

NATIONAL INCUBATORS COLLOQUIUM

JANUARY 15-16, 2020

AGRI BUSINESS INCUBATION CENTRE

**Chaudhary Charan Singh
Haryana Agricultural University, Hisar**

Agri Business Incubation Centre

Agri Business Incubation Centre (ABIC) is an initiative of CCSHAU, Hisar supported by National Bank for Agriculture and Rural Development (NABARD)

The Centre provides guidance, technology and infrastructure to prospective- entrepreneur for start-ups in different areas of agriculture and its allied field for speedy commercialization of technology developed and help in building wealth for the startups and to small and medium entrepreneurs resulting in economic development of the state

The agriculture and allied sector continues to be pivotal to the sustainable growth and development of the Indian economy. CCS Haryana Agricultural University is imparting education in agriculture and allied sciences with expertise in each and every agri-allied sector like quality assurance, marketing and development of technologies in areas related to production and protection of different crops, new varieties, farm management, organic & precision farming, floriculture, mushroom production, tissue culture, nursery raising, apiculture, post harvest management, food processing and engineering aspects etc.

CONCEPT

An active start-up ecosystem is crucial for supporting innovative enterprises. During the last decade new entrepreneurs who do not belong to traditional business communities have begun to emerge in large numbers. Youth creativity and innovation are becoming increasingly important for the development of the 21st century knowledge society. Globally, best start-up ecosystems are built around academia, industry, government and even civil society plays critical role in enabling a conducive environment. Various initiatives such as, the Start-up India, Stand-up India, Digital India and Skill India, have brought India on the world map, by making India the 3rd largest country for start-ups ecosystem and 3rd largest start-up market after the US and the UK.

Entrepreneurship is one of the best solutions for solving the problem of unemployment, in India. Even the Government and Non-Government agencies are doing their best to promote Entrepreneurship. It is realized that most of the unemployed educated youth have innovative ideas but they lack in expertise and infrastructure facilities for starting business unit in agriculture and allied disciplines.

Moreover, their lack of know-how about technologies, quality assurance & certification procedures and their implementation is a huge bottleneck, hence they aspire to acquire new skill sets and gain hands-on experience on technology usage. The Nation's youth need hand holding and support to emerge as confident and skilled entrepreneurs in agriculture & allied sectors.

Foundation Stone of ABIC

NABARD Chairman Harsh Kumar Bhanwala laid the foundation stone for Agri Business Incubation Centre (ABIC) in CCS Haryana Agricultural University, Hisar on February 2, 2018. The ABIC at HAU is among the first two centres funded by NABARD anywhere in the country, the other being in Madurai district of Tamil Nadu. NABARD has sanctioned a grant assistance of Rs 11.75 crore towards the capital and recurring expenditure of this centres.

Further ABIC has been strengthened by RKVY Scheme of Govt. of India, Ministry of Agriculture & Farmers' Welfare with an amount of Rs. 2.33 crore.

National Incubators Colloquium

-  Aim: To facilitate networking with professional resources which include mentors, experts, consultants and advisors for incubators.
-  Using an interactive format and thinking across national context, it will be an effort to collaboratively identify factors for successful research and open opportunities for future work. Further it will help to promote entrepreneurship and cultural change in agriculture sector and will explore business, marketing linkages, technology and financial tie-ups and partnership opportunities
-  Provision of continuous handholding support in terms of capacity building, knowledge dissemination, business development, marketing etc by ABIC and other business incubators and accelerators will benefit our budding entrepreneurs and provide the critically needed services for their success

Major Focus of National Incubators Colloquium

The initial success and experience gained needs to be strengthened and expanded into a nation-wide network of agribusiness incubators

This National Incubators colloquium will help to facilitate networking with professional re-sources, which include mentors, experts, consultants and advisors for the incubators

Further it will help to promote entrepreneurship and cultural change in agriculture sector

Broad Themes of the Colloquium

-  Enabling and Sustaining Agribusiness Ecosystems for fostering innovations and Start-ups
-  Intellectual Property strategies for academia, Mind to Market efforts in Agribusiness
-  Promoting Innovations and Start-ups, policy, pedagogies and implications
-  Early stage funding and allied facets for financing start-ups and innvation
