is posted at KVK. There is one Associate Professor and equivalent and five Assistant Professors and equivalent in the Department. Out of five Assistant Professors and equivalent, two are posted at KVKs. One Research Associate is appointed in AICRP scheme on Women in Agriculture.

| S. No. | Designation | Sanctioned | In-Place | Vacant position | Faculty recommended by ICAR |
|---|---|---|---|---|---|
| **1.** | Professor and equivalent | 01 | 04 (3PP+1* PP) | -- | 01 |
| **2.** | Associate Professor and equivalent | 02 | 01 | 01 | 02 |
| **3.** | Assistant Professor and equivalent | 12 (7+5*) | 05 (3+2*) | 04 (3 Promoted to Professor) | 04 |
| **4.** | Research Associate | 01 | 01 | -- | |
| | **Total** | **16** | **11** | **05** | **07** |

PP- Personal Promotion from Assistant Professor *Faculty posted at KVK

**Note:** All the faculty of this programme is assigned the responsibilities for the multiple programmes.

### 6.4.3. Technical and Supporting Staff

In the Department of Extension Education and Communication Management, there are 12 posts sanctioned for technical and supporting staff. In position, there are 08 posts of technical and supporting staff out of which 03 posts are filled by employing contractual staff/apprentice.

| S. No. | Designation | Sanctioned | In-Place | Technical and supporting staff recommended by the ICAR |
|---|---|---|---|---|
| **1.** | Assistant/ Steno | 02 | 02 | 01 |
| **2.** | Clerk | 01 | 01 | 01 |
| **3.** | Lab Assistant/ Attendant/ Beldar/ Dark Room Attendant | 04 | 02 | 04 |
| **4.** | Messenger | 01 | 01* | 01 |
| **5.** | Projector Operator | 01 | 01* | -- |
| **6.** | Technical Assistant | 02 | 01* | -- |
| **7.** | *Mahila Sevika* | 01 | -- | -- |
| | **Total** | **12** | **08 (5+3*)** | **07** |

*Contractual staff/ Apprentice

***Note:*** All the technical and supporting staff has been assigned the responsibilities for the multiple programmes.

**6.4.4. Classrooms and Laboratories:** *Mention the number of class rooms and functional laboratories available for the degree programme and justify if it is sufficient to meet the course curricula requirement. Lists of major equipments, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention theory and practical batches for the Degree Programme.*

The Department has well established UG and PG Labs. including video studio, multimedia lab, computer room and resource room/ departmental library. All Labs. have computers and internet facility. There is one Smart PG Teaching Lab cum Seminar Room. Sufficient numbers of labs are there in the Department to meet the course curricula requirements and accommodate the existing number of UG and PG students.

| S. No. | Name of classroom/ Lab | Purpose |
|---|---|---|
| 1. | Multimedia Lab and Recording Room (Lab No. 71) | For designing, editing and production of audio and multimedia programmes under UG and PG courses |
| 2. | Video Studio with Control Room and Waiting Room (Lab No. 71) | Hands on training of UG and PG students on Camera handling; Script writing; Video shooting, editing & production; Panel discussion; Delivering TV talk etc. |
| 3. | Print Media Lab (Lab No. 63) | Hands on training on MS-Office, CoralDraw, Photoshop, Designing of Brochures, Leaflets, Charts, Posters, Invitation cards, Professional documents, Certificates etc. |
| 4. | Experiential Learning Lab (Lab No. 61) | Skill development in - Market survey, Preparation of the business plan, Analysis of cost benefit ratio, Printing of-teaching aids, visual aids, certificates, visiting/ business, invitation cards, extension literature such as posters, charts, booklets, e invitation cards etc. |
| 5. | Training Lab (Lab No. 70) | For organizing training of students and rural women |
| 6. | PG Lab. Cum Seminar Room (Lab No. 49) | For conducting PG classes, Seminars (synopsis, thesis, credit), Comprehensive examinations (written and oral) and Viva voce examinations<br>Presentation of assignments and reports by PG students |
| 7. | Research Lab (Lab No. 56) | Planning and designing of research activities like Objective setting, Annual plans, Annual reports and<br>Showcasing of research activities |
| **Other Instructional Units being utilized for the Award of Degree Programme** | | |
| 8. | Activity Lab. cum Resource Room (Lab No. 59B) | Showcasing and consulting departmental Theses, Reports, Manuals, Journals, Books, Extension literature etc. by faculty and PG students<br>Preparing presentations, Reports and Class Assignments by PG students |
| 9. | Teachers' office Rooms | Equipped with Computers, Web cameras and Internet facilities for on line Teaching whenever required |

## List of equipment/ Facilities at present available in the Department

| S. No. | Name of Lab | Equipment/ Facilities |
|---|---|---|
| 1. | Multimedia Lab and Recording Room (Lab No.71) | Computer, Smart podium, Projector, LCD/LED Screen, Video cameras, Still cameras, Editing software, TV/Monitor, VHS, VCR, OHP, Slide projector, PA system, DVD player, Microphones, Audio visual cabinet, UPS, CCTV camera, AC |
| 2. | Video Studio with Control Room and Waiting Room (Lab No.65) | Cameras with accessories, Switcher/Audio Video Mixer with accessories, Digital Video Cassette Recorder, Monitor – PGM/PVW, Non Linear editing setup apple mac pro with final cut studio, Teleprompter (News reader), Power Amplifier, Studio Table for Panel discussions, Light Console 24 Channel, Cool Light, Computers with accessories, Studio chairs etc. |
| 3. | Print Media Lab (Lab No.63) | 6 Tables, 35 Chairs, 10 Computers, Printer with Scanner, Projector, LCD/LED Screen , Media storage cabinet, Almirah, UPS, 2 AC |
| 4. | Experiential Learning Lab (Lab No.61) | Smart podium laminated, LCD/LED projector 5 Computers, 2 Big tables, 25 Chairs, Digital plotter, A3 Printer, Storage cabinet, UPS 1.5 KV, AC |
| 5. | PG Lab. Cum Seminar Room (Lab No.49) | OPS interactive panel, Two big tables. 30 Chair , AC (1) |
| 6. | Training Lab (Lab No.70) | 2 Tables and 25 Chairs |
| 7. | Research Lab (Lab No.56) | 2 Computers with Work Station , 2 Printer, Storage cabinets, AC (1) |
| 8. | Activity lab. cum Resource Room (Lab No.59 B) | 20 Chairs, 4 Tables, 4 Storage Cabinet one Computer with work station. |

## Theory and practical batches

- On an average there are 5-10 students per batch in M.Sc. Programme. Some courses are offered as minor courses for students of other departments in which large number of students (upto 35) register. There is only one batch for theory classes and one batch for practical classes in all the courses with an average number of 4-35 students.
- In Ph.D. programme, the average number of students in theory and practical classes range between 3-6 as Ph.D. courses are offered for the students of EECM Department only. There is only one batch for theory as well as practical classes of all the courses.

**6.4.5. Conduct of Practical and Hands-on-Training:** *It is important to have a sound grasp of the theory that underlies any professional degree. But there are some skills that can only be learned through hands-on -practice. It is important that much of the learning material in any given course should be provided in a way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hands-on-training as per the curriculum and meeting above mentioned requirements.*

At PG level, besides imparting theoretical knowledge, students are equipped with practical skills and hands-on-training as per the curriculum requirements. At M.Sc. level, the Department of EECM offers 13 courses out of which 09 courses have practical components to provide practical skills and hands-on training.

| Course No.<br>Title<br>Credit Hours | Practical and Hands-on-training | How far students are getting desired practical and hands –on-training as per curriculum |
|---|---|---|
| **HECM 502**<br>**Training and Human Resource Development**<br>3 (2+1) | Practice of selected training methods; Planning, organizing and evaluation of training programmes for different clientele | • Visit training institutions and prepare list of on-going trainings<br>• Study functioning of training institutes<br>• Assessment of training needs of rural women<br>• Development of training schedule and training module for different types of training<br>• Organize training programme for rural people |
| **HECM 503**<br>**Communication for Development**<br>3 (2+1) | Practical exercises on oral and written communication, Analysis of communication studies under field conditions | • Exercises on different oral and write communication skills<br>• By analyzing communication studies under field conditions the students get familiar with elements and barriers in communication process |
| **HECM 504**<br>**Media Production and Management**<br>4 (2+2) | Planning, production and management of media programmes, management of media organizations | • Visit and study structure and functioning of selected media organizations: newspaper, radio, TV, PRO<br>• Plan and produce selected media programmes: print and electronic |
| **HECM 505**<br>**Participatory Programme Management**<br>3 (1+2) | Planning, preparation, implementation and evaluation of home improvement work plans | • Prepare questionnaire for base line survey and need analysis<br>• Visit village, select families and rapport building<br>• Plan, implement an extension programme for rural women<br>• Critically evaluate Extension programmes<br>• Critical analysis of on-going development programmes related to women and children |
| **HECM 508**<br>**Research Methods in Home Science**<br>3 (2+1) | Skill in designing and conduction of scientific research; preparation of synopsis, construction of interview schedule, data collection, analysis, interpretation and reporting | • Prepare mini research project on any one topic of social science<br>• Prepare synopsis<br>• Construct interview schedule<br>• Collect, analyze, prepare and present research report |
| **HECM 509**<br>**Scientific Writing and Reporting for Media**<br>3 (1+2) | Develop skill in reporting, coverage of science and technology events: conference, speeches, seminars, | • Report and cover science and technology events: conference, speeches, seminars, conventions, exhibitions and natural phenomena. |

| | | |
|---|---|---|
| | conventions, exhibitions and natural phenomena.; Writing and editing for different clientele | • Write, edit and proof read letters for different clientele. |
| **HECM 510 Educational Technology** 3 (2+1) | Designing a course curriculum; Preparation of lesson plans; Preparation and use of different instructional material; Conducting selected teaching lessons | • Design course curriculum on a subject<br>• Prepare lesson plans of selected topics<br>• Prepare and use different instructional material<br>• Conduct selected teaching lessons by using different teaching learning strategies<br>• Construct competency based question paper |
| **HECM 511 ICT and Media** 2 (0+2) | Writing for Web<br>Designing Web site<br>Designing interactive elements | • Familiarization of students with the ICT and new media technologies, their preparation and use |
| **HECM 599 Master's Research** 20 | Master's research. Prepare synopsis, review of literature, collect and analyze data. | • Students use practical knowledge to conduct researches in thrust areas of the Department |

Besides imparting theoretical knowledge, students are equipped with practical skills and hands-on-training during Ph.D. programme as per the curriculum requirements. In Ph.D. programme 10 courses are offered by the Department of EECM, of which 05 courses have practical component.

| Course No. Title Credit Hours | Practical and Hands-on-training | How far students are getting desired practical and hands-on-training as per curriculum |
|---|---|---|
| **HECM 603 Advanced Media Management 3 (1+2)** | Designing and development of media, Management of media organizations | • Capabilities of students in media planning and production is strengthened |
| **HECM 604 Research Project Management 3 (2+1)** | Review and SWOT analysis of research projects with respect to: research objective and design, implementation, monitoring and evaluation system and impact assessment; Planning a research project in view of funding agency | • Critically review and analyze two research projects with respect to: objective, design, implementation, monitoring, evaluation and impact assessment<br>• Plan a research project in view of funding agency<br>• Write one research paper, review paper, popular article and technical report |
| **HECM 605 Advanced Research Techniques and Measurement 4 (2+2)** | Practical exercises on scaling techniques, paired comparison, equal appearing interval, successive interval and summated rating; CIT and Q-sort technique. | • Exercises on scaling techniques: Paired comparison, Equal appearing interval, Successive interval, Summated rating, Critical incidence, Q-sort technique. |
| **HECM 607 Advertising and Marketing Communication 2 (1+1)** | Creating advertisements for mass communication Advertisement campaigns | • Advertising layout techniques for newspaper, radio, posters, TV, hoardings, wall paintings, and institutional advertisement |
| **HECM 699 Doctoral Research 45** | Doctoral research Prepare synopsis, review of literature, collect and analyze data, thesis writing | • Students use practical knowledge to conduct researches in the areas of Home Science |

In addition to above mentioned practical based PG and Ph.D. courses, the Department runs Experiential Learning Unit (ELU) on Designing and Production of Information Material. The students

gain skills on Graphic and multimedia production; photography, videography, audio and video editing using the facilities and infrastructure of the ELU. The PG students use computers, printers, laminators to gain hands on experience in courses on Media Production and Management (HECM 504), Educational Technology (HECM 510), ICT and Media (HECM 511), Advanced Media Management (HECM 603). PG Students and faculty members also use cameras and final cut pro studio setup for editing of media developed under research work.

**6.4.6. Supervision of Students in PG/Ph.D. Programmes:** *Number of students being supervised by Faculty in case of Masters/Ph. D Programme (as per ICAR/UGC guidelines). Mention the realistic figure number of qualified faculty in relation to the intake of students, as per the guidelines in the matter.*

There are10 seats for Master's and 04 seats for Ph.D. programmes. Hence the teacher student ratio is good.

**Supervision of M.Sc. students in the Department:**

| Year | Number of PG faculty | Number of students on roll | Teacher-Student Ratio (T:S) |
|---|---|---|---|
| 2018-19 | 08 | 16 | 1:2.0 |
| 2019-20 | 07 | 14 | 1:2.0 |
| 2020-21 | 09 | 19 | 1:2.1 |
| 2021-22 | 08 | 23 | 1:2.8 |
| 2022-23 | 06 | 17 | 1:2.8 |

**Supervision of Ph.D. students in the Department:**

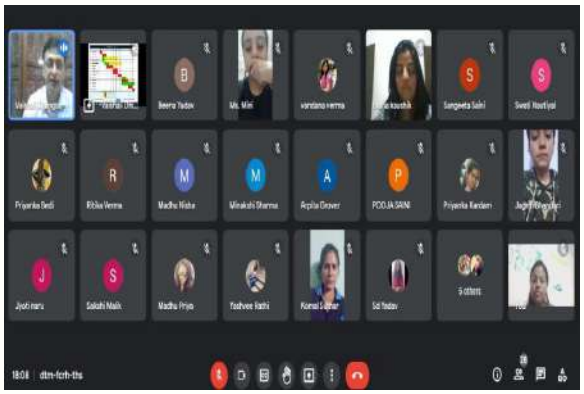
| Year | Number of PG faculty | Number of students on roll | Teacher-Student Ratio (T:S) |
|---|---|---|---|
| 2018-19 | 08 | 10 | 1:1.2 |
| 2019-20 | 07 | 13 | 1:1.8 |
| 2020-21 | 09 | 18 | 1:2.0 |
| 2021-22 | 08 | 24 | 1:3.0 |
| 2022-23 | 06 | 24 | 1:4.0 |

**6.4.7. Feedback of stakeholders (Students, parents, industries, employers, farmers etc.):** *Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the degree programme. What action the University has taken in last five years to address the issues raised in the feedback?*

Performance of the faculty is reviewed on the basis of allotted course results and feedback proforma filled by the students. Regular feedback regarding teaching is taken by joining the on line classes (during COVID 19), taking round of offline classes and having interaction with the students during mid-session as well as near completion of the course. Realistic suggestions for improvement in teaching are incorporated. Students of Module IV are placed in different institutions for In-plant training. Concerned course instructors visit these institutions during training period and conduct meetings with authorities of these institutes. Any suggestions provided by them are incorporated in the curriculum. Feedback from parents of the students is also obtained occasionally. All PG students

have been directed to have visit of their parents to the Department whenever they visit CCSHAU Hisar to have interaction with them. The teachers get feedback from the students based on their parents' observation and suggestions. These suggestions are conveyed to the concerned individuals and discussed in faculty meeting also. Feedback of rural women, village *panchayat*, village level organizations (youth club, *Mahila Mandal*, SHGs) is obtained regarding the RAWE/IACS programme (content, duration and timings), implementing faculty and students. On the basis of analysis of feedback results, future programmes are planned, modified and implemented accordingly. During *Krishi Melas*, feedback and suggestion of the farmers (male as well as female) are taken about content of exhibits. Workshop of scheduled caste rural women trainees are organized to obtain feedback about adoption of technologies and constraints in adoption, if any. On the basis of feedback of students the resource room was shifted to big size room and dust bins were placed in premises of the Department.

## Interaction with stakeholders for feedback



**6.4.8. Student Intake and Attrition:** *Year wise information on sanctioned strength, actual intake and attrition in the last five years of the Degree Programme, in the tabular form, shall be provided.*

| Programme | Actual students admitted in last five years | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| **M.Sc.** | 07 | 05 | 05 | 06 | 10 | | 14.3 | - | - | 16.7 |

**6.4.9. ICT Application in Curricula Delivery:** *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical. Mention whether the Degree Programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned.*

The faculty members of the Department of Extension Education and Communication Management use ICT in teaching and practical for curricula delivery. All faculty members have computer, printer, and internet connection in their offices. Wi-Fi facility is also available in the University for the faculty, staff and students. Such infrastructure provides opportunities for effective use of ICT in teaching. All teaching labs are equipped with LED projectors and internet connection. Faculty members use PPTs, educational games and videos to make teaching an interactive, interesting and experiential activity. Use of WhatsApp groups and e-mail is done to remain connected with the students and addressing their queries. Availability of interactive board in the PG teaching Lab. provides opportunity for use of graphics, video, audio leading to interactive learning

## 6.4. SELF STUDY REPORT OF PG PROGRAMME

### About the Department

The Department of Foods and Nutrition was established in the year 1976 and is one of the outstanding departments of CCSHAU, Hisar. The M.Sc. degree programme in Foods and Nutrition was started in the year 1976, Ph.D. degree programme in 1983 and PG Diploma in Human Nutrition and Dietetics in 2002. The Department attracts meritorious students from all over the country. International students also take admission in PG programme of the Department. The Department of Foods and Nutrition offers 16 courses at M.Sc. level and 13 courses at Ph.D. level **(Annexure VII-A)**. The Department has well qualified and experienced faculty members having vast teaching and research experience and also international exposure. The faculty of Department has been awarded with prestigious fellowships and awards, such as Common Wealth Fellowship, Indian National Science Academy, Young Scientist Award, Best Teacher Award, Best AICRP Team Award, Best Thesis Award etc. The faculty of Department has successfully completed many National and International projects funded by different agencies such as Department of Science & Technology, Department of Biotechnology, Ministry of Food Processing Industries, National Horticultural Board, UGC, ICAR, NATP, CSIR, Wagninghen University, Netherland etc. This Department added a feather in its cap in 2010 when Government of India, Ministry of Agriculture sanctioned 'Centre of Excellence on Processing and Value Addition of Pearl Millet', considering its expertise in processing, value addition and utilization of pearl millet grown in Haryana. At present one AICRP Scheme, one State Research Scheme and Centre of Excellence on Pearl Millet are going on in the Department. Departmental research addresses the major nutritional problems of Haryana. Surveys are continuously being carried out for updating of nutritional status profile of vulnerable populations of Haryana. The Department focuses on development and popularization of value added food products which can curb problems of food security, nutritional disorders and propagate good health. One of our major research focuses is on 'value addition' of local foods and utilization of underutilized foods. The developed technologies have good potential in meeting the nutritional security and also good scope of commercialization. Several MOU's of technologies have also been signed with entrepreneurs. Faculty of Department have published many research papers in reputed journals, manuals and books. There is no use of scientific research that limits itself to laboratories, therefore, the department responsibly takes up extension work to spread nutritional knowledge and technical know-how of the developed technologies among ICDS functionaries, SHG, *Anganwadi* workers, rural and urban masses through trainings/demonstrations/awareness campaigns, *Krishi Mela* etc. Besides this, celebrations of World Health Day ($7^{th}$ April), Breast Feeding Week (1-$7^{th}$ August), Nutrition Week (1-$7^{th}$ September), National Nutrition month (September), participation in *Krishi Mela* (*Rabi* and *Kharif*), technology exhibitions at State and National level etc. are also important regular activities of the Department. Department also collaborates with PNB, *Sacha Khera*, Directorate of Extension Education, Directorate Students Welfare etc. for imparting training to masses. All faculty members remain actively involved in teaching, research and extension activities.

### Objectives of the Department:

- To create awareness regarding the role of nutrition in normal and diseased conditions
- To educate individuals, families and communities to develop good food habits
- To impart scientific information on foods and nutrition
- To educate students for gainful employment as food professionals

**Visit of Dignitaries to Centre of Excellence at Dept. of Foods & Nutrition**

**6.4.1. Brief History of the Degree Programme**: *Clearly mention in which year the degree program was initiated along with its objective and accomplishments.*

**M.Sc. Programme:** Master's degree programme in Foods and Nutrition was initiated in the year 1976. Entry qualification for Masters Programme is B.Sc. (Hons.) Home Science/ Community Science. Minimum duration of the programme is 02 years and maximum duration is 04 years.

**Objectives of initiating M.Sc. Programme:**

- To generate human resource in the field of Foods and Nutrition
- To strengthen the research component of the discipline

**Accomplishments of M.Sc. Programme:**

- During last five years (2018-23), 42 students have completed their Master's degree from this Department while18 student are on roll at present **(Annexure VII-B)**.
- One student (Ms. Varsha Kumari) has joined as Subject Matter Specialist, Home Science.
- One student (Ms. Vijay Chahal) joined as Asstt. Coach at SAI, New Delhi.
- One Student (Ms. Deeksha Sain) joined as Dietician.
- One student (Ms. Samta) joined as Nutritionist and later as Consultant-Diabetes Educator
- Students' research brought out one book chapter, 39 research papers and 10 abstracts **(Annexure VII-C)**.
- Three conferences were attended by M.Sc. students **(Annexure VII-D)**.

**Ph.D. Programme:** Doctoral degree programme in Foods and Nutrition was initiated in the year 1983. Entry qualification for Ph.D. programme is M.Sc. Foods and Nutrition. Minimum duration of the programme is 03 years and maximum duration is 05 years.

**Objectives of initiating Ph.D. Programme:**

- To produce advanced quality human resource in the discipline of Foods and Nutrition
- To strengthen the research component of the discipline

**Accomplishments of Ph.D. Programme:**

- During last five years (2018-23), 17 students have completed their doctorate degree from this department while16 students are on roll at present **(Annexure VII-E)**.
- Students' research brought out 14 research papers, 3 book chapters, 24 abstracts and 31 popular articles **(Annexure VII-F)**.
- Six students (Ms. Mamta Rani, Ms. Sikandra Devi, Ms. Vatsala, Ms. Sarita Verma, Ms. Pragati Godara, Ms. Neeta Kumari, Ms. Meenu Sirohi) have joined as Assistant Professor Home Science.
- Five students (Ms. Mumtaz Begum, Ms. Priyanka Rani, Ms. Vinita Sehrawat, Ms. Seema, Ms. Manisha Sindhu) have joined as PGT teacher in Delhi.
- Four students joined as SRF (Ms. Sarita Verma, Ms. Neeta Kumari, Ms. Suman, Ms. Reena) in various research projects.
- Twelve Ph.D. students cleared UGC NET and two got UGC JRF.
- Ph.D. students attended and participated in Seminars and Conferences **(Annexure VII-G)**.

**6.4.2. Faculty Strength:** *The faculty strength of the Degree Programme need to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of Research staff, extension staff, contractual faculty, guest faculty, adjunct faculty or any other arrangement being made to complete the curriculum, it should be clearly mentioned in the report.*

One post of Professor, two post of Associate Professor/equivalent and eleven posts of Assistant Professor/equivalent are sanctioned. There is one Professors/equivalent (promoted under CAS) and posted in KVK. There are two Associate Professor/ equivalent (promoted under CAS). There are four Assistant Professors in the Department including one Assistant Professor posted at KVK. One Research Associate is also appointed in AICRP on Women in Agriculture.

| Sr. No. | Designation | Sanctioned | In-Place | Vacant position | Faculty recommended by the ICAR |
|---|---|---|---|---|---|
| **1.** | Professor and equivalent | 01 | 01 PP* | -- | 01 |
| **2.** | Associate Professor and equivalent | 02 | 02PP | -- | 02 |
| **3.** | Assistant Professor and equivalent | 11 (7+4*) | 4 (2+1*+1Consultant Faculty) | 07 | 04 |
| **4.** | Research Associate | 01 | 01 | -- | -- |
| | **Total** | **15** | **08** | **07** | **07** |

PP- Personal Promotion from Assistant Professor *Faculty posted at KVK

**Note:** All the faculty of this programme is assigned the responsibilities for the multiple programmes.

**6.4.3. Technical and Supporting Staff:** *The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

In the Department of Foods and Nutrition, there are 12 posts sanctioned for technical and supporting staff. In position there are 12 posts of technical and supporting staff, one person is re-employed as clerk and one person is on contractual basis against the post of messenger.

| Sr. No. | Designation | Sanctioned | In-Place | Vacant position | Technical and supporting staff recommended by the ICAR |
|---|---|---|---|---|---|
| **1.** | Assistant/ Steno | 01 | 01 | -- | 01 |
| **2.** | Clerk cum store keeper | 02 | 02 (1+1*) | -- | 01 |
| **3.** | Lab Asstt./ Technician/ Attendant | 05 | 05 (4+1*) | -- | 04 |
| **4.** | Messenger | 01 | 01* | -- | 01 |
| **5.** | Cook | 01 | 01 | -- | -- |
| **6.** | Beldar | 01 | 01 | -- | -- |
| **7.** | Sweeper | 01 | 01 | -- | -- |
| | **Total** | **12** | **12 (9+3*)** | **--** | **07** |

* Contractual staff/ apprentice employed against the vacant post

Note: All the staff is assigned responsibilities for the multiple programmes.

**6.4.3. Classrooms and Laboratories**: *Mention the number of class rooms and functional laboratories available for the degree programme and justify if it is sufficient to meet the course curricula requirement. Lists major equipment's, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention theory and practical batches for the Degree Programme.*

The Department has ten laboratories, one Seminar Room, one PG Classroom and one Departmental Library for conducting the classes of UG, PG and Ph.D. programmes. Hence, sufficient number of labs is there to meet the course curricula requirements.

| S. No. | Laboratories/ Classrooms | Purpose |
|---|---|---|
| **1.** | Cooking Lab-I (Lab No. 1) | Lab is being used for conducting cooking practical classes of UG and PG courses- Teaching/ research |
| **2.** | Cooking Lab-II (Lab No. 2) | Lab is being used for conducting cooking practical classes of UG and PG courses- Teaching/ research |
| **3.** | Bakery Lab (Experiential Learning unit) (Lab No. 4 & 5) | Lab is well equipped for conducting practical classes of cooking, baking as well as hands on training on bakery and confectionery |
| **4.** | PG Lab (Lab No. 18) | Lab is being used for food analysis related teaching/research work |
| **5.** | Food Processing Lab (Lab No. 3) | Lab is being used for food analysis related research work |
| **6** | AICRP Lab (Lab No. 25) | Lab is being used for research work of AICRP scheme |
| **7.** | Centre of Excellence (Lab No. 6) | The COE is used for research/demonstrations/trainings related to pearl millet processing and product development. |
| **8.** | Food Analysis Lab (Lab No. 38A) | Lab is being used for analytical research work. |
| **9.** | Community Nutrition Lab/ Diet Counselling Centre (Lab No. 38B) | Lab is being used for community nutrition teaching/research work, nutritional status assessment and counselling of subjects. |
| **10.** | Small Animal Research Lab (Lab No. 14 ) | Lab is being used for experiments on small animals (rodents/fish) as per CPCSEA mandate. |
| **Other Instructional Units being utilized for the Award of Degree Programme** | | |
| **11.** | PG Class Room (Room No. 11) | Used for PG teaching of FN Dept. |
| **12.** | Seminar Room (Room No. 20) | Seminar room is used for delivering seminars by PG students. |
| **13.** | Departmental Library (Room No. 5) | Reference material, thesis etc. are referred by PG students for preparation of assignments, synopsis and thesis work. |
| **14.** | Teacher's Office Rooms | Equipped with computers, web cameras and internet facility for online teaching whenever required. |

## List of Equipment/Facilities at present available in the Department

| Sr. No. | Location/Lab | Equipment/Facilities |
|---|---|---|
| **1.** | Centre of Excellence (Lab No. 6) | Extruder with attachment for puff, Destoner cum grader, Double deck oven, Spiral mixer, UV spectrophotometer, Weighing machine, Sealing machine, Vacuum Packaging machine, Parboiling unit, Tray drier, Hammer mill, Pearling machine, Puff gun , Semolina Making Machine, Cereal flake production line |
| **2.** | PG Lab (Lab No. 18) | Orbital shaker, Spectrophotometer, Hot air oven, Automatic Protein Analyser, Fibra plus, Automatic Fat Analyser, Weighing Balance, Water bath, Moisture Analyser, Muffle Furnace, Centrifuge, Water distillation unit, Refrigerator, Temperature humidity meter, magnetic stirrer, Blood analyzer, Food texture analyzer, Spinix Vortex Shaker |
| **3.** | Bakery Lab (Lab No. 4 & 5) | Pasta making machine, Dough sheeter, Single deck electric baking oven, Display case, Spiral mixer machine, Planetary mixer, Proofing cabinet, Electric oven double deck, Weighing balance, water purifier, Deep freezer, Microwave oven, Cookie Dropping Machine, Biscuit Cutting Machine |
| **4.** | Food Processing Lab (Lab No. 3) | Deep freezer with digital temp Controller, Automatic Protein Analyser, Fibra plus, Automatic Fat Analyser, Spectrophotometer, Rotary shaker, Chakki grinding mill, Vacuum oven, Hot air oven, Centrifuge, Lyophilizer, Cooling centrifuge, Deep freezer |
| **5.** | AICRP Lab ( Lab No. 25) | Hot Air Oven, Refrigerator, Deep Freezer, Cooling Incubator, BOD Incubator, Centrifuge, Orbital Shaker, Socs Plus, Environmental Shaker, Kel Plus, Water Bath Shaker, Vacuum Oven, Fibra plus, Cyclotec Mill, Digital balance, water purifier |
| **6.** | Cooking Lab-1 ( Lab No. 1) | Refrigerator, Food ingredient weighing scale, Gas stoves, Mixi |
| **7.** | Cooking Lab-1I ( Lab No. 2) | Refrigerator, Food ingredient weighing scale, Gas stoves, Oven Toaster Griller (OTG), water purifier, Air fryer, Roti maker, Induction stove, Water Dispenser |
| **8.** | Food Analysis Lab (Lab No. 38A) | Fume hood, Hunter colour Lab, Vacuum dehydrator, Ultrasonic bath, Spectrophotometer, Deep freezer cum refrigerator, All quartz water distillation, NIR UV-Vis Spectrophotometer, Bio Safety Cabinet, Water bath with shaker, Automatic protein analyser, Vortex shaker, Auto pipettes |
| **9.** | Community Nutrition Lab/Diet Counselling Centre (Lab No. 38B ) | Body composition analyzer, Weighing scale, Heightometer, LCD/LED projector, Computers/Printers along with computer work stations and internet facility. Diet Cal software installed for student use. |
| **10.** | Small Animal Research Lab (Lab No. 14 ) | Air curtains, Animal cages, Aquarium, Web Camera, Refrigerator |

## Theory and Practical Batches

- At M.Sc. level, the Department of Foods and Nutrition offers 16 courses and 10 courses have practical components. There are 5-6 students per year in M.Sc. programme. Some courses are offered as minor courses for students of other Departments. There is single batch for theory as well as for practical classes in all the M.Sc. courses with an average of 7-10 students.
- Similarly, at Ph.D. level there is single batch for theory as well as for practical classes in all the Ph.D. courses. Department of Foods and Nutrition offers 13 courses and amongst these, three courses have practical components.

**6.4.5. Conduct of Practical and Hands-on-Training:** *It is important to have a sound grasp of the theory that underlies any professional degree. But there are some skills that can only be learned through hands-on -practice. It is important that much of the learning material in any given course should be provided in a way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hands-on-training as per the curriculum and meeting above mentioned requirements.*

**Conduct of Practical and Hands-on-Training in M.Sc., Foods and Nutrition**

At M.Sc. level the Department of Foods and Nutrition has16 courses. Out of these 16 courses, 10 courses provide practical skills and hands-on training as per the curriculum requirements. In addition to these courses, one course on Masters Research also provides hands-on-experience in research.

| Course No. Title Credit Hours | Practical and Hands-on-training courses | How far students are getting desired practical and hands-on-training as per the curriculum (bullet form) |
|---|---|---|
| **FN 501 Food Science** 3 (2+1) | • Microscopic structure of different starch granules<br>• Evaluation of food by subjective and objective methods<br>• Changes in colour, texture and flavour of foods due to processing; effect of cooking on protein, fat and carbohydrates<br>• Product preparation using leavening agents; project work | • Students understand the physico-chemical properties of foods<br>• Students can appreciate the effect of processing techniques on food and nutrients.<br>• Students learn the sensory evaluation methods. |
| **FN 503 Food Analysis** 4 (1+3) | • Handling of equipment and instruments<br>• Preparation of samples, solutions and buffers<br>• Quantitative estimation of proximate principles, minerals and vitamins by use of calorimetry, flame photometry, UV spectrophotometer, chromatography, atomic absorption spectrophotometer and photo fluorometry; analysis of anti-nutritional factors; estimation of protein and starch digestibility; fractionation of protein; food adulteration. | • Students learn precision with the principles, techniques and application of different methods of analysis for varied food and products<br>• The students are equipped with knowledge to ascertain quality of the developed food products. |
| **FN 504 Advances in Community Nutrition** 3 (2+1) | • Development of low cost nutritious recipes suitable for various vulnerable groups<br>• Visit to the on-going public health nutrition programme and report writing<br>• Techniques of assessment of nutritional status. | • Students understand the nutritional problems of the community and gain skills for planning and executing nutrition projects of the community<br>• Students learn techniques of assessment of nutritional status.<br>• Students acquire skills in management of adequate nutritional statures of the population conducive to National Development. |
| **FN 506 Advances in Clinical Nutrition** 4 (2+2) | • Biochemical analysis of blood under normal and diseased conditions for glucose, calcium, iron, creatinine, urea, uric acid, albumin, globulin, cholesterol, phosphate, glutamate oxaloacetate transaminase, glutamate pyruvate transaminase, phospholipids<br>• Analysis of urine for specific metabolites under normal and diseased conditions | • Students learn to carry out the analysis of different nutrients and metabolites in blood and urine in normal and diseased conditions.<br>• Students understand the inter-relationship, etiology and management techniques to a specific disease situation |

| | | |
|---|---|---|
| **FN 508 Nutrition and Physical Fitness** 3 (2+1) | • Project work: planning of project, development and standardization of tool, collection of data, analysis of data, report writing. | • Students learn to identify, evaluate and evolve ways in addressing various aspects of physical fitness.<br>• Students learn the recent techniques of estimating body composition and energy metabolism for assessment of nutritional status. |
| **FN 509 Advanced Diet Therapy** 3 (2+1) | • Formulation of food exchanges<br>• Therapeutic modifications of diet in terms of nutrients, consistency and composition for various disorders and diseases<br>• Preparation of SOAP notes and case studies.<br>• Visits to hospitals. | • Students put theoretical knowledge to practical use, plan diets for therapeutic conditions.<br>• Course enables the students to become effective member of Health Care Team in Medical Nutrition Therapy. |
| **FN 511 Advanced Human Physiology** 3 (2+1) | • Estimation of haemoglobin<br>• Identification of blood groups; preparation of blood slide<br>• Identification and counting of blood cells<br>• Haematocrit and sedimentation rate<br>• Measurement of blood pressure<br>• Examination of abnormal constituents of urine<br>• Estimation of glucose and cholesterol in blood. | • Students learn complex physiological systems of the human body through scientific enquiry into the nature of mechanical, physical and biochemical function of humans, their organs. |
| **FN 512 Food Service Management** 3 (1+2) | • Standardization of recipes: planning and preparation, modification in basic recipe,<br>• preparation of standard recipe<br>• Use of left over foods<br>• Visit to different types of food service institutions and study the following: organization, physical plan and layout, food<br>• service equipment, sanitation and hygiene<br>• Practical experience in organization and management of college cafeteria/ hotels | • Students learn the multi-dimensional knowledge associated with institutional food service in a given setup.<br>• Students have the knowledge to set up and manage their own small scale food service set up. |
| **FN 513 Food Product Development** 2 (1+1) | • Sensory evaluation: methods, training of judges, score card preparation. Selection and modification of food product to be developed<br>• Formulation and standardization of products<br>• Objective and subjective evaluation of the products<br>• Evaluation of consumer acceptability<br>• Packaging and sale of products.<br>• Preparation of video film for media | • Students understand the concept of product development, their sensory evaluation and quality control.<br>• Students learn the application of sensory evaluation methods. |
| **FN-599 Master's Research** 20 | Research work under Master's programme | • Nutritional status assessment of rural and urban community.<br>• Development of value added and therapeutic food products.<br>• Organoleptic acceptability, nutritional analysis and shelf life of developed products |

## Conduct of Practical and Hands-on-Training in Ph.D., Foods and Nutrition

The Department of Foods and Nutrition offers 13 courses at Ph.D. level. Out of these 13 courses, 02 courses provide practical skills and hands-on training as per the curriculum requirements. In addition to these courses, one course on Ph.D. Research also provides hands-on-experience in research.

| Course No. Title Credit Hours | Practical and Hands-on-training courses | How far students are getting desired practical and hands-on-training as per the curriculum (bullet form) |
|---|---|---|
| **FN 603 Minerals in Human Nutrition** 3(2+1) | • Assessment of antioxidants in foods<br>• Project to combat micro nutrient deficiencies vulnerable sections, groups with special needs | • Students appreciate importance of macro and micro nutrients in health.<br>• Students can analyze antioxidants and minerals in foods.<br>• Students also plan small scale project to study micro nutrient deficiencies in vulnerable sections and groups of special needs |
| **FN 610 Maternal and Child Nutrition** 3(2+1) | • Preparation of a database on prevailing supplementary and weaning practices-planning, collecting data, analyzing data, writing report<br>• Preparation of low cost complementary foods<br>• Analysis of weaning/ complementary foods for its nutrient content | • Students study prevailing supplementary and weaning practices in community.<br>• They plan mini project and collect data on maternal health, students also prepare low cost complementary foods |
| **FN 699 Doctoral Research** 45 | • Research work under Doctoral programme | • Food consumption trends and their relation to life style diseases.<br>• Development and evaluation of value added and therapeutic food products. |

**Student Researches**

The Department of Foods and Nutrition is running Experiential Learning Unit on 'Bakery and Confectionery. Under Experiential Learning, PG and Ph.D. students standardize bakery and confectionery products recipes and get experience right from procurement of raw material to the sale of products. The students learn and develop capabilities of building entrepreneurship and business management for creating employment.

**6.4.6. Supervision of Students in PG/Ph.D. Programmes:** *Number of students being supervised by Faculty in case of Masters/Ph. D Programme (as per ICAR/UGC guidelines). Mention the realistic figure number of qualified faculty in relation to the intake of students, as per the guidelines in the matter.*

Department of Foods and Nutrition has qualified faculty to guide M.Sc. and Ph.D. students.

**M.Sc. Programme**

| Year | Number of PG faculty | Number of students on roll | Teacher-Student Ratio (T:S) |
|---|---|---|---|
| **2018-19** | 9 | 27 | 1:3.0 |
| **2019-20** | 8 | 24 | 1:3.0 |
| **2020-21** | 4 | 24 | 1:6.0 |
| **2021-22** | 4 | 26 | 1:6.5 |
| **2022-23** | 4 | 19 | 1:4.7 |

**Ph.D. Programme**

| Year | Number of PG faculty | Number of students on roll | Teacher-Student Ratio (T:S) |
|---|---|---|---|
| **2018-19** | 9 | 16 | 1:1.7 |
| **2019-20** | 8 | 16 | 1:2.0 |
| **2020-21** | 4 | 20 | 1:5.0 |
| **2021-22** | 4 | 23 | 1:5.7 |
| **2022-23** | 4 | 23 | 1:5.7 |

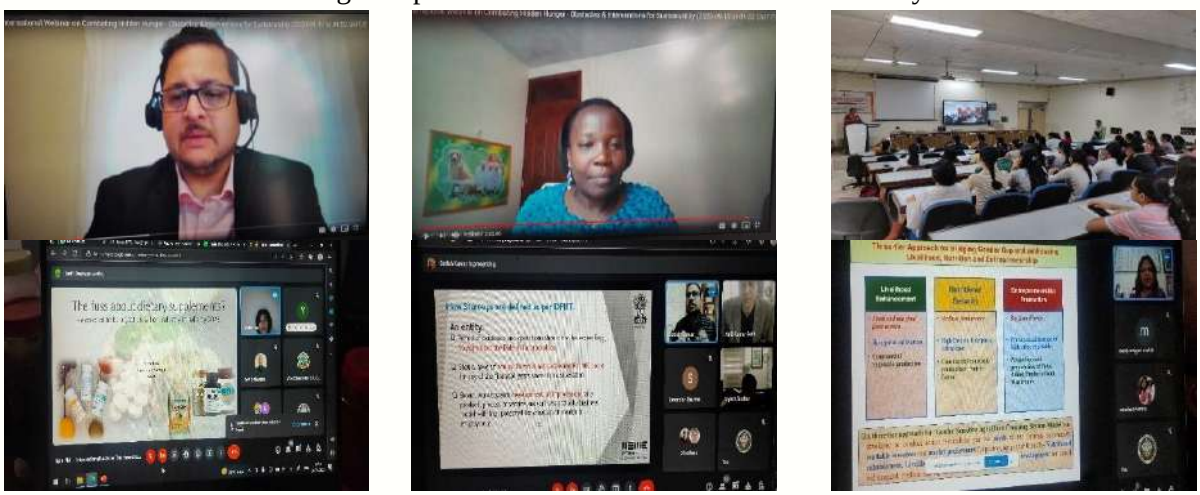
**6.4.7. Feedback of Stakeholders *(Students, Parents, Industries, Employers, Farmers etc.):*** *Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the degree programme. What action the University has taken in last five years to address the issues raised in the feedback?*

- The performance of faculty is also reviewed on the basis of their results and feedback from students.
- Students of Module I are placed in different Institutions for In-plant training. Teachers visit these Institutions during training period of students and conduct meetings with authorities of the Institutes. Any suggestions provided by them are incorporated in the curriculum.
- Students of final year visit villages for Rural Agricultural Work Experience where they apply their theoretical knowledge in training rural people for transfer of technology. The interaction of students with villagers, local leaders and grass root workers give feedback in improving the curriculum.
- The stakeholders' feedback on the overall performance and quality of the Institutions is obtained through general meetings with parents and interaction with alumni. The teachers get feedback from the students based on their parents' observation and suggestions. These suggestions are discussed in DAC and Bos to make required improvement.

**Feedback from Alumni**

**Feedback from Rural Stakeholders**

**Feedback from ICDS Workers**



**6.4.8. Student Intake and Attrition in the Programme for the Last five Years:** *Year wise information on sanctioned strength, actual intake and attrition in the last five years of the Degree Programme, in the tabular form, shall be provided.*

| Programme | Actual number of student admitted | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| M.Sc. | 7 | 9 | 8 | 9 | 9 | - | - | - | - | - |
| Ph.D. | 5 | 4 | 7 | 3 | 4 | - | - | - | - | - |

**6.4.9. Application in Curricula Delivery:** *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical. Mention whether the Degree Programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned.*

Yes, the faculty members of Foods and Nutrition use ICT in theory and practical classes. There is one Seminar Room with computer, LCD/LED projector and internet connection. The faculty of Foods and Nutrition delivers the course contents to students through proper use of ICT (CD, DVD, pen drive, LCD/LED projector, emails, internet, smart class room, interactive boards, scanner, computers etc.) which is worth in understanding the basic concepts of courses and developing expression power, improving comprehension, speed and vocabulary, developing self-concept and value clarification.

Faculty is well apt with use of ICT. Other than using it for daily teaching, Several National/International lectures/webinars/training programs/workshops have been organized using online mode. Thus increasing the sphere of interaction of students with faculty from India and abroad.

**Use of ICT for lectures/Webinars/Workshops**

**6.4.10.** The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and Ph.D. Degree Programmes, separately, and to be presented College-wise.

**6.4.11.** Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

**6.4.12.** Certificate (Applicable when SSR is submitted for Programme)

I, the Dean, **Dr. Manju Mehta**, hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the College, and degree awarding university.

Mehta

**Signature of Dean of the College with Date & Seal**

# Ph.D., Family Resource Management

## 6.4. SELF STUDY REPORT OF PG PROGRAMME

### About the Department

The Department of Family Resource Management (FRM) was established in the year 1982. Both the M.Sc. and Ph.D. programmes were launched in 1982 and 1994, respectively. Since that time, it has been endeavouring to achieve its objectives in accordance with the department's mandate to foster academic excellence in the discipline of Family Resource Management. The Department offers 10 Ph.D. courses and 17 M.Sc. courses **(Annexure VIII-A)**. Courses on management concepts, consumer issues, housing and space management, interior design and its application, family financial management, energy and the environment, appropriate technology, occupational biomechanics, consumer product design and ergonomics and its application in daily life are all included in the postgraduate programmes and doctoral programmes. The faculty members are highly qualified, experienced and have a wide range of exposure. They are involved in teaching, research and extension activities. A certificate of appreciation for Reducing Drudgery of Women at Global Conference, ICAR, New Delhi, 2012, and the Chaudhary Devi Lal Outstanding AICRP Award (ICAR) for AICRP on Home Science, 2003, have both been awarded to the department's teachers. The Bureau of Indian Standards' Ergonomics Sectional Committee is primarily comprised of members from the Department of FRM. The faculty members have served as the Technical Coordinator for an All India Coordinated Research Project on Home Science as well as a member of the QRT Team for an All India Coordinated Research Project on Ergonomics for Safety in Agriculture (ESA). The faculty has successfully managed numerous research projects. Currently, research is being carried out in the focus areas of Family Resource Management through the 'All India Coordinated Research Project on Women in Agriculture (AICRP) and state scheme 'Resource Conservation and Management for Sustainable Living'. In addition to manuals and book chapters, the departmental faculty has produced a number of research papers in reputed national and international journals. Through trainings, demonstrations, and awareness campaigns, faculty members actively participate in extension activities to spread knowledge and technical expertise of the created technologies to the rural and urban people.

Additionally, the Department has excelled in creating various technologies to lessen the laborious tasks that women in agriculture perform and numerous patents have been submitted. Three innovations got their designs registered with the GOI Patent Office. In addition to this, the faculty members are actively involved as subject matter experts in a number of national and international academic committees, including the Board of Studies (FRM) in Patiala and Udaipur, the referee for Journal of Research in Dharwad, Karnataka, Palampur, Ludhiana, as well as IGNOU, the international organising committee for HWWE and the Indian Society of Ergonomics. Presently there are two Professors/equivalents (promoted under CAS) and two Assistant professors/equivalents in the Department.

### Objectives of the Department:

- To enlighten the students about new dimensions and possible challenges to become proficient administrators of personal and community resources.
- To impart design knowledge to the students in order to create high-quality interior and exterior consumer items.
- To explore challenges related to resource management, resource conservation and development of technology that is suited for the home, farm and allied sector.
- To sensitize the rural masses through dissemination of appropriate technologies in relation to home, farm and allied sector for uplifting the quality of life.

**6.4.1. Brief History of the Degree Programme:** *Clearly mention in which year the degree program was initiated along with its objective and accomplishments.*

**M.Sc. Programme**

M.Sc. programme was started in the year 1982. Since then it has been working towards accomplishing its goals as per the mandate of the Department to promote academic excellence in field of Family Resource Management. Entry qualification for Master's programme is B.Sc. (Hons.) Home Science/Community Science and minimum duration of the Master's programme is 2 years and maximum duration is 4 years.

**Objectives of initiating M.Sc. Programme**

To provide academic excellence to students in the following thrust areas:

- Ergonomics and its application in daily living
- Drudgery reduction through technology development
- Fuel energy conservation and renewable energy
- Environmental and ecological issues
- Housing, space management and interior designing
- Family resources and consumerism

**Accomplishments of M.Sc. Programme:**

- Sixteen M.Sc. students have completed degree from Department of Family Resource Management and fourteen are on roll **(Annexure VIII-B)**.
- 22.5 per cent students went for higher studies during last five years.
- Ms. Aprajita Kumari (2012HS30M) joined as Assistant Professor at Women College, Samastipur, Jharkhand in 2018.
- Ms. Anita Gautam (2008HS20M) joined as Subject Matter Specialist at Dr. Rajendra Prasad Central Agricultural University, PUSA Bihar in 2018.
- Ms. Aparana Rai joined as Assistant Professor at IIM Udaipur in 2018.
- Ms. Ekta Melkani (2017HS35M) received patent design for bead product workstation with Design No. 106277 dated 21.12.2021
- Ms. Khusbhoo (2017HS35M) applied for patent design for Motile cattle feeding trolley with Application No. 339710-001
- Ms. Ekta Melkani (2017HS35M) received Dr. (Mrs.) Saroj Kashyap Gold Medal for Excellent M.Sc Research work
- One student Ms. Majji Chaya Priya (2021HS13M) received ICAR NTS in year 2021 for pursuing M.Sc.
- Ms. Ekta Melkani (2017HS35M) received ICAR SRF fellowship for pursuing Ph.D.
- Ms. Aysha Be (2019HS10M) received NET JRF fellowship for pursuing Ph.D.
- Ms. Anjali Gairola (2016HS23M) received UGC NET in 2018
- Ms. Anjali (2016HS23M) received ICAR SRF fellowship for pursuing Ph.D. in 2018
- Ms. Naina Sharma (2013HS26M) joined as Assistant Professor at Government Women Post Graduate College, Kandhla, Shamli in 2021.
- Three M.Sc. students cleared NET during last five years.
- Post Graduate Students' publish 31 research papers during last five years **(Annexure VIII- C)**.
- Students attended various conferences and presented oral and poster of research papers. **(Annexure VIII- D).**
- Three M.Sc. students got placement as guest faculty during 2018-2022.
- Ms. Karamjeet Kaur (2018HS09M) joined Department of Education, Panchkula in 2018.

- Students have developed package of media/literature on different technologies, interventions for imparting knowledge among rural communities.
- M.Sc. students developed 17 technologies under their research work viz. bead product workstation, Motile cattle feeding trolley, load carrier, multipurpose study table, Versatile Handy Trolley, Tandoor-cum-*Chulha*, handicraft chair, mobile milking stool and solar cap.

**Tools Developed by Students under their Research Work**

## Ph.D. Programme

The Ph.D. programme was started in year 1994. For Doctorate programme entry qualification is Master's programme; minimum duration is 3 years and maximum duration is 5 years.

## Objectives of initiating Ph.D. Programme

- To sensitize the rural masses through dissemination of appropriate technologies in relation to home, farm and allied sector for uplifting the quality of life.
- Promotion and development of inclusive infrastructure for human well-being, with a focus on affordable and equitable access for all.
- Promotion of gender equality and the empowerment of women in agriculture and allied sectors

## Accomplishments of Ph.D. Programme

- Total 15 students passed out and 09 are on roll **(Annexure VIII- E)**.
- Ms. Savita Kumari (2012HS15D) received patent design for Composite stool for pruning and harvesting no. 305085 dated 25.11.2019.
- Ms. Kanchal Shilla (2014HS13D) applied for patent design for KS-Secateurs by Design No. 356939-001.

