

# SELF STUDY REPORT

2023

## Chaudhary Charan Singh Haryana Agricultural University

Hisar, Haryana-125004

# FOREWORD

It gives me immense pleasure to know that Chaudhary Charan Singh Haryana Agricultural University (CCSHAU), Hisar is applying for the fifth cycle of accreditation by the National Agricultural Education Accreditation Board (NAEAB) of Indian Council of Agricultural Research (ICAR) and is presenting a Self Study Report (SSR) for this purpose.

The University was established to impart knowledge in the field of agriculture and allied sciences through latest crop production and protection technologies. The university has kept up with cutting edge research and educational advancements in the goal of improving the quality, quantity and productivity of the region's most important crops. It provides quality education and state of art facilities to students & helps them build new skills. The University has maintained the stringent educational standards and stands as a validated hallmark of excellence and quality. Feathers added to its cap since its inception speak volumes of our excellence in education ensuring that CCSHAU will reach enviable heights.

The documentation of the various facilities and activities is important in order to improvise and enhance the performance of the Universities. The efficiency of the institutional policies, procedures and practices can be accessed during the process of SSR preparation, which in turn help to pinpoint the areas of strength and accomplishments as well as issues and problems that need to be resolved. The SSRs of the University and its constituent colleges primarily examine CCSHAU's compliance with NAEAB accreditation standards and record supporting documents.

I am confident that the SSR pertaining to the period under report has been prepared by taking utmost care to include inputs regarding the existing status of the University; in terms of infrastructure including class rooms, hostels, library, sport grounds, residences, farm, etc. The self study report will give CCSHAU a strong platform for reflection, development and transformation of the existing facilities and technologies. In order to promote our aim of striving for excellence in agricultural education, research and outreach, we can further enhance the quality of our academic programs, research endeavors, and administrative procedures by critically evaluating our strength and weaknesses.

I appreciate the efforts of faculty, office supporting staff and who worked in the preparation of the document. I believe the present document prepared by the Accreditation Committee fulfils all the requirements and all the parameters mentioned in the report are met. I hope that CCSHAU will pass the quality check in terms of managing accurate institutional data, designing courses, carrying out assessments to evaluate and enhancing students' performance and provided top-class facilities.

**Prof. B. R. Kamboj**
Vice Chancellor
CCSHAU, Hisar

# PREFACE

Chaudhary Charan Singh Haryana Agricultural University (CCSHAU), Hisar is applying for its 5th cycle of accreditation by ICAR and we present this Self Study Report (SSR) of the University and its constituent colleges with a sense of achievement and satisfaction. This report is a concise account of the growth and accomplishments of CCSHAU since the last accreditation cycle.

CCSHAU has always striven for excellence in agricultural education, research, and extension services. This SSR is an embodiment of our commitment to academic excellence, innovation, and sustainable development in the field of agricultural education. CCSHAU provides outstanding education and research opportunities in the field of agriculture, home sciences, agricultural engineering, basic sciences and humanities. Various awards and honours won by the University, constituent colleges and also the faculty and students bear an ample testimony of the standard of education and research facilities available at CCSHAU. Along with quality education the University can proudly claim to have infrastructure and world class facilities for co-curricular activities of its students. The purpose of this SSR is to provide an in-depth analysis of various aspects of the University's functioning. It has been prepared in accordance with the guidelines and framework provided by the National Agricultural Education Accreditation Board (NAEAB), which emphasizes the importance of self-evaluation as an essential part of the accreditation process.

Preparation of this SSR involved extensive work by various stakeholders of CCSHAU, including faculty, students, staff, alumni, parents, farming community, industry etc. The report presents a comprehensive appraisal of our academic programmes, research initiatives, infrastructure, governance structure, faculty, staff and student support services, and also an evaluation of our commitment to social responsibility, inclusivity, and environmental sustainability.

We are highly thankful to Vice-Chancellor CCSHAU, Hisar Prof. B.R. Kamboj for giving us the support and direction we needed. We want to sincerely thank everyone who helped in the creation of this SSR. This self-study report, we hope, accurately portrays CCSHAU's current situation and exemplifies our dedication to excellence and constant growth in higher education. We are looking forward to the NAEAB's evaluation and accreditation, which will confirm our success and establish new standards for the future.

**Dr. Aparna**
Convenor Accreditation Committee

**Dr. Manju Mehta**
Director of Human Resource Management

## 6.6. Self Study Report of Chaudhary Charan Singh Haryana Agricultural University

### INTRODUCTION

Chaudhary Charan Singh Haryana Agricultural University popularly known as HAU, is one of Asia's biggest agricultural universities, located at Hisar in the Indian state of Haryana. It came into existence on 2 February, 1970 as a result of reorganization of the erstwhile Punjab Agricultural University, through a Parliamentary Act. It was rechristened as Chaudhary Charan Singh Haryana Agricultural University as a consequence of the amendment to the Haryana and Punjab Agricultural Universities Act (Haryana Amendment), 1991 which received the Presidential assent on 8 October 1991 (notification issued on 31 October, 1991 vide No. Leg. 15/91). It was envisaged to achieve the following objectives:

**OBJECTIVES:**

- Imparting education in different branches of study, particularly agriculture, agricultural engineering, home science and other allied sciences.
- Furthering the advancement of learning and research, particularly in agriculture and allied sciences.
- Undertaking the extension of such sciences to the rural people within the State.
- Such other purposes as the State Government may, by notification in the official Gazette, direct.

Administrative Block– located at the heart of the Campus

The University has an excellent infrastructure to achieve its academic, research, extension education and social objective. Presently the University has eight colleges: College of Agriculture, Hisar, College of Agriculture, Kaul and College of Agriculture, Bawal, College of Basic Sciences & Humanities, I C College of Home Sciences, College of Agricultural Engineering & Technology, College of Fisheries Science and College of Biotechnology. Institute of Business Management and Agripreneurship, Gurugram is under construction. However, classes have been started at CCSHAU main campus, Hisar. The University has 515 faculty members, 2883 students and around 3498 staff including technical and non technical staff. It has an annual budget of around INR 5800 million and annual income of about INR 200 million. The University is providing services to the agriculture sector and creating human resource for the sector. In the present scenario where we are committed for doubling the farmers' income, the University is working with a mission **"Inspiring Agripreneurs"**.

At present the University is offering 5 UG, 46 Masters and 38 Ph.D. degree programmes. Besides Govt. of India has also approved nineteen certificate courses related to skill development and a few vocational trainings are also offered by different faculties. So far the University has awarded more than 21800 UG, PG and PhD degrees. The faculty of this university has served on various coveted positions such as Director General (ICAR), Chairman (Agricultural Scientists Recruitment Board), Advisor (Planning Commission), Vice-Chancellors, Deputy Director General (ICRISAT), Deputy Director Generals (ICAR), Directors of National Institutes *etc*. Alumni of this university are working all over the world and are holding executive positions in administration of various sectors.

In addition to colleges, the University campus has the facilities i.e., Fletcher Bhawan, the Administrative Block, a magnificent Nehru Library, Indira Gandhi Auditorium, Gandhi Bhawan serving as the Directorate of Extension Education, an excellent Faculty Club, a fine Faculty House, a well equipped Hospital to look after the University Community, Campus School for the children of faculty, Government High school at HAU, Farmers' Hostel, Community Centre, well furnished hostels for students, residential houses, Kisan Ashram for visiting farmers, Dr. Mangal Sein Agricultural Sciences Museum and Shopping Complex are the other important features of the Campus.

The University is one of the most beautiful campuses in India with a lot of biodiversity both in terms of flora and fauna. The University's main campus at Hisar is spread over 7219 acres. Green lush landscape of the University is a charm for walkers and temptation for visitors to visit again and again. The University is having well planned and extremely well maintained landscape and gardens (Horticultural garden, Vegetable garden, Medicinal garden, Botanical garden, *etc*.). There are proper lawns , forest areas and ornamental plants everywhere in the University. Places like Central Plaza ( in front of library ) and Tri Color Plaza ( in front of administrative block ) are a treat to watch at night and early morning.

Swarna Jayanti Dwar of CCSHAU, Hisar

The main campus of CCS HAU has four gates, Gate No. 1 near Mahabir stadium, Gate No. 2 and gate No. 3 behind Campus school and next to Giri centre respectively. The main entrance of the University is known as Gate No. 4, also known as Swarna Jayanti Dwar that leads to Agricultural Technology Information Centre **(**ATIC), Agri-tourism Centre New Campus, Girls Hostels, I. C. College of Home Sciences, College of Basic Sciences & Humanities, Office of Dean Post Gaduate

Studies, Estate Office, Directorate of Human Resource Management, Gandhi Bhawan, Administrative Block, Nehru Library, Indira Gandhi (IG) Auditorium, and Faculty Club at Hisar. The IG Auditorium is unmatched in its majesty and grace.

Indira Gandhi Auditorium

The University with its headquarters at Hisar has 19 Krishi Vigyan Kendras (KVKs) situated at Devigarh (Kaithal), Bhopani (Faridabad), Jagdishpur (Sonepat), Sadalpur (Hisar), Pandu Pindara (Jind), Ujha (Panipat), Damla (Yamunanagar), Karnal, Rohtak, Ambala, Sirsa, Bhiwani, Bawal (Rewari), Fatehabad, Panchkula, Jhajjar, Mahendergarh and Mandkola (Mewat). Besides these, University has Agricultural Technology Information Centre (ATIC) at Hisar and Extension Education Institute (EEI) at Nilokheri. There are five Research Stations at Bawal (Rewari), Kaul (Kaithal), Rohtak, Sirsa, and Uchani (Karnal).

The University is proud of having created splendid infrastructure in its life span of 53 years. The teaching and research facilities available in this University are comparable to any institution in an advanced country. The network of Krishi Vigyan Kendras set up by this University has earned admiration for its uniqueness and effective farmer service. It acts as a channel for the transfer of technology from the laboratory to the farming community. Haryana, being a deficit state at its birth, is now not only self-sufficient in food grain production but also second largest contributor to central food grain reserve which amounts to one-third of the total food grain stock.

Nehru Library

Nehru Library, a hub of academic and research activities is housed in a centrally located elegant building. It has a large collection of books, facility of reading halls, computer centre, book bank and various e-resources for the use of faculty and students.

The extension education set-up of the University has been recognized as one of the best in the country. The Directorate of Extension Education carries out multifarious extension activities and programmes through its three units. *viz;* Farm Advisory Service, Farm Training Service and Farm Information and Communication Service. Agricultural Technology Information Centre (ATIC) popularly known as Kisan Sewa Kendra provides a 'single window' delivery system for the products like seeds of cereals, vegetables and horticultural crops, nursery plants of vegetables, fruits and ornamental plants, bio-fertilizers, processed products of fruits and milk urea detection kit, *etc*. The University also houses a training institute for skill development named as SNIATTE. The University has started provisions for e-payment, cashless payment, mobile van for sale of seeds, mobile van for soil & water testing, seed hub *etc*. Besides organization of theme specific farmer's fair (Krishi Mela) in different regions of the State of Haryana, the Directorate organizes two major Krishi Melas (Rabi and Kharif) every year at the main campus.

Agricultural Technology Information Centre (ATIC)

The University has taken a lead among the agricultural universities in the country, in creating institutionalized training facilities for the faculty. The Academy of Agricultural Research and Education Management was established on 16.04.1994 to impart in service to the training University/Institute faculty on a regular and continuous basis, thus strictly adhering to the policy of Haryana Govt. "Training for all". The University has established international collaboration and signed Memoranda of Understanding (MoU) with universities in USA, UK, Japan, Turkey, Czech Republic, Nepal and various public and private sectors institution/companies of repute. IPR Cell was established in Directorate of Human Resource Management in 2005. The University has so far submitted 63 applications for its intellectual properties, out of which 39 have been protected/granted. The University has also registered its trade mark. CCSHAU is the first Agricultural University to prepare and implement its IPR policy. The Business Planning and Development Unit (BPD) has been promoting and supporting the spirit of entrepreneurship amongst stake holders and commercialization of agriculture.

The University established Deendayal Upadhyaya Centre of Excellence on Organic Farming on October 31, 2017 with the objective to popularize organic and natural farming in the State. To prepare university students for different competitive exams including ICAR-PGS exam, JRF- SRF and ASRB, Students' Centre for Career Excellence has been set up under Counseling and Placement Cell of Directorate of Students' Welfare.

Centre of Excellence on Organic Farming

Dr. Mangal Sein Agricultural Sciences Museum

**DR. MANGAL SEIN AGRICULTURAL SCIENCES MUSEUM**

The University established Dr. Mangal Sein Agricultural Science Museum with the objective of depicting Haryanvi Culture. The notable achievements of the museum are mini film theatre, architecture, library and it is centrally air conditioned.

**BEST INSTITUTE AWARDS**

- CCSHAU ranked 4th among Indian Agricultural Universities in 2018
- Ranked 3rd and 4th in Atal Ranking of Institutions on Innovation Achievements (ARIIA) during 2020 and 2021, respectively
- KVK, Mahendergarh has been awarded the best KVK Award at the "Outlook Summit and Swaraj Puraskar in 2022.

The University is on march towards a promising future. It ranked 4th among Indian Agricultural Universities in 2018. It also ranked 3rd and 4th in Atal Ranking of Institutions on Innovation Achievements (ARIIA) during 2020 and 2021, respectively. The University has also received "Haryana Kisan Ratna Award" conferred by Haryana Government for the year 2019. Mahindra & Mahindra Ltd. awarded the university with "Krishi Shiksha Samman" on the occasion of Mahindra Samridhi India Agri Awards 2019. I.C. College of Home Science, CCSHAU, Hisar has been ranked 49th, 38th and 42th across India in NIRF ranking 2020, 2021 and 2022, respectively by MHRD. University's Krishi Vigyan Kendra Mahendergarh has been awarded the best Krishi Vigyan Kendra Award at the "Outlook Summit and Swaraj Puraskar-2022" organized by Outlook Group on 14th September, 2022. KVK Yamunanagar had been awarded with Best NICRA KVK Award-2019 for the ATARI Zone II. 91.2 FM Community Radio Station, KVK Rohtak received the certificate of appreciation from CIET- NCERT New Delhi in 2022 for its continuous commendable work. University has golden feathers in form of several awards as Best AICRP Centre Award Sorghum (2021-22); Best performing ICAR-AICRP on Pearl millet Centre Award (2021-22); Best AICRP Centre Award on Spices (2021); Chaudhary Devi Lal Outstanding AICRP Award on Farm Implements and Machinery (2019); Best AICRP Centre Award of MULLaRP (2019); Best AICRP Centre Award of Weed Control (2019); and Best AICRP Centre Award of Sugarcane (2019).

### 6.6.1. University Governance

**6.6.1.1. Vision, Mission and Goals:** *Whether the University has published a vision document and developed a plan of implementation with a time frame and proposed financial arrangement? Whether the University has planned, developed, implemented, and evaluated intentional and purposeful programs/services that may facilitate students and other stakeholders of the University (provide one paragraph for each).*

Yes, the University has published a vision document which outlines a plan of implementation with a realistic timeline. In response to the changing socio-economic conditions, CCSHAU constantly redefines its objectives while emphasizing its vision. The University published Vision 2020, and then in line with its purpose of reorienting its objectives, in 2016 brought out Vision 2030. Now in line with the PM's India @2047 plan, CCSHAU Vision 2047 has been prepared **(Supporting Document, SD-I)**.

The Vision 2047 outlines a strategy to leverage the strength of advances in each of these disciplines via integrated approaches to increase the productivity potential genetically and per unit area while conserving the environment. Basic, strategic and anticipatory research would be pursued in a translational mode to sustainably increase land and water productivity on one hand and successfully face the challenges of climate change on the other. To address the challenges of climate change, sustainable production, food and nutritional security, degradation of soil and water resources and increasing the profitability of small and marginal farmers demand along term vision of the University. As part of long-term objective, the university will continue communicating and interacting with farmers at state and national levels to generate recommendations that help to improve and sustain agricultural productivity and to improve life style of rural masses. The new and emerging areas identified through feedback from the stakeholders, extension workers, farmers and faculty consultation act as a blue print for research policies, directions and strategies over the coming years. Main focus areas are as under:

- Natural Resource Management along with development and validation of integrated crop production technology in order to maintain better soil health and enhancing the water use efficiency.
- Development of climate resilient and market competitive technologies including crop varieties/hybrids.
- Promotion of farm mechanization to make small and medium farming remunerative through the development and adoption of efficient machines and tools.
- Enhancing the availability of good quality seed of commercial crop hybrids/varieties including the seedlings of plantation crops through the promotion of seed village concept and establishment of hi-tech seedling nurseries.
- Validation and refinement of farmer's innovation and putting them up for larger application
- Human Resource Development for teaching, research and extension which can address emerging needs.
- Revamping extension system with changing needs.

**Short and long-term plans**

**Short-term plans**

- Review and upgrading of course curricula to match the international standards.

- Strengthening of facilities for survey and surveillance of disease and pests, networking of weather forecasting/GIS and soil &water analysis to make strong decision support system for farmers and stakeholders.
- Establishment of laboratories for organic food testing, pesticide residue, bio-control, bio-pesticides etc. to enhance the market access.
- Creation of awareness among the farmers and stakeholders for diversification in agriculture.

**Long-term plans**

- Development and promotion of cost effective soil health management technologies for various agro climatic regions.
- Development and promotion of efficient and low cost water management techniques including water harvesting and micro irrigation systems.
- Use of waste waters including industrial effluents and domestic sewer sludge waters
- Application of biotechnology for crop improvement and its protection by meeting the bio-safety and SPS standards required for competing in global market.
- Development of hybrids/varieties for low input conditions including for climate change and low water availability.
- Development of low cost and efficient machines and tools for small and marginal farmers and also for emerging entrepreneurs.
- Promotion of public-private and public-public partnership for sharing of knowledge, resources and for technology transfer.
- Gearing-up of extension system through incubation, training, entrepreneurship development, technology commercialization, field schools etc. in response to changing needs of the farmers.
- Generation of off-farm employment through the promotion of post harvest management techniques such as value addition, processing, seed production, dairying, bee-keeping, storage, custom hiring services etc.
- Development of a decision support system for varying agro-ecological, and socio-economical conditions to achieve the goal of precision farming using GIS and Remote sensing techniques

To attain a sustained growth rate of four per cent and harvest the aforesaid opportunities in agriculture, the technology support to farmers and other stakeholders is needed to be upgraded at higher place. Hence, acceleration of technology generation efforts is a matter of priority in the state. It would obviously need a dynamic approach, coupled with a focused strategy, which is well planned, coordinated and monitored. CCS Haryana Agricultural University (CCSHAU) has been and will continue to provide long term technology support to all stakeholders including farmers, entrepreneurs and agro-industries. The university has assessed the emerging opportunities and problems in state agriculture and accordingly has taken initiatives for bringing modifications and strengthening teaching, research and extension programmes. The following priority areas are considered.

| Vision | Action Plan | Time frame |
|---|---|---|
| Empowering students by making course curricula enterprising | • Imparting education in different branches of study, particularly agriculture, agricultural engineering, home science and other allied sciences, upgrading of course curricula to match the international standards | • Ongoing process.<br>• Sixth Dean's Committee report will be implemented |
| Soil, water, nutrient resource and residue Management | Preparation of district wise soil and water quality maps:<br>• GPS based soil fertility maps of 15 districts for Micronutrients and three districts for macronutrient have been completed. Work on remaining districts is going on. Water quality maps of 14 districts have been completed; work on remaining districts is going | • 2027 and will be revised after every 10 years |

| | | |
|---|---|---|
| | on. Based on these maps, soil and water management practices will be developed for each district of the state. | |
| | Enhancing soil organic carbon content:<br>• The optimum quantity of crop residues (rice, cotton, mustard, pearl millet *etc.*) for successful *in-situ* management and their impact on organic carbon build up and nutrient availability will be quantified.<br>• After quantification of organic carbon buildup and nutrient availability from these wastes, the doses of chemical fertilizers will be standardized for different cropping systems of the state. This will be helpful for reducing the doses of chemical fertilizers and also reducing environmental pollution. | • 2024 for rice –wheat, 2025 for cotton-wheat, 2027 for pearl millet-wheat and other cropping systems.<br>• These Nutrient management practices will be revised after every five years |
| | Basic research in the field of organic farming/natural farming and Validation of claims made by organic and natural farming:<br>• Organic manures/formulations will be identified/ prepared having higher rate of nutrient mineralization to fulfill nutrient need of high yielding varieties. Suitable varieties for organic farming will be identified.<br>• The organic/natural farming technologies will be tested in different soil types of different agro-ecological regions of Haryana state. Soil site suitability for organic farming/natural farming will be identified and demarcated in district level soil fertility maps. | • 2025 for organic manures/ formulation development and 2027 for soil site suitability maps.<br>• Newly released varieties will be tested regularly for suitability of organic/ natural farming |
| | Increasing nutrient use efficiency and reducing the dependency on chemical fertilizers:<br>• Precision nutrient management strategies for all crops and cropping systems will be developed. Fertilizers prescriptions based on targeted yield concept will be made for each district with the help of soil testing laboratories of KVKs in next five years.<br>• Application of Nano science for improving nutrient use efficiency. Nano fertilizers will be evaluated for each crop in different soils having varying soil fertility and their recommendation will be made based on inherent soil fertility of the location.<br>• Alternate source of nutrients such as phosphorus rich organic manure (PROM), phosphor-compost, natural K *etc* will be evaluated for reducing the dependency on chemical fertilizers.<br>• Use of artificial intelligence in diagnostic soil and plant problems and their remedy will be disseminated to the farmers with the help of soil scientists deputed in different KVKs. | • 2027 for fertilizer prescriptions and revised after every five years.<br>• 2025 for Nano-fertilizers recommendations.<br>• 2027 for alternate source of nutrients.<br>• 2030 for use of artificial intelligence in technology dissemination. |
| | Making salt affected soil productive:<br>• Salt affected areas have been identified and GPS based maps of problematic soil will be prepared for each district.<br>• Production technology for these salt affected soils will be developed for each district considering the soil type, rainfall and crops of the area.<br>• Salt tolerant varieties based on the extent of soil salinity/sodicity of the area have been identified and | • 2027 for preparation of GPS based maps of salt affected soils.<br>• 2027 for production technology for salt affected soils of each district. |

| | | |
|---|---|---|
| | a nutrient management practice for salt affected soils has been developed.<br>• Cost effective easily/locally available soil amendment such as municipal and industrial waste will be identified for reclamation of salt affected soils<br>• Refinement of existing and development of new technologies for changing scenario. | • 2030 for identification of cost effective locally available soil amendments.<br>• Refinement will be made after every five years. |
| | Crop Residue Management:<br>• Development of region-specific crop residue inventories<br>• Assessing the quality of various crop residues and their suitability for off-farm (e.g. animal feed, composting, energy, biogas, biochar and biofuel production) and on-farm purposes<br>• Analyzing the benefit: cost ratio, socio-economic impact and technical feasibility of off-farm and on-farm uses of crop residues.<br>• Efficient microbial cultures possessing multiple enzyme activities (cellulase, protease, amylase, laccase etc.) have been isolated and identified to degrade various polymers (cellulose, proteins, starch, lignin etc.) present in agro-residues under laboratory conditions.<br>• The most efficient microbial strain/ consortia will be evaluated for developing a formulation for field-level use and for technology commercialization<br>• Diversified field level/farmers' field level trials will be conducted using the most efficient microbial strain/ consortia formulations. *In-situ* decomposition at the field level will be evaluated and other conditions like irrigation, supplementation of N source etc will be optimized<br>• Diversified field level/ farmers' field level trials will be validated. The recommendation will be made based on evaluation and validation at field level and laboratory-based models for in-situ decomposition of various agro-residues | 2022-2037 |
| Strengthening of research in organic and Natural farming | • Organic manures/formulations will be identified/ prepared having higher rate of nutrient mineralization to fulfill nutrient need of high yielding varieties.<br>• The organic/natural farming technologies will be tested in different soil types of different agro-ecological regions of Haryana state. | • 2025 for organic manures/ formulation development and 2027 for the soil site suitability maps.<br>• Newly released varieties will be tested regularly for suitability of organic/ natural farming |
| Managing vulnerability to climate change and variability | • At present 3 Agromet Observatories at regional level and 7 Automatic Weather Station (AWS) at District Headquarter installed for continuous record of weather observations under GKMS-DAMU project. | • The entire area of the state will be covered up to 2047.<br>• The network of Agromet observatories and AWS at all KVKs will be strengthened up to 2037 under DAMU & GKMS- project |

| | | |
|---|---|---|
| | • The weather forecast and farm advisories are being disseminated to 6 lakh farmers of Haryana through SMS Services. Weather forecast based crop specific advisory are also disseminated by *e-mausamhau* Mobile App. Facebook, WhatsApp, twitter etc. | |
| | • The Micro-level Agromet Advisories will be disseminated at block level upto 2037 and village level and finally at the field level will be strengthened to mitigate effects of climate change upto 2047 by using ITC. | |
| | • At present database prepared for agro climatic atlas of the State. A vulnerability map at regional level considering frequent extreme weather events will be developed which will be a guiding document for crop diversification and risk management (AEZ and Atlas) upto 2037.<br>• Crop land use planning will be suggested as per Agro ecological characteristics at micro level up to 2047. | |
| | • Developed the Maps of cropping pattern and agro ecological zones by using Remote sensing & GIS techniques. Remote sensing-based decision support system (DSS) will be standardized and operationalized for forewarning of climatic extremes condition upto 2037. Crop land use planning will be suggested as per Agro ecological characteristics at micro level up to 2047. | |
| Development of need based crop improvement programme by developing high yielding, climate resilient plant varieties/hybrids | • Adoption of seed village concept with buy back policy for providing quality seed of pulse and oilseed crops<br>• Genetic enhancement of crops for abiotic and biotic stresses<br>• Improvement in productivity and resilience to climate change impacts andupscaling of technologies with the aid of genomics, proteomics and metabolomics and geospatial approaches<br>• Genetic improvement of nutritional qualities through biofortification of iron, zinc in wheat, rice and pearl millets<br>• Molecular tagging of useful genes and their introgression through marker assisted selection.<br>• Development of improved bread wheat varieties for early, timely and late sown, irrigated and high fertility conditions<br>• Development of wheat varieties for saline/alkaline conditions<br>• Development of resistant wheat parents in diverse backgrounds for developing resistant strains<br>• Exploitation of heterosis and development of hybrids in Mustard<br>• Development of high yielding varieties/hybrids with higher oil content and improved oil and seed meal quality.<br>• Development of bio-fortified hybrids/ varieties in wheat, rice and pearlmillets.<br>• Exploitation of germplasm and wild accessions in pulses for breaking yield barriers<br>• Development of drought, low and high temperature tolerant pulse crops through biotechnological | • Adoption of seed village concept (2022-2037)<br>• Application of marker-assisted selection (2022-2032<br>• CRISPR/Cas enables precise improvement (2022-2032)<br>• Application of genomics, proteomics and metabolomics and geospatial approaches (2022-247)<br>• Genetic enhancement of crops for abiotic and biotic stresses (ongoing strategy)<br>• Development of biofortified hybrids/ varieties in wheat, rice and pearlmillets (2022-2032) |

| | | |
|---|---|---|
| | approaches<br>• Development of cytoplasmic genetic male sterility (CGMS) based hybrids for enhancement of productivity and stability of yield in pigeon pea.<br>• Application of marker-assisted selection (MAS) for improvement of specific traits (drought and downy mildew resistance etc.)<br>• Development of rice varieties suitable for direct seeded rice conditions<br>• CRISPR/Cas enables precise improvement of commercially relevant crop species through gene editing by transgenic and non-transgenic methodologies | |
| Farm mechanization, protected & precision agriculture | • Switching over to machine assisted resource-conservation techniques such as zero-tillage, raised bed planting, precision farming, micro irrigation etc.<br>• Efficient and precise application of plant protection chemicals, mechanization of seed production, improving versatility of power tillers, dry land agriculture, oilseeds, pulses and coarse cereals.<br>• Refinement of resource conservation technologies like precision sowing, incorporating, mulching and bailing machines.<br>• Multi task precision farm machinery allowing selective automation for crop production would be developed<br>• Low cost poly-house for cultivation of high value crops in small farms will be developed<br>• The feasibility study on the use of modern technologies in agriculture will be carried out and university will work on the research on these technologies.<br>• Efforts will be increased in area of Artificial Intelligence and Drones (Imaging, weeding, spraying etc.). | • Machine assisted resource-conservation (2022-2032)<br>• Switching from surface to micro irrigation (2030)<br>• Efficient and precise application of plant protection chemicals (2022-2037)<br>• Multi task precision farm machinery (2022-2037)<br>• Suitable app for selection design and operation of micro irrigation system (2025)<br>• Artificial Intelligence and Drones (2022-2047) |
| Scaling-up of insect-pests, disease, nematode and weed management approach | • Development, validation and dissemination of IPM technologies for emerging and invasive insect-pests of major field and horticultural crops, owing to changed cropping patterns and climate change.<br>• Devising tools and techniques for insect pest disease and nematode management in organic farming, natural farming, conservation agriculture and protected cultivation. | • Up to 2027 the IPM technologies for organic farming will be developed |
| | • Development of superior and indigenous strains of bio-control agents and bio-pesticides to regulate populations of important insect pests, pathogen and nematodes.<br>• Isolation and testing of indigenous strains of bio-control agents<br>• Validation of commercialization of bio control technologies<br>• A continuous and effective bio-control programme for the management of insect-pests, disease and nematodes | • Ongoing activity |
| | • Monitoring of pesticide residues in vegetables, fruits and field crops and development of strategies to minimize pesticide residues in food/feed commodities. | • The residue lab will be strengthened (up 2027). |
| | • Evaluation of new herbicides and integration with | • Impact study of |

| | | |
|---|---|---|
| | other methods to reduce the herbicide residues, development of weed management practices in organic farming of field and other crops, crop establishment. Set economic threshold limit (ETLs) of weeds in different crops to understand biology and ecology of major weeds. | weeds will be carried out in next ten years (up to 2032) |
| Technology-led Horticulture | • To develop new cultivars through conventional as well as biotechnological approaches for low seeded, better colour & shelf life, and resistance against biotic and abiotic stresses for horticultural crops. Development of horticulture based cropping system. Improvement in productivity by refinement of technologies and Good agricultural practices (GAP) | • Development of improved Varieties (2022-32)<br>• Mass multiplication<br>• of healthy and quality planting material (2022-2027) |
| Diversification in Agriculture: | • Paddy-wheat is the dominant cropping system in of this zone-I. Initially strategy of crop diversification by adopting lower water requiring systems is proposed in 60 thousand hectares area. The proposed cropping systems can potentially save 37-47% water.<br>• Cotton-wheat and rice-wheat are the dominant cropping system in zone II. Initially strategy of crop diversification by adopting less water requiring cropping systems is proposed 48 thousand hectares area, which can potentially save about 20-60% irrigation water.<br>• Cotton-wheat, bajra-wheat and bajra-wheat based cropping system are the dominant system in zone III. Initially strategy of crop diversification is proposed in 68 thousand hectares area. The proposed cropping systems can potentially save 33-60% irrigation water.<br>• Diversification through utilization of fisheries and aquaculture resources through enhancing fish production, shrimp culture, fresh water & ornamental aquaculture, fish processing & utilisation of fish waste and functional foods of high nutritional quality and better health. | • Crop, vegetable, mushroom based diversification, (2022-27) Horticulture and conservation agriculture based diversification (2022-37); Fisheries based diversification (2022-47); Micro irrigation based diversification (2022-47) |

Apart from the above following policy decisions will be adopted in order to implement the vision:

- Linkage with Private Sector
- Gearing-up of Extension System
- Agribusiness and Agripreneurship
- Protection and rewarding creativity
- Creation of data network for effective decision making
- Development of decision support system (DSS)

The CCS Haryana Agricultural University is committed to enhance agricultural production and productivity in the state through science-led and technology-driven approach. It is well poised to meet the challenges ahead that transforms agriculture sector into the engine of growth of Haryana's economy by providing human resources, skills and technology for the sustainable development of state's agriculture, production of biomass based land and water including crop production (agriculture) and forestry. Conservation and optimal utilization of natural resources with focus on soil health, input use efficiency, production technique to mitigate climate change, cropping and farming system development under resource constraints focusing on water resource management, organic pest and disease management, crop modeling, use of remote sensing and Geographical Information System (GIS). The outputs of research must translate into increased productivity,

improvement in quality of life and creation of wealth for the society at large, and small farmers in particular. The unfolding data revolution allows us to assess our present state, fixes the 2047 goal posts and indicates the direction for movement. Vision 2047 document, which integrates all the four interdependent dimensions of sustainable development (economic, social, environmental and governance), will be vigorously pursued.

For the implementation of the vision programs/services that may facilitate students and other stakeholders of the University, funding from the ICAR and state government will be used.

**6.6.1.2. Statutes and Regulations:** *Provide a list of Statutes and Regulations published in the gazette notification and being implemented by the University for administration and planning.*

**CCSHAU Act & Statutes (SD-II)** covers all laws and rules that the University is implementing for administration and planning. On the University website, a copy of the CCSHAU Act & Statutes is also available, along with all amendments made up to 2023.

**6.6.1.3. University Statutory officers and their selection process:** *Provide list of the statutory officers sanctioned in the Act, present position, their mode of appointment (selection/nomination), joining date, tenure. Please provide the reason of those statutory officers who have not been appointed so for.*

**The list of appointed statutory officers along with their joining date and tenure is as under:**

| Sr. No. | Name of post | Name of the incumbent | Date of joining | Mode of appointment |
|---|---|---|---|---|
| 1 | Vice-Chancellor | Dr. B. R. Kamboj | 16-04-2021 | Selection |
| 2 | Registrar | Dr. Balwan Singh Mandal | 01.04.2023 | Nomination |
| 3 | Dean, College of Agriculture | Dr. S. K. Pahuja | 27-12-2021 | Selection |
| 4 | Dean, College of Agril. Engg. & Technology | Dr. Baldev Dogra | 11-01-2022 | Selection |
| 5 | Dean, College of Basic Sciences & Humanities | Dr. Neeraj Kumar | 30-03-2022 | Selection |
| 6 | Dean, College of Fisheries Science | Dr. Neeraj Kumar | 24-05-2022 | Nomination |
| 7 | Dean, College of Biotechnology | Dr. Sudhir Kumar | 29-04-2022 | Nomination |
| 8 | Dean, I.C. College of Home Sciences | Dr. (Mrs) Manju Mehta | 02-04-2022 | Nomination |
| 9 | Dean, Postgraduate Studies | Dr. K. D. Sharma | 27-12-2021 | Selection |
| 10 | Director of Research | Dr. Jeet Ram Sharma | 30-03-2022 | Selection |
| 11 | Director of Extension Education | Dr. Balwan Singh Mandal | 27-12-2021 | Selection |
| 12 | Director of Students Welfare | Dr. Atul Dhingra | 12-08-2022 | Nomination |
| 13 | Director of Human Resource Management | Dr. (Mrs) Manju Mehta | 30-03-2022 | Selection |
| 14 | Comptroller | Sh. Naveen Jain | 25-05-2021 | Selection |
| 15 | University Librarian | Dr. K. D. Sharma | 09-08-2022 | Nomination |

| | | | | |
|---|---|---|---|---|
| 16 | Estate Officer-cum-Chief Engineer | Dr. M. S. Sidhpuria | 03-03-2021 | Nomination |

*Note: Tenure of Vice-Chancellor is four years and for Registrar, Dean/Directors' is 4 years or till the date of retirement whichever is earlier.*

The University follows a well-defined and structured mode of appointment (selection/nomination) of statutory officers. It is available in Act and Statutes at CHAPTER III--Statutes regarding the designation, the manner of appointment, powers and the duties of the officers of the University **(SD-II)**. The posts of Dean, College of Fisheries Science and Dean, College of Biotechnology are newly sanctioned and rules for the same are likely to be framed in due course of time and incorporated in Act and Statutes of the University Statutes.

**6.6.1.4. Decentralization of power**: *Decentralized systems are those in which central entities play a lesser role in any or both of fiscal and administrative dimensions in the agricultural universities. The information on financial autonomy and sanctioning power to the Dean and other officers of the University shall be provided. Whether the necessary administrative powers have been delegated to the statutory officers of the University? Provide the list.*

For the smooth and efficient operation of the University, decentralization of power is practiced at CCSHAU. Substantial financial and sanctioning autonomy as well as administrative authority has been granted to the Deans, Directors, and other Statutory Officers of the University. **Chapter XXIII** (Statutes Regarding the Exercise of Financial and Administrative Powers by the Officers, Teachers and Other Employees of the University) and **Chapter XXIV** (Delegation of Administrative and Financial Powers by the Board of Management to the Officers/ Employees of the University) of the Act and Statutes (SD-II) contain details of the administrative and financial authorities granted to University officers/officials. The financial and sanctioning authority given to the officers of the University as enumerated in the **Account Code of the University (SD-III)**.

**6.6.1.5. Supporting Units:** *Whether the University has established a Maintenance cell, SC/ST Cell and Health facility and what is the present mode of functioning of these units to support the student, staff and University infrastructure?*

Yes, the University has established Maintenance Cell, SC/ST Cell and Health facility. The mode of functioning of these units is as under.

a) **Maintenance Cell:** The Engineering Unit of this University is in charge of the well-equipped Maintenance Cell. Through its regular and contractual workers, the Maintenance Cell offers routine maintenance, annual and special repairs/maintenance of institutional/administrative buildings, apartments, and hostels. This Cell is also in charge of the water supply, sewage system, electricity supply, emergency/generator power supply, *etc.* through regular repair and preservation of the University infrastructure and maintenance Cell's primary duty is to offer amenities for the students, employees, and residents of the campus.

b) **SC/ST Cell:** The University has a fully operational SC/ST Employees' Federation. In compliance with State Government directives periodically published and implemented by the University, an official is nominated as In-charge, Reservation Cell to coordinate the welfare of SC/ST personnel and to present their grievances, if any, concerning reservations in appointments or promotions.

For managing the scholarships and other issues of SC/BC students, Nodal Officer is nominated from among the faculty whose responsibilities are as under:

1. To collect the Filled in forms from all the colleges of CCSHAU, Hisar.
2. To send filled-in forms by email/post to the office of Higher education, Panchkula or welfare office SC/BC, Chandigarh indicating the total expenditure to be incurred on it.
3. To help the students in filling up of online proforma.
4. To help the students in getting their scholarships who do not receive it in time.
5. To make correspondence with the Higher Education Department, Panchkula, Welfare office of SC/BC, Chandigarh, Polytechnic office, Nilokheri, and DWO office, Hisar.
6. To bring awareness among SC/BC students about welfare schemes of the Government.
7. To send the reports of SC/BC students as and when required by the authorities.

c) **Health Facility**: University Health Service provides a comprehensive primary health clinic for students, faculty, staff and other campus residents. The University has a fully functional 20 bedded Campus Hospital providing medical care and health cover to students, employees and their dependents and retired employees of the University. At present medical staff includes two Lady Medical Officers (LMO), two Medical Officers and one Dental Surgeon. The post of Senior Medical Officer is presently vacant and its charge is being dispensed by one of the LMOs. There are three field dispensaries located at Kaul, Uchani (Karnal) and Bawal providing first aid to the employees of the University. Daily OPD at Hisar is about 200- 250 per day. Hypertensive clinics are being held every week on Tuesday and Thursday. The indoor facility is also being extended to the admitted patient. On average about 30-35 cases per month are being given indoor treatment. The University hospital also provides complete dental care with an X-ray facility. The immunization schedule is being followed as per national immunization policy and carried out on 1$^{st}$ Saturday of the month by ANM at Campus Hospital, on the third Saturday at the new campus and on 1$^{st}$ Wednesday at HAU Labour Colony. Regular antenatal care is provided to the residents of the campus taking care that the entire area of the campus is covered. Complicated cases are referred to various empanelled hospitals for better and more comprehensive treatment.

**6.6.1.6. Technology Support:** *Information on Classroom technology (e.g., technology in rooms, computer labs), online learning tools, internet/Wi-Fi connectivity, student systems (e.g., online enrolment), business applications, computer help (e.g., setup for email, firewalls) and password resets being implemented at the University level. A brief note shall be provided.*

The University and its constituent colleges have ample resources with respect to Classroom technology, online learning tools, internet/Wi-Fi connectivity, student systems (e.g., online enrolment), business applications, computer help (e.g., setup for email, firewalls) and password resets. Today, owing to technological interventions whole of the world has become a global community. Technology is imbibed in modern-day students' lifestyles, and it is also part of the classroom and laboratory instructions. The academic training of students is required for sensitization to its erudite uses. The faculty members also require multimedia tools to boost their teaching and learning effectiveness. The learning environment is more dynamic than ever before, as a result, today's learners are learning in a way that's very different from how our educational system was originally designed.

With the advancement in technology and the rise of remote learning, classrooms are being remodelled and redefined in several ways to fit the evolving needs of modern digital learners. The faculty of the University extensively use tools from multimedia presentations to enhance their teaching-learning effectiveness. The Smart Classroom facility for the students is provided in each college of the University for the teaching purpose in an interactive manner. Similarly, fully equipped Computer labs with internet facilities are available in each college of the University for the students. The Internet connection and Wi-Fi facility are available on the whole campus to all the Faculty/Students/other staff of the University as well as to the students in the hostels. Students can use the computer lab of their respective colleges for getting internet facilities for their study purpose.

The University has also installed a video conferencing facility at various locations (College of Basic Sciences & Humanities, College of Agriculture, College of Agricultural Engineering and Technology, I C College of Home Sciences, Directorate of Human Resource Management, University Library, Director of Research, Post Graduate Studies office, Registrar's office along with Vice Chancellor's Secretariat) to facilitate and enhance communication with educational/technical institutions at National/International levels.

In the wake of digitization, the University has implemented the online student life cycle system under which various modules related to the student life cycle are implemented. This online platform has covered all the processes from admissions to academics. All the aspects, from the invitation of applications for admission in the various programmes to the student admission and after completion of the degree up to disbursal of the result are covered in this system. A Student Portal under IUMS (Integrated University Management System) helps students with online registration each semester. The same is replicated and used by different stakeholders of the University such as Deans/advisors/faculties/other staff for different student-related activities. Students can pay their fees, view their timetable and examination schedule, attendance status *etc.* through this portal. This platform is quick and efficient for communication with students. The teachers and students use this interactive portal to publish notices and upload assignments and tutorials to enhance learning.

**A) College of Agriculture, Hisar**

The College of Agriculture, Hisar has more than two hundred desktops with specifications of i5 and i7 Core, 500 GB/1TB HDD and 8 GB RAM/16 GB RAM. All the computers are connected through LAN for better connectivity. All the **c**omputers are well equipped with recent software such as Microsoft Office, SPSS, SAS and Turnitin to improve the writing skills of students and assist them in checking plagiarism in a research thesis. In College, every node is connected to the internet. Regular courses on computers and special training on the use of Information and Communication Technology (ICT) are provided to teachers/students. Seminars and lectures are conducted in smart classrooms enabled with interactive panels and the internet. Several departments have separate Computer labs for their students. Every faculty member and all offices of the University have their own PCs connected to the internet facility.

The College of Agriculture has 15 lecture rooms. Each lecture hall has a seating capacity of 70. Ten lecture rooms have smart classroom facilities. The rest of the lecture rooms have an LCD projector and Computers. All lecture rooms are fitted with CCTV Camera, Blackboard, Whiteboard, screens *etc.* These lecture rooms are fitted with internet connections and an online facility for the recording of lectures. A fully furnished computer centre with 60 computers with accessories. Internet/Wi-Fi connectivity is an asset for staff and students. There are 14 departments in the college and every department has a seminar room and departmental library.

Smart class room of COA, Hisar.

**B) College of Basic Sciences & Humanities**

The Central Computer Centre of the University is established in the College of Basic Sciences & Humanities. The centre has 8 rooms (seminar room, staff room, In-charge room, software development lab, server and switch room, Network Lab, and Teaching lab for UG & PG). The computer section has at present more than 70 desktop PCs with the latest configuration and 6 printers for the use of students, faculty and staff. One workstation – Intel ® Xeon Silver 4316 CPU has been used for online statistical analysis and one Dell server running Linux and Windows server operating system is being used for the application server and radius server.

PG Computer Lab. Computer Section, COBS&H

UG Computer Lab. Computer Section, COBS&H

The centre is working as the gateway of internet connectivity for the University. The installation of the campus-wide GIGABIT Network is implemented by this section with funds from the AHRD project. The Campus wide network is spread over more than 18 K.M. through fibre optic cables and is providing Internet facility to the stakeholder through a 1 GBPS (Shared) leased line provided by National Knowledge Network (NKN). A firewall (Sophos) has been installed to ensure internet security. Currently, the central computer section offers Wi-Fi access to students in their hostels as well as at colleges and offices for the stakeholders. Students and researchers can use SPSS, SAS, OPSTAT, Indostat, and other data analysis tools in the computer lab to meet their academic and research needs.

Teaching through 4K ultra interactive flat panel

Almost all the Classrooms are equipped with 4 K ultra interactive flat panel (IFP) with OPS, which would be the future of classroom teaching and empower teachers as well as inspires students to learn more, share their knowledge and interact with others.

**C) I.C. College of Home Sciences**

The College of Home Sciences has a central computer lab at the college level with 30 computers enabled with internet facility which is used by the UG and PG students for preparation of their assignments, research projects and other academic works. Also, all five departments of the college have computer labs for conducting UG/PG practical classes and seminars. In total, the college has more than 100 computers connected to the Internet. All faculty members have computers, printers and internet connections in their offices. There is a Wi-Fi facility for faculty, staff and students. This infrastructure provides opportunities for the use of ICT in quality teaching, research and extension. The faculty members of the I.C. College of Home Sciences use ICT in teaching and practice. There are lecture rooms and seminar rooms with a computer, LCD projector and internet connection. Some Labs are also equipped with LCD projectors. As per the requirement of curricula delivery Power point presentations, YouTube videos, e-manuals, e-learning modules, CD-ROM, CAD Software and Online Catalogues are used. During the pandemic Covid 19, the online classes were conducted on different platforms viz. Google Classroom, MS Teams, Zoom *etc.*

**D) College of Agricultural Engineering and Technology**

The College of Agricultural Engineering and Technology is equipped with two smart classrooms and interactive whiteboards for classroom and laboratory instruction. There is one seminar room and one committee room for students and faculty to discuss their research topics and live interaction. In each

department of the college, students have access to Smart Classrooms so that they can learn dynamically. The tools from multimedia presentations such as power point presentations and smart boards are used by teachers to make their teaching and learning more effective. The facility of computers to each faculty and lab consisting of about forty computers, a University website, campus-wide networking with Wi-Fi facilities, CCTV cameras, *etc.*, make up the college's robust ICT infrastructure. Technology and Internet access are available in every college department for administrative, instructional, and scholarly work. ICT is used in classrooms, labs, and extension programmes to better serve students. The governance of the faculty and student system is enhanced by their official ID including emails, online course enrollment, fee payment, grade submission, and student attendance *etc.* Faculty members from all departments utilize e-courses on websites and e-manuals to deliver the curriculum.

Computer Lab

**E) College of Agriculture, Bawal**

College of Agriculture Bawal has six smart classrooms facilities (whiteboard, CCTV, audio-visual aids, visualize, speakers *etc.*) with a seating capacity of about 70 students and one seminar cum meeting hall equipped with audio-visual aids, sensor-based camera, microphones, speakers, whiteboard, LED screen *etc*. The college has one computer lab with a seating capacity of 30 students and all the computers are connected to internet facilities. Besides, one language lab has been established with a seating capacity of 30 students with the installation of online software (updated vocabulary and spoken English) for improvement in communication skills in English. The whole campus is under the surveillance of CCTV which is monitored by the Principal. There is Wi-Fi connectivity on the campus for students, faculty and guest visitors. During the COVID-19 period, online classes were conducted using Google Meet, and Microsoft Team and doubt-clearing sessions were taken in Whats App groups. During the Covid-19 pandemic, student performance was evaluated through online examinations using Google Meet.

Use of digital platform to train faculty and students at COA Bawal

**F) College of Agriculture, Kaul**

College of Agriculture, Kaul, has a magnificent infrastructure with all modern facilities to cater the academic needs of the students. The College has four lecture rooms with a seating capacity of 60 students. These four lecture rooms are converted into smart classrooms with well-equipped Interactive flat panels along with a mini PC, CCTV, power back up (UPS), digital lecture stand, podium, and other teaching aids. All the lecture rooms are accessed with WiFi internet connectivity and the students are given full right to access it. Besides the lecture room, a WiFi facility is also provided to the students in their hostels (Boys and Girls) where they can access their study material through it. Students as well as teachers can also record their lectures through the smart classroom through high-valued cameras and upload them onto the website through WiFi connectivity. Facilities for the recording of lectures are also provided in the extension lab.

The College of Agriculture, Kaul also has a fully furnished computer lab having 10 computers with printers, scanners and Mic cum headphones for students and staff of the college. The Library of college is also having a facility of computer lab where the students as well as teachers can access study material while in the library. All the computers are connected to LAN and are well equipped with the latest software. All the lecture rooms and laboratories are monitored through CCTV. The College of Agriculture, Kaul has one language lab for the students as well as for teachers to upgrade them with modern English skills and techniques. The lab consists of a 4k interactive display, thirty (30) desktops and an internet connection with language software which helps students with listening, speaking, reading and writing skills.

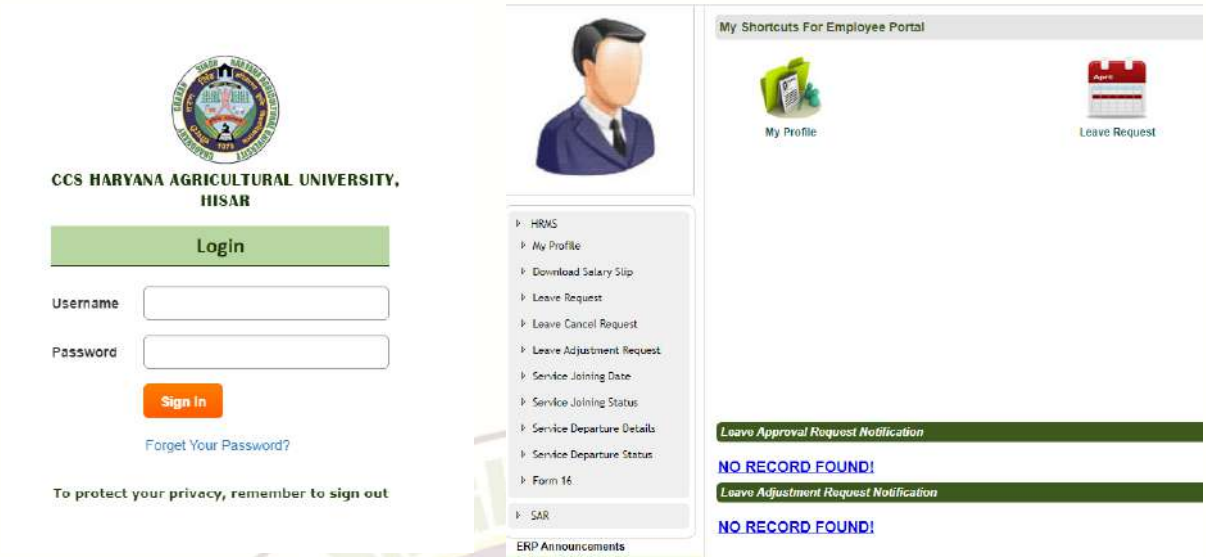
A well-equipped extension Lab with different audio-visual aids, like LED panels, audio mixers, digital cameras, tripods, portable PA systems, audio recording devices, *etc.* is available for practical purposes. The students can also apply online for their degree programme.

An **official email-id of CCSHAU** is provided individually to each student and employee of the University for official communication. Applications for admission to various degree programmes/ diplomas/ certificate courses/training *etc.* are also invited and accepted online. Most of the classrooms are equipped with Computers and Projectors for teaching using multi-media facilities. The University library is fully digitised and the student theses are uploaded on *KrishiKosh* of ICAR.

**6.6.1.7. Institutional Database and Website Update:** *Whether the institutional extensive database of general and specific programs in partnering with peer universities, research institutions and government agencies are available to facilitate a wide variety of intellectual interactions and exchanges? Mention the periodicity of Website updating.*

Yes. the institutional extensive database of general and specific programs in partnering with peer universities, research institutions and government agencies are available to facilitate a wide variety of intellectual interactions and exchanges and the website is updated regularly.

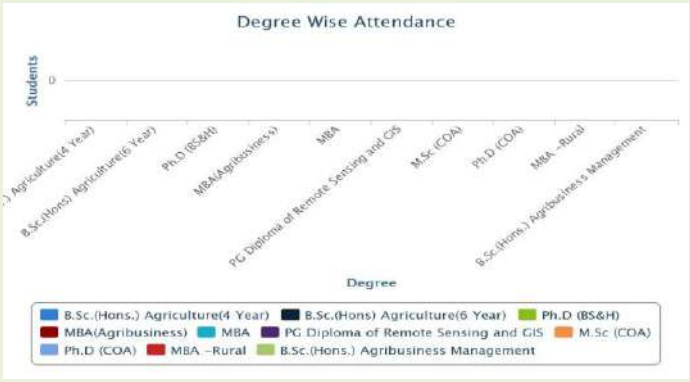
**Institutional Database and Website:** Depending on the specific needs, the University deploys and maintains a wide range of databases. For several programmes like Pension, CPF/GPF, Faculty Profile, and various online University events like seminars, conferences, training, and convocation organized in the University, multiple databases are stored at the University server. In the University, a centralized salary module with a SQL database has been put in place, allowing for the online preparation and processing of the salaries of all teaching and non-teaching employees.

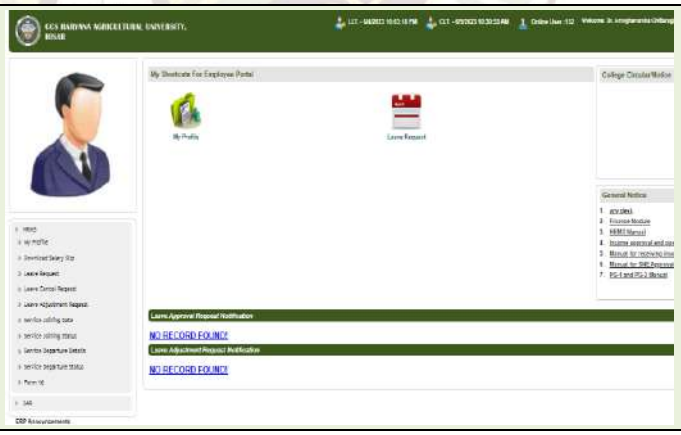


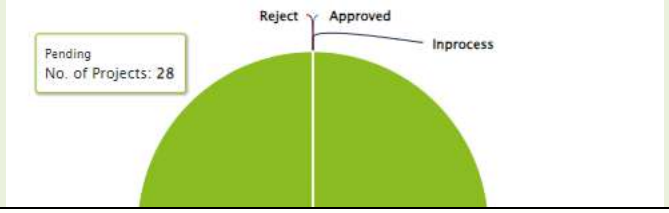
The complete result process from registration to grace marks calculation is automated as a web portal with an SQL database. All the teachers submit internal results (practical) and external examiners submit the external result online through this portal.

**Online statistical data analysis tool:** A programme called OPSTAT, an online statistical data analysis tool, has been created to serve the needs of the scientific community. Frequently new and demanding modules have been added to this tool (https://www.hau.ac.in/page/o-p-stat).

**Antiplagiarism software:** To examine the similarity index (plagiarism) for Ph.D./M.Sc. thesis and research papers, a licence for cloud-based anti-plagiarism software viz., Turnitin (http://www.turnitin.com) and Ouriginal by Turnitin (erstwhile URKUND) (https://www.ouriginal.com) has been obtained, and access has been made available to all departments and the library.







Besides this, the Haryana government portals namely HRMS (Human Resource Management Software) & PFMS (Public Financial Management System) are also used and managed by the University for various purposes.

**Integrated University Management System:** The University has purchased the Integrated University Management System (IUMS) having 19 modules (https://hauiums.in). The IUMS is web-based software for the effective management of administrative and other University management functions that are necessary to successfully handle all of the challenges of running an educational institution. IUMS provides real-time information processing and knowledge management. It is an integrated solution that facilitates the processing and maintenance of large volumes of information - including student, faculty, and staff details, and payroll and student fees across various departments in an institution. IUMS practically covers the entire area of operations and automation of the University. The system not only helps in the daily operations of the University but also provides the foundation to foster research and development on e-learning methodologies. IUMS is powered with user-friendly reports and user interface thereby ensuring maximum user efficiency. The main focus is on the integration of learning management systems, research, extension of education and university administration. The University also has on-site and off-site backups of a database of IUMS. Different roles like end-user, moderator, admin and super admin are also maintained for reliable and scalable systems to support vast areas of operation.

Integrated University Management System (IUMS)

**Modules of IUMS**

| | | |
|---|---|---|
| 1. **Student Life Cycle Modules** | | |
| a) Pre-Admission Module | |  |
| b) Admission and Academics Module | | |
| c) Student Attendance Module | | |
| d) Fee Management Module | | |
| e) Pre-Examination Module | | |
| f) Examination and Result Module | | |
| g) Student Self-Service Portal Module | | |
| **2. Financial Management Modules** | | |

| | | |
|---|---|---|
| f) Leave Management Module | | |
| g) RTI Management Module | | |

The data of faculty and staff is available on the university website along with their specialization and departments. The student data is available to their course instructors.

**Periodicity of Website updating:** The webpage for CCSHAU, Hisar is updated every day. On a priority basis, news, tenders, and job postings are uploaded/updated on the University website. The University website also features several informative links from the government and other institutions that are updated regularly. These databases have periodic backups kept on local storage. For the benefit of researchers or the scientific community, the web is also maintained with databases for insects, mites, rice, and crop diseases.

Homepage of the University website

**6.6.1.8. Interdepartmental Linkages:** *Provide information on whether the University is currently adopting a decentralized, participatory, adaptive and multifarious demand-supply side extension-research-academics approach; involving public, private and third sector (civil society) in research and extension programmes and strengthening the capacity of farmers, researchers and extension workers. Provide a note on interdepartmental linkages the University is currently having in practice. Is the University cultivating a collaborative culture within-subject and across subjects?*

Yes. A decentralized, participative, adaptable, and multifaceted demand-supply side extension-research-academics method is being used by CCSHAU; involving public, private and third sector (civil society) in teaching, research and extension programmes and thereby strengthening the capacity of farmers, researchers and extension workers. The colleges of the University are involved in instructing undergraduate and graduate students from other constituent colleges as well as students from their colleges. Similarly, faculty from other departments collaborate to do multifaceted research that benefits the farming industry and other key stakeholders.

The University has established **linkages with line departments** of the Government of Haryana and regularly conducts workshops and meeting such as the Agricultural Officers Workshop (AOW), Horticultural Officers Workshop (HOW), Zonal Research and Extension Advisory Committee (ZERAC), Training and Visits (T&V), *etc.*in collaboration with the Government departments. The University has collaborated with various SAUs of India and International organizations such as IRRI,

ICRISAT, CIMMYT *etc.* for the improvement of extension, research and academics. Other government agencies in Haryana, including the Department of Renewable Energy (HAREDA), are working with the Department of Processing and Food Engineering, COAE&T. For the design and development of a Continuous Type Carrot Washing machine, the Department of Processing and Food Engineering is working with the private manufacturer Sanjive Jangra Engineering Works, Bahbalpur, Hisar., The Departments of the COAE&T have association with the Tractor, Irrigation, and Processing Industries for the purpose of setting up the summer and industrial training for the College's UG and PG students. The **transfer of technology** work is being undertaken in collaboration with State departments of agriculture, public and private agri-industry and NGOs.

The departments of the University collaborate with other departments to conduct **interdisciplinary research**. Faculty members working in research and extension education are also engaged in teaching and academic work. Similar to this, research faculty also engages in extension activities. Every faculty member is required by University policy to spend 30% of their time working in a field (teaching, research, or extension) other than where they are currently posted. Students are sent on visits to other institutions and urged to participate in seminars, training, and conferences at other universities to meet the demands of the dynamic job market. External experts are invited and they conduct mock interviews to develop the student's personalities and make them confident when facing interviews. They also receive instruction on public speaking, taking part in group discussions, *etc.*

In the College of Agriculture, there are different AICRP schemes which includes **multidisciplinary teams** that comprise breeders, agronomists, soil scientists, microbiologists, plant pathologists, entomologists, crop physiologists, nematologists, biochemists, *etc.* An interdisciplinary team composed of researchers from the fields of horticulture, vegetable science, food & nutrition, processing & food engineering, and the Centre of Food Science and Technology has been established to research food science and technology. Multidisciplinary teams of scientists are working on extension projects at KVKs as well. The research is planned meticulously based on the feedback from the extension faculty of the University and officers of State Agricultural Department. The suggestions of AOW's ZERAC and T&V are incorporated in the research plan by the respective departments. The heads of linked departments meet to discuss and finalize the technical programmes of the respective departments. Technical inputs from other departments are also included in the research programmes. Different committees, *i.e.*, crop protection, crop production and crop improvement have been constituted. These committees finalized the recommendations of technologies to be included in the Package of Practices.

The College of Basic Sciences & Humanities has 11 departments which have association with the constituent colleges of the University such as College of Agriculture (Plant Pathology, Entomology, Nematology, Agri. meteorology, Genetics & Plant Breeding, Agri. Extension, Agri. Economics, Soil Science, Agronomy, Vegetable Sciences and Forestry), College of Biotechnology (Molecular Biology and Biotechnology and Bioinformatics), College of Agricultural Engineering & Technology (Processing and Food Engineering, Renewable and Bioenergy Engineering, Soil and Water Engineering and Farm Machinery & Power Engineering).

College of Biotechnology has five departments namely Department of Agricultural Biotechnology, Department of Molecular Biology & Biotechnology, Department of Industrial Biotechnology, Department of Bioinformatics & Computational Biology, Department of Bio-nanotechnology. The Department of Molecular Biology & Biotechnology offers minor and supporting courses to all other departments of College of Basic sciences and Humanities as well to the College of Agriculture. For research purposes, the department works in conjunction with Department of Genetics and Plant Breeding, Entomology, Plant Pathology, Biochemistry, Microbiology, Plant Physiology and

others. The Department has collaborations with several world-leading research teams and conducts both basic and applied research. The Department is also involved in a University level NAIP-ICAR project for commercialization of technologies developed in the Department. The department has earned three patents and twelve have been filed. Training programs for students and faculty are also organized in collaboration with ICAR or under SFS scheme. The college also runs state of art commercial facility for production of micro-propagated quality planting material for farmers of Haryana as well as adjoining states. One technology on production of biodegradable plastics has also been transferred.

**Interdepartmental linkages** are established among all the five departments of the I. C. College of Home Sciences. The college has five departments, namely, Extension and Communication Management (EECM), Food and Nutrition (FN), Family Resource Management (FRM), Human Development and Family Studies (HDFS) & Textiles and Apparel Designing (TAD). The department of EECM has established linkages with different departments of the District Rural Development Agency, Local Govt. Schools, Nehru *Yuva Kendra*, ICDS officials, Various Banks for village-level functions, RHWE *etc.* The experiments on crop diversification, solar Hara *etc.* were carried out in collaboration with the technical departments of the University *viz.* Horticulture, Medicinal and Aromatics Plants, Agricultural Engineering *etc.* Technologies recommended by different departments are field tested and feedback is given for refinement. The Department of Foods and Nutrition is working with other University departments, including the Departments of Genetics and Plant Breeding (Bajra division), Processing and Food Engineering, and EECM, to conduct interdisciplinary research. The Department is also working with the Department of FN's Centre of Excellence on the processing and value addition of pearl millet, and the All India Coordinated Pearl Millet Improvement Project (AICPMIP). For the objectives of teaching, research, and extension, the department of FRM collaborates with several University departments, including those of Horticulture, Meteorology, Agronomy, Farm Machinery & Power Engineering, Textile & Apparel Design, Extension Education, and Communication Management. The Department of HDFS is collaborating with other departments of the University such as the Department of Plant Pathology, Agronomy and Soil Sciences. The department of TAD has developed Interdepartmental linkages with all four departments of the I.C. College of Home Sciences viz. Departments of FN, EECM, FRM and HDFS. The department has linkage with various scientists of relevant fields who regularly impart training to rural ladies on cutting, stitching, fabric embellishment techniques, use of discarded materials, cot bag technology and other related areas of textile and apparel designing. The Department of Processing & Food Engineering works in conjunction with other academic units at the University, including the Department of Microbiology for research projects involving the installation of automatic biogas production on a large scale and the Centre of Food Science and Technology for academic purposes such as offering minor and supporting courses at the PG level. For the installation of the Kurkure plant, the PFE Department is connected to the Food and Nutrition Department. The Department of Soil and Water Engineering collaborates with the Departments of Horticulture, Agronomy, Soil Science, and Dryland Agriculture for research activities as well as academic purposes such as giving minor and supporting courses at the PG level.

For strengthening the capacity of researchers, the University has implemented Institutional Training Programme under NAHEP-IDP. It is a special faculty and students training programme to get exposure from global institutions in area of academic and research. Several students and faculties have visited esteemed international institutions/ universities leading in different agricultural and allied sectors. This has strengthened the research quality and academic curriculum that boost the university in top most agricultural universities in India. During the period under report, 26 faculty members have visited abroad for three-months international training (**list is available under section 6.6.2.2**).

**6.6.1.9. Monitoring Mechanism:** *Whether the University is following a comprehensive curriculum monitoring mechanism including teachers' self-reflection, surveys on teaching effectiveness, lesson observation, assignment inspection, examination papers review, appraisal system, and curriculum evaluation.*

At CCSHAU, a thorough monitoring system for the curriculum is in place to make sure that it is finished in a way that assures both knowledge acquisition and satisfactory results. Here are a few mechanisms that help both UG and PG curriculum monitoring:

- At the start of semester, an **academic calendar** and a course outline are sent to the students.
- Interactive sessions, teaching charts, demonstrations, and models make the learning environment in the institute more student-centered. Presentations by individuals and groups are also invited.
- The faculty creates and prepares **special lectures** to foster in students a scientific mindset, critical thinking, and creativity.
- The faculty uses the latest smart classrooms with interactive panels, audio-visual equipment and computers for efficient instruction.
- Occasionally, professional training programmes, expert lectures, seminars, workshops, conferences, *etc.* are organized.
- The placement cell and the advisory system help the students personally and professionally.
- Discussions are interspersed with lectures. To improve teaching, faculty members are sent for advanced training on specialized topics.
- The library, which is well-equipped with an extensive selection of books and other internet amenities including *Krishi Prabha*, CeRA, and video conferencing, is recommended for use among students.
- The Vice-Chancellor, Deans and Heads of Departments conduct surprise inspections in the classrooms, and feedback from the students is obtained to assess the effectiveness of the teaching and learning process and address any concerns that may arise.
- Each lecture hall is under the surveillence of CCTV camera.
- The programme of work, synopsis and thesis work of PG students is approved by Departmental Advisory Committee and final approval is given by the Dean, PGS.
- At the end of the academic year, all faculty members submit their Self-Assessment Reports (SAR). The relevant Heads of the Departments, as well as the Dean, DR, DEE, Dean PGS and Vice-Chancellor reviews it.
- Performance of the teacher is evaluated by **Student feedback proforma**.
- The service of retired teachers/ scientists is being utilized as **consultant faculty** till the age of 63.
- The University offers refresher courses, trainings, workshops, and conferences, and teachers are also sent to other universities in **India and abroad** to participate in training in their specialized fields.

For the teaching of UG and PG students, the Deans of respective colleges evolve specific strategies and means for the monitoring of satisfactory delivery of course curriculum.

**Curriculum monitoring:**

- ✓ For the newly admitted Graduate and Post graduate students, an orientation programme is organized to inform them about the rules and regulations of the University.
- ✓ Cultural, sports and other activities are organized to provide a platform for the freshers and seniors to interact in the presence of faculty members.
- ✓ The programme of work, synopsis and thesis work of PG students is discussed in Advisory Committee Meeting and finally approved by the Dean, PGS.

**Teaching effectiveness:**

To harness the potential of experts, the lectures were delivered by the examiners who had been invited for conducting viva-voce of the PG students, organized by the HODs.

**Examination System**

- The office of Controller of Examination (COE) conducts examination under the supervision of Dean of the concerned College. The question papers of various subjects/courses are prepared from the external examiners. The answer sheets are evaluated by the teachers other than course Instructors/external examiners and the Award Lists are prepared accordingly.
- The admission to various under graduate and post graduate including Ph.D. programmes is made through Entrance Examinations. The question papers for various subjects for Entrance Tests are prepared/set from External Examiners of repute. The Entrance Tests are conducted with intensive supervision and monitoring by university authority.
- COE monitors the examination centres for smooth conduct of examinations. A Central Flying Squad is constituted by the orders of the Vice- Chancellor. This squad visits various centres for monitoring the examination for smooth conduct and fair examinations held at CCS HAU Campus including COA, Kaul & Bawal.
- An Unfair Means Committee of the University is a Central level committee which consider the cases of unfair means reported during the examinations by the concerned Dean and make suitable recommendations. The Committee consists of Three Professors (one to be nominated as Chairman by the Vice-Chancellor), Director of Students Welfare, Legal Remembrancer, Asstt. Registrar (Academics). The Controller of Examination is the Member-Secretary of this Committee.

Dean PGS periodically sends out general directions to the entire faculty to ensure the smooth operation of the postgraduate programmes (SD-IV). To review the question papers, exams, *etc.* and take any action as needed. College and university level monitoring team visits each centre for smooth conduct of exams, surprise checks are made by Dean PGS during credit and thesis seminars (SD-V).

**Appraisal System**

After passing the written exam, the student must show up for a preliminary viva voce examination, which will be led by members of the advisory committee and an outside examiner. Before oral comprehensive examination a mock viva voce is done at the level of the department by the Committee constituted by HOD along with the Major advisor.

**Curriculum evaluation:**

The RIC in its 213$^{th}$ meeting held on 03.04.2023 recommended the course syllabi, course curricula and nomenclature has been finalized as per BSMA and has been approved by Academic Council in its 493$^{rd}$ meeting held on 25 May 2023.

**Tutorial System:**

The University has implemented a tutorial system. Throughout the degree programme, this system serves the groups of students associated with the faculty. Generally, ten students from each class make up a tutorial group of students. This group has one faculty member as an advisor who calls the weekly tutorial group meetings. At these meetings, the faculty member discusses the students' activities during the previous week, their performance, and any issues they may have had in understanding the lectures, hostels' life, extracurricular activities, sports, and other topics. The faculty also speaks with the parents of their tutees/students and inquires about how their children feel about the class, the professors, campus life, *etc.*

**Monitoring of teaching, research and extension**

**a) Monitoring of teaching**

- ✓ The Dean, DR, DEE, DPGS, and VC analyze each teacher's **self-appraisal report**.
- ✓ The evaluation of teachers using student feedback forms.
- ✓ The Advisory Committee, HOD, and Dean, PGS all approve the PG students' work schedules, synopses, and thesis before they are officially authorised.
- ✓ To receive feedback from the departmental professors, PG students present synopsis seminars in their departments.
- ✓ Before being submitted to the Dean of PGS for final approval, the synopsis is internally examined.
- ✓ CCTV has been installed in every lecture hall for surveillence.

**b) Monitoring of research**

- ✓ The professors and heads frequently visit the labs and research sites.
- ✓ To assess and monitor the research work done in all the departments, the Annual Technical Programme meetings are held under the chairmanship of the Director of Research, along with ADR, Dean COA, and HODs of the respective and associated departments.
- ✓ The teachers' action plans for their research projects are also reviewed and finalized.
- ✓ Meetings are organized to review the research effort at midterm appraisal.
- ✓ The supervising authority given its approval to the trip schedules and programmes.
- ✓ Teachers' self-reflection is monitored by HOD followed by the controlling officer which is finally approved by the Vice-Chancellor.
- ✓ Research/Extension effectiveness is monitored through OFT/FLD and survey by the concerned department itself or by the Department of Extension Education, Department of Agricultural Economics, Department of Sociology and Extension Education & Communication Management either through the experiments by the scientist or through students' research problems.

**c) Monitoring of extension**

- ✓ Directorate of Extension Education is following a comprehensive monitoring mechanism through various review meeting of all the KVKs and all the units [(ADT, AD(E), ATIC, AD(P) and EEI, Nilokheri)]" chaired by the Director Extension Education as well as by the Vice-Chancellor on some occasions.

- ✓ In Monthly Review Meetings, Senior Coordinators/Coordinators, and Unit In charges present the various activities conducted during the last month and plan the work for next month. All the activities of KVKs/Units are monitored and evaluated in the meeting.

**6.6.1.10. Institute Quality Assurance Cell /PME Cell:** *Please mention the establishment and the active functioning of both the cells and the kind of outcome-based assignment presently being carried out through these cells.*

**Project Monitoring and Evaluation Cell (PME)/ Project Monitoring Committee (PMC):**

The Project Monitoring and Evaluation (PME) Cell was constituted in the University vide memo No.PAE/2011/A.1/130-36 dated 22/04/2011. Subsequently, the PME Cell was reconstituted many times by the competent authority. Recently, the PME Cell has again reconstituted vide Memo No. DR/B.1/2022/7284-7306 dated 7.12.2022. Following members were approved in the PME Cell.

| | |
|---|---|
| OSD to Vice-Chancellor | Coordinator |
| Director of Research | Member |
| Concerned Dean/Assoc. Dean | Member |
| Concerned Head of the Department | Member |
| Addl. Director of Research | Convener |
| PI & Co-PI | |
| One person of Accounts (to be nominated by DR) | |
| Head of the Departments of the related discipline as a special invitee. | |

**Activities of PME Cell**

- Monitoring and review of the progress of various projects from different funding agencies like ICAR, RKVY, ICRISAT, IRRI, CIMMYT *etc.* are regularly done.
- The timely utilization of funds to achieve the desired project goals and timely submission of utilization certificate ensured by the PIs.
- Research programmes under AICRP of ICAR monitored regularly by HODs for timely completion of programme activities.
- Scientists are encouraged to submit research project proposals to funding agencies in India and abroad. Efforts are made to explore collaboration with CGIAR institutes for research work in frontier areas.

**The following PMC meetings were held for the last five years (i.e. from 2018 to till date):**

| Sr. No | Date of Meeting | No. of project(s) recommended |
|---|---|---|
| **1.** | 16.04.2018 | 1 |
| **2.** | 17.04.2018 | 7 |
| **3.** | 29.05.2018 | 4 |
| **4.** | 09.08.2018 | 9 |
| **5.** | 06. 09.2018 | 3 |
| **6.** | 08.10.2018 | 7 |
| **7.** | 28.11.2018 | 3 |
| **8.** | 24.01.2019 | 12 |
| **9.** | 26.04.2019 | 36 |

| | | |
|---|---|---|
| **10.** | 13.09.2019 | 15 |
| **11.** | 13.12.2022 | 15 |
| **12.** | 19.01.2023 | 17 |
| **13.** | 17.03.2023 | 11 |

**The proceedings of the meetings of the PMC held during the last five years are attached as SD-VI*

**Meeting outcome**

Total of 13 meetings were conducted in the last 5 years to evaluate the various components of the research projects (**140 projects**) that are received from the different Departments of the University. In the PMC meeting, the committee evaluates the research projects and approves them for submission to the concerned funding agency.

**6.6.1.11. Collaboration with Academic Institutions and Industry:** *What type and how much collaboration are currently in place with academic institutions and industry? Does the University have some more proposals for future collaboration? Give details with road map.*

Over time, rather than being purely individual pursuits, agricultural research, teaching, and extension have evolved to be multidisciplinary. The coordinated activities cover a wide range of issues and disciplines to expand scientific understanding and make advances in ways to take care of regional issues. For considering the proposals for collaboration with academic institutions and industry, the University has an MoU Committee constituted by the Vice-Chancellor. The Committee consists of the following:

| | | |
|---|---|---|
| 1. | Director, HRM | Chairperson |
| 2. | Registrar | Member |
| 3. | Comptroller | Member |
| 4. | Director of Research | Member |
| 5. | Dean, College of Agriculture | Member |
| 6. | Dean, College of Basic Sciences & Humanities | Member |
| 7. | Dean, PGS | VC Nominee |
| 8. | Incharge, Legal Cell | Member |
| 9. | Controlling Officer /HOD (for related MoU only) | Member |
| 10. | Incharge, International Affairs (for International MoUs only) | Member |
| 11. | Incharge IPR Cell and BPD unit (related MoUs only) | Member |
| 12. | Prof. Atul Dhingra | Member |

Signing of MoU with different institutions

During the period of report, the University has entered into several collaborative agreements with national and international organizations for cooperation in the fields of agricultural education, research and extension through the exchange of students, scientists and technologies which are listed below.

**National MoUs**

| Sr. No. | Name of Organization | Date of signing MoU (Duration) | Type of Collaboration |
|---|---|---|---|
| 1. | ICAR- Indian Institute of Pulse Research MoU, Kanpur | 03.02.2018<br>Co-terminus with the project | For research project |
| 2. | Umbrella Memorandum of Understanding Between ICAR and host Institutions | 12.03.2018<br>Continue | For cooperation in Agricultural Research and Education |
| 3. | Lala Lajpat Rai University of Veterinary and Animal Sciences, Hisar | 11-6-2018<br>10 years | For cooperation in Agricultural Research and Education |
| 4. | Swami Vivekanand Subharti University, Meerut | 25-08-2018<br>5 years | For cooperation in Agricultural Research and Education |
| 5. | National Research Centre on Equines, Hisar | 5-1-2019<br>3 years (Renewal under process) | For cooperation in Agricultural Research and Education |
| 6. | Central Soil Salinity Research Institute, Karnal | 24-01-2019<br>5 years | For cooperation in Agricultural Research and Education |
| 7. | Indian Institute of Wheat & Barley Research, Karnal | 13-03-2019<br>5 years | For cooperation in Agricultural Research and Education |
| 8. | ICAR-Indian Institute of Millets Research, Hyderabad | 31-05-2019<br>5 years | For cooperation in Agricultural Research and Education |
| 9. | JSW IP Holdings Pvt. Ltd. | 24.12.2018<br>3 years (Terminated) | Renovation, refurbishment and upgradation of the Giri centre for Students' Welfare and Activities of CCS HAU |
| 10. | Department of Agriculutre and Farmers' Welfare Government of Haryana | 8-07-2019<br>3 years (Terminated) | Enhancing capacities of stake holders for implementing and sustaining the climate change adaptation strategies through trainings |
| 11. | Letter of Agreement between India Meteorological Department, Ministry of Earth Sciences, Govt. of India and CCS HAU, Hisar | 20-07-2019<br>3 years (Terminated) | Establishment of Black carbon aerosol monitoring system |
| 12. | Central Institute of Research Buffaloes (CIRB), Hisar | 10-10-2019 | For cooperation in Agricultural Research and Education |
| 13. | National Research Development Corporation (NRDC) | 10-10-2019<br>5 years | For cooperation in Agricultural Research and Education |
| 14. | National Agri-Food Biotechnology Institute (NABI), Mohali | 03-10-2019<br>5 years | For cooperation in Agricultural Research and Education |
| 15. | Punjab National Bank Farmers Training Cenre (PNB-FTC),Sacha Khera District, Jind (Haryana) | 12-12-2019<br>2 years (Renewal under process) | Establish relations between farm training services divisions and create facilities for imparting quality training to farmers |
| 16. | National Bureau of Fish Genetic Resources, Lucknow | 20-12-2019<br>5 years | For cooperation in Agricultural Research and Education |
| 17. | Indian Institute of Natural Resins and Gums, Ranchi | 07-01-2020<br>5 years | For cooperation in Agricultural Research and Education |
| 18. | Central Sheep and Wool Research Institute, | 31-12-2019 | For cooperation in Agricultural |

| | | | |
|---|---|---|---|
| | Avikanagar Rajasthan | 10 years | Research and Education |
| 19. | Amity Universities and Institutions | 17.01.2020<br>5 years | For cooperation in Agricultural Research and Education |
| 20. | Petroleum Conservation Research Association, New Delhi | 06.02.2020<br>3 years | To participate in *Kisan Mela*, Agriculture Workshops and Seminars |
| 21. | Eternal University, Baru Sahib, HP | 13.07.2020<br>5 years | For cooperation in Agricultural Research and Education |
| 22. | ICAR-Indian Institute of Maize Research, Ludhiana, Punjab | 09.02.2021<br>5 years | For cooperation in Agricultural Research and Education |
| 23. | India Meteorological Department, Ministry of Earth Sciences, Govt. of India and CCS HAU, Hisar | 22.09.2021<br>5 years | For cooperation in Agricultural Research and Education |
| 24. | Shri Krishna Ayush University, Kurukshetra | 27.12.2021<br>5 years | For cooperation in Agricultural Research and Education |
| 25. | Guru Jambheshwar University of Science and Technology, Hisar | 27.06.2022<br>Until either of the parties intends to terminate it | For cooperation in Agricultural Research and Education |
| 26. | International Potato Centre, New Delhi | 29.06.2022<br>5 years | For cooperation in Agricultural Research and Education |
| 27. | International Rice Research Institute, Varanasi | 11.07.2022<br>5 years | For cooperation in Agricultural Research and Education |
| 28. | Maharana Partap Horticultural University, Karnal | 2022<br>2 years | For academic collaboration |
| 29. | State Bank of India | 15.07.2022<br>5 years | Pension Payment |
| 30. | International Crops Research Institute for the Semi-Arid Tropics (ICRISAT), Patancheru Telangana State | 23.02.2023<br>5 years | For cooperation in Agricultural Research and Education |
| 31. | Indian Council for Cultural relations (ICCR), Ministry of External Affairs, Govt. of India | February 2023<br>3 years | For academic collaboration |

**International MoUs**

| Sr. No. | Name of Organization | Date of signing MoU (Duration) | Type of Collaboration |
|---|---|---|---|
| **1.** | Agriculture and Forestry University, Rampur Chitwan, Nepal | 3-2-2018<br>5 years | For cooperation in Agricultural Research and Education |
| **2.** | Indus Forum, Netherland | 24-05-2018 | Valorisation of paddy straw |
| **3.** | Michigan State University, USA | 31-05-2018<br>5 years | For cooperation in Agricultural Research and Education |
| **4.** | National Chung Cheng University, Taiwan | 20-06-2018<br>5 years | For cooperation in Agricultural Research and Education |
| **5.** | Czech University of Life Sciences, Prague, Czech Republic | 07-09-2018<br>5 years | For cooperation in Agricultural Research and Education |
| **6.** | S. Toraighyrov Pavlodar State University | 10-10-2018 | For cooperation in Agricultural |

| | | | |
|---|---|---|---|
| | of Pavlodar, Kazakhstan | 5 Years | Research and Education |
| **7.** | Western Sydney University, Australia | 27-11-2018<br>5 years | For cooperation in Agricultural Research and Education |
| **8.** | UTP University of Science & Technology in BYDGOSZCZ, Poland | 05-08-2019<br>5 years | For cooperation in Agricultural Research and Education |
| **9.** | Virginia Polytechnic Institute and State University (Virginia Tech) Blacksburg, Virginia, USA | 7-8-2019<br>3 years | For cooperation in Agricultural Research and Education |
| **10.** | Kabul University, Kabul, Afghanistan | 16-08-2019<br>3 years | For cooperation in Agricultural Research and Education |
| **11.** | University Guleph, Canada | 28-11-2019<br>3 years | For cooperation in Agricultural Research and Education |
| **12.** | University of Western Australia, Perth, Australia | 16.12.2019<br>5 years | For cooperation in Agricultural Research and Education |
| **13.** | Massey University, New Zealand | 13.10.2020<br>5 years | For cooperation in Agricultural Research and Education |
| **14.** | International Fertilizer Development Centre, USA | 9.9.2021<br>5 years | For cooperation in Agricultural Research and Education |
| **15.** | Partnership agreement for dual award and higher degree research candidature- Master of Research with Western Sydney University, Australia | October 2022<br>5 years | For cooperation in Education |
| **16.** | Combined partnership agreement for dual award and higher degree research candidature- Master of Research, Doctor of Philosophy pathway and Doctor of Philosophy with Western Sydney University, Australia | November 2022 | For cooperation in Education |

**Collaboration with Industry**

The Business Planning and Development (BPD) Unit of the Directorate of Human Resource Management has been taking action to commercialize the technology created by the University. During the period under report, The Unit has played a key role in securing 56 Non-Exclusive Licence Agreements/MoUs with more than 50 illustrious businesses in Haryana, Punjab, Rajasthan, Uttar Pradesh, Delhi, Andhra Pradesh and Telangana for the production and marketing of 14 University technologies, including 4 hybrids of Maize, 3 hybrids of Bajra, two varieties of Raya, one variety each of Wheat, Moong, Sorghum, Onion, and Oats.

| Sr. No | Product/Process/Technology/area of agreement | No. of Agreements |
|---|---|---|
| 1 | Maize Hybrids<br>HQPM 1, HQPM 4, HQPM 5 & HQPM 7 | 01 |
| 2 | Bajra Hybrids<br>HHB 67 (Improved), HHB 299, HHB 311 | 05 |
| 3 | Wheat Varieties<br>WH 1270 | 31 |
| 4 | Raya Variety<br>RH 725, RH 761 | 05 |
| 5 | Moong Variety<br>MH 1142 | 01 |
| 6 | Sorghum Variety | 01 |

| | | |
|---|---|---|
| | CSV44F | |
| 7 | Onion Variety<br>HOS3 | 01 |
| 8 | Oats Variety<br>OS 405 | 01 |
| 9 | Incubation | 01 |
| 10 | Public Sector | 03 |
| 11 | PPP Mode | 02 |
| 12 | R&D Agreements | 04 |
| 13 | Total | 56 |
| | | |

**Road Map for Future Collaborations**

To share and familiarize its faculty and students with international best practices, the University is concentrating on national and international partnerships with famous institutions. Thirty-one MoUs were signed with national organizations for academic and research cooperation during the reporting year, and 16 MoUs/LOIs were signed with international organizations such as University of Western Australia, Massey University, New Zealand, Western Sydney University, Australia, Michigan State University, USA *etc.*, for academic cooperation. To enhance the capacity of teachers, students, and other stakeholders, the initiative will be taken to collaborate with top public and private institutions through training, seminars and workshops.

To the advantage of farmers, the University will hasten the process of commercialization and pilot/large-scale production of promising and feasible innovations to the public and private sector firms. Various institutions are interested in working together on projects involving vegetable grafting, Schizont Cell Culture vaccines, sorghum varieties, and fertilizer technologies. To achieve its goals of technology licencing and capacity building, the University's BPD Unit intends to organize several programmes to entice businesses and entrepreneurs.

### 6.6.2 Academic Support

**6.6.2.1. Academic Council:** *Provide the composition and date of Academic Council Meetings held in last five years along with ATRs.*

The composition of the Academic Council as per section 23(3) of HPAU Act & Statutes is as under:

a. The Vice-Chancellor
b. The Deans of the Colleges of University
c. The Dean of Post Graduate Studies
d. The Director of Extension Education
e. The Director of Research
f. The Head of one Department from each college, to be selected by the respective college

As per Clause-2(1) of Chapter-II of Act & Statutes, the Vice-Chancellor shall also have the power to co-opt such Heads of Departments, as may be considered necessary for any particular meeting of the Academic Council under Section 23(2)(b) of HPAU Act, 1970.

During the last five years, the meetings of the Academic Council were held as under: -

1. 476th dated 05.04.2018
2. 477th dated 11.04.2018
3. 478th dated 05.07.2018
4. 479th dated 27.10.2018
5. 480th dated 28.02.2019
6. 481st dated 18.04.2019
7. 482nd dated 28.08.2019
8. 483rd dated 10.12.2019
9. 484th dated 13.03.2020
10. 485th dated 07.08.2020
11. 486th dated 08.03.2021
12. 487th dated 24.03.2021
13. 488th dated 25.06.2021
14. 489th dated 27.08.2021
15. 490th dated 09.06.2022
16. 491st dated 02.07.2022
17. 492nd dated 09.12.2022

**The Proceedings and Action taken Reports are available as SD-VII**

**6.6.2.2. Innovation and Best Practices:** *An innovative practice could be a pathway created to further the interest of the student and the institution, for internal quality assurance, inclusive practices and stakeholder relationships. What are the innovative efforts of an institution that help in its academic excellence?*

Innovative practices in an educational institution should be productive, and must incorporate student-centered processes that enable students to participate actively in their learning in a safe atmosphere. For knowledge acquisition to be broadened, a student must be able to engage in authentic and relatable problem-solving activities through advances in teaching-learning methodologies. The best educational methods must be able to develop pupils' creative potential. Teachers and students at CCSHAU welcome fresh perspectives and quickly apply them to all facets of education, i.e., teaching, research, and extension. University has established an IPR Cell to protect the innovations from various research activities of students.

In order to create academic excellence among students and to provide them the best practical exposure to ongoing research activities in their own and relevant subjects, the University has taken various initiatives including exposure visits, experiential learning programmes, trainings, student exchange at national and international institutes, collaboration with industries, signing of various MoUs and upgradation of existing facilities in addition to organizing various activities throughout the year.

**An overview of such innovations and best practices is given below.**

- Exposure of students to foreign Universities under NAHEP-IDP programme
- Experiential Learning Programmes to get the students acquainted with experience-based learning and to learn entrepreneurial skills by selling their products through HAU Mart
- Use of ICT in teaching and learning
- Student & faculty exchange programme under the projects like SPARC
- Under student exchange programme for academic excellence in Post Graduate Studies, CCSHAU, Hisar has signed MoU with Punjab Agricultural University, Ludhiana for students exchange in first semester of Ph.D. students in four disciplines i.e., Agronomy, Soil Science, Entomology and Microbiology. The students admitted in these departments stay at Ludhiana for 1st Semester of Ph.D. and study defined courses
- MoUs with the various ICAR institutes have been signed for collaboration in Post Graduate research
- An International Cell has especially been established in the university to facilitate the international students and develop collaboration with prestigious international universities /institutions to strengthen research and academic activities globally. Sixty-seven students were studying in various colleges of the university during period under report.
- The faculty/scientists working in other Govt. Institutes/Universities can be included as additional major & co-major in the Advisory Committee of PG students
- A provision has been made to utilize expertise of external examiners to deliver specialized lectures in the departments, when invited by Dean, PGS for viva-voce of PG students.
- Courses have been revamped and curriculum revised to keep up with changing trends and demands both from students and the industry as well as to give boost to the number of students opting different disciplines for professional electives.
- The faculty of the University combines traditional and modern methods for imparting education. PPTs of course lectures and teaching manuals have been developed for UG and PG students and uploaded on the e-portal for ready access.
- Students are given exposure in computer applications, e-learning, multimedia applications and handling of teaching equipment. Department of EECM, IC COHS has developed media in the form of video films, posters, charts, leaflets etc. on various topics for women empowerment.
- Under graduate seminars are also conducted during the degree programme and presented using multimedia projector. In majority of the courses, students are given assignments and are required to give presentations for building confidence.
- Study tours for UG and PG students to renowned institutions, including IARI, NDRI, the NASC complex and the top institutions in a discipline, were routinely arranged to acquaint students with current advancements in their fields of specialization or interest. Besides this, exposure is provided to students through skill training and demonstrations, such as the evaluation of farm and agro-processing equipment and the installation of drip irrigation systems.
- For identification of various medicinal and aromatic plants by UG and PG students, Herbal Garden is being maintained at Research Farm of MAP Section and Botanical Garden.
- Students are also given exposure to various skill development programmes through skill trainings and demonstrations like bakery and confectionery products, educational material, personality development, video production, auto CAD, interior decoration, and creative arts etc.

- Students are encouraged to apply their theoretical knowledge by organizing activities in their respective fields for the benefit of the society. Various enrichment talks, workshops/seminars/extension lectures, classes are organized for the holistic development of students. For promoting and enhancing teaching-learning environment, innovative approaches including use of assignments, research-based project work, field visits, focused group discussions, debate and declamation, quiz competitions, slogan and poster writing competitions are being adopted in the University.
- The students of agriculture undergo Rural Agriculture Work Experience (RAWE) which focuses on strengthening capacity of individual students so that they can respond to the farmers' needs and address issues related to such needs in their professional career.
- UG students of Community Science spend three months 'in-plant' training to gain practical exposure. Also, students gain knowledge of indigenous rural practices through IAHS. Various Campaigns like- Health Campaign, Population and Family Campaign, Consumer Day, Health and Hygiene Campaign and Drudgery Reducing Technologies Campaign etc. were organized to acquaint the students working with rural masses in order to improve their livelihoods.
- The University also encourages its staff to update their knowledge and skill through refresher courses, attending/participating in conferences and faculty development workshops.
- Dr. Mangal Sein Agricultural Sciences Museum was established in 2022 for providing an overview of agricultural developments.
- Joint MReS (Masters Research) and Dual Degree Ph.D. Programme: CCSHAU and WSU have started dual degree Programme, MReS for Masters and direct Ph.D. Dual Degree Programme. From CCSHAU, three students from disciplines of Foods & Nutrition, Entomology and Soil Science, respectively, were selected for pursuing Ph.D. research work at Western Sydney University, Australia.

Partnership agreement for dual award and higher degree research candidature- Master of Research Between CCSHAU and Western Sydney University, Australia at WSU, Australia

- Three students have been selected for their UG/PG/PhD program to complete their degree program with scholarship funded by Tokyo NODAI.
- Students were selected to participate in international student summit under Tokyo International Students Summit (ISS) open call. Five students of CCSHAU have successfully participated in ISS.

- During the period of report, CCSHAU has entered into collaborative agreements with 31 national and 16 international organizations for cooperation in the fields of agricultural education, research and extension through exchange of students, scientists and technologies (List given under section **6.6.1.11**).
- Initiative have been taken to join hands with leading institutions of public and private sector for capacity building of faculty, students and other stake holders through trainings, seminars, workshops etc.

**Protection of innovations under Intellectual Property Rights**

The University has a fully functional IPR Cell at Directorate of Human Resource Management. The cell has organized awareness programs on IP management for faculty members and students of the university. The University has so far submitted 63 patent/protection applications for its intellectual properties, 39 IPRs have been protected/granted (List given under section **6.6.3**). During the period of report, university has filed 47 IPR applications and has been awarded with IP rights for 24 innovations.

**Academic excellence by organizing lectures/ workshops/ trainings/ webinars/ seminars/brain storming session organized (offline/online)**

**Trainings Conducted under IDP NAHEP during the period under report**

| S. No. | Activities |
|---|---|
| 1. | Launch Workshop of the Institutional Development Plan (IDP) sub-project entitled "Strengthening Institutional Capacity to Produce Skilled Professionals for Market Driven Agriculture" at Haryana Raj Bhavan, Chandigarh on May 31, 2018. |
| 2. | Indo-US Brainstorming Workshop on 'Identification of Industry Needs and Skill Gaps for Market Driven Agriculture' was held on September 14-15, 2018 in College of Agriculture, CCSHAU Hisar. The participants included students and faculty from CCSHAU, industry representatives and delegates from Michigan State University (MSU), USA. |
| |  |
| 3. | A lecture-cum-field demonstration of "Uses of drone technology in agriculture" was organized in the Department of Agronomy, College of Agriculture by Bayer Crop Science and Lotech Avigation Pvt. Ltd., Gurugram, Haryana on December 9, 2019. There was a demonstration of application of herbicide through drone in one acre of wheat sown plot at experimental field area of Agronomy Department. |

Field demonstration of uses of drone technology in agriculture

4. Industry conclave as 'New Placement Avenues in Agriculture' was organized on February 13-14, 2020 and was attended by about 500 delegates, which included industry delegates, scientists from various universities including CCSHAU faculty and students.

Dr. Paramjeet Singh, Principal Director RCED, Chandigarh delivered presentation on entrepreneurship

Interactive session with university students

5. Two days training on 'How to make Successful Start-Up' was organized at Agribusiness Incubation Centre (ABIC), CCSHAU Hisar on February 26-27, 2020. In this training programme, students were sensitised on "How to Setup an Agri Enterprise" & "Enterprise and Risk" and what are the different ways to enter into entrepreneurship, what are the requirements, how to deal with challenges and competition, various ways of market research, how to take calculative decision keeping in mind about the certain and uncertain risk.

Participants during training on 'How to make Successful Start-Up'

6. I.C. College of Home Sciences, CCSHAU, Hisar organized two training Programme on "Enhancement of designing competencies with ICT tools" for UG students on February 24-March 4, 2020 and February 26- March 6, 2020.

Participants during training Programme on "Enhancement of designing competencies with ICT tools"

7. Two days training on 'How to Setup New Agri Enterprise' was organized at Agribusiness Incubation Centre, CCSHAU Hisar on February 29-March 01, 2020. Various opportunities in agriculture which can be converted into a profit-making business idea with the help of market and social research were discussed at length during the training programme.

Participants during training on 'How to Setup New Agri Enterprise'

8. Two days training on "Design for future" was organized by Directorate of Student's Welfare, CCSHAU Hisar on February 28-29, 2020. The design methodology for the development of self-optimizing systems consisting of a reference process, methods, and tools were discussed in detail.

Participants during training on "Design for future"

9. Two days training on "Success factor for an Enterprise" was organized at Agribusiness Incubation Centre, CCSHAU Hisar on February 29–March 01, 2020. Students learnt about the Role of Women in Entrepreneurship.

Participants and lectures during training programme

10. One day training on "Agro forestry System" in two batches in collaboration with College of Agriculture Kaul on March 2-3, 2020, to expose the students about the best features of agriculture and tree planting.

Participants during training Programme

11. One day training programme on "Organic Agriculture" on March 3, 2020 at Agribusiness Incubation Centre, CCSHAU Hisar. The objective of this training was to make the students aware about the indiscriminate use of pesticide in agriculture and health benefits of products developed organically

12. Training on 'Mushroom cultivation' was conducted in the Department of Plant Pathology from February 29-March 1, 2020.

13. A three days webinar training on 'Personality Development' on May 5-7, 2020 for UG students was organized at COA, Bawal.

14. Online training on "Role of Agribusiness Sector and Market intelligence in Enhancing Farmers Income" was organized at COA, Kaul on May 12-13, 2020.

15. Online workshop was organized at COA, Bawal on "Effective Communication and Interpersonal Skills "from May 18-21, 2020 for Undergraduate students through ZOOM cloud platform.

16. Directorate of Students Welfare, CCSHAU, Hisar organized an online competition for poster making, collage making and photography on June 10-12, 2020.

17. Webinar on "Value Addition of Horticultural crops: A way to Entrepreneurship" was organized by Saina Nehwal Institution of Agricultural Technology Training and Education on July 01-04, 2020.

18. One day Online training on topic "Adding Meaning to Nutritional data" was organized by the Department of Foods and Nutrition, IC COHS on July 5, 2020. Ms. Gurdeep Kaur, Dietitian (Department of Dietetics AIIMS, New Delhi) guided the students about the use of software Dietcal.

19. International Webinar was organized on 'Combating Hidden Hunger-Obstacles & Interventions for Sustainability' by the Department of Foods and Nutrition, IC COHS, CCSHAU, on September 19, 2020.

20. Department of Farm Machinery & Power Engineering (COAE&T) organized a webinar on 'Engineering interventions to curb the menace of stubble burning in Haryana' on October 29, 2020.

**Workshops/ trainings conducted with support from university/other agencies during period under report**

1. Visit of International delegates with RAWE students at farmer field on September 15, 2018. International delegates from Michigan State University, USA visited a farmer's field with RAWE students. RAWE provides exposure to agricultural students to the natural setting of the village situations, work with the farm families, identify their problems and make use of various extension tools for transferring the latest agricultural technologies.

2. Lecture on "Opportunities for higher education in Canada" by Prof. Malcom M. Campbell, University of Guelph on November 28, 2019.

Participants during training Programme

3. Interactive Session On "Seed Quality Testing and Opportunity for Higher Education in New Zealand" by Dr. Craig McGill and Dr. Svetla Sofkova, Massey University, New Zealand on November 30, 2019.

Participants during interactive session

4. Lecture on "Biomass conversion: Technology based Agripreneural opportunities" by Prof. Shabaddine Sokhansanj, University of British Columbia, Canada on November 30, 2019.

Interactive session during lecture by Prof. Shabaddine Sokhansanj

5. Guest lecture on "Weeding, Precision Agriculture, Automation and Robotics" by Dr. Vijay Singh, University of Virginia Tech, USA on December 20, 2019.

Interactive session during lecture by Dr. Vijay Singh at COAE&T

6. Interactive session on 'Opportunities for higher education in United Kingdom' by Dr. Ratan Yadav, Aberystwyth University, UK on February 14, 2020.

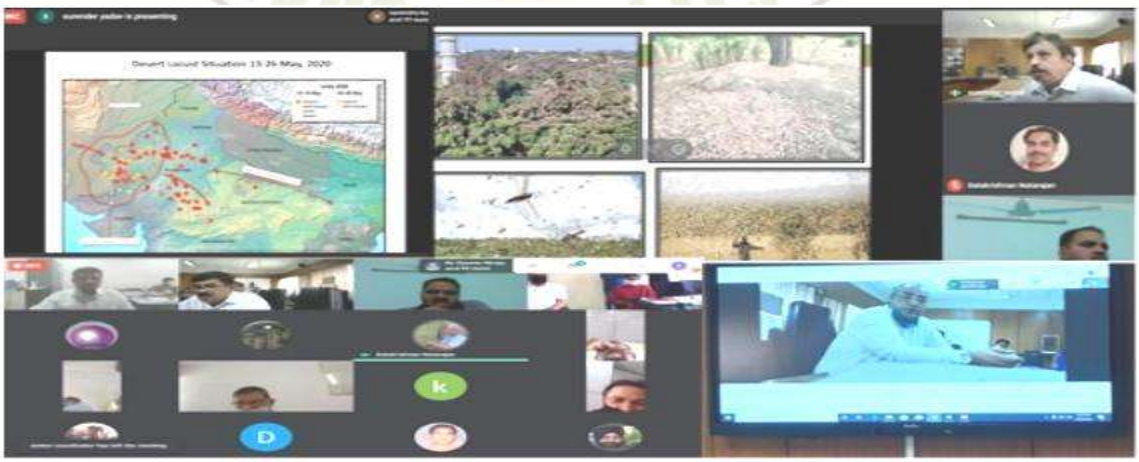
Participants during interactive session

7. Three trainings of two-week duration each were organized on 'Communication Skill for Effective Public Speaking' from February 17-29, February 18-March 2, and February 19-March 3, 2020

Participants during training programmes

8. Five training program (one-week each) on "Robotics and Automation" were conducted starting from February 25, 2020, at College of Agricultural Engineering & Technology, CCSHAU, Hisar.

Distribution of kits for Robotics and Automation Training



9. Training of ten days duration on 'Enhancement of handicrafts skills for entrepreneurship development' was organized for UG students of CCSHAU, Hisar from March 6-18, 2020.

Evaluation of handicrafts by director Research cum PI IDP development during training

10. A webinar designed especially for UG students entitled "Introduction to MATLAB and its application" was organized by College of Agricultural Engineering & Technology, CCSHAU, Hisar from April 27-29, 2020 during Covid-19 lockdown period using Google Meet.

11. National webinar on "Locust: A serious threat to Agriculture" was conducted on May 29, 2020.

Glimpses of the "National webinar on "Locust: A serious threat to Agriculture"

12. Webinar on 'Impact of COVID-19 on Agricultural Education' was conducted on June 01, 2020

13. International webinar on "International Funding for Young Researchers- An Opportunity" on July 11, 2020 for Scientists and students.

14. "Online International training on Climate Change" was conducted in lecture series on July 16, 23, 30 and August 6, 2020.

15. Webinar on "Nematode problem in Horticultural Crops and their Management" was organized on August 09, 2020.

16. Three days Virtual workshop on "Digital Library Frame Work for Strengthening Agricultural Knowledge" on February 17-19, 2021 was conducted through ZOOM platform.

Participants and lectures during training programme

17. Online webinar on "Minerals: Their absorption and interaction with other nutrients" was conducted by Department of Foods and Nutrition, I.C. College of Home Sciences in collaboration with the Society "Food Matters" on April 15, 2021.

18. An online webinar on "Methods for estimating requirements and RDA of different nutrients for different age groups and physiological states" was conducted on May 6, 2021 by Department of Foods and Nutrition, I.C. College of Home Sciences in collaboration with the Society "Food Matters".

19. An online webinar was organized on the occasion of "World Hepatitis Day" on July 28, 2021. The key speakers of this webinar were Dr. Veenu Sangwan and Dr. Urvashi Nandal from CCSHAU, Hisar.

20. One day awareness workshop was organized at the Directorate of Students Welfare, CCSHAU on 'Development of soft skills for entrepreneurship among Agri-graduates' in collaboration of ICAR-National Academy of Agricultural Research Management (NAARM), Hyderabad on December 02, 2021

.

21. An orientation programme for undergraduate students selected for international training was held on December 17, 2022 in the auditorium of COA.

Participants during orientation training programme

| | |
|---|---|
| 22. | College of Agricultural Engineering & Technology, CCSHAU, Hisar organized a three months online certificate course on "Design, Installation, Operation and Maintenance of Protected Structures" starting on November 13, 2021 |
| 23. | A training programme on 'Skill Development in Apparel Designing' was organized for SC/ST students of IC COHS on March 7-16, 2022 |
| 24. | A workshop on Capacity Building of Young Researchers for carrying out nutrition research was organized on August 25-26, 2022 at IC COHS, CCSHAU, Hisar |

- Various other training programmes organized for the students of the University is covered under Student development activities section **(6.6.6.5)** and Global support section **(6.6.3.7)**

With a view to enhancing the skills of students for bringing in innovations, lecture rooms and laboratories were upgraded

**Laboratories upgraded**

1. Post Graduate lab, Department of Genetics & Plant breeding, College of Agriculture, CCSHAU
2. Laboratory no. 57, Department of Nematology, College of Agriculture, CCSHAU
3. Laboratory no. 430, Department of Biochemistry, COBS&H, CCSHAU
4. Advanced computing lab, Department of Mathematics & Statistics, COBS&H, CCSHAU
5. Food Analysis Lab No. 38, Food Nutrition, IC COHS, CCSHAU
6. Farm Power Laboratory, COAE&T, CCSHAU
7. Farm Machinery Laboratory, COAE&T, CCSHAU
8. Irrigation & Drainage Engineering Laboratory, COAE&T, CCSHAU
9. Electrical Engineering Laboratory, COAE&T, CCSHAU
10. A.I. and Robotics Laboratory, COAE&T, CCSHAU
11. Computer lab/TAD lab, Department of Textile and Apparel Design, IC COHS, CCSHAU
12. Language Laboratory, Department of Languages and Haryanvi Culture, COBS&H, CCSHAU

**Outcome of laboratories upgradation and modernization**

❖ Advanced facility at one place helps students /researchers to deal with current issues pertaining to their research in specified area from both individual and global perspective. The world class facilities generated through establishment/upgradation of these laboratories provides an environment and exposure to students. It has resulted in improved quality of research and publications.

**Lecture rooms upgraded to smart class rooms**

1. Lecture room No. 9, Department of Vegetable Science, COA, Hisar
2. Lecture room No. 10, Department of Genetics & Plant Breeding, COA, Hisar
3. Lecture room No. 1, Department of Mathematics & Statistics, COBS&H, Hisar
4. Lecture room No. 10, Department of Soil Science, COA, Hisar

5. Lecture room No. 3, IC COHS, Hisar
6. Lecture room No. 4, IC COHS, Hisar
7. Lecture room No. 1, COAE&T, Hisar
8. Lecture room No. 5, COAE&T, Hisar
9. Lecture room No. 1, COA, Kaul

**Outcome of lecture rooms upgradation:**

The smart classroom facility is helpful for teachers to deliver lectures more effectively by using the different projections in their presentation. With certain special effects and graphic presentations, teachers can easily explain each and every component of the lesson. It facilitates a speedy question-and-answer session between teachers and students, which results in a superb learning atmosphere in the classroom. Also, it helped in conducting classes in online mode during COVID-19 pandemic and this ensured uninterrupted teaching. The facility has also resulted in video and animations display in classrooms for a better understanding of the relevant topics and effective teaching has resulted in qualification of large number of students in competitive examinations for higher education and employment.

- ❖ The smart technology would ensure better understanding on part of the students
- ❖ Implementation of ICT aided classroom education would enhance students/ teacher interaction & collaboration

**The Rural Entrepreneurial Awareness Development Yojana [READY]**

The READY programme is a flagship activity for the final year students of B.Sc. (Hons.) Agriculture, during seventh semester. The basic objective of the programme is building self-confidence in the agricultural graduates by developing their professional skills. During 2022-23 students of CCSHAU, Hisar adopted an Open data Kit (ODK) based Landscape Diagnositic Survey (LDS). The survey was carried out in the areas following cropping patterns *viz.* Rice- Wheat; Cotton- Wheat; Bajra- Mustard. Seven districts were selected based upon the cropping patterns. Thirty villages from each district were selected for the survey and random sample of ten farmers was used for the study. The students' collected agricultural data from the farmers about their particular crop rotations with the help of Android software named ODK COLLECT (v2022.3.6.) with the following objectives;

- To assess the adoption rate of the technologies developed by the CCSHAU, Hisar for Haryana
- To enlist the other technologies of crop production adopted by the farmers developed by other SAUs or any other institution
- To identify good agricultural practices followed by farmers for enhancing crop production and profitability
- To identify the gap regarding the adoption of technology
- To analyze the data collected during the survey and to chalk out strategies to fulfil the gaps.
- To formulate recommendations for policy makers for considering the same while formulating policies for the farmers

**Rural Agriculture Work Experience (RAWE)**

The students of agriculture undergo RAWE for strengthening capacity towards responding to the farmers' need and promote issues related to such needs in their service career. It includes:

orientation and basic training; rural experience through village placement (9 weeks); agro-industrial attachment (5 weeks); self-employment training (2 weeks); project report preparation (2 weeks); presentation and evaluation of report (1 week). Nine days orientation at Hisar and then 3 days basic training of crop production and protection at respective KVK's, ATIC, Hisar and COA, Kaul.

In Rural Experience, the students assume full responsibility to operate individually and in small groups to interact with farmers during their stay in villages for 65 days. They prepare survey schedule, identify issues and constraints in farming system and analyse factors involved in the sustainability of overall system in the village. Students learn how farmers determine and manage their resources and prepare a document, which is presented to the course faculty at the end of the course. This helps students to develop and maintain cooperation among the group and with farmers.

### Agro-Industrial Attachment

The students of agriculture and agricultural engineering gained a substantial experience through five weeks interaction with agro-based industries. The experience of commercial environment further advances their practical knowledge in communication skills and working in a team. Some students got direct interaction with prospective employer and got the job according to individual capability. The students work on specified projects and document the project output for further planning and execution of commercial activity related to the project.

### Clean and Green Environment in Campus

The University has prioritised a clean and green environment, and numerous programmes and activities in this vein have been launched. Various measures have been adopted to make the University campus eco-friendly.

- Special days including Environment Day, Earth Day, Energy Day, Sanitation Campaign, and Cleanliness Drive are observed and implemented.
- Every year on *Van Mahotsav*, the faculty and students plant a large number of trees to enhance the ecosystem. In the year 2021 about 75000 plants were planted under the massive tree plantation campaign.
- Students and residents are also advised to keep the campus and colleges free of trash and polythene.
- The chemicals are disposed-off by standard recommended disposal methods and are not added to the drainage system.
- The campus has thick vegetation cover and frequent programme for plantation of trees are organized by the college to improve ecosystem.
- The University has solar water heating system for the students' Hostels.
- The rooftops of various buildings including colleges and library are installed with solar panels for production of electricity from sunlight
- Proper water harvesting of rain water is done by storing it in a pond for later uses
- Biological waste is used for production of biogas.
- Research projects on the development of biodegradable plastics have been initiated.
- The University maintains a modern Botanical Garden with a biodiversity of 600 plants.
- Upgradation of Agri-tourism Centre is in process to aid students, farmers and entrepreneurs in their respective ventures.

- The University has set up the first of its kind in the State, Mechanized Agro-Waste Compost Unit
- M/s. Habitat Genome Improvement Primary Producers Company Ltd. is producing biofertilizers at Biofertilizers production laboratory of Department of Microbiology, CCSHAU under PPP mode since 2018. The firm is producing and supplying different type of biofertilizers to farmers and other farm agencies. The use of biofertilizers can increase crop yield in addition to the saving of chemical fertilizers.
- Annual Flower Shows were organized in the Botanical Garden and Agri-tourism Centre. The shows were open to public for participation in different competitive categories

**6.6.2.3. Library:** *Write about the University library (in one page) mentioning its space for stocking and reading, automation, library staff, library committee meetings, library management system, text books availability, subscription of research journals, periodicals, e-journals and other necessary state-of-the-art software/ programme, timing etc.*

Nehru Library, CCSHAU, Hisar

Interior view of Nehru Library, CCSHAU, Hisar

Nehru Library, the hub of academic and research activities of the University is housed in a centrally located elegant building. Library has large print collection of about 381636 volumes of books & other reading material. It has 6 Reading Halls with cozy reading environment and seating capacity of 650 readers. Night Reading Hall with modern facilities- exquisite furniture, air-conditioned environment and uninterrupted power supply, opens immediately after the closure of library and remains open up to midnight on all days of week. It has seating capacity of 120 readers.

### Automation of library

The library catalogue, journals' subscription, journals' holding, circulation operations, and many other library activities are fully computerized. Online Catalogue of the Library i.e., Web OPAC can be accessed over the campus network as well as on Internet through Library portal and AgriCat. The library is updating an important digital repository in the field of agricultural sciences i.e., Krishikosh consisting of full text Ph.D. and M.Sc. dissertations. Full text access to Krishikosh database is accessible to all the SAUs/DAUs/ICAR Institutes. The Library Automation for its entire range of activities had implemented with LibSys software way back in 2000 which has now been replaced with Koha- Open Source Software. The Library Servers are linked to the Campus Network for providing online library services all over the campus. Library catalogue has been automated and web-enabled. Computerized Periodicals' Holdings and Stock Verification, bar-coded and RFID tagged library collection, automated circulation functions and Library Membership and Smart ID Cards for Students are other automation services of library.

### Library staff

At present, library has 02 professors, 02 Assistant Librarians, and 45 supporting staff (including regular and outsourcing staff) in position.

### Library committee meetings

Library Advisory Committee – a policy making body - decides the guidelines for smooth functioning of the library. This Committee comprises of Vice-Chancellor as its Chairman and University Librarian as its Member-Secretary. All the Deans/ Directors, Registrar, Comptroller, Principal- College of Agriculture, Kaul and President of HAUTA are its ex-officio members, while one HOD, one faculty member and one PG student from each College are nominated by the Vice-Chancellor for two academic years. The 66$^{th}$ meeting of the Library Advisory Committee was held on 21.12.2021.

### Library management system

RFID Technology has been fully implemented in Library. Entire collection of library has been made bar-coded as well as RFID tagged for automated circulation activities. Library is issuing QR coded Smart ID card to all University employees and Students which is integrated with RFID application.

### Text books availability

Library has large print collection of about 381636 volumes of books & other reading material. Book Bank facility is a very popular service provided to students. Under this facility, students are entitled to borrow text books at nominal charges for whole semester. Book Exhibitions are also organized annually to acquaint users with latest information in their respective field and help them to recommend books for purchase in library.

## Subscription of research journals, periodicals, e-journals and state of art software/programme

In addition, it has 106 Indian and foreign print and Online journals on current subscription. Besides, it subscribes many e-resources i.e., indiastat.com; Britannica On-Line Academic Edition (BOLAE); DELNET resources, Scopus Citation Database, NIPA e-Resource Solution for Students for Preparation of Competitive Examinations, NIPA English Writing Improvement Tool, and NIPA Online English Language Development and Improvement Resources. Library provides access to more than 2659 e-journals of highly reputed publishers through CeRA-consortium of e-Resources on Agriculture. Millions of books, journals, technical reports, audio lectures, video lectures, proceedings, institutional repositories, question papers, datasets, reports, theses, etc. are accessible to the University users through National Digital Repository (NDLI). Library provides access to more than 2,32,000 e-books through EBSCO Database. About 2,659 e-journals published by Annual Reviews Inc.-25, Bio One-163, CSIRO-8, Elsevier-Science Direct-419, J-Gate Fulltext-406, Nature Publishing Group-02, Oxford University Press-24, Springer-120, Taylor and Francis-176, Wiley-Agriculture and Horticulture-42, Wiley- Fisheries and Aquaculture- 12, Wiley-Veterinary and Animal Science-31 were made accessible online to user community through J-Gate Plus Service subscribed by the CeRA. This online service was logged in by the users of our university more than 867 times and 3,233 full text/abstracts of research papers were viewed/downloaded, 124 ILL requests/enquiries were made. Besides, during the period of report, total 13,458 hits are reported. Online access of 14 Foreign as well as 92 Indian Journals was provided to the users of the University from the library Portal. The details of library e-resources is given under Technology Enabled Learning Resources section

## Library timing

The library remains open for 12-13 hours daily throughout the year. The working hours of library during summer are 7.00 AM to 8.00 PM and during holidays 7.00 AM to 1.30 PM. Working hours during winter are 8.30 AM to 8.00 PM and during holidays 9.00 AM to 4.00 PM.

Library automation facilities

**6.6.2.4. Centre for Excellence/Advance Studies/Centre for Advanced Faculty Training:** *Clearly mention about the name, number, year of establishment, funding agency and outcome of Centre for Excellence/Advance Studies/Centre for Advanced Faculty Training.*

CCSHAU has one Centre for Advanced Faculty Training in the Department of Entomology, College of Agriculture, and one Centre for Excellence in the Department of Foods & Nutrition, I.C. College of Home Sciences. The details of activities of CAFT and COE are given below;

**Centre for Advanced Faculty Training in the Department of Entomology, College of Agriculture, CCSHAU, Hisar**

1. **Name of Centre for Excellence/Advance Studies/Centre for Advanced Faculty Training:** ICAR's Centre for Advanced Faculty Training (CAFT) in Entomology
2. **Year of establishment:** 1994
3. **Funding agency**: ICAR
4. **Brief report on outcome of Centre for Excellence/Advance Studies/Centre for Advanced Faculty Training**:

The Department of Entomology, CCS Haryana Agricultural University, Hisar was identified by ICAR as Centre of Advanced Studies (CAS) during 1994, vide letter No.1- 2/93(CAS)/ UNDP dated 26.03.94. The Centre of Advanced Studies was re-designated as Centre of Advanced Faculty Training (CAFT) by ICAR during 2009-10 vide letter No.1(6)/2009 CAFT/HRD dated 01.01.2010. So far, the Centre has organized 35 trainings covering various aspects of entomology *viz*., apiculture, pollinators, insect ecology, insecticide toxicology, host plant resistance, non-insect pests, stored grain pests, pest and pesticide management, biological control, integrated pest management, pest population dynamics and pest monitoring, application of techniques in entomological research, pest damage diagnosis and loss assessment, etc. Around 623 scientists'/faculty members from different SAU's have been imparted training regarding various aspects of Agricultural Entomology.

5. **Details of trainings conducted during the period under report**:

| S. No. | Year | Name of training | Date/Duration of training | No. of participants | Name of states to which participants belong |
|---|---|---|---|---|---|
| 1 | 2018-19 | Recent trends in pests status, pesticide usage and pest management Strategies in Agriculture" | October 5-25, 2018 | 17 | Punjab, Gujarat, Jharkhand, Assam, Maharashtra, Karnataka, Andhra Pradesh, Tamil Nadu, Bihar, Rajasthan, Haryana |
| 2 | 2019-20 | Advances in Biology, Conservation, Rearing and Management of *Apis* and non-*Apis* bees | October 4-24, 2019. | 24 | Assam, Bihar, Chhattisgarh, Gujarat, Karnataka, Madhya Pradesh, Maharashtra, Orissa, Punjab, Tamil Nadu, Uttarakhand |
| 3 | 2022-23 | "Current Scenario of Pesticide Toxicology and its Impact on Future Agriculture" | November 3-23, 2022 | 25 | Andhra Pradesh, Assam, Bihar, Haryana, Karnataka, Punjab, Rajasthan, Uttar Pradesh, Telangana |

Address by chief guest at CAFT, November 3, 2022

Field visit of CAFT Trainees

Practical on pesticide calibration in CAFT training 2022

## Centre of Excellence for Processing and Value Addition of Pearl Millet for Nutritional Security in the Department of Foods & Nutrition, I.C. College of Home Sciences, CCSHAU, Hisar.

1. **Name of Centre for Excellence/Advance Studies/Centre for Advanced Faculty Training**: Centre of Excellence (COE) on Processing and Value Addition of Pearl millet for Nutritional Security (C (g) FN-15-OA)
2. **Year of establishment:** 2011
3. **Funding agency:** Department of Agriculture and Farmers Welfare, Ministry of Agriculture and Farmers Welfare, Government of India.
4. **Brief report on outcome of Centre for Excellence**

The Centre of Excellence was established with the primary and secondary processing facilities. Scientists of COE are working for development of value-added products with pearl millet, promotion of the consumption of pearl millet at household level and capacity building of farmers, rural masses, Scientists, consumers, SHGs/ ICDS functionaries, entrepreneurs, etc., thus contributing towards nutritional security and economic development of farmers. The Centre is equipped with facilities required for capacity building of masses, organization of awareness programmes and training of entrepreneurs which is the need of current era. This Centre is working effectively for popularization and increased utilization of pearl millet-based value-added products. Continuous efforts have been made for popularization of developed value added multi grain products including extensive efforts to establish links between producer, entrepreneurs and consumers during international year of millet 2023.

### Laboratory/Equipment/ Machinery:

Hammer Mill, Sieve Separator, Pearling Machine, Dough Mixer, Baking Oven, Ready to Eat Extruder, Masala Mixture, Noodle Machine, Pasta Machine, Vacuum Packaging Machine, Sealing Machine, Flour Grinder, Moisture Analyzer, Spectrophotometer, Blancher, Parboiling Unit, Wire cut biscuit making machine, cookie drop machine, puff gun, Semolina Maker Machine and Cereal flake production line.

### Technology generated for product development and standardization:

1. Bakery and confectionery products (cakes, biscuits, breads, buns, *kulcha*), traditional products (*ladoo, sev, matar, shakarpara, suhali, khichri, churma, mathri, bakli, idli, dhokla*), extruded products (noodles, vermicelli and pasta) and ready to eat extruded products (crispies, puffs)
2. Convenience mixes (*halwa mix, ladoo mix, dhokla mix, idli mix, upma mix, kheer mix, khichri mix*) and popped mixtures
3. Sugar free and low gluten biscuits
4. Shelf stable flour and grits from pearl millet
5. Different processing treatments like blanching, malting and roasting have been standardized

**Awareness Campaigns/Exhibitions:**

- An exhibition was arranged at National Level Workshop on Millets held at Yeshwantrao Chavan Academy of Development of Administration, Pune on September 28, 2018, organized by Indian Institute of Millet Research, Hyderabad and Ministry of Agriculture & Farmers Welfare, GOI, New Delhi.

- A Millet Food Exhibition stall was put up during "National Millets Stakeholders Campaign" as a part of Celebrations of National Year of Millets organized by ICAR- Indian Institute of Millets Research (IIMR), Hyderabad on June 3, 2019.
- Exhibited Technologies of COE Pearl millet during National Workshop on 'Production, Processing & Value Addition of Nutri-Cereals (Millets) in India' on September 16, 2019, at Department of Genetics & Plant Breeding, Bajra Section, CCSHAU, Hisar.
- Exhibited stall in Geeta Jayanti Mahotsava organized at Govt. PG College ground, Hisar on December 12-14, 2021.
- Exhibited stall of millet products at ABIC during Governor's visit to CCSHAU, Hisar on October 5, 2021.
- Displayed millet products in Seminar & exhibition "*Aatmnirbhar Haryana Aur Rojgar Srijan*" on September 6, 2021 at GJUS&T, Hisar.
- Exhibited stall at State Level Livestock Show at Bhiwani on February 25-27, 2022.
- Exhibited stall during Urban Farming Expo and Flower Fest held on December 19-20, 2022 at CCSHAU, Hisar

Urban Farming Expo and Flower Fest at CCSHAU, Hisar

- Stall Exhibition of various pearl millet value added technologies at *Krishi Darshan* at Northern Region Farm Machinery Training and Testing Institute Sirsa Road, Hisar held on February 18-20, 2023.
- Stall Exhibition for technical know-how on various aspects of pearl millet value added technologies and nutrition intervention to farmers during Haryana Krishi Vikas Mela held on March 10-12, 2023.

