

1. High Performance Liquid Chromatography (HPLC)

Model: 1260 Infinity II LC Systems (Agilent Technologies)

Applications:

1. Residue analysis of agrochemicals such as insecticides, herbicides, rodenticides etc. in plant, soil, water and agricultural products.
2. Pharmaceuticals quantification in water and food stuffs.
3. Water quality monitoring.
4. Pre-concentration of trace components.
5. Ligand-exchange and Ion-exchange chromatography (proteins).