- Ms. Komal (Admn No. 2015HS9D) received Dr. (Mrs.) Savita Singal Gold Medal for Excellent Ph.D. Research work.
- Ms. Komal (2015HS9D) received University Level Gold Medal for obtaining highest OGPA.
- Two Ph.D. students cleared NET during last five years.
- Ms. Divya Shree (2020HS07D) is Content writer at Trando Consulting Services.
- Ms. Neha Gahlot (2013HS11D) joined as Subject Matter Specialist at KVK Phalodi (Jodhpur-II), Jodhpur Agricultural University, Jodhpur.
- Ms. Savita Kumari joined as Subject Matter Specialist at KVK, Lahaul and Spiti-II at Tabo, Solan, Himachal Pradesh in 2018.
- Ms. Promila Dahiya (2010HS105D) joined as Assistant Professor at FRM, COHS, CCSHAU, Hisar in 2019.
- Ms. Kanchan Shilla (2014HS13D) joined as Subject Matter Specialist at KVK, Subject Matter Specialist, Krishi Vigyan Kendra Hanumangarh-II, Nohar Rajasthan University of Veterinary and Animal Science, Bikaner in 2022.
- Ms. Komal (2015HS09D) joined as Senior Research Fellow under NAFS, COHS, CCSHAU, Hisar in 2020.
- Two Ph.D. students got placement as Guest faculty.
- Students' research brought out 96 research papers and 08 book chapters during last five years.
- Fifteen Ph.D. students completed degree during last five years and 09 are on roll.
- Four Ph.D. students cleared NET exam during last five years.
- Students published research papers and attended various conferences and presented oral and poster presentations of research papers **(Annexure VIII-F & G).**
- Students have developed package of media/literature on different technologies, interventions for imparting knowledge among rural communities.
- Two Ph.D. students joined as Young Professionals.
- Ph.D. students developed 11 technologies by working on Ergonomics and drudgery reducing technologies. Developed technologies are Composite stool for pruning and harvesting, KS-Secateurs, fruit cutter, head load manager, ergo dung collector, scholar chair, convertible book case, head load manager; Foldable standing load carrier, Folding iron table with storage cabinet, Grater Box.

**Tools developed by Ph.D. Students**

**6.4.2. Faculty Strength:** *The faculty strength of the Degree Programme need to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of Research staff, extension staff, contractual faculty, guest faculty, adjunct faculty or any other arrangement being made to complete the curriculum, it should be clearly mentioned in the report.*

One post of Professor, three post of Associate Professor/equivalent and six post of Assistant Professor/equivalent are sanctioned. There are three Professors (all promoted under CAS), out of these one is posted in KVK. There are two Assistant Professors in Department. One Associate Professor/ equivalent is posted at KVK. Two Young Professionals are working in AICRP on Women in Agriculture.

| Sr. No. | Designation | Faculty | In-Place | Vacant position | Faculty recommended by the ICAR |
|---|---|---|---|---|---|
| **1.** | Professor and equivalent | 01 | 03 (2PP+1*) | -- | 01 |
| **2.** | Associate Professor and equivalent | 03 (2+1*) | 01* | 02 | 02 |
| **3.** | Assistant Professor and equivalent | 06 (3+3*) | 03 (02+1 Consultant Faculty) | 01 (2 Promoted to Professor) | 04 |
| **4.** | Young Professional | 02 | 02 | -- | -- |
| | **Total** | **12** | **09** | **03** | **07** |

PP- Personal Promotion from Assistant Professor *Faculty posted in Extension

**Note:** All the faculty of this programme is assigned the responsibilities for the multiple programmes. Faculty appointed in teaching also carries out teaching and extension activities; faculty appointed in research also conducts teaching and research; faculty appointed in extension also guide PG students.

**6.4.3. Technical and Supporting Staff:** *The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

In the Department of Family Resource Management, there are 13 posts sanctioned for technical and supporting staff. In position, there are 10 posts of technical and supporting staff. There are three persons on contractual basis/ Apprenticeship.

| S. No. | Designation | Sanctioned | In-place | Vacant position | Technical and supporting staff recommended by the ICAR |
|---|---|---|---|---|---|
| **1.** | Assistant/ Steno | 02 | 02 (1+1*) | -- | 01 |
| **2.** | Lab Asst./ Sr. Lab. Asst./Technician/ Attendant | 05 | 03 | 02 | 04 |
| **3.** | Messenger | 01 | 01* | -- | 01 |
| **4.** | Mali/ Beldar | 05 | 04 (3+1*) | 01 | - |
| | **Total** | **13** | **10** | **03** | **07** |

*****Contractual Staff/Apprentice

**Note:** All the staff is assigned the responsibilities for the multiple programmes

**6.4.3. Classrooms and Laboratories:** *Mention the number of class rooms and functional laboratories available for the degree programme and justify if it is sufficient to meet the course curricula requirement. Lists major equipments, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention theory and practical batches for the Degree Programme.*

The Department has six labs for UG and PG teaching, Seminar Room, PG Resource Room and Departmental Library. Hence, sufficient numbers of labs are there to meet the course curricula requirements. Department also has Domestic Farm Unit (DFU) for students' research work and practicals.

| S. No. | Name of Lab/Classroom | Purpose |
|---|---|---|
| **1.** | Research Lab (Lab No. 74) | Ergonomics related practical classes and students' research work |
| **2.** | Furnishing Lab (Lab No. 46) | Interior's aspects and Table setting/ napkin folding |
| **3.** | Activity Lab (Lab No. 78) | Preparation of Creative articles in the course FRM 405 |
| **4.** | Computer Lab (Lab No. 84) | Practical Auto CAD course and PG students' work |
| **5.** | Design Studio Lab (Lab No. 41) | U.G. & P.G. practical classes related to housing and designing |
| **6.** | Consumer & Appropriate Technology Lab (Lab No. 44) | Taking practical classes of equipment's, appropriate technology and housing. |
| **Other instructional units being utilized for the award of degree programme** | | |
| **7.** | Seminar Room (Room No. 91) | Used for presentation of assignments and delivering seminars by PG students and also used for conducting UG & PG classes |
| **8.** | P.G. Resource Room (Room No. 92) | PG Teaching |
| **9.** | Departmental Library (Room No. 75) | Reference material, journals, thesis etc. are referred to PG students for preparation of assignments, synopsis and thesis work. |
| **10.** | Domestic Farm Unit | Taking practical class on flower arrangement, home stay tourism and agri-business tourism<br>Domestic Farm Unit is used for taking practicals related to appropriate technologies, flower arrangements, floriculture, vegetables etc. |
| **11.** | Teacher's Office Rooms | Equipped with computers, web cameras and internet facility for online teaching whenever required. |

**Departmental Labs**

**List of Equipment/ Facilities at present available in the Department:**

| S. No. | Location/Lab | Equipment/ Facilities |
|---|---|---|
| 1. | Computer Lab (Lab No. 84) | Desktop computers (18), UPSs, Computer Tables, Chairs |
| 2. | Research Lab (Lab No. 74) | B.P. Apparatus Digital, Anthropometric sliding caliper and Spreading caliper, Heart Rate monitor with interface, inter face Electronic treadmill with Acc., Digital temperature Indicator<br>Portable hand held Camera, Environmental kit for temperature humidity, light noise and sound intensity, Polar heart rate monitor model, Peak fellow meter, B.P. Apparatus (Diamond), Stethoscopes, Sapling transplanter, Digital wood/timber moisture meter, Extendable goniometero-18 degree built in 4x magnifying lens, Digital grip dynamometer range-0-1kg, Half minute calibrated electronic metronome, Oximeter, Push and Pull dynamometers, Air quality monitor, Spirometer (PFT), Proto type work station top wooden plate flat, Stop watch (swiss), Lux meter digital, Drudgery reducing farm tools, Blood Lactate analyser, Non-Contact Thermometer, Complete Digital Body Composition Monitor, Digital Temperature Hygrometer, Complete Digital Body Composition Monitor, Solar lighting, Air Quality Meter, Finger Tip Pulse Oximeter, Lux Meter, Sound level meter, Lactate analyzer |
| 3. | Consumer & Appropriate Technology Lab (Lab No. 44) | Vacuum cleaner, Microwave, Oven, electric iron, refrigerator, dishwasher, washing machine, drudgery reducing small tools and appliances, Solar Power Plant at rooftop of I.C. COHS |
| 4. | Furnishing Lab (Lab No. 46) | Living room, dining room & bed room furniture and furnishings |
| 5. | Activity Lab (Lab No. 78) | Refrigerator, Water Filter |
| 6. | Seminar Room (Room No. 91) | Multi Media with computer and sound system |
| 7. | Domestic Farm Unit | Walk in tunnel for cut flowers (Poly house), Lawn Mower Electric, Bush Cutter and other agricultural tools |

**Theory and Practical Batches**

The Department of FRM offers 17 M.Sc. courses and 15 courses has practical components. Some courses are offered as minor courses for students of other departments. There is only one batch for theory classes and one batch for practical classes in all the courses with an average of 4-12 students. Similarly, at Ph.D. level, there is only batch for theory and practical classes each in all the courses. For Ph.D., the Department of FRM offers 10 courses and 06 courses have practical components.

**6.4.5. Conduct of Practical and Hands-on-Training**: *It is important to have a sound grasp of the theory that underlies any professional degree. But there are some skills that can only be learned through hands-on -practice. It is important that much of the learning material in any given course should be provided in a way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hands-on-training as per the curriculum and meeting above mentioned requirements.*

**Conduct of Practical and Hands-on-Training in M.Sc. Family Resource Management**

The Department of Family Resource Management offers 17 courses at Master's level. Out of these 17 courses, 14 courses have practical component besides imparting theoretical knowledge, students are provided practical skills and hands-on-training as per the curriculum requirements. In addition to these courses, one course on Masters Research also provides hands-on-training in research.

| Course No.<br>Title<br>Credit Hours | Practical and Hands-on-training | How far students are getting desired practical and hands-on-training as per the curriculum (bullet form) |
|---|---|---|
| **FRM 502**<br>**Fundamentals of Ergonomics**<br>3 (2+1) | • Experience with ergonomic research tools; learning how to take Anthropometric measures, body composition and size analysis, physical fitness evaluation utilising a variety of methods, and procedures for calculating the ergonomic cost of work in terms of physiological indicators<br>• Analysis of posture, measurement of various environmental parameters, determination of work-rest cycles, evaluation of physical workload, and evaluation of the impact of environmental factors on worker and work performance | • Learn how to employ ergonomic tools, evaluate physical fitness using a variety of approaches, and evaluate the ergonomic cost of employment in terms of physiological parameters.<br>• Determine the physical workload; evaluate the work-rest cycle; assess posture and postural pain using the OWAS, RULA, Human Body Map, and ODS approaches; and measure a variety of environmental factors, such as temperature, relative humidity, light, noise, and others. Analyse how environmental factors affect employees' performance at work. |
| **FRM 503**<br>**Advanced Interior Space Management**<br>3 (2+1) | • Visit furniture and furnishing showrooms, hotels, residential structures and building design colleges to spot emerging trends -Market analysis of surface components, coatings, fixtures, and fittings<br>• Exact pricing estimates for interior decoration and design components | • In order to spot emerging trends in surface materials, finishes, fittings, and fixtures, students tour building design institutions, hotels, furniture and furnishing showrooms, and residential structures. Students get hands on experience in cost estimation of interior design and decoration elements |
| **FRM 504**<br>**Advanced Housing**<br>3 (2+1) | • Visits to housing development organizations and building design centres. Analysis of building forms in various geo-climatic regions. Evolution of eco-, ergo-, and space-saving house plans for chosen geo-climatic regions for various socio-economic groups through CAD | • Suggesting affordable improvements after visiting building design institutes and housing development organizations |

| | | |
|---|---|---|
| | • Construction cost estimates, evaluation of current floor plans and recommendations for affordable modifications, and landscape planning | |
| **FRM 505**<br>**Consumer Issues and Challenges**<br>3 (2+1) | • Identifying issues with rural and urban consumers<br>• Project work: thorough analysis of any single identified issue-identifying solutions to the issue -creating consumer education materials on a certain topic | • Examine consumer issues and observe Consumer Day. |
| **FRM 506**<br>**Consumer Guidance and Counselling**<br>3 (2+1) | • Visit to local consumer *Lok Adalat*<br>• Probing out the structure and functioning of consumer court<br>• Understanding the procedures for filing a consumer complaint | • Practical insight to students regarding redressal forum and acquaintance with legal procedure of hearing and remittance of damaged or wrong product. Complaining against other fraudulent practices prevailing in society. |
| **FRM 507**<br>**Consumer Communication Media**<br>3 (1+2) | • Consumer communication media-impacting masses<br>• Exploring the different print media and electronic media on consumer behaviour<br>• TV & Radio Advertisements content analysis<br>• Mini research on a specific consumer issue and developing a communication package to educate not awaked population<br>• Study the Role of advertising as a mode of communication<br>• Developing a consumer friendly advertisement for a specific product<br>• Report writing and presentation | • Communication package prepared on a specific consumer issue.<br>• Report writing and presentation.<br>• Develop a consumer friendly advertisement for a specific product. |
| **FRM 508**<br>**Product Design, Testing and Evaluation**<br>3 (1+2) | • Standardisation norms for worker health and safety<br>• User choice in the design of a particular consumer product<br>• Understanding the chosen consumer products through manufacturer guidelines<br>• Conceptualization and development of functional consumer products<br>• Using CAD software for product design and prototyping • Electrical and non-electrical equipment product testing processes<br>• Determining device efficiency in electrical and non-electrical equipment<br>• Visiting quality control laboratories<br>• Spotting adulterants in food products | • Analyses user requirements and design choices for a particular consumer product; Evaluates a number of consumer items based on manufacturer's specifications.<br>• Conceptualization and development of consumer products with functional alternatives; Review and collection of standard norms for a limited group of consumer products based on user health and safety.<br>• Using CAD software to design and create a product prototype.<br>• Visit quality control labs to learn about product testing procedures for electrical and non-electrical equipment.<br>• Estimate the efficiency of electrical and non-electrical equipment.<br>• Look for adulterants in food items. |

| | | |
|---|---|---|
| **FRM 509**<br>**Consumer Economics and Retail Management**<br>5 (3+2) | • The mechanism for marketing a good or service<br>• Learn to determine the cost of living. Analyse national budgets. Examine the effects of changing economic policies on family consumption. Study of various retail store kinds, including small-scale, mobile, convenience, general, specialty, and consumer cooperatives; large-scale, super market, departmental, chain, manufacturer's showrooms, shopping centres, and multiplexes. Telemarketing, mail-order, and vending machine direct marketing Selling on the side -E-shopping | • Project work on a service or good's marketing system Examine national budgets.<br>• Evaluate how shifting economic priorities will affect how much is spent by families.<br>• Calculate the cost of living; Consumer cooperatives, chain stores, supermarkets, department stores, manufacturer's showrooms, shopping centres, and direct marketing (telemarketing, mail order, vending machines, personal selling, and online shopping) were all the subject of a study on various retail store types. |
| **FRM 510**<br>**Work and Work Station Design**<br>3 (1+2) | • Establishing the space relationships at specific workstations in accordance with workers' anthropometry, posture, and movement<br>• Measuring and documenting the anthropometric measures of the worker and the dimensions of the equipment and furniture used in the unit workspace; measuring the work-space envelope for a particular activity; and calculating the physiological indices that represent the cost of the labour.<br>• Creating various workstations and storage facilities<br>• Selecting and analysing a work station in regard to design elements, space relationships, dimensions of equipment and furniture, and environment management methods. • Preparing floor and perspective designs of a unit work space.<br>• Creating workplace designs in 2D and 3D • Analysing current workstations in both home and commercial settings and recommending an ergonomic design plan | • Establishing the space relationships at specific workstations in accordance with workers' anthropometry, posture, and movement.<br>• Evaluation of the work-space envelope for a particular activity; measurement of the expenses of the task in terms of physiological indices; measurement of the anthropometric measures of the worker and the dimensions of the equipment and furnishings used in the workspace.<br>• Designed several workstations and storage Creating 2D and 3D workplace designs.<br>• Analysing existing workstations in residential and commercial settings;<br>• Preparing floor and perspective plans of a work space.<br>• Analysing a work station in relation to design features, space relationships, equipment and furniture dimensions, and environment control methods. |
| **FRM 511**<br>**Advanced CAD for Product Design**<br>4 (0+4) | • A description of the modelling applications REVIT and 3DS Max<br>• Appreciating how useful software is for designing the inside and exterior of buildings and consumer goods<br>• Developing creative concepts and ironing out the details for homes and businesses<br>• Designing, building, and modelling consumer goods like furniture, lighting fixtures, and artefacts; creating surface elements and built-in decorative features; massing, rendering, and camera animation; creating interior and exterior walkthroughs and movie files; | • Using software to create interior and exterior designs for buildings and consumer goods.<br>• Creating conceptual plans and figuring out the specifics for residential and commercial structures.<br>• Creating decorative aspects that are both built-in and on the surface.<br>• Producing unique designs for special effects.<br>• Creating, constructing, and modelling furniture, artefacts, and lighting fixtures<br>• Camera animation, rendering, and massing. |

| | | |
|---|---|---|
| | and creating customised designs for special effects. | • Making movie files and creating interior and outside walkthroughs. |
| **FRM 512 Energy Conservation in Building Design** 2 (2+1) | • Energy audits, estimation of energy requirements in buildings using energy models, development of conceptual designs for residential and commercial buildings using green strategies, calculation of energy costs, case studies on particular buildings and design assessment in terms of energy use and conservation | • Develop conceptual designs for residential and commercial buildings using green strategies after visiting energy-efficient and environmentally friendly structures. Case studies on particular structures and design assessments in terms of energy use and conservation.<br>• Estimating energy costs. |
| **FRM 513 Interior Design Business Management** 3 (2+1) | • Cost estimation for projects ensuing from project conceptualization to completion medium project<br>• Contracting and sub-contracting procedure for the estimated projects<br>• Strategic plan for presentation of project for a tender call<br>• Portfolio for job in professional firm and resume design | • Contracting and subcontracting procedures for the estimated projects.<br>• A strategic plan for the presentation of the project for a tender call.<br>• A portfolio for employment in a professional firm and resume design. |
| **FRM 514 Furniture Design and Fabrication** 3 (2+1) | • Through literary research and exposure to the market, you may learn about the many furniture types, materials they're made of, and fixation techniques. You can also develop concept ideas and schematic drawings of your favourite pieces of furniture. You can work out detailed drawings of the parts and joineries.<br>• Building small-scale models and sample boards; calculating the materials' quantities and costs; having workshop experience in furniture design and manufacturing; and caring for and maintaining furniture | • Market research on the many types of furniture materials used.<br>• Market research on the various types of furniture fixing techniques utilised.<br>• Producing designs and schematic drawings of chosen furniture. Producing drawings of furniture's parts and joineries.<br>• Created a miniature furniture model and sample board.<br>• Estimating the amount of materials needed and the cost of construction; having first-hand knowledge of the design and building of furniture; and knowing how to take care of various types of furniture. |
| **FRM 515 Colour and Lighting in Interiors** 3 (2+1) | • Studying the psychological and emotional effects of colours in interiors;<br>• Developing Munsell and Ostwald colour wheels;<br>• Developing colour schemes for problem areas in residential and non-residential interiors. | • Development of colour schemes for problem areas in residential and non-residential interiors.<br>• Researched the psychological and emotional effects of colours in interiors Analysing the influence of light on colour in simulated conditions. |
| **FRM 599 Master's Research** 20 | Master's Research | • Students undertake research in the fields of family resource management, ergonomics, and occupational hazards using real-world experience.<br>• Appropriate and affordable technologies.<br>• Waste Management and Vermi-Composting Family and Consumer Economics Interior Design and Decoration Renewable Energy Rural Housing and Sanitation. |

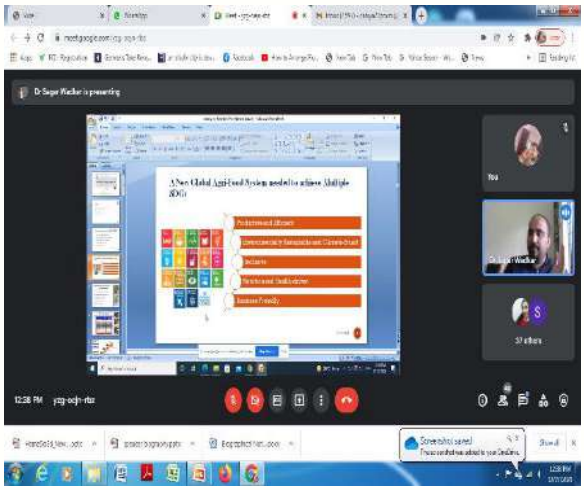
The Department of Family Resource Management offers 10 courses at Ph.D. level. Out of these 10 courses, 05 courses have practical component besides imparting theoretical knowledge, students are provided practical skills and hands-on-training as per the curriculum requirements. In addition to these courses, one course on Doctoral Research also provides hands-on-training in research.

| Course No.<br>Title<br>Credit Hours | Practical and Hands-on-training | How far students are getting desired practical and hands-on-training as per the curriculum (bullet form) |
|---|---|---|
| **FRM 602**<br>**Occupational Biomechanics**<br>2 (2+1) | • Work task analysis using ergo software, the EVTA (Empirically Validated Task Analysis) / Ergo Master technique, and studies of occupational environments and occupational stress in certain occupations<br>• Analyse the biomechanics used in work performance. Identify dangerous and stressful jobs and recommend performance improvement approaches.<br>• Using EQ (Ergonomic Quality) and IQ (Industrial Quality) when carrying out work-related tasks | • Research working conditions for various professions.<br>• Employing EQ (Ergonomic Quality) and IQ (Industrial Quality) in the performance of occupational tasks.<br>• Assess occupational stress in selected occupations.<br>• Analyse work tasks.<br>• Analyse biomechanics applied in work performance.<br>• Identify accident prone and stressful occupations.<br>• Suggest remedial performance techniques for accident prone and stressful occupations. |
| **FRM 603**<br>**Globalization and Consumer Economics**<br>3 (2+1) | • Case studies of various markets and consumer behaviour are conducted; modules for promoting consumer protection are designed; a consumer help centre is planned; and current consumer and marketing concerns are read. | • Designing modules to raise knowledge about consumer protection; planning for a consumer assistance centre; reviewing published works on current consumer and marketing challenges; doing case studies of various sorts of markets and consumer behaviour. |
| **FRM 604**<br>**Family Dynamics and Women Power**<br>3 (2+1) | • Critical review of research studies in India and in developing countries on the role analysis of women<br>• Analysis of aspects of family dynamics in stages of family life<br>• Case studies on management in families with special needs such as families with aged and handicapped people<br>• Coping strategies followed by families in stress management: through case studies<br>• Visit to stress management centres/ counselling centres: report writing.<br>• Field study on gender disparity for paid and unpaid activities | • A critique of research on the role of women conducted in India and other emerging nations.<br>• Case studies on management in families with specific requirements, such as families of the elderly and disabled.<br>• Analysis of characteristics of family dynamics in phases of family life.<br>• Coping mechanisms used by families to handle stress: through case studies.<br>• Report writing after a visit to a counselling or stress management facility.<br>• Field research on gender differences in paid and unpaid work. |
| **FRM 605**<br>**Consumer Product Design**<br>3(1+2) | • Analysing the user's preferences regarding the design of a particular consumer product; Collecting and reporting standards for a particular consumer product in accordance with safety regulations; Conceptualising and developing the design concept; | • Analysing consumer preferences for a particular product's design; collecting standards for a chosen consumer product in accordance with safety requirements; conceptualising a design concept; evolving a prototype of the product; and evolving and documenting |

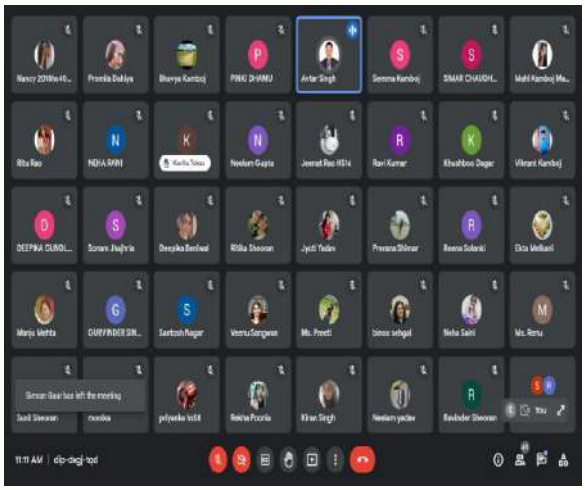
| | | |
|---|---|---|
| | • Developing the product prototype; Evaluating the product and documentation. | a product. |
| **FRM 607**<br>**Managerial Dimensions for Special Groups**<br>3(2+1) | • Inventory of external facilitators and services accessible as management catalysts<br>• Evaluation of needs and coping mechanisms used by people with special needs at various levels through case studies<br>• Creating conceptual management models; designing simulated living spaces that are comfortable; analysing service providers for those with special needs and providing a report. | • Evaluating the needs and coping mechanisms used by individuals with special needs at various levels.<br>• Delivering reports.<br>• Reviewing the available external facilitators and services as management catalysts.<br>• Creating theoretical management models.<br>• Planning simulated living spaces; Analysing service providers to ensure they can accommodate people with special needs; and presenting a report. |
| **FRM 699**<br>**Doctoral Research**<br>45 | Doctoral Research | • Students undertake research in the fields of family resource management, ergonomics, and occupational hazards using real-world experience.<br>• Appropriate and affordable technologies.<br>• Family and Consumer Economics, Interior Design and Decoration, Waste Management and Vermi-Composting, Rural Housing and Sanitation, Renewable Energy. |

**6.4.6 Supervision of Students in PG/Ph.D. Programmes:** *Number of students being supervised by Faculty in case of Masters/Ph. D Programme (as per ICAR/UGC guidelines). Mention the realistic figure number of qualified faculty in relation to the intake of students, as per the guidelines in the matter.*

**M.Sc. Programme:**



| Year | Number of PG faculty | Number of students on roll | Teacher-Student Ratio |
|---|---|---|---|
| **2018-19** | 07 | 11 | 1:1.6 |
| **2019-20** | 07 | 14 | 1:2.0 |
| **2020-21** | 07 | 13 | 1:1.8 |
| **2021-22** | 07 | 09 | 1:1.3 |
| **2022-23** | 06 | 13 | 1:2.2 |



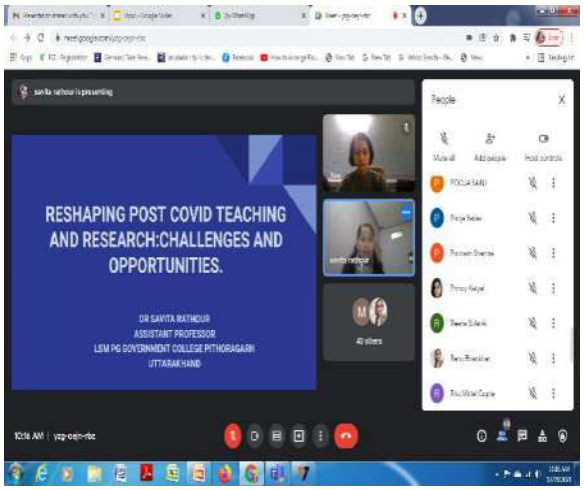
**Ph.D. Programmes:**

| Year | Number of PG faculty | Number of students on roll | Teacher-Student Ratio |
|---|---|---|---|
| **2018-19** | 07 | 11 | 1:1.5 |
| **2019-20** | 07 | 14 | 1:2.0 |
| **2020-21** | 07 | 17 | 1:2.4 |
| **2021-22** | 07 | 19 | 1:2.7 |
| **2022-23** | 06 | 16 | 1:2.6 |

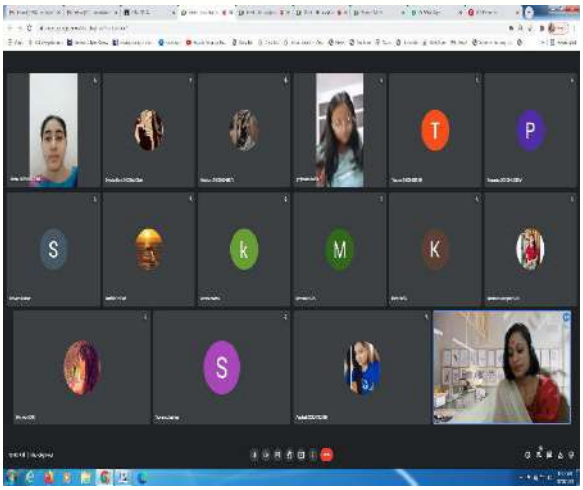
**6.4.7. Feedback of stakeholders (Students, parents, industries, employers, farmers etc.):** *Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the degree programme. What action the University has taken in last five years to address the issues raised in the feedback.*

The performance of the faculty is also reviewed on the basis or their results, feedback from the students. Students of Professional Elective course are placed in different institutions for In-plant training. Teachers visit these institutions during training period of students and conduct meetings with authorities of the institutes. Any suggestions provided by them are incorporated in the curriculum. The stakeholders' feedback on the overall performance and quality of the institutions is obtained through general meetings with parents and interaction with alumni. The teachers get feedback from the students based on their parents' observation and suggestions. These suggestions are conveyed to the HODs and controlling officers.

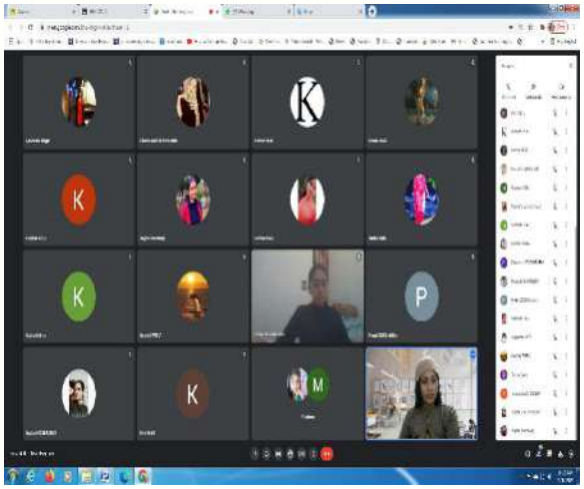
**Meeting with Stakeholders**



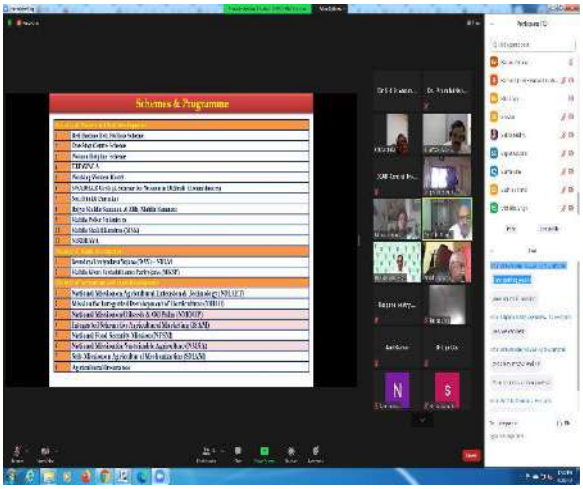
**6.4.8. Student intake and attrition in the programme for last five years:** *Year wise information on sanctioned strength, actual intake and attrition in the last five years of the Degree Programme, in the tabular form, shall be provided.*



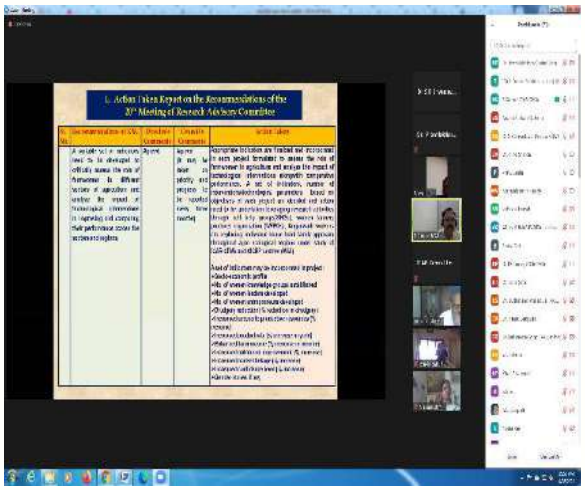
| Programme | Actual number of students admitted | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| **M.Sc.** | 2 | 4 | 6 | 5 | 5 | -- | -- | 33.3 | -- | -- |
| **Ph.D.** | 4 | 5 | 4 | 3 | 2 | -- | -- | -- | -- | -- |



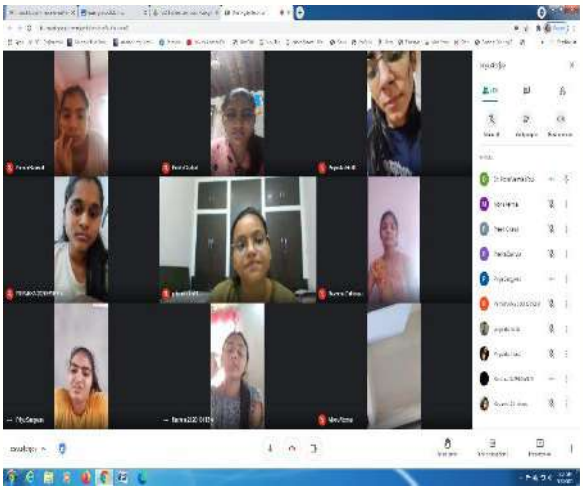
**6.4.9. ICT Application in Curricula Delivery:** *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical. Mention whether the Degree Programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned.*



The ICT is now integral part of the teaching programme. There is one Seminar Room with computer, LCD/LED projector and internet connection. One Lab is also equipped with LCD/LED projector. All faculty members have computer printer and internet connection in their offices. There is Wi-Fi facility for faculty, staff and students. This infrastructure provides opportunities for the use of



ICT in quality teaching, research and extension. Faculty members use power point presentations, YouTube, emails and CD ROM in teaching all courses at UG, PG and Ph.D. level.



**6.4.10.** The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

**6.4.11.** Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

**6.4.12.** Certificate (Applicable when SSR is submitted for Programme)

I, the Dean, **Dr. Manju Mehta,** hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the College, and degree awarding university.

**Signature of Dean of the College with Date & Seal**

## 6.4. SELF STUDY REPORT OF PG PROGRAMME

### About the Department

The Department of Human Development and Family Studies (earlier Child Development) was established in the year 1979. Since then, the Department has been working towards accomplishing its goals as per the mandate to promote academic excellence in field of Human Development and Family Studies. Master's programme in the Department was initiated in 1980 and Ph.D. programme in 1990. So far 174 M.Sc. and 82 Ph.D. students have completed degree from the Department. The Department offers sixteen courses under M.Sc. and twelve courses under Ph.D. Programme (**Annexure IX-A**).

The Department has well qualified and experienced faculty members having vast experience and international exposure. All faculty members have Doctorate degree and have excellent academic record. Dr. Meena Siwach was awarded HAU Merit Gold Medal for obtaining highest OGPA in graduation. Dr. Poonam Yadav was awarded Dr. R.N. Pal Memorial Gold Medal for best Ph.D. thesis. Dr. Poonam Malik was conferred with four Gold Medals viz. HAU Merit Gold Medal, C K Lamba Gold Medal, International Women Year Gold Medal and A L Feltcher Gold Medal for obtaining highest OGPA in graduation and All Round Best Student of the University. Dr. Poonam Malik and Dr. Poonam Yadav were awarded UGC Junior Research Fellowship during Ph.D.

The faculty of the Department has been recipient of prestigious fellowships and awards. Dr. Shanti Balda was recipient of Australian Development Cooperation Scholarship (ADCOS) for undertaking Ph.D. at Queensland University of Technology, Queensland, Brisbane, Australia (1994) and also received ICAR sponsored Best Teacher Award for I. C. College of Home Sciences, CCSHAU, Hisar during 2005-06. Dr. Praveen Kaur, Dr. Shakuntla Punia and Dr. Sudha Chhikara attended training under UNDP programme at Michigan State University, USA. Dr. Krishna Duhan received Commonwealth Academic Fellowship by Association of Commonwealth Universities (ACU), London (UK) in 2014. Dr. Anju Manocha received Chaudhary Devi Lal Outstanding All India Coordinated Research Project Team Award 2003. Dr. Chander Kala Singh received ICAR sponsored Best Teachers Award for the year 2014-15.

The faculty has successfully handled many research projects. During the period under report, three research schemes were operational in the Department viz. one AICRP scheme, one state scheme and one multidisciplinary ICAR-NASF Project in thrust areas of Human Development and Family Studies i.e developmental domains of children, development of intervention packages and implementation of intervention programme to promote development of children in different domains. Presently, research on issues related to childhood, adolescence, adulthood, old age and family relations and ecological factors are being carried out in the Department. During the period under report, faculty members and students published two books, 32 book chapters, three teaching manuals, 120 research papers and 68 abstracts. Faculty members and students attended a number of refresher courses, national and international conferences, seminars, workshops, trainings etc.

The faculty members were actively involved in extension work to extend knowledge and developed technologies among rural and urban masses, school children and ICDS functionaries through trainings/demonstrations/awareness campaigns etc. Besides this, various workshops were conducted for children, *Anganwadi* workers and parents; campaigns were organized; special days and weeks were celebrated.

**Objectives of the Department**

- To provide quality education and develop competency among students in preschool management
- To develop professionals in Human Development and Family Studies
- To conduct research in the thrust areas of Human Development and Family Studies
- To sensitize the rural masses through dissemination of appropriate technologies regarding human development for enriching their life style

**6.4.1. Brief History of the Degree Programme:** *Clearly mention in which year the degree programme was initiated along with its objective and accomplishments.*

**M.Sc. Programme:** M.Sc. Programme in the Department was initiated in the year 1990. Nomenclature of the programme was changed to Human Development and Family Studies in 1999. Entry qualification for Master's programme in HDFS is B.Sc. (Hons.) Home Science/ Community Science. Minimum duration of the programme is 2 years. Detailed information of M.Sc. students is provided in **(Annexures IX B –D)**.

**Objectives of initiating M.Sc. Programme:**

- To generate human resource in the field of Human Development and Family Studies.
- To provide academic excellence to students in the following thrust areas:
  - Life span development
  - Early childhood care and education
  - Children with developmental challenges
  - Gender issues and Family studies
  - Health related problems and social issues

**Accomplishments of M.Sc. Programme:**

- Till date, the Department of Human Development and Family Studies has produced 174 M.Sc. students. During the period under report, 39 students have completed their Master's degree and 7 M.Sc. students are on roll **(Annexure IX- B)**
- Seven M.Sc. students have cleared UGC NET and two of them (Ms. Sangeeta and Ms. Bharti) have also qualified for UGC JRF.
- Three M.Sc. students (Ms. Mehak Walia, Ms. Namrata Mamgai and Ms. Bharti) have been awarded ASRB JRF.
- Three M.Sc. students (Ms. Shourya Negi, Ms. Beulah Ravirakula and Ms. Deeksha) were awarded NTS scholarship.
- Thirteen students went for higher studies (Ph.D.) during last five years.
- 14 book chapters, 25 research papers and 6 abstracts have been published by M.Sc. students**. (Annexure IX- C)**.
- Fourteen M.Sc. students attended and participated in 13 different Seminars/Conferences/trainings etc. **(Annexure IX- D)**.

**Ph.D. Programme:** Ph.D. Programme in the Department was initiated in the year 1990. Entry qualification for Ph.D. Programme in HDFS is M.Sc. (Hons.), Human Development and Family Studies. Minimum duration of the programme is 3 years. Detailed information of Ph.D. students is provided in **(Annexures IX E –G)**.

**Objectives of initiating Ph.D. Programme:**

- To produce advanced quality human resource in the discipline of Human Development and Family Studies.
- To conduct research with emphasis in Human Development and Family Studies.
- Contribution in research especially in the thrust areas like:
  - Life span development
  - Early childhood care and education
  - Children with developmental challenges
  - Gender issues and Family studies
  - Health related problems and social issues
  - Strategies, interventions and counselling

**Accomplishments of Ph.D. Programme:**

- The Department of Human Development and Family Studies has conferred degree to 82 Ph.D. students till now. During the period under report, 20 students have completed their Ph.D. degree and 13 students are on roll (**Annexure IX - E**).
- Nine students joined as Assistant Professor.
- Ms. Shallu Rana joined as Lecturer; Ms. Kshiptimayee Patra as Junior Lecturer; Ms. Taniya as counsellor; Ms. Reetu Devi as teacher; Ms. Renu and Ms. Nigam Rani as SRF and Ms. Poonam as JRF.
- Two books, 14 book chapters, 75 research papers, 38 abstracts and 13 popular articles have been published by Ph.D. students. **(Annexure IX- F)**
- Eighteen Ph.D. students attended and participated in 26 different Seminars, Conferences and trainings etc. **(Annexure IX- G).**

**6.4.2. Faculty Strength:** *The faculty strength of the Degree Programme need to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of Research staff, extension staff, contractual faculty, guest faculty, adjunct faculty or any other arrangement being made to complete the curriculum, it should be clearly mentioned in the report.*

Two posts of Associate Professor and 11 posts of Assistant Professor and equivalent are sanctioned. There are two Professors/equivalents (promoted under CAS) and both are posted at KVKs. There is one Assistant Scientist in the Department. One Assistant Professor/equivalent is posted at KVK. One Research Associate is appointed in AICRP on Women in Agriculture, three SRFs are working under ICAR-NASF project and three Ph.D. scholars are also involved in teaching.

| S. No. | Designation | Sanctioned | In-Place | Vacant position | Faculty recommended by the ICAR |
|---|---|---|---|---|---|
| **1.** | Professor and equivalent | -- | 02 PP* | - | 01 |
| **2.** | Associate Professor and equivalent | 02 | -- | 02 | 02 |
| **3.** | Assistant Professor and equivalent | 11 (7+4*) | 02 (01+01*) | 07 (2 Promoted to Professor) | 04 |
| **4.** | Research Associate/ SRF | 05 | 04 | 01 | |
| | **Total** | **18** | **08** | **10** | **07** |

PP=Personal Promotion from Assistant Professor *Faculty posted in Extension

**Note:** All the faculty of this programme is assigned the responsibilities for the multiple programmes.

**6.4.3. Technical and Supporting Staff:** *The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

In the Department of Human Development and Family Studies, there are 10 posts sanctioned for technical and supporting staff. In position there are seven posts of technical and supporting staff out of which two persons are on contractual basis against the post of messenger and attendant.

| S. No. | Designation | Sanctioned | In Place | Vacant | Technical and supporting staff recommended by the ICAR |
|---|---|---|---|---|---|
| **1.** | Assistant/ Steno | 02 | 01 | 01 | 01 |
| **2.** | Clerk | 01 | 01 | -- | 01 |
| **3.** | Lab Assistant/ Technician/ Attendant | 05 | 04(3+01 Contractual) | 01 | 04 |
| **4.** | Messenger | 01 | 01 (contractual) | -- | 01 |
| **5.** | Teacher (Preschool) | 01 | -- | 01 | -- |
| | **Total** | **10** | **07** | **03** | **07** |

**Note:** All the staff is assigned the responsibilities for the multiple programmes.

**6.4.4. Classrooms and Laboratories:** *Mention the number of class rooms and functional laboratories available for the degree programme and justify if it is sufficient to meet the course curricula requirement. Lists major equipments, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention theory and practical batches for the Degree Programme*.

The Department has well established Preschool Laboratory with three activity rooms, one Kitchen and one Dining room. Outdoor Play Area is used by preschool children for free play and outdoor activities. There is UG Lab, PG Lab, Computer Lab, Seminar Room and Departmental Library. Hence, sufficient numbers of labs are there to meet the course curricula requirements. Seminar Room and UG Lab are equipped with LCD/LED and internet facility; Departmental Library with reference material and psychological tests.

| S. No. | Laboratories/Classrooms | Purpose |
|---|---|---|
| **1.** | Preschool Lab:<br>Activity Room 1 (Room No. 129)<br>Activity Room 2 (Room No. 128)<br>Activity Room 3 (Room No. 124) | Conducting practical classes in UG courses HDFS 102, HDFS 201, HDFS 203, HDFS 302, HDFS 303 andand hands on training of Module-III i.e. 'Skill Development in Early Childhood Education and Management', Conducting practical classes in PG courses HDFS 504, HDFS 505, HDFS 506, HDFS 507, HDFS 599, HDFS 514, HDFS 603, HDFS 604 and HDFS 699. |
| **2.** | Kitchen (Room No. 119) | Storing, cooking and reheating food for preschool children. |
| **3.** | Dining Room (Room No. 117) | Serving food to preschool children. |
| **4.** | UG Lab I<br>(Lab No. 100) | Conducting practical classes of HDFS 102, HDFS 103, HDFS 201, HDFS 202, HDFS 301, HDFS 302, HDFS 303. |
| **5.** | UG Lab II (Room No. 114) | Conducting practical classes of UG courses. |
| **6.** | PG Lab (Lab No. 130) | Conducting M. Sc. practical classes of HDFS 502, HDFS 503, HDFS 507, HDFS 508, HDFS 509, HDFS 510, HDFS 511, HDFS 512. |

| | | |
|---|---|---|
| | | Used for conducting Ph.D. practical classes of HDFS 601, HDFS 602, HDFS 604, HDFS 605, HDFS 607 and HDFS 608. |
| **7.** | Computer Lab (Lab No. 106) | For use of M.Sc. and Ph.D. students. |
| **Other Instructional Units being utilized for the Award of Degree Programme** | | |
| **8.** | Seminar Room<br>(Room No.108) | Departmental seminars<br>Conducting PG classes<br>Presentation of assignments by PG students |
| **9.** | Departmental Library<br>(Room No.107) | Reference material, Journals, Theses etc. are referred by PG students for academic and research work. |
| **10.** | Outdoor Play Area | Scientifically planned and organized outdoor activities for preschool children. |
| **11.** | Teacher's Office Rooms | Equipped with computers, web cameras and internet facility for online teaching whenever required. |

## List of Equipment/ Facilities at present available in the Department

| S. No. | Lab/Location | Equipments/ Facilities |
|---|---|---|
| **1.** | Preschool Lab:<br>Activity Room 1 (Room No. 129)<br>Activity Room 2 (Room No. 128)<br>Activity Room 3 (Room No. 124)<br>Kitchen (Room No. 119) | LED TV with music System, Smart TV (one), Mini Projector, Sony speaker, Air conditioner, CCTV camera, Refrigerator, Modular kitchen with electric chimney, Cooking range, Microwave, Water purifier, Water dispenser, Refrigerators and Induction stove, Washing Machine and Geyser, Equipment for Physical-socio-emotional developments, Anthropometric equipment, Musical instruments, Gym equipment, Outdoor play equipment. |
| **2.** | UG Lab I (Room No. 100) | LCD/LED projector, CCTV cameras. |
| **3.** | UG Lab II (Room No. 114) | Inverter, table, chairs |
| **4.** | PG Lab (Lab No. 130) | Psychological Tests and Intervention Programmes |
| **5.** | Computer Lab (Lab No. 106) | Computers (Eighteen), Printers |
| **6.** | Seminar Room (Room No. 108) | Multi-media with Computer and Sound System, AC (02), CCTV camera, Big table (eight) and 30 chairs |

## Theory and practical batches

- Seats for admission in M.Sc. range from 3-10. Some courses are offered as minor and supporting courses for students of other departments. There is only one batch for theory and practical classes in all the courses with an average of 4-20 students.
- At Ph.D. level there are 2-5 seats. Hence, there is only one batch for theory and practical classes in all the courses for Ph.D.