Exhibition during Haryana Krishi Vikas Mela held on March 10-12, 2023

## Literature/Publications

- Recipe booklets, leaflets, handouts, posters, compendium, etc. have been prepared and used for publicity for utilization of pearl millet and its value-added products.
- Research papers
- Articles in magazines

**Details of trainings conducted by Scientists for the participants of Haryana during the period under report**:

| S. No. | Year | Name of training | Date/Duration of training | No. of participants |
|---|---|---|---|---|
| 1 | 2020-21 | Popularisation of biofortified pearl millet and value-added products | 16.12.2020<br>17.12.2020<br>19.01.2021<br>22.01.2021<br>22.02.2021 | 30<br>30<br>25-30<br>25-30<br>20 |

**6.6.2.5. Incubation Centre/Start up units/ Venture capital:** *Provide the list of Incubation Centre(s) start up units/ venture capital set up by the University for the promotion of technologies generated at the University.*

CCS Haryana Agricultural University, Haryana, India has taken initiative to set up "Agri Business Incubation Centre (ABIC)" for supporting startups in Agri and Allied Sectors, supported by National Bank for Agriculture and Rural Development (NABARD) and *Rashtriya Krishi Vikas Yojana*(RKVY, MOA&FW).

ABIC, CCSHAU promotes Agripreneurial Eco-system and nurtures a system of agri-business incubation by providing incubation support and handholding innovative and highly potential agri-business ideas with the concept of growth through encouraging innovation, upgrading technology, and developing skills. ABIC provides the budding agripreneurs of the nation the perfect opportunity to bring their ideas from 'Mind to Market'. ABIC helps them to develop networking with like-minded professionals from related businesses and sectors to gain and learn about best entrepreneurship practice approaches. A well-dedicated ABIC team is there to guide and mentor the young agripreneurs. No stone is left unturned by the young and energetic team and all mentoring and guidance related to idea nurturing, business planning, investment planning, marketing, packaging, linkages, funding guidance, etc.; is provided under one roof.

The prominent area in which the businesses have been started or scaled up includes Liquid Biofertilizers, Food processing, Agri-waste management, Agriculture implements and Farm Machinery, Horticulture, Aquaculture, Organic Farming, Supply Chain in Agriculture, Nursery Raising, Animal Feed, Apiculture, Medicinal & Health Products, and other agriculture-allied sectors using ABIC's support and guidance.

Since inception, ABIC has made its mark in the country. It has successfully trained more than 140 youngsters and guided extensively 84 to either start-up or scale up their Agri- businesses. ABIC has organized & conducted more than 50 Networking Events & Sensitization Workshops, 17 webinars, etc. and has been also able to generate more than 3000 direct and indirect employments

through its incubatees and a turnover of more than 30 Crores rupees. Recently it has been judged as Best Agri Business Incubation Centre by MOFPI, GOI as the No.1 Agri Business Incubation Centre for Excellence in Multiple Incubation Centers by Sh. Prahalad Singh Patel, Minister, MoFPI, GOI.

List of Start-ups units set up by the University for the promotion of technologies generated at theUniversity during the period under report.

1. **Mr. Satish Kumar**

   **FPO:** Habitat Genome Primary Producer Company Limited

   **Specific Activity:** Bio Fertilizer

   **Domain Area:** Agriculture and Biological Sciences

2. **Mr. Jagan Nath Chopra**

   **Partnership Firm:** CCS Foods

   **Specific Activity:** Bakery & Confectionary Products

   **Domain Area:** Food Processing

3. **Mr. Satya Pal**

   **Firm:** Arya Agro Implements

   **Specific Activity:** Bakery & Confectionary Products

   **Domain Area:** Food Processing

The ideas of the following have been cultivated and they have actively scaled up their businesses.

| S. No. | Name | Sector |
|---|---|---|
| 1 | Kunwar Ashish Pratap Singh | Waste management |
| 2 | Satish Kumar | Biofertilizers production |
| 3 | Naveen Kumar | Multi-Layer farming and supply chain |
| 4 | Shushil Kumar | Agri-engineering |
| 5 | Dimple Kathuria | Post-Harvest, Food technology & value addition |
| 6 | Anand Kumar | Biofertilizers production |
| 7 | Nikhil | Mushroom farming |
| 8 | Ravin Sharma | Functional foods & nutraceuticals |
| 9 | Komal Ahuja | Aquaculture |
| 10 | Bharat Bhushan | Processing Value addition in organic products of his farm |
| 11 | Gaurav Miglani | Jute products |
| 12 | Seema Soni | Home Remedies based products having medicinal properties |
| 13 | Deepak Singla | Neem based products |
| 14 | Arvind Verma | One stop shop for farming |
| 15 | Anuj Hooda | Supply chain & agriculture logistics |
| 16 | Jagan Nath Chopra | Bakery products |
| 17 | Ompal Singh | Agriculture allied sectors |
| 18 | Sunil Kumar | Processing and value addition |

| | | |
|---|---|---|
| 19 | Deepika Ahlawat | Food processing & value addition |
| 20 | Jagdeep Singh | Mushroom production |
| 21 | Shobit Aggarwal | Artificial intelligence |
| 22 | Subhash Chand Kamboj | Apiculture |
| 23 | Virender Kumar | Nano-fertilizer |
| 24 | Suraj Choudhary | Agro value addition |
| 25 | Mohinder Singh | Value addition |
| 26 | Naresh Saini | Waste to wealth |
| 27 | Vivek Khurana | Agri-Tourism |
| 28 | Prince | Farm mechanization |
| 29 | Ankit Singh Ahlawat | Post-Harvest, Food Technology & Value addition |
| 30 | Vipan Sarin | Supply chain & Agriculture logistics |
| 31 | Vivek Kumar | Farm mechanization |
| 32 | Vishal Bhandari | Precision Agriculture/Agri Fintech/Blockchain |
| 33 | Naresh Kumar | Waste to Wealth & Green Energy/Ag. Extn. & Ed. |
| 34 | Jaikaran | Waste to wealth & Green energy/Ag. Extn. & Ed. |
| 35 | Nitin Lalit | Precision agriculture |
| 36 | Ankit Ahlawat | Value addition |
| 37 | Rajender Singh | Farm mechanization |
| 38 | Mridulla Bhardwaj | Agro waste to wealth |
| 39 | Bhoop Singh | Agro waste to wealth |
| 40 | Mohit Dangi | Post-Harvest supply chain & agriculture logistics |
| 41 | Rohit Kansay | IoT & Supply chain management |
| 42 | Pradeep Singh | Supply chain management |
| 43 | Puneet Tripathi | Information and communication technology |
| 44 | Parveen Kumar Sindhu | Precision farming |
| 45 | Bhupender Singh | Farm mechanization |
| 46 | Saurabh Gautam | Agriculture extension education |
| 47 | Satyavir Singh Ahlawat | Food processing & value addition |
| 48 | Naresh Kumar | Animal husbandry |
| 49 | Puneet Dutta | Food processing |
| 50 | Sayed Quaiser Alam | Animal husbandry for dairy animals |
| 51 | Krishan Lal Nain | Organic farming |

## Public Private Partnership

- **Compost Spawn and Mushroom Production**

For growth and development in agriculture, it is mandatory that agricultural technology reaches maximum number of farmers. CCSHAU has adopted public-private partnership (PPP) model in collaboration with private sector to ensure that its technology is disseminated far and wide. The University has set up a Compost Spawn and Mushroom Production Centre on its Hisar campus under

PPP mode with M/s Bajwa Mushroom Farm, Kurukshetra. The Centre was inaugurated on January 24, 2018 and partnership is continuing with renewal of agreement with Bajwa Mushroom Farm, Kurukshetra till 2023. Under the MoU, apart from mushroom spawn production, mushroom cultivation, preparation of mushroom compost, pasteurized spawn compost and casing mixture, Bajwa Mushroom Farm has also developed skills of entrepreneurs and farmers in mushroom production through vocational trainings.

**Biofertilizer production**

The University has also signed a MoU under Public Private Partnership mode with M/s Habitat Genome Improvement Primary Producers Company Pvt. Ltd., Village-Ramayan, Hisar for the Usage of Biofertilizers production laboratory of Department of Microbiology, CCSHAU, Hisar on 04.07.2018 and partnership is continuing with renewal of agreement with the firm till 2023.

**Commercialization of Technologies through Non-Exclusive License agreements**

After the establishment of IPR Cell & BPD Unit, the University has signed 579 non exclusive license agreements with different firms/stakeholders for commercialization of technologies. During the period of report, the University has signed 56 non exclusive license agreements with different firms for commercialization of 11 no. of technologies (List given under section **6.6.2.8**).

**Protection of Intellectual Property Rights**

The IPR Cell & BPD Unit also organizes University-Industry Interaction workshops. The Cell also engages in continuous interface with various government and private agencies through exhibitions, demonstrations and brainstorming sessions. This cell has organized awareness programs on IP management for faculty members and students of the university and also for all the SAUs and ICAR Institutes in the country. The University has so far submitted 63 patent/protection applications for its intellectual properties, 39 IPRs have been protected/granted (List given under section **6.6.3**). During the period of report, university has filed 47 IPR applications and has been awarded with IP rights for 24 innovations.

**6.6.2.6. Technology Enabled Learning Resources:** *Technology allows for personalizing learning, building capacity of teachers and driving decisions based on real-time data. What kind of infrastructure, digital content, teacher training and data systems have been created in this regard. What are monitoring and evaluation frameworks to maintain and sustain these facilities?*

Technology-enabled learning (TEL) has the power to transform both teaching and learning in classroom-based, online, and blended education by introducing the digital tools and resources that the 21st century learners will need in order to explore, understand, and express themselves. These technologies, including computers, internet, social media, mobile and tablet devices and other open educational resources, can bring fundamental structural changes.

**Infrastructure**

- Computer for every teacher with internet access is provided at CCSHAU. The faculty of the University is trained with regards to computer applications, MS Office, e-learning, multimedia, etc.
- Faculty makes use of these trainings while preparing lecture presentation for class room teaching, imparting lectures in trainings, seminars etc.
- Wi-Fi facility is provided to all the teachers, students and staff in the colleges. All Departments and offices are equipped with computers and accessories.

- All the departments have upgraded UG and PG labs with advanced instruments/ equipment's and seminar rooms with LCD/LED projector, interactive panel having internet facility with anti-virus etc.
- All the labs which are being used by UG students of professional electives, and M.Sc. & Ph.D. students have computers and internet access to develop presentations for assignments and for delivering seminars

**Data systems**

- *e-mausam* website is developed by the Dept. of Agricultural Meteorology to provide information on weather variables and advisories to farmers and other stakeholders. More than 6 lakhs farmers of state availed free *e-mausam* SMS service of Haryana.
- The University issues district-wise weather forecast (Weather Advisories) for Haryana by Email on every Tuesday and Friday in Hindi and English on the basis of weather forecast and satellite imagery/Charts. These bulletins are disseminated to users through ATIC, KVKs of CCSHAU, Dept. of Agriculture & Farmer's Welfare GoH, IFFCO SMS, *mkisan* SMS service, University website, electronic, print media and social media. Farmers always remain in constant contact & regular alert messaging weather forecasting is being sent to them.
- The faculty members of College of Agriculture are involved in constant monitoring, survey & surveillance of crop diseases and also suggesting warning as well as alternative remedial measures.
- For statistical data analysis work, Online Statistical Analysis Software OPSTAT has been developed and is upgraded with new and relevant modules every year.
- University has a Facebook page, Twitter handle and YouTube channel so that important activities/news and video can be shared on social networking sites.

**Library e-resources**

- Sufficient digital resources have been subscribed by the University library, access of which has also been provided to individual scientists/teachers on their tables. Various automation services provided in Nehru Library is covered under section **6.6.2.3.** Nehru Library subscribes to different types of e-resources and manages access of e-resources subscribed by the library as well as provided by the CeRA (Consortium of e-Resources in Agriculture). IP authenticated campus-wide access of these important resources to main campus users as well as users at RRS (Uchani), COA (Kaul), RRS (Sirsa) and COA (Bawal) campuses is being provided. Library has provided access to following e-resources:

**Online Computer Library Centre (OCLC)**

- With the implementation of e-Granth Project, Nehru Library, CCSHAU, Hisar has become member of OCLC which is the largest library network in the world with membership of 26441 libraries from more than 100 countries. OCLC and its member libraries cooperatively produce and maintain WorldCat (more than 500 million records) the largest online public access catalog (OPAC) in the world. Nehru Library, CCSHAU, Hisar is one of Indian libraries who are members of this big network and maintaining its catalogue on the WorldCat. Nehru Library has been updated on the WorldCat.

***Krishikosh***

- *Krishikosh* is e-repository of all collection related to agricultural & allied sciences like old & rare books, theses, old journals, research articles, conference proceedings, annual reports,

monographs, case studies, newsletters etc. It was created under a NAIP project named "e-granth" in 2009. All agricultural universities were directed by ICAR to update the repository by updating the respective community (University) with its collection in digitized format. More than 7850 records of CCSHAU are accessible via *Krishikosh* during the period under report.

**Indiastat.com**

- Library subscribed a statistical website "indiastat.com" which is a cluster of 56 sites including India specific, region specific & state specific sites. It provides socioeconomic statistical data about India & its states, region & sector on more than 31 Variables. The user community of the University viewed/downloaded 4,895 tables from this e-tool.

**Britannica Online Academic Edition (BOLAE)**

- It is world known electronic tool for promoting Knowledge and learning. It provides timely relevant & trust worthy information. It is accessible to the library users during the period under report. It provides access to e-Dictionary, Thesaurus, Biographies of world great personalities, e-books and primary sources, full length video priority in depth coverage of media collection on every subject quotation of great personalities etc. This important online reference tool was used by the users for their academic purposes in 1,795 sessions and 4,84,875 hits have been recorded on the site.

**e-books**

- Library has purchased 2319 e-books (perpetual access) and annual subscription of EBSCO e-Books (More than 23,000 e-books) Academic Collection has also been done. These e-books are accessible in the University as well as in a few outstations and downloadable. The access link has been provided on library portal.

**Scopus Database**

- Library subscribed a largest abstracting and citation database of peer-reviewed literature: scientific journals, books and conference proceedings. It delivers a comprehensive overview of the world's research output in the fields of science, technology, medicine, social sciences, and arts and humanities. A total 57,568 searches and records have investigated by the users in recent past.

**DELNET Database**

- Library has subscribed DELNET resources' subscription which provides millions of bibliographic records of union catalogue of 7,561 libraries of India and overseas. Thousands of books, journals and theses are accessible through DELNET to the University users. DELNET contains 3,52,65,440 bibliographic records of books, 20,235 records for periodicals, 11,24,250 records of periodical articles, 61,750 records of CD-ROMs, 6,000 records of video recordings, 1,025 records of sound recordings, and 1,30,753 records of theses and dissertations.

**Indian Journals.com**

- IndianJournals.com is a vast collection of interdisciplinary Indian journals and research publications, which provides a pan-global web exposure to journals, a chance to preserve our research, online, an international door to knowledge-sharing, and a mode to generate interest in the concerned field. Under the period of report, a total 2,371 full text articles have been accessed or downloaded by the users from various journals hosted on the platform.

### National Digital Library (NDL) Resources

- The University Library provides access to millions of books, journals, technical reports, audio lectures, video lectures, proceedings, institutional repositories, question papers, datasets, reports, theses, etc. through National Digital Repository to the University users.

### NIPA e-Resource Solution for Students for Preparation of Competitive Examinations

- Library provides access to more than 4,30,000 Question Banks through New India Publishing Agency (NIPA) e-resource. This resource is fully searchable online e-resource, with free remote access of questions (MCQs, fill in the Blanks, Match the followings) and useful for preparation of following examinations viz., ICAR-JRF, ICAR-SRF, ICAR-NET, ICAR-ARS (objective only), ICAR-STO, IBPS-Agriculture Field Officer (Preliminaries and Mains), etc.

### NIPA English Writing Improvement Tool

- The tool is focused on developing and polishing English language writing among students. It helps the user to have a complete word by word analysis with types of errors in English language in a written document. The error analysis covers grammar, punctuation, pronunciation, sentence formation, and ease of reading. Facility for Wordy Phrases, Choice of Words, Rephrasing Sentences, Formal and Informal Writing is also provided in this resource.

### NIPA Online English Language Development and Improvement Resources

- This e-resource provides video-based learning to make the students proficient in English language by eminent professors/professionals which can be viewed unlimited number of times. It covers reading, writing, speaking, pronunciation, listening and communications. Inbuilt dictionary with support for 13 Indian languages including Hindi, Gujarati, Bangla, Kannada, Telugu, Tamil, Malayalam, Konkani etc. is provided in this resource. It also provides assessment and analysis test in real time conditions, which can be reviewed by teachers from university.

### Digital content

- College of Home Science has developed multi-media training and course modules in the form of Interactive CDs on Gender and Development, Energy conservation, Bee-keeping etc. Members of the faculty have also been trained in graphic designing and audio-video editing.
- The faculty members of the University are regularly deputed for the training on basic as well as advanced aspects of their subjects/fields in CCSHAU, Hisar and other institutions.
- A large number of recorded lectures by university faculty members on various topics have been uploaded on YouTube channel of the University for students

### Language laboratory: Department of Languages and Haryanvi Culture

- A University level Language Lab has been established in the Department of Languages and Haryanvi Culture which caters the students of all constituent colleges viz. COA, COBS&H, COAE&T, COB, COFS and IC COHS. This Lab is equipped with state-of-the-art equipment and language software which will help the students to learn the finer details of English language, grammar, Phonetics and will make the students fluent and confident in spoken English. Language Labs are also functional in the College of Agriculture at Kaul and Bawal.

## Teacher Training

For institutionalized in-service training to the faculty staff and agricultural professionals CCSHAU established the Academy of Agricultural Research and Education Management in April, 1994 under Agricultural Human Resource Development Project with financial support from World Bank. The mandate of the Academy is to provide specialized in-service institutionalized training to the academicians, scientists, research and extension personnel working in various State Agricultural Universities, ICAR institutes and other universities. The Academy is doing a pioneering job in its chosen field of imparting the much-needed in-service training to the university teachers and scientists of not only this country but of foreign countries too. The Academy upgrades and strengthens the knowledge of the scientists and teachers and familiarizes them with latest development in their respective fields of specialization through the intensive training capsules that it devises and imparts. The Academy also organizes group discussions, seminars, visits, brainstorming sessions and workshops on different aspects of agricultural education.

The Academy has been organizing numerous short-term courses, workshops, and discussions for the technical and administrative staff of our university to update their knowledge and abilities, in addition to the three- or four-week refresher courses for the teaching community. Workshops were conducted on internet, e-mail, store purchasing practices, communication skills development, writing abilities, and important fields of computer application.

During the period under report, the Academy organized 50 activities. Out of these, 27 refresher courses/training programmes were conducted by the Academy in collaboration with the other departments or independently for the scientists, teachers, extension specialists and other faculty working in State Agricultural Universities, ICAR Institutes and other State Universities. Overall, 21 training programmes were conducted for technical, para-professionals and administrative staff of CCSHAU. One Yoga workshop for faculty and non-teaching staff and one faculty development programme was organized for campus school teachers.

During the period under report, 26 faculty members have attended international training of three months under IDP-NAHEP in various foreign universities. A list of such faculty members is given below;

| Sr. No. | Name of Faculty Member | Dept. | Area of priority / training | Place | Host Institute | Mentor |
|---|---|---|---|---|---|---|
| 1. | Dr. Ajay Pal | Biochemistry | Nano- technology | Australia | Department of Jobs, Horsham, Victoria, Australia | Dr Surya Kant, Senior Research Scientist |
| 2. | Dr. Sarita Devi | Botany & Plant Physiology | International pedagogy | Australia | -do- | -do |
| 3. | Dr. Mukesh Kumar | Genetics & Plant Breeding | Molecular Breeding | Austria | University of Natural Resources and Life Sciences, Vienna, Austria | Dr. Harmann Buerstrmyr, Chair of Plant Breeding |
| 4. | Dr. Devvart | Genetics & Plant Breeding | International pedagogy | U.K. | Aberystwyth University, UK | Prof. Alison Kingstn Smith |
| 5. | Dr. Jayanti Tokas | Biochemistry | Do | U.K. | -do- | Prof. Rattan Yadav, Reader |
| 6. | Dr. Anju Kumari | CFST | Food Processing | New Zealand | University of Auckland, New Zealand | Dr. Mohmmad Frid |

| | | | | | | |
|---|---|---|---|---|---|---|
| 7. | Dr. Sangeeta | F&N | Food processing | USA | UIUC, Illinois, USA | Dr Juan Andrae |
| 8. | Dr. Yadvika | RBEE | International pedagogy | USA | -do- | Dr. Vijay Singh |
| 9. | Dr. VK Singh | Agri. Engg. | Food Processing | USA | IBRL, UIUC, Illinois, USA | Prof. Alex Winter Nelson |
| 10. | Dr. Dalvinder Singh | Plant Pathology | International Pedology | Australia | Agriculture Victoria Research, Victoria Grain Innovation Park | Dr. Surya Kant |
| 11. | Dr. Kamla Malik | Microbiology | Bio-energy & Bio fuels | USA | Texas A & M University, College Station Texas, USA | Prof. Sergio Capareda |
| 12. | Dr. Nisha Kumari | Genetics & Plant Breeding | International Pedology | USA | -do- | Prof. Sergio Capareda |
| 13. | Dr. Sushil | Entomology | Bio-energy & Bio fuels | USA | Texas A & M University, College Station Texas, USA | Prof. Sergio Capareda |
| 14. | Dr. Seema Sangwan | Microbiology | International Pedagogy | Denmark | Department of Plant and Environmental Sciences, University of Copenhagen, | Dr. Bodil Jorgensen |
| 15. | Dr. Sandeep Dhundhara | Basic engineering | Agrirobotics & Automation agriculture | United Kingdom | School of Engineering and the Built Environment, Birmingham City University | Dr. Florimond Gueniat |
| 16. | Dr. Varsha Rani | Foods & Nutrition | International Pedagogy | The Netherlands | Wageningen University and Research Center (WUR), The Netherlands | Dr. Inge Brouwer |
| 17. | Dr. Sandeep Arya | Forestry | International Pedagogy | USA | Texas A&M University, College Station, Texas, USA | Dr. Florimond Gueniat |
| 18. | Dr. Karmal Singh | Agronomy | INM | USA | -do- | Dr. Florimond Gueniat |
| 19. | Dr. Dalip Kumar Bishnoi | Agri. Economics | International Pedagogy | USA | -do | Dr. Florimond Gueniat |
| 20. | Dr. Shweta | Agronomy | International Pedagogy | USA | -do- | Dr. Florimond Gueniat |
| 21. | Dr. Vinod Kumar | Pathology | International Pedagogy | USA | -do- | Dr. Florimond Gueniat |
| 22. | Dr. Prakash Banakar | Nematology | International Pedagogy | USA | University of Clemson, USA | Dr. Churamani Khanal |
| 23. | Dr. Shiwani Mandhania | Biochemistry | International Pedagogy | USA | University of Clemson, USA | Dr. Nishanth Tharayil |
| 24. | Dr. Vinod Goyal | Botany & Physiology | International Pedagogy | USA | Institute of Genomics for Crop Abiotic Stress Tolerance, USA | Dr. Gunwant Patil |
| 25. | Dr. Rajesh Kumar | Genetics & Plant Breeding | Molecular Breeding | Australia | Molecular Plant Breeding, AVR's Grains Innovation Park (GIP), Horsham, Victoria, Australia | Dr. Surya Kant |

| | | | | | | |
|---|---|---|---|---|---|---|
| 26. | Dr. Rahul | Chemistry | Nanotechnology | Singapore | Department of Biological Sciences, National University of Singapore | Dr. Prakash Kumar |

**Monitoring and evaluation frameworks**

- The Advisory Committee, HOD, and Dean, PGS all approve the PG students' work schedules, synopses, and the thesis before they are officially authorized.
- PG students present synopsis and thesis seminars in their departments to receive feedback from the departmental professors.
- CCTV cameras have been installed in every lecture hall for effective monitoring.
- The evaluation of teachers using student feedback forms.
- The self-appraisal report of teachers is analyzed by HOD, Dean, DR, DEE, DPGS, and VC.

**6.6.2.7. Integrated Learning Systems (Experiential Learning):** *How many these units have been sanctioned by the ICAR? Mention the functional condition of each unit. Provide data regarding* year wise profit sharing with the students from each unit.

A total of eleven Experiential Learning Programmes (ELP) are functional in the University, out of which seven are ICAR funded and four are functioning with university funds. The ELP seek to advance professional abilities and knowledge through practical application, foster self-assurance and the capacity for project-based work, and develop entrepreneurship and enterprise management skills among the students. The ELP have given students a very good foundation with an approach of "Learning by Doing" and "Seeing by Believing". The ELPs functioning in the various colleges of the University has been successful in developing skilled, human resource in the area of agriculture and other related disciplines. Separate bank account for each EL unit has been created and the seed money of Rs. 50,000/- has been deposited in Bank of Baroda, CCSHAU in the form of revolving fund.

In these programmes, students were also trained for calculating cost of production, GST and profit sharing along with maintenance of records. The entire scheme of experiential learning follows the established system of "Earn While You Learn". The objective of the ELPs is to promote professional skills, entrepreneurship, knowledge and marketing skills through meaningful hands-on experience and working in project mode. The focus of the ELPs is on developing enterprise management capabilities amongst students including skills for project development and execution, accountancy, national/international marketing, etc. This end-to-end approach in product development succeeds in instilling confidence among students that they will be able to build their own business ventures after completion of their degree programmes.

**1. Bakery & Confectionary Products**

The ELP on Bakery & Confectionary Products was started in Department of Foods and Nutrition to give Hands on Training in Bakery and Confectionery to the students for self-employment and entrepreneurship. This is also part of syllabus of final year students of B.Sc. (Hons) Community Science under Student Ready Programme. Different type of bakery and confectionery products like cakes, melting moments, biscuits/cookies, nan khatai, pav bhaji, buns, pizza, dough nuts, kulche, garlic bread, chocolate balls and muffins are being prepared in bakery unit on order which are available and sold out at HAU Mart i.e. outlet for the university ELP products as well as Bakery Lab situated in IC COHS. The ELP of Food and Nutrition has adequate facilities for Hands on Training of Bakery and Confectionery with mechanized equipment's like cookie dropping machine, wire cut

biscuit machine, electric ovens, electric dough keaders, beaters etc for production at bigger scale in less time. This ELP is functional and running successfully in terms of revenue generation and profit is being shared among the students (50% of the total profit) working in it. The products are prepared and sold at fixed rates approved by a committee making the unit economically viable. In this ELP the students are taught plan, production and sale of bakery and confectionery products**:**

- Selection and purchase of material used in bakery & confectionary for the preparation of value-added products
- Purchase of ingredients
- Standardization of portion and costing as well as standardization of new products as per demand of consumers

**Plan for the production**

- Preparation of bakery and confectionary items
- Packaging and storage of developed products
- Product pricing-physical inputs, man-hours, depreciation etc.
- Quality assessment

### 2. Product Design: Digital Embroidered Home Furnishings

This ELP is functional in the Department of Textile and Apparel Designing, IC COHS. Students gain experience in developing creative designs for digital embroidery and develop different embroidered home furnishing articles using digital embroidery machines. They acquire skills in operating advanced equipment's and develop merchandising skills and dealing with customers.

Under Experiential Learning various digital embroidered home furnishing products like Single and Double bed sheets with pillow covers, Cushion covers, Top sheets, Quilt covers, Curtains, Table mats, Table runners, Coaster sets, Sofa covers, Vegetable shopping bags, Baby sheets, Face mask, Apron, Cotton picking bags, Tote bag etc. have been prepared by the students and the prepared products were marketed by the students by putting up exhibitions. The prepared products are sold at various sale points like HAU Mart, exhibitions in different seminars, conferences, Kisan Mela, etc. and profit earned is shared with the students as per ICAR guidelines.

### 3. Studio Media Lab for Designing and production of information material

This ELP is functioning in the Department of Extension Education & Communication Management, IC College of Home Sciences and is working in Graphic and multimedia production, Photography and videography, Audio and video editing and management of information system. The unit is in working mode and exhibits and sells its products at various exhibitions/melas etc. To make it more functional efforts will be made to explore marketing strategy through KVKs, all Colleges, departments, Educational Institutes, PG Students and ATIC.

### 4. Processing of fruits, vegetables and some other food items

Experiential Learning Programme on Processing of fruits, vegetables and some other food items is operating in Centre of Food Science & Technology, COBS&H. The ELP imparts proactive training, to students in agriculture and allied enterprises. With an aim to develop entrepreneurial skills in students. The ELP is conducted during the last semester of final year students of Undergraduate Programme i.e., B.Sc. (Hons.) Agriculture.

The students were imparted practical demonstrations for development of following value-added food products from fruits, vegetables and grain crops:

- Ready-to-serve (RTS) drink from pineapple, guava, mango, ber, papaya and bael;
- Squashes from mango, pineapple, orange, bael, guava and papaya;
- Syrups from pomegranate, orange, raw mango-mint, rose and almond;
- Preserve/murrabba and candy from aonla, bael, ber, karonda and carrot;
- Sauces/Ketchup, chutneys, pickles, confectioneries and dehydrated products
- Biscuits, cakes, muffins and instant mixes

### 5. Processing of Fruits and Vegetables for value addition

This ELP is functioning at COA, Kaul. The students prepare various products such as pickles, jams, chutneys, sauce, Amla candies etc. The fruits and vegetables used are Guava, Tomato, Mango, Aonla, Lemon, Carrot, Potato, Apple, Pear, Plum, Radish, Orange and Chili. The products have been exhibited at various events of the University and have received great appreciation.

### 6. Hi-Tech Agriculture

The ELP on "Hi-Tech Agriculture" is run by Department of Horticulture, College of Agriculture, CCSHAU Hisar. This ELP is funded by ICAR and started in the year 2006. Major facilities created under ELP includes Green-house, fertigation unit and irrigation, equipment's. Depending on the requirement and availability, space at Agri-Tourism Centre is also used by the students, after taking consent from the Centre In-charge.

***Activities Undertaken***

- Nursery of seasonal flowers and different vegetables in plug tray
- Potted plants of chrysanthemum, strawberry, other flowering annuals, & exotic vegetables
- Cuttings of ornamental plants chrysanthemum, bougainvillea, philodendron etc.
- Protected cultivation of fruits, flower and vegetables

***Expertise Gained***

- Techniques of Ornamental Plants Propagation
- Seedling raising in Soilless media in working and operation of green house

### 7. Production of medicinal & Aromatic plants through Tissue Culture & Production of Biofertilizers:

The above Experiential Learning Programme is functioning under the Department of Microbiology, COBS&H. The biofertilizers developed by students are exhibited and sale counters are put up by students at various Krishi Melas and other events organized by the University/ State or central Agriculture department at various places. The unit chiefly works for promotional professional skills, entrepreneurship, knowledge and marketing skills amongst students through meaningful hands-on-experience and working in biofertilizers production and compost making. Skills of the participating students are upgraded for quality control assurance of biofertilizers production and compost making. Linkage between agriculture departments and via forest department Kisan Mela, Kisan Seva Kendra/ Agricultural Technology Information Centre (ATIC) and Field Day have been developed and executed.

### 8. Centre for Agro processing and Engineering Services (CAPES)

This ELP is functional under COAE&T. The basic idea in this ELP is to supply and install customized structures for home gardening and indoor spaces, to supply processed post-harvest produce and to provide custom hiring services of farm machinery.

### 9. ELP on Bio-fertilizers (Bio manure) Production and Compost Making

The unit promotes professional skills, entrepreneurship, knowledge and marketing skills amongst students through working in biofertilizers production and compost making. Skills of students have been upgraded for quality control assurance of biofertilizers production and compost making. Linkages between agriculture departments through Kisan Mela, Kisan Seva Kendra/ Agricultural Technology Information Centre (ATIC) and Field Day have been developed and executed.

### 10. Peri-urban Agriculture

For this ELP, one-acre area at Vegetable Research Farm is allotted to the students and major vegetable crops such as potato, onion etc. which are one time harvested, is being grown. The students sell their products from the CCSHAU Mart.

### 11.Processing of Fruits and Vegetables for value addition

The above Experiential Learning Programme is functioning in the College of Agriculture, Bawal, Rewari. The ELP unit was started during 2022-23. Initially only two products viz., bael squash and bael RTS were prepared. Now students are preparing Aonla Candy and Aonla Murabba. These products are being sold locally. Some more products will be added and prepared in the ensuing season on the basis of availability and rates of raw material.

**The following are the Experiential Learning Units sanctioned by ICAR:**

| Sr. No | Title of the EL Unit | Location (College Name, Place) | Date of Start | Total Amount sanctioned by ICAR (In lakhs) | Status of ELP Unit |
|---|---|---|---|---|---|
| **College of Agriculture** | | | | | |
| 1. | Hi-Tech Agriculture | Department of Horticulture, College of Agriculture | 2006-07 | 40.00 | Functional |
| 2. | Processing of Fruits and Vegetables for value addition | College of Agriculture, Kaul | 2013-14 | 60.00 | Functional |
| **I.C. College of Home Sciences** | | | | | |
| 3. | Bakery & Confectionary products | Department of Foods & Nutrition, IC COHS | 2006-07 | 20.00 | Functional |
| 4. | Studio media Lab. for designing and production of information material | Department of EECM, IC COHS | 2008-09 | 88.00 | Functional |
| 5. | Product Design Digital Embroidered Home Furnishings | Department of Textile and Apparel Designing, IC COHS | 2013-14 | 65.75 | Functional |
| **College of Basic Sciences and Humanities** | | | | | |
| 6. | Processing of fruits, vegetables and some | CFST, COBS&H | 2006-07 | 40 .00 | Functional |

| | | | | | |
|---|---|---|---|---|---|
| | other food items | | | | |
| 7. | Production of medicinal & Aromatic plants through Tissue Culture & Production of Biofertilizers | COBS&H | 2006-07 | 46.00 | Functional |

**The following are the Experiential Learning Units supported by the University:**

| Sr. No. | Title of the ELP Unit | Location (College Name, Place) | Date of Start | Total Amount sanctioned/allocated by university | Status of ELP Unit |
|---|---|---|---|---|---|
| **College of Agriculture, Hisar** | | | | | |
| 1. | Peri Urban Agriculture | College of Agriculture, Hisar | 2018-19 | 50,000/- | Functional |
| **College of Agriculture, Bawal** | | | | | |
| 2 | Processing of Fruits and Vegetables for value addition | College of Agriculture, Bawal | 2021-22 | 50,000/- | Functional |
| **College of Agriculture Engineering & Technology, Hisar** | | | | | |
| 3. | Composting and Bio-fertilizers production | COAE&T, Hisar | 2018-19 | 50,000/- | Functional |
| 4. | Centre for Agro Processing and Engineering Services | COAE&T, Hisar | 2018-19 | 50,000/- | Functional |

**Details of students trained, revenue generation and other activities under report period**

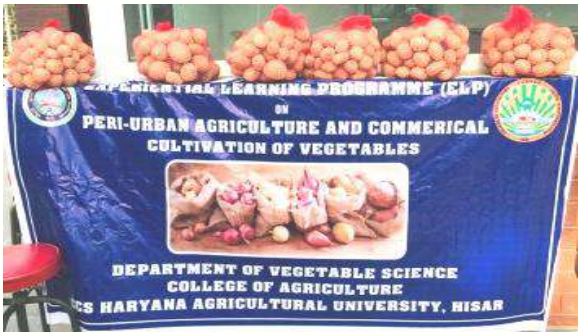
| S. No. | College /Discipline | Title of the EL Unit where the students were enrolled | EL Unit wise number of students trained | Revenue generated (Rs.) | Expertise gained |
|---|---|---|---|---|---|
| 1. | **College of Agriculture** | Hi Tech Agriculture | 41 | 56,700 | • Nursery raising of horticultural plants, Propagation of ornamental plants, Care and management of potted plants; Greenhouse management for nursery raising; Marketing skills |
|   Demonstrations of ELP activities | | | | | |
| 2 | CFST, COBS&H | Processing of fruits, vegetables and some other food items | 49 | 3,38,346 | • Students were imparted practical demonstrations for processing of value-added fruits, vegetables and cereals products viz.,<br>• Ready-to-serve drink from pineapple, guava, mango, ber, papaya and bael; Squashes from mango, pineapple, orange, bael, guava and papaya;<br>• Syrups from pomegranate, orange, raw |

| | | | | | |
|---|---|---|---|---|---|
| | | | | | mango-mint, rose and almond;<br>• Preserve/murrabba and candy from aonla, bael, ber, karonda and carrot;<br>• Biscuits, cakes, muffins and instant mixes;<br>• (Expenditure limit increased from seed money of Rs. 50000/- allotted during 2016-17 to Rs 2.0 lac during 2019-20 and onwards) |
|  <br>Demonstrations of ELP activities at Kisan Diwas | | | | | |
| 3 | COBS&H | Production of medicinal & Aromatic plants through Tissue Culture & Production of Biofertilizers | 70 | 68,000 | • Students were able to isolate, purify the potential bioinoculants.<br>• The trained students were able to produce biofertilizers at large scale. |
| 4 | Department of Foods & Nutrition, IC COHS | Bakery & Confectionery | 56 | 7,70,806 | • Different types of Cakes, Pearl millet biscuits, Chocolate balls, Muffins, Bajra Namkeen/ Sev etc. |
|  <br>Demonstrations of ELP activities at Kisan Diwas | | | | | |
| 5 | Department of EECM, IC COHS | Studio media Lab. for designing and production of information material | 76 | 56,774 | • Skill acquisition in Designing and production of print media<br>• Ability to design and develop customized products with informative messages |

Demonstrations of ELP activities

| | | | | | |
|---|---|---|---|---|---|
| 6 | Department of Textile and Apparel Designing IC COHS | Product Design: Digital Embroidered Home Furnishings | 42 | 4,90,608 | • Digital Embroidered Single & Double Bed Sheets<br>• Digital Embroidered Pillow Covers, Cushion Covers, Baby Sheets, Vegetable Shopping Bags |

Demonstration of ELP activities was awarded at Kisan Mela



| | | | | | |
|---|---|---|---|---|---|
| 7 | COA, Kaul (Kaithal) | Processing of Fruits and Vegetables for value addition | 70 | - | • Experience gained for value addition in fruits and vegetables products like candy, squash, chutney, jam etc.<br>• Products like Pickles (Mango and lemon), Jam (Apple and Pear), Squash (Lemon and Mausambi) and Sauce & Chutney (Tomato and Aonla) made by ELP students and demonstrated in Farmers Fairs and Kisan Diwas at CCSHAU, Hisar. |

Demonstrations of ELP activities CoA Kaul, Kaithal

| | | | | | |

| 8 | College of Agriculture, Hisar | Peri Urban Agriculture | 46 | 67,434 | • Potato and Onion crops |

Sale of ELP Produce at HAU mart

| | | | | | |
|---|---|---|---|---|---|
| 9 | College of Agricultural Engineering & Technology | Composting and Bio-fertilizers production | 40 | 30,000 | • Students learnt steps to prepare compost, vermicompost and biofertilizers<br>• The trained students were able to produce compost and vermicompost at large scale and were able to sell their product through HAU e Mart and demonstrated their products in Krishi Melas |
| 10 | College of Agricultural Engineering & Technology | Centre for Agro Processing and Engineering Services | 2 | 3,869 | • Primary and secondary processing of food produce |
| 11 | College of Agriculture, Bawal | Processing of Fruits and Vegetables for value addition | 22 | 20,500 | • Students of B.Sc. (Hons) Ag. are engaged in experiential learning programme without module<br>1. Aonla candy<br>2. Aonla murabba<br>3. Bael squash<br>4. Bael RTS |

**6.6.2.8. Academic Industry Interface:** *Mention the important channels for knowledge transfer between university and firms. How the university has been benefited in last five years in terms of resource mobilization, research funding, knowledge transfer and others.*

There is mechanism of University-Industry interface in the shape of MoUs and Industry sponsored projects including evaluation of products like chemicals, fertilizers, manures, varieties, hybrids etc. for their suitability in agricultural production systems of the state. Resources are being mobilized from industry/private agencies in the shape of different projects/testing. During the 2018-19 to 2022-23, funding for 72 projects have been received in the shape of industry sponsored projects/testing, amounting to total sum of Rs 15,32,44,412/-. The details of funding received from industry/private agencies during the last five years are given below.

| Year | No. of projects funded by industry/private agencies | Amount of funding received from Industry/ private agencies (Rs) |
|---|---|---|
| 2018-19 | 16 | 2,93,25,184 |
| 2019-20 | 12 | 1,74,35,084 |
| 2020-21 | 16 | 2,78,18,347 |
| 2021-22 | 16 | 4,86,69,624 |
| 2022-23 | 12 | 2,99,96,173 |
| Total | 72 | 15,32,44,412 |

**Non-Exclusive License Agreement (MoU)** is very important channel for the University for Knowledge Transfer between University and firms and in last five years University has signed 56

Non-Exclusive License Agreements/MoUs (List given below) for the commercialization/ technology transfer, incubation, Research and Development etc.

**List of Non-Exclusive License Agreements (2018-2023)**

| S. No. | Name of the Organization | Product/Process/ Technology | Date/Duration of MoU |
|---|---|---|---|
| **(A.) Maize Hybrids** | | | |
| 1. | Sri Sai Seeds, Kurnool, Andhra Pradesh | HQPM 1, HQPM 4, HQPM 5 & HQPM 7 | 04.03.2014 (5 years) Renewed for HQPM 1 on 09.07.2020 (5 years) |
| **(B.) Bajra Hybrids** | | | |
| 2. | Sampoorna Seeds, Kurnool, Andhra Pradesh | HHB 299 & HHB 311 | 08.01.2020 (4 Years) |
| 3. | Sri Laxmi Venkateshwara Seeds, Kurnool, Andhra Pradesh | HHB 299 & HHB 311 | 20.01.2020 (4 Years) |

| | | | | | | | **Grand total** | 71,84,000 |

**6.6.2.9. National Ranking (ICAR/MHRD):** Mention about the rank of the University in last five years in the NIRF from ICAR/MHRD.

- CCSHAU, Hisar ranked 4th amongst Govt. And Govt. Aided universities & deemed to be Universities in Atal ranking of Institution on Innovation Achievement (ARIIA) by MHRD in the year 2021
- CCSHAU, Hisar ranked 3rd amongst Govt. and Govt. Aided universities & deemed to be Universities in Atal ranking of Institution on Innovation Achievement (ARIIA) by MHRD in the year 2020
- CCSHAU, Hisar ranked 9th amongst Agricultural Universities by ICAR in the year 2020
- CCSHAU, Hisar ranked 63rd in the University category by NIRF in the year 2019
- CCSHAU, Hisar ranked 89th in overall category by NIRF in the year 2019
- CCSHAU, Hisar ranked 6th amongst Agricultural Universities by ICAR in the year 2019
- CCSHAU, Hisar ranked 50th in the University category by NIRF in the year 2018
- CCSHAU, Hisar ranked 76th in overall category by NIRF in the year 2018
- CCSHAU, Hisar ranked 4th amongst Agricultural Universities by ICAR in the year 2018
- I.C. College of Home Sciences, CCSHAU, Hisar, Ranked 42nd in college category in the year 2022 by NIRF
- I.C. College of Home Sciences, CCSHAU, Hisar, Ranked 38th in college category in the year 2021 by NIRF
- I.C. College of Home Sciences, CCSHAU, Hisar, Ranked 49th in college category in the year 2020 by NIRF

### 6.6.3. Research Support

**6.6.3.1. Research Council:** *Mention the present composition of the research council and provide the dates of meetings in last five years in tabular form.*

**CCSHAU has a Research Programme Committee (RPC) for chalking out the road map and guiding research programmes of the different departments of the university**

**A. Composition of Research Programme Committee**

| | | |
|---|---|---|
| 1. | Vice-Chancellor, CCSHAU, Hisar | Chairman |
| 2. | Dean, Post-graduate Studies, CCSHAU, Hisar | Member |
| 3. | Dean, College of Agriculture, CCSHAU, Hisar | Member |
| 4. | Dean, College of Agril. Engg. & Technology, CCSHAU, Hisar | Member |
| 5. | Dean, College of Basic Sciences & Humanities, CCSHAU, Hisar | Member |
| 6. | Dean, College of Home Sciences, CCSHAU, Hisar | Member |
| 7. | Dean, College of Veterinary Sciences, LLRUVAS, Hisar | Member |
| 8. | Director of Extension Education, CCSHAU, Hisar | Member |
| 9. | Director, Human Resource Management, CCSHAU, Hisar | Member |
| 10. | Director of Research, LLRUVAS, Hisar | Member |
| 11. | Director General, Agriculture& Farmers welfare, Govt. of Haryana, Chandigarh | Member |
| 12. | Director General, Horticulture, Govt. of Haryana, Panchkula | Member |
| 13. | Director General, Animal Husbandry and Dairying, Govt. of Haryana, Panchkula | Member |
| 14. | Director of Research, CCSHAU, Hisar | Member Secretary |

**SPECIAL INVITEES**

1. Director, IARI, New Delhi
2. Director, NDRI, Karnal
3. Director, CIRB, Sirsa Road, Hisar
4. Director, NBPGR, New Delhi
5. Director, CSSRI, Karnal
6. Director, CAZRI, Jodhpur
7. Director, NBAGR, Karnal
8. Director, NRC on Equines, Hisar
9. Director, Department of Fisheries, Haryana, Panchkula
10. Director, Department of Women and Child Development, Haryana, Chandigarh
11. Director, Department of Environment, Haryana, Chandigarh
12. Director, IIWBR, Karnal
13. Comptroller, CCSHAU, Hisar
14. Head, Seed Science &Technology-cum-Nodal Officer (Seeds)
15. President, HAUTA, CCSHAU, Hisar

**DIRECTORATE OF RESEARCH**

1. Additional Director of Research
2. Project Director
3. Joint Director (BS/HS)
4. Assistant Director (REL)

5. Assistant Director (Crops)
6. Assistant Director (PP)
7. Assistant Director (Stat.)

**B. Research Programme Committee Meetings held during the last five years**

| S. No. | RPC Meeting | Date of Meeting |
|---|---|---|
| 1. | 49th Research Programme Committee Meeting | 16.10.2020 |

**Technical Programme Committee**: In addition to Research Programme Committee (RPC), CCSHAU has Technical Programme Committee to review and formulate the technical programmes of the ongoing research schemes in the university. The constitution of the Technical Programme Committee is as under:

1. Director of Research – Chairperson
2. Head of the concerned department – Convener
3. Heads of the related department – Members
4. Faculty of the concerned department – Invited members
5. Collaborators from the related departments – Invited members

Related member departments for inclusion Technical Programme Committee pertaining to different crops/departments of the university are as under:

Review of Research Schemes and Technical programme meetings are held once a year for all the crops/departments and twice a year (*Kharif* and *Rabi* seasons) for Agronomy, Pulses, Oilseeds, Forage crops, and RRS, Bawal under the chairmanship of Director of Research, in which the results of the previous year are reviewed and the technical programme of the next year is formulated based on the previous year's results and feedback from different stakeholders.

**Review of Research Schemes and Technical programme meetings held during period under report**

**6.6.3.2. Directorate of Research:** *Give brief information about the present establishment of the Directorate of Research, staff pattern, research coordination mechanism, research and seed production centres and contribution in academic programmes.*

The Directorate of Research is the Nodal Agency for planning, implementation and monitoring research activities in different disciplines of constituent colleges and outreach research stations of the University. The Directorate is headed by Director of Research who is assisted by Additional Director of Research, Project Director and a team of scientists from various disciplines.

**Organizational Set-up**

**Mandate**

1. Planning, execution, monitoring and technical evaluation of research programmes of constituent colleges and outreach research stations of the University.
2. Submission of research projects to ICAR, State, RKVY, CSIR, DBT, DST, NHM, various central government departments, etc. and other national/international agencies, follow-up for approval, funding and implementation thereof.
3. Compilation of annual research reports and research highlights to cater to State Deptts., ICAR and BOM.
4. To coordinate testing of agricultural chemicals, bio-products/bio-fertilizers, variety/hybrid/ transgenic etc.
5. Evaluation of award proposals submitted by the university faculty.
6. Arranging visit of dignitaries to the University research farms, laboratories and outreach research stations.

7. Monitoring of self-finance/revolving fund schemes
8. Matters related to Nodal Officer (Seeds), Scientists Meet/Agricultural Officers' Workshop, ZREAC/T&V meetings etc.
9. Processing and monitoring of cases related to variety release and registration of genetic plant material.

To fulfil the objectives of research related to the State Agriculture, different research schemes have been created in which, 214 research faculty have been posted in different departments of University at main campus and outreach research stations.

## Research Coordination Mechanism

The University is undertaking need-based research in the field of agriculture and allied sciences at main campus Hisar as well as outreach research stations situated in different agro-climatic zones of the State for generation of location specific technologies through multidisciplinary approach and also to verify/validate technologies, through On-Farm Trials/Front Line Demonstrations.

The research work is being carried out mainly through two State Plan schemes and 42 ICAR-All India Coordinated Research Projects (75:25% funding from ICAR and State) on different crops and aspects. In addition, research and development work is going on under different projects funded by other agencies including DST, DBT, SPARC, Ministry of Agriculture Earth Science, UGC, ICRISAT, IRRI, CIMMYT, CSIR, BARC, ICAR, NHM, RKVY etc. along with self-financed, revolving fund schemes as under:

| Sr. No. | Name of Schemes | No. of Schemes |
|---|---|---|
| 1 | State Plan Agri. | 2 |
| 2 | Gap Filling Ad-hoc Research Schemes (Plan Schemes) (involving 6 departments) | 1 |
| 3 | ICAR-All India Coordinated Research Projects (AICRP) (75:25%) | 42 |
| 4 | Ad-hocs schemes including, NICRA, Emeritus Scientist and FLD (100% funded by ICAR) | 18 |
| 5 | Centrally sponsored scheme | 1 |
| 6 | Other Agency (DST, DBT, NHM, HSHDA, Ministry of Agri., Earth Sci., New Delhi, UGC, ICRISAT, CISR, BARC, NASF, SPARC etc.) | 32 |
| 7 | RKVY(Rashtriya Krishi Vikas Yojana) | 13 |
| 8 | Self-Finance (SF) | 18 |
| 9 | Revolving Fund (RF) | 13 |
| 10 | RF Mega Seeds | 3 |
| 11 | Testing Fee Scheme | 12 |
| | **Total** | **155** |

The zonal research and extension advisory committee (ZREAC) and T&V meetings are conducted in different zonal research stations of the state to disseminate the university technologies to the field functionaries so as to reach the actual beneficiaries and also to identify the field problems in different crops. Based on the proceedings of these meetings the problems are finalised for the formulation of the research experiments. The results of these experiments are reviewed annually in the technical programme meetings under the chairmanship of Director of Research. After drawing the tangible conclusion/outcomes from sufficient study period, the same are validated on the farmers' field through on-farm trials. The final results, after thorough deliberations in the scientists' meet are

presented in the Agricultural Officers' Workshop, in which the recommendations for inclusion in the package of practices of different crops are approved.

### Project Monitoring Cell:

This point is already covered under the point no. 6.6.1.10. Institute Quality Assurance Cell /PME Cell.

## Location specific committees for emergent issues

**North Zone cotton stakeholder's committee for pink bollworm management**

Haryana is one of the major cotton growing states of the Northern Region of the country. The problem of pink bollworm incidence has been found increasing and spreading in almost all the cotton growing districts of the state as well as North Zone. Looking towards the severity of Pink Bollworm, CCSHAU has organised four committee meetings of North Zone cotton stakeholders under the chairmanship of Prof. B. R. Kamboj, Vice-Chancellor, CCSHAU, Hisar.

The committee comprises the following

1. Vice- Chancellor, CCSHAU, Hisar
2. Director of Research, CCSHAU
3. Director of Research, PAU, Ludhiana
4. Director of Research, SKRAU, Bikaner
5. Director of Extension Education, CCSHAU
6. Head /In charge, ICAR-CICR, RS, Sirsa
7. Joint Director, (Cotton,) DAC&FW, Haryana
8. Prof. & Head, Entomology
9. HoS, Cotton, G&PB, CCSHAU, Hisar
10. DDA's & SDAO's of cotton growing districts of Haryana
11. Manager, Cotton Corporation of India
12. Representative of Crop Care federation of India
13. DDAs, Sirsa, Fatehabad, Hisar, Bhiwani, Jind, Rohtak, Rewari, Kaithal & Mahendergarh
14. Regional Manager, Rasi Seeds, Hyderabad
15. Regional Manager, Shriram Bio-seeds Genetics, Hyderabad
16. Regional Manager, Ankur Seeds, Nagpur, Maharashtra
17. Regional Manager, US Agra Seeds, Hyderabad, Telangana
18. Regional Manager, Ajit Seeds, Aurangabad, Maharashtra

Four different meetings of the committee on 29.09.2021, 02.03.2022, 24.08.2022 and 27.03.2023 were convened. On the recommendations of North Zone cotton stakeholder's committee, the action plan was formulated and implemented to manage the menace of pink bollworm by all the stakeholder in their respective states.

### Committee on dwarfing in rice

During *kharif* 2022, an unknown disease in paddy crop causing "dwarfing" of the plants was observed over paddy growing areas in Haryana state. The disease was observed across almost all rice varieties, i.e. basmati, non-basmati, hybrid and PR group. The following committee was constituted to find out the root cause of the problem and give recommendations for the farmers:

1. Dr. Jeet Ram Sharma, Director of Research, CCSHAU Hisar
2. Dr. H.S. Saharan, HOD, Plant Pathology, CCSHAU, Hisar
3. Dr. O.P. Lathwal, RD, Rice Research Station, Kaul
4. Dr. Sunita Yadav, HOD, Entomology, CCSHAU Hisar

5. Dr. Sikha Yashveer, Assistant Professor, MBBB
6. Dr. V.K. Malik, Assistant Scientist, Plant Pathology
7. Dr. Mahaveer Singh, Assistant Scientist, Plant Pathology
8. Dr. Promil Kapoor, Assistant Scientist, Plant Pathology
9. Dr. Sumit Saini, Assistant Scientist, Entomology
10. Dr. Vishal Gandhi, Assistant Scientist, Plant Pathology

After intensive studies the University elucidated that a virus complex namely *Spinareo viridae* group was behind this problem of dwarfing in rice. The major infective agent was Southern Rice Black Streaked Dwarf Virus (SRBSDV) followed by Rice Gall Dwarf Virus (RGDV). The nucleotide sequence (SRBSDV) so obtained, was also validated at NCBI. This was confirmed through molecular studies based on S4, S9 and S10 segments of viruses. The scientist observed SRBSDV presence in *Rabi* annual weed namely *Poaannua*. Presence of SRBSDV has been observed in wheat/*Rabi* weed *Poa*, but not in wheat crop. The nucleotide sequences were also obtained for S4 segment where BLAST analysed at NCBI showed higher homology to SRBSDV.

## Research and Seed Production Centres

The research work is carried out through different departments at main headquarter and through different research stations established to work on location specific objectives of research on crops and cropping systems of the region.

**Departments and Research Stations**

| S. No. | College | Departments |
|---|---|---|
| 1 | College of Agriculture, Hisar | Agricultural Economics, Agricultural Meteorology, Agronomy, Soil Science, Genetics & Plant Breeding, Seed Science & Technology, Entomology, Plant Pathology, Nematology, Extension Education, Forestry, Vegetable Science, Horticulture, |
| 2 | College of Agricultural Engineering & Technology, Hisar | Processing & Food Engineering, Renewable & Bio-Energy Engineering, Farm Machinery & Power Engineering, Soil & Water Engineering |
| 3 | College of Basic Sciences & Humanities, Hisar | Botany & Plant Physiology, Chemistry, Biochemistry, Microbiology, Sociology, Zoology, Food Science & Technology, Mathematics and Statistics, Physics, Molecular Biology, Biotechnology & Bioinformatics |
| 4 | I.C. College of Home Sciences, Hisar | Foods & Nutrition, Human Development & Family Studies, Family Resource Management, Textile & Apparel Designing, Extension Education & Communication Management |
| 5 | College of Fisheries Science | Aquaculture, Aquatic Animal Health Management, Aquatic Environment Management, Fish Engineering, Fisheries Extension, Economics and Statistics, Fish Processing, Technology, Fisheries Resource Management |
| 6 | College of Biotechnology | Agricultural Biotechnology, Bio-Nanotechnology, Bioinformatics & Computational Biology, Industrial Biotechnology, Molecular Biology & Biotechnology |

### Outreach Research Stations

| S. No. | Research Station | Research Priorities |
|---|---|---|
| 1 | Regional Research Station, Uchani (Karnal) | Sugarcane, Maize and other cropping systems of the region |
| 2 | Regional Research Station, Bawal (Rewari) | Dryland Agriculture |
| 3 | Regional Research Station, Rohtak | Saline & water-logged soils |

| | | |
|---|---|---|
| 4 | Rice Research Station, Kaul (Kaithal) | Rice & rice based cropping systems |
| 5 | Cotton Research Station, Sirsa | Cotton and cotton based cropping systems |
| 6 | Nutri-Cereal Research Station, Gokalpura (Bhiwani) | Nutri-Cereals |
| 7 | Sub-Research Station on Horticulture, Buria (Yamuna Nagar) | Horticulture |
| 8 | Sub-Research Station on Forestry, Balsamand Hisar) | Sand Dune Stabilization |

**Centre of Excellence on Pearlmillet**

Pearl Millet is a crop getting highly importance for the purpose of Nutritional Security. Centre of Excellence (COE) on Processing and Value Addition of Pearl millet was established in 2011 with funding support of the Ministry of Agriculture and Farmers Welfare, GOI. The centre has worked for capacity building of the farmers, rural masses, scientists, consumers, SHGs/ICDS functionaries, entrepreneurs, etc. and promoted the consumption of pearl millet at household and national level. Various kinds of bakery and confectionary products, convenience mixes, grits and traditional foods incorporating pearl millet have been developed and these are promoted through their sale at ATIC and *Krishi Melas* so as to popularize them.

**Deen Dayal Upadhyaya Centre of Excellence for Organic Farming**

Deen Dayal Upadhyaya Centre of Excellence for Organic Farming has been established in an area of about 138 acre at main campus. The centre is working on Natural and Organic Farming with the objectives of sustainable plant nutrient management through suitable organic sources or biofertilizers or by cow urine based liquid/solid bio formulations to maintain and improve soil health in field. The scientific data under different cropping systems based on horticulture, vegetable and field crops for natural farming as well as organic farming is being generated. Among Horticultural crops, application of FYM along with biofertilizers performance is observed.

**Seed Production Centres**

Production of quality seed of different crops is an important feature of the University, which helps in dissemination of the high yielding varieties to stakeholders at State and National level. Nucleus seed of different varieties developed by University is produced for their maintenance and further production of quality seed by different agencies. The University undertakes seed production of various classes of seeds through different component units. Nucleus seed of different varieties developed by University is produced by concerned crop breeders. The breeder seed production is undertaken by Department of Seed Science and Technology with the Head of the Department as Nodal Officer (Seeds). Seed production programme is taken up at Seed Science and Technology, Directorate of Farms, Ram Dhan Singh Seed Farm and Vegetable Seed Farm at Hisar and Kaul, Sirsa, Bhiwani and Bawal outstations. Planting material is produced at Centre for Quality Planting Material, Vegetable and horticulture research farm at main campus.

**Seed production (q) of field crops during the period under report**

| Class of seed | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 (Raw seed) |
|---|---|---|---|---|---|
| Breeder seed | 1657 | 1468 | 1234 | 1123 | 940 |
| Foundation seed | 4485 | 4844 | 4354 | 1075 | 3380 |
| Certified seed | 8965 | 4844 | 6222 | 5315 | 4839 |
| TL Seed | 2240 | 2338 | 1389 | 1655 | 5859 |
| Total | 17347 | 13495 | 13200 | 9168 | 15018 |

**Seed Science and Technology**

Department of Seed Science and Technology is undertaking the production and distribution of breeder seed as per national or state indent to maintain the national seed supply chain in order to make timely availability of quality seed to the farmers. Apart from 72 hectare area available with the department, the breeder seed is also produced at research farms to meet out the required quantity of indented seed.

**Directorate of Farms**

Directorate of Farms was established at the inception of the University to produce and supply the quality and high yielding seeds i.e. Foundation/Certified/TFL category of various *Rabi* and *Kharif* crops to the seed growers for further multiplication. The unit is headed by Director Farms, which works under administrative control of Director of Research. The Directorate has 367 ha area for production of quality seeds. The seed quality and varietal improvement had played a very important role in better utilization of inputs in different agro-climatic conditions of the state.

**Ram Dhan Singh Seed Farm**

Ram Dhan Singh Seed Farm was established in 1999 to produce quality seed/planting material, of major field and horticultural crops and seed production of certified and TFL seeds. The seed farm was named after one of the eminent agricultural scientists of Indian sub-continent "Rao Bahadur Dr. Ram Dhan Singh" and now popularly known as 'RDS Seed Farm'. The RDS Farm is headed by Director, RDS Farm, and functions under administrative control of Director of Research. Ram Dhan Singh Seed Farm office is situated in the main campus of the University and the seed farm is situated 18 kilometres away from the main campus near the village Bir Babran on Hisar-Sirsa road comprising an area of 1608 ha. Out of total farm area, 450 ha have been transferred to LUVAS during 2017. Recently, a modern nursery has been set up with installation of Poly house, Insect net house and shade net house along with a mother block of important fruit crops on the main campus for supply of quality planting material for the farmers of Haryana and adjoining states.

**Vegetable Seed Farm**

Vegetable seed production of cucurbits, potato, carrot, radish, turnip, fenugreek, coriander, fennel, okra, tomato, brinjal and other vegetable crops are produced as demand on the research farm of vegetable science in an area of 10 ha and supplied to the farmers for large scale production as well as for kitchen gardening. Seedlings are also supplied for various seasonal vegetables on this farm.

**Horticulture Planting Material**

Quality planting material of fruit crops is produced and sold to the farmers at the horticulture research farm.

**Centre for Quality Planting Material**

The centre for Quality Planting Material has been established in 2015 and a modern nursery has been set up near Gate No. 4 in 3 acres of area with installation of poly house, Insect net house and Shade net house along with a mother block of important fruit crops. The scope of this centre includes production of quality planting material of flowers, fruits, vegetable crops and other trees/plants of economic value in open as well as protected conditions.

A demonstration block has been developed at the centre for display of quality planting material and exotic vegetables. Also for promoting vegetables in peri-urban areas, container gardening is being demonstrated at the centre.

**Awards**

During the last five years, various awards/ honours have been conferred upon the University and its different departments/ sections. Details about some of the awards are given below:

| S. No. | Year | Name of Award | Conferred By |
|---|---|---|---|
| **Best Institute Awards** | | | |
| 1. | 2018 | Krishi Shiksha Samman | Mahindra & Mahindra |
| 2. | 2019 | Haryana Kisan Ratna Award | Haryana Government |
| 3. | 2019 | Krishi Shiksha Samman | Mahindra & Mahindra |
| **Other Outstanding Awards** | | | |
| 1. | 2019 | Chaudhary Devi Lal Outstanding AICRP on Farm Implements and Machinery | ICAR |
| 2. | 2019 | Best AICRP Centre Award of MULLaRP | ICAR |
| 3. | 2019 | Best AICRP Centre Award of Weed Control | ICAR |
| 4. | 2019 | Best AICRP Centre Award of Sugarcane | ICAR |
| 5. | 2021 | Best AICRP Centre Award on Spices | ICAR |
| 6. | 2022 | Best AICRP Centre Award Sorghum for overall performance during the period 2021-22 | ICAR-IIMR |
| 7. | 2022 | Best performing ICAR-AICRP on Pearl millet Centre Award (2021-22) | ICAR-AICRP Pearlmillet |

**Contribution in academic programmes**

The research scientists of the University are also involved in teaching courses offered at both UG and PG levels. They also act as Major advisors to the M.Sc. and Ph.D. students for their research work to ensure that student research remains relevant to the farmers and other stakeholders. The research problems of the other students are also decided in consultation with the research faculty.

Students on farm area for practical class

Student on field for data collection and research

**6.6.3.3. Technology Developed and its Adoption:** *Provide the list of approved technologies developed in last five years along with their adoption and coverage in the jurisdiction of the University.*

**1. Varietal Development**

| Crop | Variety | Year of release | Coverage (National/State) |
|---|---|---|---|
| **Wheat** | | | |
| | WH 1184 | 2019 | Haryana State for timely sown irrigated conditions |

| | | | |
|---|---|---|---|
| | WH 1270 | 2021 | Early sown, high fertility and irrigated conditions of NWPZ |
| | DBWH 221 | 2021 | Haryana State for timely sown irrigated conditions |
| **Rice** | | | |
| | Haryana Basmati 2 | 2018 | Medium fertility paddy growing areas of Haryana |
| | HKR 128 | 2018 | Paddy growing areas of Haryana under timely planting |
| **Pearl millet** | | | |
| | HHB 299 | 2018 | National A&B Zone irrigated(Haryana, Rajasthan, Gujarat, Punjab, Delhi, Maharashtra and Tamil Nadu) |
| | HHB 311 | 2020 | National A&B Zone irrigated (Rajasthan, Gujarat, Haryana, Punjab, Delhi, Maharashtra and Tamil Nadu) |
| | HHB 67 Improved 2 | 2022 | Suitable for rainfed areas of Haryana, Rajasthan and Gujarat. |
| **Maize** | | | |
| **Inter-institutional Maize Hybrids** | | | |
| | DMRH 1305 | 2018 | National (Jammu & Kashmir, Himachal Pradesh, Uttarakhand (Hill region), Meghalaya, Sikkim, Assam, Tripura, Nagaland, Manipur and Arunachal Pradesh) for *Kharif* season |
| | IMHB 1539 | 2018 | National (Jammu and Kashmir, Himachal Pradesh, Uttarakhand(Hill region), Meghalaya, Sikkim, Assam, Tripura, Nagaland, Manipur and Arunachal Pradesh) for *Kharif* |
| | DMRH 1308 | 2018 | National (Rajasthan, Gujarat, Chhattisgarh and Madhya Pradesh)for *Rabi* season |
| | Pusa HQPM-7 Improved | 2020 | National (Maharashtra, Karnataka, Andhra Pradesh, Tamil Nadu and Telangana) for *Kharif* season |
| | Pusa HQPM-5 Improved | 2020 | Across the country for *Kharif* season |
| | IMH QPM 1530 | 2020 | National (Jammu & Kashmir, Himachal Pradesh, Uttarakhand (Hill region), Meghalaya, Sikkim, Assam, Tripura, Nagaland, Manipur and Arunachal Pradesh) for *Kharif* season |
| | HM 4 Male sterility baby corn (Shishu) | 2022 | NWPZ. Resistant to Powdery Mildew |
| | PUSA HQPM 1 Improved | 2022 | Biofortified maize hybrid. National level |
| **Oilseed Crops** | | | |
| **Indian Mustard** | | | |
| | RH 725 | 2018 | National (Haryana, Punjab, Delhi, Jammu &Northern Rajasthan) for timely sown and rainfedconditions |
| | RH 761 | 2019 | National (Jammu, Punjab, Haryana, Delhi and northern Rajasthan) for timely sown rainfed conditions |
| | RH (0E)1706 | 2023 | Suitable for Zone-II (Haryana, Punjab, Jammu and Western & Northern Rajasthan. Low ericic acid (<2.0%) |
| | RH 1424 | 2023 | Suitable for Zone-II (Haryana, Punjab, Jammu and Western & Northern Rajasthan. |
| **Pulses Crops** | | | |
| **Desi (Brown) Chickpea** | | | |
| | HC 7 | 2019 | Notified for cultivation in Punjab, Haryana, WesternUttar Pradesh, Delhi, North Rajasthan, Jammu andKashmir, plains of Himachal Pradesh andUttarakhand |

| | | | |
|---|---|---|---|
| | HC 6 | 2022 | Timely sown conditions of Haryana |
| **Field pea** | | | |
| | HFP 1428 | 2021 | Notified for *Rabi* season in North West Plain zone ofIndia (Punjab, Haryana, Delhi, Rajasthan,Uttrakhand, parts of J&K and western UttarPradesh) |
| **Mungbean** | | | |
| | MH 1142 | 2020 | Notified for *Kharif* season in North West and North East Plainzones of India (Uttar Pradesh, Punjab, Haryana, Delhi,Rajasthan, Uttrakhand, Bihar, Jharkhand, West Bengal andAssam) |
| **American Cotton** | | | |
| | HS292 | 2018 | South zone in the states of Andhra Pradesh,Telangana, Tamil Nadu and Karnataka |
| **Forage Crops** | | | |
| **Oats** | | | |
| | OS 403 | 2018 | National suitable for timely sown irrigatedconditions |
| | OS 424 | 2020 | Notified for Hill Zone of India (Himachal Pradesh,J&K and Uttrakhand) |
| | OS 405 | 2020 | Notified for Central Zone of India (Maharashtra, Gujarat, Chhatisgarh, Madhya Pradesh and Central UttarPradesh) |
| | HFO 529 | 2021 | Suitable for timely sown normal fertility and Irrigated conditions of Hill Zone |
| | HFO 611(Dual Type) | 2021 | Suitable for timely sown irrigated conditions of NWPZ |
| | HFO 607 | 2021 | Notified for North West Zone of India (Haryana,Punjab, Rajasthan,Terai region of Uttarakhand andWestern UP) |
| | HFO 427 | 2021 | Notified for South zone of India (Telangana, AndhraPradesh, Tamil Nadu, Karnataka and Kerala). |
| | HFO 707 | 2022 | Suitable for multi cut, timely sown, normal fertilty and irrigated conditions of NWPZ |
| | HFO 806 | 2022 | Suitable for single cut. Recommended for Hill & South Zone |
| **Sorghum** | | | |
| | CSV 44F | 2020 | Released for Zone II of India (i.e., Maharashtra, Tamil Nadu and Karnataka) |
| | HJ 1514 | 2023 | Recommended for cultivation in Haryana |
| | HJH 1513 | 2023 | Recommended for cultivation in Haryana |
| | CSV 53 F | 2023 | Released for Gujarat, Rajasthan, Punjab, Haryana, Uttarakhand, Karnataka and Tamilnadu. |
| **Faba bean** | | | |
| | HFB 2 | 2022 | Suitable for timely sown irrigated conditions of Haryana & other states |
| **Chandrasur** | | | |
| | HLS 4 | 2021 | Suitable for timely sown irrigated& rainfed conditions of Haryana & other states |
| **Sugarcane** | | | |
| | CoH 160 | 2021 | Suitable for spring and autumn planting in Haryana |
| **Vegetable Crop (Bitter Gourd)** | | | |
| | HK 127 | 2019 | Both for spring-summer and rainy seasons underirrigated |

| | | | |
|---|---|---|---|
| | | | conditions of Haryana state. |
| | HKH 56 | 2022 | Suitable for irrigated conditions of Haryana |

## 2. Technologies related to crop production and protection

| S.No. | Technologies/ Machineries/ Other items developed/ for inclusion in Package Practices | Year of development |
|---|---|---|
| 1. | In addition to the recommended basal dose of DAP and Zinc sulphate, apply urea @ 28 kg/acre each at 20, 40 and 60 days after sowing in semi-dwarf basmati rice under direct seeding. | 2018 |
| 2. | Apply penoxsulam 2.5% OD (Assert 2.5% OD) @ 360 ml/acre at 15-20 days after transplanting as spray in 120 litre water to control complex weed flora in transplanted rice. There should be no standing water one day before and after herbicide application. | 2018 |
| 3. | Apply Penoxsulam+ Cyhalofop 6% OD (Vivaya 6% OD) @ 900 ml/acre at 15-20 days after transplanting as spray in 120 litre water to control complex weed flora in transplanted rice. There should be no standing water one day before and after herbicide application. | 2018 |
| 4. | Apply ACM9 29% WP (Clodinafop+Metribuzin) 174 g a.i/ha in 300 L water/ha at 30-35 DAS using flood jet or flat fan nozzles only for the control of complex weed flora in wheat and avoid repeat spray. | 2018 |
| 5. | Apply UPH 110 (Shagun 54% WG) [Clodinafop+Metribuzin] 270 g a.i/ha in 300 L water/ha at 30-35 DAS using flood jet or flat fan nozzles only for the control of complex weed flora in wheat and avoid repeat spray. | 2018 |
| 6. | Use Happy Seeder for sowing of wheat crop directly in combine harvested paddy field. | 2018 |
| 7. | Agronomic practices of spring maize cultivation in Haryana. For getting better yield of spring maize, crop should be sown from last week of January to second week of February with 60 x 20 cm spacing and fertilizer @ 72:24:24 NPK kg/acre. Seed rate should be 10 kg/acre. Hybrid HM 10, HM 11, HQPM 4 and HQPM 1 were found best in spring season and resistant to common rust. Sowing should be completed up to second week of February to avoid shoot fly incidence. | 2018 |
| 8 | Sett and soil application of Chlorpyriphos 20 % EC (Goldban 20 % EC) @ 6.25 litre/ha (1.25 litre a.i./ha) in 1500 litres water applied at the time of planting effectively protect cane setts against termites and substantially enhanced germination, reduce termite infestation of canes and increase number of millable canes with no phyto-toxicity on the crop and consequently result in significant increase in cane yield. | 2018 |
| 9 | Apply pendimethalin 30 EC @ 1.0 kg a.i./ha PPI or PRE in 375 l water/ha for the control of complex weed flora in *Rabi* pulses". | 2018 |
| 10 | Apply 8 kg $K_2O$ (14 kg Muriate of Potash 60% $K_2O$) per acre in chickpea at sowing time in low to medium K status soils. | |
| 11 | Apply 12 kg S (92 kg Gypsum) per acre in chickpea at sowing time in low S status soils. | 2018 |
| 12 | Raya variety RH 725: Recommended for cultivation under timely sown in rainfed conditions of Zone II (Jammu, Punjab, Haryana, Delhi & Northern Rajasthan) of the country. | 2018 |
| 13 | Slow initial growth and wider row to row spacing in cotton favours taking up summer green gram as intercrop in cotton. In cotton grown with row to row and plant to plant spacing of 100 cm and 45 cm, respectively, two rows of green gram can be taken as intercrop. There should be sufficient moisture in the field at sowing time. Summer variety of green gram should be grown. | 2019 |
| 14 | To remove paddy straw from the field, use rotary slasher, hay rake and baler one after the other for cutting, windrowing and baling of paddy straw so that the bales may be used for industrial application. | 2019 |

| | | |
|---|---|---|
| 15 | Apply Penoxsulam 0.97% w/w (1.0% w/v) + Butachlor 38.8% w/w (40% w/v) SE (Coreon 41% SE) @ 800 ml/acre at 0-7 days after transplanting as spray in 120 litre water under saturated moist field conditions to control complex weed flora in transplanted rice. Apply irrigation in field one day after herbicide application. | 2019 |
| 16 | Spray 240 ml (55 g a.i./acre) spiromesifen 22.9% w/w SC (Oberon 240 SC) in 200 L of water/acre for the management of whitefly in cotton. | 2019 |
| 17 | Apply of pyroxasulfone 85%WG (Awkira) at 127.5g/ha in 500L/ha water within 3 days of sowing of wheat crop for the control of grassy weeds (*Phalaris minor, Avena ludoviciana, Polypagon monospeliensis and Lolium sp*). | 2019 |
| 18 | Application of tank mix of pyroxasulfone 85%WG (Awkira) at 127.5g/ha +pendimethalin 30% EC 1.5 kg/ha in 500L/ha water within 3 days of sowing of wheat crop for the control of mixed weeds flora in wheat. | 2019 |
| 19 | In low and medium sulphur status soils apply 10 kg S/acre (75 kg Gypsum or 85 kg single super phosphate/acre) in plants as well as ratoon crops of sugarcane for better cane production and juice quality. | 2019 |
| 20 | Use 16 kg phosphorus per acre (16 kg P2O5/acre) to realize the higher fodder and seed yield potential of multi-cut oat varieties. | 2019 |
| 21 | In iron deficient soils (DTPA extractable Fe < 4.5 ppm), foliar application of $FeSO_4$ @ 0.5 % at tillering stage (25-30 DAS) should be done in the pearl millet crop. | 2019 |
| 22 | Apply 8 kg S (62 kg gypsum) per acre in mungbean at sowing time in low sulpher status soils. | 2019 |
| 23 | Apply 8 kg $P_2O_5$/acre (50 kg SSP) in sesame at sowing time in medium phosphorous status soils of Haryana. | 2019 |
| 24 | In low to medium Phosphorus soils, apply 12 kg $P_2O_5$/acre at sowing to realize the higher fodder yield of single-cut forage Sorghum varieties. | 2019 |
| 25 | In low to medium potash soils, apply 12 kg $K_2O$/acre at sowing to realize the higher fodder yield of single-cut forage sorghum varieties | 2019 |
| 26 | For control of leaf folder and stem borer in rice apply Chlorantraniliprole 0.4 % GR (Ferterra 0.4 % GR) 4.0 Kg/Acre (16 g a.i./acre) by mixing in 10 Kg sand at 30 days after transplanting. | 2019 |
| 27 | To control early shoot borer and top borer in sugarcane apply 7.5 kg Chloranraniliprole 0.4% GR (Ferterra 0.4% GR) per acre near the root zone of crop from end April to first week of May and give light irrigation. | 2019 |
| 28 | Spray 400 ml (40 g a.i./acre) Pyriproxifen 10% EC (Daita 10% EC) in 200 L of water/acre at economic threshold level (ETL) for management of whitefly in Cotton. | 2019 |
| 29 | In low to medium phosphorus soils, apply 12 kg $P_2O_5$ (75 kg Single super phosphate) per acre at sowing to realize the higher fodder yield of single-cut oats. | 2020 |
| 30 | For control of Brown Plant Hopper in paddy, spray dinotefuran 20 % SG (Osheen 20 % SG) @ 80 g /acre (16 g a.i./acre) in 200 liters water at appearance of 5-10 hoppers/hill. | 2020 |
| 31 | Apply 8 kg S (62 kg gypsum) per acre in cowpea at sowing time in low sulphur status soils. | 2021 |
| 32 | Apply 8 kg $K_2O$ (14 kg Muriate of Potash 60 %) per acre in Cowpea at sowing time in low to medium K status soils. | 2021 |
| 33 | Irrigate in Bt. Cotton by Drip irrigation method at an interval of 3 days as needed. The soluble fertilizers- nitrogen, phosphorus, potash and zinc are recommended at 45: 12: 12: 5 kg per acre respectively. 10% fertilizer should be given at the time of sowing by the drip irrigation method and the remaining fertilizer should be given in equal quantity 15 times every sixth day between 30 to 120 days. | 2021 |
| 34 | For control of leaf folder and stem borer in rice spray flubendiamide 20% WG (Takumi 20% WG) @ 50 g/acre first at tillering stage (30 DAT) and second at panicle initiation stage (50 DAT) or when pest crosses economic threshold. | 2021 |

| | | |
|---|---|---|
| 35 | For control of leaf folder and brown plant hopper in rice spray buprofezine 20% + acephate 50% (Odis 70% WP) @ 400 g/acre first at tillering stage (30 DAT) and second at panicle initiation stage (50 DAT) or when pests reaches ETL (1-2 larvae/hill for leaf folder & 5-10 hoppers/hill for brown plant hopper). | 2021 |
| 36 | Apply Triafamone (20%) + Ethoxysulfuron (10%) 30%WG (Council Activ 30%WG @ 90 g/acre) as spray at 15 DAT in a water volume of 120 litre/ha under saturated moist field conditions to control complex weed flora in transplanted rice. Drain the water from field one day before and apply irrigation in the field one day after spray. | 2021 |
| 37 | For the management of rice root-knot nematode in rice nursery, solarise the nursery beds before sowing for 15 days during summer. Cover the nursery beds with transparent polythene sheet (25 µm thickness) after light irrigation. Cover the edges of polythene sheet with soil to make it air tight. | 2021 |
| 38 | Blast of pearl millet: This disease affects different aerial parts of the plant at all growth stages. Initially, the disease appears as greyish, water-soaked lesions on foliage which later become necrotic. The eye shaped lesions size vary from small to elongated, often surrounded by a chlorotic halo. Lesions grow and coalesce to cover large surface areas and cause necrosis of plant tissues and the entire foliage may give a burnt appearance. On stem and neck, elongated lesions can be seen. Earhead turns initially brown, later black. This results in very poor grain development in the earheads, even no grain or few shrivelled grains in blasted florets. Management: i. Early or timely sown crop has less incidence of blast disease, ii. Avoid late planting (after 15 July) in the disease prone areas, iii. Grow disease resistance hybrids HHB-272, HHB-299 and HHB-311. | 2021 |
| 39 | In cereal cyst nematode (Molya disease) infested areas of South Western districts of Haryana, to reduce the damage of cyst nematode, sow the wheat crop in dry condition and apply irrigation immediately. | 2021 |
| 40 | Intercropping of short duration vegetable crops (coriander, spinach, fenugreek, cabbage and cauliflower) with maize during *Rabi* season will help in enhancing the income of farmers. | 2021 |
| 41 | For control of mixed weeds in spring maize, apply Atrazine 50 % WP 400-600 g/acre in 200 litres of water 0-3 days after sowing. Spray Tembotrion 42%SC 115 g/acre in 200 litres of water at 20-25 days after sowing (2-3 leaf stage). | 2021 |
| 42 | For control of all types of weeds in spring maize spread rice straw 3.2 tonnes/acre evenly on the ridges after sowing. | 2021 |
| 43 | For rice straw management, spreading of chopped straw (chopped to ~2-3 cm using paddy chopper-cum-spreader), application of urea (50 kg/ha) and waste decomposer (500 litre/ha) followed by mixing straw in soil (using disc harrow or rotavator), and irrigation immediately after potato planting is recommended in rice-potato system. | 2021 |
| 44 | In potato double row planting at 30 cm x 20 cm inter- and intra-row spacing on 90 cm wide bed with one drip lateral having inline drippers at 30 cm is recommended for raising potato under drip irrigation. | 2021 |
| 45 | The organic based fertilization through crop residue incorporation of previous cropapplication of biofertilizers (Azotobacter and Phosphobacteria) along with 25 ton FYM/ha is recommended for organic potato cultivation. | 2021 |
| 46 | Basal application of Zinc Sulphate 21.4 kg/ha along with recommended dose of fertilizer (150:50:100 NPK kg/ha) may be recommended in Zinc deficient soil of Haryana for potato cultivation. If Zinc has applied in previous crop then no need to apply Zinc in the potato crop. | 2021 |
| 47 | Palak crop sown on last week of October with one cutting at 30 days after sowing gave higher seed yield along with an additional green leaf yield. | 2021 |
| 48 | Two foliar sprays of either 2,4-D @20 ppm (20mg/ litre water) sodium salt or NAA @50 ppm (50 mg per litre water) in the last week of each April and July months significantly improved the fruit size in sweet orange. For spray in one acre, dissolve either 11g. 2,4-D or 28 g. NAA in 550 litre of water. Do not spray 2,4-D when sweet orange is intercropped with cotton or sunflower crop, instead use NAA growth regulator. | 2021 |

| | | |
|---|---|---|
| 49 | Ginger and turmeric should be grown as intercrop in mango orchard where the mango trees have been planted at spacing of 9 m x 9m. These crops should be sown 2-2.5 m away from mango trees stem. | 2021 |
| 50 | For high density planting of guava cv. Hisar Safeda, 6 m x 4 m spacing is recommended for obtaining higher yield. | 2021 |
| 51 | Propagation of Jamun is successful by T-budding method in the month of August. Rootstocks can be prepared according to method explained in patch budding. | 2021 |
| 52 | For high density planting, Beal plants can be planted at a distance of 8 m x 5m. | 2021 |
| 53 | For the management of root-knot nematode in polyhouse grown capsicum apply neem cake @ 200 g/ $m^2$, fifteen days prior to transplanting. | 2021 |
| 54 | For the management of root-knot nematode in the cucumber in polyhouse, take the following measures: 1) Remove and destroy the plants of the previous crop along with the roots. 2) Solarise the soil during summer by covering the soil with a 25 µm thick transparent polythene sheet for 15-20 days, after light irrigation. Cover the edges of polythene sheet with soil to make it air tight. 3) Add FYM enriched with fungus (*Purpureocillium lilacinum)* @ of 1 kg/$m^2$ in the soil. For preparing enriched FYM, mix 2 kg of fungus in 1 ton of FYM. Cover it with polythene sheet after sprinkling with water. After 10-15 days, mix it well on the paved surface. | 2021 |
| 55 | For the effective control of sheath blight of paddy, spray Hexaconazole 75%WG (Epic 75%WG)@27g/acre in 200 litre water at the time of disease initiation followed by second spray after 15 days | 2022 |
| 56 | For the effective control of paddy blast, spray Isoprothiolane 40%EC (FujiOne 40%EC)@ 300ml per acre in 200 litre water at the time of disease initiation followed by second spray after 15 days. | 2022 |
| 57 | For the control of brown plant hopper in rice, spray Pymetrozine 50% WG (Chess 50% WG) @ 120g/acre in 200 litres water at the appearance of 5-10 hoppers/hill. | 2022 |
| 58 | Tractor operated shredder may be used for management of cotton stalks after picking of cotton which saves 34.42 per cent cost and 90 per cent labour in comparison to manual removal of stalk. | 2022 |
| 59 | Sowing of Bt cotton should be started from first fortnight of April and be completed upto end of May. | 2022 |
| 60 | Application of sulphur @ 30 kg/ha through gypsum recorded maximum seed cotton yield and higher benefit cost ratio compared to control. | 2022 |
| 61 | Spray 60 g Flonicamid 50% WG (ULALA) in 200 L of water/acre at economic threshold level for management of whitefly and leafhopper in cotton. | 2022 |
| 62 | Management of maize stem borer, *Chilo partellus* release egg parasitoid, *Trichogramma chilonis* @ 50,000 parasitized eggs/acre at 10-11 and 17-18 days after germination." | 2022 |
| 63 | Apply Sulfentrazone 39.6% w/w 48% w/v (Authority) 600 ml in 200 litres of water per acre as pre-emergence at proper soil moisture to control complex weed in sole sugarcane." | 2022 |
| 64 | Apply Sulfentrazone 28%+ clomazone 30% (Authority NXT 58% WP) 1.0 kg in 200 litres of water per acre as pre-emergence at proper soil moisture for control of complex weed flora in sole sugarcane." | 2022 |
| 65 | "Phosphorus and potassium in multi-cut forage sorghum" i.e. In low to medium phosphorus and potassium soils, apply 12 kg $P_2O_5$ and 12 kg K2O/acre at sowing to realize the higher fodder yield of multi-cut forage sorghum. | 2022 |
| 66 | Spray of Tebuconazole 50% + Trifloxystrobin 25% WG (Nativo) @ 120g/acre in 200 litres of water on appearance of yellow rust followed by second spray after 15 days". | 2022 |
| 67 | In South West Haryana, under irrigated conditions barley should be sown from last week of October to first week of November. | 2022 |

| | | |
|---|---|---|
| 68 | In low to medium potash soils apply 8 kg of potash (14 kg muriate of potash) per acre in field pea at the time of sowing | 2022 |
| 69 | In low Sulphur soils apply 12 kg of sulphur (100 kg gypsum) per acre in field pea at the time of sowing. | 2022 |

3. **Adoption and coverage of technologies of the University:**

| Crops | Area covered by University varieties (% basis) in Haryana | Adoption of University varieties in other states |
|---|---|---|
| Pearl Millet | 20-25% | Rajasthan |
| Rice | 25-30% | Punjab and Uttrakhand |
| Wheat | 10-30% | Punjab, Uttar Pradesh, Rajasthan and Madhya Pradesh |
| Indian Mustard | 50% | Gujarat, Rajasthan, Madhya Pradesh, Uttar Pradesh, Bihar, Orissa and West Bengal |
| Barley | 65-70% | Rajasthan |
| Clusterbean | 65-70% | Rajasthan |
| Sugarcane | 25-30% | Punjab, Uttar Pradesh and Uttrakhand |
| Mungbean | 90% | Rajasthan, Madhya Pradesh, Assam and Bihar |
| Chickpea | 10-15% | Uttar Pradesh, Rajasthan and Madhya Pradesh |
| Onion | 10% | Uttar Pradesh, Rajasthan and Maharashtra |
| Guava | 60 -65% | Rajasthan, Uttar Pradesh and Punjab |
| Sorghum | 15-20% | Gujarat, Rajasthan, Uttar Pradesh, Zone II (Tamilnadu, Maharashtra and Karnataka) |
| Oats | 5-10% | Gujarat, Jammu & Kashmir, Punjab and Rajasthan |
| Okra, Bittergourd and Bottlegourd | 1-2% | Supplied in kitchen gardening seed packets also |

The technologies are being disseminated to various stakeholders through trainings, demonstrations, exposure visits by KVK's, Department of Agriculture & Farmers Welfare, Horticulture and farmers' organizations and are being adopted by the farmers. Adoption of the technologies of the university are gaining importance day by day and will result in increasing the production of food grains in Haryana in particular, and the country, in general.

**6.6.3.4. Research Publication:** *Provide the list of research articles (NAAS ranking 5.00 or more) published in National and International Journals (only based on the work conducted in the University).*

A total of 1147 research articles were published with NAAS rating 5.00 or more in National and International Journals based on the work conducted in the University. During the period under report the University publications were cited 8546 times with an H-index of 41 based on Scopus database. The list of publications with NAAS rating is given below:

| Sr. No. | Author, Title and Journal | NAAS Rating |
|---|---|---|
| 1. | Abhishek, D., Bochalya, M.S., Chauhan, P., Srivastva, Alok and Dudi, B.S. (2018). Sulphur sources and levels differential response on yield, sto*Rabi*lity and economic return of onion (*Allium cepa* L.). *International Journal of Current Microbiology and Applied Sciences* 7 (6): 866 | 5.38 |
| 2. | Alam, M. S., Kumar, N., & Singh, B. (2018). Development of Sweet Lime (*Citrus LimettaRisso*) Pomace Integrated Rice based Extruded Product: Process Optimization. *Journal of Agricultural Engineering*, 55(1), 47-53. | 11.00 |

| | | |
|---|---|---|
| 3. | Alisha, Sanjeev andUrmil Verma (2018) Arimax models for cotton yield forecasting in Haryana *International Journal of Current Microbiology and Applied Sciences 7*(12), 2968-2972. | 5.38 |
| 4. | Amandeep Singh, R.K. Jhorar, Sanjay Kumar and Narender Kumar. (2018). Performance evaluation of surface irrigation method under cotton-wheat rotation. *International Journal of Current Microbiology and Applied Sciences 7* (5): 1014-1026. | 5.38 |
| 5. | Amandeep Singh, Sushant Bhardwaj, Sanjay Kumar and Narender Kumar. (2018). A review: Groundwater level forecasting using artificial neural network. *Journal of Entomology and Zoology Studies* 7(3): 2433-2436. | 5.53 |
| 6. | Anita, Madan, V. K., Chauhan, R. and Kumari, B. (2018) Dissipation Behaviour and Effect of Different Decontamination Processes on Reduction of Residues of Novaluron in Tomato (*Lycopersicon esculentum* Mill.).*International Journal of Current Microbiology and Applied Sciences*,7(05):648-656 | 5.38 |
| 7. | Anjali, and Rani, V. (2018). Nutritional Composition of Functional Extrudates Developed from Wheat and Black Gram. *International Journal of Current Microbiology and Applied Sciences.* 7 (8): 375-381. | 5.38 |
| 8. | Anuradha, Goyal, R.K., Godara, A.K. and Sindhu, S.S. (2018). Strawberry runner production enhanced by plant growth promoting rhizobacteria. *International Journal of Current Microbiology and Applied Science,* 7(11): 3236-3238. | 5.38 |
| 9. | Anurag; Kumar; A.; Singh, D.; Singh, R.; Kumar, Manoj; Singh, S. and Kumar S. (2018). Changes in weather entities and extreme events in western Haryana, India, *Journal of Agro meteorology (Special issue), 135-142.* | 6.00 |
| 10. | Anurag, Kumar, A., Singh, D., Singh R., Kumar, M. and Singh, S. (2018). Local impact of climate change: A case study of western Haryana, India. *Journal of Agrometeorology* 20(SI): 135-142. | 6.00 |
| 11. | Arya, N., Singh, V. and Chauhan, N. (2018). Study on existing clothing practices of rural elderly women of Hisar. *The Anthropologist,* 34(1-3): 48-52. | 6.00 |

**6.6.3.5. Innovation and Best Practices:** *What are the innovative efforts of the University that help in its excellence in research?*

**a) Innovative efforts of the University**

**Natural Farming at Deen Dayal Upadhyaya Centre of Excellence for Organic Farming:** Research on Natural Farming has been initiated by cow urine based liquid/solid bio formulations to maintain and improve soil health in field on the Deen Dayal Upadhyaya Centre of Excellence for Organic Farming at main campus. The centre is already working on Natural and Organic Farming. The scientific data under different cropping systems based on horticulture, vegetable and field crops for natural farming as well as organic farming is being generated.

**Nutri-Cereals Research Station, Gokalpura (Bhiwani):** CCSHAU Nutri-Cereal Research Station, Gokalpura (Bhiwani) is spread over an area of 63 acres in semi-arid area near Haryana-Rajasthan state border. The research station has mandate for collection of germplasm of nutri-cereals available in the country and elsewhere, development of improved varieties/hybrids of nutri-cereals resistant against the pests and diseases, improved cultivation practices for sustainably higher yields, processing and value addition of the nutri-cereals.

**Centre for Micro-propagation and Doubled Haploid Production**: Horticultural crops are gaining popularity amongst farmers these days owing to the rich dividend paid. However, the availability of quality planting material of horticulture crops is one of the major constraints in expansion of area under horticulture crops. Therefore, CCSHAU, Hisar is in the process of establishing a state of art facility as Centre for Micro-propagation and Doubled Haploid Production to provide the viral disease free planting material to the farmers.

**Centre for Bio Nano-technology:** This Centre was inaugurated by Chief Secretary, Sh. Depinder Singh Dhesi on May 25, 2019. It has been started to revolutionize diversified industries including agriculture with the aim to reduce the amount of sprayed chemicals, minimize nutrient losses and to increase the yield. Mission of this centre is to contribute in the value research of the university through analytical support to the teachers, researchers and the students of the university; to provide expertise and resource to the university; and to generate revenue by providing open advanced analytical facilities to the researchers at academia and industry. Besides the following objectives, the main objective of the centre is to promote Bio-Nanotechnology research in the university and state.

**Establishment of Modern Indigenous Seed Bank:** A modern indigenous Seed Bank has been constructed for medium term storage of germplasm and other precious material of field crops, vegetables and horticultural crop species which was inaugurated by Dr. T. Mohapatra, Secretary DARE and DG (ICAR).

**Weather forecasting:** More than 6 lakh farmers from Haryana are connected with CCSHAU SMS based weather advisory system and they are being issued regular advisories for pest/disease control and other agronomical practices in various crops. The use of social media like WhatsApp, Facebook, etc. is also being used for providing information and other advisory purposes. Under the e-Mausam Krishi Sewa (ATMA project) e-mausamhau.com app has been made by the Department of Agril. Meteorology of the university to provide weather information to the farmers. As of today, there are 6.19 lakh registered farmers.

**GIS and Remote Sensing Softwares:** Resource set satellite LISS-III for 7 scene data of Haryana has been purchased from NRSA, Hyderabad. Real time images will be helpful for the

detection of farm problems such as biotic and abiotic stresses and further estimation of the area affected by biotic and abiotic stresses, crop health quantification, weed flora identification and crop growth & production estimation.

**Herbicide Residues laboratory:** State of art laboratory facilities have been created at the University for pesticide residue monitoring. Pesticide residues are being continuously monitored and residue testing is being done for new molecules before making recommendations.

**Grafted Vegetable Plants**

CCSHAU, Hisar has established vegetable grafting unit which has production facility for grafted vegetable plants in the university with the objective to overcome biotic and abiotic stresses for the welfare of farmers.

**Farm Advisory &e-resources:** The accuracy of rainfall forecast has now been improved from 81 to 92 percent. Pre-harvest forecasting of yield of cotton and wheat crops can reliably be made about 4-5 weeks in advance of the actual harvest using biometrical characters.

***e-Mausam* Service**: Weather SMS service was launched on the occasion of Kisan Mela on 21 March, 2011 to serve the farmers of the State. This service was further strengthened by start of a bilingual (Hindi & English) 'E-mausam' service through dedicated website (www.emausamhau.gov.in) with help from National Informatics Centre, Government of India and was inaugurated on 18th December, 2013. This web portal provides online weather data and agro-advisories, registration and feedback from farmers and other stake holders including extension officials of the State. In 2017, an android smartphone-based E-Mausam HAU App has also been developed which provides weather advisory and crop advisory.

**Micrometeorology Lab**: Education Minister, Haryana, Shri Kanwar Pal also inaugurated the newly established Micrometeorology Lab in the Agricultural Meteorological Department of the University. This lab will prove to be very helpful in assessing the effect of climate on crops and in researching and prevention of insects and diseases on crops, related to temperature, moisture and other seasonal factors. The lab is equipped with state-of-the-art equipments like Spectro Radiometer, Canopy Analyzer, Leaf Area Meter, Leaf Quantum Sensor and Hydrometer etc. which will assess the effect of weather on crops and alert about future activities.

***e-Resources*/Database Developed**: Two databases one containing comprehensive information on crop plant diseases and other one having details of plant mites have been developed and hosted on university website. A web-site having annotated data of rice genome has been prepared. The database has been prepared on proven postharvest technologies/equipments which were very much useful for the manufacturers, customers, dealers, etc. to avoid duplication, missing and overlapping of technology by manufacturers in the state.

**Database of Pollen Grains:** Data base of pollen grains of different plant species has been prepared which differ in their size, shape and aperture (number, position and character).

***e-Resources* on Farm Machinery:** e-Resources on farm machinery have been compiled along with the important specifications, photographs, manufacturers, address, etc. The specifications of important farm machinery have been uploaded in the University website, (www.hau.ernet.in/coaet/mach-FMPE.htm).

***e-tractor:*** Chaudhary Charan Singh Haryana Agricultural University has become the first agricultural university in the country to conduct research on electric tractors**.** The tractor is

powered by a 16.2 kilowatt battery and its running cost is very less as compared to diesel tractor.

**Combine Harvester Technology Training Laboratory**: A combine Harvester Technology Training Laboratory has been set up in the Department of Farm Machinery and Power Engineering of the University, in collaboration with CLAAS group, Germany. In this lab, working models of different components of combine harvester have been displayed. It will help in better understanding the working of a combine harvester.

**Automatic seeding machine**: Automatic seeding machine has been installed for nursery raising of high value crops. Automation in the seeder will help in reducing the wastage of the costly seeds, time required for sowing and it will indirectly affect the cost of the vegetables and fruits through minimizing the workers expenses

**Artificial Intelligence and Robotics Laboratory**: The laboratory has been established in order to make better use of Automation and Robotics in the field of agriculture. This will be helpful for the farmers in efficient use of fertilizer application and detection of insect-pest infestation. In turn, this will be helpful in increasing the farmer's income.

**Fisheries Science:** The University established a College of Fisheries Science in 2019 with five departments namely Department of Aquaculture, Department of Aquatic Animal Health Management, Department of Aquatic Environment Management, Department of Fish Engineering, Department of Fish Processing, Technology, Department of Fisheries Extension, Economics and Statistics and Department of Fisheries Resource Management. The college was establisehd with an aim to produce trained graduates equipped with modern techniques and management practices in Fisheries who can help the fishers/entrepreneurs or other stake holders to exploit the natural resources. Providing quality education, research and training in fish breeding/producing value added products/aquaponics etc. so that they can face and tackle challenges of fast developing fisheries sector.

**Biotechnology:** Realizing the potential of various applications of biotechnology in teaching and research in the areas of agriculture, industry and environment, the University has established a College of Biotechnology in 2022 with five departments namely Department of Agricultural Biotechnology, Department of Molecular Biology & Biotechnology, Department of Industrial Biotechnology, Department of Bioinformatics & Computational Biology, Department of Bio-nanotechnology.

**b) Best practices developed/adopted**

**Gender-specific markers**: The SCAR markers in date palm, Jojoba and Paradise tree have been developed. The protocol has been standardized for sex identification in male/female plants at an early stage of development.

**Molecular breeding/Speed breeding:** High yielding water efficient aerobic lines of rice have been selected using phenotypic and marker assisted selection strategies. In addition, marker assisted breeding is being practiced for the selection of mineral-rich (Fe & Zn), high-yielding and BLB resistant genotypes in rice and mungbean.

**Integrated Farming System Model**: Integrated Farming System Model has been developed over an area of one ha comprising of field crops, animal unit with two buffalo, vegetables, fruit and flower plants, mushroom cultivation, vermicompost unit and quality FYM production. From this model, net profit of Rs. 2,65,435/- was recorded during 2021-22.

**Zero Tillage and Happy Seeder Sowing:** University played a leading role in acceleration of zero-tillage and other resource conservation technologies in rice-wheat cropping system. These technologies were cost effective, demonstrated and transferred directly at farmers' fields.

**Direct Seeded Rice:** University has played a major role in developing the technique of direct seeded rice and full package of DSR was developed. Long-term study on different crop establishment methods in rice-wheat system indicated that the productivity of rice-wheat cropping system was better under direct seeded rice (96 q/ha) as compared to puddle transplant rice (93 q/ha).

**Crop Residue Management:** The technologies of combine harvester with straw management system, straw baler, chopper, and sowing of wheat with happy seeder help in management of rice crop residues by bringing back the organic waste to the soil/field and thus, soil health is also maintained on a sustainable basis. Microbial consortia are also being developed for *in situ* and *ex situ* decomposition of rice straw.

**Furrow irrigated raised bed system:** Furrow irrigated raised bed (FIRB) system of planting also helps in saving of water with improved yields of wheat. Recent studies in seed crop of wheat showed that FIRB system of planting with 3 rows on 70 cm bed was found superior.

**Agri-silvi-horticulture:** The agri-silvi-horticultural system of khejri + guava + clusterbean barley fetched higher net returns than sole cropping of clusterbean barley. There was appreciable build up in soil organic carbon in this system as compared to sole cropping in dryland areas of south Haryana.

**National Initiative on Climate Resilient Agriculture:** Results of demonstrations conducted at three NICRA villages indicated that adoption of complete package of practices recorded 13.5% higher yield over farmers' practices. 'Climate Smart Villages' have been established under the NICRA project in Yamuna Nagar and Sirsa districts.

**Value Added Fruits and Vegetable Products**: Cheese and toffee prepared with guava and mango pulp in the ratio of 80: 20 and toffee 60: 40, respectively were highly acceptable. Cheese and toffee prepared by blending mango pulp with bael pulp showed higher acceptability.

The squash prepared with 40% blended pulp of jamun and lemon (90:10) remained acceptable up to three months of storage at room temperature (35 ± 50 C). Aloe vera: aonla (25:75), Aloe vera: papaya (25:75) and Aloe vera: aonla: papaya (10:10:80) juice/pulp blends were found most acceptable for the preparation of RTS drink and squash.

**Nutritionally Rich Composite Flours**: Various types of composite flours using different processed coarse cereals, pulses, medicinal crops and microgreen blends in dried powdered form have been found to be nutritionally good for utilization in development of value added baked, traditional and extruded products.

**Micro-irrigation:** Micro-irrigation systems ensure uniform water application. Therefore, all plants in a field receive equal amount of water. Higher uniformity results in efficient irrigation, thereby, causing less wastage of water, power and fertilisers. The university has established an automated micro irrigation system for irrigation and fertigation studies under surface and sub surface drip irrigation for enhanced water and fertilizer use efficiency. Micro-irrigation technology ensures water use efficiency as much as 50- 90%. This can be achieved due to the fact that micro-irrigation helps to reduce conveyance losses, runoff, evaporation losses, seepage and deep percolation losses significantly.

**Adjunct Faculty:** In order to render help and guidance pertaining to research, developing research projects, education and developing viable collaboration between institutions and industry to synergise the outside 'real world experience with the inside intellectual pursuits in the university, 33 International and national eminent scientists have been appointed as Adjunct Faculty from various universities/institutes of USA, UK, Australia, Swizerland, Philippines, Croatia, Austria, UAE, Kenya and India for a period of two years.

**6.6.3.6. IPR Cell/ ITMU:** *Whether the University is currently having functional Intellectual Property Right Cell in place. Mention the date of the meetings conducted by the Cell in last three years and what were the major recommendations. Is the University having Institute Technology Management Unit in place. Mention the date of the meetings conducted by the Unit in last three years and what were the major recommendations.*

The University is currently having functional Intellectual Property Right Cell and BPD Unit (ITMU) in place. The IPR cell was launched in this University in December, 2005. The University has also got its trade mark for various University products. By registering for trademark the University name and fame can be ascertained from infringement claims and restrict the use of CCSHAU brand name by others and help the farming community to procure genuine quality products of the University. Intellectual Property Rights play a key role in obtaining an advantageous position in the competitive technological era for economic growth. Therefore, the cell will organise the trainings/workshops/seminar to enhance the skills of scientists, research scholars and faculty members in research work and increases the number of Intellectual Property Registration from the university. Scientists, students, research scholars will be motivated for the new innovations, development of cost effective, economically viable, environmentally feasible, socially acceptable agricultural technologies to compete in global market and the growth of IPR for the economic benefit of the state as well as for the country.During the last five years, various discussions were held with different functionaries and 63 numbers of IPRs have been filed and 39 IPRs have been granted so far to the University. During the period under report, 25 IPRs have been granted to University for its various technologies

**List of Patents/Copyright/Design Granted: 25 (Patents 9, Copyrights 10, Design 06 (2018-23)**

The University has a fully functional ITM Unit with nomenclature of Business Planning and Development Unit (BPD Unit) at Directorate of Human Resourse Management. After the establishment of BPD Unit, the University has signed 579 non exclusive license agreements with different firms/stakeholders for commercialization of technologies. During the period of report, the University has signed 56 non exclusive license agreements with different firms for the commercializationof 11 no. of technologies and technology transfer, incubation, Research and Development etc. (Detailed list is given under section **6.6.2.7**). During this period, a revenue of Rs. 46,26,000/- has been generated by the BPD Unit through membership fee and technology licensing through Non-Exclusive License Agreementsand Rs. 25,58,000/- have been generated through public private partnership agreements.The Cell plans to organize several programs to attract industries and entrepreneurs in order to fulfil its objectives of technology licensing and capacity building. The

proposals for licensing of technologies are decided through approval from MoU committee in its meetings.

**Fund operation committee meeting held during the last three years (Proceedings, SD-VIII)**

| S. No. | Meeting | Date of Meeting |
|---|---|---|
| 1. | Fund operation committee meeting | 09.07.2020 |

**6.6.3.7. Central Instrumentation Unit:** *Is there a Central Instrumentation Unit in place? What are the facilities available in the unit?*

**Central Instrumentation Unit, CCSHAU, Hisar**

**Central Instrumentation Unit** was established with the name **Central Laboratory** at Chaudhary Charan Singh Haryana Agricultural University in 2001 to promote research and development in the state. The laboratory facilitates research activities by providing analytical support to conduct independent quality research in the key areas of Agriculture, Biotechnology and allied sectors for agricultural development. It offers state of the art analytical facilities for the academic and research institutes of Haryana and outside. The laboratory also strives to train the students and researchers of the University and other academic institutes by providing hands-on experience on operation and management of advanced analytical instruments.

The detailed list of the facilities available in the laboratory is as follows:

| Sr. No. | Name of Instrument | Qty. | Make And Model | Country of Origin | Cost(Rs.) | Current Status |
|---|---|---|---|---|---|---|
| 1. | IC -ICPMS | 1 | Thermo Fisher Scientific Icap-RQ | USA | 1,49,50,370 | Working |
| 2. | FTIR | 1 | Thermo Fisher Scientific Nicolet Is-50 | USA | 57,00,000 | Working |
| 3. | Particle Size Analyzer | 1 | Methrom Microtrac Nanotrac Wave | USA | USD 56,800 | Working |
| 4. | Scanning Electochemical Microscope | 1 | Methrom PGSTAT-302M | Netherland | Euro 1,50,876 | Working |
| 5. | PG STAT | 1 | Methrom Multi Auto Lab M204 | Netherland | Euro 1,56,487 | Working |

**6.6.3.8. Global Support:** *Global Support may assist Universities to organize and undertake activities outside of the Regions by providing a centralized location for administrative resources and a single point of contact for addressing related questions. Does the University maintain functional experts in a range of administrative areas to provide technical advice and guidance in the areas of exchange programmes, visa related issues, International MoUs, collaborative research etc.?*

Yes, the University has functional experts in a range of administrative areas to provide technical advice and guidance in the areas of exchange programmes, visa related issues, International MoUs, collaborative research.Universityis offering a Global support through the **International Affairs Cell** which was established as per the instructions from the Ministry of Home Affairs, Government of India, communicated through local police (FRRO) Branch, Hisar. CCS Haryana Agricultural University took the lead to establish an International Affairs Cellin the Directorate of Human Resource Management with an objective to keep fast tracking, uploading & getting latest updated online information/data of foreigners visiting CCSHAU. International Desk has linkages with DARE (Department of Agricultural Research & Education, Government of India under Ministry of Agriculture). The Desk works with the collaborative efforts of local administrative authorities such as intelligence bureau (IB) & Central Intelligence Department (CID).

Incharge and Coordinator, International Affairs Cellis the point of contact which addresses the international student related issues, along with a range of other inter- university linkages for student's exchange. The permission and clearance from DARE/MHA, MEAGovernment of India regarding visit of foreign participants for study, short visit, delegations and for trainings to this University is sought by this Cell and necessary arrangements for successful conduct of these visits are made thereafter.

The International Affairs Cellalso looks after uploading and updating the details of foreign students and delegation's information online regarding the registration, stay permit, visa extension, exit visa and extension of stay permit, etc in CCS Haryana Agricultural University. During the period under report, online registrations of 72 foreign students and several adjunt faculty who visited this University completed by the International Affairs Cell**,** Dean, PGS. Thirty-three visits of international delegations were coordinated.

**Important International Visits and other Activities**

| Sr.No | Date of Visit | Visitor/Institute/Country | Purpose |
|---|---|---|---|
| 1. | April 23-24, 2018 | Georgi Kirov, Head of Sales Biogest Biogas, Austria | Research Collaboration |
| 2. | April 23-24, 2018 | Joost Van Rooij, Hortifuture, Netherlands | Research Collaboration |
| 3. | February 25, 2020 | Jessica Garrels<br>Senior Programme Manager, USA | Project meeting |
| 4. | March18-22, 2020 | Noor Seddiq, USA | Research & Academic Collaboration |
| 5. | June 28, 2022 | JessicaGarrels<br>Senior Programme Manager, USA | Project meeting |
| 6. | December 18, 2022 | Karim M. Maredia, USA | Research Collaboration |

| | | | |
|---|---|---|---|
| 7. | November 23, 2022 | Ian Anderson and Nisha , WSU Australia | MReS degree programme |
| 8. | February 13, 2023 | Lukasz Drewniak and Kumar Parnaw, Poland | Research Collaboration |

**International Training Programmes**

Tailor-made courses in the fields of agriculture, home science, extension management and research management have been planned and offered at the international level too, on specific requests from the organizations abroad. Since its inception AAREM has conducted forty-nine international training programmes for foreign nationals. During the period of report six such training programmes were organised.

**Lectures delivered by international adjunct faculty**

| Sr. No. | Date | Name and address of Adjunct faculty | Title |
|---|---|---|---|
| 1 | 23.06.2021 | Bhagirath Chauhan, Professor (Weed Science) The University of Queensland, Australia | Publication in International Journals |
| 2 | 06.07.2021 | Harbans Bariana, Professor of Cereal Rust Genetics The University of Sydney, Australia Adjunct Faculty, CCSHAU, Hisar | Implementation of technological advances to achieve food security |
| 3 | 22.07.2021 | Urmil Bansal, Principal Research Fellow – cum- Associate Professor, The University of Sydney, Australia | Mapping, fine mapping and cloning of rust resistance genes in wheat |
| 4 | 05.08.2021 | Ranvir Singh, Assoc.Professor, Massey University, New Zealand. | Water and nutrition sensitive agriculture- increasing land and water productivity for sustainable food security |
| 5 | 26.08.2021 | Craig McGill, Senior Research Officer, Massey University, New Zealand | Seed quality: why is it a cornerstone for food security? |
| 6 | 15.09.2021 | Ana Luísa Oliveira, Coordinator, Excellence in Breeding Platform, CIMMYT, Kenya | Genetic molecular markers and their deployment in public sector plant breeding programs : challenges and opportunities |
| 7 | 29.09.2021 | Dror Minz, Director, Institute of Soil, Water and Environmental Sciences, ARO-Volcani Institute, Ministry of Agriculture and Rural Development, Israel | What can the microbiome tell us about the conditions in agricultural soil? |
| 8 | 29.10.2021 | Surya Kant, Senior Research Scientist, School of Applied Systems Biology, La Trobe University, Australia | Advanced technologies to accelerate yield improvement in food crops |
| 9 | 01.12.2021 | Hermann Buerstmayr | Challenges for crop improvement in times of global change |

**International Training/ Workshops**

| S. No. | Name of the Course | Period |
|---|---|---|
| 1. | Capacity Development for Agricultural Innovation Systems: *Agricultural Research* and Climate-Smart Agriculture Approaches | 07-18 March, 2020 |
| 2. | Development of Essential Research Capabilities: Design, Implement and Perform Analysis in Applied Research" | 23 & 29 June, 2020. |
| 3. | Integrated Pest Management | 14, 15 & 22 September, 2020 |
| 4. | Climate change | 16, 23,30 July and 06 August, 2020 |
| 5. | Training on Agribusiness Experiential Learning | 05 &06 April, 2021 |
| 6. | Basic and Advance Laboratory/Farm Technologies in Agriculture | 28-30June, 2021 |
| 7. | Biotechnologies in environmental engineering – scientific and business perspective | 13-19 February, 2023 |

Activities and Trainings of foreign students under International Cell

**International Webinars/ Seminars**

| S. No. | Name of the Course | Period |
|---|---|---|
| 1. | What can the microbiome tell us about the conditions in agricultural soil | 29 September, 2021 |
| 2. | Antibiotic Resistance in Agro-environments between: Epidemiology and Microbial Ecology | 24 May, 2022 |
| 3. | Reducing carbon emissions- Simple solutions to complex problems | 3 June, 2022 |
| 4. | Your Future after Undergraduate or Postgraduate Degree | 9 September, 2022 |
| 5 | Genomics and Metabolomics | 21-27 December,2022 |

**International Students:** Seventy-two foreign students from Vietnam, Ethiopia, Sudan, Afghanistan, Ghana, Uganda, Indonesia, Rwanda, Nepal, Sri Lanka, Egypt, Namibia, Myanmar, Zambia, Tanzania, Liberia, Nigeria and Fiji have completed UG and PG degree programmes in various disciplines. Students from different countries have completed their degree programme and many more are studying at present in various colleges of the university.

Professor B.R. Kamboj, Vice-Chancellor, with foriegn students

Foriegn Students in field and Library

## International Collaborations

University has International partnership in academics in the field of *Agricultural Research* and education with CIMMYT, Czech University of Life Science, Prague; International University of Japan; James Hutton Institute Dundee Scotland; Tokyo University of Agriculture Japan; Agriculture Research Organization Israel; COM University Turkey; University of Illinois; Michigan State University, USA; University of Massachusetts Amherst, USA; Western Sydney University,Australia; AFU University Nepal; University of Warsaw, Poland.

## International Projects

### GRAIN-MSU Project

We have lead GRAIN-MSU Project in collaboration with Michigan State University funded by USAID, USA to support students from five different provinces of Afghanistan to complete their Master and Doctoral degree program at CCSHAU, Hisar. During this project, monthly meetings with GRAIN coordinator of Michigan state University were convened and compiled the monthly progress reports till successful completion (2023) of the project.

### CAAI-VT Project

We have lead Catalyzing Afghan Agricultural Innovation (CAAI) project in collaboration with Virginia Tech University, USA to train Afghanistan scientists in pioneering area of Agriculture sector towards sustainability.

### SPARC Project:

This is a multidisciplinary international project in collaboration with many foreign universities to exchange faculties for strengthening research and academic activities. The students are also getting benefit through learning new research techniques and skill enhancement. The list of the projects is as follows:

| Sr. No. | Department | Scheme/Title of Project | Sanctioned amount | Name of PI |
|---|---|---|---|---|
| 1. | Molecular Biology Bio-informatics &Bio-technology | **C (g) MBB-36-OA (SPARC)-** Application of CRISPR/ Cas9genome editing techniques for development of low silicone rice suitable for paddy straw management. | 2950000 | Dr. Upendra Balyan |
| 2. | Agricultural Meteorology | **C (g) Agrimet-21-OA (SPARC)-** Promoting climate smart farming through agro-meteorological techniques. | 2899970 | Dr. Surender Dhankhar |
| 3. | Seed Science & Technology | **C(g)SST-6-OA(SPARC)-** Standardization of seed testing procedures and sto*Rabi*lity for medicinal | 2899970 | Dr. Axay Bhuker |

| | | | | |
|---|---|---|---|---|
| | | plants (Moringa and Gokhru) | | |
| 4. | Botany and Plant Physiology | **C(g)Bot-20-OA(SPARC)-** Combining rust resistance with non-structural carbohydrates (NSC) in wheat to achieve food security | 2699970 | Dr. Renu Munjal |
| 5. | Renewable &Bio Energy Engineering | **C(g)COAET-8-OA(SPARC)-** Identification of techno-economically viable biomass conversion technologies for crop residue management. | 2949970 | Dr. Y. K. Yadav |
| 6. | Botany and Plant Physiology | **C(g)Bot-19-OA(SPARC)-** Genotyping by Sequencing Genome-wide Association Study and Genomic Selection Approaches for the Complex Trait like stress tolerance and yield in Soyabean | 2950000 | Dr. Vinod Goyal |

**Institutional Development Project - NAHEP- IDP CCSHAU, Hisar:**

For strengthening the capacity of researchers, the University has implemented Institutional Training Programme under NAHEP-IDP. It is a special faculty and students training programme to get exposure from global institutions in area of academic and research. Several students and faculties have visited esteemed international institutions/ universities leading in different agricultural and allied sectors. This has strengthened the research quality and academic curriculum that boost the university in top most agricultural universities in India.

**Title of the project:** Strengthening Institutional Capacity to Produce Skilled Professionals for Market Driven Agriculture: The IDP sub-project entitled "Strengthening Institutional Capacity to Produce Skilled Professional for Market Driven Agriculture" was sanctioned by the National Agricultural Higher Education Project for 2017-18 to 2023-24

**Objectives**:

- Curriculum enhancement with focus on quality and excellence for developing professionally qualified students and next generation of agri-professionals.
- Empowering students and faculty with new skills and knowledge.
- Innovative partnership with foreign universities and private sector.
- Sharing the acquired knowledge and experiences with other agricultural institutes in India for strengthening their capacity.

**Achievements on output-outcome framework indicators:**

| Sr. No. | Indicators | Cumulative Target (till March 2023) | Cumulative Achievements (till March 2023) |
|---|---|---|---|
| 1. | % increase in student placement rates (in %) | 60 | 63 |
| 2. | No. of students completed international trainings (number) | 80 | 101 |
| 3. | No. of faculties completed international trainings (number) | 35 | 26 |
| 4. | No. of new facilitative units established to enable academic and research infrastructure (IIIC- Industry Institution Interaction Cell / Start up cell / incubation cell / placement cell, alumni cell, conference halls, smart/virtual classrooms, AR/VR, language lab, other digital infrastructure etc.) | 13 | 13 |
| 5. | No. of MoU signed with other HEIs, industries | 12 | 138 |
| 6. | Number of pilot courses added/upgraded on communication skills, entrepreneurial skills, information processing, creative and innovative thinking, leadership skills, industry-oriented courses. | 3 | 2 |

| | | | |
|---|---|---|---|
| 7. | Number of national level trainings/workshops/webinars organised to improve the learning outcomes of students | 0 | 99 |
| 8. | Number of national level trainings/workshops/webinars organised for faculty upgradation | NA | NA |
| 9. | Improved AU revenue generation (% change in Internal revenue of AU) | 41 | 47 |
| 10. | Direct project beneficiaries | 5000 | 6394 |
| 11. | Female beneficiaries (share in total beneficiaries) | 2500 | 3760 |

**Outcome focused activity milestones (Cumulative):**

| Objective | Target | Achievement | Out come |
|---|---|---|---|
| Curriculum enhancement with focus on quality and excellence for developing professionally qualified students and next generation of agri-professionals | Capacity Building of faculty | 26 faculty was deputed for International training to the International Institutes | • The newly trained faculty has been assigned to train the other faculty working in particular area of research.<br>• They delivered the seminars and prepared collaborative research proposal with foreign partners<br>• Students got real time field exposure in the area of crop improvement with latest equipments and latest techniques of Seed testing and quality improvement |
| | International training of students | 101 students have completed the international training at Czech University of Life Sciences, Prague; The University of Sydney (Plant Breeding Institute); Massey University, New Zealand; Asian Institute of Technology (AIT), Bangkok, Thailand; Massey University, New Zealand; Mr. Hua Thai NHAN, Vietnam | |
| | New certificate courses and short term trainings | Three certificate courses has been successfully completed) | Revenue generation to sustain these courses after the completion of project. |
| | Learning and teaching development services leading to good governance, smart Lecture rooms & Modernized labs | Five labs and eight lectures rooms are renovated and upgraded.<br>The equipments for smart classroom and robotic and automation lab have been installed | Research facility and high impact publication.<br>Smart lecture rooms could be used to provide ICT enabled instructions |
| Innovative partnership with foreign universities and private sector | University–industrial linkage | Industry Conclave- New Placement Avenues in Agriculture (IC-2020) on February 13-14, 2020 was organized<br>Brainstorming with industries persons<br>MoUs with institutes and industry<br>International conference on" Climate resilient agriculture for food security and sustainability" at CCSHAU, Hisar<br>INDO-POLISH International training on "Biotechnologies in Environmental Engineering-Scientific and Business Perspective<br>The Fuss About Food Supplements' organized under online lecture series "Food safety and Security: Global Perspective | Exposure visits to industries, Short term trainings, market related assignments, Climate smart technologies & collaborative research with industries of agri graduates are being focused<br>Students shared their experience, innovative ideas and their future goals with the resource persons |
| | Student entrepreneurship | Incubation centre has been established and students are being trained for entrepreneurial skill | The incubates for startup of agribusiness are being trained<br>Student learned various |

| | | | |
|---|---|---|---|
| | | Several workshops and trainings for entrepreneurship have been conducted | innovative techniques of agriculture |
| Sharing the acquired knowledge and experiences with other agricultural institutes in India for strengthening their capacity | National and international Expert/ Technical consultancy | 26 faculties were trained in various identified area through international trainings | The acquired knowledge of the faculty is being shared with other faculty members/ institutes through various short term courses and seminars |

**Tokyo University special exchange programme, Tokyo**

Many students have been selected for their UG/PG/Ph.D. program to complete their degree program every year with scholarship funded by Tokyo NODAI.

**Tokyo International Students Summit (ISS)**

Every year students are selected to participate in international student summit under Tokyo International Students Summit (ISS) open call. Under this summit, CCSHAU students were awarded in different themes.

**DUO-INDIA FELLOWSHIP AWARD 2020 (PROFESSORS)**

One-month exchange visit each of Indian and foreign PIs in each others's Institute

**Funding Agency:** ASEM-DUO, South Korea

**Objectives**

- Promoting exchange of scientific personnel between India and European countries on a balanced and permanent basis.

- Developing academic and research linkages between the two institutions

**Budget:** Euro 3000/- (including travel and living expenses for one month) to each faculty

**Duration/Tenure** January-December, 2020

**Fellowship 1:**

**Indian PI:** Dr. Dev Vart, Assistant Scientist (PB), Bajra Section, Department of Genetics & Plant Breeding

**International PI:** Dr. Rattan Yadav, Reader, Genetics, Genomics and Plant Breeding, Aberystwyth University, Aberystwyth

Seminar-cum-interactive session with Dr Rattan Yadav, Duo-India Exchange Professor (2nd from left)

**Fellowship 2:**

**Indian PI:** Dr. Renu Munjal, Principal Scientist (P), Wheat Section, Department of Genetics & Plant Breeding

**International PI:** Dr. Soren K. Rasmussen, Professor, University of Copenhagen, Denmark

**Fellowship 3:**

**Indian PI:** Dr. Vinod Goyal, Assistant Scientist, Department of Botany & Plant Physiology

**International PI:** Dr. Arthur Korte, Professor, Julius-Maximilians University, Wurzburg, Germany

**MoUs for National and International Collaboration has been covered under the section 6.6.1.11. Collaboration with Academic Institutions and Industry.**

**Student's selection in foreign universities**

Many students were guided and selected for their UG and PG degree program in prestigious universities globally.

