## **DIRECTORATE OF EXTENSION EDUCATION**

Extension education is one of the three major functions (Teaching, Research & Extension) of the CCS Haryana Agricultural University, Hisar. The responsibility for planning, organizing, conducting and coordinating the extension education activities of the university in the Haryana State lies with the Directorate of Extension Education. The role of the Directorate is two-fold, i.e., transfer of technologies from scientists to the ultimate clients (farmers) through field functionaries and to pass on the field problems to various research departments for extracting their solution. An excellent collaboration is maintained with various department of the Haryana State i.e. Agriculture, Horticulture, Animal Husbandry, Department of Social Welfare etc. and non-government organization so that technologies may reach to the beneficiaries at their door steps.

## **SAINA NEHWAL INSTITUTE OF AGRICULTURAL TECHNOLOGY TRAINING AND EDUCATION**

Saina Nehwal Institute of Agricultural Technology, Training and Education (SNIATTE), is one of the three major wings (ATIC, Publication & Training) of the Directorate of Extension Education, CCS Haryana Agricultural University, Hisar responsible for imparting training to various clientele. Its main aim is to transfer the well proven/tested technologies to the farmers, rural youth, and field staff of State Agriculture Department. The institute has also started Skill Development Courses in Agriculture and allied sectors. Haryana Skill Development Mission (HSDM) has also sanctioned trainings in various job roles viz. Gardener, floriculture, Tractor operator, Micro irrigation technician. National Skill Development Corporation (NSDC) has also sanctioned Recognition of Prior Learning (RPL) programme on Bee Keeper and Mushroom Grower under PMKVY 2.0. Due to increasing spread of the covid-19, the SNIATTE is conducting online trainings in various sectors through online platform ZOOM/Google Meet. CCSHAU, Hisar is taking all preventive measures in the university campus as suggested by the GOI and state government to prevent spread of COVID- 19.

## **IDP-NAHEP-CCSHAU**

CCSHAU, Hisar has been awarded the ICAR-NAHEP project entitled “Strengthening Institutional Capacity to Produce Skilled Professional for Market Driven Agriculture” funded by World Bank and GoI with worth of Rs. 24.83 crores in F.Y. 2017-18 under Institutional Development Plans (IDP) of National Agricultural Higher Education Project (NAHEP).

## **ABOUT WEBINAR**

Vegetable production provides a promising economic opportunity for reducing rural poverty and unemployment in developing countries and is a key component of farm diversification strategies. For higher vegetable production quality seedling production is mandatory and that can be achieved through different innovative techniques like in protected structures. Vegetables are mankind's most affordable source of vitamins and minerals needed for good health and all these beneficial elements one can obtain at its home by managing kitchen garden for vegetables. All these activities can be achieved under protected cultivation. So, keeping this in view, webinar on “Protected cultivation of vegetables to enhance farmer’s income” is planned.

## PROGRAMME

Time	Topic	Resource Person
<b>17.12.2020</b>