- **6.4.5. Conduct of Practical and Hands-on-Training:** *It is important to have a sound grasp of the theory that underlies any professional degree. But there are some skills that can only be learned through hands-on -practice. It is important that much of the learning material in any given course should be provided in a way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hands-on-training as per the curriculum and meeting above mentioned requirements.*

The Department of Human Development and Family Studies offers 16 courses at Master's level. Out of these 16 courses, 13 courses provide practical skills and hands-on training. Besides imparting theoretical knowledge, students are provided practical skills and hands-on-training as per the curriculum requirements. In addition to these courses, one course on Master's Research also provides hands-on-training in research.

| Course No.<br>Title<br>Credit Hours | Practical and Hands-on-training | How far students are getting desired practical and hands-on-training as per the curriculum |
|---|---|---|
| **HDFS 502**<br>**Advances in Life Span Development**<br>3 **(**2+1**)** | • Study of physical, motor, social, emotional, intellectual, language, moral and personality development at different ages using standard measurement tools/instruments<br>• Writing interpretative reports for parents, teachers and referral services | • The students learn to assess physical, motor, social, emotional, intellectual, language, moral and personality development at different ages using appropriate standard measurement tools like Gomez classification, Vineland Adaptive Behaviour Scale, Stanford-Binet Intelligence Scale, Reynell Scales, Heinz dilemma, Big Five Personality Trait Inventory etc.<br>• Interpret test results<br>• Prepare analytic report |
| **HDFS 503**<br>**Gender Issues in Human Development and Family Relations**<br>3 **(**2+1**)** | • Gender analysis in mass media content, books, television and films.<br>• Interviewing children and parents to study gender socialization practices.<br>• Administering gender role orientation scale to adolescents /women and interpreting the results<br>• Case study of three generation families to identify the differences in the gender orientation roles and responsibilities<br>• Case studies for gender role performance | • Collect and analyse content related to portrayal of gender in mass media like newspapers, internet, radio, books, television and films etc.<br>• Interview children and parents using well-structured questions to study gender socialization practices and prepare reports<br>• Use gender role orientation scale with among adolescents and women and prepare reports<br>• Carry out case study of three generation families to identify the differences in the gender orientation roles and responsibilities<br>• Carry out case studies for gender role performance |
| **HDFS 504**<br>**Early Childhood Education and Organization**<br>3 **(**2+1**)** | • Capacity building as administrators, planning ECCE programmes including infrastructural facilities and budget proposals<br>• Evaluating regular teachers and student teacher's performance<br>• Preparing plans for mid-day meal programmes<br>• Organizing health check-ups<br>• Developing and implementing theme-based projects for children (e.g. | • Develop pertinent skills for planning and administering ECCE programmes<br>• Evaluate performance of teachers and students<br>• Prepare plans for mid-day meal programme<br>• Organize health check-ups for preschool children<br>• Develop and implement theme-based |

| | | |
|---|---|---|
| | science concepts, numerical concepts) in preschool<br>• Conducting interaction programmes with teachers and parents (PTMs)<br>• Developing literature for parents, preparing and using visual aids | projects for preschool children<br>• Plan and conduct PTMs<br>• Develop literature and AV aids for parents |
| **HDFS 505 Innovative Programmes in Early Childhood Care and Education** 3 **(**2+1**)** | • Planning, execution and evaluation of innovative programmes for intellectual, social, emotional and motor growth of young children | • Plan, execute and evaluate developmental programme for children |
| **HDFS 506 Methods and Techniques of Assessment in Human Development** 3 **(**2+1**)** | • Screening and diagnostic assessment for various developments through different tools and techniques, physical – anthropometric. measurement, psychomotor; mental development- Bayley's scales of infant development<br>• Cognitive and language -Wechsler's scale of intelligence<br>• Achievement, interest and aptitude scales<br>• Personality and behaviour<br>• Emotional maturity and temperament<br>• Parent child relations, child -rearing practices, parenting styles<br>• Interpretation of assessment and reporting to parents and teachers | • Assess physical, psycho-motor and mental development of children<br>• Assess cognitive and language development of children<br>• Assess achievement, interest and aptitude of children<br>• Assess socio-emotional maturity of children<br>• Assess temperament of children<br>• Explore parent child relations and child -rearing practices Assess personality development of children and adolescents |
| **HDFS 507 Guidance and Counseling** 3 **(**1+2**)** | • Research reviews on various aspects of guidance and counselling<br>• Prepare an observation checklist to analyze guidance and counselling centres -organizational structure, objectives, types of services provided, facilities available etc.<br>• Prepare an observation checklist to analyze competencies of the personnel and feed back of the clients towards the services<br>• Compile successful case studies of the guidance and counselling centres<br>• Prepare simulation exercises of guidance and counselling to children and parents<br>• Critical evaluation of films/TV/video shows related to the course | • Collect and compile research reviews on various aspects of guidance and counselling<br>• Critical evaluation of guidance and counselling centres<br>• Compile successful case studies of the guidance and counselling centres<br>• Carry out simulation exercises of guidance and counselling to children and parents<br>• Critically evaluate films and TV shows related to the course |
| **HDFS 508 Adolescent Development and Challenges** 3 **(**2+1**)** | • Case studies, interviewing early and late adolescents on issues – problems, pubertal changes, friendships, career, aspirations, self and social awareness, political awareness, mass media preferences<br>• Depiction of adolescents in mass media<br>• Content analysis of media- films, television and literature | • Develop questionnaire and conduct surveys on various aspects of adolescent life<br>• Conduct case studies of adolescents and present reports<br>• Critically analyze depiction of adolescent in mass media<br>• Analyse media content (films, television and literature) for its impact on adolescents |

| | | |
|---|---|---|
| **HDFS 509 Gerontology** 3 **(**2+1**)** | • Review of study methods in gerontology<br>• Identification of focus areas on aging<br>• Developing a tool on selected topics on aging, field testing and appraisal<br>• Visit to institutions for aged and critical evaluation<br>• Project proposal for developmental programmes for aged | • Identify focus areas on aging<br>• Develop tools on aging<br>• Critically evaluate institutions for aged<br>• Develop proposal for developmental programmes for aged |
| **HDFS 510 Parent and Community Education** 3 **(**1+2**)** | • Conducting parent teacher meetings in *anganwadi* and schools of urban, rural and slum areas<br>• Assessing knowledge of youth and parents regarding various aspects of family and community life<br>• Starting short-term action oriented programmes for parent education<br>• Preparing educational material for parent education and community participation | • Conduct parent teacher meetings<br>• Assess knowledge of youth and parents regarding various aspects of family and community life<br>• Prepare educational material for parent education and community participation<br>• Develop and implement action oriented intervention programmes for parent education. |
| **HDFS 511 Appraisal of Child and Family Welfare Institutions** 2 **(**1+1**)** | • Visits to study child welfare institutions and evaluation of strategies for enhancing managerial skills of personnel and generation of resources<br>• Implementing developed plan of action and its evaluation, report writing;<br>• Observational visits and evaluation of family welfare institutions and organizations<br>• Proposals for developing welfare projects for health, nutrition, education and rehabilitation of the disabled families<br>• Implementation strategies of projects to test their efficacy<br>• Monitoring and evaluation of services for family welfare, criteria and impact assessment | • Evaluate child welfare institutions and organizations<br>• Develop and implement welfare projects for rehabilitation of the disabled families<br>• Evaluate intervention programmes for child and family welfare<br>• Conduct monitoring, evaluation and impact of services for family welfare |
| **HDFS 512 Development of Learning Material and Children's Literature** 3 **(**1+2**)** | • Visit to play centres, toy manufacturing units, shops, fairs etc.<br>• Preparation of teaching materials for different developmental domains and field testing<br>• Survey of children's literature<br>• Writing children's poems, stories, puppet shows, cartoon scripts, picture books<br>• Developing audio-video and computer aided materials for different domains | • Exposure to teaching material preparation process through visits to play centres, toy manufacturing units, shops, fairs etc.<br>• Prepare and test suitable teaching materials for different developmental domains<br>• Evaluate current children's literature<br>• Write children's poems, stories, puppet shows, cartoon scripts, picture books<br>• Develop audio-video and computer aided materials for different domains |
| **HDFS 513 Family Therapy** 3 **(**2+1**)** | • Observational visits and screening families in need of therapy<br>• Case studies of different areas of marriage and family therapy<br>• Case studies of different methods and techniques of marriage and family therapy | • Identify families in need of therapy<br>• Identify different areas of marriage and family therapy<br>• Use different methods and techniques of marriage and family therapy |

| | | |
|---|---|---|
| **HDFS 514**<br>**Children with Developmental Challenges**<br>3 **(**2+1**)** | • Study of etiology, characteristics and diagnosis of children with different disabilities<br>• Developing and conducting individual home based intervention for children with special needs<br>• Developing and conducting center-based intervention in schools with special children<br>• Conducting case studies of special children | • Knowledge of the etiology, characteristics and diagnosis of children with different disabilities<br>• Develop and conduct personalized home based intervention programme for children with special needs<br>• Develop and conduct center-based intervention in schools with special children<br>• Conduct case studies of special children: mentally retarded, gifted, visually impaired, speech impaired and orthopaedically handicapped |

## Conduct of Practical and Hands-on-Training in Ph.D. Human Development and Family Studies

The Department of Human Development and Family Studies offers 12 courses at Ph.D. level. Out of these 12 courses, 06 courses provide practical skills and hands-on training. Besides imparting theoretical knowledge, students are provided practical skills and hands-on-training as per the curriculum requirements. In addition to these courses, one course on Ph.D. research also provides hands-on-training in research.

| Course No.<br>Credit Hours | Practical and Hands-on-training | How far students are getting desired practical and hands-on-training as per the curriculum |
|---|---|---|
| **HDFS 601**<br>**Adulthood Dynamics**<br>3 **(**2+1**)** | • Case studies on roles and family relations, changes during adulthood, menopausal changes<br>• Development of case studies on adults with special focus on different ecological settings, intergenerational perspectives<br>• Visit to recreational centers, health clubs and other institutes working for adults<br>• Critical evaluation of portrayal of adulthood in media and film shows<br>• Appraisal of community on issues and policies related to adulthood<br>• Presentation of reports on case studies | • Practical understanding of roles and family relations, changes during adulthood and menopausal changes<br>• Develop interview schedule and conduct case studies on adults with special focus on different ecological settings and intergenerational perspectives<br>• Critically evaluate recreational centers, health clubs and other institutes working for adults<br>• Critically evaluate the portrayal of adulthood in media and film shows<br>• Appraise the community on issues and policies related to adulthood<br>• Present reports on case studies |
| **HDFS 602**<br>**Advances in Family Studies**<br>3 **(**2+1**)** | • Appraisal of tools in family area (at least ten tools)<br>• Critical evaluation of family welfare programmes towards family welfare<br>• Developing research proposal on current issues relating to family<br>• Survey of family patterns in rural, slum and urban areas<br>• Case studies of different areas of marriage and family therapy using different methods and techniques | • Appraise tools for family studies<br>• Critically evaluate existing family welfare programmes<br>• Prepare research proposals on current issues relating to family<br>• Identify rural, slum and urban family patterns<br>• Identify and explore different marriage systems and family therapy using different methods and techniques |

| | | |
|---|---|---|
| **HDFS 604 Principles and Strategies in Developmental Intervention** 3 **(**2+1**)** | • Identification of groups for intervention and assessment<br>• Selection of groups and conducting need assessment<br>• Development of intervention package and evaluation of available intervention packages<br>• Conducting intervention for the selected groups with developed intervention packages<br>• Field testing of developed intervention packages | • Identify groups in need for intervention<br>• Select vulnerable groups and conduct need assessment for intervention<br>• Develop and implement intervention package to groups<br>• Field test developed intervention packages for groups<br>• Implement and evaluate available intervention packages on selected groups |
| **HDFS 605 Women Studies** 2 **(**1+1**)** | • Observational visits to women's organizations<br>• Planning and organising awareness campaigns on vital women's issues<br>• Portrayal of women in mass media-newspapers, magazines, television, movies<br>• Study of practices in various castes, communities and religions and status of women<br>• Study of attitude towards women's education and employment<br>• Situational analysis of gender equality and equity | • Observe different organizations working for welfare of women and prepare report<br>• Plan and organize awareness campaigns on women's issues<br>• Critically evaluate portrayal of women in mass media<br>• Conduct study on status of women and practices in various castes, communities and religions<br>• Conduct study on attitude towards women's education and employment<br>• Conduct situational analysis of gender equality and equity |
| **HDFS 607 Qualitative Research Methods** 3 **(**2+1**)** | • Critiquing research papers using qualitative methods<br>• Extensive review of the empirical research work using qualitative method<br>• Identifying researchable issues that can be researched for qualitative methods<br>• Conducting in-depth interviews, focused group interviews<br>• Analysis of data, interpretation and reporting | • Critiquing research papers using qualitative methods<br>• Conduct extensive review of the empirical research work using qualitative method<br>• Identify researchable issues for qualitative methods related to family studies<br>• Prepare interview schedule and conduct in-depth and focused group interviews<br>• Analyse data, interpret results and write reports |
| **HDFS 608 Programme Development for Vulnerable Families** 3 **(**2+1**)** | • Identifying vulnerable population in rural and urban areas<br>• Developing programmes for their rehabilitation; execution and evaluation of programmes<br>• Learning to use selected PRA techniques – focus group discussions/interviews, transit walk, social mapping, time line, executing the use of each technique and appraisal | • Identify vulnerable population in rural and urban areas<br>• Develop, execute and evaluate programmes for rehabilitation of vulnerable population<br>• Use PRA techniques in rural and urban areas<br>• Develop concept note and pre-project proposal<br>• Plan, develop and implement a project<br>• Develop monitoring and evaluating |

| | | |
|---|---|---|
| | • Developing a concept note and a pre-project proposal and appraisal.<br>• Developing a project – planning and implementing<br>• Proposing monitoring and evaluating strategies using appropriate techniques<br>• Implementing management techniques- Programme Evaluation and Review Technique (PERT), Critical Path Method (CPM), Line of Balance (LOB), and Gantt Chart, SWOT analysis<br>• Dissemination, publishing of success stories, popular articles | strategies<br>• Implement various management techniques<br>• Publish success stories and popular articles |

**6.4.6. Supervision of students in PG/Ph.D. programmes:** *Number of students being supervised by Faculty in case of Masters/Ph.D. Programme (as per ICAR/UGC guidelines). Mention the realistic figure number of qualified faculty in relation to the intake of students, as per the guidelines in the matter.*

There are 3-6 seats in Master's and Ph.D. programmes. Hence, the teacher-student ratio is good.

**Supervision of M.Sc. students in the Department**

| Year | Number of PG faculty | Number of students on roll | Teacher- Student-Ratio |
|---|---|---|---|
| **2018-19** | 06 | 19 | 1:3.1 |
| **2019-20** | 08 | 15 | 1:1.8 |
| **2020-21** | 05 | 23 | 1:4.6 |
| **2021-22** | 05 | 17 | 1:3.4 |
| **2022-23** | 05 | 08 | 1:1.6 |

**Supervision of Ph.D. students in the Department**

| Year | Number of PG faculty | Number of students on roll | Teacher - Student Ratio |
|---|---|---|---|
| **2018-19** | 06 | 14 | 1:2.3 |
| **2019-20** | 06 | 13 | 1:2.1 |
| **2020-21** | 02 | 12 | 1:6.0 |
| **2021-22** | 05 | 15 | 1:3.0 |
| **2022-23** | 05 | 15 | 1:3.0 |

**6.4.7. Feedback of stakeholders (Students, parents, industries, employers, farmers etc.):** *Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the degree programme. What action the University has taken in last five years to address the issues raised in the feedback?*

Feedback from the students about the conduction of theory and practical classes are obtained. Students of Professional Elective course are placed in different institutions for In-plant training. Teachers visit these institutions during training period of students and conduct meetings with

authorities of the institutes. Any suggestions provided by them are incorporated in the curriculum. The stakeholders' feedback on the overall performance and quality of the institutions is obtained through general meetings with parents and interaction with alumni. The teachers get feedback from the students based on their parents' observation and suggestions. These suggestions are considered by the HODs and controlling officers.

**6.4.8. Student intake and attrition in the programme for last five years:** *Year wise information on sanctioned strength, actual intake and attrition in the last five years of the Degree Programme, in the tabular form, shall be provided.*

| Programme | Actual No. of student admitted in last five years | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| **M.Sc.** | 7 | 8 | 10 | 4 | 3 | -- | -- | -- | -- | -- |
| **Ph.D.** | 3 | 4 | 5 | 5 | 2 | -- | -- | -- | -- | -- |

**6.4.9. ICT Application in Curricula Delivery:** *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical. Mention whether the Degree Programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned.*

ICT is regularly used by the faculty members of the Department of Human Development and Family Studies in theory and practical classes. The Department has well equipped Seminar Room with computer, LCD/LED projector and internet connection. One UG Lab is also equipped with LCD/LED projector. All faculty members have computer, printer and high speed internet connection in their offices. Wi-Fi facility is also available for faculty, staff and students. This infrastructure provides opportunities for the use of ICT in quality teaching, research and extension. The faculty members use power point presentations, YouTube, emails, goggle classroom, google meet, Microsoft teams, zoom etc. as per requirement in teaching all M.Sc. and Ph.D. courses.

**6.4.10.** The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and Ph.D. Degree Programmes, separately, and to be presented College-wise.

**6.4.11.** Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

**6.4.12.** Certificate (Applicable when SSR is submitted for Programme)

I, the Dean, **Dr. Manju Mehta,** hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the College, and degree awarding university.

**Signature of Dean of the College with Date & Seal**

I.C.COLLEGE OF HOME SCIENCES

## 6.4. SELF STUDY REPORT OF PG PROGRAMME

### About the Department

The Department of Clothing and Textiles was established in the year 1977 and came into existence as an independent Department in August, 1990. The Department was renamed as Textile and Apparel Designing in the year 2010 and subsequently changed to Apparel and Textile Science in 2023 as per BSMA recommendations. Prof. Saroj S. Jeet Singh and Prof. Parveen Punia of the Department headed the College as Dean from May, 2010 to March, 2014 and August, 2014 to January, 2018 respectively. Dr. Neelam Pruthi received Chaudhary Devi Lal Outstanding All India Coordinated Research Project Team Award 2003 for outstanding contribution in the field of Home Science. Dr. Saroj S. Jeet Singh received ICAR sponsored Best Teacher Award for the year 2003-04 and also attended training under AHRD Programme at Michigan State University, USA. Faculty of the Department are members of Board of Studies and selection committees in different Universities and also member of different scientific societies.

The Department was instituted with the vision to achieve the following objectives:

- Promotion of academic excellence in the field of apparel and textiles among students
- Value addition, quality improvement and development of performance textiles
- Dissemination of developed technologies to the masses for up gradation of skills and socio-economic status

The Department has highly trained and talented faculty with Ph.D. consisting of two Professors/equivalent, seven Assistant Professors/equivalent and two Instructors. All faculty members are actively involved in research and so far the Department has undertaken 12 research projects funded by ICAR, DST, UGC and State Government. At present the Department has two ongoing research schemes and one research project completed in 2020 and another in 2023. During the period under report i.e. 2018-23, three books, seven book chapters, 52 research papers, 46 research papers abstracted/presented and 5 manual/design catalogues have been published by the faculty. All the faculty members also attended number of seminars/conferences/trainings etc. The Department significantly contributes in organizing and imparting trainings for field functionaries and rural women from different villages of the state to acquaint them about the technologies developed by the Department on different income generating activities like apparel designing and construction, fabric surface enrichment, diversified value added products etc.

The Department offers 14 M.Sc. and 11 Ph.D. courses **(Annexure X-A)**. The Department is offering eight core courses of B.Sc. (Hons.) Community Science along with Module-V to the final year undergraduate students. In the VIII semester of degree programme, the students undergo three months In-plant training in different garment industries, export houses, design studios and textile industries at Delhi, Chandigarh, Ludhiana, Jaipur, Surat, Faridabad, Gurugram, Panipat, Bhiwani etc. One student also completed her In-plant training at Czech University of Life Science, Prague, Czech. An Experiential Learning Unit on Product Design: Digital Embroidered Home Furnishings is also functional in the Department since March, 2013. The Department organized two ICAR sponsored Short Courses on 'Enrichment of Fabric for Entrepreneurial Development' and 'Entrepreneurial Development - through Skill Up-gradation in Apparel Designing Techniques' in 2001 and 2013, respectively.

Two MOUs have been initiated by the Department with TIT&S, Bhiwani, Haryana and ICAR-CSWRI, Avikanagar, Rajasthan which provide facilities to PG students of the Department to utilize lab and library facilities for collaborative research and teaching work. The Department also runs 'One Year Certificate Course in Home Industry: Garment Construction and Hosiery' for the needy rural

women. Women from varied backgrounds are benefitted by the efforts undertaken in the course to enhance their technical skills. This course has been instrumental in boosting their confidence and developing their self-esteem as a result of which some of them have started their own enterprises to improve socio-economic conditions of their families.

Through the researchers conducted in the Department, new technologies are being generated and disseminated to accomplish the mandate of the Department. Major thrust areas in which the Department is excelling are:

- Utilization of plants for textile processes
- Performance textiles for various end uses
- Diversified product development
- Computer aided apparel and textile designing
- Innovation in traditional crafts, textiles and costumes for contemporary applications
- Designing and development of functional and protective clothing
- Value addition/quality improvement of underutilized textiles for environment sustainability
- Development of paper patterns for apparel and household articles

**6.4.1 Brief History of the Degree Programme:** *Clearly mention in which year the degree programme was initiated along with its objective and accomplishments.*

**M.Sc. Programme:** The Master's programme in Clothing and Textile, presently Textile and Apparel Designing was initiated in the year 1988. Up to now 134 students have completed their master degree from the Department.

**Objectives of initiating M.Sc. Programme:**

- To provide academic excellence to students in various aspects of Textile and Apparel Designing
- To inculcate knowledge and skill among students for designing and development of textile and apparel products
- To generate human resources for job market and entrepreneurship in the field of Textile and Apparel Designing

**Accomplishments of M.Sc. Programme (2018-23):**

- During the period under report, 19 students completed their M.Sc. degree and at present 12 students are enrolled in the PG programme **(Annexure X - B)**.
- Ms. Neeta Kumari and Ms. Nameeta joined as Assistant Professor, Ms. Kiran Sapra, Ms. Diksha Rani and Ms. Jyoti Sharma started their own enterprises.
- Ms. Harmandeep Kaur Toor and Ms. Lata Samant received JRF, ICAR.
- Ms. Kumari Medha, Ms. Kiranjot Kaur, Ms. Vemagiri Divya Krupa and Ms. Namrata Kushwah received NTS Fellowship.
- Eight students got CCSHAU Merit Fellowship.
- Ms. Shalini Rukhaya received University Level Gold Medal for obtaining Highest OGPA in M.Sc. in I.C. College of Home Sciences (2020-21).
- Four students cleared UGC NET.
- Two students got best paper/ poster awards
- 25 research papers, 23 abstracts, one Book chapter and three design catalogues have been published out of students' research **(Annexure X - C)**.
- Twelve students attended and presented papers in elven different International and National Seminars/Conferences/Workshops **(Annexure X - D)**.

**Ph.D. Programme:** The Ph.D. in Clothing and Textiles, presently Textile and Apparel Designing was initiated in the year 2001. Till date 32 Ph.D. Scholars completed their doctorate degree from the Department.

**Objectives of initiating Ph.D. Programme:**

- To develop understanding about recent advances in Textile and Apparel Designing
- To generate specialized human resources for teaching, research and extension in the field of Textile and Apparel Designing
- To provide academic excellence to the students in following thrust areas:
    - Utilization of plants for textile processes
    - Value addition/ quality improvement of underutilized textiles for environmental sustainability
    - Theme based products designing for different end uses
    - Development of performance textiles using wet processes
    - Innovations in traditional crafts, textiles and costumes for contemporary applications
    - Development of E-media on developed technologies for income generation
    - Designing and development of functional and protective clothing
    - Designing of apparel and household articles and development of paper patterns
    - Product designing and development through computer technology

**Accomplishments of Ph.D. Programme (2018-23):**

- During the period under report, 11 students completed their Ph.D. degree and at present five Ph.D. students are on roll **(Annexure X - E)**.
- During last five years 12 students have joined as Assistant Professor, one student as Instructor, Dress Designing, one as SRF and one as Pre Sales Associate.
- Four students, one each got UGC JRF, UGC SRF, UGC OBC fellowship and UGC SRF (NFSC)
- Ten students were recipient of CCSHAU Merit Fellowship.
- Three students got best paper/ poster awards.
- Eight students cleared UGC NET.
- From students' research work 38 research papers, 48 abstracts and three design catalogues have been published **(Annexure X - F)**.
- All the Ph.D. students of the Department have attended and presented papers in Twenty three International and National Seminars/Conferences/Workshops **(Annexure X - G)**.

**6.4.2 Faculty Strength:** *The faculty strength of the Degree Programme need to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of Research staff, extension staff, contractual faculty, guest faculty, adjunct faculty or any other arrangement being made to complete the curriculum, it should be clearly mentioned in the report.*

There are two sanctioned posts of Associate Professor/equivalent, thirteen posts of Assistant Professor/equivalent and two posts of instructor (Textile Designing and Dress Designing) in the Department. At present two Professors/equivalent (promoted under CAS), seven Assistant Professors/equivalent and two Instructors are working in the Department. Out of these, one Professor/equivalent and two Assistant Professors/equivalent are posted at KVKs. During the period under report, one Professor retired in April, 2019 and one Professor Emeritus retired in April, 2022.

| S. No. | Designation | Sanctioned | In-Place | Vacant position | Faculty recommended by the ICAR |
|---|---|---|---|---|---|
| 1. | Professor and equivalent | -- | 02 PP (1+1* ) | -- | 01 |
| 2. | Associate Professor and equivalent | 02 | -- | 02 | 02 |
| 3. | Assistant Professor and equivalent | 14 (9+5*) | 07 (5+2*) | 05 (2+2*) (2 Promoted to Professor) | 04 |
| 4. | Instructor, Textile Designing | 01 | 01 | -- | |
| 5. | Instructor, Dress Designing | 01 | 01 | -- | |
| | **Total** | **18** | **11** | **07** | **07** |

PP= Personal Promotion from Assistant Professor; *Faculty Posted in Extension

**Note:** All the faculty of Department is assigned the responsibilities for multiple programmes.

**6.4.3. Technical and Supporting Staff:** *The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

| S. No. | Designation | Sanctioned | In- place | Vacant position | Technical and supporting staff recommended by the ICAR |
|---|---|---|---|---|---|
| 1. | Assistant/ Steno | 02 | 02 (1+1*) | -- | 01 |
| 2. | Lab Asstt. / Technical Asstt. | 05 | 05 (1+4*) | -- | 04 |
| 3. | Messenger | 01 | 01* | -- | 01 |
| | **Total** | **08** | **08** | **--** | **07** |

* Contractual Staff/ Apprentice

**Note:** All the technical and supporting staff has been assigned the responsibilities for the multiple programmes.

**6.4.4. Classrooms and Laboratories:** *Mention the number of class rooms and functional laboratories available for the degree programme and justify if it is sufficient to meet the course curricula requirement. List major equipments, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention theory and practical batches for the Degree Programme.*

**List of Functional Laboratories**

The Department has nine well established laboratories for conducting the practical classes of UG, PG and Ph.D. programmes. There is one Seminar Room with LCD/LED projector and internet facility and PG Resource Room. Hence, sufficient numbers of labs are there to meet the course curricula requirements.

| S. No. | Name of Lab/Class Room | Purpose |
|---|---|---|
| **1.** | Dyeing and Printing Lab (Lab No. 14) | Used for conducting practical classes related to dyeing and printing courses of UG and PG classes. |
| **2.** | Textile Science Lab (Lab No. 16) | Used for conducting practical classes related to textile science of both UG and PG students. |

| | | |
|---|---|---|
| **3.** | Weaving and Hosiery Lab (Lab No. 18) | Used for conducting practical classes of Fundamentals of Fabric Construction of UG students and Advanced Textile Designing and Knitting Technology of PG students. |
| **4.** | Apparel Construction Lab-II (Lab No. 21) | Used for conducting apparel designing and construction classes of UG students. |
| **5.** | Apparel Construction Lab -I (Lab No. 23) | Used for conducting apparel construction classes of UG and PG students. |
| **6.** | Experiential Learning Lab (Lab No. 24) | Used for conducting practical classes and hands on training on computerized digital embroidery machines for UG and PG classes. |
| **7.** | Textile Testing Lab (Lab No. 26) | Used for teaching PG students and conducting research work using various textile testing equipment's. |
| **8.** | CAD Lab (Lab No. 27) | Used by UG and PG students for practical classes of Computer Aided Designing courses with the help of different textile and apparel softwares. |
| **9.** | Apparel Construction Lab-III (Lab No. 29) | Used for garment construction classes of UG and One Year Certificate Course. |
| **Other Instructional Units being utilized for the Award of Degree Programme** | | |
| **10.** | PG Resource Room (Room No. 10) | Reference material, journals, thesis etc. are referred by PG students for preparation of assignments, synopsis and thesis work. |
| **11.** | Seminar Room (Room No. 32) | Used for presentation of assignments and delivering seminars by PG students and also used for conducting PG classes. |
| **12.** | Teacher's Office Rooms | Equipped with computers, web cameras and internet facility for online teaching whenever required. |

## List of Major Equipments and Facilities

All equipments available in different labs of the Department are being utilized for conducting practical classes, hands-on-training, demonstrations etc. for effective teaching and learning. Major equipments/ facilities in the Department and their location are as follows:

| S. No. | Name of Lab (Location) | Equipments/ Facilities |
|---|---|---|
| **1.** | Dyeing and Printing Lab (Lab No. 14) | Flat Bed Fusing Machine, Computerized Colour Matching System, Infra-Red Heater, Steaming Chamber, Padding Mangle-02, Colour Matching Cabinet, Water Bath-02, pH meter, Electronic Balance, Hot Air Oven, Lab Shaking Machine, Nozzle Printing Unit, Printing Tables-03, Chairs-30 |
| **2.** | Textile Science Lab (Lab No. 16) | Laundrometer, Stain Removal Machine, Washing Machine-02 (Semi-Automatic and Fully Automatic), Microscopes-05, pH Meter, Weighing Balance, Ironing board-06, Sleeve Ironing Board-05, Steam Iron-02, Multi parameters Pocket Tester, Commercial Mixer Grinder, Geyser, Washer with Dryer, Electronic Weighing Scale, µ-Controller Based Photoelectric Calorimeter, Double Distillation Water Unit, Digital Magnetic Hot Plate, Refrigerator, Waterbath, Hot Air Oven |
| **3.** | Weaving and Hosiery Lab (Lab No. 18) | Table looms- 05, Jacquard loom, Different type of handlooms- 05, Warping unit, Flat Bed Knitting Machines-11, Hand Circular Knitting Machine |
| **4.** | Apparel Construction Lab-II (Lab No.21) | Foot Sewing Machines-30, Cutting Tables-02, Demonstration Table, Ironing Board- 02, Steam Iron- 02, Ironing Board- 02, |

| | | |
|---|---|---|
| **5.** | Apparel Construction Lab -I (Lab No.23) | Industrial Sewing machines-16 Operated Sewing Machines-05, Chain Stitching Machine, Hosiery Sewing Machine, Picoting Machine, Feed Split Needle Bar Machine, Elastic Stitching Machine, Sequins Embroidery Machine, Embroidery Machine, Lace Braiding Machine, Blind Hemming Machine, , Ironing Board-02, Steam Iron-02, Dress Forms-13, Embroidery Machine-03, gSingle Needle Straight Stitch Machine-02, Multipurpose Automatic Zig-Zag Machine-02, Cutting Tables Big-02, Cutting Tables-07, Students Chair-20, Demonstration Table |
| **6.** | Experiential Learning Lab (Lab No. 24) | Single Head Embroidery Machine (10 needles)-02, Computerized Single Head Single Needle Embroidery Machine-07, Computerized Sewing Machine with Accessories-08, Industrial Sewing Machine -04, Multi-layer Cutter, Round knife, Five Thread Over Lock Machine, Fusing Machine, Pattern Layout and Cutting Machine, Cutting Table Big-02, Lab Stool-20, Embroidery Machine, Digital Camera, Computer- 06, Colour Design Jet |
| **7.** | Textile Testing Lab (Lab No. 26) | Tensile Strength Tester-02, Thickness Gauge, Per-spirometer, Crockometer, Water Bath, Drape Meter, pH Meter, Stiffness Tester, Double Distillation Unit, Rotavapour, Precision Balance, Heating Mantle, Microscope-02, GSM Cutter-02, Quadrant Balance, Crease Recovery, Yarn Evenness Tester, Wrap Reel, Bending Length-02, Digital Weighing Balance, Pilling Strength Tester, Xenon Light Fastness Tester, Air Permeability Tester, Bursting Strength Tester, COD Digestion Unit, Hot Plate, Projection Microscope, Spectrophotometer, Flammability Tester, Open Bath Beaker Dyeing Machine, Grinder, Computer with UPS, AC (3), Hot air oven, Fibre Microtome, Refrigerator, Microwave, Gas with Cylinder |
| **8.** | CAD Lab (Lab No. 27) | Computers with Work Stations-30, Interactive Panel, Plotters-03, Digitize, Scanner, Rich peace Software (ten user key ), Tuka CAD software (ten user key), White board, Storage cabinate-02, AC-05, Online UPS System, CCTV Cameras-06, LCD/LED Unit, Internet Facility, Fire Alarm System, Computer chairs-30 |
| **9.** | Apparel Construction Lab-III (Lab No. 29) | Motorized Sewing Machines-07, Foot Sewing Machines-26, Big Cutting Tables-03, Steam Iron-02, Demonstration Table, Ironing Board-02, Picoting machine, Chairs-30 |
| **10.** | PG Resource Room (Room No. 10) | Computer-02, Reading Table with 10 chairs, Storage cabinet-03, Book Racks-02, AC |
| **11.** | Seminar Room (Room No. 32) | LCD/LED projector-02, Computer, Online UPS- 01, Conference Table with 30 Chairs, TV, CD Player, AC-03 |

**Theory and practical batches of M.Sc. and Ph.D. in Textile and Apparel Designing**

- There are eight seats in M.Sc. programme. Hence, there is only one batch each for theory and practical classes in all the courses.
- There are four seats in Ph.D. programme. Therefore, there is only one batch each for theory and practical in all the courses.

**6.4.5 Conduct of Practical and Hands-on Training:** *It is important to have a sound grasp of the theory that underlies any professional degree. But there are some skills that can only be learned through hands-on -practice. It is important that much of the learning material in any given course should be provided in a way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hands-on-training as per the curriculum and meeting above mentioned requirements.*

**Conduct of Practical and Hands-on Training in M.Sc., Textile and Apparel Designing**

The Department of Textile and Apparel Designing offers 14 courses at Masters Level. Out of these 14 courses, 12 courses provide practical skills and hands-on training. Besides imparting theoretical knowledge, students are provided practical skills and hands-on-training as per the curriculum requirements.

| Course No.<br>Title<br>Credit Hours | Practical and Hands-on-training | How far students are getting desired practical and hands-on-training as per the curriculum |
|---|---|---|
| | | |
| **TAD 501**<br>**Textile Chemistry and Quality Analysis**<br>4 (2+2) | • Fibre testing, yarn testing, fabric testing<br>• Quantitative analysis of fibre blends and mixtures<br>• Processing and statistical analysis of the tested data | • Gain knowledge on polymers and their molecular structure<br>• Get an understanding of the structure-property relations of textile fibres<br>• Students learn to identify and evaluate different fibres and their performance<br>• Students learn to analyze and interpret the results and predict the quality of textile and apparel |
| **TAD 502**<br>**Advanced Textile Designing**<br>3 (1+2) | • Weaving- Preparation of draft plans, peg plans etc. for all weaves; weaving of different samples, analysis of woven samples<br>• Developing designs for weaving-motif preparation and placement, colour and texture plans<br>• Documentation of traditional and modified textile designs and development of textile design library | • Students get exposure to working of different looms and development of different types of weaves<br>• Gain skills in designing woven patterns and weaving<br>• Students get understanding to analyze different weave patterns<br>• Learn to identify different woven designs<br>• Learn to prepare woven patterns on sample looms |
| **TAD 503**<br>**Advanced Pattern Making and Draping**<br>4 (1+3) | • Procedures used in the development of slopers and patterns<br>• Princess line variations; blouses; halters and surplice, collars, sleeves-variations; skirts; pants- pant length variations<br>• Application of pattern making and draping techniques to garment designing and construction<br>• Draping knits and designing custom clothing | • Understand the style reading, pattern making, draping and garment construction techniques<br>• Acquire skill in advance pattern making and obtain perfect fit and harmony between the fabric and design of the garment<br>• Students get enabled to make pattern from sketch/photograph |
| **TAD 504**<br>**Historic Costumes and Socio-Psychological Aspects of Clothing**<br>3(2+1) | • Collection of traditional textile prints and surface designs and documentation; designing textile surface with combination of motifs of different countries<br>• Documentation and designing of various styles of men and women's garments | • Students learn the historical development in India and Western textiles and costumes from ancient world to 21st century<br>• Get knowledge of textiles and costumes of India and western countries<br>• Get design inspiration from historic costumes and textiles<br>• Portray style variations in ancient costumes of India and western countries |

| | | |
|---|---|---|
| | | across centuries<br>• Learn to study the socio-psychological effects of clothing on the individual in social situations |
| **TAD 506**<br>**Advanced Dyeing, Printing and Finishing of Textiles**<br>3 (2+1) | • Preparation of fabrics for dyeing, printing and finishing<br>• Preparation of shade cards with various class of dyes and colour matching; dyeing with different mordants<br>• Advanced techniques of fabric printing; identification and application of finishes<br>• Eco-friendly finishing of textiles<br>• Assessment of properties of the finished fabrics<br>• Study of labels pertaining to finishes | • Develop knowledge about types of dyes and theory of dyeing<br>• Acquire skills in advanced dyeing and printing techniques<br>• Students get familiarized with the finishing treatments specific to fibre type<br>• Showcase skill in surface enrichment with combination of dyeing and printing techniques |
| **TAD 507**<br>**Apparel Quality Analysis**<br>2(1+1) | • Inspection of raw material, classification and analysis of fabric defects<br>• Study of specification sheets- various garments<br>• Analysis of sewing and fasteners quality<br>• Study of quality auditing system in the industry<br>• Quality analysis of selected garments available in the market | • Students become familiarized with different apparel quality standards<br>• Develop ability to analyze and interpret the results and predict the general quality control<br>• Students get acquainted with the internationally accepted apparel quality standards<br>• Students get equipped to analyze and interpret the results and predict the quality of apparel |
| **TAD 508**<br>**Textile Auxiliaries and their Applications**<br>2(1+1) | • Collection of various surfactants available in the market<br>• Analysis of the surfactant properties in selected surfactants<br>• Preparation of various sizing combinations; analysis of the sized samples and selection of suitable combinations<br>• Assessment of whiteness of fabrics finished with various bleaches and optical brightening agents<br>• Assessment of finished fabrics with selected finishing auxiliaries<br>• Finishing with eco-friendly auxiliaries and assessment | • Become familiar with various textile auxiliaries used in textile processing<br>• Gain knowledge about the judicial use of auxiliaries based on end use performance<br>• Become skilled in analyzing the textiles finished with various auxiliaries |
| **TAD 509**<br>**Advanced Computer Aided Textiles and Apparel Designing**<br>3 (1+2) | • Creation of designs (2D and 3D) and their application for different end uses using designing softwares<br>• Creation of dress designs for different age groups, occupation and occasions and theme based creation<br>• Development of paper patterns of selected designed dresses on computer; grading and marking of patterns<br>• Preparation of portfolio of developed designs, product designing and development of trims, foot wears, hand bags, buttons, buckles, belts, hats, scarf, jewellery, neck ties | • Become skilled in computer aided textile and apparel designing<br>• Learn to develop portfolios through CAD as per fashion forecast<br>• Students gain knowledge about various textile, apparel and jewellery designing concepts through various advanced textile and apparel designing software packages<br>• Enhance the creativity among students in use of different CAD softwares<br>• Build competency for a career in design studios and textile industry |

| | | |
|---|---|---|
| **TAD 510**<br>**Home Textiles**<br>3 (1+2) | • Study of various household textiles<br>• Development of theme board<br>• Project work | • Create awareness about different home textiles and furnishing<br>• Students get acquainted about care and maintenance of different home textiles |
| **TAD 511**<br>**Knitting Technology**<br>2 (1+1) | • Study and identification of different types of knitted fabrics<br>• Practicing knitting on flat knitting machines by making samples of different designs using multi-coloured and complex designing techniques | • Students familiarize with special techniques of knitted fabric production and creation of new designs<br>• Students get acquainted with the art of handling different fabrics and styles using knits |
| **TAD 512**<br>**Consumer Behaviour- Textiles and Apparel**<br>2 (1+1) | • Conducting survey to study the consumer behaviour and preferences of fabric, colour, texture, style of garments etc. from various sectors<br>• Identification of areas of consumer education in the field of apparel and textiles<br>• Developing educational packages for educating selected consumer groups in the identified areas | • Acquire in-depth knowledge of consumer behaviour, consumer protection measures and knowledge about retailing in fashion industry |
| **TAD 599**<br>**Master's Research**<br>20 | • Conducting researches in the field of emerging thrust areas<br>• Designing for apparel and household articles and development of paper patterns<br>• Plants as potential sources for textile processes<br>• Environment sustainability through reuse/value addition of underutilized fibres and fabrics<br>• Theme based products designing for different end uses<br>• Development of performance textiles using wet processes<br>• Innovations in traditional textiles and crafts for contemporary applications<br>• Development of E-media on developed technologies for income generation<br>• Designing and development of functional and protective clothing<br>• Product designing and development through computer technology | Students use practical knowledge to conduct researches in emerging thrust areas of Textile and Apparel Designing. The different areas in which researches are conducted by the students are:<br>• Utilization of plants for textile processes<br>• Computer Aided Apparel and Textile Designing<br>• Innovation in traditional crafts, textiles and costumes for contemporary applications<br>• Value addition/quality improvement of underutilized textiles for environment sustainability<br>• Development of paper patterns for apparels and household articles<br>• Dyeing and printing techniques using natural and synthetic dyes<br>• Protective clothing for farm workers for pesticide application and thrashing<br>• Functional clothing for specially - abled persons to develop confidence and make them independent in dressing<br>• Development of Standardized Paper Patterns different garments for easy construction |

## Conduct of Practical and Hands-on Training in Ph.D., Textile and Apparel Designing

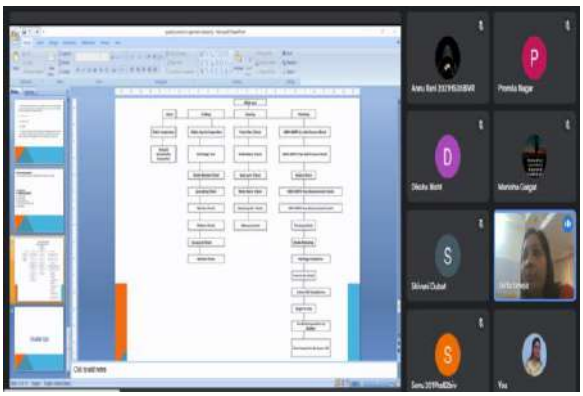
The Department of Textile and Apparel Designing offers 11 courses at Ph.D. level. Out of these 11 courses, 5 courses provide practical skills and hands-on training. Besides imparting theoretical knowledge, students are provided practical skills and hands-on-training as per the curriculum requirements.

| Course No. Title Credit Hours | Practical and Hands-on-training | How far students are getting desired practical and hands-on-training as per the curriculum |
|---|---|---|
| **TAD 601 Functional Clothing** 3 (2+1) | • Survey on selected functional clothing available in the market<br>• Designing clothing for special groups, protective clothing for pesticide applicators, selected industrial workers and fire fighters, specific sports clothes and analysis | • Understanding the importance of functional and portable clothing<br>• Students learn to identify and analyse the functional features in special purpose clothing<br>• Develop skills for designing functional clothing for farm, industrial workers and fire fighters etc. |
| **TAD 605 Product Development** 3 (1+2) | • Survey on selected products from textile and apparel field<br>• Product testing and analysis of selected textiles and apparel- quality, serviceability, material, construction performance, products standards, specification and cost<br>• Product planning: design production relative to cost requirements, aesthetic and functional requirements, reducibility and market needs<br>• Project work | • Gain knowledge about various product standards and product specifications<br>• To learn the process of product development towards market need<br>• Students experience product testing and analysis, various product standards, product specifications<br>• Survey on selected textile and apparel products to study the market trends |
| **TAD 606 Textile Conservation** 2 (1+1) | • Study of various textile conservation methods<br>• Analysis of aged textiles- fibre content, yarn and fabric structure; assessment of damage; repair and stabilization of textiles and exposure to cleaning techniques; project work | • Develop awareness about textiles conservation and skill in assessment of damage, repair and stabilization of textiles |
| **TAD 607 Colour Application in Textiles** 2 (1+1) | • Laboratory techniques for assessing colour strength and reflectance<br>• Developing arbitrary scales familiarization of commands to use software in colour spectrophotometer<br>• Analysis of dyed fibre, yarn and fabrics; creation of data files and reproduce dyed samples with the match prediction<br>• Analysis of colour fastness of dyed samples | • Gain an in depth knowledge into theories of dyeing and dye chemistry<br>• Get acquainted with different colour matching systems and its assessment<br>• Develop knowledge about conditions for dyeing, printing and finishing treatments<br>• Skills in assessment of dyed fibre, yarn and fabric and predict computer colour matching |
| **TAD 699 Doctral Research** 45 | • Conducting researches in the field of emerging thrust areas<br>• Designing for apparel and household articles and development of paper patterns<br>• Plants as potential sources for textile processes<br>• Environment sustainability through reuse/ value addition of underutilized fibres and fabrics<br>• Theme based products designing for different end uses<br>• Development of performance textiles using wet processes<br>• Innovations in traditional textiles and crafts | Students use practical knowledge to conduct advance researches in emerging thrust areas of Textile and Apparel Designing. The different areas in which researches are conducted by the students are:<br>• Utilization of plants for textile processes<br>• Computer Aided Apparel and Textile Designing<br>• Innovation in traditional crafts, textiles and costumes for contemporary applications<br>• Value addition/quality improvement of underutilized textiles for environment |

| | | |
|---|---|---|
| | for contemporary applications<br>• Development of E-media on developed technologies for income generation<br>• Designing and development of functional and protective clothing<br>• Product designing and development through computer technology | sustainability<br>• Development of paper patterns for apparels and household articles<br>• Dyeing and printing techniques using natural and synthetic dyes<br>• Development of Protective clothing and Functional clothing<br>• Development of Standardized Paper Patterns of different garments for easy construction |

The Department of Textile and Apparel Designing has Experiential Learning Unit on **Product Design: Digital Embroidered Home Furnishings** which is a skill development and hands-on training programme. It provides practical skills and hands on training to UG and PG students. Under Experiential Learning, PG and Ph.D. students conduct researches and get experience right from procurement of raw material to the marketing of digital embroidered products. The students acquire skills in operating advanced equipment's and develop merchandising skills and dealing with customers. The Experiential Learning Unit (ELU) helps the student to develop competence, capability, capacity building, acquiring skills, expertise and confidence to start their own enterprise. Under Experiential Learning the students gain experience in developing creative designs for digital embroidery and develop different embroidered home furnishing articles using digital embroidery machines.

**ELP Activities at a Glance**



**6.4.6 Supervision of Students in PG/Ph.D. Programmes:** *Number of students being supervised by Faculty in case of Masters/Ph. D Programme (as per ICAR/UGC guidelines). Mention the realistic figure number of qualified faculty in relation to the intake of students, as per the guidelines in the matter.*

| Year | Number of PG faculty | Number of students on roll | Teacher-Student Ratio |
|---|---|---|---|
| **M. Sc. Programme** | | | |
| 2018-19 | 07 | 11 | 1:1.57 |
| 2019-20 | 07 | 13 | 1:1.85 |
| 2020-21 | 05 | 14 | 1:2.80 |
| 2021-22 | 05 | 17 | 1:3.40 |
| 2022-23 | 05 | 17 | 1:3.40 |
| **Ph.D. Programme** | | | |
| 2018-19 | 07 | 13 | 1:1.85 |
| 2019-20 | 07 | 12 | 1:1.85 |
| 2020-21 | 05 | 14 | 1:2.80 |
| 2021-22 | 05 | 12 | 1:2.40 |
| 2022-23 | 05 | 07 | 1:1.40 |

**6.4.7 Feedback of Stakeholders (Students, parents, industries, employers, farmers etc.):** *Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the degree programme. What action the University has taken in last five years to address the issues raised in the feed back?*

The teachers get informal feedback from the students based on their parents' observations and their suggestions are conveyed to the HOD. Alumni also provide feedback about the faculty and college environment which also helps in evaluating the quality of the programmes. Moreover their suggestions are further conveyed to the faculty who modify their work accordingly. Formal feedback is obtained from the students, parents and stakeholders. Besides this informal feedback is also taken which is found to be very effective. PG students of the Department visit different institutes/ industries for conducting their research experiments. The stakeholders also provide the feedback and the suggestions if any provided by them are incorporated in the curriculum. All this feedback is communicated to the Dean through HOD who is the member of Board of Studies. This feedback has been used effectively for curricular enrichment, introducing changes and development of new programmes. Meeting with stakeholders are also being organized from time to time for deliberations on course curricula and their suggestions are obtained for incorporation in existing curricula.

**Stakeholders' Meets**

**6.4.8. Student Intake and Attrition in the Programme for Last Five Years:** *Year wise information on sanctioned strength, actual intake and attrition in the last five years of the Degree Programme, in the tabular form, shall be provided.*

Sanctioned strength of student admission in PG programme of Textile and Apparel Designing was six seats during the academic session 2018-19 to 2020-21 while there are eight seats from the session 2021-22 onwards. For admission in Ph.D. degree programme, the sanctioned strength was three seats during academic session 2018-19 to 2020-21 and from academic session 2021-22 onwards there are four seats for Ph.D. admission.

| Programme | Actual No. of student admitted in last five years | | | | | | Attrition (%) | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| **M.Sc.** | 4 | 4 | 6 | 8 | 6 | 5 | - | 16.66 | - | 12.50 |
| **Ph.D.** | 3 | 2 | 3 | 1 | - | - | - | - | - | - |

**6.4.9. ICT Application in Curricula Delivery:** *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical. Mention whether the Degree Programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned.*

The faculty members of Department of Textile and Apparel Designing use ICT applications in teaching and practical for curricula delivery. All faculty members have computer, printer and internet

connection in their offices. There is Wi-Fi facility for faculty, staff and students. As per the requirement of curricula delivery Power point presentations, YouTube videos, e-manuals, e-learning modules, CD-ROM, CAD Softwares and Online Catalogues are used. During the hard-hitting times of COVID 19 classes were conducted on various online platforms such as Google meet, MS Teams, Zoom, Sysco webex etc.