**Dual Degree Ph.D. programme 2021**

| Sr. No. | Name | Discipline | WSU Supervisors | Status |
|---|---|---|---|---|
| 1. | Mantavya | Foods & Nutrition | Dr. Vijay Jayasena | Pursuing Ph.D. research work at WSU |
| 2. | Sindhu | Entomology | Dr. Sally Power | |
| 3. | Charan Singh | Soil Science | Dr. Uffe Nielsen | |

**Joint MRes programme 2022-23**

| Sr. No. | Name | Discipline | WSU Supervisors | Status |
|---|---|---|---|---|
| 1. | Bhavesh | Agronomy | Prof. Brajesh Singh | Recently joined |
| 2. | Sagar Kwatra | Plant Pathology | Dr. Chris Cazonelli | Received offer letter |
| 3. | Kanti Ghimire | Foods & Nutrition | Dr. Chris Cazonelli | |

**Other International Projects:**

| Sr. No. | Departments | Name of Scheme | Scheme entitled | Amount (Rs.) | Funding Agency |
|---|---|---|---|---|---|
| 1 | Genetics &Plant Breeding | **C(g)PB-110-OA (CIMMYT)** | Forecasting Agricultural Output using space, Agro-meteorology and land based observation | - | CIMMYT |
| 2 | Genetics & Plant Breeding | **C(g)PB 81-OA** | Partnership based genetic enhancement of pearl millet and high grain iron density and improvement human nutrition in India | 1833000 | ICRISAT |
| 3 | RRS, Karnal | **C(g)RSK-26-OA** | Climate Smart Management Practices. | 788480 | IRRI, Philippines |
| 4 | RRS, Karnal | Funds received in 2022-23 | Direct Seeded Rice Consortium (ICAR-IRRI Collaborative Workplan Project) | 343000 | IRRI, Philippines |
| 5 | KVKs Yamuna Nagar, Karnal, Panipat, Sonepat | Funds received in 2022-23 | NEXUS Gains: Realizing Multiple benefits across water, energy, food and ecosystems (Forests, biodiversity) Initiative | 2429400 | IRRI, Philippines |
| 6 | Microbioolgy | C(g)Micro-36-OA | Assessment of Agri-biomass from agro-climate zone of Haryana. | 1736980 | M/s Fortum India Pvt. Ltd., Gurugram |
| 7 | Dean PGS | C(g)Dte-R-19-OA | Indo-US-VT-CAAI Programme. | 1440499 | Virgania Tech. University, USA |
| 8 | RBEE | RBEE-2-OA | Production and Evaluation of Organic Fertilizer using Land Care 1611 | 1092996 | Tokyo University, Japan |

**Corporate social responsibility (CSR) funding**

University had organized an International Conference on GINMA, 2019 & fund of **Rs. 16.93 lakh** were raised which were sponsored by various corporate like Coromandel, Corteva, PI industries, Bayer, FMC, Syngenta, UPL etc.

Recently, University had organized an International Conference on INTCLIMATE & fund of **Rs. 11.63 lakh** were raised which were sponsored by various corporate such as Bayer Crop Science limited, Rasi seeds, Corteva etc.

University has raised funds of **Rs. 73.90 lakh** for various CSR projects including stainless steel dual drum dustbins with SS stand; solar lights (Installed at COA, Bawal; 100 lights); Solar lights (Installed at COA, Kaul; 75 lights); incinerators and sanitary napkin dispenser covered and sponsored by HPCL, ONGC, IREDA and ONGC companied, respectively.

A fund of **Rs. 2 lakh** were raised for sponsoring workshop covered by ONGC company.

COA&ET has raised fund of **Rs. 70, 000/-** for Development of HAU type Hempseed sponsered by Canapure Pvt. Ltd. Bhopal.

University also raised funds of **Rs. 2,03,38,000/-** for infrastructure development *i.e.*, Potato Grading Line, Vegetable Seed Packing Machine and Vegetable Grafting Unit installed at Department of Vegetable Science, COA, Hisar.

Besides, CCSHAU has also contributed towards society and taken steps to ensure that there are positive social and environmental effects associated with it. Our university conducted following actvities as social responsibility:

1. The University contributed an amount of **Rs. 2 crore** in chief minister relief fund for the Corona.
2. The University has adopted many adjourned villages through it's constituent colleges. Adoption is for conducting awarness programme, extension activities, skill trainings and motivational programme for betterment of social and economical lifestyle of residents.

### 6.6.4. Extension Support:

CCSHAU conceived and implemented a unique system of extension education for the transfer of technology to end users at its inception itself. This system was highly acclaimed by the ICAR Review Committee (1978) headed by late Dr. M.S. Randhawa and was appreciated at the National level. The Directorate of Extension Education acts as a bridge between the research scientists, farmers and the other end user beneficiaries to provide the feedback. Therefore, the role of this Directorate is significant in two ways *i.e.,* (i) transfer of technologies from scientists to the farming communities through KVKs and (ii) Extension Specialists to formulate research project acccordingly.

**6.6.4.1. Extension Council:** *Mention the present composition of the Extension Council and provide the dates of meetings in last five years in tabular form.*

Extension Education Advisory Committee considers and makes recommendations in respect of the Extension Education Programmes and Projects of the University; co-ordination of extension education activities for improvement of agriculture and allied sector for the development of rural communities; development of farmers' education & training and advisory services; identification and resolution of field problems and transmission of information; methodology of extension education; evaluation of the Krishi Vigyan Kendra functions and any other matters referred to it by the Vice-Chancellor, Board of Management or any other authority of the University.

**Constitution of Extension Education Advisory Committee**

The following are the permanent members of CCSHAU, Hisar Extension Education Advisory Committee:

| Sr. No. | Extension Education Advisory Committee | Position |
|---|---|---|
| 1. | Vice-Chancellor | **Chairman** |
| 2. | Registrar | Member |
| 3. | Director of Research | Member |
| 4. | Comptroller | Member |
| 5. | Librarian, Nehru Library | Member |
| 6. | Dean, Post Graduate Studies | Member |
| 7. | Dean, College of Agriculture | Member |
| 8. | Dean, COBS&H | Member |
| 9. | Dean, COHS | Member |
| 10. | Dean, COAE&T | Member |
| 11. | Director General, Agriculture and Farmers Welfare, Haryana | Member |
| 12. | Director General, Horticulture, Haryana | Member |
| 13. | Director General Animal Husbandry, Haryana | Member |
| 14. | Director, Women & Child Developement Haryana | Member |
| 15. | Director, CIRB, Sirsa Road, Hisar | Member |
| 16. | Associate Director (Extension) | Member |
| 17. | Associate Director (Publication) | Member |
| 18. | Associate Director (Training) | Member |
| 19. | Manager ATIC | Member |
| 20. | HOD (Genetics & Plant Breeding) | Member |
| 21. | HOD (Plant Pathology) | Member |
| 22. | HOD (Soil Science) | Member |

| | | |
|---|---|---|
| 23. | HOD (Microbiology) | Member |
| 24. | HOD (Centre of Food Science & Techology) | Member |
| 25. | HOD (Farm Machinery & Power Engg.) | Member |
| 26. | HOD (Soil & Water Engg.) | Member |
| 27. | President HAUTA | Member |
| 28. | Sr. Coordinator KVK, Panipat | Member |
| 29. | Sr. Coordinator KVK, Mandkola | Member |
| 30. | Sr. Coordinator KVK, Karnal | Member |
| 31. | Associate Director (FAS) | Member |
| 32. | Assistant Director (Extension Education) | Member |
| 33. | Director Extension Education | Member Secretary |

In addition to this, Scientitfic Advisory Committee (SAC) for Krishi Vigyan Kendra is also constituted as under:

| Sr. No. | Extension Education Advisory Committee | Position |
|---|---|---|
| 1. | Vice-Chancellor | **Chairman** |
| 2. | Director of Extension Education | Member |
| 3. | Director ATARI | Member |
| 4. | Representative of ICAR | Member |
| 5. | Regional Director, RRS | Member |
| 6. | District Officials of Line departments (Agriculture, Horticulture, Animal Husbandry, Soil Conservation, Fisheries, Irrigation, Social Welfare and small scale industry | Member |
| 7. | Representative of Lead Bank | Member |
| 8. | Farm Radio Officer and Doordarshan | Member |
| 9. | Two Representatives of progressive farmers | Member |
| 10. | Two Representatives of progressive Women farmers | Member |
| 11. | Senior Coordinator of respective KVKs | **Member Secretary** |

**Scientific Advisory Committee Meeting**

SAC meetings are convened once in a year in all the ICAR funded KVKs of Haryana

| Sr. No. | Year | SAC meetings convened |
|---|---|---|
| 1. | 2018 | 11.10.2018 to 22.11.2018 |
| 2. | 2019 | 13.09.2019 to 08.11.2019 |
| 3. | 2020 | 02.09.2020 to 16.09.2020 |
| 4. | 2021 | 02.08.2021 to 22.10.2021 |
| 5. | 2022 | 07.07.2022 to 29.08.2022 |

**ICAR funded KVK's wise SAC meetings convened**

| Year | 2018 | 2019 | 2020 | 2021 | 2022 |
|---|---|---|---|---|---|
| Bhiwani | 22.11.2018 | 04.11.2019 | 09.09.2020 | 18.08.2021 | 29.08.2022 |
| Faridabad | 11.10.2018 | 06.11.2019 | 07.09.2020 | 12.08.2021 | 21.07.2022 |
| Fatehabad | 31.10.2018 | 24.09.2019 | 11.09.2020 | 26.08.2021 | 08.08.2022 |

| | | | | | |
|---|---|---|---|---|---|
| Hisar (Sadalpur) | 17.10.2018 | 13.09.2019 | 09.09.2020 | 23.08.2021 | 01.08.2022 |
| Jhajjar | 05.11.2018 | 30.09.2019 | 14.09.2020 | 22.10.2021 | 30.08.2022 |
| Jind | 15.10.2018 | 08.11.2019 | 02.09.2020 | 02.08.2021 | 07.07.2022 |
| Kaithal | 12.11.2018 | 03.10.2019 | 02.09.2020 | 30.09.2021 | 11.07.2022 |
| Kurukshetra | 16.11.2018 | 30.10.2019 | 04.09.2020 | 10.08.2021 | 29.08.2022 |

SAC Meetings

**6.6.4.2. Directorate of Extension Education:** *Give brief information about the present establishment of the Directorate of Extension Education, staff pattern, KVK and other off-campus extension programmes, extension coordination mechanism, extension and technology dissemination system and contribution in academic programmes.*

The Directorate of Extension Education is headed by a Director who is assisted by Associate Director (Farm Advisory Service), Joint Director (Farm Information and Communication Service) and Associate Director (Publication), Associate Director (Trainings), Manager (ATIC), Associate Directors (Agronomy, Horticulture, Plant Pathology, Soil Science, Entomology, Vegetable Science, Farm Machinery and Power Engineering, Home Sciences). Policy decisions regarding the functioning of the Directorate of Extension Education are taken by the Extension Education Advisory Committee. This Committee is headed by Vice Chancellor and Director of Extension Education acts as the Member Secretary.

**ORGANIZATIONAL STRUCTURE**

KVKs and Off-Campus extension programmes

***Krishi Vigyan Kendras:***

Amongst total 19 KVKs under the jurisdiction of CCSHAU, five KVKs *viz.*, Ambala, Bawal, Mandkola, Panchkula and Karnal are State funded and remaining 14 KVKs are funded by ICAR. Each KVK has a provision of one Sr. Coordinator and six District Extension Specialists of different subjects *i.e.*. Agronomy/Soil Science, Entomology/Plant Pathology/Nematology, Extension Education, Horticulture/ Vegetable Science, Home Science, Agricultural Engineering/Agroforestry/Agricultural Economics and other supporting staff.

**Addresses of Krishi Vigyan Kendras in Haryana**

| Sr. No. | Name of KVKs | Address (s) |
|---|---|---|
| **ICAR Funded KVKs** | | |
| **1** | Krishi Vigyan Kendra, Bhiwani | Opposite Sports Stadium, Bhiwani 127 021 |
| **2** | Krishi Vigyan Kendra, Fatehabad | Majra Road, Dhani Bikaneri, Fatehabad 125 050 |

| **19** | Krishi Vigyan Kendra, Panchkula | Sector 21, Budanpur, Panchkula, Haryana 134112 |

**On/Off Campus Extension Programme of KVKs**

(i) Collaborate with the subject matter specialists of the State Department of Agriculture and farmers welfare/University Scientists of the Regional Research Stations and the State Extension Personnel in 'On-Farm Testing', refining and documenting technologies for developing region-specific sustainable land use system.

(ii) Organize trainings to update the Extension Personnel within the areas of operation with emerging advances in agricultural research on regular basis.

(iii) Organize long-term vocational training courses in agricultural and allied fields for the rural youths as well as for scheduled caste categories with emphasis on 'Learning by doing' for generating self-employment through institutional financing.

(iv) Organize On Farm Trials and Front-Line Demonstrations on various crops to generate production data and feedback information.

**Scientific Advisory Committee (SAC)** meeting is conducted every year at each KVK to approve and monitor the technical programmes (Rabi & Kharif) of respective KVK for its smooth functioning and for dissemination of relevant techniques, technologies and methods to different stakeholders.

## Extension Coordination Mechanism

The entire extension education set-up in CCSHAU is composed of three services or units, each with a clear mandate as given below:

**i. Farm Advisory Service**

Farm Advisory Service is the major wing of the Directorate involved in transfer of technology; it covers the entire Haryana state through its Farm Advisory Service Centers popularly known as "Krishi Vigyan Kendras" (KVKs) located in each district, and also through Toll free Help-line service at Agricultural Technology Information Center (ATIC) for disseminating relevant techniques, technologies and methods to different clienteles.

**Agricultural Technology Information Center (ATIC/*Kisan Seva Kendra*)**

This unit is located at Gate No. 4 of the main campus of CCSHAU and has been providing services to the farmers of Haryana and adjoining states since February, 2002.

**Functions**

i) To provide a 'single window' delivery system for the products, by-products, seeds, planting materials and publications etc. of the institution to the farmers and other interested groups.

ii) To facilitate direct access to the farmers about institutional resources available in terms of technology, advice (including toll-free helpline), technology products etc., for reducing technology dissemination losses.

iii) To provide feedback from the users to the University

**ii. Farm Training Service** (SNIATTE)

Saina Nehwal Institute of Agricultural Technology, Training and Education (SNIATTE) disseminates the latest technical know how through various training programmes to farming community and field extension personnel like officers of State Agriculture Department, Semi-Govt. and Co-operative organizations like IFFCO, KRIBHCCO, and probationers/Asst. Commissioners (under training), HCS Probationers (under training) etc.

This institute has organized 200 trainings in various disciplines for a variety of clientele and 6876 participants have been benefited during 2018-2023. During this period; 141 visits of farmers (5666) from different parts of Haryana and other states were conducted and about 3067 lectures were delivered to the beneficiaries. One of the important and regular features of SNIATTE is T&V and ZREAC workshop. Thiry six trainings were organized for SAOs/Extension personnel and extension specialists from which 1136 participants were benefited. A total of 56 trainings were conducted for SC/ST communities and 1680 participants were benefited.

In order to ameliorate the standard of living of unemployed rural youth, farmers and women, the various trainings conducted at SNIATTE are bee keeping, mushroom production technology, fruit & vegetable preservation, nursery management, landscaping, safe & judicious use of pesticides, vermiccompost, integrated farming system and dairy farming. The trainings in the field of home science include baking, stitching & cutting of garments, value addition in cereals and bakery. The trainings are imparted in collaboration with the technical experts from the respective departments.

This institute has played a crucial role by providing data on seed availability of different crops with CCSHAU and other government agencies and also its sale record during the *Krishi Mela*.

**Extension Education Institute (EEI), Nilokheri**

It was established in 1959 as Trainers' Training Institute for middle level extension personnel engaged directly or indirectly in Agricultural Production Programs. The administrative control of EEI Nilokheri was transferred to CCSHAU, Hisar w.e.f. 1.2.1991 but the funds are provided by Govt. of India. EEI organizes trainings for the staff of State Training Centers/Regional Institutes of Rural Development in Extension. It also organizes workshops on orientation, communication and extension teaching methods for Master/Sub-Divisional Agricultural Officers/Allied subjects Officers, Subject Matter Specialists working under T & V system. Besides, it also conducts workshops in specialized fields like Monitoring, Evaluation and Supervision, Extension Management for Middle Level Extension Personnel under T & V system. The trainings/workshops are organized at EEI, Nilokheri Campus as well as off campus in other states of North India.

**iii. Farm Information and Communication Service (FICS)**

FICS provides audio-visual and mass media support to the other two wings of the Directorate, *viz.*, Farm Advisory and Farm Training Services and to other constituent colleges/departments of the University. This unit also organizes exhibitions, Farm *Darshan*, *Krishi Melas* etc. at state, zonal and district levels and represents the University in exhibitions organized by the State and Central Government. This unit also produces video films. Communication material such as folders, bulletins, pamphlets for the benefit of farmers and farm women is published in the unit. The responsibility of maintaining liaison with the All India Radio, Doordarshan and other imass media agencies lie with this unit. This section acts as nodal agency for Satellite Communication (SATCOM) programmes for Agricultural Development initiated by ISRO, Ahmedabad.

**Community Radio Station:**

CCSHAU HISAR Community radio Station 91.2 MHz, the first CRS in Northern India, was started on 29$^{th}$ November, 2009. This Community Radio Station was established in the Directorate of Extension Education (Gandhi Bhawan), CCSHAU, Hisar with the objective to provide latest agricultural information to the farming community by involving them. Besides this, there are six more CRS located at different KVKs namely; Rohtak, Jind, Panipat, Sirsa, Jhajjar and Kurukshetra. The CRS broadcast the programmes of Farmers' interest in general and for upliftment of weaker sections including marginal farmers, women, girls and minority groups in particular. It broadcasts the programmes daily for four hours during winter (August to April) and two hours during summer (May to July) only on working days. The main programmes broadcast through CRS are based upon various agricultural aspects *viz;* Agriculture, Veterinary Science, Agricultural Engineering, Home Science, Social and Economic issues. It also

broadcasts Haryanvi programmes of local talent of Hisar and surrounding areas like; village women, poor rural people, farmers, students, teachers and staff of the university who are not very well recognized but are very talented artists. This gives them a sense of recognition and self belief. The total duration of programme broadcasted during 2018-23 was 13494 hrs.

**Publication Unit**

The Publication unit brings out a large number of extension and research publications for the farmers, scientists and others interested in agriculture, livestock and allied fields, besides bringing out monthly magazine in Hindi, "Haryana Kheti".

**Detail of different Publications (Numbers of Copies)**

**Extension & Technology dissemination system and contribution in academic programmes:**

**Extension Workshops**

The Directorate of Extension Education organizes various workshops, seminars, symposia, training camps in collaboration with the extension agencies of the State and private sector organizations including PHD Chamber of Commerce. Such activities *viz.*, Agriculture Officers' Workshop, Horticulture Officers' Workshop, Home Science and Women Program Workshop etc. provides excellent opportunities to discuss and assess the extension education needs of the community.

**Agricultural Officers' Workshop:**

Agricultural Officers' Workshop, a biannual feature (one for *kharif* and other for *rabi* crops), provides forum for discussing the problems faced by the field staff with the University scientists about crop husbandry and then to finalize the package of practices based on the experiences of field staff and research findings. The feedback from the field is used for the re-orientation of research program. The package of practices are finalized during the deliberations of workshops, so as to serve as a guide book for the field personnel and progressive farmers. Field problems are discussed at this forum and extension needs are determined.

**Horticultural Officers' Workshop:**

Horticultural officers' workshop is organized in collaboration with the Department of Horticulture, Govt. of Haryana once in two years to finalize the package of practices for fruits and vegetables based on the experiences of field staff and research findings. Fruit and vegetable crops scenario is overviewed by the field functionaries and the University scientists to determine future extension strategies of the state.

**Annual Krishi Mela**

Two-day annual *Krishi Melas* are organized every year at the University in the month of March and September. Recently, CCSHAU Hisar organized Krishi Vikas Mela 2023 of three days from March 10-12, 2023. Field trials, experiments and demonstrations laid out on various crops are visited by the farmers. Scientists-Farmers interaction, guided visits for farmers, sale of seeds of improved varieties of different crops and vegetables, horticultural saplings and dummy demonstrations etc. are conducted, besides analyzing water and soil samples. The farmers from all over Haryana and neighbouring states participate actively and study various research and other activities of their interest. *Krishi Mela* provides the biggest opportunity for one to one interaction with the farmers.

*A Glimpse of Krishi Melas*

*A Glimpse of Krishi Melas*

**Performances in Krishi Melas (2018-2023)**

| Years (Season) | Sale of Seeds/ Literature sale etc. | Soil sample | Water sample | CCSHAU Stall | Private Stall | Total Stall | Farmers attended |
|---|---|---|---|---|---|---|---|

| **2023 (Kharif)** | Rs. 2944330 | 3010 | 3340 | 127 | 64 | 191 | 32000 |

** Krishi Mela could not be organized during Kharif 2020 due to Covid-19.*

*** Krishi Mela Organized Virtually during Rabi 2020 & 2021 and 44190 & 50611 farmers attended respectively, due to Covid-19 outbreak.*

### Crop Specific *Melas*

The Directorate of Extension Education also organizes crop specific *Melas* such as *Dhan Mela* at Regional Research Station (RRS), Kaul, *Ganna Mela* at RRS, Uchani (Karnal) and *Kapas Mela* at RRS, Sirsa for the benefit of farming community. The emphasis is laid on the activities concerning that particular crop in order to make the participating farmers abreast with the latest technical 'know-how' and 'do-how' about these location specific crops. The experiences of the farmers also provide feedback to the scientists on researchable issues as well as to work out their extension requirements for future.

KVK Kukrukshetra (Crop residue management)

Dhan Mela at RRS, Kaul

KVK, Bhiwani (Natural Farming)

District Level Mela on DSR , KVK Jind

KVK Kaithal (Natural farming)

Kisan mela at KVK Yamunanagar on Natural Farming

KVK Ambala (Natural farming)

KVK Sadalpur (Natural farming)

KVK Sirsa (Natural farming)

KVK Fatehbad (Natural farming)

KVK Jhajjar (Natural farming)

KVK Rohtak (Natural farming)

***Kisan Diwas***

Every year the University celebrates *Jai Kisan Jai Vigyan* week from 23-29 December on the birth anniversary of Ch. Charan Singh and Sh. Atal Bihari Vajpai. During this week intraction between farmers and scientists are held on problems, new innovations, technologies as well as fields visits. The progressive farmers elaborate their success stories to motivate the farmers. Two progressive farmers/farm women are honoured by the chief guest on this occasion.

*Celebration of Kisan Diwas*

**University Exhibition**

University level exhibition has been established & maintained by this unit under the umbrella of Directorate of Extension Education. It was inaugurated on February 02, 1994 by Honorable Governor of Haryana Sh. Dhanik Lal Mandal. This exhibition is a show window of the techniques/ technologies evolved/ developed by the different departments of the university in a comprehensive and effective manner. It is being visited by the scientists, students, farmers, etc. not only from the state of Haryana but other states of India. In addition to it, the university has a facility of 'Mobile Diagnostic cum Exhibition Van' for displaying the latest achievements of the university to all parts of state. This unit is totally funded by ICAR, New Delhi.

**Dr. Mangal Sein Agricultural Sciences Museum**

There is no denying the fact that Haryana has got a rich cultural heritage. To highlight this unique cultural heritage of Haryana, Haryana Rural Antique Museum was established in Gandhi Bhawan by Dr J.C. Sharma, first Director of Extension Education. It is maintained by this Unit under the umbrella of Directorate of Extension Education. This museum was inaugurated on February 02, 1989 by Dr. Har Sawroop Singh, the Vice Chancellor, HAU, Hisar. This Museum not only highlights cultural details but also provides linkages between the old and new culture. The museum preserves and displays all the information related with agriculture in particular and rural life in general like: old agricultural implements, costumes, household items, pottery pieces and the art objects have been displayed in an artistic manner so as to attract and educate the visitors about the rich culture of Haryana. Presently, this museum has been known as Dr. Mangal Sein Agricultural Sciences Museum which is located in Gandhi Bhawan. Dr. Mangal Sein Agricultural Sciences Museum was inaugurated by Sh. Manohar Lal , Chief Minister, Haryana on 26/03/2022 in the august presence of Sh. J. P. Dalal, Agriculture Minister; Dr. Kamal Gupta, Minister; Sh Ranvir Gangwa, Dy. Speaker and Prof. B. R. Kamboj, Vice-Chancellor, CCSHAU, Hisar. This museum is frequently visited by persons from all ranks and files. It is being visited by the scientists, students, defense personnel, farmers, etc. from the state of Haryana and other states of India. To highlight the unique cultural heritage of Haryana, a rural antique section is also established. A total of 8073 visitors visited the Museum during 2018-23.

*Innaguration of Dr. Mangal Sein Agricultural Sciences Museum by Hon'ble Chief Minister, Haryana*

**Mobile Diagnostic cum Exhibition Van**

Mobile Diagnostic cum Exhibition Van was flaged off by Vice-Chancellor Prof. B. R. Kamboj on 9th July, 2021 for collecting soil & water samples from the doorstep of farmers. This van visited different KVKs of CCSHAU, Hisar & collected thousands of samples of soil & water.

The purpose of Mobile Diagnostic cum Exhibition Van is to create awareness and provide help to the farmers, CCSHAU scientists visit villages with a mobile van equipped with a microscope to test soil and audio visual aids screen documentaries of activities being conducted by University for the welfare of farming community.

The Mobile Diagnostic cum Exhibition Van visits rural areas or krishi kendras, where the experts listen to the problems being faced by farmers of that area and provide solutions. The step has been taken in order to save crops from several diseases and pests. Farmers have to pay Rs. 10/- as fee for the testing of each soil and water samples from their fields. The audio visual aids installed in the van are used to inform the farmers in detail about the problems related to soils, water and pests and their solutions. Knowledge regarding seasonal crops and new techniques of agriculture is also given to the farmers.

Mobile Diagnostic cum Exhibition Van

**Zonal Research and Extension Advisory Committee (ZREAC) Meetings**

Zonal Research and Extension Advisory Committee meetings are convened at zonal level twice a year to have interface between university scientists and extension workers from CCSHAU as well as field functionaries of the State Department of Agriculture & Farmers Welfare. The meetings provide a platform to exchange the information to increase crop productivity.

**Training and Visit (T&V ) Programme**

Training and Visit programms are being held every month for updation of knowledge of field functionaries of State Department of Agriculture, Horticulture and allied fields.

**Contribution of Extension Education in Academic Programmes**

There are some courses offered by the University which have practical component with village based field visits. The students learn to value rural life, hard work, love and affection, rural hospitality, feelings of sharing and caring among villagers etc.; hardships of rural life, financial and other constraints etc. The students also learn about Agricultural crops of the area and involvement of women in agriculture and livestock management; existence and functioning of local political bodies, other institutions (*Gram panchayat , aanganwadis*, youth club, PHC's, veterinary hospital, *Mahila Mandal*, etc.); need to have a dialogue with government officials, field functionaries, and NGOs. This gives an edge to the students for working under village conditions and with farmers. Students learn to organize various functions, conduct extension activities and rapport building with villagers. During

extension activities conducted under RAWE programme status of adoption of technologies generated by various colleges of CCSHAU, Hisar is observed. This provides feedback to the Departments concerned for refinement and modification of technologies in light of suggestions provided by end users.

***Parthenium Awareness Program***

*Parthenium hystorephores* is an annual weed which has drawn attention due to its determined effects on human and animal health. The weed is called by different names in different location *viz*. gaffor grass, ongress grass, safed ispi grasss, chatak chandini etc. Duplication of weed takes place through seed which is very fast. The weed has invaded large area in the country. Several health problems takes place in human being due to weed contact like skin allergy, asthma dumatit fever. Animal health and productivity are also adversely affected due to weed contact and its eating. However, losses in the cropped area due to infestation of the weed are marginal. Looking at the several effects of the weed, CCS HAU, Hisar took initiative to organize "Parthenium Eradication" week every year in August month (16-22 August). Directorate of Extension Education have taken a lead role in organizing the week involving all Krishi Vigyan Kendras working in different districts of the state. Department of Agronomy, CCSHAU and India Institute of Weed Research, Jabalpur, ICAR also provides technical support for organizing the programme successfully. Various activities *viz*. group meeting, awareness program, method demonstrations are being organized to aware people about harmful effects and management practices of the weed. KVKs of Haryana state have organized 92 programs on parthenium eradication involving 3,404 farmers, farm women, school and college students.

***Agriculture Education Day***

To commemorate the birthday of our 1st president Dr. Rajendra Prasad, on 3rd December, the KVKs, under CCS Haryana Agricultural University Hisar celebrated it as an "Agriculture Education Day". All the KVKs working under Directorate of Extension Education have organized 20 sensitization programmes on Agriculture Education Day at schools, colleges and villages as well as at KVK premises. The objective of the these programmes was to create awareness among youth especially school and college students regarding various facts of agriculture and allied science including its importance, scope, relevance for the country, job opportunities and agri-entrepreneurial avenues so as to develop their interest in the subject. In all 1,700 students have participated. During students' visit of the KVK premises, scientist explained about demonstration unit crop cafeteria, nutrition garden, nursery unit, vermi-compost unit, different farm implements, etc. Highlights of the different programmes organized by KVKs are

- Awareness among rural youth and farmers on agriculture education and various platforms available in the form of degree, diploma and skill certificate trainings.
- Awareness among rural youth and farmers on scope of agriculture in the district.
- Training-cum-workshop session on various topics on agriculture and allied areas.
- Quizzes were organized and the winners to get award and honor.

**6.6.4.3. Extension Planning and Technological Impact:** *In what way the extension planning help to support enterprises in adopting and deploying new technologies and in commercializing innovations? What is the mechanism in place to study the technological impact?*

The extension activities are planned by the Directorate through its KVKs depending upon the needs of the farmers/farm-women. The entrepreneurial activities for income generation are also planned so that landless and small land holders can start their units to earn their livelihood and raise their socio-economic status through vocational trainings, demonstrations, adaptive research trials, soil

and water testing, *Krishi Mela*/Mini *Krishi Mela*, Field days/Camps, exhibitions, toll-free telephone services and other extension activities organized from time to time as under:

**Vocational trainings**

During the period under report, a total of 901 vocational trainings were organized by KVKs, in which 8,351 male and 3,798 female farmers of general categories and 9,712 male and 11,032 female farmers of SC/ST categories participated.

**Demonstrations**

Demonstrations on various crops/livestock/home science activities, etc. are being conducted regularly. A large number of method and result demonstrations of various disciplines are carried out every year. As many as 7,070 method demonstrations and 10,690 front line demonstrations were conducted by KVKs during the reporting period to transfer the technical know-how to the farmers.

**Adaptive research trials**

Testing of research findings at farmers' fields is important to see their adaptability, ensuring popularization and to obtain farmers' response necessary for finalization of recommendations for adoption by them. Such 1,440 trials were conducted on different research findings concerning agriculture and allied disciplines.

**Soil and water testing**

Nine Soil and Water Testing Laboratories of CCSHAU, Hisar located at Hisar and other KVKs serve the farmers by testing their soil & water samples for fertilizers recommendations of crops, reclamation of saline and sodic soils and plantation of orchard. The samples collected over a span of time are analyzed and thus soil nutrient status (district-wise) of the State has been put on the map. The status of soil health so identified helps in determining the future program for soil health cards of the farmers.

During the period 2018-19 to 2022-23, Regional Soil Testing Laboratories (RSTL) Hisar and different KVKs analyzed a total of 36,375 soil samples for fertility (pH, EC, OC, available phosphorus and potassium), orchard/garden plantation and micro nutrients (zinc, copper, manganese and iron). A total of 23,581 water samples have been analyzed for EC, carbonate, bicarbonate, chlorine, calcium, calcium + magnesium and RSC (residual sodium carbonate) for calculating the amount of gypsum requirement per irrigation per acre to neutralize the sodicity of irrigation water.

Soil and Water Testing Stall at *Krishi Mela*

**Year wise breakup of soil and water sample analyzed**

| Year | Soil samples | Water samples | Total |
|---|---|---|---|
| 2018-19 | 9276 | 6745 | 16021 |
| 2019-20 | 7998 | 4207 | 12205 |
| 2020-21 | 6577 | 3964 | 10541 |
| 2021-22 | 7687 | 5209 | 12896 |
| 2022-23 | 4837 | 3456 | 8293 |
| Grand Total | 36375 | 23581 | 59956 |

**Krishi Mela/Mini Krishi Mela**

*Krishi Mela/Mini Krishi Melas i.e.,* 297 were organized by various KVKs to demonstrate improved technologies at farmers'fields. Through these melas, 1,53,686 farmers were benefited.

**Field days/Camps**

The KVKs organized 885 field days to show and demonstrate the performance of improved technologies which were attended by 40,002 farmers. Besides the above activities, KVKs also organized 3,204 *Kisan Goshthies*/Training Camps in which 1,01,453 farmers were benefitted. Also 351 *Udyan Goshthies/Gyan Diwas* were also organised and the beneficiaries were 17,637. Through 1,205 Campaigns 1,06,991 farmers were benefited.

**ATIC/*Kisan Seva Kendra***

ATIC center has sold the seeds of improved varieties of various crops, bio-fertilizers, food products, honey and farm literatures worth Rs. 3,73,69,844/- from 2018-23.

**Sale of seeds and other products during 2018-23**

| Year | Total sale (Rs.) |
|---|---|
| **2018-19** | 1,14,82,501 |
| **2019-20** | 74,80,850 |
| **2020-21** | 74,91,600 |
| **2021-22** | 62,82,368 |
| **2022-23** | 46,32,525 |
| **Grand Total** | 3,73,69,844 |

**Toll-free helpline services**

CCS HAU is one of the few universities of the country which provides free tele-agricultural service to the farmers through *Kisan Seva Kendra*, Hisar. Any farmer through telephone number 1800-180-3001 (without code) can get free of charge information related to agriculture and its allied fields from 10-12 noon on Monday, Wednesday and Friday (on working days). Apart from Hisar, this facility is available at CCSHAU Regional Research Station, Uchani (Karnal) at Tel. No. 1800-180-3111 (10-12 noon on Tuesday and Thursday) while, at KVK, Bawal at Tel.No.1800-180-4002 (10-11 a.m. on Monday, Wednesday and Friday).

During the period under report, total 38,396 farmers were guided and out of them 14,753 through visiting ATIC and 15,075 through toll-free helpline.

**Advisory service during 2018-23**

| Year | Advisory to farmers visiting ATIC | Through Toll Free Helpline No. | Total beneficaries |
|---|---|---|---|
| **2018-19** | 3773 | 3954 | 7727 |
| **2019-20** | 2634 | 3350 | 5984 |
| **2020-21** | 3194 | 3318 | 6512 |
| **2021-22** | 3199 | 2534 | 5733 |
| **2022-23** | 1953 | 1919 | 3872 |
| **Total** | 14753 | 15075 | 29828 |

**Mechanism to study the technological impact**

Extension makes a bridge between researchers and farmers; and aims to increase the efficiency of the farmers, increase production and generally increase the standard of living of the farm family. It works with rural people in order to improve their livelihoods. There are following points through which extension helps in disseminating & adopting the technologies:

- Pre and Post evaluation of participants before start and after completion of the training.
- Feedback from the farmers from time to time.
- Ex-trainee summit.
- Filling questionnaire.
- Evaluation through method/demonstration, field dayof particpaints as described above.

**6.6.4.4. Implementation of National Initiatives:** *Mention the status of implementation of Student Ready, green initiatives, Farmers First Scheme, Mera Gaon Mera Gaurav, NICRA and other similar schemes.*

**Faculty and students' involvement in extension programs**

The University has integrated approach towards teachings, research and extension activities. Directorates of Research and Extension Education have a very strong linkage among themselves and also with the State Departments of Agriculture & Farmer Welfare, Horticulture and Animal Husbandry. The teaching faculty is also involved in various extension education programs organized at the district as well as State level. The package of practices for agricultural crops and home science workers is published through active participation of the research scientists, extension scientists and the officers of the various state departments. Research and teaching faculty use extension facilities to make direct connections with farmers. The students of different colleges of the university are also involved in various extension education programs. Besides, the undergraduate students of Agriculture and Home Science complete their internship and RAWE/RHWE programs with the active participation of extension scientists of KVKs. The research and extension facilities provided at different research and extension centers help students to identify locations for internship program, provide directions to students about the work to be undertaken at each location, arrange their meetings with farmers and provide them other facilities of boarding and lodging.

***Rural Agricultural Work Experience (RAWE):***

Placement of RAWE students: B.Sc (Final) year students were placed in different villages of Hisar. During their stay in villages, various trainings on fruit and vegetable preservation, cultivation of *rabi, kharif, fruits* and *vegetable* crops were organized. Besides this, campaigns on *Sawachh Bharat*

*Abhiyan, Beti Bachao Abhiyan, Traffic Rule Awareness Programme, Career in Agriculture* and *Career after Sr. Sec.* were launched in all the villages. *Van Mahotsav* was also organized in schools of these villages. Further these students were monitored from time to time and two days training was imparted before their exposure to villages on different aspects like cultivations of crops, orchard management, insect-pests, disease management, weed control etc.

Activites undertaken during RAWE programme:

1. ODK LDS (Open Data Kit Landscape Diagnostic Survey)
   - Visited randomly selected households from randomly selected villages.
   - Filled information and data of Kharif and Rabi crops of selected households at ODK application through online mode.
   - Main component of ODK was taking geo-location of farmer's field.
2. RAWE (Rural Agricultural Work Experience)
   - Placement in selected villages for RAWE programme by KVKs.
   - Filling of forms of selected progressive farmers of the village.
   - Meeting with school students.
   - Visited different agriculture and allied institutions in the village like Grain market (Anaaj Mandi), Animal hospital etc.
   - Visited Agriculture Credit Institutions like banks, PACS etc.
   - Meeting with farmers for briefing them about next crop cultivation and for taking field feedback from them.
   - Techno- economic survey of host farmer: each student selected one host farmer in his respective host village and did techno - economic survey of that farmer.
   - Crop production analysis: filled the information related to crop production of host farmer in proforma provided by the University.
   - Training: Each group imparted one day training in their village on various topics like soil and water testing, vermicomposting, mushroom cultivation; organic farming, management of insect pests in organic farming, vermicomposting, importance of seed treatment, management of kitchen waste, mushroom cultivation.
   - **Awareness**
     - About toll-free number of university and e-Mausam HAU app
     - Environment day

*Farming awareness by Final year B.Sc. Students at villages during RAWE Programme*

**Green Initiatives**

To restore the environment under Go Green, each KVK imparted trainings on vermi composting, boundary plantation in fields, use of green manuring (*dhaincha*) for soil health management, diversification of crops into orchards, introduction of pulses in paddy -wheat rotation, incorporation of crop residue in the soil instead of its burning, residue management through straw baler and biofertilizers, use of farmer friendly predators and pheromones traps to minimize insecticides use. Keeping in mind about conserving energy, University has installed about 1000 kw of solar panels on different buidling's rooftops.

| | |
|---|---|
| Solar pannel at Admin block =120 kw | Solar panel at College of Engineering = 60 kw |
| Solar panel at Nehru library =150 kw | Solar panel at College of Biotechnology = 40 kw |
| Solar panel at IG Auditorium = 20 kw | Solar Panel at IC College of Home Science = 260 kw |
| Solar panel at College of Agriculture = 230 kw | Solar panel at College of Basic Science= 120 kw |

Vermicompost unit

Crop residue incorporation

**One Student One Tree Campaign**

The University has adopted "*One Student One Tree Campaign*" of the GOI. Under this campaign the UG students of the university plant a sapling during the 1st year of their degree programme and take its care till the completion of their degree.

**Sarva Shreshtha Bharat**

A quarterly report of the various activities organized by the University. There are seven components in the report under which information of Sarva Shrestha Bharat Report of the CCSHAU is prepared which is sent to the Department of Higher Education, Government of Haryana. The seven components are -*Swachh Bharat*, *Shrestha Bharat*, *Sushashit Bharat*, *Surakshit Bharat*, *Vikasit Bharat*, *Swasth Bharat* and *Shikshit Bharat*. The University performs various activities under these components.

***Swachh Bharat*** component activities to maintain status of open defecation free India are organized from time to time like *Swachhta Abhiyan Compaign*, *Swachhata Awareness programmes*, Cleanliness drives, Sanitation work, Plantation drives, pollution check drives, organizing eco-friendly drives, etc. Solid waste management plant has been established in the campus where segregation of garbage *i.e.*, wet items, sale items are segregated. After segregation of waste material, auctions are conducted by the Office to sale the segregated materials.

Cycle Ride by Vice-Chancellor Prof. B. R. Kamboj

Under ***Shresth Bharat*** component, many eminent scientists and sports persons have participated in different events and have been awarded at national level. These persons have been motivated and honored by the Vice-Chancellor CCS HAU, Hisar.

Under ***Sushashit Bharat***, University has implemented e-governance for all students and employees. Students' registration, fee submission, attendance, results, classes etc. are made online. Employee profile, salary, all kinds of leave account etc. are online. Budget, pension, accounts and pay have been computerized and processed online. Online academic activities like seminars, classes, viva voce exams were conducted. All the purchases were done through GeM portal. Majority of the work is being done online including uploading of all service records on HRMS Portal.

Step-wise overlook of HRMS Portal

Under 4th component, many awareness programmes for welfare of women and child safety are organized such as health and self employment, women empowerment building and inspiring and motivating youth programmes are regularly organized in the University. Rural areas are visited by the scientists and students for the purposes. Youth is motivated and inspired by providing lot of exposure and opportunities.

National Nutrition Month celebrated in Budak, Balsamand and Hindwan villages

Under next component ***Vikshit and Swasth Bharat***, different National Service Scheme programmes are organized by the University fraternity. International Yoga Day and National Yoga Diwas are celeberated by motivating all to perform Yoga not only on single day and rather. NSS volunteers, faculty and students of the university participate in Blood Donation Camps, National Integration Camps, Republic Day Parade, etc. University also participates in plantation, rallies against drug abuse, Beti Bachao Beti Padhao, road safety issue and World No Tabacco Day and other social welfare activities. Mega COVID-19 vaccination Camps were organised in the University during COVID 19 and all kind of life saving facilities were provided to people by the campus hospital during pandemic.

Vice-Chancellor, Prof. B. R. Kamboj performing Yoga on Internatioinal Yoga Day

The university organised FIT INDIA FREEDOM RUN 2.0

Under ***Shikshit Bharat*** component, various villages of the state were adopted by the University to organize awareness campaigns and implement schemes for the welfare of farmers. All kinds of issues raised by farm women through toll free number of Kisan Call Center are addressed by the scientists. Many faculty and students are sent to different villages for exposure and organizing camp. Programme on fundamental duties and Gandhiji's thoughts and values are also organized by the university.

Kisan Mela stall on March 15-16, 2022

Volunteers of the University participated in workshop and exhibition

**Mera Gaon Mera Gaurav (MGMG)**

CCSHAU, Hisar has involved fifteen *Krishi Vigyan Kendras* in *Mera Gaon Mera Gaurav* progam. In this programme, sixty one villages were covered and thirty five groups were formed for the upliftment of the farming communities under the different climatic zones. Eighty four per cent farmers were small, 8 per cent medium, 7 per cent large and 1 per cent landless farmers. The villages have 92 per cent irrigation (canal and tubewell) facilities and 8 per cent rainfed area. The major crops of villages were rice, cotton, wheat, sugarcane, guar, bajra, ber, guava and citrus. The crop intensity is hundred per cent. The specialists of KVKs organize trainings in the villages/on campus to guide farmers/farm women about latest agricultural technologies for enhancing the productivity. In order to develop the entrepreneurship among the unemployed youth, need based vocational trainings are organized for their upliftment. The income generating trainings on bee keeping, fruit & vegetables preservation,

nursery raising of fruit & vegetables, spraying techniques of pesticides, cutting & tailoring, Tie & dye techniques, value added products of bajra. etc are organized by the KVKs. Organization of monthly group meetings *viz.*, Farmers Club and Women Club meeting every month is the special feature of the KVKs. Various campaigns were undertaken for creating awareness about the adoption of a particular technique at large scale. Good liaison between KVKs and other departments remains engaged in the services of farming sector.

| Sr. No. | Name of KVK | Total No of Groups formed | No. of Scientists Involved | No. of villages covered | No. of field activities conducted | No. of messages/ advisory sent | Farmers benefited (No.) |
|---|---|---|---|---|---|---|---|
| **1** | Faridabad | 7 | 42 | 7 | 90 | 102 | 2286 |
| **2** | Fathebad | 6 | 18 | 6 | 72 | 326 | 8933 |
| **3** | Jhajjar | 27 | 27 | 25 | 317 | 72 | 13443 |

| **14** | Bawal | 5 | 11 | 1 | 32 | 1660 | 2084 |

Under the crop residue management, awareness campaign were organised during 2018 to 2023, farmers/farm women were made aware about the menance of residue burning. Trainings/group meetings / soil & water testing camps were organised during the period under report and farmers were sensitised about the importance of soil & water testing, as well as seed treatment of crops, IPM in paddy, health & nutrition, safe & judicious use of fertilizers and pesticides, safe storage of food grains, balanced use of fertilizers in kharif crops, disease and nematode management in paddy, bio-control of sugarcane pests, vermicompost production, water conservation and diagnosis of nutrient deficiency symptoms and their control.

No. of teams formed : 34

No. of villages selected : 118

**Activities Undertaken**

Under this project trainings on Production Technology of cotton, organic farming, vermicomposting, management of Insects & Pests, drudgery reduction, hygiene & sanitation, weed management, food processing and purification of water were imparted. General awareness was created on control of Parthenium & use of bajra in daily diet. Linkage was created with Agriculture & Farmer Welfare Deptt., Women & Child Development Dept., NABARD, PCRA and Department of Horticulture. Literature on *Bachon Mein Punarjali Karan Kaisen Karen*, Safe & Judicious use of pesticides, IPM in cotton, *Peene Ke Pani Ka Shudikaran*, *Safal Madhumakhi Palan Hetu Sujhav*, *Kapas Mein Safed Makhi sae bachav hetu upay* and parthenium awareness handouts were distributed. The farmers were also motivated to take up organic farming and integrated farming system. They were also sensitised about the *Swachh Bharat Abhiyan.* Cleanliness drives were undertaken and villagers were told about the benefits of cleanliness and hygiene in their daily life.

**Activities organised by KVKs of CCSHAU, Hisar under MGMG**

***Swachh Bharat Abhiyan***

*Swachhta Abhiyan* is a regular extension activity of the University. It is carried out by all the 19 KVKs in the State (2 villages adopted by each KVK) in the first week of every month. In light of the ongoing *Swachh Bharat Abhiyan*, KVKs organized various activities like display of *Swachhta* banner in KVKs, campus and adopted village, *swachhta* pledge, maintenance of office records, activities/ participation in basic maintenance and sanitation, beautification of surrounding areas, vermicomposting/composting of biodegradable waste management & other activities to generate wealth from waste, activities for recycling of used water for agriculture/ horticulture application, *swachhta* awareness programmes at local level and various competitions with *Swachhta* theme, with the aim to bring behavioural change in rural people regarding personal and environmental sanitation practices.

Swachhata Pakhwada

Swachhta Abhiyan Special Camp 2.0

**National Initiative for Climate Resilient Agriculture (NICRA)**

National Innovations in Climate Resilient Agriculture (NICRA) is a multi-institutional and multi-disciplinary network project launched by ICAR in 2011 which aims to build resilience in Indian agriculture to climate change and climate variability through strategic research and technology demonstrations. The project has following three main objectives:

i. To enhance the resilience of Indian agriculture covering crops, livestock and fisheries to climatic variability and climate change through development and application of improved production and risk management technologies

ii. To demonstrate site specific technology packages on farmers fields for adapting to current climate risks.

iii. To enhance the capacity of scientists and other stakeholders in climate resilient agricultural research and its application

Technology Demonstration Component (TDC) of NICRA is implemented in 121 climatically vulnerable districts of the country focuses on enhancing the adaptive capacity of farmer in these districts to climatic change and to ensure security of livelihood in times of climatic aberrations. Technology Demonstration Component (TDC) of NICRA was implemented through Krishi Vigyan Kendras (KVKs) *i.e.*, In CCSHAU, HISAR NICRA project was initially implemented in two KVK located at Sirsa and Yamunanagar.

In KVK Sirsa, this project is operational in village Rupana Khurd in Nathusari Block of Sirsa district. The number of household in this village is around 600 and total cultivated area is nearly 760 hectares. The soil type of this village is sandy loam and indulated. In some low lying areas of the village, accumulation of salt on soil surface rendering it unfit or marginally fit for crop cultivation. Other climatic variabilities were drought, heat wave, cold wave, frost etc leading to yield loss in crops and animals. To address these climatic and soil vulnerabilities, various interventions were demonstrated in the village. Use of laser leveler was promoted for water saving .Various awareness programmes were also conducted in the village with an aim to make villagers climate literate and how adopting of resilient techniques will minimize crop loss. To address the problem of soil salinity salt tolerant varieties KRL 210, 213 and 19 were demonstrated in the village. The erratic rainfall pattern also affects cotton crop badly due to large scale insect pest attack and prolonged vegetative period result in delayed boll opening. So to address these problems, use of bio pesticides and spray of $KNO_3$ was promoted in the village. Under animal husbandry component use of Mineral Mixture and dewormer was promoted in the village. In the year 2017 successful interventions were identified and these interventions were scaled up in the existing village and adjoining villages.

NICRA project was started during the year 2010-11 and completed successfully in 2019-20 at KVK Yamunanagar. The project was carried out at Radauri, Bakana and Dholi villages in Yamunanagar. In

these villages, various techniques were demonstrated during different years. For water conservation, techniques like micro-irrigation, system of rice intensification (SRI), direct seeded rice (DSR), laser land-levelling etc. were demonstrated. Under climate smart agriculture, improved and short duration varieties were demonstrated and promoted on large scale. For resource conservation, use of happy seeder, zero tillage were demonstrated on large scale. For further acceleration, use of these machineries, through custom hiring was promoted for revenue generation and ease of availability of machineries for RCTs. Further, fodder bank was established at NICRA adopted villages and summer maize was demonstrated for this purpose. Since, Yamunanagar district has a large area of sugarcane under cultivation, intercropping in autumn planted sugarcane was promoted in NICRA adopted villages. Various awareness programmes on CRM, Swacchhta Abhiyan were organized during different years. Soil health was promoted and given importance though promotion of balanced use of fertilizers, use of green manures like dhiancha, importance of soil testing, paddy residue management for carbon retention, increasing availability of useful microbes in the soil, mulching benefits etc. Agro-advisories were issued to the farmers on timely basis for better implementation of technologies.

Under institutional interventions, custom hiring centre was established in the village with an aim to make villagers technologically more sound and get rid of arduous time consuming agricultural operations coupled with labor crisis.

**Farmer FIRST Scheme**

The Farmer FIRST programme as a concept of ICAR is developed as farmer in a centric role for research problem identification, prioritization and conduct of experiments and its management at farmers' farm. The focus is on Farmer's Farm, Innovations, Resources, Science and Technology (FIRST). Integrated agriculture development is based more on efficient resource management. Keeping this in view, the Farmer FIRST programme is being implemented on need basis of farmers, resources and local environment. The farmers are being treated as an active partner in the development and transfer of technology for both decision making and implementation. The overall objective of the project is to use the research information in such a way that it matches with the on-farm situations. Gurana, Bure and Dubetta villages in Hisar district were selected for the first phase of the project from the year 2016 to 2020. For the second phase (2021-2025) three more villages viz; Chirod, Payal and Lohari Ragho were selected from the district. Newly selected villages are agriculture-based, where more than 75% of the population earns their livelihood from agriculture and allied fields. The major crops grown in these villages are wheat, paddy, bajra, mustard, cotton, fodder crops etc. The information about the agro-eco-systems and socio-economic conditions of these villages has been obtained through suitable Participatory Rural Appraisal Techniques (PRA). A total of 1000 farm families have been benefited from this project every year. The soil conditions, cropping patterns, preferences to crops and requirements of farmers have been assessed. The common problems of these three villages have been prioritized with farmer's participation considering their needs and resources. Hence, different technology modules encompassing areas of integrated farming have been formulated in consultation with the farmers by the project team. A participatory planning exercise involving the farmers is undertanken, which provides the basis for these modules. The modules include the introduction of new crops, insect-pest and weed management practices, livestock management and activities for income augmentation to meet the needs of the farmers considering their problems, resources and willingness to act.

**Unnat Bharat Abhiyan**

*Unnat Bharat Abhiyan* (UBA) is a flagship programme of Ministry of Human Resource Development, Govt. of India, of which IIT Delhi is the National Coordinating Institute (CI), CCSHAU has signed an MoU with IIT Delhi on July 4, 2017 and is a Participating Institute (PI) for implementation of UBA. The University is working with IIT Delhi for achieving the objectives of the programme. Village and household survey of all the selected villages has been completed and data are uploaded on reporting portal of UBA website.

**6.6.4.5. Innovation and Best Practices:** *What are the innovative efforts of an institution that help in its excellence in extension?*

**Integrated Farming System**

Cow Centric IFS Model has been established at KVK, Jhajjar. Eleven demonstration units have already been established. The income generation has already started in these units. The net balance in IFS account as on date is Rs. 389380/-. All the parameters of Cow Centric aspects under natural farming like formulation of Jeevamrit, Ghanjeevamrit, Agniastra, Brahmastra etc. are functional at this KVK.

**Components of Cow Centric IFS Model under RKVY**

| S.No. | Item | Area (ha) |
|---|---|---|
| 1 | Under "Cow centric IFS Model" | 1.0 |
| | i) Demonstration Units: 0.2 ha<br>-Cow shed<br>-Vermicompost unit<br>-Fish pond<br>-Value addition lab (In process)<br>-Sheep and Goat rearing Unit<br>-Mushroom Unit<br>-Bio gas unit<br>-Bee keeping unit | |
| | ii) Fruit crops : 0.15 ha<br>iii) Vegetable crops: 0.15 ha<br>iv) Cereals, pulses, oilseeds, fodder etc : 0.50 ha | |
| | Total | 1.0 |

**Out Scaling of Natural Farming**

The project "Out scaling of Natural Farming" aims at bringing sustainability in production system and restoring soil fertility. Natural Farming offers a solution to various problems, such as food insecurity, farmers' distress and health problems arising due to pesticide and fertilizer residue in food and water, global warming, climate change and natural calamities. It also has the potential to generate employment, thereby stemming the migration of rural youth. Ministry of Agriculture and Farmers Welfare has taken an initiative for promotion of Natural Farming as *Bharatiya Prakritik Krishi Paddhati Programme* (BPKP) under centrally sponsored scheme- *Paramparagat Krishi Vikas Yojana* (PKVY). It is largely based on on-farm biomass recycling with major stress on biomass mulching, use of on-farm cow dung-urine formulations; periodic soil aeration and exclusion of all synthetic chemical inputs.

CCSHAU Krishi Vigyan Kendra, Mahendergarh working under ICAR-ATARI, Zone-II, Jodhpur is one of the centres where the project has been implemented. The center has implemented the project with active participation of the farmers. A number of activities have been organized by the center for promotion of the natural farming technology.

Trainings for farmers and farm women were organized to improve the knowledge and skill on practices of natural farming. Aspects of natural farming *i.e.,* need and scope of adoption of natural farming, harmful effects of modern chemical input based agriculture, preparation and use of different inputs in natural farming, etc were discussed in the training programs. Method demonstrations on preparations of inputs (*Beejamrit, Jeevamrit, Ghanjeevamrit, Neemastra, Brahamasthra*, etc.) were also carried during the training programes. Group meetings with the farmers were held to discuss various issues of natural farming. Feedback from farmers on possibilities of adoption of the farming was also obtained. Problems encountered in adoption of the farming technologies by the farmers already practicing were also discussed. Awareness programes for farmers and farm women were orgnaized at village, block, and district level to disseminate the information on advantages of natural farming in masses. Demonstrations were very helpful in building confidence among farmers for adoption of a new technology or practice. Farmers visualized the performance of a particular technology and compared with farmers' adopted technology. Demonstrations on practices of natural farming were conducted by the Center.

A total of 119 awareness programmes (Village, Block and District) were organized which were attended by 30,047 farmers and farm women. In addition to these programs KVKs also organized 16 training programmes of two-day duration on concept and importance of natural farming. A total of 137 demonstrations were conducted at farmers' fields in different villages of Haryana. Total 30743 farmers/women benefited from various programme organized by 14 KVKs of Haryana.

**Mobile Diagnostic cum Exhibition Van**

The Directorate of Extension Education has a Mobile Diagnostic cum Exhibition Van. This van travels all over Haryana especially in remote areas to collect Soil and Water samples from the door steps of farmers and provide results of the same. Along with it, the van makes publicity of package of practices & programs developed by University for the welfare of the farming community, along with the policies of Government of Haryana & India through audio visual aids.

**Soil Health Card**

Depletion of soil fertility in Haryana State is one of the major concerns of sustainability. Organic matter content in state has decreased from 0.7-0.8% in 1970 to 0.2-0.3% in 2022, Intensive farming, imbalanced fertilizer application, escaping lagumes/pulses in crop rotation etc. are some of the main factors responsible for soil fertility depletion. Restoring soil fertility is therefore, very important for maintaining sustainability of farming system. Directorate of Extension Education had made plan to organize "*Soil Health Care Campaign*" every year in May by active involvement of KVKs. Subject matter specialties of subjects Soil Science/Agronomy working in different KVKs, organizes "*Soil Health Card Campaign*" of one week duration. Activities *viz. Kisan Gosthies*, Method demonstrations on collection of soil and water samples, application of manures and fertilizes on soil test basis. Selection of crops and varieties to be grown according to soil and water quality have been addressed during the campaigns. KVKs have also been organizing "*World Soil Day*" on 5$^{th}$ December since 2016 to acquaint farmers about importance of soil and water testing. Soil health card have provided to the farmers who participate in the programme. Keeping in view the importance of Soil health care, KVK of Haryana State have organized 87 "*Soil Health Care Camping*" with participation of 20,880 farmers & farm women and have organized "*World Soil Day*" every year on 5$^{th}$ December involving 6,970 participants in various 70 programs.

**Resource Conservation Technologies**

**Zero Tillage**

Zero tillage practice is mainly used in the Rice-Wheat cropping system as timely sowing of wheat crop gets delayed beyond 25 November. Sowing is delayed due to multiple reasons *viz.*, preparation of field, uncertain rainfall and rice harvesting with traditional method. Out of these, the field preparation is one of the most important reasons, which causes delay in wheat sowing. Puddling in transplanted rice creates a hard pan in the field. After harvesting of rice crop, field requires at least 6-8 tillage operations in ploughing and harrowing for sowing of wheat, in which generally 10-15 days are required for proper field preparation. Moreover, Yield of wheat decreases due to delayed sowing.

**KVK intervention:** Two clusters of villages, one comprising Bainsi, Kharak Jatan, Gugaheri, Khrainti, Ajaib, Nindana and Lakhan Majra etc. and another cluster comprising Sanghi, Rithal, Kahni, Baliyana, Titoli etc. of district Rohtak used to sow wheat crop over on area of about 27,000 acre by conventional method after paddy. The sowing of wheat normally got delayed and crop germination was also poor particularly in salt affected soils. KVK, Rohtak conducted demonstrations on zero

tillage sowing of wheat in selected village Bainsi, Ajaib, Sanghi, Rithal, Kahni, Baliyna etc and organized field day. Since the technology is simple and provided marked advantages, the farmers of cluster villages readily accepted this technology. To make this technology wide spread, the KVK continued its efforts by conducting demonstrations, field days, *Kisan Gosthis*, *Kisan Melas* etc. KVK Rohtak has been constantly monitoring this technology by conducting demonstrations at permanent locations to witness the positive and negative impact of this technology.

**Output:** The sowing of wheat with zero tillage technology made it possible to advance the sowing at least by 7-10 days as compared to conventional method. Based on observations recorded from 100 farmers, there was an increase of about 8-10 per cent in yield of wheat. Moreover, The results of demonstrations conducted by KVK, Rohtak indicated that zero tillage sown fields either yield at par or upto 5 per cent higher as compared to conventional sowing method with same date of sowing.

**Outcome:** The zero tillage sowing of wheat has led to total saving of expenditure incurred on preparatory tillage. There is also saving of water at the time of first irrigation. There is less problem of weeds particularly *Phalaris minor*.

**Impact:** Due to constant efforts of KVK and distinct advantages of technology, the entire cluster area of about 10,800 ha has been converted under zero tillage. Every year, the area under zero tillage sown wheat is increasing in the other villages of Rohtak district at a fast pace. At present, this technology has spread in 110 villages over an area of about 25,000 ha.

**Comparative performance of turboseeded wheat vs zero tillage wheat and conventional tillage wheat**

| Technology Option | No .of trials | Yield (qt./ha) | Increase in yield (%) | Net Return (Rs./ha) | B: C Ratio |
|---|---|---|---|---|---|
| **Turbo seeded wheat (ZT+R)** | 10 | 55.79 | 10.1 | 62008 | 2.78 |
| **Zero tillage wheat** | | 54.14 | 6.9 | 59636 | 2.74 |
| **Conventional wheat** | | 50.63 | - | 40422 | 1.85 |

**Direct Seeded Rice in Rice-Wheat Cropping System**

Direct Seeded Rice (DSR) is among the latest RCTs evolved and recommended for the rice crop as to substitute the puddled transplanted rice (PTR). The genesis of this technology has been in the backdrop of the following pertinent issues:-

- The labour has become scarce and costly.
- The puddling operation is energy intensive and costly.
- Predominance of the basmati rice in the varietal basket of rice as the DSR betters suits to basmati rice with less chance of yield penalty.
- The Laser leveler and Seed cum fertilizer drills are now available to have the leveled field and line sowing which are the essential prerequisites for the success of DSR.

**DSR revealed the following facts:**

- The succeeding wheat crop appears more vigorous in DSR fields and farmers reported the yield increment of upto 4-5 per cent.
- The DSR definitely saves water during the vegetative phase.

- In nutshell, the DSR is highly desirable in the contemporary Agro-ecological situation but needs more work on crop nutrition, water management and appears to have location specific connotations.

**Weed management in Direct seeding of paddy (2020)**

| Treatments | No. of trials | Yield (q/ha) | Gross cost (Rs./ha) | Gross returns (Rs./ha) | Net returns (Rs./ha) | BC Ratio |
|---|---|---|---|---|---|---|
| **Farmer Practice (Sole application of post emergence Bispyribac-Na)** | 5 | 65.0 | 45955 | 117000 | 71045 | 2.54 |
| **Weed management (Pre emergence- Pendimethalin followed by Post emergence- bispyribac-Na+ Metsulfuron+chlorimuron)** | | 72.5 | 47455 | 130500 | 83045 | 2.74 |

**Laser Land Levelling**

Levelling the fields through laser leveler is one proven technology which is highly useful in conservation of irrigation water. Effective land levelling is meant to optimize water use efficiency, improved crop efficiency, reduce the irrigation time and efforts to require managing the crop and saving of diesel/electricity. This technology gave 16 per cent higher grain yield with 20 per cent water saving.

**Comparison of Water Productivity of Paddy under Laser Levelling and traditional method of levelling (KVK Yamunanagar)**

| Technology | No. of trials | Yield (q/ha) | Increase in Yield (%) | Water saving (%) | Water Productivity (Kg/m$^3$) |
|---|---|---|---|---|---|
| **Traditional land levelling with wooden planker** | 5 | 45.0 | - | - | **0.35** |
| **Laser Land Levelling** | | **52.0** | **16** | **20** | **0.49** |

**Happy Seeder**

About 6.25 per cent increase in wheat yield was observed under crop residue management through happy seeder compared to conventional method. Economic return was also attained under the same practice.

**Demonstration under Crop residue management through happy seeder 2021-22 (KVK Fatehbad)**

| Crop | Thematic area | Technology demonstrated | No. of Farmers | Area (ha) |
|---|---|---|---|---|
| **Wheat** | CRM | Demo. under Crop residue management through happy seeder (Var. HD 3086) | 50 | 20 |

| Yield (q/ha) | | Increase in yield (%) | Economics of demonstration (Rs./ha) | | | | Economics of check (Rs./ha) | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| Demo | Check | | Gross | Gross | Net | B: C | Gross | Gross | Net | B: C |

| | | | cost | return | Return | Ratio (R/C) | cost | return | Return | Ratio |
|---|---|---|---|---|---|---|---|---|---|---|
| **42.5** | 40.0 | 6.25 | 29845 | 85598 | 55753 | 2.86 | 32825 | 80813 | 47988 | 2.46 |

**Drip irrigation**

An increase of 20 per cent sugarcane yield was observed under drip irrigation compared to traditional method of surface irrigation. Alongwith, 42 per cent water was also saved with the same irrigation method.

**Comparison of Water Productivity of Sugarcane under Drip irrigation and traditional method of surface irrigation**

| Technology Option | No. of trials | Yield (q/ha) | Increase in Yield (%) | Water saving (%) | Water Productivity ($Kg/m^3$) |
|---|---|---|---|---|---|
| **Traditional method of irrigation- surface** | 5 | 875.0 | - | - | **7.3** |
| **Drip irrigation** | | 1050.0 | 20 | 42 | 15 |

**Women Empowerment and Gender Sensitization-Developing a Model for Bridging Gender Gap**

Equity, entrepreneurship and empowerment form the base for sustainability of any society. Gender sensitization is a global issue, and even while the gender ratio has improved significantly, the situation for gender equality in patriarchal societies, particularly rural Haryana, was not very positive. It is a gigantic task and needs constant hammering through personalized interventions. Need of the hour is to change insight of the whole society. An attempt was made by choosing remote village located on Haryana, Rajasthan border by conducting various entrepreneurial activities, sensitization campaigns, training centers and workshops. In Orissa & Haryana entrepreneurial inputs in selected villages brought few successful stories.

ICAR-NASF funded project entitled "Women Empowerment and Gender Sensitization Developing a Model for Bridging Gender Gap" helped in assessing the gender gap with respect to five fundamental aspects of inclusive development viz., Social, Health and Nutrition, Environmental, Economical and Technological.

The assessment of gender gap helped in formulating gender-sensitive actionable strategic interventions, which enabled to enhance the farm income, through 'Livelihood Enhancement Model', mitigate the nutritional concern through 'Nutrition Security Model' and promote women agri-preneurial prospects through 'Entrepreneurship Promotion Model'.

The extent of technology adoption through dissemination of scientific crop production technologies, drudgery reduction though popularization of farm implements and tools and increased profitability through commercial farming has created a sense of awareness among the farm women to elevate their existing farming to new dimensions.

As a part of project interventions, sensitization on family nutrition through promotion of 'nutri farms' have made the farming community, especially women farmers to include bio-fortified varieties and nutri-rich vegetables in their daily diet, thus resulting in an increase in production of bio-fortified rice, pulses, fruits and vegetables in the region.

Lastly, the gender sensitization approach of the project which was accomplished through several gender sensitization workshops and programmes, has uplifted the socio-economic status of women in

the region. Activities were undertaken to provide nutrition education, remove drudgery and empower them with income generation activities. Income generation technologies were introduced through different trainings on apparel and textile products, food products, handicrafts and bio-manure. These activities helped in establishing a closer rapport with the stakeholders and instilled confidence in them.

The farm women of the region evolved to have better access to resources and were empowered to take farm related decisions. Conclusively, the inception of the project synthesized a kind of awakening among the farm women of the region, which ended with the formation of WFPOs 'Ananya Farmer Producer Company' Limited, creating a sensation among the women group to upscale their farming to a new height and serve as a catalyst to empower other unreached farm women.

**6.6.4.6. Consultancy/Certification/Testing:** *Mention about the resources generated through Consultancy/ Certification/Testing etc. in last five years. Give details of all activities. Give summary of participation of faculty in Consultancy/Certification/Testing and outreach programmes.*

The Directorate of Extension Education promotes technologies refined by various departments of the university through *Krishi Vigyan Kendras* (14 ICAR KVKS and 5 State funded KVKs) and units of the directorate viz;. Agricultural Technology Information Centre (ATIC), Saina Nehwal Institute of Agricultural Technology Training & Education (SNIATTE), Farm Information and Communication Services (FICS), Associate Director Publications (ADP) and Extension Education Institute (EEI), Nilokheri, Karnal under the supervision of DEE by delivering expert lectures on various need based agriculture and allied subjects to the clientele (farmer/farmwomen/ school dropout students/rural youth) to improve their livelihoods in the field of fruits & vegetables preservation, mushroom production technology, beekeeping, spray techniques, milk and milk products, various value added products, nursery raising, vermi- composting etc. and expertise to middle level extension functionaries of State Department of Agriculture & Farmers' Welfare, Horticulture, Animal Husbandry, Child Development etc. through its consultancy by delivering expert lecture by the scientists concerned.

### 6.6.5. Faculty and Staff Development

**6.6.5.1 Recruitment and Promotional Avenue:** *Give the detailed recruitment procedure for faculty, technical, supporting and administrative staff (in brief) and further mention the last recruitment for each category held in the University. Similarly, career advancement procedure and its implementation for all categories shall be given. How many staff have been recruited directly at the higher positions in the last five years?*

**Recruitment procedure of faculty**

The Academic Council vide item No. B-3 in its 476th (emergent) meeting held on 05.04.2018 has approved the selection criteria for recruitment of Assistant Professor/Equiv. posts by open selection. The qualification and marks for recruitment process has been described in the letter dated 11/04/2018 with Memo No Admn.R.2/18/TM-82/1907-2025. Semilarly, the Personnel Committee/Board of Management vide item No. B-5/A-18 in their 79th /258th meeting held on 21.12.2017 has approved the selection criteria for recruitment of Associate Professor/equivalent (Annexure-1) & Professor/equiv. (Annexure-II) posts by open selection. The qualification and marks for recruitment process has been described in the letter dated 02/01/2018 with Memo No Admn.R.2/17/TM-82/126-250.

**Latest recruitment of faculty and administrative staff**

The teaching posts are filled in the University as per the procedure laid down in Chapter-III and IV of CCSHAU Act & Statutes. The last recruitment in respect of teaching posts, i.e. Assistant Prof./equiv.- 43 Nos. were made vide Advt. No.2 /2022, 3 posts of Deans/Director were made vide Advt. No. 3/2022.

**The following Nos. of teaching posts pertaining to Group A & B have been recruited directly for the last five years:**

| Sr. No. | Name of post | Group | No. of posts filled up |
|---|---|---|---|
| **1** | Deans/Directors | A | 7 |
| **2.** | Associate Prof./equiv. | A | 6 |
| **3.** | Assistant Prof./equiv. | B | 191 |

Forty posts (Group A and B) were filled vide Adv. No. 3/2022 during November 2022. The recruitment process for 41 posts Adv. No. 4/2022 (Group A and B) was completed in June 2023. Also, scrutiny for 41 posts has been completed and interview will be scheduled shortly.

**Promotion of teaching posts:**

The promotion of the faculty is according to the Academic Performance Indicators (API) based on Performance Based Appraisal System (PBAS) under Career Advancement Scheme under Chapter VII-A of HAU Statutes (SD-III). As per the approval of the Academic Council, all the applications for promotions under Career Advancement Scheme as received in the office of the Registrar will be referred to the Committee for proper screening/scrutiny and making recommendations for placing the promotion cases before the Assessment Committee. The cases relating to teaching, research and extension schemes will be referred to the Dean concerned, Director of Research and Director Extension Education respectively who may convene the meeting and act as Chairman of the Committee.

The career advancement procedure and its implementation is available as **Chapter VII A** in **SD-III.**

**Non-teaching posts (recruitment and promotion)**

**i)** **Class I:** Among the Class-I posts, 75% of posts are filled through promotion and 25% of the posts are filled through direct recruitment.

**ii)** **Class II:** Posts of Class-II are filled through promotion except post of Administrative-cum-Accounts Officer and in case of of Administrative-cum-Accounts Officer 75% is filled through promotion and 25% through direct recruitment.

**iii)** **Class-III:** These posts are filled through direct recruitment and some posts of Laboratory staff, Library staff and field staff are filled through promotion.

**iv)** **Class-IV:** These posts are filled through direct recruitment.

The recruitment for group-A, B, C and D non-teaching posts is made in the University as per procedure laid down in **Chapter-VIII** of CCSHAU Act & Statutes (**Chapter VIII** in **SD-III).** The last recruitment in respect of non-teaching posts was made vide Advt. No. 2/2017 **(SD-VIII).**

**The following non-teaching staff has been recruited directly during the last five years:**

| Sr. No. | Name of post | Group | No. of posts filled up. | Recruitment Year |
|---|---|---|---|---|
| **1.** | Principal Campus School | A | 01 | 2018 |
| **2.** | Assistant Registrar | A | 01 | 2018 |

**6.6.5.2 Participation of Faculty in Symposia/Workshops:** *Give the comprehensive list (year wise, College wise) participation of faculty in National/International Seminars/ Symposia/Workshops/ Training/ Consultancy visits/Special assignments etc.*

During the period under report faculty from the College of Agriculture in Hisar participated in 579 National and 272 International trainings, seminars, and conferences. During the reporting period, faculty from the College of Basic Sciences & Humanities participated in 149 National and 122 International trainings, seminars, and conferences. The faculty of I C College of Home Sciences attended a total of 330 National and 102 International trainings, seminars and conferences during the period under report. The faculty of College of Agricultural Engineering & Technology attended a total of 2 National and 12 International trainings, seminars and conferences. The faculty of College of Agriculture, Kaul participated in a total of 43 National trainings, seminars and conferences and the faculty of College of Agriculture, Bawal participated in a total of 13 International and 33 National trainings, seminars and conferences. Year wise and College wise list of faculty participation in different events has been furnished below.

### A) College of Agriculture

The College of Agriculture, CCSHAU, Hisar has 14 departments and the participation of faculty in National/ International Seminars/ Symposia/ Workshops/ Training/Consultancy visits/Special assignments etc. (2018-19 to 2022-23) is as under.

| Sl. No | Department | National | International | Number |
|---|---|---|---|---|
| **1** | Agricultural Economics | 39 | 5 | 44 |
| **2** | Agronomy | 70 | 55 | 125 |
| **3.** | Agricultural Meteorology | 18 | 21 | 39 |
| **4.** | Business Management | 10 | 15 | 25 |

| | | | | |
|---|---|---|---|---|
| **5.** | Entomology | 66 | 16 | 82 |
| **6.** | Forestry | 21 | 19 | 40 |
| **7.** | Genetics and Plant Breeding | 126 | 29 | 155 |
| **8.** | Horticulture | 23 | 18 | 41 |
| **9.** | Nematology | 23 | 6 | 29 |
| **10.** | Plant Pathology | 58 | 22 | 80 |
| **11.** | Seed Science & Technology | 10 | 11 | 21 |
| **12.** | Soil Science | 31 | 18 | 49 |
| **13.** | Vegetable Science | 68 | 33 | 101 |
| **14.** | Extension Education | 16 | 4 | 20 |
| | **Total** | **579** | **272** | **851** |

## 1) Agricultural Economics

| Sl. No | Year | Name of faculty | Name of Seminars/ Symposia/ Workshops / Training / Consultancy visits / Special assignments etc. | National /International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. D.P. Malik, Dr. A.K. Dhillon and Dr. Dalip Kumar Bishnoi | Workshop-cum-Seminar on Resource Use Planning for Sustainable Agriculture held at BHU, Varanasi | National | 29-30 August 2018 |
| 2. | 2018 | Dr. D.P. Malik, Dr. V.P. Luhach, Dr. Nitin Bhardwaj and Dr. Nirmal Kumar | National workshop on Cost of Cultivation of Principal crops in India at University of Kerala, Thiruvanathpuram, (Kerala) | National | 13-15 September 2018 |
| 3. | 2018 | Dr. D.P. Malik, Dr. K.K. Kundu, Dr. Jitender Bhatia and Dr. Dalip Kumar Bishnoi | World Union Wholesale Market (WUWM) Gurugram, | National | 10-12 October 2018 |
| 4. | 2019 | Dr. J. K. Bhatia | 14$^{th}$ Agricultural Science Congress on Innovations for Agricultural Transformation held at NASC complex New Delhi | National | 20-23 February 2019 |
| 5. | 2019 | Dr. Nitin Bhardwaj | Workshop-cum-Seminar on two days' workshop on application of analytical tools and ethics in academic research, Ghaziabad U.P. | National | 27-28 February 2019 |
| 6. | 2019 | Dr. Nirmal Kumar | International Symposium on "Innopreneurship: A Need of Sustainable Agriculture" (ISINSA) CCSHAU Hisar | International | 2-3 February 2019 |
| 7. | 2019 | Dr. Dalip Kumar Bishnoi | International Symposium on "Innopreneurship: A Need of Sustainable Agriculture" (ISINSA) CCSHAU Hisar | International | 2-3 February 2019 |

| 25. | 2019 | Dr. Meena Sewhag | International symposium on "Innopreneurship: A need of sustainable Agriculture" at CCSHAU, Hisar | International | 2-3 February 2019 |
| 26. | 2019 | Dr. A.Duhan | Endeavour Post-doctoral Research Fellowship- 2018 Department of Technical and Higher Education, Govt. of Australia | International | 15 August 2018 to 14 February 2019 |
| 27. | 2019 | Dr. A. Duhan | Refresher Course on Research Management at organised by DHRM, CCSHAU, Hisar | National | 25 July to 14 Aug 2019 |
| 28. | 2019 | Dr. V.S.Hooda | Training programme on "Geospatial Technology & its Application" at HARSAC, Hisar | National | 21 January - 08 February 2019 |
| 29. | 2019 | Dr. V.S.Hooda | 10 days training prog. on "PRA and Micro watershed planning" 12.02.2019 to 21.02.2019 at ICAR-IISWC, Dehradun | National | 12 to 21 February 2019 |
| 30. | 2019 | Dr. Naveen Kumar | International Symposium on Innopreneourship: A need of Sustainable Agriculture" organized by Directorate of Research, CCSHAU, Hisar. | International | 2-3 February 2019 |
| 31. | 2019 | Dr. Sushil Kumar Singh | Short Course on Cop Diversification for Resilience in Agriculture and Doubling farming income conducted by IARI, New Delhi. | National | 25 February to 03 March 2019 |
| 32. | 2019 | Dr. Amarjeet | International Symposium On: Innopreneurship : A need of Sustainable Agriculture" organized by CCS Haryana Agricultural University, Hisar, India. | International | 2-3 February 2019 |
| 33. | 2019 | Dr. Amarjeet | Conference on "Climate Change towards Health and Agricultural Sustainability" to be organized by Department of Environmental Science & Engineering, GJUS&T Hisar - 125001, India. | International | 18–20 February 2019 |
| 34. | 2019 | Dr. Satyajeet | Conference on New Millennia Agriculture: Novel Trends & Future Scenario" at CCS Haryana Agricultural University, Hisar (India). | International | 6-8 November 2019 |
| 35. | 2019 | Dr. Satyajeet | National Seminar on Socio-Digital Approaches for Transforming Indian Agriculture" organized by Indian Society of Extension Education, ICAR-IARI, New Delhi at CCS Haryana Agricultural University, Hisar (India). | National | 20-22 November 2019 |

| | | | | | |
|---|---|---|---|---|---|
| 36. | 2019 | Dr. Neelam | International Symposium on Innopreneurship: A Need of Sustainable Agriculture" at CCSHAU, Hisar, Haryana. | International | 2-3 February 2019 |
| 37. | 2019 | Dr. R. D. Jat | International Symposium on Innopreneurship: A Need of Sustainable Agriculture, CCSHAU, Hisar | International | 2-3 February 2019 |
| 38. | 2019 | Dr. R. D. Jat | Interaction workshop for stakeholders of castor, organized by RRS, Bawal, Held at CCSHAU, Hisar | National | 15-16 March 2019 |
| 39. | 2019 | Dr. Pattam Keerthi | XIV Agricultural Science Congress-Innovations for Agricultural Transformation National Academy of Agricultural Science (NAAS) and ICAR-Indian Agricultural Research Institute | National | 20-23 February 2019 |
| 40. | 2019 | Dr. Pattam Keerthi | International Symposium On Advances in Agrometeorology For Managing Climatic Risks of Farmers. IMD& Indian Centre of Agricultural Research (ICAR)-Indian Agricultural Research Institute and Jawaharlal Nehru University | International | 11-13 February 2019 |
| 41. | 2019 | Dr. Pattam Keerthi | International symposium on Innopreneurship: A need of sustainable Agriculture, Chaudhary Charan Singh Haryana Agricultural University | International | 2-3 February 2019 |
| 42. | 2019 | Dr. Pattam Keerthi | International conference on Climate change towards Health and Agricultural Sustainability Department of Environmental Science & Engineering, Guru Jambheshwar University of Science & Technology, Hisar | International | 18-20 February 2019 |
| 43. | 2019 | Dr. Parveen Kumar | Golden Jubilee International Conference on New Millennia Agriculture Novel Trends and Future Scenario GINMA-2019, at CCSHAU Hisar, Haryana. | International | 6-8 November 2019 |
| 44. | 2019 | Dr. Naveen Kumar | Golden Jubilee International Conference on New Millennia Agriculture- Novel Trends and Future Scenario" organized by Directorate of Research, CCSHAU, Hisar. | International | 6-8 November 2019 |
| 45. | 2019 | Dr. Naveen Kumar | Workshop on "Awareness and Use of Scopus Citation Database" organized by Nehru Library, CCS Haryana Agricultural University, Hisar. | National | 29 November 2019 |
| 46. | 2019 | Dr. Naveen Kumar | National Group Meet (*Rabi* 2019-20) AICRP on Forage Crops & Utilization held at CAU, Imphal. | National | 30-31 August 2019 |

| | | | | | |
|---|---|---|---|---|---|
| 47. | 2019 | Dr. Amarjeet | "Golden Jubilee International Conference on New Millennia Agriculture: Novel Trends & Future Scenario" at CCS Haryana Agricultural University, Hisar (India). | International | 6-8 November 2019 |
| 48. | 2019 | Dr. Sushil Kumar Singh | Golden Jubilee International Conference on "New Millennia Agriculture Novel Trends & Future Scenario" held at CCS Haryana Agricultural University, Hisar | International | 06-08 November 2019 |
| 49. | 2019 | Dr. Nitin Bhardwaj | Golden Jubilee international conference on new millennia agriculture novel trend & future scenario | International | 6 August 2019 |
| 50. | 2019 | Dr. R. D. Jat | Golden jubilee international conference on New Millennia agriculture novel trends and future scenario, held at CCSHAU | International | 6-8 November 2019 |
| 51. | 2019 | Dr. R. D. Jat | Annual Group Meet on Rabi Pulses of AICRP on MULLaRP crops held at Central Agricultural University, Imphal, Manipur (Organized by Govt. institution). | National | 12-13 September 2019 |
| 52. | 2019 | Dr. V.S. Hooda | Collaborative training on "Integrated Farming System: Issues and Challenges" at DHRM, CCSHAU, Hisar on 8-12 July, 2019 organized by Extension Education Institute, Nilokheri. (5 days) | National | 8-12 July 2019 |
| 53. | 2020 | Dr. R. D. Jat | Online Refresher Course on Statistical Tools and Techniques for Analysis of Agricultural Data conducted by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management in Collaboration with Department of Mathematics & Statistics, CCSHAU, Hisar | National | 08-28 July 2020 |
| 54. | 2020 | Dr. A.K. Dhaka | Golden Jubilee International Conference on New Millennia Agriculture Novel Trends and Future Scenario GINMA-2019, 6-8 November, 2019 at CCSHAU Hisar, Haryana. | International | 6-8 November 2019 |
| 55. | 2020 | Dr. A.K. Dhaka | National seminar on Agrometeorological interventions for enhancing farmer's income (AGMET-2020), at College of Horticulture, KAU, Thrissur, Kerala. | National | 20-22 January 2020 |
| 56. | 2020 | Dr. Neelam | AGMET-2020, Kerala Agricultural University | National | 20-22 January 2020 |
| 57. | 2020 | Dr. Suresh Kumar | Golden Jubilee International Conference on "New Millennia | International | 6-8 November 2019 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Agriculture Novel Trends and Future Scenario" held at CCSHAU, Hisar | | |
| 58. | 2020 | Dr. Ankur Chaudhary | Hands-on Training Workshop on 'Assessment Methods for Soil Carbon and Greenhouse Gas Emissions in Agriculture' Department of Soil Science, Punjab Agriculture University, Ludhiana under the auspices of NAHEP-CAAST-SNRM. | National | 12-19 February 2020 |
| 59. | 2020 | Dr. R. D. Jat | Online Annual Group Meet of Kharif pulses held (Organized by Govt. institution) | National | 2-4 June 2020 |
| 60. | 2020 | Dr. V.S. Hooda | Training programme on "Language Skills" at DHRM, CCSHAU, Hisar. (21 days) | National | 27 May 2020 to 16 June 2020 |
| 61. | 2020 | Dr. V.S. Hooda | "Awareness and use of E-resources through remote login for faculty and students of CCSHAU" on 23.06.2020 at Nehru Library, CCSHAU, Hisar. | National | 23 June 2020 |
| 62. | 2020 | Dr. Satyajeet | Agronomist Meet and Students' Weed Contest organized by Department of Agronomy, CCSHAU, Hisar In collaboration with Haryana Agronomists Association & International Weed Science Society held at Hisar. | National | 30-31 January 2020 |
| 63. | 2020 | Dr. Naveen Kumar | National Webinar on "Awareness and Use of e-Resources through Mobile App" organized by Nehru Library, CCS Haryana Agricultural University, Hisar. | National | 18 December 2020 |
| 64. | 2020 | Dr. Sushil Kumar Singh | Biennial Conference on "Weed Management for Enhancing Farmers' Income and FoodSecurityOrganized by Indian society of weed science held at Central Coastal AgriculturalResearch Institute, Goa (India), | National | 5-7 February 2020 |
| 65. | 2020 | Dr. Sushil Kumar Singh | Refresher Course on Extension Management conducted by Academy of Agriculture Research and EducationManagement, Directorate of Human Resource Management, CCSHAU, Hisar | National | 11- 31 December 2020 |
| 66. | 2020 | Dr. Suresh Kumar | Training Programme on "Extension Management" organized at DHRM, CCSHAU, Hisar . | National | 11-31 December 2020 |
| 67. | 2020 | Dr. Suresh Kumar | Geospatial Analytics Using R Online Training Program" organised by IRRI South Asia Regional Centre (IRRI-SARC), Varanasi. | International | 23-25 November 2020 |
| 68. | 2020 | Dr. Vinod Kumar | Refresher course on Statistical tools & techniques for Analysis of Agricultural Data | National | 08 July- 28 August 2020 |

| | | | | | |
|---|---|---|---|---|---|
| 69. | 2020 | Dr. Sandeep Rawal | Training on Statistical tools and techniques for analysis of Agricultural Data | National | 08 to 28 July 2020 |
| 70. | 2020 | Dr. Nitin Bhardwaj | Mathematical science: Repositories of logical thought and analytical tools at CCSHAU, Hisar | National | 22 December 2020 |
| 71. | 2020 | Dr. Neelam | Refresher Course on Statistical Tools and 'techniques for analysis of Agricultural Data by DHRM, CCSHAU, Hisar | National | 8-28 July 2020 |
| 72. | 2020 | Dr. V.S.Hooda | One day webinar on "Climate Resilience Agriculture-Opportunities and potential" on 27.07.2020 organised by Directorate of extension services,- RVSKVV, Gwalior (MP). | National | 27 July 2020 |
| 73. | 2020 | Dr. V.S.Hooda | National webinar on "Start up- A stepping stone to attain self reliance and sustainability in agriculture science" on organised by ASPEE college of Home Science and nutrition, SDAU, Gujrat | National | 06 August 2020 |
| 74. | 2021 | Dr. Amit Kumar | National training programme organized under ICAR-NAHEP CAAST at PAU, Ludhiana | National | 16-28 March 2021 |
| 75. | 2021 | Dr. Satyajeet | International Agronomy Congress on "Agri. Innovations to Combat Food and Nutrition Challenges" organized by ISA at PJTSAU Hyderabad, Telangana (Virtually). | International | 23-27 November 2021 |
| 76. | 2021 | Dr. Naveen Kumar | National Webinar on "फसलों में ओरोबेन्की खरपतवार प्रबंधन" held at Directorate of Research, Maharana Pratap University of Agriculture and Technology, Udaipur, Rajasthan in collaboration with ICAR-Directorate of Weed Research, Jabalpur, Madhya Pradesh. | National | 19 February 2021 |
| 77. | 2021 | Dr. Naveen Kumar | National webinar on "जैविक खेती तकनीकें एवं उनका प्रसार" held at Directorate of Research, Maharana Pratap University of Agriculture and Technology, Udaipur, Rajasthan. | National | 20 February 2021 |
| 78. | 2021 | Dr. Naveen Kumar | National Gladiolus Show cum Webinar on "Gladiolus Production Strategy in India to Improve Farmers' Income" held at Directorate of Research, Maharana Pratap University of Agriculture and Technology, Udaipur, Rajasthan in collaboration with ICAR-Directorate of Floricultural Research, Pune. | National | 24 February 2021 |
| 79. | 2021 | Dr. Naveen Kumar | National Webinar on "Our Solutions are in Nature" sponsored by State Government Funded Rashtriya Krishi | National | 22 May 2021 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Vikas Yojana Project on "Development of Organic Input Production of Organic Farming Technologies and organized by Directorate of Research, Maharana Pratap University of Agriculture and Technology, Udaipur, Rajasthan. | | |
| 80. | 2021 | Dr. Naveen Kumar | "Mass Awareness Campaign on Organic Farming" held by ICAR- All India Network Project on Organic Farming, Directorate of Research, Maharana Pratap University of Agriculture and Technology, Udaipur, Rajasthan. | National | 24 May 2021 |
| 81. | 2021 | Dr. Meena Sewhag | Conference on Agriculture, Climate Change and Life Science held (ONLINE) | International | 5-6 March 2021 |
| 82. | 2021 | Dr. Nitin Bhardwaj | Applications of Statistical and Econometric Techniques in Agriculture by AAREM, at CCSHAU, Hisar | National | 24 to 14 November 2021 |
| 83. | 2021 | Dr. Neelam | Sustaining Pulse production for self sufficiency and nutritional Security (Pulse WebCon-2021) | National | 9-11 February 2021 |
| 84. | 2021 | Dr. Parveen Kumar | Refresher course on Research Management organised by DHRM, CCSHAU, Hisar | National | 8-28 April 2021 |
| 85. | 2021 | Dr. Amit Kumar | Fifth international Agronomy congress organized by Indian society of agronomy at PJTSAU, Hyderabad | International | 23-27 November 2021 |
| 86. | 2021 | Dr. Suresh Kumar | 5$^{th}$ International Agronomy Congress on"Agri Innovations to Combat Food and Nutrition Challenges" at PJTSAU, Hyderabad. | International | 23–27 November 2021 |
| 87. | 2021 | Dr. Vinod Kumar | 5$^{th}$International Agronomy Congress on "Agri Innovations to Combat food and nutrition challenges" organized by Indian Society of Agronomy. | International | 23-27 November 2021 |
| 88. | 2021 | Dr. Naveen Kumar | International Agronomy Congress on Agri Innovations to Combat Food and Nutrition Challenges" organized by the Indian Society of Agronomy at PJTSAU, Hyderabad (India). | International | 23-27 November 2021 |
| 89. | 2021 | Dr. Parveen Kumar | International Agronomy Congress on Agri-Innovations to Combat Food and Nutrition Challenges held at PJTSAU, Hyderabad, Telangana, India | International | 23-27 November 2021 |
| 90. | 2021 | Dr. JM Sutaliya | Training on "Entrepreneurship Orientation Program on Medicinal and Aromatic Plants-III (EOMAP-III)." organized by ICAR-DMAR, Anand, Gujrat | National | 19 July to 8 August 2021 |
| 91. | 2021 | Dr. V.S.Hooda | National Conference on 'Integrated farming systems: A tool for | National | 5-7 October 2021 |

| | | | | | |
|---|---|---|---|---|---|
| | | | enhancing income and nutritional security' organized by ICAR-Research Complex for eastern region. Patna, Bihar. | | |
| 92. | 2021 | Dr. Sushil Kumar Singh | Refresher Course on Research Management conducted by Academy of Agriculture Research and Education Management, Directorate of HumanResource Management, CCSHAU, Hisar | National | 08-28 April 2021 |
| 93. | 2021 | Dr. Amarjeet | National Seminar on *"Agri-Business Identification, Planning and Funding for Entrepreneurship Development*" Organized by Navsari Agricultural University, Navsari, Gujrat. | National | 01 October 2021 |
| 94. | 2021 | Dr. Amarjeet | 5 th International Agronomy Congress on *"Agri. Innovations to Combat Food and Nutrition Challenges"* organized by ISA at PJTSAU Hyderabad, Telangana held. | International | 23-27 November 2021 |
| 95. | 2021 | Dr. Amarjeet | International Conference on" Integrated Agriculture, Natural Farming, Biodiversity Conservation and Rural Bio- Entrepreneurship under Changing Climate Scenario" organised by NAAS Regional Chapter – Barapani, International Union of Organic Agriculture, Shillong and COA, CAU (I) Meghalaya. | International | 7-9 December 2021 |
| 96. | 2021 | Dr. A.K.Dhaka | 5th International Agronomy Congress on Agri-Innovations to Combat Food and Nutrition Challenges held at PJTSAU, Hyderabad, Telangana, India | International | 23-27 November 2021 |
| 97. | 2021 | Dr. Ankur Chaudhary | Fifth International Agronomy Congress on "Agri Innovations to Combat Food and Nutrition Challenges" Organised by Indian Society of Agronomy at PJTSAU, Hyderabad | National | 23-27 November 2021 |
| 98. | 2021 | Dr. A. Duhan | Refresher course on Application of statistical and Econometric Techniques in Agriculture organized by AAREM, CCSHAU, Hisar | National | 24 November to 14 December 2021 |
| 99. | 2022 | Dr. Naveen Kumar | ICAR sponsored Winter School entitled "Advances in Agricultural Extension Research'' conducted by Dairy Extension Division, ICAR-NDRI, Karnal. | National | 28 January to 17 February 2022 |
| 100. | 2022 | Dr. Satyajeet | National Symposium on Paradigm shift in cotton cultivation at Maharana Pratap University of Agriculture and Technology, Udaipur. | National | 8-10 August 2022 |

| | | | | | |
|---|---|---|---|---|---|
| 101. | 2022 | Dr. Meena Sewhag | International Conference on Advancement of Science and Technology for Environment, Society and People organized by Society for Technology, Environment, Science & People through virtual mode | International | 28-29 January 2022 |
| 102. | 2022 | Dr. V.S.Hooda | International Conference on 'Recent Advances for managing sustainable soil health and crop production' organized by GKV Society, Agra, India | International | 18-20 February 2022 |
| 103. | 2022 | Dr. V.S.Hooda | Winter School Training programme on 'Conservation agriculture for efficient resource use and climate-resilient farming' organized at Division of Agronomy, ICAR-IARI, New Delhi. | National | 15 February to 07 March 2022 |
| 104. | 2022 | Dr. Ankur Chaudhary | XXIX Annual review meeting of AICRP WM AICRP weed management, ICAR-Directorate of Weed Research Jabalpur at TNAU Coimbatore | National | 25-27 May 2022 |
| 105. | 2022 | Dr. Vinod Kumar | Training on Natural Farming : Way forward for sustainable Farming and Ecological Balance | National | 13-22 December 2022 |
| 106. | 2022 | Dr. Meena Sewhag | International Conference on Vision 2047: Sustainable Developments towards AtmaNirbhar Bharat (VSANB-2022) held on 23rd -24th December, 2022 at FDDI Chandigarh. | International | 23-24 December 2022 |
| 107. | 2022 | Dr. Sushil Kumar Singh | "BIOSCI-CON, Biosciences Congress- 2022" Organized byIndian Society Of Genetics, Biotechnology Research andDevelopment AndHindustan College Of Science & Technology, Farah,U.P.held at Hindustan College of Science & Technology, Farah, U.P., India. | International | 14-17 April 2022 |
| 108. | 2022 | Dr. A.K.Dhaka | International Conference on "Sustainable Agricultural Innovations for Resilient Agri-Food systems" he at SKUAST Jammu (India) | International | 13-15 October 2022 |
| 109. | 2022 | Dr. A. Duhan | Winter School on Natural Farming-Agroecological Approaches under Rainfed Production System at SKN Agriculture University, JOBNER, JAIPUR | National | 08-28 December 2022 |
| 110. | 2023 | Dr. Vinod Kumar | Pulses: Smart Crops for Agricultural Sustainability And Nutritional Security" organized by ISPRD, ICAR & IIPR, Kanpur | International | 10-12 February 2023 |
| 111. | 2023 | Dr. Sandeep Rawal | International Conference on Climate Resilient Agriculture forFood | International | 17-19 February 2023 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Security and Sustainability | | |
| 112. | 2023 | Dr. Suresh Kumar | International Conference on 'Climate Resilient Agriculture for Food Security and Sustainability' organised by CCSHAU, Hisar | International | 17-19 February 2023 |
| 113. | 2023 | Dr. Ajay Singh | International Conference on Climate Resilient Agriculture for Food Security and Sustainability held at CCSHAU, Hisar | International | 17-19 February 2023 |
| 114. | 2023 | Dr. Amarjeet | International Conference on "Climate Resilient Agriculture for Food Security and Sustainability" at CCSHAU, Hisar. | International | 17-19 February 2023 |
| 115. | 2023 | Dr. Uma Devi | National webinar on "Quit India Movement To Food Secured India" held on 8th August, 2022 organized by Maharana Partap University of Agriculture and Technology, Udaipur (Rajasthan) | National | 8 August 2022 |
| 116. | 2023 | Dr. Uma Devi | International Conference on, "Pulses: Smart Crops for Agricultural Sustainability and Nutritional Security" NASC complex, New Delhi-110012 organized by ISPRD, IIPR and ICAR | International | 10-12 February 2023 |
| 117. | 2023 | Dr. Uma Devi | International Conference on, "Climate Resilient Agriculture for Food Security and Sustainability" at CCSHAU organized by Chaudhary Charan Singh Haryana Agricultural University, Hisar. | International | 17-19 February 2023 |
| 118. | 2023 | Dr. Sushil Kumar Singh | International Conference on"Climate Resilient Agriculture for Food Security and Sustainability"held at CCS Haryana Agricultural University, Hisar | International | 17-19 February 2023 |
| 119. | 2023 | Dr. Naveen Kumar | International Conference on "Climate Resilient Agriculture for Food Security and Sustainability" at Chaudhary Charan Singh Haryana Agricultural University, Hisar. | International | 17-19 February 2023 |
| 120. | 2023 | Dr. Satyajeet | International Conference "Climate Resilient Agriculture for Food Security and Sustainability on at CCSHAU, Hisar. | International | 17-19 February 2023 |
| 121. | 2023 | Dr. Satyajeet | International Conference on System of CropIntensification (ICSCI 2022) for Climate-Smart Livelihoodand Nutritional Security held at Hyderabad | International | 12-14 December 2022 |

| | | | | | |
|---|---|---|---|---|---|
| 122. | | Dr. Amit Kumar | International conference on Climate Resilient Agriculture for food Security and Sustainability held at CCSHAU, Hisar. | International | 7-19 February 2023 |
| | | Dr. Amit Kumar | ICAR sponsored short course on Agri-preneurship development in seed sector for sustainability of Agriculture & Rural Economy to be held at ICAR-Indian Institute of Wheat and Barley Research, Karnal (Haryana) | National | 01-10 February 2023 |
| 123. | 2023 | Dr. V.S.Hooda | International Conference on "Climate Resilient Agriculture for Food Security and Sustainability" at CCSHAU, Hisar | International | 17-19 February 2023 |
| 124. | 2023 | Dr. A. Duhan | International Conference on 'Climate Resilient Agriculture for Food Security and Sustainability' organized by CCSHAU.<br><br>International Conference on 'Biotechnology and Human Welfare: Vision 2030 and Beyond' organized by Department of Biotechnology, Chaudhary Devilal University Sirsa | International<br><br>International | 17-19 February 2023<br><br>3-4 March 2023 |
| 125. | 2023 | Dr. Pattam Keerthi | International conference on Climate Resilient Agriculture for Food Security and Sustainability | International | 17-19 February 2023 |

## 3. Department of Agricultural Meteorology

| Sl. No | Year | Name of faculty | Name of Seminars/ Symposia/ Workshops / Training / Consultancy visits / Special assignments etc. | National/International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. M.L. Khichar | Meeting on Preparation of roadmap for successful implementation of block level Agromet Advisory Services on at IMD New Delhi | International | 04 May 2018 |
| 2. | 2018 | Dr. M.L. Khichar | Annual Review Meeting of Gramin Krishi Mausam Sewa (GKMS) at ANGRAU Regional Agricultural Research Station, Tirupati (Andhra Pradesh) | National | 3-5 December 2018 |
| 3. | 2018 | Dr. C.S. Dagar | Annual Review Meeting of Gramin Krishi Mausam Sewa (GKMS) at ANGRAU Regional Agricultural Research Station, Tirupati (Andhra Pradesh) | National | 3-5 December 2018 |
| 4. | 2018 | Dr. C.S. Dagar | XV Biennial workshop-AICRP on Agrometeorology, at UAS-Dharwad, | National | 15-17 November |

| | | | | | |
|---|---|---|---|---|---|
| | | | RASA, Vijayapura, Karnatak | | 2018 |
| 5. | 2018 | Dr Anurag | 'Refresher course on Computer Applications' organized by Academy of Agricultural Research and Education Management, Directorate of Human Resource Management, CCSHAU Hisar | National | 16 May, 2018 to 05 June, 2018 |
| 6. | 2018 | Dr. Anil Kumar | XV Biennial workshop-AICRP on Agrometeorology, at UAS-Dharwad, RASA, Vijayapura, Karnatak | National | 15-17 November, 2018 |
| 7. | 2019 | Dr. Surender Singh | International Symposium on "Advances in Agrometeorology for Managing Climatic Risks of Farmers" (INAGMET-2019) at JNU, New Delhi (India) | International | 11- 13 February 2019 |
| 8. | 2019 | Dr. M.L. Khichar | International Symposium on Innopreneurship: A need of sustainable Agriculture (ISINIA-2019) at CCSHAU Hisar. | International | 2-3 February 2019 |
| 9. | 2019 | Dr. M.L. Khichar | International Symposium on "Advances in Agrometeorology for Managing Climatic Risks of Farmers INAGMET 2019" at JNU, Convention center (Auditorium), JNU Campus, New Delhi, India. | International | 11-13 February 2019 |
| 10. | 2019 | Dr. C.S. Dagar | Symposium on "Advances in Agrometeorology for Managing Climatic Risks of Farmers INAGMET 2019" at JNU, Convention center (Auditorium), JNU Campus, New Delhi | International | 11-13 February, 2019 |
| 11. | 2019 | Dr. Anil Kumar | Symposium on "Advances in Agrometeorology for Managing Climatic Risks of Farmers INAGMET 2019" at JNU, Convention center (Auditorium), JNU Campus, New Delhi | International | 11-13 February, 2019 |
| 12. | 2019 | Dr. Raj Singh | Swiss Geoscience Meeting in Fribourg, Switzerland | International | 14-29 November, 2019 |
| 13. | 2019 | Dr. Raj Singh | Golden Jubilee International Conference on "New Millennia Agriculture- Novel Trends and Future Scenario" at CCSHAU Hisar | International | 6-8 November, 2019 |
| 14. | 2019 | Dr. Ram Niwas, | Golden Jubilee International Conference on "New Millennia Agriculture- Novel Trends and Future Scenario" at CCSHAU Hisar | International | 6-8 November, 2019 |
| 15. | 2019 | Dr. Surender Singh | 17$^{th}$ Swiss Geoscience Meeting in Fribourg, Switzerland | International | 14-29, November 2019 |
| 16. | 2019 | Dr. Surender Singh | Golden Jubilee International Conference on "New Millennia Agriculture- Novel Trends and Future Scenario" at CCSHAU Hisar | International | 6-8, November 2019 |

| | | | | | |
|---|---|---|---|---|---|
| 17. | 2019 | Dr. M.L. Khichar | 'Use of satellite products in operational Agromet Advisory Services in Haryana' with Scientists of ISRO-Space Application Centre (SAC), IMD and SAUs at SAC Ahmedabad | National | 24-25, June 2019 |
| 18. | 2019 | Dr. M.L. Khichar | Golden Jubilee International Conference on New Millennia Agriculture Novel Trends and Future Scenario GINMA-2019, at CCSHAU Hisar, Haryana. | International | 6-8 November, 2019 |
| 19. | 2019 | Dr. C.S. Dagar | Golden Jubilee International Conference on "New Millennia Agriculture- Novel Trends and Future Scenario" at CCSHAU Hisar | International | 6-8, November 2019 |
| 20. | 2019 | Dr. Anurag | Golden Jubilee International Conference on "New Millennia Agriculture- Novel Trends and Future Scenario" at CCSHAU Hisar | International | 6-8, November 2019 |
| 21. | 2019 | Dr. Anurag | Delegate "20th APG meet and National Conference on Ecological Sustainability,Regional Development and Geospatial Technology" held at Govt. College, Hisar | National | 9-11 November, 2019 |
| 22. | 2020 | Dr. M.L. Khichar | National Seminar on Agrometeorological Interventions for Enhancing Farmers' Income (AGMET-2020)" scheduled at KAU, Thrissur, Kerala. | National | 20-22, January 2020 |

## 4. Department of Business Management

| Sl. No | Year | Name of Faculty | Name of Seminars/ Symposia/ Workshops / Training / Consultancy visits / Special assignments etc. | National /International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2019 | Dr. Atul Dhingra | Technical Session on "Strategy, Entrepreneurship & IT" in HSB 11th Annual National Conference on Business and Management organized by Haryana School of Business | National | 7-8, Feb 2019 |
| 2. | 2020 | Dr. Atul Dhingra | Technical Session on in HSB 12th Annual National Conference on Business and Management organized by Haryana School of Business, GJUS&T, Hisar, | National | 6-7, Feb 2020 |
| 3. | 2020 | Dr. Atul Dhingra | International Webinar on "New Dimensions of Human Resource Management after COVID-19" organized by Om Sterling Global University, Hisar, | International | 7 November 2020 |
| 4. | 2020 | Dr. Atul Dhingra | Online National Workshop on "Intellectual Property Rights: Industry-Academia Interface" organized by Internal Quality Assurance Cell (IQAC), Guru Nanak Khalsa College, Yamuna Nagar, | National | 4 December 2020 |
| 5. | 2021 | Dr. Atul Dhingra | Technical Session in HSB 13th Annual National Conference on Business and Management organized by Haryana School of Business, GJUS&T, Hisar, | National | 11-12 February 2021 |
| 6. | 2022 | Dr. Atul Dhingra | International Conference on 'Technologies and Options for securing Energy & Food flows in view of the Ukrainian Crisis' and presented a paper titled, "Energy & Food Flows in view of the Ukrainian Crisis – Options and Approaches for Developed and Developing Countries", organized by IFEED (www.ifeed.org) in Istanbul, Turkey. | International | 20-22 September, 2022 |
| 7. | 2023 | Dr. Atul Dhingra | 'Promoting Agripreneurship for Agribusiness towards Food Security and Sustainability' on February 18, 2023 in International conference on 'Climate Resilient Agriculture for Food Security and Sustainability | International | 17-19, February 2023 |

| | | | | | |
|---|---|---|---|---|---|
| | | | (INTCLIMATE 2023) organized by CCSHAU, Hisar | | |
| 8. | 2019 | Dr. S. K. Goyal | Poster presented in Golden Jubilee International Conference on New Millennia Agriculture- Novel Trends and Future Scenario held at Chaudhary Charan Singh, Haryana Agricultural University, Hisar. | International | 6-18. November 2019 |
| 9. | 2023 | Dr. S. K. Goyal | International Conference on Climate Resilient Agriculture for Food Security and Sustainability held at Chaudhary Charan Singh, Haryana Agricultural University, Hisar. | International | 17-18. February 2023 |
| 10. | 2019 | Dr. Suman Ghalawat | Golden Jubilee International Conference on New Millennia Agriculture Novel Trends and Future Scenario(GINMA-2019) | International | 6 - 8 November, 2019 |
| 11. | 2019 | Dr. Suman Ghalawat | International Symposium proceedings on "Innopreneurship: A Need of Sustainable Agriculture (ISINSA-2019) | International | 2 -3 February 2019 |
| 12. | 2019 | Dr. Suman Ghalawat | National Conference on Capacity Building of Sustainable Food Value Chains for Enhanced Food Safety and Quality | National | 21- 22 August 2019 |
| 13. | 2022 | Dr. Suman Ghalawat | National Conference on "Mathematical Sciences for Applied & Agricultural Research" | National | 22 February, 2022 |
| 14. | 2023 | Dr. Suman Ghalawat | International Conference on Climate Resilient Agriculture for Food Security and Sustainability at CCSHAU, Hisar | International | 17-19 February 2023 |
| 15. | 2022 | Dr. Amita Girdhar | National Conference on "Mathematical Sciences for Applied & Agricultural Research" | National | 22 February 2022 |
| 16. | 2023 | Dr. Amita Girdhar | International Conference on Climate Resilient Agriculture for Food Security and Sustainability at CCSHAU, Hisar | International | 17-19 February 2023 |
| 17. | 2019 | Mr. Subodh Agarwal | "Golden Jubilee International conference on new millennia agriculture novel trends and Future Scenario" orgnised by Directorate of Research at CCSHAU, Hisar | International | 6-18 November 2019 |
| 18. | 2019 | Mr. Subodh Agarwal | National Seminar on "Inter-Dependence of Nations in Shaping the Global Future: Issues, Challenges and Way Forward" held at UGC-HRDC, Kumaun University, Nainital. | National | 13-14 December 2019 |
| 19. | 2020 | Mr. Subodh Agarwal | International Conference on "Global Food Security-2020" held on at Le Corum, Montepellier, France. | International | 7-9 December 2020 |

| | | | | | |
|---|---|---|---|---|---|
| | | | (Through online mode) | | |
| 20. | 2021 | Mr. Subodh Agarwal | International conference on "Global Initiative in Agricultural, Forestry and Applied Sciences for Food Security, Environmental Safety and Sustainable Development" (GIAFAS-2021) held at Shri Guru Ram Rai University, Dehradun, Uttarakhand. | International | 17-18 October 2021 |
| 21. | 2022 | Mr. Subodh Agarwal | National seminar on "Managing weather and climate risks in agriculture-Adapting crops to climate variability and uncertainty" held at SKAUST, Srinagar. | National | 24-26 March 2022 |
| 22. | 2019 | Dr. Megha | In Golden Jubilee International Conference on new Millennia Agriculture Novel Trends and Future Scenario (GINMA-2019), Organized by CCS Haryana Agricultural University, Hisar, Haryana, India | International | 6-8 November 2019 |
| 23. | 2022 | Dr. Megha | "Mathematical ciences for Applied and Agricultural Research "organized by dept. of math & stat. CCS Haryana Agricultural University, Hisar, Haryana, | National | 22 Feburary 2022 |
| 24. | 2022 | Dr. Megha | "5th International Conference on Mathematical Modelling, Applied Analysis and Computation-2022 (ICMMAAC-22)"organized by Department of mathematics, Faculty of Science, JECRC University, Jaipur, India, | International | 4-6 August 2022 |
| 25. | 2023 | Dr. Megha | International Conference on Climate Resilient Agriculture for Food Security and Sustainability (INCLMATE-2023)" organized by CCSHAU, Hisar, | International | 17-19 February 2023 |

## 5. Department of Entomology

| **Sl.** | **Year** | **Name of faculty** | **Name of Seminars/ Symposia/ Workshops / Training / Consultancy visits / Special assignments etc.** | **National /International** | **Date(s)** |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. Sunita Yadav | National Startup Summit held at CCSHAU, Hisar | National | 1-2, June 2018 |
| 2. | 2019 | Dr. Sunita Yadav | Training course on 'DNA-Bar coding and Bioinformatics Applications in Entomology' organized by National Bureau of Agricultural Insect Resources (NBAIR), Bangalore | National | 25 February- 3 March 2019 |
| 3. | 2019 | Dr. Krishna Rolania | "Innopreneurship: A Need of Sustainable Agriculture" organized by CCSHAU, Hisar, Haryana | International | 2-3 February 2019 |
| 4. | 2019 | Dr. Deepika Kalkal | Recent Advances in Agriculture, | International | 2 March 2019 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Aquaculture, Food Technology, Environmental Dynamics and Climate Change (AFTEC- 2019) | | |
| 5. | 2019 | Dr. Deepika Kalkal | Farmers' Friendly Soil and Water Conservation Technologies for Mitigating Climate Change Impact | National | 31 January to 2 February 2019 |
| 6. | 2018 | Dr. Swati Mehra | Induction Training Course organized by the Academy of Agricultural Research and Education Management (AAREM) at CCSHAU, Hisar. | National | 07 June to 07 July 2018 |
| 7. | 2018 | Dr. Lomash Kumar | Intellectual Property Rights-A Mechanism for Social Economic Growth | National | 6 September, 2018 |
| 8. | 2018 | Dr. Lomash Kumar | Induction Training organized by Academy of Agricultural Research & Education Management, at CCSHAU, Hisar | National | 29 November to 29 December 2018 |
| 9. | 2019 | Dr. Lomash Kumar | Awareness and use of Scopus database and Mendeley Reference Manager, College of Basic Sciences and Humanities | National | 28 January 2019 |
| 10. | 2019 | Dr. Lomash Kumar | Training on 'Pesticide Residue Analysis (PRA)" at National Institute of Plant Health Management (NIPHM), Hyderabad. | National | 1 May to 21 May 2019 |
| 11. | 2020 | Dr. Sunita Yadav | Conference on 'Termites and Bees of Haryana' organized by Centre for Conservation of Natural Resources (CCNR), TDU, Bangalore | National | 15 May 2020 |
| 12. | 2019 | Dr. Sunita Yadav | Webinar on 'Locust: A serious threat to Agriculture' organized by Department of Entomology and Directorate of Research, CCS Haryana Agricultural University, Hisar | National | 29 May 2020 |
| 13. | 2019 | Dr. Sunita Yadav | Webinar on 'Awareness & use of CeRA Resources through J-Gate Discovery Plateform' organized by Nehru Library, CCS Haryana Agricultural University, Hisar in collaboration with Consortium for e-resources –DKMA-ICAR, New Delhi and Informatics Publishing Limited, Bangalore | National | 25 June 2020 |
| 14. | 2020 | Dr. Sunita Yadav | Webinar on 'Awareness & use of e-Resources through remote login' organized by Nehru Library, CCS Haryana Agricultural University, Hisar | National | 23 June 2020 |
| 15. | 2020 | Dr. Sunita Yadav | Webinar on "Emerging Trends in Physics and its Applications in Agriculture" organized by Department of Physics, College of Basic Sciences and Humanities, CCS Haryana Agricultural | International | 29 June 2020 |

| | | | | | |
|---|---|---|---|---|---|
| | | | University, Hisar, Haryana, India | | |
| 16. | 2019 | Dr. Krishna Rolania | New Millennia Agriculture- Novel Trends and Future Scenario | International | 6 -8 November 2019 |
| 17. | 2020 | hna Rolania | Agrometerological interventions for enhancing farmers' income (AGMET-2020) | National | 20-22 January, 2020 |
| 18. | 2019 | Dr. DeepikaKalkal | New Millennia Agriculture- Novel Trends and Future Scenario | International | 6 -8 Novmber, 2019 |
| 19. | 2020 | Dr. DeepikaKalkal | Agrometerological interventions for enhancing farmers' income(AGMET-2020) | National | 20-22 January, 2020 |
| 20. | 2019 | Dr. Swati Mehra | ISEE National seminar on: Socio-Digital Approaches for Transforming Indian Agriculture, at CCSHAU, Hisar. | National | 20- 22, November 2019 |
| 21. | 2020 | Dr. Lomash Kumar | Capacity development for agricultural innovation systems: Agricultural research and climate-smart agriculture approaches | International | 7-18 March 2020 |
| 22. | 2019 | Dr. Manoj Kumar Jat | Induction training course at Directorate of HRM, at CCSHAU, Hisar. | National | 18 November to 17 December, 2019 |
| 23. | 2019 | Mr. Harish Kumar | Innopreneurship: A Need of Sustainable Agriculture (ISINSA-2019)" | International | 2 -3 February, 2019 |
| 24. | 2019 | Dr. Ankit Kumar | New Millennia Agriculture- Novel Trends and Future Scenario. | International | 6 -8, November, 2019 |
| 25. | 2019 | Dr. Ankit Kumar | Induction Training programme conducted by Directorate of HRM, at CCSHAU, Hisar. | National | 18 November to 17 December 2019 |
| 26. | 2019 | Dr. Ankit Kumar | One day workshop on Awareness and Use of Scopus Citation Database Organized by Nehru Library, CCSHAU, Hisar. | National | 29 November 2019 |
| 27. | 2020 | Dr. Swati Mehra | Attended & IDEA Investors Meet 2020organised by ABIC, CCSHAU, Hisar on December 4th, 2020 (Online) | National | 4 December 2020 |
| 28. | 2020 | Dr. Sunita Yadav | Web Conference on "Ensuring Food Safety, Security and Sustainability through Crop Protection" organized by BHU, Sabour, Bhagalpur | International | 5-6, August 2020 |
| 29. | 2020 | Dr. Sunita Yadav | Webinar on Diversification in Agriculture: Enhancement in farmers income organized by Department of Forestry, CCSHAU, Hisar | National | 22 August 2020 |
| 30. | 2020 | Dr. Sunita Yadav | Online training on 'Farm Equipment for Plant Health Management' organized by National Institute of Plant Health | National | 29 to 31 October, 2020 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Management, Hyderabad | | |
| 31. | 2020 | Dr. Sunita Yadav | Webinar on Health as a Driver of Plant Biosecurity, | International | 26 November, 2020 |
| 32. | 2020 | Dr. Sunita Yadav | Food Security and Sustainable Agriculture' organized on the eve of International Year of Plant Health 2020 by National Institute of Plant Health Management, Hyderabad | National | 16, December 2020 |
| 33. | 2020 | Dr. Sunita Yadav | Refresher Course on "Extension Management" organized by Academy of Agricultural Research and Education Management, Directorate of HRM, CCSHAU, Hisar | National | 11 -31 December, 2020 |
| 34. | 2021 | Dr. Sunita Yadav | National Web-symposium on Recent Advances in Beneficial Insects and Natural Resins & Gums held at ICAR-IINRG, Ranchi | National | 25 -26 February 2021 |
| 35. | 2021 | Dr. Sunita Yadav | Online training on 'Invasive Alien Species: Introduced and Emerging Pests' organized by National Institute of Plant Health Management, Hyderabad | National | 06 to 08 April, 2021 |
| 36. | 2021 | Dr. Sunita Yadav | National Webinar on "Beekeeping : Opportunities and Challenges" organized by AICRP (Honeybee and Pollinator), Division of Entomology, Sher-e-Kashmir University of Agricultural Sciences and Technology of Jammu, J&K (UT) | National | 20 -21 May, 2021 |
| 37. | 2021 | Dr. Krishna Rolania | Recent Advances in Beneficial Insects, Natural Resins and Gums (By virtual mode) | National | 25 - 26 February, 2021 |
| 38. | 2020 | Dr. Krishna Rolania | Agricultural Resource Management for Atmanirbhar Bharat (By virtual mode) | National | 17 -19 July, 2020 |
| 39. | 2021 | Dr. Deepika Kalkal | Recent Advances in Beneficial Insects, Natural Resins and Gums (By virtual mode) | National | 25 - 26 February, 2021 |
| 40. | 2020 | Dr. Deepika Kalkal | Refresher Course on "Extension Management" organized by Academy of Agricultural Research and Education Management, Directorate of HRM, CCSHAU, Hisar | National | 11 -31 December, 2020 |
| 41. | 2021 | Dr. Swati Mehra | Recent Advances in Beneficial Insects and Natural Resins & Gums, held at ICAR-IINRG, Ranchi | National | 25 - 26 February, 2021 |

| 54. | 2021 | Dr. Manoj Kumar Jat | Priorities in crop protection for sustainable agriculture (By virtual mode) | National | 16 -18 March, 2021 |
| 55. | 2020 | Dr. Manoj Kumar Jat | National Level Online Training programme Recent advances in entomology- new dimensions to invigorate the insect pest management (By virtual mode) | National | 7 -18 December, 2020 |
| 56. | 2021 | Dr. Ankit Kumar | Training "On-Farm production of Bio-control agents and Microbial bio- pesticides, NIPHM Hyderabad. | National | 13 -17 April 2021 |
| 57. | 2021 | Dr. Sunita Yadav | Attended one day Webinar on 'Bio control- A global Sustainable Approach for Ecofriendly Agriculture' organized by NIPHM | National | 24 September, 2021 |

| | | | | | |
|---|---|---|---|---|---|
| 58. | 2021 | Dr. Sunita Yadav | Training on 'Plant Health management in protected Cultivation' organized by NIPHM | National | 4 to 8 October, 2021 |
| 59. | 2021 | Dr. Sunita Yadav | One day Webinar on 'Research Management' | National | 21-Dec-2021 |
| 60. | 2021 | Dr. Sunita Yadav | Webinar on Research Methodology Enhancing the Research Grants organized by Swami Vivekanand Subharti University, U.P. | National | December, 2021 |
| 61. | 2021 | Dr. Sunita Yadav | Online training on "Conservation of Insect Pollinators in Agriculture" organized by NIPHM, Hyderabad | National | 22-24 November 2021 |
| 62. | 2022 | Dr. Sunita Yadav | Winter school on "Commercial Apiculture for Livelihood Security of Farmers and Unemployed Youth" organized by Department of Entomology, PAU, Ludhiana | National | 10 February to 02 March 2022 |
| 63. | 2022 | Dr. Sunita Yadav | Annual meeting of the Indian Phytopathological Society (NZ) & National Symposium on Crop protection through Bio-rational approaches- Current trends and future perspective organized by Indian Phytopathological Society and Department of Plant Pathology, College of Agriculture, CCSHAU, Hisar | National | 10 March 2022 |
| 64. | 2022 | Dr. Krishna Rolania | Crop Protection through bio-rational approaches-current trends and future perspective | National | 10 March 2022 |
| 65. | 2022 | Dr. Krishna Rolania | Mathematical Sciences for Applied and Agricultural Research organized by Department of Mathematics and Statistics, COBS&H, CCSHAU, Hisar sponsored by HSCSIT, Panchkula, Haryana. | National | 22 February 2022 |
| 66. | 2022 | Dr. Deepika Kalkal | Annual meeting of the Indian Phytopathological Society (NZ) & National Symposium on Crop protection through Bio-rational approaches- Current trends and future perspective organized by Indian Phytopathological Society and Department of Plant Pathology, College of Agriculture, CCSHAU, Hisar | National | 10 March 2022 |
| 67. | 2022 | Dr. Lomash Kumar | Scientific Management of *Apis mellifera* Colonies for Nutritional and Economic Security at CCSHAU, Hisar | National | 25 January to 3 February, 2022 |
| 68. | 2022 | Dr. Lomash Kumar | Recent Innovations in Stored Product Protection for Food and Nutritional Security: A Gateway of Green Agriculture Technology | National | 24 February to 16 March, 2022 |

| | | | | | |
|---|---|---|---|---|---|
| 69. | 2022 | Dr. Lomash Kumar | Crop Protection through Bio-rational Approaches- Current Trends and Future Perspective | National | 10 March, 2022 |
| 70. | 2022 | Dr. Manoj Kumar Jat | Commercial Apiculture for Livelihood Security of Farmers and Unemployed Youth | National | 10 February to 02nd March, 2022 |
| 71. | 2021 | Dr. Manoj Kumar Jat | Conservation of Insect Pollinators in Agriculture | National | 22nd to 24 November, 2021 |
| 72. | 2021 | Dr. Manoj Kumar Jat | Alternate cropping systems for climate and resource conservation (By virtual mode) | International | 29 Sep. to 01 Oct. 2021 |
| 73. | 2021 | Dr. Manoj Kumar Jat | Fruits, vegetables and tropical tubers in shaping global food and nutrition security (By virtual mode) | International | 12 November, 2021 |
| 74. | 2021 | Dr. Manoj Kumar Jat | Remote sensing innovations for smart and precision Agriculture (By virtual mode) | National | 12 July, 2021 |
| 75. | 2021 | Dr. Manoj Kumar Jat | Emerging trends in plant Physiology (By virtual mode) | National | 28 June, 2021 |
| 76. | 2022 | Dr. Ankit Kumar | National symposium on crop protection through Bio-rational approaches-Current Trends and Future Perspective & Annual Meeting of Indian Phytopathological Society at CCSHAU, Hisar | National | 10 March, 2022 |
| 77. | 2023 | Dr. Sunita Yadav | International Conference on Climate Resilient Agriculture for Food Security and Sustainability at CCSHAU, Hisar | International | 17 -19 February, 2023 |
| 78. | 2022 | Dr. Krishna Rolania | International Conference on "Sustainable Agricultural Innovations for Resilient Agri-Food Systems" at Sher-e-Kashmir University and Technology of Jammu, India. | International | 13 to 15 October, 2022 |
| 79. | 2023 | Dr. Krishna Rolania | International Conference on "Climate Resilient Agriculture for Food Security and Sustainability" at CCS Haryana Agricultural University, Hisar | International | 17 -19 February, 2023 |
| 80. | 2022 | Dr. Deepika Kalkal | National Symposium on "Paradigm shift in cotton cultivation" at MPUAT, Udaipur | National | 8 -10 August, 2022 |
| 81. | 2023 | Dr. Deepika Kalkal | Refresher course on"Entrepreneurial Prospects in Agricultural and Allied Sciences" at DHRM, CCSHAU, Hisar | National | 10 30 January,2023 |
| 82. | 2023 | Dr. Deepika Kalkal | International Conference on "Climate Resilient Agriculture for Food Security and Sustainability" at CCS Haryana Agricultural University, Hisar | International | 17 -19 February, 2023 |