**Use of ICT Application in Curricula Delivery**

# TAD Department: Media Coverage

## गांधी जी का चरखा, आत्मनिर्भरता और अहिंसा का प्रतीक : डॉ. बिमला

एचएयू में गांधी जी की 151वीं जयंती के उपलक्ष्य में वेबिनार व पोस्टर मेकिंग प्रतियोगिता

एचएयू में वेबिनार के दौरान विचार प्रस्तुत करती वक्ता।

### खादी बना फैशन स्टेटमेंट : डॉ. नीलम एम. रोज

### सरकार की योजनाओं के बारे में भी बताया

## हकृवि छात्राएं तैयार कर रही हैं बॉडी कवर किट तैयार

### विभिन्न संस्थाओं से मिले ऑर्डर, तैयार की 166 किट

### एस अग्र अड़ाइस

हकृवि की छात्राओं का सामाजिक भलाई के साथ आत्मनिर्भरता की ओर कदम

## विभिन्न संस्थाओं के ऑर्डर पर तैयार कर चुकी 166 बॉडी कवर किट

## गांधी जयंती के उपलक्ष्य में वेबिनार व पोस्टर मेकिंग प्रतियोगिता का आयोजन

## एचएयू के गृह विज्ञान महाविद्यालय की ओर से गांव किरतान में चलाया पौधारोपण अभियान

समस्त हरियाणा न्यूज

हिसार। चौधरी चरण सिंह हरियाणा कृषि विश्वविद्यालय के गृह विज्ञान महाविद्यालय एवं आजाद हिंद युवा क्लब के संयुक्त तत्वावधान में गांव किरतान के विभिन्न सार्वजनिक स्थानों पर पौधारोपण अभियान चलाया गया। महाविद्यालय के वस्त्र एवं परिधान अभिकल्पन विभाग की ओर से आयोजित इस अभियान के दौरान गांव के कब्रिस्तान में दो सौ से अधिक पौधे लगाए गए। कार्यक्रम में विभागाध्यक्ष डॉ नीलम रोज व डॉ सरोज यादव ने विशेष तौर पर शिरकत की। युवाओं को अधिक से अधिक पौधारोपण के लिए प्रेरित करते हुए उन्होंने कहा कि पौधे हमारे जीवन का आधार हैं। उन्होंने युवाओं से भी आह्वान किया कि वे न केवल खुद खल्कि अन्य

## SEMINARS/ CONFERENCES/ WORKSHOPS/ TRAININGS ETC. ATTENDED BY THE FACULTY

### *ANNEXURE II -A*

### Seminars/ Conferences/ Workshops/ Trainings etc. attended by Faculty of Department of Extension Education and Communication Management

| Name of faculty | Title of seminar/ conference/workshop/training/unit meeting |
|---|---|
| Dr. Vandana Verma | ICAR sponsored CAFT course on Extension Led Nutritional Security, Division of Agricultural Extension, ICAR IARI New Delhi, Sept. 04-24, 2018 |
| Dr. Rajesh Dahiya<br>Dr. Poonam Kundu<br>Dr. Vandana Verma<br>Dr. Ella rani<br>Dr. Manju Dahiya | International Symposium on Innopreneurship**:** A Need of Sustainable Agriculture, CCSHAU, Hisar, February 2-3, 2019 |
| Dr. Kanta Sabharwal | XXIII Biennial Workshop of All India Coordinated Research Project on Home Science at Maharana Pratap University of Agriculture and Technology, Udaipur, Feb.15-16, 2019, |
| Dr. Beena Yadav<br>Dr. Sushma Kaushik<br>Dr. Rajesh Dahiya<br>Dr. Vandana Verma Dr. Poonam Kundu<br>Dr. Ella Rani | Seminar on Innovative Strategies for Gender Equality, IC Collegeof Home Sciences, CCSHAU, Hisar, March 8, 2019. |
| Dr. Beena Yadav<br>Dr. Rajesh Dahiya<br>Dr. Poonam Kundu | International Conference on Emerging Paradigms in Social Science Research, Faculty of Social Sciences, Bhagat Phool Singh, Mahila Vishwavidyalaya, Khanpur Kalan, Sonipat, March 25-26, 2019. |
| Dr. Rajesh Dahiya | National Conference on Recent Trends in the field of Environmental Science and Engineering , Department Environmental Science and Engineering, GJUS&T, Hisar, Sept. 20-21, 2019. |
| Dr. Seema Rani | Attended 25th Edition of DST-CII Technology Summit at Hotel JW Marriott, New Delhi, October 13-16, 2019. |
| Dr. Rajesh Dahiya<br>Dr. Vandana Verma<br>Dr.Poonam Kundu | Golden Jubilee International Conference on New Millennia Agriculture: Novel Trend and Future Scenario, Directorate of Research, CCSHAU Hisar, November 6-8, 2019. |
| Dr. Beena Yadav<br>Dr. Vandana Verma<br>Dr. Poonam Kundu<br>Dr. Ella Rani | ISEE National Seminar for Socio Digital Approaches for Transforming Agriculture, ISEE, CCSHAU and Banda Univ, UP at CCSHAU, November 20-22, 2019. |
| Dr. Poonam Kundu | National Incubators Colloquium,t ABIC, CCSHAU, Hisar, January 15-16, 2020. |
| Dr. Vandana Verma | International conference advances and innovations in agriculture and alluies sciences (AIAAS-2020), Jawahar lal Nehru university convention centre, New Delhi held, January 31- February 1, 2020. |
| Dr. Vandana Verma | National Webinar on Gender Sensitization: Need of the hour, Institute of Home Science & IQAC, Dr. Bhimrao Ambedkar University, Agra, May 26, 2020. |
| Dr. Ella Rani | Webinar and discussion series Migration, Displacement and De-urbanization in the Context of COVID-19, Land Portal Foundation, Netherlands, May 28, 2020. |
| Dr. Manju Dahiya | National Webinar on Deconstructing the Gender Binary, Govt.College for Women, Hisar, May 30, 2020. |

| | |
|---|---|
| Dr. Vandana Verma<br>Ella Rani | Online workshop on Effective Strategies of Managing Stress: Handling Self, Family and Nation, IDP-NAHEP GBPUAT, Pantnagar, May 31, 2020. |
| Dr. S. Kaushik<br>Dr. Vandana Verma<br>Dr. Ella Rani | National Webinar on Community Science: Linkages and Way Forward, Department of EECM, College of Community and Applied Sciences, MPUAT, Udaipur (Rajasthan), June 3, 2020. |
| Dr. Vandana Verma<br>Dr. Ella Rani | National Webinar on Nutrition Security Challenges and Importance of Nutrition to Boost the Immune System During Covid-19 Pandemic, Department of Food Nutrition and Public Health, Ethelind College of Home Science, Sam HigginBottom University of Agriculture, Technology & Sciences, Prayagraj U.P. India, June 5, 2020. |
| Dr. Vandana Verma<br>Dr. Ella Rani | Two days National Webinar on Role of ICT in Agriculture and Extension in Present Scenario of Covid-19, Department of Extension Education and Communication Management, College of Community and Applied Sciences, MPUAT, Udaipur , June 11-12, 2020. |
| Dr.Seema Rani | National Webinar on Post COVID-19 Agribusiness: Challenges and Opportunities, Junagadh Agricultural University, Junagadh, June 13-14, 2020. |
| Dr. Vandana Verma<br>Dr. Ella Rani | Two days International Webinar on Capacity Building to Cope with Unprecedented Conditions at Work Place, Department of Mechanical Engineering, College of Technology & Engineering, MPUAT, Udaipur under TEQIP-III project, June 15-16, 2020. |
| Dr. Vandana Verma | International Webinar on Critical Thinking and Future of Learning, Faculty of education Teerthanker Mahaveer University Moradabad, June18, 2020. |
| Dr. Vandana Verma | Future of Indian Media, Department of Communication, Bangalore University, Bangalore, June 22 to 27, 2020. |
| Dr. Vandana Verma<br>Dr. Poonam Kundu<br>Dr. Ella Rani | Thirty-one days Massive Open Online Course (MOOC) on Designing E-learning Content, ICAR NAARM, Hyderabad, July 01-31, 2020. |
| Dr. Vandana Verma<br>Dr. Ella Rani | International Webinar on Strengthening the Immune System against COVID-19 through Agricultural Innovations, Agricultural Research Station, SKNAU, Jobner Fatehpur - Shekhawati, Sikar, Rajasthan, July 29, 2020. |
| Dr. Vandana Verma | Webinar on Entrepreneurial Challenges & Opportunities Post Covid-19, Faculty of Engg. & Computing Sciences, TMU Moradabad UP, August 6, 2020. |
| Dr. Ella Rani | Webinar on Popular Science Writing under AWSAR Programme, DST and Vigyan Prasar, August 7, 2020. |
| Dr. Vandana Verma | Webinar on Startup - A Stepping Stone to Attain Self Reliance and Sustainability in Agricultural Sciences, ASPEE College of Home Sc & Nutrition, SDAU, Gujarat ,August 8, 2020. |
| Dr. Ella Rani | Two weeks online course on Measuring of Entrepreneurial Impact, Coventry University, UK August 8 - September 13, 2020. |
| Dr. Ella Rani | International Webinar on Entrepreneurship During COVID-19, IILM Academy of Higher Learning Lucknow, August 12, 2020. |
| Dr. Vandana Verma<br>Dr. Ella Rani | MOOCs training program on Gender Mainstreaming in Agriculture & Allied Sectors, MANAGE, Hyderabad, September 7-11, 2020. |
| Dr. Santosh Rani | National Webinar on Women FPOs: An Effective Approach for Boosting Entrepreneurship, Empowerment and Self reliance (Atmanirbhar), MPUAT, Udaipur, September, 10, 2020. |
| Dr. Vandana Verma | International Webinar on COVID -19 Biodiversity and Climate Change ; Indigenous people defining the path forward organized by Land Portal Foundation, Netherlands, September 10, 2020. |

| | |
|---|---|
| Dr. Beena Yadav | Online panel discussion on NEP 2020. Organized by DHRM, CCSHAU Hisar. September 16, 2020. |
| Dr. Vandana Verma | International Webinar on COVID -19 Regulatory Rollback and the Green Recovery: Indigenous Peoples Raise Their Voices, Land Portal Foundation, Netherlands, September 17, 2020. |
| Dr. Beena Yadav<br>Dr. Ella Rani | International Webinar on, Combating Hidden Hunger - Obstacles & Interventions for Sustainability, Department of FN, COHS, CCSHAU, Hisar ,September 19,2020. |
| Dr. Rajesh Dahiya | International web conference on food security through sustainable Agriculture, Shri Vaishanv Vidya peethVishavVidyalya of Agri. Indore M.P., September 21-22, 2020. |
| Dr. Vandana Verma<br>Dr. Ella Rani | MOOCs Training Programme on Application of ICTs in Agriculture, MANAGE, Hyderabad, September 21-27, 2020. |
| Dr. Vandana Verma<br>Dr. Ella Rani | Online MOOCs Programme on Extension of Women Entrepreneurial Skills for Agriculture Development, MANAGE, Hyderabad, September 28-30, 2020. |
| Dr. Santosh Rani | National Webinar on Nutri-sensitive Agriculture: A way to Empower India for a Healthier Future, AICRP (HS) Centre, College of Community Science, CAU , Tura, Meghalaya, September 29, 2020. |
| Dr. Vandana Verma | Online MOOCs Programme on Monitoring and Evaluation of Agriculture Project, MANAGE, Hyderabad, October 5-11, 2020. |
| Dr. Vandana Verma<br>Dr. Ella Rani | MOOCs training program on Agri Journalism, MANAGE, Hyderabad, November 23-27, 2020. |
| Dr. Beena Yadav | Brain storming session on Gender Sensitization Issues and Challenges,NASF project COHS, CCSHAU, Hisar December 3, 2020. |
| Dr. Beena Yadav<br>Dr. Rajesh Dahiya<br>Dr. Vandana Verma<br>Dr. Poonam Kundu<br>Dr. Ella Rani<br>Dr.Santosh Rani | Webinar on Role of Women in Agriculture, Deptt. of EECM, COHS, CCSHAU, Hisar, December 4, 2020. |
| Dr. Santosh Rani | Online Idea Investors Meet 2020, ABIC Center, CCSHAU, Hisar. December 4, 2020. |
| Dr. Rajesh Dahiya | Virtual International Extension Education Conference on Role of NGO's in Extension Service: Opportunities & Challenges, Deptt. of Ext.Edu , Institute of Agricultural Science, BHU Varanasi, U.P., December 27-30,2020. |
| Dr. Beena Yadav | Webinar on Vaccine and Medication Equity, Haryana State Higher Education Council and Gautam Buddha University ,May 18,2021. |
| Dr. Beena Yadav<br>Dr. Poonam Kundu | Online Lecture of Gurudev Sri Sri Ravi Shankar on How to overcome stress, ICAR, June 28, 2021. |
| Dr. Beena Yadav | Webinar on Improving quality of Agricultural Research Landscape in India, Nehru Library, CCSHAU Hisar and Elsevier, June 30,2021. |
| Dr. Rajesh Dahiya | Virtual International Conference on new paradigms for Agriculture, Food and sustainability Concerns, Raichur, Karnataka Feb.26-28, 2021. |
| Dr. Vandana Verma | International Conference on Soil and Water Resource Management, College of Technology and Engineering, MPUAT, Udaipur, Rajasthan, India, February 26-27, 2021. |
| Dr. Poonam Kundu<br>Dr. Ella Rani | Virtual workshop on digital library framework for strengthening agricultural knowledge, Nehru Library, CCS HAU Hisar and IARI, New Delhi, February 17-19. 2021. |
| Dr. Vandana Verma | Twenty days Massive Open Online Course on Information Handling Skills for |

| | |
|---|---|
| Dr. Ella Rani | Teaching, Learning and Research, TSAU, Hyderabad, March 1-21, 2021. |
| Dr. Vandana Verma<br>Dr. Ella Rani | Thirty days Massive Open Online Course (MOOC) on Theoretical Foundations of Educational Technology, ICAR NAARM, Hyderabad, June 1-30, 2021. |
| Dr. Ella Rani<br>Dr. Vandana Verma | National level Conference on Boosting your immune system against corona virus: how to minimize the risk of infection, Department of Home Science I.B. PG College Panipat, Haryana, July 1, 2021. |
| Dr. Vandana Verma | National webinar on Research Methodology and Paper Writin, Rajasthan College of Agriculture, MPUAT, Udaipur, July 12, 2021. |
| Dr. Vandana Verma<br>Dr. Ella Rani | Online MOOCs Programme on India e-Extension in Agriculture and Allied Secto, MANAGE, Hyderabad, July 19-23, 2021. |
| Dr. Vandana Verma | Five days MOOC Training Program on Agri Journalism, MANAGE, Hyderabad, India, July 26-30, 2021. |
| Dr. Ella Rani | Two weeks course on Communication and Interpersonal Skills At Work, University of Leeds And Institute Of Coding under future learn, July 28- August 10, 2021. |
| Dr. Vandana Verma | Online Training Programme on developing work life well being for farm women extension functionaries, MANAGE, Hyderabad in collaboration with PAMETI, Ludhiana, August 2-5, 2021. |

## Salient researchAchievements

### Media and ICT

Five posters, six leaflets, five handouts and two charts on organic farming were developed in Hindi language. The media were evaluated by subject experts and rural women in terms of accuracy, coverage, objectivity, writing style, content presentation, illustration and compatibility. Effectiveness of media perceived by the experts as well as rural women was of high extent.

Ten posters, four charts, six handouts and four leaflets on nutritional literacy were standardized and exposed to 120 rural women and adolescent girls from Sirsa and Fatehabad district of Haryana state for promoting messages on nutritional literacy. Significant gain in knowledge and attitude was observed after exposure of print media.

- Ten messages on water conservation were developed. All the messages were assessed appropriate in terms of clarity of picture, usefulness and understandability. The messages were sent through whatsapp to 40 literate women of Gawar and Burak village. In village Gawar 80.0 percent and in village Burack 65.0 percent of the selected rural women adopted water conservation techniques like minimizing the use of water in daily household activities and recycling of water used for washing of clothes and utensils after exposure to whatsapp messages.

- Audio/ video messages related to Agricultural Technology Information centre (ATIC) CCSHAU Hisar, stubble burning and soil & water testing were developed and delivered on whatsapp to 25 male and female farmers each from Neoli Kalan Village, Hisar district. Messages on ATIC and soil & water testing were rated good and message on stubble burning was rated average in terms of audio/ visual parameters and usefulness. Majority of the male (80.0%) and female farmers (88.0%) further forwarded the messages received on whatsapp. Maximum number of male farmers (72.0%) discussed the messages with friends & neighbours while female farmers (76.0 %) with family members. Hence, horizontal diffusion of the messages by the respondents was observed.

Compact disk of 25 minutes duration on the benefits and uses of medicinal plants was prepared in collaboration with the Department of Medicinal, Aromatic and Potential Crops Section, Dept. of Genetics & Plant Breeding and was provided to DES (Home Science) posted at various KVKs and RAWE students for awareness generation about uses and benefits of medicinal plants among rural population with special focus on farming community.

- The women *panchayat* members from Bhiwani Rohilla, Juglan and Sarangpur villages of Hisar district were aware of the ICT facilities available at common service center. All of them had personal phones while computer / laptop were available in the households of 30.0% women *panchayat* members. None of the women *panchayat* members used ICT facilities for panchayat related work mainly due to lack of awareness about use of ICT facilities.

- Only 20.0% (out of 200) rural women were aware regarding toll free helpline of CCSHAU, Hisar After exposure to print media on toll free helpline, all of them could correctly tell the purpose,

days and timings of helpline while 92.0 % mentioned the correct contact number of toll-free helpline. Total 441 calls were made on helpline by the respondents or their family members and 92.0 percent of the women shared information with male family members after they were exposed to the information on helpline through print media suggesting that women can be an active agent of diffusion of information not only among female but male members also.

- Information processing pattern of KVK mobile advisory service by farmers revealed that all the farmers read the messages as soon as they received it; most of them recorded the messages in note book (78.0%), discussed with KVK Scientists (69.0%) and family members / relatives (73.0%) and around one fourth (26.0%) of the farmers further forwarded the messages among fellow farmers,. The farmers suggested that there should be consistency in delivery of messages (97.0%) and agriculture information should be given prior to on set of *Rabi* and Kharif season.
- Possession of digital equipments/ tools by rural women / girls educated upto at least middle class revealed that smart phone was possessed by 70.0 percent of rural women / girls. More number of male members possessed desk top /lap top computer, printer, scanner etc. which indicated gender gap in possession of digital devices and tools. The rural women/ girls used mobile internet for total 12 purposes with mean use score being 5.1. They reported lack of digital skills as the constraint in use of digital devices/ tools which need to be addressed by organizing trainings and interventions for improving their digital skills.
- Thirty text messages on climate smart practices were developed and validated and effectiveness of mobile phone as ICT tool in delivery of these messages among rural women was assessed. Majority of the respondents attained complete knowledge about the climate smart practice. Diffusion of the information was done among family members (53.3%), friends (51.6%) and relatives (18.3%) by the respondents.
- More number of female respondents (47.0%) had mobile phone without internet connection than male (38.0%) respondents. Majority of the female respondents faced problems with use of ICT due to technical illiteracy (92.0%), poor network connectivity (83.0%), erratic power supply (79.0%) and language problem (87.0%).
- Productivity and economic analysis of Integrated Farming System (IFS) Model at CCSHAU farm, was calculated. Net return of Rs. 190735/hectare from cropping IFS system comprising of vegetable, mushroom, horticulture, dairy and vermi-compost was reported.

## Trainings and Interventions for Capacity Building of Rural Women

### Medicinal Plants

- Training on medicinal plants was organized for 60 women from Gorchi and Bichpari villages of Hisar district. Gain in knowledge of respondents regarding medicinal uses of various plants was between 56.6 percent to 83.3 percent. Majority of the women (78.3 5%) reported domestic use of medicinal plants for curing minor ailments like fever and cold, sore throat, headache, stomach ache, burns, blisters, etc.
- Video based messages on importance and uses of 18 medicinal plants were exposed to 120 rural women from Shahpur village of Hisar district. At pre-exposure stage, 18.8 per cent of the respondents had knowledge of medicinal plants which changed to 91.06 per cent at post exposure stage. Maximum number of respondents acquired knowledge about medicinal uses of *giloy* (81.6 %) and more than 70.0 per cent acquired knowledge regarding *Sadabahar* (76.6%), *Stevia & Sataavar* (75.8% each) and lemon grass & ginger (75.0% each).

## Value Added Peanut Products

Trainings on peanut products (Ladoos, Nutties, Chat and Chikki) were organized for 40 rural women from Hasinga and Shanwal village of Fatehabad district. Maximum number of rural women acquired knowledge about peanut chikki preparation (85.0%) followed by peanut nutties & peanut *chaat* (80.0 % each) and peanut *ladoo* (72.5%). Peanut *ladoo, chat* and chikki were liked and nutties were somewhat liked by the respondents. Majority of the respondents perceived peanut products as monetarily beneficial & triable (72.5% each), having low initial cost of adoption (70.0%), socially acceptable (70.0%), easy to prepare (70.0%) and having high use consistency (65.0%).

## Stitching and Embellishment Techniques

Training on embellishment techniques was organized for rural women. Majority of the respondents had low to medium level of knowledge regarding methods and materials required for embellishment and importance of embellishing the garments at pre-exposure stage. After training, slightly more than half of the respondents (57.5 %) could execute various embroidery stitches and tie dye techniques, 45.0 per cent could do fabric painting and least number of them i.e 27.5 per cent could do block printing without any difficulty after training exposure.

Training on stitching of adolescent garments (female) was imparted to 40 rural women of Gawar and Burak village of Hisar district. As an outcome of training, increase in knowledge of women was maximum for cutting of garments (72.5%) followed by stitching (62.3%) and designing of garments (50.0%).

Preferential choices of tying techniques revealed that thread tying and object binding techniques were most preferred by women trainees followed by knotting marbling, pleating and ruching techniques. Feasibility of tie and dye in terms of infrastructural facilities and cultural compatibility was found high, while organizational ability and marketability were found medium.

## Save Environment Save Earth through plants:

Training in collaboration with the Department of Forestry was organized in Gawar village and 211 saplings of nine plants viz; Acasianilotica (Babool), Melia composita (Bakain), Thespesia populaneai (Bhindi tree), eucalyptus tereticornis (Safeda), Prosopis cineraria (Khejari), Ailanthus excels (Mahaneem, neem), Pongamia pinnata (Papri) and Tecomella undulate (Rohida) were distributed. Regular care of majority of the plants (88.1%) was observed with overall survival rate being 77.2 %. Survival rate of Mahaneem (66.6%) and Rohida (34.2%) was comparatively less due to damage by animals, lack of irrigation facilities and poor quality of sapling.

On the basis of preferential pattern of rural women 60 plants of lemon were distributed for household plantation and 60 plants (20 guava and 40 lemon) were planted in community places like village Schools, PHC and Temple. All respondents took regular care of the plants and 90.0 percent of lemon and 85.0 percent of guava plants survived. Survival rate of plants planted in school and Temple was 100.0 % but those planted in PHC died in April – May due to lockdown, lack of irrigation facilities, high temperature, lack of proper and timely care and damage by animals.

Promotion of nutri-garden among 100 rural women from five villages viz; *Kushal ki Dhani, Dhani Peerawali, Heeran ki Dhani, Raju ki Dhani* and *Kumhaaro ki Dhani of* Hansi block in Hisar district was done by using Nutri-garden intervention package Maximum gain in knowledge was recorded in general approach about nutri-garden (Mean score 4.17/5) followed by advantages of nutri-garden (Mean score 4.16/5) and use of implements/kit/tools for nutri-garden (Mean score 3.85/5).

### Intervention on Pre Natal care

Intervention package consisting of leaflet, poster, demonstration and lecture was developed on pre natal care. The intervention was used during five days on line training of 60 field functionaries (anganwadi workers and accredited social health activists) on prenatal care. Maximum gain in knowledge was observed regarding symptoms and physiological changes during pregnancy (48.6%) followed by problems and complications during pregnancy (34.9%) and clothing for lactating mother (38.5%).

### Entrepreneurship Development:

### Pro tray Nursery Technique

Total 20 women from Shahpur village of Hisar district were imparted training on pro tray nursery technique. Required input and leaflet on Pro tray Nursery technique were distributed for small scale trial of the technique. Increase in duration of training with more focus on practical orientation, provision of financial assistance, exposure to hi-tech nurseries, knowledge about availability of raw materials, sale of product or provision of marketing facilities and linkage with sale points were the suggestions given by respondents to improve training content.

### Attitude of students towards entrepreneurship

Personal attitude of 64.0 per cent undergraduate students from College of Home Science towards entrepreneurship was in the medium category, 78.0 per cent of the students' subjective norms was of medium level while 53.0 per cent student's perceived control in entrepreneurship was in high category. Comparatively older students, with entrepreneurial background, having entrepreneurial aspiration and exposure to entrepreneurship training had higher entrepreneurial intention to create jobs.

### Value Added dairy Products

Training on value added dairy products was organized for 30 rural women of Kaimri and Muklan villages of Hisar district. Maximum number of trainees (94.6 %) perceived content of the topic scope 'Agriculture Entrepreneurship' as most appropriate followed by importance of clean milk production (87.3 %) and cost benefit analysis (86.6 %). Majority of the respondents (84.0%) adopted the value added dairy products but not for household purpose only not as an entrepreneurial activity due to lack of credit facility to start a venture ( 80.0%), lack of technical skill (72.0 %) and lack of confidence (60.0 %). The acquired information was disseminated among family members/ relatives/ neighbours by 60.5% trainees.

Impact of lockdown on rural women

Resuls of on line data collected from 200 farm women of different villages of Hisar District indicated that all of them visited the nearby stores in the village for purchasing grocery items, 77.00 per cent reported less availability of the food due to poor financial condition. Majority (62.0%) of the respondents perceived that their food consumption pattern different during lockdown than before lockdown and 54.00 per cent respondents reported reduced food consumption during lockdown.

Majority of the respondents (75.0%) had free time available during lockdown and used it to watch news, particularly on corona, spent time with their family members (78.3%) and learning new skills (73.3%). Majority of the farm women (96.6%) reported increase in household workload as major effect of lockdown followed by decrease in income (60.0%). About one third

of them reported stress and lack of medical services for the sick (33.3 % and 30.0%, respectively).

**Empowerment of Scheduled Caste (SC) and BPL families**

Under RKVY project, total eight trainings i.e.2 each on Value Added Products of Fruit & Vegetables, Bag Making, Post-Harvest Management and Value Addition in Cereals & Pulses, Bakery and Handicrafts were organized for 200 rural women from BPL families from different villags of Hisar district. The trainees were exposed to technical knowledge on the subject by experts from collaborating departments i.e. Food Science & Technology, Foods and Nutrition, Textile and Apparel Designing and Family Resource Management, CCSHAU Hisar and external experts in the related fields. As the trainings were incentive based, hence after completion of the trainings, the relevant incentives were distributed to the participants to motivate and help them to prepare the products at household level to enhance nutritional and livelihood security.

Workshop of 80 ex SC women trainees enrolled in bakery and confectionary and vegetable nursery raising trainings from *Mangali, ludas, Kumbha, Sulkhni,Ramayan* and *Dahima* villages were organized to obtain feedback of the women regarding adoption of technologies imparted during trainings. Majority of the women were satisfied with content and methods of training and around 80.0 percent adopted the technologies at household level. The women were made aware of importance of warranty card and effective use & maintenance of the incentives (food processor and pressure cooker) provided to them

*ANNEXURE III- B*

## SALIENT RESEARCH ACHIEVEMENTS OF DEPARTMENT OF FOODS AND NUTRITION

**Thrust Areas of Research:** The major research focus of the department is on nutrition surveys, value addition, and development of healthy and therapeutic foods using variety of foods.

- Diet and nutrition surveys to assess nutritional status of population of Haryana
- Development of value-added/functional food products from cereals, millets, pulses, nuts, oil seeds and medicinal plants
- Post-harvest processing and utilization of foods
- Development of therapeutic foods to combat degenerative diseases
- Utilization of unconventional/under-utilized foods of Haryana for human consumption

## Salient Research Achievements:

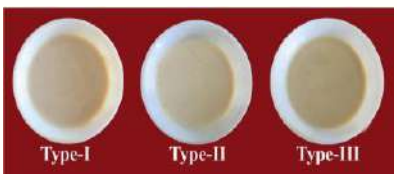
### Food Processing and Value Addition:

- Unprocessed and processed purple wheat was analysed for nutrient composition and antioxidant activity. Processing (soaking, blanching, boiling, roasting and germination) enhanced minerals (Ca, Fe, Zn) bioavailability significantly and maximum increase was observed for germination followed by roasting, blanching, soaking and boiling. An inverse correlation was observed between phytic acid and *in vitro* availability of starch and protein. The maximum availability of protein and starch resulted from a significant reduction of phytic acid was observed for germinated grains followed by boiled, roasted, soaked and blanched grains. Purple wheat contained 11.81 percent of moisture, 1.49 per cent of ash, 14.29 per cent of crude protein, 3.63 per cent of fat and 4.93 per cent of crude fiber, which were ranged from 11.50 to 12.40, 1.54 to

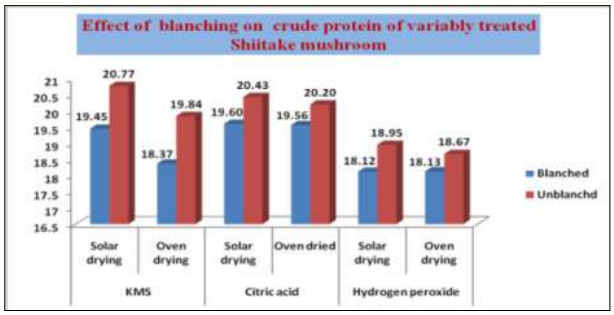
**Processing of purple wheat grain**

1.72, 12.71 to 14.41, 3.05 to 3.76 and 5.10 to 6.20 per cent, respectively in processed grains. Processing has increased the contents of moisture, crude fiber, ash, *in vitro* digestibility of protein and starch, *in vitro* availability of calcium, iron and zinc. Among all processes the maximum nutrients retention was found in germination process followed by roasting, blanching, boiling and soaking.

- Four variants of gluten free cookies with or without incorporating *shatavari* (*Asparagus racemosus*) root powder were developed. Experimental gluten free cookies had higher amount of protein, fat, carbohydrates and energy and lower price in comparison to gluten free cookies available in market.Sensory evaluation of fresh cookies showed that gluten free cookies (control) without modifications had the lowest mean sensory scores than that of four variants of gluten free cookies with or without *shatavari* root powder. As a result, these cookies were adjudged as "liked moderately by the judges. Incorporating 10 per cent *shatavari* root powder in the basic flour of gluten free cookies did not influence the overall acceptability of chocolate chip walnut cookies and coconut cookies and therefore both the cookies were adjudged as "liked very much" by the judges. Incorporating 10 per cent *shatavari* root powder in the basic flour of gluten free cookies increased the overall acceptability of almond apple jam cookies and raisin cookies, however both the cookies were liked by the judges and adjudged between'liked moderately' to 'liked very much'. Four variants of gluten free cookies i.e. chocolate chip walnut cookies, coconut cookies, almond apple jam cookies and raisin cookies with the incorporation of *shatavari* (A. racemosus) root powder (@ 10%) had higher mean scores of texture, aroma and taste during storage. Similar trend for the texture, aroma and taste during storage was followed by the cookies stored in refrigerator than room temperature. The increase in fat acidity and peroxide value was observed within all four variants of cookies during storage. However, the progression was significantly less in the cookies incorporated with *shatavari* root powder and further stored in refrigerator.
- Four developed variants of gluten free cookies i.e. chocolate chip walnut cookies, coconut cookies, almond apple jam cookies and raisin cookies with (@ 10%) or without incorporation of *shatavari* root powder (SRP) were studied for shelf life by storing at room temperature or under refrigeration ($4^0$C). The mean scores for sensory characteristics declined gradually during storage period (90 days). However, it was observed that this decline was more in all four variants of gluten free cookies prepared without incorporating SRP and stored at room temperature than SRP incorporated cookies and stored refrigerated. A significant difference (P=0.05) for fat acidity and peroxide value was observed within all four variants of cookies with respect to SRP incorporation.
- The sun dried seed pods of *Acacia nilotica* were studied for mineral content. The total calcium, iron and zinc content were 120.1, 20.10 and 22.80mg/100g, respectively. Available calcium, iron and zinc content were 4.78, 0.68and 0.52 mg/100g, respectively.
- Fenugreek seeds were soaked in milk and water (3:1) for 8 hours for debittering. Seeds were soaked in water for 8 hours and left in sterile petri dishes lined with wet filter paper for 48 hrs at 37ºC with frequent watering for germination (GFSP-II). Incorporation of 10 per cent of either of the processed fenugreek i.e. debittered, germinated and debittered followed by germinated in the basic recipe of biscuit, cake, *laddoo* and *namakpara* significantly improved the contents of protein (26.61%), fiber (34.14%), sugars (28.66%), minerals (48.19%) and antioxidants (28%).



- Value added biscuits were developed using different levels of quinoa (20 to 60%). The protein and fat contents in refined flour (control) biscuits were 4.18 and 22.26 per cent, respectively. The levels of protein and fat contents in biscuits increased significantly with the increase in level of substitution of refined flour with quinoa (20 to 60%) and the values ranged from 7.25 to 10.10 and 23.28 to 26.22 per cent.
- Black wheat was analysed for its functional and nutritional parameters. Crude protein was 11.99 per cent, crude fibre was 1.63 per cent, available iron and zinc was 4.37 mg/100 gm and 2.56 mg/100 gm respectively. Antioxidant activity of black wheat was significantly higher than white wheat with values of total flavonoid content 32.11mgRE/100g and DPPH activity as21.16 mgTE/100. Total soluble sugars and reducing sugars were significantly higher than control wheat (P<0.05). Total and available iron and total and available zinc in black wheat was significantly higher than control wheat (P<0.05). Total phenolic content and total flavanoid content in black wheat was found lower than the control wheat (P<0.05). *Chapati*, *Paratha*, *Poori*, Cake and Biscuit were developed from black wheat flour and subjected to organoleptic analysis. All the products were found to be acceptable in terms of colour, appearance, aroma, texture, taste and overall acceptability. The overall acceptability varied from 7.96 to 8.31.



- *Kufri bahar* potatoes were subjected to microwave cooking (15, 20, 25 min.) followed by hot air oven drying (6, 12, 18 hr.) to develop potato powder. The developed powders were studied for color variation using Hunter color meter. It was observed that more than 20 minutes of microwaving followed by 16 hr. hot air drying darkened the final product. Overall, the highest Hunter-l value (73.01) with lowest Hunter-a value (5.59) was obtained for 15-minute microwave at full power followed by 18 hr. drying at $65^0$C.
- Weaning foods were developed using sorghum, pearl millet, soybean, mungbean and banana. Simple home scale processing methods were used. All developed weaning foods were highly acceptable and rich in nutrients. Mothers with young weaning infants formed the panel for acceptability.

- The moisture, protein, ash, fat and fibre content in multigrain mix developed for overnourished subjects was 10.70±0.05, 14.76±0.43, 2.66±0.07, 3.79±0.25 and 3.04±0.03 % respectively. The moisture, protein, ash, fat and fibre content in multigrain mix for undernourished subjects was 10.33±0.08, 16.00±0.75, 3.37±0.04, 30.19±2.63 and 1.89±0.06 % respectively. The products prepared from multigrain mixes were acceptable organoleptically. The multigrain mixes were

free from any microbial load upto 3 months of storage. The mean height of the selected overnourished subjects was 153.78±3.74 cm and mean weight was 65.64±4.69. The body mass index (kg/m2) was measured as 27.81±2.62 (kg/m2). The mean height of the selected undernourished subjects was 155.16±2.40 cm and mean weight was 41.08±0.82. The body mass index (kg/m2) was calculated as 16.93±0.47 (kg/m2). The intake of all food groups was less than the Recommended Dietary Intake suggested by ICMR (2010) except fats and oils and milk and milk products in all the subjects. Among nutrients the mean intake of energy, protein, iron, folic acid and vitamin B12 was less whereas the intake of fat, calcium, thiamine, vitamin C and magnesium was high when compared to recommended dietary allowances.

- Shiitake mushroom was subjected to different processing methods for developing mushroom powder, which was further used for value addition in different products. Among chemical treatments, citric acid treatment turned out to be most effective in producing powders with higher acceptability than any other treatment. Among drying methods, solar drying proved to be more effective over oven drying towards obtaining higher overall acceptability of powders. All developed products had a rich nutrient profile and were acceptable. Value addition has been carried out with Oyster as well as Milky mushroom.

Mushroom Pickle

Mushroom Chutney

Mushroom Soup

Mushroom Biscuits

## Nutrition Surveys and Technology Dissemination:

- To assess gender disparity, Nutritional status of two hundred male and female subjects (hundred each in the age group 13-18 years and 18-60 years) from Village Budak of Hisar district was assessed in terms of BMI. Mean BMI of male respondents was 21.15 as against 18.25 for female respondents. A higher number (n=26) of females were underweight as compared to male counterparts (n=18). In the age group of 18-60 years, Mean BMI of male respondents was 23.64 as against 21.49 for female respondents. A higher number (n=18) of males were underweight as compared to female counterparts (n=11).
- Trainings were imparted to rural women of Village Budak (Hisar Distt.) on *PaustikLaddoo* , *Paustik* Coconut *Laddoo* , *Bajra* Sev , *Bajra matar* and *Bajra* cake. Perceived feasibility score regarding capacity building training on different demonstrated food products among respondents were analyzed for sensory preference and ease of making on different food products. *Paushtik* Coconut *Laddoo* received highest scoring in sensory preference. Also, it was perceived as easier to make as compared to other products by majority of respondents. This was followed by Bajra *sev* in terms of sensory preference as well as perceived ease of making. Bajra Cake and Paushtik laddoo scored equally in terms of sensory preference as well as perceived ease of making. Perceived feasibility of demonstrated technologies (Peanut, multigrain,

mothbean and pearl millet products) in terms of sensory preference and ease of making was found 'liked very much' to 'liked extremely' and 'easy' to 'very easy' by the respondents.

- The mean daily intake of minerals (calcium, iron and zinc) and vitamins (riboflavin and niacin) among all the respondents was significantly lower than recommended dietary intake (RDA) i.e. 62 to 90 per cent of RDA whereas mean daily intake of folic acid was 104-108 per cent of RDA.
- Survey was carried out to assess nutritional status of school children (7-9 yrs.) from CCSHAU Hisar. Mean height, weight, Body Mass Index (BMI) and Mid-Upper Arm Circumference (MUAC) were significantly (p=0.05) lower than the NCHS standards in both boys and girls.
- Leaflets, pamphlets and self explanatory videos of department technology were developed and disseminated among 100 women of Mewat district through whatsapp group. Radio talks were delivered through Community Radio Station, CCS HAU, Hisar. Video messages were developed and uploaded on YouTube channel. Advisories regarding nutrition and health impacts of COVID 19 were propagated through social media including YouTube link, newspaper, e *mausam* facebook page, Whatsapp Group etc.
- A study conducted on 30 non obese and 30 obese women (30-45 years) residing in CCS HAU, Hisar to assess their nutritional status revealed that majority of obese women (76.7%) consumed cereals, 100 per cent and above the RDI. The remaining 20 and 3.3 per cent of them took cereals 75 to 99.9 and 50 to 74.9 per cent of RDI, respectively. Among obese women mean daily intake of cereals, sugar and jaggery and fats and oils was 291, 31, and 47g, respectively which was higher than recommended dietary intake (RDI) and that of non-obese women was 307, 29 and 48g, respectively which was also higher than RDI. It was found that adequacy of pulses intake by 43.3 per cent of obese women was 50 to 74.9 per cent of RDI. As many as 13.3 and 23.4 per cent of obese women consumed 75 to 99.9 per cent and less than 50 per cent of RDI of pulses, respectively. Twenty per cent of respondents consumed 100 per cent and above the RDI of pulses. Intake of sugar and jaggery and fats and oils was adequate inmajority of respondents i.e. 93.3 and 100 per cent.
- Nutritional survey was carried out on school going children (13-15 yr.; n=60). It was found that mean height (158.14cm) and weight (45.96kg) of male students was comparable to 50$^{th}$ percentile of WHO reference standards. Mean height of female students (150.94cm) was significantly ($P \leq 0.05$) lower than 50$^{th}$ percentile of WHO standards with no significant difference ($P \leq 0.05$) observed in case of weight (44.16kg). Mean BMI of both male and female students were well within the normal range. It was 18.58for male and 19.50for female students. Mean waist to hip ratio for male and female students were 0.80and 0.79respectively which signifies 'thinness'. The daily mean intake of energy (1636.68Kcal,) protein (28.47g), iron (10.31mg) and calcium (400.69mg) by the female students was significantly ($P \leq 0.05$) lower than the recommended RDA intake. The daily mean nutrient intake value of various nutrients viz., energy (2367.42Kcal), protein (38.77g), iron (15.57mg), and calcium (433.63mg) by the male students was significantly ($P \leq 0.05$) lower than the recommended RDA intake.
- Sixty ICDS field functionaries from Faridabad district were assessed for nutritional status through anthropometric measurements and results indicated that ICDS field functionaries had significantly higher weight (67.38kg), BMI (26.11), waist circumferences (102.17cm) and waist to hip ratio (0.7) than the reference values suggested by ICMR, 2020 and WHO (2008). On the basis of BMI classification, more than half of the respondent (56.7%) were found to be overweight followed by normal (28.3%), underweight (8.3%) and obese (6.7%). As indicated

by waist circumferences and waist to hip ratio the respondent were found be at the substantially increased risk of diabetic mellitus and cardiovascular diseases.

- A survey of 100 rural adult females (sedentary) of Neoli Kalan village, Hisar was conducted by interviewing. Rural adult females had poor eating habits. They were in the habit of snacking (65%) and were not taking balanced diet. Maximum 75 per cent respondents drink 4-6 glasses of water in a day only. Intake of fruits and green leafy vegetables was minimal including banana, guava, mango, spinach and coriander. There was found monotony in the intake of food items in each type of food group. Like main cereal consumed everyday was wheat by 100 per cent respondents followed by rice and bajra. So, there is need to impart nutrition education for changing the food frequency of different food groups to the respondents for fulfilling balanced diet requirements.
- An online survey was conducted and 80 responses were recorded from different districts of Haryana (Rewari, Hisar, Mewat, Mahendargarh, Nuh, Kaithal, Jhajjar, Yamunanagar, Jind, Sirsa, Bhiwani, Rohtak, Gurugram, Fatehabad and Sonipat) to assess their food consumption frequency and anthropometric measurements. The cereals and millets i.e. wheat, rice, bajra, maize and jowar were consumed by all the rural women. Maximum number of respondents consumed red gram *dal* (23.75%), *rajmah* (36.25%), soybean (28.75%) and peas (22.50%) twice a week, weekly, rarely and thrice a week, respectively. Maximum number of respondents consumed curd (61.25%), butter milk (38.75%), *desi* ghee (90.00%) and butter (33.750%) on daily basis. As many as 8.75 to 55.0 per cent of rural women did not consume refined oil, olive oil, mustard oil and hydrogenated fat. The mean values of height and weight of rural women were 160.50 cm and 56.13 kg, respectively. The body mass index of rural women was 21.75. The mean values of waist and hip circumference of rural women were 78.44 and 92.48 cm, respectively. The mean value for waist to hip ratio was 0.85. Pearson's correlations coefficients of family income were significant for intakes of protein, vitamin A, vitamin C, iron, zinc and calcium (r=0.53, r=0.46, r=0.35, r=0.27, r=0.41 and r=0.39 respectively; $p<0.05$, $p<0.01$). A similar trend of correlations was observed between respondent's education, spouse's education and family size and intakes of major nutrients.
- Two trainings were organized for ICDS field functionaries to develop a better understanding of foods belonging to different food groups, nutrients, their functions, deficiency disorders and locally available rich food sources and recipes etc. It was found that to prevent corona, the consumption of fruits and vegetables, citrus fruits, garlic, ginger, honey, nuts and fruit juice was increased by the respondents. They reduced the consumption of fast food, chips, puffs, junk food, street food and raw foods. The lifestyle and eating habits of the respondents did not change during COVID-19. Expenditure on green leafy vegetables, pulses and legumes, fruits, vegetables and milk and milk products s increased whereas expenditure on ready to eat foods decreased in 37.16 per cent of the respondents during COVID – 19.
- Training on Peanut products was imparted to twenty-five rural women (20-50 years old) from Fatehabad (Village Badopal). Hands on training along with lectures were given on Peanut value added products namely peanut *mathi*, peanut *chaat* and peanut *nutties.* Average pretraining awareness score regarding nutritional benefits was 4.33±2.16 which improved to 8.24 ±0.73 after the training programme. Average awareness score regarding varied uses of peanuts was 1.11±0.17 which improved to 4.27±0.26 after the training programme. Paired sample t-test depicted significant (p=0.05) difference in pre and post training knowledge scores. All three value added recipes were highly appreciated by trainees. Peanut nutties followed by *Chaat* scored highest in sensory preference as well as ease of making.

- Sixty school going children (7-9 yr.) including both boys and girls, were assessed for their nutritional status. Mean height, weight, Body Mass Index and Mid upper arm circumference were significantly (p=0.05) lower than the NCHS standards in both boys and girls. Boys under study had a mean height 110.94±10.09 cm, weight 19.78±5.37 Kg, BMI 16.08±1.20 Kg/$m^2$and MUAC14.83±2.45 cm. Mean height, weight, BMI and MUAC for girls under study were 111.53±7.92 cm, 18.39±3.72 Kg, 14.72±2.03 Kg/$m^2$ and 13.94±1.32 cm, respectively. Energy, Protein, Calcium and Iron intake were only 62.90, 75.12, 50.01 and 65.87 per cent of RDA in boys while it was 60.90, 73.29, 51.84 and 62.44 per cent of RDA for girls. Diets of boys, as well as girls, were most deficient in fruits, total vegetables as well as pulses. Intake of cereals, milk & milk products, Sugar & Jaggery and Fats & Oilswas 68.27, 65.26, 89.50 and 75.77 per cent of RDI in boys while it was 71.24, 70.41, 87.50, and 61.00 per cent of RDI in girls.
- Data were collected for anthropometric measurements and dietary pattern of overweight rural women. Results showed that the mean height of the selected overweight control subjects was 155.01±5.30cm and mean weight was 73.16±10.65kg. The body mass index (kg/m2) was calculated as 30.37±3.53 (kg/m2). The mean intake of all food groups was less than the Recommended Dietary Intake suggested by ICMR (2010) except fats & oils and milk & milk products in all the subjects. Among nutrients the mean intake of energy, protein, iron, folic acid and vitamin $B_{12}$ was less whereas the intake of fat, calcium, thiamine, vitamin C and magnesium was high when compared to recommended dietary allowances.

- An online survey was conducted on diet and nutrition during COVID-19 pandemic era. Results revealed that during COVID-19 the fruit intake of 53.66 percent of the respondents was increased. The foods consumed less during corona outbreak were fast food, junk food and outdoor food. Cooked food (70.12 percent), fruits & vegetables (69.16 percent), nuts (40.24 percent) and dairy products (41.20 percent) were consumed most during corona outbreak. Regarding safety of food, majority of respondents washed their hands after grocery shopping, and rinsing fresh produce and disinfecting purchased food items either with water or water plus salt. In order to prevent corona, the consumption of fruits and vegetables, citrus fruits, garlic, ginger, turmeric and nuts was increased by 63.04, 52.90, 42.75, 45.41, 43.96 and 32.37 percent of the respondents respectively. Majority (88.54 percent) of the respondents were of the opinion that warm/hot temperament foods could prevent or treat corona.
- Changes in food and dietary habits of rural families during COVID-19 were assessed. Data obtained showed that majority of the respondents were in the age group of 20-50 years. All of them were Hindu and females. The study on food consumption pattern of rural women showed that 66.22 per cent of the respondents were taking meals 3 times a day before COVID but during COVID an increase was observed in number of meals taken by the respondents. Majority (92.57%) of them were vegetarian. The meal pattern showed no change in respondents' taking breakfast and dinner before COVID and during COVID. Majority (86.49 %) of the respondents were not taking any supplements during COVID however 55.41per cent of the respondents had knowledge regarding role of vitamin C and vitamin D in immunity building. There was not much change in the food portion of each meal as a result of COVID – 19. The food portion of each meal was same as before in majority of the respondents. Among cereals and millets wheat was consumed by 100% of the respondents irrespective of COVID situation. It was observed that their consumption of pulses, green leafy vegetables, other vegetables, fruits, milk and milk

products increased during COVID-19. The consumption of ready to eat foods decreased during COVID and the consumption of homemade recipes was found to increase during COVID. The daily consumption of water also increased during COVID.

- Data were collected on food consumption pattern and dietary intake of 150 rural women from different villages of Hisar (*Kushal ki Dhani, Peerawali Dhani, Heeran ki Dhani, Raju ki Dhani* and *Kumhaaro ki Dhani*). It was found that the mean intake of energy (62.80 %), calcium (77.59 %), iron (42.76 %), zinc (56.69 %), thiamine (68.24 %), riboflavin (36.49 %), niacin (47.74 %), vitamin B6 (55.70 %) and vitamin A (20.26 %) was less than Recommended Dietary Allowance (ICMR, 2020). The intake of different food groups was less (31.08 to 80.33%) than Recommended Dietary Intake except milk & milk products which was 77.4 per cent higher than the Recommended Dietary Intake. The clinical symptoms of nutrient deficiency were not visible in majority (85.33 to 100%) of subjects and morbidity status of families indicated that only 40.67, 38.00 and 36.67 per cent of the respondents had cold, cough and fever, respectively in past three months.

*ANNEXURE III- C*

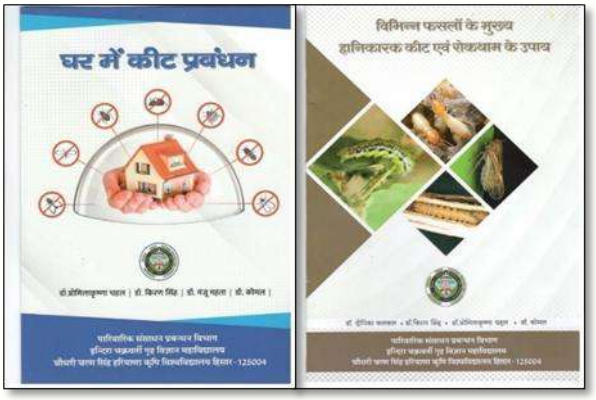
## SALIENT RESEARCH ACHIEVEMENTS OF DEPARTMENT OF FAMILY RESOURCE MANAGEMENT

### Participation of rural women in dung collection and mitigating solution

- Females were collecting dung themselves twice a day using *Tasla* & *Indi*. The average distance travelled was 573.88m, carried 17.6 kg of dung per trip, and spent 93.6 min in dung. Back bending posture in collection and lifting neck bending in disposal was mainly used. Women were found to be involved in dung collection including preparation of dung cakes and cleaning of animal shed, 98.9% and 96.67%, respectively were involved.
- The Main constraint in dung collection was uncomfortable posture with heavy load.Grip fatigue of 23.65 percent was observed for right hand and 18.59 percent in the left hand after performing the dung collection activity was observed.The total biomechanical stress score was maximum in collection activity (32.9), followed by lifting activity (27.3).
- Ergo dung collector was developed to combat the biomechanical stress.

### Income generation through eco-friendly utility articles

- Pre-exposure knowledge of the respondents regarding environment protection was low but it increased to high level after knowledge was imparted to them. For promoting environment, five days training on making of eco-friendly utility and decorative articles was conducted in village Mangali from 29.03.2019 to 03.04.2019, where about 20 rural women participated.
- Maximum income of Rs.3750 was generated in 'Decorative mud *diyas'* (for *Diwali*) followed by 'Necklace made from wooden beads' (Rs. 2100) and 'Decorative *rakhis'* (Rs. 2000) and minimum income Rs. (600) was generated through 'Decorated glass bangles'. The highest Benefit-Cost Ratio of. 4.00 was for 'Decorative paper envelops' (used for ceremonies/s*hagun*). Whereas least Benefit-Cost Ratio of 1.50 was for 'Decorated glass bangles'



### Linkage Development for Income Generation:

- Exhibition-cum-sale of rakhis and wooden bead ornaments prepared by women of Mangali village was organized in COHS before Raksha Bandhan on 9.8.2019.
- Exhibition-cum-sale of various eco-friendly articles prepared by women of Mangali village was organized in deptt stall of Krishi Mela (*Rabi*) on 12.9.2019
- Exhibition-cum-sale of various eco-friendly articles prepared by women of Mangali village was organized in College function 'Creations 2019' on 24.10.2019
- Exhibition-cum-sale of various eco-friendly articles prepared by women of Mangali village was organized in deptt stall in 'Startup Summit' on 2.2.2020

**Trainings on Eco-Friendly Utility Articles**

## Involvement of farm families in pest control

- Majority of the families were facing problem of ants (85.3%), rodents (79.4%) and pantry pests (70.0).
- Majority of respondents (93.3) used physical method of pest control followed by natural remedies (89.0), and poisoned bait (62.6).
- Farmers were found to be spraying pesticides by themselves and only few of them (4.33%) were using special gloves while spraying, 57.33 percent covered their nose and mouth with cloth piece or *dupatta* as a type of face mask in order to protect inhalation of pungent smell and precaution to reduce side effects of pesticides. Long sleeved shirt was used as protective method while applying pesticides at farm by 86.0 percent respondents
- Two booklets were prepared to aware the rural people about pests and their management techniques at farm and household level. Pest infestation is gigantic problem both at farm and at household level, the crisp piece of information in form of booklets is ready reference material for farmers and farm women.

## Assessment of the work stress of self employed women in rural area

- Majority of respondents complained about no control over the day-to-day work activities and unavailability of support when undertaking new tasks / activities, The major personal factors of stress among respondents were pressure of being physically active (2.63) followed by relationship stress factors involved difficulties with partner, relatives, friends, etc (2.30) followed by inability to spend quality time with family / friends (2.30).
- Lack of financial security and well being was the major financial stress factor identified among self employed rural womrn.

## Development of Modules to Overcome Stress

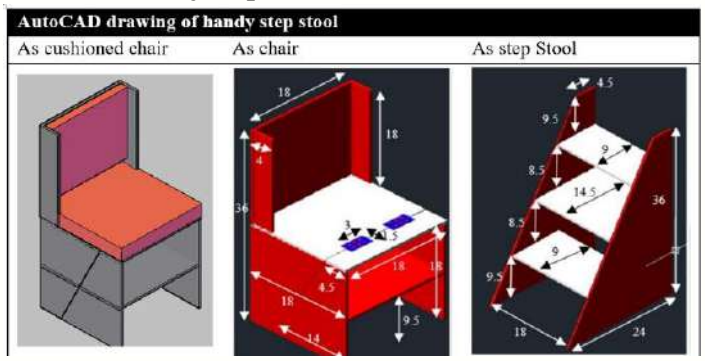
- Following three module were developed to overcome the stress of women at work.

**Module I: Lecture on Coping Strategies to overcome stress** was delivered to self employed women at Village Dabra (Block 1) from 27$^{th}$ to 29$^{th}$ November, 2019

**Module-II: Yoga and Meditation*:*** Session on "Yoga for stress management" was organized for self employed women at village Dabra (Block 1) on 30$^{th}$ November, 2019.

**Module – III Mindfulness Techniques:** Two Days Sessions on "Mindful Techniques" was conducted at Rawalws Khurd (Block-II) from 31st January to 1st Feb., 2020.

## Human factors in rural kitchen design and customizing a tool for work simplification



- In all kitchen there were storage shelf 1 and 2 and only 60.0 per cent kitchen were found to be having storage shelf 3. The mean height of counter was found to be 94.27±4.44 cm and depth was 62.05±8.13cm. The height of counter was not adequate and was either too high (20.0%) or too low (38.0%) in more than fifty percent of the kitchens.
- The mean height of 1st, 2nd and 3rd storage shelf were 138±15.6 cm, 183.4±18.6cm and 244.7±21.6cm which were found to be higher than women standing shoulder height (130.8±5.7cm), standing height (160.2±5.31cm) and standing vertical reach (188.3±19.8cm), respectively.
- Women were taking help of other family members to get the material from upper shelf and using stool or *patra* to reach and grasp the material which sometime also causes injuries and fall. Not a single kitchen was found appropriate/fit to women users who were working 5-6 hrs daily in the kitchen.
- In order to create a prototype tool for kitchen work simplification, anthropometry data of women was collected and tool (handy step stool) was developed.

## Specifications of tool (handy step stool)

**Materials used:**Wood;**Weight:** 5 kg; **Total length:** 36 inches; **Blade length:** 18inches; **Price (Rs.):** 800 + 18% GST = Rs. 944

**Dimensions of handy step stool**

| Particulars | Dimension (inches) |
|---|---|
| **Chair** | |
| Height of chair | 36 |
| Sitting height | 18 |
| Width of seat | 18 |
| Back rest | 18x18 |
| **Cushion** | |
| Size seat cushion | 18x18 |
| Size back rest cushion | 14x18 |
| Width of seat cushion | 2.5 |
| Width of back rest cushion | 1.25 |
| Nature of cushioning | Removable/easy to fix |
| **Steps stool** | |
| Height of step 1, 2, 3 | 9.5, 8.5, 8.5 |
| Width of step | 18 |
| Depth | 10±2.5 |
| Maximum height of last step | 27 |
| Maximum height of tool | 36 |
| Weight | 5kg |
| Steady convertible point | Hinge joint |
| Attachment point | Magnetic lock |
| **PVC buffer** | |
| Height | 0.87 |
| Width | 0.87 |
| Total number | 6 |

- Tool was found suitably fit for women workers working task inside the kitchen specially related to reaching, grasping, replacing of tool form high height storage shelf and in sitting helpful to preparation and cooking tasks. As per p value, regression model was found to be significantly fit for women respondents ($p<0.03$) and engineer (0.036) and highly significant for ergonomists (0.0007).

## Awareness and perception of rural women towards green products

- Majority of respondents, i.e. 78 percent and 86 percent respondents from Hisar and Mahendergarh respectively had never considered the green product while doing shopping. As their awareness level is low, therefore its conversion into purchase intention was also very low.
- Majority i.e. 72% of the respondents in case of Hisar and 70% in case of Mahendragarh were not using organic food. More than half i.e. 53 percent respondents from Hisar and 67 percent those of Mahendergarh were not familiar with or unaware about price differentiation and a meager percent of respondents from both the districts believed lower price of green products in comparison to its benefits.
- Around one fourth (26%) of respondents from Hisar expressed their favorable attitude towards green products and 17% of respondents from Mahendergarh were observed in the same category.

## Productivity Improvements through Work Study Methods in Cotton Mill Workers

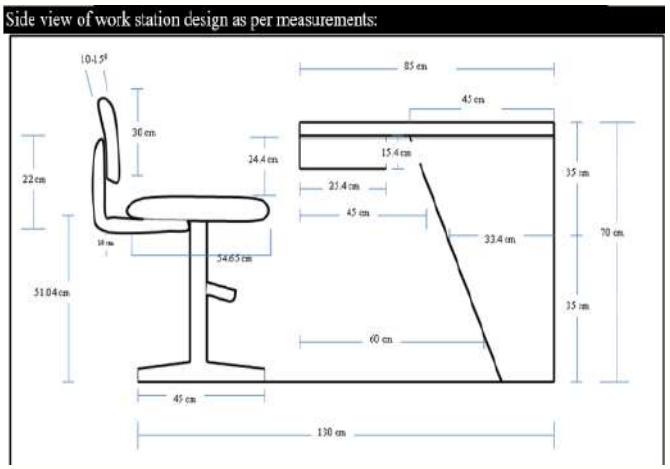
- Maximum number of machines were found to be installed in card (24 machine) and ring frame (24 machine), besides in lap former activity only one machine i.e.LMW (LH-10) was available.
- Maximum number of workers appointed per activity was found to be in ring fame (42), followed by speed frame (28) and card (12), and an equal number of workers (10 each ) were found to be engaged in auto corner and link corner activity.
- Training was given after selection of the workers for job at Cotton Mill. There was separate training for each activity.
- In operation maximum time involvement was found in TFO (34.22minutes) and link corner (32.00minutes) activities. Blow room worker was spending major time in inspection followed by comber has major action time as storage (9.40minutes).
- Twelve yarn making processes were analysed in cotton mill under the criteria, no of activities, involvement time and distance travelled.
- Yarn making activities were studied under eight sections of flow process chart including; operation, inspection, storage, delay, transportation, change point, operation and inspection and operation and transportation. Maximum no of activities was observed in ring frame activity (83/hr), followed speed frame (70/hr) and finisher (68/hr). In case of involvement time maximum activity time was, spend by ring frame worker (58.44minutes/hr) on work, followed by in finisher activity (57.41minutes/hr) and breaker (53.8 minutes/hr). Workers of card (3.02km/hr) covered maximum travel; followed by ring frame (2.83km/hr) and speed frame (2.68km/hr) workers.
- No association was found between total activities, time involvement and distance travelled by workers. As each activity was demanding time involvement and number of activities and distance travelled in different way.

## Appraisal of carbon footprint of household energy use

- Maximum number of women were having medium level of knowledge regarding generation of carbon footprint during transportation (50.0%) followed by in households through equipment and through households waste (44.4 %)

- The annual electricity consumption by 45.8% respondents was 4001-6000 kWh followed by 41.7% were consuming 2001-4000 kWh and 12.5% were consuming 1000-2000 kWh. The average annual electricity consumption was 3706.5KWh.
- About half (48.4%) of the respondents were consuming 90-144 kg of LPG annually for cooking followed by 41.6% who were consuming 145-199and kg of LPG/year. Only 10.0% of respondents consumed 200-254 kg of LPG in a year. Average annual LPG consumption was 154.94 kg.
- Half of the respondents (50.83%) had generated 4.11 – 5.49 tonnes of $Co_2$/year, whereas, 30.00% respondents produced high amount of carbon footprints annually (5.50-6.88 tonnes of $Co_2$). Low amount of carbon footprints (2.72-4.1 tonnes of $Co_2$) were generated by 19.17 % of the respondents per year. The acceptable range of carbon footprint is 0-2 tonnes of $Co_2$.
- The carbon footprint generated by all the households was more than acceptable limit. So training and awareness is required in this area.

**Ergonomic assessment of women involved in activities of Tomato production system**



- Average energy expenditure of respondents was 11.70 kj/min (Heavy physiological workload) by the conventional method and 9.76 kj/min (Moderately heavy workload) by using transplanter.Overall score of RPE was 4.07 in conventional method (Heavy exertion) and 3.51 (Moderately heavy exertion) by using transplanter in tomato cultivation. After using transplanter highest percent reduction in exertion was found in thighs (16.67%), followed by neck (15.79%), legs (15%), knees (13.64%), lower arms (10.87%) and fingers (10.53%).

**Ergonomic evaluation of existing and improved method in bead making**

- Majority of the respondents were aware about the health hazards due to the working conditions in bead making enterprise. All the respondents had cuts (100%) followed by eye irritation (90%), itching (70%), muscle pain and discomfort (70% each).
- None of them were using apron, gloves, face mask, hat and ear plugs.Total Job Strain score was 4.5 depicting that job may place individual at increased risk for distal upper extremities disorder.
- On the basis of workplace ergonomic risk assessment, bead making score was 42 depicting "Task needs to be further investigated and requires change".
- Five interventions i.e. organized workplace, comfortable seating place (with cushioned mat/ gaddi); finger protector; eye glasses, ear plugs and face masks and string maker were made in existing condition of bead making and their effect on workers were studied in terms of rating of perceived exertion, physiological health and grip fatigue. After using improved methods of bead making the energy expenditure of workers was reduced by 10.58 percent. The workers were found to be comfortable at improved condition and overall RPE was reduced by 11.27 percent.

- Grip fatigue was also found lower in improved conditions as compared to existing conditions.
- Workers expressed willingness to adopt and use above mentioned items which make the working conditions comfortable as compared to existing conditions.
- Anthropometric measurements were taken to redesign/modify the workplace because the workers were satisfied with the height and other dimensions of the existing workplace.
- A module was prepared to minimize work hazards of workers engaged in bead making enterprise. The booklet was published with university no. CCSHAU/PUB#22-068. Booklet is helpful material for bead makers on how to improve their working condition at get higher output with minimal input of energy and time.

## Impact assessment of gender friendly technologies in carrot production system

- Total production cost of carrot farming in one acre agriculture land was found to be Rs. 58,472 (harvested manually) and Rs. 63,222 (harvested by tractor) and total production of carrot was 11,250 kg (112.5 Quintal) which was Rs.1,35,000 as gross return.
- Net return in term of rupees was Rs. 76,528 (by tractor) and Rs. 71,778 (manually).
- Most of drudgery prone activities were performed by female like; weeding (DI-83.67), separating green (DI-70.67), packing and loading (DI-56.33), and collecting carrot (DI-55.67) with their drudgery rank of I, II, V,VI, respectively.
- Blood pressure, heart rate and grip strength of workers were found to be near to rest level after using improved tool; besides these traditional tools were found to be significantly increasing the blood pressure, heart rate and grip fatigue of workers.
- By using hand wheel hoe and sickle in weeding activity the production was found to be increased by 73.3% per cent followed by use trolley and head load manager in loading activity increased the productivity by 50.0 per cent and carrot green cutter found to be increasing the work productivity by 33.3 per cent in separating green activity.

## Establishment and Management of Resource center

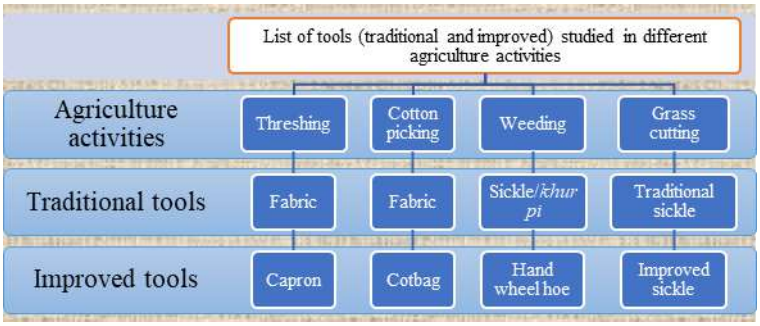
- Training and demonstration on agriculture tools was organized and tools were kept at resource centers for use of farm women.
- Two resource centers were established in Mangali and Behbalpur villages (one in each) of Hisar district, where agriculture hand tools were kept for use purposes of farm women.

- Demonstration on use of five agriculture hand tools i.e.sickle, capron, cot bag, string maker and head load manager was given. These tools were kept at resource centers.

- Each agriculture hand tool was given to each farm women for 30 days for use. A register was maintained in which issuing date, return date and performance level of each tool were recorded. Sickle (96.7%), cot bag (72.0%) and string maker (44.0%) were found to be used by farm women in daily agriculture activities, besides this capron and head load manager were mostly used in seasonal activities (100.0% and 78.0 %, respectively). No major discomfort was mentioned in use of capron, cot bag and string maker.
- As per Quality function deployment (QFD) methodology, improved sickle and head load manager were not found appropriate for use by farm women. Capron, cot bag and string maker were got high scores in all the perspectives of customer requirements, which represented that hand tools were found to be appropriate by farm women for use.

**Testing of technologies developed by different centers of AICRP**

- Ergonomic assessment of ring cutter (developed by PAU) in okra harvesting was done. As per Job strain index score and Workplace Ergonomic Risk Assessment (WERA) no significant effect was observed on by using ring cutter in Okra harvesting system. Ring cutter needs more changes for better adaptation by respondents, even the ring edges need more smooth finishing and blade with better sharp edge.



**Performance and acceptance of Improved chullah installed in village during RAWE**

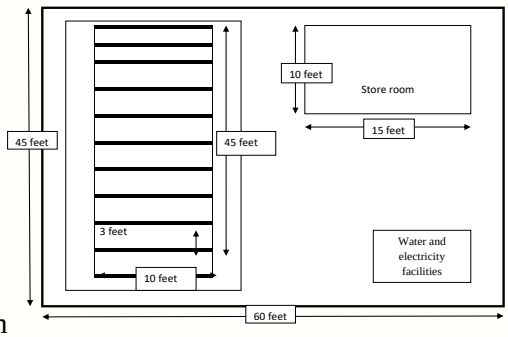
- Respondents were found to be facing several problems while using traditional *chullah* for cooking. The various health related problems faced by the respondents were, irritation in eyes, respiratory problems, backache, low visibility, headache etc. Time taken in preparing the meal on traditional *chullah* varied from 50 minutes to 56 minutes, with an average of 53.4 minutes. The time taken in preparing the same meal on MDV *chullah* varied from 38 minutes to 43 minutes with an average of 39.9 minutes. Thus, the average time saved in cooking on MDV *chullah* was found to be 13.5 minutes.

- The significant reduction of 17.34 per cent in time was observed while cooking on MDV *challah.* SPM was 825 µg/m³ in the traditional *chullah* whereas, in the MDV *chullah*, it was observed that 543 µg/m³. SPM was decreased 34.18 per cent by the use of MDV *chullah*. Permissive value was 500 µg/m³.Improved *chullah* was found to improve indoor environmental, work conditions and Suspended particulate matter **(**SPM) level decreased by 34.18 per cent.

## Evaluation and quantification of the drudgery reduced by AICRP tools

- Capron was used as an improved tool instead of fabric and results unveiled that heart rate ($\bar{X}$=88.4±6.9 beats/min) to $\bar{X}$=81.7±6.2 beats/min) and blood pressure ($\bar{X}$=82.9±7.7 to $\bar{X}$=79.8±7.2bp/min) of farm women was found significantly improved (t -=3.07 and 2.02, respectively) by using improved tools.
- The use of hand wheel hoe was found to be significantly improving (t= 1.98, 7.5, 2.21 and 2.68) the physiological health (heart rate, grip strength, oxygen consumption, and energy expenditure) of the farm women.
- Improved sickle was found to be significantly improving the grip strength ($\bar{X}$=21.2±2.1kg to $\bar{X}$=28.2±2.7 kg) and reducing energy expenditure ($\bar{X}$=15.01±2.8 to $\bar{X}$=11.43±2.3) of farm women.
- Cotton-picking tool (cotbag) used in improved condition was found appropriate in all parameters of testing including; difficulty felt (p=0.003), time spent (p=0.00018), and frequency of performance (p=0.002). Cotbag was found to be highly significant for cotton picking instead of fabric/*chunni*.

## Success story of rural women for revenue and employment generation



Products of craft jewellary

Training on craft jewellery making

***Success story-1****: Craft Jewellery making: Extended Work of Bead Making Enterprise.* Enterprise was established in Village 'Mangali' from last 10 years and was started by owner itself. Four bead making machine were installed at unit and 2 extra were also kept for emergency. Working time was 8-10 hrs with 30 days per month. Rate or wages was Rs. 300, paid in cash to workers. The total cost involved in bead making was Rs. 10,900. As per data the total production was of Rs.15,900 which represents that benefit cost ratio of 1:45 means respondents were having profit of Rs 1.45 over expenditure of Rs. 1.Besides this, two women of Mangali village have extended their bead making work to handicraft material. They have started to make handicraft article like *lariya*, silk and woolen thread bangles, pom poms, *gotapatti*, paper flowers, crochet and embroidery designs, etc by using beads. The total cost under tools purchased was Rs. 570/-. Craft making process was analyzed based on one week performance. The cost involved in making article under a week was studied. Products made by respondents were beads *lariya*, bangles, *pom poms*, *gotapatti*, paper flowers and crochet and embroidery designs. Cost involved in input for making these articles was calculated based on raw material requirement, time and labor involved and travel and transportation cost. Involvement of cost was Rs 1,315 and selling was of Rs. 2,750. Based on this the benefit cost ratio was found to be 2:09, which represent that Rs. 2.09 benefit on expenditure of every rupee.

## Success story of Vermi composting for Revenue and Employment Generation

Mr. Sukhpal, from Daya village, had started vermicomposting farming in his early years. He is educated up to 12th and now working as a messenger (contract basis) in CCSHAU, Hisar. He was found to be involved in vermicomposting production from 2001 to till now by following the passion of his father. He had five members in the family and all were engaged in vermicomposting production in their anyhow way. In 2011 he took the training on vermicomposting production from LUVAS, CCSHAU Hisar 2011. After that, he developed a new big unit of vermicomposting at home. The above diagram shows the detail of the unit. The total production cost involved was Rs. 63.658/-. Gross production under 10 beds of vermicompost production was 12,000kg of compost which was having Rs. 96,000/- as selling cost. The net return was found at Rs. 32,342/-.per 40 days. Overall benefit-cost ratio (BC ratio) of production was 1:51 which means there was Rs 1.5/- income on investment of Rs. 1.0/-.

## Acceptance and satisfaction level of potato peeler distributed in village during RAWE

- Knife took more time in potato peeling ($\bar{X}$=2.27±0.90 min.) compared to peeler ($\bar{X}$=1.02±0.15) and the capacity of knife ($\bar{X}$=440.26±38.9 grams/min.) was found less than peeler ($\bar{X}$=980.39±80.5 grams/min).
- The peel weight proportion was found less by using peeler (9.0%) comparative to knife (15.0%). Peel thickness was also found less ($\bar{X}$=1.1±1.9mm) by using potato peeler in comparison to knife ($\bar{X}$=1.7±2.3mm). The peeling efficiency of peeler was 60.0 per cent. The mean grip strength of right hand of women was $\bar{X}$=28.04±5.1 kg, which was found to be significantly (t=3.35 and p=0.004) decreased (15.47%) after using knife, besides, peeler was not found to be affecting the grip strength (t=0.879 and p=0.0049).
- Preference score of knife, was $\bar{X}$-4.02, which shows the highly discomfort level, besides peeler got $\bar{X}$=3.56 score represent highly comfort in use.

*ANNEXURE III -D*

## SALIENT RESEARCH ACHIEVEMENTS OF DEPARTMENT OF HUMAN DEVELOPMENT AND FAMILY STUDIES

**Research Schemes (2018-2023):**

| S. No. | Name of scheme | Scheme No. | Funding Agency |
|---|---|---|---|
| 1. | Human development and well being across life span | C(a)Dte-R-1-Agri.(A)-1220 | State Govt. |
| 2. | All India Coordinated Project on Home Science renamed as All India Coordinated project on Women in Agriculture w.e.f. 1.4.2022 | C(b) COHS-5-ICAR-5111 | ICAR |
| 3. | Women Empowerment and Gender Sensitization– Developing a Model for Bridging Gender Gap | C(b)-HDFS-3 ICAR NASF-5295 | ICAR |

### HUMAN DEVELOPMENT AND WELL BEING ACROSS LIFE SPAN

#### Creativity among adolescents (16-19 yrs.)

Comparative study on adolescents' creativity with regards to socio-economic variables was conducted. It was found that rural adolescents were more creative than their urban counterparts. Creativity was not found to be significantly correlated with socio-personal variables and the home environment of respondents but it had a significant positive correlation with the quality of the school environment.

#### Depression and loneliness among senior citizens

Study on depression and loneliness among senior citizens on two living arrangements revealed that most of the elderly who were living alone were having higher levels of depression and loneliness as compared to elderly who were living with their family. Female respondents were having higher loneliness feelings as compared to their male counterparts. The higher the level of loneliness among the elderly the higher was the depression.

#### Genetic and environmental influences on development

The heritability estimates indicated that height and intellectual abilities were the most genetically influential developmental domains in the twins study whereas, weight and socio-emotional abilities were found less influential & have scope for further improvement by providing a better environment.

#### Social maturity among preschool children

Rural preschoolers were having significantly higher social maturity than their urban counterparts. Social maturity was negatively and non-significantly correlated with ordinal position, family size, family income and parent's education.

#### Behaviour problems in children (6-10 Years)

The majority of children displayed a medium level of aggression. Boys were more aggressive as compared to girls and young children were more aggressive than older children. Most children were somewhat shy. Girls were shyer as compared to boys.

**Parental encouragement and academic achievement of adolescents**

Rural adolescents perceived high parental encouragement that resulted in high academic achievement than their urban counterparts. Parental encouragement was found to be significantly and positively correlated with ordinal position and family size of urban respondents.

**Psychological well being of institutionalized and non-institutionalized elderly**

The present study discovered the predictors of psychological well-being among elderly and found that marital status, education, and family living arrangement were the main predictor of psychological well-being.

**Introversion/extraversion and self-concept of adolescents**

The introversion / extraversion aspect of personality had no effect on self concept of adolescents. Rural adolescents had significantly higher self concept on intellectual and school status than their urban counterparts. Family size of urban respondents had a positive and significant correlation with their introversion /extraversion level

**Intervention for anger management**

Intervention programme had significant impact on the management of childhood aggression. After exposure to the intervention programme, children suggested significantly greater number of alternatives and consequences in solving interpersonal problems.

**Intervention to overcome shyness among children**

At pre-testing stage, boys were better than girls in coping with shyness behavior. After exposure to intervention programme, both boys and girls were similar in coping with shy behaviour.

**School environment and development of preschool children (3-5 years)**

More than 70 percent children from urban area enrolled at Preschool Laboratory. Department of HDFS were in average category of physical, cognitive, language and socio-emotional development respectively.

**Parental expectations and academic achievement of adolescents**

A sample of 100 parents (50 mothers and 50 fathers) of adolescents from rural area was assessed for their perceived parental expectations. Both mothers and fathers had high and medium level of expectations. Academic achievement of adolescents was found to be positively and significantly correlated with father's expectations. Mothers and fathers had high involvement in the academics of their adolescent children. The level of parental involvement in academics had no significant correlation with the academic achievement of adolescents.

**Life skills of college students**

Fifty college girl students of College of Home Sciences were assessed for their life skills. More than half of students were having high level of overall life skills while approximately one-third of them had average life skills. Only one-tenth of students scored low on life skills. After the intervention, majority of the students showed improvement in effective communication skills, critical thinking skills, decision making, problem solving and coping with stress.

**College Students' Perception Regarding Online Learning**

Perception of 300 students from CCSHAU, Hisar regarding online learning during lockdown was studied. Most of the students used mobile phone for attending online classes. They faced

problems related to device availability, data consumption, network issues, lack of privacy at home, health issues due to increased screen time etc. The advantages of online classes included ability to attend classes from home which saves time and money. The suggested optimum duration for an online class was 40 minutes.

### Academic stress and mental health of college students

Academic stress and mental health of college students were studied. College students were having medium level of academic (70 %) and mental (62%) stress. Their academic stress was positively and significantly correlated with mental stress (r= .52**). Academic stress was significantly associated with family income ($\chi 2$ = 10.34*) and programme of study ($\chi 2$= 9.83*) while mental stress was significantly associated with area (5.61*), family type (7.00*) and family size (11.63*).

### All India Coordinated Research Project on Women in Agriculture

This was five-year long project focused on reproductive health, psychological well being of rural women and parenting in rural families. Data were collected from 300 rural women from five villages in Hisar district. Major findings and achievements are as under –

### Reproductive health of rural women

Majority of respondents belonged to lower middle socio economic status families. The level of knowledge of maternal and child health care of majority of respondents was average. Majority of respondents were having average level of reproductive health knowledge.

### Psychological well-being of rural women

Quality of home environment of majority of respondents was moderate. Psychological well being of majority of respondents was of average level. Psychological well being of young rural mothers got improved after intervention.

### Parenting index of rural families

Parent competency level of rural mothers and fathers was found to be high. Majority of the rural mothers and fathers had ‘slow to warm up’ parental temperament and average parent child relationship. Authoritative parenting style was preferred by majority of both rural mothers and fathers.

### Online intervention during lockdown

A WhatsApp group named “Jagruk Mahilayein’ for rural women during lockdown was formed. Knowledge was disseminated to rural mothers on Parenting and Psychological Well being during COVID-19 through e-posters and e-leaflets.

### Parenting problems during lockdown

Rural mothers of school going children faced multiple parenting challenges in the form of problems related to routine work, laziness, mobile phone usage as well as behaviour and adjustment problems among children during COVID-19. Mothers reported that their children watch more T.V., waking up late in the morning and showed irregularity in daily self-care activities like brushing teeth, bathing, eating etc. Majority of children had become lazy and showed lack of interest in studies during this period. Children spent more time on mobile phone during COVID pandemic and made a demand for smart phone. Approximately half of the mothers said that their children had become irritable and quarrel more with siblings. They also argued more with their elders during this period.

## Mental health of rural women during pandemic

Overall mental health status of the majority of the rural mothers was average followed by a very small number (2%) in the high category of mental health while none of them showed poor mental health.

### Leaflets Prepared

| | | | |
|---|---|---|---|
|  |  |  |  |
| **COVID 19 ke baare mein bachchon se baat karna** | **Khel khel mein seekhna** | **Jab bachche durvyavhar karein** | **Bachchon ki online suraksha ka khayal karna** |
|  |  |  |  |
| **Sakaratmakta banayin rakhein** | **Ek vyavasthit dincharya banayein** | **Bachchon ko mobile ki lat se nuksan** | **Bachchon mein mobile ki lat kaise chhuraein** |

Approaching coping strategies was adopted by rural women to tackle stress during the pandemic as they scored high on logical analysis, positive appraisal and problem solving dimensions of approaching strategies. Avoiding coping strategies were also adopted by rural women for dealing with stress during pandemic as the majority of the respondents showed a high level of acceptance and scored average with regard to cognitive avoidance and emotional discharge.

## Intervention for parenting and psychological well being during COVID era

Knowledge was disseminated with the help of lectures, leaflets, folders, group discussion etc. to rural mothers parenting in the COVID era. A five-day workshop on psychological well being and reproductive health of rural women was also organized. All the respondents found this knowledge as useful and the majority of them (90%) were willing to apply this knowledge in their day-to-day life.

## Intervention on Reproductive Health, Psychological Well being and Parenting

Lecture on Reproductive System

Lecture on Preparation for Parenthood

Group Discussion on Immunization

Lecture on Birth Control Methods

Lecture on Household hygiene

Lecture on Personal Hygiene

Lecture on Psychological Wellbeing

Workshop on Stress management

Lecture on immunization schedule

Lecture on healthy family relationships

Lecture on modern parenting practices

Lecture on ways to reduce family conflict

## Nutritional knowledge, attitude and practice of farm families

Majority of the respondents had no knowledge about super foods but they had knowledge about balanced diet. They also had knowledge that taking milk and milk products in diet enhances calcium and improves bone health. Most of them had no knowledge about the disadvantages of skipping meals but had knowledge about the importance of eating green leafy vegetables in their diet. None of them were using Chia seeds, quinoa seeds and flax seeds in their diet. Majority of them kept themselves hygienic and majority of the families were consuming cereals and milk and milk products in their daily diet. Vegetable seeds were distributed among farm women and they were motivated to establish nutria gardens. The intervention activities received wide media coverage and thus created awareness among masses also.

**Women Empowerment and Gender Sensitization - Developing a Model for Bridging Gender Gap**

The scheme was aimed at identifying and assessing gender gap indicators in rural areas to develop a Gender Sensitive Schematic Extension Model for addressing social and technological issues. Under the scheme, village Budak, Block Hisar II, District Hisar, Haryana was adopted.

**Major achievements-**

- The critical gender gaps in five fundamental pillars to holistic development viz., Social, Health & Nutrition, Economic, Environmental and Technological (SHEET) facets were identified and prioritized. The major areas of gender gap identified were 'equally paid for same amount of work done' (82.5%) in Social aspect; 'BMI (Body Mass Index) of female was at par with recommended BMI' (92.5%) in Health & nutrition aspect; 'equal access, control over land and water' (72.5%) in Environmental aspect; 'avail loan from financial institutions'(87.5%) in economic and 'knowledge in carrying out crop production and post-harvest activities' (57.5%) in technological aspects, respectively. Initial survey depicted that male members were more sensitized as compare to female regarding equality. Both male and female participants gained significant sensitivity level regarding gender equality as they tried to overcome the differences.
- Following models were developed and validated:

i. Gender sensitive schematic extension model

ii. A three-tier approach for *'Gender Sensitive Agri-Horti Cropping System Model'*

iii. Entrepreneurship Promotion Model in Mushroom Farming

Technologies were introduced for reducing daily work drudgery in rural women.

Interventions brought a significant change in all kind of gender roles and responsibilities.

Garment construction, soft toy making and artificial jewelry making were well adopted by women and there were three success stories of entrepreneurship initiated. The Success Story of the project has been uploaded in the homepage of ICAR website and Face book page of ICAR

The group approach in vegetable farming under Nutritional Security Model has generated a total income of Rs. 6, 55,515/- and it also enhanced the nutritional status of farm women and generated lot of awareness among the women group which motivated them to replicate this farming in different location of the cluster.

Farm women adopted paddy straw mushroom cultivation and earned an average gross return of Rs. 34,140/100 beds, while the average net return was Rs. 26,040/100 beds. The benefit: Cost (B: C) ratio worked out on the basis of net returns and cost of cultivation was 4.21, which was a remarkable achievement for a one-month crop. The intake of paddy straw mushroom being rich source of protein, dietary fiber and iron can also help to meet out the nutrition requirement of the farm families.

### Salient Research Achievements

**CD ROM Preparation for Dissemination of Developed Pick Bag Technology for Diversified Activities:** Based on the identified training needs of the end users, yhe print and electronic media package viz. CD ROMs and Book on Pick bag for Pearl Millet ear head collection, Pick bag for vegetable collection and Pick bag cum *gathri*; Booklets on cutting and stitching procedure of Pick bag for Pearl Millet ear head collection, Pick bag for vegetable collection and Pick bag cu*m gathri* and pamphlets on Pick bag for Pearl Millet ear head collection, Pick bag for vegetable collection and Pick

bag cum *gathri* were developed for dissemination of developed Pick bag technology among the beneficiaries and field functionaries. Developed media package was found very effective in dissemination of developed user friendly technology.

**Foot Covers for Weeding Activity in Paddy Crop:** For development of foot covers for weeding activity in paddy crop, problems of farmers were identified and as per identified problems, twenty designs of foot cover were created by incorporating different functional features. Three top preferred designs were used for development of foot covers and wear trial were conducted during weeding activity in paddy crop. As per the suggestions of the respondents, modifications were made in the most preferred design of the foot cover. The wear trials of the modified foot covers were conducted consecutively for three years to assess their suitability/ acceptability for weeding activity in paddy crop from respondents of different villages of Sirsa, Fatehabad and Kurukshetra districts on five-point rating scale. The opinions of respondents were also obtained about the acceptability of cost of developed foot covers. The developed foot covers were found easy to wear and remove being consisted of two separate parts, hence found acceptable by the respondents for weeding activity in paddy crop. Majority of the respondents reported the developed foot covers suitable for weeding activity in paddy crop. Eighty per cent respondents rated the cost of developed foot covers as appropriate. The developed foot covers were also suggested to be used for multiple functions in various crop operations such as fertilizer application and crop irrigation in winter season, pesticide application in different crops and tying and harvesting of sugarcane crop. Hence the developed foot covers can be used for multiple functions in various crop operations.

**Developed Foot Covers**

**Development of diversified textile products from textile textures:** Twelve diversified utility/ decorative products were developed using textile textures. In plant waste category the most preferred articles were table mat and bottle cover of *Bhabber* Grass, flower pot and coasters of *Sarkanda* straw and utility basket and Table mat of Date palm. In agro-waste category, paper weight and platter of Wheat straw; coasters and file coverof Paddy straw and table mat and decorative basket of Corn husk were most preferred. The cost of all the developed textile products ranged between ₹ 50-150/- and was rated appropriate by more than 80 per cent respondents. Hence, all the developed diversified textile products were found acceptable by the consumers.

**Products Developed from Textile Textures of Plant and Agro Wastes**

***Sarkanda*** | **Paddy Straw** | **Corn Husk Leaves**

**Designing and development of home textile/utility articles using selected surface enrichment techniques:** Eight products namely Pillow cover (2 sets), Cushion cover (2 sets), apron (02) and File folder (02) were developed employing selected designs, placement, colour ways and surface enrichment techniques. The developed products were got assessed from thirty consumers. In terms of embellishment techniques used, cushion cover I was found to be best in terms of appeal (WMS 2.80), colour combination, (WMS 2.64) and overall appearance (WMS 2.70). The cost of all the developed products was considered appropriate by majority of the consumers.

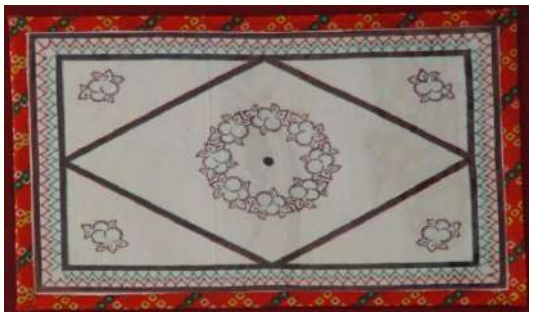
**Products Developed through Surface Enrichment Techniques**

**Exploration of diversified uses of *aak* (*Calotropis procera*) seed fibre:** Only three existing uses of aak seed fibre i.e. filling for pillow (30%), filling for soft toy (8%) and foot mat (2%) were reported. The experts suggested 21 articles which can be prepared using aak seed fibres i.e. mask, baby quilt/cover, baby wrap, bib, baby pillow, diaper, baby sheet, baby jacket, baby winter shirt/vest, baby bolster, baby feeder cover, pillow, cushion, prayer mat, bed cover/ bed spread, tiffin cover, bottle cover, *chapati* box cover, curd vessel cover, travelling pillow/neck pillow and wall hanging. Out of the 21 listed articles, baby pillow was the most preferred article followed by baby winter shirt/vest and tiffin cover. The *aak* seed fibres were also found suitable for hand spinning.

**Baby Pillow**

**Revival of Traditional Textile Craft**

- Data base of traditional motifs of Haryana was compiled. Designs were developed for contemporary application using traditional motifs and apparel, home textile and utility articles were developed through digital embroidery.
- The traditional motifs of *durrie* weaving craft of Haryana were utilized for development of innovative designs. Diversified products (Cushion covers, Sofa back covers and Tote bag) were prepared using the developed designs through screen printing technique. The developed products were found acceptable among the consumers.



**Diversified Products Developed using *Durrie* Motifs**

## Utilization of natural resources for textile wet processes

Prepared value added products (Table mats and file folders) through screen printing using *kachnar* bark and henna leaves dyes and natural thickeners i.e. cassia tora gum and mango kernel starch.The prepared products were found cost effective and acceptable among the consumers.

**Screen Printed Table Mats**

Development of health care textile products using antimicrobial herbal finish: The different products selected for development of health care textiles were multi purpose wipes, apron, kitchen napkin, hand towel, mask and head cover. The woven cotton fabric was selected for preparation of multi purpose wipes, apron, kitchen napkin and head cover whereas knitted cotton fabric was selected for hand towel and face mask. The top ranked design of each article was selected for development of selected health care textile products using herbal finished fabric. Five plant extracts i.e., *giloy, amaltas, neem, arjun* and lemon were used for assessment of antimicrobial activity against *Pseudomonas aeruginosa* (Gram negative bacteria), *Staphylococcus aureus* (Gram positive bacteria), *Candida* (Unicellular fungi) and *Aspergillus awamori* (Filamentous fungi). Among all the plant extracts, *neem* leaves extract exhibited maximum antimicrobial activity against growth of microorganisms; therefore, *neem* was selected for synthesis of silver nanoparticles for application of herbal finish on cotton fabric.

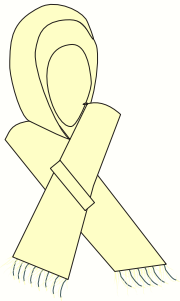
Products Prepared from Herbal Finshed Fabric

Development of herbal nursing wipes: Knitted cotton fabric was the most preferred fabric for development of nursing wipes (WMS 7.75). Antibacterial efficacy of herbal extract combination of *harada* (*Terminalia chebula*) and *jaiphal* (*Myristica fragrans*) towards the test micro-organism (lactic acid bacteria) was found to be maximum at optimum values of treatment parameters i.e. 3 percent concentration of herbal extract, $60^0$ C treatment temperature and 30 minutes treatment time for application on knitted cotton fabric. The treated fabric showed strong activity with 16 mm zone of inhibition against the bacteria and the fungi. Hence, nursing wipes were prepared using the herbal treated fabric.



Development of Ultraviolet Protective Scoodie: The cotton fabric was selected for development of ultraviolet protective scoodie and different finishing treatments were given to impart ultra-violet protection. The highest UPF value (27.69) was noticed in mordant combination of ferrous sulphate+myrobalan and dyed with curry leaves which depicted very good protection whereas the ferrous sulphate+myrobalan pretreated onion skin dyed cotton fabric showed good protection (23.39) followed by henna leaves (21.79), *neem* leaves (20.94) and turmeric (19.48). Three top preferred designs i.e., design number 1, 4 and 5 were selected for development of scoodie using ultra-violet finished cotton fabric.

Design 1 (WMS 2.68)

Design 4 (WMS 2.52)

Design 5 (WMS 2.36)

**Selected Designs for UV Protective Scoodie**

Standardized conditions for application of herbal finishes on cotton, silk and wool and tested the efficacy of finishes against different gram positive and gram negative bacteria. Different herbal extracts viz. *neem*, *safeda*, *jatamansi*, *giloi*, *karanj*, aloe vera, *harada*, *jaiphal* etc. imparted very good bacterial resistance to the selected fabric and were found to be the effective sources of bacterial resistant finishes. Standardized conditions for application of biopolymers and enzymes on natural fabrics for improving their dyeability. The application replaced the use of metallic mordants and salt for dyeing, improved the dyeability, fastness and shrink resistance properties of natural fabrics.

**Value Addition/Quality Improvement of Underutilized Textiles for Environment Sustainability**

**Designing and Development of Value-Added Diversified Products using Textile Waste:** Textile waste in the form of left over and defective fabrics was collected from CCS HAU Campus. After initial experimentation, the collected fabrics resulting in creative outcomes were selected for the development of innovative products. Different diversified products viz. Baby Sheet, Carry bag, Shopping bag, Sling bag, *Potli* bag, Ceremony bag, Children's dress, Ladies' suit, Multipurpose

basket and Wall pocket were developed from collected textile material as per their suitability. The cost of developed products was calculated including the cost of raw material and labour charges. The developed products were assessed from fifty consumers on different parameters using a three-point continuum scale. The developed products were also got assessed for market potential and consumer acceptance.

**Value-Added Diversified Products using Textile Waste**

**The ICAR-NASF multidisciplinary project on Women Empowerment and Gender Sensitization- Developing a Model for Bridging gender Gap:** The Project was implemented in village Burak of Hisar district, Haryana with the aim of creating and sustaining Women Empowerment and Gender Sensitization for bridging the gender gap, gender gap indicators have been identified through on-farm and off-farm survey, workshops and brainstorming sessions. A three-tier viz; 'Mass', 'Target group' and 'Focused group' approach was adopted for addressing identified

social and technological issues and Gender Sensitive Extension Model was developed for conducting action research as per the needs, interest, available assets and market preferences of the rural community. The model is based on moving from generalized to specific approach to minimize the identified gender gaps in social participation, health & nutrition, educational, economical, technological and political matters. All the three core approaches i.e. mass, targeted group and focus group approaches helped in women empowerment through skill development and entrepreneurship. These approaches also sensitized the rural community for sustainable development, though the sensitization is the ongoing process.

**Lecture Organized for Rural Women:**

- Sustainable Use of Textile Waste for Income Generation Activities for rural women on December 16, 2021
- Use of Paper Pattern for Entrepreneurial Activities for rural women on January 28, 2022
- Protective Clothing for Farm Workers and Animal Husbandry Activities for rural women on February 04, 2022
- Establishment of Microenterprises (TAD) for rural women on February 04, 2022

**Capacity Building Trainings Organized for Rural Women:**

Organized Entrepreneurial Skill Development Training on 'Utility Article Production' for rural women of Burak village from December 20- 24, 2021 for production of potli, hand bag, currency pouch, envelope clutch, sling bag, travel bag, gym bag (duffel bag), folding bag, backpack bag, round bag, storage kit, makeup box kit, pen & pencil kit, kitchen napkin storage and multipurpose organizer.

Organized Entrepreneurial Skill Development Training on 'Home Textiles and Accessories Production' for rural women of Burak village from December 26- 31, 2021 for stitching of apron, different types of curtains, fitted bed sheets, different types of face masks, face cover, cotton pick bag, different types of covers i.e. blouse, *peticoat*, *saree*, single & double blanket, cushion (square, rectangle and round), washing machine, sewing machine, mattress, *mudha*, box, bottle, *chapati* and cooler covers.

Organized Entrepreneurial Skill Development Training for rural women of Burak village on 'Apparel Production' from January 03- 14, 2022 for stitching of different types of frocks (with pleated and gathered skirts), *kameez-salwar*, different types of blouses, *petticoat*, panelled plazzo, skirts, gowns, *kalidar* suit, gents' *kurta-pyjama*, night suit, different types of neck and sleeve designs and woolen socks.

After imparting trainings, perceived feasibility of the demonstrated products was calculated to measure the extent of liking and ease of making products.

**Entrepreneurial Skill Development Trainings**

Organized Entrepreneurial Skill Development Training on 'Home Textiles and Accessories Production' for rural women of Burak village from December 26- 31, 2021 for stitching of apron, different types of curtains, fitted bed sheets, different types of face masks, face cover, cotton pick bag, different types of covers i.e. blouse, *peticoat*, *saree*, single & double blanket, cushion (square, rectangle and round), washing machine, sewing machine, mattress, *mudha*, box, bottle, *chapati* and cooler covers.

Organized Entrepreneurial Skill Development Training for rural women of Burak village on 'Apparel Production' from January 03- 14, 2022 for stitching of different types of frocks (with pleated and gathered skirts), *kameez-salwar*, different types of blouses, *petticoat*, panelled plazzo, skirts, gowns, *kalidar* suit, gents' *kurta-pyjama*, night suit, different types of neck and sleeve designs and woolen socks.

After imparting trainings, perceived feasibility of the demonstrated products was calculated to measure the extent of liking and ease of making products.

- **Perceived feasibility of stitching of utility articles among respondents:** Mean scores of data pertaining to perceived feasibility related to construction/design techniques of utility articles highlighted that most of the respondents 'extremely liked' the construction/design technique of utility articles as mean scores of all the articles were above 2.73. Making of utility articles was found very easy for *potli* bag followed by different types of cushion covers and *petticoat* cover. All the other utility articles were also found very easy to make as feasibility mean scores were above 2.40.
- **Perceived feasibility of stitching of home textiles and accessories among respondents:** Mean scores of data pertaining to perceived feasibility related to making of home textiles and accessories highlighted that most of the respondents 'extremely liked' the construction/design techniques of kitchen napkin storage kit (3.00), multipurpose organizer (3.00), pen & pencil kit

(2.96) makeup box kit and different types of face masks (2.93 each). Making of articles was found very easy for kitchen napkin storage kit (2.66) followed by pen & pencil kit (2.63), round bag and apron (2.60 each).

- **Perceived feasibility of stitching of various garments:** Mean scores of data pertaining to perceived feasibility of various demonstrated garments among respondents depicted that most of the respondents 'extremely liked' the construction/design technique of *kameez-salwar* (2.96), gown and woollen socks (2.93 each) and different types of frocks (2.83). Making of utility articles was found very easy for *kameez-salwar* (2.73) followed by different types of frocks (2.66) and night suit pajama (2.36).

*ANNEXURE IV*

## EXTENSION ACTIVITIES

### *ANNEXURE IV- A*

### Department of Extension Education and Communication Management

Awareness Programme on Hygiene and Sanitation (21.7.2018): As a part of *Swachh Bharat* Mission, awareness programme was organized in Govt Girls Secondary School, village Gawar on July 21 2018. Lecture was delivered on health and hygiene and students were encouraged to keep themselves and their surroundings clean. It was also emphasized to segregate solid waste from non-degradable waste. School teachers were also apprised about the *Swach Bharat campaign*.

Tree Plantation Drive (23.7.2018): Under *Unnat Bharat Abhiyaan,* tree plantation drive was organized in Govt Girls Secondary School, Gawar on July 23, 2018 by plantation of 100 saplings of various fruit trees by faculty members of the Deptt. of EECM and UG students. Interactive lecture on importance of trees was delivered by Dr.Vandana Verma and Dr Ella Rani.

Awareness on crop residue management and climate resilience (28.8.2018): Lectures were organized for rural women of Gawar village by Dr. Rajesh Dahiya on crop residue management for sustainable development. She advised the women to participate in conservation technique like mulching of crops in the field and not to burn crop residues. The women were also apprised about ill effects of residue burning on soil fertility and environmental degradation. Dr.Kanta Sabharwal delivered lecture on climate resilient practices with respect to water and energy saving.

Poster Making Competition on Nutrition and Health (29.9.2018): The competition was organized in Govt. Girls' Middle School in village Gawar in collaboration with department of Foods and Nutrition. Girl students actively participated in competition and emphasized the role of good nutrition in health of individual. Lecture was delivered on segregation of wastes into dry and wet. Students were motivated to make water bodies and their environment clean.

Farm Women Day (October 25-26, 2018): Farm Women Day was celebrated with 65 rural women of Village Gawar and saplings of fruit plants were distributed. Lecture on role of women in agriculture was delivered by emphasizing how women could improve nutritional security at home by adopting nutrition garden.

Awareness Campaign on Hygiene and Sanitation (November 26-29, 2018): Two campaigns of two days each on Awareness of Hygiene and Sanitation under RKVY project entitled 'Livelihood and food security of BPL rural families through diversified agricultural activities' were organized in village Shahpur (Nov. 26-27, 2018) and village Gawar (Nov. 28-29, 2018) for 100 BPL rural women and girls. Sanitary kits were distributed among participants to encourage health hygiene and sanitation among them.

Women Farmer Workshop (4.12.2009): State level workshop for women farmers on the occasion of Women in Agriculture Day was organized. About 650 women farmers and 26 women agrop entrepreneurs from Ambala, Faridabad, Fatehabad, Jhajjar, Jind, Kurukshetera, Mahendergarh, Mewat, Palwal , Rewari, Rohtak, Sonipat, Sirsa and Yamunanagar districts of the state participated in the workshop. Prof. K.P. Singh, Vice Chancellor, CCSHAU, Hisar was the chief guest of the function.

- **National Seminar on Innovative Strategies for Gender Equality (8.3.2019):** One day National Seminar on Innovative Strategies for Gender Equality in collaboration with NGO "Vision India" was organized. Honorable Vice Chancellor, CCSHAU, Prof. K.P. Singh was the chief guest on the occasion. About 250 research papers were received and presented during the seminar. Women achievers from multifarious fields shared their experiences and were honored on the occasion. The seminar was attended by 300 participants.

**Trainings on use and Function of Mobile Phone (March –April, 2019):** In order to increase mobile literacy of rural women**,** trainings and demonstrations were organized. The focus of training was on usage procedure and functions of mobile phone like making calls, receiving calls, saving contact, send and receive SMS, write, save and send message, use of internet and use of social media app like watts app etc. Total 40 rural women (10 in each group) from Mangali and Ludas village of Hisar district attended these trainings.

**Poster Making Competition on Gender Equality and *Shikhism* (26.8.2019*):*** Considering, the role of *shikhism*in promoting gender equality poster making competition on Gender Equality and *Shikhism* was organized.Total 42 students from College of Home Science participated in the competition.

***SwachataPakhwada and Jal shakti jan shakti abhiyan* (2.9.19 to 17.9.19):**To create awareness among rural masses regarding hygiene , sanitation and water conservation *Swachata Pakhwada* and *Jal shakti jan shakti abhiyan* were organized at village Dahima. Dean College of Home science Dr. Bimla Dhanda, HOD EECM Dr. Beena Yadav and HOD TAD Dr. Neelam Rose visited village Dahima and motivated and sensitized the villagers about need and importance of Swachhata *Pakhwada, Jal Shakti Jan Shakti Abhiyan*. Rallies on sanitation and water conservation and video shows on sanitation were organized to awaken the people about sanitation and water conservation.

**World Food Day (16.10.2019):** The Day was celebrated in Government Girls Secondary School village Gawar. Poster making competition was organized on importance of healthy diet for well being. Students by using their imagination created poster on different aspects of food and health. Lecture was delivered on needs of good food and healthy diet and how the students can improve their diets. Best three posters were given prizes.**C**leanliness drive was also undertaken in the school with active participation of the teachers, staff and students. They were made aware of importance and facts related to cleanliness and encouraged to become partners in *Swachhta Abhiyaan* and contribute their efforts to make the drive a big success.

**Workshop on Water Conservation (5.9.2019)**: Total 110 Scheduled caste women hailing from Tokas, Luda, Hajampur, Mangali, Patan, Shahpur and Sahu village of Hisar district and 44 PG and professional elective students of the department participated in the workshop. In order to sensitize the participants about importance of water lectures on conservation of water at household and farm level were delivered by the expertsDr.Sanjesh Singh was Chief Guest, Dr. Bimla Dhanda Dean, COHS presided over the function.and Dr. Anita Sehrawat Principal, FC College for Women was the guest of honour.

**Van-Mahotasav (5.9.2019)**: To persuade the students about importance of "Tree-Plantation" and propagate the concept of "one student one tree" coordinated Van- Mahotasav celebration at college level. Slogan writing completion was organized on importance of trees. All fresh students planted a tree each and took oath to take regular care of it.Poster making competition on Importance of trees was organized and 46 students participated in the competition.

**Farm Women Day (15.10.19):** Lecture on role and challenges of women in agriculture was delivered and it was emphasized that women while performing household task play very important role by doing substantial proportion of agricultural activities in rural areas. Women get lesser importance than they deserve.Women were made aware of advantages of cotton picking bags and were motivated to perform agricultural task by using improved tools and appliances.

**Vigilance Awareness Week during 2019 and 2020 (From 28 October to 2 November**): The theme of the Awareness week during 2019 was "Integrity – A Way of Life" and during 2020 theme was *satark Bharat, samridh Bharat*. To raise awareness about the corruption free governance, which is transparent and accountable to its stakeholders, various activities like street play on corruption, quiz competition on RTI, poem recitation on honesty were organized in Govt. High School, CCS HAU, Hisar. Under Issue Point No 12 (Gender Sensitization) of Vigilance Awareness week, poem writing completion on women equality was organized.

**Campaign on Tree Plantation to Mitigate Climate Change (January –February, 2020):** Plants were distributed among rural women of Kaimari, Mangali, Tokas and Ludas villages of Hisar district. The plants were also planted in community buildings like *anganwadis, panchaytghar* and temple. On this occasion, lecture was delivered on climate change and the women were motivated to plant trees to mitigate the effect of climate change.

**Rally on Plastic Free India (9.2.2020)**: A rally was organized to create awareness among rural masses of Siswal village about harmful effect of plastic and single use plastic ban. School students, village women, youth, anganwadi workers and panchayat members participated in the rally.

**Handicraft Exhibition (15.2.2020 and 8.3.2021)**: Exhibition of traditional and contemporary handicrafts of rural areas was organized in village Seeswal and Neoli Kalan of Hisar district. Smt. Jyoti Bainda, Chairperson Haryana State Commission For Protection of Child Rights and Professor Samar Singh, Vice Chancellor, CCSHAU Hisar were the Chief Guest during 2020 and 2021, respectively.

**International Women day Celebration activities (6-8.3.2020):** Three day awareness program on women empowerment and human rights was organized in village Shahpur. About 100 women including; farm women and school students participated in the programme. Group discussions and interactive sessions were held on personal hygiene, menstrual hygiene, gender equality, women empowerment and benefits and need of healthy diet for girls. A street play was presented by college students throwing light on social evils of our society like domestic violence, child marriage, female feticide, rape and violence against women. Sports event for women and girls of the village were organized in which everyone participated with enthusiasm and prizes were given to the winners.