## 6. Department of Forestry

| Sr. No. | Year | Name of faculty | Name of Seminars/ Symposia/ Workshops / Training / Consultancy visits / Special assignments etc. | National /International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. Karan Singh Ahlawat | 14th National silviculture conference on forest and sustainability: Securing a common future | National | 3-5 December, 2018 |
| 2. | 2019 | Dr. Karan Singh Ahlawat | 14thInternational symposium on Innopreneurship: A need of sustainable agriculture | International | 2-3 February, 2019 |
| 3. | 2019 | Dr. Karan Singh Ahlawat | International conference on climate change towards health and agricultural sustainability | International | 18-20, February 2019 |
| 4. | 2020 | Dr Virender Dalal | International Conferenceon "New Millennia Noval Trends and Future Scenario" held at CCSHAU, Hisar | International | 6-8 November,2020 |
| 5. | 2019 | Dr Virender Dalal | Refresher Course on Research Management conducted by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management, CCSHAU, Hisar | National | 25th July-14thAugust,2019 |
| 6. | 2019 | Dr Pawan Kr Poonia | "Induction Trainingcourse" Organized by DHRM, CCSHAU, Hisar | National | 18 November to 17 December, 2019 |
| 7. | 2019 | Dr Pawan Kr Poonia | Workshop on "Awareness and use of Scopuscitation database"organized by Nehru Library,CCSHAUHisar | National | 29 November,2019 |
| 8. | 2019 | Dr. Chhavi Sirohi | International Conference on "Climate Change towards Health and Agricultural Sustainability (CCHAS-2019)" held at GJUS&T, Hisar | International | 18-20, February 2019 |
| 9. | 2019 | Dr. Chhavi Sirohi | International Symposium on "Innopreneurship: A need of Sustainable Agriculture" held at CCSHAU, Hisar | International | 02-03, February 2019 |
| 10. | 2018 | Dr. Chhavi Sirohi | Forum on Climate Science (CTWF), International Symposium and Workshop on Ecohydrology and Climate Change held in Beijing, China | International | 17-21, September 2018 |
| 11. | 2019 | Dr. Chhavi Sirohi | 4th World Congress on Agroforestry, held at Montpellier, France with full funding of French Agricultural Research Centre for International Development (CIRAD) and French National Institute for Agricultural Research (INRA), Montpellier, France | International | 20-22, May 2019 |

| | | | | | |
|---|---|---|---|---|---|
| 12. | 2019 | Dr. Chhavi Sirohi | Sixth International Casuarina Workshop on "Casuarinas for green economy and environmental sustainability" held at Krabi, Thailand with full funding of International Union of Forest Research Organizations (IUFRO) in collaboration with Kasetsart University, Bangkok | International | 21-25, October 2019 |
| 13. | 2019 | Dr. Chhavi Sirohi | Golden Jubilee International Conference on "New Millennia Agriculture Novel Trends & Future Scenario" held at CCS Haryana Agricultural University, Hisar | International | 6-8, November 2019 |
| 14. | 2019 | Dr. Chhavi Sirohi | ICAR sponsored Winter School on "Agroforestry for Climate Change Mitigation, Biodiversity Conservation and Resilience in Agroecological Systems: Current Trends and Future Strategies" held at College of Forestry, Kerala Agricultural University, Thrissur, Kerala | National | 03 - 23 December, 2019 |
| 15. | 2019 | Dr. Karan Singh Ahlawat | Golden Jubilee International Conference on New Millennia Agriculture Novel Trends and Future Scenario GINMA-2019, at CCSHAU Hisar, Haryana. | International | 6-8, November 2019 |
| 16. | 2019 | Dr. Karan Singh Ahlawat | Winter School on "Agroforestry for Climate Change Mitigation, Biodiversity Conservation and Resilience in Agroecological Systems: Current Trends and Future Strategies" College of Forestry, Kerala Agricultural University, Thrissur, Kerala | National | 03 to 23 December, 2019 |
| 17. | 2020 | Dr Virender Dalal | International Webinar on " Combating Hidden Huger-Obstacles and Interventions forSustainability"organised by Department of Food and Nutrition, I.C. College of Home Sciences, CCSHAU | National | 19th September, 2020 |
| 18. | 2020 | Dr Pawan Kr Poonia | "National Webinar on Awareness and Use of CeRA Resources through Gate Discovery Platform" organized by Nehru Library, CCSHAU Hisar | National | 25 June 2020 |
| 19. | 2020 | Dr Pawan Kr Poonia | Online training on "Extension management" organized by DHRM, CCSHAU Hisar | National | 11-31 December 2020 |
| 20. | 2020 | Dr Sushil Kumari | One day Webinar on Environment Day | National | 05 June 2020 |
| 21. | 2020 | Dr Sushil Kuma ri | One day Webinar on "Diversification in Agriculture: Innovative Programme to Improve | National | 22 August 2020 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Livelihood of Farmers | | |
| 22. | 2020 | Dr Sushil Kumari | 21days Refresher Course on "Statistical Tool& techniques for Analysis of Agricultural Data" | National | 08-28 July, 2020 |
| 23. | 2020 | Dr Sushil Kumari | "Induction Training course" organized by AAREM, CCSHAU, Hisar | National | 09 September 2020 to 09 October 2020 |
| 24. | 2020 | Dr. Karan Singh Ahlawat | Refresher course on "Statistical tools and techniques for analysis of agricultural data" conducted by the academy of agricultural research and education management, | National | 08-28 July,2020 |
| 25. | 2021 | Dr. Karan Singh Ahlawat | National Training Programme on "Biophysical and socioeconomics interactions in agroforestry | National | 16th February to 8th March 2021 |
| 26. | 2021 | Dr Virender Dalal | "Dragon fruit in Haryana"organized by horticulture training institute, Department of Horticulture, Haryana held at HTl, Uchani (Karnal) | National | 20 July 2021 |
| 27. | 2021 | Dr Pawan Kr Poonia | International conference on GRISAAS-2021 held at SKRAU, Bikaner, Rajasthan | National | 13-15th December 2021 |
| 28. | 2021 | Dr Sushil Kumari | Training program on "Climate change, impact, assessment and mitigation in Agriculture" (Online mode) | National | 04 – 06, January 2021 |
| 29. | 2021 | Dr Sushil Kumari | National ICAR -NAHEP-CAAST Training on "Biophysical and Socioeconomic Interactions in Agroforestry | National | 16 February 21 to 8 March 2021 |
| 30. | 2021 | Dr Sushil Kumari | International conference on Global Research Initiatives for Sustainable Agriculture & Allied Sciences | International | 17 March 2021 |
| 31. | 2021 | Dr Sushil Kumari | Workshop on "Forestry Research, Sustainable Management and Livelihood | International | 05-13 December 2021 |
| 32. | 2021 | Dr. Chhavi Sirohi | International Commission on Poplars and other fast growing Trees sustaining People and the Environment (IPC) "Poplars in Indian Agroforestry and way forward through online mode | International | 5-8 October, 2021 |
| 33. | 2023 | Dr. Karan Singh Ahlawat | Refresher Course on" Entrepreneurial Prospects in Agricultural and Allied Sciences" Organised by Academy of Agricultural Research and Education Management, DHRM, CCSHAU, Hisar | National | 10-30, January 2023 |
| 34. | 2023 | Dr. Karan Singh Ahlawat | International Conference on "Climate Resilient Agriculture for Food Security and Sustainability at CCSHAU, Hisar | International | 17-19, February 2023 |

| | | | | | |
|---|---|---|---|---|---|
| 35. | 2022 | Dr Pawan Kr Poonia | International conferenceon ICAAAS-2022 held at Shimla | National | 12-14 June 2022 |
| 36. | 2023 | Dr Pawan Kr Poonia | International Conference on "Climate Resilient Agriculture for Food Security and Sustainability at CCSHAU, Hisar | International | 17-19, February 2023 |
| 37. | 2022 | Dr Sushil Kumari | International conference NAHEP on climate Resilient Agriculture for Food Security and Sustainability | International | 17-19 February 2022 |
| 38. | 2022 | Dr. Chhavi Sirohi | World Congress of Agroforestry held in Quebec, Canada through online mode | International | 17-20 July, 2022 |
| 39. | 2022 | Dr. Chhavi Sirohi | International Training on Diversification of Costal Agroecosystems for Climate Resilience and Livelihood Security at Goa organized by World Agroforestry (ICRAF), New Delhi in collaboration with the ICAR-Central Agricultural Research Institute (CCARI), Goa | International | 07-11, November 2022 |
| 40. | 2023 | Dr. Chhavi Sirohi | NAHEP International Conference on Climate Resilient Agriculture for Food Security and Sustainability organized by CCSHAU, Hisar | International | 17-19, February 2023 |

## 7. Department of Genetics & Plant Breeding

| Sl. No | Year | Name of faculty | Name of Seminars/ Symposia/ Workshops / Training / Consultancy visits / Special assignments etc. | National /International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. Ravika | Training course on "Enhancing Crop Productivity through Biotechnology Tools and Techniques" conducted by the Department of Molecular Biology, Biotechnology & Bioinformatics, CCSHAU, Hisar | National | 19 June – 9 July 2018 |
| 2. | 2018 | Dr Vinod Kumar | Training course "Refresher Course in Educational Technology "at DHRM, CCSHAU, Hisar. | National | 21 July to 10 August, 2018 |
| 3. | 2018 | Dr. Karmal Singh | National seminar on Agrometerology for sustainable development. | National | 12-14 Oct, 2018 |
| 4. | 2018 | Dr. Rajesh Yadav | Annual Group Meet of AICRP on MULLaRP and Arid Legumes (*kharif* crops) held at SDAU, SK Nagar, Gujarat | National | 28-30, April 2018 |
| 5. | 2018 | Dr. Promil Kapoor | Annual Group Meet of AICRP on Chickpea held at RARI, Jaipur, Rajasthan | National | $17^{th}$-$18^{th}$ August 2018 |
| 6. | 2018 | Dr. Yogender Kumar | Use of Biotechnology and Bioinformatics tools for genome analysis organized by Department of Molecular Biology, | National | 17 July to. 7 Aug, 2018 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Biotechnology & Bioinformatics, CCSHAU, Hisar. | | |
| 7. | 2018 | Dr. Yogender Kumar | 56th All India Wheat and Barley Research Workers Meet held at BHU, Varanasi (UP). | National | 25-28, August 2018 |
| 8. | 2018 | Ms. Priyanka | Induction Training course conducted by the Academy of Agriculture Research and Education Management, Directorate of Human Resource Management, CCSHAU, Hisar | National | 07th- June 07th July, 2018 |
| 9. | 2018 | Dr. Vikram Singh | Annual Group Meet of AICRP on Wheat & Barley held at BHU, Varanasi | National | 25-28 August 2018 |
| 10. | 2018 | Dr. Vikram Singh | Refresher Course on "Computer Applications" organized by DHRM, CCSHAU, Hisar | National | 16th May to 5th June 2018 |
| 11. | 2018 | Dr. Yogesh Jindal | National Symposium on New directions in managing forage resources and livestock productivity in 21st century: Challenges and Opportunities" | National | 3-4 March 2018 |
| 12. | 2018 | Dr. Yogesh Jindal | "International Conference on Triticale Biology, Breeding and Production" at Plant Breeding and Acclimatization Institute & National Research Institute, IHAR-PIB, Radzików, Poland. | International | 2-5, July 2018 |
| 13. | 2018 | Dr. Anil | Induction training course organized by the Academy of Agricultural Research & Education Management, Directorate of Human Resource Management, CCSHAU, Hisar. | National | 07 June – 07 July, 2018 |
| 14. | 2018 | Dr. Minakshi Devi | Seminar on Elsevier empowering Agricultural research in India in association with CeRA at CCSHAU, Hisar | National | 24 Aug., 2018 |
| 15. | 2018 | Dr. Shiwani Mandhania | 9thNational Extension Education Congress on "Climate smart Agricultural Technologies: Innovations and Interventions", CAU, Imphal, Ranipool | National | 15- 17 November, 2018 |
| 16. | 2018 | Dr. Sandeep Kumar | Induction training course organized by the Academy of Agricultural Research & Education Management, Directorate of Human Resource Management, CCSHAU, Hisar. | National | 29 November- 29 December, 2018 |
| 17. | 2018 | Dr. Minakshi Devi | Induction training course organized by the Academy of Agricultural Research & Education Management, Directorate of Human Resource Management, CCSHAU, Hisar. | National | 29 November- 29 December, 2018 |

| | | | | | |
|---|---|---|---|---|---|
| 18. | 2018 | Dr. Rajesh Yadav | Annual Group Meet of AICRP on MULLaRP and Arid Legumes (kharif crops) held at ANGRAU, Lam, Guntur, AP | National | 30-Apr-2018 |
| 19. | 2018 | Dr. Uma Devi | Workshop on Digital Field Book organized by Forage section in collaboration with Dr. Ram Dhan Singh Chair, Department of genetics and Plant Breeding, CCSHAU, Hisar. | National | 10 December 2018 |
| 20. | 2018 | Dr. Sunil Kumar | Induction training course organized by the Academy of Agricultural Research & Education Management, Directorate of Human Resource Management, CCSHAU, Hisar. | National | 29 November to 29 December 2018 |
| 21. | 2018 | Dr. NishaKumari | Refresher Course on Computer Application conducted by AARM, DHRM, CCSHAU, Hisar | National | 16 May, 2018 to 05 June, 2018 |
| 22. | 2018 | Dr. Rakesh Punia | Induction training course organized by the Academy of Agricultural Research & Education Management, Directorate of Human Resource Management, CCSHAU, Hisar. | National | 07 June to 07 July 2018 |
| 23. | 2018 | Dr. Yogender Kumar | Enhancing crop productivity through biotechnological tools and techniques" organized by Department of Molecular Biology, Biotechnology & Bioinformatics, CCSHAU, Hisar. | National | 19 June to 9 July, 2018 |
| 24. | 2018 | Dr. Yogender Kumar | 57$^{th}$All India Wheat and Barley Research Workers Meet held at BAU, Ranchi (Jharkhand). | National | 24-26, August 2018 |
| 25. | 2018 | Dr. Divya | Workshop on Digital field book organized by Forage Section and Dr. Ram Dhan Singh Chair, Department of Genetics & Plant Breeding in collaboration with Directorate, Human Resource Management, CCSHAU, Hisar | National | 10 December 18 |
| 26. | 2018 | Dr. Divya | Seminar on Intellectual Property Rights- A Mechanism for Social Economic Growth organized by DHRM, CCSHAU, Hisar. | National | 22 November 2018 |
| 27. | 2018 | Dr. Divya | State Level Biosafety Capacity Building Workshop held organized by CCSHAU, Hisar and Biotech Consortium India Limited, New Delhi at CCSHAU, Hisar. | National | 14 March 2018 |
| 28. | 2018 | Dr. Pummy Kumari | Training course on "Enhancing Crop Productivity through Biotechnological Tools and Techniques" | National | 19 June- 9 July, 2018 |

| | | | | | |
|---|---|---|---|---|---|
| 29. | 2018 | Dr. Satpal | XXI Biennial National Symposium of Indian Society of Agronomy on "Doubling Farmers' Income Through Agronomic Interventions Under Changing Scenario" | National | 24-26, Oct 2018 |
| 30. | 2019 | Dr. Mukesh Kumar | International training under NAHEP-IDP on "Molecular Breeding"at Department of AgribiotechnologyTulln, Institute of Biotechnology in Plant Production, University of Natural Resources and Life Sciences, Vienna, Austria | International | 29 March - 26 June 2019 |
| 31. | 2019 | Dr. Mukesh Kumar | International workshop on "Plant Phenotyping and Remote Sensing" at University of Natural Resources and Life Sciences, Vienna, Austria | International | 13 June 2019 |
| 32. | 2019 | Dr. Ravika | Symposium on advances in agrometerology for managing climatic risks of farmers (INAGMET-2019) New Delhi. | International | 11-13 February 2019 |
| 33. | 2019 | Dr. Sandeep Kumar | International Symposium on "Innopreneurship: A need of sustainable Agriculture" at CCSHAU, Hisar | International | 2-3 February, 2019 |
| 34. | 2019 | Dr. Minakshi Devi | International Symposium on "Innopreneurship: A need of sustainable Agriculture" at CCSHAU, Hisar | International | 2-3 February, 2019 |
| 35. | 2019 | Dr. Subhash Chander | International Symposium on Innopreneurship: A Need of Sustainable Agriculture at Chaudhary Charan Singh Haryana Agricultural University, Hisar | International | 2-3 February, 2019 |
| 36. | 2019 | Dr. Yogender Kumar | International Symposium on Innopreneurship: A Need of Sustainable Agriculture organized by Directorate of Research, CCSHAU, Hisar. | International | 2-3, February 2019 |
| 37. | 2019 | Ms.Priyanka | Symposium on "Innopreneurship: A need of Sustainable Agriculture" at CCSHAU, Hisar | International | 2-3 Feb, 2019 |
| 38. | 2019 | Dr. Satpal | "International Symposium on "Innopreneurship: A need of Sustainable Agriculture" at CCSHAU, Hisar | International | 2-3, February 2019 |
| 39. | 2019 | Dr. Yogesh Jindal | "International Symposium on "Innopreneurship: A need of Sustainable Agriculture" at CCSHAU, Hisar | International | 2-3, February 2019 |
| 40. | 2019 | Dr J M Sutaliya | Induction Training course conducted by the Academy of Agriculture Research and Education Management, Directorate of Human Resource | National | 18 November to 17 December 2019 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Management, CCSHAU, Hisar | | |
| 41. | 2019 | Dr. Anil Kumar Saini | National Workshop on Production, Processing and Value Addition of Nutri-Cereals (Millets) in India | National | 16 September, 2019 |
| 42. | 2019 | Dr. Somveer | Golden Jubilee International Conference on New Millennia Agriculture- Novel Trends &Future Scenario | International | 6-8 November, 2019 |
| 43. | 2019 | Dr. Anil | Golden Jubilee International Conference on New Millennia Agriculture- Novel Trends &Future Scenario | International | 6-8 November, 2019 |
| 44. | 2019 | Dr. Sandeep Kumar | Golden Jubilee International Conference on New Millennia Agriculture- Novel Trends &Future Scenario | International | 6-8 November, 2019 |
| 45. | 2019 | Dr. Anil Kumar Saini | Induction Training course conducted by the Academy of Agriculture Research and Education Management, Directorate of Human Resource Management, CCSHAU, Hisar | National | 18 November - 17 December, 2019 |
| 46. | 2019 | Dr. Anil Kumar Saini | Workshop on Awareness and Use of Scopus Citation Database | National | 29 November, 2019 |
| 47. | 2019 | Dr. Rajesh Yadav | Annual Group Meet on Rabi Pulses of AICRP on MULLaRP crops' held at Central Agril. University, Imphal, Manipur | National | 12-13, September 2019 |
| 48. | 2019 | Dr. Rajesh Yadav | Annual Group Meet on Mungbean, Urdbean, Cowpea and Guar for Spring, Summer & Rice Fallow Cultivation" at BARC, Trombay, Mumbai. | National | 11-12, November 2019 |
| 49. | 2019 | Dr. Lakshmi Chaudhary | Induction training course organized by the Academy of Agricultural Research & Education Management, Directorate of Human Resource Management, CCSHAU, Hisar. | National | 1 June to 1 July 2019 |
| 50. | 2019 | Dr. Lakshmi Chaudhary | International Symposium on "Innopreneurship: A need of Sustainable Agriculture" at CCSHAU, Hisar | National | 2-3 February, 2019 |
| 51. | 2019 | Dr. Sunil Kumar | Annual Chickpea Group Meet of All India Coordinated Research Project on Chickpea (ICAR) held at Birsa Agricultural UniversityKanke, Ranchi, Jharkhand | National | 27-29 August 2019 |
| 52. | 2019 | Dr. Promil Kapoor | Golden Jubilee International Conference on New Millennia Agriculture-Novel trends and Future Scenario, CCSHAU, Hisar | National | 6-8, November 2019 |
| 53. | 2019 | Dr. Subhash | Golden Jubilee International | International | 6-8 |

| | | | | | |
|---|---|---|---|---|---|
| | | Chander | Conference on New Millennia Agriculture- Novel Trends and Future Scenario at Chaudhary Charan Singh Haryana Agricultural University, Hisar | | November, 2019 |
| 54. | 2019 | Dr. Shweta Malik | Recent Advances in Sample Survey and Data Analysis Using Statistical Software at Division of Sample SurveysICAR-IASRI, Library Avenue, Pusa, New Delhi -12 | National | 28 November -18 December 2019 |
| 55. | 2019 | Dr. Nisha Kumari | Omics meet plant biochemistry: Applications in nutritional enhancement with one health perspective at IARI, New Delhi | National | 27-Jul-2019 |
| 56. | 2019 | Dr. Vinod Goyal | Building an operational composite drought monitoring index for India at IARI, New Delhi | National | 19-Feb-2019 |
| 57. | 2019 | Dr. Yogender Kumar | 58th All India Wheat and Barley Research Workers Meet held at IARI, RS, Indore (MP). | National | 24-26, August 2019 |
| 58. | 2019 | Dr. Yogender Kumar | Golden Jubilee International Conference on New Millennia Agriculture- Novel Trends and Future Scenario held at CCSHAU, Hisar. | International | 6-8, November 2019 |
| 59. | 2019 | Ms. Priyanka | All India Wheat and Barley Research Workers' Meet held at ICAR-IARI, Regional Station, Indore | National | 24$^{th}$-26$^{th}$Aug 2019 |
| 60. | 2019 | Ms. Priyanka | National Symposium on "Nematodes: A threat to food security & farmer's livelihood" at Manipur University, Imphal, Manipur | National | 11$^{th}$-13$^{th}$Dec 2019 |
| 61. | 2019 | Dr. Vikram Singh | Training on "Crop improvement through biotechnological tools and techniques" organized by the Department of Molecular Biology, Biotechnology and Bioinformatics, College of Basic Science and Humanities, CCSHAU, Hisar | National | 19 June-10 July , 2019 |
| 62. | 2019 | Dr. Vikram Singh | Training on "New approaches in seed technology for quality assurance" organized at Department of Seed Science & Technology, CCSHAU, Hisar in collaboration with Massey University, New Zealand | International | 20-29, November 2019 |
| 63. | 2019 | Dr. M S Dalal | Training on "Crop improvement through biotechnological tools and techniques" organized by the Department of Molecular Biology, Biotechnology and Bioinformatics, College of Basic Science and Humanities, CCSHAU, Hisar | National | 19 June -10 July, 2019 |

| | | | | | |
|---|---|---|---|---|---|
| 64. | 2019 | Dr. M S Dalal | Training on "New approaches in seed technology for quality assurance" organized at Department of Seed Science & Technology, CCSHAU, Hisar in collaboration with Massey University, New Zealand | International | , 20-29, November 2019 |
| 65. | 2019 | Dr. Ravish Panchta | Golden Jubilee International Conference on New Millennia Agriculture Novel Trends & Future Scenario at CCSHAU, Hisar | International | 6-8, November 2019 |
| 66. | 2019 | Dr. Ravish Panchta | International Conference on Innovations and Animal Sciences for Sustainable Agriculture and Rural Development | International | 07-09, December 2019 |
| 67. | 2019 | Drs. Ravish Panchta, | Three weeks training course on "Crop Improvement through Biotechnological Tools and Techniques at CCSHAU, Hisar | National | 19 June -10 July, 2019 |
| 68. | 2019 | Dr. Satyawan Arya | Three weeks training course on "Crop Improvement through Biotechnological Tools and Techniques at CCSHAU, Hisar | National | 19 June -10 July, 2019 |
| 69. | 2019 | Dr. Neeraj Kharor | Induction Training course conducted by the Academy of Agriculture Research and Education Management, Directorate of Human Resource Management, CCSHAU, Hisar | National | 18 November - 17 December, 2019 |
| 70. | 2019 | Dr. Yogesh Jindal | "International Conference on Reliable Renewable Energies for Off-Grid Empowering Rural Habitats" held at The Nordic Folkecenter for Renewable Energy, Hurup Thy, Denmark. | International | 25 –29 August 2019 |
| 71. | 2019 | Dr. Yogesh Jindal | "Golden Jubilee International Conference on New Millennia Agriculture-Novel Trends & Future Scenario" at CCSHAU, Hisar | International | 6-8, November 2019 |
| 72. | 2019 | Dr. Pummy Kumari | International conferences Harnessing Scientific, Technological Innovations and Sustainable Development in Africa and Asia Entrepreneurship for held at HAWK University, Gottingen, Germany | International | 2-5, September 2019 |
| 73. | 2019 | Dr J M Sutaliya | "Golden Jubilee International Conference on "New Millennia Agriculture" organized by Directorate of Research, CCS Haryana Agricultural University, Hisar (Haryana) | International | 6-8, November 2019 |

| | | | | | |
|---|---|---|---|---|---|
| 74. | 2019 | Dr R. K. Arya | Conference on: Neglected and Underutilized Crop Species for Food, Nutrition, Energy and Environment' held in NIPGR, New Delhi. | National | 2 August 2019 |
| 75. | 2019 | Dr Ravi Kumar | Conference on: Neglected and Underutilized Crop Species for Food, Nutrition, Energy and Environment' held in NIPGR, New Delhi. | National | 2 August 2019 |
| 76. | 2019 | Dr R. K. Arya | Int. conference on Harnessing Scientific, Technological Innovations and Entrepreneurship for Sustainable Development in Africa And Asia held at HAWK Univ. of Applied Sc. & Arts, Campus Goettingen, Germany. | International | 02 - 04, September 2019 |
| 77. | 2019 | Dr R K Arya | "Golden Jubilee International Conference on "New Millennia Agriculture" organized by Directorate of Research, CCS Haryana Agricultural University, Hisar (Haryana). | International | 6-8, November 2019 |
| 78. | 2019 | Dr Ravi Kumar | "Golden Jubilee International Conference on "New Millennia Agriculture" organized by Directorate of Research, CCS Haryana Agricultural University, Hisar (Haryana). | International | 6-8, November 2019 |
| 79. | 2020 | Dr. Rajesh Yadav | Annual Group Meet on Rabi Pulses of AICRP on MULLaRP crops held at Assam Agricultural University, Jorhat | National | 27 August 2020 |
| 80. | 2020 | Dr Dev Vart | Training on "Education Technology" at DHRM, CCSHAU, Hisar | National | 18, Dec 2019 to 07 Jan, 2020 |
| 81. | 2020 | Dr. Karmal Singh | National Seminar on Agrometeorological Interventions for Enhancing Farmers' Income (AGMET-2020)" scheduled at KAU, Thrissur, Kerala. | National | 20-22, January 2020 |
| 82. | 2020 | Dr. Somveer | Workshop cum training on 'Digital Field book' at ICAR-IIWBR, Karnal. | National | 25 February, 2020 |
| 83. | 2020 | Dr. Rajesh Yadav | Annual Group Meet of AICRP on MULLaRP and Arid Legumes (kharif crops) held online | National | 2-4 June, 2020 |
| 84. | 2020 | Dr. Sunil Kumar | Refresher course on research management" organized by DHRM, CCSHAU, HISAR | National | 8$^{th}$July, 2020 to 28$^{th}$July, 2020 |
| 85. | 2020 | Dr. Sunil Kumar | Training on "Online Expert Workshop "Chickpea, diseases-Detection, Phenotyping and Management jointly by ICRISAT, Patancheru and RAK Collage of | National | 16-18$^{th}$December, 2020 |

| 155. | 2022 | Dr. Ravika | Refresher course on "Extension Management" conducted by the Directorate of Human Resource Management, CCSHAU, Hisar. | National | 27 January-05 February, 2022 |

## 8. Department of Horticulture

| Sr. No. | Year | Name of faculty | Name of Seminars/Symposia /Workshops/Training/ Consultancy visits/Special Assignments etc. | National/ International | Date (s) |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. Raj Pal Singh Dalal | Training on "Enhancing crop productivity through biotechnological tools and techniques" organized by Department of MBBB, CCSHAU, Hisar | National | 19 June - 9 July 2018 |
| 2. | 2018 | Dr. Sushil Sharma | Induction training conducted by Academy of Agricultural Research and Education Management, DHRM, CCSHAU, Hisar | National | 7 June - 7 July 2018 |
| 3. | 2018 | Dr. Sushil Sharma | Training programme in Accounts for teachers and technical employees for departmental examination organized by DHRM, CCSHAU, Hisar | National | 7 -11 May 2018 |

| | | | | | |
|---|---|---|---|---|---|
| 4. | 2018 | Dr. Suresh Kumar | Induction training conducted by Academy of Agricultural Research and Education Management, DHRM, CCSHAU, Hisar | National | 29 November - 29 December 2018 |
| 5. | 2018 | Dr. Sonu Kumari | Induction training conducted by Academy of Agricultural Research and Education Management, DHRM, CCSHAU, Hisar | National | 29 November - 29 December 2018 |
| 6. | 2018 | Dr. Sonu Kumari | Workshop on digital field book organized by forage section in collaboration with Dr. Ram Dhan Singh Chair, Dept. of GPB at DHRM, CCSHAU Hisar | National | 10-December 2018 |
| 7. | 2018 | Dr. Satpal | Seminar on "Harnessing Science and Technology Applications through Capacity Building and Economic Policies for Sustainable Development" at Goettingen, Germany | International | 13 - 15 September 2018 |
| 8. | 2018 | Dr. Sushil Sharma | Conference on "Arid Horticulture for Enhancing Productivity and Economic Empowerment" at CIAH, Bikaner. | National | 27-29 October 2018 |
| 9. | 2018 | Dr. Sonu Kumari | Workshop on "Elsevier Empowering Agriculture Research in India" in association with CeRA organized by Nehru Library, CCSHAU, Hisar CeRA at Auditorium of College of Basic Sciences & Humanities | National | 24 August 2018 |
| 10. | 2019 | Dr. Sushil Sharma | International Symposium on "Innopreneurship: A Need of Sustainable Agriculture" held at CCSHAU, Hisar | International | 2-3 February 2019 |
| 11. | 2019 | Dr. Suresh Kumar | International Symposium on " Innopreneurship: A Need of Sustainable Agriculture" held at CCSHAU, Hisar | International | 2-3 February 2019 |
| 12. | 2019 | Dr Satpal | Summer School on "Cutting edge epitome of processing, value addition and waste utilisation of horticultural crops for augmenting farmers income" organised by ICAR- CIPHET, Ludhiana Punjab | National | 01-21 November 2019 |
| 13. | 2019 | Dr. Sushil Sharma | Training on "Crop Improvement through Biotechnological Tools & Techniques" organized by Department of Molecular Biology, Biotechnology & Bioinformatics, COBS&H, CCSHAU, Hisar | National | 9th June - 10th July 2019 |
| 14. | 2019 | Dr. Sushil Sharma | International conference on "New Millenia Agriculture – Novel Trends and Future Scenario" held | International | 6-8 November 2019 |

| | | | | | |
|---|---|---|---|---|---|
| | | | at CCS Haryana Agricultural University, Hisar (Haryana) | | |
| 15. | 2019 | Dr. Suresh Kumar | International conference on "New Millenia Agriculture – Novel Trends and Future Scenario" held at CCS Haryana Agricultural University, Hisar (Haryana) | International | 6-8 November 2019 |
| 16. | 2019 | Dr. Sonu Kumari | International Conference on "Innopreneurship: A need of Sustainable Agriculture& Rao Bahadur Dr. Ram Dhan Singh Fifth Memorial Lecture" held at CCSHAU, Hisar. | International | 02-03 February 2019 |
| 17. | 2019 | Dr. Sonu Kumari | International Conference entitled "XIV Agricultural Science Congress: Innovations for Agricultural Transformation" at NASC Complex, Pusa, New Delhi. | International | 20-23 February 2019 |
| 18. | 2019 | Dr. Satpal | International Symposium on "Innopreneurship: need of sustainable Agriculture" organised by CCSHAU, Hisar, | International | 02-03 February 2019 |
| 19. | 2019 | Dr. Satpal | Golden Jubilee International conference on "New millennium agriculture- noval trends and future scenario" organised by CCSHAU, Hisar | International | 06-08 November 2019 |
| 20. | 2019 | Dr. R.P.S. Dalal | Indian Horticultural Congress-2019 at IGKV, Raipur, Chhatishgarh. | National | 17-21 January 2019 |
| 21. | 2019 | Dr. R.P.S. Dalal | "Golden Jubilee International Conference on New Millennia Agriculture- Novel Trends and Future Scenario" organized by CCSHAU, Hisar. | International | 6$^{th}$ -8$^{th}$ November 2019 |
| 22. | 2020 | Dr. Sonu Kumari | Massive Open Online Course on "Psychology of Learning" conducted by the ICAR- National Academy of Agricultural Research Management, Hyderabad | National | 1 - 15 May 2020 |
| 23. | 2020 | Dr. Rupali Sharma | National web conference on " Augmenting vegetable productivity through recent techniques" organized by Bihar Agricultural University, Sabour, Bhagalpur | National | 9-10 September 2020 |
| 24. | 2020 | Dr. Sonu Kumari | Online Refresher Course on "Language Skills" conducted by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management, CCSHAU, Hisar | National | 27 May 2020 - 16 June 2020 |
| 25. | 2020 | Dr. Sonu Kumari | E-conference on "Opportunities and challenges: Arid Horticulture", organized by SGVU, Jaipur | National | 21-22 October 2020 |

| | | | | | |
|---|---|---|---|---|---|
| 26. | 2021 | Dr. Sonu Kumari | Webinar on "Krishi me vividha-kisaano ki aajivika me sudharkeliye abinav karyakarm" organized by Dept. of Forestery, CCSHAU, hisar | National | 22 August 2021 |
| 27. | 2021 | Dr. Sonu Kumari | International conference on "Global approaches in natural resource management for climate smart agriculture (GNRSA-2020) pandemic era of COVID-19" organised by Shobhit Deemed University, Modipurram, Meerut | International | 26-28 February 2021 |
| 28. | 2021 | Dr. Sonu Kumari | International conference on "Global initiative in agricultural forestry and applied sciences for food security, environmental safety and sustainable development (GIAFS-2021)" held at Dehradoon, UK | International | 17-18 October 2021 |
| 29. | 2021 | Dr. Suresh Kumar | Online Refresher course on "Research management" conducted by AAREM, CCSHAU, Hisar | National | 08-28 April 2021 |
| 30. | 2021 | Dr. Sushil Sharma | National webinar through online mode on " New Paradigm in production and utilization of fruits and vegetables for health and livelihood" organized by CHAI commemorating international year of fruits and vegetables-2021 | International | 11 February 2021 |
| 31. | 2021 | Dr. Sushil Sharma | National webinar "improving quality of Agricultural Research Landscape in India" Organized by Nehru Library, CCSHAU, Hiar | National | 30 June 2021 |
| 32. | 2022 | Dr. Sushil Sharma | Training on "Entrepreneurial prospects in agricultural and allied sciences" Organised by Academy of Agricultural Research and Education Management, DHRM, CCSHAU, Hisar | National | 3-23 November 2022 |
| 33. | 2022 | Dr. Suresh Kumar | Online training on "Postharvest management and storage techniques" organized by NIPHM, Hyderabad | National | 7-11 March 2022 |
| 34. | 2022 | Dr. Sonu Kumari | International Conference on "Current issues in Agricultural biological and applied sciences for sustainable development (CIABASSD-2022)" held at Darjling, WB. | International | 11-13 June 2022 |
| 35. | 2023 | Dr. Sushil Sharma | International Conference on "Climate Resilient Agriculture for Food Security & Sustainability" held at CCS Haryana Agricultural University, Hisar | International | 17-19 February 2023 |
| 36. | 2023 | Dr. Satpal Baloda | International Conference on | International | 17-19 |

| | | | | | |
|---|---|---|---|---|---|
| | | | "Climate Resilient Agriculture for Food Security & Sustainability" held at CCS Haryana Agricultural University, Hisar | | February 2023 |
| 37. | 2023 | Dr. Sonu Kumari | International Conference on "Climate Resilient Agriculture for Food Security & Sustainability" held at CCS Haryana Agricultural University, Hisar | International | 17-19 February 2023 |
| 38. | 2023 | Dr. R.P.S. Dalal | International Conference on "Climate Resilient Agriculture for Food Security & Sustainability" held at CCS Haryana Agricultural University, Hisar | International | 17-19 February 2023 |
| 39. | 2023 | Dr. Reena Chauhan | Induction training conducted by Academy of Agricultural Research and Education Management, DHRM, CCSHAU, Hisar | National | 24 January - 23 February 2023 |
| 40. | 2023 | Dr. Savita Rani | Induction training conducted by Academy of Agricultural Research and Education Management, DHRM, CCSHAU, Hisar | National | 24 January - 23 February 2023 |
| 41. | 2023 | Dr. Prince | Induction training conducted by Academy of Agricultural Research and Education Management, DHRM, CCSHAU, Hisar. | National | 24 January - 23 February 2023 |

## 9. Department of Nematology

| Sl. No | Year | Name of Faculty | Section/Department/College Name of Seminars/ Symposia/ Workshops/Training / Consultancy visits / Special assignments etc. | National/International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. Sardul Singh Mann | Conference on Agriculture, Horticulture and Plant sciences organized by Society of Tropical Agriculture | International | 28-29 June 2018 |
| 2. | 2018 | Dr. Sardul Singh Mann | Training programme in Accounts for teachers and technical employees for departmental examination organized by DHRM, CCSHAU, Hisar | National | 7 -11 May 2018 |
| 3. | 2019 | Dr. Anil Kumar | Symposium on "Innopreneurship: A Need of Sustainable Agriculture" | International | 2-3 February 2019 |
| 4. | | Dr. Sardul Singh Mann | | | |
| 5. | | Dr. Vinod Kumar | | | |
| 6. | 2019 | Dr. Sardul Singh Mann | Seminar on "Socio digital approaches for transforming Indian agriculture" | National | 20-22 November 2019 |
| 7. | 2019 | Dr. R. S. Kanwar | Symposium on "Nematodes: A threat to food security and farmers livelihood" | National | 11-12 December 2019 |

| | | | | | |
|---|---|---|---|---|---|
| 8. | 2019 | Dr. Saroj Yadav | Conference on Global initiative in Agricultural and Applied Sciences for Ecofriendly Environment | International | 1-2 December 2019 |
| 9. | 2019 | Dr. Prakash Banakar | Cereal Nematode symposium | International | 3-6 November 2019 |
| 10. | | Dr. Vinod Kumar | | | |
| 11. | 2019 | Dr. Sardul Singh Mann | Seminar-2019 on Socio-Digital Approaches for Transforming Indian Agriculture | National | 20-22 November 2019 |
| 12. | 2020 | Dr. Sardul Singh Mann | Refresher Course on Extension Management conducted by Academy of Agriculture Research and EducationManagement, Directorate of Human Resource Management, CCSHAU, Hisar | National | 11-31 December 2020 |
| 13. | 2021 | Dr. Sardul Singh Mann | Web conference on "Global research initiative for sustainable agriculture and allied science" | International | 13-15 December 2021 |
| 14. | 2021 | Dr Saroj Yadav | Webinar on "Facets of Innovation and Development of Plant Nematology" | National | 29-30 October 2021 |
| 15. | 2021 | Dr. Vinod Kumar | Symposium on plant protection in horticulture (NSPPH-2021) | National | 27-29 December 2021 |
| 16. | 2021 | Dr Saroj Yadav | Symposium on plant protection in horticulture (NSPPH-2021) | National | 27-29 December 2021 |
| 17. | 2021 | Dr. Sardul Mann | Online training on "Effective extension methods for upscaling and outscaling of wheat and barleyproduction technologies" | National | 1-10 September 2021 |
| 18. | 2021 | Dr. Vinor Kumar | Online training on "Effective extension methods for upscaling and outscaling of wheat and barleyproduction technologies" | National | 1-10 September 2021 |
| 19. | 2021 | Dr. Anil Kumar | Training on 'Agricultural Research Methodologies, Practices and their Management' at CCSHAU, Hisar | National | 04-24 October 2021 |
| 20. | 2021 | Dr. J. A. Patil | | National | 04-24 October 2021 |
| 21. | 2021 | Dr. Vinor Kumar | Training on "Applications of statistical and econometric techniques in agriculture" at CCSHAU, Hisar | National | 24 November - 14 December 2021 |
| 22. | 2021 | Dr Saroj Yadav | Training on "Applications of statistical and econometric techniques in agriculture" at CCSHAU, Hisar | National | 24 November - 14 December 2021 |
| 23. | 2022 | Dr. Sardul Singh Mann | Symposium on "Crop protection through bio-rational approaches-Current trends and future perspective at CCSHAU, Hisar | National | 10 March2022 |
| 24. | 2022 | Dr. Vinod Kumar | | National | 10 March2022 |

| | | | | | |
|---|---|---|---|---|---|
| 25. | 2022 | Dr. Sardul Mann | Short course on "Scientific management of *Apis mellifera* colonies for nutritional and economic security" at CCSHAU, Hisar | National | 25 January– 3 February 2022 |
| 26. | 2023 | Dr. Prakash Banakar | Conference on Plant Parasitic Nematodes, Bayer Crop Sciences, Bemgaluru | National | 16-18 January 2023 |
| 27. | | Dr. J. A. Patil | | | |
| 28. | | Dr. Chaitra Bhat | | | |
| 29. | 2023 | Dr. Anil Kumar | Conference on Climate Resilient Agriculture for Food Security and Sustainability at CCSHAU, Hisar | International | 17-19 February 2023 |

## 10. Department of Plant Pathology

| Sl .No | Year | Name of Scientist | Title of Conference/ Seminar/Workshop/ Training/Consultancy visits/Special assignments | Naional/ International | Dates |
|---|---|---|---|---|---|
| 1. | 2019 | Dr. Satish Kumar | National Symposium on Trends & Innovations in Mushroom Production Technologies, Diversification, Processing and Consumption Integrated Mushroom R & D Project HAIC R & D Centre, Murthal (Haryana) | National | 3 January - 2 February 2019 |
| 2. | 2018 | Dr. Satish Kumar | National symposium on Alternative Approaches in Plant Health Management for enhancing farmers income. Dr. Y.S. Parmar Univ. of Hort. & Forestry, Nauni, Solan | National | 2-3 November 2018 |
| 3. | 2018 | Dr. Satish Kumar | Presented report in QRT Meeting of Mushroom HAIC Murthal (Sonipat) | National | 2 December 2018 |
| 4. | 2018 | Dr. Kishor Chand | National Symposium on Alternative Approaches in Plant Health Management for Enhancing Farmers' Income" Dr YS Parmar University of Horticulture & Forestry, Nauni, Solan (HP) | National | 2-3 November 2018 |
| 5. | 2018 | Dr. Vinod Malik | National Symposium on Alternative Approaches in Plant Health Management for Enhancing Farmers' Income" Dr YS Parmar University of Horticulture & Forestry, Nauni, Solan (HP) | National | 2-3 November 2018 |

| | | | | | |
|---|---|---|---|---|---|
| 6. | 2018 | Dr. Vinod Malik | Refresher Course in Educational Technology at DHRM, CCSHAU, Hisar | National | 21 July to 10 August 2018 |
| 7. | 2018 | Dr. Vinod Malik | Attended and presented QRT-pearl millet at ICAR, New Delhi | National | 2018 |
| 8. | 2018 | Dr. Rakesh Kumar Chugh | Refresher Course in Educational Technology at DHRM, CCSHAU, Hisar | National | 21 July to 10 August 2018 |
| 9. | 2018 | Dr. Rakesh Kumar Chugh | Attended QRT Meeting of Mushroom at HAIC Murthal (Sonipat) | National | 2 December 2018 |
| 10. | 2018 | Dr. Pooja Sangwan | Induction Training by AAREM, DHRM, at CCSHAU Hisar | International | 29 November 2018 to 29 December 2018 |
| 11. | 2018 | Dr. Promil Kapoor | Induction Training AAREM, DHRM, CCSHAU Hisar | National | 29 November 2018 to 29 December 2018 |
| 12. | 2019 | Dr. Kishor Chand | International Symposium on "Innopreneurship: A need of Sustainable Agriculture" Chaudhary Charan Singh, Haryana Agricultural University, Hisar | International | 2-3 February 2019 |
| 13. | 2019 | Dr. Man Mohan | International Symposium on Innopreneurship: A need of sustainable Agriculture Chaudhary Charan Singh, Haryana Agricultural University, Hisar | International | February 2-3 2019 |
| 14. | 2019 | Dr. Vinod Malik | International Symposium on Innopreneurship: A need of sustainable Agriculture CCS Haryana Agricultural University, Hisar, (Haryana) | International | February 2-3 2019 |
| 15. | 2019 | Dr. Pooja Sangwan | State level Interaction Workshop of stakeholders of Castor at College of Basic Sciences and Humanities, CCSHAU Hisar | National | 15-16 March 2019 |
| 16. | 2019 | Dr. Pooja Sangwan | International symposium on Innopreneurship : A need of Sustainable Agriculture at CCSHAU Hisar | National | 2-3 February 2019 |
| 17. | 2019 | Dr. Mamta | Induction Training AAREM, DHRM, CCSHAU Hisar | National | 29 November 2018 to 29 December 2018 |
| 18. | 2019 | Dr. Rajender Singh | International Symposium on "Innopreneurship: A need of | National | 2-3 February 2019 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Sustainable Agriculture CCSHAU-Hisar | | |
| 19. | 2019 | Dr. Promil Kapoor | International Symposium on "Innopreneurship: A need of Sustainable Agriculture CCSHAU-Hisar | International | 2-3 Feb 2019 |
| 20. | 2019 | Dr. V. K. Malik | New Millennia Agriculture Novel Trends and Future Scenario at CCSHAU, Hisar | International | 6-8 Novembe 2019 |
| 21. | 2019 | Dr. V. K. Malik | National symposium on "Mitigation of emerging plant diseases underchanging climate scenario" Tamil Nadu agricultural university, Coimbatore, Tamil Nadu | National | 16-17 December 2019 |
| 22. | 2019 | Dr. Pankaj | New Millennia Agriculture Novel Trends and Future Scenario CCSHAU, Hisar | National | 6-8 Novembe 2019 |
| 23. | 2019 | Dr. Kushal Raj | Souvenir of One Day National workshop on "Production, Processing & Value Addition of Nutri-Cereals (Millets) in India" at CCSHAU | National | 16 September 2019 |
| 24. | 2019 | Dr. Kishor Chand Kumhar | International symposium Innopreneurship: A need ofsustainable agriculture at CCSHAU, Hisar | International | 2-3 February 2019 |
| 25. | 2019 | Dr. Kishor Chand Kumhar | Golden jubilee international conference on New Millennia agriculture novel trends and future scenario at CCSHAU, Hisar | International | 6-8 November 2019 |
| 26. | 2019 | Dr. Kishor Chand Kumhar | National Symposium on "Mitigation of Emerging Plant Diseases under changing climate scenario" at Tamil Nadu Agricultural University, Coimbatore | National | 16-17 December 2019 |
| 27. | 2020 | Dr. Rakesh Kumar Chugh | National Symposium on Plant Disease Management for Food Security under Climatechange Scenario and Annual Meeting Indian Phytopathological Society (NZ) at Directorate of Wheat and Barley Research Institute, Karnal | National | 9-10 January 2020 |
| 28. | 2020 | Dr. V. K. Malik | National Symposium on Plant Disease Management for Food Security under Climatechange Scenario and Annual Meeting Indian Phytopathological Society | National | 9-10 January 2020 |

| | | | | | |
|---|---|---|---|---|---|
| | | | (NZ) at Directorate of Wheat and Barley Research Institute, Karnal | | |
| 29. | 2020 | Dr. Pooja Sangwan | National conference on Phytopathology in achieving UN sustainable Development goals at New Delhi | National | 16-20 January 2020 |
| 30. | 2020 | Dr. Kishor Chand Kumhar | National Symposium on Plant Disease Management for Food Security under climate change Scenario & Annual Meeting ofIndianPhytopathological Society (North Zone) at Directorate of Wheat and Barley Research Institute, Karnal | National | 9-10 January 2020 |
| 31. | 2020 | Dr Jagdeep Singh | "Mushroom kikheti: Ek labhday ak Vywasay" at CCSHAU Hisar | National | 25- 27 August 2020 |
| 32. | 2021 | Dr. Kushal Raj | National e conference Plant Health and Food Security: Challenges and Opportunities Through virtual mode | National | 25-27 March 2021 |
| 33. | 2021 | Dr. Kushal Raj | INSOPP – National e conference on Recent Trends in Plant Pathology Through virtual mode | National | 4 May 2021 |
| 34. | 2021 | Dr. Pooja Sangwan | National e conference Plant Health and Food Security: Challenges and Opportunities Through virtual mode | National | 25-27 March 2021 |
| 35. | 2021 | Dr. Mamta | National e conference Plant Health and Food Security: Challenges and Opportunities Through virtual mode | National | 25-27 March 2021 |
| 36. | 2021 | Dr. Manjeet | National e conference Plant Health and Food Security: Challenges and Opportunities Through virtual mode | National | 25-27 March 2021 |
| 37. | 2021 | Dr. Rakesh Kumar | National e conference Plant Health and Food Security: Challenges and Opportunities Through virtual mode | National | 2021 |
| 38. | 2021 | Dr. Anil Saini | Integrated management for cotton cultivation at CCSHAU Hisar | National | 22 June 2021 |
| 39. | 2021 | Dr. Anil Saini | Azadi ka Amrut Mahotsava- I at CCSHAU Hisar | National | 23 June 2021 |
| 40. | 2021 | Dr. Anil Saini | Azadi ka Amrut Mahotsava-II at CCSHAU Hisar | National | 07 July 2021 |
| 41. | 2021 | Dr. Anil Saini | Improving quality of agricultural research in India at CCSHAU Hisar | National | 30 June 2021 |

| | | | | | |
|---|---|---|---|---|---|
| 42. | 2021 | Dr. Anil Saini | Horticulture officers' workshop at CCSHAU Hisar | National | 09 July 2021 |
| 43. | 2021 | Dr. Jagdeep Singh | Integrated management for cotton cultivation at CCSHAU Hisar | National | 22 June 2021 |
| 44. | 2021 | Dr. Jagdeep Singh | Improving quality of agricultural research in India at CCSHAU Hisar | National | 30 June 2021 |
| 45. | 2021 | Dr. Jagdeep Singh | National web conference- "Mushroom 2021 Mushroom Biology:Opportunities and challendes" at CCSHAU Hisar | National | 15-17 April 2021 |
| 46. | 2021 | Dr. Jagdeep Singh | Horticulture officers' workshop at CCSHAU Hisar | National | 09 July 2021 |
| 47. | 2022 | Dr. Rakesh Mehra | International conference (Hybrid Mode) on Plant Pathology Sri Karan Narendra Agricultural University, Jobner, Jaipur, Rajasthan | National | 23-26 March 2022 |
| 48. | 2022 | Dr. Narender singh, | Crop Protection through Bio-rational approaches: Current trends and future perspective CCS Haryana Agricultural University Hisar | National | 10 March 2022 |
| 49. | 2022 | Dr. Narender Kumar Yadav | Crop Protection through Bio-rational approaches: Current trends and future perspective CCS Haryana Agricultural University Hisar | National | 10 March 2022 |
| 50. | 2022 | Dr. Satish Kumar | Crop Protection through Bio-rational approaches: Current trends and future perspective CCS Haryana Agricultural University Hisar | National | 10 March 2022 |
| 51. | 2022 | Dr. M. S. Bochalya, | Crop Protection through Bio-rational approaches: Current trends and future perspective CCS Haryana Agricultural University Hisar | National | 10 March 2022 |
| 52. | 2022 | Dr. Man Mohan, | Crop Protection through Bio-rational approaches: Current trends and future perspective CCS Haryana Agricultural University Hisar | National | 10 March 2022 |
| 53. | 2022 | Dr. Manjeet Singh | Crop Protection through Bio-rational approaches: Current trends and future perspective CCS Haryana Agricultural University Hisar | National | 10 March 2022 |

| | | | | | |
|---|---|---|---|---|---|
| 54. | 2022 | Dr. R.S. Chauhan, | Crop Protection through Bio-rational approaches: Current trends and future perspective CCS Haryana Agricultural University Hisar | National | 10 March 2022 |
| 55. | 2022 | Dr. Vinod Kumar Malik | Crop Protection through Bio-rational approaches: Current trends and future perspective CCS Haryana Agricultural University Hisar | National | 10 March 2022 |
| 56. | 2022 | Dr. Harbinder Singh | Crop Protection through Bio-rational approaches: Current trends and future perspective CCS HAU, Hisar | National | 10 March 2022 |
| 57. | 2022 | Dr. Promil Kapoor | Crop Protection through Bio-rational approaches: Current trends and future perspective CCS Haryana Agricultural University Hisar | National | 10 March 2022 |
| 58. | 2022 | Dr. Prashant Chauhan | Crop Protection through Bio-rational approaches: Current trends and future perspective CCS Haryana Agricultural University Hisar | National | 10 March 2022 |
| 59. | 2022 | Dr. Kishor Chand | Crop Protection through Bio-rational approaches: Current trends and future perspective CCS Haryana Agricultural University Hisar | National | 10 March 2022 |
| 60. | 2022 | Dr. Pooja Sangwan, | Crop Protection through Bio-rational approaches: Current trends and future perspective CCS Haryana Agricultural University Hisar | National | 10 March 2022 |
| 61. | 2022 | Dr. Rakesh Kumar Chugh | Crop Protection through Bio-rational approaches: Current trends and future perspective CCS Haryana Agricultural University Hisar | National | 10 March 2022 |
| 62. | 2022 | Dr. Anil Kumar Saini | Crop Protection through Bio-rational approaches: Current trends and future perspective CCS Haryana Agricultural University Hisar | National | 10 March 2022 |
| 63. | 2023 | Dr. Pawan Kumar Kasniya | Climate Resilient Agriculture for Food Security and Sustainability | International | 17-19 February 2023 |
| 64. | 2023 | Dr. Manjeet | | International | 17-19 February |

| | | | | | |
|---|---|---|---|---|---|
| | | | | | 2023 |
| 65. | 2023 | Dr. Pooja Sangwan | | International | 17-19 February 2023 |
| 66. | 2023 | Ms. Pavitra | | International | 17-19 February 2023 |
| 67. | 2023 | Dr. Mamta | | International | 17-19 February 2023 |
| 68. | 2023 | Dr. Kishor Chand | | International | 17-19 February 2023 |
| 69. | 2023 | Dr. RajenderBeniwal | | International | 17-19 February 2023 |
| 70. | 2023 | Dr. Promil Kapoor | | International | 17-19 February 2023 |
| 71. | 2023 | Dr. Jagmohan | | International | 17-19 February 2023 |
| 72. | 2023 | Dr. Manoj Kumar | | International | 17-19 February 2023 |
| 73. | 2023 | Dr. Harbinder | | International | 17-19 February 2023 |
| 74. | 2023 | Dr. Rakesh | | International | 17-19 February 2023 |
| 75. | 2023 | Dr. Rakesh Kumar Chugh | | International | 17-19 February 2023 |
| 76. | 2023 | Dr. Kushal Raj | Platinum Jubilee Conference on "Plant and Soil Health Management: Issues and Innovations" University of Mysore | National | 2-4 February 2023 |
| 77. | 2023 | Dr Vinod Kumar | "International Pedagogy" for the year 2022-2023 at USA under NAHEP- Institutional Development Plan Project. USA | International | 26 April 2023 |
| 78. | 2023 | Dr. Satish Kumar | Induction training course at AAREM, DHRM, CCSHAU, Hisar | National | 11 January to 10 February 2023 |

| | | | | | |
|---|---|---|---|---|---|
| 79. | 2023 | Dr. Annu | Induction training course at AAREM, DHRM, CCSHAU, Hisar | National | 11 January to 10 February 2023 |
| 80. | 2023 | Dr. Vishal Gandhi | Induction training course at AAREM, DHRM, CCSHAU, Hisar | National | 11 January to 10 February 2023 |

## 11. Department of Seed Science & Technology

| Sl. No | Year | Name of Faculty | Name of Seminars/ conference/ Workshops | National/ International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. Axay Bhuker | XXXII Annual Group Meeting AICRP-National Seed Project (Crops) held at PAJANCOA & RI, Karaikal (Puducherry) | National | 9-11 May, 2018 |
| 2. | 2018 | Dr. Axay Bhuker | Conference on Food Security and sustainable agriculture" held at Bankok-Pataya, Thailand | International | 21-24 December, 2018 |
| 3. | 2018 | Dr. S.S.Jakhar | Symposium at Dr, YS Parmar University of Horticulture and Forestry. Nauni, Solan, Himachal Pradesh | National | 27-28, October 2018 |
| 4. | 2019 | Dr. Axay Bhuker | Joint Annual Group Meeting of 34$^{th}$ AICRP- NSP (Crops) & 14$^{th}$ Annual Review Meeting, ICAR Seed Project held at CCSHAU, Hisar | National | 7-9 April, 2019 |
| 5. | 2019 | Dr. V.S.Mor | International Symposium "Innopreneurship: A need of sustainable Agriculture" held at CCS Haryana Agricultural University, Hisar. | International | 2-3 February, 2019 |
| 6. | 2019 | Dr. V.S.Mor | Golden Jubilee International Salinity Conference (GJISC) 2019 "Resilient agriculture in saline environments under changing climate: Challenges &Opportunities" held at CSSRI, Karnal. | International | 7-9 February, 2019 |
| 7. | 2019 | Dr. V.S.Mor | 10$^{th}$ National Seed Congress-2019 "Quality seed for Farmers' Prosperity" held at ICAR-IARI, New Delhi in collaboration with National Seed Research & Training Centre Varanasi, UP. | National | 14-16, October 2019 |
| 8. | 2020 | Dr. Axay Bhuker | Virtual meeting of Joint Annual Group Meeting of AICRP on National Seed Project (Crops) &ICAR Seed project | National | 14-15 May, 2020 |
| 9. | 2020 | Dr. Axay Bhuker | National Webinar on" Post COVID-19 Agribusiness: Challenges and Opportunities " organized by the Junagadh Agricultural University, Junagadh. | National | 13-14 June, 2020 |

| | | | | | |
|---|---|---|---|---|---|
| 10. | 2020 | Dr. Axay Bhuker | Webinar on Recent Advancements in Seed Health Management" organized by ICAR- Indian Institute of Seed Science, Mau, UP | National | 05th October, 2020 |
| 11. | 2020 | Dr. V.S.Mor | National Webinar on“ Post COVID-19 Agribusiness: Challenges and Opportunities ” organized by the Junagadh Agricultural University, Junagadh. | National | 13-14, June 2020 |
| 12. | 2021 | Dr. Axay Bhuker | International webinar-cum-workshop on seed testing for quality assurance organized by Division of Seed Science and Technology ICAR-Indian Agricultural research Institute New Delhi and Indo-German cooperation on seed sector development. | International | 06-09 July, 2021 |
| 13. | 2021 | Dr. Puneeth Raj M.S. | International capacity building Webinar-cum-workshop on seed production for Northern zone (mustard, wheat and barley) Organized by ICAR- Indian Agricultural Research Institute, R | International | 12-14, January, 2021 |
| 14. | 2021 | Puneeth Raj M.S. | International Webinar-cum-workshop on seed quality enhancement for Northern zone ICAR- Indian Agricultural Research Institute, New Delhi and CCSHAU, Hisar. | International | 22-24, September, 2021 |
| 15. | 2021 | Dr. V.S.Mor | International capacity building webinar cum workshop on seed production for Northen Zone (Mustard, wheat, Barley) organized by ICAR,IARI Regional station Karnal | International | 12 -14, January 2021 |
| 16. | 2021 | Dr. V.S.Mor | International Webinar-cum-workshop on seed quality enhancement for Northern zone ICAR- Indian Agricultural Research Institute, New Delhi and CCSHAU, Hisar, | International | 22nd to 24th September, 2021 |
| 17. | 2021 | Dr. S.S.Jakhar | International Webinar-cum-workshop on seed quality enhancement for Northern zone ICAR- Indian Agricultural Research Institute, New Delhi and CCSHAU, Hisar, | International | 22nd to 24th September, 2021 |
| 18. | 2022 | Dr. Axay Bhuker | International conference on Design and Application of Multifunctional Materials, Interfaces and Composites (DAM21C-22) organized by School of Engineering & Technology, K.R. Mangalam University, Gurugram, Harayan. | International | 4-6 June, 2022 |

| | | | | | |
|---|---|---|---|---|---|
| 19. | 2022 | Dr. V.S.Mor | Symposium on Paradigm Shift in Cotton cultivation at MPUAT, Udaipur, organized by CRDA, CCSHAU Hisar and MPUAT, Udaipur in collaboration with ICAR, New Delhi | National | 8th -10th August, 2022 |
| 20. | 2022 | Dr. S.S.Jakhar | National Symposium on "Multidisciplinary approaches for plant disease management" held on Pant University of Agriculture & Technology, Pantnagar organized by GBPUAT, Pantnagar and Indian Society of Plant Pathologists (INSOPP), PAU, Ludhiana. | National | 04-05 November, 2022 |
| 21. | 2023 | Dr. V.S.Mor | International Conference on Climate Resilient Agriculture for Food Security and Sustainability" Organised by Dean, COA, CCSHAU, Hisar | International | 17-19 February, 2023 |

## 12. Department of Soil Science

| Sl. No | Year | Name of Faculty | Name of Seminars/ Symposia/ Workshops/ Training / Consultancy visits / Special assignments etc. | National/ International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. Ram Prakash | ICAR-winter school on "Advance in soil salinity and sodicity management under different agro climatic regions for enhancing farmers income" ICAR-CSSRI, Karnal | National | 04-24 September 2018 |
| 2. | 2018 | Dr. Ram Prakash | Global Research Initiatives for Sustainable Agriculture & Allied Sciences held at RAU, Research Institute (SKNAU, Jobner), Durgapaura, Jaipur (Rajasthan) India. | International | 28-30 October 2018 |
| 3. | 2019 | Dr. Ram Prakash | Golden Jubilee International Salinity Conference (GJISC) held at CSSRI, Karnal. | International | 7-9 February 2019 |
| 4. | 2019 | Dr. Rohtas Kumar | International Symposium on Innopreneurship: A need of sustainable agriculture and Rao Bahadur Dr. Ram Dhan Singh Fifth Memorial Lecture at CCSHAU, Hisar | International | 2-3 February 2019 |
| 5. | 2019 | Dr. Ram Prakash | Innopreneurship : A need of sustainable Agriculture (ISINSA-2019) held at CCSHAU, Hisar, | International | 2-3 February 2019 |
| 6. | 2019 | Dr. Ram Prakash | "New millennia agriculture novel trends & future scenario" at CCSHAU, Hisar, India . | International | 6-8 November 2019 |

| | | | | | |
|---|---|---|---|---|---|
| 7. | 2019 | Dr. Ram Prakash | "Development in Soil Science-2019" at Institute of Agricultural Sciences, BHU, Varanasi. | National | 15-18 November 2019 |
| 8. | 2019 | Dr. K.K. Bhardwaj | National seminar on "Sustainable Environment" at MDU, Rohtak | National | 15November 2019 |
| 9. | 2019 | Dr. K.K. Bhardwaj | Refresher Course On Research Management organized by AAREM, DHRM,CCSHAU, Hisar | National | 25 July to 14 August 2019 |
| 10. | 2019 | Dr. Dev Raj | Summer school programme on 'Soil Health Management and Plant Nutrition under Changing Climate Scenario'organised by Rajasthan Agricultural Research Institute, Durgapura SKN Agriculture University Jobner | National | 2 to 22 September 2019 |
| 11. | 2019 | Dr. Dev Raj | ICAR sponsored short course on 'Recent Advances in Soil Carbon Sequestration and Stabilization for Soil Health Improvement and Climate Change Mitigation' at Indian Institute of Soil Science Bhopal. | National | 10 to 19 December 2019 |
| 12. | 2019 | Dr. Dev Raj | Annual convention of Indian society of Soil science at BHU, Varanasi | National | 15 to 17 November 2019 |
| 13. | 2019 | Dr. Rohtas Kumar | "Golden Jubilee International Conference on New Millennia Agriculture-Novel Trends and Future Scenario" at CCSHAU, Hisar | International | 6-8 November 2019 |
| 14. | 2019 | Dr. Hardeep Singh Sheoran | Induction Training organized by Directorate of Human Resource Management, CCSHAU, Hisar | National | 18 November to 17 December 2019 |
| 15. | 2020 | Dr. Rohtas Kumar | National webinar on Awareness and Use of CeRA Resource Through J-gate Discovery Platform | National | 25 June 2020 |
| 16. | 2020 | Dr. Pankaj Kumar | Induction Training organized by Directorate of Human Resource Management, CCSHAU, Hisar | National | 08 September to 08 Oct 2020 |
| 17. | 2020 | Dr. Usha Kumari | Induction Training organized by Directorate of Human Resource Management, CCSHAU, Hisar | National | 08 September to 08 October 2020 |
| 18. | 2020 | Dr. Ram Prakash | Refresher course on "Language Skills" Academy of Agril. Res. & Edu. Management, DHRM, CCSHAU, Hisar. | National | 27- 16 May June 2020 |
| 19. | 2020 | Dr. Ram Prakash | Webinar on "Aquaculture Practices for Improved Quality and Quantity Production" which is organized by College of Fisheries Science, CCSHAU, Hisar. | National | 21 November 2020 |

| | | | | | |
|---|---|---|---|---|---|
| 20. | 2020 | Dr. Ram Prakash | Web Conference on "Sustainable Soil and Water Management for Bio-diversity Conservation, Food Security and Climate Resilience" Organized by Soil Conservation Society of India. | National | 29-30 December 2020 |
| 21. | 2020 | Dr. K. K. Bhardwaj | Sustainable Soil and Water Management for Bio-diversity Conservation, Food Security and Climate Resilience organized by Soil Conservation Society of India | National | 29-30 December 2020 |
| 22. | 2020 | Dr. Rohtas Kumar | Refresher course on "Statistical tools and techniques for analysis of agricultural data". | National | 8-28 July 2020 |
| 23. | 2021 | Dr. Usha Kumari | Annual Convention of Indian society of soil science to be held at Visva-Bharati (Central University), Sriniketan, West Bengal | National | 16-19 November 2021 |
| 24. | 2021 | Dr. K.K Bhardwaj | Conference of 85th annual convention of Indian society of soil science to be held at Visva-Bharati (Central University), Sriniketan, West Bengal | National | 16-19 November 2021 |
| 25. | 2021 | Dr. Pooja Jangra | Annual Convention of Indian society of soil science to be held at Visva-Bharati (Central University), Sriniketan, West Bengal | National | 16-19 November 2021 |
| 26. | 2021 | Dr. Devraj | Annual Convention of Indian society of soil science to be held at Visva-Bharati (Central University), Sriniketan, West Bengal | National | 16-19 November 2021 |
| 27. | 2021 | Dr. Ram Prakash | GIS mapping of groundwater quality for irrigation of Sonipat block of Sonipat district, Haryana, India -. 85$^{th}$ Annual convention of Indian Society of Soil Science and National Seminar on Development in Soil Science -2021 held at Visva-Bharati, Srinketan,Kolkota | National | 16-19 November 2021 |
| 28. | 2021 | Dinesh | GIS mapping of groundwater quality for irrigation of Sonipat block of Sonipat district, Haryana, India -. 85$^{th}$ Annual convention of Indian Society of Soil Science and National Seminar on Development in Soil Science -2021 held at Visva-Bharati, Srinketan,Kolkota | National | 16-19 November 2021 |
| 29. | 2021 | Dr. Dev Raj | Annual Convention of Indian society of Soil science at Sri Niketan W. Bengal | National | 15-17 November 2021 |
| 30. | 2021 | Dr. Usha Kumari | Annual Convention of Indian society of Soil science at Sri Niketan W. Bengal | National | 15-17 November 2021 |
| 31. | 2021 | Dr. Ram Prakash | Refresher course on "Applications of Statistical & Econometric Techniques in Agriculture" | National | 24 November-14 December |

| | | | | | |
|---|---|---|---|---|---|
| | | | organized by DHRM, CCSHAU, Hisar. | | 2021 |
| 32. | 2021 | Dr. Usha Kumari | Refresher course on "Applications of Statistical & Econometric Techniques in Agriculture" organized by DHRM, CCSHAU, Hisar. | National | 24 November-14 December 2021 |
| 33. | 2021 | Dr. Ram Prakash | Seminar on Developments in Soil Science-2021 Organized by Sriniketan chapter of ISSS, Dept. of Soil Science and Agricultural Chemistry, PalliSiksha Bhavana (Institute of Agriculture),Vsva-Bharati, Sriniketan. | National | 16-19 November 2021 |
| 34. | 2022 | Dr. K.K. Bhardwaj | International symposium on cereals for food security and climate resilience through Online mode ICAR-IIWBR, Karnal, India | International | 18 to 20 January 2022 |
| 35. | 2022 | Dr. Dev Raj | Training on Extension management organised by DHRM CCSHAU Hisar | National | 4-24 May 2022 |
| 36. | 2022 | Dr. Ram Prakash | Symposium on "Paradigm Shift in Cotton Cultivation" Organized by Cotton Research and Development Association (CRDA) at MPUA&T, Udaipur. | National | 08-10 August 2022 |
| 37. | 2022 | Dr. Hardeep Sheoran | CAFT training programme on: Soil and Water Management for Sustaining Intensive Agriculture" organized by Punjab Agricultural University, Firozpur Road, Ludhiana | National | 01 December 2022 to 21 December 2022 |
| 38. | 2023 | Dr. Hardeep Sheoran | Workshop by AISHE Unit Higher Education Panchkula (haryana) under the aegis of MoE, New Delhi at Govt. College for Girls, Sector -14, Panchkula. | National | 2 March 2023 |
| 39. | 2023 | Dr. Shubham Lamba | International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCSHAU, Hisar | International | 17-19 February 2023 |
| 40. | 2023 | Dr. Usha Kaushik | International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCSHAU, Hisar | International | 17-19 February 2023 |
| 41. | 2023 | Dr. Ram Prakash | International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCSHAU, Hisar | International | 17-19 February 2023 |
| 42. | 2023 | Dr. Hardeep Sheoran | International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCSHAU, Hisar | International | 17-19 February 2023 |
| 43. | 2023 | Dr. Seema Sheoran | International Conference on Climate Resilient Agriculture for | International | 17-19 February |

| | | | | | |

| | | | Food Security and Sustainability, CCSHAU, Hisar | | 2023 |
| 44. | 2023 | Dr. Sushil | International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCSHAU, Hisar | International | 17-19 February 2023 |
| 45. | 2023 | Dr. Sushil Kumar | International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCSHAU, Hisar | International | 17-19 February 2023 |
| 46. | 2023 | Dr. K K Bhardwaj | International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCSHAU, Hisar | International | 17-19 February 2023 |
| 47. | 2023 | Dr. Sonia Rani | International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCSHAU, Hisar | International | 17-19 February 2023 |
| 48. | 2023 | Dr. Devraj | International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCSHAU, Hisar | International | 17-19 February 2023 |
| 49. | 2023 | Dr. Rohtas Kumar | International Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCSHAU, Hisar | International | 17-19 February 2023 |

## 13. Department of Vegetable Science

| Sl. No | Year | Name of Faculty | Name of Seminars/ Symposia/ Workshops/ Training / Consultancy visits / Special assignments etc etc. | National/ International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2022 | Dr. T.P. Malik / | Training program on "Data digitalization and visualization" by IISR, Calicut | National | 22-24 February 2022 |
| 2. | 2022 | Dr. S.K. Tehlan | Training program on "Data digitalization and visualization" by IISR, Calicut | National | 22-24 February 2022 |
| 3. | 2018 | Dr. Kuldeep Kumar | 36$^{th}$ Workshop/Group Meeting of All India Co-ordinated Research Project on (Vegetable Crops) held at Durgapura- Jaipur | National | 18-21 May 2018 |
| 4. | 2018 | Dr. Kuldeep Kumar | "National Start Up Summit" held at CCSHAU | National | 1-2 June 2018 |
| 5. | 2018 | Dr. Kuldeep Kumar | "Induction Training" conducted by Academy of Agricultural Research and Education Management, Directorate of Human Resource Management, CCSHAU, Hisar. | National | 07 June - 07 July 2018 |
| 6. | 2018 | Dr. Makhan Lal | Annual Review Meeting of Central Sector Scheme-Mission for Integrated Development of Horticultural organized by | National | 26-27 June 2018 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Directorate of Arecanut and Spices Development, Calicut (Kerala) at IGKV, Raipur. | | |
| 7. | 2018 | Dr. T.P. Malik | Workshop of All India Coordinated Research Project on Spices held at Dr. Y.S. Parmar University of Horticulture & Forestry, Solan (H.P.) | National | 4-6 October 2018 |
| 8. | 2018 | Dr. S.K. Tehlan | Workshop of All India Coordinated Research Project on Spices held at Dr. Y.S. Parmar University of Horticulture & Forestry, Solan (H.P.) | National | 4-6 October 2018 |
| 9. | 2018 | Dr. Amit Kumar | Induction Training Course organized by the Academy of Agricultural Research and Education Management (AAREM) at CCSHAU, Hisar | National | 29 November to 29 December 2018 |
| 10. | 2018 | Dr. Makhan Lal | Training programme on "Robotics and Automation" conducted by COAE&T in collaboration with AAREM, Directorate of Human Resource Management, CCSHAU-Hisar. | National | 17-30 July 2018 |
| 11. | 2018 | Dr. Makhan Lal | Training programme on "Robotics and Automation" conducted by COAE&T in collaboration with AAREM, Directorate of Human Resource Management, CCSHAU-Hisar. | National | 17-30 July 2018 |
| 12. | 2018 | Dr. Indu Arora | International seminar on Innovative theories and practices for sustainable development in changing world scenario at Kualalumpur, Malayasia. | International | 10-13 July 2018 |
| 13. | 2018 | Dr. V.K. Batra, | National workshop of AICRP (Potato) at SDAU, Sardar Krushi Nagar, Gujrat | National | 18-21 May 2018 |
| 14. | 2018 | Dr. A.K. Bhatia, | National workshop of AICRP (Potato) at SDAU, Sardar Krushi Nagar, Gujrat | National | 18-21 May 2018 |
| 15. | 2018 | Dr. D.S. Duhan, | National workshop of AICRP (Potato) at SDAU, Sardar Krushi Nagar, Gujrat | National | 18-21 May 2018 |
| 16. | 2018 | Dr. Kuldeep Kumar | National workshop of AICRP (Potato) at SDAU, Sardar Krushi Nagar, Gujrat | National | 18-21 May 2018 |
| 17. | 2018 | Dr. Virendra Singh | National workshop of AICRP (Potato) at SDAU, Sardar Krushi Nagar, Gujrat | National | 18-21 May 2018 |
| 18. | 2018 | Dr. A.K. Bhatia, | National workshop of AICRP (Potato) at SDAU, Sardar Krushi Nagar, Gujrat | National | 08-12 September 2018 |

| | | | | | |
|---|---|---|---|---|---|
| 19. | 2018 | Dr. V.P.S. Panghal | National workshop of AICRP (Potato) at SDAU, Sardar Krushi Nagar, Gujrat | National | 08-12 September 2018 |
| 20. | 2018 | Dr. Kishor Chand | National workshop of AICRP (Potato) at SDAU, Sardar Krushi Nagar, Gujrat | National | 08-12 September 2018 |
| 21. | 2018 | Dr. T.P. Malik | National workshop of AICRP on Spices, Dr. Y.S.Parmar University of Horticultural & Forestry, Nauni-Solan, HP | National | 04-06 October 2018 |
| 22. | 2018 | Dr. S.K. Tehlan | National workshop of AICRP on Spices, Dr. Y.S.Parmar University of Horticultural & Forestry, Nauni-Solan, HP | National | 04-06 October 2018 |
| 23. | 2019 | Dr. Kuldeep Kumar | Group Meeting of AICRP (Vegetable Crops) held at TNAU, Coimbatore- Tamilnadu | National | 22 to 25 June 2019 |
| 24. | 2019 | Dr. Makhan Lal | Workshop on "Awareness and use of Scopus and Mendeley reference manager" in college of Basic Science and Humanities, CCS Haryana Agricultural University, Hisar. | National | 1 January 2019 |
| 25. | 2019 | Dr. Makhan Lal | International Symposium "Inno-preneurship: A Need of Sustainable Agriculture" (ISINSA-2019) organized by Director of Research, CCS Haryana Agricultural University, Hisar | International | 2-3 February 2019 |
| 26. | 2019 | Dr. Makhan Lal | International Conference on "Food Security through Agriculture & Allied Sciences" (FAAS-2019) at Tribhuvan University, Kathmandu, Nepal. | International | 27-29 May 2019 |
| 27. | 2019 | Dr. D.S. Duhan | Indian Horticulture Congress 2019–Shaping future of Indian Horticulture,. | National | 17-21 January 2019 |
| 28. | 2019 | Dr. V.P.S. Panghal | Indian Horticulture Congress 2019–Shaping future of Indian Horticulture,. | National | 17-21 January 2019 |
| 29. | 2019 | Dr. Indu Arora | International Symposium on Innopreneurship: A Need of Sustainable Agriculture, organized by Directorate of Research, CCS Haryana Agricultural University, Hisar | International | 2-3 February 2019 |
| 30. | 2019 | Dr. T.P. Malik | Quinquennial Review Team (QRT) meeting of All India Co-ordinated Research Project on Spices held at Jaipur | National | 27 August 2019 |
| 31. | 2019 | Dr. S.K. Tehlan | Quinquennial Review Team (QRT) meeting of All India Co-ordinated Research Project on Spices held at Jaipur | National | 27 August 2019 |

| | | | | | |
|---|---|---|---|---|---|
| 32. | 2019 | Dr Indu Arora | Participated and presented work on "Vegetable Grafting" in round table on 'Agriculture & Food Processing' at the Knowledge Summit 2, a high-level Franco-Indian summit held in Lyon, France. | International | 17-18 October 2019 |
| 33. | 2019 | Dr. T.P. Malik | Workshop/Group meeting of All India Co-ordinated Research Project on Spices held at Tamil Nadu Agricultural University, Coimbatore | National | 13-16 November 2019 |
| 34. | 2019 | Dr. S.K. Tehlan | Workshop/Group meeting of All India Co-ordinated Research Project on Spices held at Tamil Nadu Agricultural University, Coimbatore | National | 13-16 November 2019 |
| 35. | 2019 | Dr. Kuldeep Kumar | Quinquennial Review Team (QRT) of All India Coordinated Research Project on Vegetable Crops at IARI, New Delhi. | National | 20-21 November 2019 |
| 36. | 2019 | Dr. Amit Kumar | International Symposium on Innopreneurship: A need of Sustainable Agriculture at CCSHAU, Hisar. | International | 2-3 February 2019 |
| 37. | 2019 | Dr. Amit Kumar | Golden Jubilee International Conference on New Millennia Agriculture Novel Trend and Future Scenario | International | 2019 |
| 38. | 2019 | Dr. Makhan Lal | Advanced training programme on "Innovative interventions for sustainable vegetable production under changing climate scenario" organized by Centre of Advanced Faculty Training in Horticulture (Vegetables), Department of Vegetable Science Dr. Y.S. Parmar University of Horticulture & Forestry, Nauni, Solan, (Hiamchal Pradesh) | National | 3-23 September 2019 |
| 39. | 2020 | Dr. Kuldeep Kumar | National Incubators Colloquium, held at ABIC, CCSHAU, Hisar | National | 15-16 January 2020 |
| 40. | 2020 | Dr. Kuldeep Kumar | Refresher course on "Language Skills" conducted by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management, CCSHAU, Hisar | National | 27 May-16 June 2020 |
| 41. | 2020 | Dr. Amit Kumar | Refresher Course on "Language Skills" conducted by Academy of Agricultural Research and Education Management, Directorate of Human Resource Management, CCSHAU, Hisar. | National | 27 May to 16 June 2020 |
| 42. | 2020 | Dr. Makhan Lal | Refresher Course on Language Skills (online mode)" at AAREM, | National | 22 May to 12 June 2020 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Directorate of Human Resource Management, CCS Haryana Agricultural University, Hisar. | | |
| 43. | 2020 | Dr. S.K. Tehlan | National webinar on "Recent Advances in Seed Spices Production" organized by Seed Spices Research station, SD Agricultural University, Jagudan (Gujrat) | National | 04 August 2020 |
| 44. | 2020 | Dr. T.P. Malik/Dr. S.K. Tehlan | XXXI Workshop/Group meeting of All India Co-ordinated Research Project on Spices (virtual event) by IISR, Calicut. | National | 29-30 September 2020 |
| 45. | 2020 | Dr. Kuldeep Kumar | 38th Group Meeting of AICRP (Vegetable Crops) scheme held through online mode. | National | September 25-27 2020 |
| 46. | 2020 | Dr. Kuldeep Kumar | International Web Conference on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2020), held at Meerut. | International | 28-30 December 2020 |
| 47. | 2020 | Dr. Makhan Lal | International Level Webinar on "Future Strategies for Multiplication of Potato" organized by University of Horticultural Science, Bagalkot, Karnataka & International Potato Centre | International | 15 October 2020 |
| 48. | 2020 | Dr. Makhan Lal | National Level Webinar on "Challenges and Opportunities of Vegetable Production in Warmed Humid Tropics" organized by Department of Vegetable Science, College of Horticulture, Kerala Agricultural University Thrissur & Indian Societies of Vegetable Science | National | 11-13 November 2020 |
| 49. | 2021 | Dr. Makhan Lal | Training on "Communication Skills and Technical Writing (online mode)" at AAREM, Directorate of Human Resource Management, CCS Haryana Agricultural University, Hisar. | National | 03-23 February 2021 |
| 50. | 2020 | Dr. Makhan Lal | The 15th Annual Review Meeting of Central Sector Scheme-Mission for Integrated Development of Horticultural organized by Directorate of Arecanut and Spices Development, Calicut (Kerala) through video conferencing. (virtual) | National | 25-26 June 2021 |
| 51. | 2021 | Dr. S.K. Tehlan | International Symposium on "Spices as Flavours, Fragrances & Functional Foods" (virtual event) by IISR, Calicut | International | 09-12 February 2021 |
| 52. | 2021 | Dr. Makhan Lal | Virtual Horticultural Officers' | National | 09 July 2021 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Workshop-2021 organized by Directorate of Extension Education, CCSHAU-Hisar. (virtual) | | |
| 53. | 2021 | Dr. Makhan Lal | International Webinar cum Workshop on "Seed Quality Enhancement North Zone" organized by ICAR-Indian Agricultural Research Institute, New Delhi & CCSHAU-Hisar (Haryana) | International | 22-24 September 2021 |
| 54. | 2021 | Dr. Makhan Lal | "International Conference on Vegetable Research and Innovations for Nutrition, Entrepreneurship and Environment" (ICVEG-2021)". (virtual) | International | 14-16 December 2021 |
| 55. | 2021 | Dr. T.P. Malik | Workshop of All India Co-ordinated Research Project on Spices (virtual event) | National | 22-24 September 2021 |
| 56. | 2021 | Dr. S.K. Tehlan | Workshop of All India Co-ordinated Research Project on Spices (virtual event) | National | 22-24 September 2021 |
| 57. | 2021 | Dr. D.S. Duhan | Refresher Course on Educational Technology DHRM, CCSHAU. | National | 21 September to 09 October 2021 |
| 58. | 2021 | Dr. Kuldeep Kumar | Group Meeting of AICRP (Vegetable Crops) held through online mode. | National | 07-09 September 2021 |
| 59. | 2021 | Dr. Kuldeep Kumar | "International Conference on Vegetable Research and Innovations for Nutrition, Entrepreneurship and Environment (ICVEG-21)" through online mode held at ICAR-IIVR, Varanasi, UP. | International | 14-16 December 2021 |
| 60. | 2022 | Dr. Kuldeep Kumar | Group Meeting of AICRP (Vegetable Crops) held through online/virtual mode. | National | 15 to 17 June 2022 |
| 61. | 2022 | Dr. Kuldeep Kumar | Group Meeting of AICRP (Vegetable Crops) held through online/virtual mode. | National | 15 to 17 June 2022 |
| 62. | 2022 | Dr. T.P. Malik | Group Meeting of AICRP (Spices) held at ANDUA&T, Kumarganj, U.P. | National | 14-16 October 22 |
| 63. | 2022 | Dr. S.K. Tehlan | Group Meeting of AICRP (Spices) held at ANDUA&T, Kumarganj, U.P. | National | 14-16 October 2022 |
| 64. | 2022 | Dr. Kuldeep | 40$^{th}$ Group Meeting of AICRP (Vegetable Crops) held 15$^{th}$ to 17$^{th}$ June, 2022 through online/virtual mode. | National | 15$^{th}$ to 17$^{th}$ June 2022 |
| 65. | 2023 | Dr. Kuldeep Kumar / | International conference on climate resilient agriculture for food security and sustainability, held at CCS | International | 17-19 February 2023 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Haryana Agricultural University Hisar, on February 17-19, 2023 | | |
| 66. | 2023 | Dr. Amit Kumar/ | International conference on climate resilient agriculture for food security and sustainability,held at CCS Haryana Agricultural University Hisar, on February 17-19, 2023 | International | 17-19 February 2023 |
| 67. | 2023 | Dr. Jagmohan Singh | International conference on climate resilient agriculture for food security and sustainability,held at CCS Haryana Agricultural University Hisar, on February 17-19, 2023 | International | 17-19 February 2023 |
| 68. | 2023 | Dr. Makhan Lal | International Conference on "Climate Resilient Agriculture for Food Security and Sustainability (INTCLIMATE-2023)" held at CCS Haryana Agricultural University-Hisar | International | 17-19 February 2023 |
| 69. | 2023 | Dr. Archana | Refresher Course on Induction training organized by DHRM, CCSHAU, Hisar | National | 27 June -27 July 2022 |
| 70. | 2023 | Dr. Hansraj | Annual meeting of ICAR - All India Coordinated Research Project on Potato concludes at SKUAST-K's Division of Vegetable Science, Faculty of Horticulture, Kashmir, Srinagar | National | 07 to 09 October 2022 |
| 71. | 2023 | Dr. Davinder Singh | Annual meeting of ICAR - All India Coordinated Research Project on Potato concludes at SKUAST-K's Division of Vegetable Science, Faculty of Horticulture, Kashmir, Srinagar | National | 07 to 09 October 2022 |
| 72. | 2023 | Dr. Sumit | Review meeting on spices and aromatic plants under MIDH through DASD AT Horticulture College and Research Institute-Periyakulum, Tamilnadu | National | 13-14 July 2022 |
| 73. | 2023 | Dr. Hansraj | Review meeting on spices and aromatic plants under MIDH through DASD AT Horticulture College and Research Institute-Periyakulum, Tamilnadu | National | 13-14 July 2022 |
| 74. | 2023 | Dr. T.P. Malik/ | International conference on climate resilient agriculture for food security and sustainability,held at CCS Haryana Agricultural University Hisar, on February 17-19, 2023 | International | 17-19 February 2023 |
| 75. | | Dr. S.K. Tehlan/ | | International | 17-19 February 2023 |

| 20. | 2023 | Dr. P. K. Chahal | International Conference on Climate Resilient Agriculture for Food Security and Sustainability at CCSHAU, Hisar | International | 17-19 February 2023 |

## B) College of Basic Science

The participation of faculty in National/ International Seminars/ Symposia/ Workshops/ Training/Consultancy visits/Special assignments etc. (2018-19 to 2022-23) of College of Basic Science is as under.

| Sl. No | Department | International | National | Total Number |
|---|---|---|---|---|
| 1. | Biochemistry | 8 | 0 | 8 |
| 2. | Bioinformatics | 0 | 1 | 1 |
| 3. | Chemistry | 19 | 5 | 24 |
| 4. | Language and Haryanvi Culture | 23 | 51 | 74 |
| 5. | Mathemetics and Statistics | 7 | 16 | 23 |
| 6. | Molecular Biology and Biotechnology | 3 | 3 | 6 |
| 7. | Microbiology | 47 | 59 | 106 |
| 8. | Physics | 1 | 2 | 3 |
| 9. | Plant Physiology | 14 | 12 | 26 |
| | **Total** | **122** | **149** | **271** |

### 1) Biochemistry

| Sl. No. | Year | Name of Faculty | Name of Seminars/ Symposia/ Workshops/ Training / Consultancy visits / Special assignments etc | National/ International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. Jayanti Tokas | 10th International Seminar on "Harnessing science and technology applications through capacity | International | 13-15 September 2018 |

| | | | | | |
|---|---|---|---|---|---|
| | | | building and economic policies for sustainable development" at Mahatma Gandhi House, Goettingen, Germany. | | |
| 2. | 2018 | Dr. Jayanti Tokas | International Conference on "Climate change towards health and agricultural sustainability" at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. | International | 18-20 February 2019 |
| 3. | 2019 | Dr. Jayanti Tokas | "Golden jubilee International conference on new millenia agriculture- novel trends and future scenario at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08 November 2019 |
| 4. | 2019 | Dr. Nisha Kumari | "Golden jubilee International conference on new millenia agriculture- novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08 November 2019 |
| 5. | 2019 | Dr. Jayanti Tokas | Workshop on "Aberystwyth bioinformatics" at Aberystwyth University, Aberystwyth, United Kingdom. | International | 28 June 2019 |
| 6. | 2019 | Dr. Jayanti Tokas | SPARC-MHRD sponsored International Workshop cum Training on "New approaches in seed technology for quality assurance" organized by CCS Haryana Agricultural University in collaboration with Massey University, New Zealand. | International | 20-29 November 2019 |
| 7. | 2019 | Dr. Jayanti Tokas | "Annual learning and Teaching Conference" at Aberystwyth University, Aberystwyth, United Kingdom. | International | 08-10 July 2019 |
| 8. | 2022 | Dr. Nisha Kumari | Training on "International pedagogy" at Texas A and M University, College Station, Texas, USA. | International | 15 November 2021- 14 February 2022 |

## B) Bioinformatics and Computational Biology

| Sl. No. | Year | Name of Faculty | Name of Seminars/ Symposia/ Workshops/ Training / Consultancy visits / Special assignments etc | National/ International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2022 | Dr. Navjeet Ahalawat | Faculty Training on "Molecular Biology and Bioinformatics Tools and its application in Agriculture and Allied Sciences" organized by Centre of Excellence at Agri-Biotechnology, College of Biotechnology, Meerut, Uttar Pradesh, India. | National | 08-21 September 2022 |

## C) Chemistry

| Sl. No. | Year | Name of Faculty | Name of Seminars/ Symposia/ Workshops/ Training / Consultancy visits / Special assignments etc | National/ International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. Sushila Singh | GIAN-MHRD Workshop on "Nanotechnology: nanoparticle synthesis and conjugation chemistry for bio application" at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. | National | 16-20 July, 2018 |
| 2. | 2019 | Dr. Anushree | Silver Jubilee International Conference on "Physical and biological sciences at cross-roads: interdisciplinary explorations and exciting challenges" at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. | International | 29-31, December 2019 |
| 3. | 2019 | Dr. Sushila Singh | International Symposium on "Innopreneurship: a need of sustainable agriculture" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 02-03, February 2019 |
| 4. | 2019 | Dr. Sushila Singh | "Golden jubilee International conference on new millenia agriculture- novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08, November 2019 |
| 5. | 2019 | Dr. Anil Duhan | "Golden jubilee International conference on new millenia agriculture- novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08, November 2019 |
| 6. | 2019 | Dr. Anushree | "Golden jubilee International conference on new millenia agriculture- novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08, November 2019 |
| 7. | 2019 | Dr. Anushree | "Induction training" organized by the Academy of Agricultural Research and Education Management Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 01- June 01, July 2019 |
| 8. | 2019 | Dr. Sonu C. | "Golden jubilee International conference on new millenia agriculture- novel trends and future scenarioat CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08, November 2019 |
| 9. | 2019 | Dr. Sonu C. | Silver Jubilee International Conference on "Physical and biological sciences at cross-roads: interdisciplinary explorations and | International | 29-31, December 2019 |

| | | | | | |
|---|---|---|---|---|---|
| | | | exciting challenges" at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. | | |
| 10. | 2019 | Dr. Sonu C. | "Induction training" organized by the Academy of Agricultural Research and Education Management Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 01- June 01, July 2019 |
| 11. | 2019 | Dr. Jayant Sindhu | "Golden jubilee International conference on new millenia agriculture- novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08, November 2019 |
| 12. | 2019 | Dr. Vipan Kumar | 3rd International Conference on "Innovations in science, engineering and technology" organized by Department of Chemistry, Arya P.G. College at Panipat, Haryana, India. | International | 09-10, November 2019 |
| 13. | 2019 | Dr. Sachin Kumari | "Golden jubilee International Conference on new millenia agriculture- novel trends and future scenario" CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08, November 2019 |
| 14. | 2019 | Dr. Sachin Kumari | Silver Jubilee International Conference on "Physical and biological sciences at cross-roads: interdisciplinary explorations and exciting challenges" at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. | International | 29-31, December 2019 |
| 15. | 2020 | Dr. Anil Duhan | Global Conference of South-South Cooperation Forum on "Food security and agro-biodiversity in times of covid-19 and climate change" organized by United Nations Environment Programme in collaboration with Global Alliance for the Future of The Food, Icimod, Ifad, Ifpri. | International | 30 November – 02 December 2020 |
| 16. | 2020 | Dr. Sonu | 1st International Conference of Indian Science Congress Association- Rohtak Chapter on "Science and technology: Rural Development" at Maharshi Dayanand University, Rohtak, Haryana, India. | International | 04-05, March 2020 |
| 17. | 2020 | Dr. Ravi Kumar | "Awareness and use of CeRAresourses through J-gate discovery platform" at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 25, June 2020 |
| 18. | 2021 | Dr. Jayant Sindhu | International Conference on "Advanced developments in chemistry and allied sciences", | International | 16- 17, December 2021 |

| | | | | | |
|---|---|---|---|---|---|
| | | | organized by Department of Chemistry, DeenbandhuChhotu Ram University of Science and Technology, Murthal, Haryana, India. | | |
| 19. | 2021 | Dr. Ravi Kumar | National Web Conference on "Sustaining pulse production for self-sufficiency and nutritional security" organized by Indian Society of Pulses Research and Development (ISPRD) and ICAR-Indian institute of pulses research (IIPR), Kanpur in collaboration with Indian Council of Agricultural Research (ICAR), New Delhi. | National | 09-11, February 2021 |
| 20. | 2021 | Dr. Sachin Kumari | International Conference on "Nanoscience and nanotechnology" organized by Department of Physics and Nanotechnology, Sri Ramaswamy Memorial Institute of Science and Technology , India. | International | 01-03, February 2021 |
| 21. | 2021 | Dr. Sachin Kumari | "Smart polymers: application in current scenario" by Amity Institute of Applied Sciences in association with Asian Polymer Association at Noida, Uttar Pradesh, India | International | 15-16, January 2021 |
| 22. | 2021 | Dr. Sachin Kumari | "Instigating research in materials, energy and environment" at Department of Chemistry, Easwari Engineering College, Rampuram,Chennai, India. | International | 06-07, October 2021 |
| 23. | 2022 | Dr. Anushree | International Conference on "Integrated approaches in science and technology for sustainable future" at J. C. Bose University of Science and Technology, Young Men's Christian Association University of Science and Technology, Faridabad, Haryana, India. | International | 28-February-01, March 2022 |
| 24. | 2022 | Dr. Sachin Kumari | International Conference on "Advances in science and technology" at Rajarshi Chhatrapati Shahu College, Kolhapur, Maharashtra, India. | International | 09-10, March 2022 |

## D) Language and Haryanvi Culture

| Sl. No. | Year | Name of Faculty | Name of Seminars/ Symposia/ Workshops/ Training / Consultancy visits / Special assignments etc | National/ International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2019 | Dr. Devender Singh | Workshop sponsored by UGC on "Professional Development and Capacity Building of Teachers of Higher Education Institutions"at Central University Mahendergarh, Haryana | National | 11-18 March 2019 |
| 2. | 2019 | Dr. Devender Singh | Workshop on 'Professional Development and capacity | National | 11-18 March 2019 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Building of Teachers of Higher Education Institutions' at Central University, Mahendergarh, Haryana | | |
| 3. | 2019 | Dr. Devender Singh | National Seminar Sponsored by UGC (Multidisciplinary) on 'Literature and Gender' at DAV College, Ambala City on | National | 4 January 2019 |
| 4. | 2019 | Dr. Devender Singh | National Seminar on 'Legal Provisions for Gender Equality' at COHS, CCSHAU, Hisar | National | 8 March 2019 |
| 5. | 2019 | Dr. Devender Singh | "Voice of the Marginalised in Rohinton Mistry's Fiction' at Chaudhary Ranbir SinghUniversity, Jind | International | 11 February 2019 |

| 68. | 2022 | Dr. Devender Singh | Conference on "Peace, Prudence and Prosperity" organised by School of Education, Centre for Liberal Arts & IQAC in collaboration with Gandhi Smriti & Darshan Samiti, Ministry of Culture, Govt. of India at ApeejayStya University, Gurugram,Delhi NCR. | International | 5-6 August 2022 |
| 69. | 2022 | Dr. Devender Singh | Webinar on Emerging Trends in Physics, College of Basic Sciences and Humanities, CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 29 June 2020 |
| 70. | 2022 | Dr. Devender Singh | Conference on Advances in English Language Studies(ICAELS-2022) organized by University of Engineering & Management , Jaipur, Rajasthan, India. | International | 14 to 15 October 2022 |
| 71. | 2022 | Dr. Aparna | Seminar on the Professional Development and Quality Enhancement in Higher Education through ICT (PDQEHE-2022) at NAAC Accredited Maharani Lakshmi Bai College, Hisar. | National | 12 Sept 2022 |

## E) Mathematics & Statistics

| Sl. No. | Year | Name of Faculty | Name of Seminars/ Symposia/ Workshops/ Training / Consultancy visits / Special assignments etc | National/ International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2019 | Dr. Manoj Kumar | Conference on New Milennia Agriculture Novel Trends and Future Scenario organized by CCS Haryana Agricultural University, Hisar | International | 6-8 November 2019 |
| 2. | 2019 | Dr. Vikash | Seminar on 'Mathematical Sciences and Applications'(NSMSA 2019) held on December 22, 2019 at Department of Mathematics, Maharshi Dayanand University, Rohtak. | National | 22 December 2019 |
| 3. | 2019 | Dr. Vikash | Training Course organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management, CCSHAU, Hisar . | National | 1 June- 1 July 2019 |
| 4. | 2019 | Dr. Vikash | Faculty Development Program on Deep Learning and Applications at IIT Roorkee organized by | National | 27-31 May 2019 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Electronics & ICT Academies at IIT Roorkee through National Knowledge Network (NKN/online) mode. | | |
| 5. | 2019 | Dr. Manoj Kumar | Training on Statistical Advances in Designing of Agricultural experiments and data analysis orgnised by IASRI, IARI-New Delhi | National | 19 July - 08 August 2019 |
| 6. | 2019 | Dr. Sarita Rani | Induction Training Course conducted by the Academy of Agricultural Research and Education Management (AAREM), Directorate of Human Resource Management (DHRM), CCSHAU, Hisar. | National | 1 June - 1 July 2019 |
| 7. | 2020 | Dr. Sarita Rani | Online Refresher course on "Language Skills" conducted by the Academy of Agricultural Research and Education Management (AAREM), Directorate of Human Resource Management (DHRM) at CCSHAU, Hisar. | National | 27 May - 16 June 2020 |
| 8. | 2020 | Dr. Sarita Rani | Workshop on "Digital Library for Strengthening Agricultural knowledge in NARES" organized by Nehru library, CCSHAU, Hisar in collaboration with ICAR-IARI, New Delhi | National | 12 Februar 2020 |
| 9. | 2020 | Dr. Sarita Rani | Refresher course on "Statistical Tools and Techniques for Analysis of Agricultural Data" conducted by Academy of Agricultural Research and Education Management (AAREM), Directorate of Human Resource Management in collaboration with Department of Mathematics and Statistics, CCSHAU, Hisar . | National | 8 July - 28 July 2020 |
| 10. | 2020 | Dr. Sarita Rani | Online national Seminar on "Mathematical Sciences: Repositories of Logical Thoughts and Analytical Tools" organized by the Department of Mathematics and Statistics, CCSHAU, Hisar. | National | 22 December 2020 |
| 11. | 2021 | Dr. Sarita Rani | Suceesfully completed International workshop on "Advance statistical Data analysis using SPSS" organised by Science tech Institute, Lucknow, UP, India | International | 21-27 September 2021 |
| 12. | 2021 | Dr. Sarita Rani | Conference on "Global Initiative in Agricultural, Forestry and Applied Sciences For Food Security, Environmental Safety and Sustainable Development (GIAFAS-2021)" organized at Shri Guru Ram Rai University, Dehradun, Uttarakhand, India. | International | 17-18 October 2021 |

| | | | | | |
|---|---|---|---|---|---|
| 13. | 2022 | Dr. Sarita Rani | National Conference on "Mathematical Sciences for Applied and Agricultural Research" organized by Department of Mathematics and Statistics, COBS&H, CCSHAU, Hisar sponsored by HSCSIT, Panchkula, Haryana. | National | 22 February 2022 |
| 14. | 2020 | Dr. Manoj Kumar | Online Refresher Course on "Language Skills orgnised by Academy of Agricultural Research and Education Management, Directorate of Human Resource Management, CCSHAU, Hisar. | National | 27 May 2020 - 16 June 2020 |
| 15. | 2020 | Dr. Vikash | Online Refresher Course on Statistical Tools and Techniques for Analysis of Agricultural Data conducted by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management in Collaboration with Department of Mathematics & Statistics, CCSHAU, Hisar. | National | 08-28 July 2020 |
| 16. | 2021 | Dr. Manoj Kumar | National Conference on "Significance of Mathematics as an interdisciplinary subject" organized by Division of Social Sciences, Faculty of Fisheries, and Division of Agri. Statistics, Shalimar, FoH, SKUAST-Kashmir jointly with University of Kashmir and SKUAST-Jammu, J&K | National | 22 December 2021 |
| 17. | 2021 | Dr. Manoj Kumar | Conference on "Applied Statistics in Biological, Agricultural, Social and Medical Sciences "organised by Division of Social Sciences Faculty of Fisheries, Rangil, Ganderbal, SKUAST-Kashmir, J&K | International | 20-21 October 2021 |
| 18. | 2021 | Dr. Vikash | Conference on "Recent Advances in Solid Mechanics and Seismology" Organized by Department of Mathematics Kurukshetra University, Kurukshetra, India | International | 26-28 October 2021 |
| 19. | 2021 | Dr. Vikash | AICTE Training And Learning (ATAL) Academy Online Elementary FDP on "Recent Developments in Mathematical Sciences and Engineering" at Maharshi Dayanand University, Rohtak. | National | 22-26 December 2021 |
| 20. | 2021 | Dr. Vikash | Conference on Frontiers in Industrial and Applied Mathematics (FIAM-2021) Organized by the Department of Mathematics, SLIET Longowal, | International | 21-22 December 2021 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Punjab (INDIA). | | |
| 21. | 2022 | Dr. Manoj Kumar | Conference on " Statistics and Machine Learning for Big data analytics" at Sher-e-Kashmir University of Agricultural Sciences & Technology of Kashmir (SKUAST-K), Shalimar, Srinagar, Kashmir | National | 14-16 November 2022 |
| 22. | 2022 | Dr. Vikash | National Conference "Mathematical Sciences for Applied and Agricultural Research" Organized by Department of Mathematics and Statistics, CCSHAU, Hisar | National | 22 February2022 |
| 23. | 2022 | Dr. Vikash | Global initiative of Academic Network (GIAN) course entitled "Stochastic Processes: Theory and Its Applications in Medical Sciences" organized by Department of Mathematics, Maharshi Dayanand University, Rohtak. | International | 14- 18 March 2022 |

## F) Microbiology

| Sl. No. | Year | Name of Faculty | Name of Seminars/ Symposia/ Workshops/ Training / Consultancy visits / Special assignments etc | National/ International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. Leela Wati | National Seminar on "Management of paddy straw for bio- CNG, manure, employment and swachhbharat' organized by Centre for Research in Rural and Industrial Development (CRRID) at Chandigarh, India. | National | 16-17 May 2018 |
| 2. | 2018 | Mr. Jagdish Parshad | Attended Gian Training on "Application of thermodynamic prediction for development of microbial biotechnological approaches" organized by Department of Bio and Nano Technology at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. | National | 12-21 November 2018 |
| 3. | 2018 | Dr. Baljeet Singh Saharan | Conference on "Sustainable agriculture, energy, environment and technology at Maharshi Dayanand University (MDU), Rohtak, Haryana, India. | International | 24-25 February 2018 |
| 4. | 2018 | Dr. Baljeet Singh Saharan | Seminar on "Harnessing science and technology applications through capacity building and economic policies for sustainable development" at Mahatma Gandhi House, Goettingen, Germany. | International | 13-15 September 2018 |

| | | | | | |
|---|---|---|---|---|---|
| 5. | 2018 | Dr. Baljeet Singh Saharan | Workshop on "Bioinformatics – basic tools and its applications" at DNA Labs – A Centre for Applied Sciences, Dehradun, Uttarakhand, India. | National | 09 December 2018 |
| 6. | 2018 | Dr. Kamla Malik | Workshop on "Intellectual property rights- a mechanism for social economic growth" at CCS Haryana Agricultural University, Hisar, Haryana. | National | 22 November 2018 |
| 7. | 2018 | Mr. Jagdish Parshad | Training on "Accounts for teachers and technical employees for departmental examination" organized by The Academy of Agricultural Research and Education Management Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 01-05 May 2018 |
| 8. | 2018 | Mr. Jagdish Parshad | Attended "Induction Training" organized by the Academy of Agricultural Research and Education Management Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 04 January - 03 February 2018 |
| 9. | 2018 | Mr. Jagdish Parshad | Annual Review Meeting of All India Coordinated Research Project on "Weed management" at G. B. Pant University of Agriculture and Technology, Pant Nagar, U.S. Nagar, Uttarakhand, India. | National | 07-08 June 2018 |
| 10. | 2019 | Dr. Leela wati | Workshop on "Production, processing and value addition of nutri-cereals (millets) in India" organised by Bajra Section at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 19 September 2019 |
| 11. | 2019 | Dr. Baljeet Singh Saharan | Conference on new millenia agriculture- novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08 November 2019 |
| 12. | 2019 | Dr. Baljeet Singh Saharan | Workshop on "Bio-analytical tools and techniques in the modern era of diagnostics" at DNA Labs – A Centre for Applied Sciences (DLCAS) at Dehradun, Uttarakhand, India. | National | 13-14 April 2019 |
| 13. | 2019 | Dr. Baljeet Singh Saharan | Seminar on "Biodiversity : issues, challenges and opportunities" by Department of Zoology and Aquaculture, College of Basic Sciences and Humanities, CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 16-17 July 2019 |

| | | | | | |
|---|---|---|---|---|---|
| 14. | 2019 | Dr. Baljeet Singh Saharan | "Induction training" organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 18 November - 17 December 2019 |
| 15. | 2019 | Dr. Baljeet Singh Saharan | Symposium of IAUA on "Low budget natural farming" on September 20, 2019 at Gurukul, Kurukshetra, Haryana, India. | National | 20 September 2019 |
| 16. | 2019 | Dr. Kamla Malik | World Congress on "Nanomedical Sciences at Delhi, India. | National | 07-09 January 2019 |
| 17. | 2019 | Dr. Kamla Malik | Symposium on "Innopreneurship: A need of sustainable agriculture" at CCS Haryana Agricultural University, Hisar, Haryana, India | International | 02-03 February 2019 |
| 18. | 2019 | Dr. Kamla Malik | Conference on new millenia agriculture- novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08 November 2019 |
| 19. | 2019 | Dr. Kamla Malik | Workshop on "Awareness and use of scopus citation databse" by Nehru Library, at CCS Haryana Agricultural University, Hisar, Haryana, Hisar. | National | 29 November 2019 |
| 20. | 2019 | Dr. Anuj Rana | Conference on new millenia agriculture- novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08 November 2019 |
| 21. | 2019 | Dr. Anuj Rana | Conference of Association of Microbiologist of India at Central University of Haryana, Mahendargarh, Haryana, India. | International | 15-18 November 2019 |
| 22. | 2019 | Dr. Meena Sindhu | Conference on new millenia agriculture- novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08 November 2019 |
| 23. | 2019 | Dr. Monika Kayasth | Conference on new millenia agriculture- novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08 November 2019 |
| 24. | 2019 | Dr. Poonam Ranga | Conference on new millenia agriculture- novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08 November 2019 |
| 25. | 2019 | Dr. Shikha Mehta | Conference on "Climate change towards health and agricultural sustainability" by Department of Environmental Science and Engineering at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. | International | 18-20 February 2019 |

| | | | | | |
|---|---|---|---|---|---|
| 26. | 2019 | Dr. Shikha Mehta | "Induction training" organized by the Academy of Agricultural Research and Education Management Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 01- June 01 July 2019 |
| 27. | 2019 | Dr. Shikha Mehta | Conference on new millenia agriculture- novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08 November 2019 |
| 28. | 2019 | Dr. Jagdish Parshad | Conference on new millenia agriculture- novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08 November 2019 |
| 29. | 2019 | Dr. Ajay Kumar | Conference of Association of Microbiologist of India at Central University of Haryana, Mahendargarh, Haryana, India. | International | 15-18 November 2019 |
| 30. | 2020 | Dr. Baljeet Singh Saharan | "COVID-19 pandemic general awareness quiz program", on May 09, 2020 at Dev Bhoomi Institute of Pharmacy and Research, Dev Bhoomi Group of Institutions, Dehradun, Uttarakhand, India. | National | 09 May 2020 |
| 31. | 2020 | Dr. Baljeet Singh Saharan | Webinar on "Emerging trends in physics and its applications in agriculture" organized by Department of Physics, College of Basic Sciences and Humanities at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 29 June 2020 |
| 32. | 2020 | Dr. Baljeet Singh Saharan | International Webinar on "COVID-19 and beyond: future prospects in biotechnology" organized by Department of Molecular and Cellular Engineering, Jacob Institute of Biotechnology and Bioengineering (JIBB) at Sam Higginbottom University of Agriculture, Technology and Sciences, Prayagraj, Uttar Pradesh, India. | International | 08-09 July 2020 |
| 33. | 2020 | Dr. Baljeet Singh Saharan | Webinar on "International funding for young researchers" organized by Directorate of research, at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 11 July 2020 |
| 34. | 2020 | Dr. Baljeet Singh Saharan | Webinar on "Awareness and use of CeRAresourses through J-gate discovery platform" at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 25 June 2020 |
| 35. | 2020 | Dr. Baljeet Singh Saharan | National Webinar on "Zero budget natural farming" organized by Association of Plant Science | National | 06- June 07 2020 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Researchers (APSR) Plantica Foundation, Dehradun, Uttarakhand in association with Department of Agriculture, Amritsar Group of Colleges (AGC), Punjab, India. | | |
| 36. | 2020 | Dr. Baljeet Singh Saharan | National Webinar on "Journal discovery platform (e- resource) J-gate" organized by Nehru Library at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 04 June 2020 |
| 37. | 2020 | Dr. Baljeet Singh Saharan | Workshop on "Digital library for strengthening agricultural knowledge in NARES" organized by Nehru Library, at CCS Haryana Agricultural University, Hisar in collaboration with Indian Agricultural Research Institute, New Delhi, India. | National | 12 February 2020 |
| 38. | 2020 | Dr. Baljeet Singh Saharan | Workshop on "Awareness and use of scopus citation database" organized by Nehru Library at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 29 November 2020 |
| 39. | 2020 | Dr. Baljeet Singh Saharan | Training on "Educational technology" organized by the Academy of research and Education management, Directorate of Human Resource management at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 18 December 2019 - 07 January 2020 |
| 40. | 2020 | Dr. Baljeet Singh Saharan | National Workshop cum Webinar on "Endogenous, exogenous and housekeeping genes as an internal controls for the optimization, standardization and validations of nucleic acid amplification technologies for SARS-Cov-2 and Swine Flu (H1N1) virus 2009 pandemics" by DNA Labs-A Centre for Applied Sciences (DLCAS) at Dehradun, Uttrakhand, India. | National | 27-28 June 2020 |
| 41. | 2020 | Dr. Baljeet Singh Saharan | Refresher Course on "Statistical tools and techniques for analysis of agricultural data" organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 08-28 July 2020 |
| 42. | 2020 | Dr. Baljeet Singh Saharan | Webinar on "Trends in technology for agriculture, food, nutrition, environment and health" at Jagannath university, Delhi NCR, Haryana, India. | International | 02 October 2020 |
| 43. | 2020 | Dr. Baljeet Singh | Workshop on "Low budget | National | 12 March |

| | | | | | |
|---|---|---|---|---|---|
| | | Saharan | Natural farming" organized by Directorate of Agriculture and Farmers Welfare, Government of Haryana at Gurukul, Kurukshetra, Haryana, India. | | 2020 |
| 44. | 2020 | Dr. Baljeet Singh Saharan | International Webinar on "Translation regulation in eukaryotes: the role of regulatory networks and RNA epi transcriptome" at Max Planck Institute for Biophysical chemistry, Gottingen, Germany. | International | 11 October 2020 |
| 45. | 2020 | Dr. Baljeet Singh Saharan | Faculty Development Programme on "Advances in bio techniques" organized by Department of Biotechnology, Meerut Institute of Engineering and Technology, Meerut, Uttar Pradesh, India. | National | 09-11 October 2020 |
| 46. | 2020 | Dr. Baljeet Singh Saharan | Attended Webinar on "Teaching and learning modes post covid – 19" organized by Department of Electronics and Communication Engineering at Punjabi University, Patiala, Punjab, India. | National | 29 April 2020 |
| 47. | 2020 | Dr. Kamla Malik | National Webinar on "Role of renewable energy technologies in conservation of energy" organized by the ICAR-AICRP on EAAI, Department of Renewable Energy Engineering, College of Agricultural Engineering, University for Agricultural Sciences, Raichur, Karnataka, | National | 14 December 2020 |
| 48. | 2020 | Dr. Kamla Malik | "Digital library for strengthening agricultural knowledge in NARES" organized by Nehru Library at CCS Haryana Agricultural University Hisar, Haryana, India. | National | 12 Februray 2020 |
| 49. | 2020 | Dr. Kamla Malik | Faculty Development Program on "Nanomaterials for energy harvesting and biomedical applications" organized by Nanomaterials for photovoltaic and biomaterials laboratory (NPBL), Department of Humanities and Basic Sciences at Godavari Institute of Engineering and Technology, Rajamathendravaram, Andhra Pradesh, India. | National | 18-22 May 2020 |
| 50. | 2020 | Dr. Kamla Malik | Workshop on "Awareness and use of e-resources through remote login for faculty and students of CCS Haryana Agricultural University" at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 23 June 2020 |
| 51. | 2020 | Dr. Kamla Malik | Webinar on "Women in bioenergy sciences-promoting the | National | 26 June 2020 |

| | | | | | |
|---|---|---|---|---|---|
| | | | bioeconomy in the post-COVID era" organized by Department of Biotechnology at New Delhi, India. | | |
| 52. | 2020 | Dr. Kamla Malik | Refresher Course on "Extension management" at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 11-31 December 2020 |
| 53. | 2020 | Dr. Kamla Malik | Training on "Virtual biogas training tour" organized by Indian Biogas Association at New Delhi, India. | National | 07-08 October 2020 |
| 54. | 2020 | Dr. Shikha Mehta | Webinar on "Emerging trends in physics and its applications in agriculture" organized by Department of Physics, College of Basic Sciences and Humanities at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 29 June 2020 |
| 55. | 2020 | Dr. Anuj Rana | Refresher Course on "Statistical tools and techniques" at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 08-28 July 2020 |
| 56. | 2020 | Dr. Anuj Rana | Induction training on "Teaching-learning pedagogy" at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 08 September - 10 October 2020 |
| 57. | 2020 | Dr. Anuj Rana | Twelve days International Indo-US-Afghanistan CAAI workshop on "Capacity development for agricultural innovation systems: agricultural research and climate-smart agriculture approaches" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 07- 18 March 2020 |
| 58. | 2020 | Dr. Anuj Rana | Online Indo-US Afghanistan International workshop on "Development of essential research capabilities: design, implement and perform analysis in applied research" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 23-29 March 2020 |
| 59. | 2020 | Dr. Anuj Rana | Online Indo-US Afghanistan International Workshop on "Integrated pest management" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 14 15 and 22 September 2020 |
| 60. | 2020 | Dr. Anuj Rana | International Workshop on "Climate change" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 16 23 30 July and 6 August 2020 |
| 61. | 2020 | Dr. Ajay Kumar | Workshop on "Digital library for strengthening agricultural knowledge in NARES" organized by Nehru Library, CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 12 February 2020 |
| 62. | 2020 | Dr. Ajay Kumar | Induction training conducted by the Academy of Agricultural | National | 08 September - 08 October |

| | | | | | |
|---|---|---|---|---|---|
| | | | Research and Education Management, Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. | | 2020 |
| 63. | 2020 | Dr. Ajay Kumar | International Webinar on "COVID-19 infection: origin and transmission" on August 15, 2020 organized by Association of Microbiologists of India, Hisar, Haryana, India. | International | 15 August 2020 |
| 64. | 2021 | Dr. Baljeet Singh Saharan | Conference on "Sustaining pulse production for self-sufficiency and nutritional security" organized by Indian Society of Pulses Research and Development and ICAR-Indian institute of pulses research, Kanpur in collaboration with Indian Council of Agricultural Research, New Delhi. | National | 09-11 February 2021 |
| 65. | 2021 | Dr. Baljeet Singh Saharan | Webinar on "Nano Biosensors: applications in healthcare diagnostics" organized by Department of Biotechnology, School of Basic and Applied Sciences. | National | 05 June 2021 |
| 66. | 2021 | Dr. Ajay Kumar | Conference on "Microbial world: recent developments in health, agriculture and environmental sciences" organized by The Energy and Resources Institute (TERI), University of Delhi (DU), Indian Agricultural Research Institute (IARI) and Indian National Science Academy (INSA). | International | 03-05 February 2021 |
| 67. | 2021 | Dr. Baljeet Singh Saharan | "National conclave on natural farming" at Anand Agricultural University, Anand, Gujarat, India. | National | 14-16 December 2021 |
| 68. | 2021 | Dr. Kamla Malik | Conference on "Microbial world: recent developments in health, agriculture and environmental sciences" organized by The Energy and Resources Institute (TERI), University of Delhi (DU), Indian Agricultural Research Institute (IARI) and Indian National Science Academy (INSA). | International | 03-05 February 2021 |
| 69. | 2021 | Dr. Anuj Rana | Webinar on "Deep learning for detection and management of plant disease" in collaboration with Jagannath university, Bhadurgarh, India and CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 08-12 March 2021 |
| 70. | 2021 | Dr. Anuj Rana | Indo-US Afghanistan International workshop on "Training on agribusiness | International | 05-06 April 2021 |

| | | | | | |
|---|---|---|---|---|---|
| | | | experiential learning" at CCS Haryana Agricultural University, Hisar, Haryana, India. | | |
| 71. | 2021 | Dr. Anuj Rana | Indo-US Afghanistan International workshop on "Basic and advance laboratory/farm technologies in agriculture" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 28-30 June 2021 |
| 72. | 2021 | Dr. Anuj Rana | International Webinar in the celebration of 'Azadi ka Amrit Mahotsava' on "What can the microbiome tell us about the conditions in agricultural soil" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 29 September 2021 |
| 73. | 2021 | Dr. Meena Sindhu | Conference on "Microbial world: recent developments in health, agriculture and environmental sciences" organized by The Energy and Resources Institute (TERI), University of Delhi (DU), Indian Agricultural Research Institute (IARI) and Indian National Science Academy (INSA). | International | 03-05 February 2021 |
| 74. | 2021 | Dr. Meena Sindhu | Refresher Course on "Research management" organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 08-28 April 2021 |
| 75. | 2021 | Dr. Monika Kayasth | Conference on "Microbial world: recent developments in health, agriculture and environmental sciences" organized by The Energy and Resources Institute (TERI), University of Delhi (DU), Indian Agricultural Research Institute (IARI) and Indian National Science Academy (INSA). | International | 03-05 February 2021 |
| 76. | 2021 | Dr. Monika Kayasth | Refresher Course on "Research management" organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 08-28 April 2021 |
| 77. | 2021 | Dr. Monika Kayasth | Conference on "Advanced developments in chemistry and allied sciences-2021" organized by the Department of Chemistry at Deenbandhu Chhotu Ram University of Science and Technology, Murthal, Sonipat, | International | 16-17 December 2021 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Haryana, India. | | |
| 78. | 2021 | Dr. Poonam Ranga | Conference on "Microbial world: recent developments in health, agriculture and environmental sciences" organized by The Energy and Resources Institute (TERI), University of Delhi (DU), Indian Agricultural Research Institute (IARI) and Indian National Science Academy (INSA). | International | 03-05 February 2021 |
| 79. | 2021 | Dr. Shikha Mehta | Conference on "Microbial world: recent developments in health, agriculture and environmental sciences" organized by The Energy and Resources Institute (TERI), University of Delhi (DU), Indian Agricultural Research Institute (IARI) and Indian National Science Academy (INSA). | International | 03-05 February 2021 |
| 80. | 2021 | Dr. Shikha Mehta | Conference on "Advanced developments in chemistry and allied sciences" organized by the Department of Chemistry at DeenbandhuChhotu Ram University of Science and Technology, Murthal, Sonipat, Haryana, India. | International | 16-17 December 2021 |
| 81. | 2021 | Dr. Shikha Mehta | Refresher course on "Applications of statistical and econometric techniques in agriculture" organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management in collaboration with Department of Agricultural Economics at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 24 November - 14 December 2021 |
| 82. | 2021 | Mr. Jagdish Parshad | Refresher Course on "Research management" organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 08-28 April 2021 |
| 83. | 2021 | Mr. Jagdish Parshad | Training Course on "Opportunities in agriculture, animal husbandry and allied sectors for sustainable entrepreneurship and livelihood security" jointly organized by Centre for Agribusiness Incubation and Entrepreneurship, RVSKVV, Gwalior (Madha Pradesh), NABARD and AEDS, Majhra Ghat, Rampur, U.P., | National | 01-21 July 2021 |

| | | | | | |
|---|---|---|---|---|---|
| | | | India. | | |
| 84. | 2021 | Mr. Jagdish Parshad | Webinar on "Improving quality of agricultural research in India" on June 30, 2021 organized by Research Academy. | National | 30 June 2021 |
| 85. | 2021 | Mr. Jagdish Parshad | Workshop on "Modern techniques of antibody production" organized by Department of Veterinary Microbiology, Lala Lajpat Rai University of Veterinary and Animal Sciences, Hisar, Haryana, India. | National | 25-26 March 2021 |
| 86. | 2022 | Dr. Leela wati | Symposium on "Paradigm shift in cotton cultivation" at Maharana Pratap University of Agriculture and Technology, Udaipur, Rajasthan, India. | National | 09-10 August 2022 |
| 87. | 2022 | Dr. Baljeet Singh Saharan | International Workshop on "Progress in adoption of sustainable agriculture in India: barriers and opportunities" organized by National Institute Of Technology (NIT) Karnataka, Surathkal and Scheme for Promotion of Academic and Research Collaboration (Ministry of Education, GOI) | International | 25–29 April 2022 |
| 88. | 2022 | Dr. Baljeet Singh Saharan | Workshop on "Panel discussion on production technology of kharif pulses and finalization of impact points" at Saina Nehwal Institute of Agricultural Technology, Training and Education, CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 12 July 2022 |
| 89. | 2022 | Dr. Baljeet Singh Saharan | Joint Meeting of the Committee and Vice Chancellors of the State Agricultural Universities of Gujarat regarding "Finalisation of course curriculum on natural farming" at Raj Bhavan, Gandhinagar, Gujarat, India. | National | 22 July 2022 |
| 90. | 2022 | Dr. Baljeet Singh Saharan | Training on "Pest surveillance" at National Institute of Plant Health Management, Department of Agriculture, Cooperation and farmers welfare, Ministry of Agriculture and farmers welfare, Govt of India, Rajendranagar, Hyderabad, India. | National | 22-26 August 2022 |
| 91. | 2022 | Dr. Baljeet Singh Saharan | National Webinar on "Quit India movement to food secured India" organized by Maharana Pratap University of Agriculture and Technology, Udaipur, Rajasthan, India. | National | 08 August 2022 |
| 92. | 2022 | Dr. Baljeet Singh Saharan | Webinar on "Natural farming in horticulture crops" at Horticulture Training Institute (HTI), Karnal, | National | 15 June 2022 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Haryana, India. | | |
| 93. | 2022 | Dr. Baljeet Singh Saharan | Training on "Natural farming" at Natural Farming Training Institute (NFTI), Gurukul, Kurukshetra, Haryana, India. | National | 05-16 December 2022 |
| 94. | 2022 | Dr. Baljeet Singh Saharan | Training on "Natural farming to master trainers of Gujarat state" at Gujarat University of Natural Farming and Organic Agriculture, Halol, Gujarat, India. | National | 22-24 November 2022 |
| 95. | 2022 | Dr. Kamla Malik | Training on "International pedagogy" at Texas, A and M University, College Station, Texas, USA. | International | 15 November 2021- 14 February 2022 |
| 96. | 2022 | Dr. Kamla Malik | Refresher course on "Statistical methods and data analysis" organized by Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 30 July - 19 August 2022 |
| 97. | 2022 | Dr. Kamla Malik | Conference on "Water, agriculture, dairy and food processing for sustainable economy" organized by University Corporated Resource Centre at Eternal University, Baru Sahib, Himachal Pardesh, India. | International | 25-26 March 2022 |
| 98. | 2022 | Dr. Anuj Rana | Webinar in the celebration of 'Azadi ka Amrit Mahotsava' on "Antibiotic resistance in agro environments: epidemiology and microbial ecology" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 24 May 2022 |
| 99. | 2022 | Dr. Anuj Rana | International Training and Webinar on "Reducing carbon emissions- simple solutions to complex problems- climate change" on June 03, 2022 at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 03 June 2022 |
| 100. | 2022 | Dr. Anuj Rana | Training and Webinar in the celebration of 'Azadi ka Amrit Mahotsava' on "Your future after undergraduate or postgraduate degree" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 09 September 2022 |
| 101. | 2022 | Dr. Meena Sindhu | Conference on "Water, agriculture, dairy and food processing for sustainable economy" organized by University Corporated Resource Centre at Eternal University Baru Sahib, Himachal Pardesh, India. | International | 25-26 March 2022 |
| 102. | 2022 | Dr. Monika Kayasth | Conference on "Emerging materials for sustainable development" jointly organized by Council of Scientific and Industrial Research - Central | International | 09-11 October 2022 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Scientific Instruments Organisation at Chandigarh, India. | | |
| 103. | 2022 | Dr. Poonam Ranga | Conference on "Water, agriculture, dairy and food processing for sustainable economy" organized by University Corporated Resource Centre at Eternal University Baru Sahib, Himachal Pardesh, India. | International | 25-26 March 2022 |
| 104. | 2022 | Dr. Shikha Mehta | Conference on "Emerging Materials For Sustainable Development" jointly organized by Council of Scientific and Industrial Research - Central Scientific Instruments Organisation at Chandigarh, India. | International | 09-11 October 2022 |
| 105. | 2022 | Mr. Jagdish Parshad | "World bio-sciences congress" organized by Indian Society of Genetics, Biotechnology Research and Development and Hindustan College of Science and Technology, at Farah, Agra, Uttar Pradesh, India. | National | 14-17 April 2022 |
| 106. | 2022 | Dr. Ajay Kumar | Workshop on "Yoga for physical and mental wellbeing" organized by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 16 June 2022 |

## G) Molecular Biology and Biotechnology

| Sl. No. | Year | Name of Faculty | Name of Seminars/ Symposia/ Workshops/ Training / Consultancy visits / Special assignments etc | National/ International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2019 | Dr. Nita Lakra | "Golden jubilee International Conference on new millenia agriculture- novel trends and future scenario" CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08 November 2019 |
| 2. | 2019 | Dr. Nita Lakra | CAFT Training on "Next generation sequencing and its application to crop science" by NRCPB at New Delhi, India. | National | 03 September 2019 |
| 3. | 2019 | Dr. Nita Lakra | "Plant molevulat biology" at Amsterdam, Netherlands. | International | 23-25 October 2019 |
| 4. | 2021 | Dr. Nita Lakra | Training Course at Noida Institute of Engineering and Technology, Noida sponsored by DBT, New Delhi, India. | National | 06-20 April 2021 |
| 5. | 2022 | Dr. Shikha Yashveer | Refresher course on "Statistical methods and data analysis" organized by Directorate of | National | 30 July - 19 August 2022 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Human Resource Management at CCS Haryana Agricultural University, Hisar, Haryana, India. | | |
| 6. | 2022 | Dr. Nita Lakra | Conference cum-Workshop on "Physiological and molecular mechanisms of abiotic stress tolerance in plants and physiological and molecular markers of abiotic stresses in plants" at Department of Botany, University of Calicut, Kerala, India. | International | 26 October - 04 November 2022 |

## H) Physics

| Sl. No. | Year | Name of Faculty | Name of Seminars/ Symposia/ Workshops/ Training / Consultancy visits / Special assignments etc | National/ International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. Rita Dahiya | Annual Convention of Indian Society of Soil Science and National Seminar on "Developments in soil science" at Anand Agricultural University, Anand, Gujarat, India. | National | 27-30 November 2018 |
| **2.** | 2019 | Dr. Rita Dahiya | "Golden jubilee International Conference on new millenia agriculture- novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08 November 2019 |
| **3.** | 2020 | Dr. Rita Dahiya | Webinar on "Drone remote sensing in agriculture" organized byIndian Society of Agro-Physics in association with Division of Agricultural Physics, Indian Council of Agricultural Research-Indian Agricultural Research Institute at New Delhi, India . | National | 09 September 2020 |

## I. Plant Physiology

| Sl. No. | Year | Name of Faculty | ame of Seminars/ Symposia/ Vorkshops/ Training / onsultancy visits / Special ssignments etc | National/ International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. Sarita Devi | Symposium on "Frontiers in sustainable agriculture" organized by Bio-Science Group at Bhabha Atomic Research Centre, Trombay, Mumbai, Maharashtra, India. | National | 26-28 April 2018 |
| 2. | 2018 | Dr. Anita Kumari | Workshop on "Application of thermodynamic prediction for development of microbial biotechnological approaches" organized by GIAN-MHRD, Govt. of India at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. | International | 12-21 November2018 |

| | | | | | |
|---|---|---|---|---|---|
| 3. | 2018 | Dr. Vinod Goyal | Training on "Advances in simulation modeling and climate change research towards knowledge based agriculture" at CESCRA, IARI,New Delhi, India. | National | 13 November - 03 December 2018 |
| 4. | 2018 | Dr. Vinod Goyal | "KRUSHIK–live demos and agri-expo" at Krishi Vigyan Kendra, Baramati and KF Bioplants for Tissue Culture facility, Pune, Maharashtra, India. | National | January 2018 |
| 5. | 2019 | Dr. Sarita Devi | Conference on "Climate changes towards health and agricultural sustainability" organized by Department of Environmental Science and Engineering at Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India. | International | 18-20 February 2019 |
| 6. | 2019 | Dr. Sarita Devi | Conference on new millenia agriculture- novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08 November 2019 |
| 7. | 2019 | Dr. Sarita Devi | International Congress on "Environmental research" at Kalady, Ernakulam, Kerala, India. | International | 19-21 December 2019 |
| 8. | 2019 | Dr Anita Kumari | Workshop on "Molecular mapping of economic traits using high-throughput technologies" organized by Department of Botany of Plant Physiology, College of Basic Sciences and Humanities at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 08 -17 July 2019 |
| 9. | 2019 | Dr Anita Kumari | Symposium on "Innopreneurship: a need of sustainable agriculture" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 02-03 February 2019 |
| 10. | 2019 | Dr. Sukham Madaan | Conference on "New millenia agriculture - novel trends and future scenario" at CCS Haryana Agricultural University, Hisar, Haryana, India. | International | 06-08 November 2019 |
| 11. | 2020 | Dr. Sarita Devi | Plant Physiology Virtual Conference on "Prospects of plant physiology for climate proofing agriculture" organized by Sher-e-Kashmir University of Agricultural Science and Technology, Jammu, India and Indian Society for Plant Physiology, New Delhi, India. | International | 06-07 December 2020 |
| 12. | 2020 | Dr. Sarita Devi | "Advances in fodder production, utilization and conservation for improving livestock health, productivity and environmental sustainability" organized by ICAR-Indian Grassland and | National | 20 August - 09 September 2020 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Fodder Research Institute Regional Research Station, Srinagar and National Agriculture Development Cooperative Ltd. Delina, Baramulla, India. | | |
| 13. | 2020 | Dr Anita Kumari | Plant Physiology Virtual Conference on "Prospects of plant physiology for climate proofing agriculture" organized by Sher-e-Kashmir University of Agricultural Science and Technology, Jammu, India and Indian Society for Plant Physiology, New Delhi, India. | International | 06-07 December 2020 |
| 14. | 2020 | Dr.Sukham Madaan | Webinar on "Molecular taxonomy and DNA barcoding: concepts, methods and applications" organized by Department of Botany at R.D. and S.H. National College and SWA Science college, Mumbai, Maharashtra, India. | National | 20 May 2020 |
| 15. | 2021 | Dr. Sarita Devi | Symposium on "Physiological interventions for climate smart agriculture" organized by Indian Society for Plant Physiology (ISPP), National Academy of Agricultural Sciences (NAAS), Coimbatore, Society for Sugarcane Research and Development. | International | 11-12 March 2021 |
| 16. | 2021 | Dr. Sarita Devi | "Applications of statistical and econometric techniques in agriculture" organized by Academy of Agricultural Research and Education Management, Directorate of Human Resource Management, CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 24 November -14 December 2021 |
| 17. | 2021 | Dr. Anita Kumari | Symposium on "Plant biotechnology towards improving agri-food industry and healthcare products" organized by Department of Bioengineering and Biotechnology at Birla Institute of Technology, Mesra, Ranchi, Jharkhand, India. | International | 27-30 October 2021 |
| 18. | 2021 | Dr. Anita Kumari | Refresher Course on "Education technology" conducted by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management, CCS Haryana Agricultural University, Hisar, Haryana, India. | National | 09-21 October 2021 |
| 19. | 2021 | Dr. Anita Kumari | Conference on "Advanced developments in chemistry and allied sciences", organised by Department of Chemistry, | International | 16-17 December 2021 |

| | | | | | |
|---|---|---|---|---|---|
| | | | DeenbandhuChhotu Ram University of Science and Technology, Murthal, Haryana, India. | | |
| 20. | 2021 | Dr. Sukham Madaan | Conference on "Advanced developments in chemistry and allied sciences", organized by Department of Chemistry, Deenbandhu Chhotu Ram University of Science and Technology, Murthal, Haryana, India. | International | 16-17 December 2021 |
| 21. | 2022 | Dr Anita Kumari | ISPP North Zonal Seminar on "Inter-disciplinary research strategies for climate resilient agriculture" at ICAR-Sugarcane Breeding Institute, Regional Centre, Karnal, Haryana, India. | National | 25 June 2022 |
| 22. | 2022 | Dr. Vinod Goyal | Conference on "Managing weather and climate risks in agriculture" at Srinagar, Jammu and Kashmir, India. | National | 24-26 March 2021 |
| 23. | 2022 | Dr Sarita Devi | ISPP North Zonal Seminar on "Inter-disciplinary research strategies for climate resilient agriculture" on June 25, 2022 at ICAR-Sugarcane Breeding Institute, Regional Centre, Karnal, Haryana, India. | National | 25 June 2022 |
| 24. | 2022 | Dr. Vinod Goyal | Conference on "Current issues in agricultural, biological and applied sciences for sustainable development" at Kalimpong Science Centre, Deolo, Kalimpong, Darjeeling, West Bengal, India. | International | 11-13 June 2022 |
| 25. | 2022 | Dr. Sukham Madaan | ISPP North Zonal Seminar on "Inter-disciplinary research strategies for climate resilient agriculture" on June 25, 2022 at ICAR-Sugarcane Breeding Institute, Regional Centre, Karnal, Haryana, India. | National | 25 June 2022 |
| 26. | 2022 | Dr. Sukham Madaan | National Symposium on "Paradigm shift in cotton cultivation" at Maharana Pratap University of Agriculture and Technology, Udaipur, Rajasthan, India. | National | 08-10 August 2022 |

## C) College of Home Sciences

IC College of Home Science consists of five departments and the seminar /symposia /workshop /training /attended by faculty members is as under.

| Sl. No | Department | International | National | Total Number |
|---|---|---|---|---|
| **1.** | Extension Education and Communication Management | 35 | 86 | 121 |
| **2.** | Department of Foods and Nutrition | 23 | 42 | 65 |

| | | | | |
|---|---|---|---|---|
| **3.** | Department of Human Development and Family Studies | 8 | 110 | 118 |
| **4.** | Department of Family Resource Management | 16 | 40 | 56 |
| **5.** | Department of Textile and Apparel Designing | 20 | 52 | 72 |
| 6. | Total | 102 | 330 | 432 |

## 1. Department of Extension Education and Communication Management

| Sr.No. | Year | Name of Faculty | Name of seminar /symposia /workshop /training /consultancy visits/special assignments etc | National /International | Date |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. Vandana Verma | ICAR sponsored CAFT course on Extension Led nutritional security organised by Division of Agricultural Extension, ICAR IARI New Delhi . (21 days) | National | 04-24 September 2018 |
| 2. | 2019 | Dr. Rajesh Dahiya | International Symposium on Innopreneurship : A Need of Sustainable Agriculture organized by CCSHAU, Hisar | International | 2-3 February 2019 |
| 3. | 2019 | Dr. Poonam Kundu | International Symposium on Innopreneurship : A Need of Sustainable Agriculture organized by CCSHAU, Hisar | International | 2-3 February 2019 |
| 4. | 2019 | Dr. Vandana Verma | International Symposium on Innopreneurship : A Need of Sustainable Agriculture organized by CCSHAU, Hisar | International | 2-3 February 2019 |
| 5. | 2019 | Dr Ella rani | International Symposium on Innopreneurship : A Need of Sustainable Agriculture organized by CCSHAU, Hisar | International | 2-3 February 2019 |
| 6. | 2019 | Dr Manju Dahiya | International Symposium on Innopreneurship : A Need of Sustainable Agriculture organized by CCSHAU, Hisar | International | 2-3 February 2019 |
| 7. | 2019 | Dr. Kanta Sabharwal | XXIII Biennial Workshop of All India Coordinated Research Project on Home Science at Maharana Pratap University of Agriculture and Technology, Udaipur | National | 15-16 February 2019 |
| 8. | 2019 | Dr. Beena Yadav<br>Dr. Ella Rani | Seminar on Innovative Strategies for Gender Equality organized by I.C. College of Home Science, CCSHAU, Hisar, Haryana. | National | 8 March 2019 |
| 9. | 2019 | Dr. Rajesh Dahiya | Seminar on Innovative Strategies for Gender Equality organized by I.C. College of Home Science, CCSHAU, Hisar, Haryana. | National | 8 March 2019 |
| 10. | 2019 | Dr. Sushma Kaushik | Seminar on Innovative Strategies for Gender Equality organized by I.C. College of Home Science, CCSHAU, Hisar, Haryana. | National | 8 March 2019 |

| | | | | | |
|---|---|---|---|---|---|
| 11. | 2019 | Dr. Vandana Verma | Seminar on Innovative Strategies for Gender Equality organized by I.C. College of Home Science, CCSHAU, Hisar, Haryana. | National | 8 March 2019 |
| 12. | 2019 | Dr. Poonam Kundu | Seminar on Innovative Strategies for Gender Equality organized by I.C. College of Home Science, CCSHAU, Hisar, Haryana. | National | 8 March 2019 |
| 13. | 2019 | Dr. Beena Yadav | International Conference on Emerging Paradigms in Social Science Research organized by Faculty of Social Sciences, Bhagat Phool Singh, Mahila Vishwavidyalaya, Khanpur Kalan, Sonipat | International | 25-26 March 2019 |
| 14. | 2019 | Dr. Rajesh Dahiya | International Conference on Emerging Paradigms in Social Science Research organized by Faculty of Social Sciences, Bhagat Phool Singh, Mahila Vishwavidyalaya, Khanpur Kalan, Sonipat | International | 25-26 March 2019 |
| 15. | 2019 | Dr. Poonam Kundu | International Conference on Emerging Paradigms in Social Science Research organized by Faculty of Social Sciences, Bhagat Phool Singh, Mahila Vishwavidyalaya, Khanpur Kalan, Sonipat | International | 25-26 March 2019 |
| 16. | 2019 | Dr. Rajesh Dahiya | National Conference on Recent Trends in the field of Environmental Science and Engineering organized by Department Environmental Science and Engineering, GJUS&T, Hisar | National | 20-21 September 2019 |
| 17. | 2019 | Dr. Seema Rani | 25th Edition of DST-CII Technology Summit at Hotel JW Marriott, New Delhi, | National | 13-16 October 2019 |
| 18. | 2019 | Dr. Rajesh Dahiya | Golden Jubilee International Conference on New Millennia Agriculture: Novel Trend and Future Scenario. Organized by CCSHAU , | International | 6-8 November 2019 |
| 19. | 2019 | Dr. Vandana Verma | | International | 6-8 November 2019 |
| 20. | 2019 | Dr. Poonam Kundu | | International | 6-8 November 2019 |
| 21. | 2019 | Dr. Beena Yadav | ISEE National Seminar for Socio Digital Approaches for Transforming Agriculture organized by ISEE, CCSHAU and Banda Univ, UP at CCSHAU , . | National | 20-22 November 2019 |
| 22. | 2019 | Dr. Vandana Verma | | National | 20-22 November |

| | | | | | |
|---|---|---|---|---|---|
| | | | | | 2019 |
| 23. | 2019 | Dr. Poonam Kundu | | National | 20-22 November 2019 |
| 24. | 2020 | Dr. Poonam Kundu | National Incubators Colloquium held at ABIC, CCSHAU, Hisar | National | 15-16 January 2020 |
| 25. | 2020 | Dr. Vandana Verma | International conference advances and innovations in agriculture and alluies sciences (AIAAS-2020) organized by Jawahar lal Nehru university convention centre, New Delhi held on | International | 31 January- 1 February 2020 |
| 26. | 2020 | Dr. Vandana Verma | National Webinar on" Gender Sensitization: Need of the hour"" organized by Institute of Home Science & IQAC, Dr. Bhimrao Ambedkar University, Agra held on | National | 26 May 2020 |
| 27. | 2020 | Dr. Ella Rani | Webinar and discussion series Migration, Displacement, and De-urbanization in the Context of COVID-19 organised by Land Portal Foundation,Netherlands, | International | 28 May 2020 |
| 28. | 2020 | Dr. Manju Dahiya | National Webinar on Deconstructing the Gender Binary organized by Govt.College for Women, Hisar ,. | National | 30 May 2020 |
| 29. | 2020 | Dr. Vandana Verma | Online workshop on Effective Strategies of Managing Stress: Handling Self, Family and Nation organized by IDP-NAHEP GBPUAT, Pantnagar on | National | 31 May 2020 |
| 30. | 2020 | Dr. Ella Rani | | National | 31 May 2020 |
| 31. | 2020 | Dr. S.Kaushik* | National Webinar on "Community Science: Linkages and Way Forward" organized by Department of EECM, College of Community and Applied Sciences, MPUAT, Udaipur (Rajasthan) | National | 3 June 2020 |
| 32. | 2020 | Dr. Vandana Verma | | National | 3 June 2020 |
| 33. | 2020 | Dr. Ella Rani | | National | 3 June 2020 |
| 34. | 2020 | Dr. Vandana Verma | National Webinar on Nutrition security challenges and importance of nutrition to boost the immune system during COVID-19 pandemic organized by Department of Food Nutrition and Public Health, Ethelind College of Home Science, Sam HigginBottom University of Agriculture, Technology & Sciences, Prayagraj U.P. India | National | 5 June 2020 |
| 35. | 2020 | Dr. Ella Rani | | National | 5 June 2020 |
| 36. | 2020 | Dr. Vandana Verma, | National Webinar on "Role of ICT in Agriculture and Extension in Present Scenario of Covid-19" organized by Department of Extension Education and Communication Management, | National | 11-12 June 2020 |
| 37. | 2020 | Dr. Ella Rani | | National | 11-12 June 2020 |

| | | | | | |
|---|---|---|---|---|---|
| | | | College of Community and Applied Sciences, MPUAT, Udaipur under IDP-NAHEP. | | |
| 38. | 2020 | Dr. Seema Rani | National Webinar on "Post COVID-19 Agribusiness: Challenges and Opportunities organized by the Junagadh Agricultural University, Junagadh ,. | National | 13-14 June 2020 |
| 39. | 2020 | Dr. Vandana Verma | Two days International Webinar on Capacity Building to Cope with Unprecedented Conditions at Work Place Organized by Department of Mechanical Engineering, College of Technology & Engineering, MPUAT, Udaipur under TEQIP-III project | International | 15-16 June 2020 |
| 40. | 2020 | Dr. Ella Rani | | International | 15-16 June 2020 |
| 41. | 2020 | Dr. Vandana Verma | International Webinar on Critical Thinking and Future of Learning..Organised by Faculty of education Teerthanker Mahaveer University Moradabad. | National | 18 June 2020 |
| 42. | 2020 | Dr. Vandana Verma | Future of Indian Media. Organized by Department of Communication, Bangalore University, Bangalore. | National | 22 to 27 June 2020 |
| 43. | 2020 | Dr. Vandana Verma | Massive Open Online Course (MOOC) on "Designing E-learning Content" organized by ICAR NAARM, Hyderabad | National | 01-31 July 2020 |
| 44. | 2020 | Dr. Poonam Kundu | | National | 01-31 July 2020 |
| 45. | 2020 | Dr. Ella Rani | | National | 01-31 July 2020 |
| 46. | 2020 | Dr. Vandana Verma | International Webinar on "Strengthening the Immune System against COVID-19 through Agricultural Innovations' organized by Agricultural Research Station, SKNAU, Jobner Fatehpur - Shekhawati, Sikar, Rajasthan | International | 29 June 2020 |
| 47. | 2020 | Dr. Ella Rani | | International | 29 June 2020 |
| 48. | 2020 | Dr. Vandana Verma | Webinar on "Entrepreneurial Challenges & Opportunities Post Covid-19" organized by Faculty of Engg. & Computing Sciences,TMU Moradabad UP | National | 6 August 2020 |
| 49. | 2020 | Dr. Ella Rani | Webinar on "Popular Science Writing under AWSAR Programme organized by DST and Vigyan Prasar | National | 7 August 2020 |
| 50. | 2020 | Dr. Vandana Verma | Webinar on "Startup - A Stepping Stone to Attain Self Reliance and | National | 8 August 2020 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Sustainability in Agricultural Sciences" organized by ASPEE College of Home Sc & Nutrition, SDAU, Gujarat | | |
| 51. | 2020 | Dr. Ella Rani | Two weeks' online course on "Measuring of Entrepreneurial Impact" organized organized by Coventry University, UK | International | 8th August 13 September 2020 |
| 52. | 2020 | Dr. Ella Rani | International Webinar on "Entrepreneurship During COVID-19" organized by IILM Academy of Higher Learning Lucknow | International | 12 August 2020 |
| 53. | 2020 | Dr. Vandana Verma | MOOCs training program on "Gender Mainstreaming in Agriculture & Allied Sectors" organized by MANAGE, Hyderabad | National | 7-11 September 2020 |
| 54. | 2020 | Dr. Ella Rani | | National | 7-11 September 2020 |
| 55. | 2020 | Dr. Santosh Rani | National Webinar on "Women FPOs: An Effective Approach for Boosting Entrepreneurship. Empowerment and Self reliance (Atmanirbhar)" organized by MPUAT, Udaipur | National | 10 September 2020 |
| 56. | 2020 | Dr. Vandana Verma | International Webinar on COVID - 19 Biodiversity and Climate Change ; Indigenous people defining the path forward organized by Land Portal Foundation, Netherlands | International | 10 September 2020 |

| 24. | 2020 | Dr. Manju Mehta | Webinar on " Physical & Mental Fitness during COVID: Yoga & Exercises" Monday, organized by Department of Industrial and Production Engineering, Department of Industrial and Production Engineering. | National | 22nd June 2020 |
| 25. | 2020 | Dr. Manju Mehta | Zoom Webinar "Exploring eResources Through CCSHAU eLibrary" organised by Nehru Library Team. | National | 23 June 2020 |
| 26. | 2020 | Dr. Manju Mehta | National Webinar on "Event Management - Gaining a New Skill", Organized by PG deptt of Home Science Patna university | National | 27 June 2020 |
| 27. | 2020 | Dr. Manju Mehta | Webinar on "Computational Techniques and Applied Sciences" Organized by the Department of Mathematics and Statistics | National | 06-07 July 2020 |

| | | | | | |
|---|---|---|---|---|---|
| 28. | 2020 | Dr. Manju Mehta | International webinar on climate change/environment conservation speaker Yash Dang , university of Queensland Australia | International | 17 July 2020 |
| 29. | 2020 | Dr. Manju Mehta | Expert Consultation Webinar on "Role of Women in Environmental Sustainability" organized by NIOH Ahmedabad | National | 28 July 2020 |
| 30. | 2020 | Dr. Manju Mehta | Webinar on Work, Work Environment and Wellness - An Ergonomic Perspective" -Organized by CSC & RI, TNAU Madurai | National | 5 August 2020 |
| 31. | 2020 | Dr. Manju Mehta | Online training on 'Ergonomics methodologies for designing and assessing women friendly agriculture tools and technologies' organized by Department of Resources Management and Consumer Science, CCAS, MPUAT, Udaipur. | National | 17-21 August 2020 |
| 32. | 2020 | Dr. Manju Mehta | Webinar on Visual Ergonomics in Digital Era organized by College of Community Science, PJTSAU, Hyderabad , Telengana , | National | 10 September 2020 |
| 33. | 2020 | Dr. Kavita Dua | Online International Workshop on Skill Development Through Communication Skills" organized by Community College, Gujranwala Guru Nanak Khalsa College,Civil Lines, Ludhianaa. | International | 27 April to 1st May 2020 |
| 34. | 2020 | Dr. Promila Krishnan Chahal | Conference on Humanizing Work and Work Environment- HWWE 2020,Theem College of Engineering, Boisar, Mumbai. | International | 10 – 12 December 2020 |
| 35. | 2020 | Dr. Promila Krishnan Chahal | Conference On "Science & Technology: Rural Development" (ICSTRD-2020), MDU, Rohtak | International | 4-5 March 2020 |
| 36. | 2020 | Dr. Promila Krishnan Chahal | Conference on Humanizing Work and Work Environment- HWWE 2020 | International | 10 – 12 December 2020 |
| 37. | 2020 | Dr. Promila Krishnan Chahal | Workshop on digital library for strengthening agricultural knowledge in NARES organized by CCSHAU, Hisar | National | 12 February 20 |
| 38. | 2020 | Dr. Promila Krishnan Chahal | Webinar on Ergonomics and Psychological Issues in Working Home during COVID-19 Pandemic Organized by NIT, Jalandhar, Punjab | National | 17 May 2020 |
| 39. | 2021 | Dr. Manju Mehta | Webinar on Ergonomics applications for higher productivity, organised by Department of Industrial & Production Engineering Hyderabad Karnataka Education Society's | National | 24 – 26 March 2021 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Poojya Doddappa College of Engineering (Autonomous Institution Affiliated to VTU, Belagavi) Aiwan-e-Shahi Area - Kalaburagi – 585102 | | |
| 40. | 2021 | Dr. Manju Mehta | National Workshop on "Air Pollution & Health Hazards (APHH-2021)", organized under National Clean Air Programme, Government of India. Organized by NIT Jalandahar. | National | 31 March 2021 |
| 41. | 2021 | Dr. Manju Mehta | International Training Series on "Healthy Workplace Initiative # Ergonomics" Organized by Directorate of Research & All India Coordinated Research Project on Home Science, College of Community and Applied Sciences, Maharana Pratap University of Agriculture and Technology, Udaipur. | International | 21-28 June & 5 July 2021 |
| 42. | 2021 | Dr. Kavita Dua | Online Training on " Communication Skills and Technical Writing" organized by Directorate of Human resource management | National | 3 to 23 February 2021 |
| 43. | 2021 | Dr. Promila Krishnan Chahal | Conference in Hybrid Mode on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2021), Meerut. | International | 13-15 December 2021 |
| 44. | 2021 | Dr. Promila Krishnan Chahal | Conference on "Global Initiative in Agricultural, Forestry and Applied Sciences for Food Security, Environmental Safety and Sustainable Development (GIAFAS-2021)" | International | 17-18 December 2021 |
| 45. | 2021 | Dr. Promila Krishnan Chahal | Conference in Hybrid Mode on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2021), Meerut | International | 13-15 December 2021 |
| 46. | 2021 | Dr. Promila Krishnan Chahal | Webinar on "Partnering Women in Value Chain Development :A Promising Way for Creating Sustained Livelihood and Agripreneurship" , organized by ICAR-CIWA, Bhubaneswar | National | 17 March 2021 |
| 47. | 2021 | Dr. Promila Krishnan Chahal | National Workshop Under National Clean Air Programme (NCAP), GOI An Action Plan for Jalandhar Air Pollution And Health Hazards (APHH-2021), | National | 31st March 2021 |
| 48. | 2021 | Dr. Promila Krishnan Chahal | National Webinar on Ergonomics Applications For Higher Productivity, organized by Industrial & Production Engineering | National | 24 – 26 March 2021 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Department, P.D.A.College of Engineering, GULBARGA-585102, Karnataka State, INDIA | | |
| 49. | 2022 | Dr. Promila Krishnan Chahal | Conference on Innovation in Science, Engineering & Technology, Arya PG College Panipat. Pp.9-10 | National | 19 February 2022 |
| 50. | 2022 | Dr. Promila Krishnan Chahal | Conference on "Mathematical Sciences for Applied and Agricultural Research, organized by Department of Mathematics and Statistics, CCSHAU, Hisar | National | 22nd Feb 2022 |
| 51. | 2022 | Dr. Promila Krishnan Chahal | Conference on Humanizing Work and Work Environment- HWWE 2022, , Punjabi University, Patiala, Punjab. | International | 24 – 26 November 2022 |
| 52. | 2022 | Dr. Promila Krishnan Chahal | IEOM India Conference. Organized at Warangal, Telangana, India | National | 16-18 August 2022 |
| 53. | 2022 | Dr. Promila Krishnan Chahal | Conference Humanizing Work and Work Environment Organized by Punjabi University, Patiala | International | 24-26 November 2022 |
| 54. | 2022 | Dr. Promila Krishnan Chahal | National Seminar on Impact of Digitalization on Women, OrganiZed by Govt. PG College for Women, Rohtak held | National | 22 January 2022 |
| 55. | 2022 | Dr. Promila Krishnan Chahal | Conference on Innovation in Science, engineering and Technology, organized by Arya PG College, Panipat | National | 19 Feb 2022 |
| 56. | 2022 | Dr. Promila Krishnan Chahal | National Conference on "Mathematical Sciences for Applied and Agricultural Research, organized by Department of Mathematics and Statistics, CCSHAU, Hisar | National | 22nd Feb 2022 |

## 5. Department of Textile and Apparel Designing

| Sr. No. | Year | Name of Faculty | Name of seminar /symposia /workshop /training /consultancy visits/special assignments etc | National /International | Date |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. Saroj Yadav | Start-up summit organized by CCSHAU, Hisar | National | 1-2 June 2018 |
| 2. | 2018 | Dr. Neelam M. Rose | BSMA Community Science Stakeholders Workshop, NAARM, Hyderabad | National | 3-4 October 2018 |
| 3. | 2018 | Dr. Saroj Yadav | Refresher Course on Research Methodology | National | 15 Nov - 5 Dec 2018 |
| 4. | 2019 | Dr. Nisha Arya | Symposium on Innopreneurship: A Need of Sustainable Agriculture | International | 2-3 February 2019 |
| 5. | 2019 | Dr. Saroj Yadav | | International | 2-3 February |

| | | | | | |
|---|---|---|---|---|---|
| | | | | | 2019 |
| 6. | 2019 | Dr. Parul | Conference on Innovations in Chemical, Biological & Environmental Sciences, Arya PG College, Panipat, Haryana | International | 27-28 February 2019 |
| 7. | 2019 | Dr. Saroj Yadav | Biennial Workshop of All India Coordinated Research Project in Home Science at MPUA&T | National | 15-16 February 2019 |
| 8. | 2019 | Dr. N. Yada | Seminar on Innovative Strategies for Gender Equality Organized by I.C. College of Home Science | National | 8 March 2019 |
| 9. | 2019 | Dr. N. Rose | | National | 8 March 2019 |
| 10. | 2019 | Dr. Nisha Arya | | National | 8 March 2019 |
| 11. | 2019 | Dr. Saroj Yadav | | National | 8 March 2019 |
| 12. | 2019 | Dr. Parul | | National | 8 March 2019 |
| 13. | 2019 | Dr. Lalita Rani | | National | 8 March 2019 |
| 14. | 2019 | Dr. Neelam M. Rose | Training on 'Basic Research Tools in Textile Chemistry', Textile Manufacture and textile Chemistry Division, ICAR- Central Sheep and Wool research Institute, Avikanagar, Rajasthan | National | 13-24 August 2019 |
| 15. | 2019 | Dr. Neelam M. Rose | Golden Jubilee International Conference on 'New Millennia Agriculture Novel Trends & Future Scenario', at CCSHAU, Hisar | International | 6-8 November 2019 |
| 16. | 2019 | Dr. Nisha Arya | | International | 6-8 November 2019 |
| 17. | 2019 | Dr. Saroj Yadav | | International | 6-8 November 2019 |
| 18. | 2019 | Dr. Parul Gill | | International | 6-8 November 2019 |
| 19. | 2019 | Dr. Mona Verma | | International | 6-8 November 2019 |
| 20. | 2019 | Dr. Parul, | Induction Training Course, DHRM, CCSHAU, Hisar | National | 18 November –17 December 2019 |
| 21. | 2019 | Dr. Mona Verma | | National | 18 November –17 December 2019 |

| | | | | | |
|---|---|---|---|---|---|
| 22. | 2020 | Dr. Neelam M. Rose | National Incubators Colloquium, Agribusiness Incubation Centre, CCSHAU, Hisar | National | 15-16 January 2020 |
| 23. | 2020 | Dr. Saroj Yadav | | National | 15-16 January 2020 |
| 24. | 2020 | Dr. Mona Verma | | National | 15-16 January 2020 |
| 25. | 2020 | Dr. Neelam M. Rose | Webinar Series on 'Post COVID-19: Challenge and Opportunities', Faculty of Family and Community Sciences, MSU of Baroda, Vadodara | National | 21-23 May 2020 |
| 26. | 2020 | Dr. Saroj Yadav | | National | 21-23 May 2020 |
| 27. | 2020 | Dr. Mona Verma | | National | 21-23 May 2020 |
| 28. | 2020 | Dr. Lalita Rani | Webinar on 'Community Science-Linkages and Way Forward', College of Community and Applied Sciences, MPUAT, Udaipur, Rajasthan | National | 3 June 2020 |
| 29. | 2020 | Dr. Lalita Rani | NAHEP Webinar on 'Project Formulation and Funding Opportunities for Young Researchers', Directorate of Research, CCSHAU Hisar | National | 16 June 2020 |
| 30. | 2020 | Dr. Saroj Yadav | Webinar on 'Enhanced Employability for Home Scientists in Current Scenario', Department of Home Science, RashtrasantTukadoji Maharaj University, Nagpur | National | 22-23 June 2020 |
| 31. | 2020 | Dr. Nisha Arya | Faculty Development Programme on 'Managing Online Classes and Co-Creating MOOCS', Ministry of Human Resource Development, Govt. of India | National | 20 April - 6 May 2020 |
| 32. | 2020 | Dr. Nisha Arya | Refresher Course on 'Language Skills', DHRM, CCSHAU, Hisar | National | 27 May - 16 June 2020 |
| 33. | 2020 | Dr. Saroj Yadav | | National | 27 May - 16 June 2020 |
| 34. | 2020 | Dr. Parul | Refresher Course on Statistical Tools and Techniques for Analysis of Agricultural Data, Directorate of HRM, CCSHAU, Hisar | National | 8- 28 July 2020 |
| 35. | 2020 | Dr. Lalita Rani | | National | 8- 28 July 2020 |
| 36. | 2020 | Dr. Saroj Yadav | Brainstorming Workshop to Develop a Framework for Propelling ICAR-CIWA as Global Institute for Women in Agriculture, ICAR-CIWA, Bhubaneswar | National | 31 July 2020 |
| 37. | 2020 | Dr. Nisha Arya | E-Conference on Recent Trends in | International | 18-19 |

| | | | | | |
|---|---|---|---|---|---|
| | | | Textiles – A Paradigm for Innovative and Sustainable Fibres, Yarns, Fabrics & Garments Production, Processing & Designing Aspects, Technological Institute of Textile and Sciences, Bhiwani | | September 2020 |
| 38. | 2020 | Dr. Parul Gill | | International | 18-19 September 2020 |
| 39. | 2020 | Dr. Lalita Rani | | International | 18-19 September 2020 |
| 40. | 2020 | Dr. Neelam M. Rose | Webinar on Role of Women in Agriculture, COHS, CCSHAU, Hisar | National | 4 December 2020 |
| 41. | 2020 | Dr. Saroj Yadav | | National | 4 December 2020 |
| 42. | 2020 | Dr. Nisha Arya | iDEA Investors Meet 2020 (online), Agri Business Incubation Centre, CCSHAU, Hisar | National | 4 December 2020 |
| 43. | 2020 | Dr. Saroj Yadav | | National | 4 December 2020 |
| 44. | 2020 | Dr. Parul | Refresher Course on Statistical Tools and Techniques for Analysis of Agricultural Data, Directorate of HRM, CCSHAU, Hisar | National | 8 - 28 July 2020 |
| 45. | 2020 | Dr. Lalita Rani | | National | 8 - 28 July 2020 |
| 46. | 2020 | Dr. Saroj Yadav | Short term course on Textile Testing and Analytical Techniques in Textiles and Fashion, Dr. B. R. Ambedkar National Institute of Technology, Jalandhar, Punjab | National | 27 November - 1 December 2020 |
| 47. | 2020 | Dr. Saroj Yadav | Short term course on Characterization Techniques in Textiles and Polymers, Dr. B. R. Ambedkar National Institute of Technology, Jalandhar, Punjab | National | 15-19 December 2020 |
| 48. | 2021 | Dr. Mona Verma | Webinar on Characterization Techniques for Smart Materials, COBS&H, CCSHAU, Hisar | National | 15-16 January 2021 |
| 49. | 2021 | Dr. Mona Verma | Seminar on Empowering India through Regional Textile Crafts, L.N. Mithila University, Bihar | National | 30 January 2021 |
| 50. | 2021 | Neelam M. Rose | Webinar on Teachers Role in NEP Implementation, Awareness, Orientation, Challenges and Responses, NITI Aayog and CCSHAU, Hisar | National | 24 February 2021 |
| 51. | 2021 | Dr. Saroj Yadav | Conference on New Paradigms for Agriculture, Food and Sustainability Concerns, Agriculture Letters, Raichur, Karnataka | International | 26-28 February 2021 |
| 52. | 2021 | Dr. Mona Verma | | International | 26-28 February 2021 |

| | | | | | |
|---|---|---|---|---|---|
| 53. | 2021 | Dr. Nisha Arya | Conference on Research Initiatives for Agriculture, Biotechnology and Allied Sciences, SoAS, IIMT University, Meerut, U.P. | International | 24-25 April 2021 |
| 54. | 2021 | Dr. Mona Verma | Webinar on Principles of Design: The Crux of Family Well-being, College of Community and Applied Sciences, MPUA&T, Udaipur, Rajasthan | National | 15 May 2021 |
| 55. | 2021 | Dr. Nisha Arya | Webinar on Innovation in Comfort Textiles for Wearable Clothing, College of Community and Applied Science, MPUA&T, Udaipur, Rajasthan | National | 11 June 2021 |
| 56. | 2021 | Dr. Neelam M. Rose | Webinar on Processing and Value Addition in the Context of Accelerated Ratting of Jute organized by ICAR- National Institute of Natural Fiber Engineering and Technology, Kolkata. | National | 19 July 2021 |
| 57. | 2021 | Dr. Saroj Yadav | | National | 19 July 2021 |
| 58. | 2021 | Dr. Parul | Webinar on Sensitization on Intellectual Property Rights in Agricultural Research and Education. ICAR-CIWA, Bhubaneswar | National | 4 August 2021 |
| 59. | 2021 | Dr. Mona Verma | Accounts Training Programme. Directorate of Human Resource Management, CCSHAU, Hisar | National | 31 August - 04 September 2021 |
| 60. | 2021 | Dr. Parul | Promoting Women Agripreneurship through Crop-Livestock-Fisheries Technologies. ICAR-CIWA, Bhubaneswar and MANAGE, Hyderabad | National | 14-18 September 2021 |
| 61. | 2021 | Dr. Nisha Arya | Conference on Global Initiative in Agricultural, Forestry and Applied Sciences for Food Security, Environmental Safety and Sustainable Development. Shri Guru Ram Rai University, Dehradun, Uttarakhand. | International | 17 -18 October 2021 |
| 62. | 2021 | Dr. Mona Verma | | International | 17 -18 October 2021 |
| 63. | 2022 | Dr. Saroj Yadav | Webinar on 'Recent advances in apparel and textile industry' organized by Department of Apparel and Textile Technology, GNDU, Amritsar | National | 09 April 2022 |
| 64. | 2022 | Dr. Neelam M. Rose | Brainstorming Workshop on Amalgamation of Community Science Education with NEP-2020 organized by College of Community and Applied Sciences, MPUAT, Udaipur Rajasthan. | National | 21 April 2022 |

| | | | | | |
|---|---|---|---|---|---|
| 65. | 2022 | Dr. Neelam M. Rose | Webinar on Restructuring Community Science Curriculum in Context to NEP-2020 organized by the College of Community and Applied Sciences, MPUAT, Udaipur Rajasthan. | National | 22 April 2022 |
| 66. | 2022 | Dr. Parul | Webinar on Natural Farming for Sustainable Production, Nutrition and Health. ICAR-CIWA, Bhubaneswar | National | 23 April 2022 |
| 67. | 2023 | Dr. Neelam M. Rose | Conference on Climate Resilient Agriculture for Food Security and Sustainability, CCS Haryana Agricultural University, Hisar. | International | 17-19 February 2023 |
| 68. | 2023 | Dr. Saroj Yadav | | International | 17-19 February 2023 |
| 69. | 2023 | Dr. Nisha Arya | | International | 17-19 February 2023 |
| 70. | 2023 | Dr. Parul | | International | 17-19 February 2023 |
| 71. | 2023 | Dr. Suman Sodhi | | International | 17-19 February 2023 |
| 72. | 2023 | Dr. Mona Verma | Conference on Textile Recycling and Sustainable Apparel Design, SVITT, Indore, Madhya Pradesh | National | 3-4 March 2023 |

## D) College of Agricultural Engineering and Technology

The faculty of COAE&T attended 21 National and 12 International programmers under Seminars/ Conferences/Symposia/ Workshops / Refresher/ FDP/Training / Consultancy visits / Special assignments. The details are as below.

| Sl | Year | Name of Faculty | Name of Seminars/ Conferences/Symposia/ Workshops / Refresher/ FDP/Training / Consultancy visits / Special assignments with Venue etc. | National/ International | Date(s) |
|---|---|---|---|---|---|
| 1. | 2019 | Dr. Rajender Kumar | Symposium on "Engineering Technologies for precision & climate smart agriculture" at Varanasi | International | 28-30 Jan 2019 |
| 2. | 2018 | Dr Parvesh Antil | STC on modeling and simulation on MATLAB through ICT conducted by Mech EnggDeptt., NIEC, New Delhi. | National | 21-25 May 2018 |
| 3. | 2020 | Dr. Rajender Kumar | Conference on Medical Instrumentation, Biomaterials and Signal Processing (NCMBS-20) organized by DCRUST, Murthal | National | 26-27 Feb 2020 |
| 4. | 2020 | Dr Sandeep Bhardwaj | AICTE Training And Learning (ATAL) AcademyIndian Institute of Space Science and Technology, Department of Space, Government of India. | National | 02- 06 November 2020 |

| | | | | | |
|---|---|---|---|---|---|
| 5. | 2019 | Dr Parvesh Antil | Induction Training Course conducted by Academy of Agricultural Research and Education Management, Directorate of Human Resource Management at CCSHAU Hisar. | National | 7 June to 07 July 2019 |
| 6. | 2021 | Dr. Rajender Kumar | Technological Transformation and Preparedness in the Post COVID World TEQIP-III organized by DCRUST, Murthal | International | 22-23 March 2021 |
| 7. | 2020 | Dr. Rajender Kumar | One week training course on Development of Laboratory Instruction organized by National Institute of Technical Teachers' Training & Research (NITTTR), Kolkata. | National | 8-12 June 2020 |
| 8. | 2020 | Dr. Rajender Kumar | Training course on Implications & Realities of Industry 4.0 organized by SLIET, Longowal under TEQIPIII. | National | 21-25 Dec 2020 |
| 9. | 2020 | Dr Sandeep Bhardwaj | Faculty Development Programme on Innovations management Education Research at Delhi University. | National | 17-30 August 2020 |
| 10. | 2020 | Dr Sandeep Bhardwaj | International webinar on recent advances in Geotechnical Engg. research & practices. | International | 01- 10 July 2020 |
| 11. | 2020 | Dr Sandeep Bhardwaj | Online refresher course on Extension Management AAREM at CCSHAU, Hisar. | National | 11-31 December 2020 |
| 12. | 2020 | Dr Parvesh Antil | Refresher Course on Statistical Tools and Techniques for Analysis of Agricultural Data conducted by the Academy of Agricultural Research and Education Management, Directorate of Human Resource Management in Collaboration with Department of Mathematics & Statistics, CCSHAU, Hisar. | National | 08-28 July 2020 |
| 13. | 2020 | Dr. Sandeep Dhundhar | Conference on Integrated Interdisciplinary Innovations in Engineering (ICIIIE 2020) held at UIET, Panjab University, Chandigarh | International | 28-30 August 2020 |
| 14. | 2020 | Dr. Sandeep Dhundhara | Induction Training Course at Academy of Agricultural Research and Education Management, Directorate of Human Resource Management, CCSHAU, Hisar (Online Virtual Conference Platform) | National | 08 September to 08 Oct. 2020 |
| 15. | 2020 | Dr. Sandeep Dhundhara | Delivered expert lecture on the topic "*Overview of MATLAB Software and its applications*" in three days webinar on "Introduction to Matlab and its applications" Organized under Institutional Development Plan (IDP) of National Agricultural Higher Education Project at CCS Haryana Agricultural University, Hisar | National | 27-29 April 2020 |
| 16. | 2021 | Dr. Rajender Kumar | International Conference on Contemporary Advances in | International | 27-28 August |

| | | | | | |
|---|---|---|---|---|---|
| | | | Mechanical Engineering (ICCAME-2021), organized by the Department of mechanical Engineering, Chandigarh Engineering College, Landran Mohali, Punjab | | 2021 |
| 17. | 2021 | Dr. Rajender Kumar | Online Fcaulty Development Programme on Optimization Techniques for Engineering Applications organized by NIT, Warangal | International | 7-15th April 2021 |
| 18. | 2022 | Dr. Sandeep Bhardwaj | National Conference on Mathematical Sciences for Applied and Agricultural Sciences | National | 22nd February 2022 |
| 19. | 2021 | Dr. Sandeep Bhardwaj | Refresher course on Educational Technology, at CCSHAU. Hisar | National | 21 Sept-11 Oct. 2021 |
| 20. | 2021 | Dr Parvesh Antil | 55th Annual Convention of ISAE and International symposium on 'Emerging trends in Agricultural Engineering Education, Research and Extension' organized by ISAE and DRPCAU, Pusa, Samastipur, Bihar | International | 23-25 November 2021 |
| 21. | 2022 | Dr. Sandeep Dhundhara | Workshop on Solar pump-basedvillage microgrids-potential for tackling the energy/ water/ food nexus in Punjab, Organized by: University Institute of Engineering and Technology,Panjab University, Chandigarh and Birmingham City University (UK) | International | 06 January 2022 |
| 22. | 2023 | Dr. Amarjit Kalra, | International Conference on climate Resilient Agriculture for food Security and Sustainability at CCSHAU, Hisar | International | 17-19 Feb 2023 |
| 23. | 2023 | Dr. Rajender Kumar | | International | 17-19 Feb 2023 |
| 24. | 2023 | Dr. Sandeep Bhardwaj | | International | 17-19 Feb 2023 |
| 25. | 2023 | Dr. Sandeep Dhundhara | International Training on "Agrirobotics& Automation Agriculture" at the School of Computing, Engineering and Built Environment, Birmingham City University (BCU), Birmingham, UK under NAHEP-IDP | International | 28 December 2022 to 27 March 2023 |
| 26. | 2023 | Dr. Sandeep Dhundhara | Training on "Installation of Electrical appliances for Farming" under National Agricultural Higher Education Project (NAHEP)-Institutional Development Programme (IDP) at CCS Haryana Agricultural University, Hisar | National | 9-11 Jan 2023 |
| 27. | 2019 | Arun Kumar Attkan | Induction Training Programme at the Directorate of Human Resource Management at CCSHAU Hisar. | National | 29th November to 29th December 2019 |
| 28. | 2019 | Arun Kumar Attkan | Workshop on Digital Field Book at DHRM, CCSHAU, Hisar. | National | 12 December 2019 |
| 29. | 2019 | Arun Kumar Attkan | Residential Faculty Development | National | 24th May |

| | | | | | |
|---|---|---|---|---|---|
| | | | Program (FDP) at MDU Rohtak | | to 30th May 2019 |
| 30. | 2020 | Arun Kumar Attkan | Winter school on "Application of Sensors, Instrumentation, Artificial Intelligence and Machine Learningin Precision Agriculture" at ICAR-CIAE, Bhopal. | National | 14th February to 5th March 2020 |
| 31. | 2020 | Dr. Gaurav Chaudhary | Short Term training program on Bio-energy: Technologies and Transitions organized by NIT Kurukshetra | National | 13-17 May 2020 |
| 32. | 2020 | Dr. Gaurav Chaudhary | Induction Training Programme at the Directorate of Human Resource Management at CCSHAU Hisar. | National | 8 September 2020 to 8-October 2020 |
| 33. | 2023 | Dr. Gaurav Chaudhary | Refresher Course on "Entrepreneurial Prospects in Agricultural and Allied Sciences" | National | 10-30 January 2023 |

## E) College of Agriculture, Kaul

The faculties of COA, Kaul have attended 43 National programmers under Seminars/ Conferences/Symposia/ Workshops / Refresher/ FDP/Training / Consultancy visits / Special assignments. The details are as below.

| Sl. No | Year | Name of scientist | Name of Training | National/ International | Year |
|---|---|---|---|---|---|
| 1. | 2018 | Dr. Manender Singh | Induction Training , CCSHAU, Hisar, Haryana | National | 28 Nov-29 Dec 2018 |
| 2. | 2018 | Dr. Manender Singh | Workshop on Elsevier empowering Agriculture research in India in association with CeRA, CCSHAU, Hisar, Haryana | National | 24 August 2018 |

| 46. | 2023 | Dr. Mukesh Kumar | | International | 17-19 February 2023 |

## G) Directorate of student's welfare

The faculty of DSW has attended 3 National and 2 international conferences/ workshop/ webinar during the reporting period.

| Year | Name ofFaculty | Section/Department/College Name of Seminars/Symposia/Workshops/Training / Consultancy visits / Special assignments etc. | National/ International | Date(s) |
|---|---|---|---|---|
| **2022** | Dr. SandhyaSharma | Workshop on Lalit Kala Ke VividhAayam in Maharaja Chatarsal Bundelkhand University Chhatarpur M.P. | National | 19- 23, September 2022 |
| **2022** | Dr. SandhyaSharma | International conference on Peace, Prudence and Prosperity by School of education, Centre for Liberal Arts &IQAC, Appejay Satya University , Gurugram Delhi NCR | International | 05- 06, August 2022 |
| **2021** | Dr. SandhyaSharma | National Research Webinar on Effect of Music on our Psychology | National | 27- 28, February 2021 |
| **2020** | Dr. SandhyaSharma | Two days International webinar on Affect on the Artists during pandemic of Corona Virus by Banaras Hindu University | International | 28- 29, May 2020 |
| **2018** | Dr. SandhyaSharma | National Workshop on"Regional and Folk Music of India by Department of Education in Arts & Aesthetics, NCERT, Delhi | National | 04- 08, December 2018 |

**6.6.5.3 Incentives for Excellence/Faculty Recognition:** *Is the University offering Best Teacher Award (ICAR) or any other means of recognition to promote excellence in faculty and other staff? Give the list and selection procedure (in brief).*

Yes. In order to encourage performance among teachers, CCSHAU offers the Best Teacher Award (ICAR), which was initiated from 2000–2001. Faculty members were asked to submit the applications for the Best Teacher Award in accordance with the requirements published by the DDG (Agril. Edn.) ICAR in D.O. No. Edn./5/08/2017-EQR on June 16, 2017. The selection process is followed as described in the D.O. letter of June 16, 2017 as per revised guidelines of ICAR. The application forms are invited for Best Teacher Awards in Agricultural Higher Education for the particular, which must be submitted through HOD and Dean concerned. As per guidelines, the Deans of the Colleges after having nomination from each department, will forward one name for award for each year separately to the Dean, PGS. The selection committee consists of one external expert (not below the rank of Vice Chancellor), Deans/ Directors from other University nominated by Vice Chancellor, DDG (Agriculture Education) ICAR, or his nominee and Coordinator.

**Sardar Patel Award for faculty and staff**

In order to encourage the teaching, non teaching staff and students, Sardar Patel Award is given in the form cash of Rs. 10,000.

**Honararium to PI for research projects (outside agency)**

Remunuration of 2 000 per month will be disbursed to the PI of Adhoc project (outside agency) as per the decision taken by the finance committee/ board of management vide F-14 in their 207$^{th}$ / 255$^{th}$ meeting held on 07 February 2017.

**Partial assistance to attend international conference/ training**

Partial assistance of Rs. 80,000 for the actual expense whichever is lower, is provided to faculty members to attend international conference/training/seminar.

**6.6.5.4 Capacity Building and Training**: *How many programme have been initiated towards developing and strengthening skills, instincts, abilities, processes and resources that the University and its stakeholders need to survive, adapt, and thrive in the fast-changingagricultural scenario?*

For the purpose of fulfilling the training requirements of both its own faculty members and staff as well as the faculty of other SAUs and ICAR institutions, CCSHAU has set up a dedicated facility called the Academy of Agricultural Research and Education Management (AAREM). A total of 48 capacity-building programmes, including training sessions for academics, staff, students, and other stakeholders, were carried out during the reporting year. Along with the teachers and staff, CCSHAU also meets the demands of all its stakeholders, including students, farmers, rural women and youth, etc., in terms of skill development. Regular training programme with durations ranging from two days to six weeks were imparted by AAREM and University's constituent colleges, as per the following details:

**A) Refresher Courses and Trainings for faculty by AAREM**

| S.No | Name of Training/Refresher Course | Date |
|---|---|---|
| 1 | Refresher Course on Computer applications | 16 May to 05 June, 2018 |
| 2 | Induction Training | 7 June to 7 July, 2018 |
| 3 | Refresher Course on Education Technology | 21 July to 10, August 2018 |
| 4 | Induction Training | 29 November to 29 December 2019 |
| 5 | Induction Training | 1 June to 1 July, 2019 |
| 6 | Refresher Course on Research Management | 25 July to 14, August 2019 |
| 7 | Accounts Training Programme | 26-31, August 2019 |
| 8 | Induction Training | 18 November to 17, December 2019 |
| 9 | Refresher Course on Education Technology | 18, December 2019 to 07 January, 2020 |
| 10 | Online Refresher Course on Language Skills | 27 May to 16 June, 2020 |
| 11 | Online Refresher Course on Statistical Tools and Techniques | 8 July - 28, July 2020 |
| 12 | Online Induction Training | 8 September - 8, Oct 2020 |
| 13 | Online Refresher Course on Extension Management | 11 December –31, Dec 2020 |
| 14 | Online Refresher Course on Communication Skills | 3 Feb - 23 Feb, 2021 |
| 15 | Online Refresher Course on Research Management | 8 April - 28 April, 2021 |
| 16 | Capacity Building for Extension workers, collaboration with MANAGE Hyderabad | 16 -19, August 2021 |
| 17 | Departmental Examination in Accounts for Teachers and Technical Employees | 31 August - 04 September, 2021 |
| 18 | Refresher Course on Educational Technology | 21 September - 11 October, 2021 |
| 19 | Refresher Course on Applications of Statistical and Econometric Techniques in Agriculture | 24 November - 14 December, 2021 |
| 20 | Refresher Course on Extension Management | 04-24, May 2022 |
| 21 | Training on Government E-Marketing (GeM) | 9-15, February 2022 |
| 22 | Refresher Course on Extension Management | 04-24, May 2022 |
| 23 | Induction Training | 27 June to 27 July, 2022 |
| 24 | Refresher Course on “Statistical Methods & Data Analysis" | 30 July to 19, August 2022 |
| 25 | Refresher Course on “Entrepreneurial Prospects in Agricultural and Allied Sciences" | 10-30, January 2023 |

| | | |
|---|---|---|
| **26** | Induction Training | 24 January to February, 2023 |
| **27** | Short-term Training on "Importance, Updates and Emerging Issues of Intellectual Property Rights and Commercialization of Technology in Higher Educational Institutions" | 2-11, May 2023 |

## B) Refresher Courses and Trainings for staff by AAREM

| S.No | Name of Training/Refresher Course | Date |
|---|---|---|
| **1** | LS-HS Examination for the year 2018 | 27-31, August 2018 |
| **2** | State Eligibility Test in Computer Appreciation and Application (SETC) | 4-8 February, 2019 |
| **3** | Training on ERP and Data Management | 24-26, April 2019 |
| **4** | Accounts Training Programme | 26-31, August 2019 |
| **5** | Training for shorthand test of Steno-typists and Jr. Scale Stenographers for promotion/grant of ACP pay structure | 4-8, November 2019 |
| **6** | Trainings for Non-Teaching Staff-LS/HS Examination | 18-24, December 2019 |
| **7** | Training for shorthand test of Steno-typists and Jr. Scale Stenographers for promotion/grant of ACP pay structure | 26-30, October 2020 |

| **12** | Training on State Eligibility Test in Computer Appreciation and Application (SETC) | 08-12 November, 2021 |
| **13** | Trainings for Non-Teaching Staff-LS/HS Examination- Group-I | 11-15 January 2022 |
| **14** | Trainings for Non-Teaching Staff-LS/HS Examination- Group-II | 17-21 January 2022 |
| **15** | Trainings for Non-Teaching Staff-LS/HS Examination- Group-III | 24-29 January 2022 |
| **16** | Trainings for Non-Teaching Staff-LS/HS Examination- Group-IV | 01-07 February 2022 |
| **17** | Trainings for Non-Teaching Staff-LS/HS Examination- Group-V | 08-14 February 2022 |
| **18** | Training on Government E-Marketing (GeM) | 09-15 February 2022 |
| **19** | State Eligibility Test in Computer Appreciation and Application (SETC) | 05-09, September 2022 |
| **20** | Training for shorthand test of Steno-typists and Jr. Scale Stenographers for promotion/grant of ACP pay structure | 27 September to 01 October, 2022 |
| **21** | Training for the Basic Level Computer Appreciation Course (BLCA) | 16-28, November 2022 |

## C) Programme organized by COA, Hisar

The college of Agriculture, Hisar has organized various programmesfor developing and strengthening skills, instincts, abilities, processes and resources and the details are provided as below.

| Sl. No | Year | Title | Date/duration |
|---|---|---|---|
| 1. | 2019 | Training-cum- "Workshop on Commodity Derivative Markets" at DHRM,CCSHAU, Hisarin collaboration with Multi Commodity Exchange(MCX),Mumbai | 09 September 2019 |
| 2. | 2021 | Training on"Applications of Statistical and Econometric Techniques in Agriculture" | 24 November -14 December 2021 |
| 3. | 2018 | Advanced training on Recent trends in pest status, pesticide usage and pest management strategies in agriculture for scientists of ICAR institutes and SAU's under CAFT | 5 November 2018-25 November 2018 |
| 4. | 2018 | Awareness day on nematode management in protected cultivation | 21 September 2018 |

| | | | |
|---|---|---|---|
| | | and horticultural crops at KVK Fatehabad | |
| 5. | 2018 | Training on Mushroom Production Technology to farmers | 23 December 2018 |
| 6. | 2018 | World soil day<br>At Dobi village, Hisar | 5th December 2018 |
| 7. | 2019 | Herbicide spray techniques in field crops | 18 Januay 2019 |
| 8. | 2019 | Herbicide spray techniques in field crops | 22 January 2019 |
| 9. | 2019 | Weed management in *rabi* and *kharif* crops | 31 January 2019 |
| 10. | 2019 | One day kisan gosthi was organized in village Aharwan (Ratia) on the topic "Samanvit krishi parnaali se fasal vividhikaran avam aay me vridhi" | 28 February 2019 |
| 11. | 2019 | Weed management in fieldcrops | 2 March 2019 |
| 12. | 2019 | Weed management in *rabi*and*kharif* crops | 25 April 2019 |
| 13. | 2019 | Weed management in fieldcrops | 16 August 2019 |
| 14. | 2019 | One *Kissan* gosthi was organized in village Pilimandori (Bhattu) on role of crop diversification in crop production | 25 September 2019 |
| 15. | 2019 | Advanced training on Biology, conservation, rearing and management of *Apis*& non-*Apis* bees under for scientists of ICAR institutes and SAU's under CAFT | 4 October 2019-<br>24 October 2019 |
| 16. | 2019 | National Workshop on "Production, Processing and Value Addition of Nutri-cereals (Millets) in India" | 16 September 2019 |
| 17. | 2019 | 49th Annual Group Meet- AICRP on Sorghum | 28-30 May 2019 |
| 18. | 2019 | Nursery raising and propagation of fruit plants | 8-11 January 2019 |
| 19. | 2019 | Nursery raising and propagation of fruit plants | 28-31 January 2019 |
| 20. | 2019 | Nursery raising and propagation of fruit plants | 5-8 February 2019 |
| 21. | 2019 | Nursery raising and propagation of fruit plants | 13-16 February 2019 |
| 22. | 2019 | Swachh Bharat Mission programme during observation of SwachhtaPakhwara. | 13 September 2019 |
| 23. | 2019 | Molya Wheat Nematode field day at Kharakheri | 15 March 2019 |
| 24. | 2019 | Hands on training on "Basic Techniques in Nematology and Identification of Major Plant Parasitic Nematodes" | 10-21 June 2019 |
| 25. | 2019 | Nematode awareness day at KVK Rohtak | 09 August 2019 |
| 26. | 2019 | Ten days training for UG/PG students of CCSHAU Hisar on Mushroom Production Technology | 22 April 2019- 01 May 2019 |
| 27. | 2019 | World soil day<br>At Dobi village, Hisar | 5th December 2019 |
| 28. | 2019 | Training programme on "ProductionTechnology of Spice crops" by Dept. of Vegetable Science at SNIATTE, CCSHAU, Hisar. | 27 February 2019 |
| 29. | 2019 | Training programme on "Production Technology of Spice crops" by dept. of Vegetable Science at SNIATTE, CCSHAU, Hisar. | 06 March 2019 |
| 30. | 2020 | One *Kissan*gosthi was organized in village Pilimandori (Bhattu) on Climate smart farming system for Haryana | 27 September 2020 |
| 31. | 2020 | Herbicide spray techniques in wheat | 15 January 2020 |
| 32. | 2020 | Herbicide spray techniques in field crops | 16 January 2020 |
| 33. | 2020 | Herbicide spray techniques in field crops | 22 January 2020 |
| 34. | 2020 | Weed management and fertilizer requirement in DSR crop | 6 June 2020 |
| 35. | 2020 | Weed management in DSR crop | 30 June 2020 |
| 36. | 2020 | National webinar on locust: A serious threat to agriculture | 29 May 2020 |
| 37. | 2020 | Vegetable Nematode awareness day at KVK Fatehabad | 29 June 2020 |
| 38. | 2020 | Webinar on Nematode problems in horticultural crops | 09 August 2020 |
| 39. | 2020 | Webinar on Nematode problems in horticultural crops and their management | 04 September 2020 |
| 40. | 2020 | Vocational trainings on Mushroom Production Technology | 29 February 2020- |

| | | | |
|---|---|---|---|
| | | | 01 March 2020 |
| 41. | 2020 | "Scientific production technology of Potato" by Department of Vegetable Science SNIATTE, CCSHAU, Hisar. | 14 February 2020 |
| 42. | 2020 | "Production technology of spice crops" by Department of Vegetable Science for farmers SNIATTE, CCSHAU, Hisar. | 19 February 2020 |
| 43. | 2020 | "Scientific production technology of Potato" by Department of Vegetable Science, SNIATTE, CCSHAU, Hisar. | 20 February 2020 |
| 44. | 2020 | "Production technology of spice crops" by Department of Vegetable Science for farmers SNIATTE, CCSHAU, Hisar. | 26 February 2020 |
| 45. | 2020 | Webinar: कृषि मे विविधता-<br>किसानों की आजीविका में सुधार के लिए अभिनव कार्यक्रम | 22 August 2020 |
| 46. | 2021 | Herbicide spray techniques | 28 January 2021 |
| 47. | 2021 | Herbicide spray techniques in field crops | 17 April 2021 |
| 48. | 2021 | Parthenium awareness week | 16 August 2021 |
| 49. | 2021 | Weed management in different crops with the use of herbicide and selection of spray nozzles | 16 October 2021 |
| 50. | 2021 | Webinar on "Bee keeping Opportunities & Challenges" on World Honey Bee Day | 20 May 2021 |
| 51. | 2021 | Online training course on "Beekeeping as an Entrepreneurship" for students | 16 December 2021- 27 December 2021 |
| 52. | 2021 | Nursery raising and propagation of fruit plants | 02-05 February 2021 |
| 53. | 2021 | Nursery raising and propagation of fruit plants | 17-20 February 2021 |
| 54. | 2021 | Nursery raising and propagation of fruit plants | 03-06 March 2021 |
| 55. | 2021 | Virtual Horticultural officers workshop-2021 in collaboration with MHU, Karnal & Department of Horticulture, Govt. of Haryana | 09 July 2021 |
| 56. | 2021 | Molya Wheat Nematode field day at Kharakheri | 15 March 2021 |
| 57. | 2021 | Nematode awareness day at KVK Jind | 24 August 2021 |
| 58. | 2021 | Polyhouse nematode awareness day at KVK Fatehabad | 22 November 2021 |
| 59. | 2021 | Nematode awareness day at KVK Fatehabad | 29 December 2021 |
| 60. | 2021 | Soil and water testing for state government teachers and lecturers | 4th march- 6th March 2021 |
| 61. | 2021 | Soil and water testing for state government teachers and lecturers | 18th march- 20th March 2021 |
| 62. | 2021 | World soil day at SNIATTE with farmers | 5th December 2021 |
| 63. | 2021 | "Production technology of spice crops" for farmers of Haryana, SNIATTE, CCSHAU, Hisar. | 24 February 2021 |
| 64. | 2021 | "Production technology of spice crops" for farmers of Haryana, SNIATTE, CCSHAU, Hisar. | 03 March 2021 |
| 65. | 2021 | "Scientific Production Technology of Potato, SNIATTE, CCSHAU, Hisar. | 17 March 2021 |
| 66. | 2021 | "Scientific Production Technology of Potato" SNIATTE, CCSHAU, Hisar. | 18 March 2021 |
| 67. | 2021 | "Scientific Production Technology of Potato" SNIATTE, CCSHAU, Hisar. | 19 March 2021 |
| 68. | 2021 | "Scientific Production Technology of Potato", SNIATTE, CCSHAU, Hisar. | 20 March 2021 |
| 69. | 2022 | Herbicide spray techniques | 10 January 2022 |
| 70. | 2022 | Training programme to UG and PG students of college of agriculture on "Integrated Farming System for small and marginal Farmers" | 14 March 2022- 23 March 2022 through online mode |
| 71. | 2022 | Distribution of inputs and spray techniques in field crops | 01 April 2022 |
| 72. | 2022 | Herbicide spray techniques | 06 April 2022 |

| | | | |
|---|---|---|---|
| 73. | 2022 | Farmers' training programme on "Exposure visit on Integrated Farming System of CCSHAU, Hisar" farmers Samba district, J & K. | 27 June 2022- 29 June 2022 |
| 74. | 2022 | Training on Integrated farming system | 22 July 2022 |
| 75. | 2022 | Parthenium awareness week | 16 August 2022 |
| 76. | 2022 | Training on Integrated farming system | 25 August 2022 |
| 77. | 2022 | Training on Integrated farming system | 26 August 2022 |
| 78. | 2022 | Training on Integrated farming system | 07 December 2022 |
| 79. | 2022 | Training on Integrated farming system | 08 December 2022 |
| 80. | 2022 | Farmers' awareness & registration for weather advisories at the "Rajya PashudhanPradarshani", Bhiwani at CCSHAU, Hisar | 25- 27 Feb 2022 |
| 81. | 2022 | ICAR sponsored short course on 'Scientific management of *Apis mellifera* colonies for nutritional and economic security' for scientists of ICAR institutes and SAU's | 25 January 2022- 03 February 2022 |
| 82. | 2022 | Online training on 'Commercial Apiculture' for 84 UG and PG students of SC category | 24 February 2022- 05 March 2022 |
| 83. | 2022 | World bee day in collaboration with Saina Nehwal Institute of Agricultural Technology, Training and Education (SNITTE), CCSHAU, Hisar. | 20 June 2022 |
| 84. | 2022 | Workshop on pink boll worm management for District Extension Specialist | 22 August 2022 |
| 85. | 2022 | Advanced training on "Current Scenario of Pesticide Toxicology and its Impact on Future Agriculture" for scientists of ICAR institutes and SAU's under CAFT | 3 November 2022- 23 November 2022 |
| 86. | 2022 | Workshop on Haryana Horticulture vision-2030&2047 in collaboration with Department of Horticulture, govt. of Haryana | 6-7 June 2022 |
| 87. | 2022 | Online training on "Detection, Diagnosis and Management of Phytoparasitic Nematodes Associated with Agri-Horticultural Crops" | 5-11 March 2022 |
| 88. | 2022 | Nematode awareness day at KVK Fatehabad | 11 October 2022 |
| 89. | 2022 | Crop Protection through Bio-rational Approaches- Current Trends and Future Perspectives | 10 March 2022 |
| 90. | 2022 | Coordinate Training programme on "Mushroom Production Technology" for SC/ST students; sponsored by ICAR under SCSP development sub-plan. | 22 March 2022- 28 March 2022 |
| 91. | 2022 | Soil and water testing for state government teachers and lecturers | 14th- 18th February 2022 |
| 92. | 2022 | Soil and water testing for state government teachers and lecturers | 21st- 24th February 2022 |
| 93. | 2022 | Mission JRF (Soil Science) | 13th June 2022- 2nd July 2022 |
| 94. | 2022 | One Day Farmers training on "Spices production technology for farmers", SNIATTE, CCSHAU, Hisar. | 11 March 2022 |
| 95. | 2022 | Training programmes on Production technology of potato for farmers,SNIATTE, CCSHAU, Hisar. | 17 March 2022 |
| 96. | 2022 | Training programmes on Production technology of potato for farmers, SNIATTE, CCSHAU, Hisar. | 19 March 2022 |
| 97. | 2022 | Training programmes on Production technology of potato for farmers, SNIATTE, CCSHAU, Hisar. | 21 March 2022 |
| 98. | 2022 | One Day Farmers training on "Spices production technology for SCSP farmers", SNIATTE, CCSHAU, Hisar. | 30 March 2022 |
| 99. | 2022 | Seven days online training programme on "Protected cultivation of Vegetable Crops" for SC Students of College of Agriculture. | 16 March 2022- 25 March 2022 |
| 100. | 2023 | JRF Training Programme for the Students, College of Agriculture | 01 February 2023- |

| | | | |
|---|---|---|---|
| | | Appearing in JRF Exam-2023 | 01 March 2023 |
| 101. | 2023 | World water day | 22 March 2023 |
| 102. | 2023 | Farmers awareness programme on climate change at CCSHAU Hisar | 27 March 2023 |
| 103. | 2023 | Farmers awareness programme on climate change | 28 March 2023 |
| 104. | 2023 | Expert talk and exposure visit activity on "Cordyceps mushroom & Saffron Cultivation under Laboratory Conditions: A Scalable Startup Entrepreneurship" was organized by Dept. of Soil Science, CCSHAU, Hisar for UG students under the head of India's presidency of G20. | 12 May2023 |
| 105. | 2023 | Farmers training on "*Production technology of Spice crops*, SNIATTE, CCSHAU, Hisar. | 28 March 2023 |
| 106. | 2023 | One Day Farmers training on "*Production technology of Spice crops*", SNIATTE, CCSHAU, Hisar. | 29 March 2023 |

## D) College of Agriculture, Bawal

Information regarding various events conducted/ organized at COA, Bawal furnished as per following table.

| Sl. No | Year | Name of the event | Date of organization |
|---|---|---|---|
| 1. | 2018 | Motivational Lecture by Dr. S.K. Sherawat, Directorate of Research, CCSHAU | 06 December 2018 |
| 2. | 2018 | Celebrated World Soil Day | 05 December 2018 |
| 3. | 2018 | Celebrated Agricultural Education Day | 03 December 2018 |
| 4. | 2018 | Training programme on "Personality Development" in collaboration woth Counseling and Placement Cell, Directorate of Students Welfare, CCSHAU, Hisar | 15-29 November 2018 |
| 5. | 2018 | Motivational Lecture by Dr. R.S. Balyan, Secretary Kisan Aayog, Haryana | 31 October 2018 |
| 6. | 2018 | Celebrated pollution free Dusshera without crackers | 19 October 2018 |
| 7. | 2018 | Awareness Campaign about POSCO and juvenile justice (care and protection of children) act-2015 in collaboration with child welfare committee, Rewari | 18 October 2018 |
| 8. | 2018 | Cleanliness programme | 02 October 2018 |
| 9. | 2018 | Inter class game of volleyball, Kabaddi and badminton (Boys and Girls) | 24-29 September 2018 |
| 10. | 2018 | Fresher's Day | 19 September 2018 |
| 11. | 2018 | Orientation programme | 11 September 2018 |
| 12. | 2018 | Cleanliness programme | 01 September 2018 |
| 13. | 2018 | Motiovational lecture | 15 August 2018 |
| 14. | 2019 | Agricultural Education Day | 03 December 2019 |
| 15. | 2019 | Inter College Hand Ball Tournament | 21 November 2019 |
| 16. | 2019 | *Shramdan Diwas*under *'Swachhta hi Sewa 2019*: | 02 October 2019 |
| 17. | 2019 | Hindi Pakhwara | 14-26 September 2019 |
| 18. | 2019 | Plastic Waste Free Campaign | 11-27 September 2019 |
| 19. | 2019 | Fit India Movement | 29 August 2019 |
| 20. | 2019 | Plantation Day | 01 August 2019 |
| 21. | 2019 | Yoga Camp | 06-10 March 2019 |
| 22. | 2019 | Environmental Awareness Camp | 28 March .2019 |
| 23. | 2019 | Personality Development Training Programme | 12-26 February 2019 |
| 24. | 2019 | Science Day | 28 February 2019 |
| 25. | 2019 | Energy Conservation by PCRA | 05 March 2019 |

| | | | |
|---|---|---|---|
| 26. | 2019 | Lecture by Dr. R.K. Nanwal | 14 February 2019 |
| 27. | 2019 | Road Safety in collaboration with Lion's Club Rewari and RSO | 11 February 2019 |
| 28. | 2019 | Republic Day Celebration | 26 January 2019 |
| 29. | 2020 | Cleanliness drive | 02 October 2020 |
| 30. | 2020 | Parthenium eradication drive | 11 July 2020 |
| 31. | 2020 | Training on Effective Communication and Interpersonal Skills | 18-21 May 2020 |
| 32. | 2020 | Eight Right During Covid-19 Crisis | 15-16 May 2020 |
| 33. | 2021 | Conclave on natural farming (live) | 16 December 2021 |
| 34. | 2021 | Plantation day | 12. December.2021 |
| 35. | 2021 | Agriculture education day | 03. December.2021 |
| 36. | 2021 | Inaugural of Boys hostel | 26 November 2021 |
| 37. | 2021 | Orientation programme for fresh students | 12 November 2021 |
| 38. | 2021 | Exposure visit and orientation of fresh students at HISAR | 28 October 2021 |
| 39. | 2021 | Scientists and farmers interaction | 16 September 2021 |
| 40. | 2021 | Plantation day | 07 September 2021 |
| 41. | 2021 | Plantation day | 26 August 2021 |
| 42. | 2021 | Yoga camp (5 days) | 26-30 August 2021 |
| 43. | 2021 | Blood donation camp | 27 August 2021 |
| 44. | 2021 | Awareness rally | 28 August 2021 |
| 45. | 2021 | Cleanliness drive | 24-26 August 2021 |
| 46. | 2021 | Annual NSS camp (7 days) | 24-30 August 2021 |
| 47. | 2021 | Organised parthenium awareness week | 19 August 2021 |
| 48. | 2021 | Training on ICT for agricultural extension: New concept (National level) | 23-27 August 2021 |
| 49. | 2021 | Independence Day | 15 August 2021 |
| 50. | 2021 | Plantation day | 11 August 2021 |
| 51. | 2021 | Training on smart class room | 03 August 2021 |
| 52. | 2021 | Language lab training (2 days) | 29-30 July 2021 |
| 53. | 2021 | Van Mahotsav | 25 July 2021 |
| 54. | 2021 | Plantation day | 16 July 2021 |
| 55. | 2021 | Environment day | 05 June 2021 |
| 56. | 2021 | Birth anniversary of Dr BR Ambedkar | 14 April 2021 |
| 57. | 2021 | Training on personality development and communication skill (online) | 15-26 March 2021 |
| 58. | 2022 | Exhibition in Kisan Diwas programme | 23. December.2022 |
| 59. | 2022 | Training on cultivation, conservation and utilization of medicinal, aromatic and potential crops | 15. December.2022 |
| 60. | 2022 | Annual athletic meet | 06-07. December.2022 |
| 61. | 2022 | World Soil Day | 05. December.2022 |
| 62. | 2022 | Agricultural Education Day | 03. December.2022 |
| 63. | 2022 | Foundation training course (general topics) for ICAR-JRF (PGS) exam in agriculture | 25 November 2022 to 04. December.2022 |
| 64. | 2022 | Exhibition on Sardar Patel – The Architect of Unification | 31 October 2022 |
| 65. | 2022 | Run for Unity on Sardar Patel – The Architect of Unification | 31 October 2022 |
| 66. | 2022 | Swatchh Bharat – 2.0 campaign | 30 October 2022 |
| 67. | 2022 | Freshers' day for 2022 batch | 12 October 2022 |
| 68. | 2022 | Awareness programme on cyber crime | 10 October 2022 |
| 69. | 2022 | Awareness rally – eradication of single use plastic | 02 October 2022 |
| 70. | 2022 | Hindi Diwas | 12-14 September 2022 |

| | | | |
|---|---|---|---|
| 71. | 2022 | Orientation programme for fresh students | 07 September 2022 |

### 6.6.6. Student Development

**6.6.6.1. Scholarships/Stipends:** *Is the University offering any scholarship programme for meritorious students? How many students are receiving competitive scholarships/fellowships for each College? How many passed out students have been selected for scholarships/fellowships in other universities*.

Education is one of the most essential and expensive assets in today's world. Students look for financial assistance to pursue the career of their dreams. In such a scenario, scholarships come up as the desired form of financial assistance. CCSHAU helps the students in empowering their academic and career goals by removing their financial barriers. This University offers **scholarships and stipends** to the meritorious U.G. & P.G. students of the University. Ten per cent of the students get the Merit fellowship. Details of the scholarships are as follow:

**Details of scholarships of UG Courses:**

| **COLLEGE OF AGRICULTURE, HISAR** | | | | | | | | |
|---|---|---|---|---|---|---|---|---|
| **Sr.No.** | **Name of Fellowship** | **2018-19** | **2019-20** | **2020-21** | **2021-22** | **2022-23** | **Amount per month (Rs.)** | |
| | | | | | | | **Boys** | **Girls** |
| | HAU Merit Scholarship | 255 | 206 | 262 | 190 | 80 | 800 | 1200 |
| | Merit-cum-Means Scholarship | 16 | 17 | 19 | 9 | 16 | 1000 | 1000 |

**6.6.6.2. Extra and Co-Curricular Activities:** *Whether the sports/games/cultural activities/NSS/NCC/ programmes are being organized? If yes, then give the list of events in last five years in tabular form. Participation of students in ICAR sponsored events (Agri-unifest/ Agri-sports/ any other) and award/medals received in last five years may be given in Tabular form. How the students practice sports and games daily?*

The CCSHAU is dedicated to facilitate students to acquire various skills, participate in various co-curricular activities other than the academic work and take care of their welfare for all-around development of students. There are number of options for the students to participate in any of the activities going on in the campus *viz.* sports, cultural, literary, workshops, skill improvement trainings, concerts, photography, picnic, excursions, cultural trips, etc. The Directorate of the Students Welfare of the University serves as a hub of students' guidance, counseling and placement activities for all its constituent colleges. The faculty helps CCSHAU graduates to get suitable placements in various nationalized banks, agro-based companies/industries/MNC/NGO's etc. It facilitates students to pursue their higher education in India and abroad too by conducting coaching classes, motivational lectures, mock group discussions, interview simulations etc. To accomplish the goal, 25 Clubs and Societies have been established at the University by the Directorate of Students' Welfare (DSW) with faculty serving as advisors and mentors to the students. Each undergraduate student must participate in one of the approved games or cultural activities.

**Sports Activities**

Value of sports and physical activities has become essential nowadays. Keeping in view the modern life style, people have become more dependent on the gazettes that provide more luxuries to life. This kind of life style leads to diseases and people are prone to injuries.

A healthy life leads to physical fitness, psychological and emotionally balanced, mentally strong and socially well-behaved citizens. A physically active person achieves many attributes like hard work, sincerity, discipline, dedication, devotion, courage, stress bearing ability, emotional balance, mental strength and socially well behaved. Games and sports teach us to be humble in victory and modest in defeat. This University has the glorious tradition of sports. The University has produced many international levels of sports persons. The students are attracted to sports and automatically acquire the best attributes of sports. A compulsory option of sports activity also helps the students to involve in sports which lead them to live happy, healthy and tension-free life.

Various Sports Activities at Giri Centre

International Yoga Day

**Cultural, Literary and Other Co-curricular Activities:**

As per the statutory provisions of the University, the Cultural activity is co-curricular activity which aims at developing the personality of the students of the university. Students who get themselves registered in cultural activities perform in cultural programmes of the University. In addition to the University level functions, they also participate in various youth festivals organized at State/ National levels.

Since its inception, HAU Music & Drama Club, has been actively engaged in fulfilling its primary objectives of strengthening of the teacher-taught relationship by way of promoting the cultural activities with special emphasis on music, dance and drama. Such activities are source of inspiration for students to develop their personality and channelize their youth energy. The club got recognition of regular credit activity in 1973 and since then it has been continuously engaged in searching, promoting, cultivating and developing the talent in music, drama, and dance among the university students. Music & Drama Club trains and provides opportunities to the talented and deserving students to perform at state and national levels. Another pioneering step that the Directorate has recently taken is staging of Haryanvi *Swangs* in a bid to revitalize our folk traditions. All these efforts have succeeded in acquainting the students with the rich cultural heritage of the country and the State.

**Accomplishments in Cultural Activities**

University students have won Gold, Silver and Bronze medals in Theatre, Dance and Music activities in the Inter Agri Youth festivals. Special workshops have been designed in Folk Dance, Folk Theatre, Folk music in which maestros and Gurus are invited to interact with the students. *Swang* is Haryana's most ancient theatre art form. A special effort was made to introduce the university students to Indian Art and Culture and values with special focus on our rich heritage.

Cultural Activities during the Workshop

**Literary and Debating Society**

The Literary and Debating Society of the University organized competitions and events so as to mould the students into well-informed individuals with all round development and good communication skills. The Society regularly organized inter-college debating, declamation, essay writing competitions in a bid to hone the skills of students, and train them for competitions at the State and National level.

The Literary and Debating Society of the University provides a platform to the students to express themselves through various communication skills, *viz.*, speaking & writing. The Society works to achieve the objective of moulding the students into well-informed individuals. It regularly organizes debate and declamation contests for the students of the University in various constituent colleges to promote the students in making confident and fluent in their expression on public platforms. The Society also strives to improve the writing skills of the students and to achieve this aim, it organizes essay writing competitions. The Society also conducts the quizzing activities. The Society, on a regular basis, organizes inter-college debating, declamation, Essay Writing competitions, and Brainstorming Sessions in a bid to hone the skills of students, and train them for competitions at the State and National level.

**CCSHAU Mountaineering Club**

CCSHAU Mountaineering Club provides avenues for the campus youth to take up the challenges inherent in this sport and encourages the students for adventures activities like high altitude trekking in the Himalayan and High Mountain Regions. It also imparts trainings in parasailing, skiing, rock climbing, desert safari, night trekking, artificial wall climbing, water sports and other related activities, etc. Since inception in 1971, this Club has been flourishing day and night with significant achievements to its credit. The members of the clubs have trekked more than 2000 km in Himalayas. The Club had successfully completed three peak climbing expeditions (2018, 2019 and 2022) and other trekking expeditions during this period.

The club organized a peak climbing expedition to Mt. Kanamo in Spiti valley of H.P. from 25.06.2018 to 4.07.2018. Twenty students of the club participated along with President, Mountaineering club Dr. Mukesh Kumar and Dr. Subhash Chander, Advisor from College of Agriculture. During the expedition the group visited the Key Monastery, one of the main monasteries of the Kaza region. The members of the expedition visit the local houses to learn/ experience the way of living in this harsh conditions. The group also visited the school of the college as well as the field to have knowledge about the agriculture of the spiti region. The group started the expedition from Kibber Village and summit Mt. Kanamo. Thirteen members of the team and President, Mountaineering club Dr. Mukesh Kumar scale the summit (19600 feet). A few members could not attempt due to poor health.

The group who summit the Mt. Kanamo

The club organized another high altitude trekking cum peak climbing expedition to Mt. Yunam in Lahul valley of H.P. from 07.09.20191 to 5.09.2019. Twenty students of the club participated along with President of Mountaineering club. During the expedition the group had a glimpse of two high altitude passes *i.e*. Rohtang Pass and Baralacha LA and a beautiful lake Suraj Tal. The group started the expedition from Baratpur Tent Colony, a remote and Barron destination in the Lahul valley and

summit Mt. Yunam. Twelve members of the team and President, Mountaineering club Dr. Mukesh Kumar scaled the summit (6114 M).

The toughest expedition of the CCSHAU Mountaineering Club so far was organised to Mt. Kang Yatse-II (6253M) from 11.08.2022 to 21.08.2022. Total 20 students (15 boys and 05 girls) participated and successfully completed the expedition under the leadership of President, CCSHAU Mountaineering club and Dr. Sanjay. The group started the expedition from Skiu and trek to Sara. The next day trekking was almost 20 Km long and view of the Markha valley was breath taking. The trek was along the markha river. After full day trekking reached at Onmling. The group trekked through the steep mountains to the Thochugste and set up the base c. The group rested the whole day at base camp for acclimatization and equipment checking. At the night around 11.00 PM, the group began the summit ascent and after the endless efforts the flag of CCSHAU was hoisted on the peak at 8.30 AM by five students, Aden, Sumit, Shivam, Abhilekh & Sooraj along with Dr. Mukesh Saini.

**Low altitude trekking in Himachal Pradesh**

A low altitude trek was organized at Indrahaar Pass of H.P. from 14.04.2018 to 18.04.2018. Twenty five students of the club participated along with President of Mountaineering club and Advisor from College of Agricultural Engineering and Technology. The group started the expedition from Mc Cleodganj and able to climb up to base of Pass (14350 feet). The team had to forcefully retreat due to bad weather and shortage of time.

Low Altitude Trek Indrahaar Pass of H.P.

Another low altitude trekking expedition to Mankiani peak and KareriLake (H.P.) was organized from 12.04.2019 to 17.04.2019. Total 25 students (15 boys and 10 girls) participated and successfully completed the expedition under the leadership of Dr. C.S. Dagar. The first cing was in the forest of Kareri village. The first day trek was up to Raoti through the lush green mountains. After full day trekking reached at Raoti which was the starting point of snowline. The group trekked through the snow laden mountains to the Kareri Lake which was mostly covered with snow and keeping it as base camp the summit to Mankiani Peak was started. After the endless efforts the flag of CCSHAU was hoisted on the peak.

Group at the base of Indrahaar Pass

**Water sports camp at Pong Dam**

The club organizes a basic water sports camp at pong Dam from 10.06.2022 to 14.06.2022. The group had hands on training of various water sports activities like kayaking, canoeing, rafting, sailing, water skiing etc.

| **6.** | Peak climbing expedition to Mt. Kang Yatse-II, 6253M (Ladakh) | 11.08.2022 to 21.08.2022 |

**National Service Scheme (NSS)**

National Service Scheme in academic institutes is the idea of Mahatma Gandhi and the scheme was introduced in educational Institutes during the centenary birth year of Mahatma Gandhi during 1969. NSS in College of Agriculture, CCS Haryana Agricultural University came into operation during 1970. Since then, it is offered as a course of 2 credit hours in the first semester under the guidance of NSS programme officer. In this programme, two classes per week are taken. In one class the students are exposed to various NSS activities like – aim, objective, motto etc. these classes are mainly taken by NSS programme officer and renowned personalities in various fields of social reforms. In the second class, the volunteers are engaged in various competitions on the current social events i.e. debate competition, poster making competition, essay writing, slogan writing, poem and song competitions etc. to increase the personality development of the volunteers. Besides these, the volunteers are inspired to come forward for the service of the nation by organizing lectures, competitions on various important days like *Sadbhawna Diwas*, *Van Mahotsav*, International Blood Day, Non Violence Day, UNO Day, AIDS Day, International Volunteers Day, Youth Day, Republic Day etc. Besides, these activities, volunteers clean their surroundings in the Colleges, hostels, etc. All these activities performed by the volunteers make them disciplined soldiers of the country and play important role in increasing the personality of the students with helping attitude and positive thinking.

This course of NSS is compulsory for the undergraduate students of College of Agriculture in the first two years of the programme and optional in third and fourth year of the degree programme. Besides this, every NSS volunteer is supposed to attend a 7 day annual NSS camp at village level. In this programme, the volunteers are deputed to some nearby village where they live together, interact with the village people, study the living standard of ruralites and record the problems faced by them. This interaction programme of the students with ruralites motivates and inspires the youth to come forward and do something for the upliftment of the rural people. The annual camp provides opportunities to the student volunteers for their integrated personality development.

NSS plays an important role in mobilizing the students in community participation, group living and sharing. Some of the important achievements and activities performed by NSS volunteers of CCSHAU, Hisar under the guidance of Director Students' Welfare, CCSHAU, Hisar are as below:

**Programmes organized at University/ College levels**

Each NSS unit organized NSS Special Camps in adopted village of the NSS unit. The camps consist of various events for overall development of youths including physical fitness (yoga, meditation, exercises), personal care (general hygiene and sanitation), educational and motivational lectures by experts and competitions like debate, essay writing, speech, slogan, poster, quiz on the current topics etc. The aim of the camps was that the young students are exposed to the rural people and interact with them. This opportunity helps the students to understand the problems of rural people and helps them in making need based effective programmes for the upliftment of the ruralites. Secondly, living together also inculcates the fellow feelings and also teaches the volunteers to work jointly in team spirit and also inspires them to do something selflessly for the service of mankind.

**Activities performed during the camp**

- Yoga/ Prayer
- *Shramdan* including cleanliness in village, construction of Paccka road in school/ Village
- Tree Plantation and management of trees including weeding, pruning of branches etc.
- Awareness in villagers through *Prabhat feri, Rallis/ Nukkar Nataks* etc.
- Lectures for villagers on various topics like Crop production, related to animal diseases and management, first aid, blood/eye donation, Government schemes of welfare department for villagers, Tips for better health etc.
- Lectures on Awareness and personality development for Volunteers by eminent persons.
- Competitions for volunteers like speech, poster making, slogan writing, quiz, debate etc.
- Games for volunteers
- Cultural competitions like patriotic song, dances, skit, mono acting, mime etc.

**National Cadet Corps (NCC) Unit**:

NCC boosts confidence in individuals and brings out their hidden qualities, makes Cadets not only physically fit but also mentally strong with leadership qualities. Cadets with 'C' certificate are eligible for directly commissioned to vacancies in armed forces without appearing for written exam. Girl Cadets of I.C. College of Home Sciences are enrolled in second semester in each academic session to be a part of NCC (Air and Army wing). Cadets are enrolled under unit "1HAR R&V SQN NCC, HISAR", "NCC 1(Air) Haryana Bn. Hisar" and "3 Haryana Girls BN NCC", NCC group- Rohtak and Directorate "Punjab, Himachal Pradesh, Haryana and Chandigarh." Girl cadets have come out in shining colors in all fields of NCC. Girl Cadets regularly participate in various events like:

- Republic day parade at CCSHAU
- ATC camps
- Guard of honour at COHS
- 'B' and 'C' certificate examinations
- Poem and declamation contests
- Trekking Camps
- Adventure Camps
- Flying Camps
- Shooting Camps

**6.6.6.3. Health Facilities:** *Provide the brief information about medical facilities available in the head quarter and off campuses. A brief about Health Insurance scheme being implemented at the University may be provided.*

University Health Service provides comprehensive primary health clinic for students, faculty, staff and other residents. The University has a fully functional 20 bed Campus Hospital providing medical care and health cover to students, employees and their dependents and retired employees of the university. At present medical staff includes four medical officers and one dental surgeon. The post of senior medical officer is presently vacant and its charge is being dispensed by one of lady medical officer. There are three field dispensaries located at Kaul (Kaithal), Uchani (Karnal) and Bawal (Rewari) providing first aid to the students and employees of the University. Daily OPD at Hisar is about 150-220 (Nos.). Indoor facility is also being extended to the admitted patients. On an average, about 35 cases per month are being given indoor treatment. The Campus hospital also provides complete dental care with X-ray facility. Immunization schedule is being followed as per national policy. Complicated cases are referred to various empanelled hospitals for better and comprehensive treatment.

The present health care workforce at the main campus:

- Four medical officers (two lady medical officers and two medical officers)

    1. One Medical Officer is on call duty every day & night (including holidays) for any emergency care or patient admission in the campus hospital.
    2. Minor OT procedures are also being performed by the well trained and passionate team of doctors.

    These medical officers have different medical backgrounds such as anatomy, pharmacology, General Medicine and industrial safety & occupational health.

- One dental surgeon is also present in the campus hospital also takes care of almost all kind of dental health needs of the campus community.
- The pharmacy staff.
- Adequate number of staff nurses.
- A laboratory in the campus hospital with a lab technician on duty to perform basic blood tests *viz.* CBC, Blood Sugar, Malaria parasite detection test etc.
- Well trained male health worker, helpers and attendants.

Medical Camps organized by different hospitals in Campus hospital are mentioned below: -

| Sr. No. | Camps | Date | No. of beneficiaries |
|---|---|---|---|
| **1** | Blood Donation Camp | 25.11.2018 | 52 |
| **2** | C.M.C. Hospital (Health checkup camp) | 19.10.2019 | 65 |
| **3** | Blood Donation Camp | 21.11.2019 | 50 |
| **4** | Sarvodya Hospital (Health checkup camp) | 29.11.2019 | 65 |
| **5** | MedicityMedanta Hospital (Health checkup camp) | 13.12.2019 | 50 |
| **6** | Eye Q Hospital (Eye Checkup camp) | 17.01.2020 | 163 |
| **7** | Rajan Eye Hospital | 04.08.2022 | 160 |

- During the COVID-19, Covid-19 checkup camps and vaccination camps were organized by the Civil Hospital in Campus Hospital.

Medical Camp

The hospital also possesses facilities of two ambulance vans and one well trained driver remains on duty day & night. Information charts are displayed on the hospital walls for knowledge about ante-natal and post-natal care, vaccination schedule for children, care of new born, basic cleanliness and sanitary habits etc. to make it easy for the patients to understand them.

**Health Insurance Scheme**

"*Amartya Shiksha Yojana Policy*" & "Personal Accident Policy" from New India Assurance Company are made available for the benefit of the students which ensure very smooth claim experience. We make health insurance affordable for the students by paying the premium of Rs. 102/- per year. In case of accidental death, an amount of Rs. 1,00,000/- is disbursed as an insurance compensation. Three persons are insured i.*e.* student, his/her father and his/her mother.

**6.6.6.4. Sports and Cultural Facilities:** *Give detailed report of sports and games facilities and auditoriums available for cultural events.*

Sports and Cultural facilities are looked after by the Directorate of Students' Welfare at the University. CCSHAU constantly improves the infrastructure through the up gradation and proper maintenance of playgrounds. All playgrounds have netted walls around them. CCSHAU is the first University of the country to have synthetic track. World Athletics has given this track as "Class 1 Athletic Facility Certificate" Number of National, International and Inter University tournaments have been hosted at this Track. This track has produced many athletes of National and International repute. The Badminton & Volleyball Courts and Hockey ground have been provided with added facilities of global standards. This improved infrastructure is amply utilized through various sports activities organized for the students. Regular Athletic Meets are organized annually. The University has the following infrastructural facilities for organizing games and sports.

**Sports infrastructure**

**I. Indoor facilities**

i. Badminton Hall with two synthetic turfs

ii. Squash Courts – 2 Nos.

iii. Multi-purpose Hall with two Boxing ring

iv. Wrestling Hall
v. Gymnasium Hall
vi. Table Tennis Hall
vii. Hall for Multigame (Weight training)
viii. Shaheed Madan Lal Dhingra Multipurpose Hall
ix. Two Synthetic Tennis Courts
x. Indoor Multi-Purpose Hall
xi. Indoor Shooting Hall

**II. Outdoor facilities**

i. Synthetic Turf (Olympic standard 400 Mts. With 8 lanes)
ii. Volleyball Courts – 2 Nos.
iii. Football ground – 2 Nos.
iv. Hockey ground
v. Cricket ground
vi. Tennis courts – 2 Nos.
vii. Handball ground
viii. Basketball Court – 2 Nos.
ix. Synthetic Athletic Track

**Auditoriums for Cultural Events**

The University has four well equipped modern auditoriums on it's for undertaking cultural and literary activities:

1. **Indira Gandhi Auditorium**: Indira Gandhi Auditorium is a central facility at University with a seating capacity of more than 1953 persons. There is also a facility of Committee Hall/rooms for conducting meetings.
2. **COHS Auditorium:** The college has its own beautiful air-conditioned auditorium with ultra modern sound and light system which was constructed in the year 1978 and has seating capacity of 284 students. It is being used for college functions, motivational lectures and other cultural activities and used almost fortnightly for these activities. In order to have linkages with the local administration at the society, the college often gives facility of auditorium to different colleges, bodies and association for organizing seminars and functions.
3. **COA Auditorium**: The college auditorium was constructed in the year 1975. It is an air-conditioned hall equipped with the necessary modern sound and light system and has seating capacity of 514 persons. It is used fortnightly for various college functions, and other cultural and educational events.
4. **COBS&H Auditorium:** The auditorium of the college was constructed in1976 which is used for college functions such as holding large scale meetings, conferences, seminars, workshops, Fresher's Day etc. It has seating capacity of 315 persons. The auditorium is air conditioned and

has state of art sound system, podium etc. The auditorium is used regularly and on an average one event is organized on monthly basis.

5. **COA, Kaul Auditorium**: The auditorium of the college was constructed in the year 2001-02 with seating capacity of 500 and this auditorium is being used for various functions/programmes for celebration Fresher's day, Teachers' day, seminars, cultural programme, farewell parties, annual college functions etc.

**6.6.6.5. Student Counselling and Placement Cell:** *Give detailed report on placement cell and provide the report for recruitment of students by firms in last five years. What is the mode and mechanism of counseling being followed at the University level?*

The Counseling & Placement Cell has been associated with multifaceted development of the Students in an effort to make available to them the possibility of developing their personalities and face the challenges of future with greater confidence. Realizing the present day need to further strengthen these efforts, the directorate has initiated an ambitious programme to ameliorate the managerial, administrative, communicative, technical and self-employment oriented skills of the students. The centre in the Directorate of Students Welfare has been assigned four mandates *viz.* imparting trainings, placements, liaison with leading industries and guidance to university students.

**Objectives of Placements Cell:**

- To place the students at their areas of interest in organizations/institutes.
- To guide the students for the development of soft skills.
- To develop a bridge between colleges and industries.
- To increase awareness amongst current students about placement opportunities in industries and various skill-sets required.

**Placement Mechanism**

University has Placement Cell for UG and PG students. Variety of activities are arranged under the placement cell like conducting aptitude tests, seminars, group discussion, guest lecturers by Industrial Experts and Soft Skill Workshops.

The placement cell takes efforts to call the companies for campus placement. The student data base is forwarded to the Industry or Company as per their requirement. Some of them provide Industrial Training and Campus requirement. They shortlist the students as per their policy. After finalization of date and time, the company conducts campus drive in the college premises or they call the students at their premises. Those students who are through the aptitude test, they are qualified for next round like technical and HR Interview. Once a student is placed in one company then he/she is not allowed for the other companies drive.

The details of the activities undertaken by the Students C&P Cell during the period under report are as follows:

**Placement in the last five years through Campus Interview/IBPS:**

| Sr.No. | Year | Name of the Firm | No. of Students Placed |

| **61.** | Training Program of Agri. Students appearing in JRF Exam | 01.02.2023 to 01.03.2023 |

**ICT based initiatives**

The students counseling, placement and skill integrated learning has long been supported by paper based systems. The use of ICT based technologies *viz.*, Internet and the World Wide Web have revolutionized the provision of information and the facility for the user to take action on the information obtained. In today's fast moving world most of the placement/recruitment agencies, private sector's and other stake holders require relevant information of students online, their databases

through spreadsheets and Email communications. Therefore, for effective and result oriented functioning of Students C&P Cell, following ICT based initiatives have been undertaken.

**Web Resources for Career Opportunities**

Taking cue from Digital India drive, now the Students' C&P Cell in the Directorate of Students Welfare has devised a dedicated web portal http://hau.ernet.in/dsw/dccp.php. The web portal is excellent source of relevant information related to career opportunities for the students. The portal has been widely acclaimed and visited by many people since its launch in January, 2015.

**6.6.6.6. Disabled Friendly Facilities:** *What kind of facilities is available for differently abled persons in the campus? Give a brief report.*

Following facilities are available in the campus for differently abled persons:

- There is lift, ramp and wheel chair facility in the College of Agriculture.
- Ramp and wheel chair facility is also available at College of Agricultural Engineering and Technology.
- The College of Basic Sciences and Humanities has ramp, wheel chair as well as lift to facilitate movement.
- The ramp and wheel chair facility is available at I.C. College of Home Sciences.
- University hospital is friendly for differently abled and takes care of them for medical aid.
- There is lift and ramp facility in Nehru Library.
- There are separate washrooms in the I.C. College of Home Sciences and College of Agriculture, Hisar. The facility is being created in other constituent colleges and offices of the University.

### 6.6.7 Infrastructure

**6.6.7.1. Physical facilities including administrative building and lands:** *Give comprehensive report on the administrative buildings, academic blocks, College's research units, instructional farms, seed production units etc. for each College and University Head Quarter.*

The CCSHAU's development strategy is based on the idea of a central campus with academic buildings for different colleges, schools, and departments as well as residential, recreational, and community facilities like Faculty House and Faculty Club, Farmers' Hostel, Students' Hostel, Hospital, Shopping Centre, etc. Gandhi Bhawan, Nehru Library, Indira Gandhi Auditorium, and the Fletcher Bhawan housing the Administrative Block are the main structures. They are located on three sides of the vast Plaza, with the majority of them rising four feet above the ground.

When this University was created by an Act of Parliament in February, 1970, the Colleges of Veterinary Medicine, Agriculture, and Basic Sciences & Humanities were already in existance. The first two were housed in their own respective buildings and the third one in a part of the building of College of Agriculture, Hisar. There were five hostels for male students. About 358 units of staff housing, 132 for class IV employees, 88 for class III employees and 38 for the faculty and the administrative officers of the University had been provided. A Teachers' Home with 36 suites had been built and was in use. Community facility such as hospital, shopping center, school for children and recreational facilities for employees were built later on.

In the year 2010, a separate University named as Lala Lajpat Rai University of Veterinary & Animal Sciences was carved out of CCSHAU by transferring the College of Veterinary Sciences & Animal Sciences along with other allied sections.

At present, the capital assets of CCSHAU Hisar are as under: -

**A. Land: -**

The University has 7609.15 acres of land, out of which 5358 acres land is under farming. In 736 acres land the main campus at Hisar is situated; 1515.15 acres of land is for outstations KVKs/ regional stations i.e., Krishi Vigyan Kendras, Regional Research Stations and Agriculture Colleges at Kaul & Bawal.

**A Details of land**

| Sr. No. | Station | Land (In Acres) |
|---|---|---|
| A | Hisar | **6094** |
| | ➢ Land under building and road i.e., main campus | 736 |
| | ➢ Land under seed production/ research farms | 5358 |
| B | **Out stations (KVKs & Research Stations)** | |

| 55. | Girls' Hostel (capacity 150 students) (Likely to be completed by December 2023) | 4844 |
| 56. | New Girls' Hostel (capacity 177 students) (Likely to be completed by March 2024) | 5187 |
| 57. | International Scientists Hostel (capacity 22 rooms) | 1698 |
| 58. | Hostel for married PG students at Hisar (capacity/Unit 36) | 1713 |
| 59. | Boys' Hostel at Kaul (capacity 204 students) | 3808 |
| 60. | Girls' Hostel at Kaul (capacity 58 students) | 1331 |
| 61. | Boys' Hostel at Bawal (Phase-I) (capacity 33 students) | 1161 |
| 62. | Girls' Hostel at Bawal (Phase-I) (capacity 23 students) | 1040 |
| 63. | Boys' Hostel at Bawal (Phase-II) (capacity 70 students) | 1146 |
| 64. | Girls' Student Hostel at Bawal (Phase-II) (capacity 28 students) | 911 |
| 65. | Boys' Student Hostel at Bawal (capacity 201 students) (under bidding stage for construction) | 5520 |
| 66. | Girls' Student Hostel at Bawal (capacity 176 students) (Likely to be completed by December 2024) | 5520 |
| **III** | **RESIDENTIAL HOUSES** | |
| a. | At Hisar 996 houses/staff quarters | 82421 |
| b. | At Hisar 240 houses/staff quarters (Likely to be completed by December 2024) | 36108 |
| c. | At outstations, i.e., KVKs/research stations 241 houses/staff quarters. | 15829 |

## PHYSICAL FACILITIES AND SUPPORT UNITS

### Administrative Blocks

- Vice-Chancellor's office
- Registrar's office
- Comptroller's office
- Store Purchase office
- Engineering Unit & Estate office
- Audit department
- Security office

### Office of Dean, Post Graduate Studies

### Directorates

- Research
- Extension
- Farms
- Human Resource Management
- Publications
- Students Welfare
- Seed Farm

### Colleges

1. College of Agriculture, Hisar
2. I.C. College of Home Sciences
3. College of Basic Sciences & Humanities
4. College of Agricultural Engineering & Technology
5. College of Fisheries Science
6. College of Biotechnology
7. College of Agriculture, Kaul

8. College of Agriculture, Bawal

**Support facilities**

- ♦ Library
- ♦ Faculty Club
- ♦ Campus Hospital
- ♦ Community Centre
- ♦ Shopping Complex
- ♦ Landscaping
- ♦ Campus School

**Support facilities at outstations**

- ◊ Regional Research Stations at Uchani (Karnal), Bawal, Rohtak, Sirsa, Kaul.
- ◊ Sub-Research Stations: Buria (Yamunanagar), Balsamand (Hisar)
- ◊ Nutri-Cereal Research Station: Gokulpura (Bhiwani)
- ◊ Krishi Vgyan Kendra (KVK): Sirsa, Bawal, Ambala, Bhiwani, Jind, Kurukshetra, Sonepat, Kaithal, Panipat, Sadalpur (Hisar), Yamunanagar, Mandkola, Faridabad, Jhajjar, Fatehabad, Mohindergarh, Rohtak, Panchkula, Karnal
- ◊ Soil testing laboratories: Hisar, Rohtak, Karnal, Ambala, Sirsa, Bhiwani

**Administration Block**

The Administration Buildings including Administrative Block, Estate Office, Post-Graduate Studies Block, ABIC, Exhibition Hall are located within the core centre which are easily accessible from different colleges, hostels and other community facilities. A separate administrative building has been built centrally in the campus core area to house the offices of Vice-Chancellor, Registrar, Comptroller and Directorate of Research.

Administrative Block, CCSHAU, Hisar

Directorate of Research, CCSHAU, Hisar

Offices of the Deans are located in their respective colleges having an office chamber of Dean with an area of 500 sq. ft.

The Offices of the Directorate of Extension Education, Dean, Post-Graduate Studies, Directorate of Human Resource Management and the Estate Officer-cum Superintending Engineer are located in separate buildings.

Directorate of Human Resource Management

Estate office, CCSHAU, Hisar

The Sports Complex, Directorate of Students Welfare, Guest House, workshops and University Hospital are also centrally located.

**Directorate of Students' Welfare**

Giri centre sports complex

**Colleges**

The University has well planned spacious institutional buildings to accommodate the constituent eight colleges as per the following facilities

| College | Classrooms | Laboratories | Seminar rooms |
|---|---|---|---|
| College of Agriculture, Hisar | 15 | 60 | 11 |
| College of Agriculture, Kaul | 4 | 12 | 1 |
| College of Agricultural Engineering & Technology | 4 | 11 | 1 |
| College of Basic Sciences & Humanities | 8 | 52 | 3 |
| IC College of Home Sciences | 7 | 30 | 4 |
| College of Agriculture, Bawal | 6 | 5 | 1 |
| College of Fisheries Science | 2 | 3 | 1 |
| College of Biotechnology | 5 | 8 | 1 |

I.C. College of Home Sciences

College of Agriculture, Hisar

College of Agricultural Engineering & Technology

College of Basic Sciences & Humanities

College of Agriculture, Bawal

College of Agriculture, Kaul

College of Biotechnology

College of Fisheries Science

**Classrooms and laboratories**

CCS Haryana Agricultural University has well equipped class rooms and laboratories. Teaching work in the undergraduate laboratories is performed in the groups of 20 students. Laboratories have, therefore, been planned at a rate of 40 sq. ft. per student. Average size of an undergraduate laboratory for scientific experiments is 24'x36'. In case of departments from College of Basic Sciences and Humanities, the laboratory size is 24'x24'. In college of Home Sciences, the laboratories of preservation, weaving and tailoring are in the size of 40'x24'. For postgraduate students, the laboratory size is based on 5 and 12 students', space and average size is 24'x'24' and 24'x36', respectively. In the College of Basic Sciences & Humanities, some laboratories have been classified as light proof and dust proof and these have been suitably located. Normally, the laboratories meant for undergraduates have been restricted to ground floor and first floor. Some of the special laboratories need air conditioning, so necessary space has been reserved where air conditioning equipment has been installed. The Central Instrumentation Cell has been provided in the Agricultural Engineering Workshop Unit. A Central Laboratory has also been provided at the University which caters to the requirement of high-end analytical equipments for various research activities. To ensure uninterrupted power supply to the laboratories for conducting experiments, stand by generators have been provided. The optimum number of undergraduate students for a lecture is between 50 to 60 whereas the class rooms have been designed to accommodate 60-70 students. Each department has a seminar room and each college has an auditorium with the capacity of 300 persons in the College of Basic Sciences & Humanities, and IC College of Home Sciences. The College of Agriculture, Hisar has an auditorium with a capacity of 500 persons.

**Instructional farms and poly houses**

In 113-hectare land, instructional farms/ areas of various departments are located namely Vegetable Science, Forestry, Agronomy, Agril. Metereology, Nemotology, Plant Pathology, Horticulture, Forage Section, Medicinal & Aromatic Plant Section, and College of Agricultural Engineering & Technology. The farming practical classes and research work are carried out there.

To facilitate experiments and research work, 76 poly houses/net houses/screen houses are in existence for the Departments of Forestry, Agronomy, Nemotology, Entomology, Plant Pathology, Soil Science, Horticulture, Wheat & Barley Sections, Oil Seeds Section, Medicinal & Aromatic Plants Section and College of Basic Science & Humanities.

**Seed farm/Seed production units**

Department of Seed Science & Technology at CCS Haryana Agricultural University, Hisar came in to existence in February, 2000. In 1977, Govt. of India (ICAR) selected this centre during the first phase of National Seed Project to strengthen the breeder seed production and seed technology research

programme under the World Bank Project. Department of Seed Science and Technology has about 72 hectares area under breeder seed production where more than thousand quintals of breeder seed of about 35 varieties of 15 crops is produced every year against GOI indent.

Directorate of Farms in 367 hectares is continuously producing quality seeds since the inception of the University. Ram Dhan Singh Seed Farm in the University was established 1999 with the objective to produce quality seed or planting material of major field and horticultural crops in an area of 1500 hectares approximately.

**Hostels**

To accommodate the students (boys & girls), 14 Hostels (7 hostels for boys, 6 hostels for girls & 1 hostel for married PG students) are there for 1845 students (1069 boys, 740 girls & 36 married PG students). Four more hostels (1 hostel for boys & 3 hostels for Girls) are under construction for 704 students.

**Agri Business Incubation Centre (ABIC)**

CCSHAU, Hisar has taken initiative to set up "Agri Business Incubation Centre (ABIC)" for supporting startups in Agri and Allied Sectors, supported by National Bank for Agriculture and Rural Development (NABARD) and Rashtriya Krishi Vikas Yojana (RKVY, MOA&FW).

**Deendayal Upadhyaya Centre of Excellance for Organic Farming**

Deendayal Upadhyay Centre of Excellence for Organic Farming was established on October 31, 2017 in an area of about 150 acres at CCSHAU, Hisar for addressing the need of farmers towards organic farming This farm is well equipped with an automated micro-irrigation system with ample water storage capacity.

**Agricultural Technology Information Centre (Kisan Seva Kendra)**

ATIC, CCSHAU provides a single window delivery system for the products and species available from CCSHAU to the farmers and other interested groups and also facilitates direct access to the farmers to the institutional resources available in terms of technology, advice, technology products etc., for reducing technology dissemination losses. A telephonic helpline service is provided to farmers for addressing their queries.

**Dr Mangal Sein Agricultural Science Museum**

The Dr. Mangal Sain Museum is located inside the Gandhi Bhawan building, CCSHAU, Hisar. It was upgraded and inaugurated in 2022. The museum houses the collection of antiquities showcasing development of agriculture and rural society in Haryana. The museum has a scale model of central complex of CCSHAU, a mixed reality studio, different soil samples from Haryana, digital platform showcasing pioneering projects of CCSHAU, traditional and folklores of Haryana, a library, and a lot more.

**Innovation Centre for Agri waste Management**

The University has established an Innovation Centre for Agri waste Management (ICAWM) with an aims to identify, synergistically develop and propagate circular economy based innovative technologies for conversion of crop residue into eco- friendly, technically efficient and economically viable Bio-waste value added products.

**Agri-tourism Center**

Agri-tourism Centre was established in 10.5 Acres and it is in the process of continuous upgradation and expansion to aid students, farmers and entrepreneurs in their respective ventures. Annual Flower Shows were organized in the Botanical Garden and Agri-tourism Centre. The flower shows were open to public for participation in different competitive categories also.

**Maintenance Cell**

To provide facilities to the students, staff and to maintain the University infrastructure, there is Maintenance Cell under the control of Engineering Unit of this University which provides day to day maintenance, annual & special repair/maintenance of institutional/administrative buildings and hostels, this cell also ensures water supply, sewerage system, power supply & emergency/generator power supply etc. through its regular/outsourced staff.

**Waste Management system**

The sewage disposal of the whole campus including farm areas is treated through Sewage Treatment Plant (STP) of 2.50 MLD capacity installed in farm area to re-use the water after treatment for irrigation purposes.

Sewage treatment plant at CCSHAU, Hisar

As far as solid waste/household waste is concerned its segregation is done in three categories i.e. (i) Organic waste, (ii) Dry waste, (iii) Reject waste at the level of each unit and it is collected with the help of rickshaws/mechanical means. Then dry waste is re-cycled and organic waste is fed to the animals or is composted. Rest of the waste is filled in dumper placers and is disposed off at the site where municipal waste of the city is dumped.

Solid waste management system at CCSHAU, Hisar

**Landscape Unit**

Landscape Unit (LSU) is very important unit of CCSHAU which maintains landscaping in campus of University. Landscape area comprises of residential as well as offices/colleges/sports complex (Giri center) etc. Unit maintains lawns, grasses and shrubs, arranges and organizes plantation drives in the University campus on various occasions. Nursery of landscape unit is having rich biodiversity of about 200 species including, trees, shrubs, herbs, climbers, aquatic plants, seasonal flowers and plants etc. LSU have various implements/instruments like, brush cutters, shrub master, JCB, tractors, grass cutting machines and hydraulic lift for maintaining and managing the canopy of trees.

**6.6.7.2. IT Infrastructure:** *A brief report on University ARIS Cell shall be given. Give the information on LAN connectivity, Wi-Fi/internet facilities in campus and hostels; Computer based library management, video conferencing facilities, smart class rooms and workshops etc.*

The University has ARIS Cell-cum-Computer Centre at COBS&H with modern facilities which includes LAN connectivity, Wi-fi services in campus and hostels, Servers, Robotics Lab & workshop, computer laboratory in each college, Nehru library and Directorate of Human Resourse Management. The cell is looking after *e-portal* management, website management and provides support to students and faculty for internet, *e-portal* and other computer related issues. The faculty and students are provided with login credentials by the Cell for access to *e-portal* and University website.

- **LAN Connectivity**

  The installation of Campus-wide GIGABIT Network has been implemented with the funds from AHRD project. The Campus wide network is spread over more than 18 km through fiber optic cables and is providing Internet facility to the stakeholders through 1 GBPS (Shared) leased line provided by National Knowledge Network (NKN). A firewall (Sophos) has been installed to check the internet security.

- **Wi-Fi Internet Facility**

  Wi-Fi facility has been provided to students at their hostels as well as at colleges/offices for all the stakeholders.

- **University Servers**

  One workstation – Intel ® Xeon Silver 4316 CPU is used for online statistical analysis and one Dell server running Linux and Windows server operating system is being used for application server and radius server.

- **Computer based library management at Nehru Library**

  There is an excellent computer-based library management at Nehru Library. It possesses a rich collection of books, bound volumes of journals and other documents. The Users can borrow and return the books at issue/return counter through RFID Kiosks at their own using RFID enabled identity cards. Koha and RFID softwares are being used for all automated services. OPAC (Online Public Access Catalogue) helps users to access the books and other documents so that they could easily locate their desired documents in the library. Web version of OPAC can also be accessed using Internet to search catalogue of local library as well as all agricultural libraries of India. The library provides internet surfing facility to students and teachers of the University for academic and research purposes. For this purpose, the library has a well-equipped computer lab consisting of 32 latest PCs with internet facility. Whereas, provision of 32 internet points has been provided for laptop users. Library has a well-equipped smart classroom for teaching M.Sc. and Ph.D. students. A well-equipped conference room is also being used in library for academic purposes.

Inner view of Nehru Library

- **Video conferencing facility**

  The University has installed the video conferencing facility at 10 locations of the University (College of Basic Sciences & Humanities, College of Agriculture, College of Agricultural Engineering and Technology, I.C. College of Home Science, Directorate of Human Resource Management, University Library, Directorate of Research, Dean Post Graduate Studies office, Registrar's office along with Vice Chancellor's Secretariat) to facilitate and enhance communication with educational/technical institutions at National/International levels.

- **Smart class rooms**

  Smart class rooms with audio visual facilities for teaching the students have been provided to each college of the University as well as in the University Library. It is also used for delivering lectures/interactions during trainings/workshop etc. Further, almost all the smart classrooms are equipped with 4 K ultra interactive flat panel (IFP) with operating system, which empower teachers as well as inspires students to learn more, share their knowledge and interact with others.

**6.6.7.3. Students and Staff Amenities:** *Give brief report on the sporting and recreational activities, employment and career advice, child care, financial advice and food services, entertainment avenues etc. available in the campus.*

**Sporting and recreational facilities**

The University has an excellent facility for sports and recreational activities. Giri Centre, a student welfare and activity centre is a distinguising component of the University. Two indoor badminton courts with seating for 600 spectators, two indoor squash courts, a shooting range, a multipurpose indoor gymnasium with seating for more than a thousand spectators that can also be used for gymnastics, wrestling, boxing, badminton, volleyball, basketball, debates, and student meetings, a cricket pavilion, and an athletic stadium with synthetic track are the facilities offered in this complex. On campus, there are sufficient facilities for students interested in music, art, photography, debating, trekking etc.

Further details are given in Sports and Cultural Facilities **secion 6.6.6.4.**

Combat Hall, CCSHAU, Hisar

Madan Lal Dhingra Multipurpose Hall

**Guest Houses & Food Services**

The University has modern and well-equipped Guest Houses. A Faculty House (74 rooms), Farmers Hostel (48 rooms for 96 persons) & Kisan Ashram (capacity of 40 persons), International Scientists Hostel (22 rooms) are in perfect existance.

For easy availability of food services, there is separate canteen facility in each college for staff and students. The Faculty House has mess facility with catering services. Food services are available in all hostels also in addition to food facilities at shopping complex of the University. On order catering services are available in Faculty Club for the event like marriages, personal and private family events of faculty members.

**Shopping complex, banks and post office**

The University has the facilities of shopping centre, banks and post office located in the heart of office of the campus which cater to the daily needs of students and staff.

**Faculty Club**

There is well functional Faculty Club with all the facilities of recreation and entertainment. Regular get-togethers of the faculty and their families are held in the Club. The Club also has the facility of indoor games like Squash, Table Tennis, Billiards and Badminton etc. There is a Swimming Pool of international standards in the Club.

Faculty Club, CCSHAU, Hisar

**Community Centre**

Community Centre has facility for University Staff for family functions and social activities. This is also equipped with indoor game facility.

**Employment and career advice through Counselling and Placement Cell**

The Counselling & Placement Cell of the Directorate of Students' Welfare in association with the Department of Employment, Haryana, has set up a University Employment Information and Guidance Bureau which provides information to the students on job opportunities, competitive examinations, scholarships/fellowships etc. It also conducts trainings/coaching classes for various entrance examinations, and explores the job opportunities in the public and private sectors and arranges the campus interviews. Besides, the Centre brings out Career Bulletin, a fortnightly magazine for students of the University to keep them abreast information on job opportunities, admissions, scholarships, fellowships etc. in India & abroad. The cell has been assigned four mandates *viz*., imparting trainings, placements, liaison with leading industries and guidance to University students. The Students C&P Cell coordinates the task of organizing campus interviews for the outgoing students. Various activites and achievements by the cell are given under student development activities section **6.6.6.3**.