**Poster making competition (5.6.2020):** On the occasion of World Environment Day, online poster making completion on the theme 'Time for Nature' was organized for the students of College of Home Science. Total 72 students participated in the competition. On line certificated were given to the participants and winners of the competition.

**Webinar on Role of women in Agriculture (4.12.2020):** On the occasion of women in Agriculture Day, Webinar on role of women in Agriculture was organized. Total 250 women farmers from various districts of Haryana state attended the webinar. Vice Chancellor Prof Samar Singh was the chief guest of the webinar and he addressed the

participants on line from Committee room, College of Home Sciences, CCSHAU, Hisar.

**International Women day (8.3.2022):** The Day was celebrated in Shahpur Village of Hisar district and attended by 150 rural women. Dr. Bimla Dhanda, Dean College of Home Science was the Chief Guest. Debate competition on gender equality was organized in which rural women were the participants. A rally on gender equality for sustainable future was organized by the B.Sc final year students of the College with active participation of school girls, anganwadi workers and self help group members. The students took round of the village by carrying the placard with slogans on gender equality in Hindi.

**Tree Plantation Drive (23.8.2022).** Department of EECM organized plantation drive on 23. 8. 2022 in Mangali village of Hisar district. Total 100 plants were distributed among the villagers and sapling plantation was done in *anganwadi centres* and village schools. HOD EECM, Dr. Beena Yadav highlighted the importance of trees in our life and creating green environment in the village. Dr. Santosh Rani Assistant Scientist (AICRP) motivated the villagers for planting trees. Ph D students of the department participated actively in the drive.

**Trainings Organized for Rural Women**

| Duration | Name of training | Venue | Villages covered | Number of trainees |
|---|---|---|---|---|
| Jan. 24 to 30, 2019 | Jewellery and Bag Making | Deptt.of EECM | Patan, Tokas and Hajampur (Hisar District) | 22 SC women |
| Feb. 27 to March 2, 2019 | Value Added Milk Products | Deptt.of EECM | Kaimari and Muklan (Hisar District) | 20 Women |
| Feb. 27 to March 5, 2019 | Value Added Milk Products | Deptt.of EECM | Mangali, Ludas and Sahu (Hisar District) | 22 SC women |
| Feb. 25 to March 1, 2019 | Nursery Raising | Deptt.of EECM | Kaimri and Rawat Khera (Hisar District) | 22 SC women |
| March to April, 2019 | Uses and functioning of mobile phone | Mangali and Ludas | Mangali , and Ludas (Hisar district) | 20 Women |
| November 18 to 20, 2019 | Protray nursery as an entrepreneurial activity | Nursery, Deptt. of Forestry, CCSHAU,Hisar | Shahpur (Hisar district) | 20 Women |
| December 19 to 21, 2019 | Save environment save earth | Gawar village | Gawar village (Hisar District) | 20 Women |
| Dec.13-17, 2019 | Making of cloth bags and eco-friendly utility items | Deptt.of EECM | Kumbha, Dahima and Sulkhani (Hisar District) | 24 SC women |
| Dec.13-17, 2019 | Making of cloth bags and eco-friendly utility | Deptt.of EECM | Nangthala , Moth Rangran and Mangali | 24 SC women |

## *ANNEXURE IV - B*

## EXTENSION ACTIVITIES OF DEPARTMENT OF FOODS AND NUTRITION

Department of Foods and Nutrition remains on the forefront for showcasing their developed technologies to rural and local masses. Department organizes 'on campus' as well as off campus trainings for rural and urban women on 'Bakery and confectionery products' in collaboration with SNIATTE and other agencies. Similar trainings are also organized for students in collaboration with office of DSW, CCSHAU and has become a regular feature.

Department regularly celebrates different national and international days, weeks and government programmes related to nutrition like World Breast Feeding Week (Aug. 1-7) and National Nutrition Month (September). During these Weeks, lectures and demonstrations are organized in different villages in collaboration with ICDS and government schools. Competitions are also organized for school/ college students as well as ICDS functionaries.

Faculty also regularly delivers radio and TV talks. Other than celebration of National/ International days, our faculty members are also involved as resource person in workshops/training programmes organized by other line departments/ colleges of Hisar and other districts of Haryana. Kisan Mela, Krishi Diwas and Flower show are annual features of CCSHAU, during these events, our Departmrnt puts up stall for display of technologies.

## *ANNEXURE IV - C*

## EXTENSION ACTIVITIES OF DEPARTMENT OF FAMILY RESOURCE MANAGEMENT

The Department offers, training and workshops for women in rural and urban areas on art and craft, jewellery making, yoga, personality development, and drudgery-reducing technologies. Every year, department celebrates Consumer Day (15th March), Earth Day (22th April), International Women's Week (1-8 March) and Environment Day (5th June). Lectures, workshops, demonstrations, and training are jointly organized throughout these weeks/days in various villages. The Hausian Consumer Club, a group for consumers established by the department, hosts weekly lectures on consumer awareness and education. Faculty members often provide lectures on national and international days, and they participate as subject matter experts in workshops and training sessions held by other departments and colleges. The Department sets up stall for the demonstration of technologies during the annual events of *Krishi Mela* and *Krishi Diwas* at CCSHAU. Besides, department also exhibit work and technologies under *Swadeshi Mela*.

## CONFERENCES/ SEMINARS/TRAININGS ATTENDED BY M.SC. STUDENTS (2018-23)

| Name of Student | Title of Conferences/ Seminars/Trainings |
|---|---|
| All M.Sc. students of the Dept. | National Seminar on Innovative Strategies for Gender Equality, I .C. College of Home Sciences, COHS, CCSHAU, Hisar on March 8, 2019. |
| Ms. Chanchal Payal, Ms. Monika Yadav, Ms. Sangeeta Rani, Ms. Vaishali Sindhu, Ms. Shivani Chaudhary | ISEE National Seminar-2019 on Socio Digital Approaches for Transforming Indian Agriculture organized by CCSHAU, Hisar from Nov. 20-22, 2019. |
| Ms. Vaishali Sindhu<br>Ms. Shivani Chaudhary | National Incubators Colloquium organized by CCS HAU, Hisar from Jan. 15-16, 2020. |
| Ms. Monika Yadav | National Conference on Innovation and Advancement in Different Streams of Higher Education organized by Mahatma Jyoti Rao Phoole University, Jaipur from Jan.16-19, 2020. |
| Ms. Ritu Kuhar | Industry conclave on New Avenues in Agriculture organized by CCS HAU, Hisar from Feb. 13-14, 2020. |
| Ms. Preeti | National webinar on Enhanced Employability for Home Scientists in Current Scenario from June 22-23, 2020. |
| Ms. Rajni, | National webinar on A venues and Challenges for Agri- entrepreneurship for a Self-reliant Community organized by Department of EECM, College of Home Science, SKRAU, Bikaner on July 7, 2020. |
| Ms. Vaishali Sindhu | NAHEP International Webinar on International Funding For Young Researchers-An Opportunity organized by the Directorate of Research, CCS HAU, Hisar on July 10, 2020. |
| Ms. Rajni | Lecture on Future Perspectives in Agri. Edu. organized by NAHEP (ICAR)-CAAST, IARI New Delhi on September 5, 2020. |
| All M.Sc. students of the Department | Webinar on Role of Women in Agriculture, Department of EECM, COHS, CCS HAU, Hisar, December 4, 2020. |
| Ms. Monika Yadav | 19th Annual International Science Fiction Online Conference, Bangalore University & Indian Association for Science Fiction Studies from December 7-9, 2020. |
| All M.Sc. students of the Department | Webinar on Awareness and Effective Use of e-Resources through Mobile App organized by Nehru Library, CCS HAU, Hisar, December 18, 2020. |
| All M.Sc. students of the Department | Webinar on Digital Library Framework for Strengthening Agricultural Knowledge, Nehru Library, CCSHAU, Hisar, February 17, 2021. |
| Ms. Rajni | Training on Scaling Techniques and Data Analysis using Excel and SPSS CMS, JAIN (Deemed-to-be University), Bengaluru from April 26-30, 2021. |
| | Seminar on Reinventing and Integrating the New Era of Management and Media Practices, CMS, JAIN (Deemed-to-be University), Bengaluru on May 21, 2021. |
| Ms. Kapila,<br>Ms. Rajni ,<br>Ms. Monika Yadav | Expert Talk on Scope and Career Opportunities in Print Media and Mass Communication, College of Community and Applied Sciences, MPUA&T, Udaipur, Rajasthan on June 26, 2021. |

| | |
|---|---|
| Ms. Priyanka Kardam | Conference on Channeling the Agriculture Market Potential of India Through PPP Mode, BHU and ISEE, IARI New Delhi from Oct. 4-6, 2021. |
| All M.Sc. Students of the Department | Lecture on Rising Youth Talk by Haryana Chief Minister on Jan 30, 2022. |
| Ms. Rajni | Training on Essentials of Excel Course Work, the Ministry of Labour and Employment and Microsoft from April 15-21, 2022. |
| | Workshop cum Training Programme of Data Analysis Using Python, NAHEP – CAAST AAU, Anand, Gujarat from May 23-27, 2022. |
| All M.Sc. Students of the Department | Training on Research Project Management, Deptt. of EECM in Collaboration with Directorate of Students Welfare, CCS HAU, Hisar from October 1-12, 2022. |
| All M.Sc. Students of the Department | Training on Communication Skills for Personality Development, Deptt. of EECM in Collaboration with Directorate of Students Welfare, CCS HAU, Hisar from Feb. 8-17, 2023. |

## *ANNEXURE VI - E*

## DETAILS OF Ph.D. STUDENTS

## FROM 2ND SEMESTER 2018-19 TO 1ST SEMESTER 2022-23

| Sr. No. | Name of student | Admn. No. | Title of thesis | Major advisor |
|---|---|---|---|---|
| **Passed out** | | | | |
| 1. | Ms. Preeti Malik | 2014HS02D | Livelihood Security of Small and Marginal Farm Families in Hisar Division of Haryana State. | Dr. Sushma Kaushik |
| 2. | Ms. Anshu | 2015HS01D | Empowerment of Farm Women through Agricultural Technology Management Agency (ATMA) Project in Hisar Division of Haryana | Dr. Seema Rani |
| 3. | Ms. Reena | 2015HS02D | Empowerment of Farm Women through Agricultural Technology Management Agency (ATMA) Project in Gurugram Division of Haryana | Dr. Seema Rani |
| 4. | Ms. Jyoti Rani | 2016HS01D | Adoption and Diffusion of Homestead Technologies among Rural Women | Dr. Beena Yadav |
| 5. | Ms. Anju Kapri | 2017HS01D | Perception and Adaptation to Climate Change among Farm Families: Comparative Study of Haryana and Himachal Pradesh | Dr. Sushma Kaushik |
| 6. | Ms. Ashma | 2017HS02D | Cross-Cultural Impact of Old Age Pension on the Livelihood Chances of Geriatrics in Haryana | Dr. Manju Dahiya |
| 7. | Ms. Preeti | 2017HS03D | Impact of Old Age Samman Allowance on Quality of Life of Elderly Women | Dr. Beena Yadav |
| 8. | Ms. Nisha | 2017HS04D | Impact of Krishi Vigyan Kendra Activities on Rural Women of Haryana State | Dr. Seema Rani |
| 9. | Ms. Manisha Ohlan | 2018HS01D | Adoption and Acculturation of Digital Technology among Farmers of Haryana | Dr. Manju Dahiya |
| 10. | Ms. Sushmita | 2018HS02D | Impact of Media in Promoting Organic Products in Haryana: A Comparative Study | Dr. Vandana Verma |
| 11. | Ms. Naaz Bano | 2019HS4D | Comparative Study on Conventional and Integrated Farming Systems for Livelihood Security of Small and Marginal Families | Dr. Rajesh Dahiya |
| **On-roll** | | | | |
| 1. | Ms. Anju | 2019HS1D | Gender Wise Participation and Adoption of Recommended Technologies in Mustard and Pearl Millet Crops in Haryana | Dr. Poonam Kundu |
| 2. | Ms. Diksha Rani | 2019HS2D | Prevalence of Stress Related to Work And Family Among Farm Women | Dr.Vandana Verma |
| 3. | Ms. Jyoti | 2019HS3D | Study on Role of Agribusiness In The Development of Rural Youth | Dr. Seema Rani |
| 4. | Ms. Sanyogita | 2019HS5D | Socio-Economic Dimensions and Adoption of Science and Technology among Farm Women | Dr. Vandana Verma |

| | | | | |
|---|---|---|---|---|
| 5. | Ms. Shikha Bhukal | 2019HS6D | Diffusion Pathway and Adoption Dimensions of Newly Released Wheat Varieties | Dr. Ella Rani |
| 6. | Ms. Khushboo | 2020 HS 02 D | Unemployability among Youth Vs Entrepreneurship | Dr. Seema Rani |
| 7. | Ms. Madhu Priya | 2020 HS 03 D | Cross-Cultural Study on Status Quo of Mobile Internet use and Intervention for Digital Empowerment of Rural Women | Dr. Beena Yadav |
| 8. | Ms. Mini | 2020 HS 04 D | Impact of COVID-19 Outbreak on Health and Well Being of Rural People of Haryana | Dr. Manju Dahiya |
| 9. | Ms. Priyanka | 2020 HS 05 D | Knowledge and Utilization Pattern of Information and Communication Technology Tools by Paddy Grower Farmers in Haryana | Dr. Santosh Rani |
| 10. | Ms. Radha Kaushik | 2020 HS 06 D | Potential and Prospects of Organic Farming in Haryana | Dr. Poonam Kundu |
| 11. | Ms. Bharti | 2021HS01D | Performance Efficiency and Sustainability of Self-Help Groups under National Rural Livelihood Mission | Dr. Vandana Verma |
| 12. | Ms. Chanchal Payal | 2021HS02D | Analysis of Livelihood Security and Coping Strategies Adopted by Rural Youth | Dr. Ella Rani |
| 13. | Ms.Raveena | 2021HS03D | Unravelling the Empowerment of Small and Marginal Women Farmers by using Women's Empowerment in Agriculture Index | Dr. Beena Yadav |
| 14. | Ms.Santosh | 2021HS04D | Knowledge, Utilization and Impact of Post Matric Scholarship Scheme Among Students in Higher Education Institutes | Dr. Santosh Rani |
| 15. | Ms.Seema Chauhan | 2021HS05D | Inter Gender Knowledge and Participation of Ruralites in Dairy Farming of Haryana | Dr. Poonam Kundu |
| 16. | Ms.Vartika Srivastava | 2021HS06D | Digital Technology Addiction: A Meta-Analysis on Inter-Gender Perspective Among Youth | Dr. Manju Dahiya |
| 17. | Ms. Preeti | 2022HS01D | Analysis of Livelihood Security and Coping Strategies Adopted by Rural Youth | Dr. Ella Rani |
| 18. | Ms.Sangeeta Rani | 2022HS02D | Knowledge and Perception about Cyber Crime among University Students | Dr. Ella Rani |
| 19. | Ms. Yashvee | 2022HS03D | Impact of Internet Addiction and Academic Procrastination among Adolescents | Dr. Manju Dahiya |
| 20. | Ms.Suman | 2022HS14D | To be finalized in the first semester (2023-24) | Dr.Vandana Verma |

## CONFERENCES/ SEMINARS/TRAININGS ATTENDED BY PH.D. STUDENTS (2018-23)

| Name | Title of Seminars/Conferences/ Trainings |
|---|---|
| Ms. Anju Kapri | International symposium on Innopreneurship: A Need for Sustainable Agriculture, organized by CCS HAU, Hisar, February 2-3, 2019. |
| Ms. Manisha Ohlan | National conference on Biodiversity & Environment Sustainability in the Modern Era, organized by Jat College, Hisar, February 16, 2019. |
| All Ph D Students of the Deptt. | National Seminar on Innovative Strategies for Gender Equality by I.C. College of Home Sciences, CCS HAU, Hisar, March 8, 2019. |
| Ms. Manisha Ohlan | International conference on Emerging Scenario in Agribusiness, organized by IIPM Bengaluru, March 21-22, 2019. |
| Ms. Manisha Ohlan | International conference on Emerging Paradigm in Social Science, organized by BPSMV, Khanpur, March 25-26, 2019. |
| | International conference on Contemporary Issues in Integrating Health and Nutrition With Emerging Areas of Food, Technology, Agriculture, Environment and Allied Science, organized by Shyma Prasad Mukherjee College for Women, University of Delhi, April 6, 2019. |
| Ms. Manisha Olhan<br>Ms. Naaz Bano<br>Ms. Shikha Bhukal | Golden Jubilee International Conference on New Millennia Agriculture- Novel Trends and Future Scenario, organized by CCS HAU, Hisar, November 6-8, 2019. |
| Ms. Manisha<br>Ms. Sushmita<br>Ms. Naaz Bano<br>Ms. Sanyogita<br>Ms. Shikha Bhukal<br>Ms. Diksha Rani | ISEE National Seminar-2019 on Socio Digital Approaches for Transforming Indian agriculture, organized by CCS HAU, Hisar, November 20 -22, 2019. |
| Ms. Naaz Bano | National Incubators Colloquium, organized by CCS HAU, Hisar, January 15-16, 2020. |
| Ms. Jyoti Rani | National Conference on Innovation and Advancement in Different Streams of Higher Education, organized by Mahatma Jyoti Rao Phoole University, Jaipur, January 16-19, 2020. |
| Ms. Jyoti Rani, Ms. Asma, Ms. Anju Kapri, Ms. Preeti, Ms. Anju, Ms. Diksha Rani, Ms. Naaz Bano, Ms. Sanyogita, Ms. Shikha Bhukkal | Industry conclave on New Avenues in Agriculture. Organized by CCS HAU, Hisar, February 13 -14, 2020. |
| Ms. Sanyogita<br>Ms. Shikha Bhukal | National Webinar on Avenues and Challenges for Agri-Entrepreneurship for a Self-Reliant Community, organized by Department of EECM, College of Home Science, SKRAU, Bikaner, July 7, 2020. |
| All Ph.D. Students of the Dept. | Webinar on Role of Women in Agriculture, organized by the Department of EECM, COHS, CCSHAU, Hisar, December 4, 2020. |

| | |
|---|---|
| All Ph. D Students of the Dept. | Webinar on Awareness and Effective Use of e-Resources through Mobile App, organized by Nehru Library, CCS HAU, Hisar, December 18, 2020. |
| All Ph. D Students of the Dept. | Webinar on Digital Library Framework for Strengthening Agricultural Knowledge, organized by Nehru Library, CCS HAU, Hisar, February 17, 2021. |
| Ms. Madhu Priya | Online Interactive Sensitization Session on Understanding the World of Virus: Threats and Management Strategies in Reference to COVID-19, organized by G.B. PUA&T Pantnagar, May 10-11, 2021. |
| Ms. Madhu Priya | Reinventing and Integrating the New Era of Management and Media Practices, organized by CMS, JAIN (Deemed-to-be University), Bengaluru, May 21, 2021. |
| Ms. Mini | Expert Talk on Scope and Career Opportunities in Print Media and Mass Communication, organized by College of Community and Applied Sciences, MPUA&T, Udaipur, Rajasthan, June 26, 2021. |
| Ms. Madhu Priya | Webinar on Improving the Quality of Agricultural Research Landscape in India, organized by Nehru Library, CCS HAU, Hisar and Elsevier, June 30, 2021. |
| Ms. Santosh | National Webinar on Avenues and Challenges for Agri-Entrepreneurship for A Self-Reliant Community, organized by the Department of EECM, College of Home Science, SKRAU, Bikaner, July 7, 2021. |
| Ms. Mini | Expert Talk on Scope and Career Opportunities in Print Media and Mass Communication, organized by the College of Community and Applied Sciences, MPUA&T, Udaipur, Rajasthan, July 26, 2021. |
| Ms. Madhu Priya | One-day National Webinar on Job Opportunities in Rural Development-Agriculture Extension, organized by Xavier Institute of Development Action and Studies, March 12, 2022. |
| Ms. Madhu Priya<br>Ms. Santosh | International Conference on New Trends in Science, Technology, Management and Humanitie, organized by Jagannath University Bahadurgarh, Haryana (INDIA), March 29, 2022. |
| Ms. Madhu Priya | One-day National Webinar on Understanding Various Aspects of Intellectual Property Right. Organized by Bhim Rao Ambedkar Bihar University, Muzaffarpur, Bihar, May 25, 2022. |
| Ms. Khusboo | International Conference on Recent Advances and Innovation in Biological and Applied Sciences, organized by SGT University, Gurgaon, June 14-16, 2022. |
| All Ph.D. Students of the Department | Training on Research Project Management, organized by Dept. of EECM in Collaboration with Directorate of Students Welfare, CCS HAU, Hisar, October 1-12, 2022 |
| All Ph.D. Students of the Department | Training on Communication Skills for Personality Development, organized by Dept. of EECM in Collaboration with Directorate of Students Welfare, CCS HAU, Hisar, February 8-17, 2023. |

## DETAILS OF M.SC. STUDENTS

## FROM 2ND SEMESTER 2018-19 TO 1ST SEMESTER 2022-23

| Sr. No. | Name of student | Admn. No. | Title of thesis | Major advisor |
|---|---|---|---|---|
| **Passed out** | | | | |
| 1. | Ms. Anjali | 2014HS13M | Development of baked and extruded products using composite flour of wheat and black gram | Dr. Varsha Rani |
| 2. | Ms. Priyanka Rani | 2015HS04D | Development and popularization of value added products using shatavari (A*sparagus racemosus)* root powder | Dr. Varsha Rani |
| 3. | Ms. Bodhika Khare | 2015HS07M | Effect of sprouting on nutritional composition of flax seed and its utilization in development of value added products | Dr. Sudesh Jood |
| 4. | Ms. Savita | 2015HS08M | Development and Nutritional analyses of pearl millet based jamun *(Syzygium Cumini L.)* seeds incorporated value added products | Dr. Asha Kawatra |
| 5. | Ms. Amita Beniwal | 2015HS09M | Nutritional evaluation and utilization of pea shells for value addition | Dr. Darshan Poonia |
| 6. | Ms. Samta | 2015HS10M | Development and nutritional evaluation of nutrients rich pasta products | Dr. Sudesh Jood |
| 7. | Ms. Sapna | 2016HS05M | Comparative assessment of nutritional status of adolescents in government and private school of Hisar city | Dr. Sangeeta C. Sindhu |
| 8. | Ms. Lavanya A | 2016HS06M | Development and evaluation of food products from different rice varieties | Dr. Pinky Boora |
| 9. | Ms. Manisha | 2016HS07M | Nutritional evaluation of products prepared from wheat and dried water chestnut composite flour | Dr. Sangeeta C. Sindhu |
| 10. | Ms. Tanvi Bansal | 2016HS08M | Development of bio fortified pearl millet based value added products incorporating carrot and sesame seeds | Dr. Asha Kawatra |
| 11. | Ms. Preeti | 2016HS09M | A comparative study on nutritional status of elderly people from old age homes and family setup | Dr. Sangeeta C. Sindhu |
| 12. | Ms. Jyoti | 2016HS10M | Development and Nutritional evaluation of micro nutrient rich baked and traditional products | Dr. Sudesh Jood |
| 13. | Ms. Reema | 2017HS10M | Impact of germination on bio active compounds of legumes and their products | Dr. Darshan Poonia |
| 14. | Ms. Seema | 2017HS12M | Acceptability and nutritional evaluation of value added food products developed from *spirulina*-wheat- Bengal gram composite flour | Dr. Sudesh Jood |
| 15. | Ms. Rajni | 2017HS13M | Development and evaluation of pearl millet (Pennisetum Glaucum) based value added product incorporating carrot and cauliflower leaves | Dr. Asha Kawatra |
| 16. | Ms. Aditi Sharma | 2017HS14M | Nutritional status of pregnant women and its effect on education performance | Dr. Sangeeta C. Sindhu |

| | | | | |
|---|---|---|---|---|
| 17. | Ms. Reena | 2017HS15M | Development and Nutritional Evaluation of value added products supplemented with processed fenugreek seed powder | Dr. Varsha Rani |
| 18. | Ms. Neha | 2017HS16M | Development and nutritional evaluation of multi grain bakery products supplemented with pomegranate peel powder | Dr.Veenu Sangwan |
| 19. | Ms. Mwanamvua Zuberi | 2017HS37M | Development and nutritional evaluation of weaning foods based on processed bio fortified pearl millet | Dr. Veenu Sangwan |
| 20. | Ms. Josephine John | 2018HS12M | Development & Nutrition Evaluation of Value added products prepared using Garden Gress Seeds | Dr. Varsha Rani |
| 21. | Ms. Manju Bala | 2018HS13M | Effect of domestic processing and cooking on nutritional composition of quinoa ( *Chinopodium quinoa*) seeds | Dr. Varsha Rani |
| 22. | Ms. Mantavya | 2018HS14M | Assessment of Nutritional and health status of celiac disease patients | Dr. Veenu Sangwan |
| 23. | Ms. Partibha | 2018HS15M | Development and evaluation of value added products front composite flour of babool (*Acacia nilotica*) and Banana (*Musa Sp*.) | Dr. Sangeeta C. Sindhu |
| 24. | Ms.Priyanka | 2018HS16M | Development and evaluation of value added products incorporating khejri (*Prosopis cineraria*) Pod powder | Dr. Sangeeta C. Sindhu |
| 25. | Ms. Sonia | 2018HS17M | Development and nutritional evaluation of carotene rich products prepared using curry leaves. | Dr. Varsha Rani |
| 26. | Ms. Varsha Rani | 2018HS18M | Utilization orange peel powder for development of value added baked products | Dr. Veenu Sangwan |
| 27. | Ms. Aman Punia | 2019HS14M | Comparitive assessment of nutritional status of school going children (7-12 years) from government schools in Rural and Urban Hisar. | Dr. Sangeeta C. Sindhu |
| 28. | Ms. Anu Kaushal | 2019HS15M | Impact of nutrition education on consumer understanding of food labling | Dr. Varsha Rani |
| 29. | Ms. Diksha | 2019HS16M | Development of evaluation of protein fortified cereal fruit bar using karonda fruit | Dr. Sangeeta C. Sindhu |
| 30. | Ms. Gurpriya | 2019HS17M | Nutritional evaluation of foxtail millet (*Setaria italica (L.) Beauv.*) and its utilization in development of traditional products | Dr. Veenu Sangwan |
| 31. | Ms. Jyoti Verma | 2019HS18M | Nutritional evaluation and utilization purple wheat for product development | Dr.Varsha Rani |
| 32. | Ms. Karnika | 2019HS19M | Development and nutritional evaluation of value added products incorporative peanut, sessum and flex seed meals | Dr. Asha Kawatra |

| | | | | |
|---|---|---|---|---|
| 33. | Ms. Shalini | 2019HS20M | Development of gluten free composite flour based on sorghum, rice and okara and its neutralization in value added products | Dr. Urvashi Nandal |
| 34. | Ms. Vijay | 2019HS21M | Development and nutritional evaluation of value added food product using sorghum and Bengal gram. | Dr. Urvashi Nandal |
| 35. | Mr. Yashwant B.S. | 2019HS22M | Study the effect of house hold processing on pesticides residue in locally grown vegetables of Hisar | Dr. Urvashi Nandal |
| 36. | Ms. Deepika | 2020HS15M | Snack consumption pattern and its implications on nutritional status of adolescents of Hisar | Dr. Urvashi Nandal |
| 37. | Ms. Katheti Bhargavi Devi | 2020HS16M | Food consumption pattern of adults and its relationship with known communicable diseases. | Dr. Varsha Rani |
| 38. | Ms. Mahima Rani | 2020HS17M | Knowledge practices and awareness regarding soybean consumption in urbun households of Hisar | Dr. Urvashi Nandal |
| 39. | Ms. Raveena Rani | 2020HS19M | Assessment of nutritional and health status of young women and without polycystic ovary syndrome (PCOS) in Fatehabad District. | Dr. Veenu Sangwan |
| 40. | Ms. Shikha | 2020HS20M | Assessment of nutritional and health status of young women and without polycystic ovary syndrome (PCOS) in Hisar, Haryana | Dr.Veenu Sangwan |
| 41. | Ms. Swati Nautiyal | 2020HS21M | Impact of nutrition education on nutritional status adult in Kumaon region of Uttrakhand | Dr. Varsha Rani |
| 42. | Ms. Twinkle | 2020HS22M | Gender disparity in Nutritional Status of rural and urban adult population | Dr. Sangeeta C. Sindhu |
| **On-roll** | | | | |
| 1. | Ms. Bhavna | 2021HS18M | Development and evaluation of iron-fortified food products utilizing Kufri Neelkanth potato | Dr. Sangeeta C. Sindhu |
| 2. | Ms. Geeta | 2021HS19M | Development and nutritional evaluation of value-added products using Bio-fortified lentils | Dr. Sangeeta C. Sindhu |
| 3. | Ms. Kanti Ghimire | 2021HS20M | Development of multigrain baked products using Stevia for diabetic patients | Dr. Urvashi Nandal |
| 4. | Ms. Mansi | 2021HS21M | Value addition and nutritional evaluation of traditional food products using Okara | Dr. UrvashiNandal |
| 5. | Ms. Mukesh Kumari | 2021HS22M | Development and nutritional evaluation of value-added products using purple wheat-based composite flour | Dr. Sangeeta C. Sindhu |
| 6. | Ms. Neetu | 2021HS23M | Development and nutritional evaluation of value-added food products using Beetroot | Dr. Urvashi Nandal |

| | | | | |
|---|---|---|---|---|
| 7. | Ms. Nishtha | 2021HS24M | Assessment of nutritional status and food consumption pattern of rural and urban families from Jind district, Haryana | Dr. Sangeeta C. Sindhu |
| 8. | Ms. Simran Gupta | 2021HS25M | Effect of processing and storage on nutritional quality and shelf life of biofortified pearl millet | Dr. Veenu Sangwan |
| 9. | Ms. Yachana | 2021HS26M | Effect of sprouting on nutritional profile of products developed from black wheat | Dr. Urvashi Nandal |
| 10. | Ms. Anchal | 2022HS14M | Development and popularization of Multimillet traditional products | Dr. Veenu Sangwan |
| 11. | Ms. Barkha | 2022HS15M | Effect of processing on sorghum and its utilization in development of products | Dr. Urvashi Nandal |
| 12. | Ms. Kamna | 2022HS16M | Efficacy of millets incorporated muffins on blood glucose and appetite response in healthy young men | Dr. Jyoti Sihag |
| 13. | Ms. Monika | 2022HS17M | Effect of dietary fats/oils on satiety hormones and blood lipid profile in a healthy young population | Dr. Jyoti Sihag |
| 14. | Ms. Nancy | 2022HS18M | Evaluation of nutritional and organoleptic quality of different vegetables cultivated under diverse nutrient sources | Dr. Urvashi Nandal |
| 15. | Ms. Nitu | 2022HS19M | A study on dietary habits and lifestyle disorders as associated with stress in adult females of urban Hisar, Haryana | Dr.Sangeeta C. Sindhu |
| 16. | Ms. Simran Sheoran | 2022HS20M | Effect of drying methods on nutritional composition of black turmeric (*Curcuma caesia Roxb.)* and its utilization in product development | Dr.Varsha Rani |
| 17. | Ms. Shivangi Singh Chauhan | 2022HS32M | To be finalized in the first semester 2023-24 | Dr. Sangeeta C. Sindhu |
| 18. | Ms. Tanuja Mehra | 2022HS33M | To be finalized in the first semester 2023-24 | Dr. Urvashi Nandal |

## *ANNEXURE VII - C*

## LIST OF PUBLICATIONS FROM M.Sc. STUDENTS' RESEARCH (2018-23)

**Book Chapters:**

1. Bishnoi, M., Sangwan, V., Nandal, U., Kamboj, N. and Singh, S. 2020. Significance and implications of fibre in our diet, *In* Hasan *et al. (Eds.)* Extension Strategies for Doubling Farmer Income. Biotech Books, New Delhi. pp201-214

**Research Papers:**

1. Anjali and Rani, V. 2018. Nutritional Composition of Functional Extrudates Developed from Wheat and Black Gram. *International Journal of Current Microbiology and Applied Sciences*, 7(8): 375-381.
2. Kumari, V., Sindhu, S.C. and Singh, J. 2018. Digestibility of indigenously developed sorghum based composite flours. *International Journal of Chemical Studies*, 6(2): 3376-3379.
3. Singh, J., Sindhu, S.C. and Sindhu, A. 2018. Digestibility and antimicrobial activity of developed *Lentinus edodus* powder. *International Journal of Chemical Studies*, 6(1): 1848-1852.
4. Sirohi, M. and Sangwan, V. 2018. Impact of nutrition education on knowledge gain of rural post-menopausal women of Haryana. *Journal of Pharmacognosy and Phytochemistry,* 7(6): 1462-1464.
5. Tharshini, G., Sangwan, V. and Suman. 2018. Organoleptic and chemical characteristics of soybean and pomegranate peel powder supplemented cakes. *Journal of Pharmacognosy and Phytochemistry,* 7(2): 35-39.
6. Tharshini, G., Sangwan, V. and Suman. 2018. Formulation and chemical characterization of bread supplemented with pomegranate peel powder. *International Journal of Chemical Studies*, 6(2): 386-390.
7. Pandey, L., Sangwan, V. and Malik, K. 2018. Nutritional and Keeping Quality Characteristics of Value Added Composite Flour *Sev. International Journal of Current Microbiology and Applied Sciences*, 7(01): 3081-3087.
8. Tharshini, G., Sangwan, V. and Suman. 2018. Nutritional, Organoleptic and Keeping Quality of Wheat-Soybean Cookies Supplemented with Pomegranate Peel Powder. *International Journal of Current Microbiology and Applied Sciences*, 7(1): 803-810.
9. Kumari, V. and Sindhu, S.C. 2019. Malting of sorghum improves mineral and carbohydrate profile of indigenously developed sorghum-soybean weaning mix. *Multilogic in Science*, 9(29): 271-274.
10. Sirohi, M. and Sangwan, V. 2019. Physical and Psychological Changes Experienced by Women after Menopause. *International Journal of Current Microbiology and Applied Sciences*, 8(10): 2437-2441.
11. Rani, P. and Sangwan, V. 2019. Effect of family income and family composition on mean food intake of rural children (10-12 years) of Haryana. *Food Science Research Journal. Journal*, 10(2): 144-148.
12. Pandey, L. and Sangwan, V. 2019. Mineral characteristics and shelf life studies of cereal and legume based value added *Ladoos. International Journal of Chemical Studies*, 7(1): 14.
13. Rani, P. and Sangwan, V. 2019. Nutrient adequacy and clinical assessment of rural school children (10-12 years) of Haryana. *Journal of Pharmacognosy and Phytochemistry,* 8(1): 2284-2288.
14. Anjali, Rani, P. and Rani, V. 2019. Development and quality evaluation of bread and cake supplemented with black gram flour. *Annals of Agri-Bio Research*, 24(1): 119-122.

15. Reena, Rani, V., Jandu, R., John, J. and Sonia. 2020. Effect of processing on sensory and nutritional quality of fenugreek supplemented biscuits. *International Journal of Chemical Studies*, 8(3): 1900-1902.
16. John, J., Rani, V., Sangwan, V., Sonia and Reena. 2020. Garden Cress Seeds a Promising Alternative for the Development of Nutrient Dense Muffins. *European Journal of Nutrition and Food Safety*, 12(9): 138-146.
17. John, J., Rani, V., Sangwan, V. and Sonia. 2020. Garden cress seeds: A superior grain for the development of nutrient rich cutlets. *International Journal of Chemical Studies*, 8(4): 3946-3950.
18. Sonia, Rani, V., Sindhu, S.C. and John, J. 2020. Curry Leaves: A Promising Ingredient for the Development of β-Carotene Rich Upma. *International Journal of Current Microbiology and Applied Sciences*, 9(9): 1326-1332.
19. Sonia, Rani, V., Sindhu, S.C., Kumar, N. and John, J. 2021. Vitamin-A Enrichment in dhokla with Murrayakoenigi: An Underutilized Medicinal Plant in India. *Environment and Ecology*, 39(4): 791-796.
20. Dhami, S., Sindhu, S.C., Priti, Kumari, V. and Rani, V. 2021. Physical activity and Health status of adolescents from Government and Private School: A Comparative assessment. *Multilogic in Science*, 11(28).
21. Chaudhary, S., Sindhu, S.C., Kumari, N. and Kumari, V. 2021. Physico chemical and malting characteristics of pearl millet hybrids. *The Pharma Innovation Journal*, 10(4): 947-949
22. Kumari, V., Sindhu, S.C., Kumari, N. and Dhami, S. 2021. Malting Improves Nutritional Properties of Sorghum-Mungbean- Banana Composite Flour. *The Pharma Innovation Journal*, 10(5): 729-733.
23. Dhami, S., Sindhu, S.C., Priti, Kumari, V. and Kumari, N. 2021. Dietary intake by adolescents from government and private school: A comparative assessment. *International Journal of Home Science*, 7(1): 244-247.
24. Malik, P., Sindhu, S.C., Sangwan, V., Kumari, N. and Kumari, A. 2021. Composite flour of Babool (Acacia Nilotica) and Banana (Musa Sp.): Nutritional and antioxidant potential. *The Indian Journal of Nutrition and Dietetics*, 58(3): 378-389.
25. Manisha, Punia, D. and Sindhu, S.C. 2021. Chapati and Laddoo preparation by using composite flour of wheat and water chestnut and their sensory and nutritional evaluation. *Frontiers in Crop Management*, 9: 2223-2228.
26. Manisha, Punia, D. and Sindhu, S. C. 2021. Development of bakery products using composite flour of wheat and water chestnut and their sensory and nutritional evaluation. *The Pharma Innovation Journal*, 10(5): 1038-1042.
27. Khare, B., Sangwan, V. and Rani, V. 2021. Influence of sprouting on proximate composition, dietary fibre, nutrient availability, anti-nutrient and antioxidant activity of flaxseed varieties. *Journal of Food Processing and Preservation*.
28. Bajaj, A., Sangwan, V., Kawatra, A. and Rani, V. 2021. Non starch polysaccharides (dietary fibre) of bio-fortified pearl millet varieties as Influenced by malting. *The Indian Journal of Nutrition and Dietetics*, 58(1): 99-106.
29. Bajaj, A., Sangwan, V., Rani, V., Kawatra, A. and Suthar, R. 2021. Nutritional quality and storage stability of processed biofortified pearl millet varieties. *Asian Journal of Dairy and Food Research*.
30. Bansal, T., Kawatra, A. and Sangwan, V. 2021. Sensorial, nutritional and shelf life evaluation of bio-fortified millet based cookies supplemented with carrot powder and sesame. *Asian Journal of Dairy and Food Research*. Jyoti, Jood, S. and Sangwan, V. 2021. Nutritional composition and sensory characteristics of wheat based *Kulcha* and buns supplemented with spinach leaves powder. *Frontiers in Crop Improvement*, 9: 2165-2169 (Special Issue-V).

31. Jyoti, Sangwan, V. and Jood, S. 2021. Enrichment of traditional recipes with spinach leaves powder and their nutritional evaluation. *Chemical Engineering*, 2(4):77-82.
32. Rathi, B., Rani, V., Khetarpaul, N. and Sangwan, V. 2016. Anthropometric measurements of rural and urban adolescents of Gurgaon, Haryana. *HAU Journal of Research*, 46(1&2): 1-7. (Published in 2021)
33. Anjali, Rani, V., Punia, D. and Sangwan, V. 2016. Sensory and nutritional evaluation of biscuits developed using black gram flour. *HAU Journal of Research*, 46(1&2): 31-36. (Published in 2021)
34. Vinita, Rani, V., Punia, D. and Sangwan, V. 2016. Effect of cooking methods on total phenolic and flavonoid contents of selected cereals. *HAU Journal of Research*, 46(1&2): 43-46. (Published in 2021)
35. Nisha, Rani, V., Sangwan, V. and Sindhu, S.C. 2017. Trends of consumption and quantitative intake of individual food groups in the diets of adolescents of Fatehabad, Haryana. *HAU Journal of Research*, 46(1 & 2): 05-10. (Published in 2021)
36. Sonia, Rani, V., Sindhu, S.C. and Neha, 2022. Development and nutritional evaluation of curry leaves supplemented Idli. *The Pharma Innovation Journal*, 11(2): 620-623.
37. Kumari, P., Sindhu, S.C., Dhami, S. and Kumari, V. 2022. Elderly People from Old Age Homes have Higher Risk of Malnutrition and Depression as Compared to Family Setup. *The Indian Journal of Nutrition and Dietetics*, 59(1): 89-104.
38. Verma, J., Rani, V., Sangwan, V. and Karnika, 2022. Physical, sensory and nutritional quality of anthocyanins rich pasta prepared using biofortified purple wheat. *Annals of Phytomedicine*, 11(1): 78-85.

**Papers Presented and Abstracted in Conferences/ Seminars/Workshops**

1. Beniwal, A. and Sangwan, V. 2019. Health benefits of millet. National Workshop on Production, Processing and Value Addition of Nutri-Cereals (Millets) in India. Department of Genetics & Plant Breeding, CCS HAU, Hisar, September, 16:111.
2. Bishnoi, M., Sangwan, V. and Singh, D.P. 2019. Role of gluten free diet and value added products in celiac disease. Golden Jubilee International Conference on New Millenia Agriculture- Novel Trends and Future Scenario, November 6-8, 2019, CCS HAU, Hisar. 456.
3. Chaudhary, S. and Sindhu, S.C. 2019. Development and nutritional evaluation of biscuits from malted pearl millet. Golden Jubilee International Conference on New Millenia Agriculture- Novel Trends and Future Scenario, November 6-8, 2019, CCS HAU, Hisar: 447.
4. Jyoti and Sangwan, V. 2021. Nutritional Composition, Amino Acid Content and Storage Stability of Gluten Free Biscuits Supplemented with Quinoa Flour. International Conference on Food, Agriculture and Innovations, Jharkhand. 620.
5. Kamboj, N. and Sangwan, V. 2019. Innovative approach to utilise pomegranate peel powder in value added food products. Golden Jubilee International Conference on New Millenia Agriculture- Novel Trends and Future Scenario, November 6-8, 2019, CCS HAU, Hisar: 451.
6. Kumari, V., Sindhu, S.C. and Kumar, D. 2019. Development and quality evaluation of weaning food from malted sorghum incorporated with mungbean and raw banana. International Symposium on Innopreneurship: A need of Sustainable Agriculture, Directorate of Research, CCS HAU, Hisar, February 2-3, 2019: 367.
7. Pandey, L. and Sangwan, V. 2019. Effect of storage period on chemical properties of value added biscuits developed from sorghum and soybean flours. International Symposium on Innopreneurship: A need of Sustainable Agriculture, Directorate of Research, CCS HAU, Hisar, February 2-3, 2019: 379.
8. Sonia, Rani, V. and Sindhu, S.C. 2019. Potential of curry leaves for the development of carotene rich products. National Seminar on Innovative Strategies for Gender Equality, I.C. College of Home Science, CCSHAU Hisar, March 8, 2019: 152.
9. Sonia, Rani, V. and Sindhu, S.C. 2019. Utilisation of curry leaves as a functional ingredient for the development of buns and *kulche*. Golden Jubilee International Conference on New Millenia Agriculture- Novel Trends and Future Scenario, CCS HAU, Hisar, November 6-8, 2019.
10. Tharshini, G., Sangwan, V. and Ambawat, S. 2018. Formulation, nutritional characterization and storage qualities of pomegranate peel powder supplemented *nankhatai*. 3rd Convention of Veterinary Biochemistry and Biotechnologists of India and National Symposium on Bridging Biochemical Interventions and Environmental Remediations for One Health Improvement, 2-3, November, 2018: 138.

**Leaflet**

1. Bishnoi, M. and Sangwan, V. (2020). Celiac *bimari ke laxan evam bachaav*. Department of Foods and Nutrition, CCS HAU, Hisar and CIWA, Bhubaneswar.

## *ANNEXURE VIII - D*

## CONFERENCES/ SEMINARS/TRAININGS ATTENDED BY M.Sc. STUDENTS (2018-23)

| Name of Student | Title of Conferences/ Seminars/Trainings with dates and venue |
|---|---|
| **Ms. Neetu 2021HS23M** | VII International Conference on Global Research Initiatives for Sustainable Agriculture and Allied Science |
| **Ms. Neetu 2021HS23M** | 5$^{th}$ International Conference on Food and Nutrition |
| **Ms. Neetu 2021HS23M** | International Conference on Biotechnology and Human Welfare |

## *ANNEXURE VII E*

## DETAILS OF Ph.D. STUDENTS

## FROM 2ND SEMESTER 2018-19 TO 1ST SEMESTER 2022-23

| Sr. No. | Name of Student | Admn. No. | Title of thesis | Major advisor |
|---|---|---|---|---|
| **Passed out** | | | | |
| **1.** | Ms. Sarita Verma | 2012HS07D | Formulation and nutritional evaluation of sorghum based cereal bars | Dr. Neelam Khetarpaul |
| **2.** | Ms. Mamta | 2014HS05D | Assessment of nutritional status of geriatric population of Sirsa District, Haryana and development of value added food products. | Dr. Pinky Boora |
| **3.** | Ms. Vinita | 2014HS06D | Effect of cooking on antioxidant activity in commonly consumed foods. | Dr. Darshan Poonia |
| **4** | Ms. Meenu Sirohi | 2015HS03D | Assessment of nutritional and health status of post menopausal women of Hisar district, Haryana | Dr. Veenu Sangwan |
| **5.** | Ms. Neeta Kumari | 2015HS05D | Processing of pumpkin seeds and their utilization in product development | Dr. SangeetaC.Sindhu |
| **6.** | Ms. Mumtaz Begum | 2016HS02D | Development of value added products using lotus stem (*Nelumbo nucifera*) | Dr. Darshan Poonia |
| **7.** | Ms. Sonia Gulia | 2016HS03D | Development and evaluation of pearl millet *(Pennisetum Glaucum L)* based value added products incorporating chia seeds (*Salvia hispancia L.)* | Dr. Asha Kawatra |
| **8.** | Ms. Nisha Rani | 2016HS04D | Nutritional status assessment of adults suffering from non-insulin dependent diabetes millitus | Dr. Sangeeta C. Sindhu |
| **9.** | Ms. Renuka Jandu | 2017HS05D | Development and quality evaluation of betel leaves *(piper betle L*) incorporated products | Dr. Varsha Rani |
| **10.** | Ms. Pragati Godara | 2017HS06D | Development and nutritional evaluation and shelf life of value added products prepared from pearl millet (*pennisetum glaucum L.)* | Dr. Asha Kawatra |
| **11.** | Ms. Anisha Beniwal | 2018HS06D | Development and nutritional evaluation of value added food product using fresh and dried carrot pomace | Dr. Veenu Sangwan |

| | | | | |
|---|---|---|---|---|
| **12.** | Ms. Jyoti | 2018HS07D | Utilization of quinoa *(Chenopodium quinoa)* for preparation of gluten free products and their nutritional evaluation | Dr. Darshan Poonia |
| **13.** | Ms. Lavanya A | 2018HS08D | Effect of processing on nutritional quality of teff (*Eragrostis tef*) and its utilization for development of value added products | Dr. Varsha Rani |
| **14.** | Ms. Manisha | 2018HS09D | Development and evaluation of nutrient rich foods with low glycemic index using *kikar (Acacia nilotica*) PODS and *kundru(Coccinia Indica)* | Dr. Sangeeta C. Sindhu |
| **15.** | Ms. Tanvi Bansal | 2018HS10D | Development nutritional evaluation and entrepreneurial Potentional of pearl millet choco bars | Dr. Asha Kawatra |
| **16.** | Ms. Rajni | 2019HS13D | Efficacy of shatavari root powder in improving lactation performance | Dr. Varsha Rani |
| **17.** | Ms. Seema | 2019HS15D | A study on processing nutritional evaluation and produce development of sesbania bispinosa (*Dhaincha)* | Dr. Asha Kawatra |
| **On roll** | | | | |
| **1.** | Ms. Neha | 2019HS12D | Development and quality evaluation of psyllium husk value-added products and assessing the impact of their consumtion on Body Mass Index of over weight women | Dr. Veenu Sangwan |
| **2.** | Ms. Raveena | 2019HS14D | Development of dietary module and study its effect on nutritional status and knowledgeof cardiac patients | Dr Urvashi Nandal |
| **3.** | Ms. Aditi Sharma | 2020HS11D | Comparative Nutritional Status Assessment of Children (3-5 Years) from Rural and Urban Hisar | Dr. Monika Sharma, KVK Jhajjar |
| **4.** | Ms. Mantavya Bishnoi | 2020HS12D | Comparison of Indian and Australian Bee Honey Quality Parameters | Dr. Urvashi Nandal |
| **5.** | Ms. Manu Devi | 2020HS13D | Assessment of the infant feeding practices and its impact on nutritional status of infants in rural Haryana | Dr. Veenu Sangwan |

| | | | | |
|---|---|---|---|---|
| **6.** | Ms. Nisha Rani | 2020HS14D | Effect of processing on physical, functional and nutritional properties of bio-fortified grains | Dr. Varsha Rani, KVK Faridabad |
| **7.** | Ms. Santosh Sharma | 2020HS15D | Assessment of nutritional status and dietary pattern of working and non-working women of Hisar city | Dr. Monika Sharma, KVK Jhajjar |

## *ANNEXURE VII - F*

## LIST OF PUBLICATIONS FROM Ph.D. STUDENTS' RESEARCH (2018-23)

**Book Chapters**

1. Bansal, T., Kawatra, A. and Sangwan, V. 2021. Formulation, organoleptic and nutritionalevaluation of bio-fortified pearl millet based traditional Indian cuisine "*Khichri*" supplemented with carrot and sesame in *Multi-disciplinary Approaches for Development of Agriculture and Allied Sectors in Global scenario*. Vidya Kutir Publications, New Delhi. p: 224 to 231
2. Jyoti, Sangwan, V., and Jangra, A. 2022. Wood Apple: Its nutritive value and medicinal benefits in *Research Trends in Food Technology and Nutrition*. Vol. 20, Pgs. 143-152. Akinik Publications.
3. Jyoti, Sangwan, V. and Jangra, A. 2022. A Comprehensive Review of Nutritional, Health Aspects and Innovative uses of Pseudo-Cereal: Quinoa in *Food and Nutritional Security: An Indian Perspective*. Vol.3, pp 91-104.