**Health Facility**

University Health Service provides comprehensive primary health clinic for students, faculty, staff and other campus residents. The University has a fully functional 20 bedded Campus Hospital providing medical care and health cover to students, employees and their dependents and retired employees of the University.

Campus Hospital, CCSHAU, Hisar

**Childcare facilities**

Childcare facilities are available in the University in the I.C. College of Home Sciences. The Department of Human Development and Family Studies runs a pre-school laboratory which provides day-care to children and counseling to parents.

Campus School caters to educational requirements of the children of the University staff upto Higher Secondary standard education.

**Financial advice**

The financial advice to the University and faculty members is provided by Chartered Accountant hired by the University for the said purpose. In addition, specific lectures are also delivered by experts

from banks located in the University. The financial management of the University is being taken care by the office of Comptroller, CCSHAU.

**Cultural & entertainment avenues**

The University has four well equipped modern auditoriums on its campus for undertaking cultural and entertainment activities. A variety of cultural activities, seminars, exhibitions, international/national symposia/conferences/workshops, and lectures are held on a regular basis in the Indira Gandhi Auditorium and the auditoriums of the colleges. Each hostel has a Reading Hall-cum-TV Room for recreation of the students. Indoor games facilities are also available in hostels.

## 6.6.8 Financial Resource Management

**6.6.8.1. Budget allocation:** *Give the budget allocation (College wise) for salary, contingency and amount received through the ICAR development grant during last five years. Give a note on the sufficiency of the fund to meet the academic requirement in last five years.*

**ICAR Development Grant (2018-19 to 2022-23) – Rs. In Lakh**

| Sr. No. | Year | COA, Hisar | COA, Kaul | COAE&T | COBS&H | COHS | Others* | Total |

### 6.6.8.5 Financial Powers Delegation to Deans/Heads

At CCSHAU, decentralization of power is in practice and there is delegation of financial and administrative powers for smooth and seamless functioning of the University. The Deans, Directors and other Statutory Officers have been accorded considerable financial and sanctioning autonomy and administrative powers.

The list of administrative and financial powers delegated to the Officers of the University has been given in **Act and Statutes** at **CHAPTER XXIV (SD-III)**

The financial and sanctioning authority given to the Officers of the University has been given in **Act and Statutes** at **CHAPTER XXIV (SD-III)**

### 6.6.8.6 Finance Utilization: *Mention in brief about the per cent finance utilization in last five years:*

| Years | Total Budget | Total Expenditure | Per cent utilization |
|---|---|---|---|
| 2018-19 | 543.24 | 468.93 | 86.32 |
| 2019-20 | 647.52 | 498.13 | 76.93 |
| 2020-21 | 710.06 | 576.51 | 81.20 |
| 2021-22 | 788.95 | 672.09 | 85.19 |
| 2022-23 (Unaudited) | 775.67 | 721.81 | 93.06 |

### 6.6.9 Accomplishments

**6.6.9.1. Awards for the University:** *Provide the detailed list of Regional, National and International Awards received by the University in last five years.*

**Regional**

- "Haryana Kisan Ratna Award" by Government of Haryana for the year 2019
- "Krishi Shiksha Samman" on the occasion of Mahindra Samridhi India Agri Awards 2019 by Mahindra & Mahindra Ltd.

**National**

- Best AICRP Centre Award Sorghum for overall Performance (2021-22)
- Best performing ICAR-AICRP on Pearl millet Centre Award (2021-22)
- Best AICRP Centre Award on Spices ICAR (2021)
- Chaudhary Devi Lal Outstanding AICRP Award on Farm Implements and Machinery (2019)
- Best AICRP Centre Award of MULLaRP (2019)
- Best AICRP Centre Award of Weed Control (2019)
- Best AICRP Centre Award of Sugarcane (2019)
- Best NICRA KVK Award-2019 to KVK Yamunanagar of ATARI Zone II

**6.6.9.2. Accreditation Report from ICAR/Other Agencies:** *Whether the University and its Colleges were accredited by the ICAR and other agencies in the past? What was the recommendation of the accreditation agencies? Whether the University has taken the action taken report and submitted the reply to the accreditation agencies? Provide the detailed action taken report for each observation.*

**Yes, CCSHAU and its constituent colleges have been accredited by ICAR since 2001.** TheUniversity and its constituent colleges were accredited by the ICAR for five years vide ICAR letter No. 1/7/2018-EQR dated 25.10.2018. The remarks and suggestions of NAHEB of ICAR have been addressed and action take is as follow:

| Sr. No. | Recommendation of the Board | Action Taken |
|---|---|---|
| **COLLEGE OF AGRICULTURE, HISAR** | | |
| 1. | There is need to conduct practicals and hands-on-training as per guidelines. | Practicals are being conducted through real time exposure of the students to the fields. Students do practical experiments in screen houses and field. Hands-on-trainings or learning by doing is in practice through basic instructions on what students will be learning and finally integration of what is accomplished during hands on training including marketing of the end product is being imparted as per the guidelines. |
| 2. | Feedback from parents and farmers should also be collected | Regular feedback from parents is collected in the proforma devised for the purpose. Feedback from farmers is collected during RAWE visit to the villages, *Krishi Melas*, *Kisan Goshthies* and *Kisan Diwas* etc. |
| 3. | ELP should be strengthened. ELP modules need to be managed as per guidelines | ELP on Hi-tech Agriculture<br>The Experiential learning programme (ELP on Hi-tech Agriculture) funded by ICAR is running in Department of Horticulture. In this ELP students acquire the skills of plug tray |

| | | |
|---|---|---|
| | | nursery raising, propagation techniques of ornamental plants, potting media preparation and care & maintenance of potted plants, besides learning of marketing skills of nursery & potted plants.<br>ELP on Peri-Urban Agriculture<br>The ELP module Peri-Urban Agriculture (ELP-8) was started in the Department of Vegetable Science in June 2018-19. There were 14 students of undergraduate and post graduate of College of Agriculture. The HOD Department of Vegetable Science has provided one-acre area for the ELP activities. The students raised the major crop like potato and onion in the farm and the revenue earned has been deposited as a revolving funds. |
| 4. | 1CT needs to be utilized for effective course curricula delivery | The college has a total of eleven smart classrooms, which are regularly used for teaching. Besides, teachers also make use of other web resources for imparting instruction. |
| 5. | ICT may be utilized for curricula delivery. ICT facilities for teaching may be encouraged. | The University's campus is ICT-enabled, allowing for e-learning and e-connection. Each department of the college has developed a smart classroom with interactive boards.<br>Even during the era COVID-19 pandemic, teaching continued uninterrupted at CCSHAU because University campus provides an e-learning and e-connect environment through virtual class rooms and online classes. |
| 6. | Placement of students requires proper attention. | All the necessary skill enhancement trainings are being imparted to the students for better placements. Brain storming sessions are organized with industries to achieve better placement. UG final year students are being sent to reputed international institutes for trainings under NAHEP-IDP project. Corporate and alumni of the University are being contacted for better placement of students. |
| 7. | Laboratories need renovation. | Laboratories of the College have been strengthened with latest equipments after renovation. |
| 8. | Staff strength may be further increased | Over the past years both the faculty and staff have been recruited. The recruitment is a continuous process and the recruitment in various departments is going on. |
| 9. | Use of ICT for e-joumals and e-resources was found minimum. | A large number e-Journals and e-resources have been subscribed and procured by the University Library and our students are making best use of them. (Details given under section library 6.6.2.3.) |
| 10. | MBA Programme needs more interaction with industry. Experts from Industries should be invited to share their experience with students. | Industry interaction has been strengthened. Students undergo onsite industrial training and work on assigned projects. Workshop on “Agripreneurship: Transforming an Idea into a New Business” was also carried out. |
| 11. | Biological Waste Disposal facility: This facility needs to be developed in hostel area for effective waste disposal. | There is small quantity of biological waste and it is being managed appropriately. |
| 12. | The attrition rate ranges between 18 & 39%. Reasons should be analyzed & corrective action taken. | The causes of attrition rate have been analysed. The Agriculture Education Fair is organized in the schools for making awareness about the importance of agricultural education. |
| 13. | Language Laboratory: It needs to be established. | A centralized Language Laboratory in the Department of Language & Haryanvi Culture has been established. |
| 14. | Personality Development:<br>Director Students' Welfare is entrusted. Experts from various fields should be invited. | Personality Development Trainings and other skill enhancement trainings are being conducted under NAHEP-IDP projects. Director Students' Welfare also conducted regular training programmes in the filed of personality development and communication skills. Experts from outside agencies are also invited. |

| | | |
|---|---|---|
| **COLLEGE OF AGRICULTURAL ENGINEERING & TECHNOLOGY** | | |
| 1. | The class rooms and existing laboratory facilities are satisfactory. More equipment should be added to cater the need of the 5th Deans' Committee recommendations. | The laboratories of the college have been upgraded and equipment added in accordance with the 5th Deans' Committee recommendations. (Details in the College SSR) |
| 2. | Students are getting practical/hands-on training on different equipment and lab practices. ELP facilities need to be created in all departments. | At present the college has two University supported ELP's *viz*., Center for Agro Processing & Engineering Services (CAPES); Compost making and Bio-fertilizers Production in which students get registered and learn practical skills. |
| 3. | Faculty strength is sufficient for UG teaching. However, additional faculty positions for PG teaching should be provided as per norms. There should be one post of Professor | Over the past years both the faculty and staff have been recruited. The recruitment is a continuous process and the recruitment in various departments is going on. |
| **COLLEGE OF BASIC SCIENCES & HUMANITIES** | | |
| 1. | ICT application in curricula delivery should be improved. More smart classrooms need to be set up. Faculty may be trained to use the smart interactive Boards. Mobile Apps, Mails and other tools may be utilized for teaching. | The college is ICT-enabled, allowing for e-learning and e-connection. Most of the departments in the college have smart class rooms, with interactive boards.<br>The faculty is adept in the use of mobile Apps for teaching. Online resources are extensively used. The teaching work of the college did not suffer even during the pandemic and the teachers taught through online platforms like Google Meet, Zoom, Microsoft team etc. |
| 2. | Looking into the student intake in PG and Ph.D. programmes, there is needed to fill all vacant faculty positions sanctioned for the College. | Over the past years both the faculty and staff have been recruited in all departments of the college. The recruitment is a continuous process and the filling of vacant positions in various departments is in progress. |
| 3. | Students need guidance on employability. Regular counselling and coaching classes need to be conducted for personality development. Placement Cell needs to be more proactive in arranging campus interview for the students. D.S.W. and College Dean need to motivate students for their overall personality development so that they should improve their skill suitable for prospective employers. Counselling and motivation are required to pursue students to clear the National examinations. | The students are being guided for employability through various platforms. The Directorate of Students' Welfare organizes training programmes to prepare students for various competitive exams. International cell of the University organises various orientation programmes to prepare the students for international fellowships etc. The performance of the students of the college has shown considerable improvement due to the efforts of the College Dean and the faculty. Ample number of students has cleared national level exams and the recipients of various fellowship (CSIR, ICAR, DBT, RGNF, Inspire, HSCST etc.). Many students of the college got placement in different organisations. |
| 4. | There is need to establish a language laboratory. | A well equipped Language Laboratory has been established in the Department of Language and Haryanvi Culture. This lab is a centralized facility which caters to the needs of all UG & PG students of the University. |
| 5. | There is need to establish a separate examination halI for the College.<br>There is need to establish Exhibition Hall and Museum for the College. | The College has established a separate Examination Hall, Exhibition Hall and Museum. |

| | | |
|---|---|---|
| **I.C. COLLEGE OF HOME SCIENCE** | | |
| 1. | Low faculty strength and technical staff | The recruitment is a continuous process and the recruitment in various departments of the College is going on. During the last five years recruitment has been done for teaching, research and extension faculty as well as for supporting staff. |
| 2. | Faculty is good but students need to be encouraged for academic awards at various levels. | The performance of the students of the College has shown a marked improvement due to the efforts of the Dean and faculty of the College. There is an increasing trend in the number of students for achieving academic excellence in terms of various national fellowships/ awards. The College has also been ranked under 50 in All IndiaNIRF ranking for college categoryduring 2019-20, 2020-21 and 2021-22. |
| 3. | More efforts needby arranginginteractionwith industry andother govt.department. | Industry interaction has beenstrengthened by arranging stakeholdersmeet to have dialogue with them.Inplant training with industry ismandatory part of the UG degreeprogramme. The students undergoonsite industrial training of threemonths and work on assigned projects.<br>They are offered placement also. |
| **COLLEGE OF AGRICULTURE, KAUL** | | |
| 1. | ICT application needs to be strengthened. | The College has a total of 4 smart classrooms, which are regularly used for teaching. Besides, teachers also make use of other web resources like Wi-Fi facilities for online classes, trainings etc. for imparting instruction. Even during the eraCOVID-19 pandemic, teaching continued smoothly through virtual class rooms and online classes. |
| 2. | The faculty strength of the College needs to be improved by filling all vacant posts. | The faculty has been recruited fully and the process is continuing. |
| 3. | Technical and supporting staff vacant posts should be filled on priority. | Almost all the posts are filled and remaining vacant posts are going to be filled soon. |
| **UNIVERSITY** | | |
| 1. | The Vision and Mission document need to be revised with well defined goals with time bound activities. | Vision Document-2030 with clearly defined goals was framed and implemented by the University and its constituents colleges. Now, vision-2047 with clearly defined goals has been drafted in agreement with the current requirements in respect of the thrust areas of the University. |
| 2. | BiometricattendanceSystemforteachingstaffmaybeputinplace | Biometric Attendance System is installed in each office and department of all the colleges and the employees mark their attendance through Biometric instruments. CCSHAU, Hisar is a research institution and its faculty visits the research farms/labs in odd hours and also before or after office hours. Biometric attendance System for teaching staff is not there since there is a lot of mobility of teachers. Teachers go to fields or their classes in other colleges directly as the duty may demand. Thus, it is difficult to have the biometric attendance of teachers. |
| 3. | Collaboration with national and international organizations is in place. Theuniversity has signed non-exclusiveagreementwith industries. However, to improve the job prospects for the students and visibilityof the university, further coordination with industry is necessary. | i) For exposure to placement procedure and consequent placement in reputed companies, final year students have one month internship in agri. industries.<br>ii) A good coordination with different companies is established by the C&P cell for facilitating the placement of the students.<br>iii) Sessions are conducted from time to time to motivate the students to work in agriculture based industries and to take up agripreneurship.<br>iv) An International Cell has especially been established in the University to cater to the needs of foreign students for their safe, |

| | | |
|---|---|---|
| | | comfortable and useful stay in India. The University has International partnership in academics in the field of agricultural Research and Education with reputed international Institutes. Many foreign students from various countries have completed UG and PG degree programmes in various disciplines.<br>CCSHAU has MoUs with different international organizations for academic and research pursuits. Three Ph.D. students went to pursue Dual Degree programme during 2021 at Western Sydney University. Two UG students from CCSHAU have been attending International Students Summit in Tokyo University of Agri., Tokyo, Japan every year since 2019. Under USAID sponsored GRAIN project of Michigan State University, USA eleven M.Sc., three Ph.D. students have completed their degrees. |
| 4. | Moreeffortsneededforinnovationinacademicactivitieslikenew teaching methods and learning tools. | The University's campus is ICT-enabled, allowing for e-learning and e-connection. All the colleges have developed smart classrooms with interactive boards/LED projectors.<br>The faculty is adept in the use of mobile Apps for teaching. Online resources are extensively used. The teaching work of the University did not suffer even during the pandemic and the teachers taught through online platforms like Google Meet, Zoom, Microsoft Teams etc |
| 5. | Adequate infrastructure and good systems are inplace. Early installation of RFID system recommended.<br>Books published by the University Academic Staff should be displayed in the Library | 1. "RFID System was fully implemented in the Nehru Library in the year 2018. All the documents were tagged with RFID tags, RFID tagging was integrated with KOHA software under which all documents are being issued. The books are being returned using Book drop machines since 2018. Every book after cataloguing is being tagged under RFID technology. All books acquired every year are processed with RFID tagging.<br>2. Books published by the University Academic Staff are displayed in the faculty collection room situated on the third floor of the Library. |
| 6. | Research Programme Committeemeetingsmaybeconducteda nnually | Research Programme Committee meeting was conducted on 16.10.2020. Next meeting will be conducted very shortly. However, it will be conducted annually in future.<br>Nevertheless, majority of the research objectives are extensively discussed and taken up in the Technical Programme meetings of the respective departments. Mid- term appraisal meetings are also conducted regularly. |
| 7. | Technologies Developed and their Adoption<br>The university has developed about 36varieties ofdifferent crops and other field technologies for the benefit of farming community. It is desired that university should come out with a standard mechanism to study its adoption and impact. | The experiments on adoption studies have been incorporated in the Technical programmes of Departments of Extension Education, Agricultural Economics and Sociology. Moreover, adoption related studies are also being included in the research programmes of post-graduate students. |
| 8. | CSR funds from two companies are received for energy installation. University should make efforts to attract corporate groups to help its R&D programmes. | The university has constituted a CSR committee under the chairmanship of Additional Director of Research for this purpose. The committee visited several corporate offices for providing funds for R&D activities. Funds have been received at CCSHAU RRS, Bawal under CSR for strengthening research activities. Continuous efforts are being made to attract funds for R&D under CSR. The University has received funds from various agencies for developing University infrastructure. The details of CSR funding have also been given under section |

| | | |
|---|---|---|
| | | 6.6.9.6. |
| 9. | Students Counselling and Placement Cell is working at university level with Coordinators from each college. 500 students got placed during 2012-17. However, the placement activities need to be strengthened for management graduates and master's students. | i) MBA Placement Cell strengthening is being done through college coordinators.<br>ii) Collaboration with other universities is being done for the recruitment process for general MBA students, particularly GJU MBA department.<br>iii) MBA (Agribusiness) students are placed in industry for Internship Programmes so that they can be absorbed by the same company.<br>iv) Liaison with the corporate sector has been established by organizing career sessions and interactions. The placement has picked up considerably more and more students getting placed (Details have been given under section 6.6.6.5.). |
| 10. | There is need to establishment art classrooms at the departmental level | Smartclassrooms have been/are being established at the departmental level. Out of 55 lecture halls in the University 40 are having smart classrooms. |

**6.6.9.3. InterInstitutional Standings:** *Status of the University in the ranking announced by agencies for academics, research, extension, sports/games, cultural events etc.*

- ICAR 4th ranking amongst Agricultural Universities 2018
- Ranked 3rdin Atal Ranking of Institutions on Innovation Achievements (ARIIA-2020)
- Ranked 4th in Atal Ranking of Institutions on Innovation Achievements (ARIIA-2021)
- I.C. College of Home Science, CCSHAU, Hisar ranked 49th, 38thand 42th across India in NIRF ranking 2020, 2021 and 2022, respectively by MHRD

The other rankings have also been covered under point **6.6.2.9.National Ranking (ICAR/MHRD)**

**6.6.9.4. Socio-economic Impact:** *Elaborate data based impact of various activities/ recommendation on upliftment of the economics and social status of the farmers*.

**Skill Development Trainings**

Trainings are regarded as one of the integral components of the capacity building process as part of any development programme. Conducting need based and skill-oriented trainings to for farmers, farm women and rural youth is one of the major activities of the KVK. Training programmes on Mushroom Production, Bee Keeping, Vermi Compositing, Fruit and Vegetable Preservation, Nursery Production, Milk and Milk Products, Seed Production, Dairy Farming, Garment Cutting and Tailoring & Bakery have been organized by KVKs which were received well by the farmers as reflected by the participation of farmers, youth and women in large numbers. The details of various trainings organized by SNIATTE have already been covered under section 6.6.4.2 Directorate of Extension Educatoion in the sub-heading Extesnion Advisory Mechanism.

Due to presence of resources for Bee Keeping and continuous efforts of KVKs through its long duration training programmes, Bee Keeping work has flourished in the State and has been adopted by a large number of farmers. Some of best bee keepers are earning more than Rs. 10-15 lakhs/ year through Bee Keeping. They also generated 670 men days' employment. Bee Keeping has become the main income generation activity of these farmers.

Vermi composting is a supportive component of farming and is a primary source of nutrients for crop production in the direction of organic farming. Scientists of KVKs have made concerted efforts to develop knowledge and skill of rural youths regarding Vermi composting enterprise. The results of the efforts exhibited seen with significant increase in soil fertility and crop yield. At present

large number of microbial decomposition units (572) have been established under Swachhata Action Plan 2018-23. The farmers have undertaken this enterprise in the State and earning additional income of approximately Rs. 48000/- per year.

Preparation of bakery products, pickles, chutney, juices, squashes etc have been accepted by women as important income generation activity. About 20 percent of the participants of the training under this component have set up their own ventures. Most of the participants utilized skills obtained during trainings for use at household level. These skills have developed more confidence in women through saving budget of their kitchen.

Intensive coaching is given to rural women on garment construction and tailoring. About 45 percent of participants utilized the skills for their own use, whereas 25 percents of the participants have their tailoring shops in the village/nearby town.About 30 percent participants work for their own use as well as stitch for others for free time during additional income. This has provided women an alternative way to earn some extra money to improve family livelihood.

Dairy Farming is a supportive component of farming and has become primary source of income for many farm families. KVK scientists have made concerted efforts to develop knowledge and skill of rural youths regarding dairy farming. The results of the efforts can be seen with significant increase in dairy units. Income to the tune of 2.5-3.0 lakh and 10.0-12.0 lakh is obtained from small and hi-tech dairy units respectively.

Apart from the above-mentioned enterprises, the enterprises namely seed production, spray techniques, and nursery raising of fruit and vegetable crops have also been adopted at small scale. However, substantive income is being generated by adoption of these enterprises. At present farmers of the state are practising seed production programmes of vegetable and field crops.

**Impact of OFTs, FLDs and CFLDs**

One of the major tasks of the KVKs is to search for suitable solutions for solving the problems faced by the farmers in managing crops. KVK scientists rigorously followed various steps like problem identification and prioritization, problem analysis in present situation, possible solution, experimentation for finding out best solution, assessment of results, refinement if required and lastly promotion of the best suitable technology assessed. Conducting field demonstrations on farmers' fields to show worth of a new practice/ technology, "seeing is believing" is the basic philosophy. Field demonstration educated farmers through results obtained in terms of varieties resistant to disease and pest, quality of grains and overall higher yields. In addition, it also educates the farmers in terms of input– output ratio and economic gains in terms of net returns. KVKs provide the critical inputs for layout of Frontline Demonstrations. Regular field visits were made by the KVKs teams for proper monitoring of the technology demonstrated. The Field days were organized to show the impact of the technology demonstrated. The KVKs have conducted the frontline demonstrations to popularize the proven technologies. Improvement in knowledge of farmers regarding improved practices has taken place through various extension activities. Drastic reduction in gap between existing practices and improved practices has been reported as a result of which production and productivity of different crops has increased. As a result of this: the State stands first at National level in productivity of pearlmillet and mustard. The adoption of micro irrigation/ drip irrigation system has resulted in increased water use efficiency. The judicious use of available water by this technology has resulted in maintaining the level of water resources.

**Impact of SC/ST trainings being conducted at various KVKs**

| Sr. No. | Topic of training | Impact assessment |
|---|---|---|
| 1. | Fruits and vegetables preservation | A few trainees have taken the enterprise. The adoption level remains 10-12%. Most of trainees started the vocation at small scale. An income of Rs.2000-3000 per month is being generated by adoption of this vocation. But they have started making pickle, preserve, chutney, jam etc. for home consumption only. |
| 2. | Cutting, tailoring and soft toys making | Majority of participants who undertook the training course are doing work of tailoring for meeting requirement of their own family. Of the total trainings who attended the courses, 30-35% have undertaken the work as a vocation. The earning of these trainees ranges from Rs.2000-8000 per month by garment construction besides doing their household chores. Some of the respondents are preparing soft toys for gift purpose and thus, save money. There is 100% improvement in knowledge and skills. |
| 3 | Spray techniques | Some of the participants (60%) have undertaken this vocation and are earning Rs.7000-8000 per month. There is improvement in their technical know how about the agro-chemicals' use and techniques. |
| 4. | Skill development in marketing of milk and milk product | The impact assessment survey provided information that of the total 30 participants seven have been taken up this work as profession. |
| 5. | Bee keeping | Overall, about 20% adoption has been found among the SC/ST women and unemployed youth trained in bee keeping by the KVKs. More than 81 youths have adopted bee keeping after successfully attending the training. |
| 6. | Mushroom cultivation | It is a good source of income generation but the malnutrition problem of our country can also be addressed through mushroom cultivation and consumption. Marketing facilities in NCR have region has also facilitated mushroom growing. |

# SOME SUCCESS STORIES OWING TO CCSHAU MOTIVATION

## BEE KEEPING

### Success Story I

Sh. Jogender Singh s/o Shri Dharam Chand, village Mohamadpur, Rewari, (Tel. 9416673245) attended Bee Keeping training. Sh. Jogender Singh came forward to adopt the agribusiness of Bee Keeping. Earlier he was working as driver in SI India Company at Bawal. After that he started his own taxi but he was not satisfied with this job. He started Bee Keeping in the year 2017-18 after taking training from KVK,Bawal. After learning the basic principles of Bee Keeping, he started this agri-business. During 2017-18 he purchased 30 boxes, and multiplied the boxes in the later years. He shifted the boxes in the summer season due to non-availability of flora in this region in the summer season. In the first year, he earned Rs. 30,000/- and also recovered the cost of boxes (Rs. 90000/-). At present he has given employment to two persons and is earning a net profit of Rs. 600000/- per annum from beekeeping, which has become his main occupation. The details of his earnings over the years are given here under:

| **Impact factors** | **Before adoption** | **After adoption** |
|---|---|---|
| Crop/agricultural practice | Traditional farming | Bee Keeping |
| Yield of crop/product | 15q mustard in two acre | 15 q mustard and additional net income from beekeeping Rs. 600000/- |
| Total cost | Rs. 7500/- | Employment of two youth @ 5000/month=120000 |
| Net saving/profit | Rs. 37500/- | Rs. 637500/- |

**Income Details of Shri Jogender Singh from Bee Keeping**

| **Year** | **No. of boxes** | **Net income (Rs.)** |
|---|---|---|
| 2017 | 30 | 50,000 |
| 2018 | 50 | 1,00,000 |
| 2019 | 125 | 3,00,000 |
| 2020 | 200 | 6,00,000 |

## Success Story II

Sh. Om Parkash s/o Sh. Himmat Lal is a dynamic and progressive farmer having 8 acres of land. He was not satisfied with his farm income by traditional cropping pattern of wheat and cotton. He came into contact with KVK, Fatehabad in 2007 and under the technical guidance of KVK Scientists; he has adopted latest technology like laser land levelling, zero tillage and green manuring. He has also established several enterprises at his farm *viz*. Bee Keeping, Dairy farming, Bio gas, vermicompost, Organic farming, Kinnow Orchard etc.

He started Bee Keeping in 2002 with 11 boxes which he purchased from Kata Keri village of for Rs. 2200/- each box along with the bees. In 2007 he contacted with KVK Scientists and took training from KVK. Now he established himself as a honey bee grower with the trade name Ekta Honey Bee Farm. He is well known in the Fatehabad district as a honey bee entrepreneur. He also extracts honey from different flora *i.e*. Shisham, Mustard, Eucalyptus, Jandi, Ber etc. with his own machines. Now he is earning Rs. 15, 00,000/- per annum from the sale of honey with different flora as given below:

| Year | No. of Boxes | Income (Rs.) |
|---|---|---|
| 2002 | 11 | -19250 |
| 2007 | 50 | 40000 |
| 2008 | 150 | 80000 |
| 2009 | 190 | 100000 |
| 2010 | 220 | 120000 |
| 2011 | 250 | 200000 |
| 2012 | 280 | 400000 |
| 2013 | 300 | 700000 |
| 2014 | 350 | 800000 |
| 2015 | 400 | 1050000 |
| 2016 | 600 | 1300000 |
| 2017 | 700 | 1500000 |

## Success Story III

Sh. JagpalPhogatis an innovative farmer of District Jhajjar with the Brand name 'Nature Fresh Honey Group' registered under Horticulture Department, Panchkula. He has 'Phogat Bee–Apiary' at Malikpur. At present he is the owner of 1500 colonies (10 framed). Under the guidance of KVK Jhajjar, he started processing plant of honey from May 2016. During 2016 his honey production reached upto 44 metric tonnes. For his achievements he has been awarded at various platform. His enterprise is really an example of doubling the farmer's income.

**Economics/Profitability:**

| Sr.No | (A) Item Produced/Sold | Rate (Rs.) | Income (Rs.) |
|---|---|---|---|
| 1 | 18 metric tons raw honey of mustard was sold with local trader | Rs. 84 /- kg. | 1512000 |
| 2 | 8.80 metric tons honey was sold with company Kashmir Multi | Rs.110/- kg. | 968000 |
| 3 | 4.20 metric ton raw honey sold | Rs.84/- kg. | 352000 |
| 4 | 3 metric tons processed honey sold | Rs. 300/- | 900000 |
| 5 | 457 honey bee colony (Dec. 15 – Dec.16) 457 colony | (10 frames) @ Rs. 210 per frame. | 959700 |
| 6 | 1.37 metric ton raw bees wax sold | Rs. 230/ kg | 315100 |
| A | Total Income | 5006800 | |
| | 10 metric tons processed honey to in stock | Rs. 300/- | 3000000 |
| | (B)Expenditure | | 1600000 |
| 1 | Expenditure on migration/transportation | | 500000 |
| 2 | Expenditure on feed | | 500000 |
| 3 | Expenditure on miscellaneous | | 200000 |
| B | Total expenditure | | 380000 |
| | Net Income A-B | | 1206800 |

| Year | Investment/Month (Rs.) | Income/Month (Rs.) | Profit/Month (Rs.) | B: C ratio |
|---|---|---|---|---|
| 2017-18 | 15833.33 | 50283.33 | 34450 | 3.17 |
| 2018-19 | 18050 | 65700 | 32650 | 3.63 |
| 2020-21 | 19500 | 100000 | 80500 | 5.12 |

## Success Story IV

Smt. Mukesh Devi w/oJagpal Singh Phogat from Malikpur, Jhajjar, did her graduation and then thought of doing something different from traditional farming to make better profits. She got training in Bee Keeping from the KVK scientists and started Bee Keeping with 30 boxes. Now, she is pursuing the value addition of honey. She has specializes in value addition of honey, and make it into a 'Neutraceutical and Therapeutic diet'. She has twelve types of value added honey, processed in her own unit. She has innovated 'Comb Honey' which is naturally processed, contains all nutrients and is better in taste and keeping quality. Besides, it fits for neutraceutical and therapeutic purposes. Her innovation has been awarded at State and National level too. She sold her products after creating awareness among rural peole about the benefits of honey.She is producing honey from different flora like Kashmiri multiflora, tulsihoney, ajwain honey, litchi, sarson, safeda, arhar,barseem honey etc. She migrates the boxes to Rajasthan, Delhi, Punjab, J&K, and Himachal Pradesh etc. for the seasonal flora.

Now about 225 farmers from other parts of Haryana and Rajasthan have started Bee Keeping after being inspired from her. Bee Keeping has added to her family income. At present she has1500 boxes and per year 500-550 q honey is produced and more than 30 people are employed with her.At present 8.8 metric tones honey is sold at the rate of Rs.110/kg.About 18 ton honey is sold to the local traders at the rate of Rs.84/kg. She is producing processed honey under brand name of nature fresh.The capacity of processing unit is 1 ton per day and she has earned profits by selling 1370 kg wax @ Rs. 230 per kg and 457 colonies @Rs. 210 per frame and 10 more farmers have started Bee Keeping.She has been awarded at different platforms. With the ambition to do something for raising her family income and the expertise from the K.V.K., Jhajjar, Mrs. Mukesh Devi has succeeded in not only starting her own enterprise but has also becomes a source of inspiration for others.

## Success Story V

Sh. Vinay Phogat of Village Malikpur, district Jhajjar an engineering graduate having land holding of 1 hectare is a successful Bee keeper who started Bee Keeping for income generation. He got Training on Bee Keeping from K.V.K, Jhajjar in 2009 and was encouraged to take up beekeeping as an enterprise.After getting know-how about Bee Keeping from the scientists of K.V.K Jhajjar, he started Bee Keeping in 2007 with his family support. Now, his enterprise is Production and marketing of branded honey (Bee-Hut) of different flora. At present he is maintaining 1050 bee colonies with an annual income worth Rs. 12.0 lakhs during 2019.

**Outcome-**

| Year | No. of bee colonies | Honey production (q) | Income (Rs. in lakhs) |
|---|---|---|---|
| 2012 | 200 | 90 | 4.5 |
| 2015 | 500 | 250 | 7.0 |
| 2019 | 1050 | 450 | 12.0 |

He is a successful bee keeper and is a source of inspiration for the other youth. Inspired by Mr. VinayPhogat, 92 rural youths have purchased Bee Keeping material from him and started beekeeping with extension of about 6000 bee colonies.

## Success Story VI

Sh. Jai Singh belongs to Village Nagal, district Kaithal. He is a 10th pass landless beekeeper. He got training on Bee Keeping from KVK, Kaithal in 2020and took up Bee Keeping as an enterprise. After getting know how about Bee Keeping from scientists, he started Bee Keeping with his family support. Now, his enterprise is Production and Marketing of branded honey (Bee Hut) of different flora, pollen.

**Success Story Bee Keeping from CCSHAU, KVK, Kaithal**

| | |
|---|---|
| Name of farmer: | Jai Singh |
| Address: | Nagal (Block: Siwan) |
| Mobile Number: | 9991741230 |
| Age: | 50 |
| Education: | 10th |
| Size of land holding (in acre): | Landless beekeeper |

The farmer faced problems like marketing and processing. With KVK interventions like vocational training and regular advice to process and marketing and sale other products like bee colonies and pollen, he is getting more annual income. In addition, there is a cost saving in the production of processed honey.

Beekeeper in apiary

## Success Story VII

KVK Mahendergarh took initiative for promotion of beekeeping occupation. A number of extension activities such as vocational trainings, field visits, group meetings etc. were organized by this KVK for this purpose.

## Success story VIII

| Year | Investment/Month (Rs.) | Income/Month(Rs.) | Profit/Month (Rs.) | B: C ratio |
|---|---|---|---|---|
| 2017-18 | 70000 | 130000 | 60000 | 1.86 |
| 2018-19 | 60000 | 140000 | 80000 | 2.33 |
| 2019-20 | 50000 | 155000 | 105000 | 3.1 |
| 2020-21 | 45000 | 170000 | 125000 | 3.78 |
| 2021-22 | 38000 | 185000 | 147000 | 4.87 |
| 2022-23 | 38000 | 195000 | 157000 | 5.13 |

Sh. Kalu Ram is a young farmer and very little land holding. After pursuing his sr. secondary he left the school and was involved in agriculture in his own land while took some land on lease. But after all efforts he was not able to meet his family needs out of his existing sources of income.He came in contact with KVK in 2013 and was imparted training on Bee Keeping. He was well supported by bank and by all efforts he purchased 50 bee boxes. He was imparted technical support from Krishi Vigyan Kendra from time to time. At the end of first year he earned good profit which he used to buy more bee colonies. By earning profit from his Bee colonies and spending the income in procuring more colonies in addition of meeting out his own family needs, Sh. Kalu Ram now has about 1000 bee colonies. He shifts his colonies in various parts of country wherever desired floers are available. He has got his product registered with FSSSI and FPO and is getting handsome profit by direct marketing of his produce to the consumers and passes by installing a portable stall near highways adjacent to bee colonies. He has also provided livelihood to four rural youths who assist him in various operations in keeping bee colonies.

## Success Story IX

After getting training from KVK Damla and other sources, Sh. Subhash started collecting bee propolis, bee venom, Bee wax and bee pollen. He has already been collecting natural and comb honey.With the addition of these products his income increased and stabilized. Now he is technically sound in rearing the honey bees, breeding them and collecting all the by-products. Bee Keeping and bee products have certainly increased profitability for Sh. Subhash. However marketing is still a problem which if solved will improve the net income further. Due to more economic viability and sustainability of this enterprise 15-16 farmers have started Bee Keeping as a profession after getting training from Sh. Subhash. He is now also imparting training to other farmers in the district as well as in other states. Sh. Subhash started Bee Keeping initially with only 6 boxes and now has progressed to 1700 boxes, besides venturing into by-products which are earning him around 20-25 lakhs/annum. He has provided training to around 1200 people out of which 16 have already started Bee Keeping as profession.

गोल्डऑर एक सिल्वर मेडल मनीषा बहुरिया स्तर पर जीत चुकी है।

# लोगों के जीवन में शहद घोल रहे सुभाष

संजीव कांबोज, यमुनानगर : पंखों से क्या होता है, हौसलों से उड़ान होती है, मंजिलें उनको ही मिलती हैं, जिनके सपनों में जान होती है। हरियाणा में यमुनानगर के गांव खिजिजपुर के किसान सुभाष कांबोज पर उक्त पंक्तियां पूरी तरह चरितार्थ होती हैं। 90 के दशक में 1500-1600 रुपये की नौकरी करने वाले बीएचएड डिग्रीधारक सुभाष कांबोज मधुमक्खी पालन के जरिए खुद तो समृद्ध हुए ही है आसपास के किसानों को भी इसके लिए प्रेरित कर रहे हैं। उनकी प्रेरणा से ही दर्जनभर युवाओं ने मधुमक्खी पालन शुरू किया है। सुभाष अलग-अलग राज्यों में सैकड़ों किसानों को प्रशिक्षण भी दे चुके हैं। इतना ही नहीं 16 लोगों को रोजगार भी दे रहे हैं।

### शिक्षक नहीं, किसान बनिए

सुभाष कांबोज ने बताया कि बीएचएड का डिप्लोमा करने के बाद वर्ष 1991 में पानीपत के एक निजी स्कूल में शारीरिक शिक्षक के रूप में करियर की शुरुआत की। करीब चार वर्ष तक 1600 रुपये प्रति महीना की नौकरी की। मन में अपना व्यवसाय करने की तलब थी। लगातार सोच-विचार और आर्थिक हालत को देखते हुए एक डिब्बे से मधुमक्खी पालन शुरू कर दिया। आज विधिवत रूप से मधुमक्खी पालक है और डिब्बों की संख्या दो हजार तक पहुंच गई है।

### चुनौतियां भी कम नहीं

इस मुकाम तक पहुंचने में सुभाष को कई चुनौतियों का भी सामना करना पड़ा। सुभाष कांबोज का कहना है कि इस व्यवसाय में हर कदम पर कॉम्पिटिशन है। सबसे बड़ी चुनौती ट्रांसपोर्टेशन की है। बाजार में शहद का न्यूनतम समर्थन मूल्य तय नहीं है। अधिक उत्पादन होने की स्थिति में दामों में गिरावट आ जाती है। हाईब्रिड बीजों के कारण फूलों में मकरंद की मात्रा घट रही है और फूलों की खेती भी कम होती जा रही है। इस व्यवसाय में बीमा की सुविधा नहीं है।

सुभाष कांबोज।

### इन राज्यों में दे चुके प्रशिक्षण

- पुणे स्थित विश्व प्रतिष्ठान स्कूल ऑफ बीज-टेक्नोलॉजी में किसानों को दो दिवसीय प्रशिक्षण दिया।
- राजस्थान के कोटा स्थित कृषि विज्ञान केंद्र में रेजपाल बी-बोर्ड के सेमिनार में विचार रखे।
- उत्तर प्रदेश में वाराणसी के पांडाखेड़ी गांव समेत कई जगह किसानों को मधुमक्खी पालन के लिए प्रेरित किया।

**1600** की नौकरी के बजाय आज खुद के साथ दूसरों को दे रहे रोजगार

**1991** में एक निजी स्कूल में शारीरिक शिक्षक के रूप में करियर की शुरुआत की

किसानों को मधुमक्खी पालन का प्रशिक्षण देते यमुनानगर के किसान सुभाष कांबोज।

### ये उत्पाद भी कर रहे तैयार

सुभाष कांबोज के मुताबिक, मधुमक्खियों से केवल शहद ही प्राप्त नहीं किया जा सकता, बल्कि और भी कई उत्पाद है जिनको तैयार कर किसान आर्थिक स्थिति मजबूत कर सकता है। किसान शहद के अलावा बी-वैक्स, रॉयल जैली, बी-पॉलन, बी-वर प्रॉपलिस व कॉम्ब हनी भी तैयार कर रहे हैं। इन उत्पाद कई प्रकार की बीमारियों के उपचार में लाभकारी हैं और बाजार में इनके भाव काफी ऊंचे हैं।

### इसलिए अपनाया यह व्यवसाय

सुभाष कांबोज मूलरूप से किसान परिवार से संबंध रखते हैं। यह व्यवसाय इस लिए अपनाया, क्यों यह खेती के साथ-साथ आसानी से किया जा सकता है। इससे फसल की पैदावार भी बढ़ती है। इसे करना भी आसान है। थोड़ी मैनपावर में ही बड़े स्तर का व्यवसाय किया जा सकता है।

## Success story X

Sh. Abhishek Sharma S/o Sh. Surajmal Sharma

Village- Farmanakhas

**Assessment of profit**

| Year | Investment/Month (Rs.) | Income/Month (Rs.) | Profit/Month (Rs.) | B: C ratio |
|---|---|---|---|---|
| 2017-18 | 13835 | 21166 | 7333 | 1.5 |
| 2018-19 | 14320 | 24550 | 10230 | 1.7 |
| 2019-20 | 14920 | 29420 | 14500 | 1.9 |
| 2020-21 | 15000 | 30500 | 15500 | 2.0 |
| 2021-22 | 14750 | 27200 | 12450 | 1.8 |
| 2022-23 | 12550 | 24000 | 11450 | 1.9 |

Mr. Abhishek Sharma s/o Shri Surajmal Sharma is a native of village FarmanaKhaas, Meham, Distt. Rohtak, Haryana. He is a diploma holder in electronics. He preferred self-occupation to a job. So, he got training in Bee-keeping at KVK Rohtak. After that he started Bee-keeping with 20 bee-boxes/ colonies worth Rs. 60,000.Due to bumper production of honey he earned the money equivalent to his cost in the same year. He earned a good profit by selling bee-boxes. He also started selling honey by doing packaging himself. He got registered his company “Abhishek Honey Agency (Pvt.) Limited. He is getting Rs. 11450/month from the sale of honey and honey bees.

# STITCHING/CUTTING AND TAILORING

## Success Story XI

### Garment construction – an Entrepreneurial activity

Garment construction is a difficult task. To be perfect in garment construction, rigorous training of at least 3-6 months is essential. It is a lucrative activity through which adding income can be generated by working at home only. Drafting technique in garment construction is a time consuming process and requires great deal of patience. It needs too many measurements and calculations for proper fit. Taking accurate measurements requires technical skill and above all, it is not feasible for women with low educational background to make so many calculations.

To overcome the tedious job of drafting, paper pattern has also been developed for children and women on the basis of standardized measurements to make garment construction an easy income generating activity a large number of rural girls and women have been trained in garment construction by KVK. Mrs. Anita who belongs to schedule caste family of village Banipur has adopted tailoring as an income generating activity after training on cutting and tailoring at KrishiVigyan Kendra, Bawal. She was also provided with sewing machine with accessories also as an input for more efficient functioning during the scheduled caste upliftment training conducted at KVK, Bawal. Her details are given below.

| **Profile of the Entrepreneur** | |
|---|---|
| Name of trainee | Anita w/o Sh. Rajesh |
| Village | Banipur |
| Family background | Middle socio- economic group |
| Year of start | 2017-18 |
| Expenditure | Rs. 500/- |
| Income before training | Rs. 1000/- per month |
| Net income after training | Rs. 5000-6000/- per month |
| Assets purchased | Cooking gas, Refrigerator, Inverter, Washing machine, Gold chain, Mobile |

## Success story XII

Lalita w/o Subhash of village Banipur opened a boutique in Dharuhera.She has been a resource person in various KVKs. Besides stitching she has also started embellishment of sarees, suits, dupattas &laanchasets. She is earning more than Rs. 15000/- per month on an average. Earliershe was earning Rs. 5000-6000 per month.

| **Profile of the Entrepreneur** | |
|---|---|
| Name of trainee | Lalita w/o Subhash |
| Village | Banipur |
| Family background | Middle socio- economic group |

## Success story XIV

### Transformation of Simple Housewife to a Successful Entrepreneur

| **Name** | **Amarjeet w/oRajKumar** |
|---|---|
| VPO | VillageRaccheri PO Ganeshpur |
| District | Ambala |
| Mobile No. | 8607442607 |
| Education | Under matric |
| Landholding | Landless |
| Experience | 5 years Age: 42 yrs. |

Smt. Amarjeet was a housewife doing a little stitching to help her husband for family expenditure. She came in contact with KVK Ambala in the year 2013-14 for vocational training on income generating activities with the objective to raise the family income. She knew basic stitching and attended five day training on cutting & tailoring. She continuously attended all trainings and monthly meetings of KVK for one year and improved her skill level. She started taking stitching order, naj button, interlock and pikoo work and raised her confidence level. In 2015 she imparted training to 15 girls for routine stitching work for one month in her nearby village in Maggarpura under the guidance of KVK scientist and earned Rs. 3000/-. Then she took training of tie & dye and Neel making from KVK Ambala and in addition to stitching she started both activities as income generating and got success by adding Rs. 2000-2500/- extra money in her family income. By her regular visit to KVK she became aware of health and sanitation, value added food products also. Presently taking up in all activities she is earning approx. Rs. 4000-15000/- per month.

**Other achievements to her credit**:

- Active member of Mahila Club of KVK Ambala.
- Regular visitor of KVK for technical problems and solution thereof.
- Very confident in catching Govt. facilities for her family as well as help others also to take benefit.
- Disseminating the KVK messages and inspires others to be an entrepreneur
- Act as a role model of our KVK. .
- She gained self-confidence and motivated her children for doing their best.

## Success Story XXIII

Smt. Babli w/o Sandeep Kumar, belongs to V.P.O Nidani, Jind. 126102. She has cutting and tailoring ability; she is the torch bearer of women empowerment and also socially connected with the girls of the locality. Mrs. Babli is 30 years old and studied up to 10+2. Her husband is working with her. She has two daughters and they are getting good quality education from a very reputed school of the area. She is, earning Rs. 15000/- to 20000/- per month.She is very active in training programmes and very keen on learning new skills. She got training in cutting and tailoring at KVK Jind in a training held in 2019. She started with an ordinary tailoring machine but after training she got expertise in advanced tailoring machine. The advanced machine increased her income considerably.

Rates of various products on two machines:

| Product | Ordinary rate on machine (Rs.) | Advanced rate on machine (Rs.) |
|---|---|---|
| Blouse | 250 | 350 |
| Patticot | 100 | 150 |
| Suit | 150 | 200 |
| Pajami suit | 300 | 400 |
| Plazo | 200 | 250 |
| Lining suit | 400 | 500 |

She has become the role model of the area. She has encouraged 5-6 women of the area to start up their own work such as boutiques, tailoring outlets etc. She has a great impact on many women of the area; she also promotes health and she motivates women in maintaining good health. Women started taking balanced diet, proper exercise and maintaining good hygiene. She has been connected with KVK, Jind from the very beginning and she received help of every kind whenever she needed. She got trained at KVK Jind and field specific experts guided her in every aspect possible. KVK, Jindhas guided her in achieving this towering and enormous feat and also boosted her confidence so that she remains confident.

## Success Story XXIV

Smt. Reena w/o Pardeep belongs to V.P.O Pandu Pindara, Jind. She has good marketing ability. **Success Story XXXIII**

Smt. Meera has taken vocational training under SC/ST scheme in the year 2018-19 and she continued the mushroom farming entrepreneur from the very next year. In first year, she bought 100 mushroom bags @ Rs. 100/- per bag and spent a total of Rs. 10,000/- and sold Mushroom with Rs. 30,000/- and earned Rs. 20,000/- as profit in the period of three months. In 2022-23 she bought 700 Mushroom bags @ Rs.114/- per bag and earned Rs. 2, 80,000/- as profit with in three months only. She want to do more in this field as she is looking for some permanent structure where she can start her mushroom farming without any obstacles.

## Success Story XXXIV

Sh. Bijender,

Village Mokhra,

District Rohtak

**Assessment of profit**

| Year | Investment/Month (Rs.) | Income/Month (Rs.) | Profit/Month (Rs.) | B: C ratio |
|---|---|---|---|---|
| 2017-18 | 15720 | 30420 | 14700 | 1.9 |
| 2018-19 | 16060 | 32560 | 16500 | 2.0 |
| 2019-20 | 17060 | 35460 | 18400 | 2.0 |
| 2020-21 | 19500 | 38500 | 19000 | 1.9 |
| 2021-22 | 22050 | 40650 | 18600 | 1.8 |
| 2022-23 | 25330 | 45830 | 20500 | 1.8 |

Mushroom production is an important agri entrepreneurship for landless farmers. It can be started on a small piece of land. It is a good source of proteins, vitamins & minerals. It provides employment to rural youth. It helps in management of crop residue. It provides regular income to farmers. Mushroom contains macronutrients that support a healthy system. Bijender Malik started mushroom cultivation after getting training from KVK Rohtak. He belongs to village Mokhra district Rohtak. He is earning Rs. 20500 /month from the sail of mushroom.

## Success Story XXXV

| Year | Investment/Month | Income/Month(Rs.) | Profit/month (Rs.) | B: C ratio |
|---|---|---|---|---|
| 2017-18 | 20000 | 35000 | 15000 | 1.75 |
| 2018-19 | 10000 | 36000 | 26000 | 3.60 |
| 2019-20 | 12000 | 36000 | 24000 | 3.00 |
| 2020-21 | 15000 | 38000 | 23000 | 2.53 |
| 2021-22 | 12000 | 40000 | 28000 | 3.33 |
| 2022-23 | 12000 | 42000 | 30000 | 3.50 |

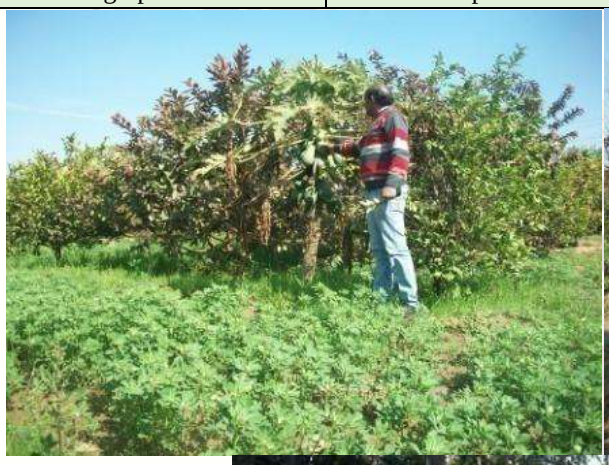
Balbir Singh from village Chaharwala had less than five acre land and his farm income was very low to support his family expenditure. He was given training on mushroom cultivation so he could use his farm waste to prepare manure and earn extra income from the same land. He started earning monthly profit of Rs. 15000/ month and after running mushroom unit successfully for five years now he is earning approximately Rs. 400000/- profit from mushroom unit apart from traditional farming.

## Success Story XXXVI

| Year | No. of Bags (10 kg Each spawned compost) | Total expenditure (Rs.) | Total income (Rs.) | Net Income (Rs.) |
|---|---|---|---|---|
| 2017 | 5700 | 357000 | 640000 | 288000 |

After completion of post-graduation from political science, Deepak Kumar started his own career after getting technical knowledge which he got during the vocational training conducted by the KVK Yamunanagar. After the initial push, he decided to continue in the profession of mushroom production. During September 2015, he got training on Mushroom cultivation from KVK, Damla, Yamunanagar, and started mushroom cultivation from October 2015 in rented old poultry shed with low cost technology (compost prepared with long method of composting).

Now he is fully satisfied and earning well from the profession of mushroom cultivation which is also serving as an example for other unemployed educated youth. Mushroom production in Yamunanagar district area is feasible and economical due to surplus paddy/wheat straw which can be easily available at very low cost.



# DIVERSIFIED FARMING SYSTEM

## Success Story XXXV

Sh. Raut Singh from Nandrampur Bass, district Rewari is practising diversified and intensified farming. He has been using the improved cultivars of field crops (wheat, mustard, guar, bajra, barley) and chicory in between the mustard, vegetables (carrot, radish, onion, potato, lady finger, tomato etc), flowers (marigold) and fruits (guava, kinnow, Mosambi, bael, mango, papaya, aonla etc.). He is cultivating vegetable, flowers and papaya in between the orchard. He has also taken up agro-forestry as a wind break and shelter belt in around the orchard. He using water saving technology such as drip, sprinkler and furrow irrigation methods. He is also using the latest implements such power tiller to keep the orchard weed free. He is also using power operated spray machine for nutrients and pesticides application at his farm. He is selling his produce on advance booking, vendors, on NH – 8 and, NCR, New Delhi etc.

| Impact factors | Before adoption | After adoption |
|---|---|---|
| Crop/ agricultural practice | Fruits only | Intercropping as legumes and annual fruit and flower crops |
| Yield of crop/ product | 10 MT per acre | 10 MT per acre and additional yield from intercropping (10-12q/acre) |
| Sale value | Rs. 100000/- per acre | Rs. 150000/- per acre |
| Input cost | Rs. 25000/- per acre | Rs. 37500/- per acre |
| Labour cost | Rs. 20000/- per acre/year | Rs. 30000/- per acre/year |
| Any other cost | Rs. 5000/- | Rs. 7500/- |
| Net saving / profit | Rs. 50000/- per acre | Rs. 75000/- per acre |

**Success Story XXXVI**

A resident of village GarhiMimarpur, Sonipat, Haryana, 51-year-old Raj Kumari found her passion for fruit processing and livestock farming. Fruit processing is particularly more accessible for women as they are familiar with the different aspects of food and there are few technical aspects to learn to start this business. If chosen correctly, processed fruits have a good demand and offer the opportunity to generate good profits by adding value to raw material. Sheworked on fruit processing and dairy products with enthusiasm. At present she deals in preparation of value-added fruit products and dairy products.

She took various trainings on food processing from KVK, Sonipat and also from NDRI, Karnal. She selected different types of basic processing technologies, which are suitable for small-scale units with an affordable level of investment and collects the raw material directly from the farmers.

She smartly selected locally available fruit *i.e.* Aonla, which is available in abundant in Sonipat. Aonla is a fruit with innumerable benefits. It is also known Indian gooseberries, which not only enhance immunity but also helps in maintaining cholesterol levels. Today, under the brand name of Amrit Dhara, the woman entrepreneur sells. Aonlamurabba, pickle, candy, jam and deshi ghee of cow. She is earning around Rs. 1178314 lakhs annually. She has added some healthy sweets to her food items like, ladoos and burfi of aonla. Ayurvedic medicine retailers are her regular customers along with routine consumers. Recently she has also started nursery of common fruits, vegetables and ornamental plants.

## Success Story XXXVIII

**Integrated Farming System:**

Sh. Mukesh Kumar completed his graduation inthe subject of Arts from Bombay. After graduation he started a job inBombay but he was not satisfied with his job. He took a decision to leave the job and go to his own village where he wished to employ his farming with Scientific methods. He started searching the information sources of scientific farming. After collecting scientific information regarding the field crops and other allied fields and contacting the KVK Scientists and Officials of Deptt. ofAgri, Faridabad, he started farming by cultivationof wheat, paddy, bajra, jowarand some vegetables like brinjal and tomato from the year2000. After contacting the KVK Scientists in Year 2000, he started cultivating flowers like Gladiolus, plantation of horticultural crops like guava orchard, cultivation of vegetables, nursery raising for poplar plantation, Dairy farming, and establishment of Vermi-composting unit at his farm and started adopting improved the technologies like drip Irrigation in vegetables and horticultural crops.

**Timeline:**

I. He had sown various high yielding varieties of Paddy i.e. PB-1, Pusa Basmati - 1121, PRH -10 and obtained the yield 15 - 18 qtl. Of paddy from one acre. He also cultivated Paddy varietyPusa- 44 in 50 acres area in collaboration with IARI, New Delhi under buy back seed production programme. He had obtained 32 qtl. Yield (Paddy variety Pusa-44) from one acre.

II. He raised poplar nursery for plantation of poplar plantation at some acres of land at his farmand plantation was done on the boundaries of 20 acres of his land in the year 1998-99. After eight years, he sold 7500 poplar plants in the market and earned about Rs 7500000/- (7500 plants @Rs.1000 per plant).

III. He purchased Laser leveller from Dubai in the year 2005.

IV. He established a unit of Vermi-composting (5 metres x 3 metres unit size) and Bio-gas plant athisfarm. The bio-gas is being used by the farmer in his kitchen for cooking and other domesticpurposes.

V. He planted sugarcane crop with single bud technique during the year 2011-12 for first time.

VI. He established 5 H.P. Water Tubewell at his farm operated by Solar system with the financial help of Deptt. of Non - Conventional Energy, Govt. of Haryana. The water from this tubwell is being used through Drip irrigation for irrigating the orchards, flowers & vegetables at his farm.

VII. He started seed production of Paddy varieties viz. PB-1121 and PB -1in collaboration with KRBL, Dadri, U.P from2004-05 at his farm.

VIII. He is actively involved in seed production of wheat varieties like WH-711, PBW-343, PBW-502, PBW-226, HD-285 and HD-2894.

**Income from Integrated Farming System by Sh. MukeshKumar:**

| Year | Investment/Month (Rs.) | Income/Month (Rs.) | Profit/month (Rs.) | B: C ratio |
|---|---|---|---|---|
| 2017-18 | 35000 | 50000 | 15000 | 1.43 |
| 2018-19 | 50000 | 74000 | 24000 | 1.48 |
| 2019-20 | 52000 | 81000 | 29000 | 1.56 |
| 2020-21 | 65000 | 102000 | 37000 | 1.57 |
| 2021-22 | 70000 | 119000 | 49000 | 1.70 |
| 2022-23 | 112000 | 202000 | 90000 | 1.80 |

## Success Story XXXIX

**Integrated Farming System- Way to Success**

Sh. Suresh Kumar is an engineering graduate from agricultural background with his parental agricultural 8 acre of land. He received a good job in a reputed company after graduation but for the welfare of his family and farming community, he left the job and tried to do something new and innovative.

Fortunately, he came into the contact with KVK, Fatehabad in 2012 and was impressed to know about IFS. Under the technical guidance of KVK Scientists, he has started several enterprises viz. Bee Keeping, Dairy farming, bio gas, vermi- compost, Kinnow orchard at his farm. He established himself as an Agri entrepreneur and registered with *FSSAI* and sold his products by trade name Ekta Honey Farm. He extracted honey from different flora *i.e. Shisham*, Mustard, Eucalyptus, *Jandi,Ber* etc. and processed at his own processing plant.

# CROP RESIDUE MANAGEMENT

## Success Story XXXX

Sh, Ramesh Kumar is a small and progressive farmer. He is having 4.0 acre of cultivated land of its own and leased in about 36 acres. He is growing wheat, rice, guar, moong and vegetables specially Cabbage. He emerged as Role Model for crop residue management in the district and motivated other farmers to adopt crop residue management especially in Rice. Ramesh started managing crop residues in the year 2015 by removing it from the field. Now, from the last two years, he incorporates the crop straw in soils by using CRM machineries like straw chopper, mulcher, ZT seed drill and happy seeder. He has also formed a custom hiring Centre for CRM. He emerged as a role model and created awareness among villagers about ill effects of straw burning and motivated other farmers to manage it by use of Straw chopper and happy seeder. As a result, 60 per cent villagers adopted CRM techniques and sowing of wheat was done by using happy seeder. He obtained 26 qtl/ ha wheat yield in Happy Seeder sown field as compared to 24qtl /ha obtained in a field sown by conventional method.

**Success Story XXXXI**

Sh. Sushil Kumar is a progressive farmer having 6.0 acre of cultivated land of its own and leased in about 29 acres. He is cultivating wheat &rice. He emerged as a “Role Model” for crop residue management in the area of Ratia block and motivated other farmers to adopt crop residue management by adopting happy seeder in paddy residue field. He started managing crop residues in this year by retaining as mulch in the field. He incorporates the crop straw in soils by using CRM machineries like straw chopper, mulcher and Happy seeder. He emerged as a role model and created awareness among villagers about ill effects of straw burning and motivated other farmers to mange it by use of Super SMS Combine and then by sowing wheat by Happy Seeder. As a result, 70 per cent villagers adopted CRM techniques and sowing of wheat was done by using happy seeder. He obtained 25 qtl/ ha wheat yield in Happy Seeder sown field as compared to 24 qtl /ha obtained in a field sown by conventional method.

# Integrated Farming System Model

## Success Story XXXXII

Name : Suresh Kumar S/o Omprakash
Village : JandliKalan
District : Fatehabad
State : Haryana
Age : 32 yrs
Education : B.Tech
Specialization : Integrated Farming
Mob. No. : 98131 37500

Sh. Suresh kumar is an engineering graduate from agricultural background with his 8 acre of parental agricultural land. He received a good job in a reputed company after graduation but to do good for his family and farming community, he left the job and decided to do something new in his parental agriculture of traditional cotton- Wheat cropping pattern. Fortunately, he came into the contact with KVK, Fatehabad in 2012 and was impressed to know about IFS. Under the technical guidance of KVK Scientists, he has started several enterprises viz. Bee Keeping, Dairy farming, bio gas, vermi-compost, Kinnow orchard, Micro Irrigation at his farm. He established himself as an Agri entrepreneur and registered with *FSSAI*. He sells products by trade name Ekta Honey Farm. He extracted honey from different flora i.e. Shisham, Mustard, Eucalyptus, Jandi, Ber etc. and processed at his own processing plant.

## Success Story XXXXIII

### Adoption of Crop Residue Management after harvesting of paddy using different machineries

Sh. Radhe Shyam is a progressive farmer. He has 20 acre of cultivated land of its own. He is growing wheat, rice, guar moong and other crops. He emerged as a "Role Model" for crop residue management in the Block Bhuna and motivated other farmers to adopt crop residue management especially in Rice. He started managing crop residues in the year 2017 by removing it from the field. Now for the last two years, he has been incorporating the crop straw in soils by using CRM machineries like straw chopper, mulcher, ZT seed drill and happy seeder. He emerged as a role model and created awareness among villagers about ill effects of straw burning and motivated other farmers to manage it by use of Straw chopper and happy seeder. As a result, 75 per cent villagers adopted CRM techniques and sowing of wheat was done by using CRM machineries. He obtained 50 qtl/ ha wheat yield in Happy Seeder sown field as compared to 47.5 qtl /ha obtained in a field sown by conventional method

Different activities on the Farmer's field

## Success Story XXXXIV

**Integrated farming System (IFS)**

Name of farmer: Poonam

Address: Ikkas

Mobile Number: 9896102755

Age: 29 years

Education -BA

Size of land holding (in acre): 5 .5 Acre

Mrs. Poonam Devi w/o Vijay Kumar, village -Ikkash belonging to agricultural family has been associated with agriculture since childhood. In the beginning, her family had neither profit nor loss from agriculture, so being an educated woman, she started bringing agriculture on the path of making it profitable. She contacted the scientists of KVK,Jind and after that she acquired knowledge by participating in various trainings related to agriculture, cutting and tailoring and animal husbandry etc. In 2018 she has taken vocational training on cutting and tailoring from KVK, Pandu Pindara, Jind.

After getting proper information about modern and beneficial agricultural techniques from the KVK, Pandu PindaraJind. From time to time she kept increasing her knowledge through medium and acquired proficiency in her knowledge and skills in organic agriculture. Mrs. Poonam started production of organic vegetables like okra, peas, chillies, garlic, onion etc. by acquiring knowledge and skills from modern and profitable organic farming techniques under the auspices of Krishi Vigyan Kendra. With this she started animal husbandry work and and with help of her family members she also tried hand cutting and tailoring at village level. Now she is earning profit of more than Rs. 5-6 lakh rupees by sale of organic vegetables and profit of more than 4 lakh rupees from animal husbandry and Rs. 2-3 lakh from cutting and tailoring. Now she is a very successful entrepreneur and independent woman.

## Success Story XXXXVIII

Sh. Rajinder of village Halalpur, district Sonipat is a live example who took up diversified farming to ensure regular and lucrative returns. His family was involved in traditional rice-wheat cultivation, as a result the returns were not very good in terms of money as well as over exploitation of natural resources like soil and water. He decided to switch to diversified farming and changed his traditional agriculture system into modern agriculture by adopting, fruit and vegetable cultivation, livestock farming and improved agricultural practices like, good quality seed, drip irrigation system, low tunnel, mulching, and custom hiring centre with the help of many government schemes. He put his land into fruit and vegetable cultivation where he grows coloured capsicum and seedless cucumber, cherry tomato, guava and mustard along with traditional wheat and rice crop. Although he faced many problems in the beginning but, now he has reached a destination where he is satisfied and is a live example to the farmer community to follow. He is getting good production of fruits and vegetables along with significant returns from livestock farming and custom hiring centre. He started his journey in 2011-12 and now he has a turnover of 551700 lakhs per annum.

## DAIRY FARMING

Mr. Siddharth is a resident of village Silani, district Jhajjar. He is a post graduate having land holding of 15 acre and is a successful dairy farmer who started dairy farming for income generation.

Earlier Mr. Siddharth used to take two crops namely wheat and bajra from his field and had one buffalo to meet home needs of milk and milk products. Mr. Siddharth came in contact with the scientists of K.V.K, Jhajjar in 2016 and KVK scientists encouraged him to take up Dairy farming as an enterprise.

After getting know how about Dairy farming from scientists of K.V.K, Jhajjar, in 2016-17, he started Dairy farming with his family support. Now, he is growing wheat in only 2.00 acres and bajra and oatseed production on 3.5 acres each. At present he is having dairy farm unit of 62 animals and a chilling plant with an annual income worth Rs. 4787580 lakhs from all the sources during 2021.

**Outcome-**

# DIVERSIFIED FARMING THROUGH HORTICULTURAL CROPS

## Success Story L

Mrs. Salochana Rani Nehra is successfully doing diversified farming with cultivation of horticultural crops for income generation. Earlier she used to take crops namely wheat, mustard and bajra from her field. Mrs.Salochana Rani Nehra came in contact with the scientists of K.V.K, Jhajjar in 2015 and KVK scientists encouraged her to take up scientific cultivation of horticultural crops for higher income.

Her achievement are:

- Established orchard of kinnow, mango and jamun.
- Successfully raising vegetable crops namely carrot, okra, cucumber, watermelon and bottle gourd.
- Vegetable seed production of pea and radish.
- Grones moong, bajra, mustard, wheat and sorghum fodder.
- Working as Director of a FPO 'Jhajjar Vegetables Producers Company' having 1100 members.

She is earning net income worth Rs.16 lakhs per annum from all the sources and providing employment to 20-30 farm labourers preferably women at her farm round the year.Mrs. Salochana Rani Nehra used to get annual net income of Rs.5.25 lakhs from wheat, bajra and mustard. She faced problems low returns. Now, with crop diversification, she is getting annual net income of Rs 16 lakhs. She is a successful diversified farmer and is a source of inspiration for the other youth. Mrs. Salochana Rani Nehrahas motivated farmers of Matanhail block and played an instrumental role in converting around 500 acres of land under horticultural crops.

## FRUIT AND VEGETABLE PRESERVATION

### Success Story LI

**Success story of progressive women farmer of district Ambala**

Meena Kumari resident of village-Nagla Rajputana, District-Ambala. She was engaged for the work like cutting and tailoring at her home before creating keen interest in adopting the agripreneurship in promotion of fruit and vegetable preservation with specialization in making pickles, murabba and chutney with value added products. With the passage of time expenses of her family members increased and she was uncomfortable to bear these heavy expenses in day to day life. For increasing her income, initially first time she went to Horticulture Training Institute, Uchani (Karnal) in 2015 and got training on fruits and vegetable preservation. After that, she started making pickles at small scale. After earning of some profit with this vocation, she visited at Krishi Vigyan Kendra, Ambala City in year 2020-21 for taking depth knowledge in the field of fruit and vegetable preservation. Again, she got training in fruit & vegetable preservation from KVK experts. After that, she feels most comfortable and confident. Now, she increased her business from small scale to commercial level. She had exhibited her work and praised in different events *viz.Kisan Mela*, Gosthies and other district and state level programmes at district-Kaithal, Kurukshetra, Ambala and Panchkula through her stall. She also provides regular employment to 2 women throughout the year. After adopting this vocation, she is in good financial condition and caters the needs of her family in a better way.

Farm women are constantly in the search of other additional works to fulfill the domestic requirements. Empowerment of rural women is inconceivable without gainful employment and income for women. The scope of self-employment is more in the field of small scale industries at local level. KVK Mahendergarh concentrated on developing the women's knowledge skill and Entrepreneurship attributes based on fruit and vegetable preservation. Self help groups have great significance in term of employment, income generation, poverty alleviation. Hence, emerging challenges and livelihood security necessitate for mobilization of community in rural system. It is evident that working together throws formation of self help group members become self-reliant confident and more empowered economically.

## Success Story LIV

### Nutri-Cereals (Pearlmillet)

Along with the climate-resilient nature of the crop and the lack of the requirement of harmful pesticides for cultivation purposes, the nutritional properties of millets are unmatchable. The grain is rich in both soluble and insoluble dietary fiber making it excellent for improving the functioning of the digestive system. To counter the monocropping culture that is prevalent in Mahendergarh many young farm women and youth are returning to millet. Pearl millets have always been a traditional and sustainable crop in the region of Mahendergarh.

Ritu Soni from Sirsa city was a housewife before starting her business. She attended vocational training from KVK, Sirsa on fruit and vegetable preservation. After training she started making fruit and vegetable product at small level with a profit of Rs. 10,000/month. Later she expanded her business and started giving training to other women after running the unit successfully for five years now she is earning approximately Rs 3,00,000/- profit.

**Success Story LVI**

Name: Smt. Geeta Devi

Husband's Name: Sh. Narender Singh Dhankar

Village/District: Jhajjar

State: Haryana

**Achievement -Preparing and selling multigrain nutritive laddoos**

Linkage with KVK-Received 4 days vocational training on 'Food Processing' for the first time at KVK, Jhajjar in Oct, 2018 and specialized in preparing value added bajraladdoos.

Smt. Geeta Devi came in the contact with KVK-Jhajjar through Smt. Mukesh Devi, innovative farm woman engaged inBee Keeping and having long association with KVK Jhajjar regarding vocational training imparted by PES (Home Science) on value-added multigrain nutritive food items. Smt. Geeta Devi attended 4 days' vocational training in Oct, 2018 and under the guidance of PES (Home Science) prepared and sold bajraladdoos worth Rs. 62,000/- at India International Trade Fair-2018 at New Delhi. Since then, there has been no looking back. She took further training at KVK to prepare laddoos made of flax seeds, til, groundnut, chana, wheat flour, etc. There is a great demand for her products. She has sold these laddoos at various farm fairs across the country at places like Hyderabad, Gujarat, Gannaur, Karnal, etc. There is a huge demand and she gets personal ordersupto 50 Kg laddoos from individuals who have tasted the laddoos prepared by her.

Though there has been no regular monthly income, yet she is earning huge sum of money by selling laddoos alone at different fairs and exhibitions organized in the State and outside State. Till date, she has sold laddoos worth approx. Rs. 1,37,000/-.

Smt. Geeta Devi has teamed up with Smt. Mukesh Devi, the innovative farmer engaged in Bee Keeping. While Smt, Geeta Devi prepares nutritive laddoos, Smt. Mukesh Devi helps her sell them at fairs as her present family conditions don't permit her to go to such fairs and exhibitions.

## Success Story LVII

Smt.NeelamArya w/o Sh. Parveen is a resident of village Nogama, districtJhajjar.She is a 35 years old post graduate woman having total land holding of 10 acres. She was interested in doing organic farming. So, she came in contact with K.V.K, Jhajjar to get the required information and skill.

KVK intervention –Smt. Arya in contact with the scientists of K.V.K., Jhajjar in the year 2009.She was guided by the scientists of the KVK, Jhajjar on organic farming and value addition of different food crops. She got training on value added products of bajra from KVK, Jhajjar and COE (Pearl millet), COHS, CCSHAU, Hisar in 2016. Now, she is doing organic farming and value addition of cereals, pulses, oilseeds and bajra with the support of her family members.She is doing organic farming on 10 acre since 2016 under guidance of team KVK, Jhajjar and producing organically different food crops viz., wheat, moong, arhar, chana, urad and masoor, raya, til, groundnut and vegetables. They make and use jeevamrit, ghanjeevamrit and organic manure. Organically produced and registered food items viz., moongdaal, arhardaal, chanadaal, urad and masoor daal, mustard oil, wheat dalia, suji, besan are sold under the brand name- Arya natural farm products. They are certified by PGS, India.Value added bajrabiscuits, ladoos and namkeen are also made and sold since 2017. Smt. Arya earning approximately Rs.4.20 lakhs in a year from organic farming and value addition. # VERMICOMPOSTING

## Success Story LXI

**Name of farmer: Aditya Jindal S/o Dr. Ramesh Chand Jindal,**
**Address: Ambala City,**
**Unit at village-Khatouli, Ambala**
**M: 9996838397**

Aditya Jindal is qualified Civil Engineer from CCET Chandigarh under Punjab University. After graduation, she worked in NCR region and planned her M.S. from abroad in 2018. During Covid-19 Pandemic there was lockdown and he saw lot of people's suffering all over India, neighbours and own family. His father who is a doctor suffered severe acute respiratory distress due to professional exposure. He is very sensitive and keen observer. Experience of life and death in family and society forced Aditya to rethink about his aims. He decided in favour of giving better life to people by helping farmers to grow healthy, pure and real food free from harmful chemicals. During lock down periods. she meditated and listened to his inner voice. He felt as if Mother Earth and nature called him for help. Lifeless soil from sustained used of chemical fertilizers and pesticides over decades called for rejuvenation. He read a lot and came to know about alarming levels of contamination of food chain with harmful chemicals. Listening to his inner voice and call of Mother Nature he pledge to rejuvenate soil and return life to soil, thus helping farmers to grow healthy food.He started his own research and successfully bred earthworms in a vermin bed at his home and produced first lot of Vermi compost. Encouraged by good results he decided to set up a project for vermi culture and vermi compost at-village Khatauli (Ambala) Haryana under banner of SATT Organic.SATT is actually Sanskrit Pharase representing Satvi.e. Absolute Truth and Reality.

SATT Organic is now 2 years old. ISO certified MSME start up, in field of agri-waste management, with an aim to convert Agri waste into natural enhanced food for plants, with a capacity of 50,000 kg/month vermicompost.

SATT Organic now processes about 2000-3000 tons of dairy waste and converts it to organic fertilizer and manure. SATT Organic is now helping many startups in this field by providing vermiculture and consultation in neighbouring towns and villages. It has future plans to produce Organic spices + Edible seeds, processed food as well.

## Success Story LXII

Sh. Jai Karan s/o Sh. Kapoor SinghV.P.O.-KharakJatan, District Rohtak

Assessment of profit

| Year | Investment/Month(Rs.) | Income/Month(Rs.) | Profit/Month(Rs.) | B: C ratio |
|---|---|---|---|---|
| | | | | |
| 2017-18 | 2800 | 6750 | 3950 | 2.4 |
| 2018-19 | 3500 | 8100 | 4600 | 2.3 |
| 2019-20 | 5250 | 13500 | 8250 | 2.5 |
| 2020-21 | 5250 | 13500 | 8250 | 2.5 |
| 2021-22 | 5250 | 14400 | 9150 | 2.7 |
| 2022-23 | 5250 | 14400 | 9150 | 2.7 |

Vermicompost plays an important role in improving soil health along with quality of the farm produce. It helps in avoiding environmental pollution making use of farm waste. It is also helpful in adoption of natural farming. It contains more quantity of nutrients as compared to farm yard manure. It provides proper aeration in soil.

9. Sh. Gurvinder Singh, Progressive farmer, Village-Barna received State award for straw management with a cash prize of Rs. 21,000/- in 3rd Agri Leadership Summit 2018, Rohtak.
10. Sh. Karambir Singh, Village-Sunariya received State award for Murrah Baffalo with a cash prize of Rs. 21,000/- in 3rd Agri Leadership Summit 2018, Rohtak.
11. Sh. Prithvi Singh, Village-Kanipla received State award for Fishries Cultivation with a cash prize of Rs. 21,000/- in 3rd Agri. Leadership Summit 2018, Rohtak.

16-18 Three State level awards were received by Sh. Harbir Singh, Sh. Karan Sikri and Sh. Ravi Mathana in 2018 in field of Hi-Tech nursery, Vermi Compost and Dairying respectively by Chief Minister Haryana Sh. Manohar Lal Khattar at Karnal.

19. Smt. Kusum Gupta, Prgressive Mushroom Grower from Ismailabad got first prize of Rs.1,00,000/- during 4th Agri Leadership Summit 2019 organized tat Ganaur.
20. Sh. Parag Dhawan, Prgressive Mushroom Grower from Pehowa got first prize of Rs.1,00,000/- from Directorate of Mushroom Research at Chamba Ghat, Solan during the National level Musroom Mela being organized on 10-September-2019.
21. Sh. Kulbir Singh, Village-Mangoli Jattan, District-Kurukshetra got Haryana Kisan Ratan Award-2019 from Sh. Dushyant Chautala, Deputy Chief Minister, Haryana on 22-December-2019 at CCS Haryana Agricultural University Hisar.
22. Sh. Sukhwinder Singh, Progressive farmer, Village-Gumthala Garhu received "Mukhya Mantri Pragatisheel Kisan Samman Yojana" award with a cash prize of Rs. 10,000/- in *Haryana Krishi Vikas Mela* 2023, March 10-12,2023.

23 Sh. Dharamveer Singh, Progressive farmer, Village-Mirzapur received "Mukhya Mantri Pragatisheel Kisan Samman Yojana" award with a cash prize of Rs. 10,000/- in *Haryana Krishi Vikas Mela* 2023, March 10-12,2023.

24 Sh. Rahul Kumar, Progressive farmer, Village-Rawa received "Mukhya Mantri Pragatisheel Kisan Samman Yojana" award with a cash prize of Rs. 10,000/- in *Haryana Krishi Vikas Mela* 2023, March 10-12,2023.

25 Sh. Dharamveer Singh, Progressive farmer, Village-Bir Kalwa received "Mukhya Mantri Pragatisheel Kisan Samman Yojana" award with a cash prize of Rs. 10,000/- in *Haryana Krishi Vikas Mela* 2023, March 10-12,2023.

26 Sh. Paramjeet Singh, Progressive farmer, Village-Gumthala Garhu received "Mukhya Mantri Pragatisheel Kisan Samman Yojana" award with a cash prize of Rs. 50,000/- in *Haryana Krishi Vikas Mela* 2023, March 10-12,2023.

27 Sh. Joginder Singh, Progressive farmer, Village-Pindarsi received "Mukhya Mantri Pragatisheel Kisan Samman Yojana" award with a cash prize of Rs. 50,000/- in *Haryana Krishi Vikas Mela* 2023, March 10-12,2023.

28 Sh. Virender Singh, Progressive farmer, Village-Mangoli Jattan received "Mukhya Mantri Pragatisheel Kisan Samman Yojana" award with a cash prize of Rs. 50,000/- in *Haryana Krishi Vikas Mela* 2023, March 10-12,2023.

29 Sh. Raj Kumar, Progressive farmer, Village-Mehra received "Mukhya Mantri Pragatisheel Kisan Samman Yojana" award with a cash prize of Rs. 50,000/- in *Haryana Krishi Vikas Mela* 2023, March 10-12,2023.

30 Sh. Satbir Singh, Progressive farmer, Village-Rampur received "Mukhya Mantri Pragatisheel Kisan Samman Yojana" award in *Haryana Krishi Vikas Mela* 2023, March 10-12,2023.

31 Sh. Balkar Singh, Progressive farmer, Village-Bakhli received "Mukhya Mantri Pragatisheel Kisan Samman Yojana" award in *Haryana Krishi Vikas Mela* 2023, March 10-12,2023.

32 Sh. Balkishan, Progressive farmer, Village-Ramgarh received "Mukhya Mantri Pragatisheel Kisan Samman Yojana" award in *Haryana Krishi Vikas Mela* 2023, March 10-12,2023.

**6.6.9.5. International Collaboration:** *Mention the list of collaboration taken place during last five years with international agencies/universities/institutes for academic, research and others.*

This point has already been covered under points**6.6.1.11Collbaoration with Academic Institutions and Industry& 6.6.3.8 Global Support.**

**6.6.9.6. Fund Raising through CSR:** *How much fund the university has collected from corporate sector for on- farm research and extension and other related activities in last five years?*

- RenovationworkforCombathall, GymbuildingandBoyshostel, *i.e.*, CivilWork, Electricalwork, Landscaping, PathwayWorkKotastone, Office Air conditioner, Hostelfurnishings, Boxing punching bags, Hostelfurnitutre, Ventilation&coolingsystem, Officefurniture, OutdoorLighting, Physioroom renovation, Watercooler&RO, GymAirconditioning, TechnicalEquipment was carried out by the Financial Assistant from JSW Ltd. All above mentioned sports building fall under the GiriCentre, CCSHAU Hisar and with the assistance of JSW Ltd. Total expenditure to meet out all these renovation was **Rs. 8.42 Crores**which was fully sponsored by JSW Ltd.

- University has raised funds for XXI All India Inter Agricultural Universities Sports and Games Meet-2022-23 (Agri-Sports), amounting to Rs. 2 lacs from Yes Bank.
- University has raised funds of Rs. 73.90 lacsfor various CSR projects incldiung stainless steel dual drum dustbins with SS satnd; solar lights (Installed at COA, Bawal; 100 lights); Solar lights (Installed at COA, Kaul; 75 lights); incinerators and sanitary napkin dispenser covered and sponsored by HPCL, ONGC, IREDA and ONGC companied, respectively.
- A fund of Rs. 2 lacs were raised for sponsoring workshop covered by ONGC Company.
- COA&ET has raised fund of Rs. 70, 000/- for Development of HAU type Hempseed sponsered by Canapure Pvt. Ltd. Bhopal.
- University also raised funds of Rs. 2.03 Crores for infrastructure development i.e., Potato Grading Line, Vegetable Seed Packing Machine and Vegetable Grafting Unit installed at Department of Vegetable Science, COA.
- University had organized an International Conference on GINMA, 2019 & fund of Rs. 16.93 lacs was raised which were sponsored by various corporate like Coromandel, Corteva, PI industries, Bayer, FMC, Syngenta, UPL etc.
- Recently, University had organized an International Conference on INTCLIMATE & fund of Rs. 11.63 lacs wasraisedwhich were sponsored by various corporate such as Bayer Crop Science limited, Rasi seeds, Corteva etc.

**6.6.9.7. Alumni Support:** *Does the University have the active alumni association. How much fund the Association has raised for the development of the University? What the other areas where the Association is supporting to the University?*

The University has an active Alumni Association to support the parent organization's goals and to strengthen the ties between CCSHAU alumni, the community and the parent organization. The ex-officio President, Secretary and Treasurer are from Directorate of Students Welfare. The Alumni Association has remained dynamic largely due to the efforts of the Directorate. The Association felicitates its illustrious alumni who came from diverse walks of life. The association has raised Rs. 78,29,854 /- for the university. The association is supporting the University in the following ways:

1. To communicate on regular basis with the members of the Alumni and the University keeping mutually informed the developments of the Alumni as well as the University.
2. To foster more extended relationships between present students and staff and others associated with the University.
3. Generate funds for the development and betterment of the University and also for the promotion of the objectives of the association.
4. To provide continuing education enrichment experience for alumni and present students of the University.
5. To provide Alumnia platform to connect to University and to assist recent graduates and current students in shaping their career.
6. To provide financial assistance to the needy students in the shape of travel assistance for attending seminars to PG students, providing registration fee for attending National Seminar, providing tuition fee to PG students so as to continue their higher study without any hardship and also sports related financial help to promising and needy students to excel in sporting event.

During the periods under report the following Alumni Meets were organised:

| Dates | Alumini attended | Venue |
|---|---|---|
| 25.5.2019 | 76 | CCSHAU, Hisar |
| 24.11.2019 | 65 | COA, Kaul |
| 7.11.2021 | 37 | Jaipur |
| 12.3.2022 | 32 | Hisar |
| 24.9.2022 | 155 | Chandigarh |
| 2.4.2023 | 45 | COA, Hisar |
| 5.3.2023 | 35 | COA, Hisar |

A Glimpse of various Alumini meet

**6.6.9.10. Certificate** *(Application when SSR is submitted for Programmes, Colleges and Agricultural University).*

I, the **Registrar** of the Agricultural University **Dr. Balwan Singh Mandal** hereby certifies that the information contained in the sections6.4, 6.5 and 6.6.1 to 6.6.9.7 are furnished as per the records available in the University.

## COLLEGE OF AGRICULTURE
## HISAR

# SELF STUDY REPORT

2023

## Chaudhary Charan Singh Haryana Agricultural University
## Hisar, Haryana-125004

# FOREWORD

With 4.4 million hectares of land, Haryana is one of India's smallest States and accounts for 1.4% of the nation's total agricultural land. Haryana is the Nation's top state for agricultural productivity and a major supplier of food grains to the national supply. A thoughtfully designed and diligently given agricultural education has made breakthroughs in food and agriculture feasible. In the age of digitalization and technological growth, we at CCSHAU are paying close attention to the rising sectors of agriculture, creating connections between university entrepreneurs and industry, and motivating students and farmers to pursue agriepreneurship.

The College of Agriculture at Hisar came into existence on July 17, 1962 as Government Agriculture College. The College was initially affiliated to Punjab University, Chandigarh. The College became the integral part of Punjab Agricultural University, Ludhiana with its creation on December 20, 1962 College of Agriculture at Hisar has come a long way and has broadened its horizons. Along with imparting agricultural education of a very high standard it continues to serve farmers with the cutting edge research and advanced techniques developed by its scientists. The College offers a wide range of undergraduate courses and postgraduate programmes as per ICAR guidelines that integrate agricultural sciences and humanities to provide a holistic education to our students. Our faculty members, experts and technical staff, are committed in delivering high-quality instructions, promoting research-driven learning, and fostering an environment conducive to critical thinking and innovation among students. The faculty of the college has recently collaborated with the international institute IRRI, Philipines for rice research.

With foreign Memorandums of Understanding (MoU) and a wider student reach, the institution is in reality opening up new vistas in the subjects of agriculture. Accreditation is the process of authorising or formally endorsing an institution's profile, points of strength, and accomplishments. Self-Study Reports provide us the chance to remind stakeholders of our commitment to giving students a well-rounded education. I am delighted to present the self study report of college of agriculture. This report represents a comprehensive assessment of our academic programs, infrastructure, and overall institutional development.

I appreciate the dedicated efforts of all the faculty members, staff who helped in the preparation of this Self Study Report.

.

**Prof. B. R. Kamboj**
Vice Chancellor
CCSHAU, Hisar

# PREFACE

The College of Agriculture at Hisar came into existence on July 17, 1962 as Government Agriculture College. The College was initially affiliated to Punjab University, Chandigarh. It became the integral part of Haryana Agricultural University, Hisar with its creation in February 2, 1970. The college of agriculture, a citadel of agricultural education, research and extension, is one of the most important and largest constituent colleges of CCS Haryana Agricultural University. The college continuously caters into the needs of agricultural research and education of the students and stakeholders from the state as well as from other states and countries.

The College of Agriculture, Hisar is proud of its upgraded facilities, which include modern classrooms, well-equipped departmental libraries, laboratories, seminar rooms, examination hall and student farms. College is having well qualified and experienced faculty. College has 14 departments covering every aspect of agriculture education as per ICAR guidelines,

The central facilities of the university allow the college to produce brilliant graduates and postgraduates who are well prepared for the future endeavours in the field of contemporary agriculture. The college gives equal importance on co-curricular activities, such as cultural, sports, NCC, and NSS, in addition to curricular ones, as these activities help students grow into better human beings. Through these activities, students' general growth, interpersonal skills, and sense of patriotism are fostered.

The best theoretical and practical education is given to the students with the assistance of highly educated instructors. The unique exposure to practical and classroom education, followed by a year of practical crop production and six months of Rural Agriculture Work Experience (RAWE) helps to develop future-ready agriculture graduates in a variety of agricultural disciplines. To develop the students' entrepreneurial skills and prepare them for future ventures into production and marketing, a special focus is placed on agro-based skill-oriented activities such as organic farming, sustainable agriculture, beekeeping, mushroom cultivation, vermi-composting, dairying, and horticulture. The college promotes and supports international exposure to its students. Additionally, the college is effective at educating students from other nations.

These congenial conditions of the college equip students for the future, enabling them to achieve academically and better serve the farming community, as seen by the majority of gold medals won by students at this college as well as representation our students at national and international level. This graduates of the college are serving universities, banks, armed forces, cooperative sector and other public and private sectors successfully.

**Dr. Surender K. Pahuja**
Dean, College of Agriculture, Hisar

# SELF STUDY REPORT OF COLLEGE OF AGRICULTURE

## HISTORY

The College of Agriculture at Hisar came into existence on July 17, 1962 as Government Agriculture College. The College was initially affiliated to Punjab University, Chandigarh. The College became the integral part of Punjab Agricultural University, Ludhiana with its creation on December 20, 1962. Dr. H. S. Dhindsa was the first Principal of the College of Agriculture (COA). He later became the Dean and was succeeded by Dr. L. S. Negi, Dr. J. S. Kanwar and Dr. D. Sundaresan who administered it in addition to his duties till the regular Dean Dr. D. R. Bhumbla was appointed in July 1966 and he continued till February 1969. It became the integral part of Haryana Agricultural University, Hisar with its creation in February 2, 1970. The college has all facilities for students including smart classrooms, fully equipped laboratories, library, computer section, cafeteria, examination hall, seminar hall etc. The College of Agriculture, a citadel of agricultural education, research and extension, is one of the most important and largest constituent colleges of CCS Haryana Agricultural University.

The CCSHAU has three Colleges of Agriculture located at Hisar, Kaul and Bawal in which the COA Kaul and Bawal comes under the administration of COA, Hisar. College of Agriculture, Kaul situated on the outskirts of village Kaul, district Kaithal, Haryana (29.8498$^{o}$ N latitude, 76.6615$^{o}$ E longitude) is an important constituent college of Chaudhary Charan Singh Haryana Agricultural University (CCSHAU), Hisar. College of Agriculture, Kaul has its beginning as a constituent college of Kurukshetra University, Kurukshetra in the erstwhile state of joint Punjab. After creation of the state of Haryana in 1966, Haryana Agricultural University came into being at Hisar in the year 1970. The College of Agriculture, Kaul was integrated into the Haryana Agricultural University in 1974 with the motto to impart quality and scientific education to students in the field of agriculture.

Initially, the academic session was started for B.Sc. (Hons.) Agri. having both *i.e.* 4 year and 5 year programmes at Kaul campus. The classes for 1$^{st}$ year under 4-year programme, and 1$^{st}$ and 2$^{nd}$

year under 5-year programme were initiated at Kaul campus and the rest of classes were conducted at the main campus of HAU, Hisar. Dr. M.S. Chaudhary was the founder Principal who served the college from 28-7-1974 to 11-5-1977 and thereafter eighteen eminent Professors headed the post of Principal till date, under whose leadership the college has made significant achievements in the field of academics, sports, NCC/NSS and other co-curricular activities. College of Agriculture, Kaul was upgraded to a full-fledged college in 1983 and the first batch completed their graduation in 1986. During this long journey of 49 years, a total of 1513 students have completed their B.Sc. (Hons) Agri. degree from this esteemed college. Presently, 211 students including 107 girls are enrolled for B.Sc. (Hons) Agri. 4- year programme. Later, postgraduate programme of M.Sc. (Agriculture) and Ph. D. was initiated in three disciplines of Agronomy, Soil Science and Genetics & Plant Breeding in the year 2019-20. Presently, 12 M.Sc. students and 9 Ph. D. students are enrolled in this college.

The College of Agriculture, Bawal was established in 2015 as one of the constituent colleges of Chaudhary Charan Singh Haryana Agricultural University, Hisar on 21.08.2015. The foundation stone of the college building was laid down on February 25, 2017 by Shri Manohar Lal, Hon'ble Chief Minister of Haryana. Bawal is a municipality in Rewari district of Haryana state and lies in the National Capital Region (NCR) of India. It is located on national highway NH 48, about 14 km from Rewari city, 100 km from Delhi and 200 km from the main campus of the University at Hisar. Bawal is located at 28.09°N 76.59°E at an elevation of 266 m above mean sea level. The college has all facilities for students including smart classrooms, fully equipped laboratories, library, computer section, cafeteria, examination hall, seminar hall etc. The College of Agriculture, a citadel of agricultural education, research and extension, is one of the most important and largest constituent colleges of CCS Haryana Agricultural University.

## OBJECTIVES

The College adopts the following goals and objectives which permeate in offering of various curricula and, undertakes research and extension activities by its departments to:

- Provide world-class education to our students.
- Maintain a strong basic and applied research programme to support all segments of agriculture and allied sectors through enhanced agricultural productivity and environmental sustainability.
- Serve the rural society through extension activities by disseminating research-based knowledge.
- Assist stakeholders through value-added endeavors, bio-based products, bio-processing, crop diversification etc.
- Monitor climate change impacts on agricultural systems and develop mitigation strategies adopting interdisciplinary approaches.

## SELF STUDY REPORT FOR COLLEGE

### 6.5.1. College Administration

**6.5.1.1. College Dean's office establishment:** *Weather the Dean's post sanctioned by the appropriate authority as per ICAR Model Act/UGC guidelines? Date of selection of present Dean, mode of selection, tenure etc. shall be mentioned. Clearly mention the staff and infrastructure/facilities available in the Dean's Secretariat.*

The Dean's post is sanctioned by the appropriate authority as per ICAR Model Act. The Dean is appointed on a tenure basis for a period of four years through open selection on all India bases.

**Staff available in the Dean's Secretariat:**

| | | |
|---|---|---|
| Dean's Name | Dr. Surender K. Pahuja | |
| Whether the Dean's post sanctioned by the appropriate authority as per ICAR Model Act/UGC guidelines | Yes | |
| Date of Selection of Present Dean | 27.12.2021 | |
| Mode of Selection | Direct selection | |
| Tenure | 4 years | |
| STAFF | **Sanctioned** | **In position** |
| AAO | 1 | 1 |
| Personal Sec./Personal Assistant | 1 | 1 |
| Office Assistants (No.) | 7 | 6 |
| Clerks (No.) | 5 | 3 |
| Storekeeper (No.) | 1 | 1 |
| Messengers (No.) | 3 | 1 |
| INFRASTRUCTURE *(Give the details of the infrastructure available such as furniture, computer etc.)* | | |

| | | |
|---|---|---|
| Dean's Office | Yes. Dean's chamber is fully furnished with Executive table, Sofa sets and visitors' chairs. Computer with Windows 10 OS is provided with Laser printer and UPS system. The whole room is connected to an UPS system to prevent data loss in- case of electrical breakdown. Air conditioning equipments are also provided for climate control. False roofing is provided to improve lighting. All lights are LED as per the latest norms. The college is monitored from the Dean"s chamber through the CCTV monitor connected to cameras installed at various key points. | |
| PS Office | Yes. Separate provision for Personal Assistant (PA) with Computer and printer is provided for assisting the Dean. | |
| AAO Office | Yes. Independent office room, furniture and computer are available. | |
| Cashier Chamber | Yes. Separate Chamber with Computer facility and accounting software with printer for documenting the accounts are available. Sufficient number of steel shelves with locking provision is available to keep the office records. | |
| Store (s) | Yes | |
| Committee Room | Yes. The Committee Room has a long table with 50 executive chairs. False roofing with LED lighting is provided. The room also has air conditioning. A LCD projector with screen facility is available for conducting meetings and video conferencing. | |
| Waiting Lounge / Hall for Visitors | Yes; The Reception with seating arrangements is available for the visitors and also has drinking water facility | |
| Common room for girl students | Yes | |
| Washrooms/Toilets | Yes (24 in no.) One toilet for physically challenged | |
| Auditorium | Yes. Completely furnished Auditorium installed with audio visual aids with a seating capacity of 514 is available to conduct College day to day functions. Annual function day, Seminars, Guest lectures, Motivational speeches and Agriculture Officers' Workshop are also conducted in the Auditorium. | |
| Computer Centre (College Level) | 01, No. of computers: | 60 |

**6.5.1.2. Monitoring Mechanism for Quality Education (on-line):** *Whether the College is having an internal quality assurance system, with appropriate structure and processes, and with enough flexibility to meet the diverse needs of the stakeholders which is required for planning, guiding and monitoring quality assurance and quality enhancement activities of the Colleges. If yes, how effectively monitoring of teaching, research and extension across the departments is being conducted. Mention the impact of monitoring of the outcome of the College with reference to students' excelling in academics, research and extracurricular activities.*

Yes, the College has an Internal Quality Assurance Cell (IQAC).

**Composition of Internal Quality Assurance Cell (IQAC)**

(a) Chairperson: Dr. S. K. Pahuja, Dean College of Agriculture

(b) Senior teachers and administrative official:

1. Dr. S. K. Thakral, Professor & Head, Department of Agronomy
2. Dr. Manoj Sharma, Professor & Head, Department of Soil Science
3. Dr. A. K. Godara, Professor & Head, Department of Extension Education
4. Dr. D. P. Malik, Professor & Head, Department of Agricultural Economics
5. Dr. T. P. Malik, Professor & Head, Department of Vegetable Science
6. Mr. Yadvender, AAO, Dean College of Agriculture

(c) External Experts:

1. Dr. S. S. Pahuja Professor (Retd.), Department of Agronomy, CCSHAU, Hisar
2. Dr. R. K. Behl, Professor (Retd.), Department of GP&B, CCSHAU, Hisar

(d) Director/Coordinator: Member Secretary

1. Dr M. L. Khichar, Associated Dean, COA

The IQAC started working towards realizing the goals of quality enhancement and sustenance. The prime task of the IQAC is to develop a system for conscious, consistent and catalytic improvement in the performance of college. The IQAC is playing a significant role in maintaining and channelizing the efforts and measures of the college towards academic excellence.

**Functions of IQAC**

- Implementing and improving choice based credit system for curricula of the campus courses
- Monitoring the teaching-learning process
- Emphasizing on filling of vacant teaching and non teaching posts
- Encouraging organization of conferences/seminars/workshops *etc.* by the departments

- Supporting and encouraging the research projects sponsored by the university and outside agencies
- Strengthening trainings and placement of students
- Facilitating alumni interactions at department level
- Suggesting new inter-disciplinary programmes in the departments
- Capacity building and trainings for faculty and staff competence
- Organizing trainings for skill development and entrepreneurship
- Ensuring extra guidance to students of SC/ST, OBC and weaker section
- Reviewing internal quality assurance at the end of the year
- Improving teaching based on feedback from the students, teachers and parents
- Quick redressal of common complaints and women empowerment
- A non-smoking and zero tolerance for ragging college

**Monitoring of teaching:**

**Tutorial System:** Tutorial system has been introduced in the college. This is a system which addresses the groups of students attached to the faculty throughout their stay in the degree programme. Each group of students typically comprises of ten students in each class. One faculty is exclusively attached to this group and the meeting of tutorial group is convened every week to discuss students activities during the week, their performance, difficulties if any faced during the lectures, hostel life, sports and cultural activities etc., The faculty also communicate to the parents of their tutors and discuss about the feelings of their wards regarding the course, teaching, campus life etc.

- Self-appraisal report of individual teachers is evaluated by respective Head, controlling officer (Dean, DR, DEE) and VC.
- Evaluation of teachers through feedback proforma from students.
- To provide quality education to the students, all the e-content in form of text, video, images, presentations etc. are uploaded online on university website
- All the class in-charges are responsible to report all the academic activities periodically to the Dean.
- Programme of work, synopsis and thesis work of PG students are approved in Advisory Committee, then by HOD and finally approved by the Dean, PGS.
- PG students deliver synopsis seminar in their departments to get feedback from the departmental faculty. The synopsis is evaluated internally before submission to the Dean, PGS for final approval.
- CCTV cameras have been installed in each lecture room for regular surveillance.

**Monitoring of research:**

- The Professors & Heads make frequent visits to the research field and laboratories.
- The Annual Technical Programme meetings are held under the chairmanship of Director of Research along with ADR, Dean COA and HODs of the concerned and related departments to review and monitor the research work carried out in all the departments.
- Action plan of teachers for research work is discussed in the Technical committee meetings.
- Mid-term appraisal meetings are held to review the research work.

**Monitoring of extension:**

- Extension activities to be conducted by faculty members are planned in the Departmental Committee. The extension activities are also monitored by the respective KVK, Scientific Advisory Committee.
- Prof. & Head convene regular meetings of different DESs, Ext. Specialists and also maintains liaisoning through telephone system for pest survey & surveillance.

**Impact:**

- **Year wise number of students passed out are given below**

| **Students passed out during:** | | | | | | |
|---|---|---|---|---|---|---|
| **2017-18** | **2018-19** | **2019-20** | **2020-21** | **2021-22** | **2022-23** | **TOTAL** |
| **79** | 66 | 86 | 99 | 87 | - | **417** |

## Achievements of Students in Academic Activities

### a) Award of Gold Medal

| Year | Name | Admission No. | Name of Award |
|---|---|---|---|
| **2017-18** | Isha | 2014A32BIV | HAU gold medal |
| | Bhawana | 2012A11BVI | |
| **2018-19** | Jyotsna | 2013A13BVI | HAU gold medal, P. S. Lamba gold medal, A. L. Fletcher gold medal |
| **2019-20** | Anjali Rana | 2016A08BIV | HAU gold medal, P. S. Lamba gold medal |
| | Pragati Verma | 2014A37BVI | |
| | Simran | 2014A51BVI | A. L. Fletcher gold medal |
| **2020-21** | Prerna Pilania | K2017A22BIV | HAU gold medal, P. S. Lamba gold medal |
| | Shubham Grover | 2015A54BVI | |
| **2021-22** | Parmod | B2018A19BIV | HAU gold medal, P. S. Lamba gold medal |
| | Surbhi | 2016A56BVI | |

### b) UG Students awarded ICAR National Talent Scholarship

- **READY (RAWE+AIA) :**The Rural Entrepreneurial Awareness Development Yojana [READY] programme is a flagship activity for the final year B.Sc. (Hons.) The basic objective of the programme is building self-confidence in the agricultural graduates by developing their professional skills. RAWE focuses on strengthening capacity of individual students so that they can respond to the farmers' need and promote solutions related to such needs in their service career. It includes: orientation and basic training (1week); rural experience through village placement (10 weeks); agro-industrial attachment (6 weeks); project report preparation; presentation and evaluation of report (1week).

- **Basic Training:** One week orientation at Hisar and two days basic training of crop production and protection at respective KVK's, ATIC, Hisar and COA, Kaul is being carried out.

- **Rural Experience:** Students undertake full responsibility to operate individually and in small groups to interact with farmers during stay in villages for 70 days. They prepare survey schedule, identify issues and constraints in farming system and analyze factors involved in the sustainability of overall system in the village. Students learn how farmers determine and manage their resources. They also prepare a document, which is presented and submitted to the course faculty at the end of the course. This helps students to develop and maintain cooperation among the group and with farmers. A total of 211 students of B.Sc. (Hons.) Ag. final year including students from

COA, Kaul were provided hands on training for RAWE programme with the help of experts from CISA during 2022-23. Students were placed in 30 villages in the surrounding of RRS/KVK, Bawal and ATIC, Hisar.

- Preparation of report: During the last 2 weeks of RAWE programme, students learn to prepare report on rural experience, agro-industrial training attained, self-employment training received, programmes and activities of various institutions visited, major constraints in crop production and suggestions for improving income of farmers; presentation. The interns are evaluated through presentation and submission of report, viva- voce, punctuality, enthusiasm, conduct, leadership qualities, sincerity and devotion displayed by the interns.

- **Agro-Industrial Attachment:** The students gain a substantial experience through six weeks interaction with agro-based industries. The experience of commercial environment further advances their practical knowledge in communication skills and working in a team. Some students got direct interaction with perspective employer and got the job according to individual capability. The students work on specified projects and document the project output for further planning and execution of commercial activity related to the project. During the period under report, students were placed in 20 agro-based industries.

- **CSISA (Cereal Systems Initiatives in South Asia) ODK (Open data Kit ) a landscape diagnostic survey (LDS):** The CSISA (Cereal Systems Initiatives in South Asia) ODK (Open data Kit) -RAWE program in collaboration with Chaudhary Charan Singh Haryana Agriculture University (CCSHAU) was launched with a vision to understand the existing production practices of farmers in major cropping systems (Rice-Wheat, Cotton-Wheat and Pearl Millet-Mustard) prevalent in the state. The detailed survey with respect to landscape diagnostics for Rice-Wheat Cropping System (RWCS) was carried out in the district of Panipat, Kurukshetra and Yamunanagar, for Cotton-Wheat Cropping System (CWCS), the target districts were Hisar and Sirsa, and for Pearl Millet-Mustard Cropping System Mahendergarh and Rewari were the districts. The second, aspect of getting this survey implemented through the RAWE program was for the in-depth understanding of the prevalent practices and the existing gaps by the research scientists, extension agents, and policymakers and capacity building of agriculture students at the undergraduate level through rigorous field training to strengthen their base and give them an understanding of their future clientele i.e., the farmers. Thirty villages from each district were selected for the survey and random sample of ten farmers was used for the study. The students collected agricultural data of the farmers about their particular crop rotations with the help of Android software named ODK COLLECT v2022.3.6. Data collected through the questionnaires were thoroughly analyzed using different analytical tools and techniques.

  During RAWE programme students participated in following training/ awareness days for farmers organized through concerned KVK.

**Training**

- Organic Farming
- Management of insect pests in organic farming
- Vermicomposting
- Importance of seed treatment
- Management of kitchen waste
- Mushroom Cultivation

**Awareness**

- About toll-free number of university and e-Mausam HAU app
- Environment day

**Modules for Skill Development and Entrepreneurship:** The final year students of degree programme are given hands on training in various skill-oriented modules. During the training, students "learn by doing" various aspects of techniques and their management strategies. Students have to register 20 credits opting for two modules of 10 credits each from the nine modules in last semester of degree programme. The modules include Agro advisory services, Organic Production Technology, Bee Keeping, Mushroom Cultivation, Seed Production and Technology, Soil Plant Water and Fertilizer Testing Services, Commercial Vegetable Production, Bio-agents and Biofertilizers Production and Food Processing. Students learn entrepreneurship skills in the field of agriculture through practical learning under various skill-oriented modules. The students are exposed to deep practical learning by involving themselves to agri entrepreneurship environment through exposure visits and personal learning.

## c) Extra-Curricular Activities

**NCC, NSS & Other Activities**

**NSS UNIT College of Agriculture, CCS Haryana Agricultural University, Hisar**
**Awards/Achievements of NSS Volunteers (2018-22)**

National Service Scheme (NSS) came into existence in College of Agriculture since inception of the university in February 1970. It is considered as a part of academic studies for the undergraduate students of College of Agriculture, Hisar. It is offered as a course of two credits in the first semester every year and is playing an important role in mobilizing the students in community participation; group living, sharing and ultimately imparting the value education to the students. Some of the important activities performed by NSS volunteers of College of Agriculture, CCSHAU, Hisar during the period under report are described as below:

### Achievements of NSS Volunteers during 2018-19

**NATIONAL LEVEL**

**National Award**

- Mr. Rahul Dabur NSS volunteer was awarded National Youth Award for the year 2018-19 by Ministry of Youth Affairs & Sports, Government of India

**National Republic Day Parade**

- Two NSS volunteers Mr. Firdoos Malik and Mr. Sumit Lega from College of Agriculture, Hisar participated in Republic Day Parade on 26$^{th}$ January 2019 marched at New Delhi.

**National Integration Camp**

- Two NSS volunteers Mr. Ankur Gupta and Mr. Vishal Soni of College of Agriculture, Hisar participated in NSS National Integration Camp organized by the Ministry of Youth Affairs and Sports at Jamia Millia Islamia Central University, New Delhi during December 23-29, 2018.

**National Adventure Camp**

- Two NSS volunteers Mr. Jinkle and Mr. Aman Madan from College of Agriculture, Hisar participated in NSS National Adventure Camp organized by the Ministry of Youth Affairs and Sports at ABVIMAS Hat Koti- Kharapather during September12-21, 2018.

**STATE LEVEL**

**State Level NSS Award**

- Mr. Abhishek NSS volunteer was awarded State NSS Award by Department of Higher Education, Haryana for the year 2018-19.
- Dr. Bhagat Singh, NSS Programme Officer of College of Agriculture, Hisar was awarded the Best NSS Programme Officer in Haryana.
- Mr. Charan Singh, NSS Volunteer of College of Agriculture, Hisar was awarded the Best NSS Volunteer in Haryana.

**State Level NSS Camp**

- Six NSS Volunteers of College of Agriculture, CCSHAU, Hisar participated in State level NSS Camp organized by State NSS cell, Directorate of Higher Education, Haryana at GJUS&T, Hisar from March 22-28, 2019.

**Achievements of NSS Volunteers during 2019-20**

***International level***

- Mr. Firdos Malik participated in International Youth Exchange programme from November 11-22, 2019 at South Korea.

***National level***

**National Award**

- Dr. Bhagat Singh was awarded NSS National Award by Honorable President of India for the year 2019-20 in Programme Officer/NSS Unit category for his contribution in various NSS activities.
- Mr. Abhishek from College of Agriculture, Hisar was awarded NSS National Award by Honorable President of India for the year 2019-20 in Volunteers (Male) category for his contribution in various social activities.

***National Youth Award***

- Mr. Abhishek Kumar NSS volunteer of College of Agriculture, Hisar received **Swami Vivekanand National Youth Award 2020** for exemplary contribution in the social welfare by Sanskruti Foundation NGO, Maharashtra.

**National Republic Day Parade**

- Mr. Chetan Gupta from College of Agriculture, Hisar participated in Republic Day Parade on 26$^{th}$ January 2020 held at New Delhi.

**National Integration Camp**

- Mr. Abhishek from College of Agriculture, Hisar participated in National Integration Camp organized by the Ministry of Youth Affairs and Sports at Bangalore Central University, Bangalore from October 2-8, 2019.

- Mr. Manoj Saini from College of Agriculture, Hisar participated in National Integration Camp organized by Jammu University, Jammu (J&K) from February 22-28, 2020.

**National Youth Festival**

- Four NSS Volunteers (Jinkle, Sharad, Akshay Mehta and Kanika) participated in 23rd National Youth Festival organized at Lucknow (UP) from January 12-16, 2020.

***State level***

**State NSS Award**

- Mr. Jinkle NSS volunteer was awarded the State NSS Award by Department of Higher Education, Haryana for the year 2019-20.

**Achievements of NSS Volunteers during 2020-21**

***National level***

**National Award**

- Mr. Akshay Mehta from College of Agriculture, Hisar was awarded NSS National Award by Honorable President of India for the year 2020-21 in Volunteers (Male) category for his contribution in various social activities.

**National Republic Day Parade**

- Mr. Ankit Yadav from College of Agriculture, Hisar participated in Republic Day Parade on 26th January 2021 marched at New Delhi.

**National Integration Camp**

- Two NSS volunteers Mr. Ansh and Ms. Ritika participated in NSS National Integration camp held at MJP Rohilkhand University, Bareilly, Uttar Pradesh during March 10-16, 2021.

**Achievements of NSS Volunteers during 2021-22**

***International level***

- Mr. Vatsal Arora represented India and won Best Discussion Awards in 20th International Students Conference organized by Tokyo University from 9th July 2021 to 17th September 2021.
- Ms. Shakshi represented India and won Best Learner Award in 20th International Students Conference organized by Tokyo University from 9th July 2021 to 17th September 2021.

***National level***

**National Republic Day Parade**

- Ms. Ruchika from College of Agriculture, Hisar participated in Republic Day Parade on 26th January 2022 held at New Delhi.
- Mr. Umesh from College of Agriculture, Hisar participated in Republic Day Parade on 26th January 2023 held at New Delhi.

**National Integration Camp**

- Organised NIC at CCSHAU, Hisar during 16-22 December, 2021. Atotalof 200 NSS volunteers from 18 states of India participated.

- NSS volunteers attended National Integration Camp at Kurukshetra University, Kurukshetra during 18-24 November, 2021.
- NSS volunteers attended National Integration Camp at Maharishi Dayanand University, Rohtak during November 19-25, 2021.
- NSS volunteers attended National Integration Camp at Maharishi Markandeshwar University, Mulana (Ambala) during March 22-28, 2022.
- Organised NIC at CCSHAU, Hisar during 26th February to 4th March 2023. A total of 200 NSS volunteers from 13 states of India participated.

**CELEBRATION OF IMPORTANT DAYS:**

NSS units celebrated different important days such as, National Youth Day, Republic Day, Sadhbavna Day, International Literacy Day, International Peace Day, NSS Day, National Blood Donation Day, Mahatma Gandhi's Birthday, National Integration Day, Teachers Day, International Day of Yoga *etc*.

Different competitions and lectures were organized for the volunteers on these days. Volunteers plan and carry out different social activities such as tree plantation, cleanliness campaign, rallies etc. NSS volunteers also participated in the Pulse Polio Campaign initiated by the Government.

The world is changing and becoming more unpredictable especially for women. Women's education is important for their empowerment. Equally important is the issue of their safety. Today's high time requires that women must be ready to protect themselves. So, the self-defense becomes an important priority for women. Taking cognizance of this need, the trainings on self-defense for girl students is being orgranized through professionally qualified experts.

In every first quarter of the year, annual camp was organized in the village by NSS unit of college. NSS volunteers participated in the camp and organized several motivational lectures and useful training for the villagers. During camp, they also participated in various social activities like tree plantation, cleanliness drive and holding rallies on various topics/themes such as *Beti Bachao*, *Swach Bharat, Rastriye ekta, Nasha Mukt Bharat Abhiyan, HIV/AIDS awareness etc*.

**NCC unit:** *Existence and functioning of NCC unit and how it is benefiting the student development (A brief report)*

**National Cadet Corps Unit: COA, CCSHAU, Hisar**

NCC boosts confidence in individuals and brings out their hidden qualities, makes Cadets not only physically fit but also mentally strong with leadership qualities. Cadets with 'C' certificate are eligible for directly commissioned to vacancies in armed forces without appearing for written exam. Girl Cadets of College of Agriculture are enrolled in second semester in each academic session to be a part of NCC (Air and Army wing). Cadets are enrolled under unit "1HAR R&V SQN NCC, HISAR", "NCC 1(Air) Haryana Bn. Hisar" and "3 Haryana Girls BN NCC", NCC group- Rohtak and Directorate "Punjab, Himachal Pradesh, Haryana and Chandigarh." Girl cadets have come out in shining colours in all fields of NCC. Girl Cadets regularly participate in various events like:

- Republic day parade at CCSHAU
- ATC camps

- Guard of honour at Campus
- 'B' and 'C' certificate examinations
- Poem and declamation contests
- Trekking Camps
- Adventure Camps
- Flying Camps
- Shooting Camps

6. Fourteen students appeared in 'C' certificate examination on 19 February, 2023

**Mountaineering Club:** Youth and adventure are two faces of the same coin. In fact youth is not measured in terms of the years that one has lived, but by the spirit of adventure that one vibrates with. It has, therefore, been rightly said that the nation that fosters adventure, remains young and proves it invincible. Adventure sports unravel the challenges of nature before man and make person bold and energetic. It inculcates spirit of adventure among the youth and takes away from their minds the fear of the unknown.

**The base camp of Mt. Yunam**

CCSHAU Mountaineering Club provides avenues for the campus youth to take up the challenges inherent in this sport. The affinity of youth for the adventure has guided us to have our motto as "Youth for Adventure". Since its inception in 1971, the Club is flourishing day and night with significant achievements to its credit. The adventurous activities of the Club are usually confined to the semester/annual breaks and vacations when the students are free from their studies and look forward for a change and a new learning. Efforts were made to send the maximum number of members during these breaks on various adventure programmes organized by the Club itself and other clubs/organizations. The Club has successfully completed three peak climbing expeditions (2018, 2019 and 2022) and other trekking expeditions during this period. The students of College of Agriculture actively participated in all the activities of the club.

The group at the top of Mt. Kang Yatse-II

**Peak climbing expedition to Mt. Kanamo (5975m ), Mt. Yunam (6,114m) and Mt. Kang Yatse-II (6253m)**

The club organized a peak climbing expedition to Mt. Kanamo in Spiti valley of H.P. from 25th June to 4th July, 2018. Twenty students of the club participated along with President, Mountaineering club Dr. Mukesh Kumar and Dr. Subhash Chander, Advisor from College of Agriculture. During the expedition the group visited the Key Monastery, one of the main monasteries of the Kaza region. The members of the expedition visited the local houses to learn/ experience the way of living in these harsh conditions. The group also visited the school, college as well as the field to have knowledge about the agriculture of the spiti region. The group started the expedition from Kibber Village and summit Mt. Kanamo. Thirteen members of the team and President, Mountaineering club Dr. Mukesh Kumar scaled the summit (5975m). Few members could not be able to attempt due to poor health.

The group at the summit of Mt. Kanamo

The club organized another high altitude trekking cum peak climbing expedition to Mt. Yunam in Lahul valley of H.P. from 07 -15 September 2019. Twenty students of the club participated along with President, Mountaineering club, Dr. Mukesh Kumar. During the expedition the group had glimpses of two high altitude passes *i.e*. Rohtang Pass and Baralacha LA and a beautiful lake Suraj Tal. The group started the expedition from Baratput Tent Colony, a remote and Barron destination in the Lahul valley and summit Mt. Yunam. Twelve members of the team and President, Mountaineering club Dr. Mukesh Kumar scaled the summit (6114 M).

The team at the top of Mt. Yunam

The toughest expedition of the CCSHAU Mountaineering Club so far was organised to Mt. Kang Yatse-II (6253M) from 11-21 August, 2022. A total of 20 students (15 boys and 05 girls) participated and successfully completed the expedition under the leadership of Dr. Mukesh Kumar and Dr. Sanjay. The group started the expedition from Skiu and trek to Sara. The next day trekking was almost 20 km long and view of the Markha valley was breath-taking. The trek was along the markha river. After full day trekking the group reached at Onmling. The group trekked through the steep mountains to the Thochugste and set up the base camp. The group took rest whole day at base camp for acclimatisation and equipment checking. In the night around 11.00 PM, the group began the summit ascent and after the endless efforts the flag of CCSHAU was unfurled on the peak at 8.30 AM by five students, Aden, Sumit, Shivam, Abhilekh& Sooraj along with Dr. Mukesh Kumar.

The group at Mt. Kang Yatse-II

**Low altitude trekking in Himachal Pradesh**

A low altitude trek was organized at Indrahaar Pass of H.P. from 14th April to 18th April, 2018. Twenty five students of the club participated along with President, Mountaineering club (Dr. Mukesh Kumar) and Dr. Mukesh Dandi, Advisor from College of Agricultural Engineering and Technology. The group started the expedition from McCleodganj and was able to climb upto base of Pass (14350 feet). The team had to forcefully retreat due to bad weather and shortage of time.

**Indrahaar Pass**

The group at the base of Indrahaar Pass

Another low altitude trekking expedition to Mankiani peak and Kareri Lake (H.P.) was organized from 12-17 April, 2019. Total 25 students (15 boys and 10 girls) participated and successfully completed the expedition under the leadership of Dr. C.S. Dagar. The first camping was in the forest of Kareri village. The first day trek was up to Raoti through the lush green mountains. After full day trekking the members reached at Raoti which was the starting point of snowline. The group trekked through the snow laden mountains to the Kareri lake which was mostly covered with snow and keeping it as base camp the summit to Mankiani Peak was started. After the huge efforts the flag of CCSHAU was hoisted on the peak.

Mankiani peak

## Sports Activities of CCSHAU, Hisar

a) Fresher's Day and talent search programme was organized for first year students of College of Agriculture, on July 18, 2022.

Glimpses of Fresher's Day and talent search programme, 2022

## Counseling and Placement Cell

**Student Counseling and Placement Cell:** *Give detailed report on placement cell and provide the report for recruitment of students by firms in last five years. What is the mode and mechanism of counseling being followed at the University level?*

The Students C&P Cell has been established in the Directorate of Students' Welfare to keep the university students informed about potential job opportunities and help them in making prudent decisions for their future academic/professional career. The Students' Counselling & Placement Cell has been associated with multifaceted development of the students in an effort to develop their personalities and face the challenges of future with greater confidence. Realizing the present day need to further strengthen these efforts, the directorate has initiated an ambitious program to upgrade the managerial, administrative, communicative, technical and self- employment oriented skills of the students. The centre in the Directorate of Students' Welfare has been assigned four mandates *viz.*, imparting trainings, placements, liaison with leading industries and guidance to university students. The Students C&P Cell coordinates the task of organizing campus interviews for the outgoing students. In addition to help students in seeking employment, the cell has been involved in guiding

the students appearing for competitive examinations and getting admissions, scholarships/fellowships in the recognised institutes of India and abroad.

The present-day world of work is marked by two distinct features. On one hand, there are meagre chances of getting employment in Public Sector and on the other hand there are numerous avenues of jobs/placements in private banking/insurance/agri-input sector more than ever before, in wake of globalization and liberalization of economy.

Concerted efforts are made to explore the possibility of placement of the graduates in Rural Development/Banking/Insurance/Agri-Input Sectors and the University has succeeded as seen by the recent placements in this domain. It was made possible because of the efforts put by various sectors dealing in rural development/banking/insurance/agri- sector for giving preference to university graduates in different rural developments areas. This way, we took advantage of it and College of Agriculture graduates have been placed in these new emerging vistas of specialization. Further, these sectors require some specific skills in order to land in any gainful employment. In the changed scenario, the Students' C&P Cell at CCSHAU, realizing the importance to equip the students with managerial, administrative, communicational and self-employment skills, has undertaken a massive training campaign to enhance these skills among the students of all streams/disciplines.

The details of the activities undertaken by the Students C&P Cell during the period under report are as follows:

**Placement in the last five years through Campus Interview/IBPS**

| **37.** | "Role of Agribussiness in Self Reliance of India" for SC students | 17.02.2022 to 24.02.2022 | 25 |
| **38.** | Online "Communication Skills in competitive era" | 17.03.2022 to 30.03.2022 | 45 |
| **39.** | "Agripreneurship: Transforming an idea into a new business" | 29.03.2022 | 18 |
| **40.** | Ten days short course on "Scientific management of *Apis mellifera* colonies for nutritional and economic security | 25.01.2022 to 03.02.2022 | 23 |
| **41.** | Communication skills for effective public speaking training | 08.03.2022 to 17.03.2022 | 29 |

## ICT Based Initiatives

The students counselling, placement and skill integrated learning has long been supported by paper-based systems. The use of ICT based technologies viz., Internet and the World Wide Web have revolutionized the provision of information and the facility for the user to take action on the information obtained. In today's fast-moving world most of the placement/recruitment agencies, private sectors and other stake holders require relevant information of students online, their databases through spreadsheets and Email communications. Therefore, for effective and result oriented functioning of Students C&P Cell, following ICT based initiatives have been undertaken

**Web Resources for Career Opportunities:** Taking cue from Digital India drive, the Students' C&P Cell in the Directorate of Students Welfare has devised a dedicated web portal http://hau.ac.in/dsw/dccp.php. The web portal is excellent source of relevant information related to career opportunities for the students. The portal has been widely acclaimed and visited by many people since its launch in January, 2015.

**6.5.1.3. CC/Board of Studies:** *Whether the CC in the Department level and Board of Studies at the College is in place? The composition of the BoS and date of conduct of meetings for last five years and major recommendations made by the BoS should be given in tabular form.*

The College of Agriculture has **Departmental Advisory Committee (**DAC) at the Department level and **Board of Studies** at College level.

**Departmental Advisory Committee:** The Departmental Advisory Committee (DAC) is constituted with the approval of competent authority for management of teaching, research and extension within each department of the college.

**Composition of DAC:**

1. HOD (Chairperson)
2. Professor (Member)
3. Associate Professor/Scientist (One Member each from teaching, research & extension stream)
4. Assistant Professor/Scientist (Member Secretary nominated by the HOD amongst the members)

**Board of Studies:** The college has a Board of Studies which has the responsibility of managing academic affairs such as proposing new courses of studies, curricula modification etc. for various programs offered by the College. The Board of Studies also reviews the standards of teaching regularly.

**Composition of BoS:** The Dean of the College is the Chairperson and all Heads of the departments of the college are members. One HOD of any department is nominated as the Vice-Chancellor's nominee and one of the HODs is the Member Secretary.