**List of Publications from Ph.D. Students' Research (2018-23)**

1. Kumari, N. and Sindhu, S.C. 2019. Nutrient and mineral composition of developed value-added cookies incorporating germinated pumpkin seed powder. *International Journal of Chemical Studies*, 7(3): 4583-4586.
2. Rani, P., Rani, V., Punia, D. and Reena. 2019. Effect of shatavari root powder on sensory and nutritional composition of biscuits. *Journal of Pharmacognosy and Phytochemistry*, **8**(5): 523-526.
3. Rani, P., Rani, V., Jandu, R., Lavanya, A. R. and John, J. 2020. Effect of Storage on Sensory Acceptability and Oxidative Rancidity of Wheat Biscuits Fortified with Asparagus racemosus Root Powder. *European Journal of Nutrition & Food Safety*, 12(6): 13-22.
4. Kumari, N., Sindhu, S. C., Kumari, V. and Rani, V. 2020. Nutritional evaluation of developed value added biscuits incorporating germinated pumpkin seed flour. *Journal of Pharmacognosy and Phytochemistry*, 9(5): 2802-2806.
5. Kumari, N., Sindhu, S. C., Kumari, V. and Rani, V. 2020. Shelf life evaluation of biscuits and cookies incorporating germinated pumpkin seed flour. *International Journal of Current Microbiology and Appied Sciences*, 10 (1): 1436-1443.
6. Rani, P., Rani, V., Renuka and Gulia, S. 2020. Capacity Building of Rural Women through Value Addition of Traditional Products. *Annals of Biology*, 36(3): 476-478.
7. Jandu, R., Rani, V., Sangwan, V., Rani, P. and Pragati, 2021. Development and nutritional evaluation of sev prepared by incorporation of fresh betel leaves (Piper betle L.) slurry. *The Pharma Innovation Journal*, 11(1): 655-658.
8. Kumari, N., Sindhu, S. C., Rani, V. and Kumari, V. 2021. Development and Evaluation of Indian Traditional Sweet 'Laddoo' Supplemented with Germinated Pumpkin Seed Flour. *Asian Food Science Journal*, 20(2): 48-55.
9. Kumari, N., Sindhu, S. C., Rani, V., Kumari, A. and Kumari, V. 2021. Effect of Fermentation on Nutrient Composition of Pumpkin Seed Flour. *Annals of Agri-Bio Research*, 26(2): 234-237.
10. Vinita, Rani, V. and Ritu. 2022. Antioxidant profile of commonly consumed fruits and vegetables in India. *Bangladesh J. Bot*, 51(1): 45-50.
11. Lavanya, A., Rani, V. Sangwan, V. and Godara, P. 2022. Optimization for Incorporating Teff, Sorghum and Soybean Blends in Traditional Food Preparations. *IAHRW International Journal of Social Sciences Review*, 10(4): 422-426.

12. Manisha, Sindhu, S.C. and Nandal, U. 2022. Brown rice Idli: Development and evaluation of a low Glycemic index Indian breakfast food. *The Pharma Innovation Journal*, 11(1): 1255-1258.
13. Rani, N. and Sindhu, S. C. 2022. Physical activity pattern and life style habits among rural and urban diabetic subjects. *International Journal of Home Science*, 8(1): 16-20.
14. Rani, N., Sindhu, S.C., Rani, V. and Manisha. 2022. Food consumption pattern among rural and urban diabetic subjects. *The Pharma Innovation Journal*, 11(2): 1633-1638.

**Papers Presented and Abstracted in Conferences/ Seminars/Workshops**

1. Lavanya. A and Reema Devi. 2018. Extensive Properties and utilization on tamarind seed powder in different food formulations. International conference on Sustainable Agriculture, Energy, Environment and technology (ICSAEET-2018).
2. Lavanya. A and Pinky Boora. 2018. Development of value-added food products from rice. 3rd Conventionand National Symposium on Bridging Biochemical Interventions and Environmental Remediations for one health improvement (SVBBI2018).
3. Sirohi, M., Sangwan, V. and Sirohi, C. 2018. Health benefits of Roselle (*Hibiscus sabdariffa*). 3rd Convention of Veterinary Biochemistry and Biotechnologists of India and National Symposium on Bridging biochemical interventions and environmental remediations for one health improvement, 2-3, November, 2018: 166.
4. Sirohi, M. and Sangwan, V. 2019. Assessment of nutritional knowledge of urban post menopausal women before and after imparting nutrition education. Golden Jubilee International Conference on New Millenia Agriculture- Novel Trends and Future Scenario CCS HAU, Hisar, November 6-8, 2019: 427.
5. Sirohi, M. and Sangwan, V. 2019. Role of pumpkin seeds in food security and health. National Seminar on Innovative Strategies for Gender Equality, I.C. College of Home Science, CCSHAU Hisar, March 8, 2019: 37.
6. Sirohi, M. and Sangwan, V. 2019. Role of pumpkin seeds in food security and health. National Seminar on Innovative Strategies for Gender Equality, I.C. College of Home Science, CCSHAU Hisar, March 8, 2019: 37.
7. Lavanya. A and Pinky Boora. 2019. Improved rice varieties for national nutritional intervention programmes. International Conference on Climate Change towards Health and Agricultural Sustainability (CCHAS-2019).
8. Kumari, N. and Sindhu, S.C. 2019. Entrepreneurial prospects of pumpkin seed products. International Symposium on Innopreneurship: A need of sustainable Agriculture, Directorate of Research, CCS HAU, Hisar, February 2-3, 2019: 392.
9. Kumari, N. and Sindhu, S.C. 2019. Nutrient and mineral composition of developed value-added biscuits incorporating germinated pumpkin seed flour. Golden Jubilee International Conference on New Millenia Agriculture- Novel Trends and Future Scenario CCS HAU, Hisar, November 6-8, 2019: 454.
10. Jyoti and Jood, S. 2019. Nutritional evaluation of biscuits supplemented with spinach leaves powder (*Spinacia oleracea* L.). National Seminar on Innovative Strategies for Gender Equality.
11. Jyoti and Jood, S. 2019. Characterization of minerals in biscuits supplemented with spinach leaves powder. International Conference on Contemporary Issues in Integrating Health and Nutrition with the Emerging Areas of Food Technology, Agriculture, Environment and Allied Sciences, New Delhi.
12. Jyoti, Jood. S. and Sangwan. V. 2021. Nutritional composition and Sensory characteristics of Wheat Based kulcha And buns supplemented with Spinach leaves Powder. International Web Conferenceon Global Research Initiatives for Sustainable Agriculture & Allied Sciences, SKRAU Bikaner, December 13-15, 2021.
13. Jyoti and Sangwan, V. 2021. Nutritional composition, amino acid content and storage stability of gluten free biscuits supplemented with Quinoa flour. 3rd International Conference on Food, Agriculture and Innovations, December 24-26, 2021.

14. Lavanya, A., Varsha Rani and Sunil, R. 2021. Nutritional composition of teff seeds. IAPEN Clinical nutrition Congress.
15. Lavanya, A. and Varsha Rani. 2021. Optimization of red teff, sorghum and Soyabean flour blending ratios for sensory acceptability of porridge. International Conference on Role of Micronutrients for Immunity & Health, 2021.
16. Rani, P., Rani, V., Sangwan, V., Sindhu, S. C., Dahiya, M. and Ritu. 2021. Effectiveness of blanching in removing bitter after taste, nutrients milieu and saponins of asparagus racemosus root powder: An immune booster, I.B. (PG) College, Panipat, July 01, 2021: 52.
17. Jyoti and Sangwan, V. 2022. Utilization of quinoa flour (*Chenopodium quinoa* Wild.) in gluten free pasta formulation: Effects on nutritional, dietary fibre, total minerals and sensory properties International Conference on Advancement of Science and Technology for Environment, Society and People, Kozhikode, 2022: 29.
18. Jyoti and Sangwan, V. 2022. Utilization of quinoa flour (*Chenopodium quinoa* Wild.) in gluten-free laddoo formulation: Effects on sensory properties, nutritional, amino acid and total mineral. International Conference on Recent Trends in Smart and Sustainable Agriculture for Food Security, Punjab.
19. Jyoti, Sangwan, V. and Rani, V 2022. Influence of Quinoa Supplementation in Maize Flour on Nutritional Properties of Chapati. International Conference on Recent Trends in Science, Technology, Management & Humanities, March 29, 2022.
20. Jyoti and Sangwan, V. 2022. Utilization of quinoa flour (*Chenopodium quinoa* Wild.) in gluten-free pasta formulation: Effects on nutritional, dietary fibre, total minerals and sensory properties. International Conference on Advancement of Science and Technology for Environment, Society and People, 28-29 January 2022.
21. Yadav, R. and Yadav, N. 2022. Nutraceutical Benefits of β-Glucans in Human Health Nutrition. 5$^{th}$ International Conference on Food and Nutrition, Universal Society of Food and Nutrition, Malaysia, November 16-17, 2022: 8.
22. Yadav, R. and Yadav, N. 2022. Osmotic Dehydration Processing Techniques of Fruits And Vegetables Combined With Drying Methods For Sustainable Food Production. 7$^{th}$ International Conference on Global Research Initiatives for Sustainable Agriculture & Allied Sciences, Astha Foundation, Meerut (U.P.), India, November 21-23, 2022: 234.
23. Lavanya, A. and Varsha Rani. 2022. Evaluation on physical properties of teff seeds. National conference on Mathematical Sciences for Applied and Agricultural Research. CCS HAU, Hisar.
24. Yadav, R. and Yadav, R. 2023. Role of omega-3 PUFA for cardiovascular diseases. International Conference on Public Health and Dietary Lifestyle, Universal Society of Food and Nutrition, May 10-11, 2023:79.

## CONFERENCES/ SEMINARS/TRAININGS ATTENDED BY PH.D. STUDENTS (2018-23)

| Name of Student | Title of Conferences/ Seminars/Trainings with dates and venue |
|---|---|
| Ms. Nisha Rani 2020HS14D | National conference on Himalayan Cereals for Food and Nutritional Security status and Opportunities. Dated: September 06, 2022. Organized by GBPUAT, Pantnagar, Uttrakhand. |
| | International Conference on Pulses: Smart Crops for Agricultural Sustainability and Nutirional Security. Dated: February 10-12, 2023. Organized by Indian Society of Pulses Research (ISPRD), Kanpur, IIPR and ICAR, New Delhi. |
| | International Conference on Climate Resilient Agriculture for Food Security and Sustainability. Dated: February 17-19, 2023. Organized by CCSHAU, Hisar. |
| Ms. Sonia (2020HS17D) | National Seminar on Innovative Strategies for Gender Equality March 8, 2019 |
| | Golden Jubilee International Conference on New Millennia Agriculture Novel Trends & Future Scenario held at CCSHAU, Hisar. November 6-8, 2019 |
| | 3rd International Conference on "Global Initiative in Agricultural, Forestry and Applied Sciences for food Security, Environmental Safety and Sustainable Development (GIAFAS-2021) at Shri Guru Ram Rai University, Dehradun, Uttarakhand, India October 17-18, 2021 |
| | International Conference on 'Precision agriculture' Organized by ShriVaishnav Institute of Agriculture, Indore (M.P.), India September 26-27th, 2022. |
| | World Environment Summit-2022 Organized by Environment and Social Development Association (ESDA, India) October 15-16th, 2022. |
| | VIIth International Conference in Offline/Online on GRISAAS 2022, at Birsa Agricultural University, Ranchi, Jharkhand, India. 21-23 November-2022 |
| Ms. Neha | WORLD ENVIRONMENT SUMMIT 2022 held at Auditorium, V. P. Chest Institute, University of Delhi, (North Campus) Delhi (India) on15-16 October, 2022 |
| | International Conference on 'Science, Engineering & Technological Innovations' Date: 13 - 14 August, 2022. Bangkok, Thailand |
| | International conference on 'precision Agriculture' held at Vaishnav Vidyapeeth Vishwavidalaya, Indore (M.P) on September 26-27, 2022. |
| Ms. Tanvi Bansal 2018HS10D | National workshop on Production, Processing and Value Addition of Nutri-cereals (Millets) in India 2019. |
| | Golden Jublie International Conference on New Millenia Agriculture Novel Trends and Future Scenario (GINMA), CCS HAU, Hisar 2019. |
| | UGC sponsored National Conference on Food Safety, Nutritional Security and Sustainability, 2020. |
| | International Conference (Online) on Agriculture, Biological and Life Sciences (ICABLS-2021). |
| | International Conference on Recent Trends in Smart & Sustainable Agriculture for Food Security, 2022. |
| Ms. Manisha Sindhu 2018HS09D | National Seminar on Innovative Strategies for Gender Equality at I.C. College of Home Sciences, CCSHAU, Hisar, March 8, 2019. |
| | International conference on " Contemporary Issues in integrating Health and Nutrition with the emerging areas of Food Technology, Agriculture,Environment and Allied Sciences" at SPM College for Women, University of Delhi, Delhi on 6th April, 2019. |
| | International conference on "Emerging Paradigms in Social Science Research" held at BPS Mahila Vishwavidyalya, Khanpur Kalan, Sonipat, Haryana, India on march 25-26, 2019. |

| | |
|---|---|
| Ms. Lavanya. A | National conference on Mathematical Sciences for Applied and Agricultural Research, 2022. |
| | IAPEN Clinical nutrition Congress (ICNC-2021). |
| | International conference on "role of micronutrients immunity & health", 2021 (MICROCON 2021). |
| | International Conference on Climate Change towards Health and Agricultural Sustainability (CCHAS-2019). |
| | International conference on Sustainable Agriculture, Energy, Environment and technology (ICSAEET-2018). |
| | 3rd Conventionand National Symposium on Bridging Biochemical Interventions and Environmental Remediations for one health improvement (SVBBI2018). |
| Ms. Jyoti Rao 2018HS07D | International Conference on Recent Trends in Science, Technology, Management & Humanities 29 March, 2022. |
| | International Conference on Advancement of Science and Technology for Environment, Society and People (ICASTESP-2022), 28-29 January 2022. |
| | International Web Conferenceon Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2021) 13-15 December 2021, SKRAU Bikaner. |
| | 3rd International Conference (Hybrid Mode) On Food, Agriculture and innovations' ICFAI-2021' 24-26 December 2021. |
| | International Conference on Contemporary Issues in Integrating Health and Nutrition with the Emerging Areas of Food Technology, Agriculture, Environment and Allied Sciences, New Delhi 2019. |
| | National Seminar on Innovative Strategies for Gender Equality, 8.03.2019. |
| Ms. Rajni | International Conference on Hybrid mode on Global Research Initiative for sustainable Agriculture & Allied sciences from 21.11.2022-23.11.2022. |
| Ms. Raveena | International conference on Public health and dietary lifestyle organized by Universal society of food and nutrition from 10.05.2023-11.05.2023. |
| Ms. Seema 2019HS15D | “2nd International Conference on Advances in Agricultural, Biological and Applied Science for sustainable Future (ABAS-2018)” organized at Swami Vivekanda Subharti University, Meerut. |
| | National Start up Summit organised at CCS Haryana Agricultural University, Hisar, Haryana from June 1-2, 2018. |
| Ms. Manu Devi 2020HS13D | International Conference on “Precision Agriculture” held at Indore from 26.09.2022-27.09.2022. |
| Ms. Partibha 2021HS11D | “International Conference on Food Processing (2018)” organized at IARI, New Delhi, India from 25.10.2018-27.10.2018 |
| | National Seminar on Innovative Strategies for Gender Equality at I.C. College of Home Sciences, CCSHAU, Hisar, March 8, 2019. |
| Ms. Rekha Yadav 2021HS13D | 5th international conference on Food and Nutrition organized by Universal Society of Food and Nutrition (USFN) Malaysia from 16th & 17th November 2022. |
| | 7th International Conference in Hybrid Mode on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2022S) Organized by Astha Foundation, Meerut (U.P.), India from 21-23 NOVEMBER 2022. |
| Ms. Sheeba Sharma 2022HS13D | International conference on climate resilience organized at CCSHAU, Jan 2023 |
| | International conference on Innovative approaches in Agriculture, Horticulture & Allied Sciences, SGT university and Just agriculture, Gurugram, March 2023. |
| Ms. Priyanka 2022HS07D | International conference on Innovative approaches in Agriculture, Horticulture & Allied Sciences, SGT university and Just agriculture, Gurugram, March 2023. |

## *ANNEXURE VIII - A*

## COURSES OFFERED FOR M.Sc. AND Ph. D. PROGRAMMES

| Course No. | Course Title | Credits | Sem |
|---|---|---|---|
| **M. Sc.** | | | |
| FRM 501* | Approaches to Resource Management | 3+0 | I |
| FRM 502* | Fundamentals of Ergonomics | 2+1 | I |
| FRM 503* | Advanced Interior Space Management | 2+1 | II |
| FRM 504* | Advanced Housing | 2+1 | II |
| FRM 505 | Consumer Issues and Challenges | 2+1 | I |
| FRM 506 | Consumer Guidance and Counselling | 2+1 | I |
| FRM 507 | Consumer Communication Media | 1+2 | II |
| FRM 508 | Product Design, Testing and Evaluation | 1+2 | II |
| FRM 509 | Consumer Economics and Retail Management | 3+2 | I |
| FRM 510 | Work And Work Station Design | 1+2 | I |
| FRM 511 | Advanced Cad for Product Design | 0+4 | I |
| FRM 512 | Energy Conservation in Building Design | 2+1 | I |
| FRM 513 | Interior Design Business Management | 2+1 | II |
| FRM 514 | Furniture Design and Fabrication | 2+1 | II |
| FRM 515 | Colour and Lighting in Interiors | 2+1 | II |
| FRM 591 | Master's Seminar | 1 | I, II |
| FRM 599 | Master's Research | 20 | I, II |
| **Ph. D.** | | | |
| FRM 601** | Advances in Development of Resource Management | 3+0 | I |
| FRM 602** | Occupational Biomechanics | 2+1 | I |
| FRM 603** | Globalization and Consumer Economics | 2+1 | I |
| FRM 604** | Family Dynamics and Women Power | 2+1 | II |
| FRM 605 | Consumer Product Design | 1+2 | II |
| FRM 606 | Environmental Issues and Challenges | 3+0 | II |
| FRM 607 | Managerial Dimensions for Special Groups | 2+1 | II |
| FRM 691 | Doctoral Seminar I | 1 | I, II |
| FRM 692 | Doctoral Seminar II | 1 | I, II |
| FRM 699 | Doctoral Research | 45 | I, II |

*Compulsory for master programme, **Compulsory for doctoral programme

Courses open for PG students of other department FRM 501, 502, 505, 506, 507, and 510

## *ANNEXURE VIII - B*

## *DETAILS OF M.Sc. STUDENTS FROM 2ND SEMESTER 2018-19 TO 1ST SEMESTER 2022-23*

| Sr.No. | Name of student | Admission No. | Title of the Thesis/Research Work | Name of Major Advisor |
|---|---|---|---|---|
| **Passed out** | | | | |
| 1. | Ms. Sarita | 2015HS22M | Ergonomic Study on Biomechanical Stress in Dung Collection | Dr. Manju Mehta |
| 2. | Ms. Anju | 2015HS23M | Ergonomic Assessment of Old Age Homes in Haryana | Dr. Manju Mehta |
| 3. | Ms. Rekha Rani | 2016HS25M | Time and Financial Management Practices of Self-employed Rural Women | Dr. Binoo Sehgal |
| 4. | Ms. Twinkle | 2017HS30M | Effectiveness of Skill Based Vocational Trainings of Eco-friendly Articles for Rural Women | Dr. Kusum Rana |
| 5. | Ms. Monika | 2017HS31M | An Exploratory Study on Stress Level among Adolescents and Coping Mechanism | Dr. Manju Mehta |
| 6. | Ms. Ritu Bura | 2017HS32M | Indoor Climate Assessment of Kindergarten Schools | Dr. Kiran Singh |
| 7. | Ms. Rekha Kasana | 2017HS33M | Feasibility Study of Establishing Herbal Gardens in Hisar District | Dr. Binoo Sehgal |
| 8. | Ms. Santosh Kumari | 2017HS34M | Assessment of Air Quality of Indoor Space through Use of Different Indoor Plants | Dr. Manju Mehta |
| 9. | Ms. Ekta Melkani | 2017HS35M | Work and Work Place Interventions for Enhancing Comfort and Productivity of Workers for Making Bead Products | Dr. Manju Mehta |
| 10. | Ms. Adiel Chiba N. Sangma | 2017HS36M | ErgonomicAssessment on Workers Engaged in Ironing Activity | Dr. Binoo Sehgal |
| 11. | Ms. Deepika Sangwan | 2018HS8M | Study on Occupational Stress among Bank Employees of Rural and Urban Areas of Hisar District | Dr. Kavita Dua |
| 12. | Ms. Preeti | 2018HS10M | Comparative Assessment of Expenditure Pattern of Haryana Families | Dr. Kiran Singh |
| 13. | Ms. Aysha Be. | 2019HS10M | Accessing the Reachablity of Disabled People in University | Dr. Promila K. Chahal |
| 14. | Ms. Khushaboo | 2019HS11M | Extent of Participation and Biomechanical Stress of Women Involved in Cattle Feeding. | Dr. Manju Mehta |
| 15. | Ms. Meenu | 2019HS12M | Energy Conservation in Rural and Urban Houses | Dr. Binoo Sehgal |

## DETAILS OF Ph.D. STUDENTS

## FROM 2ND SEMESTER 2018-19 TO 1ST SEMESTER 2022-23

| Sr. No. | Name of student | Admission No. | Title of the Thesis/Research Work | Name of Major Advisor |
|---|---|---|---|---|
| **Passed out** | | | | |
| **1.** | Ms. Kanchan Shilla | 2014HS13D | Occupational Health Hazards of Workers in Floriculture and Mitigating Measures | Dr. Binoo Sehgal |
| **2.** | Ms. Komal | 2015HS09D | Working Conditions and Economic Feasibility of Floriculture in Open Cultivation and Poly Houses : A Comparative Study | Dr. Binoo Sehgal |
| **3.** | Ms. Garima Yadav | 2015HS10D | Development and Evaluation of Head Load Manager for Construction Workers | Dr. Kusum Rana |
| **4.** | Ms. Ekta Kapri | 2017HS09D | Assessment of Physical Fatigue of Sports Persons | Dr. Manju Mehta |
| **5.** | Ms. Kavita Rani | 2017HS10D | Financial Literacy: Determinants and Implications in Financial Wellbeing of Elderly | Dr. Kiran Singh |
| **6.** | Ms. Sushmita | 2017HS11D | Management Practices of Junk and Work Related Problems of Junk Collected | Dr. Binoo Sehgal |
| **7.** | Ms. Suman | 2017HS12D | Low Budget Natural Farming in Haryana Perspective | Dr. Kiran Singh |
| **8.** | Ms. Ekta Rohilla | 2018HS03D | Knowledge and Proper Utilization of Paddy Residue by Farmers | Dr. Binoo Sehgal |
| **9.** | Ms. Manesh | 2018HS04D | Waste Food Management –Empirical Research | Dr. Kiran Singh |
| **10.** | Ms. Rupal Hooda | 2018HS05D | Appraisal of Carbon and Water Foot Prints in Rural and Urban Households of Haryana for Environment Security | Dr. Manju Mehta |
| **11.** | Ms. Ekta Melkani | 2019HS07D | Functional Improvement Along with Décor Crafts Training Intervention and Marketing among the Rural Women for Quality Life and Sustainable Development. | Dr. Kiran Singh |
| **12.** | Ms. Monika | 2019HS08D | Assessment of Occupational Stress in Female Engaged in Sweeping Activity | Dr. Kiran Singh |
| **13.** | Ms. Santosh Kumari | 2019HS09D | A Study on Green Consumerism Towards Sustainable Development | Dr. Kavita Dua |
| **14.** | Ms. Sarita | 2019HS10D | Occupational Stress among Load Carrying Workers of Grain Market. | Dr. Manju Mehta |
| **15.** | Ms. Twinkle | 2019HS11D | Handling and Management of Biomedical Waste in Hospitals of Haryana | Dr. Manju Mehta |
| **On Roll** | | | | |
| **1.** | Ms. Divyashree Mohapatra | 2020HS07D | Ergonomic Intervention through DMAIC Technique for Work-Related Musculo skeletal Disorders among Dentists | Dr. M. Mehta |

| | | | | |
|---|---|---|---|---|
| **2.** | Ms. Neelam | 2020HS08D | Mushroom Cultivation – Occupational Discomforts For Workers | Dr. K.Singh |
| **3.** | Ms. Preeti | 2020HS09D | Development of Polyhouse Farming Models for Agripreneurship | Dr. Promila K. Chahal |
| **4.** | Ms. Reena Solanki | 2020HS10D | Occupational Risk in Cauliflower Production System | Dr. M. Mehta |
| **5.** | Ms. Khushaboo | 2021HS07D | Design and Development of Mannequin based on Anthropometric Data Repository of Women in Haryana State | Dr. Promila K. Chahal |
| **6.** | Ms. Meenu | 2021HS09D | Promoting Digital Literacy in Rural Women through Need based Training Module | Dr. K.Dua |
| **7.** | Ms. Neelesh Kohli | 2021HS08D | Occupational Drudgery of Farmers in Sugarcane Cultivation: A Climate Change Perspective | Dr. K.Singh |
| **8.** | Ms. Aysha Be. | 2022HS04D | Study on Smartphone Addiction and its Associated Potential risks among universities students | Dr. K.Dua |
| **9.** | Ms. Reetu Rani | 2022HS04D | Development of a Measure on Financial Well-being of Rural Farm Families | Dr. Promila K. Chahal |

## CONFERENCES/ SEMINARS/TRAININGS ATTENDED BY Ph.D. STUDENTS (2018-23)

| Name of Student | Title of Conferences/ Seminars / Trainings with dates and venue |
|---|---|
| **Ms. Komal Chauhan 2015HS10D** | International Conference on Sustainable Agriculture, Energy, Environment and Technology (Icsaeet- 2018), February 24-25, 2018.<br>International Conference on Positive Psychology for Health and Well Being, March 9-10, 2018).<br>International Conference On Women's Work & Occupational Health- Emerging Issues, Challenges Policy Measures in the Unorganized Sector (WWOH-2018), March, 2018. |
| **Ms. Ekta Melkani 2019HS07D** | International Conference- Multidesciplinary on ' Women's Work and Occupational Health- Emerging Issues, Challenges & Policy Measures in the Unorganized Sector (WWOH-2018), Arya PG College, Panipat.<br>International Conference- Recent Trends in Agriculture, Food Science, Forestry, Horticulture, Aquaculture, Animal Sciences, Biodiversity and Climate Change (AFHABC-2018), JNU New Delhi. |
| **Ms. Sarita 2019HS10D** | National Seminar on Innovative Strategies for Gender Equality on 8 March, 2019, CCSHAU, HISAR<br>One Day Webinar on Food Processing and Value Addition: Innovations, Opportunities and Government Schemes" organized by Department of Processing and Food Engineering, CTAE, Udaipur (Rajasthan), 2019. |
| **Ms. Ekta Rohilla 2018HS3D** | International workshop on Biomass conversation technologies for crop residue management, CCS HAU, Hisar, November 19-28, 2019.<br>International conference on Global perspective in agricultural and applied sciences for food and environmental security (GAAFES-2019) organised by Agricultural & environmental technology development society (AETDS), U.S. Nagar, Uttarakhand, December 1-2, 2019 |
| **Ms. Ekta Kapri 2017HS9D** | 17$^{th}$ International Conference on Humanizing Work and Work Environment (HWWE 2019) under Indian Society of Ergonomic (ISE) International Ergonomics Association (IEA), Department of Industrial and Production Engineering,. Dr BR Ambedkhar National Institute of Technology, Jalandhar, India, November 8-10, 2019 |
| **Ms. Rupal Hooda 2018HS05D** | 17th International Conference on Humanizing Work and Work Environment (HWWE 2019). Dr BR Ambedkhar National Institute of Technology, Jalandhar, India<br>6$^{th}$ International and 8$^{th}$ Indian Psychological Science Congress, Chandigarh, 2019 |
| **Ms. Ekta Melkani 2019HS07D** | 17$^{th}$ International Conference on Humanizing Work and Work Environment (HWWE 2019), Jalandhar, November 8-10, 2019.<br>17$^{th}$ International Conference on Humanizing Work and Work Environment (HWWE 2019), Jalandhar, November 8-10, 2019. |
| **Ms. Ekta Melkani 2019HS07D** | National Youth Conclave *MANTHAN* on Youth of India 2047, Envisioning 100 Years of Independence, Vivekanand Swadhayay Mandal, Pantnagar, Uttarakhand, February 20-21, 2020.<br>National Youth Conclave MANTHAN on Youth of India 2047, Envisioning 100 Years of Independence, Vivekanand Swadhayay Mandal, Pantnagar, Uttarakhand, February 20-21, 2020.<br>Online International Conference on Education for Social Cohesion Organized by Bahai's Academy, July 11 – 12, 2020).<br>7 International Virtual Congress (IVC-2020) on Global Research: Innovation, Invention and industrializations and Workshop on Time Management by International |

| | |
|---|---|
| | Science Community Association, August 5 - 10, 2020. |
| **Ms. Komal Chauhan 2015HS10D** | Online Webinar- Understanding research paper writing for cooperatives: From Research to publications, Vaikunth Mehta National Institute of Cooperative Management, Pune, June 8, 21.<br>National webinar on Carrier opportunities in Fashion Apparel and Life Style Product Sector, College of community and applied sciences, MPUA, Udaipur, Rajasthan. July 20, 2021.<br>International Workshop on Advance Statistical Data Analysis Using SPSS organised by Science Tech Institute, Lucknow, UP India, September 21-27, 2021. |
| **Ms. Meenu 2021HS09D** | Webinar on Issues and Challenges on Climate Change, November 25, 2021.<br>Webinar on Dr Ambedkar's Views on Education, October 25, 2021.<br>Online lectures on Challenges for crop improvement in times of global change, December 1, 2021. |
| **Ms. Meenu 2021HS09D** | Certificate of participation in State level Science workshop in Arya P.G. College, Panipat, February 19, 2022.<br>Workshop on Nutrition Security and Entrepreneurship through Urban Farming, February 24-25, 2022<br>Webinar on Job Opportunities in Rural Development - Agriculture Extension, March 12, 2022-<br>Indo- Israel Symposium on Women in STEM -2022, March 29-30, 2022.<br>Webinar on Reducing Carbon Emissions-simple Solutions to complex problems, June 3, 2022. |
| **Ms. Reena solanki 2020HS10D** | Webinar on Skill Development Training on Development of Processed Food by dept. of Processing and Food Engineering, March 2-7, 2022.<br>Indo-Israel Symposium On Women In Stem-2022 by Department of Applied Sciences, The North Cap University, India in collaboration with Department of Chemical Engineering, Ariel University, Israel. March 29-30, 2022. |
| **Ms. Monika 2019HS08D** | Webinar On Indo- Isarel Symposium On Women In Stem, March 29-30, 2022. |
| **Ms. Sarita 2019HS10D** | National conference on mathematical sciences for applied and agricultural research, COBS&H, CCSHAU, Hisar, 2022,<br>Indo-Israel Symposium on women in STEM, The Northcap University, Israel. March 28-30, 2022 |
| **Ms. Ekta Melkani 2019HS07D** | 4$^{th}$ International Conference on Impact of Current Events on the Future of Business Building Resilient Organizations, Vigyan Jyoti Institute of Management, Hyderabad. April 7-9, 2022.<br>International Conference on Multidisciplinary Research 2022, 22$^{nd}$ to 24$^{th}$ November 2022. Sharnbasva University, Kalaburagi. |
| **Ms. Khushaboo 2021HS07D** | International Webinar on Application of Differential Geometry, February 10, 2022.<br>Webinar on Job Opportunities in Rural Development -Agriculture Extension, February 22, 2022<br>Webinar on Reducing Carbon Emissions-simple Solutions to complex problems, June 3, 2022 |

## DETAILS OF M. Sc. STUDENTS

## FROM 2ND SEMESTER 2018-19 TO 1ST SEMESTER 2022-23

| S. No. | Name of student | Admn. No. | Title of Thesis | Major advisor |
|---|---|---|---|---|
| **Passed out** | | | | |
| 1. | Ms. Katara Nootan Shambhulal | 2016HS11M | Parental Encouragement and Educational Aspirations of High School Children in Hisar and Udaipur City | Dr. S. Balda |
| 2. | Ms. Priyanka | 2016HS12M | Self Esteem Achievement Motivation and Academic Performance of High School Children | Dr. S. Balda |
| 3. | Ms. Pinki | 2016HS13M | Parental Aspiration and Academic Stress among Adolescents | Dr. K. Duhan |
| 4. | Ms. Manju Bala | 2016HS14M | Family Environment and Psycho Social Problems among Adolescents | Dr. S. Balda |
| 5. | Ms. Basanti | 2016HS15M | Emotional Intelligence and Self Esteem of Adolescents | Dr. Santosh Sangwan |
| 6. | Ms. Renu | 2016HS16M | Achievement Motivation and Family Environment as Predictor of Self Concept among Adolescent Girls | Dr. C. K. Sigh |
| 7. | Ms. Usha | 2016HS17M | Dimensions of Attitude among Adolescents | Dr. B. Dhanda |
| 8. | Ms. Shourya Negi | 2017HS17M | Sibling Relationship During Middle Adulthood in Relation to Emotional Intelligence in Haryana and Uttarakhand | Dr. Sheela Sangwan |
| 9. | Ms. Beulah Ravirakula | 2017HS18M | Gender Stereotyping and its Influence on Career Choices among Adolescents | Dr. Shanti Balda |
| 10. | Ms. Annu | 2017HS19M | Genetic and Environmental Architecture of Twins Cognition | Dr. Bimla Dhanda |
| 11. | Ms. Diksha | 2017HS20M | Home Environment and Cognitive Abilities of Preschool Children | Dr. C. K. Singh |
| 12. | Ms. Vandana | 2017HS21M | Mental Health Status of Adolescents in Relation to Academic Stress and Family Environment | Dr. Krishna Duhan |
| 13. | Ms. Meenu Verma | 2017HS22M | Academic Performance of Adolescents in Relation to Parental Encouragement | Dr. Santosh Sangwan |
| 14. | Ms. Kiran | 2017HS23M | Moral Judgement in Relation to Emotional Stability of Children | Dr. Sheela Sangwan |
| 15. | Ms. Kritika | 2017HS24M | Parental Involvement in Study Habits of Higher Secondary Students | Dr. Shanti Balda |
| 16. | Ms. Arushi | 2018HS19M | Self-Efficacy and Social Phobia Among Adolescents | Dr. Sheela Sangwan |
| 17. | Ms. Deepika | 2018HS20M | Academic Achievement of Adolescents in Relation to Parental Encouragement and School Environment | Dr. C. K. Singh |
| 18. | Ms. Jyoti | 2018HS21M | Emotional Intelligence and Personality Development of Urban Adolescents | Dr. C. K. Singh |
| 19. | Ms. Muskan Vedi | 2018HS22M | Social Connectedness in Relation to Loneliness among Adolescents | Dr. Sheela Sangwan |
| 20. | Ms. Poonam Devi | 2018HS23M | Emotional Intelligence and Personality Development of Rural Adolescents | Dr. C. K. Singh |
| 21. | Ms. Santosh | 2018HA24M | Developmental Status of Rural Preschoolers in Relation to Food Intake | Dr. K. Duhan |
| 22. | Ms. Sonu Kumari | 2018HS25M | Developmental Status of Urban Preschoolers in Relation to Food Intake | Dr. K.Duhan |

| | | | | |
|---|---|---|---|---|
| 23. | Ms. Monika Yadav | 2019HS25M | Teacher's Occupational Aspiration and Job Satisfaction in Relation to Their Emotional Intelligence | Dr. K. Duhan |
| 24. | Ms. Kiranpreet | 2019HS24M | Life Satisfaction and Self- Perception among Differently Abled Adults | Dr. K. Duhan |
| 25. | Ms. Sunita | 2019HS32M | Study of Behavioural Disorders in Rural and Urban Children | Dr. Sheela Sangwan |
| 26. | Ms. Reenu | 2019HS30M | Educational Aspiration and Parental Encouragement among High School Children | Dr. C. K. Singh |
| 27. | Ms. Poonam Yadav | 2019HS28M | Development of App Content for Pregnant Women | Dr. Poonam Malik |
| 28. | Ms. Samanta | 2019HS31M | Development of App Content for Mothers of Infants | Dr. Poonam Malik |
| 29. | Ms. Pinki Rani | 2019HS27M | Impact of Menstruation Hygiene Management on Self-Esteem of Adolescent Girls | Dr. Poonam Yadav (DES) |
| 30. | Ms. Jyoti | 2019HS23M | Impact of Menstruation Hygiene Management on Self-Esteem of Adolescent Girls | Dr. Poonam Yadav (DES) |
| 31. | Ms. Bhawna Jindal | 2020HS23M | Intervention on Enhancing Self Esteem among Adolescents | Dr. S. Sangwan |
| 32. | Ms. Jyoti | 2020HS24M | Psychological Well Being and Social Support as Determinants of Life Satisfaction among University Teachers | Dr. Poonam Yadav (DES) |
| 33. | Ms. Mehak Walia | 2020HS25M | Mental Health Status of Underprivileged Children | Dr. S. Sangwan |
| 34. | Ms. Namrata Mamgai | 2020HS26M | Predictors of Happiness among Adults | Dr. C. K. Singh |
| 35. | Ms. Preeti | 2020HS27M | Study on Parental Stress among Working and Non-Working Mothers of Infants | Dr. Poonam Malik |
| 36. | Ms. Reema | 2020HS28M | Impact of Perceived Stress and Self Efficacy on Happiness among School Teachers During COVID 19 Pandemic | Dr. Poonam Yadav (DES) |
| 37. | Ms. Renu | 2020HS30M | Behavior Problems among Teenagers | Dr. Meena Siwach (DES) |
| 38. | Ms. Riya | 2020HS31M | Academic and Social Stress among Adolescents | Dr.Meena Siwach (DES) |
| 39. | Ms. Shakshi Sharma | 2020HS32M | Study on Parental Stress among Working and Non-Working Mothers of Preschoolers | Dr. Poonam Malik |
| **On roll** | | | | |
| 1. | Ms. Anshu Devi | 2021HS27M | Gender Discrimination and Career Choices of Adolescent Girls | Dr. Poonam Malik |
| 2. | Ms. Arju Saini | 2021HS28M | Problems and Adjustment of Professional Couples | Dr. Meena Siwach (DES) |
| 3. | Ms. Bharti | 2021HS29M | Quality of Life of Employed and Unemployed Adults | Dr. Poonam Malik |
| 4. | Ms. Sangeeta | 2021HS30M | Well Being, Stress Levels and Adopted Coping Mechanisms among Women Experiencing Infertility | Dr. Meena Siwach (DES) |
| 5. | Ms. Aarti | 2022HS21M | Knowledge of Infant Developmental Milestones among First Time Mothers Living in Rural Areas | Dr. Poonam Yadav (DES) |
| 6. | Ms. Sudiksha | 2022HS22M | Exploring Mother Perception of Play During Early Childhood | Dr. Poonam Yadav (DES) |
| 7. | Ms. Diksha Rawat | 2022HS29M | Yet to be decided | Dr. Poonam Yadav (DES) |

## *ANNEXURE IX - C*

## LIST OF PUBLICATIONS FROM M.Sc. STUDENTS' RESEARCH (2018-23)

**Book Chapters**

1. Bishnoi, S., Mailk, P. and Yadav, P. 2020. A review of effects of working mothers on children's development in *Research Trends in Home Science and Extension*, 4:41-56. Akinik Publications, Delhi.
2. Yadav, P., Mailk, P. and Bishnoi, S. 2020. Care During Pregnancy: A review in *Research Trends in Home Science and Extension*, 4:57-74. Akinik Publications, New Delhi.
3. Devi, A., Malik, P., Boora, M., Sharma, S. and Aarzoo. 2022. Review on the role of counseling in healthy parent-adolescent relationship in *Recent trends in Multidisciplinary Research* (v33, pp. 83-91). Akinik Publications, New Delhi. ISBN: 978-93-5570-019-3.
4. Jyoti, Malik, P., Lohan, S. and Anshu. 2022. Role of guidance and counseling in effective teaching and learning at school in *Recent trends in Multidisciplinary Research* (v33, pp. 35-48). Aki Nik Publications, New Delhi.ISBN: 978-93-5570-019-3
5. Mamgai, N., Malik, P.,Renu and Kaur, S. 2022. Traces of rehabilitation through history of Indian subcontinent in *Recent trends in Multidisciplinary Research* (v36, pp. 39-49). Aki Nik Publications, New Delhi. ISBN: 978-93-5570-280-7
6. Preeti, Mansi, Amita and Malik, P. 2022. A review of effect of guidance and counseling on old age problems in *Recent Trends in Humanities and Social Sciences* (v12, pp. 69-81). Akinik Publications, New Delhi. ISBN: 978-93-5570-120-6
7. Renu, Malik, P., Kaur, S. and Mamgai, N. 2022. A review of role of counselling in single parenting in *Recent trends in Multidisciplinary Research* (v33, pp. 105-113). Akinik Publications, New Delhi. ISBN: 978-93-5570-019-3
8. Saini, A., Malik, P., Lohan, S. and Anshu.2022. Role of counselling in marriage in *Recent trends in multidisciplinary research* (v33, pp. 49-59). Akinik Publications, New Delhi.
9. Sangeeta, Malik, P., Saini, A. & Dudi, J. 2022. Counselling for stress management: A review. in In *Recent trends in Multidisciplinary Research* (v33, pp. 17-33). Aki Nik Publications, New Delhi. ISBN: 978-93-5570-019-3
10. Sharma, R., Malik, P., Dudi, J. and Sharma, M. 2022. Early Childhood Intervention for Juvenile Delinquency Prevention: A Review in *Research Trends in Home Science and Extension* (V 8, pp. 51-68). Akinik Publications, New Delhi. ISBN: 978-93-5570-178-7
11. Sharma, S., Malik, P., Yashvee, Dudi, J. and Anshu. 2022. Psychotherapy's efficacy in the treatment of postpartum depression: A review in *Recent trends in Multidisciplinary Research* (v33, pp. 61-81). Aki Nik Publications, New Delhi. ISBN: 978-93-5570-019-3
12. Rawat, D. 2023. Moral Development: Lawrence Kohlberg in *Conjoined Theories to Understand Human Development in the Context of Modern Education* (pp. 18-23).Walnut Publication, Bhubneswar. ISBN: 978-93-5574-459-3
13. Saini, A. 2023. Psychosocial Development: Erik Erikson in *Conjoined Theories to Understand Human Development in the Context of Modern Education* (pp. 18-23).Walnut Publication, Bhuvneshwar. ISBN: 978-93-5574-459-3
14. Saini, A.2023. Unity in Diversity in *Imagining, Identifying and Innovating the Roadmap to Become the Vishvaguru: Harnessing Potential of Indian Youth* (18th ed. pp. 347-252). Vivekanand Swadhyay Mandal, Pantnagar. ISBN:978-81-958697-7-0

## Research Papers

1. Rana S. and Singh C. K. 2017. Impact of school and home environment on divergent production abilities of adolescents, *International Journal of Educational Science and Research* **7**(1) :93-104
2. Katara, Nootan, Balda, S and Sangwan, Santosh. 2018. Parental encouragement and educational aspirations of high school children. *International Journal of Education and Management Studies*, **9**(2): 266-268
3. Katara, Nootan, Balda, S. and Sangwan, Santosh. 2018. Parental encouragement and educational aspirations of high school children. *International Journal of Education and Management Studies*, **8**(2): 266
4. Rani, P. and Dhanda, B. 2018. Warmth and Affection: A Comparative Study on Soft Skills and Social skills among Children. *International Journal of current microbiology and Applied Sciences*, **7**(6):922-24.
5. Sidola, S. and Dhanda, B. 2018. Impact of Home Environment on Cognitive Devlopment of the Children- A Cross Cultural Study. *International Journal of Educational Science And Research*, **8** (2): 79-86
6. Sunita and Sangwan, Sheela. 2018. A comparative study on quality of life of urban and rural senior citizens. *Annals of Agri- Bio Research*, **23**(2): 195-197.
7. Sunita and Sangwan, Sheela. 2018. The impact of family type on quality of life of senior citizens. *Annals of Agri- Bio Research*, 23(2): 198-200.
8. Sunita and Sangwan, Sheela. 2018. The relationship between depression and adjustment pattern of senior citizens. *Annals of Biology*, **23**(3): 311-313

## CONFERENCES/ SEMINARS/TRAININGS ATTENDED BY M.Sc. STUDENTS (2018-23)

| Name of Student | Title of Conferences/ Seminars/Trainings with dates and venue |
|---|---|
| Ms. Diksha<br>Ms. Vandana<br>Ms. Kiran | 3rd International Conference Global Initiatives in Agricultural and Applied Sciences for Eco Friendly Environment ,Tribhuvan University , Kathmandu, Nepal |
| Ms. RenuBala | National Conference on Biodiversity and Environmental Sustainability in Modern Era, Department of Zoology, Chhaju Ram Memorial Jat College, Hisar, February, 16, 2019. |
| Ms. Diksha<br>Ms. Basanti<br>Ms. Renu | National Seminar on Innovative Strategies for Gender Equality, I.C. College of Home Science, CCSHAU, March 8, 2019. |
| Ms. Meera Rani | Golden Jubilee international conference, I.C. College of Home Science. CCS Haryana Agricultural University, Hisar, November6-9, 2019. |
| Ms. Poonam Yadav | National conference on Innovation and Advancement in different Streams of Higher Education. Mahatma Jyoti Rao Phoole University, Jaipur, Rajasthan, January16-19, 2020. |
| Ms. Bhawana Jindal | Webinar on Improving the Quality of Agricultural Research Landscape in India by Nehru Library, CCS Haryana Agricultural University, Hisar, June 30, 2021. |
| Ms. Shakshi Sharma | Training on Empowering Young Researchers of Agricultural Sector for Nation Building- Opportunities for Outstanding Performance, IVRI, Pune, July26-31, 2021. |
| Ms. Bhawana Jindal | National Seminar on Holistic health of Adolescents: Issues and Challenges. DAV College for Girls, Yamuna Nagar, March26,2022. |
| Ms. Bhawana Jindal | 4thOnline International Conference on Impact of Current Events on the Future of Bussines: Building Resilient Organisations, April7-9,2022. |
| Ms. Shakshi Sharma | Training Programme on Academic Writing for Publishing Research Articles in Hindi Impact Factor Journals IVRI, Pune ,April26-30, 2022. |
| Ms. Aarti | International Conference on Climate Resilient Agriculture for Food Security And Sustainability, CCS HAU Hisar, February 17-19, 2023. |
| Ms. Sangeeta | International Conference on life skills education. Rajdhani College, New Delhi, November 2022. |
| Ms. Arju Saini | National Conference on Imagining, Identifying and Innovating the Roadmap to become the Vishvaguru: Harnessing Potential of the Indian Youth, Vivekanand Swadhyay Mandal, Pantnagar, January 2023. |

## DETAILS OF Ph.D.STUDENTS

## FROM 2nd SEMESTER 2018-19 TO 1st SEMESTER 2022-23

| S. No. | Name | Admn. No. | Title of Thesis | Major advisor |
|---|---|---|---|---|
| **Passed out** | | | | |
| 1. | Ms. Parminderjeet | 2014HS7D | Adjustment among college youth in relation to intelligence and socio-emotional maturity | Dr. Krishna Duhan |
| 2. | Ms. Sunita | 2014HS8D | Quality of life and adjustment pattern among senior citizens | Dr. Sheela Sangwan |
| 3. | Ms. Varsha Saini | 2014HS9D | Ecological perspectives of bullying and victimization in school children | Dr. Shanti Balda |
| 4. | Ms. Rupika Chopra | 2014HS10D | Intervention programme for depression management among adolescents | Dr. Sheela Sangwan |
| 5. | Ms. Reetu | 2014HS11D | Genetic and environmental basis of temperament and fluid intelligence among twins | Dr.B.Dhanda |
| 6. | Ms. Tanya Arya | 2014HS12D | Quality of life an adjustment pattern among senior citizens | Dr. Sheela Sangwan |
| 7. | Ms. Pinki Rani | 2015HS6D | Parenting stress among parents of normal and disabled children in Haryana State | Dr.C.K.Singh |
| 8. | Ms. Pinki | 2015HS7D | Social adjustment and psycho-social problems among rural female geriatric population | Dr. Santosh Sangwan |
| 9. | Ms. Reena | 2015HS8D | Cross cultural copying strategies for loneliness and social isolation in elderly women | Dr.B.Dhanda |
| 10. | Ms. Kavita Kumari | 2016HS6D | Marital stress among women | Dr. B. Dhanda |
| 11. | Ms. Meera Rani | 2016HS7D | Detriments of meta cognition among adolescents | Dr.K.Duhan |
| 12. | Ms. Priyanka Beniwal | 2016HS8D | Psychological well being, loneliness and social | Dr.C.K.Singh |
| 13. | Ms. Arti Kumari | 2017HS7D | Early childhood and long term development | Dr. Sheela Sangwan |
| 14. | Ms. Sumit Sheoran | 2017HS8D | Emotional strength and emotional experiences | Dr. Bimla Dhanda |
| 15. | Ms. Pavithra | 2018HS11D | Development of screening tool for behavioral addiction in adolescents | Dr.C.K.Singh |
| 16. | Ms. Pinki | 2018HS12D | Occupational stress among teachers of State universities | Dr.K.Duhan |
| 17. | Ms. Priyanka | 2018HS13D | Work stress and well being among police personals | Dr.C.K.Singh |
| 18. | Ms. Annu | 2019HS16D | Twin Study on Imperial Intervention to Unravel Nature and Nurture of Intelligence | Dr. B. Dhanda |
| 19. | Ms. Diksha | 2019HS17D | Knowledge and Attitude about Reproductive Health and Family life education among rural females in Haryana State: An Intervention study | Dr.C.K.Singh |

| | | | | |
|---|---|---|---|---|
| 20. | Ms. Priyanka | 2019HS19D | Social Isolation and Cognitive Functioning in Later Life | Dr. Sheela Sangwan |
| **On roll** | | | | |
| 1. | Ms. Renu Joshi | 2019HS20D | Development of Personality Assessment tool for Juvenile Delinquents | Dr. Krishna Duhan |
| 2. | Ms. Kritika | 2020HS18D | Occupational Stress and Coping Strategies among Healthcare Workers in Haryana | Dr. Poonam Malik |
| 3. | Ms. Rajni | 2020HS19D | Correlates of Academic Stress and Self-Esteem among adolescents | Dr. Poonam Malik |
| 4. | Ms. Shatakshi Singh | 2020HS20D | Impact of School Readiness Intervention on knowledge of Preschool Teachers | Dr. S. Sangwan |
| 5. | Ms. Simran Rani | 2020HS21D | Impact of Work Family Conflict on Psychological Wellbeing of Married Couples | Dr. Meena Siwach (DES) |
| 6. | Ms. Jyoti | 2021HS14D | Impact of intervention on menopausal awareness and related quality of life of rural women | Dr. Poonam Yadav (DES) |
| 7. | Ms. Neelam Kumari | 2021HS16D | Study on family functionality and fertility health behaviourof infertilerural women | Dr. Poonam Yadav (DES) |
| 8. | Ms. Samantha | 2021HS17D | Development of app for mothers of infant | Dr. Poonam Malik |
| 9. | Ms. Sunita | 2021HS18D | Development of parenting app content for mothers of toddlers | Dr. Poonam Malik |
| 10. | Ms. Amita | 2022HS09D | Psychological hardness among adolescents and its relationship with mental health | Dr. Meena Siwach (DES) |
| 11. | Ms. Jyoti | 2022HS10D | A study of personality, locus of control and mental health of athletic and non athletic university students | Dr. Meena Siwach (DES) |
| 12. | Ms. Reenu | 2022HS11D | Career decision making among adolescents in relation to self concept and parental encouragement | Dr. Meena Siwach (DES) |
| 13. | Ms. Priyanka | 2022HS12D | To be finalized | Dr. Poonam Malik |