- Dean, COA (Chairperson)
- Associate Dean, COA (Member Secretary)
- HOD, Agricultural Economics (Member)
- HOD, Agronomy (Member)
- HOD, Agricultural Meteorology (Member)
- HOD, Business Management (Member)
- HOD, Entomology (Member)
- HOD, Extension Education (Member)
- HOD, Forestry (Member)
- HOD, Genetics and Plant Breeding (Member)
- HOD, Horticulture (Member)
- HOD, Nematology (Member)
- HOD, Plant Pathology (Member)
- HOD, Seed Science and Technology (Member)
- HOD, Soil Sciences (Member and Vice-Chancellor's nominee)
- HOD, Vegetable Science (Member)

| Date | Major Recommendations of Board of Studies |
|---|---|
| **25.04.2018** | • Scholarship for MBA students<br>• Starting of Rattan Lal Gold Medal for Ph. D. students in the department of soil science<br>• Gold medal for overall best graduate student in Agriculture on the name of Dr P.S. Lamba |
| **20.08.2018** | • Increasing the number of M.Sc. and Ph. D. seats in department of SST, forestry, G&PB and Agronomy. |
| **11.12.2018** | • Admission policy for the year 2019-20<br>• No. of seats of different programmes<br>• Change of qualifications, if any (Minimum qualifications for admission of fresh as well as in-service candidates) |
| **24.01.2019** | • Qualifications for admission in PG programme |
| **04.02.2020** | • Admission policy for the year 2020-21 for Business Management<br>• Change of qualification for Ph. D. admission<br>• Institution of Gold Medal in the memory of Rao Bahadur Dr. Ram Dhan Singh for Ph. D. students<br>• To launch Rural Management Curriculum for Bachelor's and Master's Degree |
| **26.02.2020** | • Admission to MBA (General/Agribusiness) in the Institute of Business Management & Agripreneurship, Gurugram for the Session 2020-21 including Dept. of Business Management, CCSHAU, Hisar. The courses and admission criteria were also approved. |
| **28.07.2020** | • Courses along with course contents for Masters in Rural Management proposed by Department of Business Management were recommended for approval |
| **21.08.2020** | • M.Sc. & Ph. D. Classes in Horticulture at COA, Bawal<br>• M.Sc. & Ph. D. Classes at COA, Kaul |

| | |
|---|---|
| | • Academic Support Programme for SC students |
| **21.10.2020** | • Placement of students for Rural Agricultural Work Experience under READY Programme The matter regarding placement of students for Rural Agricultural Work Experience under READY Programme was discussed thoroughly and approved. |
| **11.02.2021** | • Number of seats in admission of different programmes<br>• Minimum qualification for admission in different programmes for fresh as well as in service candidates.<br>• Admission policy for the session 2021-22 of department of business management.<br>• Reduction of seats in PGDC-3 diploma<br>• Crosslisting of AGM courses of UG, PG and PG diploma. |
| **25.02.2021** | • Increase in 10% seats in admissions of all the UG and PG programmes from the academic session 2020-21 |
| **15.04.2021** | • Gold Medal in the memory of Rao Bahadur Dr. Ram Dhan Singh for students of Ph. D. of CCSHAU, Hisar. |
| **09.08.2021** | • Proposal for creation of teaching posts for Institute of Business Management and Agripreneurship, Gurugram,CCSHAU, Hisar. The department wise detail of the proposed teaching and non- teaching posts along with their nomenclature was approved. |
| **17.02.2022** | • Finalization of course curriculum for M.Sc. and Ph. D. programme under BSMA.<br>• Admission policy for the year 2022-23 |
| **15.04.2022** | • The revised proposal for creation of teaching posts for Institute of Business Management and Agripreneurship, Gurugram, CCSHAU, Hisar. The department wise detail of the proposed teaching and non- teaching posts along with their nomenclature was approved<br>• Cross listing of BSMA courses |
| **25.04.2022** | • Admission policy for the session 2022-23<br>• Matter regarding the revision of syllabus of entrance examination of 6 year programme was discussed and approved<br>• Matter regarding the revision of syllabus of entrance examination of 4 year programme was discussed and approved<br>• Review of classes of PG students admitted at COA, Kaul and COA, Bawal<br>• Implementation of BSMA courses<br>• Admission under category Land Donation Villages should be limited |
| **20.06.2022** | • Starting of B.Sc. (Hons.) Agri-business Management programme at College of Agriculture, CCSHAU, Hisar from the Academic Session 2022-23 with initial intake of 12 seats.<br>• The eligibility qualification for admission in B.Sc. (Hons.) Agri-business Management as under:<br>"10+2 or equivalent having passed with Physics, Chemistry, Biology/ Mathematics or Agriculture stream from a recognized University/Board with 50% marks in 10+2 (relaxable upto 47.5% for Scheduled Caste and Person with Disability (PwD) candidates)"<br>• The course structure as per ICAR/BSMA will be adopted |
| **22.07.2022** | • The matter of Broad Subject Matter Area (BSMA) at PG and Ph. D. level of different departments was discussed and recommended for approval<br>• Changes in fee structure, minimum seats and provision of honorarium for supporting staff in one year course on "Diploma in Agrochemicals and Fertilizers" |

**6.5.1.4. Anti-Ragging Cell:** *In pursuance to the Judgment of the Hon'ble Supreme Court of India dated 08.05.2009 in Civil Appeal No. 887/2009, the University Grants Commission has framed "UGC Regulations on curbing the menace of ragging in higher educational institutions, 2009" which have been notified on 4th July, 2009 in the Gazette of India. Does the College follow this regulation and subsequent guidelines issued in the matter in letter and spirit? Give details.*

Yes; the college follows the regulation and subsequent guidelines issued in the matter. There is an Anti-ragging committee constituted by the Dean. The composition of the committee alongwith details of the members is given as under:

**B. Activities of the Committee**

**A .Composition of committee: Chairman : Dr. S K Pahuja**

**A. Faculty Members**

| Sr.No. | Name of Teacher | Departments | Telephone No. | |
|---|---|---|---|---|
| | | | Office | Mobile |
| 1. | Dr. S. K. Thakral, Prof. & Head | Deptt. of Agronomy | 5268 | 9416488668 |
| 2. | Dr. T.P. Malik, Prof. & Head | Deptt. of Vegetable Science | 5207 | 9416961826 |
| 3. | Dr. Manoj Kumar, Prof. & Head | Deptt. of Soil Sciences | 5278 | 9416926729 |
| 4. | Dr. Sunita Yadav, Head | Deptt. of Entomology | 5285 | 8930930874 |

**B. Non-Teaching Staff**

| Sr.No. | Name of Staff Member | Departments | Telephone No. | |
|---|---|---|---|---|
| | | | Office | Mobile |
| 1. | Sh. Yadvender Singh, AAO | Dean's Office, COA | 5260 | 9253070633 |
| 2. | Sh.Parveen kumar. P.S. | Dean's Office, COA | 5260 | 8199981964 |
| 3. | Sh. Harish Chander, Asstt. | Dean's office, COA | 5401 | 9466060871 |
| 4. | Ms. Deepika, Asstt. | Dean's office,COA | 5401 | 9034971671 |
| 5. | Sh. Anil Duhan Asstt. | Dean's office,COA | 5260 | 8930162744 |

**C. Students**

| Sr. No. | Name and Admn. No. | Class | Mobile No. |
|---|---|---|---|
| 1. | Archita , 2022A15BIV | B.Sc. (Hons.) Agri.1st Yr. (4 Yr.) | 9350410117 |
| 2. | Vikarm Singh, 2022A166BIV | B.Sc. (Hons.) Agri. 1st Yr. (4 Yr.) | 9896641733 |
| 3. | Ankit 2021A14BIV | B.Sc. (Hons.) Agri. 2nd Yr. (4 Yr.) | 8279208603 |
| 4. | Jyoti 2021A55BIV | B.Sc. (Hons.) Agri. 2nd Yr. (4 Yr.) | 9896297694 |
| 5. | Aanad 2020A14BIV | B.Sc. (Hons.) Agri. 3rd Yr. (4 Yr.) | 7015061912 |
| 6. | Diksha 2020A27BIV | B.Sc. (Hons.) Agri. 3rd Yr. (4 Yr.) | 9812221592 |

The committee monitors the events involving ragging, enquires into and report to the Dean, and works out modalities of functioning, frequency of visits, meetings etc. The committee checks the ragging menace during the college hours in and around the college premises and also makes surprise raids on hostels and other places vulnerable to incidents of ragging.

Ragging is banned in the University. The University has adopted the UGC Regulations on Curbing the Menace of Ragging in Higher Educational Institutions, 2009 as well as the directions of the Hon'ble Apex Court. The Haryana Prohibition of Ragging in Educational Institution Ordinance/Rule 2012 has also been adopted by the University *w.e.f.* 27.9.2012. Rules on curbing the menace of Ragging 2012 are at Chapter-IX of this Prospectus.

The application form for admission, enrolment or registration contains an undertaking by the students and parents, mandatorily in English and in Hindi and/or in one of the regional languages known to the parents/guardians of the applicant, as provided in the Proforma II to these Rules, to be filled up and signed by the parents/guardians of the applicant to the effect that he/she has read and understood the provisions of these Rules as well as the provisions of any other law for the time being

in force, and is aware of the prohibitions of ragging and the punishments prescribed, both under penal laws as well as under these Rules and also affirm to the effect that his/her ward has not been expelled and or debarred by any institution and further ever that his/her ward would not indulge, actively or passively, in the act or abet the act of ragging and if found guilty of ragging and/or abetting ragging, his/her ward is liable to be proceeded against under these Rules or under any penal law or any other law for the time being in force and such action would include but is not limited to debarment or expulsion of his/her ward.

**6.5.1.5. Biological waste disposal facility:** *Whether wastes (chemical, biological, radioactive, universal, and recyclable) are generated by a variety of research, clinical, service, maintenance, and cleaning operations at the college level? If yes, then mention the disposal mechanism being adopted as per the government guidelines.*

The College Chemical and Biosafety Committee (CCBC) is responsible for reviewing projects and research activities that involve possible biological, chemical, and physical hazardous at the laboratories. The CCBC also monitor the fire safety arrangements and waste management practices including storage and disposal of chemicals, biological and other materials. The committee conduct training programs to educate students and faculty about laboratory safety issues to avoid any unwanted event. The overall motto of CCBC is to ensure the safety of students, faculty and staff, mitigate environmental pollution and eventually improve the research standard.

Yes, chemical, biological and recyclable wastes are generated through research, service, maintenance, and cleaning operations.

Dean, College of Agriculture, constituted the committee to assess the ways of disposing waste in various departments of the College**.** Committee comprised of following members:

- Professor & Head, Department of Soil Science
- Professor & Head, Department of Genetics and Plant Breeding
- Professor & Head, Department of Entomology
- Professor & Head, Department of Plant Pathology
- Professor & Head, Department of Nematology
- Professor & Head, Department of Horticulture

Training on "Chemical and Biosafety Practices in the Laboratory" for the newly admitted M.Sc. and Ph. D. students of the college during 10-20 October 2022 was organized in the university. This training involved lectures on Laboratory Safety Practices pertaining chemical, biological, fire, electric hazardous among the others. Hands-on training was also provided to the students from various departments of college.

**6.5.1.6. Institutional Ethics Committee for Experiment on Animals:** *Whether the institute/College is following CPCSEA guidelines and constituted an Institutional Animal Ethics Committee (IAEC), get their animals house facilities inspected and get their project cleared by CPCSEA and IAEC before commencing them? If Yes, the college should make statement that it is adhering all guidelines in the matter.*

Yes, the college has constituted Ethics Committee which follows regulation and animals are maintained in a proper and healthy manner and are not subjected to unnecessary pain or suffering before, during and after performance of experiments on them.

1. Dr. S. K. Pahuja, Dean College of Agriculture, Chairman
2. Professor & Head, Department of Entomology, Member
3. Professor & Head, Department of Plant Pathology, Member
4. Professor & Head, Department of GPB, Member

**6.5.1.7. Committee for Prevention of Sexual Harassment of Women at Work Places:** *Does the institution is adhering the sexual harassment of women at workplace (Prevention, Prohibition and Redressal Act, 2013) in letter and spirit. If yes, mention the constitution of sexual harassment committees and date of proceedings conducted in last five years in tabular form:*

Yes, there is a committee constituted for prevention of sexual harassment of women at work placed under the chairmanship of the Dean. The composition of the committee is given below:

| | | |
|---|---|---|
| **1.** | **Dr. S. K. Pahuja, Dean, COA** | **Chairman** |
| **2.** | Dr. M. L. Khicher, Assoc. Dean, COA | Convenor |
| **3.** | Dr. J. S. Malik, Prof. Ext. Education | Member |
| **4.** | Dr. Amita Girdhar, Business Management | Member |
| **5.** | Ms. Deepika O/o Dean, COA | Member |
| **6.** | Ms. Kavita, 2022 A59D, Deaprtment of Agronomy | Member |
| **7.** | Ms. Monika, 2022 A 36M, Department of Horticulture | Member |
| **8.** | Ms. Anchal, 2021A01BIV | Member |
| **9.** | Ms. Diksha, 2020A27BIV | Member |

**However, no case of sexual harassment has been reported during this period of report.**

## 6.5.2 Faculty:

**6.5.2.1. Faculty Strength:** *Mention the Faculty position (both in sanctioned and in-position) at the College.*

The sanctioned posts of Professors/equivalent, Associate Professors/equivalent and Assistant Professor/equivalent in the college are 26, 73 and 307, respectively. During the period under report from April, 2018 to March, 2023, there has been superannuation every month.

The details of faculty strength are given as under:

| Designation | Sanctioned | In place* |
|---|---|---|
| **Professor and equivalent*** | 26 | 30 |
| **Associate Professor and equivalent*** | 73 | 07 |
| **Assistant Professor and equivalent** | 307 | 175 |
| **Total** | **406** | **212** |

**Note:** *Faculty in place includes Professors and Associate Professors promoted as a measure personal to them under CAS.

**6.5.2.2. Faculty Profile:** *Mention department wise faculty profile in tabular form and mention whether present profile is sufficient to meet the academic requirement of the College.*

The College has well qualified and experienced faculty members having vast experience and international exposure. Department wise profile of the faculty is given as under:

## Agricultural Economics

| **20.** | Dr. Vikram | Assistant Scientist | Vegetable Production | 10 | 07 | - | 05 | - | - |

### 6.5.2.3. Credential of the Faculty

### Agricultural Economics

| S. No. | Name | Designation | Highest qualification | Honours/awards | Any other achievement that contributes to effective teaching and student learning and outcome |
|---|---|---|---|---|---|
| **1.** | Dr. K. K. Kundu | Associate Professor | Ph. D. | 1. Appreciation Letter<br>2. Appreciation Letter<br>3. Appreciation Letter<br>4. Certification of Appreciation | 1. Prepared of strategy document on Doubling Farmers Income in Haryana by 2022 – A strategy Document<br>2. By Secretary to Governor, Raj Bhawan Haryana, for preparation of draft note on the issue of "Approach to Agriculture – A Holistic Overview.<br>3. By Vice-Chancellor, for preparation of draft note on the issue of "Approach to Agriculture – A Holistic Overview.<br>4. By Shri Mata Vaishno Devi University, J&K for acting as Session Chair in the panel discussion in the international seminar on sustainable rural development in India: Issues, Opportunities & Challenges, organized by School of Economics, SMVDU, in collaboration with NABARD |
| **2.** | Dr. Nirmal Kumar | Assistant Scientist | Ph. D. | Young Scientist Award | |
| **3.** | Dr. J. S. Papang | Assistant Professor | Ph. D. | Best poster award | 30th annual conference "Institutional changes for inclusive and sustainable |

| | | | | | |
|---|---|---|---|---|---|
| | | | | | development" Agricultural Economics Research Association |
| **4.** | Dr. D. P. Malik | Professor | Ph. D. | Member of Task Force | By Haryana Government "Task Force for preparation of Kisan Kalyan /Farmers Welfare Policy with Vision 2047" |
| **5.** | Dr. Dalip Bishnoi | Assistant Scientist | Ph. D. | Selected for 3 Months Training under Foreign Institution under NAHEP-IDP | Texam A&M University, Texas, USA |

## Agronomy

| **S. No.** | **Name** | **Designation** | **Highest qualification** | **Total Experience (Years)** | **Honours /awards** | **Any other achievement that contributes to effective teaching and student learning and outcome** |
|---|---|---|---|---|---|---|
| **1.** | Prof. B. R. Kamboj | Vice Chancellor | Ph. D. | 28 | - | 1. Vice-Chancellor of CCSHAU, Hisar and also served as Vice- Chancellor of GJUS&T, Hisar .<br>2. International exposure to CIMMYT, Mexico.<br>3-year experience as hub Coordinator in International project of CIMMYT-IRRI-CSISA.<br>3. He also served CCSHAU, Hisar as Chief Scientist-cum-Head, Sr. Coordinator & Registrar. He is also the Esteemed President of CCSHAU Agri-Business Incubation Centre (ABIC).<br>4. He has the experience of working with various international Institutions and Universities like Western Sydney University- Australia, Michigan State University-USA, CIMMYT-Mexico, IRRI-Philippines etc. |
| **2.** | Dr. S. K. Thakral | Professor | Ph. D. | 28 | - | - |
| **3.** | Dr. Satish Kumar | Principal Scientist | Ph. D. | 34 | - | Serving as Project Director in Directorate of research, CCSHAU, Hisar |
| **4.** | Dr. Bikram Singh | Principal Scientist | Ph. D. | 30 | - | - |
| **5.** | Dr. O. P. Lathwal | Regional Director, Rice | Ph. D. | 30 | - | Online teaching during Corona period, Smart class room teaching |

| | | | | | | |
|---|---|---|---|---|---|---|
| | | Research Station, Kaul | | | | |
| **6.** | Dr. Anil Kumar Mehta | Principal Scientist | Ph. D. | 30 | 1 | - |
| **7.** | Dr. Rajender Kumar | DES Agronomy | Ph. D. | 30 | - | - |
| **8.** | Dr. Rajbir Garg | Professor/Equ. | Ph. D. | 28 | - | - |
| **9.** | Dr. Dharambir Yadav | Regional Director, Bawal | Ph. D. | 28 | 3 | He served as a Project Director in Directorate of Research, CCSHAU |
| **10.** | Dr. Ramesh Kumar | Principal Extension Scientist | Ph. D. | 29 | Agritech Outlook Best KVK Award at National level | - |
| **11.** | Dr. Mehar Chand | Principal Scientist | Ph. D. | 29 | - | - |
| **12.** | Dr. Pawan Kumar | Principal Scientist | Ph. D. | 27 | Best Oral Presentation Award in national Seminar during 2014 | 1. Prepared Six teaching anuals on different courses of Agronomy.<br>2. Prepared Course content on Integrated Farming System<br>3. IFS model developed on one ha for students teaching & learning.<br>4. Controller of Examinations and landscape officer of the University. |
| **13.** | Dr. Anil Kumar Yadav | Principal Scientist | Ph. D. | 27 | 1. Best Researcher award in the Department of Agronomy in January 30-31, 2020<br>2. As a team member two times received Best Pearl millet centre award at National | Director of Deen Dayal Upadhyay centre of excellence for organic farming |

| | | | | | | |

**Faculty of Dept. of Genetics & Plant Breeding:**

Department of Genetics & Plant Breeding, CCSHAU, Hisar has been adjudged as the Best Department for the period 2010-2014 in view of its significant contributions in teaching, Research in Crop Improvement, and Extension Education Programmes which transferred Haryana State as model in India for Agricultural Technology development and its adoption. The trophy of "Best Department Award" year 2010-2014 has been presented by Vice-Chancellor, CCSHAU, Hisar on 26.07.2015 at the 24th convocation.

## List of retired Faculty

| Sr. No. | Name | Date of retirement |
|---|---|---|
| **1.** | Dr. S. S. Siwach | 31.03.2018 |
| **2.** | Dr.N. K.Thakral | 30.04.2018 |
| **3.** | Dr. S.S. Dhanda | 31.05.2018 |
| **4.** | Dr. P. K. Verma | 30.11.2018 |
| **5.** | Dr.Naresh Kumar | 31.03.2019 |
| **6.** | Dr. A. K. Sarial | 30.04.2019 |

| | | |
|---|---|---|
| **7.** | Dr. R. S. Khatri | 30.06.2019 |
| **8.** | Dr. K.S. Narania | 31.08.2019 |
| **9.** | Dr. S. K. Sethi | 30.09.2019 |
| **10.** | Dr. Y. P. Yadav | 30.11.2019 |
| **11.** | Dr.R. K.Sheoran | 31.12.2019 |
| **12.** | Dr. I. S. Panwar | 31.01.2020 |
| **13.** | Dr. R.S. Sangwan | 31.01.2020 |
| **14.** | Dr. Khushi Ram | 31.03.2020 |
| **15.** | Dr. S. R. Pundir | 31.03.2020 |
| **16.** | Dr. A. K. Chhabra | 30.06.2021 |
| **17.** | Dr. D. S. Phogat | 30.06.2021 |
| **18.** | Dr. Ramesh Kumar | 30.04.2022 |

## Horticulture

**6.5.2.4. Technical and Supporting Staff:** *Whether the College has appointed (in place) sufficient technical/laboratory/farm staff to cater the need of practical and field experiments. Mention department wise distribution of technical, supporting and field staff in the tabular form*

| Sr. no. | Departments | I. Technical | II. Supporting Staff | III. Field Staff |
|---|---|---|---|---|
| **1.** | Agricultural Economics | - | 5 | 29 |
| **2.** | Agronomy | 17 | 4 | 10 |
| **3.** | Agricultural Meteorology | 2 | 1 | 2 |
| **4.** | Business Management | - | 3 | - |
| **5.** | Entomology | 12 | 4 | 4 |
| **6.** | Extension Education | 1 | - | - |
| **7.** | Forestry | 1 | 6 | 5 |
| **8.** | Genetics and Plant Breeding | 9 | 16 | 34 |
| **9.** | Horticulture | 1 | 4 | 12 |
| **10.** | Nematology | 1 | 2 | 1 |
| **11.** | Plant Pathology | - | 8 | 1 |
| **12.** | Seed Science and Technology | 5 | 3 | 4 |
| **13.** | Soil Science | 20 | 11 | 10 |
| **14.** | Vegetable Science | 3 | 4 | 17 |
| | **Total** | **72** | **70** | **129** |

### 6.5.3. Learning resources:

**6.5.3.1 College Library:** *Location of the library, Present staff position (in place facility), Availability of the following in library, Wi-Fi, No. of books and other reading materials, No. of periodicals and research journals, No. of internet points with number of computers, Seating capacity in library, Employing the latest technology in library sciences, Stocking arrangements of books, Collection of volumes on different subjects, Latest publications in the fields of relevant subjects, Automation and user services through computer, Opening hours, Subscription of journals of national and international repute, national dailies, magazines etc.*

There is digital library in the College. Each faculty member and students have access to the digital library. Most of the departments of the college have departmental libraries with good collection of books and theses which are accessible to students and faculty.

- CCS Haryana Agricultural University has a centrally located Nehru Library with Library Advisory Committee to decide the guidelines for its smooth functioning.
- The Committee comprises Vice-Chancellor as its Chairman and University Librarian as its Member-Secretary. All the Deans/Directors, Registrar, Comptroller, Principal- College of Agriculture, Kaul and President of HAUTA are its ex-officio members, while one HOD, one faculty member and one PG student from each College are nominated by the Vice-Chancellor for two academic years.
- Students are encouraged to consult the library which is well equipped with a large number of books and other facilities like *Krishikosh*, CeRA(Consortium for e-resources in Agriculture), BOLAE(Britannica Online Academic Edition), Scopus database, DELNET (Developing Library Network) database, NDL (National Digital Library) resources and video conferencing. The library provides access to e-dictionary, Thesaurus, Biography of world great personalities and e-books. It is the hub of academic and research activities of the University; housed in a centrally located elegant building.
- It provides information support to teachers, scientists, extension specialists, students, and other members including non-teaching staff and general public.
- Library regularly conducts training programmes for faculty and students and gets feedback. Suggestions are incorporated in creating better facilities to its users.
- Videoconferencing facility and multimedia service are other important facilities provided to Library users. Entire collection of library has been made bar-coded for automated circulation activities.
- Library security has been monitored by CCTV Security System.
- Implementation and maintenance of Anti-Plagiarism software (Turnitin)
- Implementation of IUMS/ERP modules for the Digitization of University Work.

**6.5.3.2. Laboratories, Instructional farm, Workshops, Dairy Plant, Veterinary Clinic, Hatchery, Ponds etc.:** *Cleary mention about laboratories, instructional farm, workshop, dairy plant, veterinary clinic, hatchery, ponds etc facilities available in the college with its numbers, space, speciality to conduct practical/hands on training*

Department wise information regarding lab facilities in various departments of the College is given as under:

**Agronomy**

| | Facilities | Numbers | Space Length (m) x Width (m) | Speciality to conduct practical | Speciality to conduct hands on training |
|---|---|---|---|---|---|
| **i)** | Laboratories | i) Weed Control<br>ii) Irrigation<br>iii) Residue Management<br>iv) Farming System | 15'x 20' | • To analyse herbicide and pesticide residue in crop. Nutrient analysis of crop produce | Yes |

| | | | | | |
|---|---|---|---|---|---|
| **ii)** | Instructional farm | One | 5.6 ha | PCP | Yes |
| **iii)** | Workshops | Nil | Nil | Nil | Yes |
| **iv)** | Ponds | 2 | One -10000$m^3$ (NARP) One-1900000 lit (Dry land) | Research Purpose | Yes |
| **v)** | Farm area | One | 25 ha | Research Area | Yes |
| **vi)** | Green houses | - | - | - | Yes |
| **vii)** | Net houses | - | - | - | Yes |
| **viii)** | Any other | - | - | - | - |

## Agricultural Meteorology

| S. No. | Facilities | Numbers | Space Length (m) x Width (m) | Speciality to conduct practical /hands on training |
|---|---|---|---|---|
| **1.** | Laboratories | 1 | 4 m x6 m | GIS and Remote Sensing (Software & Hardware)/ 10 workstation including peripheral devices-printer etc. |
| **2.** | Farm area | 1 | 45 kanals | Farm experiments |
| **3.** | Any other- Meteorological Observatory | 1 | 36 m x 55 m | Practical exercises to measure different weather parameters from various instruments and Meteorological Data Collection |

## Entomology

| S. No. | Facilities | Numbers | Space Length (m) x Width (m) | Speciality to conduct practical /hands on training |
|---|---|---|---|---|
| **1.** | Laboratories | 9 | 10 m x 6 m | Yes |
| **2.** | Instructional farm | 1 | 150 m x 70m | Yes |
| **3.** | Workshops | - | - | - |
| **4.** | Ponds | 1 | 3 m x 3 m | - |
| **5.** | Farm area | 1 | 10500 $m^2$ | Yes |
| **6.** | Green houses | - | - | - |
| **7.** | Net houses | 6 | - | - |
| **8.** | Any other | Apiary-1 | 15 m x 12 m | Yes |

**Extension Education:** Audio Visual Lab: 5A

## Forestry

| S. No. | Facilities | Numbers | Space Length (m) x Width (m) | Speciality to conduct practical /hands on training |
|---|---|---|---|---|
| **1.** | Laboratories | 2 | 20'x30' | UG:1; PG:1; For analytical work |
| **2.** | Instructional farm & nursery | 10 acre | - | For demonstration and nursery plant production |

| | | | | |
|---|---|---|---|---|
| **3.** | Ponds | 1 | 20K litres | Nursery production, water management |
| **4.** | Farm area | 80 acre | | Agro-forestry models and experimental |
| **5.** | Green houses | 1 | 15 m x 12 m | Research purpose |
| **6.** | Net houses | 1 | 15 m x 30 m | |

## Genetics & Plant Breeding

| S. No. | Facilities | Numbers | Space Length (m) x Width (m) | Speciality to conduct practical /hands on training |
|---|---|---|---|---|
| **Laboratories** | | | | |
| | | | | |
| **1.** | Teaching section | 3 | 7.95 m x 7.35 m<br>7.95 m x 7.35 m<br>7.95 m x 3.69 m | UG practical's& research<br>PG practical's& research<br>Molecular breeding work for different crops |

| **5.** | Pulses Section | 1 | 8 m x 5m | Field Lab Data recording of seed and plant traits |
| **6.** | Wheat & Barley Section | 2 | 7.95 m x 7.35 m<br>7.95 m x 3.69 m | Quality analysis and physiological efficiency of Wheat and Barley |
| **7.** | Cotton Section | 2 | 7.25 m x 3.70 m<br><br>11.0 m X 7.25 m | Research & Practical on biotechnology (DNA extraction, PCR, Gel electrophoresis etc.)<br>Research & Practical on biochemistry (HPLC, 2-D spectrophotometry ect.) |
| **8.** | Oilseeds Section | 2 | 7.32 m x 7.25 m<br><br>7.62 m x 7.25 m | Estimation of oil content in different oilseed crops.<br>To analyse the different quality parameters of oilseed crops. |

## Horticulture

| S. No. | Facilities | Numbers | Space Length (m) x Width (m) | Speciality to conduct practical /hands on training |
|---|---|---|---|---|
| **1.** | Laboratories | 3 | 25' x 20' | UG, PG practicals & research |

## Nematology

| S. No. | Facilities | Numbers | Space Length (m) x Width (m) | Speciality to conduct practical /hands on training |
|---|---|---|---|---|
| **1.** | Laboratories | 5 | 35'x25' each | For UG teaching, Biological control, |

| | | | | |
|---|---|---|---|---|
| | | | | Taxonomy, Nematode Management, Processing of field samples. |
| **2.** | Farm area | 1 | One ha. | To carry out experiments of research. |
| **3.** | Net houses/Screen house | 5 | 20'x10' | Maintenance of nematode pure cure and experiments of student research. |
| **4.** | Any other/Mushroom Lab. | 1 | 20'x12' | To carry out experiments regarding nematode problems of mushroom. |

## Plant Pathology

| S. No. | Facilities | Numbers | Space Length (m) x Width (m) | Speciality to conduct practical /hands on training | |
|---|---|---|---|---|---|
| **1.** | Laboratories | 8 | 7.4m x7.4m (Lab. No. 173)<br>7.4m x7.4m (Lab. No. 172)<br>7.4m x7.4m (Lab. No. 276)<br>7.4m x 11.4m (Lab No. 277)<br>7.4m x 11.4m (Lab. No. 177)<br>7.4m x 3.4m (Lab. No. 178A)<br>7.4m x 7.4 (Lab. No. 178)<br>7.4m x 3.4 (Lab. No. 174) | Plant Bacteriology, Plant Virology, Molecular Biology, Biological control, UG & PG lab. | Basics and advance studies on Bacterium, virus, fungus, molecular studies of different pathogens and production of biocontrol agents |
| **2.** | Instructional farm | 1 | 10 acre | For experimental purpose | - |
| **3.** | Ponds | 1 | 20'x20'x10' | Life saving irrigation | - |
| **4.** | Farm area | 1 | 10 acre | Sick plot of various diseases | Integrated plant disease management, Mushroom production technology |
| **5.** | Green houses | 2 | 15'x15' each | Screening of different crop entries against major diseases | Screening at the initial stage |
| **6.** | Net/Glass houses | 2 | 15'x15' each | Screening of different entries at controlled conditions | Screening of different entries against major diseases and epidemiological studies |

## Seed Science & Technology

| S. No. | Facilities | Numbers | Space Length (m) x Width (m) | Speciality to conduct practical /hands on training |
|---|---|---|---|---|
| **1.** | Laboratories | 6 | 10 m x 6m | Seed quality testing, seed health testing, seed vigour & viability testing, varietal identification. |
| **2.** | Farm area | 72 ha. | 75m x 72m each | Breeder seed production & research trials. |

## Soil Science

| S. No. | Facilities | Numbers | Space Length (m) x Width (m) | Speciality to conduct practical /hands on training |
|---|---|---|---|---|
| **1.** | Laboratories | 13 | 25m x 15m each | pH, EC, NPK, micro and secondary nutrient and heavy metals |
| **2.** | Ponds | 1 | 12m x 10m x 6m | Research trials |

| | | | | |
|---|---|---|---|---|
| **3.** | Farm area | 37.8 ha | 75m x 72m each | Research trials |
| **4.** | Green houses | 5 | 20m x 10m each | Research trials |

### Vegetable Science

| S. No. | Facilities | Numbers | Space Length (m) x Width (m) | Speciality to conduct practical /hands on training |
|---|---|---|---|---|
| **1.** | Laboratories | 2 | 25m x 15m each | For analytical work |
| **2.** | Ponds | 2 | 1 acre each | For nursery and water management |
| **3.** | Farm area | 2 | 24 acres for research+ 38 acres for seed production | Seed production and research |
| **4.** | Green houses | 1 | 20m x 10m | Research project |
| **5.** | Net houses | 2 | 100 sq. each | Research project |
| **6.** | Grafting unit | 1 | 1.5 acre approx. | Research project |

### 6.5.3.3. Student READY/RAWE/In-Plant Training/Internship/Experiential Learning Programmes:

| S. No. | | Yes | No | Learning Outcomes | Profit sharing (amount) | |
|---|---|---|---|---|---|---|
| **i)** | **Implementation** | | | | **Student (%)** | **College (%)** |
| | a) Student READY | Yes | -Nil- | - | - | - |
| | b) RAWE | Yes | 947 | Report of survey published in a book form during 2022-23* (Copy attached) | -Nil- | -Nil- |
| | c) In-plant training/AIA | Yes | -Nil- | - | -Nil- | -Nil- |
| | d) Internship Programme | -Nil- | -Nil- | - | -Nil- | -Nil- |
| | e) Experiential Learning programmes | -Nil- | -Nil- | - | -Nil- | -Nil- |

*During READY programme, students in final year of B.Sc. (Hons.) Ag. Programme were placed in different villages for a period of ten weeks. During this period students visited the fields of host farmers to learn about the adoption of recommended practices of crop production aspects and to get feedback regarding various problems being faced by farmers and also to improve their knowledge on practical aspects regarding implementation of production technologies. They observed that the variety RH 725 covered maximum area under rapeseed and mustard group in Haryana. They also observed the problems of rust, smut and nematode infestation in wheat and barley fields. After getting feedback regarding various constraints of agriculture suggested the farmers to follow the recommendations made by CCSHAU Hisar and nearby KVKs by demonstrating the use of different inputs and technologies on the farmers fields to persuade them to follow the same. Villagers were registered on e- *mausam* website of meteorology dept. of CCSHAU for getting free SMS facility regarding weather forecasting to help the farmer for proper, timely and precise management of agronomical inputs to make the crop production programmes economically viable and environmentally sustainable. Farmers were acquainted with the popular magazine (*Haryana Kheti*) to

update the farmers to carry out different agricultural operations according to latest recommendations made by university experts.

In the state, as the sugarcane based cropping systems were being followed by farmers, so, students trained the farmers regarding latest technologies for sowing of sugarcane and other crops suitable to their ecological conditions. They elaborated the relative advantages of ring and pit system, bud eye chip method and mechanical planters compared to conventional method of sowing. Students demonstrated the seed treatment methodology at framers fields. To revert the adverse effects of prevailing climate change in agriculture, various lectures on different adaptive and mitigating strategies like intercropping, conservation agriculture, agro forestry, recycling of agriculture waste and crop residues were delivered to farmers gatherings to bring the sustainability in agriculture. Various methods to prepare the vermicompost and organic sources of fertilizers were also demonstrated to the farmers. The information on various government and private sources to get the credit, technical and infrastructure facilities for farmers was also shared. As the resources available with farmers are scarce and further declining with time, so farmers were made aware about the use of different precision tools (viz. laser land leveller, leaf color chart, zero tillage and happy seeder) and various schemes for horticultural and vegetable crops released for the welfare of farmers. Students of different groups organized training for farmers of their respective villages on current issues viz. organic farming, precision agriculture, protected agriculture and, climate smart agriculture more particularly in context with Haryana agriculture situation. As the production level of horticulture and vegetable crops has been surpassing production level of field crops, so keeping the potential of these crops in mind, students disseminated various information regarding the immediate need to diversify the existing crop rotations and farming systems for upliftment of socio-economic conditions of farmers.

**RAWE students organizing farmer meeting  RAWE students organizing Kisan Goshti**

**Integrated Learning Systems (Experiential Learning):** A total of two Experiential Learning Programmes (ELP) are functional in the college, out of which one is ICAR funded and one is functioning with university funds. One ELP (Processing of fruits, vegetables and some other food items) that is functional in college if Basic Sciences and Humanities is conducted during the last semester of final year students of undergraduate programme i.e.,B.Sc. (Hons.) Agriculture. The ELP seek to advance professional abilities and knowledge through practical application, foster self-assurance and the capacity for project-based work, and develop entrepreneurship and enterprise management skills among the students. The ELP have given students a very good foundation with an approach of "Learning by Doing" and "Seeing by Believing". The ELPs functioning in the various colleges of the University has been successful in developing skilled, human resource in the area of agriculture and other related disciplines. Separate bank account for each EL unit has been created and the seed money of Rs. 50,000/- has been deposited in Bankof Baroda, CCSHAU in the form of revolving fund. In these programmes, students were also trained for calculating cost of production,

GST and profit sharing along with maintenance of records. The entire scheme of experiential learning follows the established system of "Earn While You Learn". The objectives of the ELPs is to promote professional graduates.

### Hi-Tech Agriculture

The ELP on "Hi-Tech Agriculture" is run by Department of Horticulture, College of Agriculture, and CCSHAU Hisar. This ELP is funded by ICAR and started in the year 2006. Major facilities created under ELP include Green-house, fertigation unit and irrigation, equipment's. Depending on the requirement and availability, space at Agri-Tourism Centre is also used by the students, after taking consent from the Centre In-charge.

### Activities Under Taken:

- Nursery of seasonal flowers and different vegetables In plug tray
- Potted plants of chrysanthemum, strawberry, other flowering annuals & exotic vegetables
- Cuttings of ornamental plants chrysanthemum, bougainvillea, philodendron etc.
- Protected cultivation of fruits flower and vegetables

### Expertise Gained:

- Techniques of ornamental plants propagation
- Seedling raising in soil less media in working and operation of green house

### Peri-urban Agriculture

For this ELP, one-acre area at Vegetable Research Farm is allotted to the students and major vegetable crops such as potato, onion etc. which are one time harvested, is being grown. The students sell their products from the HAU Mart.

### Processing of fruits, vegetables and some other food items

Experiential Learning Programme on Processing of fruits, vegetables and some other food items is operating in Centre of Food Science & Technology, CoBS&H. The ELP imparts proactive training, to students in agriculture and allied enterprises. With an aim to develop entrepreneurial skills in students. The ELP is conducted during the last semester of final year students of Undergraduate Programme i.e., B.Sc. (Hons.) Agriculture.

The students were imparted practical demonstrations for development of following value-added food products from fruits, vegetables and grain crops:

- Ready-to-serve (RTS) drink from pineapple, guava, mango, ber, papaya and bael;
- Squashes from mango, pineapple, orange, bael, guava and papaya;
- Syrups from pomegranate, orange, raw mango-mint, rose and almond;
- Preserve/murrabba and candy from aonla, bael, ber, karonda and carrot;
- Sauces/Ketchup, chutneys, pickles, confectioneries and dehydrated products
- Biscuits, cakes, muffins and instant mixes

## The Experiential Learning Units Sanctioned by ICAR:

| Sr. No. | Title of the ELP Unit | Location (College Name, Place) | Date of Start | Total Amount sanctioned by ICAR (In lakhs) | Status of ELP Unit |
|---|---|---|---|---|---|
| **College of Agriculture** | | | | | |
| **1.** | **Hi-Tech Agriculture** | **Department of Horticulture, College of Agriculture** | **2006-07** | **40.00** | **Functional** |

## The Experiential learning units Supported by University:

| Sr. No | Title of the ELP Unit | Location (College, Name, Place) | Date of Start | Total Amount sanctioned/ allocated By University | Status of ELP Unit |
|---|---|---|---|---|---|
| **College of Agriculture, Hisar** | | | | | |
| 1. | Peri Urban Agriculture | College of Agriculture, Hisar | 2018-19 | 50,000/- | Functional |

## Details of students trained, revenue generation and other activities under report period

| Sr. No. | College /Discipline | Title of the EL Unit where the students were enrolled | EL Unit wise number of Students trained | Revenue generated (Rs.) | Expertise gained |
|---|---|---|---|---|---|
| 1. | **College of Agriculture** | Hi Tech Agriculture | 41 | 56,700 | Nursery raising of horticultural plants, Propagation of ornamental plants, Care and management of potted plants; Greenhouse management for nursery raising; Marketing skills |

Demonstrations of ELP activities

| | | | | | |
|---|---|---|---|---|---|
| | College of Agriculture, Hisar | Peri Urban Agriculture | 46 | 67,434 | Potato and Onion crops |

Sale of ELP Produce at HAU mart

**6.5.3.4. Curricula Delivery Through IT (Smart Class Rooms/ Interactive Board etc.):** *Whether the college is using smart class room/ interactive board etc. for teaching and practicals. Number of classrooms upgraded as smart classrooms should be mentioned. ICT Application in Curricula Delivery:*

| Smart class rooms for teaching and practical | Interactive board for teaching and practical | Class rooms upgraded as smart class rooms |
|---|---|---|
| Yes (9) | Yes (14) | Yes( 9) |

The power point (PPT) presentation is used to teach the courses by the respective teacher. Additionally, during COVID-19 pandemic period online classes were taken using Microsoft Team, Google Meet and Zoom meeting. Doubt clearing sessions were also conducted through WhatsApp/ video call/ voice calls etc.

**Use of ICT application in teaching and practical for curricula delivery**

| Courses | Total Courses | Theory | Practical | Use of ICT Application |
|---|---|---|---|---|

**6.5.4. Student Development:** *Student Development at the College directs its educational efforts at fostering the intellect and character of students by integrating in-class and co-curricular experiences. To accomplish this, the college provides a wide range of educational experiences through programs and activities that complement and support the academic experience in the classroom.*

**6.5.4.1. Student Intake and attrition:** *The information about student intake and attrition, for the college as a whole but separated in UG, PG and Ph. D. categories shall be provided in tabular form for last five year*

| Name of the degree programme | Actual students admitted in last five years | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| **B.Sc. (Hons.) Ag.-4 yr.** | 136 | 162 | 152 | 154 | 168 | 19.85 | 24.07 | 37.5 | 31.16 | 17.26 |
| **M.Sc.** | 118 | 138 | 155 | 117 | 121 | 21.6 | 26.5 | 19.3 | 18.6 | 15.1 |

| | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| **Ph. D.** | 66 | 81 | 65 | 66 | 53 | 22.5 | 15.2 | 16.8 | 13.5 | 20.4 |

**6.5.4.2. Average number of students in Theory and Practical Classes:** *Mention the degree programme-wise number of students seating in a class for theory and practical, separately in tabular form.*

| Year | Theory | | | | Practical | | | |
|---|---|---|---|---|---|---|---|---|
| | 1st year | 2nd year | 3rd year | 4th year | 1st year | 2nd year | 3rd year | 4th year |
| 2018-19 | 55 | 55 | 55 | 8 (One each for professional elective) | 28 | 28 | 28 | 8 (One each for professional elective) |
| 2019-20 | 57 | 57 | 57 | 8 (One each for professional elective) | 28 | 28 | 28 | 8 (One each for professional elective) |
| 2020-21 | 60 | 60 | 60 | 8 (One each for professional elective) | 30 | 30 | 30 | 8 (One each for professional elective) |
| 2021-22 | 60 | 60 | 60 | 8 (One each for professional elective) | 30 | 30 | 30 | 8 (One each for professional elective) |
| 2022-23 | 60 | 60 | 60 | 8 (One each for professional elective) | 30 | 30 | 30 | 8 (One each for professional elective) |

| 3 | Ph. D. | On the basis of merit in written entrance exam | Online through CCSHAU admission portal | On-line registration | 1st Semester (August to December) 2nd Semester (January to May) Uploaded on the website |

**5.5.4.4. Conduct of Practical and Hands on training** *(mention brief report of one page on practical and hand on training in different courses)*

In every academic year Practical Crop Production course Agron.303 (Practical crop production-I) and Agron.304 (Practical crop production-II) were offered during first and second semester respectively. In these courses a field of seven kanal was allotted to a group of 7-8 students for one year. Generally, two crops one during *Kharif* and other during *Rabi* season were produced by the students. Every operation such as pre sowing irrigation, field preparation, sowing, fertilizer, irrigation, herbicide applications, weeding, harvesting, threshing, winnowing, deposition of the produce with Directorate farm were carried out by the students. Net profit after deducting the expenditure from gross income is distributed among the students every year. The main aim of this course is to enhance the skills of students about scientific crop production. This helps the students to understand basic problems faced by the farmers.

**6.5.4.5. Examination and evaluation process:** *The evaluation of students' performance is a central task of College administration. A brief report on examination and evaluation process for UG, PG and Ph. D .be given separately mentioning external/internal components .System of evaluation should clearly be mentioned for UG, PG and Ph. D.*

| Name of degree programme | Examination pattern | | | Evaluation process | | | |
|---|---|---|---|---|---|---|---|
| | Theory (External/ Internal) | Practical (External/ Internal) | Viva-voce | Theory (External/ Internal) | Practical (External/ Internal) | Comprehensive written | Viva-voce (Thesis and comprehensive) |
| **B.Sc. (Hons.) Ag.** | External as well as internal | Internal | Internal | External as well as internal | Internal | NA | NA |
| **M.Sc. (Ag.)** | Internal | Internal | Internal | Internal | Internal | NA | External |
| **Ph.D.** | Internal | Internal | Internal | Internal | Internal | Internal | External |

I. Examination and Evaluation system: Examination and Evaluation system of Under Graduate programmes of college has been given below:
   a) External Theory: 50%
   b) Internal Theory + Practical: 50%

II. Courses with Theory and Practical: Mid-term Exam (30%) + Assignment (5%) + Practical (15%).
The assignment may be included with practical.

III. Courses with only Theory: Mid-term Exam (40%) + Assignment (10%)

IV. Courses with only Practical: 100% Internal

The mid-term examinations are being conducted during mid-term examination week prescribed in the academic calendar in the college through fixing the dates by concerned course teacher after consultation with Principal. The practical examinations (internal) are conducted during the practical examination week as prescribed in the academic calendar. For final examination (External), date sheet is provided by the Dean of the respective colleges during final examination schedule as prescribed in the academic calendar of the university circulated by the Assistant Registrar Academics (ARA), CCSHAU, Hisar.

Allotment of marks for various examination of each course is as per given below.

| Name of Examination | Nature of course | | |
|---|---|---|---|
| | Courses with Theory and Practical | Courses with only Theory | Courses with only Practical |
| Midterm (Theory) | 60 | 80 | NA |
| Midterm (Practical) | NA | NA | 60 |
| Assignment | 10 | 20 | 20 |
| Final (Practical) | 30 | NA | 120 |
| Final (Theory) | 100 | 100 | NA |
| **Total** | **200** | **200** | **200** |

After adding marks of all the examinations, the total marks divided by two for converting total marks out of 100 and combined (Theory+Practical) grade of each course is awarded.

1. The Course Catalogue, Examination and Evaluation system is being followed as per the recommendation of 5$^{th}$ Deans' Committee implemented with effect from academic year 2017-18.
2. Examination system is external for 50 % (Theory of final examination), whereas, remaining 50% (Theory of midterm + Practical) is internal. The following guidelines are to be followed for this internal examination. The weightage of mid-term, final and practical examination are followed as per table given below:

| Credit Hours | Weightage/Marks | | |
|---|---|---|---|
| (Theory & Practical) | Mid-term | Final | Practical |
| 1+0 | 40 | 60 | - |
| 1+1 | 20 | 30 | 50 |
| 2+1 | 25 | 45 | 30 |
| 2+2 | 20 | 30 | 50 |
| 3+1 | 30 | 45 | 25 |
| 3+2 | 25 | 35 | 40 |
| 2+0 | 40 | 60 | - |
| 3+0 | 40 | 60 | - |
| 1+2 | 10 | 20 | 70 |

- For a course only with practical: Practical examinations are conducted twice, mid-term and final.
- Distributions of marks are in the ratio of 40:60.
- There is one examination date-sheet each for mid-term and final examinations within the examination schedule.

### 6.5.4.6. NCC/NSS units

**NSS Unit:** *Existence and functioning of NSS unit and how it is benefiting the student development (A brief report).* NCC unit of COA has been functioning from the very beginning of the University itself. It is offered for three years to undergraduate students of the College of Agriculture. The students are trained to develop among them the character, discipline, leadership, secular outlook, spirit of adventure and ideals of selfless service. NCC teaching is doing to create a human resource of organised, trained and motivated youth for providing leadership in all walks of life and personnels who are always available for the service of the nation. NCC unit is providing an environment for motivating the youth to take up a career in the Defence Forces of the country. Duty and discipline disinculcated amongst the youth of the College. The students undergo a rigorous training by doing drill, weapon training, sports and cultural activities, social activities, blood donations etc. The students participate in different kinds of camps i.e. Army Attachment Camp, Basic Leadership Camp, Advance Leadership Camp, National Integration Camp, Annual Training Camp, Thal Sena Camp etc.

At least two camps are the pre-requisite for obtaining 'C'Certificate. For the last five year there is nearly cent-per cent pass result in'B'&'C'Certificate examinations with almost good grading. Apart from military training, non-military subjects just like history and culture of India, health and hygiene, religions customs, traditions, social and moral values of Indian society are also taught. The students are made to be well-versed in the legacy of freedom movement. They are taught about the personalities/heroes of Indian history like Maharana Pratap, Chhatrapati Shivaji, Rani Laxmi Bai, Guru Gobind Singh and other revered characters such as Netaji Subhash Chander Bose & his INA, Lal-Bal-Pal, Poet Ravinder Nath Tagore, Allama Iqbal etc. are also made known to the cadets. Any current issue of social, moral, scientific, environmental and national importance is discussed with students time to time.

National Service Scheme (NSS) came into existence in College of Agriculture since inception of university in February 1970. It is considered as a part of academic studies for the undergraduate students of College of Agriculture, Hisar. It is offered as a course of two credits in the first semester every year and is playing an important role in mobilizing the students in community participation, group living and sharing.

**Annual Camps**

Each year in the month of February annual camp is organized in different villages. About 100 NSS Volunteers took part in the camp and also organized many motivational lectures and useful trainings for the villagers. They had participated in various social activities such as plantation, cleanliness drive and also carried out rallies on different topics such as *Beti Bachho*, *Swachh Bharat*, *Rastriye ekta* etc.

**Important day's celebration and activites**

NSS unit of College of Agriculture celebrated different important days such as:

- National Youth Day
- Republic Day
- Sadhbavna Day
- International Literacy Day
- International Peace Day
- NSS Day
- National Blood Donation Day
- Mahatma Gandhi's Birthday
- National Integration Day
- Teachers Day etc.

Different competitions and lectures were organized for the volunteers on these days. Volunteers planned and carried out different social activities such as plantation, *swachta abhiyan*, rallies etc. NSS Volunteers of College of Agriculture also participated in the Pulse Polio Campaign initiated by the Government in huge number every year.

**6.5.4.7. Language laboratory:** *It is required of any student to have a good command of the language for communication purposes, with clarity and accuracy being vital for effective and efficient communication. What helps one to acquire such proficiency in a language is the process and the method of learning that language. Mention which of these type of Conventional, Lingua Phone, Computer Assisted Language Laboratory and Multimedia Hi-Tech Language Laboratory are being used for language teaching in the college.*

Computer facility exists at the college level. We have the facility of language laboratory in the Department of Languages and Haryanvi Culture. This language laboratory caters the need of the students of college.

**6.5.4.8. Cultural Centre:** *Does the college have cultural centre to empower student leaders to explore, celebrate, and educate the campus community about the diversity among them? Does the college offers and inclusive and reflective space, multicultural programming and support services that encourage positive interaction, academic, persistence, and growth among students, faculty, and staff*

The college have cultural centre to empower student leaders to explore, celebrate and educate the campus community about the diversity among them. The college offers inclusive and reflective space, multi cultural programming and support services that encourage positive interaction, academic persistence and growth among students, faculty and staff. There is cultural committee comprising of faculty members and students organise and coordinate cultural activities for students during celebration of different important days, hostel functions, NSS camp, fresher's day, farewell party etc. Students are being motivated for participation in different cultural events. The students of this college are also participating in the events organised at university level as well as in inter university programmes.

***6.5.4.8.*** **Personality Development:** *Personality development programme is aimed at increasing employability of the students. Whether the college has provisions for inclusion of functional grammar in standard English, speaking skills, reasoning, group discussions interview skills, personal interviews, quantitative ability, verbal ability, mock tests and some special sessions to promote the personality development in the students?*

The Students C&P Cell in the Directorate of Students' Welfare has been established to keep the university students informed about potential job opportunities which help them in making prudent decisions for their future academic/professional career. The Students Counselling & Placement Cell has been associated with multifaceted development of the Students in an effort to make available to them the possibility of developing their personalities and face the challenges of future with greater confidence. Realizing the present day need to further strengthen these efforts, the directorate has initiated an ambitious program to ameliorate the managerial, administrative, communicative, and technical and self- employment oriented skills of the students. The centre in the Directorate of Students Welfare has been assigned four mandates viz., imparting trainings, placements, liaison with leading industries and guidance to university students. The Students C&P Cell coordinates the task of organizing campus interviews for the outgoing students. In addition to helping students seek employment, the cell has been involved in guiding the students appearing for competitive examinations and in getting admissions, scholarships/fellowships in institute of recognition in India and abroad.

| Whether the college has provisions for inclusion of the following | | |
|---|---|---|
| Functional Grammar in standard English | Yes | The medium of instruction is English and teachers provide instruction in functional grammar and standard English. They use effective teaching techniques and encourage interactive sessions to improve students' proficiency and confidence in the language. Students are also encouraged for trainings on writing skills organized by Directorate of Student's welfare. |
| Speaking skills | Yes | Students are regularly assigned topics to speak during class sessions to develop their communication skills. Students are also encouraged for trainings on communication skills organized by Directorate of |

| | | |
|---|---|---|
| | | Student's welfare. |
| Reasoning | Yes | The students have been provided guidance and support in developing their reasoning skills for competitive exams. Various initiatives such as workshops and trainings sessions are taken up by the university to prepare them for various competitive exams to achieve their academic and professional goals. On the eve of special days debate programme are also conducted to envisage the thinking. |
| Group Discussion | Yes | There is a strong emphasis on involving students in group discussions focused on current national and international issues of significance, promoting their active engagement and critical thinking skills. Group discussions are also conducted on in classrooms to remove the hesitation among students and improve their logical thinking. |
| Interview skills | Yes | The specialized sessions for improving the interview skills are organized in the university. The sessions on interview skills are conducted on trainings on personality development and students are encouraged for their active participation. |
| Personal Interviews | Yes | The university provides training and guidance for interview skills through counselling and placement cell. |
| Quantitative ability | Yes | The college encourages and supports students in their efforts to enhance their quantitative aptitude by providing access to competitive books and resources. This helps them to excel in their studies and future endeavours in careers, improving their overall academic and professional success. |
| Verbal Ability | Yes | The college fosters a strong sense of association between students and faculty, with regular mutual interactions between them. There is a visible and positive bond between students and faculty members that generates a supportive and collaborative learning environment. |
| Mock Test | Yes | Mock tests are regular part of training on language skills. |

### 6.5.5. Physical facilities

**6.5.5.1 Hostels:** *Clearly mention the number of hostels available for the College students for boys and girls, separately with its total capacity, students per room accommodated in each hostel, mess facility, drinking water, indoor games specially for girls, cleaning of hostel premises, transport facility, emergency medical facility etc.*

| | **Boys*** | **Girls*** |
|---|---|---|
| **No of Hostels** | 05 | 07 |
| **Total capacity** | Kailash: 212 | Gangotri (Old): 108 |
| | Varindavan: 214 | Gangotri (New): 139 |
| | Vindayachal: 223 | Gangotri (Additional): 129 |
| | Ajanta: 159 | Godavari: 144 |
| | Triveni: 84 | Narmada: 114 |
| | | Women scholar: 30 |
| | | Yamunotri: 43 |
| **Students per room** | For PG: Cubical; For UG: Dormitory | For PG: Cubical; For UG: Dormitory |
| **Mess facility** | Cooperative mess managed by | Cooperative mess managed by |

| | | |
|---|---|---|
| | students (Two in each hostel) | students (Two in each hostel) |
| **Drinking water** | With RO in each hostel | With RO in each hostel |
| **Indoor games** | Table tennis, Chess, Carrom and others | All |
| **Transport facility** | Yes | Yes |
| **Emergency medical facility** | Yes | Yes |
| **Cleaning of hostel premises** | Well | Well |

**Include students of various colleges*

The hostels at present are sufficient to meet the accommodation requirement of the registered students. There are dormitory and cubicle rooms in all the hostels and allotted to the students as per rules. Students' rooms have the facility of almirah, study table, bed and chair. Hostel wardens are assisted by student hostel prefects. The hostels are equipped with all modern amenities and facilities including Wi-Fi, LCD TV with dish antennae, Gym, Volleyball court facility of inverter in mess and common area, water cooler with water purifier, mosquito catcher, solar water heating system, LPG supply in mess, furniture, magazines and national dailies. There are facilities of air conditioned night reading halls, indoor sports facilities including table tennis, canteen, desert cooler in the common room are as and well ventilated cubical and dormitory rooms fitted with electric fans. The students are also allowed to use the desert cooler in their rooms during summer. There are cooperative mess in all the hostels which are managed by students under the guidance of hostel wardens. Due attention is given to the cleanliness of hostel premises.

## Transport Facility

Central transport facility is available for students as and when required. The vehicles can be obtained from the transport office of the university for visits under different courses and educational tours. There is facility of e-rickshaw for girls and boys separately for transportation with in the campus.

## Medical Facilities

- There is a well-equipped 50 bed Campus Hospital. The Hospital has one Senior Medical Officer, four Medical Officers, one Dental Surgeon, two Pharmacists, and four staff nurses along with other supporting staff. Round the clock medical aid is provided to the students, University Employee and their dependants and other trainees/visitors.
- Causality services are run round the clock. Special Immunization Clinic, T.B. Clinic, Diabetic and Antenatal Clinic is run once every week. For Chronic disease patient's medicines for two weeks are being provided and supervised. The outdoor/emergency patients are attended by the Senior Medical Officer and Medical Officers and Indoor facility is also available in the hospital round the clock.
- The Dental Surgeon also provides the service of RCT and Dental surgical procedure of the patient and dental unit has been made Air-conditioned for better care facility of the patients. X-rays of the employees and their dependents of CCSHAU/LUVAS are being done in the department of Vet. Clinics. Facility i.e. ICU, X-Rays of Dental and lab tests are performed in the Campus Hospital.
- There is *Amartya Shiksha Yojana* and Personal Accident Policy for which Rs 100/- is charged at the time of admission which covers and accidental insurance of Rs. 1, 00,000/-
- There is on-call facility in emergency cases. Ambulance facility is available in the Campus Hospital for emergency cases.

**6.5.5.2 Examination Hall:** *Mention the availability of number of examination halls, its capacity etc. for the college.*

The college has one Examination hall with a capacity of 514 students. The lecture rooms of the college are also used for conducting UG and PG examination as per requirement

| Examination Hall | Number | Total capacity |
|---|---|---|
| **1** | 1 | 514 |

**6.5.5.3. Sports and recreation facilities:** *Clearly mention the number of indoor and outdoor sports facilities available for the College students. A brief note on day to day management and use of these facilities shall be provided in the report.*

Participation and prizes of students in North zone inter university, All India Inter -University and All India Inter-Agriculture University tournaments.

XVI. **Inter-college tournaments**

| Reno | Game | Dates | Winner | Runners-up |
|---|---|---|---|---|
| **1** | Cross Country (M) | 11/10/2018 | COA, Hisar | COAE&T |
| **2** | Cross Country (W) | 11/10/2018 | COHS | COA, Hisar |
| **3** | Squash Racket (M) | 11-12/10/2018 | COA, Hisar | COVS, LUVAS |
| **4** | Volleyball (M) | 15-17/10/2018 | COA, Hisar | COVS, LUVAS |
| **5** | Volleyball (W) | 15-17/10/2018 | COA, Hisar | COHS |
| **6** | Table Tennis (M) | 19-22/10/2018 | COA, Hisar | COVS, LUVAS |
| **7** | Table Tennis (W) | 19-22/10/2018 | COHS | COA, Hisar |
| **8** | Kabaddi (M) | 25-27/10/2018 | COA, Hisar | COVS, LUVAS |
| **9** | Badminton (M) | 29-31/10/2018 | COA, Hisar | COVS, LUVAS |
| **10** | Badminton (W) | 29-31/10/2018 | COA, Hisar | COBS&H |
| **11** | Yoga (M) | 14/11/2018 | COA, Hisar | COA, Kaul |
| **12** | Yoga (W) | 15/11/2018 | COA, Kaul | COA, Hisar |
| **13** | Cricket (M) | 13-16/11/2018 | COA, Hisar | COAE&T |
| **14** | Basketball (M) | 13-16/11/2018 | COAE&T | COA, Hisar |
| **15** | Basketball (W) | 13-16/11/2018 | COA, Hisar | COHS |
| **16** | Hockey (M) | 17/11/2018 | COA, Hisar | COAE&T |
| **17** | Football (M) | 19-21/11/2018 | COA, Hisar | COVS, LUVAS |
| **18** | Handball (M) | 22-24/11/2018 | COA, Hisar | COAE&T |

**College of Agriculture every year organize its Annual Athletics meet.**

College of Agriculture, Hisar being the largest college of CCSHAU Hisar, its students utilize the sports facility in the university consisting of International standard synthetic track, football, hockey basketball, cricket, handball, and Table tennis and Badminton hall. Students are being facilitated by well-trained coaches of different games.

**6.5.5.4. Auditorium:** *Does the college has auditorium? Mention its year of construction, seating capacity and how frequently being used for the College functions.*

| | |
|---|---|
| **Year of construction** | **1975** |
| **Seating capacity** | 504 |
| **Frequency being used for College Functions** | Fort nightly |

**6.5.5.5. Exhibition Hall/Museum (description of events):** *Does the college have the Exhibition Hall/Museum? Mention about its use and special events being conducted in these units*

| | |
|---|---|
| **Exhibition Hall** | **Yes**<br>• **Display of Teaching, Research, Extension and Extra co-curricular activities of the college.**<br>• **Technologies developed, publications; and showcase of work done under professional elective courses.** |
| **Museum** | No |

**6.5.6. Research Facilities:** *Clearly mention the department wise PG laboratories and equipment housed in individual laboratory in the College along with any other research unit.*

**6.5.6.1. Postgraduate laboratories and Equipments**

**Agricultural Economics**

| S. No. | Name of equipment | Location/Lab No. |
|---|---|---|
| 1 | DLP projector-one | Seminar Room (Room No. 269) |
| 2 | DLP projector-one | Department Store (Room No. 272) |
| 3 | Computer with accessories ( Five) | Computer Lab.(Room No.256) |

**List of Major equipments (Equipments costing more than Rs. 50,000)**

| S. No. | Name of equipment | Location/Lab |
|---|---|---|
| 1 | Computer with accessories | Deptt of Agril. Economics |
| 2 | Multimedia | Deptt of Agril. Economics |
| 3 | Computer with accessories | Deptt of Agril. Economics |
| 4 | Furniture | Deptt of Agril. Economics |

**Agronomy**

| No. of P.G. Labs | Major Equipments Housed in each PG Lab |
|---|---|
| **Lab No. 208** | pH meter |
| | EC meter |
| | Spectrophotometer |
| | Kel Plus Automated Nitrogen Estimation |
| | Rotary Shaker |
| | TDS meter |

## Entomology

There is one PG Laboratory to take PG students' practical classes. Besides this, there are:

- NABL Accredited Residue Lab.: For residual analysis of insecticide in Agricultural Produce/Commodities
- Insect culture Lab.: To maintain insect cultures

- Biocontrol Lab: Rearing of biocontrol agents
- Insect Pathology Lab.: Culturing of Insect Pathogens
- Storage Entomology Lab: Rearing of stored grain insect pests
- Apiculture Lab.: To take UG & PG students' practicals.

**List of Major equipments (Equipments costing more than Rs. 50,000)**

| S. No. | Name of equipment | Date of purchase | Cost (in Rupees) | Location/Lab |
|---|---|---|---|---|
| 1. | GLC | 2017-18 | 18,50,000 | Pesticide Residue Lab |
| 2. | Stereo Zoom Bionocular Microscope | 2020-21 | 700000 | Bio-control Lab |
| 3. | Digital Electronic balance | -do- | 99500 | Pesticide Residue Lab |
| 4. | Smart Android LED | -do- | 497000 | Seminar Room |
| Equipment's costing Less than Rs. 50,000 | | | | |
| 1. | Bee Venom Extractor | 2019-20 | 36000 | Apiary |

## Extension Education

| No. of PG Labs | Major Equipments Housed in PGLab. |
|---|---|
| **1** | LCD |

## Forestry

| S. No. | Name of equipment | Location/Lab |
|---|---|---|
| 1. | Compound microscope with USB Camera | Store |
| 2. | Chlorophyll content meter | lab |
| 3. | 65" LED | Class room |
| 4. | BOD incubator (2 No.) | lab |
| 5. | Analytical balance | lab |
| 6. | Soil moisture sensor | lab |
| 7. | Time lapse camera | lab |
| 8. | Seed Germinator | lab |
| 9. | Canopy Analyzer | lab |

## Genetics & Plant Breeding

| No. of PG Labs | Major Equipments Housed in each PGLab |
|---|---|
| **1. Molecular Breeding lab(Teaching Section)** | Trinocular microscope |
| | Bioanalyser |
| | Gel documentation |
| | Millipore purification system |
| | Fridge dryer |
| | Spectrophotometer |
| | Deep fridge |
| | PCR machine (3) |
| | Agrose gel elctrophoresis with Power Supply |
| | Mini protein tetra |

| | |
|---|---|
| | Deep fridge |
| | Refrigerated centrifuge |
| | RT-PCR |
| | Nano -Spectrophotometer |
| | Ice flaker |
| | Water purification |
| | Chlorophyll meter |
| | NDVI |
| | Infrared thermometer |
| **2. Cotton Section** | Digital Plant Canopy analyser, Solvent Extraction System, Ultra Pure Water Purification System, Vertical PCR Machine 96x0.2 ML, Electrophoresis Unit, NSW-227 vertical Auto Clave, Automatic Seed Counter, Vertical Laminar Airflow cabinet, Electrophoresis Protein ® 12 TN IFF System, Portable Ethylene Gas Analyze, Sample Concentrator with parts centrifugal vacuum centrator, Refrigerated Circulating Liquicel C-20°-100°), Perfect Blue Max Gel, Water Bath Shaker K-210, Round Top Digital Hot Plate, PH Meter PH 700, Electronic weighing scale Cap 100 kg., Wile 55 Grain Moisture Meter, Ultra Sonic Bath Shaker, Cryocan, Constant Voltagation Stomer, Refractor meter |
| **3. One Research Lab. (MAP Section)** | Gas Liquid Chromatography (GLC), UV-Visible Spectrophotometer, Defridge, Refrigerator, Soxhlet Extraction Apparatus, Ovens (2), BOD incubator, Rotary Vaccum Evaporator, Centrifuge, Furnace, Electronic Balances (3), pH meter (2), Vaccum pumps (2), Paraffin Embedding Bath, Water bath, Heating Mentals (6), Clevenger Apparatus, Hot plates (2), Mechanical Shaker, Gas Purification Pannel, Gas cylinders, Mechanical stirrer, Warring Blender, Regulators, Computers, Printer, Scanner, UV Fluorescence Cabinet, CVT |

## List of other major equipments

| S. No. | Name of equipment | Location/Lab |
|---|---|---|
| 1. | Plant growth chamber | Lab no. 76 |
| 2. | Hot air oven | Lab no. 76 |
| 3. | Deep Freezer | Lab no. 75 |
| 4. | Microscope (compound) | Lab no. 76 |
| 5. | Digital Balance | Lab no. 75 |
| 6. | Dry bath | Lab no. 75 |
| 7. | BOD incubator | Lab no. 75 |
| 8. | Spectrophotometer UV Visible | Cotton Section Lab No. 153 |
| 9. | Refrigerated Centrifuge FACI 9906 | Cotton Section Lab No. 153 |
| 10. | Millipore water purification system | Cotton Section Lab No. 153 |
| 11. | Solvent Extraction System | Cotton Section Lab No. 153 |
| 12. | Portable Ethylene Gas Analyze | Cotton Section Lab No. 153 |
| 13. | Vacuum Concentrator chiller | Cotton Section Lab No. 153 |
| 14. | UPLC | Cotton Section Lab No. 153 |
| 15. | Electrophoresis System 2D | Cotton Section Lab No. 153 |
| 16. | Chiller | Cotton Section Lab No. 153 |
| 17. | Linear Shaker | Cotton Section Lab No. 153 |
| 18. | Leaf Area Meter | Cotton Section Lab No. 153 |
| 19. | Water Potential Meter/Psychrometer | Cotton Section Lab No. 153 |
| 20. | Deep fridge (-20) | Cotton Section Lab No. 152 |
| 21. | PH meter | Cotton Section Lab No. 152 |

| | | |
|---|---|---|
| 22. | Hot Air oven | Cotton Section Lab No. 152 |
| 23. | Water Bath | Cotton Section Lab No. 152 |
| 24. | Water Bath | Cotton Section Lab No. 152 |
| 25. | Electronic Balance | Cotton Section Lab No. 152 |
| 26. | UV-VIS | Cotton Section Lab No. 153 |
| 27. | PCR Machine | Pulses Lab |
| 28. | Deep Freezer | Pulses Lab |
| 29. | Digital Analytical Balance | Oil Seed Lab |
| 30. | Horizontal Electrophoresis Unit | Oil Seed Lab |
| 31. | Leaf Area Meter | Oil Seed Lab |
| 32. | Electronic Balance (2) | Oil Seed Lab |
| 33. | Hand Held Crop Sensor (NDVI) | Oil Seed Lab |
| 34. | Deep Freezer (-80$^0$C) | Oil Seed Lab |
| 35. | Deep Freezer (-20$^0$C) | Oil Seed Lab |
| 36. | Refrigerator (2) | Oil Seed Lab |
| 37. | PCR Machine | Oil Seed Lab |
| 38. | Water Purification System | Oil Seed Lab |
| 39. | Tractor (John Deere) | Oil Seed Lab |
| 40. | LCD Infrared Optical | Oil Seed Lab |
| 41. | Display Panel Touch Screen | Oil Seed Lab |
| 42. | Plant Growth Chamber | Oil Seed Lab |
| 43. | Gas Chramatography Unit | Oil Seed Lab |
| 44. | pH cum EC Meter | Oil Seed Lab |
| 45. | Gel Doc System | Oil Seed Lab |
| 46. | Automated Liquid Handling Machine | Oil Seed Lab |
| 47. | Rotary Shaker | Oil Seed Lab |
| 48. | Sub cell (model – 192 cell system) | Forage Biotechnology Lab |
| 49. | T-100 thermal cycler | Forage Biotechnology Lab |
| 50. | Gel Documentations System | Forage Biotechnology Lab |
| 51. | Automatic Kjeldahl with Accessory | Forage Quality Lab |
| 52. | Automatic Fiber Analyzer | Forage Quality Lab |
| 53. | Fat Extractor | Forage Quality Lab |
| 54. | Automatic distillation unit | Forage Quality Lab |
| 55. | Spectrophotometer | Forage Quality Lab |
| 56. | pH-meter (quantity 2) | Forage Quality Lab |
| 57. | Automatic Universal Oven 500 liter | Forage Quality Lab |
| 58. | Automatic Universal Oven 1000 liter | Forage Quality Lab |
| 59. | Electronic Balance | Forage Quality Lab |
| 60. | Water bath | Forage Quality Lab |
| 61. | Magnetic stirrer with hot plate | Forage Quality Lab |
| 62. | Autoclave | Forage Quality Lab |
| 63. | High speed centrifuge with temperature control | Forage Quality Lab |
| 64. | Refrigerator | Forage Quality Lab |
| 65. | Automated Kjeldahl distillation with digestion unit | MAP Quality Lab |
| 66. | Refrigerator | MAP Quality Lab |
| 67. | Deep Freezer | MAP Quality Lab |
| 68. | Laboratory Grinding Mill | MAP Quality Lab |
| 69. | Analytical Balance | MAP Field Lab |
| 70. | Rotatory Evaporator | MAP Quality Lab |
| 71. | Automated Solvent Extraction System | MAP Quality Lab |

| | | |
|---|---|---|
| 72. | Recirculating Chiller | MAP Quality Lab |
| 73. | Automatic Titrator | MAP Quality Lab |
| 74. | Microplate Reader | MAP Quality Lab |
| 75. | Microplate Thermomixer/Shaker | MAP Quality Lab |
| 76. | Test tube rotator | MAP Quality Lab |
| 77. | Vacuum Pump | MAP Quality Lab |
| 78. | Automated Flash Chromatography (01) | MAP Quality Lab |
| 79. | Fume Hoods (02) | MAP Quality Lab |

## List of other equipments

| S. No. | Name of Instrument/Equipment | Location/Lab no. |
|---|---|---|
| **1** | Hot Air Oven | Bajra Quality Lab No. 207 |
| **2** | Rectangular Muffle Furnace | Bajra Quality Lab No. 207 |
| **3** | Serological Water bath, | Bajra Quality Lab No. 207 |
| **4** | Serological Water bath | Bajra Quality Lab No. 207 |
| **5** | Micro Tissue Homogenizer | Bajra Quality Lab No. 207 |
| **6** | Power supply 150W | Bajra Quality Lab No. 207 |
| **7** | Midi Horizontal unit with accessories | Bajra Quality Lab No. 207 |
| **8** | Micropipette, 2-20ul | Bajra Quality Lab No. 207 |
| **9** | Micropipette, 1-100ul | Bajra Quality Lab No. 207 |
| **10** | Micropipette, 1-100ul | Bajra Quality Lab No. 207 |
| **11** | Micropipette, 5-50ul | Bajra Quality Lab No. 207 |
| **12** | Micropipette, 100-1000ul | Bajra Quality Lab No. 207 |
| **13** | Micropipette, 200-1000ul | Bajra Quality Lab No. 207 |
| **14** | Micropipette, 1000-5000ul | Bajra Quality Lab No. 207 |
| **15** | Centrifuge Rotors | Bajra Quality Lab No. 207 |
| **16** | Refrigerator | Bajra Quality Lab No. 207 |
| **17** | pH Meter | Bajra Quality Lab No. 207 |

## Horticulture

| Research Labs/Units | Major Equipments Housed in Research Labs / Units |
|---|---|
| **Tissue Culture Lab** | Laminar Flow |
| | Autoclave |
| | Temperature Controller |
| | Electronic Balance (Afcoset) |
| | Photo periodic simulation digital |
| | Electronic Balance (Indosaw) |

## List of major equipments

| S. No. | Name of equipment | Location/Lab |
|---|---|---|
| 1. | Pilot plant for sorting & grading of fruits | Director Farm Shed |
| 2. | Refrigerator | Farm Lab |
| 3. | Camera | Room No. 234 |
| 4. | Chain saw | Farm store |
| 5. | UV-Vis Spectrophotometer | Lab No.238 |
| 6. | Digital weighing balance | Lab No.238 |
| 7. | Digital weighing balance | Room No. 234 |
| 8. | Moisture Analyser | Lab No.238 |
| 9. | Chlorophyll Concentration meter | Room No. 234 |
| 10. | Hydraulic lifting device along with tractor | Farm |
| 11. | D.G. Set 62.5 KVA AMF | Farm lab |
| 12. | Computer set | Room No. 248 |

| | | |
|---|---|---|
| 13. | Ripening chamber | Farm lab |

## Nematology

| No. of PG Labs | Major Equipments Housed in each PG Lab |
|---|---|
| **3** | BOD, Refrigerator, Oven, Laminar Flow, PCR, Spectrophotometer, Gel Electrophoresis, Autoclave, Laminar air flow, refrigerator -20 $^{o}$ c |
| **Other Research Labs / Units** | **Major Equipments Housed in Research Labs / Units** |
| **1** | Field lab area with well-equipped lab for processing of soil and plant samples |

## Plant Pathology

| No. of P.G. Labs | Major Equipments Housed in each PG Lab |
|---|---|
| **1** | BOD Incubator, Refrigerator, Vertical Autoclave, Laminar Flow, Hot air oven, Balance, Gel documentation system, PCR Proflex, pH meter |
| **Other Research Labs / Units** | Major Equipments Housed in Research Labs / Units |
| **3** | BOD Incubator, Refrigerator, Vertical Autoclave, Laminar Flow, Hot air oven, Balance, Gel documentation system, PCR Proflex, pH meter, T-100 Thermal Cycle system, Deep freeze, Electrophoresis Unit, Micro processor based micro plate reader Shimadzu double beam spectrophotometer |

## List of Major Equipments

| S. No. | Name of equipment | Location/Lab |
|---|---|---|
| 1 | Balance Model FX 400 G | Lab. No. 276 |
| 2 | Autoclave vertical 550x350 ml | Lab. No. 177 |
| 3 | BOD 875X570X550 mm | Lab. No. 276 |
| 4 | BOD NSW 152 | Lab. No. 176 |
| 5 | Refrigerator 585 lt. | Room No. 160 |
| 6 | BOD NSW 152 | Lab. No. 177 |
| 7 | Gel Documentation System | Lab. No. 276 |
| 8 | Laminar Flow NSW | Lab. No. 279 |
| 9 | Oven NSW 143 | Lab. No. 177 |
| 10 | PCR Proflex (3x32) wall | Lab. No. 276 |
| 11 | T-100 Thermal Cycle System | Lab. No. 276 |
| 12 | Gel Documentation system | Lab. No. 276 |
| 13 | Afcoset Balance (Model No FX 200G) | Lab. No. 177 |
| 14 | Computer notebook Lenovo | Room No. 169 |
| 15 | pH meter w/pH and ATC Probes S.No. 2688267 | Lab. No. 177 |
| 16 | pH meter w/pH and ATC Probes S.No. 2688262 | Lab. No. 177 |

## Seed Science and Technology

| Name of the Department | Seed Science and Technology |
|---|---|
| **P.G. Labs** | Major Equipments Housed in each PG Lab |
| **Seed Testing and Quality control** | Seed Germinators, Moisture meters, Seed blower and Table top balance etc. |
| **Seed Pathology** | Magnus microscope and Autoclave etc. |
| **Seed Physiology** | E.C cum pH meter and hot air oven |
| **Seed Biotechnology Lab** | Thermocycler, spectrophotometer and distillation unit etc. |

## List of Major Equipments

| S. No. | Name of equipment | Location/Lab |
|---|---|---|
| 1 | View Sonic-Interactive Panel Board | UG Lab |
| 2 | pH Meter PC 700 | Seed physiology lab |
| 3 | Refrigerator double door | Seed Quality & Testing Lab |

| | | |
|---|---|---|
| 4 | Seed germinator single chamber | Seed Quality & Testing Lab |
| 5 | Seed germinator dual chamber | Seed Quality & Testing Lab |
| 6 | Vertical autoclave | Seed Pathology Lab |
| 7 | Hot air oven | Seed physiology lab |
| 8 | Multi grain winnower | Stores & Implement Shed |
| 9 | Hydraulic trolley | Stores & Implement Shed |
| 10 | Seed cum fertilizer drill | Stores & Implement Shed |
| 11 | Rotary tiller with blade | Stores & Implement Shed |
| Equipments costing Less than Rs. 50,000 | | |
| 1 | Seed drill | Stores & Implement Shed |
| 2 | Digital balance | Seed Quality & Testing Lab |
| 3 | Table top balance | Seed Quality & Testing Lab |
| 4 | Magnus microscope | Seed Pathology Lab |
| 5 | Camera for microscope | Seed Pathology Lab |

## Soil Science

| No. of P.G. Labs | Major Equipments Housed in each PG Lab |
|---|---|
| 1 | Automatic Nitrogen analyzer, Spectrophotometer, Ion analyzer, Centrifuge, Shaker, Balance, Muffle furnace, Hot plates, Oven, Freeze, Distillation Unit |

## List of major equipments

| S. No. | Name of equipment | Location/Lab |
|---|---|---|
| 1. | UV Spectrometer | Lab No. 16 |
| 2. | Orbital Shaker | Lab No. 11 |
| 3. | Electronic Weighing Balance | Lab No. 112 |
| 4. | Electronic Weighing balance | Lab No. 16 |
| 5. | Digital Flame photometer | Lab No. 114 |
| 6. | Double distillation water unit | Lab No. 114 |
| 7. | Spectrophotometer | Lab No. 11 |
| 8. | Conductivity meter | Lab No. 16 |

## Vegetable Science

## List of major equipments

| S. No. | Name of equipment | Location/Lab |
|---|---|---|
| 1. | Inverter with accessory (1) | Lab. No. 233 |
| 2. | Oven (1) | Lab. No. 233 |
| 3. | Digital Specto Photometer | Lab. No. 233 |
| 4. | Hot Plate NSW-255 | Lab. No. 233 |
| 5. | Juicer Mixer & Grinder | Lab. No. 233 |
| 6. | Oven-(1) | Lab. No. 233 |
| 7. | Shaker (1) | Lab. No. 233 |
| 8. | Research Centrifuse (REMI) | Lab. No. 233 |
| 9. | Weighing Balance (1) | Lab. No. 233 |
| 10. | Distilation Unit | Lab. No. 233 |
| 11. | Seed Counter | Lab. No. 233 |

## List of Major equipments (Equipments costing more than Rs. 50,000)

| S. No. | Name of equipment | Location/Lab |
|---|---|---|
| 1 | Dell OptiPlex Computer (R-104) | Scientist Room |
| 2 | DIGITAL Burette (P-110) | Lab No.114 |
| 3 | DIGITAL Burette (P-110) | Lab No.117 |
| 4 | Genesys 180 double beam spectrophotometer (P-79) | Lab No. 6,116,112,114 |
| 5 | EutechPh meter (P-84) | Lab No. 117 |
| 6 | Digital EC pH meter (P-84) | Lab No. 117 |
| 7 | Reomi Research Centrifuge (P-101) | Lab No. 6<br>Lab No. 15<br>Lab No. 114 |
| 8 | Dell Desktop Computer (P-104) | Office Soil Science |
| 9 | Dell Desktop Computer (P-104) | Scientist Room |

| 1. | Name of the Awards | By No. of Students | 1 | 1 | 4 | 4 | 4 | 8 |
| 2 | Name of the Awards | By No. of Faculty | - | 2 | 3 | 1 | 1 | 1 |

**6.5.7.4. Employability:** *What are the set of achievements such as skills, understandings and personal attributes that make college students more likely to gain employment and be successful in their chosen occupations, which benefits themselves, the workforce, the community and the economy? Provide one page note on the subject.*

Promotion of innovation in application of information communication technology in agriculture and dissemination of knowledge plays a critical role in knowledge-based growth of agriculture. Therefore, it is imperative to update the professional skills of teachers, researchers, extension specialists and students in the latest knowledge and techniques in the field of their specialization to bring about the desired qualitative improvement and necessary orientation to contemporary problems to make research and education more relevant. The basic objective in the competency framework of the college of agriculture is not only to have the required competencies for the job but they should also be able to promote development and delivery of need based research and educational programmes for the students that would enhance the livelihood security and build up an easy, accessible and cost effective knowledge. Career progression of students is also linked with periodic exposure to capacity building programmes. The college of agriculture provide a complete package of facilities to the students for building up their career. The UG students learn a lot of practical/ farm exercise through the practical crop production (PCP) during their course. Under PCP, a field is allotted to the group of students. The students grow the crops on their own field for two seasons. After the harvest of the crop, benefit of the produce is distributed among the students. In this way the students apply the techniques learnt in their theory and practical classes during this three years programme.

In addition to this, the students participate in Student Ready programme which consists of two components, RAWE (Rural Agricultural Work Experience) including Agro-Industrial Attachment (AIA) and students choose two modules for practical training. This student ready programme helps the students to learn the practical aspects of agriculture before joining the service in a public or private sector. Under this programme focuses on strengthening capability of individual students so that they can respond to the farmers' need and promote issues related to such needs in their service career. It includes: orientation and basic training; rural experience through village placement; agro-industrial attachment; self-employment training. Students prepare survey schedule under rural experience, identify issues and constraints in farming system and analyse factors involved in the sustainability of overall system in the village. The students gain a substantial experience through interaction with agro-based industries. The experience of commercial environment further advances their practical knowledge in communication skills and working in a team. The students work on specified projects and document the project output for further planning and execution of commercial activity related to the project. The Plant Clinic has been established as a mission to impart exhaustive practical field problems to the students and serves the farmers in quick diagnosis of problems in the plants and recommending remedial measures. Plant Clinic has interdisciplinary approaches for solving the complex problems in major crops in which experts from disciplines of Plant Pathology, Entomology, Soil Science, Agronomy and Nematology actively participate. The Directorate of student's welfare organized training for the students on different aspects such as mushroom production technology with special emphasis on commercial spawn production, basic and advance computer training, personality development course etc.

On the basis of these overall exposure/experiences, students get opportunity in private sectors, government sectors (as a teacher, researcher, extension specialist, Horticulture Development Officers, Agriculture Development officers) and banking sectors (as Agriculture Officer). Some of the students start their own business in Agriculture sector. Hence, the product of this college serves for the farmers directly and indirectly in many ways.

**6.5.8.** SSR of the College must have the SSR of all its Degree Programmes (following section 6.4), then the report of the Colleges shall be considered.

**6.5.9.** Certificate (Applicable when SSR is submitted for Programmes & College).

I, the Dean, Surender K. Pahuja hereby certify that the information contained in Sections 6.4 and Section 6.5.1 to 6.5.7.4 are furnished as per the records available in the college and degree awarding university.

**Signature of the Dean of the college with Date & Seal**

**6.5.10.** Each college shall submit SSR as mentioned in 6.5.8. It shall be prerequisite for the SSR of the Agricultural University.

# SELF STUDY REPORT FOR PROGRAMMES

## 6.4 About the College

College of Agriculture at Hisar came into existence on July 17, 1962 as Government Agriculture College. The College was initially affiliated to Punjab University, Chandigarh. The College became the integral part of Punjab Agricultural University, Ludhiana with its creation on December 20, 1962. Dr. H. S. Dhindsa was the first Principal of the College of Agriculture. He later became the Dean and was succeeded by Dr. L. S. Negi, Dr. J. S. Kanwar and Dr. D. Sundaresan who administered it in addition to his duties, till the regular Dean Dr. D. R. Bhumbla was appointed in July 1966 and he continued till February 1969. It became the integral part of Haryana Agricultural University, Hisar with its creation in February 2, 1970. The College of Agriculture at Hisar has registered tremendous progress since its inception till now in terms of generation of innovative technologies, human resource development, teaching, research methodology and infrastructure facilities.

### Objectives of the College

The College adopts the following goals and objectives which permeate in offering of various curricula, and undertake research and extension activities by its departments to:

- Provide world-class education to our students.
- Maintain a strong basic and applied research programme to support all segments of agriculture and allied sectors through enhanced agricultural productivity and environmental sustainability.
- Serve the rural society through extension activities by disseminating research based knowledge.
- Assist stakeholders through value added endeavours, bio-based products, bio-processing, crop diversification etc.
- Monitor climate change impacts on agricultural systems and develop mitigation strategies adopting inter disciplinary approaches.

### College of Agriculture

Degree Programme offered by the college: **B. Sc. (Hons.) 4 Year Programme**

**Specialization: Agriculture**

**Year of Start: 1962**

| Year | No. of Seats | No. of Students Passed Out |
|---|---|---|
| 2018-19 | 124 | 66 |
| 2019-20 | 124 | 86 |
| 2020-21 | 124 | 99 |
| 2021-22 | 135 | 87 |
| 2022-23 | 135 | --- |
| Total | 642 | 338 |

**6.4.1. Brief History of the Degree Programme:** *Clearly mention in which year the degree program was initiated along with its objectives and accomplishments.*

**Objectives of initiating UG programme:**

The College adopts the following goals and objectives which permeate in offering of various curricula and undertake research and extension activities by its departments to:

- To impart knowledge on agriculture and allied sciences.
- To impart hands on and practical knowledge in agriculture.
- To disseminate technologies developed by the university through various extension activities.
- To identify the problems faced by the farmers reading agriculture and to solve them.
- To impart skills and knowledge on commercial agricultural production practices.

**Accomplishments of UG programme:** B.Sc. (Hons.) Agri 4-Year Programme

In College of Agriculture, admissions in under graduate programme *i.e.* B.Sc. ( Hons.) Agriculture 4 year are made every year and based on the overall performance over 4 years a Gold Medal is awarded to a student having highest OGPA in the degree programme every year.

**a) Award of Gold Medal**

| Year | Name | Adm No | Name of Award |
|---|---|---|---|
| 2018-19 | Bhawana | 2012A11BVI | HAU GOLD MEDAL |
| | Jyotsna | 2013A13BVI | |
| 2019-20 | Anjali Rana | 2016A08BIV | HAU GOLD MEDAL |
| | Pragati Verma | 2014A37BVI | |
| 2020-21 | Prerna Pilania | K2017A22BIV | HAU GOLD MEDAL |
| | Shubham Grover | 2015A54BVI | |
| 2021-22 | Parmod | B2018A19BIV | HAU GOLD MEDAL |
| | Surbhi | 2016A56BVI | |

**b) UG Students awarded ICAR National Talent Scholarship**

| Year | Name of students | Admn. No |

| **Total** | **11** | **12** | **13** | **14** | **22** | **24** | **26** | **28** |

**6.4.2. Faculty Strength**: *The faculty strength of the Degree Programme need to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of Research staff, extension staff, contractual faculty, guest faculty, adjunct faculty or any other arrangement being made to complete the curriculum, it should be clearly mentioned in the report.*

| S. No. | Designation | Sanctioned | | | In position | | | Faculty recommended by the ICAR/UGC |
|---|---|---|---|---|---|---|---|---|
| | | Teaching | Research | Extension | Teaching | Research | Extension | |
| 1. | Professor and equivalent | 12 | 14 | - | 10 | 45* | 10* | 65 |
| 2. | Associate Professor and equivalent | 17 | 47 | 9 | 01 | 04 | - | 05 |
| 3. | Assistant Professor and equivalent | 78 | 215 | 14 | 45 | 97 | 12 | |
| 4. | Guest faculty (specify) | - | - | - | - | - | - | |
| 5. | Contractual faculty (specify) | | - | - | 00 | - | - | 00 |
| 6. | Adjunct faculty (specify) | 00 | - | - | 00 | - | - | 00 |
| 7. | Placement officer (specify) | - | - | - | - | - | - | |
| 8. | Any other (specify) | - | - | - | - | - | - | |
| 9. | Consultant faculty | | | | | | | |
| Total | | 107 | 276 | 23 | 56 | 146 | 22 | 70 |

**Note:** The position has been occupied by the faculty as personal measure to the post.
*Including Emeritus Professor (ICAR)

**6.4.3. Technical and Supporting Staff:** *The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

| Sr. No. | Sanctioned | In place | Vacant | Technical and Supporting staff recommended by the ICAR/UGC |
|---|---|---|---|---|
| 1. | **Office Staff** | **78** | **57** | - |
| | AO/Superintendent | 2 | 1 | - |
| | Assistant | 22 | 22 | - |

| | Attendant | 5 | 1 | - |
| | Animal Attendant | 3 | 0 | - |
| | Helper | 2 | 2 | - |
| | Vehicle Attendant | 1 | 0 | - |
| | Part time Doctor | 1 | 0 | - |

**6.4.4 Classrooms and Laboratories:** *Mention the number of class rooms and functional laboratories available for the degree programme and justify if it is sufficient to meet the course curricula requirement. Lists major equipments, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention theory and practical batches for the Degree Programme.*

**List of class rooms and functional laboratories:**

| | |
|---|---|
| No. of lecture rooms with sitting capacity | Twenty one with sitting capacity of 70 |
| No. of lecture rooms with LCD facility | Eight |
| No. of smart class-rooms | Nine |
| No. of labs under Dean's office with specialized purpose | Fifteen Under graduate Labs with all standard facilities |
| Farm facilities | Yes (166 acre) |
| Workshops | Computer lab, Exhibition Hall |
| Any other instructional units being utilized for the award of the Degree Programme | Seminar Rooms and examination hall with five hundred seating capacity |

**List of major equipments at present**

| S. No. | Name of equipments | Location/Lab |
|---|---|---|
| 1 | Amplifiers | Fitted in COA Auditorium |
| 2 | LED TV | Computer Centre, COA |
| 3 | H P Desktop | Dean's office |
| 4 | Swift Dzire (HR20AB9253) | Dean ,COA |

### 6.4.5. Conduct of Practical and Hands-on-Training

| Implementation | Yes | Learning Outcomes | Profit sharing (amount) | |
|---|---|---|---|---|
| | | | Student (%) | College (%) |
| **a) Student (RAWE)** | Yes | Orientation and basic training; rural experience through village placement; agro-industrial attachment; self-employment training. Students prepare survey schedule under rural experience, identify issues and constraints in farming system and analyse factors involved in the sustainability of overall system in the village. The students gain substantial experience through interaction with agro-based industries. The experience of commercial environment further advance their practical knowledge, communication skills and working as a team. The students work on specified projects and document the project output for further planning and execution of commercial activity related to the project. During 2022-23 studenst of CCS HAU, Hisar also adopted a Open data Kit (ODK) based Landscape Diagnositic Survey (LDS). The survey was carried out in those areas where the cropping patterns *viz*. Rice- Wheat; Cotton- Wheat; Bajra-Mustard were followed. | Nil | Nil |
| **b) In-plant training** | Yes | - | Nil | Nil |
| **c) Internship Programme** | Yes | - | 100 | Nil |
| **d) Experiential Learning programmes** | Yes | - | 40% | 50% |

### Rural Agricultural Work Experience (RAWE) Programme

- **READY (RAWE+AIA) :**The Rural Entrepreneurial Awareness Development Yojana [READY] programme is a flagship activity for the final year B.Sc. (Hons.) The basic objective of the programme is building self-confidence in the agricultural graduates by developing their professional skills. RAWE focuses on strengthening capacity of individual students so that they can respond to the farmers' need and promote solutions related to such needs in their service career. It includes: orientation and basic training (1week); rural experience through village placement (10 weeks); agro-industrial attachment (6 weeks); project report preparation; presentation and evaluation of report (1week).

- **Basic Training:** One week orientation at Hisar and two days basic training of crop production and protection at respective KVK's, ATIC, Hisar and COA, Kaul is being carried out.

- **Rural Experience:** Students undertake full responsibility to operate individually and in small groups to interact with farmers during stay in villages for 70 days. They prepare survey schedule, identify issues and constraints in farming system and analyze factors involved in the sustainability of overall system in the village. Students learn how farmers determine and manage their

resources. They also prepare a document, which is presented and submitted to the course faculty at the end of the course. This helps students to develop and maintain cooperation among the group and with farmers.A total of 211 students of B.Sc. (Hons.) Ag. final year including students from COA, Kaul were provided hands on training for RAWE programme with the help of experts from CISA during 2022-23. Students were placed in 30 villages in the surrounding of RRS/KVK, Bawal and ATIC, Hisar.

- **Preparation of report**: During the last 2 weeks of RAWE programme, students learn to prepare report on rural experience, agro-industrial training attained, self-employment training received, programmes and activities of various institutions visited, major constraints in crop production and suggestions for improving income of farmers; presentation. The interns are evaluated through presentation and submission of report, viva- voce, punctuality, enthusiasm, conduct, leadership qualities,sincerity and devotion displayed by the interns.

- **Agro-Industrial Attachment:** The students gain a substantial experience through six weeks interaction with agro-based industries. The experience of commercial environment further advances their practical knowledge in communication skills and working in a team. Some students got direct interaction with perspective employer and got the job according to individual capability. The students work on specified projects and document the project output for further planning and execution of commercial activity related to the project. During the period under report, students were placed in 20 agro-based industries.

- **CSISA (Cereal Systems Initiatives in South Asia) ODK (Open data Kit ) a landscape diagnostic survey (LDS):**The CSISA (Cereal Systems Initiatives in South Asia) ODK (Open data Kit) -RAWE program in collaboration with Chaudhary Charan Singh Haryana Agriculture University (CCSHAU) was launched with a vision to understand the existing production practices of farmers in major cropping systems (Rice-Wheat, Cotton-Wheat and Pearl Millet-Mustard) prevalent in the state. The detailed survey with respect to landscape diagnostics for Rice-Wheat Cropping System (RWCS) was carried out in the district of Panipat, Kurukshetra and Yamunanagar, for Cotton-Wheat Cropping System (CWCS), the target districts were Hisar and Sirsa, and for PearlMillet-Mustard Cropping System Mahendergarh and Rewari were the districts.The second, aspect of getting this survey implemented through the RAWE program was for the in-depth understanding of the prevalent practices and the existing gaps by the research scientists, extension agents, and policymakers and capacity building of agriculture students at the undergraduate level through rigorous field training to strengthen their base and give them an understanding of their future clientele i.e., the farmers. Thirty villages from each district were selected for the survey and random sample of ten farmers was used for the study. The students collected agricultural data of the farmers about their particular crop rotations with the help of Android software named ODK COLLECT v2022.3.6. Data collected through the questionnaires were thoroughly analyzed using different analytical tools and techniques.

During RAWE programme students participated in following training/ awareness days for farmers organized through concerned KVK

**Training**

- Organic Farming
- Management of insect pests in organic farming
- Vermicomposting
- Importance of seed treatment

- Management of kitchen waste
- Mushroom Cultivation

**Awareness**

- About toll-free number of university and e-Mausam HAU app
- Environment day

**Modules for Skill Development and Entrepreneurship:** The final year students of degree programme are given hands on training in various skill-oriented modules. During the training, students "learn by doing" various aspects of techniques andtheir management strategies. Students have to register 20 credits opting for two modules of 10 credits each from the nine modules in last semester of degree programme. The modules include Agro advisory services, Organic Production Technology, Bee Keeping, Mushroom Cultivation, Seed Production and Technology, Soil Plant Water and Fertilizer Testing Services, Commercial Vegetable Production, Bio-agents and Biofertilizers Production and Food Processing. Students learn entrepreneurship skills in the field of agriculture through practical learning under various skill-oriented modules. The students are exposed to deep practical learning by involving themselves to agri entrepreneurship environment through exposure visits and personal learning.

Visit of RAWE group leaders with CIMMYT member to Dhansu Village for ODK demonstration

Interaction with RAWE students at ATIC Hisar

RAWE students attending orientation programme

RAWE students at HAIC, Murthal

Motivational lecture by RAWE students

Evaluation of the students by evaluation team

Weed identification by the farmers during ODK survey by the RAWE students

Weed identification by the farmers during ODK survey by the RAWE students

Uploading of the ODK proforma by the students at Farmer field

Students uploading the ODK proforma at Farmers' field

Students uploading the ODK proforma during RAWE programme.

Collection of information by the students under RAWE Programme

**Integrated Learning Systems (Experiential Learning):** A total of two Experiential Learning Programmes (ELP) are functional in the college, out of which one is ICAR funded and one is functioning with university funds. One ELP (Processingof fruits,vegetablesandsome otherfooditems) that is functional in college if Basic Sciences and Humanities is conducted during the last semester of final year students of undergraduate programme i.e.,B.Sc.(Hons.) Agriculture. The ELP seek to advance professional abilities and knowledge through practical application, foster self-assurance and the capacity for project-based work, and develop entrepreneurship and enterprise management skills among the students. The ELP have given students a very good foundation with an approach of "Learning by Doing"and "Seeing by Believing". The ELPs functioning in the various colleges of the

University has been successful in developing skilled, human resource in the area of agriculture and other related disciplines. Separate bank account for each EL unit has been created and the seed money of Rs. 50,000/- has been deposited in Bankof Baroda, CCSHAU in the form of revolving fund. In these programmes, students were also trained for calculating cost of production, GST and profit sharing along with maintenance of records. The entire scheme of experiential learning follows the established system of "EarnWhileYou Learn".The objectives of the ELPs is to promote professional

### Hi-Tech Agriculture

The ELP on "Hi-Tech Agriculture" is run by Department of Horticulture, College of Agricultur, and CCSHAU Hisar. This ELP is funded by ICAR and started in the year 2006. Major facilities created underELP includes Green-house, fertigation unit and irrigation, equipment's. Depending on the requirementand availability, space at Agri-Tourism Centre is also used by the students, after taking consent from the Centre In-charge.

**Activities Under Taken**:

- Nursery of seasonal flowers and different vegetables I nplug tray
- Potted plants of chrysanthemum, strawberry, other flowering annuals & exotic vegetables
- Cuttings of ornamental plants chrysanthemum, bougainvillea, philodendron etc.
- Protected cultivation of fruits flower and vegetables

**Expertise Gained**:

- Techniques of ornamental plants propagation
- Seedling raising in soil less media in working and operation of green house

### Peri-urban Agriculture

For this ELP, one-acre areaatVegetableResearch Farm is allotted to the students and major vegetable crops such as potato, onion etc. which are one time harvested, is being grown. The students sell their products from the HAUMart.

### Processing of fruits,vegetables and some other food items

Experiential Learning Programme on Processing of fruits, vegetables and some other food items is operating in Centre of Food Science & Technology, CoBS&H. The ELP imparts proactive training, to students in agriculture and allied enterprises. With an aim to develop entrepreneurial skills in students.The ELP is conducted during the last semester of final year students of Undergraduate Programme i.e., B.Sc.(Hons.) Agriculture.

The students were imparted practical demonstrations for development of following value-added food products from fruits, vegetables and graincrops:

- Ready-to-serve (RTS) drink from pineapple, guava, mango, ber, papaya and bael;
- Squashes from mango, pineapple, orange, bael, guavaand papaya;
- Syrups from pomegranate, orange, raw mango-mint, rose and almond;
- Preserve/murrabba and candy from aonla, bael, ber, karonda and carrot;
- Sauces/Ketchup,chutneys, pickles, confectioneries and dehydrated products
- Biscuits, cakes, muffins and instant mixes

### 6.4.6. Supervision of students:

A group of ten UG students has been made as tutorial group and one faculty member has been assigned the duty to act as Advisor (UG students) during his/her degree programme. One hour tutorial period has been scheduled on each Monday from 12 to 13 hrs.

### 6.4.7. Feedback of stakeholders (Students, parents, industries, employers, farmers etc.): *Mention the feedback mechanism*

A feed back proforma has been designed by the college and each class teacher (UG course) has also been assigned duty to get it filled from the UG students and their parents before the onset of final examination. The proforma is evaluated and necessary instructions are given to the faculty for improvement of teaching.

### 6.4.8 Student intake and attrition in the programme for last five years: *Year wise information on sanctioned strength, actual intake and attrition in the last five years of the Degree Programme, in the tabular form, shall be provided.*

**Student intake and attrition in the programme for last five years**

| Year | No. of Students admitted | No. of Students left | Attrition Rate (%) |
|---|---|---|---|
| 2018-19 | 125 | 32 | 25.6 |
| 2019-20 | 140 | 35 | 25.0 |
| 2020-21 | 138 | 30 | 21.8 |
| 2021-22 | 149 | 42 | 28.1 |
| 2022-23 | 160 | 45 | 28.1 |
| Total | 712 | 184 | 25.8 |

**Batch /Average number of students in Theory and Practical Classes**

| Year | No. of Batch in Theory Classes | No. of Students in Theory Classes | No. of Batch in Practical Classes | No. of Students in Practical Classes |
|---|---|---|---|---|
| 2018-19 | 12 | 708 | 24 | 708 |
| 2019-20 | 11 | 605 | 22 | 605 |
| 2020-21 | 10 | 500 | 20 | 500 |
| 2021-22 | 9 | 522 | 18 | 522 |
| 2022-23 | 8 | 488 | 16 | 488 |
| Total | **50** | **2823** | **100** | **2823** |

**Admission process**

The admission process to the B.Sc. Hons. (Agriculture 4 year) programme is through competitive entrance examination. The fee payment as well as registration of the courses is online. The students are also admitted as ICAR nominee for an opportunity to the students at all India level and also from foreign countries. Every year during entrance examination, more than 15000 candidates compete for seeking admission in B.Sc. Hons. (Agri.).

## 4 year Programme

| Name of degree programme | Mechanism of Admission (Through writer exam/ ICAR nominee/ Foreign students) | Fee payment mechanism (Cash/ Online) | Registration procedure (On-site / Online) | Academic schedule at the start of session |
|---|---|---|---|---|
| **UG** | Entrance Exam/ICAR nominee | Online | Online | Academic calendar ***(Annexure UG-I)*** |

## Examination and evaluation process

| Sr. No | Name of degree programme | Examination pattern | Evaluation process |
|---|---|---|---|
| **1** | B.Sc. (Hons.) Ag. 4-Year Programme (Theory) | External | External |
| **2** | B.Sc. (Hons.) Agri 4- Year Programme (Practical) | Internal | Internal |

**NAHEP-IDP Project:** Under NAHEP, CCS Haryana Agricultural University (HAU), Hisar is implementing the Institutional Development Plan (IDP) for the UG students. The project is improving efficiency of Agricultural education through enhanced faculty competence, innovative partnerships with industry & international universities and strengthening/ renovation/modernization of existing physical facilities. It has been intended to initiate innovative courses and training programs in partnership with industry and universities abroad to enhance employability and nurturing entrepreneurial skills to produce the next generation of graduates and leaders for climate resilient market driven sustainable agriculture in a global context. Specific activities undertaken include institutional capacity building and global knowledge partnerships through faculty development, curriculum enhancement, student and faculty exchanges, internships and experiential learning with industry, skill development activities, alumni networks, agribusiness incubation centre and university industry conclave.

## Accomplishment of the project:

- During 2018-19, twelve students of college of agriculture, hisar were sent to Czech University of Life Sciences, Prague, for Strengthening Institutional Capacity to produce skilled professional for Market Driven Agriculture.
- During 2019-20, six students were deputed to The University Of Sydney (Plant Breeding Institute), Australia and 6 students have been deputed to Massey University, New Zealand for Strengthening Institutional Capacity to produce skilled professional for Market Driven Agriculture during March, 2020.
- During 2022-23, twenty one students have been deputed to the Czech University of Life Sciences, Prague, Asian Institute of Technology (AIT), Bangkok, Thailand and Can Tho University ,Can Tho City, Vietnam for a period of two months under NAHEP-IDP.

**Students training at Czech University of Life Sciences, Prague**

**Students at Massey University, New Zealand**

Students at University of Sydney (Plant Breeding Institute), Australia

International training of students at University of Sydney (Plant Breeding Institute), Australia

**Efforts made for academic excellence by organizing lectures/ workshops/ trainings/ webinars/ seminars/brain storming session organized (offline/online)**

| S. No. | Activities |
|---|---|
| 1. | Launch Workshop of the Institutional Development Plan (IDP) sub-project entitled "Strengthening Institutional Capacity to Produce Skilled Professionals for Market Driven Agriculture" at Haryana Raj Bhavan, Chandigarh on 31st May, 2018. |
| 2. | Brainstorming Workshop on 'Identification of Industry Needs and Skill Gaps for Market Driven Agriculture' on 14-15 September, 2018 |
| 3. | Lecture on "Opportunities for Higher Education in Canada" by Prof. Malcom M. Campbell, University of Guelph on 28th Nov, 2019. |
| 4. | Interactive Session On "Seed Quality Testing and Opportunity For Higher Education in New Zealand" by Dr. Craig McGill and Dr.SvetlaSofkova, Massey University, New Zealand on 30th Nov, 2019. |
| 5. | Lecture on "Biomass conversion: Technology based Agripreneural opportunities" by Prof. ShabaddineSokhansanj, University of British Columbia, Canada on 30th Nov,2019 |
| 6. | Demonstration on "Use of Drone Technology in Agriculture" by Bayers Crop Science (Pvt. Ltd.) on 9th Dec, 2019. |
| 7. | Guest lecture on "Weeding, Precision Agricutlure, Automation and Robotics" by Dr.Vijiya Singh University of Virginia Tech, USA on 20th Dec, 2019. |
| 8. | Industrial Conclave- New Placement Avenues in Agriculture (IC-2020) on 13-14, Feb, 2020. |
| 9. | Interactive session on Opportunities for higher education in United Kingdom by Dr. Ratan Yadav Aberystwyth University, UK on 14th Feb, 2020. |
| 10. | Skill and Entrepreneurship Development Programmes/ Training organized during Feb and March, 2020<br>a) Communication skill for effective public speaking<br>b) Enhancement of designing competence with ICT tools<br>c) Campus to corporate<br>d) Robotics and automation<br>e) How to make successful startup<br>f) How to setup New Enterprise |

# Programme - 2

## M.Sc. Agri. Economics

## and

## Ph.D. Agril. Economics

## 6.4. About the Department

The Department of Economics came into existence in 1962 with the formation of Punjab Agricultural University, Ludhiana at the main campus when Hisar was a sub campus of the erstwhile Punjab Agricultural University. At that time, only three persons constituted the Department at Hisar and the main thrust was towards teaching. Dr. S.S. Kahlon, Associate Professor of Economics was the Head of the Department at the Hisar Campus. Dr M.V. George was appointed as Professor and Head of Department in 1969. After the bifurcation of the erstwhile Punjab Agricultural University in 1970, The Department of Agricultural Economics became a full-fledged Department of the newly born Haryana Agricultural University, Hisar. The teaching programme of the department includes instructions at the undergraduate (U.G.) level for the students of College of Agriculture (COA), I.C. College of Home Science, College of Agricultural Engineering & Technology (COAE&T) and College of Basic Sciences and Humanities (COBS&H). The department is also awarding degree of M.Sc. and Ph.D. in Agricultural Economics. The students are trained and specialized in the area of Production Economics, Farm Management, Agricultural Finance, Agricultural Marketing, Price Analysis and Resource Economics. The post graduate course work programme of the department is categorized into compulsory courses which must be taken by all the students of the department admitted in the M.Sc./Ph.D. degree programme irrespective of their area of specialization. Additional required courses relevant to the field of the specialization within the department and supporting courses which a student may opt to study depending upon his/her research problem. The course work for M.Sc. & Ph.D. degree in Agricultural Economics is designed in such a manner that a minimum required training in economic theory, mathematics and statistics including other analytical tools is imparted to every student. The research dissertation is conducted separately under the supervision of the major advisor of the respective advisory committees constituted from the faculty of the department and related disciplines.

### 6.4.1. Brief History of the Degree Programme: *Clearly mention in which year the degree programme was initiated along with its objective and accomplishments.*

| | |
|---|---|
| Objectives of initiating M.Sc. programme | **Year of start 1970**<br>• To produce quality and specialized human resource in the areas of Production Economics, Farm Management, Agricultural Finance, Agricultural Marketing, Price Analysis, Resource Economics.<br>• To undertake research studies to address various issues related to socio-economic aspects of agriculture sector ranging from working out economics of different crops and enterprises to sustainability of natural resources, impact of WTO on agriculture, problem of agricultural finance and indebtedness in farming sector, constraints and possibilities of agriculture diversification, agriculture marketing and value addition<br>• To inculcate entrepreneurship abilities among the PG students. |
| Accomplishments of programmes | • 253 students have completed M.Sc. since start of the programme in 1970<br>• From year 2017 onwards, 33 students passed out M.Sc. degree programme<br>• 17 Research Papers published in reputed journals by M.Sc. students from the year 2017 onwards *(Annexure AG ECON- I)*<br>• Five foreign students completed their M.Sc. during the period under report.<br>• Thirteen students who were enrolled in Module Programme of the Department, got admitted in various PG programmes through national level entrance examination in different institutions like Institute of Rural Management Anand (IRMA), Gujarat, National Institute of Agricultural Extension Management Hyderabad (MANAGE), |

| | |
|---|---|
| | National Institute of Agriculture Marketing (NIAM), Jaipur, Indian Agricultural Statistics Research Institute (IASRI) and Indian Institute of Management (IIM), Ahmedabad during the years 2017-18, 2018-19 and 2019-20<br>• Eight PG students cleared National Eligibility Test (NET) conducted by UGC and/or ICAR<br>• Ten Post-Graduate students got job opportunities in nationalized banks and other public sectors |

| | |
|---|---|
| Objectives of initiating Ph.D. programme | **Year of start 1972**<br>• To produce quality and specialized human resource in the areas of Production Economics, Farm Management, Agricultural Finance, Agricultural Marketing, Price Analysis, Resource Economics.<br>• To undertake research studies to address various issues related to socio-economic aspects of agriculture sector ranging from working out economics of different crops and enterprises to sustainability of natural resources, impact of WTO on agriculture, problem of agricultural finance and indebtedness in farming sector, constraints and possibilities of agriculture diversification, agriculture marketing and value addition<br>• To inculcate entrepreneurship abilities among the PG students. |
| Accomplishments of programmes | • 88 students have completed Ph.D. since start of programme in 1972<br>• 13 students completed Ph.D. degree programme during the period under report<br>• 19 Research Papers published in reputed journals by Ph.D. students from the year 2017 onwards *(Annexure AG ECON- I)*<br>• One foreign student completed Ph.D. in 2021-22<br>• 01 student enrolled in Ph.D. programme through Senior Research Fellowship (SRF) of ICAR for pursuing Ph.D.<br>• 17 Ph.D. students cleared National Eligibility Test (NET) being conducted by ICAR and UGC *(Annexure AG ECON- V).*<br>• 04 Ph.D. students were awarded UGC- JRF during the period *(Annexure AG ECON- V).*<br>• 02 Ph.D. students got best paper presentation award in National Conference of Indian Society of Agricultural Economics (ISAE) during the year 2017-18.<br>• 02 Ph.D. Scholar got Rajiv Gandhi National Fellowship *(Annexure AG ECON- V).*<br>• 08 Ph.D. students got selected as Assistant Professor/DES in CCSHAU, Hisar and MHU, Karnal<br>• 03 students got placed as SRFs under different projects.<br>• 03 students got placed as Assistant Professors in different private institutions *(Annexure AG ECON- VI).* |

**6.4.2. Faculty Strength:** *The faculty strength of the Degree Programme need to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of Research staff, extension staff, contractual faculty, guest faculty, adjunct faculty or any other arrangement being made to complete the curriculum, it should be clearly mentioned in the report.*

| S. No. | Sanctioned faculty | In place* | Vacant | Faculty recommended by the ICAR/UGC |
|---|---|---|---|---|
| 1. | Professor and equivalent (0) | 1 | - | - |
| 2. | Associate Professor and equivalent (1) | - | 1 | 1 |
| 3. | Assistant Professor and equivalent (32) | 23 | 8 | 5 |

**Note:** All the Faculty members are assigned the responsibilities for the multiple programmes

***The numbers of faculty under Professor and Associate Professors also include personal promotes

**6.4.3. Technical and Supporting staff:** *The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

| S. No. | Designation | Sanctioned | In place |
|---|---|---|---|
| 1. | Assistant | 2 | 1 |
| | Clerk | 5 | 3+1* |
| | PA/Steno | 1 | 0 |
| | Messenger | 2 | 1* |
| 2. | Field staff | | |
| | Farm and field worker (specify)- Agriculture Inspector | 30 | 14+16* |

**Note:** All the technical and supporting staff is assigned the responsibilities of the multiple programmes; * Contractual staff

**6.4.4. Classrooms and Laboratories:***Mention the number of class rooms and functional laboratories available for the degree programme and justify if it is sufficient to meet the course curricula requirement. Lists major equipments, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention theory and practical batches for the Degree Programme.*

**List of classroom and functional laboratories**

| | |
|---|---|
| No. of lecture rooms with sitting capacity | L.R. No.(12) = 01 Seating capacity = 70 |
| No. of smart class-rooms- seminar room with LCD | No. = 01 and Seating capacity = 30 |
| Any other instructional units being utilized for the award of the Degree Programme<br>Computer laboratory (with five computers) | No. = 01 |

**Mention theory and practical batches for PG Programmes**

**Theory and practical batches**

- At M.Sc. level, the department offers 10 courses and all the courses have practical components. There are limited seats in M.Sc. programme with an average of 7 students. Some courses are offered as minor courses for students of other departments. There is only one batch for theory classes and one batch for practical classes in all the courses with an average of 7-10 students.

- At Ph. D. level, there are on an average three students. Therefore, there is only one batch for theory classes and one batch for practical classes in all the courses. For Ph.D., the department of economics offers 9 courses and all the courses have practical components.

**6.4.5. Conduct of Practical and Hands-on-Training:** *It is important to have a sound grasp of the theory that underlies any professional degree. But there are some skills that can only be learned through hands-on -practice. It is important that much of the learning material in any given course should be provided in a way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hands-on-training as per the curriculum and meeting above mentioned requirements.*

| Course No. | Credit Hours | Practical and Hands – on – Training | How far students are getting desired practical and hands on training as per curriculum |
|---|---|---|---|
| **P.G. Programme (M.Sc.)** | | | |
| **Ag Econ 504*** | 2+1 | • Different forms of production functions - specification, estimation and interpretation of production functions returns to scale,<br>• Factor shares, elasticity of production - physical optima-economic optima-least cost combination<br>• Optimal product choice- cost function estimation, interpretation-estimation of yield gap<br>• Incorporation of technology in production functions- measuring returns to scale-risk analysis through linear programming. | The students are taught usage of different forms of production functions their specification estimation and interpretation of results as well as measurement of risk through linear programming which helps them analyze real world situations in detail |
| **Ag Econ 505*** | 2+1 | • Supply and demand elasticities in relation to problems in agricultural marketing.<br>• Price spread and marketing efficiency analysis.<br>• Performance analysis of regulated market and marketing societies.<br>• Market Intelligence Characters, Accessibility, and Availability Price forecasting.<br>• Online searches for market information sources and interpretation of market intelligence reports<br>• Commodity outlook-Technical Analysis for important agricultural commodities.<br>• Fundamental Analysis for important agricultural commodities | • The students are engaged in collection of rivals and prices information from markets. Thereafter estimating the trend demand and supply situation. Assessment of price spread marketing efficiency and how to present the survey results is also taught |
| **Ag Econ 506** | 1+1 | • Formulation of objective and hypotheses.<br>• Assessment of data needs sources of data methods of collection of data.<br>• Methods of sampling criteria to choose discussion on sampling under different situations.<br>• Scaling Techniques, measurement of | • Firstly, the students exercise to identify different agricultural problems. Thereafter, formulating objectives and hypothesis.<br>• There also taught about sampling procedures preparation of interview schedule and various methods of tabulation editing and analysis of |

| | | | |
|---|---|---|---|
| | | scales.<br>• Preparation of interview schedule-field testing and method of conducting survey.<br>• Exercise on coding, editing, tabulation and validation of dataand data entries into computer.<br>• Hypothesis testing- Parametric and Non-Parametric Tests.<br>• Exercises on format for Thesis / Report writing. Presentation of the results | data. Finally students exercise hypothesis testing and learn about different presentation techniques for writing final reports |
| **Ag Econ 507*** | 2+1 | • Single equation two variable model specification and estimation<br>• Hypothesis testing transformations of functional forms and OLS application-estimation of multiple regression model<br>• Hypothesis testing - testing and correcting specification errors - testing and managing Multi-collinerity<br>• Testing and managing heteroscedasticity - testing and managing auto-correlation<br>• Estimation of regressions with dummy variables and with limited dependent variable<br>• Identification of equations in simultaneous equation systems. | • The students study the estimations of single equation two variable model, multiple regression model, Hypothesis testing and managing multi-collinerity, heteroscedasticity and auto-correlation<br>• Also, they learn about estimation of regression with limited dependent variable and identification of equations in simultaneous equation system. |
| **Ag Econ 508** | 1+1 | • Graphical and algebraic formulation of linear programming models.<br>• Solving of maximization and minimization problems by simplex method.<br>• Formulation of the simplex matrices for typical farm situations. | • The students are familiarized with formulation of linear programming models, simplex matrice for Maximization of profit/ minimisation of costs. |
| **Ag Econ 509** | 2+1 | • Demand and supply of institutional agricultural credit, An overview of rural lending programmes of commercial banks<br>• Lead Bank Scheme- Preparation of District Credit Plan, Rural Lending Programmes of Co-operative Lending Institutions<br>• Preparation of financial statements using farm/firm level data<br>• Farm credit appraisal techniques and farm financial analysis through financial statements<br>• Performance of Micro Financing Institutions - NGOs and SHGs<br>• Discounted Measures, Network techniques PERT and CPM for project management<br>• Crop insurance schemes, Financial instruments and methods<br>• E-banking, Kisan Credit Cards and core-banking. | • Students learn about agricultural credit lending institutions, demand and supply situations, How is the District Credit Plan prepared, Rural Lending Programmes of Co-operative Lending Institutions.<br>• Also, they prepare financial statements using farm/firm level data and learn appraisal techniques<br>• The working of Micro Financing Institutions- NGOs and SHGs, crop insurance schemes, financial instruments and core banking is also deeply understood. |

| | | | |
|---|---|---|---|
| **Ag Econ 510/SST 514** | 2+1 | • Estimation of cost of seed production<br>• Marketing costs and margins of seeds of different crops<br>• Seed demand, supply and seed forecasting techniques<br>• Marketing plan of seed<br>• Project preparation of processing and marketing of seed.<br>• Visit to seed processing industries | • The students study the cost of seed production and marketing demand, supply, seed forecasting techniques and marketing plan<br>• Also, project preparation for processing & marketing of seed is taught by providing exposure to seed processing units |
| **Ag Econ 511** | 1+1 | • Producer's Surplus, Consumer's Surplus<br>• National Welfare under Autarky and Free Trade Equilibrium with small and large country assumption<br>• Estimation of Trade Gains, competitive and comparative measures like NPC, EPC, ERP and DRC<br>• Estimation of Offer Curve Elasticity<br>• Estimation of Effect of Tariff, Export Subsidy, Producer Subsidy, Import Quota and Export<br>• Voluntary Restraints on National Welfare Estimation of Ricardian Model<br>• Trade Creation and Diversion. | • Here the students learn about estimation of consumer's surplus. National Welfare under Autarky and Free Trade Equilibrium.<br>• Also, the effect of Tariff, Export Subsidy, Producer Subsidy, Import Quota and Export, Trade under Specific Factor Model is learnt |
| **Ag Econ 514** | 1+1 | • Exhaustible resource management optimum rate of oil extraction<br>• Renewable resource management optimum harvest of Forestry/fishery<br>• Exercise on pollution abatement and concepts in valuing the environment.<br>• Taxonomy of valuation techniques<br>• Productivity change method substitute cost method<br>• Hedonic price method - Travel cost method-Contingent valuation methods<br>• Discount rate in natural resource management.<br>• Environment impact assessment<br>• Visit to Pollution Control Board. | • The students study the exhaustible resource management optimum rate of oil extraction<br>• Renewable resource management optimum harvest of Forestry/fishery<br>• Valuation of environment by applying various methods<br>• Assessment of Environment impact<br>• A visit of students to Pollution Control Board is also mandated as part of the course. |
| **Ag Econ 599** | 20 | • Master's Research | • Students are guided for practical knowledge to conduct research in the area of Farm Management, Production Economics, Agricultural Marketing, Agricultural Finance , Resource Economics etc. |
| **Ph.D. Programme** | | | |
| **Ag Econ 601*** | 1+1 | • Problems in consumer utility maximization<br>• Estimation of income and substitution effects<br>• Estimation and comparison of Consumer's surplus, equivalent | • The doctoral students study the theory of consumer utility maximization, estimation of income and substitution effects, comparison of consumer's surplus, equivalent variation and compensating variation, of demand |

| | | | |
|---|---|---|---|
| | | variation and compensating variation<br>• Derivation and estimation of labour supply equations from household models<br>• Comparative static analysis in consumption<br>• Advanced problem solving in price determination under perfect competition monopoly, oligopoly and monopolistic competition.<br>• Game theory models and problems solving in General Equilibrium<br>• Problems in public goods provision | models.<br>• They also work to study the derivation and estimation of labour supply equations from household models, price determination under perfect competition monopoly, oligopoly and monopolistic competition., Game theory models and Welfare Economics |
| **Ag Econ 603*** | 2+1 | • Estimation of multiple regression model<br>• GLS estimation methods - testing misspecification errors<br>• Testing and Managing multi-collinerity, heteroscedasticity and auto-correlation<br>• Estimation of LPM, Logit and Probit models - comparing two regressions - Chow test<br>• Panel data random and fixed effects models<br>• Indirect least squares 2SLS, SURE, 3SLS<br>• Estimation of simultaneous equation models | • The students learn to estimate multiple regression model, GLS estimation methods - testing misspecification errors, LPM, Logit and Probit models - comparing two regressions - Chow test, simultaneous equation models, panel data random and fixed effects models<br>• Also, they study the indirect least squares 2SLS, SURE, 3SLS and their practical usage. |
| **Ag Econ 604*** | 2+1 | • Estimation of different forms of production functions<br>• Optimal input and product choice from estimated functions<br>• Derivation of demand and supply functions and estimation<br>• Estimation of cost function and interpretations<br>• Optimal product and input choice under multi input and output system<br>• Decomposition analysis and incorporation of technology<br>• Estimation of efficiency measures<br>• Stochastic, probabilistic and deterministic frontier production functions<br>• Risk programming MOTAD-Quadratic programming-Simulation models for agricultural production decisions<br>• Goal programming Weighted, lexicographic and fuzzy goal programming, compromise programming | • In depth study of estimation of different forms of production functions, Stochastic, probabilistic and deterministic frontier production functions, Risk programming MOTAD-Quadratic programming-Simulation models for agricultural production decisions, Goal programming Weighted, lexicographic and fuzzy goal programming and compromise programming is done. |
| **Ag Econ 605** | 1+1 | • Review of criteria for policy evaluation<br>• Estimation of price elasticities<br>• Review of estimation of complete | • Here the students learn policy evaluation. Practical estimation of price elasticities, Nerlovian supply response model |

| | | | |
|---|---|---|---|
| | | demand systems<br>• Estimation of Nerlovian supply Response model<br>• Review of Household models, specification and estimation of household models<br>• Partial equilibrium analysis input output table<br>• Social Accounting Matrix and Construction of a SAM<br>• Computation of Multipliers Multi Market Analysis<br>• Review of Computable General Equilibrium Model. | • Reviewing complete demand systems, household models and computable general equilibrium model partial equilibrium analysis Input output table, social accounting matrix, construction of a SAM, computation of multipliers multi market analysis |
| **Ag Econ 606*** | 2+1 | • Estimation of demand/ supply forecasting<br>• Supply chain / value chain analysis for different commodities<br>• Time series analysis and market integration studies<br>• Price discovery price volatility estimation<br>• Commodity price forecasting<br>• Determination of administered prices through alternative methods | • The students learn about forecasting and price discovery supply chain / value chain analysis for different commodities, Time series analysis, Market integration, Commodity price forecasting<br>• They also learn about determination of administered prices through alternative methods |
| **Ag Econ 607** | 1+1 | • Application of Farm Management Principles and Production functions<br>• Determination of optimum farm programme under varying sets of constraints including weather and price risks | • Here the students learn details of farm management, principles and production functions. They also do exercises on optimum farm programme under varying sets of constraints including weather and price risks. |
| **Ag Econ 609** | 1+1 | • Derivation of the fundamental equation of renewable resources<br>• Estimation of growth curves and stock dynamics for fishery and forestry resources<br>• Simple two period problem of optimal resource use<br>• Numerical solution for simple two-period model of dynamic efficiency in natural resource extraction.<br>• Using Excel Solver in solving dynamic natural resource harvesting problems | • The students work out derivation of the fundamental equation of renewable resources and learn estimation of growth curves and stock dynamics for fishery and forestry resources<br>• They study the simple two period problem of optimal resource use and multi-period dynamic efficiency.<br>• Exercises are given to students for solving dynamic natural resource harvesting problems, natural resource management etc. |
| **Ag Econ 610** | 2+1 | • Criteria for evaluating the environment related projects and review of Environmental Impact<br>• Assessment (EIA) techniques - Recreation demand models of environmental valuation<br>• Contingent valuation techniques - Environmental Resource Accounting Techniques<br>• Green GDP and Green house insurance<br>• Practical considerations and comparison of instruments of environmental policy | • The students learn criteria for evaluating the environment related projects, assessment (EIA) techniques - recreation demand models of environmental valuation, contingent valuation techniques - environmental resource accounting techniques<br>• Discussion is held on the techniques dealing with air pollution and review of case studies on air pollution and its impacts, forest environment and wild life conservation and Green GDP and Green house insurance<br>• Multi-criteria methods for |

| | | | |
|---|---|---|---|
| | | • Multi-criteria methods for quantitative, qualitative and fuzzy evaluation problems related to environment<br>• Input output analysis, technology and the environment | quantitative, qualitative and fuzzy problems related to environment are evaluated. |
| **Ag Econ 699** | 45 | • Doctoral research | Students are guided to conduct research in the area of Farm Management, Production Economics, Agricultural Marketing, Agricultural Finance , Resource Economics etc. |

*** Compulsory course**

**6.4.6. Supervision of students in PG/Ph.D programmes:** *Number of students being supervised by Faculty in case of Masters/ Ph.D Programme (as per ICAR/UGC guidelines). Mention the realistic figure number of qualified faculty in relation to the intake of st+udents, as per the guidelines in the matter.*

**Details of M.Sc. programmes offered by the Department**

| Year | No. of students on roll | No. of PG faculty | Student-teacher Ratio |
|---|---|---|---|
| **2018-19** | 13 | 21 | 0.62:1 |
| **2019-20** | 22 | 25 | 0.88:1 |
| **2020-21** | 20 | 25 | 0.80:1 |
| **2021-22** | 23 | 29 | 0.79:1 |
| **2022-23** | 15 | 25 | 0.60:1 |

**Details of Ph.D. programmes offered by the Department:**

| Year | No. of students on roll | No. of PG faculty | Student-teacher Ratio |
|---|---|---|---|
| **2018-19** | 16 | 21 | 0.76:1 |
| **2019-20** | 16 | 25 | 0.64:1 |
| **2020-21** | 16 | 25 | 0.64:1 |
| **2021-22** | 15 | 29 | 0.52:1 |
| **2022-23** | 14 | 25 | 0.56:1 |

**6.4.7. Feedback of stakeholders (Students, parents, industries, employers, farmers etc.):** *To know the opinion as well as suggestion of the students about the teaching techniques of the respective course instructor, feedback performa is distributed among all the students in the last theory class of respective course in each semester.*

There is a system of annual self appraisal report (SAR) with respect of all faculties. SARs are reviewed by the Deans and Directors for performance appraisal and finally approved by the Vice-Chancellor. The performance of the faculty is also reviewed on the basis their results and feedback from the students. The stakeholders' feedback on the overall performance and quality of the institutions is obtained through general meetings with parents and interaction with alumni. The teachers get informal feedback from the students based on their parents' observation and suggestions. These suggestions are conveyed to the HODs and controlling officers.

**6.4.8. Student intake and attrition in the programme for last five years:** *Year wise information on sanctioned strength, actual intake and attrition in the last five years of the Degree Programme, in the tabular form, shall be provided.*

| Name of the Degree Programme | No. of student admitted in last five years | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| M.Sc. | 5 | 11 | 9 | 8 | 8 | 40 | 9 | 22.2 | 25 | 0 |
| Ph.D. | 4 | 4 | 4 | 2 | 5 | 25 | 0 | 50 | 0 | 0 |

**6.4.9. ICT Application in Curricula Delivery:** *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical. Mention whether the Degree Programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned.*

**Use of ICT application in teaching and practical for curricula delivery**

| Courses | Total courses | Theory | Practical | Type of ICT Application |
|---|---|---|---|---|
| M.Sc. | 18 | 18 | 10 | Power Point Presentation, Google meet and Microsoft team |
| Ph.D. | 10 | 10 | 8 | Power Point Presentation, Google meet and Microsoft team |

The masters' and doctoral students are taught using Power Point presentations, Google meet, Microsoft teams and Google classroom to inculcate a habit of digital learning platforms and to make them comfortable in use of digital resources. Also, the department is driving to build a digital library of the courses containing video lectures, presentations, PDF's of the study material.

**6.4.10** The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and Ph.D. Degree Programmes, separately, and to be presented College-wise.

**6.4.11** Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

**6.4.12** Certificate (Applicable when SSR is submitted for Programme)

I, the Dean, Surender K. Pahuja hereby certify that the information contained in theSection 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

**Signature of Dean of the College with Date & Seal**

## PROGRAMMES ORGANISED/CONDUCTED
## APRIL 2018 – MARCH 2023

| S. No. | Year | Title | Date /Duration |
|---|---|---|---|
| 1. | 2019-20 | Organized Training-cum- "**Workshop on Commodity Derivative Markets"** at DHRM, CCS HAU, Hisar in collaboration with Multi Commodity Exchange (MCX), Mumbai | 09.09.2019 |
| 2. | 2021-22 | Department in collaboration with DHRM, CCS HAU, Hisar organized 21 days training on **"Applications of Statistical and Econometric Techniques in Agriculture"** | 24.11.2021 to14.12.2021 |

*Annexure AG ECON- III*

## AWARDS/ RECOGNITIONS

| Sr. No. | Name of the Award | Year | Date of award | Whether received individually or at Department level |
|---|---|---|---|---|
| 1. | **Young Scientist Award** by GKV society on the occasion of National Conference on Managing Natural Resources for Sustainable Agriculture held at R.B.S, College, Agra (UP) | 2019 | December 8-9, 2019. | Dr.Nirmal Kumar |
| 2. | **Letter of Appreciation** by Secretary to Governor, Raj Bhawan Haryana, Chandigarh for the work assigned on preparation of draft note on the issue of "Approach to Agriculture – A Holistic Overview. | 2019 | - | Dr.K. K. Kundu |
| 3. | **Letter of Appreciation** by Vice-Chancellor, for the work assigned on preparation of draft note on the issue of "Approach to Agriculture – A Holistic Overview. | 2019 | - | Dr.K. K. Kundu |
| 4. | **Certification of Appreciation** by Shri Mata Vaishno Devi University, Jammu & Kashmir, Katra, Kakryal - 182320, for being acted as an Session Chair in the panel discussion in the international seminar on sustainable rural development in India: Issues, Opportunities & Challenges, organized by School of Economics, SMVDU, in collaboration with NABARD. | 2019 | 9th March, 2019. | Dr.K. K. Kundu |
| 5. | **Best poster award** during 30th annual conference "Institutional changes for inclusive and sustainable development" Agricultural Economics Research Association held at SKUAST-Jammu | 2022 | 21/12/22 to 23/12/2022 | Dr. J.S. Papang |
| 6. | Nominated by Haryana Government as member of the "Task Force for preparation of KisanKalyan /Farmers Welfare Policy with Vision 2047" | 2023 | 10th February 2023 | Dr. D. P. Malik |

# Programme - 3

**M.Sc. Agronomy**

**and**

**Ph.D. Agronomy**

## 6.4. About the Department

The Department of Agronomy, a constituent department of College of Agriculture of CCS Haryana Agricultural University made a humble beginning on 1st June 1964 being Dr. M. K. Moolani as its first Head. The Department has attained the distinction of one of the biggest department of the College of Agriculture with faculty strength of approximately 117 teachers/scientists including extension specialist during 80's and 90's and presently with strength of about 61 faculty members. This department is responsible for teaching, research and extension activities related to the discipline of agronomy throughout the state of Haryana. It has excellent infrastructure of well-equipped laboratories and research farm of 25 ha besides a students' farm of about 6 ha. These are well supported by laboratory and field staff for proper conduction of research both by faculty and post-graduate students as well as farm practical of undergraduate students. Since the inception of the department, 678 M.Sc. and 318 Ph.D. students have completed their degree. Practical Crop Production (PCP) Programme was started by the Department of Agronomy in the year 1974 and is offered to the students of B. Sc. (Hons.) Agri. 3rd year. Rural Agriculture Work Experience (RAWE) programme was started in 1991-92 and as of today a total of 2713 of B. Sc. (Hons.) Agri final year student's had undergone one semester training in the rural areas. Many of our post-graduate students have been selected in IAS, IFS, HCS, commissioned officers in Army and Navy and other allied services.

Many students from abroad i.e. Vietnam, Afghanistan, Bangladesh, Somalia, Ethiopia, Zimbabwe have completed their post graduation from this department. The department offers 16 Courses (60 Credit hours) to B. Sc. (Hons.) Ag. students and 27 Courses (69 Credit hours) for M. Sc. and Ph. D. students on various agronomical aspects of Crop Production, Water Management, Weed Management, Farming System and Dryland Agriculture every year. In addition, the department also offers course each to UG student for College of Home Science and College Agril. Engg. and earlier one course to B.V.Sc and AH. students. The department operated a Centre of Excellence in Soil and Water Management on Advance Studies in Soil and Water Management from 1971 to 1982 with a financial assistance from UNDP/ICAR. In 1982, the UNDP centre on soil and water management was awarded a multidisciplinary basic research project entitled "Identification of agro-physiological traits for screening the genotypes of oilseed and chickpeas for drought situations" under NARP.

**Objectives of the Department**

- To impart teaching in the field of Agronomy to under graduate and post graduate students.
- To conduct research in the field of weed science, irrigation, fertility, agro-forestry, dryland agriculture, crop ecology, agrostology and integrated farming system and in any new area depending on requirement of the state.
- Transfer of technology to farmers through KVKs and government agencies.

### 6.4.1 Brief History of the Degree Programme

- Since the inception of the department from 1964 to till date 678 M. Sc. and 318 Ph. D. students have completed their degrees. Students enrolled in M. Sc. and Ph. D. programmes have been given research problems related to weed science, irrigation, fertility, agro-forestry, dryland agriculture, crop ecology, agrostology and integrated farming system.

| | |
|---|---|
| **Objectives of initiating M. Sc. programme** | • To prepare students to enter their profession with a perspective and breadth of knowledge related to their respective fields of specialization through course work, seminars and project/thesis work, research experience and thus cater to the needs of industry, R&D organizations, government and the educational institutions.<br>• To meet the needs of students and employers by offering relevant, quality career education programmes, training and research in field of Agronomy so that the students could overcome their shortcoming and significantly commit to the expectations of our farming community. |
| **Accomplishments of M.Sc. programme** | • Till date the Department of Agronomy has conferred degree to 678 M.Sc. Students. During the period under report, 79 students have completed their Master's degree. At present 37 M.Sc. students are on roll.<br>• Thirty Four (34) students passed National Eligibility Test (NET) conducted by Agricultural Scientists Recruitment Board (ASRB) during the period under report *(Annexure AGRON-I).*<br>• During the period under report, four (04) students have joined as Agricultural Officer/PO in Public Sector Bank; *(Annexure AGRON-I).* |
| **Objectives of initiating Ph. D programme** | • To meet the needs of students and employers by offering relevant, quality career education programmes, training and research in field of Agronomy.<br>• To undertake challenges in the field of Agronomy through research activities.<br>• The objective of the Ph.D. degree is to accomplish original, valid, and important research. Since the degree is the training ground for a career in academic teaching and scholarly research, the Ph. D. candidate must demonstrate the ability to do independent research.<br>• To impart theoretical and practical value in many fields extending over the various aspects of Agronomy. |
| **Accomplishments of Ph.D. programme** | • Till date the Department of Agronomy has conferred degree to 318 Ph.D. students during the period under report, 36 students have completed their Doctorate degree. At present 56 Ph.D. students are on rolls.<br>• Two students passed National Eligibility Test (NET) conducted by the Agricultural Scientists Recruitment Board (ASRB) during the period under report *(Annexure AGRON-1).*<br>• During the period under report, twenty seven students have joined in different departments *(Annexure AGRON-1).*<br>• Note: List of Students Publications if given in *Annexure AGRON-II.* |

Y1=2018-19… Y5=2022-23(till date)

**6.4.2. Faculty Strength:** *The faculty strength of the Degree Programme need to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of Research staff, extension staff, contractual faculty, guest faculty, adjunct faculty or any other arrangement being made to complete the curriculum, it should be clearly mentioned in the report.*

| S. No. | Sanctioned faculty | In place* | Vacant | Faculty recommended by the ICAR/UGC |
|---|---|---|---|---|
| **1.** | Professor and equivalent (14) | 13 | 1 | 1 |
| **2.** | Associate Professor and equivalent (13) | 5 | 8 | 1 |
| **3.** | Assistant Professor and equivalent (47) | 44 | 3 | 4 |

* Faculty in place under Professor and Associate Professor include Personal Promotion (PP)

**Note:** All the faculty of this programme is assigned the responsibilities for the multiple programmes.

**6.4.3. Technical and Supporting staff:** *The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

| S. No. | Designation | Sanctioned | In-place* | Vacant | Technical and supporting staff recommended by the ICAR/UGC |
|---|---|---|---|---|---|
| 1 | **Office staff** | | | | |
| | AO/Superintendent | - | - | - | - |
| | Assistant | 1 | 1 | - | - |
| | Clerk | 2 | 2 | - | - |
| | PA/Steno/JSS | 1 | 1 | - | - |
| | Messenger | 1 | - | - | - |
| | Peon | - | - | - | - |
| 2 | **Lab staff** | | | - | - |
| | Lab Assistant | 6 | 2 | 4 | - |
| | Lab Attendant | - | - | - | - |
| | Any other | 1 | 1 | - | - |
| 3 | **Field staff** | | - | - | - |
| | Beldar | 14 | 3 | 11 | - |
| | Farm and fieldworker(specify) **Plant observer** | 2 | - | - | - |
| | Technical Assistant | - | - | - | - |
| | Agriculture Inspector | 8 | 5 | 3 | - |
| 4 | Driver | 2 | 1 | 1 | |
| 5 | **Liftman** | - | - | - | - |
| 6 | **Computer operator** | - | - | - | - |
| 7 | **Technician** | 1 | 1 | 0 | - |

*The technical and supporting staff of the departments assigned the responsibilities for the multiple programmes.

**6.4.4. Classrooms and Laboratories:** *Mention the number of class rooms and functional laboratories available for the degree programme and justify if it is sufficient to meet the course curricula requirement. Lists major equipments, laboratories, farm facilities,*

*workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention theory and practical batches for the Degree Programme.*

## List of classroom and functional laboratories

| | |
|---|---|
| No. of lecture rooms with sitting capacity with smart class room facility | One (with seating capacity of 70 students) |
| No. of lecture rooms with smart class facility | 1 (Seminar Room) |
| No. of labs under Dean's office with specialized purpose | 4 (weed, residue, irrigation and farming system) |
| Farm facilities | Students farm for undergraduate and research area for PG students. |
| Any other instructional units being utilized for the award of the Degree Programme | Instructional farm for UG students |

## List of major equipments at present in the department

| S.No. | Name of Instrument/Equipment | Location/ Lab No. |
|---|---|---|
| 1 | Atomic Absorption Spectrophotometer | 207 |
| 2 | Microwave Digestion System | 207 |
| 3 | Spectrophotometer | 207 |
| 4 | Flame photometer | 207 |
| 6 | Hot air Oven | 216 |
| 7 | Growth Chamber Seed germinator | 216 |
| 8 | Deep freezer | 216 |
| 9 | Humidity Chamber | 216 |
| 10 | Green Seeker | 216 |

## Mention theory and practical courses for PG Programmes

| Year | Theory | | Practical | |
|---|---|---|---|---|
| | M. Sc. | Ph.D. | M. Sc. | Ph.D. |
| **2018-19** | 13 | 9 | 11 | 4 |
| **2019-20** | 13 | 9 | 11 | 4 |
| **2020-21** | 13 | 9 | 11 | 4 |
| **2021-22** | 13 | 9 | 11 | 4 |
| **2022-23** | 13 | 9 | 11 | 4 |

## Theory and practical batches

At UG level, the department of Agronomy offers 12 core and 5 professional elective courses, of which eleven core and all professional courses have practical components. More over two courses agron 303 and agron 304 are totally practical oriented.(Practical Crop Production)

- For theory in core courses, from 1$^{st}$ to 6$^{th}$ Semester there are two-three batches with an average of about 40-50 students in each batch.
- For theory in professional elective courses during 7$^{th}$ Semester, there is one batch in each elective courses.
- At M.Sc. level, the Department of agronomy offers 13 courses and 11 courses have practical

components. There are limited seats in M.Sc. programme. Some courses are offered as minor courses for students of other departments. There is only batch for theory classes and one batch for practical classes in all the courses.

- Similarly, at Ph.D. level there are limited seats in the programmes. Hence, there is only batch for theory classes and one batch for practical classes in all the courses. For Ph.D., the department of agronomy offers 9 courses and 4 courses has practical components**.**

**6.4.5. Conduct of Practical and Hands-on-Training:** *It is important to have a sound grasp of the theory that underlies any professional degree. But there are some skills that can only be learned through hands-on -practice. It is important that much of the learning material in any given course should be provided in a way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hands-on-training as per the curriculum and meeting above mentioned requirements*

| Degree programme | Total courses | Practical courses | Hands-on-training courses | How far students are getting desired practical and hands-on-training as per the curriculum |
|---|---|---|---|---|
| M. Sc. | 13 | 11 | AGRON 501 | • To teach the basic concepts of soil management and crop production |
| | | | AGRON 502 | • Knowledge of fertilizers and manures as sources of plant nutrients and apprise about the integrated approach of plant nutrition and sustainability of soil fertility. |
| | | | AGRON 503 | • To familiarize the students about the weeds, herbicides and methods of weed control. |
| | | | AGRON 504 | • To teach the principles of water management and practices to enhance the water productivity |
| | | | AGRON 505/ AGM 502 | • To impart the theoretical and practical knowledge of physical processes occurring in relation to plant and atmosphere with advanced techniques. |
| | | | AGRON 506 | • To teach the crop husbandry of cereals and pulse crops. |
| | | | AGRON 507 | • To teach the crop husbandry of oilseed, fiber and sugar crops. |
| | | | AGRON 508 | • To acquaint students about different medicinal, aromatic and underutilized field crops, their package of practices and processing. |
| | | | AGRON 509 | • To teach the crop husbandry of different forage and fodder crops along with their processing |
| | | | AGRON 510 | • Crop husbandry of different forage, fodder and agro-forestry crops/trees along with their processing |
| | | | AGRON 511 | • To acquaint the students about prevailing cropping systems in the country and |

| | | | | |
|---|---|---|---|---|
| | | | AGRON 512<br><br>AGRON 513<br><br>AGRON 599 | practices to improve their productivity<br>• Practices of dry land farming and soil moisture conservation.<br>• Practices of organic farming for sustainable crop production.<br>• Masters research programme |
| Ph. D. | 9 | 4 | AGRON 601<br><br>AGRON 602<br>AGRON 603/ AGM 506<br><br>AGRON 604<br><br><br><br><br><br><br>AGRON 605<br>AGRON 606<br><br>AGRON 607<br><br><br>AGRON 608<br><br>AGRON 609<br><br>AGRON 699 | • To acquaint the students about recent advances in agricultural production.<br>• To acquaint the students about the agricultural systems, agro-ecological regions, andadaptation of crops to different agro-climatic conditions<br>• Practical knowledge of various models for estimation of crop responses.<br>• Study the physiology of vegetative and reproductive growth in relation to productivity of different crops in various environments<br>• Apprise about different enterprises suitable for different agro-climatic conditions for sustainable agriculture<br>• To teach students about optimization of irrigation in different crops under variable agroclimatic conditions<br>To teach about the changing weed flora, new herbicides, their resistance, toxicity, antidotes and residue management under different cropping systems.<br>• Various types of stresses in crop production and strategies to overcome them.<br>• Doctoral research programme |

**6.4.6. Supervision of students in PG/PhD programmes:** *Number of students being supervised by Faculty in case of Masters/Ph. D Programme (as per ICAR/UGC guidelines). Mention the realistic figure number of qualified faculty in relation to the intake of students, as per the guidelines in the matter.*

**Details of M.Sc. programmes offered by the Department:**

| Year | No. of students on roll | No. of PG faculty | Student-teacher-Ratio |
|---|---|---|---|
| 2018-19 | 38 | 49 | 0.70:1 |
| 2019-20 | 45 | 55 | 0.81:1 |
| 2020-21 | 47 | 57 | 0.82:1 |
| 2021-22 | 43 | 59 | 0.73:1 |
| 2022-23 | 37 | 62 | 0.59:1 |

**Details of Ph.D. programmes offered by the Department:**

| Year | No. of students on roll | No. of PG faculty | Student –teacher Ratio |
|---|---|---|---|
| 2018-19 | 22 | 49 | 0.44:1 |
| 2019-20 | 34 | 55 | 0.61:1 |
| 2020-21 | 35 | 57 | 0.61:1 |
| 2021-22 | 49 | 59 | 0.83:1 |
| 2022-23 | 45 | 62 | 0.73:1 |

**Note:** The detail of courses offered by the Department is given in *Annexure AGRON-III*

**6.4.7 Feedback of stakeholders (Students, parents, industries, employers, farmers etc.):** *Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the degree programme. What action the University has taken in last five years to address the issues raised in the feed back?*

There is a system of annual self appraisal report (SAR) with respect of all teaching faculty. SARs are reviewed by the Deans and Directors for performance appraisal and finally approved by the Vice-Chancellor. The performance of the faculty is also reviewed on the basis their results, feedback from the students. Students of Professional Elective course are placed in different institutions for In-plant training. Teachers visit these institutions during training period of students and conduct meetings with authorities of the institutes. Any suggestions provided by them are incorporated in the curriculum.The stakeholders' feedback on the overall performance and quality of the institutions is obtained through general meetings with parents and interaction with alumni. The teachers get informal feedback from the students based on their parents' observation and suggestions. These suggestions are conveyed to the HODs and controlling officers.

**6.4.8 Student intake and attrition in the programme for last five years:** *Year wise information on sanctioned strength, actual intake and attrition in the last five years of the Degree Programme, in the tabular form, shall be provided.*

| Name of the Degree program | Actual student admitted in last five years | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| M.Sc. | 19 | 26 | 21 | 22 | 23 | 15.7 | - | 4.76 | 13.6 | 21.70 |
| Ph.D. | 09 | 12 | 15 | 20 | 13 | 33.33 | 8.33 | 13.3 | 15 | - |

**6.4.9. ICT Application in Curricula Delivery:** *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical. Mention whether the Degree Programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned.*

The faculty members of Department of agronomy use ICT in teaching and practical. There is one Seminar Room with smart class room facility and internet connection. One seminar room is also equipped with LCD projector. All faculty members have computer printer and internet connection in their offices. There is Wi-Fi facility for faculty, staff and students. This infrastructure provides opportunities for the use of ICT in quality teaching, research and extension. Faculty members use power point presentations, YouTube, emails and CD ROM in teaching all courses at UG, PG and Ph.D. level. For PG and Ph.D. students emails are also used for assignments etc.

**6.4.10** The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and Ph.D Degree Programmes, separately, and to be presented College-wise.

**6.4.11** Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weight age for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

**6.4.12** Certificate (Applicable when SSR is submitted for Programme)

I, the Dean, **Surender K. Pahuja** hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

**Signature of Dean of the College with Date & Seal**

## DETAILS OF COURSES OFFERED BY THE DEPARTMENT

| Course No. | Course title | Credit hrs. | Sem. |
|---|---|---|---|
| **AGRON 501*** | Modern concepts in crop production | 3+0 | I |
| **AGRON 502*** | Principles and practices of soil fertility and nutrient management | 2+1 | II |
| **AGRON 503*** | Principles and practices of weed management | 2+1 | II |
| **AGRON 504*** | Principles and practices of water management | 2+1 | II |
| **AGRON 505 AGM 502** | Fundamentals of agricultural meteorology | 2+1 | I |
| **AGRON 506** | Agronomy of major cereals and pulses | 2+1 | I |
| **AGRON 507** | Agronomy of oil seed, fibre and sugar crops | 2+1 | II |
| **AGRON 508/ PSMA 503** | Agronomy of medicinal, aromatic plants and under utilized crops | 2+1 | II |
| **AGRON 509** | Agronomy of fodder and forage crops | 2+1 | II |
| **AGRON 510** | Agrostology and agroforestry | 2+1 | I |
| **AGRON 511** | Cropping systems and sustainable agriculture | 2+0 | I |
| **AGRON 512** | Dryland farming and watershed management | 2+1 | I |
| **AGRON 513** | Principles and practices of organic farming | 2+1 | II |
| **AGRON 591** | Master's seminar | 1 | I, II |
| **AGRON 599** | Master's research | 20 | I, II |
| **AGRON 601**** | Current trends in agronomy | 3+0 | II |
| **AGRON 602** | Crop ecology | 2+0 | II |
| **AGRON 603/AGM 506** | Crop production and system modeling | 1+2 | II |
| **AGRON 604**** | Advances in crop growth and productivity | 2+1 | II |
| **AGRON 605** | Irrigation management | 2+0 | I |
| **AGRON 606** | Advances in weed management | 2+0 | I |
| **AGRON 607** | Integrated farming systems for sustainable agriculture | 2+0 | II |
| **AGRON 608** | Soil conservation and water shed management | 2+1 | II |
| **AGRON 609** | Stress crop production | 2+1 | I |
| **AGRON 691** | Doctoral seminar I | 1 | I, II |

| | | | |
|---|---|---|---|
| **AGRON 692** | Doctoral seminar II | 1 | I, II |
| **AGRON 699** | Doctoral research | 45 | I, II |
| | **Service courses** | | |
| **ABM 520** | Management of agro-chemical industry | 2+0 | |
| **PSMA 603** | Advances inmedicinal and aromatic cropproduction technology | 2+1 | |

*Compulsory for Master's programme; **Compulsory for Doctoral programme and additional at least

*Annexure AGRON- IV*

## PROGRAMMES ORGANIZED BY THE DEPARTMENT

| S. No. | Year | Title | Date/duration |
|---|---|---|---|
| 1. | 2019 | Herbicide spray techniques in field crops | 18.01.2019 |
| 2. | 2019 | Herbicide spray technique in field crops | 22.01.2019 |
| 3. | 2019 | Weed management in *rabi* and *kharif* crops | 31.01.2019 |
| 4. | 2019 | One day kisan gosthi was organized in village Aharwan (Ratia) on the topic "Samanvit krishi parnaali se fasal vividhi karan avamaay me vridhi" | 28.02.2019 |
| 5. | 2019 | Weed management in fieldcrops | 02.03.2019 |
| 6. | 2019 | Weed management in *rabi* and *kharif* crops | 25.04.2019 |
| 7. | 2019 | Parthenium Awareness campaign | 16.08.2019 to 22.08.2019 |
| 8. | 2019 | One *Kissan* gosthi was organized in village Pilimandori (Bhattu) on role of crop diversification in crop production | 25.09.2019 |
| 9. | 2020 | One *Kissan* gosthi was organized in village Pilimandori (Bhattu) on Climate smart farming system for Haryana | 27.09.2020 |
| 10. | 2020 | Herbicide spray techniques in wheat | 15.01.2020 |
| 11. | 2020 | Herbicide spray techniques in field crops | 16.01.2020 |
| 12. | 2020 | Herbicide spray techniques in field crops | 22.01.2020 |
| 13. | 2020 | Weed management and fertilizer requirement in DSR crop | 06.06.2020 |
| 14. | 2020 | Weed management in DSR crop | 30.06.2020 |
| 15. | 2021 | Herbicide spray techniques | 28.01.2021 |
| 16. | 2021 | Herbicide spray techniques in field crops | 17.04.2021 |
| 17. | 2021 | Parthenium awareness week | 16.08.2021 to 22.08.2021 |
| 18. | 2021 | Weed management in different crops with the use of herbicide and selection of spray nozzles | 16.10.2021 |
| 19. | 2022 | Herbicide spray techniques | 10.01.2022 |
| 20. | 2022 | 10 days training programme to UG and PG students of college of agriculture on "Integrated Farming System for small and marginal Farmers" during | 14.03.2022 to 23.03.2022 through online mode. |
| 21. | 2022 | Distribution of inputs and spray techniques in field crops | 01.04.2022 |
| 22. | 2022 | Herbicide spray techniques | 06.04.2022 |
| 23. | 2022 | Three days farmers' training programme on "Exposure visit on Integrated Farming System of CCS HAU, Hisar" farmers from Samba district, J & K. | 27.06.2022 to 29.06.2022 |
| 24. | 2022 | One day training on Integrated farming system | 22.07.2022 |
| 25. | 2022 | Parthenium awareness week | 16.08.2022 to 22.08.2022 |
| 26. | 2022 | One day training on Integrated farming system | 25.08.2022 |
| 27. | 2022 | One day training on Integrated farming system | 26.08.2022 |
| 28. | 2022 | One day training on Integrated farming system | 07.12.2022 |
| 29. | 2022 | One day training on Integrated farming system | 08.12.2022 |
| 30. | 2023 | JRF Training Programme for the Students, College of Agriculture Appearing in JRF Exam-2023 | 01.02.2023 to 01.03.2023 |
| 31. | 2023 | World water day | 22.03.2023 |

## A) Parthenium Awareness campaign

With the objectives to create awareness about hazards of *Parthenium* weed among students and general public, Department of Agronomy, CCS HAU Hisar in collaboration with various KVK's of the state and Department of Agriculture, Government of Haryana celebrated 'Parthenium Awareness Week' from August 16-22, 2019 with good success and grandeur. This year *Parthenium* week celebration covered both rural and urban areas. Inauguration of this national level event was organized under the aegis of All India Coordinated Research Programme on Weed Control on 16th August, 2017 at village Dhand, Fatehabad, Haryana. Dr.S.S.Punia, Sr. Agronomist cum PI of the project delivered lecture to the farmers on ill effects of *Parthenium* to the human being, animals and environment and its integrated management. Dr Sushil Kumar Singh delivered lecture on its control using herbicides and method of compost making for better utilization. Dr.Todar Mal, Assistant Scientist (Weed Control) emphasized on use of *Zygogramma bicolarata* beetles for its control. Dr Samunder Singh, Head of the Department flagged off a rally highlighting ill effects of *Parthenium.*

During August 16-22, 2019 a series of events like lectures to students and farmers, extension officers of state department of Agriculture, documentary film on *Parthenium hysterophorus* management, exhibition on ill effects of *Parthenium* weed, distribution of literature and awareness rally on *Parthenium* management were organized in different parts of state by various KGK's located at district headquarters under the leadership of Dr.S.S. Punia, Principal Investigator of the project.

*Parthenium* Awareness Campaign organised during 16th to 22nd August, 2019.

One day kisan gosthi was organized in village Aharwan (Ratia) on the topic "Samanvit krishi parnaali se fasal vividhikaran avam aay me vridhi" during 28th February, 2019.

One day training on Integrated farming system organised on 22nd July, 2022.

.

One day training on Integrated farming system organised on 26th August 2022.

## Parthenium Awareness campaign

With the objectives to create awareness about hazards of *Parthenium* weed among students and general public, Department of Agronomy, CCS HAU Hisar in collaboration with various KVK's of the state and Department of Agriculture, Government of Haryana celebrated '*Parthenium* Awareness Week' from August 16-22, 2021 with good success and grandeur. The *Parthenium week* celebration covered both rural and urban areas. Inauguration of this national level event was organized under the aegis of All India Coordinated Research Programme on Weed Control, DWR, Jabalpur on 16th August, 2021 at Agronomy Research Farm by Director of Research, CCS HAU, Hisar. Dr TodarmalPoonia delivered lecture on introduction, identification and biology of the *Parthenium*. Dr.S.S.Punia, Consultant faculty delivered lecture on ill effects of *Parthenium* to the human being, animals and environment and its integrated management using mechanical methods, herbicides.He also highlighted biological management of *Parthenium* through use of *Zygogramma bicolarata* beetles for its control. Dr S. K. Thakral, Head of the Department,emphasized on the role of combined efforts for its eradication. During August 16-22, 2021 a series of events like lectures to farmers, extension officers of state department of Agriculture, documentary film on *Parthenium hysterophorus* management, exhibition on ill effects of *Parthenium* weed, distribution of literature and awareness rally on *Parthenium* management were organized in different parts of state by various KVK's located at district headquarters under the leadership of Dr.TodarmalPoonia, Principal Investigator of the project.

एचएयू के वैज्ञानिक किसानों को गाजर घास के नुकसान के प्रति कर रहे जागरूक

समस्त हरियाणा न्यूज

हिसार। गाजर घास न केवल फसलों के लिए बल्कि पर्यावरण के साथ-साथ इंसानों के स्वास्थ्य पर भी विपरीत असर डालती है। इसी को ध्यान में रखते हुए चौधरी चरण सिंह हरियाणा कृषि विश्वविद्यालय हिसार के वैज्ञानिक लगातार प्रदेश भर में गाजर घास के प्रति किसानों को जागरूक कर रहे हैं। इसी कड़ी में विश्वविद्यालय के अनुसंधान क्षेत्र में गाजर घास जागरूकता सप्ताह व उन्मूलन अभियान चलाया गया। इस दौरान अनुसंधान निदेशक डॉ. एस.के. सहरावत ने कहा कि गाजर घास में फसल की पैदावार में चालीस प्रतिशत तक कमी हो सकती है। इसलिए समय रहते सचेतना प्रबंधन से इस खरपतवार पर नियंत्रण किया जा सकता है। कार्यक्रम का आयोजन सस्य विज्ञान विभाग द्वारा जबलपुर के खरपतवार अनुसंधान निदेशालय के सहयोग से किया जा रहा है। उन्होंने बताया कि इस पौधे का प्रभाव हमारे देश में अंग्रेजों से आयात होने वाले गेहूं के साथ सात 1955 में हुआ था। अब यह पौधा संपूर्ण देश के हर हिस्से में मौजूद है और लगभग 35 मिलियन हेक्टेयर क्षेत्रफल में फैल चुका है। जब यह एक स्थान पर जम जाती है, तो अपने आस-पास किसी अन्य पौधे को जमने नहीं देती है जिसके कारण अनेकों मवेलपूर्ण जड़ी-बूटियों और पेड़ागासों के नष्ट हो जाएँ की सम्भावना पैदा हो गई है। यह न केवल स्वास्थ्य व्यक्ति पर्यावरण के लिए भी हानिकारक घास है। इस घास के कारण मनुष्यों के अलावा पशुओं में भी बीमारी के लक्षण आने लगे हैं। गाजर घास के एक पौधे से लगभग 10000 से 20000 बीज पैदा होते हैं, जोकि जमीन में पुनः पनपने अंकुरित हो जाते हैं। उन्होंने आह्वान किया कि इस घास के नियंत्रण के लिए, इस सभी को सामूहिक प्रयास करने होंगे तभी हम इसे नियंत्रित कर सकते हैं और प्राकृतिक वनस्पतियों को खत्म होने से बचा सकते हैं।

**खरपतवार नियंत्रण के लिए बताए तरीके**

वैज्ञानिक डॉ. सतबीर सिंह सहरावत ने बताया कि इस घास के नियंत्रण हेतु कुछ सावधानियों के प्रयोग जैसे एट्राजिन (सेंप्रिमुरोन (0.5 प्रतिशत) व ग्लाइफोसेट (1-1.5 प्रतिशत) का प्रयोग करके इस खरपतवार को नष्ट किया जा सकता

*Parthenium* Awareness Campaign organised during 16th to 22nd August, 2021

Three days farmers' training programme on "Exposure visit on Integrated Farming System of CCS HAU, Hisar" attended by farmers from Samba district, J & K during 27th to 29th June, 2022.

## Parthenium Awareness campaign

With the objectives to create awareness about hazards of alien weed *Parthenium hysterophorus* popularly known as Congress grass, Gajarghas, Chatakchandni, **AICRP-WM, Hisar Centre**organized "**Parthenium Awareness Week**" under the aegis of **All India Coordinated Research Programme on Weed Control**, **DWR, Jabalpur** on **16-22 August, 2022**. To spread awareness regarding this weed, both rural and urban areas were covered under this programme with the Inauguration of the week by the Dean, College of Agriculture, CCS HAU, Hisar under the Chairmanship of Head, Department of Agronomy. During the occasion PG students and teaching and non-teaching staff was present and lecture was delivered and documentary film was also showed. During the week a series of events like lectures among farmers, extension officers of state department of Agriculture, students of schools and sportspersons were organized under the Chairmanship of Dr.Todar Mal, PI, AICRP-WM, Hisar Centre at different location across the Haryana State.

## Exposure Visits to IFS Model:

Visit of students and trainees to IFS Model during 2021-22

World Water Day celebration at the Department of Agronomy on 22nd March, 2023.

Training Programme for the students of College of Agriculture appearing in JRF Exam-2023 was organized from 01.02.23 to 01.03.23. This training was helpful for the students in enhancing their competency for attempting the questions related to Agriculture and allied subjects. Various topics *viz*., Package and practices of field crops, weed management, water management, principles and practices of Agronomy, organic farming etc. were well discussed. Total 28 students have completed the training successfully.

Training Programme for the students of College of Agriculture appearing in JRF Exam, 1st February to 1st March, 2023

***Annexure AGRON-IV***

## STUDENT READY PROGRAMME

### READY (RURAL ENTREPRENEURSHIP AWARENESS DEVELOPMENT YOJANA)

Agricultural education is the study of agriculture, food, and natural resources and undergoing changes in a very rapid manner to meet the need of the society in general and farmers in particular. Agricultural education is becoming more critical than ever to ensure that there will be enough food to go around. The students of agriculture are learning well on basic and applied issues of science and technology, however, possess less self-confidence in starting own commercial farming or taking other assignments in the field. The students graduating from agricultural colleges required practical field knowledge and skills for performing the agricultural profession effectively and efficiently at On Farm Level. Hence, a production oriented practical training in the form of internship was started in April 1979. HAU is the lead university in implementing internship programme in the country for its undergraduate students. To translate this concept Rural Agriculture Work Experience (RAWE)

programme is offered for the B.Sc. (Hons.) Ag. Degree. Under the changing dynamics of economical and industrial growth in the new millennium and opening of world market, agriculture will undergo sea changes with new approaches and therefore, RAWE programme in agriculture has strong potential for imparting better field training of the agricultural technocrats with high level of skill in combination with the modern out-look and management capacity to graduating agricultural students. The programme was restructured after the recommendation of V$^{th}$ Dean committee in 2017 as READY programme and first batch was passed during 2020-21. It was implemented to develop much needed skills and entrepreneurial mind-set among the graduates to take up self-employment, contribute to enhanced rural livelihood and food security, sustainability of agriculture and be propeller for agricultural transformation.

**Outcome of the programme**: The proforma supplied to the students under the programme helps in learning as under:

- The students get learned about various cropping pattern practiced in the state and major constraints faced by the farmers related to crop production.
- The students are acquainted with the budgeting techniques to work out cost of cultivation, gross returns and ultimately economic viability of the farm enterprises.
- The students are awared to collect information from various departments/stakeholders for village profile.
- The students become competitive to formulate farm plans for individual farmers for enhancing g farm income.
- The students also acquainted with the function of various organizations at village level

During RAWE programme students participated in training/ awareness dayfor farmers organized throughconcerned KVK as under

**Training**

- Organic Farming
- Management of insect pests in organic farming
- Vermicomposting
- Importance of seed treatment
- Management of kitchen waste
- Mushroom Cultivation

**Awareness**

- About toll-free number of university and e-Mausam HAU app
- Environment day

Training on vermicomposting at ATIC and COA Bawal

Traing to the interns by Dr. Narender at RRS Karnal

Weed management in Rabi crops at RRS Karnal

Training on vermicompost preparation at village LUDAS through ATIC Hisar

Traing on various aspect of agriculture at village Tokas

# Programme - 4

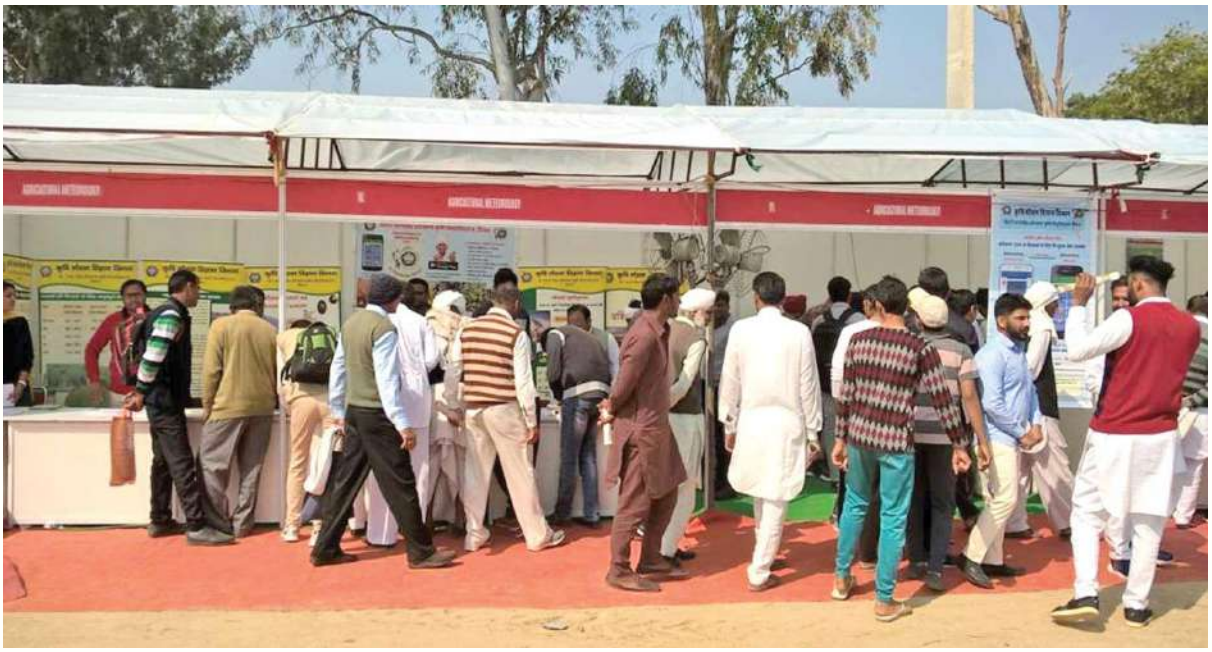
## M.Sc. Agricultural Meteorology

## and

## Ph.D. Agricultural Meteorology

## 6.4. About the Department

CCS Haryana Agricultural University, Hisar is one of the leading Indian Agricultural University to establish the Department of Agricultural Meteorology under College of Agriculture on February 16, 1982 as per the recommendations of the National Commission on Agriculture. Since then, an excellent infrastructure has been created for teaching/research/extension in Agrometeorology *viz*., climatology, crop weather interactions, field microclimatic modifications, weather-crop-disease and insect-pest interactions, crop growth simulation modeling, Remote Sensing & GIS applications and climate change impact assessment on crop production.The department involves in the dissemination of weather advisories through Mobile SMS, electronic, print and social media for the welfare of farmers in Haryana. In this line, department has developed Emausamhau web portal "www.emausamhau.gov.in" for dissemination of weather-based crop information/advisories to the farming community of Haryana State. At present More than 5 lakh farmers and 4100 extension officials are registered under weather SMS service. An 'Emausamhau Mobile App' has been designed for the same purpose and better access to information.



### Objectives of the Department

- To impart teaching in the field of Agricultural Meteorology to under graduate and post graduate students.
- To conduct research for understanding the interaction of physical processes occurring in ambient environment of field crops/horticulture/animals etc. and quantify their influence for increasing agricultural productivity by modifying microclimatic conditions.
- To maintain manual and automatic agricultural meteorological observatories and create meteorological database for the state of Haryana for use of students, scientists and other users.
- Agro-advisories services to the farmers of state and other stakeholders through Information and Communication technologies.
- To conduct training courses/awareness program/seminars for farmers and agricultural officers of the state and to organize conferences on various aspects of Agricultural Meteorology at National and International levels.

### 6.4.1. Brief History of the Degree Programme

The M.Sc. and Ph.D. Programme were started in the year 1984 and 1996, respectively in the department. Till date, 77 M.Sc. and 27 Ph.D. Students have completed their degrees. PG Diploma programme in Remote Sensing and GIS applications in Agriculture and Environment was started in 2013. Till date, 43 students have completed their diploma. Students enrolled in M.Sc. and Ph.D. programmes have been given research problems related to crop weather interactions, field microclimatic modifications, weather-crop-disease and insect-pest interactions, crop growth simulation modeling and climate change. The department actively takes participation in farmer awareness programs like Krishi Mela organized by CCSHAU, state govt. Besides, framer's awareness programs are also conducted by department itself for understanding the weather phenomena and adapting farming practices accordingly. For enhancing the research facilities, the department has also established an geoinformatics lab for application of remote sensing and GIS in research. Department is also engaged in providing practical exposure to visitors, PG students and the school students by showing working of agromet observatory. Other disciplines students i.e. LUVAS, COAET, different trainees of HAMETI Jind, DHRM trainees, Senior Secondary students, diploma students, and B.Sc.

(Hons.) 4 yr. Agri students are also given the exposure to agromet observatory on weather services, monitoring with agromet instruments & their uses.

The department organized three stalls at 'Krishi Mela (Kharif)' held on 12-13 March, 2019 at CCS HAU Hisar. During the mela, about 6000 farmers were registered for 'Weather Forecast SMS' and agro advisories and these stalls are conducted at every Krishi mela at CCS HAU in March and September.

Stall for farmers' awareness & registration at Rajya PashudhanPradarshani, Bhiwani, Govt. of Haryana

Department conducted Farmers awareness programme on climate change on 28th March, 2023 at KVK, Fatehabad

Geoinformatics lab in the department

Practical learning of Climatology of livestock to B.V.Sc. 2nd year LUVAS students at Agrimet observatory, Research farm CCSHAU

Practical Class on Role of weather to B.Tech. Agril. Engineering students (COAET, Hisar) at Agrimet observatory, Research farm CCSHAU

Hands on Weather measurements to trainees of HAMETI, Jind at Agrimet observatory, Research farm CCSHAU

Exposure visit of DHRM trainees at Agrimet observatory, Research farm CCSHAU

Practical class on Agrometeorological instrument and its measurement, to PG students, on 7, Nov. 2022 at Agrimet observatory, Research farm CCSHAU

Dealer diploma students (MANAGE sponsored) highlighting weather parameters in weather forecast and its influence in agriculture (5 July 2021) at Agrimet observatory, Research farm CCSHAU

Visit of agromet observatory and how to take weather observation under water logged condition (COA, UG students, 8th August 2022) at Agrimet observatory, Research farm CCSHAU

## Objectives of initiating M.Sc. programme

- To acquaint postgraduate students with physical processes occurring in the ambient environment of agricultural husbandry.
- To conduct research in different disciplines of Agricultural Meteorology including Micrometeorology,crop-weather simulation, modelling, Remote Sensing & GIS, Crop-weather relationship, Weather insect-pest-disease relationship, modelling, evapotranspiration studies, weather forecasting, Agrometeorological instrumentation, climate change and in any new area depending on the requirement of the state.
- To prepare weather based agro-advisory bulletins and real time dissemination to the farmers of the state of Haryana

## Accomplishments of M.Sc. programme

- Till date, the Department of Agricultural Meteorology has conferred degree to 77 M.Sc. Students. During the period under report, 22 students have completed their Master's degree. At present, 12 M.Sc. students are on rolls.
- Three students passed National Eligibility Test (NET) conducted by the Agricultural Scientists Recruitment Board (ASRB) during the period under report ***(Annexure AGM-I).***
- During the period under report, six students have joined service as Scientists/PO in Public Sector Bank ***(Annexure AGM-I).***
- One student Karan (2016A79M), stood 1st in Poster Presentation in National Seminar AGMET-2017. One student Ravi Gujjar (2015A110M) visited Australia in a training programme**..**

## Objectives of initiating Ph.D. programme

- To acquaint postgraduate students with physical processes occurring in the ambient environment of agricultural husbandry.

- To conduct research in different disciplines of Agricultural Meteorology including Micrometeorology, crop-weather simulation, modelling, Remote Sensing & GIS, Crop-weather relationship, Weather insect-pest-disease relationship,evapotranspiration studies, weather forecasting, Agrometeorological instrumentation, climate change and in any new area depending on requirement of the state.

- To prepare weather based agro-advisory bulletins and real time dissemination to the farmers of the state of Haryana

## Accomplishments of Ph. D. programme

- Till date the Department of Agricultural Meteorology has conferred degree to 27 Ph.D.Students. During the period under report, 11 students have completed their Doctoral degree. At present, 10 Ph.D. students are on roll.

- Sixteen (16) students passed National Eligibility Test (NET) conducted by the Agricultural Scientists Recruitment Board (ASRB)/ UGC during the period under report ***(Annexure AGM-I).***

- During the period under report, one student have joined service as Assistant Professor, Scientist/Tech. Officer at CCSHAU and IMD New Delhi, respectively. Nine students joined SMS at KVKs in HAU and other like IARI etc., and one student Navreet Bssi (2018A06D) visited Switzerland in SPARC Project ***(Annexure AGM-I).***

**Note:** List of students publications given in ***Annexure AGM-II.***

## Objectives of initiating Diploma programme

- To acquaint students with latest Geo spatial technologies and their applications in agricultural and environmental studies. conduct research in the field of agricultural meteorology and allied sciences using Geoinformatics.

## Accomplishments of Diploma programme

- Till date the Department of Agricultural Meteorology has produced 43 Diploma Students since start of this course in 2013. At present 8 students are on roll.

| Degree Programme offered by the Department | Year of start | No. of seats | | | | | | | No. of students passed out | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Y1 | Y2 | Y3 | Y4 | Y5 | Y6 | Total | Y1 | Y2 | Y3 | Y4 | Y5 | Y6 | Total |
| **M.Sc.** | 1984-85 | 2 | 2 | 3 | 3 | 3 | 3 | 16 | 1 | 4 | 7 | 2 | 6 | 2 | 22 |
| **Ph.D.** | 1995-96 | 2 | 2 | 2 | 2 | 2 | 2 | 12 | - | 1 | 4 | 2 | 1 | 2 | 10 |
| **Diploma** | 2013-14 | 10 | 10 | 10 | 10 | 10 | 10 | 60 | 5 | 4 | 6 | 3 | 7 | 8 | 33 |

**6.4.2. Faculty Strength:** *The faculty strength of the Degree Programme need to be given cadre-wise, both sanctioned and in-place(under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed fromthe other departments (in such case mention the name of these departments). If the DegreeProgramme is also taking the help of Research staff, extension staff, contractual faculty, guest faculty, adjunct faculty or any other arrangement being made to complete the curriculum, it should be clearly mentioned in the report.*

| S. No. | Sanctioned faculty | In place* | Vacant | Faculty recommended by the ICAR/UGC |
|---|---|---|---|---|
| **1.** | Professor and equivalent (1) | 1 | - | - |
| **2.** | Associate Professor and equivalent (1) | 1 | - | 1 |
| **3.** | Assistant Professor and equivalent (7) | 5 | 2 | - |
| **4.** | Contractual faculty (specify) SRF (1) | 1 | - | - |

Note**:** All the faculty assigned the responsibilities for the multiple programme.

*No.of Prof. also include personal promotes

**6.4.3. Technical and Supporting Staff:** *The position of the technical and supporting staff of the Degree Programme including arm and field workers need to be mentioned for both sanctioned and in-place.*

| S.No. | Designation | Sanctioned | Inplace* | Vacant | Technical and supporting staff recommended by the ICAR/UGC |
|---|---|---|---|---|---|
| 1 | **Assistant** | 1 | 1 | - | 01 |
| | Clerk/Typist | 1 | - | 1 | = |
| | Messenger | 1 | - | 1 | - |
| | Peon/Sweeper | 1 | 1 | - | - |
| 2. | **Lab staff** | - | - | - | 03 |
| | LabAssistant | 1 | 1 | - | - |
| 3. | **Field staff** | | | | |
| | Beldar | 1 | 1 | - | - |
| | Farm and field worker (specify) Agril.Inspector | 1 | 1 | - | 01 |
| 4. | Technician (Meteorological Observer) | 2 | 1 | 1 | 02 |

**Note:**All the technical and supporting staff assigned the responsibilities for the multiple programmes.

**6.4.4. Classroom and laboratories:** *Available for the degree programme and justify if it is sufficient to meet the course curricular equirement. Lists major equipments, laboratories, farm facilities, workshops and other instruction alun its being utilized for the award of the Degree Programme may be given.Mention theory and practical batches for the Degree Programme.*

## List of classroom and functional laboratories

| | |
|---|---|
| No. of lecture rooms with seatting capacity | One with seating capacity of 70, Lec. Room No.14 |
| No. of lecture rooms with LCD | One |
| No. of labs with specialized purpose | One (GIS, Remote Sensing) Lab No. 109 |
| Farm facilities | Yes (2.25 ha) |
| Any other instruction all units being utilized for the award of the Degree Programme | Seminar Room No. 108 |

## List of major equipments at present in the Department

| S.No. | Name of Equipment | Location/Lab No. |
|---|---|---|
| 1. | Epson workforce format scanner | Lab 109 |
| 2. | Four HP 2640 Work Station | Lab 109 |
| 3. | One ENVI 5.4 mini lab Software | Lab 109 |
| 4. | Line Quantum Sensor | Field Lab |
| 5. | Infrared Thermometer | Field Lab |
| 6. | Interactive Panel | Seminar room |
| 7. | Spectral radiometer | Field Lab |
| 8. | Assmann Psychrometer | -do- |
| 9. | Plant Canopy Analyzer | Field Lab |

## Mention theory and practical batches for PG Programmes

| Year | Theory | | Practical | |
|---|---|---|---|---|
| | M.Sc. | Ph.D. | M.Sc. | Ph.D. |
| 2018-19 | 15 | 8 | 8 | 9 |
| 2019-20 | 15 | 8 | 8 | 9 |
| 2020-21 | 15 | 8 | 8 | 9 |
| 2021-22 | 15 | 8 | 8 | 9 |
| 2022-23 | 15 | 8 | 8 | 9 |

**6.4.5. Conduct of Practical and Hands-on-Training:** *It is important to have a sound grasp of the theory that underlies any professional degree. But there are some skills that can only be learned through hands-on -practice. It is important that much of the learning material in any given course should be provided in a way that allows students to get as involved as possibleto increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hands-on-training as per the curriculum and meeting above mentioned requirements.*

## Practical and Hands-on-Training for M.Sc. and Ph.D.

| Degree programme | Total Courses | Practical courses | Hands-on Training courses | How far students are getting desired practical and hands-on-training as per the curriculum |
|---|---|---|---|---|
| **M.Sc.** | 11 | 09 | AGM 501 | • Students are exposed to the basics of meteorological data handling and making calculations within them<br>• By doing analysis of long-period data, students can draw climatic results and trends |
| | | | AGM-502 | • The course help students in learning crop |

| | | | | |
|---|---|---|---|---|
| | | | | responses with weather variations.<br>• Students can learn crop performance in different weather conditions and optimum weather requirement for crop development |
| | | | AGM-503 | • Students learn the microclimatic conditions within a plant's surroundings<br>• With instruments, students record various weather events like temperature, humidity below, within and above the canopy etc. |
| | | | AGM-504 | • Students learn to operate different instruments to observe weather phenomena<br>• Students take reading within field and use in their study |
| | | | AGM-505 | • Practical to learn soil water balances, irrigation requirements<br>• Use of instruments to check the moisture in the soil |
| | | | AGM-506 | • Students learn to analyse the interactions of weather with crop<br>• By mathematical model, various data on crop growth and daily weather conditions, they learn to predict the growth and yield |
| | | | AGM-507 | • By observing the weather variables, students learn the practices to control the adverse impact of unfavourable weather on crops |
| | | | AGM-508 | • Students learn to access satellite images, importing data to form a geo-referenced image, its interpretation, classifications etc.<br>• Student work with Geographical Information System (GIS) in the lab to analyse spatial data along with GPS |
| | | | AGM-509 | • Students learn the long term climate studies and crop weather relationships. |
| **Degree programme** | Total Courses | Practical courses | Hands-on Training courses | How far students are getting desired practical and hands-on-training as per the curriculum |
| **Ph.D..** | 13 | 08 | AGM 601 | • Students are exposed to handle long-period weather data<br>• By doing analysis of long-period data, students can derive climatic changes and trends therein |
| | | | AGM-602 | • With the help of weather analysis using daily data along with historical data, forecasts are prepared.<br>• Students learn to prepare a note/plan to recommend the agronomic practices for fames in view of coming weather i.e. advisory |
| | | | AGM-603 | • Students learn the ways for measurement and recording of pollutants, visibility in the atmosphere<br>• With the help of models, students derive the impact of pollution on crop growth and development. |
| | | | AGM-604 | • Students learn the measurement of |

| | | | | |
|---|---|---|---|---|
| | | | | temperature, humidity and net radiations<br>• They apprised of calculation of animal comfort zone index using weather variables |
| | | | AGM-605 | • Practical to learn Climatic indices, climogram and Agrometeorological indices<br>• Working with statistical models, crop yield forecasting, crop weather relationship and insect & disease forecasting models |
| | | | AGM-606 | • Students work on present land use and cropping patterns and possible alternatives from environmental point of view<br>• Recent trends in land use and cropping patterns are also carried out |
| | | | AGM-607 | • Students work on data for exploratory data analysis, Box-Cox plots, Fitting of distributions etc. |
| | | | AGM-608 | • Students get acquainted with types of instruments and data recording, AWS data retrieval, storage and transfer<br>• Exposure to different software is given for Agromet data analysis |

**Note :** The details of courses offer by the department is given (*Annexure*-AGM-II)

**6.4.6. Supervision of students in PG/Ph.D. programmes:** *Number of students being supervised by Faculty in case of Masters/Ph.D. Programme (as per ICAR/UGC guidelines). Mention the realistic figure number of qualified faculty in relation to the intake of students, as per the guidelines in the matter.*

**Details of M. Sc. programme offered by the department**

| Year | No. of students on roll | No. of PG faculty | Student-teacher-Ratio |
|---|---|---|---|
| 2018-19 | 13 | 7 | 1.9:1 |
| 2019-20 | 14 | 7 | 2.0:1 |
| 2020-21 | 13 | 8 | 1.6:1 |
| 2021-22 | 12 | 8 | 1.5:1 |
| 2022-23 | 12 | 7 | 1.7:1 |

**Details of Ph.D. programme offered by the Department**

| Year | Number of students on roll | Number of PG faculty | Teacher-studentratio |
|---|---|---|---|
| 2018-19 | 10 | 7 | 1.4:1 |
| 2019-20 | 8 | 7 | 1.1:1 |
| 2020-21 | 11 | 8 | 1.4:1 |
| 2021-22 | 9 | 8 | 1.1:1 |
| 2022-23 | 10 | 7 | 1.4:1 |

**Note:** Details of courses offered by the Departments is given in ***Annexure AGM-III***

**6.4.7. Feedback of stakeholders (Students, parents, industries, employers, farmers etc.):** *Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the degree programme. What action the University has taken in last five years to address the issues raised in the feedback?*

Feedback form is available with the department and it got filled from passing out students to get their views. Overall the feedback for the department is satisfactory. Further these feedbacks are discussed among faculty and relevant steps are taken without delay to improve the teaching learning environment. The students are also advised time to time to contact their teachers or HOD for redressal of any problem they are facing.

**6.4.8. Student intake and attrition in the programme for last five years:** *Year wise informationon sanctioned strength, actual intake and attrition in the last five years of the Degree Programme, in the tabular form, shall be provided.*

| Name of the Degree Programme | Actual student admitted in last five years | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| M.Sc. | 4 | 5 | 5 | 5 | 5 | - | 20 | 20 | - | - |
| Ph.D. | 4 | 5 | 1 | 2 | 4 | - | - | 100 | - | - |

**6.4.9. ICT Application in Curricula Delivery:** *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical.Mention whether the Degree Programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned.*

**Use of ICT application non teaching and practical for curricula delivery**

| Courses | Total courses | Theory | Practical | Type of ICT Application |
|---|---|---|---|---|
| **M.Sc.** | 9 | AGM501, AGM502, AGM503, AGM504, AGM505, AGM507, AGM508, AGM509, PGS505 | AGM502, AGM505, AGM509 | Smart class and PPT |
| **Ph.D.** | 6 | AGM601, AGM602, AGM603, AGM604, AGM606, PGS 505 | AGM602, AGM604, AGM505, AGM509 | Smart class and PPT |

The ICT is being used extensively in the teaching of most of the courses. The department is equipped with display/interactive panel with PC in classrooms as well as seminar room, and also have conference system for online teaching (if required). All faculty members prepare presentations slides and use them for classroom teaching.

**6.4.10** The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

**6.4.11** Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

**6.4.12** Certificate (Applicable when SSR is submitted for Programme)

I, the Dean, Surender K. Pahuja here by certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

**Signature of Dean of the College with Date & Seal**

*Annexure AGM-I*

**No. of students who cleared NET & JRF:**

| 2018-19 | 2019-20 | 2020-21 | 2021-22 |
|---|---|---|---|

## List of PG Courses offered by the Department

| Sr. No. | Course No. | Course Title | Credit Hours |
|---|---|---|---|
| **Semester-I** | | | |
| 1 | AGM 501* | Fundamentals of Meteorology and Climatology | 2+1 |
| 2 | AGM-502*/[1] AGRON 505 | Fundamentals of Agricultural Meteorology | 2+1 |
| 3 | AGM-504* | Agro-Meteorological Instrumentation and Measurements | 1+2 |
| 4 | AGM-507/[1]FSC 513 | Weather Modification and Risk Management Strategies | 2+0 |
| 5 | AGM-509 | Applied Agricultural Climatology | 1+2 |
| 6 | AGM-591 | Master's Seminar | 1 |
| 7 | AGM-599 | Master's Research | 20 |
| 8 | AGM-601** | Climate Change and Sustainable Development | 2+1 |
| 9 | AGM-603 | Air Pollution Meteorology | 2+1 |
| 10 | AGM-605 | Analytical Tools and Methods for Agrometeorology | 2+1 |
| 11 | AGM-607/[3] STAT 511 | Statistical Methods for Applied Sciences | 3+1 |
| 12 | AGM-691 | Doctoral Seminar I | 1 |
| 13 | AGM-692 | Doctoral Seminar II | 1 |
| 14 | AGM-699 | Doctoral Research | 45 |

| | | | |
|---|---|---|---|
| **Semester-II** | | | |
| 1 | AGM-503* | Micrometeorology | 2+1 |
| 2 | AGM-505 | Soil Water Balance Climatology | 2+1 |
| 3 | AGM-506/[2]AGRON 603 | Crop Production and System Modeling | 1+2 |
| 4 | AGM-508 | Principles of Remote Sensing and its Applications In Agriculture | 2+1 |
| 5 | AGM-591 | Master's Seminar | 1 |
| 6 | AGM-599 | Master's Research | 20 |
| 7 | AGM-602** | Weather forecasting | 2+1 |
| 8 | AGM-604** | Weather, Climate and Livestock | 2+1 |
| 9 | AGM-606 | Strategic Use of Climatic Information | 2+1 |
| 10 | AGM-607 | Statistical Methods for Applied Sciences | 3+1 |
| 11 | AGM-608 | Database Management and Commercialization of Agrometeorological Data in E-Services | 1+2 |
| 12 | AGM-691 | Doctoral Seminar I | 1 |
| 13 | AGM-692 | Doctoral Seminar II | 1 |
| 14 | AGM-699 | Doctoral Research | 45 |

* Compulsory for Master's program in Agricultural Meteorology
** Compulsory for Ph.D. program in Agricultural Meteorology
To be taught by: [1]Agril Meteorology; [2] Agril Meteorology and Agronomy; [3] Statistics

*Annexure AGM-III*

# PUBLICATION DETAILS

| Sr. No. | Detail of Research Paper | NAAS Rating |
|---|---|---|
| **1.** | Anurag, Kumar, A., Singh, D., Singh R., Kumar, M. and Singh, S. (2018). Local impact of climate change: A case study of western Haryana, India. *Journal of Agrometeorology*, 20(SI): 135-142. | 6.56 |
| **2.** | Choudhary, D., Singh, R., Singh, S., Dagar, C.S. and Kumar, A. (2018). Influence of prevailing weather conditions on Indian mustard under Hisar Conditions. *Journal of Agrometeorology*, 20(SI): 49-54. | 6.56 |
| **3.** | Dalal, R.P.S., Kumar, A., and Singh, R. (2018). Study of weather variable influence on different phenophases of Kinnow mandarin (*Citrus nobilis Lour*Citrus deliciosa*Tenore). *Journal of Agrometeorology*, 20(SI): 235-239. | 6.56 |
| **4.** | Khichar, M.L. and Niwas, R. (2018). Verification and Usability of Medium Range Weather Forecasting for Western Agroclimatic Zone of Haryana. *Journal of Agrometeorology*, 20 (SI): 16-21. | 6.56 |
| **5.** | Kumar, A., Shekhar, C., Singh, R., Singh, S., Anurag, Kumar, P. Vijay and Kumar, Y. (2018). Weather based growth indices of rapeseeds-mustard (*Brassica* spp.) at Hisar: A Review. *Contemporary Research in India*, 8(1):114-119. | 4.34 |
| **6.** | Kumar, A., Singh, R., Singh, S., Beniwal, J., Anurag, Shekhar, C. and Singh, D. (2018). Evaluation of weather conditions conducive to leaf curl virus disease development in cotton under semi-arid conditions. *Journal of Agrometeorology*, 20(SI): 61-68. | 6.56 |
| **7.** | Kumar, P., Singh, S., Singh, R. and Dagar, C.S. (2018). Evaluation of heat unit, radiation use efficiency, thermal use efficiency and yield of mustard in different growing environments. *Journal of Agrometeorology*, 20 (SI): 240-244. | 6.56 |
| **8.** | Kumar, S., Anurag, Niwas, R., Kumar, A., Singh, R., Singh, S. and Kumari, P. (2018). Agrimet decision support system for Rice crop distribution in different climatic suitable zones in Haryana using Remote Sensing & GIS techniques. *Journal of Agrometeorology*, 20(SI): 252-256. | 6.56 |
| **9.** | Kumar, S., Niwas, R., Khichar, M.L. Premdeep, Singh, A. and Kumar, Y. (2018). Optical characteristics, growth and yield quality of cotton under different growing environments. *Mausam*, 69(3): 465-472. | 6.28 |
| **10.** | Kumar, Y., Singh, R., Kumar, A., Chhabra, K., Nayak, M.K. and Singh, S. (2018). Evaluation of InfoCrop model for simulating the performance of Indian-mustard varieties under different growing environment in western Haryana. *Journal of Agrometeorology*, 20(SI): 188-192. | 6.56 |
| **11.** | Kumar, Y., Singh, R., Kumar, A., Singh, V. and Galav, A. (2018). Climate Smart Agriculture: Approach and Perspectives for the Rice-Wheat Crop Rotation System in IGP (Indo-Gangetic Plains). *Current Journal of Applied Science and Technology*, 28(4): 1-6. | ---- |
| **12.** | Mamta, Singh, D., Kumar, A., Singh, R., Dhaka, A.K., Singh, S. and Poonam (2018). Assessment of monthly trend-slop of temperature and rainfall extremes in Haryana, India. *Journal of Agrometeorology*, 20(SI): 149-154. | 6.56 |
| **13.** | Mohammad, A., Singh, S. and Dagar, C.S. (2018). Heat Use Efficiency of Indian mustard (*Brassica juncea*) at Different Phenophases in Western Haryana, India. *International Journal of Current Microbiology and Applied Sciences*, 7(6): 1977-81. | 5.38 |
| **14.** | Nayak, M. K., Singh, R., Kumar, A. and Singh, M. (2018). Correlation and regression study on wheat (*Triticum aestivum*) under different growing environments. *International Journal of Chemical Studies*, 6(1): 745-750. | 5.31 |
| **15.** | Nayak, M.K., Singh, R., Kumar, A. and Ahatsham, M. (2018). Influence the agrometeorological indices of wheat under different growing environment and irrigation regimes. *Journal of Agrometeorology*, 20(1SI): 199-206. | 6.56 |
| **16.** | Sharma, A., Khichar, M. L., Niwas, R., Premdeep and Pandey, N. (2018). Evaluation of growth and yield parameters of cotton hybrids as influenced by different growing environments. *Ecology, Environment and Conservation*, 24(SI)): 159-163. | 4. 98 |

| | | |
|---|---|---|
| **17.** | Shekhar, C., Singh, R., Ram, L., Kumar, A., Kumar, P. and Singh, D. (2018). Influence of weather parameters on insect pests of rice in Haryana. *Journal of Agrometeorology*, 20(SI): 307-310. | 6.56 |
| **18.** | Singh, M., Niwas, R., Khichar, M. L. and Godara, A. K. (2018). Zoning and Trend Analysis of Temperatures for Fruit Crops in North-West India Using GIS. *International Journal of Current Microbiology and Applied Sciences*, 7(1): 2970-2985. | 5.38 |
| **19.** | Singh, R., Singh, R., Karwasra, S.S., Kumar, A. and Choudhary, D. (2018). Climate Suitability for Karnal Bunt (*Tilletia indica*) Disease of Wheat Crop in Haryana. *Journal of Agrometeorology*, 20(SI -"NASA 2014" part-II):184-187. | 6.56 |
| **20.** | Singh, S., Tiwari, S., Singh, R. and Chate, D.M. (2018). Air pollutants concern in field crops under changing environment scenarios. *Journal of Agrometeorology*, 20 (SI): 302-306. | 6.56 |
| **21.** | Swami, P., Niwas, R., Maharshi, A. and Khichar, M. L. (2018). Association of Weather Variable with Pest Outbreak in Bt-Cotton in the Cotton Belt of North India. *International Journal of Current Microbiology and Applied Sciences*, 6(6): 2125-2137. | 5.38 |
| **22.** | Tiwari, S., Singh, S., Srivastava, A.K., Singh, R., Bisht, D.S. and Attri. S.D. (2018). Significant Contribution of Secondary Aerosols in Fog water over Hisar. *Journal of Agrometeorology*, 20 (SI): 228-234. | 6.56 |
| **23.** | Chhabra, K., Bele, M., Singh, R. and Kumar, A. (2019). Analysis and Correlation among Agronomic and Weather Parameters in Barley (*Hordeum vulgare* L.) Cultivars under Semi-Arid Regions of Haryana, India.*International Journal of Current Microbiology and Applied Sciences*, 8(5): 1497-1505. | 5.38 |
| **24.** | Dahiya, S., Singh, J., Singh, S., Singh, B., Garg, R. and Khedwal, R.S. (2019). Effect of agronomic practices on thermal utilization and heat use efficiency of two rowed malt barley (*Hordeum vulgare* L.) and their relationship with quality parameters. *Journal of Agrometeorology*, 21 (1SI): 167-175. | 6.64 |
| **25.** | Guru Prem, Kumar, R., Kumar, A., Anurag, Singh, U. and Meena, H. N. (2019). Role of Custom Hiring Centers in Implementation of In-situ Crop Residue Management Scheme in Ambala District (Haryana), *Asian Journal of Agricultural Extension, Economics & Sociology*, 34(3): 1-10. | 4.35 |
| **26.** | Khokhar, S., Rolania, K., Singh, G. and Kumar, A. (2019). Influence of prevailing weather parameters on population dynamics of fruit borer, *Helicoverpaarmigera* (Hübner) on tomato in Haryana. *Journal of Agrometeorology*, 21(2): 193-196. | 6.64 |
| **27.** | Kumar, P., Singh, K., Sharma, K. D., Kumar, A. and Tomar A. (2019). Direct and residual effect of phosphorous levels and planting method on productivity, nutrient uptake and plant water relations in mungbean– wheat cropping system. *Legume Research-An Intenational Journal*, 43(1):111-116. | 6.23 |
| **28.** | Leharwan, S., Malik, V.K., Singh, R., Singh, S. and Leharwan, M. (2019). An environmental factor decides the development of mango anthracnose incited by *Colletotrichum glooeosporio* (Penz and Sacc) on the mango cultivars Langra and Dashehari in Haryana. *Journal of Mycology and Plant Pathology*, 49 (2): 111-216. | 5.79 |
| **29.** | Manjeet, Anurag, Niwas, R., Rajeev, Tomar, D., Niwas, R., Bansal, S. K., Khichar, M. L., Rahul and Singh A. (2019). Developing spectral models for regional level wheat yield prediction in Haryana, India. *Journal of Agrometeorology*, 21(1SI): 9-13. | 6.64 |
| **30.** | Rana, M., Singh, K.K., Kumari, N., Sanjay, J., Chaudhary, R., Sharma, G., and Dagar C.S. (2019). Verification and performance evaluation of cordex projected rainfall: A case study of Ambala and Sirsa District, Haryana. *Journal of Agrometeorology*, 21(1SI): 426-250. | 6.64 |
| **31.** | Sahoo J., Dinesh, Bhat, M. A., Anil, A. S. and Anurag (2019). Characterization and classification of soils of selected watershed area of Haryana, North-west India, *IndianJournal Agricultural Sciences*, 89 (11): 1942–7. | 6.23 |
| **32.** | Sharma, S., Yadav, A., Satyavan, Kumar, A., Yadav, D.V. and Pathania, R. (2019). Performance of pearl millet (*Pennisetum glaucum* L.) hybrids and their parents (B and R - lines) under rainfed & irrigated situations. *Journal of Agrometeorology*, 21(1SI): 42-55. | 6.64 |
| **33.** | Sunayana, Sangwan, R. S., Khichar, M. L. and Singh, M. (2019). Weather parameters influencing biochemical constituents in Asiatic cotton (*Gossypium arboreum* L.) under | 6.64 |

| | | |
|---|---|---|
| | different environmental conditions. *Journal of Agrometeorology*, 21(1SI): 160-166. | |
| **34.** | Wasim, M., Mor, V.S., Hemender, Singh, V., Sharma, S., Bhuker, A., Kumar, Y. and Dagar, C. S. (2019). Relationship between weather parameters prevailed during seed development and seed quality of Wheat (*Triticum aestivum* L.). *Journal of Agrometeorology*, 21(1SI): 83-89. | 6.64 |
| **35.** | Chhabra, K., Bele, M., Singh, R. and Kumar, A. (2020). The variations of soil temperature and effects of varying sowing dates and varieties on moisture regime of soil profile of barley in west Haryana conditions. *International Journal of Chemical Studies, 7(3)3224-3228.* | 5.31 |

# Programme - 5

## Master of Business Management

## Ph.D. Agribusiness Management and

## Ph.D. General Management

## 6.4 About the Department:

The Department of Business Management was established in 1996-97 with an objective of producing world class management graduates to take on challenges of corporate world. Presently, the Department is offering two management programmes namely MBA (Agri-business) and MBA (General). The department offers specializations in Agri-business Management, Marketing, Finance and HRM. To produce qualified academicians*viz.* teachers and researchers in addition to Managers; the Department of Business Management has also started Ph. D. (Agri-business) and Ph. D. (General) from session i.e. 2017-18 and 2020-21, respectively. The department has well educated, experienced and dedicated faculty which is ever ready to help students. Besides class room teaching, students are exposed to case studies, group discussions, business games, industrial visits, assignments, presentations, and role playing etc. The department is well-equipped with all modern audio-visual aids like computers, TV, LCD, OHP, etc. Almost all the students are well placed in reputed companies and Public Sector Banks, both Indian and multinationals.

The department has well qualified and experienced faculty having vast experience and international exposure. One of the faculty of the department has been recipient of prestigious Alexander von Humboldt Research Fellowship, Germany.

### Objectives of the Department

### MBA (Agribusiness) and MBA (General)

- To develop business temperament and orientation in students.
- To assist the business world by providing the thoughtful learned and knowledgeable agri-managers of future.
- To cultivate skills of analyzing the complex agribusiness situation among students through case studies and presentations.
- To provide students with practical knowledge about corporate world through seminars, summer training, research projects, industrial tours, presentations, event management opportunities etc.

**6.4.1. Brief History of the Degree Programme:** *Clearly mention in which year the degree program was initiated along with its objective and accomplishments.*

### Accomplishments of MBA programme

- One faculty member is recipient of Alexander von Humboldt Research Fellowship, Germany
- Conducted one summer School to train the faculty of ICAR Institutes and SAUs in 2000.
- Started Agri-clinic/Agri-business scheme of Ministry of Agriculture, Government of India 2002.
- Conducted 4 two months trainings under Agri-clinic/Agri-business scheme of Ministry of Agriculture, Government of India (2002-2004).
- 576 students have passed out till date.
- Four students passed ICAR's AICTE-SRF(PGS) in subject-Agribusiness Management
- Faculty members of the Department have published about 37 research papers/popular articles **(*Annexure BM-1*).**

- Students have published about 23 research papers/popular articles **(*Annexure BM-1*).**
- Faculty has participated in 10 national and 15 International conferences**.**
- Students have participated in 2 national, 8 International and 2 workshops **.**
- Faculty members has conducted 55 trainings and 2 workshops from 2018-2023 **(*Annexure BM-II*).**
- Thirty students got placed during 2018-23 **(*Annexure BM-III*).**
- Four students have qualified JRF exam and three students have cleared NET exam
- Faculty members has delivered 44 lectures in various trainings and workshops from 2018-23.
- Started Ph.D. (Agribusiness Management) from 2017-18.
- Started Ph.D. (General Management) from 2020-21

**6.4.2. Faculty Strength:** *The faculty strength of the Degree Programme need to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of Research staff, extension staff, contractual faculty, guest faculty, adjunct faculty or any other arrangement being made to complete the curriculum, it should be clearly mentioned in the report.*

| S. No. | Sanctioned faculty | In place* | Vacant | Faculty recommended by the ICAR/UGC |
|---|---|---|---|---|
| **1.** | Professor and equivalent (0) | 3 | - | - |
| **2.** | Associate Professor and equivalent (1) | 1** | - | - |
| **3.** | Assistant Professor and equivalent (6) | 6 | - | - |

**Note:** All the Faculty is assigned their responsibilities for the multiple programmes
*The number of Professors/ Associate Professors also includes personal promotes
**Posted at EEI, Nilokheri

**6.4.3. Technical and Supporting Staff:** *The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

| S.No.Designation | Sanctioned | Inplace | Vacant | Technical and supporting staff recommended by the ICAR/UGC |
|---|---|---|---|---|
| 1.**Assistant/Steno/JSS** | 01 | **01** | - | - |
| 2.**Clerk** | 01 | 01 | - | - |
| 3.**Messenger** | 01 | 01 (On contractual) | 01 | - |
| Total | 03 | | - | 03 |

**Note:** All the staff is assigned the responsibilities for the multiple programmes.

**6.4.4 Classrooms and Laboratories:** *Mention the number of classrooms and functional laboratories available for the degree programme and justify if it is sufficient to meet the*

*course curricular requirement. Lists major equipments, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention theory and practical batches for the Degree Programme.*

The department has well established three lecture halls with LCD projector in each room and one seminar room. Every teacher is provided with personal computers. Hence, sufficient numbers of lecture rooms having capacity of forty students and personal computers are there to meet the course curricular requirements.

**List of classroom and functional laboratories**

| **No. of lecture rooms with seating capacity** | **03, Seating capacity about 40 each** |
|---|---|
| No. of lecture rooms with LCD | 03 |
| Seminar room | 01 |

**List of equipment at present available in the department**

| S.No. | Name of equipment | Location |
|---|---|---|
| 1. | Desktop computer (10) | 06 computers in faculty rooms, 03 computers in three lecture rooms no. 2, 3 & 4 and 01 computer in office (Steno) |
| 2. | Printer (Three) | 06 (faculty rooms) and 01(office-steno) |
| 3. | Scanner (one) | 04 Faculty room |
| 4. | LCD projector | Lecture Room No. 2, 3 and 4 |

**Average number of batches with average number of students per batch**

The MBA programme is of two years. During 1st year, department offers 13 courses and there is one theory batch with an average of about 25 students. During 2nd year there are two batches – one is of MBA (Agri-business) and another is of MBA (General). The 2nd year students study 10 courses. The average number of students in case of MBA (Agri-business) is10 and for MBA (General) is 10 students.

For the practical component in MBA programme, all Students go for 6-8 weeks practical summer training in companies after completion of the first year. Students have to present and submit the training report to the Department in the beginning of first semester of second year which is evaluated internally. Industrial training is provided to the students so that they may be capable to implement the subjects practically.

**6.4.5. Conduct of Practical and Hands-on-Training:** *It is important to have a sound grasp of the theory that underlies any professional degree. But there are some skills that can only be learned through hands-on -practice. It is important that much of the learning material in any given course should be provided in a way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hands-on-training as per the curriculum and meeting above mentioned requirements.*

Sound grasp of the theory is important for a professional degree. Some of the skills are acquired through practical and hands-on training. Hence, it is important to provide learning material and opportunities that allow students to get involved in activities that increase their knowledge and skills. The students get hands on training on how the business problems are

resolved by the company and how they get paid. Industrial training enhanced the personal skills including presentation skills. Industrial training fastens the process of transformation from a student to employee. If the student is really smart, the company also gives an offer letter to the students. It also helps the students to connect between what they are doing in the college and what is there in the industry. By the end of the training process, students are turned into professionals in their field of area.

| Course No. | Credit Hours | Practical and Hands-on-training | How far students are getting desired practical and hands-on-training as per the curriculum |
|---|---|---|---|
| **ABM/MGT 595** | S/US | Helps in implementing the theory in to realistic area. Familiarize them with the environment of the companies<br><br>In these hands-on sessions, students develop soft skills and learn how to do team work and collaborate with others, thereby making them employable/industry ready. | • Help the students to increase communication level as well as develop leadership qualities.<br>• Apart from technical skills, industrial training helps them to develop feelings of responsibility, self confidence, excellent work habit and ability to work as part of a team to achieve a common goal.<br>• The students are provided training from the industry professionals who have assortment of knowledge in working in live-projects. |

**6.4.6. Supervision of students in PG/PhD programmes:** *Number of students being supervised by Faculty in case of Masters/Ph. D Programme (as per ICAR/UGC guidelines). Mention the realistic figure number of qualified faculty in relation to the intake of students, as per the guidelines in the matter.*

**Details of MBA programme offered by the Department**

| Year | Number of students on roll | Number of PG faculty | Student-teacher-Ratio |
|---|---|---|---|
| 2018-19 | 19(A)+ 11(G) | 6 | 5.00:1 |
| 2019-20 | 17(A)+16(G) | 7 | 4.71:1 |
| 2020-21 | 27(A)+ 20(G) | 7 | 6.71:1 |
| 2021-22 | 15(A)+10(G) | 7 | 3.57:1 |
| 2022-23 | 20(A)+17(G) | 7 | 5.29:1 |

**Note:** Details of courses offered by the Department are given in *Annexure BM-I*

**6.4.7. Feedback of stakeholders (Students, parents, industries, employers, farmers etc.):** *Mention the feedback mechanism (duly supported by the documents) from different stakeholders of the degree programme. What action the University has taken in last five years to address the issues raised in the feedback?*

There is a system of annual self-appraisal report (SAR) with respect of all teaching faculty. SARs are reviewed by the Deans and Directors for performance appraisal and finally approved by the Vice-Chancellor. The performance of the faculty is also reviewed on the basis of their results, feedback from the students. Students are placed in different institutions for Industrial training. Any suggestions provided by them are incorporated. The stakeholders' feedback on the overall

performance and quality of the institutions is obtained from parents and through interaction with alumni. The teachers get informal feedback from the students based on their parents' observation and suggestions. The feedback, thus is being communicated to faculty and other staff members through meetings and interactions. The different parameters of feedback performa will be the improvement standards for everyone in the future endeavours. Increase in audio-visual aids, smart class rooms and hands on sessions can be seen on the basisi of genuine feedback mechanism.

**6.4.8. Student intake and attrition in the programme for last five years:** *Year wise information on sanctioned strength, actual intake and attrition in the last five years of the Degree Programme in the tabular form, shall be provided.*

| Nameof the Degree Programme | Actual student admitted in last five years | | | | | Attrition (%) | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 |
| MBA (Agribusiness) | 19 | 17 | 27 | 15 | 20 | - | - | 13.3 | - | - |
| MBA (General) | 11 | 16 | 20 | 10 | 17 | 3 | - | - | 3 | 17.6 |
| Ph.D (Agribusiness) | 2 | 5 | 1 | 1 | - | - | - | - | - | - |
| Ph.D (General) | - | -- | 1 | 4 | 1 | - | - | - | - | - |

**6.4.9. ICT Application in Curricula Delivery:** *The ICT is now integral part of the teaching programme. ICAR has also been promoting the use of ICT in teaching and practical. Mention whether the Degree Programme is meeting the expectations. If there is any shortfall, it shall be clearly mentioned.*

The faculty members of Department of Business Management use ICT in teaching. There is one Seminar Room and three class rooms with computer and LCD projector. All faculty members have computers and internet connection in their offices. There is Wi-Fi facility for faculty, staff and students. This infrastructure provides opportunities for the use of ICT in quality teaching and research. Faculty members use power point presentations, YouTube, emails and CD ROM in teaching all courses at MBA.E-mails are also used to give assignments and communication purposes. The faculty is using centralized smart class rooms to deliver special interactive lectures. The various platforms like Google meet, Zoom, Microsoft Team are being used for online lectures as and when required. Students can acess recorded lectures through Google drive if needed.

**6.4.10.** The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and Ph.D. Degree Programmes, separately, and to be presented College-wise.

**6.4.11.** Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weight age for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

**6.4.12.** I, the Dean**, Surender K. Pahuja** hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college and degree awarding university.

**Signature of Dean of the College with Date & Seal**

## TRAININGS CONDUCTED FROM YEAR 2019-2023

**Trainings /Workshops organised:**

1. Department of Business Management, CCSHAU, Hisar, Organized Two days Workshop on "Agripreneurship: Transforming an Idea into a New business" on 28th- 29th November, 2022.

2. Dr. Suman Ghalawat and Mr. Subodh Agarwal organized 8 days Training i.e. 17th February, 2022 to 24th February, 2022, on "Role of Agribusiness in Self Reliance of India" for SC students**.**

3. Department of Business Management, CCSHAU, Hisar, Organized One day Workshop on "Agripreneurship: Transforming An Idea into a New business" on 29th March, 2022.

Sharing Glimpses & Feed back of Workshop **AGRIPRENEURSHIP –TRANSFORMING AN IDEA INTO A NEW BUSNESS** Conceptualised, Designed & Executed by Professor Vivek Kapoor of SSSIHL- Deemed University , Puttaparthi , Andhra Pradesh –for the Business Management , Agri Business Management & Rural Management students of Chaudhary Charan Singh ,Haryana Agricultural University Hisar ,Haryana (CCSHAU) a Premier Agricultural University of India on 29th March 2022 at CCSHAU Hisar ,Haryana

| S.NO. | Name of the training/course conduct at EEI, Nilokherias |
|---|---|
| | **2019** |
| 1. | "Formulation and strengthening of farmer producers company and FPOs" From 23-26 July 2019 |
| 2. | "Marketing and valve chain management for agriculture produces" From 19-23 August 2019 |
| 3. | "Extension strategy for linking farmers to agri-processing industries" From 27-31 August 2019 |
| 4. | "Extension strategy for mainstreaming women in agriculture" From 03-06 September 2019 |
| 5. | "Agriculture video production for social media and web based platforms" From 09-13 September |
| 6. | "Participatory extension approaches for effective technology transfer. From 16-19 September 2019 |
| 7. | "Communication and presentation skills for effective extension management" From 24-27 September 2019 |
| 8. | "Time & stress management skills for better performance" From 04-08 November 2019 |
| 9. | "Knowledge management for agriculture and allied sector" From 13-16 November 2019 |
| 10. | "Communication skill for effective transfer of technology" From 19-22 November 2019 |
| 11. | "Time & stress management for organisational effectiveness" From 02-06 December 2019 |
| 12. | "Monitoring & evaluation of extension programme" From 10-13 December 2019 |
| 13. | "Various tools for women empowerment in agriculture and allied sectors" From 17-21 December 2019 |
| | **2020** |
| 14. | "ICTs and social media application for agriculture extension" From 06-10 January 2020 |
| 15. | "Integrated farming system models: problems and opportunities" From13-17 January 2020 |
| 16. | "Extension of dairy processing technologies for entrepreneurship development" From20-24 January 2020 |
| 17. | "Effective management of extension activities and farmer advisory service" From 28-31 January 2020 |
| 18. | "Documentation, reporting and presentation skills for better organisational management" From 03-07 February 2020 |
| 19. | "Impact assessment & programme evaluation" From 11-14 February 2020 |
| 20. | "Capacity building programme" at Govt,P.G College, Karnal. From 10-14 February 2020 |
| 21. | Extension Strategy for Diversification towards High Generating Enterprise from 24-28 August-2020 at EEI, Nilokheri. |
| 22. | Time and Stress Management for Extension Personnel |
| 23. | Leadership and Team Building for better Extension Management |
| 24. | Work Ethics and Motivational Skills for Better Performance |

## PLACEMENT RECORD OF STUDENTS

### 2018-19

| Sr. No. | Name of Student | Admn No. | Year of Passing | Placement |
|---|---|---|---|---|
| **1.** | Sasikanth.R | 2017A133MBA | 2019 | Associate Consultant, NABARD |
| **2.** | Kartik Choudhary | 2017A138MBA | 2019 | Assistant Manager, AXIS Bank |
| **3.** | Sanjeev Bruwa | 2017A139MBA | 2019 | Assistant Manager, AXIS Bank |
| **4.** | Usha Rani | 2017A155MBA | 2019 | Associate Consultant, NABARD |
| **5.** | Shubham Sharma | 2017A156MBA | 2019 | Associate Consultant, NABARD |
| **6.** | Sweety Ranjan | 2017A134MBA | 2019 | Trainee Marketing National Seed Corporation |

### 2019-20

| Sr. No. | Name of Student | Admn No. | Year of Passing | Placement |
|---|---|---|---|---|
| **1.** | Akshay Kumar | 2018A103MBA | 2020 | Marketing Trainee, BAYER Crop Science |
| **2.** | Arjun Rana | 2018A104MBA | 2020 | Management Trainee, JU Agri. Science |

| | | | | |
|---|---|---|---|---|
| **3.** | Rahul | 2018A111MBA | 2020 | Agriculture Supervisor, Deptt. of Agriculture, Haryana |
| **4.** | Rahul Beniwal | 2018A112MBA | 2020 | Marketing Executive, Adama |
| **5.** | Rahul Yadav | 2018A113MBA | 2020 | Marketing Executive, BAYER Crop Science |
| **6.** | Rakesh Kumar | 2018A114MBA | 2020 | Agriculture Supervisor, Deptt. of Agriculture, Haryana |
| **7.** | Ramandeep Singh | 2018A115MBA | 2020 | Agriculture Supervisor, Deptt. of Agriculture, Haryana |

**2020-21**

| Sr. No. | Name of Student | Admn No. | Year of Passing | Placement |
|---|---|---|---|---|
| **1.** | Devendra Partap | 2019A01MBA | 2021 | Reliance, Retail, Lucknow |
| **2.** | Muthumula Shiva Reddy | 2019A09MBA | 2021 | Reliance Retail, Banglore |
| **3.** | Dharmesh Sharma | 2019A02MBA | 2021 | Reliance Retail, Gurgaon |
| **4.** | KartikSheoran | 2019A05MBA | 2021 | Reliance Retail, Dehradun |
| **5.** | Parveen Gil | 2019A11MBA | 2021 | Reliance Retail, Gurgaon |
| **6.** | Pawan | 2019A27MBA | 2021 | JU, Agri. |
| **7.** | Sagar | 2019A15MBA | 2021 | Sumi Tomo, Chemical Ltd., Mandi |
| **8.** | Sunil | 2019A17MBA | 2021 | Neuglobal Upajvardhak India Ltd. |

**2021-22**

| Sr. No. | Name of Student | Admn No. | Year of Passing | Placement |
|---|---|---|---|---|
| **1.** | Deepak Kumar | 2020A04MBA | 2022 | Mawana Sugars Ltd., Sr. Officer Trainee |
| **2.** | Kumari Supriya | 2020A10MBA | 2022 | Mother Dairy Fruits and Vegetables Pvt. Ltd., Executive Trainee |
| **3.** | Shivender Dhiman | 2020A27MBA | 2022 | Mother Dairy Fruits and Vegetables Pvt. Ltd. , Executive Trainee |
| **4.** | Anand Kumar Singh | 2020A01MBA | 2022 | Mother Dairy Fruits and Vegetables Pvt. Ltd,. Executive Trainee |
| **5.** | Rohit Dhankar | 2020A22MBA | 2022 | Mahindra Agri. Solutions, Sales and Marketing Executive |
| **6.** | Ankit Godara | 2020A40MBA | 2022 | Zydex Industries Private Ltd, Sales Executive |
| **7.** | Himanshu | 2020A07MBA | 2022 | Punjab National Bank, Agriculture Field Officer |
| **8.** | Sachin | 2020A46MBA | 2022 | Mother Dairy Fruits and Vegetables Pvt. Ltd, Executive Trainee |
| **9.** | Mohit | 2020A11MBA | 2022 | Mawana Sugars Ltd.,Sr. Officer Trainee |

# Programme - 6

## M.Sc. Entomology

## and

## Ph.D. Entomology

## About the Department

The Department of Entomology at CCSHAU, Hisar, Haryana was established in the year 1962 while M.Sc. and Ph.D. degree programmes were started in 1965 and 1968, respectively. Till date the department has awarded 326 M.Sc. and 125 Ph.D. degrees. During 2022, 12 M.Sc. and 6 Ph.D. students have got admissions in the Department. Also, Department of Entomology, CCS Haryana Agricultural University, Hisar working as Centre of Advanced Faculty Training (CAFT) under ICAR since 1994 and so far, the centre has organized 35 trainings covering various aspects of entomology *viz*., apiculture, pollinators, insect ecology, insecticide toxicology, host plant resistance, non-insect pests, stored grain pests, pest and pesticide management, biological control, integrated pest management, pest population dynamics and pest monitoring, application of techniques in entomological research, pest damage diagnosis and loss assessment etc. The Department has strength of 32 faculty members who are specialized in various fields such as economic entomology, insecticide toxicology, biological control, apiculture, storage and seed entomology, insect ecology and host plant resistance. Each field of specialization is well equipped with laboratory and field facilities. Besides, the Department has well equipped pesticide residue, biological control, apiculture, insect culture and insect pathology laboratories.

The Department was started during 1962 at Ludhiana and budget was transferred to Hisar Campus on 4.10.68. Currently four schemes are running in the department i.e. one state scheme of Management of Harmful and Beneficial Insects for Sustainable Agriculture in Haryana (Dte-R-1-Agri(A)-1140), Two ICAR Research schemes of All India Coordinated Research Project on Honey Bees and Pollinators (C(b)Ento.3 ICAR) and All India Net Work Project on Pesticide Residue (C(b)Ento.7 ICAR) and Teaching scheme (T-1 Agri (A) State Code No. 1051).

## Objectives of the Department

- Utilization of biocontrol agents for management of major insect-pests.
- Monitoring of population and bio-ecological studies on important insect-pests, mites and natural enemies.
- Population dynamics of important insect-pests in the field.
- Correlation between insect populations and environmental factors.
- Forecasting of pests on the basis of studies made under above points
- Development of management technology for key pests.
- To conduct research on honey bees, bees and other pollinators; generate technologies for their conservation, augmentation and utilization for pollination of crops in improving crop productivity.
- To undertake research on honey bee breeding for disease resistance and high yielding strains for higher production of quality hive products.
- To conduct location specific research on management of honey bees, bees and their diseases and enemies.
- To prepare database on relative abundance, foraging behaviour of different pollinators on various crops and study pollination requirements of crops.
- To organize and impart trainers training on bee pollinators and scientific beekeeping.
- To organize, promote and coordinate research on pesticide residues in agricultural produce and other components of environment at all India level.
- To study the dissipation of pesticides in crops from supervised trials with recommended pesticides and workout safe time limits between pesticide's application and consumption of the produce.

- To devise and improve sampling extraction and analytical technology to facilitate quality assurance for ensuring reliability of residue data.
- To examine the effect of processing of food commodities for removal/reduction of pesticide residues.
- To maintain up to date information on pesticide residues and to provide guidelines to research and extension workers in the country.

### 6.4.1 Brief History of the Degree Programme :

The M.Sc. & Ph.D. programmes were started in the year 1965 and 1968, respectively in the Department. Till date, 326 M.Sc. and 125 Ph.D. students have completed their degrees. Students enrolled in M.Sc. & Ph.D. programmes have been given research problems related to insect-pests infesting crops of State's importance for their thesis work. Post-graduate students conduct research work based on various aspects of Entomology *viz.*, Ecological studies; Insect physiology; Insect morphology; Insect pathology; Toxicology; Insecticide Residue Analysis; Screening of Varieties/Germplasm and Bio-control of insect-pests and organic farming.

| | |
|---|---|
| **Objectives of initiating M.Sc.** | • Produce well qualified and competent graduates having strong theoretical knowledge, practical skills and attitude to undertake training, research and extension/service in entomology and related fields.<br>• Generate technologies and knowledge in different fields of entomology that would help improve the management of agricultural pests and insect vectors<br>• Identify the economic importance of insect-pests and come up with appropriate methods of management of these pests. |
| **Accomplishments of M.Sc. programme** | • Till date the Department of Entomology has conferred degree to 326 M.Sc. Students. During the period under report, 51 students have completed their Master's degree. At present 22 M.Sc. students are on roll.<br>• Twenty students passed National Eligibility Test (NET) conducted by the Agricultural Scientists Recruitment Board (ASRB) during the period under report.<br>• During the period under report, four students have joined as Agricultural Officer/PO in Public Sector Bank; Six students have joined Asstt. Scientist/SMS/TA/HDO/ADO and Four joined private sector. |
| **Objectives of initiating Ph.D. programme** | • Produce well qualified and competent graduates having strong theoretical knowledge, practical skills and attitude to undertake training, research and extension/service in entomology and related fields.<br>• Generate technologies and knowledge in different fields of entomology that would help improve the management of agricultural pests and insect vectors<br>• Identify the economic importance of insect-pests and come up with appropriate methods of management of these pests |
| **Accomplishments of Ph. D. programme** | • Till date the Department of Entomology has conferred degree to 125 Ph.D. students. During the period under report, 28 students have completed their Doctorate degree. At present 24 Ph.D. students are on roll.<br>• Eighteen students passed National Eligibility Test (NET) conducted by the Agricultural Scientists Recruitment Board (ASRB) during the period under report.<br>• Three students got best thesis award.<br>• During the period under report, thirteen students have joined as Asstt. Scientist/TA/STA/SMS and Five students joined private sector.<br>**Note:** List of students publications is given in *Annexure ENT- I* |

| | |
|---|---|
| | **Note:** List of placement of students is given in *Annexure ENT- III*<br>**Note:** List of NET qualified students is given in *Annexure ENT- IV*<br>**Note:** Different activities during 2018-2023 is given in *Annexure ENT- V* |

| **Degree Programme offered by the Deptt** | **Specialization** | **Year of start** | **No. of seats** | | | | | | **No. of students passed out** | | | | | |

**6.4.2 Faculty Strength:** *The faculty strength of the Degree Programme need to be given cadre-wise, both sanctioned and in-place (under the table mentioned below). Clearly mention the number of permanent faculty appointed for the Degree Programme, part time faculty being deputed from the other departments (in such case mention the name of these departments). If the Degree Programme is also taking the help of Research staff, extension staff, contractual faculty, guest faculty, adjunct faculty or any other arrangement being made to complete the curriculum, it should be clearly mentioned in the report.*

| **S. No.** | **Sanctioned faculty** | **In place*** | **Vacant** | **Faculty recommended by the ICAR/UGC** |
|---|---|---|---|---|
| **1.** | Professor and equivalent (0) | 4* | - | - |
| **2.** | Associate Professor and equivalent (6) | 2* | 4 | 1 |
| **3.** | Assistant Professor and equivalent (41) | 26 | 11 | 2 |

**Note:** All the Faculty members are assigned the responsibilities for the multiple programmes

*No. of Professor/Assoc. Prof. also include personal promotes

**6.4.3 Technical and Supporting staff:** *The position of the technical and supporting staff of the Degree programme including farm and field workers need to be mentioned for both sanctioned and in-place.*

| **S. No.** | **Designation** | **Sanctioned** | **In place** | **Vacant** | **Technical and supporting staff recommended by the ICAR/UGC** |
|---|---|---|---|---|---|
| **1** | Assistant | 1 | - | 1 | - |
| | PA/Steno | 1 | - | 1 | - |
| | Messenger | 1 | - | 1 | - |
| **2.** | Lab staff | | | | - |
| | Lab Assistant+SLA | 10 | 4 | 6 | - |
| | Any other | - | 1 | - | - |
| **3.** | Field staff | - | - | - | - |
| | Beldar | 5 | 2 | 3 | - |

**Note:** All the technical and supporting staff has been assigned the responsibilities for the multiple programmes.

**6.4.4 Classrooms and Laboratories :** *Mention the number of class rooms and functional laboratories available for the degree programme and justify if it is sufficient to meet the*

*course curricula requirement. Lists major equipments, laboratories, farm facilities, workshops and other instructional units being utilized for the award of the Degree Programme may be given. Mention theory and practical batches for the Degree Programme.*

## List of classroom and functional laboratories

| | |
|---|---|
| No. of lecture rooms with sitting capacity | • Two with seating capacity of 70 each with projector for ppt presentations |
| No. of labs with specialized purpose | • One Post-Graduate Laboratory for conducting practical of PG courses.<br>• One Insect Culture Laboratory for maintaining the cultures of Insects.<br>• One Biocontrol Laboratory for conducting experiments on Biocontrol of Insect-pests.<br>• One Insect Pathology Laboratory.<br>• One Pesticide Residue Laboratory for residue analysis in plants /plant parts. |
| Farm facilities | Yes |
| Any other instructional units being utilized for the award of the Degree Programme | Apicultural Laboratory and Apiary with hive boxes, bee veil, Hive tool, hive frames, comb foundation mill, honey extraction machine and all other beekeeping equipments required for the teaching/research of PG students. |

## List of major equipments at present in the Department

| S. No. | Name of equipment | Location/Lab |
|---|---|---|
| 1. | Sony SLR camera | Honeybee Lab. |
| 2. | Oxygen trap | Lab. No. 133 |
| 3. | Blixer 6 KVA | |
| 4. | Whirlpool AC-2 | |
| 5. | NSW-134 Chiller | |
| 6. | Electronic Balance (180g) | |
| 7. | GCMS QP 2010 Plus | |
| 8. | GC 2010 with ECD and FTD | Lab. No. 134 |
| 9. | Muffle furnace | Lab. No. 142 |
| 10. | Deep Freezer | |
| 11. | Rotary Evaporator | |
| 12. | Refrigerator | |
| 13. | Homogenizer (Low volume) | |
| 14. | Weighing Balance (6000g) | |
| 15. | Soxhlet Apparatus | |
| 16. | Centrifuge | |
| 17. | Homogenizer (high volume) | |

| | | |
|---|---|---|
| 18. | Hot air oven | |
| 19. | Separating Funnel Shaker DDP | |
| 20. | Electronic Balance (410g) | |
| 21. | Chilled Water Circulating device | |
| 22. | Vacuum Pump | |
| 23. | Multimedia project Sony-2 | Lab. No. 135 & L.R. No. 6 |
| 24. | Electronic balance-2 | Lab. No. 135 |
| 25. | Potter Tower | Lab No. 131 |
| 26. | Magnus zoom stereoscope trinocular microscope | Lab. No. 73 |
| 27. | Ziess Stereo Zoom Bionocular Microscope | |
| 28. | BOD incubator-1 | |
| 29. | Hot air oven, Hot plate | |
| 30. | Remi incubator-2 | Lab. No. 136 |
| 31. | Centrifuge with 2 roters | |
| 32. | Microscope with accessories | |
| 33. | Hot air oven | |
| 34. | Autoclave vertical | |
| 35. | Refrigerator Samsung | |
| 36. | Microwave oven | |
| 37. | Laminar Flow | |
| 38. | Humidifire | |
| 39. | Balance | |
| 40. | Digital magnetic hot plate | |
| 41. | Distillation unit | |
| 42. | Weighing Balance | Lab. No. 132 |
| 43. | Spectrophotometer | |
| 44. | Computer | |

**Theory and practical batches**

- At UG level, the department of Entomology offers 3 core and 5 professional elective courses (up to 2019), of which all the courses had practical components. Since, 2019 onwards Beekeeping module is being taught to students during final year of B.Sc. (Hons.) Agri.
- For theory in core courses, from 1st Sem to 5$^{th}$ Sem there are two batches with an average of about 55-60 students in each batch.
- For theory and Practical in professional elective courses during 6$^{th}$ Sem and 7$^{th}$ Sem, there is one batch with an average of about 10-17 students per batch in each elective courses.

- For practical in core courses, from 1st Sem to 5th Sem there are four batches with an average of about 27-30 students in each batch.
- At M.Sc level, the department of Entomology offers 20 courses and 18 courses have practical components. There are limited seats in M.Sc. programme with an average of 10-12 students. Some courses are offered as minor courses for students of other departments. There is only one batch for theory classes and one batch for practical classes in all the courses with an average of 10-12 students.
- Similarly, at Ph.D. level there are limited seats in Ph.D. programmes. Hence, there is only one batch for theory classes and one batch for practical classes in all the courses. For Ph.D., the department of Entomology offers 13 courses and 9 courses has practical components.

**6.4.5 Conduct of Practical and Hands-on-Training:** *It is important to have a sound grasp of the theory that underlies any professional degree. But there are some skills that can only be learned through hands-on -practice. It is important that much of the learning material in any given course should be provided in a way that allows students to get as involved as possible to increase their knowledge and abilities. Clearly mention how far students are getting desired practical and hands-on-training as per the curriculum and meeting above mentioned requirements.*

The Department of Entomology offers 3 core and 5 professional elective courses/beekeeping module and all the courses have practical components to provide practical skills and hands-on-training. The Department offers 20 courses at Masters level. Out of 20 courses 18 courses provide practical skills and hands-on-training. Similarly, the Department offers 13 courses at Doctoral level. Out of these 9 courses provide practical skills to Ph.D. students. Beside imparting theoretical knowledge, students are provided practical skills and hands-on-training as per the curriculum requirements.

**I st semester**

| Course No. | Credit hrs | Course title | Practical and Hands- on-training | How far students are getting desired practical and hands-on-training as per the curriculum (bullet form) |
|---|---|---|---|---|
| **PG Courses** | | | | |
| **Ent. 501** | 1+1 | Insect Morphology | Study of insect segmentation, various tagmata and their appendages; preparation of permanent mounts of different body parts and their appendages of taxonomic importance including male and female genitalia. Sense organs. | • Students prepare the permanent mounts of different body parts and their appendages of taxonomic importance including male and female genitalia. Sense organs. |
| **Ent. 505** | 1+1 | Insect Ecology | Types of distributions of organisms. Methods of sampling insects, estimation of densities of insects and understanding the distribution parameters- Measures of central tendencies, Poisson Distribution, Negative Binomial Distribution. Determination of | • Students learn to collect the samples of insects, estimation of densities of insects and understanding their distribution in the field.<br>• Students learn to assess prey-predator densities from natural systems for understanding the |

| | | | | |
|---|---|---|---|---|
| | | | optimal sample size. Learning to fit basic population growth models and testing the goodness of fit. Fitting Hollings Disc equation, Assessment of prey-predator densities from natural systems and understanding the correlation between the two. Assessing and describing niche of some insects of a single guild. Calculation of niche breadth, activity breadth and diagramatic representation of niches of organisms. Calculation of some diversity indices- Shannon s, Simpson s and Avalanche Index and understanding their associations and parameters that affect their values. Problem solving in ecology. Field visits to understand different ecosystems and to study insect occurrence in these systems. | correlation between the two.<br>• Field visits done by students to understand different ecosystems and to study insect occurrence in these systems. |
| **Ent. 507** | 1+1 | Biological Control of Crop Pests and Weeds | Identification of common natural enemies of crop pests (parasitoids, predators, microbes) and weed killers. Visits (only where logistically feasible) to bio-control laboratories to learn rearing and mass production of egg, egg-larval, larval, larval-pupal and pupal parasitoids, common predators, microbes and their laboratory hosts, phytophagous natural enemies of weeds. Field collection of parasitoids and predators. Hands-on training in culturing, identification of common insect pathogens. Quality control and registration standards for bio-control agents. | • Studentrs visits (only where logistically feasible) to different bio-control laboratories to learn rearing and mass production of egg, egg-larval, larval, larval-pupal and pupal parasitoids, common predators, microbes and their laboratory hosts, phytophagous natural enemies of weeds.<br>• Field collection of parasitoids and predators done by students.<br>• Students do hands-on training in culturing, identification of common insect pathogens, quality control and registration standards for biocontrol agents. |
| **Ent. 509** | 1+1 | Plant Resistance to Insects | Screening techniques for measuring resistance; measurement of plant characters and working out their correlations with plant resistance; testing of resistance in important crops; bioassay of plant extracts of susceptible/resistant varieties; demonstration of antibiosis, tolerance and antixenosis. | • Students learn the screening techniques for measuring resistance; measurement of plant characters and working out their correlations with plant resistance.<br>• Bioassay of plant extracts of susceptible/resistant varieties; demonstration of antibiosis, tolerance and antixenosis. |
| **Ent. 510/ Nema.51** | 1+1 | Principles of | Characterization of agro-ecosystems; demonstration of plant | • Visit of students in fields are done for demonstration of plant |

| | | | | |
|---|---|---|---|---|
| **2** | | Integrated Pest Management | resistance in important crops; crop loss assessment- direct losses, indirect losses, potential losses, avoidable losses, unavoidable losses. Computation of EIL and ETL; crop modeling; designing and implementing IPM system. | resistance mechanism in important crops.<br>• Crop loss assessment done for- direct losses, indirect losses, potential losses, avoidable losses and unavoidable losses.<br>• Computation of EIL and ETL; crop modeling; designing and implementing IPM system done by students. |
| **Ent. 511** | 1+1 | Pests of Field Crops | Systematic position, identification, distribution, host-range, bionomics, nature and extent of damage, seasonal abundance and management of insect and mite pests and vectors. Insect pests of cereals and millets and their management. Polyphagous pests: grasshoppers, locusts, termites, white grubs, hairy caterpillars, and non-insect pests (mites, birds, rodents, snails, slugs etc.). | • Regular field visits done by students for identification and collection of important insect-pests and their natural enemies; learning of life history of important insect pests. |
| **Ent. 512** | 1+1 | Pests of Horticultural and Plantation Crops | Collection and identification of important pests and their natural enemies on different vegetables, ornamentals and plantation crops; study of life history of important insect pests. | • Students learn about life history of important insect pests and non-insect pests; collection and identification of important pests and their natural enemies on different crops |
| **Ent. 516** | 1+1 | Soil Arthropods & their Management | Sampling, extraction methods and identification of various types of soil fauna; estimation and assessment of soil arthropod population; techniques and culturing soil invertebrates. | • Students learn techniques to estimate and assess soil arthropod population and culturing soil invertebrates<br>• Sampling, extraction methodsof various types of soil fauna and their identification is done by students. |
| **Ent. 519** | 1+1 | Commercial Entomology | Apiculture-General colony management during different seasons. Managing colonies for honey production and pollination. Artificial queen rearing. Pests and diseases of honey bees. Bee poisoning. Production and marketing of quality honey and value added honey products. Establishment and maintenance of apiaries Visit to poultry units and assessing pest status in poultries. Evaluation of commercially | • Students assess pest status in dwellings (labs, canteen or hostel).<br>• Students learn to implement different methods of pest control against house hold pests (flies, mosquitoes, bed bugs, cockroaches and rodents). Pre- and post-construction termite proofing methods, control of silverfishes in the libraryare also done by |

| | | | | |
|---|---|---|---|---|
| | | | available domestic insect pest control products through bioassays. Identification of honey bee species, bee castes and special adaptations, identification and handling of bee-keeping equipments. Handling of honey bees-hive and frame inspection. Extraction and processing of hive products. Preparation of bee-keeping projects for funding. Visit to commercial apiaries. Silkworm rearing and management. Lac host and crop management technology and processing of lac. Products and bye-products of lac. | students.<br>• Evaluation of commercially available domestic insect pest control products through bioassays done by students.<br>• Studentsidentify different honey bee species, bee castes and special adaptations, identification and handling of bee-keeping equipments, honey bees-hive and frame inspection procedures.<br>• Methods of extraction and processing of hive products learned by students along with visit to commercial apiaries. |
| **Ent. 591** | 1 | Master's Seminar | Master'sSeminar | • Students presentation skills and confidence are developed. |
| **Ent. 601** | 1+2 | Advanced Insect Systematics | Study of different views on the evolution of insects- alternative phylogenies of insects: Kukalova Peck and Kristensen. Fossil insects and evolution of insect diversity over geological times. Detailed study of International Code of Zoological Nomenclature, including appendices to ICZN-Ethics. Concept of Phylocode and alternative naming systems for animals. A detailed study of selected representatives of taxonomic publications - small publicationsof species descriptions, revisionary works, monographs, check lists, faunal volumes, etc. Rooting and character polarisation for developing cladograms and use of computer programmes to develop cladograms. | • Students learn about to search literature of one taxon of insects and their collection, curation and compilation of a checklist along with study of characters and development of character table, construction of taxonomic keys for the selected group.<br>• Students develop diagrams, photographs and descriptions of a taxon.<br>• Students prepare specimens for type like preservation.<br>• Studentslearn multivariate analysis techniques for clustering specimens into different taxa, and development of phenograms. |
| **Ent. 602** | 1+1 | Immature Stages of Insects | Types of immature stages; their collection, rearing and preservation. Identification of immature insects to orders and families, in endopterygote orders viz., Diptera, Lepidoptera, Hymenoptera and Coleoptera using key. | • Students learn about collection, rearing and preservation of immature stages of insects of different orders and families, in endopterygote orders viz., Diptera, Lepidoptera, Hymenoptera and Coleoptera using key. |

| | | | | |
|---|---|---|---|---|
| **Ent. 605** | 1+1 | Insect Behaviour | Defining Behaviour- Concept of Umwelt, instinct, fixed action patterns, imprinting, complex behaviour, inducted behaviour, learnt behaviour and motivation. History of Ethology- development of behaviorism and ethology, contribution of Darwin, Frisch, Tinbergen and Lorenz; Studying behaviour- Proximate and Ultimate approaches, behavioural traits under natural selection, genetic control of behaviour and behavioural polymorphism. Evaluation of different types of traps against fruit flies with respect to signals; Use of honey bees/*Helicoverpaarmigera* to understand behavioural polymorphism with respect to learning and response to pheromone mixtures, respectively. | • Students learn various methods to understand the behaviour of honeybees through analysing quantitative parameters like; foraging rate, speed, pollination index etc.<br>• Model of sensory adaptation and habituation in a fly or butterfly developed by students.<br>• Students study the response of physical, chemical, odour cues used in host selection in a phytophagous insect (DBM or gram pod borer).<br>• Model of colour discrimination in honey bee or butterfly, learning and memory in bees, role of self-organization in resource tracking by honeybees developed by students.<br>• Students evaluate different types of traps against fruit flies with respect to signals.<br>• Students learn the response of pheromone mixtures to understand behavioural polymorphism using honey bees /*Helicoverpa armigera* response to pheromone mixtures. |
| **Ent. 599** | 20 | Master Research | Master Research | • Students use practical knowledge in areas of Entomology.<br>• Students learn to take research observations / data and analyze them statistically. |

**2nd semester**

| Course No. | Credit Hrs. | Course title | Practical and Hands- on-training | How far students are getting desired practical and hands-on-training as per the curriculum |
|---|---|---|---|---|
| **PG Courses** | | | | |
| **Ent. 502** | 2+1 | Insect Anatomy, Physiology and Nutrition | To study the scope and importance of insect anatomy and physiology; determination of chitin in insect cuticle; examination of | • Students learn about the dissection of insects to study comparative anatomical details.<br>• Students prepare permanent |

| | | | | |
|---|---|---|---|---|
| | | | insect haemocytes; determination of respiratory quotient; preparation and evaluation of various diets; consumption, utilization and digestion of natural and artificial diets. | mounts of internal systems.<br>• Students do chromatographic analysis of free amino acids of haemolymph.<br>• Students dostudy of chitin in insect cuticle.<br>• Students prepare and evaluate the impact of various diets; natural and artificial diets on insect growth and development. |
| **Ent. 504** | 2+1 | Classification of Insects | Distinguishing characters, general biology, habits and habitats of Insect orders and economically important families contained in them using taxonomic keys. Keying out families of insects of different major Orders: Odonata, Orthoptera, Blattodea, Mantodea, 133 Isoptera, Hemiptera, Thysanoptera, Phthiraptera, Neuroptera, Coleoptera, Diptera, Lepidoptera and Hymenoptera. Field visits to collect insects of different orders. | • Students visit fields and collect insects of different orders.<br>• Students run identification key of families of major insect Orders: Odonata, Orthoptera, Blattodea, Mantodea, Isoptera, Hemiptera, Thysanoptera, Phthiraptera, Neuroptera, Coleoptera, Diptera, Lepidoptera and Hymenoptera. |
| **Ent. 506** | 1+1 | Insect Pathology | To study the epizootiology, symptomatology and etiology of diseases caused by the bacteria, fungi, viruses, protozoa, rickettsiae, spiroplasma and nematodes and the factors controlling these. Defense mechanisms in insects against pathogens. different groups of pathogens. Testing Koch s postulates. Estimation of pathogen load. Extraction of pathogens from live organisms and soil. | • Students got acquainted about equipments used in insect pathology laboratory.<br>• Identification of different group of insect pathogens and symptoms of infection acquinted by students.<br>• Isolation, culturing and testing of pathogenicity of pathogens done by students.<br>• Students learn about testing Koch's postulates along with estimation of pathogen load.<br>• Students extract pathogens from live organisms and soils then do bioassays to determine median lethal doses ($LC_{50}$). |

| | | | | |
|---|---|---|---|---|
| **Ent. 508** | 2+1 | Toxicology of Insecticides | Classification of insecticides and acaricides based on mode of entry, mode of action and chemical nature. Structure and mode of action of organo-chlorines, organophosphates, carbamates, pyrethroids, tertiary amines, neonicotinoids, oxadiazines, phenyl pyrozoles, insect growth regulators, microbials, botanicals, new promising compounds, etc. Evaluation of insecticide toxicity; joint action of insecticides- synergism, potentiation and antagonism; factors affecting toxicity of insecticides; insecticide compatibility, selectivity and phytotoxicity. | • Students made familiarized with insecticide formulations and mixtures; quality control of pesticide formulations.<br>• Students learn to evaluate the bioefficacy of different insecticides under laboratory and field conditions.<br>• Students learn bioassay techniques, probit analysis and insecticide toxicity.<br>• Students learnto use pesticide appliances and work out doses and concentrations of pesticides.<br>• Visit to toxicology laboratories and good laboratory practices (GLP) also learned by students. |
| **Ent. 513** | 1+1 | Storage Entomology | Post-harvest losses in toto vis-à-vis total production of food grains in India. Scientific and socio-economic factors responsible for grain losses. estimation of losses in stored food grains; determination of moisture content in stored food grains; familiarization of storage structures, demonstration of preventive and curative measures including fumigation techniques; treatment of packing materials and their effect on seed quality. | • Students learn to collec tand identify stored grains/seed insect pests and their nature of damage.<br>• Students learn to detect insect infestation and estimate losses in stored food grains.<br>• Estimation of moisture content in stored food grains also learned by students.<br>• Students made familiarized with storage structures, demonstration of preventive and curative measures including fumigation techniques.<br>• Students learn treatment of packing materials and their effect on seed quality.<br>• Visit to central warehouses, FCI warehouses and institutions engaged in research or practice of grain storage like CFTRI, IGSMRI, Hapur etc. done by students (only where logistically feasible). |

| | | | | |
|---|---|---|---|---|
| **Ent. 514/ Pl. Path. 514** | 1+1 | Insect Vectors of Plant Viruses and other Pathogens | Important insect vectors and their characteristics; mouth parts and feeding processes of important insect vectors. Efficiency of transmission<br>To study the transmission of plant viruses and fungal pathogens. Relation between viruses and their vectors. | • Students learn to identify, culturing and handlingof common vectors of plant pathogens e.g. aphids, leafhoppers, whiteflies, thrips, beetles, nematodes etc.<br>• Demonstration of virus transmission through vectors-aphids, leafhoppers and whiteflies practiced by students. |
| **Ent.518** | 0+1 | Techniques in Plant Protection | To study the pest control equipments, principles, operation, maintenance, selection, application of pesticides and biocontrol agents, seed dressing, soaking, root-dip treatment, dusting, spraying, application through irrigation water.<br>To acquaint the students with appropriate use of plant protection equipmentsand techniques related to microscopoy, computation, pest forecasting,electrophoresis etc. | • Familiarization of students with appropriate use of plant protection equipments<br>• Tchniques related to microscopoy, computation, pest forecasting, electrophoresis etc. learned by students. |
| **Ent. 606** | 1+1 | Recent Trends in Biological Control | Scope of classical biological control and augmentative biocontrol; introduction and handling of natural enemies; nutrition of entomophagous insects and their hosts, dynamics of biocontrol agents vis-à-vis target pest populations.Mass culturing techniques, insectary facilities and equipments, basic standardsof insectary, viable mass-production unit, designs, precautions, good insectary practices.<br>Colonization, techniques of release of natural enemies, recovery evaluation, conservation and augmentation of natural enemies, survivorship analysis and ecological | • Mass rearing and release of some commonly occurring indigenous natural enemies;assessment of role of natural enemies in reducing pest populations; testing side effects ofpesticides on natural enemies; effect of semiochemicals on natural enemies; breeding of various biocontrol agents; performance of efficiency analyses on target pests; projectdocument preparation for establishing a viable mass-production unit /insectary learned by students. |