## COURSES OFFERED FOR M.Sc. AND Ph.D. PROGRAMMES

| Course No. | Course Title | Credits | Sem. |
|---|---|---|---|
| **M.Sc.** | | | |
| TAD 501 | Textile Chemistry and Quality Analysis | 2+2 | II |
| TAD 502 | Advanced Textile Designing | 1+2 | I |
| TAD 503 | Advanced Pattern Making and Draping | 1+3 | II |
| TAD 504 | Historic Costumes and Socio-Psychological Aspects of Clothing | 1+2 | II |
| TAD 505 | Textiles and Apparel Industrial Management | 3+0 | I |
| TAD 506 | Advanced Dyeing, Printing and Finishing of Textiles | 2+1 | I |
| TAD 507 | Apparel Quality Analysis | 1+1 | II |
| TAD 508 | Textile Auxiliaries and their Applications | 2+1 | II |
| TAD 509 | Advanced Computer Aided Textiles and Apparel Designing | 1+2 | I |
| TAD 510 | Home Textiles | 1+2 | II |
| TAD 511 | Knitting Technology | 1+1 | I |
| TAD 512 | Consumer Behaviour- Textiles and Apparel | 1+1 | I |
| TAD 591 | Master's Seminar | 1 | I, II |
| TAD 599 | Master's Research | 20 | I, II |
| **Ph.D.** | | | |
| TAD 601 | Functional Clothing | 2+1 | I |
| TAD 602 | Technical Textiles | 3+0 | I |
| TAD 603 | Textile Ecology | 3+0 | II |
| TAD 604 | Sourcing and Globalization | 3+0 | I |
| TAD 605 | Product Development | 1+2 | II |
| TAD 606 | Textile Conservation | 1+1 | II |
| TAD 607 | Colour Application in Textiles | 1+1 | II |
| TAD 608 | Recent Advances in Textile and Apparel | 2+0 | I |
| TAD 691 | Doctoral Seminar I | 1 | I, II |
| TAD 692 | Doctoral Seminar II | 1 | I, II |
| TAD 699 | Doctoral Research | 45 | I, II |

## DETAILS OF M.Sc. STUDENTS FROM 2nd SEMESTER 2018-19 to 1st Semester 2022-23

| S. No. | Name of student | Admn. No. | Title of Thesis | Major advisor |
|---|---|---|---|---|
| **Passed out** | | | | |
| **1.** | Ms. Parmila | 2015HS19M | Development of Ready-to-use Yokes through Digital Embroidery | Dr. Nirmal Yadav |
| **2.** | Ms. Lata Samant | 2016HS18M | Effect of Enzymatic Treatment on Dyeing of Cotton Fabric with Natural Dye | Dr. Neelam M. Rose |
| **3.** | Ms. Neenu Poonia | 2016HS19M | Efficacy of *Kinnow* Peel Extract for Microbial Resistance on Cotton Fabric | Dr. Vivek Singh |
| **4.** | Ms. Sushila | 2016HS20M | Efficacy of Lemon Peel Extract for Microbial Resistance on Cotton Fabric | Dr. Nisha Arya |
| **5.** | Ms. Pooja Rani | 2016HS21M | Adaptation of Madhubani Motifs for Screen Printing and Hand Embroidery | Dr. Saroj Yadav |
| **6.** | Ms. Kumari Medha | 2017HS25M | Antibacterial Finish on Cotton using *Giloy* Extract | Dr. Nisha Arya |
| **7.** | Ms. Sharmila | 2017HS26M | Antibacterial Finish for Cotton Fabric using Herbal Extract | Dr. Neelam M. Rose |
| **8.** | Ms. Rajni | 2017HS27M | Application of Plant Extract on Cotton Fabric for Bacterial Resistance | Dr. Saroj Yadav |
| **9.** | Ms. Rubi Sharma | 2017HS28M | Effect of Enzymatic Treatment on Dyeing of Woollen Fabric with Natural Dye | Dr. Neelam M. Rose |
| **10.** | Ms. Ritika Bamal | 2017HS29M | Antibacterial Finish on Cotton using *Amaltas* Leaves Extract | Dr. Nisha Arya |
| **11.** | Ms. Anita | 2018HS27M | Micro encapsulation of Thyme Oil for Developing Aroma Wool Fabric | Dr. Neelam M. Rose |
| **12.** | Ms. Shalini Rukhaya | 2018HS29M | Micro encapsulation of Vetiver Oil for Development of Aroma Wool fabric | Dr. Neelam M. Rose |
| **13.** | Ms. Bindu Kumari | 2019HS33M | Utilization of Snake Plant for Fibre Extraction | Dr. Lalita Rani |
| **14.** | Ms. Dimple Chahar | 2019HS34M | Development of Baby Wipes using Herbal Combination | Dr. Parul Gill |
| **15.** | Ms. Kiranjot Kaur | 2019HS35M | Development of Innovative Products using Hosiery Waste | Dr. Saroj Yadav |
| **16.** | Ms. Raveena | 2019HS36M | Application of Bio-polymer Nano Particles for Improving the Dye Uptake of Cotton Fabric | Dr. Mona Verma |
| **17.** | Ms. Divya | 2020HS33M | Effect of Eco-friendly Mordant on Dyeability of Cotton fabric with Anionic Dye | Dr. Mona Verma |
| **18.** | Ms. Neeta | 2020HS34M | Effect of Biomordants on Dyeability of Cotton Fabric with Natural Dye | Dr. Nisha Arya |
| **19.** | Ms. Savita | 2020HS37M | Effect of Biomordants on Dyeability of Cotton Fabric with *Ashoka* Bark Dye | Dr. Lalita Rani |
| **On roll** | | | | |

| **8.** | Ms. Soniya | 2021HS37M | Development of Stoles through Transfer Printing using Religious Motifs of Haryana | Dr. Neelam M. Rose |
| **9.** | Ms. Anjali Lohan | 2022HS23M | Application of Traditional Motifs of Haryana on Denim through Block Printing | Dr. Parul Gill |
| **10.** | Ms. Gunjan | 2022HS24M | Effect of Biosynthesized *Cymbopogon Citratus* Silver Nanoparticles on Microbial Resistance of Cotton Fabric | Dr. Nisha Arya |
| **11.** | Ms. Pratibha | 2022HS26M | Natural Dyeing of Silk Fabric using Inorganic Nanoparticles | Dr. Saroj Yadav |
| **12.** | Ms. Santosh | 2022HS28M | Application of Coir-Based Agro-Textile in Vegetable Crops Activities | Dr. Saroj Devi |

## *ANNEXURE X- C*

## LIST OF PUBLICATIONS FROM M.Sc. STUDENTS' RESEARCH (2018-23)

### Research Papers

1. Bhandari, B. Singh, S.S.J. and Rose, N.M. 2018. Effect of sericin treatment conditions on dye ability of cotton fabric. *Journal of Applied and Natural Science*s, **10**(1):102-106.
2. Devi, S., Singh, V., Punia, P. and Arya, N. 2018. Existing trends of trimmings for apparels. *Asian Journal of Home Science*, **13**(1):402-407.
3. Renu, Arya, N. and Sodhi, S. 2018. Transformation of kasuti embroidery motifs for hand painting. *International Journal of Current Microbiology and Applied Science*s, **7**(4):1010-1017.
4. Priyanka, Yadav, N., Khambra, K. and Arya, N. 2018. Preferences for designing techniques and features to make innovative articles. *International Journal of Advance Research and Development*, **3**(7):83-85.
5. Renu, Arya, N., Singh, V. and Chauhan, N. 2019. Preferences of experts for selection of color ways for hand painting. *International Journal of Current Microbiology and Applied Sciences*, **8**(3):701-706.
6. Rani, B., Yadav, S. and Rose, N.M. 2019. Designing and development of partition curtains through macramé technique. *International Journal of Education and Management Studies*, **9**(1):33-37.
7. Rani, B., Yadav, S. and Rose, N.M. 2019. Development of innovative knot combinations designs using macramé technique. *International Journal of Home Science*, **5**(1):193-196.
8. Pooja, Singh, V. and Arya, N. 2019. Development of contemporary *Kathiawar* embroidery designs for Jacket. *International Journal of Current Microbiology and Applied Science*s, **8**(2):1-8
9. Rani, P., Yadav, S., Rose, N.M. and Bhandari, V. 2019. Acceptability and marketability of screen-printed stoles. *International Journal of Education and Management Studies*, **9**(4):282-286.
10. Rani, P., Yadav, S., Rose, N.M. and Bhandari, V. 2019. Madhubani painting motifs: A source of design inspiration from traditional to contemporary. *International Journal of Current Microbiology and Applied Science*s, **8**(11):863-873.
11. Rani, P., Yadav, S., Rose, N.M. and Bhandari, V. 2019. Acceptability and marketability of screen printed stoles. *International Journal of Education and Management Studies*, **9**(4):282-286.
12. Jamal, Z and Singh, V. 2019. Effect of guava leaves treatment on physical properties of cotton. *Journal of Cotton Research Development*, **33**(1):173-179.
13. Samant, L., Jose, S., Rose, N.M. and Shakyawar, D.B. 2020. Antimicrobial and UV protection properties of cotton fabric using enzymatic pretreatment and dyeing with *Acacia catechu*. *Journal of Natural Fibers*, 1-11.
14. Poonia, N., Arya, N. and Singh, V. 2020. Banana fiber: A review. *International Journal of Education and Management*, **10**(2):144-146.
15. Devi, S., Singh, V. and Sushila. 2020. Training imparted to rural women on use of underutilized textile materials for making trimmings. *International Archive of Applied Sciences and Technology*, **11**(4): 68-72.
16. Rulhania, R., Arya, N., Medha and Rani, L. 2021. Antibacterial potency of weed plants. *Journal of Pharmacognosy and Phytochemistry*, **10**(6):343-346.
17. Rulhania, R., Arya, N., Sushila and Gill, P. 2021. Effect of preparatory processes on physical properties of cotton fabric. *Journal of Pharmacognosy and Phytochemistry*, **10**(1):2720-2724.

18. Medha, K., Arya, N., Malik, K., Ahlawat, S. and Chauhan, N. 2021. Antibacterial and qualitative phytochemical analysis of *Giloy* extract for application of herbal finish on cotton fabric. *Indian Journal of Traditional Knowledge*, **20**(4):944-950.
19. Rukhaya, S., Rose, N.M. and Yadav, S. 2021. Durable aroma finishing of wool fabric with micro encapsulated vetiver essential oil and assessment of its properties. *Journal of Polymer Materials*, **38**(3-4):179-190.
20. Rukhaya, S., Rose, N.M. and Yadav, S. 2021. Aroma treatment of wool fabric with microencapsulated vetiver essential oil. *Chemical Engineering*, **2**(4):105-117.
21. Rajani, Yadav, S. and Rose, N.M. 2022. Cotton fabric functionalized with banyan leaves extract for developing antimicrobial textiles. *Journal of Cotton Research and Development*, **36**(1):124-128.
22. Rulhania, R., Arya, N., Hooda, S., Rani, S., Malik, K., Singh, V. and Rani, L. 2022. Antibacterial and qualitative phytochemical analysis of *Ghamra* (*Tridax Procumbens Linn*) and *Apamarga* (*Achyranthes Aspera*) weeds extract. *Journal of Agricultural Mechanization in Asia, Africa and Latin America*, **53**(02): 6279 - 6289.
23. Rukhaya, S., Rose, N.M. and Yadav, S. 2022. Microencapsulation of vetiver essential oil using complex coacervation technique. *Ecology, Environment and Conservation,* 22(August Suppl. Issue): S114-S120.
24. Kaur, K., Yadav, S., Rose, N.M. and Bisht, D. 2022. Designing home textiles, utility articles and fashion accessories through CAD. *International Journal of Home Science,* **8**(3): 277-287.
25. Renu, Arya N., Bhambu, S., Sodhi, S. and Saini, N. 2022. Cost acceptability of hand painted textile articles developed using *Kasuti* embroidery motifs. *International Journal of Home Science,* **8**(3): 303-305.

**Papers presented and abstracted in Conferences/ Seminars/Workshops**

1. Rani, R., Rose, N.M. and Pooja. 2018. Income generating through digital embroidery using traditional cutwork motifs. International Conference on Women's Work & Occupational Health- Emerging Issues, Challenges & Policy Measures in the Unorganized Sector, Arya P.G College, Panipat, Haryana, March 24-25, 2018, pp:178.
2. Rani, R., Rose, N.M. and Yadav, S. 2018. Income generating through digital embroidery using traditional cutwork motifs. National Seminar on Trends and Advances in Wool and Specialty Hair, GBPUA&T, Pantnagar, Uttarakhand, March16-17, 2018, pp: 56.
3. Rani, B. and Yadav, S. 2018. Designing of innovative macramé partition curtains using CorelDRAW. XXXII Biennial Conference of the Home Science Association of India on Family and Community Science: A Catalyst for Sustainable Development Goals, MPUA&T, Udaipur, Rajasthan, February1-3, 2018, pp: 393.
4. Sushila, Arya, N., Poonia, N., Malik, K. and Devi, S. 2018. Lemon peel: An efficient antimicrobial finish on cotton fabric. National Seminar on Environmental Issues: Impact, Control and Challenges, Manohar Memorial (P.G) College, Fatehabad, Haryana, March 9-10, 2018.
5. Poonia, N., Singh, V., Sushila, Malik, K. and Arya, N. 2018. Antimicrobial activity of *kinnow* peel extract. International Conference on Current Challenges and Future Perspective of Science, Technology and Social Humanities, Dr. B.R. Ambedkar University, Agra, UP, February 26-28, 2018.
6. Sushila, Arya, N., Poonia, N., Malik, K. and Devi, S. 2018. Antimicrobial activity of lemon peel extract against *Bacillus Spp.* International Conference on Current Challenges and Future Perspective of Science, Technology and Social Humanities, Dr. B.R. Ambedkar University, Agra, UP, February 26-28, 2018.
7. Poonia, N., Singh, V., Sushila, Arya, N., and Malik, K. 2018. Eco-efficiency: Way to sustainable development. International Conference on Sustainable Agriculture, Energy,

Environment and Technology, Maharishi Dayanand University, Rohtak, Haryana, February 24-25, 2018.

8. Sushila, Arya, N., Poonia, N., Malik, K. and Devi, S. 2018. Environmentally friendly antibacterial cotton textile finished with lemon peel extract. International Conference on Sustainable Agriculture, Energy, Environment and Technology, Maharishi Dayanand University, Rohtak, Haryana, February 24-25, 2018.
9. Sushila, Arya, N., Poonia, N. and Devi, S. 2018. Development of antimicrobial finish using lemon peels extract. 2nd International Conference on Advances in Agricultural, Biological and Applied Sciences for Sustainable Future, Swami Vivekanand Subharti University, Meerut, UP, India. October 20-22, 2018, pp: 117.
10. Poonia, N., Singh, V., Arya, N., Sushila, Malik, K. and Shikha, 2019. Waste management to environment security. International Symposium on Innopreneurship: A Need of Sustainable Agriculture, CCS HAU, Hisar, Haryana, February 2-3, 2019, pp: 257.
11. Rani, B., Yadav, S. and Rose, N.M. 2019. Development of macramé partition curtains- An Entrepreneurial activity. International Symposium on Innopreneurship: A Need of Sustainable Agriculture, CCS HAU, Hisar, Haryana, February 2-3, 2019, pp: 407-408.
12. Rani, D., Rose, N.M. and Yadav, S. 2019. Empowering women economically through innovative nozzle printing. National Seminar on Innovative Strategies for Gender Equality, I.C. College of Home Science, CCS HAU, Hisar, Haryana, March 8, 2019, pp:168.
13. Sushila, Yadav, S. and Rose, N.M. 2019. Skill development in fabric painting: A key to women empowerment. National Seminar on Innovative Strategies for Gender Equality, I.C. College of Home Science, CCS HAU, Hisar, Haryana, March 8, 2019, p:175.
14. Rani, B., Yadav, S., Rose, N.M. and Bhandari, V. 2019. Revival of macramé art through product diversification. Golden Jubilee International Conference on New Millennia Agriculture-Novel Trends & Future Scenario, CCS HAU, Hisar, Novmeber 6-8, 2019, pp:414.
15. Rani, P., Yadav, S., Rose, N.M. and Bhandari, V. 2019. Innovative use of Madhubani designs for stoles. Golden Jubilee International Conference on New Millennia Agriculture-Novel Trends & Future Scenario, CCS HAU, Hisar, November 6-8, 2019, pp: 415.
16. Rani, R., Rose, N.M., Yadav, S. and Singh, V. 2019. Development of innovative multipurpose borders through digital cutwork embroidery. Golden Jubilee International Conference on New Millennia Agriculture-Novel Trends & Future Scenario, CCS HAU, Hisar, Novmeber 6-8, 2019, pp: 419.
17. Rajni, Yadav, S. and Rose, N.M. 2021. Utilization of banyan leaves extract for herbal finishing of cotton. International Conference on New Paradigms for Agriculture, Food and Sustainability Concerns. Agriculture Letters, Raichur, Karnataka, February 26-28, pp: 36.
18. Dogra, D. and Verma, M. 2021. Applications of nanotechnology in textiles: An overview. International Conference on New Paradigms for Agriculture, Food and Sustainability Concerns (NPAFSC-2021), Agriculture Letters, Raichur, Karnataka, February 26-28, 2021.
19. Yadav, R. and Verma, M. 2021. Use of nanotechnology in textile colouration: An overview. International Conference on New Paradigms for Agriculture, Food and Sustainability Concerns (NPAFSC-2021), Agriculture Letters, Raichur, Karnataka, February 26-28, 2021.
20. Sharma, M. and Gill, P. 2023. Development of embroidered wall panels using traditional desigins of Haryana. International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCS HAU, Hisar, February 17-19, 2023, pp: 809.
21. Kaur, K., Yadav, S., Rose, N.M. and Rukhaya, S. 2023. Utilization of Hosiery waste: A step towards green consumerism. International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCS HAU, Hisar, February 17-19, 2023, pp: 831.
22. Khushwah, N. and Arya, N. 2023. Application of eco-friendly natural dyes with biomardants on cotton fabric. International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCS HAU, Hisar, February 17-19, 2023, pp: 833.

23. Annu and Verma, M. 2023. Microencapsulation of eco-friendly biopolymer (Chitosan) and essential oil for fragrance finish. International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCS HAU, Hisar, February 17-19, 2023, pp: 846-847.

**Book Chapter**

1. Devi, S., Singh, V. and Hooda, S. 2019. Trims: Design with waste textile materials. Lambert Acadamic Publishings, New Delhi.

**Design Catalogues**

1. Parmila, Yadav, N. and Arya, N. 2018. Development of ready-to-use yokes through digital embroidery. Department of Textile and Apparel Designing, I.C. College of Home Sciences, CCS HAU, Hisar.

2.

## DETAILS OF Ph.D. STUDENTS

## FROM 2nd SEMESTER 2018-19 TO 1st SEMESTER 2022-23

| S. No. | Name | Admn. No. | Title of Thesis | Major advisor |
|---|---|---|---|---|
| **Passed out** | | | | |
| **1.** | Ms. Neelam Saini | 2013HS8D | Diversified use of Recycled Woollen Blended Yarn | Dr. Saroj Yadav |
| **2.** | Ms. Bharti Sharma | 2013HS9D | Diversified use of Cotton Blended Shoddy Yarn | Dr. Nirmala Yadav |
| **3.** | Ms. Sarita Devi | 2015HS11D | Development of Home Furnishing Textile Articles using Digital Embroidery | Dr. Nisha Arya |
| **4.** | Ms. Neha Chauhan | 2015HS12D | Effects of Softening Agents on Drapability of Cotton *Khadi* Fabric | Dr. Nisha Arya |
| **5.** | Ms. Suman Sodhi | 2015HS13D | Up-Cycling of Pre and Post Apparel Waste | Dr. Vivek Singh |
| **6.** | Ms. Zeba Jamal | 2016HS09D | Effect of Enzyamtic Treatment on Softening of Jute Fabric | Dr. Nisha Arya |
| **7.** | Ms. Sangeeta Tomer | 2016HS10D | Upcycling of Discarded Denim | Dr. Vivek Singh |
| **8.** | Ms. Sushma Rani | 2016HS11D | Development of Anti-felting Wool Fabric | Dr. Neelam M. Rose |
| **9.** | Ms. Vandana Bhandari | 2017HS14D | Effect of Metallic Nanoparticles on Dyeability of Cotton and Wool with Natural Dyes | Dr. Saroj Yadav |
| **10.** | Ms. Neenu Poonia | 2018HS14D | Development of Bio-composites using Rice Straw and Wool Waste | Dr. Neelam M. Rose |
| **11.** | Ms. Sushila | 2018HS16D | Application of Silver Nanoparticles for Finishing of Cotton Fabric | Dr. Nisha Arya |
| **On roll** | | | | |
| **1.** | Ms. Pratishtha Verma | 2019HS21D | Fibre Extraction from Bagasse for Development of Blend Fabric | Dr. Neelam M. Rose |
| **2.** | Ms. Arpita Grover | 2020HS23D | Effect of Biopolymer Treatment on Antimicrobial Efficacy of Nano Finished Cotton Fabric | Dr. Nisha Arya |
| **3.** | Ms. Diksha Bisht | 2020HS24D | Adaptation of Indian Floor Painting Designs on Stoles through Digital Technology | Dr. Saroj Yadav |
| **4.** | Ms. Shalini Rukhaya | 2020HS25D | Fabrication of *Dhaincha* Fibre Reinforced Hybrid Bio-composites | Dr. Neelam M. Rose |
| **5.** | Ms. Madhusmita Tarai | 2021HS19D | Develoment of Mosquito Repellent Cotton Fabric using Peppermint and Tea Tree Oil | Dr. Parul Gill |

## *ANNEXURE X- F*

## LIST OF PUBLICATIONS FROM Ph.D STUDENTS' RESEARCH (2018-23)

### Research Papers

1. Chauhan, N., Yadav, N. and Arya, N. 2018. Applications of artificial neural network in textiles. *International Journal of Current Microbiology and Applied Science*s, **7**(4):3134-3143.
2. Sharma, B., Yadav, N. and Yadav, S. 2018. Usage pattern of cotton blended shoddy yarn for product development in industry. *International Journal of Chemical Studies*, **6**(2):3353-3355.
3. Chauhan, N., Arya, N. and Sodhi, S. 2018. Fiber from milk byproducts- A new dimension. *International Journal of Current Microbiology and Applied Science*s, **7**(4):1257-1264.
4. Chauhan, N., Arya, N. and Yadav, N. 2018. Applications of cyclodextrins in textiles. *International Journal of Chemical Studies*, **6**(3):2314-2320.
5. Chauhan, N., Arya, N. and Yadav, N. 2018. Applications of cyclodextrins in textiles, International Journal of Chemical Studies, **6**(3):2314-2320.
6. Devi, S., Yadav, N., Arya, N. and Sushila. 2019. Digital embroidery: An imagination. *Bulletin of Environment, Pharmacology and Life Sciences*, **8**(2): 17-20.
7. Devi, S., Yadav, N., Arya, N. and Sushila. 2019. Purchasing behavior of consumers for home furnishing textile products. *International Journal of Pure and Applied Bioscience*, **7**(1):140-145.
8. Sushila and Arya, N. 2019. Recycling and upcycling of agricultural waste. *International Journal of Chemical Studies*, **7**(2): 882-884.
9. Sharma, A., Singh, S.S.J., Rose, N.M. and Massey, S. 2020. Simulation of applique designs using CAD. *International Journal of Current Microbiology and Applied Science*s, **9**(2): 2214-2227.
10. Jamal, Z. and Arya, N. 2020. Creation of designs using CAD and their selection. *The Pharma Innovation Journal*, **9**(4):217-219.
11. Jamal, Z., Arya, N., Rani, L. and Kumari, M. 2020. Golden Fibre: Jute. *The Pharma Innovation Journal*, **9**(4):215-216.
12. Devi, S., Arya, N., Yadav, N., Rani, L. and Sushila. 2020. Creation of innovative designs using traditional Kashidakari embroidery motifs for home furnishings. *Advances in Research*, **21**(5):35-40.
13. Rani, S., Kadam, V., Rose, N.M., Jose, S., Yadav, S. and Shakyawar, D.B. 2020. Wheat starch, gum arabic and chitosan biopolymer treatment of wool. *International Journal of Biological Macromolecules*, 163:1044–1052.
14. Chauhan, N. and Arya, N. 2020. Study on modification of properties of cotton *khadi* fabric by enzymatic treatment. *International Journal of Chemical Studies*, **8**(6):2833-2835.
15. Rani, S., Kadam, V., Rose, N.M., Jose, S., Shakyawar, D.B. and Yadav, S. 2021. Effect of enzyme treatment on wool fabric properties and dimensional stability. *Indian Journal of Fibre and Textile Research*, **46**(3):83-90.
16. Chauhan, N. and Arya, N., Gill, P. and Rani, L. 2021. Study on modification of properties of cotton *khadi* fabric by softener treatment. *The Pharma Innovation Journal*, **10**(7):89-91.
17. Sushila, Arya, N., Singh, V., Devi, S. and Reena. 2021. Effect of pretreatment on physical properties of cotton fabric. *International Journal of Ecology and Environmental Sciences*, **3**(1):472-476.
18. Poonia, N., Kadam, V., Rose, N.M. and Yadav, S. 2021. Rice straw reinforced biocomposite: A sustainable development. *International Journal of Innovations in Engineering and Science*, **6**(10):139-14

19. Chauhan, N., Arya, N., Gill, P. and Rani, L. 2021 Study on modification of properties of cotton *Khadi* fabric by commercial softener treatment. *The Pharma Innovation Journal,*SP-**10**(7):89-91
20. Sushila, Arya, N., Devi, S. and Malik, K. 2021. Evaluation of antibacterial activity of lemon plant extract. *Environment and Ecology*, **39**(4A):1207-12115.
21. Bhandari, V., Yadav, S. and Rose, N.M. 2021. Optimization of nanoparticle treatments for cotton fabric and dyeing with eco-friendly natural dyes. *The Pharma Innovation Journal*, **10**(12):95-104.
22. Chauhan, N., Arya, N., Gill, P. and Rani, L. 2021. Study on modification of properties of cotton *khadi* fabric by commercial softener treatment. *The Pharma Innovation Journal*, SP-**10**(7):89-91.
23. Bhandari, V., Yadav, S., Rose, N.M. and Singh S.S.J. 2021. Nano technology: A boon for textile finishing. *The Pharma Innovation Journal*, **10**(9):220-225.
24. Rukhaya, S., Yadav, S., Rose, N.M., Grover, A. and Bisht, D. 2021. Sustainable approach to counter the environmental impact of fast fashion. *The Pharma Innovation Journal*, **10**(8):517-523.
25. Rukhaya, S., Arya, N., Grover, A., Bisht, D. and Arya, P. 2021. Ecological textiles to promote sustainability. *The Pharma Innovation Journal*, SP-**10**(11):2644-2649.
26. Grover, A., Yadav, S., Rose, N.M., Rukhaya, S. and Bisht, D. 2021. Recycling: A cornerstone of long-term sustainability. *The Pharma Innovation Journal*, **10**(9):642-645.
27. Bisht, D., Yadav, S., Rose, N.M., Grover, A. and Rukhaya, S. 2021. Sustainable textile finishes: A boon for reducing toxic disposal to the environment. *The Pharma Innovation Journal*, **10**(11):861-867.
28. Bisht, D., Arya, N., Rukhaya, S. and Grover, A. 2021. Treatment and disposal of textile effluents. *The Pharma Innovation Journal*, SP-**10**(11):105-112.
29. Bisht, D., Verma, M., Singh, S.S.J. and Rukhaya, S. 2021. Breathability: An important feature for water proof apparel. *Chemical Engineering*, **2**(04):186 -197.
30. Rukhaya, S., Verma, M., Bisht, D. and Singh, S.S.J. 2021. Applications of nano fibres in textile industry. *Chemical Engineering*, **2**(04): 13-23.
31. Jamal, Z. and Arya, N. 2021. Selection of softener combination for softening of jute fabric. *Journal of Krishi Vigyan*, **10**(1): 263-267.
32. Rani, S., Rose, N.M., Yadav, S. and Kadam, V. 2021. Process optimization of shrink proof treatment of wool using enzymes. *Green Farming*, **12**(5&6):248-253.
33. Tomer, S., Singh, V., Arya, N. and Singh, K. 2021. Existing upcycling practices for discarded denim in Haryana. *Technofame: A Journal of Multidisciplinary Advance Research*, **10**(2):1-9.
34. Sushila, Arya, N., Devi, S., Malik, K. and Singh, V. 2021. Antimicrobial treatment on cellulosic fibre using agro waste (lemon peel). *Journal of Agricultural Mechanization in Asia, Africa and Latin America*, **52**(1):3175-3192.
35. Jamal, Z., Arya, N., Sodhi, S. and Dahiya, M. 2021. Ecofriendly approach to improve drapability and process optimization of aminosilicone treatment on jute fabric. *Journal of Agricultural Mechanization in Asia, Africa and Latin America*, **52**(2):3591-3610.
36. Jamal, Z., Arya, N., Rani, L., Sodhi, S. and Singh, V. 2021. Chemical modification of jute substrate for improving its physical and functional properties. *Journal of Agricultural Mechanization in Asia, Africa and Latin America*, **52**(2):3401-3413.
37. Poonia, N., Kadam, V., Rose, N.M., Yadav, S. and Shanmugam, N. 2022. Effect of fiber chemical treatments on rice straw fiber reinforced composite properties. *Journal of Natural Fibers*, **19**(16):14044-14054.
38. Poonia, N., Rose, N.M., Yadav, S. and Rukhaya, S. 2022. Natural fibre based biocomposites for sustainability: A comprehensive review. *The Pharma Innovation Journal*, **11**(12):4564-4567.

## Papers Presented and Abstracted in Conferences/ Seminars/Workshops

1. Sharma, B., Yadav, N. and Yadav, S. 2018. Employment generating through cotton blended shoddy yarn. International Conference on Women's Work & Occupational Health-Emerging Issues, Challenges & Policy Measures in the Unorganized Sector, Arya P.G College, Panipat, Haryana, March 24-25, 2018, pp: 135-136.
2. Sharma, B., Yadav, N. and Yadav, S. 2018. Reduce the environment pollution through cotton blended shoddy yarn. National Seminar on Trends and Advances in Wool and Specialty Hair, GBPUA&T, Pantnagar, Uttarakhand, March16-17, 2018, pp:34
3. Devi, S., Yadav, N., Arya, N. and Sushila. 2018. Reduction of fabric waste by digital softwares in textile designing. National Seminar on Environmental Issues: Impact, Control and Challenges, Manohar Memorial (P.G) College, Fatehabad, Haryana, March 9-10, 2018.
4. Sharma, B., Yadav, N. and Yadav, S. 2018. Sustainable development through recycling of old rags. National Seminar on Environmental Issues: Impact, Control and Challenges, Manohar Memorial (P.G) College, Fatehabad, Haryana, March 9-10, 2018.
5. Devi, S., Yadav, N., Arya, N., Sushila and Tomer, S. 2018. Digital Embroidery: A new territory for the artist. International Conference on Current Challenges and Future Perspective of Science, Technology and Social Humanities, Dr. B.R. Ambedkar University, Agra, UP, February 26-28, 2018.
6. Tomer, S., Singh, V., Arya, N., Devi, S. and Sushila. 2018. Digital printing: An incredible invention of science and technology. International Conference on Current Challenges and Future Perspective of Science, Technology and Social Humanities, Dr. B.R. Ambedkar University, Agra, UP, February 26-28, 2018.
7. Devi, S., Yadav, N., Arya, N. and Sushila. 2018. Conversion of embroidery: Traditional to digital. International Conference on Sustainable Agriculture, Energy, Environment and Technology, Maharishi Dayanand University, Rohtak, Haryana, February 24-25, 2018.
8. Sharma, B., Yadav, N. and Yadav, S. 2018. Reduce the environment pollution through shoddy cotton. International Conference on Sustainable Agriculture, Energy, Environment and Technology, Maharishi Dayanand University, Rohtak, Haryana, February 24-25, 2018.
9. Sharma, B., Yadav, N. and Yadav, S. 2018. Occupational health problems of workers in shoddy industry. National Seminar on Healthy Life Style and Psychology, College for Women, Sirsa, Hisar, Haryana, February 10, 2018.
10. Sharma, B., Yadav, N. and Yadav, S. 2018. Positive impact of shoddy industry on environment. International Conference on Bio & Nano Technologies for Sustainable Agriculture, Food, Health, Energy & Industry, Guru Jambheshwer University of Sciences and Technology, Hisar, Haryana, February 21-23, 2018.
11. Sharma, B., Yadav, N. and Yadav, S. 2018. Stress in the workplace. International Conference on Bio & Nano Technologies for Sustainable Agriculture, Food, Health, Energy & Industry. Guru Jambheshwer University of Sciences and Technology, Hisar, Haryana, February 21-23, 2018.
12. Gupta, V. and Yadav, N. 2018. Value addition of cotton fabric by using plant extract. International Congress on Cotton and other Fibre Crops, ICAR Research Complex for NEH Region, Umiam (Barapani) Meghalaya, February 20-23, 2018, pp: 301-306.
13. Devi, S., Yadav, N., Arya, N.and Sushila. 2018. Digital embroidery: An imagination. 2nd International Conference on Advances in Agricultural, Biological and Applied Sciences for Sustainable Future, Swami Vivekanand Subharti University, Meerut, UP, India, October 20-22, 2018, pp: 107.
14. Tomer, S., Singh, V. and Arya, N. 2018. Upcycling: The management and conservation of discarded denim. 2nd International Conference on Advances in Agricultural, Biological and Applied Sciences for Sustainable Future, Swami Vivekanand Subharti University, Meerut, UP, India, October 20-22, 2018, pp: 117.

15. Bhandari, V. and Yadav, S. 2019. A new approach for women empowerment through product development using remnant clothes. National seminar on Innovative Strategies for Gender Equality, I.C. College of Home Science, CCS HAU, Hisar, Haryana, March 8, 2019, pp:102.
16. Kumari, P., Rose, N.M. and Singh, S.S.J. 2019. Value addition of knitted cotton fabric by microencapsulated peppermint oil. I.C. College of Home Science, CCS HAU, Hisar, Haryana, March 8, 2019, pp: 82.
17. Pushpa, Punia, P. and Singh, V. 2019. Value addition through *Karanj* extract treatment on fabric. Golden Jubilee International Conference on New Millennia Agriculture-Novel Trends & Future Scenario, CCS HAU, Hisar, Novmeber 6-8, 2019, pp: 420.
18. Tomer, S., Singh, V. and Arya, N. 2019. Biopolymer in textile as natural resources management. International Conference on Global Perspective in Agricultural and Applied Sciences for Food and Environmental Security (GAAFES-2019), Kamaun University, Nanital, Uttrakhand, India, December 1-2, 2019, pp:338.
19. Tomer, S., Singh, V. and Arya, N. 2019. Up-cycling discarded denim: Wave from waste. International Conference on Global perspective in Agricultural and Applied Sciences for Food and Environmental Security, Kamaun University, Nanital, Uttrakhand, India, December 1-2, 2019, pp:248
20. Tomer, S., Singh, V. and Arya, N. 2020. Up-cycling: Way to innovate new products by using discarded denim. National Conference on Sustainable Growth, Uttar Pradesh Textile Technology Institute, Kanpur, UP, August 12-14, 2020, pp: 35.
21. Rani, S., Rose, N.M., Kadam, V., Yadav, S. and Jose, S. 2020. Shrink resistance to wool fabric using protease enzymes. National Conference on Sustainable Growth, Uttar Pradesh Textile Technology Institute, Kanpur, UP, August 12-14, 2020, pp: 34.
22. Rukhaya, S. and Yadav, S. 2021. Nanofibres and their potential application in textile sector. 4th International Conference on Global Approaches in Natural Resource Management for Climate Smart Agriculture during Pandemic Era of COVID-19, Shobhit Institute of Engineering and Technology, Meerut, UP, India, February 26-28, 2021, pp:248.
23. Grover, A., Verma, M. and Singh, S.S.J. 2021. Carbon credit: A boon for the environment. 3rd International Conference on Global Initiative in Agricultural, Forestry and Applied Sciences for Food Security, Environmental Safety and Sustainable Development, Dehradun, Uttarakhand, India, October 17-18, 2021, pp: 470.
24. Bisht, D., Verma, M. and Singh, S.S.J. 2021. Bio-based faux leather: Animal and eco-friendly alternative. 3rd International Conference on Global Initiative in Agricultural, Forestry and Applied Sciences for Food Security, Environmental Safety and Sustainable Development, Dehradun, Uttarakhand, India, October 17-18, 2021. pp: 463.
25. Rukhaya, S., Verma, M. and Singh, S.S.J. 2021. Fish leather: A valuable resource for textile and fashion industry. 3rd International Conference on Global Initiative in Agricultural, Forestry and Applied Sciences for Food Security, Environmental Safety and Sustainable Development, Dehradun, Uttarakhand, India, October 17-18, 2021, pp: 462.
26. Sushila, Arya, N., Devi, S. and Malik, K. 2021. Green synthesis and characterization of silver nanoparticles using leaves extract of lemon plant. International Conference on Advances in Food Science and Technology (AFSTECH-2021), North-Eastern Hill University, Tura Campus, Meghalaya, India & Swedish South Asian Network on Fermented Foods (SASNET-FF), Anand, Gujarat, India, October 26-28, pp:71.
27. Sushila, Arya, N., Devi, S., Malik, K. and Singh, V. 2021. Antimicrobial treatment on cellulosic fibre using Agro waste (lemon peel). 3rd International Conference on Global Initiatives in Agricultural, Forestry and Applied Sciences (GIAFAS-2021), Shri Guru Ram Rai University, Dehradun, Uttarakhand, India, October 17-18, 2020, pp: 368.

28. Jamal, Z. and Arya, N. 2021. Development of diversified products for upsurge in farmers' income. 3rd International Conference on Global Initiatives in Agricultural, Forestry and Applied Sciences, Shri Guru Ram Rai University, Dehradun, Uttarakhand, India, October 17-18, 2020, pp: 202.
29. Grover, A. and Arya, N. 2021. Eco-Friendly textiles: Fostering sustainability and accountability. 3rd International Conference on Global Initiatives in Agricultural, Forestry and Applied Sciences, Shri Guru Ram Rai University, Dehradun, Uttarakhand, India, October 17-18, 2020, pp: 138.
30. Devi, S., Sushila and Arya, N. 2021. Digitization of traditional Kutch and Kathiawar embroidery motifs and access their marketability. 3rd International Conference on Global Initiatives in Agricultural, Forestry and Applied Sciences, Shri Guru Ram Rai University, Dehradun, Uttarakhand, India, October 17-18, 2020, pp: 244.
31. Sunita, Rose, N.M., Singh, S.S.J. and Yadav, S. 2021. Simulation and digitization process for computerized embroidery designs. International Web Conference on Global Research Initiatives for Sustainable Agriculture and Allied Sciences. Ashtha Foundation, Meerut, UP, December 13-15, 2021, pp: 85.
32. Poonia, N., Kadam, V., Rose, N.M. Yadav, S. and Shanmugam, N. 2021. Standardization of compressive force for fabrication of bio-composite. International Web Conference on Innovative and Current Advances in Agriculture and Allied Sciences. Society for Scientific Development in Agriculture and Technology, Meerut, UP, July 19-21, 2021, pp: 128.
33. Bhandari. V., Yadav, S. and Rose, N.M. 2021. Application of zinc oxide nanoparticles for dyeing and multifunctional properties of wool fabric with natural dyes. International Web Conference on Innovative and Current Advances in Agriculture and Allied Sciences. Society for Scientific Development in Agriculture and Technology, Meerut, UP, July 19-21, 2021, pp: 185.
34. Rukhaya, S., Rose, N.M., Yadav, S. and Grover, A. 2022. Development of vetiver oil microcapsules for aroma finishing. 5th International Conference on Smart Agriculture and Biodiversity Conservation for Sustainable Development, Jaipur National University, Jaipur, Rajasthan in collaboration with Shobhit Institute of Engineering and Technology, Meerut, UP, March 4-6, 2022, pp:176.
35. Rukhaya, S., Rose, N.M., Yadav, S. and Poonia, N. 2022. Natural fibre reinforced bio-composites. 5th International Conference on Smart Agriculture and Biodiversity Conservation for Sustainable Development, Jaipur National University, Jaipur, Rajasthan in collaboration with Shobhit Institute of Engineering and Technology, Meerut, UP, March 4-6, 2022, pp:177.
36. Grover, A., Arya, N. and Rukhaya, S. 2022. Carbon footprint: A carbon profile of the environment. 5th International Conference on Smart Agriculture and Biodiversity Conservation for Sustainable Development, Jaipur National University, Jaipur, Rajasthan in collaboration with Shobhit Institute of Engineering and Technology, Meerut, UP, March 4-6, 2022, pp:27.
37. Rukhaya, S., Rose, N.M., Yadav, S., Poonia, N. and Grover, A. 2022. Utilization of agricultural waste: A step towards entrepreneurship. National Seminar on Entrepreneurship Development: Innovation for Income Generation, Yamuna Nagar, Haryana, September 07, 2022, pp: 33.
38. Grover, A., Arya, N., Rukhaya, S. and Saini, H. 2022. Radiant baffle: A Way to Modern Day Start ups. National Seminar on Entrepreneurship Development: Innovation for Income Generation, Yamuna Nagar, Haryana, September 07, 2022, pp: 34.
39. Sushila, Arya, N., Malik, K., Devi, S., and Rani, L. 2021. Biosynthesis and characterization of silver nanoparticles using lemon leaves extract. International Seminar on Loss of Biodiversity: Global Environment & Health Challenges, Institute of Engineering and Technology, Meerut, India, June 5-7, 2021, pp:99.

40. Bhandari, V., Yadav, S. and Rose, N.M. 2021. Natural dyes: An approach for greener production of textiles. International Conference on New Paradigms for Agriculture, Food and Sustainability Concerns. Agriculture Letters, Raichur, Karnataka, February 26-28, pp: 60.
41. Kumari, P., Rose, N.M. and Yadav, S. 2022. Use of peppermint oil for aroma finishing of woven cotton fabric. National Conference on Mathematical Sciences for Applied and Agricultural Research, COBS&H, CCS HAU, Hisar, February 22, 2022, pp: 97-98.
42. Rukhaya, S., Rose, N.M. and Yadav, S. 2023. Artificial intelligence: Redefining and innovating the textile and apparel industry. International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCS HAU, Hisar, February 17-19, 2023, pp: 469-470.
43. Grover, A. and Arya, N. 2023. Synthesis and evaluation of silver nanoparticles using *Catharanthous roseus*: A green and sustainable method. International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCS HAU, Hisar, February 17-19, 2023, pp: 830.
44. Tarai, M., Gill, P. and Arya, N. 2023. Herbal textile finishing: A step towards sustainable development. International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCS HAU, Hisar, February 17-19, 2023, pp: 869.

**Design Catalogues**

1. Devi, S., Arya, N. and Yadav, N. 2019. Innovative designs for home furnishing textile articles usingtraditional motifs of Indian embroideries. Department of Textile and Apparel Designing, I.C. College of Home Sciences, CCS HAU, Hisar.
2. Tomer, S., Singh, V. and Arya, N. 2020 Up-cycled apparel waste articles developed by using discarded denim. Department of Textile and Apparel Designing, CCS HAU, Hisar.
3. Sodhi, S., Singh, V. and Arya, N. 2020. Up-cycled apparel waste articles developed by using pre and post apparel waste. Department of Textile and Apparel Designing, CCS HAU, Hisar.

## *ANNEXURE X- G*

## CONFERENCES/ SEMINARS/TRAININGS ATTENDED BY Ph.D. STUDENTS (2018-23)

| Name | Title of Conferences/ Seminars/Trainings with dates and venue |
|---|---|
| Ms. Bharti Sharma | International Conference on Women's Work & Occupational Health- Emerging Issues, Challenges & Policy Measures in the Unorganized Sector. Arya P.G College, Panipat, Haryana, March 24-25, 2018. |
| | National Seminar on Trends and Advances in Wool and Specialty Hair. GBPUA&T, Pantnagar, Uttarakhand, March16-17, 2018. |
| Ms. Bharti Sharma<br>Ms. Sarita Devi | National Seminar on Environmental Issues: Impact, Control and Challenges. Manohar Memorial (P.G) College, Fatehabad, Haryana, March 9-10, 2018. |
| Ms. Sangeeta Tomer<br>Ms. Sarita Devi | International Conference on Current Challenges and Future Perspective of Science, Technology and Social Humanities. Dr. B.R. Ambedkar University, Agra, UP, February 26-28, 2018. |
| Ms. Sarita Devi<br>Ms. Bharti Sharma | International Conference on Sustainable Agriculture, Energy, Environment and Technology. Maharishi Dayanand University, Rohtak, Haryana, February 24-25, 2018. |
| Ms. Bharti Sharma | National Seminar on Healthy Life Style and Psychology. College for Women, Sirsa, Haryana, February 10, 2018. |
| | International Conference on Bio & Nano Technologies for Sustainable Agriculture, Food, Health, Energy & Industry. Guru Jambheshwer University of Sciences and Technology, Hisar, Haryana, February 21-23, 2018. |
| Ms. Vandana Gupta | International Congress on Cotton and Other Fibre Crops. ICAR Research Complex for NEH Region, Umiam (Barapani) Meghalaya, February 20-23, 2018. |
| Ms. Sarita Devi | Conference on Advances in Agricultural, Biological and Applied Sciences for Sustainable Future. Swami Vivekanand Subharti University, Meerut, UP, India, October 20-22, 2018. |
| Ms. Sangeeta Tomer | 2nd International Conference on Advances in Agricultural, Biological and Applied Sciences for Sustainable Future. Swami Vivekanand Subharti University, Meerut, UP, India, October 20-22, 2018. |
| Ms. Poonam Kumari<br>Ms. Vandana Bhandari | National seminar on Innovative Strategies for Gender Equality. I.C. College of Home Science, CCS HAU, Hisar, Haryana, March 8, 2019. |
| Ms. Pushpa | Golden Jubilee International Conference on New Millennia Agriculture-Novel Trends & Future Scenario. CCS HAU, Hisar, Novmeber 6-8, 2019. |
| Ms. Sangeeta Tomer | International Conference on Global Perspective in Agricultural and Applied Sciences for Food and Environmental Security (GAAFES-2019). Kamaun University, Nanital, Uttrakhand, India, December 1-2, 2019. |
| Ms. Sushma Rani<br>Ms. Sangeeta Tomer | National Conference on Sustainable Growth. Kanpur, UP, August 12-14, 2020. |
| Ms. Sarita Devi<br>Ms. ZebaZamal Sushila<br>Ms. Arpita Grover<br>Ms. Diksha Bisht<br>Ms. Shalini Rukhaya | 3rd International Conference on Global Initiative in Agricultural, Forestry and Applied Sciences for Food Security, Environmental Safety and Sustainable Development. Dehradun, Uttarakhand, India, October 17-18, 2021. |

| | |
|---|---|
| Ms. Sunita<br>Ms. NeenuPoonia<br>Ms. Vandana Bhandari | International Web Conference on Global Research Initiatives for Sustainable Agriculture and Allied Sciences. Ashtha Foundation. Meerut, UP, December 13-15, 2021. |
| Ms. Shalini Rukhaya | 4th International Conference on Global Approaches in Natural Resource Management for Climate Smart Agriculture (GNRSA-2020) during Pandemic Era of COVID-19. Shobhit Institute of Engineering and Technology, Meerut, UP, India, February 26-28, 2021. |
| Ms. Sushila | International Seminar on Loss of Biodiversity: Global Environment & Health Challenges. Institute of Engineering and Technology, Meerut, UP, India, June 5-7, 2021. |
| Ms. Vandana Bhandari | International Conference on New Paradigms for Agriculture, Food and Sustainability Concerns. Agriculture Letters, Raichur, Karnataka, February 26-28, 2021. |
| Ms. Shalini Rukhaya<br>Ms. Arpita Grover | 5th International Conference on Smart Agriculture and Biodiversity Conservation for Sustainable Development (SABCD-2022). Jaipur National University, Jaipur, Rajasthan in collaboration with Shobhit Institute of Engineering and Technology, Meerut, UP, March 4-6, 2022. |
| Ms. Shalini Rukhaya<br>Ms. Arpita Grover | National Seminar on Entrepreneurship Development: Innovation for Income Generation. Yamunanagar, Haryana, September 07, 2022. |
| Ms. Poonam Kumari | National Conference on Mathematical Sciences for Applied and Agricultural Research, COBS&H, CCS HAU, Hisar, February 22, 2022. |
| Ms. Shalini Rukhaya<br>Ms. Arpita Grover<br>Ms. Madhusmita Tarai | International Conference on Climate Resilient Agriculture for Food Security and Sustainability. CCS HAU, Hisar, February 17-19, 2023. |

| STEERING COMMITTEE | | |
|---|---|---|
| 1. | Vice-Chancellor | Chairman |
| 2. | OSD to Vice-Chancellor | Member |
| 3. | Registrar | Member |
| 4. | Dean, College of Agriculture | Member |
| 5. | Dean, College of Agril. Engg. & Tech. | Member |
| 6. | Dean, College of Basic Sci. & Hum. | Member |
| 7. | Dean, I.C. College of Home Sciences | Member |
| 8. | Dean, College of Biotechnology | Member |
| 9. | Dean, College of Fishries Science | Member |
| 10. | Dean, Postgraduate Studies | Member |
| 11. | Director of Research | Member |
| 12. | Director Extension Education | Member |
| 13. | Director Students' Welfare | Member |
| 14. | Comptroller | Member |
| 15. | University Librarian | Member |
| 16. | Estate Officer-cum-CE | Member |
| 17. | Secretary to Vice-Chancellor | Member |
| 18. | Director Human Resource Management | Member-Secretary |

| CORE COMMITTEE | | |
|---|---|---|
| 1. | Director, Human Resource Management | Chairman |
| 2. | Dean, Postgraduate Studies/ Assoc. DPGS | Member |
| 3. | Dean, College of Agriculture/ Assoc. Dean | Member |
| 4. | Registrar/ARA | Member |
| 5. | Dean, College of Agril. Engg. & Tech. | Member |
| 6. | Dean, College of Basic Sci. & Hum. | Member |
| 7. | Dean, I.C. College of Home Sciences | Member |
| 8. | Director of Research/ ADR | Member |
| 9. | Director Extension Education/ ADFAS | Member |
| 10. | Director Students' Welfare/ ADSW | Member |
| 11. | Comptroller/ Dy.Comptroller | Member |
| 12. | University Librarian/ Dy. Librarian | Member |
| 13. | Estate Officer-cum-CE | Member |
| 14. | Principal, COA, Kaul | Member |
| 15. | Principal, COA, Bawal | Member |
| 16. | Dr. Aparna | Convenor |

| COLLEGE LEVEL COMMITTEE | | |
|---|---|---|
| 1. | Dr. Manju Mehta, Dean, I.C. College of Home Sciences | Chairperson |
| 2. | Dr. Neelam M. Rose, Prof. & Head, TAD | Convener and Nodal officer |
| 3. | Dr. Beena Yadav, Prof. & Head, EECM | Member and Nodal officer |
| 4. | Dr. Saroj Yadav, Asstt. Prof., TAD | Member |
| 5. | Dr. Urvashi Nandal, Asstt. Prof., FN | Member |
| 6. | Mrs. Savita Gupta, Assistant, Dean's office | Member |
| 7. | Mrs. Veena Rani, Assistant, Dean's office | Member |
| 8. | Ms. Shalini Rukhaya, Ph.D. Student | Member |
| 9. | Ms. Nancy Dhiman, M.Sc. Student | Member |
| 10. | Ms. Jeenat Rao, B.Sc. (Hons.) Student | Member |
| 11. | Dr. Vinod Soni F/o Ms. Harshin | Member |
| 12. | Dr. Shanti Balda, Alumnus | Member |
